## Judicial Sale of Property in the Village of Glencoe

Pursuant to an order of the Supreme Court of Ontario, made in the action of Esther Foster vs. Watts, there will be offered for sale, with the approval of H. S. Blackburn, the Local Master at London, by L. L. McFarlane, Auctioneer, at the McAlpine Hotel in the Village of Glencoe, at three o'clock in the afternoon on Saturday, the 10th day of June, 1916, ALL AND SINGULAR those certain parcels or tracts of land and premises situate, lying and being in the Village of Glencoe, in the County of Middlesex, described as follows:—  
1. Village lot number two in block "B" in McDonald and Ross survey of part of the south half of lot number one in the second concession of the Township of Moss, according to registered plan 190 upon which there is erected a story and one-half frame building consisting of two shops, a one-story frame building which has two business places in it, and a large implement warehouse in the rear.  
2. Village lot number forty-seven on the west side of O'Mara Street in Donald McKellar's survey in the Village of Glencoe of part of the south half of lot one in the first concession of the Township of Moss, according to registered plan number 296, together with a strip of land on the southern side of village lot number forty-eight in said survey, having a frontage on O'Mara Street of sixteen feet and extending back from the said street to the rear of said lot with a uniform width of sixty feet.  
3. Village lot number twenty-seven on the east side of O'Mara Street in the Village of Glencoe according to Donald McKellar's survey aforesaid, upon which there is a frame house and other improvements.  
The property will be offered for sale in three parcels, each subject to a reserved bid to be fixed by the Master of the Supreme Court of Ontario at London. The purchaser shall pay ten per cent. of his purchase money at the time of the sale to the vendors or their solicitor and the balance in thirty days thereafter into court to the credit of this action, without interest.  
Further particulars may be had from Messrs. Meredith & Meredith, Number 22 Bank of Toronto Chambers, London, Ontario, or from H. S. Blackburn, Local Master at London, 151 Adelaide Street East, London, Ontario.  
Dated at London this 16th day of May, 1916.

## District and General.

Tyndall Bashill, of Alvinston, is dead, aged 82.

Archie Payne, of Adelaide, had five cows killed by lightning.

The annual Lobo picnic will be held at Coldstream on June 16.

The price of milk at Windsor has been advanced to 12 cents per quart.

Mrs. Thomas Longhead, of West Lorne, died on Friday evening, aged 85 years.

Pte. John Wilson, son of Mr. and Mrs. John Wilson, of Oil Springs, was killed in action in France on May 19.

Bessie Margaret, 17 years old, daughter of Mrs. Mary White, of Alvinston, died a few days ago after a brief illness.

W. G. Parker, a Sarnia barber, sold a Boston terrier for \$100 the other day. Dogs like everything else have gone up in price.

The Washash fast mail train was blown from the track in Illinois on Friday. Twenty persons were injured, some seriously.

West Nissouri township council presented the 135th Battalion with a cheque to cover the cost of an additional field kitchen.

Fifty-nine persons are reported dead and more than a hundred injured in a series of tornadoes that swept Arkansas Monday afternoon.

Rev. Donald Ferguson McMillan, an uncle of Mrs. F. Lindeman, Mrs. Donald McMillan and J. C. McMillan, of Crinan, died recently at Benbecula, Sask.

The annual communication of the Grand Lodge of Freemasons of Canada, in the Province of Ontario, will be held in London on the 19th and 20th of July next.

The local improvement committee of the Women's Institute in Parkhill are offering a prize for the best kept lawn, boulevard and yard during the summer of 1916.

Robert Attick, of Dutton, stopped a runaway team in that village by catching on to the end of the wagon, drawing himself in and reaching the lines on the whiffletrees.

A San Francisco man has just finished walking backwards from that city to New York. It took him 239 days, and he won \$5,000. The first instance of making progress backward.

Rev. D. N. McCamus, of Blenheim, former pastor of Colborne Street Methodist church, London, was elected president and Rev. H. J. Uren, of Parkhill, secretary of the London conference on the first ballot.

Squire McDougall has resigned the police magistracy of Wallaceburg after acting in that capacity for over 50 years. He is 80 years of age and has been one of the prominent characters of Wallaceburg from its infancy.

Fire destroyed the large oil power-house owned by Messrs. Crotty & Elliott, on their farm in Oxford, Thursday morning, at an early hour. The fire is thought to have started from the engine-room. The loss is estimated at over \$4,000.

For saying, "I don't give a damn for the empire" when Lieut. Moyle, of the 25th Battalion at Brantford, asked him to enlist to defend the empire, Earle Koenig, of Paris, in police court paid a fine of \$13. He was charged with using seditious language.

Mr. and Mrs. A. J. Stephenson, of Oak, received word last week from their son, Pte. Walter H. Stephenson, who is attached to the 15th Battalion Highlanders, serving in the trenches somewhere in Belgium. Pte. Stephenson was recently wounded by the arm by a piece of shrapnel, which penetrating the elbow, came out near the hand.

Several fines in Middlesex under Scott Act.

"Picturesque Canada" publishers do some suing.

Glencoe wrestles with plank sidewalk repairs.

Dominion voters' list revision by "revising officer."

Deadfall hotel at Middlemiss, an old landmark, burned.

Fred Wren Company plays Uncle Tom's Cabin in Glencoe.

Playing "ghost" on Longwoods Road, Moss, ends in tragedy.

War waged against Salvation Army in Glencoe. Several boys fined.

John McEachern, aged 93, of Appin, turns out and does his statute labor.

Wheat 77c, oats 25c, potatoes 45c, dressed hogs 85c, butter 12c, eggs 10c.

Glencoe band holds concert and strawberry festival on N. Currie's lawn.

Peace proclaimed in Glencoe Presbyterian congregation after "war" over Pastor Robbins.

Western Ontario Grangers held annual picnic at Port Stanley. Six thousand people attend.

Ekfrid council—James Pole, reeve; Bray Willey, deputy-reeve; E. A. McDougall, J. P. Corneil and Sol. McIntyre, councillors.

Lightning hits scaffolding pole at A. McKellar's new residence under construction. Mont. Goulding badly cut on head by flying splinters.

Some advertisers—John McKenzie, dry goods; Miss Riggs, millinery; J. W. Gleeson, music store; E. A. Surbey, G. V. Carter, watchmakers and jewelers; A. W. Otton, W. S. Rogers & Son, hardware; R. Stevenson, saddler; J. E. Platt, druggist.

"Engaged to four girls at once? How do you explain such shameless conduct?" "I don't know! Cupid must have shot me with a machine gun, I think!"

The 135th Battalion expects to be in Strathroy in full strength on Dominion Day.

## Kitchener and Staff Lost.

The cruiser Hampshire, bearing Earl Kitchener and party on a projected trip to Russia, was sunk at 8 o'clock Monday night west of the Orkney Islands, off the north coast of Scotland.

So far as known there were no survivors. Whether the vessel was the victim of a torpedo or a mine has not been determined.

The profoundest sensation of the entire war has been created by the amazing news of Lord Kitchener's tragic end.

Among the members of Lord Kitchener's staff who perished were Hugh James O'Berne, a valued member of the Foreign Office; Sir Frederick Donaldson, of the Ministry of Munitions, and Brig.-Gen. Ellershaw, of the same department, none of whom the nation could afford to lose.

The Hampshire carried a crew of between 290 and 300. Other important war news tells of a sudden blow struck by the Russians along the entire Galician front of 275 miles, from the Pripiet to Roumania, which is the unanimous opinion of the military critics a brilliant beginning of the long awaited Russian offensive.

The Russian advance is expected to develop swiftly.

Heavy fighting continues along the Canadian front in France, but our general line is still intact. The Canadian casualty list for the next few days will no doubt be large.

County Patriotic Fund.

Middlesex county council on Monday afternoon spent some time in the discussion of ways and means of raising the \$6,000 a month that the council is giving to the Middlesex Patriotic Fund. The question before the members is whether the amount be raised by a direct taxation or by the selling of debentures bearing five per cent. per annum.

Talent Tea.

A Talent Tea will be held in St. John's school room by the ladies of the church on Saturday, June 10th, at 4 o'clock.

Metcalfe Council.

Metcalfe township council met as a court of revision on the assessment roll on Monday, May 29th, at Napier, all the members being present.

After hearing the different parties interested in several appeals made against their assessments, the council decided to take no action on the appeals, and the court closed at 1:30 p.m. The council then proceeded with general business.

W. Woods was paid \$64, salary, postage and attending court of revision: Age, \$2.25, advertising for tenders Ward drain: S. L. Herd, \$9.34, and Ketchum bridge: H. Thompson, \$5, postage: Geo. A. Denning, \$7, to pay parties on road grader, con. 3 and 4: Municipal World, \$1.42, for supplies: Roy Lewis, \$4, man and team on road drag, con. 1 and 2; Aeneas McLean, \$1, inspecting O'Neill drain; D. F. Munroe, \$1, filling hole, Metcalfe and Brooke townline, half to Brooke; Tom Taylor, \$3, filling hole opposite lot 3, con. 5 and 6, \$1 moving grader, \$2 operating grader, and \$8 to pay parties working on grader, sideroad 3 and 4; J. A. Campbell, \$3, filling washout, Metcalfe and Ekfrid townline, opposite lot 17; John Patterson, \$2, filling washout, sideroad 10, con. 12 and 13, and \$1, filling washout, sideroad 10, con. 11 and 12; L. Laughton, \$2, filling washout, townline Metcalfe and Ekfrid, half to Ekfrid; J. C. Beer, \$12.50, man and engine 1 day on road grader, con. 5 and 6.

On request of W. L. Toohill a grant of \$25 was voted to the Strathroy fair board.

Moved by McCallum and Hawken, that the township buy five road graders from the Exeter Manufacturing Co. Council adjourned to Monday, June 26th, at 1 p.m.

HARRY THOMPSON, Clerk.

High School Notes.

We are pleased to note that Miss Nessie Archer, W. L. Miller and G. C. Squire, graduates of the Glencoe High School, and who were for the past year attending the Faculty of Education in Toronto, were all successful in obtaining teachers' certificates—First Class and High School Assistants' certificates. Congratulations.

Mr. Robinson, principal of the Melbourne school, is presiding at the departmental examinations at the High School. They begin June 8th and extend intermittently till June 29th.

Corporal Neil McCallum, of the 135th, was in Glencoe for a few days preparing for the Faculty Entrance exams, at the High School, which are to begin on June 8th. If the authorities grant him leave of absence for a month he will write on the examinations.

Has not attended school since Christmas.

The following is a schedule of the different examinations held during the month:

Faculty Entrance—June 8, 9, 20, 26, 28.

Form I.—June 8, 9, 12, 13.

Lower School, Form II.—June 15, 16, 19 (departmental subjects).

Middle School—Normal Entrance and Matriculation—June 14, 20, 26, 27, 28, 29.

Public School Graduation—June 19, 20, 21, 22, 23.

High School Entrance—June 21, 22, 23.

The 135th Battalion expects to be in Strathroy in full strength on Dominion Day.

Damage by Storm.

Electrical storms did considerable damage in Western Ontario during the past week.

Locally, the storm on Friday morning was the worst. In this a small new barn belonging to Henry McCaffery was struck by lightning and burned, together with the contents, which consisted of some hay and feed and a few fowl. The building was insured for \$100. M. L. Farrell's house was struck and one side and gable damaged to the extent of \$25. The barn of Donald J. McAlpine, North Glencoe, was also struck but not damaged to any extent. There are several reports of "stock being killed in the field by lightning."

All Sunday afternoon there were thunder storms in quick succession, which were particularly heavy to the north and south of Glencoe, with heavy rain and hail.

The season is proving a decidedly wet one, and prospects are poor indeed for the grain and root crops.

To Tax Oil Wagon.

At the session on Monday of the Middlesex county council a long discussion followed a question as to the advisability of taxing the Columbus Oil Company, of Columbus, Ohio, which peddles oil throughout the county and which is an American firm and pays no taxes of any kind. A newspaper clipping was also read which showed that in the county of York this same company was forced to pay a license fee of \$300. A resolution will be presented and passed on later.

