DEEPER CANALS WANTED.

CHEAPER freight rates is the desideratum which merchants, manufacturers, and farmers are clamoring for.

The want is felt in Canada as well as in the United States, and the manner in which it is hoped to be obtained is by improving the canal systems of the country, and that of the St. Lawrence in particular.

The St. Lawrence system of navigation is 2,260 miles, of which over 70 miles are composed of canals, and it is in these canals that are to be found the obstacles which prevent shippers from reaping to the full the advantages of our splendid inland system of navigation.

The obstacles do not exist at either end of the system. They are encountered intermediary. In a word the great trouble is with the St. Lawrence canals, and it is with a view of removing the obstacles there that the international convention is to be held in Toronto week after next.

The new canal built by the Dominion Government at Sault Ste. Marie will pass vessels drawing over 20 feet of water, and the Welland Canal those with a depth of 14 feet. But down the St. Lawrence canals no vessel with a draught of over nine feet can pass. This necessitates the transshipment to canal

boats of a large portion of the cargoes from the upper lakes destined for Montreal.

The objects sought by those who are seeking for the deepening of the St. Lawrence canals are of two different kinds: One desires to induce the Government to proceed expeditiously with its intention to make these canals of a uniform depth of 14 feet. Others desire that both the St. Lawrence and Welland canals be made of a uniform depth of 20 feet in order that ocean vessels might, if need be, steam into Port Arthur at the head of Lake Superior.

This latter object will probably be realized at some time, but on account of the financial obstacles in the way it is likely to be deferred for many years.

Government engineers have estimated the cost at over \$100,000,000; and besides this there is the cost of dredging out the harbors to accommodate vessels of ocean steamship capacity. But this latter consideration is infinitesimal compared with the other, which would mean the addition of another \$100,000,000 to our Federal debt, which is now over \$240,000,000 net. In the face of this it does not seem politic to advocate the 20-foot scheme at present.

The proposition, however, to deepen the canals to a uniform depth of 14 feet should receive the support of everyone in the country.

This proposition is based on no theoretical propositions. Fourteen feet canals are demanded upon practical grounds. They are demanded in order that products of the Canadian great Northwest may be conveyed down to Montreal in vessels drawing fourteen feet of water to the side of the ocean steamships, thus obviating at least one costly and unnecessary transshipment. They are demanded in order that the St. Lawrence route—the natural one—to the

sea from the upper lakes shall be preserved to Canada.

The press despatches of a few days ago informed us that the Dominion Government have called for tenders for deepening the Lachine canal to fifteen feet, work to be completed by the end of October, 1896. But this canal is only $8\frac{1}{2}$ miles out of the total of $43\frac{3}{8}$ miles of the St. Lawrence river canals. It is however a step, but if no bigger or more rapid steps than that are taken it will take a good many years to secure the decided uniform fourteen feet throughout the system.

It is opportune that the people should agitate.

IT'S COMING.

THE trade of the country look as regularly for the fall number of the CANADIAN GROCER as does the farmer for the varying seasons of the year.

The number is coming. It will make its obeisance in another month.

The cover has already been prepared, and now we are busy getting ready the material to fill it up.

THE GROCER'S special fall number cover is always striking and original. That of the coming number is even more so. Our artist, when instructed to draft a design for it, was in Bermuda. One day he came across a big, jolly-faced negro in the act of eating a banana. He saw in that an idea for the cover, and there and then he sketched the unique picture that the lithographer has transferred to the cover of our fall number for 1894.

The gentleman of color stands with a banana partly peeled in his hand. His head is turned to one side, while the expression on his face seems to say: "Golly, ain't it nice!"

THE CHEESE SITUATION.

CCHEESE is the cynosure on the produce markets. It has been so for some time, and during the last week or two it has been doubly so.

The drouth has been the all-important factor. On account of this the factories in the west have not been able to turn out their full complement. Instances are known where they have not been able during the last month to come within doing so by 66 $\frac{2}{3}$ per cent.

In consequence of this prices have appreciated considerably. They are from 1 $\frac{1}{4}$ to 1 $\frac{1}{2}$ c. higher than a month ago, and the latter part of last week bids that were entertained the day previous were refused, and equal to $\frac{1}{2}$ c. more demanded. The factories in Ingersoll and west of there are holding at 11c. f.o.b., and men in Toronto, who made contracts when lower figures ruled, are now regretting that they did not place orders for much larger quantities.

There does not appear to be much cheese in the hands of the factories, but while this is so, the same cannot be said with regard to the middlemen. They have quite a number in cold storage, but they are holding them at high prices. In Montreal there are over 300,000 boxes in cold storage, and the number is increasing. In fact, accommodation, advices from there state, cannot be found for all seeking storage.

Rumors are rife that a corner on cheese is in process of formation, but THE GROCER has been unable to discover reliable evidence that such is the case. True, middlemen are holding a good many, but, on the other hand, dealers in Toronto have experienced no difficulty within the last week in making contracts with factories.

The heavy rains of Sunday seem to have somewhat abated the bull fever, but those so affected still appear to have faith in the market at present prices.

The rainfall has certainly changed to some extent the influences that were stiffening the market. But there are still elements of uncertainty regarding the situation that are somewhat puzzling to dealers, and one of them is as to the extent of the June and July cheese held in Montreal.

From what THE GROCER can gather the situation does not appear to favor further or at least material appreciation in values. Large quantities of cheese are held in Montreal, and Quebec has not suffered from

drouth as has the West. Then there are the lots held in the West, and now we have had rain to improve the pasturage.

Furthermore, it must be remembered that the cheese making industry in Canada received quite an impetus from the World's Fair, and, although the make will be curtailed somewhat on account of the drouth, it will be larger than ever before. Europe, and the United States with its duty of 2c. per lb. lower, will take more cheese from us than they did last year, but it must be remembered that the condition of prices in these markets, in the former particularly of course, will largely govern values here.

Our exports of cheese for the fiscal year ending June 30, 1893, were 133,946,365 lbs., valued at \$13,407,470. Of this \$13,360,237 worth went to Great Britain and \$23,578 to the United States.

THE FRASER SALMON PACK.

SALMON packing in British Columbia is over for the season. It closed August 25th.

Efforts were made to induce the Government to prolong the season a week, but without avail.

The run of fish on the Fraser this season has fluctuated a good deal, some days it being small while on others the canneries were taxed to accommodate the catch. The last week of the fishing was of the latter character.

The pack on the Fraser is estimated at 317,000 cases, and that on the North at 127,000 cases, making a total of 444,000 cases. This is according to figures in the News-Advertiser, at Vancouver, while the B. C. Commercial Journal places the total pack at 430,000 to 440,000 cases.

Of the total pack, according to the News-Advertiser, 355,000 cases will go to the United Kingdom; 55,000 to Canada, 25,000 to Australia and 10,000 to other points. The same paper further says: "The quality throughout is excellent and about one-half the whole pack has already been sold, the balance being firmly held for an advance. Latest prices in the United Kingdom range from 17s. 6d. to 18s. 6d. for tallies, and 19s. 6d. to 20s. for flats, but holders expect an early advance in the face of the short pack. The total pack of flats was 58,000 cases, of which some 3,000 will go to Australia and Canada. In the United Kingdom consignment is included 15,000 cases of half-pound

flats, which should fetch a fancy price. Most of the lines un sold are held in Victoria."

Last year the pack on the Fraser was 590,229 cases. In 1892 it was 228,470 cases, in 1891, 314,893 cases and in 1890, 409,464 cases.

Taking the pack as estimated it is much larger than that of the average of the previous four years, which was 360,014 cases.

Our exchange says that holders are firmer in their views, although only a few sales were reported at advanced figures since the beginning of the packing season.

MERCHANTS SHOULD SEE THE FAIR.

EVERY merchant within reasonable distance of Toronto should visit the Industrial Exhibition, which opened Monday last, and which continues till the 15th inst.

Because a merchant visited it last year, or the year before, it is no reason why he should abstain this year.

The man who stops reading his trade or daily paper gets out of touch with what is going on in the world of politics and of commerce.

And the man who misses attending the Toronto Industrial Fair gets out of touch with what new goods and new inventions are coming out, and fails to glean ideas that would have helped to make his business, his life, a better success.

Visit the Fair and call in and see THE GROCER, the wholesalers, and have a good time generally.

NEW B.C. INDUSTRY.

A salmon smoking establishment has recently been started at South Westminster, which bids fair to be the forerunner of a big industry in this line.

The smoking of salmon is comparatively new on the Coast, canning having heretofore absorbed all the attention and capital of those engaged in the fish business.

The proprietor, H. C. Barber, of this city, is employing an experienced staff of men and putting up a first-class quality of fish, of which he should have no difficulty in making large sales. The smoked fish for foreign trade is being put up in 25-pound tins, a new idea, and one which it is warranted will keep the fish for an unlimited time.—News, Vancouver.

Like the manufacturers and farmers, the railways of Canada will in time benefit by the new United States tariff. They will certainly carry a great deal more lumber across the line, and larger loads of coal, farm and dairy produce are certain to be shipped to our cousins than now. The railways are also likely to bring back into Canada more freight than has been customary.

A VEXATIOUS CUSTOMS LAW.

INDIGNATION higher and higher is being heaped up against the Dominion Government as the number of the members of the grocery trade harrassed and annoyed by the decree of the Customs Department ordering the strict enforcement of Section 10 of the Customs Act increase.

The section referred to reads: "All invoices of goods shall be made out in the currency of the country whence the goods are imported and shall contain a true statement of the value of such goods."

This means a complete reversal of the custom that has obtained for no one knows how long.

Until this order went into force the invoices were made out in the same currency as the goods were bought—pounds, shillings, and pence.

Now, although the buying and selling of foreign goods is still on the sterling basis, the foreign merchant from whom goods are bought is compelled to furnish an invoice, certified correct, in the currency of the country of shipment. For instance, if the goods are bought in Turkey, the invoice must be made out in piastres, if in China, in the tael, if in Germany, in the mark, and so on.

The law is not a new one; it is an old one revived.

The avowed object for putting the law into operation is to the better ensure the Customs getting at the actual value of the article imported. There are those, however, who aver that it will not.

But one thing, it is certain, the order has done: It has stirred up the animosity of importers in Toronto, particularly grocers and dry goods merchants; and in words strong and expressive, if not always elegant, they give vent to their feelings.

