WANTED—Female Ass

say

Aspirin

Nothing Else is Aspirin

Warning! Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all.

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 21 years and proved safe by millions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Made in Canada.

Handy tin boxes of 12 tablets cost but a few cents—Larger packages.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocrotic acid of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Miners' Delegates In Conference.

Nearly One Million Strikers Represented -- Liberals Carry Saskatchewan -- Ulster Rifles Will Guard King George -- Canadian Civil Service Being Pruned.

RESULT OF COAL CONFERENCE.
LONDON, June 10.
The coal mine strike, trying up virtually the entire industry, has been in progress since April 1st. It is confidently expected that the men will vote in favor of dropping the wage pool scheme. Miners' Delegates, present at the conference to-day, represented 958,000 members of the Union. A ballot will be taken next Wednesday and will be returned on Friday. A motion to advise members to vote against accepting the owners' terms, was overwhelmingly defeated, and it was decided that no recommendation would be made. Two-thirds majority of votes will be required to continue. The main features of the owners' final wage proposals consist of the establishment of a new standard minimum wage by raising the 1914 pay rate, or the 1919 rate in the case of piece workers, by twenty per cent., this percentage to be calculated on March, 1921 output, and to be voted for a period of 12 months. This will practically mean an advance of 40 per cent.

COAL STRIKE NEARING END.
LONDON, June 10.
Resumption of work in British coal mines on Monday, June 20th, is generally assumed here, will result from the decision reached to-day at the Conference of Miners' Delegates to take a ballot on the proposals made by the coal mine owners, looking to settlement of the strike. This assumption is said to be based less on the idea that the miners regard the owners' latest term as acceptable, than on the belief that there will not be a two-thirds majority in favor of continuance of the strike. Cessation of work in the mines has lasted for ten weeks and the funds of the miners are exhausted, and, it is asserted, although the terms the owners have proposed do not meet the claims the workers have advanced, they constitute a considerable advance on anything previously offered.

ANOTHER BRILLIANT SUCCESS.
MONTREAL, June 10.
The Governor-General's Silver Medal for original & date research work at McGill University, was won

by William Harker Hatcher, St. John's, Nfld.

PAPER MAKER'S STRIKE.
ALBANY, June 10.
On the proposal of the International Paper Company, a conference will be held in New York on June 15th by manufacturers and striking employees of paper making plants in the United States and Canada.

SASKATCHEWAN ELECTION.
REGINA, June 10.
Rural polls which reported yesterday's vote in the provincial elections gave the Liberal government 48 seats, Independents 14, Conservative 3 and Labor 1.

ROYAL ULSTER RIFLES KING'S BODYGUARD.
BELFAST, June 10.
The Royal Ulster Rifles, which now are quartered in Kensington Gardens in London, where they were stationed to meet emergencies which might arise from the coal strike, will be sent here for King George's visit at the opening of the Ulster Parliament on June 22. They will be the only Irish troops in the country, even the Headquarters Rifles, which is purely a Belfast unit, having been shifted to England.

REMOVING THE BARNACLES.
OTTAWA, June 10.
It is expected that as a result of the re-organization of the Post Office and Customs Department, between eight and nine hundred Civil Servants will be let out and an approximate saving made in each department of a million dollars, according to the Journal this afternoon.

NEUTRAL ZONE IMPRACTICABLE.
LONDON, June 10.
The scheme for neutral zone in Upper Silesia has been abandoned on the ground that it cannot be put into operation, according to a source that is usually well informed. British military opinion in Silesia, as quoted by the Oppen correspondent of the Daily Mail, is that the scheme is a big mistake, and would require three times the number of Allied troops available, and would also be politically dangerous.

ous, inasmuch as it means the recognition of both Polish and German insurgents.

ORIENT TEACHING OCCIDENT.
OSAKA, Japan, June 10.
Resolutions providing that a petition be sent to the Japanese Government asking it to take the initiative in communicating with Great Britain and the United States for the purpose of calling a conference for disarmament, was passed unanimously by the Disarmament Committee here.

GOD SAVE THE KING.
BELFAST, June 10.
A police Sergeant and two Constables were shot in the street here, this afternoon, and are reported to have been badly wounded. The shooting is attributed, in Unionist quarters here, to an attempt on the part of Sinn Fein to create such conditions as would prevent King George from coming to attend the opening in State of the Ulster Parliament on June 22.

POLITICAL SITUATION IN ENGLAND.
LONDON, June 10.
The Coalition Government's loss of two "safe" seats and its sudden reversal of its policies regarding agriculture and unemployment, is causing serious misgivings in some quarters. The Daily News, organ of the Free Liberals, urges an alliance of the two wings of the Opposition. The Opposition realizes its weakness. It knows how deep is the gulf between the followers of Asquith and the Labor Party. All through the coal crisis Liberal members have never shown any power to influence the action of the Labor Party.

Queer Ant Antics.

You would think it was hardly possible to know a particular ant from another belonging to the same species. We can distinguish an individual horse, dog, or cow from others of their kind. Shepherds know every sheep in their flock; a huntsman will call any hound in the pack by name, though to untrained eyes all look alike. But we can see distinct differences when they are pointed out to us—differences in coloring, shape, and size. Amongst ants of the same species we can detect no such differences, even with the aid of the strongest magnifying glass; all appear exactly alike in every way. Yet ants recognize each other, though what hidden sense enables them to do so is not known. If we take an ant from a nest and replace him after a short time, we find that those who are on sentry-go will go up to him and submit him to an examination. One of them stands in front of him and touches him with his "feelers"; he is immediately recognized as a brother and allowed to go on his way. But if we take an ant from another nest, the case is altered. The sentry, after making his examination, attacks him at once. Any others who are near do the same, and the intruder is torn to pieces by their powerful jaws. The same power of recognition is possessed by bees and wasps.