Glencoe Council.

The regular meeting of the municipal council for the village of Glencoe was held in the council chambers on Monday, 5th June.

Present—J. A. McLaughlin, reeve; councillors P. D. Keith, Jas. Harris, A. McPherson and A. J. Wright.

The minutes of last meeting were read and signed.

The following accounts were ordered paid on motion of McPherson and Keith:—S. Thompson, salary, \$37.50; D. M. Stuart, work at Dean's fire \$1.75, cleaning ditch on King st. \$3, telephone to Toronto St. E. Dicks & Son, wreath for Mr. Geo. Wilson, \$10; W. R. Quick, scraping streets, \$10; J. Johnson, scraping streets and hauling cinders, \$10.50; D. C. Mitchell & Son, repairing lights in town, \$5.34; D. H. Love, for 1 pick, \$1; Simcoe Hills, refund on taxes, \$0.18.

The council passed a resolution to purchase dog tags. Owners of dogs must pay \$1 for tags, this to be credited to them as having paid their dog tax. Dogs not having tags will be disposed of.

It was moved by P. D. Keith, seconded by Jas. Harris, that the council open up Graham street west from Main street along the G. T. R. property. Carried.

D. M. Stuart's resignation as constable was not accepted by the council. Council adjourned to meet July 3rd.

CHAS. GEORGE, Clerk.

Mosa Council.

A meeting of the Mosa council was held at Glencoe on 25th May. Members all present. The minutes of the last meeting were read, approved and signed.

Moved by A. Gardiner, seconded by F. J. James, that the following account be paid:—James Douglas, \$75, for services as assessor; Geo. McCubbin, \$40, for survey and award on 1 and 2 con. road drain; Municipal World, \$2.50, for drainage forms; Stephen Ferrow, \$140 for work done on government drain No. 2. Carried.

Moved by C. S. Morrison, seconded by A. Gardiner, that the application of Geo. Squire and John Purcell to have the Wiley drain put in a proper state of repair be accepted, and the clerk is hereby instructed to request Geo. A. McCubbin, C. E., to make an examination of said drain and report to this council. Carried.

Moved by F. J. James, seconded by A. Gardiner, that Mrs. Mary Watterworth be refunded \$1 for dog taxes charged her in 1915. Carried.

The council adjourned to meet at Newbury, on Saturday, June 17th, at 10 o'clock a.m.

C. C. McNAUGHTON, Clerk.

Delarey Inquest.

Muncey, June 2.—The jury inquiring into the death of Philip Delarey, whose body was taken from the Thames about a month ago, returned a verdict to-night, about 8 o'clock, after an hour's deliberation, as follows:—

"That the deceased came to his death from a blow on the forehead, which caused concussion of the brain, but by whom or how administered the jury is unable to determine, as sufficient evidence has not been produced to warrant fixing the responsibility. The jury also goes on record as disapproving of the practice of certain parties in bringing in liquor to the reserve, and we promise our co-operation to the authorities in the punishment of the guilty parties."

The members of the jury were:—John Cobbin, foreman; Mosey Fells, Grant Cobbin, Wm. Lang, Henry Jay, Geo. Jeffery, Rev. H. W. McTavish, Archie Cobbin, Chas. Halpin, Rev. C. L. McFarlane, John Cleary.

Grove Attorney McKillop represented the crown. Dr. Woods presided, and Delarey's father was represented by Mr. Moes, of Glencoe.

For a clean scalp and glossy healthy hair use Rexall "68" Shampoo Paste, 25c at Rexall Drug Stores only.—J. A. Scott.

**FROM THE ORIENT TO YOUR TABLE**  
Every sealed packet of SALADA TEA is filled with fresh, young leaves of surpassing fragrance.

# "SALADA"

SEALED PACKETS ONLY. BLACK, MIXED OR GREEN.

## A Tenderfoot's Wooing

By CLIVE PHILLIPPS WOLLEY  
(Author of "Gold, Gold in Cariboo," Etc.)

CHAPTER XVIII.—(Cont'd.)  
"That's so," put in Al. "There ain't so much as an old klooch left at the rancherie since the burning."

"How do you know, Al?"  
"I sent one of the breeds to prospect."

"Where is he?"  
"He never came back. I didn't calculate as he would, but I thought he'd be better with them than with us if that was the kind of swine he was. Then I sent Dan here and he says they've all vamoosed. Don't you, Dan?"

"Every last hoof of them."

For a moment there was a dead silence in the room, the men puffing quietly at their pipes and staring in the log fire. After so many years of undisturbed peace, it seemed impossible to believe in a general rising amongst B. C. Indians. It was almost as if the cattle had turned on the cowboys.

"What are we to do, Jim?"  
"Well, Rolt, if these Indians were not Chilcats, I should say that we had seen the worst of it, and it might all blow over, but they are Chilcats, and Chilcats are not like other B. C. Indians."

"Oh, them Coast Indians is like a pack of wet hens," put in Al. "These fellows are mean as wolves. They wiped out that sudvey party on Bella Coola pretty clean."

"That was a long time ago and all the ring-leaders were hanged."

"That's all you know, Boss. Khelowna was one of the ring-leaders, and he wasn't hung, worse luck. None of the ring-leaders were hanged. The fellows gave up were slaves, that's all. There wasn't a Chilcat amongst them. Government knowed it, but couldn't do nothing."

"Do you remember, Doc, that smoke that I thought I saw late yesterday evening?" asked Jim.

"In the timber towards Grouse Creek?"  
"Yes."

"I remember, but you don't think that that is where they are? If they had been there they would have seen us and cut us off."

"I'm not sure of that. They might have been scared that one of us would break back to Soda Creek. It would be safer for them to round us all up here at the ranch."

"You think that they have cut off our communications then?"

"With Soda Creek and Faircloughs; yes. That's what I'd try to do if I was in their place. Al's plan is the right one. We had better go after

them. The first blow is worth a dozen later on, and it won't do to let them think we are scared, but we must leave a strong guard with you and the ladies."

"Yes, I mean to," said the Boss, waking up and taking command. "Pick your men to stay Combe."

"How would it be if the doctor, old Toma, two of the breeds, and the Fairclough boys stayed with you and Anstruther. I'm afraid about the Faircloughs. I doubt if they will ever get here."

"They're in the corral now. Won't believe a word about the rising, and think as we're scared at our own shadows."

"Go and bring them in, Al."

Al went out and returned presently with two fair-headed young Englishmen, beefy fellows, with gaiters and other relics of the Old Country still clinging to them. Until now they had been looked upon with a certain amount of disfavor at the Risky as not belonging to quite the same class as most of the English importations and as intruders whose small hay meadow hardly justified their existence and the presence of their herd upon the range, but in the straits to which the Rolts had been reduced, the Faircloughs were accorded a very hearty welcome, although their obvious scepticism and too loudly proclaimed indifference to anything that "a pack of many Indians" could do, was a little trying to the old hands.

"The Chilcats have not been near your place yet, Al tells me."

"No, sirree! I guess they know better," replied Bob Fairclough, handling a new Winchester with meaning.

"I hope so, indeed, Mr Fairclough, but I dare say that we exaggerate the danger having ladies and an invalid to take of. Would you mind staying with us for a day or two? Half of us are going out to try to round up Khelowna and his band, and your presence and your brother's would relieve the tedium of our absence for the ladies, and give them a greater sense of safety."

"Why, certainly. Delighted, I am sure, unless you would like to have us along with you and leave two of your men behind. Jack is a capital shot, you know, used to shoot at Wimbledon, and I can beat him a bit most times."

Rolt smiled at the ingenious statement, but he wanted men who could hit something more difficult than a target at a measured two hundred yards from a rest. That style of shooting would do from the ranch windows, but if it came to shooting

off-hand from the saddle, he preferred to trust some of his boys who had never heard of Wimbledon.

"Thank you, very much. But I think you must be content with the place of honor. It will be good to know that two such shots are watching over the ladies' safety. I'll take the trail to-night, Jim."

"Better let me go instead, Boss."

"One of us two must stay, Jim, and you have had your share of fun." Jim hesitated, and prepared to argue.

"Beside, I don't want the wife to think that there is any serious danger, and if you stay behind she will not think so much of my going. She will argue that if there was anything really to be done I should take my best man with me. See?"

Finally it was arranged in this way, and in the dark, long after the ladies had retired to rest, Dick Rolt stood for a minute looking down at the face he loved, so white and calmly lovely in the moonlight.

It was too white, he thought, and then a bluish vision came to him of how that face might be when he next saw it.

"What a fool I am," he muttered to himself, "and all because a parcel of white livered swashes burned my stacks. Even that was rather heroic for them."

But when he reached over his horse's shoulder for Jim's hand, which he gripped hard, his voice had a queer ring in it.

"You won't let any harm happen to her, Jim?"

"No, whilst I'm alive," and if "her" meant Polly to one man and Kitty to another it made no difference since the two were together.

Thn Rolt turned away from the corral and rode silently with his men through the night, believing that he had spared his wife the pain of parting and hidden from her the risk which he was running not knowing, kindly fool that he was, that she had read him like a book; that her heart had yearned to him as he stood silently praying over her, marking but not guessing the cause of her paleness and that she, not he, was the one who had spared the other the pain of that which they knew could not be avoided.

A rancher's wife, like a soldier's, is obliged sometimes to take chances even with the life of her best beloved. It not there would be no ranching.

## CHAPTER XIX.

"What is your programme, Al?" whispered the Boss, when the ranch lights had died out behind the hog's back.

"I was calculating to make for that gulch as leads into Grouse Creek. We could leave our horses there, and do a sneak down to it Khelowna's camp."

"How do you know he is camped there?"

"It's the nearest water to the place where Jim saw the smoke. He might not be there, of course, but it's worth trying. We might get the drop on the whole outfit if we did a good sneak at night."

"We might, as they won't dream of our assuming the offensive but it isn't likely. They aren't white men and the woods talk."

"That's so, but if they spot us before we get the drop, it's only three to one. They'll run, sure."

That is the spirit of the West. Three to one is about a fair match in the eyes of the Western man; if the one is white, with rather heavy odds on the one, and history has proved that the handicap is not too heavy in most cases, although some "fool whites," as Al would have put it, may sometimes "get left."

The Boss, at the rate, seemed satisfied, and the five went on silently in the darkness, which was of the kind which absolutely obliterates everything. A chipmunk wind was blowing, one of those curiously soft warm winds which occur in British Colum-

## FOR HEADACHES, BILIOUSNESS, CONSTIPATION, INDIGESTION

Nearly all our minor ailments, and many of the serious ones, too, are traceable to some disorder of the stomach, liver, and bowels. If you wish to avoid the miseries of indigestion, acidity, heartburn, flatulence, headaches, constipation, and a host of other distressing ailments, you must see to it that your stomach, liver and bowels are equal to the work they have to do.

It is a simple matter to take 30 drops of Mother Seigel's Syrup daily, after meals, yet thousands of former sufferers have banished indigestion, biliousness, constipation, and all their distressing consequences in just this simple way. Profit by their experience. As a digestive tonic and stomachic remedy, Mother Seigel's Syrup is unsurpassed.

## MOTHER SEIGEL'S SYRUP.

THE NEW 1.00 SIZE CONTAINS 4 TIMES AS MUCH AS THE TRIAL SIZE SOLD AT 50c PER BOTTLE.

bia, cutting the snow off the hills in a few hours like a red hot knife. By their ears they could tell when they were rising over prairie, for then there was only the whisper of the grass at their feet, or through timber, for then the sighing of the trees made weird music for them, but in that solid damp blackness you might have burst your eyeballs in trying to discover the outline of a pine, or the edge of the timber against the sky and your efforts would have been in vain.

And yet with the instinct of a homing pigeon, old Al led them steadily on, never complaining of the darkness, never hesitating, or asking questions, and his companions felt implicitly in his guidance and to the instinct of their horses.

