Greek Premier Intimates Likelihood of War With Turkey---Redistribution Amended---London Liberals Will Meet Monday Evening---Huron Synod Will Again Hear Question of Women's Franchise---Militants Attempt to Burn Historic Church.

AN ANCIENT CHURCH LATEST OBJECT OF MILITANT ATTACK

Try to Burn Down St. Margaret's at Chipstead, But Do Not Succeed

PUBLIC ANGER GROWING

Many Contributions to Funds Marked "Education," But Will Not Shield Donors.

[Canadian Press.] London, June 12.—A determined attempt was made by militant suffragettes this morning to burn the ancient church of St. Margaret's at Chipstead, about four miles to the southeast of London. Three distinct fires, fed by fire-lighters, composed of squares of felt saturated with oil, were lighted by the "arsenal squad."

The rector, Rev. William H. Stone, and the villagers were soon on the scene and were able to extinguish the flames before much damage had been done to the church, which dates from the 12th century.

Expressions of anger at the vandalism of the militant suffragettes were more vehement than ever today among the general public, which was roused to a state of intense excitement by the details of yesterday's attempt to blow up the historic coronation stone and chair in Westminster Abbey. Demands for the drastic punishment of the women engaged in this campaign of destruction were heard on every side. The leniency of the Government in releasing the women criminals after a few days detention in jail was generally condemned.

"Education!"

The hope was expressed that Reginald McKenna's suggestion of the prosecution of subscribers to the funds of the militant suffragette organization would stop to a large extent the flow of income to the coffers of the women engaged in the widespread activities undertaken by that society. It is known that much of the money handed over by the largest subscribers is sent in with the earmark "education," Mrs. Emmeline Pankhurst the militant leader, being left to decide what that means. It is believed, however, that this clause in the gift will prevent the law reaching the persons who provide the funds for crime.

Damage Slight.

After examination today of the coronation chair in Westminster Abbey showed that the damage was very small and easily repaired. The coronation stone was not injured at all. In fact most of the damage done affected the wail of the chapel behind the chair.

The Abbey was open as usual today except for the chapel where the bomb was placed and in which an immense amount of soot, dust and dirt fell as the result of the explosion.

A large congregation, composed mostly of women, attended the morning service. Extensive precautions were taken and every visitor was closely scrutinized. The police have the description of a number of the women who were seen in the vicinity before yesterday's explosion, but no arrests have yet been made.

Report of Foundering of Government Boat Proves False, and Great Is Relief in Quebec and Levis

MONTMAGNY SAFE AT NORTH SYDNEY

Report of Foundering of Government Boat Proves False, and Great Is Relief in Quebec and Levis

[Canadian Press.] Quebec, June 12.—Rumors to the effect that the Canadian Government steamer Montmagny was lost at sea through fire were killed outright today, when the supposedly lost vessel entered the port of North Sydney at five this morning.

"All well," as her captain, F. X. Poulin, of this city, laconically related in his message to the local agency of the marine department.

News of the disaster had reached Quebec last night, saying that the Montmagny with her crew of forty-four had foundered in the Straits of Belle Isle, after fire had started in her bunkers.

The probable truth of the disaster was given some ground of veracity by the fact that the ship, cruising to distribute supplies to the various Government signal stations along Prince Edward Island, the Magdalen and Belle Isle, carried a lot of explosives, calcium carbide, etc. However, the fact that the ship had not been reported at the signal service since June 8 gave ground to suppositions of an accident, but the local agency of the marine department early last night denied the probability of the loss, saying that had the steamer been in danger her calls for help would have been picked up, as she is equipped with wireless and that she was cruising in waters practically surrounded by wireless stations.

The news of the supposed disaster caused intense worry in Quebec City and Levis, as the forty-four members of her crew belong to those cities, and it was with great relief that the news of the safety of the ship was received.

"VOTES FOR WOMEN" AGAIN CONFRONTING DIOCESAN SYNOD

Extension of Franchise in the Anglican Church Courts Will Come Up Again.

NEEDS 2-3 MAJORITY

Fate of Measure So Problematic That Conjecture Would Be Dangerous.

Will the Anglican Synod of the Diocese of London follow the lead of the Toronto Synod and give to women members of the church the right to take part in vestry deliberations and to vote on parochial matters?

Last year a resolution was submitted to the synod along these lines, and a substantial majority of the clergy and lay delegates voted in its favor. However, before the measure could be made law, an amendment of the present constitution would be necessary, and for this a two-thirds majority is necessary, and this was not obtained at the last meeting.

In all matters of this kind, the clergy and laity vote separately, and the vote in each case must show a two-thirds majority before the constitution can be changed. Whether such a majority will be given at the meeting of the London Synod next week in favor of extending the franchise to women is a question to which it would be dangerous to attempt to give an answer until the vote has been taken, although the indications are that the movement will be supported more strongly than ever before.

The two-thirds rule is one which, in the past, has led to considerable difficulty, particularly in the matter of electing bishops, and it is altogether probable that in the near future it will be repealed. Deadlocks have resulted time after time as the result of the clergy voting in a body for one man as bishop and the lay delegates to synods voting for another, and a movement to substitute majority rule is gaining ground steadily. In fact, in some of the newer dioceses it already has been adopted.

GRAVE STATEMENT BY GREEK PREMIER

Inform Chamber of Deputies That Trouble With Turkey Is Imminent If Conditions Do Not Change.

[Canadian Press.] Athens, Greece, June 12.—A warning to Turkey, which fell little short of a formal declaration of hostilities, was uttered today by Premier Venizelos in the Chamber of Deputies. He was speaking on the treatment of Greek subjects in Turkey.

The Premier's attitude showed that the tension between Greece and Turkey was near the breaking point, and that the danger of war was imminent.

