

European Intelligence.

The Steamer America arrived at Halifax, on Thursday morning, bringing 51 passengers, partially freighted.

The Pacific arrived at Liverpool on the 7th.

The "E. Y." put back to Liverpool—all the passengers and 4 seamen drowned.

The four mediating Powers have returned joint action in favour of peace, and are determined to maintain the present territorial arrangement of Europe. There is not much probability of an amicable settlement of the dispute, but it is supposed the war will be prosecuted with vigour.

(By Submarine Telegraph.)—Two companies of Wallachian Militia have deserted with important information to Omar Pasha. Their report is that the Russian army is very inefficient—from sickness and disaffection.

A small Turkish steamer was captured by a Russian ship. A Turkish frigate coming up attacked Russian, retreating, and as night came on both vessels drew off.

Latest—Vienna, Friday evening.—Rumored advances to St. and Kufat to St. Abdol Pacha has entered Constantinople, and his army is marching on Pavia. Sir E. Lyons arrived at Constantinople 25th Nov. The Morning Post believes Austria and Prussia have so far committed themselves to views of Western Powers that in the event of collision with Russia, the German power's will remain completely neutral.

Paris, Friday.—The article in the *Nouvelleur* made a favourable impression, and the funds rose considerably.

Turkey refuses to submit to a three months armistice demand by England. On refusal, English minister had five hours audience of the Sultan, and a meeting of the Divan was summoned. Meanwhile we have more Turkish victories in Asia. The Russians after engagements, have been driven back from Zolhis on Laskow. The fortresses of Sidi have been taken by assault by Selim Pacha. The Russians had attacked Abdol Pacha's camp at Duzayip, but were beaten back. Russians also failed in a last attempt to retake the fortress of St. Nicholas.

In direction of Akera, 5th an engagement of magnitude was fought, and Russians were defeated, leaving several hundreds dead and wounded on the field.

The Turks have also taken Alahazim Pashahelic.

So hard pressed are the Russians in Asia that 10,000 men have been hastily sent, their relief. A part of the Russian Army has been withdrawn from one place of operation in order to form a junction with the army in Caucasus, which is in imminent danger.

The Turks hold Kufat on North Bank, and fortifying it strongly.

The army is in superior condition.

The Russians continued to suffer badly from sickness.

6000 Cossacks have assembled at Constantinople to join the Turkish army.

Russian manifest permits neutral vessels at Baslow and Galatz, provided they hold no communication with Turkish side of river.

CAPANO, 25th.—Encounters have occurred between Montenegrins and Turks, with loss of life on both sides.

VIENNA, Dec. 6.—Russian troops in the Walcheren have retired before Russian Pacha.

ENGLAND.—No political news. Capt. Warren of long-range battery, died suddenly.

Dense fogs prevailed throughout Britain.

French Minister at Vienna was instructed to demand from Austrian Government, explanation as to alleged part of Emperor of Austria in recent "fusion arrangement." Explanation satisfactory to Napoleon.

Paris unusually foggy. Cholera in suburbs.

SPAIN.—Carlist movements of a warlike nature going on.

GERMANY.—Secret negotiations long going on between Austria, Saxony and Bavaria, closed 30th.

DENMARK.—Hartvig compared with previous years excellent.

ROME.—Twenty young men arrested on charge of belonging to London secret Societies. Treaty between England and the Papal See going on favourably. Price of bread at Rome still on rise.

NAPLES.—Neapolitan army to be augmented 12,000 men.

English Markets.—Cotton (Liverpool).—Principal Circulars report uniform demand during the week of about 6000 bales daily, but without animation. Market closed quiet at unchanged quotations. Week's sales 39,800 bales.

Breadstuffs.—Inquiry again sprung up concerning wheat in Wheat of 34, to 43, and Flour 1s. to 1s. 6d. advance, with large business doing. Indian Corn unchanged. Western Corn Flour 35s. to 35s. 6d. Blitche, Fife's, Oats, 36s. to 36s. 6d. Barley 31s. 6d. to 32s. 2d. Baltic ports closed by ice.

Provision markets unchanged.

Metals.—Baring Brothers quote Iron in improved demand—makers unwilling to accept orders at £8 10s. and £8 15s.

Money.—Easier, and no fear now of an advance in the Bank rate—imports of Gold larger than expected, and foreign exchange again better.

Consols closed at 95½, ex dividend.

Freights.—Liverpool, to United States rather quiet, with a slight decline in rates. Steamer passengers not abundant.

WESLEYAN METHODISM.—We see by the London Times an important decision, recently pronounced, in which a deed of a charge to trustees, with power in the hands of the preacher from time to time, the execution of which had been resisted on behalf of the conference, was decided null by Vice-Chancellor Wood as being contrary to the constitution of Methodism by which the members

of that body were bound. The right to appoint the Minister was constitutionally vested in the conference.