Good cause have importers for being indignant. The ruling puts them often to a good deal of extra trouble and inconvenience.

It compels them to have their invoices for the inspection of the Customs authorities made out in a currency other than that in which the goods are bought.

Then not unfrequently the foreign house from which the goods are bought, through ignorance of the Canadian law or inadvertence, makes out the invoice as it always has. This requires the importer, in order to get his goods, to make a "sight entry" and return the invoice to be made out in piastres or marks or whatever it might be. Instances are known where three invoices had to be sent before. This means extra worry and waste of time of all concerned—to the man who buys, to the man who sells and even to the Customs officials at the ports of entry.

Furthermore, the ruling breeds much confusion, importers not always being able to ascertain whether the invoice as made out

in the currency of the country in which the goods are bought is the exact price, and is, therefore, correct or not.

The duty of the Government is to devise means to enable importers to pass their goods through the Custom House with as much simplicity and expedition as possible. This recent ruling, on the other hand, has the opposite effect.

It is, in short, like an evil spirit sent to worry and harrass importers, and some more than even the grocers.

It is to be hoped that Hon. Clarke Wallace, who has hitherto always shown a willingness to remove, when in his power, any unnecessary burdens which the Customs regulations imposed upon importers, will in this instance also display his wisdom and suspend the operation of a law which is unreasonable and vexatious, without serving any good purpose.

THE EXPORT APPLE TRADE.

THE time for export business in our rosy Canadian apples is again on hand, and already the vanguard of representatives from English houses have made their appearance in Montreal and held councils of war regarding the campaign with the big fruit houses on McGill street.

THE GROCER correspondent on Monday last had a short chat with one of these gentlemen, in company with the head of one of the largest exporting firms in Montreal.

He elicited the information that there was some kind of a tacit agreement among the various buyers this year not to cut each others' throats by bidding too high prices.

There has been, it seems, generally enough fruit to go around, but the competition among buyers has generally 'boosted' prices sky high, so to speak.

This has frequently led to heavy losses when it came to turning over the goods to the actual consumers in England. In fact, last year was the first year for two or three that was a uniformly profitable one.

However advantageous such an agreement as the proposed one may be, a good number in the market are skeptical about its success.

They hold that once the fun commences it will be the old story over again, for there are always one or two new speculators in the market every fall who upset previous calculations, and force values up, the rest having to follow suit unless they are content with being practically shut out of supplies.

The English buyers also informed the correspondent that the first shipments of North American apples had arrived on the other side last week, and that sales had been made in Liverpool, netting \$1.75 per barrel, but, of course, the lots were small. Some people, he understood, also proposed to make shipments in cases like egg boxes,

but this had been tried unsuccessfully before, and he did not think it would work any better now.

Neither of the gentlemen had heard of any contracts for winter fruit, but they were going west to find out.

It is understood, however, that some local speculators up west have been offering \$1.25 per bbl. on the tree for a number of orchards without any one accepting.

This is a pretty full figure to start out with.

WHEAT NOW AND 50 YEARS AGO.

Homer Baldwin, who has been milling in Youngstown, Ohio, for nearly half a century, has written a letter to the Northwestern Miller, that contains some curious information and valuable suggestion. Mr. Baldwin began milling in 1846, and paid 50 cents a bushel for wheat. This summer he bought wheat again for 50 cents for the first time since his first summer in the business. The highest price he ever paid was \$3.50 currency in June, 1867. The failure of the potato crop in Ireland in 1847, sent wheat here up to \$1.20, and Mr. Baldwin wonders whether the low price this year is to be followed by a like advance. When in 1846 he paid 50 cents for wheat he sold bran for \$5 a ton, and now with wheat at the same price he sells bran for \$15 a ton. He had this summer bought wheat at 48 cents a bushel, and he says that with wheat at \$16, and bran at \$15 a ton, the question arose in his mind whether it were worth while to spend money in the improvement of mill machinery in order to get the most and best flour from the wheat. He had almost reached the conclusion that it did not pay, when he sold some flour at \$4 a barrel, the price of eight bushels of wheat, and he decided that it did pay him to have a good mill and make fine flour and save all the produce of milling. Mr. Baldwin, remarks N.Y. Journal of Commerce, would have added greatly to the interest of his letter had he mentioned the prices the farmers paid in 1846 and in 1894 for the things they had to buy with the money they got for their wheat at 50 cents a bushel. Probably there is hardly anything the farmer buys that he cannot buy with much fewer bushels of wheat now than then.

DRY GOODS.

TORONTO MARKET.

FREE traders have another chance to work up their stock arguments under new guises this week. Domestic colored cottons have gone down from 5 to 20 per cent. This is due to the fact that under the new Canadian tariff United States manufacturers had begun to find exporting to Canada a profitable occupation, and week by week the imports were increasing. As soon as these grew large enough to make themselves felt the prices of Canadians went down. This, at least, seems the most plausible and only accepted explanation.

That the decline varies from 5 to 20 per cent. shows that there must have previously been a huge margin for the cotton companies. For example, a line of goods they formerly sold at 8½ cents they now sell at 7 cents, or a reduction of 18 per cent. What must have been the profit per yard when they can afford to go on manufacturing it at 1½ cents per yard less than before? A line that the mills got 12½ cents for is now sold at 10½, and so on through the list.

The reductions seem to be along the best lines of goods, the percentage of reduction in the higher grades being much greater than in the lower ones.

In denims the reduction is very considerable, amounting in some lines to from 15 to 18 per cent. In shirtings the reduc-

tions are not so large, and will average perhaps 7½ per cent., being 10 per cent. in some cases. In cottonades the reduction is very considerable and runs anywhere from 5 to 10 per cent.

The wholesalers are issuing new price-lists and retailers are hereby warned to be very careful in their purchases. The reduced prices will apply only to goods delivered to jobbers on and after Oct. 1st. No rebates will be allowed. The intention was at first to let it apply only to spring goods, but this has been slightly modified.

John Macdonald & Co. are busy in every department, and report a very heavy trade last week. Customers are numerous this week also.

W. R. Brock & Co. have a special line of grey flannels to retail at 25c. which is exceedingly trustworthy. Four special lines of umbrellas to retail at 50c., 75c. and \$1 are being cleared at 25 per cent. below regular quotations. Several stock lots of braces have been lifted out of the manufacturers' hands, and are being jobbed at less than mill prices. Cable repeats have been sent in this week for "R.D.F." dress facing and for cashmere gloves. Both lines have been in great demand for the past month.

MONTREAL MARKET.

The millinery openings, which were held on Tuesday last, were well attended, in fact in many cases it is said that the attendance

was better than at those in the spring. Buyers came in from all points in the Eastern Townships and in Eastern Ontario from many points east of Kingston.

A careful review of the styles shows that the hats are to be largely velvet and felt, and they have a decidedly large tendency, while the bonnets are medium. Jacquimot and blue seem to be the prevailing colors, although browns still hold a good place. In ribbons, moire silk and in velvets, moire velvets, as well as plain, promise to be in good demand. In children's hats, felt and covered goods seem to be coming to the front this season. The three favorite combinations this summer are tan, magenta and bluet; purple, bluet and green, and moss green, black and white.

Reports in general dry goods state that stocks of fall goods are being broken into more, and that travelers find business constantly increasing.

Importations of cottons from the States have ceased, it is claimed, because demand across the line has picked up so much that the supply of goods is insufficient to meet the home demand.

Remittances are fair, and better returns are noted from several sections.

Satan—What was your business on earth?

Unfortunate—I solicited advertising for cards, hotel registers, albums, and—

Have pleasure in advising they have arranged with manufacturers to sell this well known brand at old prices in spite of heavy advance in duty.

CHAT BY THE WAY.

THE Aylmer Canning Co. is now busy canning corn. The crop will be very good, and the samples now brought in are as good as in former years.—Ex.

Burglars entered the store of W. H. Anderson, Kemptville, lately, and carried off four watches and two revolvers.

Through a pneumatic tube 700 miles in length, letters are whirled between Paris and Berlin at the speed of 20 miles a minute.

It has been discovered here that some one has been raising \$10 Bank of Montreal bills to fifties, and the public are warned against them.

Shipments of Northwest cattle to English markets are constantly increasing. This week 70 carloads of cattle have been shipped.

The store and goods which were the property of the late E. H. Disney, Balsam, are to be offered for sale on the 20th September by public auction.

A city priest surprised a Winnipeg grocer the other day by handing him \$75, the amount pilfered by a clerk who had made confession of the crime.

You can trace a resemblance between the merchant who, when hard times bear him down, seeks safety by withdrawing his name from public gaze and the ostrich when it is in danger considers itself safe when its head

is buried in the sand. The man who buries his business prospects by refusing to advertise should bury himself and have done with it.

The Canadian Pacific railway has reduced its rates 25 per cent. on dairy products from all stations on the Edmonton branch to points on the main line east and west.

There is now on its way to this city a 100-pound chest of Travancore grown tea, possibly the first sample of it ever introduced to Kingston. This consignment is being made by a tea planter in South India.—News, Kingston.

The latest crop reports from Southern Manitoba are most encouraging. As the threshing progresses it is found that the yield is greater than formerly estimated. Cutting is practically completed, and stacking is well forward.

Large irrigation works, costing \$2,000,000, and irrigating 400,000 acres of land, are to be built in the Rio Verde Valley of Arizona. The work is to be completed in 18 months. It includes about 110 miles of canal, and a reservoir of immense capacity.

The Newfoundland correspondent of the Montreal Gazette says: The latest news from Labrador was by no means encouraging. The next mail will be anxiously looked for. The shore fishery is the best for many years. The crops on the whole are good. Hay and potatoes especially are well re-

ported of. Business is good and employment at good wages is abundant. The activity along the new line of railway is specially beneficial to the working classes.

Meteorologists say that the heat of the air is due to six sources: (1) That from the interior of the earth; (2) that from the stars; (3) that from the moon; (4) that from the friction of the winds and tides; (5) that from the meteors; (6) that from the sun.

The gross earnings of the Richelieu Navigation Company from the opening of navigation to August 25 were \$462,270.68, against \$365,094.54 for the same period of last year, showing an increase of \$97,176.14 for this year. The net earnings for July, after deducting all expenses, were \$80,929.78. Up to August 24 the steamer Quebec topped the list, with earnings of \$73,031.61, against \$55,369.73 for the same time last year. No less than \$35,278.54 was received from pilgrimage excursions.