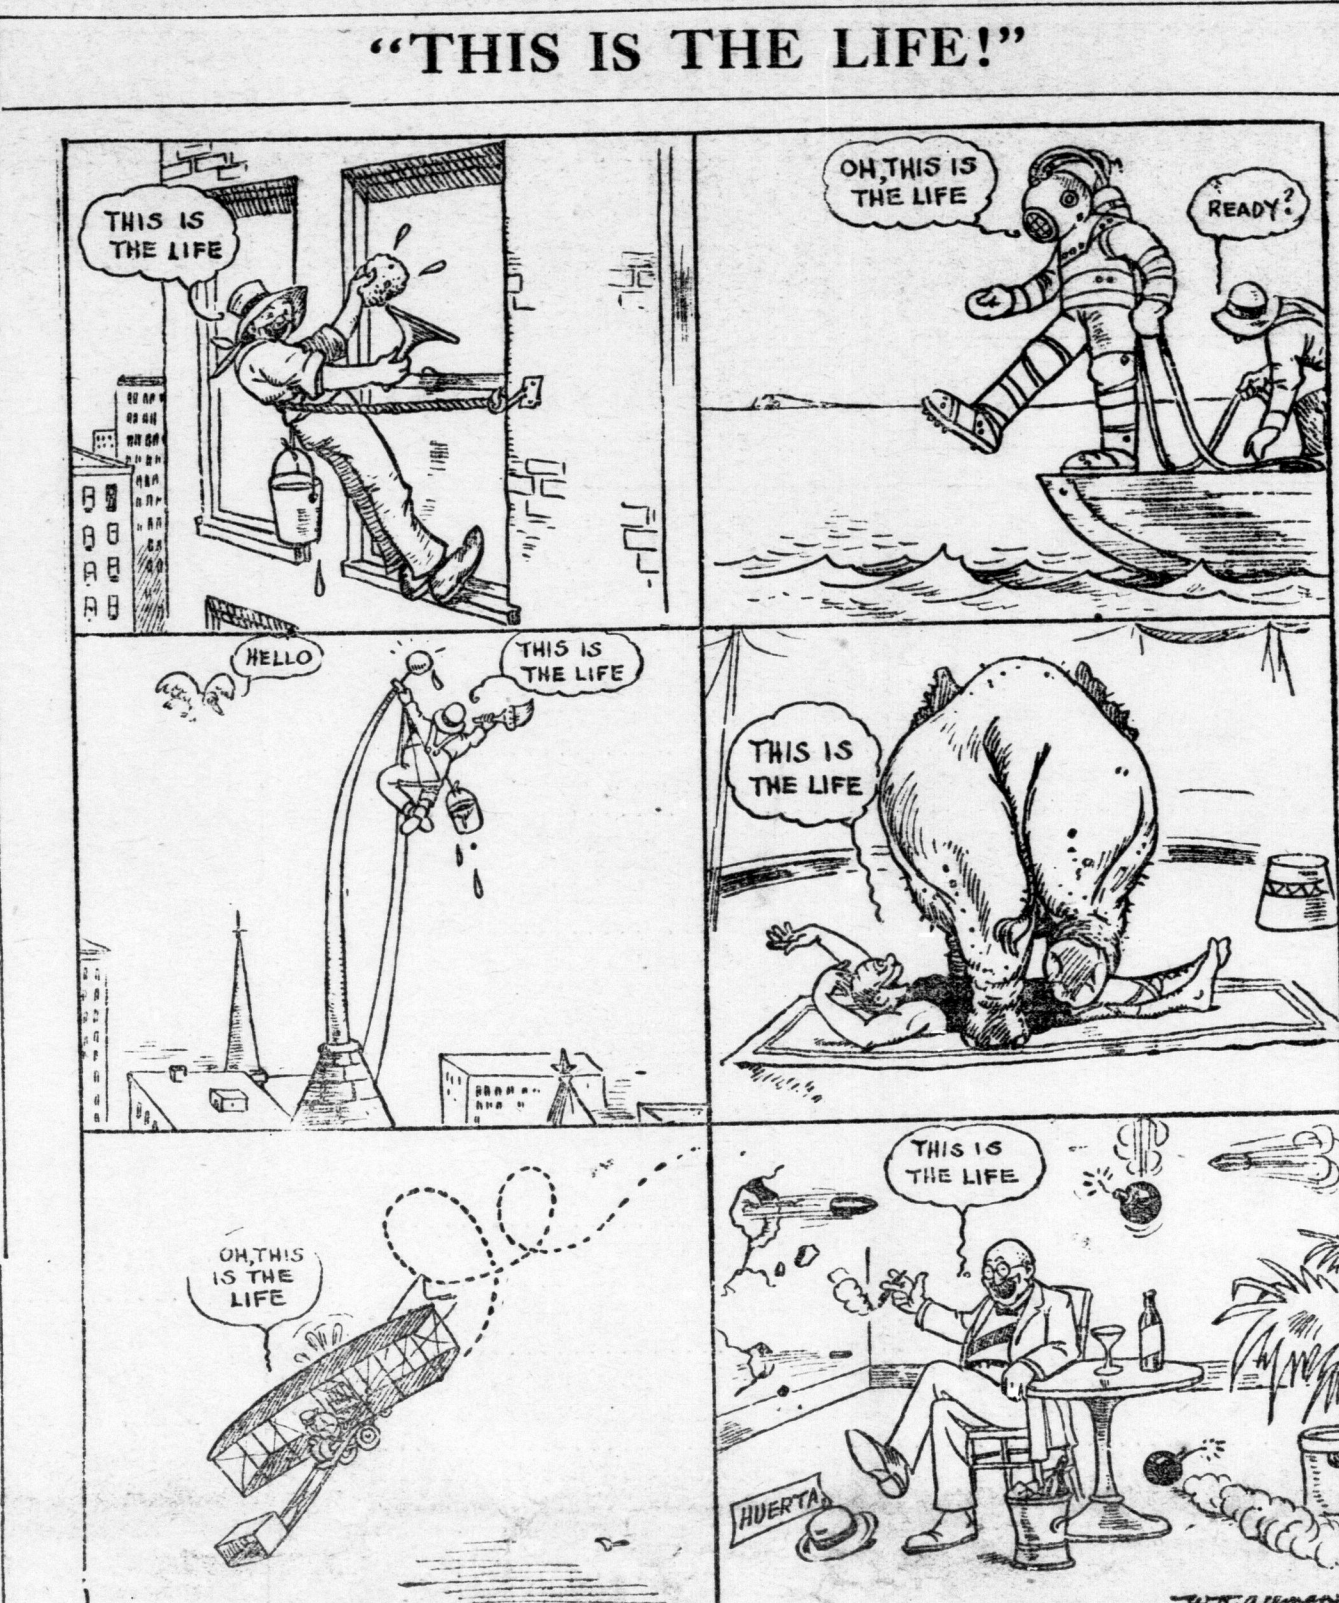

M. Venizelos, who obviously found difficulty in restraining his language when he treated his fellow-countrymen, said: "I do not wish to allow to escape me words which cannot be recalled, but I should fail in my duty if I did not inform the Chamber of Deputies that the situation has become grave—even very grave. If a stop is not put to these conditions the Hellenic Government will be forced not to content itself with joining in the lamentations of unhappy refugees."

MEDIATORS FIRMLY DEMAND ARMISTICE

Without This Carranza's Envoys Cannot Be Formally Admitted to Conference.

OTHER WAYS POSSIBLE

May Talk It Over With Huerta, and American Delegates Satisfactorily.

[Canadian Press.] Niagara Falls, Ont., June 12.—The dispatch from Saltillo stating that the Carranza note made no mention of its success in bringing together its feet and cheered for many minutes. A message was read from Premier Aquino, who warmly congratulated the Salvation Army on behalf of the Government for its success in bringing together its feet and cheered for many minutes.

The entry of Gen. Bramwell Booth into the hall was the signal for a prolonged ovation. The great audience sprang to its feet and cheered for many minutes.

A message was read from Premier Aquino, who warmly congratulated the Salvation Army on behalf of the Government for its success in bringing together its feet and cheered for many minutes.

The Perimeter continued success to the army's world-wide activities, which have for so long excited the admiration of Christian men and women of all denominations.

It is considered possible that the Carranza delegates might be informally received here, and their argument heard as to why an armistice cannot be declared. But on this point there has been no crystallization of sentiment and the influence of the American delegates to obtain at least a hearing for the Constitutionalists when they come may be brought to bear on the situation.

Guesses at Names.

Washington, June 12.—No announcement of the contents of Carranza's reply was made here.

Salvationists at Congress Speaking In Many Tongues

About 4,000 Fill Special Hall in London—Premier's Welcome.

[Canadian Press.] London, June 12.—Delegates to the world's congress of the Salvation Army today filled to capacity a specially-erected hall off the Strand with accommodation for 4,000.

Representatives of 45 nations and colonies were present, and 23 different languages were spoken by the delegates, it formed the biggest "rally" ever achieved by the Salvation Army.

The entry of Gen. Bramwell Booth into the hall was the signal for a prolonged ovation. The great audience sprang to its feet and cheered for many minutes.

SEVERAL LONDONERS WIN AT BIG GALT HORSE SHOW

Thomas Ball, of Toronto, Probably Fatally Hurt When His Horse Fell With Him During the Steeplechase.

[Special to the Advertiser.]

GALT, June 11.—The first day of the Galt Horse Show was marked by propitious weather and a fair attendance. The crowd would have been larger but for the counter attraction of a circus in Berlin. The card was run off with exemplary precision, and nothing that could contribute to the comfort and enjoyment of the crowd was omitted.

It was a smooth program all through, save for an unforeseen accident in the hunters, lightweight class, when Tommy Law, riding Peter for Crow & Murray, Toronto, was thrown, his horse falling on him as it tumbled a jump. The victim uttered loud shrieks of agony, and the effect on the crowd was such as to clear the grounds. Law is thought to be fatally hurt. There has never yet been an occurrence of a like kind in the history of Galt Horse Show. Nobody is to blame, except the game rider himself, who vainly tried to force his mount over a four-foot barrier at which he balked.

Friday will be society day, and the presence of the Lieutenant-Governor and party will lend eclat to the proceedings.

The events were as follows:

The Crack Jumpers.
This was a very pretty performance, giving some of the crack jumpers a chance to show their mettle. Unfortunately several made bad jumps at the jumps and spoiled enjoyment of an otherwise promising show. Old patrons of the show wondered that the green ones were not comers.

An accident happened in this feature, the only ill timed event of the day. Up on Peter, a Crow and Murray entry, Tommy Law was thrown as he was making a jump, the horse fell on his rider, nearly crushing the life from his body. The ambulance was called and he was removed to the hospital, where life is despaired of. The last event of the day was pulled off in a deserted field.

Class 35, Pair of Hunters abreast. It was easily the finest event of the day. There were five entries and the performance went off smoothly. First, Handy Man and Why, Wilson, Oakville; Second, Magna and Lareine, Reason, London; third, Cumberland and McKinley, Cumberland Stables, Toronto; fourth, Marquis and Shot, Tudhope, Toronto.

**C. M. BOWMAN CHOSEN
BY BRUCE LIBERALS**
Unanimous Choice at Big Convention at Kincardine.

[Special to The Advertiser.]
KINCARDINE, June 11.—At a rousing rally of West Bruce Liberals, Mr. Charles M. Bowman, of Southampton, was today unanimously chosen as their candidate for the coming provincial election.

Mr. Bowman made a splendid address, in which he paid a high tribute to Lord Rowell for the splendid work he is doing.

He roundly scored the Government for its reckless extravagance, and told the electors how they had been coolly flattered out of \$200 on each \$100 that was coming to them for their school grants.

The Government, he said, had no money to educate the farmers' sons and daughters, but could flatter away a million and a quarter on a new Government house that was a joke to all who had seen it.

He was cheered enthusiastically as he told of the iniquitous gerrymander perpetrated by the Government. He urged all those who wanted British fair play to show their opinion of the Government's underhand methods at the polls on June 29.

Fine addresses were given by R. Cameron, of Lucknow, and J. Hunter, of Kincardine.

BOTH PARTIES WILL SUPPORT TEMPERANCE

Significant Withdrawal by Tory
Member in N. Waterloo—
Mayor Buchanan Favored.

[Special to The Advertiser.]

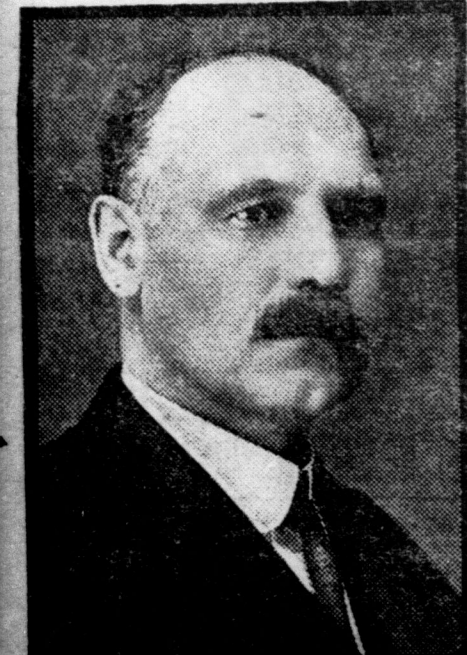

GALT, June 11.—Following the meetings at which the two parties nominated candidates for the Legislature, the Conservatives choosing Z. A. Hall and the Liberals Mayor Buchanan, a meeting was held today in Knox Church, at which Liberals and Conservatives were pretty evenly represented, and at which the situation was discussed from the temperance viewpoint.

The unanimous decision reached was to endorse and support the candidacy of Mayor Buchanan, who has given a pledge to stand with the Rowell abolish-the-bar policy.

It is significant that at this juncture Mr. Patterson, the old member, should withdraw from the field, leaving the Conservative cause in the hands of the new and untied man. Temperance advocates set in the situation a triumph for the cause to secure it.

The success of local option in Galt inspires them with the heartiest hope that the old riding will be swept by the temperance reform wave, and that with effort to pass the Scott act as a county measure, Waterloo will respond, and the traffic wiped out entirely. "We have the votes," said Rev. Mr. Wooten, Methodist pastor. "To bring this about all we need is organization and good work."

Crowd at Station Greeting Major Morris

Section of the crowd that welcomed London's sole survivor of the Empress of Ireland last night. An Advertiser reporter snapped the picture at 8 o'clock last night, an unusually late hour for such a photograph to be made.

SOLE LONDON SURVIVOR OF ILL-FATED EMPRESS TELLS GRAPHIC STORY OF ESCAPE

Major Morris, of Salvation Army, Gives Advertiser Reporter a Wonderful Description of the Hundreds Who Sat Huddled on Slippery Side Till the Vessel Rolled and They Were Plunged Into Water.

"It was like a great grandstand. The passengers sat huddled on the slippery steel plates of the port side of the vessel. The lights of the Storstad twinkled about a mile away. They were our death-lights. A short interval passed. The silence was punctuated with reports and detonations. Then the ship rolled to port. Like snow from a roof we slid into the sea."

Such, in brief, is the thrilling story told by Major Frank Morris, sole London survivor of a party of 22 of the ill-fated Empress of Ireland, to an Advertiser reporter last night on his return to this city. Major Morris lost heavily in the marine disaster. His brother, Arthur, was sleeping with his wife, were swallowed up in the suction, that drew hundreds of souls to their death. One hundred and sixty Salvationists, many of them intimate friends, were also lost. To him the tragedy is, indeed, realistic.

Awoke Before Accident.
"I awakened about ten minutes before we were rammed," Major Morris continued. "I was lying in my berth. Above me, my brother, Arthur, was sleeping. Major Tarpin and Staff Captain Macdonald, both of Toronto, also occupied the room. Suddenly I felt the vessel quiver. Then there was a muffled sound that was strangely like the noise produced by two ships being struck together in a distant empty room. A fearful ripping sound followed. For a moment all was still."