A fire which occurred in Woodstock, Canada, on the 31st inst., resulted in the destruction of the dwelling house occupied by Wm. McAndrew, printer, and the death by the flames of his two children, mother in law, and a son-in-law. The wife and brother in law of Mr. McAndrew were also so much burned that they were not expected to recover at last account.

Mr. W. McAndrew, of Montreal, has introduced a bill to Congress, giving a route to Maine in aid of the European and North American Railroad, and a bill to shorten the transit of mails between New York and London.

The Catholic Difficulties in New York.—Archbishop Hughes has issued an address to the clergy, and many of the Roman Catholic Church, exhorting them to keep away from the street processions on Sunday, and to observe a peaceful and legal department in all their religious acts. He says further, "I do not wish that you should degrade yourselves by the display of the highest level of American civilization, if a conspiracy should arise among the people, whether private dwellings, churches, hospitals, orphan asylums, or other Catholic institutions, they, in case of any attack, let every man be prepared in God's name, to stand by the laws of the country, and the authorities of the city, in defence of such rights and property." The Bishop intimates that the existence of such a conspiracy has been insinuated, and that symptoms of so baneful a purpose not by any means wanting.

Destructive Fire.—Shortly after 10 o'clock on Wednesday morning, a fire broke out in the two-story wooden building in King street, owned by the estate of the late Hon. Hugh Johnson, and occupied by Messrs. Farquhar & Co. as a dry goods store. The flames spread so rapidly, that before the engines arrived at the spot, they were bursting out of the roof. Being fanned by a north west wind, the fire soon communicated to the adjoining three-story building, occupied by Messrs. Evans & Son, as a hat store, and then caught the upper part of the large wooden building occupied by Mr. J. Frost, as a shoe store. Owing to the energetic action of the Fire Companies, the fire was stopped at this building. In the hasty removal of the goods, considerable loss and damage was sustained, as well as from the water thrown into the buildings, but we understand that all the parties were insured.

Too much credit cannot be awarded to our Firemen on the occasion, who combated the flames with most manfully, and thus prevented its further ravages. The Military also turned out, and ably assisted in every way in their power.

A range of wooden buildings in the rear were at one time in imminent danger, and if the flames had reached them, the loss would have been much greater.

The occupants of the buildings, at this season of the year, must be much inconvenienced in being thus suddenly deprived of their places of business.—*V. Bruns.*

BERNINA.—The brig Velocity, at Halifax, brings Bernina papers to the 6th inst. They state that the fever was abating—no new cases having occurred during the three previous days. The weather had been very severe in the neighborhood, and several vessels had arrived at the Islands in distress.

It is now said that Lord Elgin is to return to Canada, and that he will be here before the opening of the Parliament in February next. Whether the determination of the British Government not to relieve Lord Dalhousie from the Governor-Generalship of India until 1855, may or may not have been the cause of the unexpected return of His Excellency, we are sure it will be hailed with satisfaction by every inhabitant of the Province.—*Quebec Chronicle.*

It is rumoured that the Hon. D. G. Daly, has been appointed Lieutenant Governor of New Brunswick, in the room of Sir Edmund Head, who has been offered the Government of British Guiana.—*[Id.]*

Capt. Wm. P. Michener, of this place, recently arrived from California, fat and healthy, and we presume, with a moderate pile, made by hard work, other than digging. He gives a tolerably good account of the Eastport boys on the other side of Jordan.

Several of them are clerking it at good salaries. Our friend Daniel Hayden sent his handsome miniature home by him. Daniel looks quite stout, and to his usual beauty, has added the natural one of a handsome mustache. That is right! Shaving is the great blemish of our times, which will doubtless be overcome in the progress of the hours of civilization.—*Eastport Sentinel.*

The following facts in relation to the year 1854, were pointed out by the Rev. J. A. C. of this place, at a meeting of the church, on the 25th inst. The year began and ends on Sabbath—there are five months in the year that contain five Sabbaths and there are fifty-five Sabbaths in the year. Such a coincidence, he believes, will not occur again for 28 years.

We find the following in London Times: "The Americans call New-York the 'Empire City,' as if a city—and in a republic, moreover—could be, under any circumstance an empire."

THE STANDARD.

WEDNESDAY, DEC. 28, 1853.

By Telegraph.

LATEST FROM EUROPE.

The steamer arrived at New York on Monday.

There was a terrific naval engagement between the Turks and Russians. The Turks were almost annihilated, there were 13 Turkish and 7 Russian Ships destroyed, each party fought gallantly.

Flour had advanced from 1s. 6d. to 2s. per barrel.