"Better get off here, Boss," Al said at last. "It's bad going. Hold on to your stirrup leather and let your horse come along after me," but he himself remained in the saddle.

It has to be more than bad going to persuade an old cowboy to foot it.

"Who's that blundering idiot?" he hissed a minute later as some one broke a stick, "can't you move your hoof without knocking the trees down. If they ain't deaf they'll hear that in Soda Creek bar."

Though the old man's language was more picturesque than accurate, a good many things seemed to have been broken, but for the ad man sighing of the trees, the dumbness of the woods had matched the darkness of the night. You would have thought that woods and prairie were alike untenanted, had you not remembered that all these who move in them by night are stilling or stalking, seeking the life on another or shudderingly trying to save their own.

As the stick crack'd, there was a rustling in every bush, a stir in every tree, unseen feet pattered, unseen wings fluttered for a moment, and then again all was still—listening.

As the five paused with all their senses on the alert, a tiny bright red star showed for a moment in the gloom ahead of, and above them.

"Gosh! I didn't know that we were that close," muttered Al. "If that fool hadn't have touched his fire I'd have blundered right into them. Lie-low, boys."

For a quarter of an hour the five riven lay motionless, and so still was everything that before the fifteen minutes had passed, the Boss felt convinced that the light which they had seen must have been born in their imagination. It could not be that there was any live thing in such a silence as that. But Al did not share in this feeling.

"It's a mercy none of the cayuses whinied," he whispered, "but it won't do to trust them any longer. Let me get past you, Boss. Now follow me back. Go easy, and for the love of life, don't break any more trees Dan," and so saying he led them back by the way the yhad come.

At last he stopped. There had crept into the sky the faintest suspicion of light. Black darkness it would have appeared to most men still, but to those whose eyes had become accustomed to the utter dark it sufficed to show a hollow land.

(To be continued.)

Intervention Unnecessary.

Excited Lady—Why don't you interfere to stop that dog fight?  
Bystander—I was just a-goin' to mum; but you kin calm y'f fears now. My dog is on top at last, mum.

The Queen Bee.

My wife is like the honey bee—  
But while it gathers honey,  
She cajoles me with honeyed words  
And stings me for my money!!

## The Farm

Milking on Either Side.

"Hey, there! You're milking on the wrong side!" shouted a neighbor one morning as he came upon me sitting quietly on the left side of a cow while I milked, says a writer in the Iowa Homestead.

Why, now, should there be any difference which side of the cow we sit on while milking? I asked this neighbor why, and he finally had to admit that it is all a habit, this having one particular side to milk on—the "right side."

Here on our place we train the cow from calfhood to be approached and handled from the left side the same as from the right, and by the time she drops her first calf there is no "right side" for her—we milk her from just whichever side is handiest.

Let us consider the numerous advantages we gain by milking the cow from either side. First, a cow is not so apt to be a confirmed kicker if milked from either side. It is a fact that the mere touch of the hand, extended too far over on the left side, causes the cow to kick. If she were milked from either side at will, anything of this sort would not excite her.

Many times it is much more convenient to approach a cow from the left side than from the right side, especially in a pen or stall.

Sometimes we must disturb two cows to reach one, where the milking is done only on the right side, but if the animals are accustomed to being milked on either side, the cow to be milked need be molested.

Still another advantage gained by milking on either side is that of milking one cow on the right side, simply turning around on the stool without getting up, and milking the next cow on the left side. Again, a cow often is very damp and filthy on the right side, and if she has been used to being milked on either side, one can choose the cleaner side to milk on, thus saving considerable time and insuring cleaner, more sanitary products.

Some people claim that they can milk faster from the right side of a cow than from the left—that it is unhandy to milk on the left side. This is all because one learns to milk only from the right side in the beginning.

With a little practice, I found that it was just as easy to milk from one side as the other—in fact, I now like to milk from both sides better than from a single side, as the change rests one's hands by handling the large teats at the fore part of the udder with the right hand awhile, then switching and milking the rear and smaller teats with that hand while the left hand manipulates the front teats. Where one has been accustomed to milking from but one side, however, he should be careful when first beginning to learn to milk from the other side, as the unusual position of the hands may cause him to take hold of the cow's teats in a way that will twist and pinch them, causing the cow to kick. With a little practice this is easily overcome.

Cost of Marketing Milk.

In bulletin 364 of Cornell University, A. L. Thompson, Ph. D., gives figures which show the actual cost of hauling milk various distances to factory or market. When each dairyman hauled the milk from his herd, the average cost per 100 pounds of milk for 38 farms was 7 cents, when the distance was one mile or less; 16 cents from one to two miles and 21 cents from 3 to 4 miles. Where the dairyman co-operated with one or more of the neighbors in hauling the milk, the cost per 100 pounds of milk was 12.4 cents for an average distance of two miles, 14.1 cents when the distance was 3.5 miles, and 9.5 cents for 5.6 miles. It will be noticed that the cost does not increase proportionately with the distance. As the distance from the factory increased the num-

ber of dairymen working together increased, which resulted in more economical hauling, as the number of trips were decreased, while the size of loads increased. Where it was possible for a number of dairymen to hire the milk hauled, the cost was again reduced. For an average of 1.7 miles milk was hauled for 5.6 cents per 100 pounds. It cost 8 cents to haul a similar quantity 3.6 miles, and 10.5 cents to haul it 5.8 miles. Labor was charged at 15 cents per hour for value. The time spent on the road man labor, 10 cents for boy labor, and 12 cents per hour for horse labor.

Milk was hired hauled for 11 cents less per 100 pounds than the individual could draw his own supply, that is, if his time was given any added the time of hitching and unhitching a team, and the time frequently lost at the factory. In all it makes the cost of marketing rather high for the individual. The cheapest way is for a number of dairymen to hire a man to haul the milk for the season. If this cannot be done, two or three dairymen taking turns in hauling the supply considerably reduces the expense of marketing milk below that of the individual method. Co-operation along this line might be worked to advantage in many dairy sections.

Selecting the Breeding Sow.

Look for a quiet, contented temperament. Discontented, noisy sows are cross at farrowing time, are seldom good milkers. Sows vary greatly in their milking abilities, and is more a family trait than a breaking quality. Sows that produce large litters are not always good milkers. A well formed udder is, of course, essential. There should be not fewer than twelve well developed, evenly placed teats.

The sow should be large and roomy, with great depth and length of side, but still neat and trim in outline, showing no tendency to flabbiness. She must be active, but not wild, in her movements.

Select from prolific families. She must raise a certain number of pigs each year to pay expenses, and each additional pig raised represents a profit. There is, however, a limit to the number of pigs in a profitable litter. Very large litters are apt to be weak and uneven in quality. Few sows can nourish more than fourteen pigs and an even litter of eight to ten pigs, large, lusty and strong, is more profitable than sixteen weaklings.

Never let your fowls paddle about in the mud and slosh; there should always be a covered run if possible.

Do not give a very heavy breakfast to hens; it makes them too lazy to do their duty. A lazy hen is soon a diseased one.

The Minorca fowl lays the best and largest white egg, but it is a non-sitter.

White Leghorn chicks are creamy white, with yellow legs and single combs. White Wyandottes are very like them, but have rose combs.

Buff Orpington chicks are a golden buff, with clean, white legs.

Rhode Island Reds are much the same, but have a darker stripe of brown running down the back.

When fowls take to feather eating, it is a sign they have not enough green food and not enough scratching material to amuse themselves with.

Not To Be Beaten.

A highlander who prided himself on being able to play any tune on the pipes perched himself on the side of one of his native hills one Sunday morning and commenced blowing for all he was worth.

Presently the minister came along and, going up to MacDougall with the intention of severely reprimanding him, asked in a very harsh voice, "MacDougall, do you know the Ten Commandments?"

MacDougall scratched his chin for a moment, and then, in an equally harsh voice, said: "D'ye think you've beat me? Just whistle the first three or four bars, and I'll hae a try at it."

## POULTRY

Occasionally one comes across a farmer who believes that common scrub fowls are harder and more profitable than the pure-breds, but the number is getting less every year. It costs no more, after the first purchase, to keep a flock of improved fowls than it does to harbor dunghills or cross breeds. Either kind when properly fed will eat just about as much as the other. Or if there be any saving, it is so trifling as between one or the other kind, that it is not worth noticing. If judiciously provided for and tended from the shell upward, as all fowls should be cared for, any of the larger breeds will make good eating at the proper age, and the hens of any one kind will lay an abundance of eggs, take them on the average, throughout the year. Among any of the pure breeds there will always be found some exceptionally good ones for breeding purposes or for exhibition. All these finer specimens will command the highest current prices among fanciers or amateurs who are about to commence the propagation of pure stock, and who are disposed to pay better prices for such prime specimens. At the same time, the imperfect birds, as to form, color and other Standard requirements, come to good size at maturity, and will pay much better for their keeping, at the right killing age, than will the runts of the small barnyard fowls, which cost quite as much to feed and to bring them to the proper state for slaughtering. The improved hens will, in a season, lay one-third more eggs in number, and of a larger size usually, than will the dunghills. As broilers, the young cockerels of the heavy breeds are fitted for this purpose at a much earlier age, and so are far more valuable in this respect than are the lesser sized or common varieties. In view, then, it has come to be well determined that pure-bred fowls are the most economical, the most valuable, and the most desirable for all purposes, and although any of these better breeds cost a little more at the outset, the product they yield in twelve months in eggs and meat alone, saying nothing of the income that may be had from extra good specimens and for eggs for hatching purposes, will be found far more satisfactory and more profitable than will the same number of the ordinary dunghill breeds. To think or argue differently would cause to go for nothing all the labor and research that has been given to poultry culture for fifty years by experts all over the country, in poultry plant, as well as in colleges. Their work has all been in vain, if the pure-breds are not better than scrubs—Canadian Farm.

Poultry Pointers.

Well-bred birds will produce eggs on less food than those of a common strain.

A fowl's first meal of the day should be a hot one, winter and summer.

White Wyandottes and Rhode Island Reds are both good, useful strains.

If you have a good feeding system, giving satisfactory results, don't change it; a new diet may not suit, and the hens may refuse to take on the old with such relish.

The best position to raise chicks is on a fine grass turf in which there is plenty of white clover.

A good food for chicks is equal parts of finely-kibbled wheat, finely-kibbled maize, and rolled breakfast oats.

Never let your fowls paddle about in the mud and slosh; there should always be a covered run if possible.

Do not give a very heavy breakfast to hens; it makes them too lazy to do their duty. A lazy hen is soon a diseased one.

The Minorca fowl lays the best and largest white egg, but it is a non-sitter.

## About the House

## Useful Hints and General Information for the Busy Housewife

### Selected Recipes.

**Onion and Egg Salad.**—Mince together five tablespoons onion, two hard-boiled eggs and part of one head of lettuce. Serve on lettuce leaves with boiled dressing.

**Sponge Cake Pudding.**—Bake sponge cake in ring basin. When cold, fill center with whipped cream and maraschino cherries. Pour thin chocolate sauce around outside and send to table.

**Cider Jelly.**—Soak a package of gelatin in a cupful of cold water for two hours. Add three cupfuls of sugar and the juice of three lemons, and the grated rind of one lemon. Dissolve this in a quart of boiling water. Add a pint of sweet cider, strain, pour into individual molds and chill.

**Steamed Salmon.**—Pick over and shred large can of salmon. Add salt, butter and tablespoon of lemon juice. Beat smooth and gradually fold in small cup of whipped cream. Put into buttered mold and steam three-fourths of hour. Turn out, surround with melted butter and parsley and serve.

**Strawberry Blanc Mange.**—One quart milk, one cup strawberry juice, one-fourth cup sugar, four tablespoons cornstarch. Heat milk to boiling point. Add sugar, strawberry juice and cornstarch which has been rubbed smooth in a little cold milk. Cook until thick and pour into wet molds. When firm turn out and garnish with whole strawberries and serve with sweetened, whipped cream.