The Montrealer referred to in the Trade Bulletin two weeks ago, who stood to make a large amount of money on a cargo of raw sugar held in New York, has sold it, consisting of about 2,300 tons of centrifugal 95 test, at 3½c., which nets him a profit of \$30,000 to \$35,000, which is a nice little fortune on a single deal. The lucky Montrealer is John Pinder, of the firm of John Pinder & Co., and the general remark made by the trade is that Mr. Pinder is a good fellow, and richly deserves the result of his pluck in holding on and taking the chances of the tariff.—Trade Bulletin.

BEST TO BUY, BECAUSE BEST TO USE.

The sales of "SUNLIGHT" SOAP testify to its popularity with those who use it, and it is no idle boast or exaggerated statement to say that over **Five Million Dollars' worth of SUNLIGHT SOAP** was sold during the year 1893. No such sale of soap, by one firm, was ever heard of before. **Quality tells.**

NEW ZEALAND BUTTER.

THE New Zealand Trade Review gives this interesting information regarding the butter industry in that country: "The colony may be now fairly said to be alive to the importance of this industry, and the number of factories is on the rapid increase. The following are the number of factories and creameries existing in New Zealand at the present time:

	Fac- tories.	Cream- eries.	Total.
North Island.	70	40	110
South Island.	48	20	68

The total is 178, against 104 in June, 1893, and 72 at the same time in 1892. Several more are in course of erection in both islands. The Government is also in earnest in its efforts to encourage and promote the industry. The number of instructors appointed by the department has been in-

creased from two to six, three of whom will work in each of the two islands.

"A bill to be promoted in Parliament by the Government this session will provide for the erection of cool storage at the four chief ports of shipment—Auckland, Wellington, Lyttleton and Dunedin. This is a most important step. It will also provide for a system of inspection and grading of butter before shipment.

"Dairy associations are being formed where none existed before, and the various associations in the two islands, while maintaining their separate organizations, are combining their forces to take joint action for the common good of the trade in respect of such things as cool storage, rates of freight to England, proper care on the voyage, and so forth.

"The Union Steamship Company has decided to have one of their coasting steam-

ers fitted with refrigerating machinery with the view of employing it in taking butter from the smaller ports to the larger ones for transhipment into the steamers loading for England.

"Together with the recent agricultural returns, particulars were obtained of the number of cattle and breeding cows held in New Zealand, from which we extract the subjoined figures, adding comparison of the totals for previous years:

	North Island.	South Island.	Total.
Cattle, 1894.	613,454	270,637	884,091
Breeding cows, 1894.	218,238	109,374	327,612
Cattle, 1893.	557,466	250,873	808,439
Breeding cows, 1893.	199,479	105,800	305,279
*Cattle, 1891.	788,919
Breeding cows, 1891.	280,711
*Cattle, 1886.	853,358
Breeding cows, 1886.	279,139
*Census year.			

* * * * In 1893 the proportion of breeding cows to the whole number of cattle was fully 37 per cent., whereas in 1886 it was under 33 per cent."

"OUR NATIONAL FOODS"

AT

Toronto Industrial Exhibition

SEPT. 3rd to 15th, 1894

We extend a cordial invitation to our customers and the trade when visiting the Fair to call and see our exhibit in the Main Building, near the eastern entrance. We intend to make it the finest exhibit of Breakfast Cereal Foods ever shown on the continent of America, and you should not fail to see it. The exhibit will be in charge of our eastern representative on the road, Mr. F. J. Musgrove, who will furnish samples, quotations and full particulars of the goods.

HOW TO FILE RECEIPTS.

Every firm has its own way of filing invoices, receipts, letters, etc. The best and most convenient method is, of course, the regular indexed file, in which two holes are first perforated in the receipts, and they are then placed under their proper initial letter on the file. The plan followed by most merchants, however, is to fold the sheet once or twice, write particulars on the upper part of the back, and enclose it in a rubber band. An objectionable feature in this method is the irregularity in the size of the sheets thus folded. Some will be $3\frac{1}{2}$, others $2\frac{1}{2}$ inches wide, but the bulk will vary $\frac{1}{4}$ to $\frac{1}{8}$, more or less, than 3 inches. This makes a bundle with a very irregular edge. Some of the receipts will slip out easily while the whole packet must be pulled to pieces before the others can be got out. While talking to a St. Stephen's, N.B., merchant a few days ago, THE GROCER noticed a simple device he used to produce even edges. It was a tin strap $2\frac{1}{2}$ x 10 inches. This strap is laid over the receipt, which is folded over the exact size of the strap. This gives a bundle with perfectly square edges and no overlapping. This strap is, perhaps, narrower than most bookkeepers would use; 3 inches would be nearer the average width.

A BIG TEA ENTRY.

Perkins, Ince & Co., of Toronto, have been importing several large lots of tea this season. One lot particularly has been large. It was Japan tea, and contained in the neighborhood of 2,500 packages. This is believed

to be the largest lot of tea ever passed through the Toronto custom house by one firm. This was last week, and among their shipments this week was a consignment of 450 packages of China green teas.

TO IRRIGATE THE NORTHWEST.

The C. P. R. Land Department are undertaking a work which will be the means of transforming a dry waste of country along their line, in extent about 1,000,000 acres, into a fertile farming district. Lying between Medicine Hat and Gleichen, on the C. P. R., there is a magnificent plateau, the only drawback to which is the lack of water supply. J. L. Douple, of the Land Department, returned last evening from west of Medicine Hat, where he has been engaged in taking levellings, with a view to the possibility of taking the waters from the rear of the Bow river and turning them over the plateau for irrigation purposes. He was accompanied by Mr. Pearce, of Calgary, the Government inspector, and a party of helpers. After examining the report, Commissioner L. A. Hamilton will be able to make a statement as to the plans of the company. —Free Press, Winnipeg.

PERSONAL MENTION.

Mr and Mrs. E. B. Eddy, of Hull, Que., were in Toronto, Wednesday.

D. W. Ross, of D. W. Ross & Co., general merchants, Parry Sound, was in Toronto Tuesday. He was en route for New York, from whence he sails for Scotland by the Lucania. He wore a buttonhole of heather

in honor of the occasion. Ross & Co. have recently bought out the firm of S. & J. Armstrong, who have been in business in McKellar for some twenty years, and business at this branch will be carried on under the firm name of Patterson, Ross & Co.

J. D. Roberts, of Pure Gold Manufacturing Co., and W. H. Seyler, of Eby, Blain & Co., returned from their holidays this week. Both rusticated at different points, but both met in Berlin, and both are said to have had an exceedingly good time before they parted.

ANSWERS TO CORRESPONDENTS.

REGULAR READER writes: "Would you kindly inform me if it is necessary for two persons doing business under the title of, say, Brown & Co., to register their partnership, and if so, where? In the event of Brown alone doing business as Brown & Co., would he require to register?"

ANS.—All persons entering into business, whether as a company or otherwise, are required to register the same at the registry office in the county town. The fee is only small.

A STARCH COMPANY FAILS.

As we go to press the announcement is made that the British American Starch Co., Ltd., of Brantford, has assigned. The business was at one time a good one, but lack of capital, together with bad management, has brought ruin.

We offer TO ARRIVE a fine lot of

MARKETS AND MARKET NOTES

TORONTO MARKETS.

TORONTO, Sept. 6, 1894

GROCERIES.

MUCH as before is the situation in the wholesale grocery trade. The holiday interfered with business to some extent, although Labor Day was not generally observed, either by the wholesale or retail trades. The sugar market has developed more activity, but still the volume of business is not all that the trade would like to see. Values remain firm. Teas, particularly new season's Japans and China greens, are active, and higher prices have been asked and obtained. Canned goods are not moving to any extent, but the packers are holding prices firmly. They will not quote futures on vegetables, and the price of peaches has been advanced. The few Valencias there are are all in one or two houses, and prices are firm. Syrups are scarce. The egg market is improving, while butter is much as before.

CANNED GOODS.

The only change to note in this line is an advance by the packers in the price of peaches. They quote 10c. per dozen higher on 2's and 5c. per dozen higher on 3's. The association also refuses to quote futures on vegetables. Tomatoes, corn and peas are quiet and unchanged. We quote tomatoes and peas at 85 to 90c., and corn at 90c. Salmon is in good demand at \$1.15 to \$1.30 for talls and \$1.35 to \$1.40 for flats. Lobster quiet and unchanged at \$1.80 to \$2 for talls; \$2.40 to \$2.50 for flats; and \$1.35 for new flat 1/2's. Fruits are quiet at these quotations: Peaches, \$3 to \$3.25 for 3's, \$2 to \$2.25 for 2's; raspberries, \$1.65 to \$1.80; strawberries, \$1.90 to \$2.10; apples, 3's, \$1 to \$1.10, gallons \$2.65 to \$2.80, and preserved fancy quarters at \$1.35 to \$1.40.

COFFEES.

There has been no material change. In New York the market for Brazils continues as monotonous and uninteresting as ever. We quote green, in bags, as follows: Rio, 20 1/2 to 22c.; East Indian, 27 to 30c.; South American, 21 to 23c.; Santos, 21 1/2 to 22 1/2c.; Java, 30 to 32c.; Mocha, 27 to 28c.; Maracaibo, 21 to 23c.; Jamaica, 21 to 22c.

RICE.

Market is quiet with quotations as before. We quote: "B," 3 1/2 to 3 3/4c.; extra Japan, 5 1/4 to 5 3/4c.; imported Japan, 5 3/4 to 6 1/4c.; tapioca, 4 1/4 to 4 1/2c.

SPICES.

Business continues fairly good without any new or special features. We quote: Pure black pepper, 12 to 14c.; pure white

20 to 28c.; pure Jamaica ginger, 25 to 27c.; cloves, 25 to 30c.; pure mixed spice, 25 to 30c.; cream of tartar, 20 to 25c. per lb.

SUGAR.

The demand is improving, while there is a fairly good consumption, but it is not yet as large as one would fancy is warranted by the large quantity of fresh fruits there are in the market, and the cheapness thereof. The ordinary quotation for granulated is still 4 1/2 to 4 3/4c. Yellows run from \$3.35 up, and raws are quoted at 3 1/2c.