"There's something the matter," I called to my brother. "I'm going out to find out what it is. That was the last I saw of him. In my night-dresses I hurried into the passage. People were running about in wildest confusion. No one seemed to know what had happened. I pushed my way through the thronging mass to the main stairway. By this time the vessel was leaning badly to starboard. I learned afterwards that it was on that side that we had been struck."

Gained the Deck.
"It was impossible to mount the stairs. The steps were at an angle of more than forty-five degrees. Ascent was possible only through a narrow opening up the side of the deck. Finally I gained the open air. There all was confusion. People were running about and shouting unintelligible things. I asked what had happened. No one knew."

"Then it was that I thought of my brother. I forced my way to the stairway again. It was easier going down than coming up. I gained my state-room. My brother was not there. I called his name. Only the cries of the terror-stricken passengers answered. I sought hurriedly for him. There was no sign of him anywhere. I think now that he went to the lower deck where his wife was, to protect her. Both were drowned."

Saw Commissioner.
"When I regained the stair again I saw Commissioner Rees. I put my arm under his. Together we attempted to get to the deck. When we were a short distance up the ship lurched. I lost my hold, and fell to the floor below. I lay there stunned for a moment by the fall. When I arose, my back, chest and arms ached. Everything seemed blurred. I never saw Commissioner Rees again, although I looked for him when I had regained the deck."

"When I came up again, the ship was lurching to starboard badly. The sea was like a mirror, but the water was lapping in little ripples over the rail. The port-holes on the starboard side were covered with water. It must have been running at an angle of forty-five degrees, and in at a dreadful rate. As many as were able climbed to the rail. The deck was it was impossible to stand upright. More, the vessel rolled uneasily."

"At last she leaned so much that we could no longer cling to the rail. We climbed it, and hung to the other side. Then that position became uncomfortable. As the vessel turned on her side we could see the monster propeller out of water. It was not revolving. At last we were huddled on the steel plates that only a short hour before had been under water."

Cried for Help.
"There, clustered together, cold, miserable, filled with forebodings as to what the next few minutes had in store for us."

THOUSAND CHEER AS MAJ. MORRIS STEPS FROM TRAIN

Salvation Army and Friends Greet Survivor of St. Lawrence Disaster.

MANY MOVED TO TEARS

Touching Scene Witnessed at Station as Officer Returns.

BANDS JOIN WELCOME

Play the Doxology and "Abide With Me" During Hand-Shaking.

London welcomed a son back from the dead last night. It was Major Frank Morris, of the Salvation Army, who was a passenger on the ill-fated Empress of Ireland. He had scarcely left her listing decks when the Leviathan, staggering in her death throes, plunged headlong below the waters of the St. Lawrence.

During yesterday the news spread as if by wireless that Major Morris was homeward bound and would arrive in London last night on the Grand Trunk at 7:55. The augmented bands of the army were drawn up on the platform and a crowd of at least one thousand people assembled as early as 7:30. Expectancy was written on their faces. Most of them were members of the army.

RARE TALENT DISPLAYED BY MISS LITTLE'S PUPILS

Leading London Artists Assist in Artistic Program of Exceptional Merit.

That London possesses exceptional musical talent was again demonstrated last evening, when the pupils of Miss Nora Little gave a recital in St. Andrew's Hall. The hall was well filled, and the audience proved a most appreciative one.

The program was rendered in two sections, Part I consisting of vocal solos, duets and quartets, with several obligatos by Miss Florence Eggleston. The second half was devoted to the rendition of a cantata, "The Golden Valley," with Miss Edith Fetherston (soprano), Miss Patti MacLaren (mezzo-soprano), and Miss Florence Eggleston (contralto). In the solo parts, as is always the case, Miss MacLaren delighted the audience with her clear enunciation and finished style. In the trio, "O Thou From Whose Throne Above," some very fine voice-blending was displayed.

In the earlier portion of the program those receiving special appreciation were Mr. W. A. Rossiter, whose voice lent a splendid possibility, Miss Eggleston, and Miss Agnes Irwin. The quartet, "Ständchen," Schubert, with violin obligato, was most beautifully rendered. Miss Little and Miss Eulalie Young acted as accompanists.

The complete program was arranged as follows:
Quartet—"Come, All Ye Lads and Lassies," H. Lane Wilson.
Misses Edith Fetherston, Florence Eggleston, Messrs. Howard Fetherston, W. A. Rossiter.
(a) "Thine Eyes," Logan.
(b) "The Year's at the Spring," Mrs. Beach.

(b) "Sunlight Waltz-Song," Harriet Ware.
Miss Agnes Irwin.

(a) "I Plucked a Flower," Maxwell-Wyman.
(b) "All Moon of My Delight," (in a Persian Garden), Victor Masse.
Mr. Frank Allen (St. Marys).
Quartet—"Ständchen," Schubert.
Misses Gertrude Walsh, Patti MacLaren, Eulalie Young and Bessie Henderson.
Violin Obligato.

(a) "The Lute Player," Allisten.
(b) "Mother's Mine," No. 1.

"NOISELESS" IS ORDER FOR SCHOOL GROUNDS

Police Notified to Prevent Use of Yards After 6 p.m., as Result of Complaints.

Acting upon numerous complaints made to the board of education, L. H. Martyn, chairman of Committee No. 2, has asked the police to keep all public school grounds in the city clear of hoodlums after 6 o'clock at night.

Residents in the vicinity of some schools have gone as far as to retain solicitors, who have written the board that if some action was not taken soon to prohibit the noise which comes from the school grounds as late as 11 o'clock at night legal steps would be taken to enforce such action.

Practically every school in the city is involved in these complaints, and they will be considered in a general way when the board meets this afternoon.

STUCK BY BELL

Hill Street Girl Injured at Queen's Park Carnival.

Ivy Webb, 14, residing at 753 Hill Street, received a deep gash on her chin at Queen's Park last night, when a large swinging bell struck her on the face. She was rushed to her home with blood trickling from the wound. Dr. Edward Spence, 435 Hamilton road, was summoned. Four stitches were required to close the jagged wound.

Miss Webb was attending the carnival at the park with some friends. Walking along the roadway between the lines of concessions she incautiously approached too near the moving noise maker. As it swung towards her she was struck and thrown to the ground. This morning she was reported to be resting easily.

 LONDON, FRIDAY JUNE 12.

MOVING BACKWARD.

THE Whitney administration will go down into history with a world's record for rejecting proposals for progressive legislation. What little advanced legislation they have put through has been due largely to a persistent and fighting opposition. The Government has repeatedly sneered or snored over proposals from the Liberals for reform along all lines of communal interests, and the quantity and quality of the suggestions and proposals put forward by Mr. Rowell, only to be cast to one side, is eloquent proof of the unfitness of the Seven Sleepers to rule the premier province of the Dominion.

Liberals have had a constructive policy in the Legislature, but all their efforts have been nullified by the big majority under Premier Whitney. This has been particularly the case in regard to all proposals from the Opposition, or any other quarter for that matter, to take an advanced position on the liquor traffic. In the face of the Government's many point blank refusals to do anything radical to curb or control the traffic, it is farcical for Sir James and Mr. Hanna to assert that the Government is the friend of temperance. It is true that they proposed to bring in anti-treating legislation—an unwieldy, unworkable system—but that's as far as it got. The mighty effort involved in the announcement probably wearied them, so that they rolled over for another of their celebrated "snoozes." On the other hand, witness their treatment of every suggestion or proposal to cut down the evil influences of the bar:

Voted down in three successive years the abolish-the-bar resolution.
 Refused to close the bars on all public holidays at 9 o'clock in the evening, and at 1 o'clock on Saturday.

Refused inquiry into the actions of Provincial License Inspector Snider in representing himself as having been sent by his department against the Scott Act in the Counties of Welland, Peel and Huron, and into the charges against the provincial secretary of having made arrangements with the organized liquor interests in connection with Snider's visits.

Failure to enforce the liquor license law as pointed out year after year in the reports of the Dominion Alliance.

Voted down the proposals to abolish the three-fifths requirement, and allow local option to be carried on a majority vote.

Voted down the proposal to make local option country-wide.

Neglected and made light of the petition of 9,000 young Conservatives, asking for advanced temperance legislation.
 Not a single step forward has the Whitney Government taken on the question that is the biggest issue in a generation. Not only that, but they have failed to see to it that such liquor license laws as prevail are carried out. Does anyone doubt but that there is a working alliance between the Government and the liquor traffic?

A CANADIAN NAVY.

THE Borden Government is gradually learning, and as it learns it adopts the policies of the Laurier administration. It is not long since the Borden party was telling the country that recruits for a Canadian navy could not be obtained, and it was proposed to junk the "tin-pot navy." Now it is going to use the "tin-pot navy"—meaning the Niobe and the Rainbow—as training ships for a Canadian navy.

In 1911 the Conservatives assured the electors that they were victorious at the polls the Laurier naval service act would be wiped off the statutes. Now the Minister of Marine announces that men are to be recruited under this very act.

A year ago the Borden Government floundered about with a policy of ships without men; now it has a policy of men without ships. Possibly in another year it will have adopted something more of the Laurier policy and have taken steps to provide both ships and men.

A PARALLEL.

SIR JAMES WHITNEY is in a position somewhat similar to that of Mr. Arthur J. Balfour in 1906.

Mr. Balfour had a large majority as premier, but had been losing strength in the by-elections. He had been to some extent pushed aside by Joseph Chamberlain in the guidance of the Unionist policy. Sir James sees Mr. Hanna as his Chamberlain, only worse, smirching his reputation, gerrymandering, forcing an election, and seeking to befriend "big interests."

Mr. Balfour had been in power for a considerable time, and the country began to want a change. The Ontario Government has been in the saddle for exactly the same period of ten years.

In Great Britain the early years of the century were marked by industrial un-

rest and depression. Representations were made to Mr. Balfour, deputations went to him seeking amelioration of conditions. But that philosopher told them that nothing could be done, as evil was inherent in the world, and the poor and unemployed must always abound. But the Liberals brought forward a policy of tax reform (now largely carried out by Lloyd George's budgets), of old-age pensions, national insurance, minimum wages for sweated industries, etc. Result: the election of 1906 was a landslide. The people of Great Britain knew that something could be done. From being in a large minority, Mr. Campbell-Bannerman suddenly found himself supported by the largest majority ever known in the British House of Commons.

Here in Ontario there is a similar agitation for social, agricultural, educational and tax reform. Sir James and his lieutenants have told the people that nothing more can be done by the Government than to keep things as they are and to enforce the license law. Mr. Rowell takes a clean stand for tax reform, supported by many Conservative organs, and for abolition of bars and club licenses, supported by all the church organizations and by deliberate judgment of the temperance workers of the province. Is the electorate of Ontario less intelligent than that of England in 1906?

There are serious conditions in this province which need present treatment for their cure. The continued exodus from farms, the finest by nature in the world, the stalemate in the departments of agriculture and education, and the curse of drink are, all together, a disgrace to civilized government. Mr. Rowell will right these things.