**Mold Ginger Cream.**—One-half cup milk (one gill), yolks of two eggs, one ounce (two tablespoons) sugar, half as much ginger syrup as milk, one cup double cream, one-half ounce preserved ginger, three-fourths ounce gelatin. Make custard of eggs, milk and sugar. When cool add syrup and preserved ginger cut into dice; also gelatin dissolved in two tablespoons water and cream whipped carefully. Stir all together gently and turn out when required. Decorate with chopped jelly.

**Potato Nut Cake.**—This makes large cake, but it keeps moist and fresh a long time. Two cups granulated sugar, one cup buttered, four eggs, one-half cup milk, one cup mashed potatoes, one and one-half teaspoons cloves, two teaspoons cinnamon, one-half cup bitter chocolate, two cups flour, two teaspoons baking powder, two cups English walnuts, one teaspoon vanilla. Mix butter, sugar and yolks of eggs together. When thoroughly creamed add cold mashed potatoes. Beat again lightly, then add milk, flour, baking powder, spices, grated chocolate, English walnuts (broken into small pieces) and finally stiffly beaten whites of eggs, with pinch of salt added to them. Bake in shallow pan in moderate oven for about fifty minutes.

**Strawberry Roll Pudding.**—Two cupfuls bread flour, two tablespoons fat sugar, two tablespoons butter, three teaspoonfuls baking powder, one-half teaspoonful salt, about three-fourths cupful milk, one box strawberries, sugar. Make biscuit mixture of flour, salt, sugar, baking powder, butter and milk. Roll into oblong one-fourth inch thick and sprinkle thickly with one-half box of berries, quartered. Dredge with sugar. Roll like jelly roll, cut across in slices one-half teaspoonful salt, about three-fourths cupful water and pour onto well beaten egg white, whipping constantly. Add one teaspoonful lemon juice and serve at once.

### Plan Your Breakfast With Care.

Many a good housekeeper brings ennui to her home and gives harassed nerves to her husband because she gives too little thought to the problem of planning the morning meal. The failure may come from several causes, one housekeeper neglects the problem by serving the same breakfast day after day with few variations. The other goes to the extreme of making breakfast a full meal, which means an overloaded stomach and indigestion.

The breakfast menu must have enough food calories to keep the family well nourished. Variety and nourishment are the two cardinal principles in making your breakfast menus out. A well balanced breakfast includes fruit or cereal combined or alone. This should be supplemented by a principal dish, such as eggs and potatoes or chops and potatoes, a bread and a liquid.

Fruits are to be selected as they appear in the market. It is a debatable question which way they are digested more readily by the individual. Apples raw or cooked are wholesome, grapefruit and oranges are healthful and refreshing.

When it comes to selecting breakfast foods you have a large assortment, such as rice, oatmeal, cracked

wheat, cornmeal and many others. The main dish can be bacon, chops or eggs cooked in different ways.

Rice and wheat are especially good cereals because they are cheap and nourishing. Rice is used in the whole kernel. It comes in two varieties—brown and white. Brown is a better nutriment. Either kind should be washed well to take out all particles. It should be washed in cold water, so the kernels do not stick; the cold water takes out the starchy particles. Let the rice dry after washing and before cooking.

Breakfast foods especially require long cooking. These are better cooked in a double boiler for a long time, rather than for a short time directly over the fire. Have water salted and boiling well.

Then add cereal slowly, stirring constantly. Boil for a few minutes, then place upper part in lower part of double boiler.

### Useful Hints.

As soon as milk begins to steam it is scalded.

A green salad should be served with a fish meal.

If the oven is too hot sprinkle a little coal on the fire.

Good macaroni is of a brownish color, not pure white.

Don't use solid suds for colored clothes unless you expect them to look muddy.

Ferns will not do well if placed on the window sill. They cannot stand a draught.

It ruins the flavor of vegetables to remain in the cooking water after they are done.

A baked apple is more easily digested than apples prepared in any other way.

When boiling rice add a little lemon juice to the water. This will make the rice fluffy and separate the grains.

When preparing vegetables, cook enough so that there will be enough on hand for a cream soup for the next day's luncheon.

For washing windows, which should on them, use warm water with a tablespoonful of kerosene added to each pail of water.

When you crush dried bits of bread don't roll with a rolling pin but put them in a clean salt or sugar bag and pound with a potato masher.

For removing finger-marks from woodwork, window panes or porcelain than by wiping them with a cloth moistened with kerosene.

A one-piece nightgown which is worn out above the waist can be utilized by making a new top with an empire waistline out of the lower half of another nightgown.

A piece of paraffine in your darning bag will save darning. After you have finished darning a hole rub the paraffine on the right side of the darn. This will prevent wear.

Feather pillows should be washed by turning the feathers into cheese-cloth bags and soaking them in strong soap suds with ammonia in it. Rinse in hot soap water then in clear warm water and hang out to dry in the wind and sun.

Ink stains on mahogany can be removed by painting them with a solution of six drops of nitre mixed with a teaspoonful of water. Then rub well with a damp cloth and polish with a dry one.

Wash leather furniture very gently with warm water in which there is a little vinegar, wipe with a dry cloth and then restore the polish by mixing the whites of two eggs and a little turpentine, which is applied with a flannel.

### FLIGHT ACROSS ATLANTIC.

Norwegian Aviator the Latest to Discuss the Project.

The London Daily Chronicle publishes the following: A young Norwegian aviator, Mr. George Kulbeck, is at present engaged in preparations for a daring attempt to cross the Atlantic by aeroplane, or rather by means of what he calls a "flying boat" of his own design. He proposes to start from Jaederen, on the west coast of Norway, but to pay what may be called literally a "flying visit" to England on the way.

"My flying boat" he says, "is built exclusively to solve the problem of the Atlantic, and is, therefore, constructed as a seafaring boat, its hull being entirely of mahogany. It has two seats, placed side by side, so that the aviators can steer by turns without changing places. Another peculiarity is the mechanism for starting the flying boat's motor, which can be effected by the aviator without leaving his seat.

"The machine is a biplane and has a plane surface of fifty square metres. It can lift a total weight of about 6,000 pounds. The motor is of 250 horsepower. It is water-cooled and has a velocity of 18000 revolutions a minute. With its full cargo the flying boat can attain a speed of 112 miles an hour, so that we should be able to strike the American coast in a little more than twenty-four hours."

FEEDING HUNGRY YOUNG IRISH.

For some days during the recent Irish Rebellion, food was practically cut off from the poorer districts of Dublin. The picture shows the beginning of a joyful dry bread banquet by hundreds of youngsters gathered together in a narrow street, and supplied with bread by the clergyman in the centre of the group.

## ROMANCE OF JAS. J. HILL'S LIFE

HE WAS ONCE A DOCK LABORER IN ST. PAUL.

A Glimpse of Some of the Characteristics of the Great Railway Magnate.

One of the intimate friends of the late J. J. Hill, the greatest of American railroaders and the man who opened up the North-Western States of the American Union to settlement a generation ago, is Mr. Elias Rogers, of Toronto, says the Toronto Star.

Mr. Rogers knew J. J. Hill in the early days, having met him first in St. Paul in 1882. Hill formed a strong affection for Mr. Rogers, largely because he had gone to a school in Rockwood presided over by Rev. William Wetherald, a member of the Society of Friends, of whom Mr. Rogers is also a member.

"J. J. Hill was the biggest railroad man in the United States or in the world," said Mr. Rogers. "There was not his equal. Van Horne was a friend of his and there were many points of similarity, but Hill made Van Horne. He brought him to the C.P.R. Strathcona and Stephens wanted Hill to manage the C.P.R., and Hill took hold for a while, but he picked Van Horne to take his place on the C.P.R. and went back to the Great Northern."

### Was a Dock Laborer.

"J. J. Hill was a big looking man, although he was not so tall as I. He was square-shouldered with a leonine head. He was blessed with a very strong physique. He had worked as a boy on the farm, and when he came to St. Paul first he worked as a stevedore on the docks. They say the stump is still to be seen of the last tree he chopped at Rockwood. A man named Harris was working with him that day. Harris since came to work for me, and he told me the incident. Hill, who had conceived the idea of going West, laid his axe against a tree.

"That's the last tree I'm going to chop," said he.

"He started West on a ten dollar bill next day.

"Hill was a particularly quiet spoken man," continued Mr. Rogers. "But his words always carried weight. He was well read, one of the best read men in America, I suppose. He was well up on such subjects as the modern science of agriculture, botany, flowers, chemistry of soil, and so forth. He was strong in geology. There were few subjects he was not thoroughly familiar with, but he had no fads. Among other things he was a connoisseur on precious stones and jewelry, and had a cultivated taste in matters of art. But he was self-educated, the schooling he had received at Rockwood being chiefly valuable for teaching him how to learn. He had a prodigious memory.

### Fond of Old Memories.

"He was fond of indulging in reminiscences. He used to talk to me for an hour at a time of the old days when he was a barefoot boy in Canada. There was one house where he used to call, and the woman there always used to give him a piece of bread and butter, although he never asked for it. He confessed to me that he was always very glad to get it, just the same.

"Hill always had a remarkable capacity for details, but he maintained his breadth of vision. He was opposed to extravagance and display, but was never penurious. He lived in a very nice house in St. Paul, with beautiful grounds around it, but it was not a showy place. He had another house in New York. Mrs. Hill is one of the finest ladies I have ever met. She is not a society woman, although she is accepted everywhere, of course. She is a motherly woman. She is a Roman Catholic, but of the broadest type.

"Hill had a model farm at St. Paul and a laboratory where he kept chemists employed. He had model farms dotted throughout the territory of his railroads to the coast. Here he experimented with crops, and had samples of different soils sent for analysis to St. Paul. Then he would determine what crops were best adapted for each particular region, and what fertilizer was the local requirement. This information he would publish for the benefit of the people, together with the comparisons of the crops in the different districts under the different treatments. His farms could generally produce twice what was produced on the farms of their neighbors. In this way he improved the agricultural standing of the territory through which his lines ran. His methods were always practical rather than mere academic or theoretical. He used to sell improved seed at a nominal figure. He also introduced the best stock. When he became impressed with a farmer as a progressive, common-sense man, he would often present such a man with a fine breeder, and thus improve the stock of his district.

### Kind to Animals.

"Hill was very kind to animals, and it was because he saw the stranger's horse was tired, that time at Rockwood, that he carried a pail of water to it. The stranger, in appreciation, gave him a copy of an American newspaper, where he read that men were wanted in Minnesota, and wherefrom he derived his determination to go West.

"Hill wanted to fight for the North in the Civil War in the States, and organized a company. They would not let him go, however, because he was blind in one eye. It was not an apparent infirmity, in fact no one would ever have known it. His other eye was strong and did all the work. He told me himself a couple of years ago that one eye was blind or I would never have known it. He did not wear glasses except in later years to read by.

"He owned most of the First National Bank at St. Paul, and the controlling interest in the Northern Pacific and the Great Northern. The three institutions occupy one building, newly completed, which takes up a whole block and constitute the finest building in St. Paul. The bank is in the centre, with a glass roof, one or two stories high. This allows the Great Northern and the Northern Pacific office buildings to tower up each side, and have plenty of light all around them.

### Helped Strathcona.

"J. J. Hill helped to make Strathcona's fortune. I remember talking to Hill during the South African war and remarking on the big expense the Strathcona Horse must be to Sir Donald."

"He can easily stand it," said Hill. "I've made more than that for him in one day that he knew nothing about."

"Hill and Strathcona met the first time on the Red River trail between St. Paul and Winnipeg. Each was traveling with a dog sleigh.