N. Y. Journal of Commerce, Monday: "Raw sugars have been parted with fairly this week by those who evidently considered the return they could obtain for investments as quite satisfactory, and were willing to clean up and draw out. Still they experienced no difficulty in securing custom whenever ready to accept old rates, and there are others who still expect to compel a raise in the line of bids before selling. Refined sugars have had a slow week, with a simply perfunctory line of trading, but no one cognizant of conditions of the market has been greatly surprised. Pretty much every section of dependent custom was loaded up to the brim either with goods in hand or ordered before the tariff bill went into effect, and as the duty seemed to be pretty well discounted on raws, and consumption of refined was not remarkably large, demand narrowed down accordingly. The close is exceedingly dull, with prices nominally unchanged."

Willett & Gray's Statistical: "The week—Raws advanced 1/8 to 1/4c. Refined advanced 1/8c. Total stock in all the principal countries, 771,849 tons, against 645,000 tons at same dates last year. Raws—The demand to complete required supplies of refiners until the new sugar campaign was pretty well filled by the sellers this week. The holders who are waiting for a possible further demand in September, and are still asking 4c. for Centrifugals, may or may not obtain their price. Much depends on the size of the demand for refined sugar, which just at present is somewhat sentimental on the expectation of a further rise in the refined product. Refined sugar is now above the parity of foreign granulated for new crop delivery in October, and it is a little uncertain for how long present prices can be maintained, or a possible temporary advance succeed, although new beet sugar cannot reach here before the last of October. The conditions attending the change from free sugar to a duty basis are somewhat problematical and will require two months at least before well settled."

SYRUPS.

Syrups are scarce and firm in price. We quote: Dark, 25c.; medium, 28 to 30c.; bright, 35 to 40c.; very bright, 45 to 50c.

MOLASSES.

Dull and unchanged. We quote: New Orleans, barrels, 26 to 28c.; half-barrels, 30 1/2 to 32c.; Barbadoes, barrels, 28 to 32c.; half-barrels, 30 to 34c.

TEAS.

Business continues active in new season's Japan teas, and the representatives of the tea houses on spot have been asking and getting higher prices from the wholesale houses. The net result of the war on prices has been an advance of 2c. per lb. on Formosa Oolongs, 1 to 1 1/2c. on China greens, and 1/2 to 1c. on China blacks. Exchange

"SALADA"

CEYLON TEA

IN LEAD PACKETS.

Retailed at 40, 50 and 60 cts.

Are you well satisfied with your TEA trade?

Are you doing as much trade in TEA as you wish to?

Are your customers always well pleased with your TEAS?

If you cannot answer the above questions in the affirmative write us for the agency of "SALADA," if we have not already an agent in your town.

We cordially invite visiting grocers, who take an interest in teas, to call and see us at our place of business, or at our exhibit of "SALADA" in the main building at the Industrial Exhibition.

P. C. LARKIN & CO.

WHOLESALE AGENTS,

25 Front St. East.

TORONTO.

MARKETS.—Continued

has risen from lowest point about 5 per cent. and rates of insurance are higher. There is considerable competition on the local market, and shippers are not demanding the same advances that are being obtained in the United States. Japans in Canada are getting scarce. China blacks are in poor supply while there is a large demand. There is a good business doing in Ceylon teas, which are difficult to get in London.

Mail advices from London, under date of August 24, say that 18,140 packages of Ceylon tea were brought forward against 23,817 the previous week. Bidding was good for all grades with the exception of teas for price, which were occasionally not quite so eagerly competed for. Exports of Ceylon tea to the United Kingdom for the first half of August were about 2,700,000 lbs., and the estimate for the month has been reduced 5,500,000 lbs.

DRIED FRUIT.

The few Valencia raisins there are on the market are gradually falling into fewer hands. There are a few layers to be had at 7½c., and selected at 7c., and California loose muscatels at 7 to 7¼c. New crop will likely be here in about ten days, and prices will probably rule at from 6 to 6½c. for fine off-stalk. Advices from Denia report prices well sustained. Currants are in fair demand and unchanged. Quotations are: Provincials, 3½ to 4c. in brls., half brls., 3¾ to 4½c.; Filatras, 4 to 4¾c. in brls., and 4½ to 5c. in half barrels; Patras, 5 to 5½c. in barrels, 5¼ to 5¾c. in half brls., 5 to 6½c. in cases; Vostizzas, 6½ to 7½c. in cases, 6¾ to 7¾c. in half cases. The Dracona, the first direct currant steamer, left Patras Tuesday or Wednesday, and advices state that prices remain firm on the primary markets. Prunes are quiet and unchanged. Cable advices received Tuesday state that the market in Trieste remains much as before. We quote: U's, 5½ to 5¾c.; B's, 7½c.; Vags, 3¾c.; casks, 4½ to 5c. Cables quote the Trieste markets easier.

BUTTER AND CHEESE.

The local demand for butter continues fair, all the better grades being taken, while the poor and medium qualities are accumulating. The Old Country markets are much as before, while values here and there are too far apart for business of an export character to be done yet, either in dairy or

creamery butter. The quality of the butter held by many of the country dealers is becoming much deteriorated, and some large buyers, who have been examining lots, inform THE GROCER that they would not bid any price at all, although holders were anxious to sell. They look for a lower range of values. Creamery pound prints are in good demand, but creamery tubs are quiet. There is a good deal of creamery butter on the market that has been held for some time, much of which is no better than poor dairy. We quote jobbing prices as follows: Dairy—Choice tubs, 17 to 18c.; straight store, 15 to 16c.; crocks, 18c.; bakers' butter, 12 to 14c.; pound rolls, 19 to 20c. Creamery—Tubs, 19 to 20c.; pound prints, 22 to 23c.

The local cheese market does not respond to any extent to the advanced prices outside. Jobbers are getting 10½ to 11c., while about this price is being obtained at the factories.

PROVISIONS AND DRESSED HOGS.

Pork packers report that sales of provisions, especially long clear and barrel pork are much larger than usual. This is attributed to the increased activity in the lumber business on account of the removal of the American duty on lumber.

BACON—Long clear, 8¼ to 8½c.; smoked backs, 12 to 12½c.; breakfast bacon, 12½ to 13c.; rolls, 9 to 9¼c.

HAMS—Large, 22 lbs. and over, 11½c.; medium, 15 to 20 lbs., 12c.; small hams, 13c.; pickled, 11 to 11½c.

LARD—Pure Canadian, 9½ to 9¾c. in tubs, 9¼ to 10c. in pails, and 8½ to 8¾c. in tierces. Compound, 7½ to 7¾c.

BARREL PORK—Canadian heavy mess \$18.50 to \$19; Canadian short-cut, \$19 to \$20; shoulder mess, \$14.50 to \$15; clear mess, \$15 to \$15.50.

LIVE STOCK MARKET.

The receipts of live stock at the Western Yards, Tuesday, were larger than usual, but the demand was by no means active, and prices dragged. There were 80 carloads, which include 1,100 head of sheep and lambs, 800 hogs, 80 calves, and 12 milch cows. Cables were a trifle better for export cattle, but as the supply was large here, and the condition of animals hardly up to the mark, prices show little change from those of Friday. The best brought 3¾ to 4c. per lb., and others 3½c. The bulk of butchers'

cattle is of inferior quality, and the demand was slow. The best, averaging 1,000 to 1,100 lbs., sold at 3¼c. per lb.; medium at 2¾ to 3c., and inferior at 2¼ to 2½c. per lb. Calves dull at \$1.50 up to \$7 per head, the latter for choice veals. Milch cows firm, and prices steady. They sold at \$28 to \$50 each, the latter for choice. There was a moderate demand for sheep, which rule firm. Sales of exporters at 3½c. per lb., and butchers' sheep from \$2 to \$3 per head. Lambs inactive and easy, with only a limited demand. They sold at \$1.75 to \$2.50 per head. Hogs easier, with choice long and lean animals fetching \$5.40, thick fats, \$4.90 to \$5, stores, \$4.75 to \$4.80, sows, \$4.50, and stags, \$2.50.

GREEN FRUIT.

Fall peaches are arriving freely, Tuesday's shipments being the largest of the season. Prices are in consequence lower. Demand for tomatoes is moderate only, while there is a good supply. Plums are wanted. Lemons and oranges remain much as before. We quote: Oranges—Sorrentos, 200's, \$5 per box. Lemons—Fancy Rodhi, 300's, \$5 to \$5.50 per box; ditto, 360's, \$5.00 to \$5.25 per box; Palermos, 360's, \$3.50 per box; 360's, \$4.50 per box. Bananas, \$1.25 to \$1.75. Watermelons, \$15 to \$20 per 100. Muskmelons, \$1 to \$1.25 per crate; \$1.50 to \$2 per burl, and 25c. to 40c. per basket. Cucumbers, 25c. per basket. Tomatoes, 15 to 30c. per basket. Peaches, 60c. to \$1 per basket. Pears, \$2.25 per barrel for Bartlett's and 40 to 50c. per basket. Plums, 60 to 85c. per basket. Apples, \$1.25 to \$1.75 per burl. Grapes, 40 to 50c. per basket.

COUNTRY PRODUCE.

BEANS—Quiet and unchanged at \$1.20 to \$1.40.

EGGS—The export trade is a little better, several shipments having been made within the last few days. Business on the spot has also improved. Jobbers are now asking 10½ to 11c. for strictly fresh eggs and 7 to 8c. for held stock.

POTATOES—Demand is light and receipts liberal, with prices easy. We quote car lots at 60c. and small lots out of store at 70c. per bag.

ONIONS—Demand fair at 50 to 60c. per bag.

HOPS—Much as before at 13 to 15c.; package, 20c. per lb.

CLEMES BROS.

TORONTO

MARKETS—Continued

HONEY—Is beginning to move a little, but there is not much doing yet. Comb is quoted at 14 to 15c. and strained at 7 to 8c.

FISH.

Trade is firm. The supply slightly exceeds the demand, but it is held for the Exhibition. Lake Ontario trout is now coming in quite freely. Prices are unchanged and are as follows: Lake Ontario trout, 7 to 8c.; skinned and boned codfish, 6½c.; shore herring, \$4 per brl.; boneless fish, 3½ to 4c.; boneless cod, 5 to 8c.; Lake Erie herring, \$1.75 to \$2 per 100; blueback herring, 4c.; blue pickerel, 4 to 5c. lb.; yel. ditto, 6 to 7c. per lb.; salmon trout, 6½c.; white fish, 6½ to 7c.; pike, 5c. lb.; haddock and cod, 5½c. per lb.; steak cod, 5 to 6c.; large halibut, 10c.; ciscoes, \$1.25.

