OR BEATTIE FACED DEATH IN CORNWALL HOTEL FIRE THAT WIPES OUT NINE LIVES

Mr. J. L. Johnson, of a Local Firm, Also Caught Asleep by Fire That Destroyed Hotel Rossmore This Morning, Taking Terrible Toll of Life and Doing Quarter Million Dollar Damage.

Among those who had a close call for life in the Rossmore Hotel fire at Cornwall, was Major Beattie, M. P., London. Major Beattie, who reached Ottawa at noon, says he was in a room on the second floor, and about 3 o'clock he was awakened by a feeling of suffocation. He found the room filled with smoke. He opened the door and found the corridor full of flames, cutting off his escape. There was luckily a rope in the room, which he secured, and throwing his clothes into the street, he slid down the rope in his pyjamas. The skin was torn from his hands, sliding down the rope, and he was considerably shaken up. He found his clothes in the street and promptly got into them.

Mr. J. L. Johnson, of 371 Princess avenue, the senior partner in the firm of Johnson & Barbour, wholesale crockery dealers, of this city, was another of the guests in the burned hotel. Mr.Johnson left London about six weeks ago on a trip to Halifax, and, it is believed, arrived in Cornwall last night from Montreal, on his way home, as his family heard from him on Tuesday, and he stated that he would come home shortly. This morning a telegram was received from him stating that the hotel had been burned, and that he had lost everything except his trunk. All his samples, which had been spread out in the hotel for exhibition, were

[Special to The Advertiser.] Detroit, April 29.-The "Spanish prisoner" swindle has been attempted unsuccessfully several times on Detroit's men of prominence, but entirely a new game was tried on George Beck, of the Beck Cereal Company, the other day.

"I'm in great distress," a male voice faltered over the 'phone into Mr. Beck's ear. "I'm from London Ontario, and have been assaulted and robbed. They took my watch and all my money and fractured two of my ribs." It was a pitiful voice, and held a slight but unmistakable lisp. "That's too bad," sympathized M:

The Premier's Position. Sir James said the opinion of the cabinet had not been expressed, but briefly it was this, that the provincial university, which, unfortunately, was situated in Toronto, either had to looked after or dropped entirely. When the Government came into power, it was found that something would have to be done for Queen's, and the Gov-given \$40,000 each to Queen's and to the Western University, and in ernment assisted that institution, and the Government, he said, would have done more for the provincial university if it had not been for Queen's and the Western Universities. Continuing, Bishop Williams said something should be done to form a centre for higher education in the most populous portion of the Province. Mr. Justice Meredith said the Wrst. ern University did not wish to detract in any way from Toronto University. The intention was to hand graduates to Toronto or take up post-graduate work. Judge Meredith said Western University was a public institution, and suggested that the Government maker a per capita grant of \$75 a year per head. Also he suggested that a grant of \$15,000 be given towards medical faculty.

Finton's farm was covered with deep mud, and it is evident, therefore, that after leaving his house he went to the barn and never left it alive, else his boots would have been covered with mud. The authorities attach considerable importance to this, as their view is that the old man may have had a long conversation in the barn with the ARRESTED AT ST. NO FREEDOM FOR POLES

Still Under the Heel of Russia, Despite Many Promises.

London, April 28. - Conditions as they exist for the Polish subjects of the Czar are well exemplified by the following dispatch which is from the London Express' special correspondent in St. Petersburg:

All Polish railway servants on the Southwestern Railway have been dismissed by order of the minister of ways of communication. Thus a number of men are thrown out of employment at a time when it is almost impossible to get other work. No reason for the order is alleged beyond the fact that the men are Poles.