TO OUR SUBSCRIBERS.

As we are entering into arrangements to publish a much larger sheet, which will involve a considerable outlay of ready money, for the purchase of a new Press, type, and other material required in a newspaper establishment, we earnestly request those persons indebted for Subscriptions, advertisements, &c., to pay their accounts. We have now published the Standard for upwards of fourteen years on our account, and six years for its founder, our respected father; during the time this has been under our control no pains have been spared, to make the paper as interesting and useful, as our means would permit; during that period four papers were started in this County, and were discontinued viz: the Times, Mechanic & Farmer, and Courant at St. Stephens, and the Charlotte Gazette, in St. Andrews. Had we adopted the same course perhaps it might have been to our profit; but we have resolved to keep pace with the times, and publish a large well filled sheet, and at a moderate price. In our first number in the next volume, we purpose publishing a Prospectus giving our views, terms &c., of the new series of the Standard. In the meantime, we trust our friends will be prepared to pay the respective amounts they are indebted to us.

The present number concludes the 20th volume of the Standard—and in accordance with a good old custom, we tender our Patrons the compliments of the season and wish them one and all a happy New Year.

The Charlotte Gazette has been discontinued. Mr. McEachlan in the last issue, of that paper (6th instant), gives the following reason, which we regret to say will apply to others. It is out of the question to suppose that any publisher however large his circulation, can carry on his business without he is paid at least once a year; we can name many of our subscribers who are indebted to us for three, four, and five years subscription. The Editor of the Gazette says:—"As it is utterly impossible for us to carry on the business of the paper unless our outstanding claims are paid—if not in whole—at least in part, and that immediately, we shall be obliged to discontinue altogether and seek for our labour another more remunerative field of action; in which event all our delinquent friends must expect that—in the general wind up—they will have to deal with legal tribunals in place of our patient self."

Sometime since the question of whether or not the County of Charlotte should have Municipal Corporations was agitated, and by a vote at a public meeting called by the Sheriff, it was then decided by the majority present, that we were not fit to govern ourselves—save the mark (!)

Capt. Robinson, one of our Members for the County has invariably for these last three years recommended the appointment of the commissioners of Roads nominated by the Parishes, to be the fit and proper persons to expend the public money appropriated for the By Roads in those Parishes.

What a rebuke this ought to be to other Members that have made pretensions to take such an active part in calling meetings of the people to carry out the principle of Municipal Government, as with the exception of Capt. Robinson and another member, has appointed the Road Grants—of course Carleton Co. is an exception, as the Municipal Law is in operation in that County and so far successfully—we trust their members are as high minded and independent as our Island Members—Honour to whom honour is due.

We have received several answers to the "Enigma," published in our last, and as they are alike, one will be sufficient to insert. The following is the solution:

Mediterranean an sea,
Antarctic an ocean,
Pyramids a science,
Yacht monuments in Egypt,
St. Andrews a small ship,
St. Andrews a Town in N. Brunswick,
Our whole—a merry Christmas and a happy New Year."

C. C. GRAMMAR SCHOOL.—The semi annual examination of the pupils at this institution, was held before the President and Directors on Friday last, when the following resolution was passed—"The Directors feel quite satisfied with the examination."—We have frequently shown the advantages derived from the institution of Grammar Schools in the Province; and in advocating them now would point out the opportunity they afford to the poor as well as the rich, of giving their children, a good sound education; for although the higher branches, such as the classics and mathematics are taught, yet the child that can read and write is eligible as a pupil, and can obtain a knowledge of the simplest English branches at a very moderate expense; while those who more advanced can study those subjects which are considered necessary for a polished and thoroughly educated member of society, for comparatively nothing. Another argument in their favour is that they are perfectly free from sectional feeling or prejudice, and their doors are open to persons of every denomination, without the doctrine of their church or their religious sentiments tampered with; for the schools are intended for the benefit of the Province and the people, and therefore must be entirely independent of any church or party. Here then are opportunities open to all—to those who desire nothing but a plain education—and to those who wish to fit their children for almost any situation in life. Some may think that it is useless to have their sons instructed in all the branches; but they cannot be certain where or how they may be situated hereafter, and certainly a good education would never be a clog to their uprise or advancement in the world; nobody has ever yet found it so; and the greater resources which they possess within themselves, the better foundation which is laid in youth, the more stately and beautiful will be the intellectual superstructure; the more cultivated and expanded the mind; and the more satisfied and happy the individual who is thus adorned."

[The foregoing observations are from the pen of a friend who takes an interest in the instruction of youth, and was present at the examination.]