OYSTERS.

Oysters are beginning to arrive. None but a few of the best shops are handling them yet, and then it is on a small scale on account of the warm weather. The price is \$1.50 per gallon.

SALT.

Trade is good, especially in large lots. The demand for coarse salt for meats is extra good. Prices unchanged as follows: Dairy, \$1.50, special grade; brls., 90 to 95c.; coarse sacks, 68c.; fine sacks, 70c.; American rock, \$10 per ton.

SEEDS.

There is a little alsike and timothy seed offering, and jobbers are paying all the way from \$5.50 to \$6.30 per bushel for alsike and \$2 to \$2.75 for timothy, f.o.b. points of shipment. Offerings are more liberal, and the market is somewhat feverish.

HIDES, SKINS, WOOL AND TALLOW.

HIDES—There is no change, carloads lots of cured moving at 4c.

SKINS—Prices have been advanced 5c., 40c. now being the ruling figure. There is not much doing.

WOOL—Business is dull, and in the absence of transactions prices are nominal.

TALLOW—Is moving slowly. Dealers are paying 5½c. and selling at 6c.

PETROLEUM.

Trade remains firm, with prices much as before. We quote, in 5 to 10 brl. lots, imperial gallon, Toronto: Canadian, 12 to 12½c.; carbon safety, 15½ to 16c.; Canadian water white, 16 to 17c.; American water white, 18 to 19c.; photogene, 20c.

In Petrolea car lots are quoted at 9½c.

MARKET NOTES.

T. A. Lytle & Co. report a good fall trade for pickling vinegar.

White & Co. want one carload of good fall apples, colored variety preferred.

H. P. Eckardt & Co. are offering a lot of Gem jars at prices said to be away down.

DOMINION PRODUCE CO.
TORONTO.

pool, one quarter or ten tons of this amount is said to be for W. H. Gillard & Co., of Hamilton.

J. L. Watt & Scott are in receipt of a car-load lot of Bay herring.

A consignment of Sphinx brand prunes is to hand with Perkins, Ince & Co.

H. P. Eckardt & Co. have received a shipment of new season Young Hysons.

Sloan & Crowther are receiving another shipment of early picked new Japan tea.

Gunn, Flavelle & Co. have made several shipments of eggs to the English market lately.

Wm. Paterson & Son's "ad." on page 6 draws the special attention of the trade to their soda biscuits.

The Eleme raisins which are being offered by H. P. Eckardt & Co. are said to be giving excellent satisfaction.

Eby, Blain & Co. are offering loose muscatels in 50-lb. boxes; also "Anchor" Bosnia prunes at 5½ to 6½c.

T. Kinnear & Co. have to hand a shipment of "O-Wee-Kay-No" salmon, new pack; also Young Hyson tea.

Aikenhead & Sloan have on hand a large supply of smoked trout which they claim is superior to, and a pleasant change from haddies.

T. B. Escott & Co. write their friends to call at their warehouse during the Western Fair, and they promise to make the call pleasant.

W. H. Gillard & Co., of Hamilton, report their sales in Imperial Congou in Manitoba and the Northwest as having been doubled during the past year.

Wm. Paterson & Son are now working on Christmas confectionery specialties. Their travelers will shortly call on the trade with a large and varied line of samples.

"Grand Mogul Tea" and "Lion Digestive Coffee" will be infused and served to all who wish it at T. B. Escott & Co's exhibit, Western Fair, London.

New 1894 salmon has just arrived with M. Masuret & Co., of London, they having taken into warehouse two cars of their "Lynx" and "British Columbia" brands.

New Orleans private despatches report scanty supplies of rice, with no milled grades available. Receipts of rough about 2,000 bags per day, against 10,000 last year.

"Eagle Ceylon and Japan teas are reliable," write M. Masuret & Co. "We use every precaution in the buying of these teas, and you can recommend them to your customers."

Advices received by R. S. McIndoe state that sardine fishing, both in France and Portugal, is still practically nil, and that even should the packing now improve prices must be higher.

James A. Skinner & Co.'s travelers will be in the sample rooms at 54-56 Wellington

west during the Exhibition to meet and entertain their customers who are visiting the city during the Fair.

The Foam Yeast Co. report heavy sales of their yeast in London, Sarnia, Hamilton, Brantford, Prince Edward Island and St. John, N.B. They are making large exhibits at London, Ottawa and Guelph.

The show of "Salada" Ceylon tea in the Main Building at the Exhibition is a credit to the Exhibition itself as well as to the wholesale agents for "Salada," and from the numbers who are sampling the tea and the opinions expressed as to same, the large outlay incurred is not wasted in exhibiting.

T. A. Lytle & Co. are now carrying in stock a choice lot of fruits for jams and jellies; also vegetables for pickling. They are making contracts with large fruit growers for supplies to keep their factories going. Merchants visiting the city during exhibition are cordially invited by the firm to visit its sample rooms on Richmond street, near York.

Grand Mogul tea exhibits were held at the following places the past week: Skinner Bros., West Lorne; D. J. McLean, Ridgetown; A. M. Aubin, Comber; W. H. Parnell, Leamington; J. G. Kolfage, Kingsville; D. W. Mason, Windsor. The lady in charge writes: "Great success everywhere, some stores sold nearly half-chest in single day during exhibit."

The following letter, re "Salada" Ceylon Tea, was shown THE CANADIAN GROCER by P. C. Larkin & Co.: "Toronto Junction, August 28th. Please send us, as soon as possible, 75 pounds of Blue Label and 25 pounds of Red Label 'Salada.' I can say of this tea, now that I have handled it for over two years, that it has pleased my customers and has been most satisfactory in every respect. The profit is fair and there is no cutting in prices, and the quality is always right. I value the agency for Toronto Junction very highly indeed. Respectfully yours, Geo. E. Williams."

The Dominion Paper Box Co. is just now making a specialty of oyster pails. These pails are liquid tight, and are claimed to be second to none on the market. Every pail is guaranteed uniform. One of the methods adopted by the firm to induce business is the promise of a window display card or a lithographed chromo to every purchaser of 1,000 oyster pails. The display card is printed in gold leaf on heavy morocco board, and is 19 x 12. The chromo is in fifteen colors. Both are handsome and attractive, and either will make an attractive sign to inform passers-by that oysters are sold in the store in which it is suspended.

MONTREAL MARKETS.

MONTREAL, September 6, 1894.
GROCERIES.

BUSINESS showed a fair degree of improvement in the past week. Sugar and tea take the lead in activity, a large quantity of the former having gone west during the week, while the active de-

mand for teas which was noticed in our last from second hands is fully maintained. Coffee and all the other lines show good life also. In canned goods there have been some further large purchases of salmon to arrive, but canned vegetables continue on the dull side. Values generally are firm, especially so in tea and sugar, advices from outside markets on both of these being firm.

SUGAR.

The sugar market has been a very active one since our last report, a large volume of business being transacted. The demand comes from both local and western buyers. A large quantity has gone to the latter during the week on the basis of 4¼c. for granulated, 3¼ to 3¾c. for yellows, as to quality, at the factory. Outside advices both from London and New York have been remarkably firm, and are naturally exercising an influence on sellers. Stocks in refiners' hands are light, and it would not be at all surprising if the above prices are advanced before the date of next writing.

SYRUPS.

In syrup a fair amount of business has been transacted, and the market rules steady, sales of bright grades having been made at 2 to 2½c. and dark at 1 to 1¼c. per lb. American syrups have sold at 17 to 21½c. per gallon.

MOLASSES.

No improvement has been noted in the molasses market, which continues dull and heavy. The weight of heavy stocks is felt all the more owing to the poor demand which sellers are experiencing. Round lots are offering at 27½c. ex store; car lots are selling at 29c., while the price for single puncheons remains nominally at 30c.

TEA.

The tea market has ruled very active, and a large volume of business has been put through at firm prices. Japans have been the most active grade, and the turnover of them is large. Gunpowders have met a good enquiry also. It is now impossible to do business except at much firmer prices than a fortnight ago. Japans have fetched 10½ to 11c. which were offered at 9c. a few weeks ago, and medium to fine have realized 16 to 22c. In blacks values have raised all the way from 10 to 20c. up to 17 to 21c. for Oologs, Foo Chows and Formosas.

COFFEES.

The coffee market has been fairly active and prices are firm. Orders are principally for small lots. Maracaibo changed hands at quotations. We quote: Maracaibo, 18¼ to 21c.; Rio, 19 to 21c.; Java, 24 to 30c.; Mocha, 22½ to 28c.

SPICES.

The spice market has continued active as noted last week, and the mills report a good demand. Values are steady. We quote: Penang black pepper, 6 to 7½c.; white pepper, 10 to 12½c.; cloves, 7½ to 9c.; cassia,

MONTREAL MARKETS.—Continued.

9 to 10c.; nutmegs, 60 to 65c. and 70 to 90c.,
and Jamaica ginger, 15 to 23c. at the mills.
Jobbers' quotations call for a proportionate
advance on this basis.

DRIED FRUITS.

The dried fruit market remains much the
same. The season is backward in Spain for
raisins, and advices state that shipments so
far have been light. Prices quoted up to
date on the cable have been for fancy for
this market. In currants it is claimed that
the crop in Greece is 30 per cent. less than
last year. Prices have opened 11s. 6d. to
12s. for provincials in brls., cost of freight to
Montreal. We quote: Off-stalk Valencias,
5 to 5½c.; fine, 5½ to 5¾c.; layers, 6 to
6½c.; currants, 3 to 3½c.

NUTS.

The nut market is unchanged and moder-
ate jobbing trade passing. We quote:
Almonds at 11½ to 12c.; shelled do., 23 to
29c.; shelled walnuts, 18 to 21c.; Grenoble
walnuts, 11½ to 12c.; filberts, 7½ to 8c.;
pecans, 7½ to 8c.; Brazils, 9 to 10c., and
peanut, 7 to 9c.

CANNED GOODS.