I hear that it is also intended to

make a clean sweep of Polish employees on the Northwestern system. In this way 150 telegraphists, among others, will lose their situations. In 1905, I crossed the German frontier into Poland, and witnessed a curious scene, which these measures recall. A guard and ticket conductor entered the compartment in which I was sitting with two Poles. Suddenly one of my fellow-travellers, exclaimed in great excitement, "They are speaking Polish." Learning that the men were Poles, I remarked that there seemed nothing extraordinary in the fact that they were speaking their native lan-

A further act of intolerance is embodied in the bill submitted to the Duma for the introduction of the Zemstvo into the western provinces. It is provided that no Catholic shall be allowed to hold any official position on the Zemstvo. This clause has been inserted in order to prevent Poles holding office. Such is the spirit in which the Czar's ukase granting religious liberty is interpreted by the minister of justice.

is an important difference between ordinary

bread and first class bread. It isn't a difference of looks or methods of making or baking. It is a difference of nutrition, food value, healthfulness. And this food value depends on the flour used. For there is a wide

difference between flours.

None but the very best Red Fyfe wheat--rich in nutrition and healthfulness—can pass. For this reason bread made from ROYAL HOUSEHOLD FLOUR contains the maximum of food value and furnishes the

sive laboratories and baking departments where

skilled men scientifically analyse each day's milling.

Ogilvie's Royal Household Flour

If all flour were the best flour, then all bread, properly made, would be good bread. But all flour is not first class because all wheat is not first class. Wheat, you know, varies in quality almost as much as apples or potatoes; there are as many different grades of wheat

as there are grades of butter-or wool. And every difference in grade represents an actual difference in nourishing value, food elements, wholesomeness. Flour made from a low grade of wheat is by no means so healthful as flour made from high

maximum of energy and strength. And for the same reason "ROYAL HOUSEHOLD" makes the finest pies, cakes, biscuits, muffins, rolls, and pastry of all kinds. It is the one flour

that a housewife should use in order to have her household baking strictly first class.

STRATFORD FOOTBALL. [Special to The Advertiser.]

Special to The Advertiser.]
Stratford, April 28.—City League football has taken hold strongly in Stratford and some good contests are being furnished. Tonight, on the Collegiate flats, the G. T. R. defeated the Y. M. C. A. by 1 to 0 The play was fairly even, the G. T. R. not having any very perceptible advantage. A peculiar feature of the game was that the winning goal was scored by a Y. M. C. A. man against his man. It was fluke but as it later proved.

A bad back turns every twenty-four hours into one dull round of pain and misery-you are lame in the morning. nagged all day by a dull, throbbing backache, can't rest in the evening or sleep well at night. It hurts to bend over, straighten up,get up from a chair, or lift even a light weight. Any sudden twist, turn or awkward movement sends a tearing twinge of pain through

Backache is really kidney-ache. The kidneys are in the small of the back, and any pain there is enough cause to suspect your kidneys. If the urine is discolored, contains sandy sediment, or passes too frequently, then you have double proof.

Keep the kidneys well and the kidneys will keep you well. Well kidneys filter the blood and keep it pure. Dis-

The simplest and most effective remedy for sick kidneys is Booth's Kidney Pills. If there is weakness, congestion inflammation or soreness, Booth's Kidney Pills quickly relieve it. They gently stimulate, tone and strengthen sick kidneys, drive away backache, rheumatic pain and dizziness, clear up and regulate the urine and restore a per-fect filtering of the blood. Best of all,

this relief is permanent. London Proof. Mrs. W. Fallin, of No. 524 Grey

Mr. Mackay was taken completely by surprise. His first thought, he declared; was that they were no way in debt to him, so many and unfeigned were their kindnesses. He could not fall to see their love and loyalty increasingly manifested, and especially throughout the last year or two of his ministry, so much so that he felt bound to them with the strongest and tenderest ties. He knew not how, indeed, to give up such valued friendships and sympathy, and when this particular expression of their goodwill might be spent and gone their mutual trust and affection would long survive and be often recalled with gladness. The meeting was brought to a close with the singing of their some the strongest and the strongest and some their mutual trust and affection would long survive and be often recalled with gladness.