A BEAUTIFUL TRIBUTE.

WRITING to one of his old friends on The Advertiser, Edward Clissold, for many years telegraph editor of this newspaper, now superannuated, pays a tribute to the memory of the late Senator Thomas Coffey, his old friend. For simplicity and beauty of expression we commend it to our readers. It is as follows:

"Passing Parliament Hill yesterday evening, I noticed that the flag over the senate chamber hung at half mast. Then a hurried glance at a near-by bulletin board confirmed my fear that our old-time friend, 'Tom' Coffey had passed away."

"Tom" and I were boys together in the 'fifties' when the old London Prototype, with its boasted circulation of 250 copies, was worked off on a Washington hand press. 'Tom,' the junior apprentice, being roller-boy (he could scarcely reach the bed of the press), while I pulled the lever. "Tom" was a good printer's devil, and he made good in all his subsequent undertakings. Everyone liked him. He was genial, generous, warm-hearted—the soul of honor—and he fully merited every kind word that has been spoken or written in his praise.

"His bereaved relatives have my heartfelt sympathy in their irreparable loss."

"Green be the turf above him, Friend of my earliest days; None knew him but to love him, None named him but to praise."

THE MAYOR FOR PUBLICITY.

IF Mayor Graham succeeds in getting the meetings of the London and Port Stanley commission open to the press he will have done the citizens generally a service.

A chief magistrate who has sat for three years should have the temerity to hold to his attitude in this matter. He takes firm ground when he maintains that it is better to have information in the press concerning the commission's business than to have misinformation.

The Advertiser commends the mayor for his independence. The manner in which the city's business is conducted should be an open book to every citizen, no matter how humble, and the only open book the citizens may have is through the columns of the newspapers.

THE DIFFERENCE.

THE difference between the Prison Farm idea of treating the liquor habit and the abolish-the-bar method is the same as the difference between the pest house treatment for smallpox and the other modern method that traces small pox to its cause and eradicates the conditions that permit the disease to spread.

The Prison Farm and the Hospital are havens of relief for those who have the disease. But the great thing in modern reform is to prevent the disease. Would it profit a country more to say that it had the best drink cure institutions in the land than to say it had no sources for the turning out of drunkards?

The more successful Mr. Hanna's Prison Farm at Guelph is, the greater the triumph of the liquor traffic. The more "cures" made at that institution, the more cases must have come to it for treatment.

If there were in Ontario a district infected with mad dogs, it would not be the finest thing to construct a lastest Institute for the treatment of victims. Common sense would first exterminate the rabid beast.

A STRONG PARTY.

THE recent events at Conservative conventions and the frank avowal of Mr. Rowell's policy by several Conservative candidates are not indications that the Conservative party is weak. Rather are these things signs of strength. For the Liberals to say that the opposing party is weakening, because of these manifestations of independence, would be wholly wrong. It may be that the party organization is being weakened, but that is not always a sign that the party is becoming weaker morally. When there are men in the Conservative party who are willing to forewear allegiance on a principle, then there is great hope for that party. It is the one sign that the Conservative party is human, and not a mere machine. This independence is the life blood of both parties, and all sincere citizens will welcome it as a sign of a better public conscience, no matter whether it means temporal power or not. So long as there are men brave enough

CAMPAIGN COMMENT

'Twas STILL-BORN.

[Brantford Expositor.]
 Why did the Whitney government give birth to an anti-treating policy and then ruthlessly abandon its own offspring? It ought to be arrested for child desertion.

ADMIT IT.

[Toronto Star.]
 Is it not about time for opponents of Mr. Rowell's policy to admit that club licenses are to be abolished along with bars?

SIGNS OF DECADENCE.

[Hamilton Times.]
 The Toronto World is forced to admit that "Bruce and the double barrelled seats in Toronto are signs of decadence which all true friends of the Whitney government will heartily regret. The regret will be emphasized if, through the revolt of the people, a couple of good live Liberals are elected in Toronto."

SOUGHT PROGRESS.

[Ottawa Free Press.]
 The list of proposals for advances that the Ontario Conservatives have voted down under the leadership of Sir James Whitney constitutes a programme of progressive legislation that would be worthy of the foremost province in the Dominion. But to get it adopted it will be necessary to put the Whitney government in a minority.

THE CHURCH'S INDORSATION.

[Berlin Telegraph.]
 The Christian Guardian, the official organ of the Methodist Church, in its course of an article in its latest issue, aptly commends the Whitney Government for the little and comparatively insignificant temperance legislation it has been guilty of, says:
 "But when we have given credit where credit is due, what then? The present Government, after repeated urging, and from many, too, who are its friends and supporters, absolutely refuses to promise any further advanced

in any party to stand for a principle there is certainty of eventual triumph for that party. If the Conservative party as a whole had stood against the moral principle, personified by Mr. Rowell, it would have been a rubber stamp for ward politicians rather than a powerful agency for good.

ON VERANDAHS

SAD, sad is the lot of the man who hasn't a verandah—haven or refuge—after the torrid summer day, where he can recline at his ease—providing the June bugs are not too numerous. Is there anything quite as satisfactory as an after-supper cigar smoked in a chair of generous proportions and gentle curves, with one's feet hoisted to the railing at an angle not too jarring to the conventions. At such moments the rest of the world is well lost. Particularly is it enjoyable if you have a fussy neighbor who races from the supper table to the lawn mower. There is a rare delight in watching him perspire while you congratulate yourself on being something of a philosopher in agreeing with yourself that the finest lawn in the world isn't worthy of consideration when a spacious verandah and an easy chair are at hand. The lawn can wait until later in the evening anyway, because after daughter's beau arrives the verandah will have to be vacated, and it is a kindness to the young folk and a benefaction to the rest of the family to drown their "sweet nothings" with the rattle of the cutter. And if you are fortunate enough to have one of those old-fashioned rose and climatic-covered porches that the breezes transform into a garden of Araby under the velvet darkness of a June night, you are lucky above your fellows. There is a magic about old veranda-houses that the electric-lighted modern ones can never attain. You may not be able to flood it with light by the pressing of a button, but you can beat it when the moonlight comes drifting through the trees to silver the rustic chair and embarrass the occupants of the hammock. It's a good place, too, for the man of the house to fight out his battles, in the forefront of

temperance legislation. The leader of the Opposition, on the other hand, a man whose word can be honored surely if any man's can, has promised the abolition of club and tavern licenses, and has shown his sincerity by trying to bring the issue out of party politics altogether. Without abuse of anyone can we not, fairly and reasonably, go to every strong and convinced advocate of temperance reform in the provinces and ask for his vote to help to bring in this greatest measure of reform that has so far been proposed?

SIR JAMES' MANIFESTO.

[St. Thomas Journal.]
 There is no better proof anywhere of the moribund condition of the Ontario government than is to be seen in the manifesto to the people issued by Sir James Whitney. The present-day spirit is entirely lacking and many matters contained in the document relate to the history of ten years ago, an indication in itself that the Government has been unprogressive and has fallen into decay.

Credit is taken for doubling the public revenue, though just what particular evidence of prosperity there is in extorting more money from the people's pockets is difficult to see. As regard the Workmen's Compensation Act, for which the Government arrogates to itself much praise, the matter was allowed to drag along year after year since 1907, and it was only through the continuous prodding by the Opposition that action was finally had and the measure placed on the statute books. Indeed, the very things of value that the manifesto lays to the credit of the Government were largely the product of Liberal effort. In both 1913 and 1914 sessions, it was the Liberals that took the initiative in urging the construction of hydro-radials by co-operation between the commission and the municipalities. While Mr. Beck was always favorable, the Government remained obdurate and only yielded when its hand had been forced.

his family, like the captain on his bridge, and many a man, amidst the comfort and quietness of his verandah, girds himself afresh for the next day's strife. And if you are a bachelor—well you will probably be on somebody else's verandah.

East Middlesex—Annexed District—Justice.
 There's always a clerk on which to place the blame.

Put the bars in pickle and the boys won't get "pickled."

How many people are now giving a thought to the Empress disaster?

The sidestep appears to be the popular dance at the "A. B. C." conference.

The saloon makes the soaks and the punches. Why not hand it back a few?

"Hanna spell-binding booze" is the modern version of the famous old poem.

A gain for Rowell in the next election will be a wonderful moral force in this province.

The leaving of the annexed districts in East Middlesex is another form of the Hanna gerrymander.

If men were not slaves to fashion they would have their hair cut off to the roots this weather. Have you done so? Neither have we.

In this vestless weather a man begins to understand how it is that the small boy can crowd so much into his pants pocket.

It would be better if some autos turned turtle in the sense that the speed was cut down, rather than that they turned turtle by tumbling into ditches on their backs.

Mayor Graham appears to be the only member of the London and Port Stanley commission who is not afraid of having the limelight turned on the business of the commission.

The Conservatives claim that it was because of a clerk's error that the annexed districts were excluded from East Middlesex. It is certain that someone blundered; but that is not the Liberal

FOR CONSTIPATION, TORPID LIVER HEADACHE, DYSPEPSIA--DIME A BOX

Turn the rascals out—the headache, biliousness, indigestion, constipation, the sick, sour stomach and foul gases—turn them out tonight with Cascarets. Don't put in another day of distress. Let Cascarets cleanse and sweeten your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver, and carry off the decomposed waste matter and constipation poison from the bowels. A Cascaret tonight will straighten you out by morning—a 10-cent box keeps your head clear, stomach sweet, liver and bowels regular and you feel bully for months. Don't forget the children—their little insides need a good, gentle, cleansing, too.

ron himself is inclined towards dairying, rather than, let us say, fruit growing, and that his cows are fairly good, then it will be of interest to note how the farm is made to respond to this dairy inclination. There are frequently noticed yields as low as 250 pounds of milk per acre cultivated including pasture, but some good patrons obtain 750 and 800 pounds per acre. Even this is little enough, for there are plenty of authentic records of 1,100 and 2,100 pounds of milk per acre. It should not be extremely difficult to obtain more than this, even

BLACK AND YELLOW DOMINATES THIS SUMMER'S OUTING TOGS.

The outing togs for this summer are
particularly smart. The new "sweaters"
are a kind of glorified jersey made of
two-toned, hand-knit silk or wool.
While they fit tighter than did those of
last season, yet they are belted with a
gash of the same material. Ofttimes a
knitted cap is also added to the suit.
The hat in the illustration, however, is
of straw trimmed with pink ribbon in
the colors of the sweater, which are yel-
low and black.

A Kind Letter.

Dear Miss Grey,—I am sending you
two very old songs, sung long ago,
when I was a girl. Long years ago
we used to gather round the fireside
and sing. I still love the old songs.
I read your good sound advice to
young girls; often I think you will
have a great blessing in your busy
life.