"At the time of the first Red River rebellion at Fort Garry, when the people were housed up in the fort, it looked as if they would be starved out. Strathcona sent word to Hill asking if he would get word through to Fort Garry that there would be food there by the time spring opened up. Hill could not trust anybody, so he went himself, traveling by dog-sled a distance of over 400 miles, and taking an Indian with him to cook and help with the dogs. The Indian proved a traitor, however, and when about half way there, he refused to do as he was told, Hill got suspicious. The Indian had been told to cook breakfast, and not obeying, words followed, when the Indian attempted to seize the rifle. Hill was too quick for him, and grabbed it first. He told the Indian to run.

"If you look around or let up your stride until out of sight you're a dead man," said Hill. The Indian went straight ahead and stayed on. Hill then started for Fort Garry alone, traveling all day and all night, to get away from any possible pursuit. He was familiar with the Indians around Fort Garry, and was able to work into the barracks during the

## THE FASHIONS

### For the June Graduate.

Quite as important as the June bride is the June graduate. She must be just as daintily dressed in misty white, and her future is equally as promising.

It is no longer considered the proper thing for the graduate to be elaborately dressed in silk or satin; many of the daintiest frocks are fashioned by the graduate herself, from the sheer voiles, organdies, nets, or from the dainty flouncings of lace or embroidery. The high schools favor the idea of the graduate fashioning her own dress; some so far as to suggest the material and the cut for the entire class. Perhaps this does not appeal to the average girl, with her ideas of individuality, but the notion of making her own frock should appeal to her, for this very reason, that she may add little distinctive touches which bring out her own personality.

### Simplicity in Cut and Material

The very simplest, most youthful models are chosen for the June graduate. They are usually of organdy, or one of the sheer cottons, very sparingly and simply trimmed. Crepe de Chine or one of the very soft taffetas or satins may also be used, if preferred, but the cottons are more in vogue and daintier.

Net, which is such a general favorite for the typical summer dress, is quite as well liked for the graduation dress and proves extremely practical. White cotton net, combined with taffeta, voile, or organdy, fashions the daintiest of graduation frocks; one which may be worn later for summer afternoons, or the dance.

Skirts are short, sleeves range from the short puff, so charmingly in keeping with bouffant skirts of the moment, to the three-quarter or full length sleeve of organdy, net, Georgette or chiffon. Round necks are particularly modish, although the square neck and the V are also liked. If one wishes to be at the height of the mode, the graduation frock must boast a hooped petticoat. These are so softly boned and so unobtrusive

Commencement Frock of Voile

that the frock loses none of its simplicity but gains in grace.

### Shoes, Gloves and a Fan

White kid pumps and white silk stockings are dainty and carry out the "all white" notion; black patent or kid pumps and black stockings, however, are in quite as good form. White silk gloves, if any gloves are worn, are better than kid, being cooler. A small white fan may be carried.

darkness and deliver his message. He stayed there a short time, and when he started back the river had broken up. He was waylaid by a party of Red Indians and forced to cross the river. This he did by swimming among the ice floes while the Indians were shooting. He got his dogs around him and crossed all right, but one of his dogs was shot while in the water. He made for a light and was taken in by a settler and put to bed. He was unable to travel for two or three days, but came out none the worse in the end.

### Couldn't Be Idle.

"Hill used to plan vacation trips of two months' duration down the Labrador shore and elsewhere. He was very fond of fishing. But he never stayed out the period he had planned. His business instincts got the better of him. He could never stand being idle long.

"I saw James J. Hill in New York only five weeks ago, and he looked to me as well as ever he did, full of life and energy. He always moved as if on steel springs. I cannot understand how it was that the operation killed him. I thought he was likely to live for ten years or more."

## WEAR FLEET FOOT SHOES

Cool, Cosy and Comfortable

WORN BY EVERY MEMBER OF THE FAMILY

SOLD BY ALL GOOD SHOE DEALERS

ried, both for use and ornament, for fans are extremely dainty this summer. Feathers are being used in the new fans. There are small ostrich feather fans and plain cock feather fans in white and colors. The small spangled silk fan is still favored. Any of these make most acceptable gifts for the graduate. Although the plainer the hair is dressed the better, a bit of tulle or a single comb may be worn, and Colonial silver or rhinestone buckles may adorn the pumps. Very little jewelry, if any, is permissible; a small brooch or a tiny Lavalier is quite enough.

### Summer Frocks of Organdy

Organdy is one of the most generally favored of materials for the summer frock, whether for graduation, garden parties, or summer dances. It comes in all the delicate pasted colorings now favored and is also patterned with dainty, conventionalized designs, on white and colored grounds.

The plain and figured voiles are effective also, and there are many attractive combinations of voile and taffeta, organdy and taffeta, net and organdy and the like.

It is considered most Frenchy to combine organdy and taffeta, or net and taffeta. This is usually done in a frock which one has no idea of

Another Dainty Model for the Graduate

sending to the laundry, although there are at the moment taffetas and satins which wash very well.

The first frock illustrated here is a jumper model adapted from one of Poiret's designs. It is developed in net and taffeta and is a charmingly simple model for the girl who wishes to make her own frock for commencement.

In the second design is a particularly effective frock of plain and figured voile. The figured material is white with a white mercedized ring. The quaint neck line, puffed sleeves and full skirt, make it a very pleasing and youthful frock, suitable for graduation exercises or summer parties.

### The Garden Party Hat.

It will do no harm to tell of a hat or two, which, worn with the graduation frock after that wonderful day will complete a most effective garden party, or summer afternoon costume. There are large hats of organdy in the dainty colorings, just the thing for the organdy frock; large black and colored wenchows, stenciled with some quaintly conceived and colored figure, flower or bird; wide brimmed leghorns, with a flower or two on their drooping brims; and many others, for the large hat is again modish. These stenciled hats offer alluring possibilities to the girl who paints or understands the mixing of colors.

These patterns may be obtained from your local McCall dealer or from The McCall Company, 70 Bond St., Toronto, Ont. Dept. W.

### Far Better.

Clerk—Don't you want a burglar alarm?  
Knicker—No, I should prefer some thing to put me to sleep if they come.

## HEALTH

### Tonsils and Teeth.

Aprominent physician is thus quoted:

For many years the surgical profession has realized the importance of germ infection in the causation and complication of surgical affections.

It is only within the last few years that the medical man has come to determine that in the so-called medical affections infection is the causative factor, notably in rheumatism, influenza, and similar diseases.

The result of extensive research investigations has proved beyond any doubt that direct infection is the cause of many more numerous and serious conditions, as disease of the heart muscle (myocarditis), of the structure of the kidney (nephritis), and very recently the evidence is conclusive that ulcers of the stomach are infections adjacent to it, diseases of the gall bladder (even without gallstones) are caused directly by infection.

The common source of such infection, the central focus, is very often in the tonsils or teeth.

Many of us older ones, who have spent considerable money for dental work—fillings, bridge-work, caps, etc.—now are shown by the up-to-date dentist that there are unsuspected pockets of pus about the roots of our teeth. Much previous work, thought to be so perfect, has to be undone and radical measures taken to eradicate the dangerous foci of infection.

Of course, acute attacks of diseases known to be bacterial in origin cause the modern doctor to search out the cause, but those more obscure conditions of "poor health" or "general debility" that are thought to be the necessary attendant of middle age have been passed over with little study, and medical treatment has been limited to "tonics," rest, change of scene, etc., when really the cause of such impaired physical vigor was due to infected tonsils, Riggs' disease or pus foci in the roots of the teeth. Removal of the cause automatically cures the effects. Hence the necessity for careful and regular attention to teeth and throat.

### Acute Rheumatism.

Rheumatic fever, although serious and painful enough, is not feared as it used to be. We have discovered that salicylate of soda has a specific action in this disease; it relieves the pain, reduces the fever and shortens the attack.

The great danger in rheumatic fever is its tendency to attack the heart. In former days it was almost always the case that a patient rose from an attack with a permanently damaged heart. But if the salicylate treatment is begun early enough and pursued perseveringly, that unfortunate complication may usually be warded off. In other respects, the treatment is that suitable to any acute fever, except that since there is no fear of infection for others, it is not necessary to isolate the patient.

On the other hand, the pain is so intense, and the patient is in such dread of a clumsy hand or a jarring footstep, that it is best to keep him virtually isolated while the attack is at its height. The patient should have the largest and best ventilated room that can be spared, and he should stay in bed for some time after the actual fever has disappeared. There is often a good deal of sweating, and that should be encouraged, for by that means much of the poison is carried from the system. The patient should be given plenty of water, for that, too, helps to eliminate the poison.

The inflammation is very likely to move from joint to joint, and the treatment for the local pain of course moves with it. If the pain is severe, it may be necessary to protect the joint by a cast, so that the bedclothes shall not press upon it, or to wrap the joint in layers of cotton wool. Sometimes hot fomentations give relief.

There are few illnesses in which it is so necessary for the physician to be constantly watchful. The salicylate of soda should be given only under his orders, since some people take it well, whereas others react badly. Moreover, only a trained physician can watch the heart intelligently and vary the treatment in accordance with its condition.—Youth's Companion.

### Aging Champagne a Deadly Trade.

One of the most deadly callings, and one of which very little is known, is that of the workers in champagne cellars. The work, which is light and without any obvious elements of risk to health, consists in turning over the bottles of champagnes so that the vine may be clear and transparent and absolutely free from sediment. The men who do this work spend eight or ten hours a day in the dark wine cellars turning over bottles by the thousand. This monotonous duty they discharge day after day in semi-dark solitude. These combined conditions affect the nerves and health of the workers so seriously that few of them can continue at their posts until middle age.

### Two Dollars, Please.

"What would you recommend for somnambulism, doctor?"  
"Well, you might try insomnia."

Facts that explain this store's ever-increasing trade. No secret, but simply having the stocks, qualities, values and service.

## THREE SPECIAL NAVY SERGE SUITS, \$19.00, \$22.50 AND \$25.00 \$5.00 SAVED ON EACH SUIT

100 per cent. satisfaction, 100 per cent. value, 100 per cent. service—the secret of increasing sales.

These three lines are made from the celebrated Vickerman's Serges, pure Saxony yarn and absolutely fast color dye. When these are sold out the prices on new and inferior goods will be at least \$5.00 per suit more. We anticipated the difficulties in future buying and a year ago placed double orders. Only on this account can we offer these prices.

### Splendid Tweed Suits

Well tailored, \$10.50 to \$18.50. Including the new patterns in checks and pin spots, in new spring colorings, navy and brown mixtures, as well as the popular greys.

### The Boy's Clothing Store

Nifty styles in mannish models. Prices \$3.50 to \$12.00. The little chaps are well remembered when placing clothing orders. Every detail as to manufacture examined by experts before garments are sent to us. The manufacturers know that if any defective garments land at this store "Back they go."

### The Young Man's Hat Store

"King Quality" and "Thoroughbred" Brands handled. Same quality sold in city furnishing stores at 25 per cent. higher than our prices. English Felts in all the new blocks and new combination colors, \$2.00 and \$2.50.

### Admittedly Different

and very correct for this season's dresses:

#### JUNE FABRICS—

Fancy Voiles, Fancy Muslins, Fancy Shantung, Fancy Georgette Crepes, Fancy Habutai—50c to \$1.50.

#### JUNE SHADES—

Blue, Flesh, White, Black, Maize, Rich Laces and Edgings for trimmings, very moderately priced for such new and up-to-date stuff.

#### Another Shipment of Middies

75c, \$1.00 and \$1.25.

#### Handsome Sheer Waists

\$1.00, \$1.50, \$2.25 up to \$5.00.

#### Correct Sport Skirts

White Repp, Gabardine and Bedford Cord—prices \$1.50 to \$3.50.

#### White Shoes Popular

Colonial and Pump—For Ladies, \$1.50 to \$2.50. For Misses, \$1.00 to \$1.50. For Children, 75c to \$1.25.

Good reliable merchandising at a price is the thing that every thrifty, live customer is looking for. We have it.

### Electric Control Buttons at Your Finger Tips

Naturally, you want a car that can be operated easily—you realize that the extent of pleasure and safety in driving depends upon the ease of control.