There has been very little change in
canned goods except that purchases of
salmon have been made at full prices owing
to the shortage on the coast. We quote:
Lobsters, \$6 to \$6.50 per case; sar-
dines, \$8.50 to \$9.50; salmon, \$1.15 to \$1.30
per doz; tomatoes, 80 to 85c. per doz;
peaches, \$2 to \$2.10 per doz.; corn, 85 to
90c. per doz., and marrowfat peas, 85 to 90c.
per doz. Australian canned meats: Boiled
mutton, \$1.86 to \$1.90 per doz. 1-lb. tins,
and \$3.10 to \$3.15 per doz., 2-lb. tins;
roast mutton, \$2.05 to \$2.10 per doz., 1-lb.
tins, and \$3.35 to \$3.40 per doz., 2-lb. tins;
corned mutton, \$2.05 to \$2.10 per doz., 1-lb.
tins, and \$3.35 to \$3.40 per doz., 2 lb. tins.

GREEN FRUIT.

The apple market does not show much
change. Prices are fairly steady, however.
Astrachans and Duchesses, \$1.50 to \$1.75.
The only oranges offering are Rodi, which
sell at \$4.50 to \$5.50 per box, as to quality.
There was some fresh receipts of lemons

FLOUR AND FEED

A PROMINENT grocer on Queen street west, Toronto, speaking on the subject of flour displays for the window said to a representative of THE GROCER: "I have not the least doubt, that as effective a display can be made from flour as anything else. I have noticed that the grocers were not slow in following the advice given in your columns, and I was surprised to see the number of windows so dressed on Queen street."

A better demand is being felt in flour, and feed is moving better. There is a large demand for bran and shorts, but they are hard to get, owing to the amount shipped outside by the city mills. Very little improvement is reported in the demand for cereals, and collections are still very hard to make.

The stock of grain in the Toronto elevators is reported to have decreased by 3,000 bushels during the last week.

THE MARKETS.

TORONTO.

FLOUR—A better local demand is being felt this week, and the reduction on fall flours has been followed by a similar reduction on Manitoba patents and strong bakers'. We quote: Manitoba wheat patents, \$3.50 to \$3.60; strong bakers', \$3.35 to \$3.45; Ontario, \$3 to \$3.15; straight roller, \$2.80 to \$3.

BRAN—The demand for bran is larger, and prices remain high in consequence. City mills that have any to offer are selling at \$14 per ton.

STRAW—A slightly better demand is reported by retail dealers. Good straw is offering at from \$7 to \$8 per ton.

BARLEY—Is nominally quoted at 42½c. per bushel.

PEAS—Quite a large amount changed hands this week at from 60 to 60½c. per bushel.

HAY—There is a good supply, but not of the highest quality. It is offering at from \$7.50 to \$8.50 per ton.

SHORTS—A good outside trade is reported, while in the city wholesale dealers are unable to supply the demand, and are selling at \$17 per ton.

SCREENINGS—Trade is brisk. Good screenings are selling at \$12 at the mills.

OATS—Are reported somewhat firmer, and are selling at from 32 to 33c. per bushel in large lots.

MONTREAL.

There was a fair demand for flour on local account, and the market ruled fairly active and steady. Winter wheat, \$3.25 to \$3.50; spring wheat, patents, \$3.25 to \$3.50; Manitoba patents, best brands, \$3.50 to \$3.60; straight roller, \$2.85 to \$3; extra, \$2.55 to \$2.60; superfine, \$2.40 to \$2.50; Manitoba strong bakers', \$3.30 to \$3.40; Manitoba strong bakers', best brands, \$3.40 to \$3.45.

A fair business was accomplished in feed, and values were firmly held. Bran, \$16; shorts, \$18; mouille, \$22 to \$24.

There was no change in oatmeal, the market being quiet and steady. Standard, brls., \$4.30 to \$4.40; granulated, brls., \$4.30 to \$4.40; rolled oats, brls., \$4.50 to \$4.60; pot barley, per brl., \$3.90; split peas, per brl., \$3.40.

ST. JOHN, N.B.

Sales in flour continue light. Mills, however, report a good business at firm values. Local market is dull. Feed is in demand but hard to get. Oatmeal is off 10 to 15c. Cornmeal continues firm. Hay is slow at low prices. Beans firm with sign tending upward. We quote: Manitoba flour, \$4.20 to \$4.25; Ontario, high grade, \$3.50 to \$3.60; medium, \$3.35 to \$3.50; oatmeal, \$4.25 to \$4.35; cornmeal, \$3.10 to \$3.15; middlings on track, \$22 to \$23.00; oats, 38 to 40c., on track; beans, h.p., \$1.55 to \$1.60; prime, \$1.45 to \$1.50; split peas, \$3.65 to \$3.85; pot barley, \$3.85 to \$4.00; round peas, \$3.65 to \$3.75; hay, \$9.50 to \$10, on track.

SITUATIONS WANTED.

Advertisements under this heading, two cents per word each insertion, payable in advance.

BY YOUNG MAN, AS GROCERY CLERK. Honest, upright, energetic, some experience. Understands window-dressing. Owns and operates good-sized printing press which can be made of value to employer. Can do bookkeeping. Wages not so much an object as a good insight into the business. References. Town preferred. Address "HUSTLER," GROCER Office. (37)

The British Columbia Commercial Journal

Is the universally recognized leading trade and commercial paper west of Toronto. As an advertising medium to reach the B. C. trade it cannot be surpassed.

The Commercial Journal is devoted to the Lumbering, Mining, Shipping, Commercial and Industrial Interests of British Columbia. It is found on the counter in nearly every retail store in the Province. To reach the retailer you must advertise in The Commercial Journal.

SUBSCRIPTION \$2.00 PER YEAR.

Advertising Rates made known on Application

77 JOHNSON ST., VICTORIA, B.C.

MONTREAL MARKETS—Continued.

during the week, which were turned over promptly at \$3.50 for choice new stock; medium to good, \$3; old stock, \$2 to \$2.50 per box. Bananas are very dull at 25 to 75c. per bunch, according to size and quality. Receipts of peaches have been large and the demand is rather slow—\$1 to \$1.30 for California and 60c. to \$1 for Canadian. Peas are an over supply also, California 75c. to \$1.20 per box for ripe fruit and \$1.75 to \$2 for green; Hudson river Bartletts \$2 per keg, and Canadian Bartletts \$3.50 to \$4.50 per brl. California plums are in fair demand at \$1.25 to \$1.50 per box; Canadian, 50 to 60c. per basket.

COUNTRY PRODUCE.

The egg market was firmer at 9 to 10c. for choice stock; inferior, 7 to 8c. Beans are quiet at \$1.20 per bushel. There is a fair demand for honey at 7½ to 9c. in tins. New comb honey has sold at 10 to 14c. per lb. Hops continue quiet. We quote new crop to arrive, 9 to 10c.; yearlings on spot, 6 to 7c.

PROVISIONS.

The tone of the local provision market is firm, and prices generally are well maintained. Business on the whole is quiet and principally of a jobbing character, owing to the fact that buyers on spot and in the country are only buying sufficient to fill actual wants on account of the high prices ruling. We quote as follows: Canadian short cut, heavy, \$18.50 to \$20;

do., light, \$17.50 to \$18.50; hams, city cured, per lb., 10 to 13c.; lard, Canadian, in pails, 9½ to 10c.; bacon, per lb., 10 to 12c.; lard, common refined, per lb., 7¼ to 7½c.

BUTTER.

Butter does not show any change of moment on spot. Business doing is of moderate dimensions, and our quotations give a fair idea of possible values. Local jobbers show a disposition to trade in late made creamery, have in some cases paid 19c. for it. Shippers still affirm that this is too extreme for them. Some of the optimistic in the trade to-day were speculating on what effect the high prices in the States might have. Elgin quotations 24c. The tenor of British advices, however, are not more encouraging than they were. We quote as follows: Finest late made creamery, 19c.; finest July creamery, 18¼ to 18½c.; Finest Townships, 16 to 16½c.; fine Western, 14 to 15½c.

CHEESE.

The firm tone to the cheese market is fully maintained. In fact it is quite likely that a buyer with an order to fill would not find it easy to repeat purchases at the figures paid last week. Spot business is confined to Eastern goods, and, as usual, it looks as though the market was going to be well cleared up of what goods are available. For early August white 10¼c. has been paid, and for colored a fraction more would have to be given, though we did not hear of any actual transactions. Advices from the country sections are as firm as ever, and buyers gave values another hoist on Thursday. At Brockville, as expected, the factorymen have commenced to contract the balance of their make and will not sell their August separately, but want to sell it with the balance. On Thursday one factoryman secured 10⅝c. for his August, and 10¾c. for the balance. This is almost a full cent higher than the best price paid last year. Such prices for August and the balance in the country make it more difficult than ever to quote Western goods on spot. What is here is not for sale except at a substantial consideration also, but we quote them nominally ¼c. higher than Eastern goods. Finest Western colored, 10⅝ to 10¾c.; finest Western white, 10½ to 10⅝c.; finest Townships', 10⅜c.; finest Eastern colored, 10⅜c.; finest Eastern white, 10¼c.; Cable 49s.

ASHES.

The ashes market has made a notable advance during the week under the influence of moderate stocks and an increased demand for England. We quote values 10 to 15c. higher. Firsts, \$4.15; seconds, \$3.25 to \$3.80, and pearls, \$7 to \$7.50 per 100 lbs.

MONTREAL TRADE NOTES.

A cable order was made during the week for a round lot of Japan teas, but nothing less than 17 cents would buy the goods.

John Pinder, of John Pinder & Co., the big molasses and raw sugar importers, have

made a clean \$30,000 out of the sale of a lot of raw sugar which he held in New York.

Advices to Rose & Laflamme from Greece state that the currant crop there is estimated to be 30 per cent less than that of last year.

Advices to the Mount Royal Melting Co. state that the rice market is very firm. In England prices have advanced 1½d. during the week.

Cables to Gillespie & Co. from Demia state that the first steamers have only taken out 5,000 boxes of raisins, as the season is very backward.

Frank Hart, of the fruit house of Hart & Tuckwell, went west last week on a tour visiting the different apple orchards in Ontario. He is making arrangements about export purchases.

Heavy transactions in New York have sent up the price both of refined and raw. It is said that Montreal refiners whose stocks of cane sugar are not heavy have been operating these also.

W. T. Costigan & Co. have advices from the Coast that the advance in f.o.b. cost of salmon recently reported is fully maintained and that canners are undecided about accepting some recent offers.