I take great pleasure in my old days
reading your page every night. Hoping
to see the songs in your page as soon
as you can find room.

Respectfully,
MRS. B. H.

Ans.—Thanks indeed for your very
kind letter, and also for the songs.
The one "Robin Adair," has already
appeared in our song column. The
other one I shall publish soon.

About the Cameo.

Dear Miss Grey,—I wish some in-
formation about the cameo.
Where is it found? Of what material
composed? Are they found in the
forms in which we see them?

Yours in ignorance,
THANK YOU.

Ans.—1. If you would go to the
public library and ask for a book
on gems you would get the informa-
tion very fully. I can only give a
brief idea here. The word "cameo" is
of doubtful origin, but was applied
by the ancient Greeks and Romans
to engraved work, executed in relief
on hard or precious stones. Usually
the lower strata of these stones was
dark, the upper light, producing a
beautiful effect. Some cameos are
made from shell of various colors.
Needless to say, it required con-
siderable art to produce the wonder-
fully fine carving of human form,
animal, flower or fruit. Today many
of the cheap cameos, so-called, are
made of glass.

Books by Hugo.

Dear Miss Grey,—Can you please
tell me how many chapters there are
in August Wilson's book "Infelice"?
and place give me the titles of some
of V. Hugo's books, other than "Les
Misérables" and "Notre Dame"?
With many thanks. Yours sincerely,
B.

Ans.—I must confess that I do not
own a copy of this book, so do not
know how many chapters it contains.
Can any reader tell us?

2. "Toilers of the Sea," "L'Histoire
d'un Crime" and "Actes et Paroles"
are works of Hugo. The last-named
volume has been translated into
English or not.

Mother Is Best Friend.

Dear Miss Grey,—I would you please
answer a few questions for me. I am
sixteen years old; do you think
I am too young to have a boyfriend?
I am 5 feet 8 inches high; how
long should my dress be, also how
long should I weigh, as I am rather
stout?

3. I have black hair, grey eyes and
rather dark complexion; what are
my colors?

Hoping to see this in print soon.
I remain,
A BLOTTER.

Ans.—1. You should ask your
mother what she thinks about it. She
is your very best friend, you know.

2. If you are large boned, as well
as being tall, about 120 to 125 pounds.

3. I am sure you could wear rose,
pale yellow, some of the tango shades,
and combinations of black and white.

Introducing Oneself.

Dear Miss Grey,—I have been a
reader of your column for a long
time and enjoy it very much. This
is my first question to ask and hope
it is not troubling you too much. I
have been troubled with little warts
on the side of my neck; could you
give me a cure?

2. When a person calls for the first
time on a newcomer to town, when
you have not met, how would you
word your own introduction, suppos-
ing her name was Mrs. Jones?

3. When you have called and Mrs.
is not at home, and she returns the
call and you're not home and have
not been introduced, should you speak
when you meet in the street?

Thanking you sincerely,
DIXIE.

Ans.—Try frequent applications of
sweet oil. This will drive them away.
It is claimed.

One for Women.

William Faversham, who has been
touring the south with his "Julius
Caesar," has found a condition that
makes him wish for woman suffrage.
In a letter to the dramatic editor of
the Chicago Record-Herald, he says:
"We were in an extraordinary
theatre for a one-night stand a few
evenings ago, and I would like to
have my fellow artists in the pro-
fession know about it. My experience
ought especially to make women of
the stage proud, for my story is about
a woman."

"A one-night stand theatre is near-
ly always dirty and horrible, but in
Oklahoma City the playhouse is scrup-
ulously clean and the management
and the community take pride in it.
And the great joke is that the back
of the stage is run by a woman. She
is the electrician and stage manager,
and I assure you there is no dirt.
The stage is really clean. How
about this for woman suffrage? I
do believe that the women run
things much better than we do."

THE HOROSCOPE

SATURDAY, JUNE 13, 1914.

Although early in the morning Mars
is strongly malefic in influence Jupiter
exercises kindly sway later. In the
evening Mercury is mildly adverse.
This is read as a day in which to
pursue routine vocations. There is a
good sign for bankers, merchants and
brokers.

Clothiers and manufacturers of
woolen goods have the prognostication
of great improvement in trade. They
will profit largely before autumn, the
seers announce.

Cardinals, especially those of the
United States, are subject to a sway
held to be exceedingly favorable. Bishops
and other church dignitaries should
prosper.

Mercury is held to exercise a sway
that is not unlooky for editors, publish-
ers and advertisers today.

Under this rule it is well to take pre-
cautions against diseases of the alimen-
tary organs. The nervous system,
also, is likely to be affected.
There is a prophecy, repeated again,
that, owing to the position of Mars on

the cusp of the seventh house at San
Francisco, that city will have a serious
trouble with a foreign nation. This will
take the form of a racial conflict, a
London astrologer predicts, and may
lead to bloodshed. The Moon and Sat-
urn are in an aspect not favorable to
mining interests in California.

A sinister sign indicates severe
criticism of an army officer, who plays
a conspicuous part in the Mexican
crisis.
The ascendancy of "Tars at Constanti-
nople and St. Petersburg is interpreted
as threatening to the peace of four great
powers. Rumania has an ill omen.
A slight depreciation in land values is
forecast for certain parts of Canada.

Persons who birthdate it is is ad-
vised to be watchful in business affairs.
Women should taken special care of
their health. There is danger of quarrels
and misunderstandings.

Children born on this day will be ex-
ceedingly daring and venturesome. They
will have dash and energy. Boys will
be fortunate in making money, but they
may sustain heavy losses. Girls have
the omen of two marriages, the second
one being fortunate.

Fascinating! Every Member of the Family May Participate

The prizes will be fairly awarded. Nobody employed in the office of the

newspaper will be allowed to compete, otherwise The Advertiser's Sunday Pastime is open to all. Full directions and simple rules will be published Monday.

The Well-dressed Man

Good Clothes, with that ineffable smartness which appeals because of the harmony of colour and the right atmosphere—

These we show in Semi-ready Tailoring—woven and finished with that digital skill which is only attained by tailors who consider their work the be-all and end-all of daily achievement.

With the aloofness and calm of the Leader in fine Tailoring, the Semi-ready Clothes hold undisputed place at the top.

Not costly, either,—for efficiency, economy and organization place before you fine garments at \$15, \$20 and \$25, the like of which you cannot match elsewhere.

TOM L. HAYGARTH

182 Dundas Street

Put the difference in the bank. The saving between Ford cost and heavy car cost is "velvet" for the prudent buyer. He knows the Ford not only saves him dollars but serves him best. It's a better car sold at a lower price and backed with Ford service and guarantee.

\$600 for the runabout; \$650 for the touring car and \$900 for the town car—f. o. b. Ford, Ontario, complete with equipment. Get catalogue and particulars from Ford Motor Co., of Canada, Limited, 291-3-5 Dundas Street.

COLLECTORS TROUBLES

Garbage Men Having Trouble in Foreign Districts.

Garbage collectors are having their troubles these days. Upon orders of Garbage Superintendent W. C. Dodd, they are not allowed to take garbage away from houses unless it is in covered cans.

Along Clarence street and in foreign settlements in the south end the people refuse to buy these cans. The health inspector is notified in cases of this kind, and residents are ordered to dispose of their garbage in some other way. In many instances the garbage is being buried.

It must be Bovril

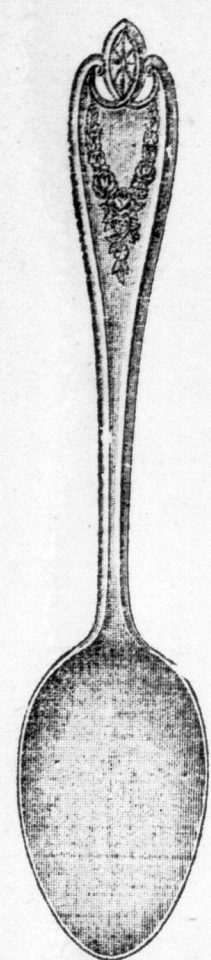

Even were it double the price, Bovril would still be an economical and indispensable article in every home, for Bovril has been proved to possess a body-building power of from 10 to 20 times the amount taken.

Buyers were scarce on the market square this morning. Fifteen loads of hay formed the main offering. It sold steadily at \$11 to \$13.50 per ton. Most loads sold at \$12.50 per ton. Cucumbers are scarce yet and sell for \$1 per dozen. Potatoes and hogs, dressed, are weak. Live poultry sells from 20 cents to 25 cents per pound. Live hogs are weak. SIX MONTHS SENTENCE DESPITE FUNNY NOISES

Queer Rattlings in His Head Did
Not Prevent Gordon Tan-
son Going Down.

"When I get them noises in my head, your honor, I don't know what I'm doing," defended Gordon Tan-son, who appeared for theft and passing worthless notes, "I get them spells and then away I go," he added, hopefully.

"That's right, you do," acquiesced the magistrate. "You are liable to get them again, aren't you? How many checks have you passed?"

"I only pass them when my head gets bad. I don't know just what I'm doing," he said.

The magistrate had Tan-son's previous record before him. There had been a lot of good, black ink in writing it.

"I'll give you six months in Central Prison," he sentenced.

A BRASSY TANGLE

Who owns the brass? That perplexing question was thrashed out this morning by the magistrate and seven of eight Hebrew gentlemen as star participants. The lively tilt started over the hearing of the case of Thomas Wood, who pleaded guilty to the theft of some brass about two weeks ago. When brought before the magistrate Wednesday morning, evidence that he gave led to a summons being issued for David Berman, who purchased the stolen goods.

Berman appeared in court this morning. With him came several friends. In fact, there were seven of them. There was the manager of the brass company. There was also another gentleman who had purchased the brass from Berman. All wanted their rights.

Berman elected summary trial and pleaded not guilty. Then began the attempts to unravel the tangle, assisted by the impetuous aides-de-camp of Berman.

"Who had the money and the goods?" Magistrate J. C. Judd inquired after hearing a bewildering line of evidence from the various parties attempting to prove their claims.

"Harry Dowling," someone opined. The magistrate ruled that \$18, the sum received for the brass go to T. Graham, purchaser from Berman. The goods will be returned to the brass company.

Wood, because of his previous unstained record was let off on suspended sentence.

George Johnston was drunk and disorderly last night. Later in the evening he was gathered up by the minions of the law and given free lodging. This morning he graced the seats in the prisoners' cage.

"You're under 21," stated the magistrate.

Johnston hesitatingly acknowledged that he was.

"Where did you get the liquor?"

"Oh, I was around."

"What do you mean, around?"

"I was all around, in hotels, you know."

You said last night that you had been eating another gentleman in the box—gave it to you? What have you to say to that?"

"Well, I don't exactly know."

"There's no use trying to find out, when you're under 21. You would only get someone into trouble. Five dollars or fifteen days."

"James Patton, stand up."

James got to his feet.

"Didn't you know that this young fellow was under age?"