In most cars the details of control seem to be planned with an eye for convenience in assembling the various parts.

But the Overland control was arranged just as you would arrange it if you were designing a car for your own convenience.

You control the electric magneto, the electric lights, the electric horn, with your finger tips, without bending forward. To start the motor you merely touch a foot button in the floor.

A woman or girl can drive the Overland in safety. Its control is easy and instinctive.

Let us tell you about the other Overland advantages.

F. G. HUMPHRIES, Agent - Phone 60 - J. N. CURRIE & CO. Glencoe

## The Transcript

Published every Thursday morning from THE TRANSCRIPT BUILDING, Main Street, Glencoe, Ontario. Subscription—addresses in Canada and all points in the British Empire, \$1.00 per year; to addresses in the United States, \$1.50 per year—payable in advance. ADVERTISING.—The Transcript has a large and constantly growing circulation. A limited amount of advertising will be accepted, at moderate rates. Prices on application. PUBLISHING.—The Transcript has a superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programmes, cards, envelopes, office and wedding stationery, etc. Address all communications and make remittances payable to A. E. SUTHERLAND.

THURSDAY, JUNE 8, 1916.

The old rat crept out of his hole, tried to break through the barriers that surrounded it, got severely drubbed, and sneaked back badly crippled and told the little rats what a great victory he had.

"Pay as you go, and if you can't pay don't go" is a good motto for our county councillors to remember when they are discussing the raising of the patriotic fund. We don't want to saddle our children with our debt; they will doubtless have their own worries.

Whether the war lasts or ceases there must continue an undiminished demand for horses. When peace comes there will be a long period of replenishment. Then quality as much and even more than quantity will be required. Hence the evident call to every Canadian farmer to breed and to breed to the best available, to utilize his mares for production and to secure the immediate services of the best pure bred sire of type in his neighborhood. It will pay.

The tragic death of Lord Kitchener will not greatly affect the course of the war. Kitchener is gone, but Kitchener's army remains to do the work for which he fashioned and trained it. The great organizer had almost finished his task. To Sir William Robertson the nation will now turn, confident of his capacity to use wisely, in co-operation with General Joffre, the millions of men raised and equipped during the past twenty-two months through the boundless energy and driving force of the late Minister of War.

The poultry business in this country is reaching a provitable proportion. Many are breeding fine birds and over the county can be found fine poultry farms. The best birds are being raised and the profit is good. The old scrub fowl is hard to find in this section, even if the people as a whole are not in the business as an occupation. The people are learning that it is just as easy to raise thoroughbred fowl, horses, sheep and swine as it is scrub stock, and the profit is much more. Registered swine is another industry that is engaging the attention of the farmers.

The farming business is now coming to a point where it is generally recognized as the most prosperous business, offering the best future and the brightest prospects. That being so, there will be no trouble about keeping the boy on the farm for he will be keen to see that it is the best place to make money, gain the respect of his fellowmen and obtain that standing among men, which is the ambition of every right-minded boy. It is to gain these things that he has heretofore gone to the city; it is to gain these things that he will hereafter stay on the farm and that will send the youths of the cities to join him. All he wants to know is as to what pays best in the sum of human happiness and comfort and success. It is now being demonstrated that in all these things the farm offers the best opportunities.

We have several times heard the opinion expressed that the terrific and continuous artillery duels in Europe were the cause of so much wet weather on this continent. That heavy explosives have a local atmospheric influence is generally admitted. At the battle of Trafalgar, in October, 1805, in which it will be remembered the British Fleet administered a crushing defeat to the combined fleets of France and Spain, the hero of the battle, Admiral Lord Nelson, who was fatally wounded in the engagement, warned his officers before he died, to look well after their ships, as the cannonading was certain to be followed by heavy downpours of rain. However, it is hardly possible that at this distance from the scenes of conflict—more than 3,000 miles—the heavy firing is in any way responsible for the season's almost continuous rainfall. Similar weather to what we are having is being experienced a thousand miles further west, or over 4,000 miles from the battle front.

THIS A MARVELOUS THING.—When the cure effected by Dr. Thomas' Electric Oil are considered, the speedy and permanent relief it has brought to the suffering wherever it has been used, it must be regarded as a marvelous thing that so potent a medicine should result from the six simple ingredients which enter its composition. A trial will convince the most skeptical of its healing virtues.

## NAVY IN PARLIAMENT.

John Ward is One of Britain's Most Remarkable Leaders.

John Ward, who began life as a navy or common laborer, and is now a member of Parliament and a lieutenant-colonel in the army, is one of the most remarkable leaders of Great Britain in this present critical time. He has organized the Navvies' Battalion, which he himself explains as follows: "This is a diggers' war. Navvies are experts in trench-making, and they know things about side supporting and intricate timberings that even the army has not yet thought of."

Ward stands six feet two inches tall, and is broad in proportion, with the fair hair of a Viking. When he was seven years old he began work for a farmer. He had no education, and it was only by puzzling out the letters in the names of the farmers and their farms on the wagons going to Andover, that, with a little help from a kind-hearted woman, he learned his alphabet at the age of twelve.

A little while later he ran away to join the British navy, but he was refused because he did not have his parents' consent. He sought to sleep in a freight car and landed in a police station, and later in a workhouse, where he was set to picking oakum and scrubbing the floors. Kindly visitors learned his story and sent him home. He worked for a while as a navvy and then joined the army. He fought in the Sudan with such gallantry that Queen Victoria decorated him with a chaplain, and he received the Khedive's Star.

Once back in England he became a navvy again, slept under haystacks, worked on the Andover and Marlborough Railway, and subsequently on the Manchester Ship Canal. Then one day the navvies grew dissatisfied with the conditions of work, and a few remarks from John Ward showed them that he was the man to lead them. The result was that, thanks to his untiring endeavors, the Navvies' Union shortly afterwards became an accomplished fact. This was in 1889. The formation of the Union, by the way, was no easy job, for a navvy rarely stops more than a year in any one place, and even sailors are no more difficult to organize.

Nine years ago Ward was returned for Parliament as member for Stoke-on-Trent, and during his subsequent election contests, he has shown that he knows how to put up a political fight.

### Queer Shells.

A wounded Australian in London tells of some quaint shells which were used by the Turks in the Dardanelles. They have been dubbed by our soldiers "footballs," or "plum puddings," and are dispatched from the old-fashioned muzzle-loading guns of large calibre, that were used to shell the British Fleet that forced the passage of the Dardanelles a hundred years ago. They are perfectly round, and each shell has a small ball attached to it by a chain, apparently to ensure convenience in handling.

The average "football" weighs about 150 lb., and is made of cast iron quite 2 in. in thickness. The chain attachment causes a curious singing noise as the shell passes through the air, like that of the singing of a very noisy but melodious bird. These round shot are easily visible as they come hurtling through the air, and inspire no dread among the allied soldiers.

### Miraculous Cures.

The case of the blind Canadian private whose sight was restored miraculously through the shock of being thrown into the sea from the torpedoed liner Hesperian is but one of many startling cases of marvelous recoveries which have occurred during the war.

A few months ago an entertainer was giving a performance before wounded soldiers in a Bristol hospital, when Corporal Stevens, of the 2nd King's Royal Rifles, who had been rendered deaf and dumb in Flanders, suddenly burst into loud laughter, and to the amusement of doctors and nurses showed that he had miraculously recovered his speech and hearing.

In another case a man who had been rendered deaf and dumb through the bursting of a shell at Mons, suddenly recovered through the pain of a wound.

### Two Questions.

A good story is told by a Liverpool officer back from France. In the rear of the British lines a concert was being given for the entertainment of the Tommies. Among the contributors was a soldier who purported to be a piper, but whose performances inevitably invited a challenge. He was vigorously hooted by a section of the audience, and amid the din a raucous voice rang out, "Send that silly fool away!" The unkind aspersions, coupled with the violence of the language, moved one of the army chaplains, who was "running" the concert, to protest. He asked who had insulted the piper. There was no response. He persisted: "I want to know who called the piper a silly fool." A momentary silence was broken when a burly Irishman rose from his seat and said, "And what I want to know is who called the silly fool a piper!"

### Famous Unawares.

King George was once enjoying the hospitality of a prominent peer at his country seat near the scene of one of Cromwell's historic battles. Strolling out one day by himself, the King met the village blacksmith returning from a shoeing expedition. "I say, my good fellow," said His Majesty, genially, "I understand there was a big battle fought somewhere about here."

"Well—er," stammered the blacksmith, recognizing the saluting the King, "I did have a round or two with Bill, the potman, but I didn't know your Majesty had heard of it."

A BRANTFORD SLATE. 1—Fibre Base. 2—First coating of Asphaltum. 3—Second coating of Asphaltum. 4—Coating of crushed slate.

## Yesterday and To-day

Wooden shingles of twenty or thirty years ago were of splendid quality, and answered the purpose very well. There was nothing better at that time. In fact no other roofing material was on the market. Yet who would think of putting on shingles to-day? When the deterioration of wooden shingles became noticeable, efforts were made to invent a roofing that would not only be an economical and permanent substitute for wooden shingles, but one that would outlast them in service.

Brantford Roofing was the result. It has "made good." The secret of its success is this: First, the base is of pure, long-fibred felt which is thoroughly saturated with asphalt or mineral pitch. The asphalt and crystal roll roofings are then thickly coated with crushed rock particles, which adhere tightly to that base, and the whole forms a permanent fireproof, water-tight roof.

Brantford Asphalt and Rubber Roofing are made in three different weights. Crystal is made in heavy weight only, and in red or green natural colors. All three grades are pliable and well suited to either flat or steep roofs.

## Brantford Roofing

comes in rolls with protected ends. The layers do not stick together and the roofing is easily laid. It requires no painting or tarring when put on. It does not crack with the cold nor melt with the summer's heat. It does not curl, split, rust or blow off. It gives permanent weather and fire protection at a reasonably low initial cost.

May we send you our roofing book and samples? They will show you the real value of these roofing materials.

Mails received—London and East, 8 a.m.; G.T.R. East, 7 p.m.; G.T.R. West, 5:45 a.m.

One of the largest pieces of timber that has ever been cut in America passed over the Wabash railway recently. The "pole" was 39 inches in diameter and 106 feet in length. It was en route to New York city, where it is to be used in connection with a wireless station. The gigantic pole was cut from timber on the Pacific coast near Tacoma, Washington. Five flat cars were required to carry the pole.

We took 'em off but we put 'em on again.

WE ARE HERE TO SERVE YOU

A recent letter from the West tells of the death at Winnipeg last week of Mrs. Elliott, youngest sister of Mrs. R. F. Howard, formerly of Glencoe.

Rev. Wm. Lowe, of Lucan, will preach at a service for the Masonic fraternity to be held in St. John's church, Sunday evening, June 18th.

The ladies of Glencoe interested in Red Cross work are requested to meet the agricultural board at the town hall this (Thursday) evening at eight o'clock.

Rev. Mr. Howson, the retiring pastor of Glencoe Methodist church, who is being superannuated, has bought a home on Askin street, London, and will move from Glencoe next week.

An amendment to the municipal law authorizes urban municipalities to increase the poll tax to \$5. Another amendment makes assessors liable to a penalty if dogs are not entered on the roll.

Rev. T. L. Fowler, of West Lorne, will preach anniversary services in the Church of Christ, Moss, on Sunday, June 11th. Services at 11 a.m. and 5 p.m. You are cordially invited to attend.

R. C. Twiss was the delegate from Glencoe Methodist congregation to the annual conference last week at Kingsville, and J. N. Currie was the delegate to the district meeting at Thamesville.

The invitation extended some time ago to Rev. Mr. Irwin, now stationed at Wheatley, to become pastor of Glencoe Methodist church has been approved by the stationing committee of conference.

Mrs. Doull was taken ill while at West Lorne Friday evening with the dramatic club and on Sunday was taken to London and an operation performed for appendicitis. Prospects are good for her recovery.