ST. JOHN, N.B., MARKETS.

ST. JOHN, N.B., Sept. 6.

BUSINESS for the past week has shown an improvement, and a firm feeling is felt in prices along many lines. Cheese, which has been rather quiet, has advanced about ¼c., and demand is much better. The price is still low. If the factories would but take broader and more business-like views of the cheese question, and would form in a cheese board, such as are worked so successfully in Upper Canada, they would get a much better price for their output than they do now—from ½ to 1c. below Ontario market, and nothing like as good an opportunity for marketing. There is too much jealousy between the factories. Matters of interest in other lines will be found below under their respective heads:

SPICE—Demand for these goods is quiet, this not being the active season except for pickling spice. Ginger continues firm at advance. Pepper shows a firmer feeling. Nutmegs are also firm, and cream of tartar shows a slight advance over old figures. Quotations from merchants here show no change: Cream of tartar, brls., 17½ to 18½c.; boxes, 20 to 25c.; nutmegs, 60 to 90c.; cassia, 18 to 20c.; cloves, ground, 20 to 25c.; whole, 15 to 20c.; ginger, 18 to 22c.; pepper, 12 to 16c.; bicarb soda, \$2.35 to \$2.40; sal. soda, brls., 1 to 1½c.

SALT—Market is showing a good demand, one firm having shipped to Maine ports dur-

WINNIPEG: E. W. Ashley.

ST. JOHN MARKETS—Continued.

ing the last month upward of 5,000 bags. At present writing stocks are low. Four cargoes are, however, due, amounting to some 15,000 bags, so that no difficulty in filling orders is expected. Prices are quoted to arrive ex ship's side: Coarse, 46c.; ex store, 50 to 52c.; factory filled, \$1 to \$1.15; Canadian, small bags in brls., 5-lb. bags, \$3.25; 10-lb. bags, \$3.10; American, wood boxes, 20-lb., 20c.; 10 lb., 12c.

TOBACCO—Market shows no change. Demand fair. McDonald's brands quoted: Crown, 43c.; Pilot, 45c.; Index, 43c.; Napoleon, 49c. McAlpin's brands: Beaver, 62c.; Tecumseh, 65c.; Jubilee, 49c.; Gold Shield, 49c.; Woodcock, 53c.; Army and Navy, 45c. Tuckett's brands: T. & B. Myrtle Navy plug, 59c.; cut, 70c.; Lily, 46c.; Crescent, 43c.; chewing T. & B., long black, 48c.; Mahogany 12's, 49c.; Mahogany 7's, 48c.

OIL—Demand is reported rather better during the past week. Values unchanged. We quote as follows: Burning oil, best American, 18c.; best Canadian, 17c.; prime Canadian, 13c., no charge for barrel, terms 60 days; linseed oil, raw, 56 to 59c.; boiled, 59 to 62c. Turpentine, 45 to 47c. Cod oil, 28 to 30c.; seal oil, steam refined, 40 to 45c.; seal oil, pale, 38 to 43c.; olive oil, commercial, 6½ to 7c.; castor oil, commercial, 6½ to 7c.; extra lard oil, 65 to 70c.; No. 1 lard oil, 60 to 65c.

CANNED GOODS—No vegetables are as yet quoted for future, and quotations on fruits have been withdrawn by the association. Salmon are firm for fall delivery, some

packers on the Coast having refused orders owing to short pack. Those who delayed ordering, expecting that, as last year, prices would fall off, are disappointed. As the quantity sold here is small compared with last year firmer prices are in order. We quote: Corn, 95c. to \$1.00; peas, 90 to 95c.; tomatoes, 95c. to \$1; gallon apples, \$2.40 to \$2.50; oysters, 1's, \$1.40 to \$1.50; 2's, \$2.20 to \$2.25; corned beef, 1's, \$1.65 to \$1.70; 2's, \$2.65; salmon, \$1.25 to \$1.35; lobsters, \$1.75 to \$2.00; peaches, Canadian, 2's, \$1.90 to \$2; 3's, \$2.90 to \$3; peaches, American, 2's, \$1.65 to \$1.70; 3's, \$2.65 to \$2.70.

DRIED FRUIT AND NUTS—Although reports from Denia are for a very large crop, prices of September shipments from there are higher than they were for August. This has caused somewhat of a falling off in the demand. New California loose muscatels are quoted rather high to sell. At equal prices with Valencia layers it is believed by many they would hold a large share of the trade. Evaporated and dried apples will come in on a bare market. Demand for nuts is quiet. We quote: Sultana raisins, 7 to 7½c.; Valencias, 5½ to 6c.; layer Valencias, 6½ to 7c.; loose muscatels, in boxes, 6½ to 6¾c.; London layers, \$2 to \$2.10; prunes, 7 to 7½c.; California, 11 to 12c.; currants, brls., 3½ to 4c.; cases, 4 to 5c.; cleaned, 1lb. cartons, 8 to 9c.; dates, 5 to 6c.; figs, 10 to 12c.; Egyptian onions, 1¾ to 2c.; French walnuts, 11 to 12c.; Grenobles, 13 to 15c.; almonds, 13 to 14c.; Brazils, 11 to 12c.; filberts, 9½ to 10c.; pecans, 12 to 13c.; peanuts, 10 to 11c.

GREEN FRUIT—Business is active. Apples are very plentiful. There are daily auction sales, and these tend to keep prices down. Peaches and pears are now coming forward

in large quantities. Plums are very plentiful and very low, being much below last season's price. Grapes are becoming more plentiful. Peaches, per basket, \$2 to \$2.25; lemons, \$4.50 to \$5.50; oranges, \$5.50 to \$6; bananas, \$1.50 to \$2.25; apples, \$1.25 to \$2.50; grapes, per basket, \$1 to \$1.25; tomatoes, 2 to 3c. per lb.; cucumbers, 10 to 12c. per doz.; Bartlett pears, \$5 to \$6.50; watermelons, 40 to 45c.; California apricots, peaches, plums, per crate, \$2.50 to \$3.

DAIRY PRODUCE—Cheese is firmer and in better demand. If style and size were right a better figure could be obtained. Higher prices are looked for. Butter is in fair demand, but trade is not being pushed as better values are expected. Eggs are higher, with fair demand. Cheese, 10 to 10½c.; butter, creamery, 20 to 22c.; dairy, 17 to 18c.; eggs, 10 to 12c. for fresh.

MOLASSES—No change is reported. Barbadoes, 27 to 28c.; fancy Porto Rico, 42 to 43c.; choice, 34 to 35c.; Antigua, 27 to 28c.; St. Croix, 27 to 28c. Syrup, quiet, 30 to 35c.

SUGAR—Demand is better than last week. There is no change in value. Granulated, \$4.40 to \$4.50; bright yellow, 3½ to 3¾c.; yellow, 3¾ to 3½c.; Barbadoes, 3¾c.; powdered, 6 to 6¼c.; Paris lump, 6 to 6¼c. In West India sugar, though quality is better than under the old tariff, demand continues light. It is expected another year will see larger quantities in use.

FISH—Trade is quiet. Arrivals are small. Dealers are slow in paying prices asked for pickled fish. We quote: Large cod, \$3.60 to \$3.75; medium, \$3.40 to \$3.50; small, \$2.75 to \$3; pollock, \$1.70 to \$1.75; bay

A WORD ABOUT TEAS

WOODSTOCK, N.B., MARKETS.

WOODSTOCK, N.B., Sept. 6, 1894.

BUSINESS is showing steady improvement, the markets being better supplied than for some time. In hay, though price continues low, and the fact of a reduction in the duty under the new American tariff has not increased the price, it is expected it will prevent its going lower, and better figures are expected. New oats are beginning to come in. Apples and plums are very plentiful and of extra good quality. They are very low. Eggs are steady. Butter is scarce, and higher prices are expected. Cheese are also firm, and the outlook is that values will be higher, the extra dry season is so affecting the output. We quote: Hay, \$6.00 per ton; new oats, local, on track, 30c.; apples, \$1.00 per brl.; potatoes, \$1.00 per brl.; turnips, 75c. per brl.; beets, \$1.00; carrots, 80c. to \$1.00; onions, \$1.50 per bushel; cabbage, 4 to 6c. per head; green corn, 8 to 12c. per doz.; squash, 1½ to 2c. per lb.; cucumbers, 8 to 12c. per doz.; tomatoes, 6c. per bushel; plums, 50 to 75c. per peck; eggs, 10c. per doz.; butter, 15 to 16c.; cheese, 9½ to 10c.

MUSKMELON SITUATION.

MUSKMELONS have been arriving freely for some time, and of late the market has been almost overstocked with them. The quality of the fruit seems to be unusually poor this season from most all sections, and many of the usually fine marks are not good enough for the best trade. Melons are arriving now from North and some points in South Carolina and from all sections north of that up to the southern part of Jersey, with advices from upper or near-by Jersey arriving to the effect that shipments will commence very soon from these sections. The bulk of the supply just at present is from Maryland and Delaware, and while there are some very nice melons received, the proportion is small and market has been burdened with large quantities of poor stock which, while often having a good appearance, lacks flavor, and tastes more like a squash than a melon. Much of the stock is too green, though many arrive over-ripe and probably latter are more neglected than the green melons, as only the cheapest trade can use them, and then only at extremely low prices; while it is not an uncommon occurrence with receivers to have to dump large quantities, even after having paid the freight and other expenses on them. Most growers are not particular enough as to the varieties they raise, and then again many are very careless regarding packing and prepar-

ing their shipments. Stock, especially from far southern points, should be slightly green when shipped in order to arrive in condition for ready consumption, and shippers should endeavor to have the stock as uniform as possible, not only in ripeness, but in size and appearance, but nearly all growers pick their melons too soon and they arrive here too green to attract even cheap buyers. Probably the packages used for muskmelons are more uniform than with many other articles shipped here, but from some sections odd-sized crates or packages are used. The most popular package with buyers is the barrel or full-sized barrel crate. From the general appearance of a large proportion of the receipts, one would believe that shippers thought most anything was marketable upon this market, and such seems to be pretty nearly the case, as thousands of melons find their way to the table which never should be allowed to go into consumption. If the fruit inspector of the Board of Health department should seize a share of the green, unwholesome melons, and in fact some other fresh fruits with which the market is burdened, it would enable commission receivers to realize better prices for their good stock, and would have a tendency to keep the market from being glutted with inferior fruit, and the growers of fine varieties would not only be rewarded by larger returns, but it would probably raise the standard of the

melons shipped Southern and selecting the handling of melons received from New Jersey commenced as shortly.