"No, sir" (emphatically), "I did not."

He was let go.

Judgment Given Against It in Strathroy
Case.

Judgment for damages, the amount of which is to be decided by a reference to the master, were awarded J. W. Nicholson, of Strathroy, in the non-jury high court by Chief Justice Falconbridge yesterday against the Grand Trunk Railway and Scott & Gillies. The action arose out of the flooding of Mr. Nicholson's property as the railway company's right of way by a building erected by Scott & Gillies.

John Mills, also of Strathroy, was cited as a co-defendant in the action, as against him was dismissed with costs fixed at \$20.

Continued from Page One.

It is known, however, that Rafael Zubaran, minister of the interior, and chief of the agency here, who is not among the delegates at El Estero, considers Zubaran is needed to look after affairs here. Two of the delegates are almost certain to be Luis Cabrera, a prominent figure in the Constitutional movement, and Jose Vasconcelos, a young lawyer.

WILL SOON GET AT TRUTH OF DISASTER, SAYS LORD MERSEY

Arrives at New York on Way to Quebec to Preside Over Inquiry Into Wreck of Empress of Ireland.

[Canadian Press.]
New York, June 12.—Lord Mersey, who will preside over the special board of inquiry that is to investigate facts surrounding the Empress of Ireland disaster, arrived on the Mauretania today. He will spend but a few hours in New York, as he is keen to begin the work which brought him across the Atlantic. He will take the train tonight for Ottawa, where he will consult with the Premier and other members of the Government.

On Monday he will go to Quebec, where the inquiry is to begin the next day. Lord Mersey said he hoped to be back in England by August 1, but his Titanic inquiry experiences had taught him that such proceedings may extend almost indefinitely. He said, however, that they would get at the truth regarding the Empress disaster before very long. Lord Mersey is 74 years old, but is as active as a man of 55. This, he said, was his first trip across the Atlantic. He was loath to talk of the inquiry. He thought the proceedings would likely be extended to include an investigation into the navigation of the St. Lawrence River.

Good Sleep Good Health

Exhausted Nerves Were Fully Restored by Dr. Chase's Nerve Food.

When the nerve force expended in the day's work and in the act of living is not replenished by restful sleep at night you have cause to be alarmed, as physical bankruptcy stares you in the face. This letter directs you to the most satisfactory cure for sleeplessness.

Mr. Dennis Macklin, Maxton, Sask., writes:—"I have just finished using the sixth box of Dr. Chase's Nerve Food, and I must say that when I commenced using it my nerves were so bad that I could scarcely get any sleep. I would lie in bed nearly all night without sleep, and anyone who has this trouble knows the misery of sleepless nights. The Nerve Food helped me from the start, and has built up my nervous system wonderfully. I now enjoy good, sound sleep, and instead of feeling tired in the morning I am strong and healthy, and well fitted for my daily work."

TILBURY THE SCENE OF DISASTROUS FIRE

Seventy-Five Thousands Dollars' Damage When Two Business Blocks Burned.

FOUR FIREMEN OVERCOME

Heroic Deed of Barber in Rescuing His Wife While He Was Still Sick.

[Special to The Advertiser.]
TILBURY, June 11.—Tilbury was visited this afternoon by the most disastrous fire in its history, when the two principal business blocks and a garage with four automobiles became the prey of flames, which threatened for a time to wipe out the entire business district.

Buildings on the same sites were burned in 1896, when Dr. Sampson was speaking at a political meeting in the interests of the late Senator Campbell.

Late tonight the loss was estimated at \$75,000. Seven stores, a photograph gallery and dentist's office were destroyed, with practically all the contents.

The fire was accompanied by dramatic incidents. Four of the volunteer firemen were overcome, and when cartridges began to blow up in two hardware stores which were burning, there was intense excitement on the street. Despite the danger from this, the men continued their battle with the flames.

An act of heroism was performed by J. Long, a barber in the employ of T. Maris. During the progress of the fire he rushed upstairs and carried out Mrs. Long, who is in a delicate condition. Mr. Long himself had just undergone two operations for appendicitis, and in his flight downstairs with his precious burden, he opened up the wounds, and is now under the aid from Essex.

When it seemed that the volunteer brigade would be unable to check the rapid advance of the fire, emergency calls for aid were sent to Essex and Chatham by telephone. Mayor Dr. Bowie, of Essex, commissioned a special M.C.R. train and dispatched a contingent of fire-fighters, who rendered valuable aid.

The reinforcements came just in time, and it is largely due to their efforts that the whole business section and several houses were not burned. Loss Will Be \$75,000.

Both the Scriven block and the Stewart block were gutted and the contents of the several stores destroyed. The total loss is placed at at least \$75,000.

Senate Passes The Canal Bill By Fifteen Majority

Measure Goes Back to the House With Amendment.

WASHINGTON, June 11.—Repeal of Panama Canal tolls exemption for American coastwise shipping passed the Senate tonight by a vote of 50 to 35. The measure now goes back to the House, which is expected to accept the Simmons-Norris amendment specifically reserving rights the United States may have under the Hay-Pauncefote treaty.

Now For the House.
Washington, June 12.—The bill to repeal the tolls exemption for American coastwise ships in the Panama Canal law today awaited the action of the House. The measure was expected to be sent over to the House today from the Senate, where it was passed last night. The bill, together with the amendment, was expected to be taken up at once by the House. It had not been determined early today whether the House would accept the amendment or send the bill to conference. Administration leaders believed the amendment will be agreed to by the House without delay.

The president was being congratulated today because of the passage of the bill, which is regarded as another distinct victory for him.

S., of Toronto, and four daughters; Bertha, at home; Elena, a teacher, in the West; Edith, in Belleville, and Dr. Edna, a missionary, in India.

COLLISION STORY WAS WITHOUT FOUNDATION

Steamer Huronic Not in Accident With Freighter.

[Special to The Advertiser.]
SARNIA, June 11.—Report published today, stating that the passenger steamer Huronic of the Northern Navigation fleet had collided with a freighter in Lake Superior, is denied by H. H. Gildersleeve, manager of the company.
He states that the steamer left the Soo on time, arrived in Port Arthur on time and left there last night at 11 p.m. for Duluth. The captain of the steamers have strict orders to forward at once news of any accidents, and none has been received from Captain McNab, although he was in port all day yesterday.

RECKLESS FIREBUG BUSY AT PALMERSTON

Has Started a Dozen Blazes in Past Few Weeks.

[Special to The Advertiser.]
PALMERSTON, June 11.—No less than a dozen incendiary fires have occurred in Palmerston this spring, though none of them have amounted to a great deal, as they have usually occurred in tenants' houses.
Last night, however, the firebug decided on Mr. James Shields' barn, which is directly behind his residence. Being discovered in time, there was no damage done.
The fire had started from outside, and there was a suspicious odor of coal oil. An investigation will be made.

HENSALL MAN HONORED

[Special to The Advertiser.]

HENSALL, June 11.—Huron district, No. 15, L. O. O. F., held its annual meeting here this afternoon. Delegates from Lucan, Exeter, Hensall, Brucefield, Clinton, Blyth, Dugannon and Goderich were present. Reports from lodges showed that the district is in a flourishing condition. A spirited election for the position of D. D. G. M. resulted in favor of Wm. McKay, of Hensall. A. Robinson, of Blyth, was elected secretary-treasurer.

HURON ODDFELLOWS IN SESSION AT HENSALL

BLYTHE, June 11.—The L. O. O. F. district lodge No. 15 for Huron was held in Hensall, this afternoon with delegates from Goderich, Hensall, Exeter, Blythe, Seaforth, Dugannon, Brucefield, and Lucan. The delegates report showed that all the lodges are gradually growing in strength and that they are more interested in the district meeting than ever, as a great deal of discussion took place, on all the questions brought up by the acting district deputy, Brother Petty of Hensall.

The following were nominated for district deputy Grand Master, Bro. Scott, of Seaforth; Bro. Baily, of Dugannon, and Bro. McKay, of Hensall. After a number of ballots Bro. McKay was elected by the casting vote of the chair. Bros. Sutherland, of Hensall, and Robinson, of Blythe, were nominated for district secretary, Bro. A. W. Robinson being elected. A number of resolutions were passed of votes of thanks to the retiring district deputy and acting district deputy.

DR C. C. LUMLEY LIKELY TO RUN IN WEST ELGIN

[Special to The Advertiser.]
ST. THOMAS, June 11.—The name of Dr. C. C. Lumley, of St. Thomas, is being mentioned as the probable standard-bearer of the Liberal party in West Elgin, to oppose F. G. McDermid, the Conservative member.

Dr. Lumley is a young dentist, well and favorably known, and while he has practiced his profession in this city for several years, he is known throughout the townships, having been born and reared on a farm in Southwold.

If the doctor is persuaded to let his name go before the convention, the Liberals of West Elgin will have a splendid opportunity to redeem the riding.

CONSERVATIVES FEAR TEMPERANCE WAVE

Bringing On an Election as Early as Possible—Speech by Mr. Gibson.

[Special to The Advertiser.]
DUNNVILLE, June 11.—By the tone of the Haldimand Liberals, who assembled in the theatre here this afternoon to hear Mr. Rowell, the riding is in a fighting mood.

It did not need the words of the Liberal leader to raise the gathering to a high pitch of enthusiasm.
D. Z. Gibson, the Liberal candidate, in his first public speech during the campaign, declared the early election was brought through fear of a temperance landslide. He declared that instead of keeping abreast with temperance sentiment in its legislation, the Government had attempted to choke the reform movement to death. There were more farmers needed in the Legislature, he said, and he declared if the agricultural interests had been properly represented there would not have been \$1,000,000 spent on a new Government House, and a cut of 28 per cent in the rural school grants.

Thos. Marshall, former representative of the riding of Monk, which has now been gerrymandered out of existence, spoke heartily in support of Mr. Gibson, and asserted that he had been gerrymandered out of his seat after an assurance with Mr. Hanna that it should be retained, because the Minister of Education in three years had not been able to reply to the criticisms of his department, which Mr. Marshall had made in the House.

Only Aim To Spend Money.
Mr. Rowell spoke directly to the farmers, pointing out the financial incompetence of the administration, whose only aim seemed to be to spend money. In this they had been so successful that since 1904 the expenditure had grown from \$5,267,000 to over \$22,000,000 this year, which deducting \$6,000,000 for hydro-electric and T. and N. O. capital expenditures, would leave the net amount at \$16,000,000. If all the money voted by the house last session was spent this year, and the revenue reached the estimates, there would be a deficit of \$12,000,000.

Two situations were facing the province, to continue to borrow money, where it

Backache Banished.

Thousands of men and women are suffering from weak, lame and aching backs, and many of them unable to do any work for the pain.

The stitches, twinges and twinges are bad enough and give enough misery, but, back of the backache, and the cause of it all are the disordered kidneys crying out in warning through the back.