As the result of a vote taken last Sunday in the Methodist church of Newbury Mrs. Cecil Dobson and Mrs. Edward Haggitt were elected to represent the interests of that church on the official board of Glencoe circuit.

Thos. Ed. Yates writes from McEachern, Sask.:—"We cannot do without the Glencoe Transcript. We are having a good spring and lots of rains, and crops are looking good for another bumper harvest for Southern Saskatchewan for 1916."

Two new passenger trains were placed on the London-Windsor division of the C. P. R. on Sunday, both of which are scheduled to leave London. There are now three trains each way on week days. The new time card will be found in another column.

The ladies of the Methodist church extend a cordial invitation to the members and friends to a social evening to be given Monday, June 12, in the lecture room of the church to say good-bye to the Rev. W. G. Howson and family, who are leaving Glencoe to make their home in London.

Thomas Howell, secretary of the Brotherhood Federation of Canada, addressed a gathering at the town hall on Monday evening in behalf of the Belgian relief work, and on Tuesday, in company with Mr. Snitter, made a canvass of the village and met with a hearty response for this most worthy object.

D. M. Webster's Shetland pony "Daisy" has a cold foaled June 1st, which is quite a curiosity to the country and the pet of the little folks at Mr. Webster's home. It weighs 12 1/2 lbs., just a nice animal, and has already been taught to "shake hands."

The children have named it "Violet," after its grandmother.

Pte. C. Brown, of D Company, 135th Battalion, who was hurt by jumping from a train at Komoka some days ago, is in a serious condition in the military hospital at Witley Barracks, London. He is injured internally and there is but little hope for his recovery. Pte. Brown is from near Bothwell and is a grandnephew of J. E. Eastman, of Glencoe.

Anniversary services will be held in Glencoe Presbyterian church on Sunday, June 25th, when Captain the Rev. N. H. McGillivray will preach.

Captain McGillivray was recently granted leave of absence as pastor of Knox church, St. Thomas, to become chaplain of the 91st Overseas Battalion. Miss Graham of Dutton, the others will assist the choir in these services.

At a memorial service held in the Presbyterian church on Sunday evening the pastor, Rev. Mr. Veir, paid a touching tribute to the memory of the late Private Gordon Newport, who was killed in action in France. Rev. Mr. Owen, assisted in the memorial service. Mr. Gird, of the Methodist church, was unable to be present through illness. Suitable music was given by the choir.

The ladies of the Bethel Red Cross Club will give a garden party on D. E. McAlpine's lawn, sidewalk 12, north of Appin, Thursday evening, June 15th, for which an array of prominent entertainers has been secured from London, Strathroy, Wyoming and Melbourne, including a popular orchestra. A Red Cross autograph quilt and Union Jack combined will be drawn for. There will also be refreshment booth and bazaar counter.

### SPECIAL NOTICES

Carload of tile received.—McPherson & Clarke.  
24c trade and 23c cash for eggs at Mayhew's.

Best Manitoba flour for sale at McLaughlin's Bakery. 9511

Marriage licenses issued by D. H. McRae, Strathburn. 9511

Pigs for sale—eight weeks old.—Simpson Goff, Gore.

Big sale of Middy blouses and newest summer waists at J. N. Currie & Co's.

You make no mistake by going to Sexsmith's for shoes. Repairing a specialty.

Wanted—girl over 15, assist around house. No heavy work, no farm.—Box 75, Shetland. 17-4

Particular people insist on highest standard shoes, such as the stone handles. "Slators" for men, "Empress" for women. Large stocks at J. N. Currie & Co's.

For sale—as pretty a driving mare as ever wore harness, and as nice a set of harness as horse ever wore. Sold together or separate. Apply to T. E. Armstrong, box 65, Newbury.

## NOTED MUSICIAN OF MONTREAL

Advices The Use Of "FRUIT-A-TIVES",  
The Famous Fruit Medicine.

MR. ROSENBERG  
589 Casgrain St., Montreal.

April 20th, 1915.

"In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-tives'." I was a sufferer from these complaints for five years, and my sedentary occupation, music, brought about a kind of Intestinal Paralysis—with nasty Headaches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try "Fruit-a-tives", and now for six months I have been entirely well. I advise any one who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try "Fruit-a-tives", and you will be agreeably surprised at the great benefit you will receive". A. ROSENBERG, 589, a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

### PERSONAL AND SOCIAL

—Rev. Mr. Ford is confined to his bed with illness.  
—L. Snitter and G. A. McAlpine left on a western trip yesterday.

—Miss Pelfrey, of Byron, spent the week-end at Dr. McIntyre's.

—Mrs. McKellar, of Strathroy, is visiting her niece, Mrs. Dan Hagerity.

—Reeve J. A. McLaughlin is at London this week attending county council.

—Miss Etta McIntosh and Miss Jean Harrington were in Bothwell on Sunday.

—Mrs. W. R. Andrews and children, of Bothwell, spent the week-end at S. Hart's.

—Miss Mae Simpson is visiting friends at Niagara Falls and Churchville, N. Y.

—Dr. Angus Cowan, of Detroit, visited his brother, J. C. Cowan, here last Wednesday.

—Mrs. Wilson, organist of the Methodist church, has returned from a trip to Ecuador.

—Mrs. Annie McLaughlin, of Fleming, Sask., formerly of Moss, is visiting relatives in Ekfrid and Moss.

—Dr. and Mrs. Angus Graham and Mr. Richter and daughter, of London, motored to Glencoe on Sunday.

—Mrs. H. Pickles and daughter, of Winnipeg, and Mrs. W. Williams and children, of Berlin, are visiting at J. A. McLaughlin's.

—Rev. George Weir, Glencoe, and Rev. D. C. Stephens, Melbourne, left to attend the general assembly in Winnipeg on Monday.

—Mr. and Mrs. D. A. Graham and son and Art. Parkin, of Strathroy, motored over to Glencoe and spent Sunday at Archy Graham's.

—Miss B. Vause, accompanied by her guest, Mrs. Wineman, is in London attending the graduation of the Victoria Hospital nurses.

—Mrs. Robert Gubbins, accompanied by her daughter, Mrs. E. G. Gubbins, left on Thursday to visit her son, Dr. R. M. Gubbins, of Battle Creek, Mich.

—Rev. John Crawford, of Essex, is visiting for a few days his sisters, Mrs. Peter Campbell, of Ekfrid, and Mrs. Neil McVicar, of Moss, and renewing old acquaintance.

—J. A. Ferguson, of the Royal Bank staff, Niagara Falls, spent the week-end at his home near Alvinston. He has since been transferred to one of the Toronto branches.

—Mr. and Mrs. T. A. G. Gordon and children, of Sarnia, Mr. and Mrs. John Irving and daughter Helen, of Alvinston, and Archie and Miss Winona McLaughlin, of Cowal, spent Sunday at Mrs. Catherine Huston's on the Longwoods Road.

—Duncan Mitchell returned last week from Virginia, where he spent several months getting out walnut timber for a Saginaw firm. Mr. Mitchell says the weather has been unusually dry in the south, many farmers being unable to get their ground plowed for crops.

—Dr. John G. McAlpine, of Detroit, spent the week-end with his brother, M. J. McAlpine, at the McAlpine House, having accompanied his mother, who came on a visit. Dr. McAlpine was in Mexico for several years, but left there during the late rebel uprising after having his home sacked and destroyed. For the past year he has been living at El Paso, Texas, and is now located at Detroit permanently.

Richard W. Swaisland, son of William Swaisland, of Ekfrid, formerly of Glencoe, was married on Monday to Miss Lillian Decker, of Berlin.

At Glencoe stock yards, Saturday, June 10, at public sale, 4 milch cows, 1 farrow cows, 10 two-year-old steers, 6 two-year-old heifers, 20 yearling steers, 6 yearling heifers, 4 calves. John T. McFarlane, proprietor; L. L. McTaggart, auctioneer.

### "KING GEORGE" AS A STOKER.

He Earned Seven Shillings for a Week's Work.

It was the cruiser H.M.S. Cumberland which contributed not a little to our success in the Cameroons, and the story of its operations in that part of the world, told in Blackwood's Magazine, makes thrilling reading. There is also a lighter side to the story.

One amusing episode was the employment of thirty natives—Kroonmen, as they are called in that part of the world—who were engaged to trim coal in the bunkers. These men, to quote Blackwood's, had to be borne on the ship's books for pay purposes. "Some had no names, and others were blessed with patronyms which baffled the Accountant Staff; hence they were made to select 'tailor' for entries in the ship's ledger. Undoubtedly they were assisted by the sailors in their choice, which accounts for the appearance in our books of such distinguished personages as King George, Lloyd George, Jack Friday, etc. To see King George receive 7s. as a reward for a week's labor was the source of undisguised mirth of both officers and men."

Of great assistance was a native entered on the books as "King Bell." It appears that at the outbreak of the war the native King of the Cameroons was imprisoned by the Germans for his failure to comply with some order issued which affected his property. By some means he managed to communicate with the English authorities at Lagos, asking for help, for which offence he was hanged. With characteristic thoroughness, the Germans also hanged all the king's male relatives they could lay hands on. King Bell was uncle to the king who was hanged, and the Cumberland found him only too willing to join the English and help in driving the Germans out; for he was heir to the throne, which he would occupy in due course.

As soon as it was agreed to take this march with them, runs the narrative in Blackwood's, he was sent on shore to collect a staff of guides, spies, and pilots from the natives who knew the country. The result of his efforts added another twenty to our ever-growing complement.

It is mentioned, too, that a special inducement to the Cameroonian natives, whom it was desired to tempt to friendliness, was the offer of tinned tripe, which formed part of the stores. It appeared specially to the native palate. An amusing incident occurred when an officer in charge of an armed boat was proceeding up a creek to act as guardship of a small town, at that time occupied by our troops. His orders were to insure the friendliness of the tribe which inhabited the entrance to the creek and to prevent any news of the operations getting through to the Germans further up.

With this object in view, he invited the chief of the tribe on board, and regaled him with the delicacy referred to. Its effect was the establishment of such mutual good-will that he insisted on presenting his boat with seven wives, an offer which, for diplomatic reasons, was accepted.

Peacetime in Pieces.

Great Britain's prospective peacetime is being rapidly wiped out. Of every 10,000 casualties in Flanders and in Gallipoli one heir to a seat in the House of Lords is reported killed.

Forty prospective wearers of the purple have already made "the great sacrifice"; have proved by their examples that the aristocracy of Great Britain, in the supreme test, is not degenerate. No other class in the country, proportionately speaking, has paid so big a price.

The House of Lords, three years ago distrusted by the nation, discredited by the politicians, humbled by the House of Commons, and threatened by the Cabinet, has, on the blood-stained fields of France and Turkey, won a new charter through the self-sacrifice of its sons. To-day the upper chamber is stronger in the affections of the people than it has been for many generations.

But what a price to pay! Hardly a great family in the country is unvisited by the angel of death. The House of Lords seems crowded with peers who have to mourn the loss of their first sons.

Men who previous to the war were three and four times removed in succession to titles are now presumptive or prospective peers.

England's low birthrate is bearing especially hard on the peerage at this moment. A score of peers have lost their only sons in the terrible fighting.

Evans' Romance.

The marriage of Commander Evans, the famous second in command of the Scott Expedition to the South Pole, to Miss Elsa Andvord, is the outcome of a charming reception in Christiania, when Lieut. Trygve Gran, the ski expert to the expedition, introduced him to the belle of Christiania, Miss Elsa Andvord. Like most of her race, took a deep interest in Polar exploration, and knew the history of the various expeditions thoroughly. Naturally friendship sprang up between the two, and now they are to be married. This, by the way, will be the gallant commander's second marriage. His first wife, whom he married when he was 23 and she 20, died in 1913, after nine years of married life.

No Need for Lunch.

An English town council, after a protracted sitting, was desirous of adjourning for lunch.