WISCONSIN. The more free spirited, probable character quoted, by concession a few of value at 12c. the 16th improved last 140,000 that of last year that 100, Third circuit but no effect. Total area 53,633 ha 13,165 ha in 1893; 21,000 ha steady but until the

melons shipped to this market and cause Southern growers to be more careful in selecting their varieties to grow and in handling their product. About the best melons received come from near-by sections of New Jersey, but shipments have not commenced as yet this season, though expected shortly.

CHINA TEAS.

WISNER & CO., Shanghai, under date July 30th, advise as follows: Black teas—Musters have been arriving more freely, and a small business has transpired, principally for America. No noticeable change in prices can, however, be quoted, but the market is weak, and a slight concession has been made in common teas, a few of very low quality having been settled at t/s. 12.50. Advices from Hankow are to the 16th inst. The yield of second crops proved larger than was anticipated, being 140,000 half-chests, or very nearly double that of last season. Of this it was estimated that 100,000 had been bought for Russia. Third crops were just beginning to arrive, but no estimate of quantity could be given. Total arrivals, 37,165 half-chests, against 53,633 half-chests in 1893; total settlements, 13,165 half-chests, against 32,633 half-chests in 1893; stock, 24,000 half-chests, against 21,000 half-chests in 1893. Green teas—A steady business has passed in Pingsueys until the last few days, since when buying

has almost entirely ceased, owing to adverse advices respecting the first arrivals in America, and the natives declining to make any concession in price. The market was opened for Moyunes and Teenkais on the 14th inst., the first settlements showing an advance on last year's prices of tael 6 to 7. The following day great excitement prevailed and prices rapidly advanced 3 to 4 taels. Although this excitement has now somewhat abated, there is still a keen demand for choice teas. The lower qualities are not in such request, and show only a moderate advance over last year. The teas (Moyunes especially) are very badly made and the quality is disappointing. The movement for season is as follows:

	Country and local.	Pingsueys.
Arrivals—½-chests ...	36,218 32,917	98,576 95,101
Settlements	28,188 22,917	64,576 71,101
Stock	8,050 10,000	34,000 21,000

SOUTHERN RICE CROP.

The following regarding the progress and prospects of the rice crop in the respective States is taken from the bulletin of Dan Talmage's Sons, New York, August 15th: "Conditions in the older rice-growing States, North and South Carolina and Georgia, are generally favorable, and if no untoward circumstances arise during harvest, the outcome, in spite of reduced area, is likely to prove full average both as regards quantity and quality. These, however, are minor

States, the largest producer, South Carolina, raising scarce one sixth, and all of them combined only one fourth that of Louisiana." Of the latter State the Messrs. Talmage remark: "Considerable uncertainty exists as to the outcome. Wherever situated along bayou, river or other stream, crops are in fine condition; but those deriving moisture from rainfall are struggling for life, safety depending on favorable winds, temperature, plenty of rain from now on and a late fall. Immediate prospects are encouraging, giving positive assurance of 1,000,000 sacks, and under favorable circumstances suggested a possible outcome of 1,500,000 sacks (6,000,000 bushels). Harvesting of exceptional sections and crops now under way."

MONEY CHANGES IN CHILI.

The Bureau of the American Republics is informed that the Chilian Government has under consideration the project of requiring all import duties to be paid in the national money, the cost of exchange added. At present 25 per cent of the duty is payable in gold. It is also proposed that the export duty on nitrate, now payable partly in the national currency, shall be paid in gold, or by accepted letters of credit. The four millions of dollars surplus, which it is hoped will be gained by this operation, are to be applied to the fund for conversion of the national paper currency. This proposed financial scheme is to go into effect December 1st.

HITTING THE SPLINTER.

"How is the advertising business, Cannon?" queried a friend to the well-known advertising manager.

"Dull, sir! Dull!" he replied. "Everybody economizing. Scared to death. Pulling in their horns. No enterprise left in 'em. Some of 'em carrying it so far, sir, that if they do not take care they will hit a splinter."

"Hit a splinter! What do you mean?"

"What! Do you mean to say you never heard that expression before? Well, I will tell you: Old Bill Soper, near Henderson, Ky., was about the closest-fisted old man in the state—wealthy and miserly. His son, young Bill Soper, went to town and spent 5 cents on a ginger cake. It nearly broke the old man's heart, so he sent him to old man Hugh Tate, an economist, to take lessons in economy. 'Ask him questions, Bill,' said the old man, 'and bear in mind what he tells you. He will make your fortune for you.' Old man Hugh Tate was a close-fisted farmer, and when Bill got there it was dark—just in time for supper. They had nothing on the table but bread and water. 'Why do you not have vegetables?' asked Billy, 'there are lots in the garden!' 'Sell 'em,' replied the economist. 'Why do you not have mutton, you have lots of sheep?' was the next query. 'I sell the mutton,' said Tate, and so the lesson proceeded. When the meal was over Tate blew out the candle. 'What did you do that for?' queried Billy. 'Candles cost money,' responded the old man, 'we can talk in the dark.' Just then he heard rustling on the other side of the table, and said: 'What are you doing, Billy?' 'Taking off my pants' said Billy, 'save wearing the seat out, nobody can see in the dark.' 'Good boy, Billy! Good boy! You can go home in the morning, I can't teach you anything. But, sonny; mind you don't hit a splinter and ruin yourself.'"

John Wilson, merchant, is looking particularly amiable this week, and the cause may be found in the arrival of a son on Wednesday last—the first event of the kind in the family. Numerous congratulations are being received.—Pick-Me-Up, Pictou, N.S.

ROYAL MAIL STEAMSHIPS

Liverpool, Londonderry, and Montreal Mail Service

STEAMSHIPS.	From Montreal.	From Quebec.
MONGOLIAN.....	Sept. 8	Sept. 9
LAURENTIAN.....	" 15
SARDINIAN.....	" 22	Sept. 23
*NUMIDIAN.....	" 29
PARISIAN.....	Oct. 6	Oct. 7

And weekly thereafter.

The Steamers of this service carry all classes of passengers. The Saloons and Staterooms are in the central part where least motion is felt. Electricity is used for lighting the ships throughout, the lights being at the command of the passengers at any hour of the night. Music rooms and Smoking room on the promenade deck. The Saloons and Staterooms are heated by steam. Steamers are despatched from Montreal at daylight on the day of sailing, and sail from Quebec at 9 a.m. on Sundays. Steamers with a * will not stop at Quebec, Rimouski, or Londonderry. **RATES OF PASSAGE:**—Cabin, \$45 and upwards, according to location of Stateroom and number of persons occupying same; all having equal privileges elsewhere. Second Cabin, \$30 single, \$60 return. Steerage to Liverpool, London, Glasgow, Belfast, or Londonderry, at lowest rates. Steerage passengers are provided with bedding and every requisite for the voyage without extra charge.

BUSINESS CHANGES.

DIFFICULTIES, ASSIGNMENTS, COMPROMISES

JOSEPH TELLIER, trader, Montreal, has had a demand of assignment made upon him.

R. A. Dubrule, grocer, Montreal, has assigned.

D. M. Shields, grocer, Petrolea, has assigned to T. W. Nash.

Paul Magnusson, general merchant, Selkirk, Man., has assigned.

E. G. Belsle, general merchant, St. Andre-Avelin, Que., has assigned.

H. C. Goerke, boots and shoes, Sault Ste. Marie, has assigned in trust.

James A. Moore, general merchant, Worthington, has assigned in trust.

W. A. Mowatt & Co., general merchants, Campbelltown, N.B., have assigned. So has Max Ross, of St. John, same Province.

PARTNERSHIPS FORMED AND DISSOLVED.

Wilson Bros., hay and grain, Montreal, are reported to be absent.

Westland & Co., pork packers, etc., Ridgeway, have dissolved.

Soby & Membery, hotel, Toronto, have dissolved; John Soby continues.

Lomer, Higginson & Co., exporters hay and grain, Montreal, have dissolved.

Robert Kneeshaw and James Lawrie have registered a partnership in Montreal to carry on business as warehousemen under the style of Kneeshaw & Lawrie.

SALES MADE AND PENDING.

W. Tilden, general merchant, Blytheswood, is advertising business for sale.

The stock of Plunkett & Co., grocers, Ottawa, is advertised to be sold for rent.

The stock of A. J. Dubuc, general merchant, St. Hyacinthe, Que., has been sold at 75c.

CHANGES.

E. B. Hill & Co., produce, Victoria, are closed.

Louis Payment, general merchant, is opening branch at St. Malo, Man.

FIRES.

Bienvenue & Frere's saw mill at Varennes, Que., has been burned.

The stock of O. Jutres, grocer, Montreal, has been damaged by fire and water; insured.

DEATHS.

W. R. Clark, auctioneer, Victoria, is dead.

Wm. Heyward, coal, grain, etc., Chatham, is dead.

Elijah Bawler, of the Dominion Sanitary Pottery Co., St. John, Que., is dead.

Do you, Mr. Merchant, imagine for a moment that successful advertisers all over the country are spending money for space just for the fun of it? Not much. It pays.

GONDENSED MINGE MEAT

CURRENT MARKET QUOTATIONS

TORONTO, Sept. 7, 1894
This list is corrected every Thursday. The prices are solicited for publication, and are for such quantities and quantities as are usually ordered by retail dealers on the usual terms of credit.
Goods in large lots and for prompt pay are generally obtainable at lower prices.
All quotations in this department are under the direct control of the Editor, and are not paid for or doctored by any manufacturing or jobbing house unless given under their name; the right being reserved to exclude such firms as do not furnish reliable information.

The British Columbia Fruit Canning and Coffee Co'y, Lt'd.

VANCOUVER, B.C.

Having largely increased their capacity. We advise all dealers to see their price list before placing their orders for Jams, Jellies, Canned Fruits, and Canned Vegetables.

Besides their regular brands of Ground Coffee, now so favorably known, they quote:

Blend No. 1 at 25c, either ground or whole roasted
" 2 at 20c, " " "
" 3 at 15c, " " "

Their Flavoring Extracts are of the choicest quality.