Backache is kidney ache, and there's serious trouble ahead for you if you neglect it.

Doan's Kidney Pills cure every form of backache by curing the sick kidneys that cause it.

Mrs. Jack Mason, Springhill, N.B., writes:—"I have been suffering from backache for a very long time. I tried everything and did everything, but still I would suffer. One day I was looking over your Almanac, and saw your advertisement for Doan's Kidney Pills, so I got 5 boxes, and I am glad to say that they brought me back to life again, and from now on I will never be without them."

Mr. Rowell enunciated the Liberal agricultural program including good roads,

Hydro-Electric extensions to the farmers for power and railways, increased attention to agricultural education, demonstration farms and the encouragement of co-operation.

DISTRICT AROUSED OVER TREATMENT OF MAJOR LEONARD

Dismissal of Sixth Battery
Commander May Disrupt
Militia.

OFFICERS ARE INDIGNANT

High-Handed Action Rouses
Their Ire—"Ale" Was
Really Beer.

What is characterized by militia officers, independent of politics, as the unwarranted action of Col. the Hon. Sam Hughes, in demanding the resignation of Major Wood Leonard, of the Sixth Field Battery of this city, may cause the wholesale disruption of the militia forces in this district.

Everywhere the action of the Minister of Militia is condemned as outrageous, and the humiliation of a brother officer, who is known to be absolutely innocent of intention to do wrong, has tarred those holding commissions to a point where drastic action seems absolutely certain.

Information that comes to The Advertiser points conclusively to high-handed action, in which the personal character of officers was held at naught by Col. Hughes, and that they were forced to submit to humiliations which were brutally eliminated by the relieving of Major Leonard of his command.

That no officer of the Sixth Field Battery was aware that liquor in any form was in the camp, is supported by evidence which could have been secured by the militia department, had proper investigation been made, it is said.

The information handed out at Ottawa to the newspaper correspondents is alleged to have been grossly misleading.

Officers Submitted to Search.

The statement was given out at Ottawa that several cases of ale had been found in the tents, and the insinuation was made that the officers either had this liquor in their tents or were aware of its presence. The fact is that every officer in the battery submitted to a searching of his tent when his word was refused, and no liquor of any kind was found. The impression given was that the officers were aware of the presence of liquor in the camp, and that they had broken faith. The officers were humiliated at having the tents searched after they had given their word of honor, and intended to carry the matter further. When their commanding officer was made the victim of unfortunate circumstances, and the militia authorities, it is said, were so inconsiderate as to give his side of the story no hearing, or no credence, they immediately resolved that the case should be tried at the bar of public opinion.

Letter Sent to Major Leonard.
The following letter, directed to Major Leonard yesterday, before the incident

was reported, explains how it came that liquor was found in the camp at Petawawa. It also is clear proof that the commanding officer was not aware of the presence of the liquor. The letter is from the Carling Brewing and Malting Company, Limited, of this city. June 10, '14.

"Major Wood Leonard,
"Sixth Field Battery,
"Petawawa."

"Dear Sir:
"Regarding information received that the department had found some cases of our lager in the local temperance beer, we would point out that, as has always been the case, we sent over a few cases to your train as a complimentary donation for special use on the journey to Petawawa.

"We instructed our teamster to notify your men that there were a few cases of lager donated, but in the confusion of loading he forgot to mention this fact, and this is the only way we can explain how any lager could have been found in your train. As explained before, the temperance beer which was ordered contains less than one per cent alcohol, and is absolutely non-intoxicating and harmless, being guaranteed in accordance with the Ontario liquor act, and saleable by anyone in Ontario.

"We feel responsible in a way for any trouble you may have had in respect to the lager, as we should have seen to it that you were personally notified that a few cases of lager were included in the shipment, and we cannot see how you can in any way be held responsible for something about which you know nothing. "Trusting that a small matter has been adjusted before now,

"We beg to remain,
"Yours very sincerely,
"Carling Brewing & Malting Co. Ltd."

"Ale" Was Beer.

It is known that the "ale" referred to in the dispatches was the lager given by the Carling Company, as the fact was made plain that it was in the cases of this company that the liquor was found.

The company is certain that this is the only liquor from its brewery which went on the train to Petawawa. In the statement given out by the militia department at Ottawa it was said that the "ale" contained 7 per cent alcohol.

As a matter of fact, ale contains 4 per cent alcohol, and the lager which was in the camp contains 3 1/2 per cent.

The trouble was apparently caused through a complaint sent from London that liquor had been loaded on the train which took the London battery to the camping grounds. This complaint was received by the authorities, and when the officers were approached in the matter they were astounded to learn that such a charge had been made. They were aware that a quantity of temperance beer had been brought along, but they were reasonably certain that there was no liquor in the camp of any sort.

Major Gave Word of Honor.

When questioned by Lieut.-Col. Morrison, Major Leonard gave his word of honor that there was no liquor in his tent, and that to the best of his knowledge there was none in the camp. The word that there was no liquor in their tents. They expected their word to be taken, but instead, each tent was searched. Not one drop was found. The officers considered that if officers of the Canadian militia were not to be considered as gentlemen, it was time they were off the active militia list.

Officers Were in Ignorance.

Meanwhile, the liquor given by the

HAD INDIGESTION.

Almost Despaired of Ever
Getting Well.

When your food has not been properly digested, your body has not received the benefit it should. The exertions of the gastric juice have been confined entirely to removing the undigested, undigested portions of food, which they cannot properly digest as speedily as possible from the body, therefore only giving the blood a small percentage of nourishment with which to feed the tissues. No wonder then that indigestion and dyspepsia attack the stomach. No medicine can surpass Burdock Blood Bitters as a cure for this particular disease. It regulates the bowels, promotes perfect digestion, makes pure blood, tones the stomach, and thus restores perfect health to the debilitated system.

Mrs. Mary MacKay, Hunter's Mountain, N.S., writes:—"I was troubled with indigestion for more than ten years (I tried several Doctor's medicines claiming the power to cure, but all without success. Having heard of Burdock Blood Bitters I decided to give it a trial. After taking two bottles I was completely cured. My appetite which was very poor, is now good, and I can eat most everything without any disagreeable feelings. I can strongly recommend B.D.B. to anyone suffering from indigestion."

Carling Company, which had apparently not been consumed on the train, as was intended, was seized by the authorities. None were more astonished, it is said, than the officers, who had been absolutely ignorant of the presence of any beer in the camp. The whole matter could have been cleared up in a short time, it is claimed, had the officers been given an opportunity. But the treatment they received was to have no opportunity to trace the presence of the liquor and to see their commanding officer humiliated.

Major Ibbotson Leonard, of this city, brother of Major Wood Leonard, related to The Advertiser last night that he was at the station at the time the battery was enquiring, and that he had particularly warned his brother to be sure a certain man in the corps did not get hold of liquor, as he was what might be called "a bad actor." Major Leonard, in reply, had expressed confidence that the man would cause no trouble, explaining that there was no liquor on the train, and that it would be impossible for the man to secure liquor until he had returned to London.

It is stated that there was no foundation for the statement that the lager was shipped as temperance beer.

WHITE EMPLOYEES ENJOY THEIR PICNIC

1,500 Employees and Friends
at Annual Springbank
Outing.

BIG SPORTS PROGRAM
Interesting Races and Events
Followed by Banquet and
Dancing.

None were busy at George White & Son's factory yesterday afternoon. It was tightly packed up, and all employees, with their friends, were spending the afternoon at Springbank, at the annual picnic given by the company. Altogether, about 1,500 persons who enjoyed the outing. Beautiful weather helped to make it one of the best yet held by the company.

At 2:30 o'clock the picnicers started for Springbank in extra cars, which were run to accommodate the crowds. The trip down was part of the picnic. So was the trip back to the city. In between, they managed to spend a perfectly enjoyable time.

The committee had provided a long program of sports, which was as interesting to those who only looked on as to those who took part. The list of contests. There were some novel and entirely new events on the list that made the afternoon part of the affair excellent for everyone.

A real picnic banquet, served in the early evening, was heartily enjoyed by several hundred of the party. This closed the picnic for many, but a large number remained for a dance given later in the pavilion. More than 100 couples danced to special music, and returned on the last cars at night.

Besides the crowds who went to the park to the White & Sons' picnic, there were large numbers who took advantage of the delightful evening for a ride and short stay at the park, which promises to be more attractive to citizens this year than ever.

Superintendent H. H. Hummeston, of the London Street Railway, says that scores of associations and various bodies have booked up for special cars some time between now and the middle of July. McClary's Benefit Society is holding a big picnic, at which nearly 1,000 persons are expected, on Saturday. It was postponed from last Saturday. Special car service will be given to accommodate the Saturday crowds to the park.

In the baseball game called at 1:30, the shophmen defeated the office players, 6 to 1. The teams lined up:

is not likely to be found doing "big things."

To succeed nowadays one must be wide awake day-times and sleep soundly at night.

Tea and coffee, on account of their drug, caffeine, keep many people awake nights and make them dozy in the daytime, when they should be keen and alert.

If you have any ambition to "make good" try quitting both tea and coffee and using

Made of whole wheat and a bit of molasses, Postum contains no caffeine, or other harmful substance, but does contain the nutritious food elements of the grain.

Wholesome -- Nourishing -- Delicious!

Postum comes in two forms:

Regular Postum—well boiled, yields a delightful flavor. 15c and 25c packages.

Instant Postum—a soluble powder. Made in the cup. No boiling required. 30c and 50c tins.

DANISH REFORM IS BLOCKED BY THE KING

[Canadian Press.]
Copenhagen, Denmark, June 12.—King Christian X. of Denmark today placed an unexpected obstacle in the way of the plan of the Danish cabinet to solve the deadlock in electoral reform by dissolving the upper house of Parliament, whose members, by refusing to vote, have stopped the passage of the constitutional amendment bill.

His majesty has objected to the inclusion in the dissolution of the members of the upper house nominated by himself, and declares that he wishes only the other 54 members to be affected.

Radicals have advised the cabinet to resign unless the king gives way. The bill, which abolishes all property qualifications for electors of members of the upper house and takes away from the crown its present right to nominate twelve members, passed the lower house on June 9. When the bill reached the upper house the Conservatives, including the king's nominees, absented themselves, and as they number more than half of the 66 members, no valid vote could be taken.

The W.M.S. will meet at the church for study on Thursday, June 18.

Traction Cars Leave Station on Horton Street at 1:30, 2:30, 3:30 and 4:30.
Returning Leave Lambeth 2:50, 3:50, 4:50, 5:50 and Every Hour Thereafter.

HOW TO GO

Buy return ticket for Lambeth at the Traction Station on Horton Street. On presentation at our office in Lambeth (Royal Bank Building), a refund of the price of your fare will be made.

