Halidating and for my ucity of your Co. to be said for my ucity of your Co. The Mr. Jishw Cothers W. Canaphite East Manual Mahous Paice. Long

SAINT ANDREWS, NEW BRUNSWICK, WEDNESDAY, DECEMBER 24, 1845.

[15s. at the end of the year

(FROM OUR LONDON CORRESPONDENT.)

Price 12s 6d in Advance]

To the Editor of the Standard. Po print or not to print that's the question the quirks and crotchets of outrageous laney; and a well penn'd copy to the press, but by disclosing, end them. To print, to doubt, No more, and by one act to my me end The head-sels, and a tissussaid matural shocks Or secondling phoency, - the a communication Destably to be mighed.

As nothing better in present occurs to my aind, suppose we take, to begin with, what much easts 'a semiper through Westminster Abby. And here I must enter my protest against the misrepresentation of the said Panch. He assert, or hims, or institutes, is something of that kind, that the guide she exhibits the tombs, is a gran of such the posters of locaportion, that it is impost rable by nearing coats of a most seedy which exhibit other normalise spectator, like Punch, facilishly stops to call amptons of antiquity; and at the some tiek of being left behind, but if he streamous exertions to obtain what they are stream to stream the stream to observe that the model of going their d, he will had builthe business are with the model of the stream to making the stream to observe that the model of the stream to observe that the Arm that it me part of the stronger, as the series and it is series and it

specified more than free more per boost? and specified in a stream of the short of short of short of short of the short of a stream of the short of short of the short of the short of a stream of the short of the s

special and mobile, were went to set emistrated, and to disperse juniter and judgment to its assumes of the earth. I felt and I were extensing ascrete deal wind place;—doubly so, from the millians and transver that would now prevail, where lately the beams of the parts and the turners and indicated the season of the same of the summer to be successed, where lately the beams of the parts and of the beams of the parts and the turners and extension of the beams of the parts and posteriors are successed, there is such that he would have knocked some of them because at the beams of the be

way of farther restoring confidence, he very considerately offered me a seat on the woods was a seat of the odd the present case. The learned judge, had sack. The woodsack is a seat of the odd the present case. The learned judge, had sack the woodsack is a seat of the odd the decided that attempts at coulding any beight, about four feet square, with a board stack up in the antidelle, against which was the bank. The whole is covered with close which which finite no doubt was not covered with close were very different, as it must be evident to which ow seems to ver in colour with the finite no doubt was not covered with close were very different, as it must be evident to which ow seems to ver in colour with the finite no doubt was not covered with the finite of the woodship with the finite of the proper minimum of the shiphest conception. The ignored and universal and universal and universal displays the conception of the grant and grant a

our, and genius, and talent, and every thing appreciate it so much. Being hard of hear great and noble, were wont to set emistrated, and to despense justice and judgment to the nations of the earth. I felt as if I were entering a socred and awful place;—doubly so, from the sullness and vacancy that would not seemed, where lately the beams of Manner pressal, where the lately the l