The proposition was opposed by the mayor, who thought that if his fellow officeholders felt the stimulus of hunger the despatch of business would be much facilitated. At last a rather illiterate member got up and exclaimed:

"I am astonished. I am surprised, I am amazed, Mr. Mayor, that you will not let us go to lunch."

"And I am surprised," replied the mayor, "that a man who has got so much 'ham' in his mouth should want any lunch at all."

Protect your home and beautify it by painting it now with

## The Transcript.

THURSDAY, JUNE 8, 1916.

### Crinan

Several from here attended the dramatic concert in West Lorne on Friday evening. All were well pleased with "Hello, Bill."

D. D. McGill, con. A. has cultivated his corn and planted his beans. This looks extra good this rainy season.

John Grover, of Woodville, is now drawing a load of milk to the Crinan cheese factory.

Mr. and Mrs. B. Partridge, con. 7, spent Sunday with friends in this locality.

Rev. Geo. Weir, Glencoe, occupied the pulpit of Argyle church on Sunday afternoon. Next Sunday services will be conducted by Rev. Mr. Stewart, of Langie, at 7.30 on June 18th. Anniversary services will be conducted by Rev. Dr. Fraser Smith, of Burns church, Mosca. Special music is being provided for the anniversary, and the

Young People's Society are holding their annual social on the Monday evening following the anniversary. The heavy rains of last Sunday have again delayed corn planting.

David McGill, con. 4, has joined the 91st Battalion.

A number from here are training horses for the horse show at Glencoe on June 21st.

J. Everett Dowd, who was working on the observation tower on W. J. Webster's farm, has moved to near Bothwell.

Miss Margaret Walker received a letter recently from A. Wright, of a Toronto Battalion, now stationed in France, acknowledging the receipt of a pair of socks knitted by Miss Walker and sent to the front with a shipment of goods sent by the Willing Workers Society of Crinan.

### Wardsville

Mr. and Mrs. G. Love are away on their vacation.

Misses Aitchison and Gundry spent Saturday in London.

Mrs. Heatherington and daughter

Florence, of Newbury, spent last Wednesday with Mrs. J. Heath.

Miss Sheppard is visiting friends in London.

Rev. B. Snell attended the conference of the Methodist church at Kingsville.

Mrs. Corneil, Mrs. Douglas and Miss Beatrice Turk attended the convention at St. Thomas last week.

C. Minna is attending county council in London.

Miss M. McVicar, of London, spent the week-end at her home here.

Rev. Falconer, of Rodney, preached in the Presbyterian church here Sunday morning.

J. Creagan, M. Miller and J. Sloan spent over Sunday in London.

Mr. and Mrs. W. Randles and Mrs. Rippen attended the graduation of Miss Annie Randles at St. Joseph's Hospital in London on Tuesday.

At Middlesex county council a letter was read from the Provincial Minister of Public Works urging that work on the county roads be curtailed to a certain extent now on account of the shortage of men and the fact that after the war there will be more men and more forthcoming.

## Newbury

Pte. Jack Crim, of the 135th, spent the week-end at his home here.

John Gay and his daughters, Miss Gay and Mrs. D. G. Archer, returned from Windsor on Monday.

Reeve A. Holman is in London this week attending county council. R. H. Moore is acting reeve in his absence.

The Red Cross Society sent a cheque for \$20 to the Western University unit on Monday, to be used where most needed.

Drives Asthma before it. The smoke of vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relieving remedy shows how actual and positive is the succor it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

### BETHEL-METCALFE.

Pte. Wm. Hopkins, of 135th Battalion, London, spent Sunday at the home of John Boyd.

Mr. and Mrs. Fred Stevenson and Mabel, of Glen Oak, Caradoc, spent Sunday with their daughter, Mrs. Earl Moore.

Geo. A. McGill, Misses Anna and Gertrude McGill and Misses Alma and Vera Towers motored to London on Saturday afternoon, returning the same evening.

Pte. Percy Edwards, of the 135th Battalion, London, spent Sunday at the home of Charles Towers, and on Monday evening his friends met at the same place, and on their behalf Geo. A. McGill and Geo. Olde presented him with a nicely worded address and a well filled purse.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

## Appin

Mrs. Berry, of Toronto, is visiting at Jas. McMaster's.

Ferg. Huston and daughters spent the week-end in Detroit.

Mr. Myers, of the Royal Bank, and his wife, who are on their holidays, and Mr. Mitchell, of St. Catharines, is relieving him.

Miss Huston, of London, is spending a few days here visiting her father, Ferg. Huston, and friends.

H. B. Watterworth, wife and daughter spent Sunday at Mrs. J. W. Watterworth's, near Wardsville.

Peter Ferguson has returned after a visit to Detroit.

Albert Nevin had the misfortune to lose one of his horses Tuesday.

J. E. Laughton has been laid up for about two weeks with a bad foot but is getting around all right again.

Jas. Glasgow has the foundation in for his new house in town.

Mother Graves' Worm Extirpator does not require the help of any purgative medicine to complete the cure. Give it a trial and he convinced.

### CAIRO.

Stuart Smith returned to Detroit on Tuesday.

Mr. and Mrs. Frank Allen are the occupants of the dwelling opposite the post office—not Mr. and Mrs. Frank Allen, as intimated in last week's issue.

Pte. Kelo Annett, of London, spent Sunday at his former home here.

Pte. Nelson Smith, of London, formerly of Wardsville, accompanied by his sister, were visitors at the home of Mr. and Mrs. Chas. Oiler's on Saturday.

Reeve G. A. Annett left for Sarnia on Monday to attend county council.

During the terrible storm of Sunday evening the barn of Leslie Sullivan was struck and slightly damaged by lightning.

Adolphus Wehlann and other friends from the lake motored here to their friends, Mr. and Mrs. Alfred Wehlann.

A. A. Campbell, referred to last week as being ill, is not recovering as rapidly as expected.

The never failing medicine, Holloway's Corn Cure, removes all kinds of corns, warts, etc. Even the most difficult to remove cannot withstand this wonderful remedy.

### KNAPDALE.

Mr. and Mrs. Wesley Babcock, of Detroit, are visiting their parents here.

Mr. and Mrs. C. C. McNaughton motored to Durst on Saturday.

Sorry to say Douglas, son of Mac. Livingston, is very ill.

R. McDonald intends raising his barn this week.

Mr. and Mrs. W. McRae, of Glencoe, spent Sunday at D. McNaughton's.

Teamsters are busy hauling logs to Newbury basket factory from R. Grey's farm.

### MACKSVILLE.

George Galbraith was raising his barn on Monday.

Pte. Geo. E. Ramsey, of the 135th Battalion, spent over Sunday at his home here.

Miss Mary Jane Ramsey, of Windsor, Mr. Jim Booth, of Chatham, and Miss Fannie Ramsey, of Detroit, spent over Sunday with their sister, Mrs. D. M. Webster.

We are pleased to hear that Mrs. Sam Lotan is able to be around again.

Mrs. G. E. Ramsey spent the week-end with her sister, Mrs. George E. Lundgren, London.

A SMALL PILL, BUT POWERFUL.—They that judge of the powers of a pill by its size, would consider Parmelee's Vegetable Pills to be lacking. It is a little wonder among pills. What it lacks in size it makes up in potency. The remedies which it carries are put up in these small doses, because they are so powerful that only small doses are required. The full strength of the extracts is secured in this form and the work thoroughly.

## Kilmartin.

Mac and Archie Munroe, of Walker-ville, visited at their home here for the week-end.

Ethel McGugan, of Cairo, is visiting at Malcolm McLean's.

Mac, Second returned to Detroit on Saturday after spending some time with friends at Guelph and Orillia.

Dr. D. F. McLachlan and twin daughters, of Windsor, spent a day at the doctor's old home here recently.

The sacrament of the Lord's Supper will be dispensed in Burns' church, Mosca, next Sunday morning. Preparatory services will be held on Friday at 11 a. m. and 8 p. m.

### MIDDLEMISS.

John Graham, now of the Home Bank, Lawrence, will move to the Toronto branch shortly.

L. Boughman motored to Pt. Stanley with a load on Sunday.

W. Richards' residence, which is being thoroughly overhauled and improved, will be finished shortly.

Mr. and Mrs. Boughman and Mr. and Mrs. J. A. McDonald motored to Niagara last week.

The baseball match which was to be at Shedden on Friday last between Shedden and Middlemiss was postponed on account of rain.

A record-breaking load motored through town a few days ago, when a Maxwell car carried a load of nineteen passengers.

H. B. McArthur is improving his residence.

Mrs. Bertha McIntyre, of West Lorne, visited her parents here Saturday and Sunday last.

The measles still continue to spread in this vicinity.

A. Batten will start the building of his new residence soon.

John McFarlane shipped hogs here on Monday. Price paid, \$10.15.

Primer.—A.—Jean McVicar, Barbara McVicar, B.—Misa Purcell, C.—Anna Barbara McVicar, Carrie McLean, Maggie May McLean, Nelsena McVicar, Cecil Goldrick, Gladys Mahoney, George Ritchie.

Indicates perfect attendance.

EVLYNN McLACHLAN, Teacher.

Twenty Years Ago.

Hon. Wilfred Laurier visits Glencoe.

Melbourne band fills many engagements.

Wm. Coyne opens butcher shop in Glencoe.

Boys' Brigade gives social on manse grounds.

A. Smart, Glencoe, buys Newbury photograph business.

"Green goods" men try to push their business in Glencoe and vicinity.

Dr. Dickson, of Galt, conducts anniversary services in Glencoe Presbyterian church and addresses tea meeting.

The newspapers make a charge for publishing cards of thanks and complimentary addresses. Kindly "make a note on it."

"Much sickness would be prevented if the public would remember that constipation is one of the first causes." "Rexall Orderlies" is the best remedy for men, women, or children. 15c and 25c, exclusively at Rexall Drug Stores.—J. A. Scott.

"What fools these poor fish are to bite at and swallow gaily colored artificial bait," mused the philosopher as he gathered up a fine string of bass and left the lake. Then he went back to town and invested a lot of money in oil well and gold mine stock.

Another big advance in spool cotton and crochet cotton is announced. The Central Agency Limited, of Montreal, controlling the sale of all British spool cotton manufactured, are sending out new price lists to all merchants in Canada. This is the third advance price list issued since the war began. The present wholesale price to merchants makes it impossible for them to continue selling at old prices.

### Inexcusable.

Said the waiter to a noisy card party in a hotel bedroom: "I've been sent to ask you to make less noise, gentlemen. The gentleman in the next room says he can't read."

"Tell him," was the reply of the host, "that he ought to be ashamed of himself. Why, I could read when I was five years old."

### Butter Found in Swamp.

A firkin of butter, about two feet high and containing about 25 pounds of butter was dug up recently in a swamp at Ballinabere. Although it must have been buried generations ago, it is in a fair state of preservation. The firkin appears to have been scooped out of a tree trunk, and on its side are a couple of handles with holes through them—probably for the purpose of holding cords, so that the firkin could be carried on the back.

ADVERTISING RATES.—Cards of Thanks, in Memoriam Verses, Complimentary Addresses, 5 cents per line, minimum charge 50c; notices of entertainments to be held, also notices of Lost, Found, Wanted, or For Sale, 1c per word each insertion, minimum charge 25c—all to be prepaid.

The motor is 30-35 horsepower  
The wheelbase is 110 inches  
The price of the car complete is \$1100

WM. McCALLUM  
Dealer Glencoe

**GRAY DORT**

There is an investment-satisfaction in owning a Gray Dort—a feeling that you have made an investment rather than a purchase.

As you drive your Gray Dort this feeling will be more strongly borne home to you that you have received real value for your money.

When you consider that the 1916 Gray Dort Model Five-A Touring Car fully equipped with electric lighting and steering and demountable rims sells for only \$850 and that its equipment is complete, not a single accessory to buy, you begin to get an idea of the great value the Gray Dort offers.

Buyers should see the Gray Dort at our showrooms and let us explain this value point by point.

**PARROTT & MITCHELL**  
Dealers Glencoe, Ont.