The trip occupies about eighteen minutes each way. We want you to keep your eyes open every minute of the time, and enjoy the beautiful views that open out as the car rushes along. You'll also appreciate the glorious pure air—it's most exhilarating. About half way, look back and you'll see the city with a pall of smoke hanging over it. That's what you breathe when you live there.

LOOK THE PROPERTY OVER

When you get off the car, first notice what a short distance it is from the car to Lambeth New Survey. Then look around the property. See what splendid drainage it has, take in the magnificent views in every direction. Do you know how wide fifty feet is? Ask our man to show you fifty feet frontage on one of our lots. You'll be able to picture how nicely a house will sit on your fifty-foot lot and leave plenty of space for lawn and shade trees.

Notice the width of the central thoroughfare, Broadway avenue. Then try to imagine it laid out as a boulevard with grass, shrubbery and trees down the centre, driveway, etc. Remember that all lots front on this fine avenue. While you are there, if you think you would like to live where the air is pure, and always will be, where taxation is very low, where you can raise garden stuff and chickens

as you please, where you will be giving your wife and family every opportunity of enjoying the best of health the year 'round, and above all, where you will own the land you live upon, better fix it up with our man while you are on the spot, because —

The number of lots is limited. Those who arrange for one or more tomorrow will be sure—others can't. But come out anyway—we want you to know Lambeth New Survey, because to know means to boost.

Look at the Above Plan for a Minute

In the upper right-hand corner, you see where the Traction line comes from London, running parallel with our property about 100 yards distant, then turns the corner and runs past one end of Lambeth New Survey, on to St. Thomas and Port Stanley along Talbot road. The small square at the curve represents the Traction Station, but there is also a stop (Station 13), where the line passes Campbell Street, and another (Station 14), where it passes Baynard Street, so that the cars are within easy reach of any portion of the property.

If you care to take the time while you are out there, look around the village and you'll agree with us that there is not another such property in the place. For an opinion on living conditions, the kind of people who reside there, or just exactly where and why it is preferable to living in the city, we refer you to any of the people who

BIG GUSHER CAPPED AFTER HARD STRUGGLE

[Special to The Advertiser.]
PETROLEA, June 11.—The big Oil Springs gusher was successfully capped at four o'clock this afternoon. A specially prepared packer which arrived last night did the trick, but from the fact that it had to be specially prepared it is evident that this well is larger than any that any American company has prepared packers for before.
It may be seen how the Fairbank well and the Oil Springs company wells compare by the fact that the former was capped within a couple of days without a packer, while this one has remained uncapped for within an hour of a week.

S. A. CONGRESS OPENS

LONDON, June 11.—General Bramwell Booth, commander-in-chief of the Salvation Army, and Mrs. Bramwell Booth, tonight received in Albert Hall the delegates to the world's congress of the army, of whom 2,000 are from overseas. Many of them appeared in native costumes, and the spectacle was a picturesque one when they marched across the platform in sixes, and saluted General and Mrs. Booth before taking seats reserved for them in the arena.
A party of converted Zulus varied the proceedings by giving a war dance. General Booth delivered an address of welcome, and read messages from King George and the President of the United States.

Voice of the People

The Carpenters' Strike.
To the Editor of The Advertiser:
Our attention has been drawn to a statement in your paper of the 9th inst., wherein one of the contractors says the increase demanded by the carpenters would mean an increase of 50 per cent. He qualifies this by saying that the demand for 40 cents minimum would mean paying 60 cents to the best men.
The bricklayers have had a minimum of 50 cents for two years, and does anyone know where this has meant the payment of 75 cents per hour to get a good one? And there are good and better bricklayers, the same as there are carpenters. We

disagree that the payment of the 40-cent minimum is an increase of more than 5 cents per hour on an average, and if some carpenter bosses have been paying less than 35 cents to a carpenter, I don't think their accounts to the people they have done the work for show it very often. When the 40-cent rate is established in London, this will still be one of the lowest-paid cities of its size on the North American continent, but we venture to say that fewer handy men or pinch-bar

artists will be working at the trade than some employers have used in the past, and the householder who sends for a carpenter, and who is charged for one by the contractor, will be more likely to get what they pay for.
In conclusion, we wish to again tell the public the responsibility for the present stoppage of work rests entirely with the employers. Three distinct attempts were made by the men to get a conference: the efforts of the labor department at Ottawa, the efforts of your mayor, Mr. Graham, were all ignored by these employers, and the men had their committee on hand at all times to meet and discuss any difference of opinion the employers may have had on this question. Other trades adjust their differences in that way, and so why not the carpenter? The further statement in the same article that the

bricklayers refused to assist the carpenters when called upon to also fails, as up to the present no request has been made to them by the carpenters. The two unions are in perfect harmony, and should the necessity arrive for joint action neither the bricklayers nor any other trade will be found wanting. Yours truly,
Carpenters' Executive Committee,
Walter Ellis, Chairman.

Oil Park Roads

Mr. Glaubitz!

Oil the roads at Springbank Park, Mr. Glaubitz!

The hedges are laden with dust and the city's ponds are covered with a film of dust at times. The pedestrian who would ramble in shady glades is liable to be transfixed into a miller of the Dees.

That a coat of oil on all the paths at the parks would be welcome, is what automobile men say. Next year there is likely to be a movement to have country roads oiled, the automobile men to pay a share of the cost.

June Weddings

CUNNINGHAM—WALLACE.
A pretty June wedding was celebrated Wednesday afternoon, at the Hamilton Road Presbyterian Manse, Hyatt avenue, when Rev. Dr. D. L. McCrae, united in marriage, at the residence of the bride, Miss Margaret Wallace, of the Pere Marquette Railway, St. Thomas, and Miss Janet Wallace, of London. The bride was attended by Miss Charlotte Leighton, of St. Thomas, and Alfred Darlington, of St. Thomas, assisted the groom.

The bride was charmingly gowned in a chic suit of white serge, with hat to match. The bridesmaids wore a dress of white embroidery.
Mr. and Mrs. Cunningham left for the west by the afternoon Pere Marquette train. They will reside at 15 College street, St. Thomas, and will be at home to their friends after June 14.

MOLLARD—SMIBERT.

On Wednesday evening, June 10, Rev. A. McKibbin united in marriage Cecil Mollard, of McGillivray Township, and Miss Jane Isabella Smibert, of London Township, at the residence, 151 Colborne street. Mr. Mollard was supported by John A. Smibert, of Thorndale, and Miss Smibert was attended by Miss M. Brown, of Pall Mall street. Mr. and Mrs. Mollard will reside in McGillivray Township on Mr. Mollard's farm.

DROWNED IN SIGHT OF WIFE.
HALIFAX, N. S., June 11.—Henry Hanzbury, a fisherman of Devil's Island, was drowned yesterday in sight of his wife. He had been up to the city during the day, and was on his way home when the accident occurred. When he got within a quarter of a mile of the island, Hanzbury's wife saw him stand up and attempt to lower the sail, but in doing so he lost his balance and fell overboard.

GENERAL APPROVAL OF PROPOSED TOUR

Western Ontario Takes to Idea With Avidity of Business-men's Trip.

The proposed businessmen's excursion into Western Ontario as planned by the industrial bureau is meeting with general approval and town councils, boards of trade and civic bodies in the cities throughout the western part of the province have endorsed the scheme. Petrolia, Chatham, Dresden, Essex, Ridgeway and Wallaceburg have already taken action to receive the London delegation of businessmen when they start out on the proposed three days' trip.

Industrial Commissioner Gordon Phillips, who is arranging the trip, stated that the date had not been fixed, but it would be some time in July. The suggestion had been made to postpone the excursion until August, as most of the commercial travellers will have their holidays then. But July was fixed as a better time as it was feared that three days in August would interfere with the Old Boys' Rennon.

Managers and heads of departments in local concerns are already looking forward to the trip as an opportunity of meeting their customers in these towns and having a brief personal chat.

"SOUTHERN WEDDING" HIT OF SEVENTH BAND CONCERT

"Too Much Mustard" Also Warms Park Audience to Appreciative Degree.

The band concert given by the Seventh Regiment band in Victoria Park last evening, was a success. "Southern Wedding," according to the program. The bassoon acted as the parson, the trombone as the bridegroom, and last, but not least, the flute thrilled forth the "I wills" of the bride. It was an interesting and unique number, much enjoyed by the large crowd present, who encircled number after number, one bandman remarking afterward that it was the most appreciative audience that has attended a local band concert for over two years.

The piccolo solo by Bandsman Darling was also a feature, while "Too Much Mustard," proved to be as popular as ever.

DR. HARRY REASON NEW BOY SCOUT COMMISSIONER

Summer Camp Will Be Held at Cronyn and White's Springs on River Thames.

The commissionership of the London Boy Scouts was accepted by Dr. H. T. Reason at a meeting in Cronyn Hall last night. The announcement of his acceptance of this office, which the association tendered him some time ago, was received with enthusiasm by the members present. The local scouts have been without a commissioner for some time, and under Dr. Reason's leadership, a forward movement among the local corps is confidently looked for.

Arrangements were completed for the Scout's camp to be held on June 29 to July 4, on the farm of John White, Cronyn and White's Springs, on the River Thames, about five miles from the city. About 150 boys will be in camp, doctors will be in constant attendance, and the committee in charge of the arrangements has taken care to engage a first-class cook.

President W. C. Butler presided at the meeting last night. Announcement was made that the local Boy Scouts had been invited to give a number of demonstrations in scout work at the garden party of the Humane Society, to be held this evening on the lawn of the residence of Lieut.-Col. W. M. Garthshore.

RECITAL AT CONSERVATORY

Pupils of Charles Percy Render an Artistic Programme.

An interesting and artistic recital was given at Conservatory Hall Wednesday evening by Mrs. W. G. Taylor, piano pupil of Charles Percy, and Miss Annie Martin, vocal pupil of Mr. Percy. They were capably assisted by Misses Lillian Workmann and Edna Lancaster, elocution pupils of Miss Georgia M. Newbury. Mrs. Wilson rendered her several numbers with good style and taste. Miss Martin, in a voice of pleasing quality, was heard to advantage. The elocution numbers were well received. Mr. Percy acted as accompanist.

GEN. MANAGER EXPLAINS DECREASE IN SURPLUS

Cheaper Hydro Rates Have Cut Down Profits by Nearly 50 Per Cent This Year.

In explanation of the statement issued by the hydro power commission in Toronto a few days ago, showing that the surplus in London had fallen off about 50 per cent, General Manager Glaubitz said yesterday that the local office was in first-class shape. The cheaper rates, he said, decreased the surplus, but the net revenue exceeded the estimate, which was put down at \$20,000. A year ago the surplus was about \$40,000, and Mr. Glaubitz's explanation indicates that the cheaper rates will pull this down to \$20,000. "We are selling 9,400-horsepower in the city at present," he declared. "We established our office here at a cost of \$3,000, and made other extraordinary expenditures, all of which will have a tendency to pull down our total surplus. But under this condition we are showing some gains."