On the 30th and 31st October there was a tremendous fire in the Schrick settlement on Red River. The weather had been dry, and the devouring element swept like a crazy demon over the country, destroying thousands of tons of hay, a great number of horses, and fatally burning several persons.—*St. John New Brunswick.*

The Earl of Seaford was, on Wednesday elected a Scottish representative peer, in the room of Lord Saltoun, deceased.

Sir William Boyd—he author—has arrived at the Revere House, Boston, from London.—*[Id.]*

There has been a heavy storm sweeping over Louisiana and Mississippi, doing a vast amount of damage.

The Duke of Bedford has become an Irish landlord. He has purchased a part of Mr. Kirwan's property in Galway for 40,000.

The total sum realised by the estate was 288,850, equal to 1712 years purchase. It is said that a few days before the sale took place, a sum of £107,000 was offered for this estate on the part of the Duke of Bedford.

Death of a Queen.—A letter from London states that the recent death of the Queen of Portugal singularly verifies a dream which Her Majesty Queen Victoria was said to have had last January, and which had rendered her extremely uneasy. It was to the effect that there would be a cold spring, a wet summer, a fine autumn, and a dead Queen. "We shivered in the cold spring, and anticipated the incessant rain in the summer, which prevented so many anticipated benefits and enjoyments, have been glorifying the remarkably fine autumn with which we have been blessed, and suddenly we find towards the close year the death of the Queen of Portugal. The dream was remarkable as its verification."

JUDSON'S CHEMICAL EXTRACT OF

CHERRY AND LUNGWORT,

FOR THE CURE OF

Coughs, Colds, Hoarseness, Spitting
of Blood, Night Sweats, Asthma,
Liver Complaints, and

CONSUMPTION.

DO NOT NEGLECT IT.

Can be and has been cured in thousands
of cases by this only certain remedy.

JUDSON'S CHEMICAL EXTRACT OF
CHERRY AND LUNGWORT,
and no remedy has ever before been discovered
that will certainly

CURE CONSUMPTION.

The most strongly marked and developed
cases of Pulmonary Consumption,
where the lungs have become diseased and
ulcerated and the case so utterly hopeless,
as to have been pronounced by Physicians
and friends, to be past all possibility of recovery,
and at times thought to be dying,
has been cured by this wonderful remedy,
and are now as well and hearty as ever.

It is a compound of medicaments which are
peculiarly adapted to and essentially necessary
for the cure of

COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it
loosens the phlegm which creates so much
difficulty, relieves the cough and assists
nature to expel from the system all diseased
matter by excretion, producing a most de-
lightful change in the breathing and chest,
and this, after the prescriptions of the very
best medical men and the inventions of
kind-sorrowing friends and Nurses, have
failed to give the smallest relief to the
Consumptive sufferer.

THOUSANDS OF CONSUMPTIVE

persons have been deceived in buying
medicines which were said to be infallible
cures, but which have proved only pallia-
tives, but this medicine is not only pallia-
tive but a cure for ulcerated lungs. It con-
tains no deleterious drugs and one trial will
prove its astonishing efficacy better than
any assertions or certificates in curing con-
sumption and all diseases of the Lungs,
such as Spitting of Blood, Coughs, pains
in the side and chest, night sweats, &c. &c.

About 1000 certificates of almost miracu-
lous cures, performed by this medicine,
from some of the first Doctors, Clergymen
and Merchants, have been sent us for this
medicine, but the publication of them looks
too much like Quackery, [it will show them
to any person calling at our office.] This
medicine will speak for itself and enough
in its own favour wherever it is tried.

Caution.—This medicine is put up in a
large bottle and you must find the name of
Comstock & Brother, Proprietors, New
York, on the splendid Wrapper around the
bottle. All orders must be addressed to
Comstock & Brother, No. 9, John St.
New York.

CARLTON'S RING-BONE CURE.

For the cure of Ring Bone, Blood Spavin,
Bone Spavin, Windgalls, and Splints—a
certain remedy.

CARLTON'S CONDITION POWDER FOR HORSES AND CATTLE.

The changes of weather and season, with
the change of use and feed, have a very
great effect upon the blood and sinuous
fluids of horses. It is at these changes they
require an assistant to nature to throw off
any disorder of the fluids of the body that
may have been imbibed, and which, if not
attended to, will result in the Yellow Water,
Heaves, Worms, Bots, &c. All of
which will be prevented by giving one of
these powders, and will at any time cure it
when any symptoms of disease appears it
used in time. They purify the blood, re-
move all inflammation and fever, loosen the
skin, cleanse the water, and invigorate the
whole body, enabling them to do more work
with the same feed. The action of these
powders is direct upon all the secretive
glands, and therefore have the same effect
upon the Horse, the Ox, the Ass, and all
Herbivorous animals—all diseases arising
from or produced by a bad state of the blood
are speedily cured by them.