Are All Being Treated Alike?

The time is rapidly approaching, has approached in fact, when everyone who can prosecute the codfishery this season should be busily engaged in plying that industry. The middle of June is all but with us, yet there are hundreds of men who have not received any supplies, without which they cannot possibly manage to continue their avocation. Labradormen have not yet got away for the coast, and with the short fishing season there, every day's delay now means possibly incalculable loss. Western districts are in the extraordinary position of not knowing where they stand with regard to the shore fishery, and merchant outfitters are in the same position, which is worse, because their financial condition precludes the continuance of issuing supplies on the old established credit basis. The Government apparently is the only source of fishing supplies to-day, and has already guaranteed certain sums to certain districts, a position which is unfair to other districts not similarly considered in the matter of outfits. There can be no choice in this matter of Government guarantee. One, two or more districts cannot be protected, whilst others are neglected. Favoritism, whether political or otherwise, must cease in the present circumstances.

A large firm of suppliers operating in the Districts of Burin, Fortune Bay and Fogo has solicited Government assistance in order to help supply four thousand fishermen, representing 20,000 of the population, the total catch of which number approximately at seventy-five quintals per man, the huge total of three hundred thousand quintals or practically one-fifth of the whole annual voyage. But the petition of this firm, operating on such a large scale at the Banks, Shore and Labrador fishery was denied most cavalierly by the Government. The representatives of the districts named are all on the administration side of the House, but the voice of not one of them was raised in favor or support of this most important request, and they, with one accord, remained silently in their places, and heard the declaration of the Speaker that "this petition be referred to the department to which it belongs." May we ask what department that is? Has there been created a Minister of Fishery Supplies? If so how come it that nothing more has been done in the matter of aiding Samuel Harris, Limited, Grand Bank, with subsidiary branches at Hermitage, Marystown, Change Islands and Lamaline? How does it happen that certain districts are being accorded every consideration, particularly districts which refused persistently to return Liberal-Reform candidates, whilst others are not even being courteously treated? The firm of Harris, Limited is too extensive, and has dependent upon it, too great a proportion of the population of Newfoundland to have its petition for assistance thrown lightly aside. The whole country is keenly watching the actions of the Government, and the administration thereof should be carried out—in the matter of fishery supplies—without discrimination.

Memorial Service To-Morrow

A Memorial Service to the men of St. Andrew's Presbyterian congregation and members of the Newfoundland Highlanders who fell in the Great War, will be held in the Kirk to-morrow (Sunday) morning, for which a special form of service has been drawn up. The address will be delivered by Professor H. A. Kent, D. D. of Halifax, Nova Scotia, who was a chaplain with the forces, but went over as a Captain in the fighting line. Later on, not of his own volition, but at the expressed wish of the Church, caused through an insufficiency of Chaplains, the Captain transferred to the C.F. Later he took active part in the work of the Khaki College behind the lines.

Anniversary Sunday.

Cochrane Street Sunday School holds its Anniversary Services in the Church to-morrow. At the morning service the Rev. D. B. Hommeson, B. A., will be the preacher, and in the evening the Rev. Dr. Bond. In the afternoon at 2:45 a public meeting will be held—short, bright programme. The speaker will be C. S. Watson, Esq., of the King George V. Institute. Everybody welcome, come and bring a friend. Collections in aid of school fund.

S. U. F. Sociable.

A MOST PLEASANT FUNCTION.
The rooms of the Society of United Fishermen presented an animated scene last evening when members of the Order, their wives, daughters and friends attended a sociable at the invitation of the Grand Lodge. The whole suite of apartments on three flats, including the Lodge Room, was thrown open to the guests and for a time some pleasant conversations were going on. Eventually a little dance was put on in the dining room, and other forms of amusement passed the time until 10 o'clock, when all sat down to a well served supper, the Lodge Room having, for the notice, been turned into a temporary banquet hall. Following the serving of refreshments by the capable committee of the Ladies' Association, a brief toast list was taken up, the following being honored:—
THE KING—Prop, The Chairman; resp., National Anthem.
GRAND LODGE—Prop, Bro. H. W. LeGrow; resp., R. W. Bro. J. Curnew, C.M.
S.U.F. LADIES' ASSN.—Prop, W. Bro. C. T. James; Resp., The Grand Master.
ST. JOHN'S LODGE, No. 5—Prop, Mrs. J. Rendell; resp., Bro. E. Burrage.

A recitation by Master N. Cowan, and songs by Brother J. Rendell and Miss Muriel Burrage, also added greatly to the social hour of enjoyment. Subsequently tables were removed and beer treated on dancing, when all so disposed indulged to their heart's content in renewing acquaintances with the goddess who presides over that art. At the close the Chairman, R. W. Bro. J. Curnew, thanked all for their presence and especially the ladies, whose excellent catering had been so appreciated by the company. An early hour this morning the singing of "God Save the King" terminated a very pleasant function, with assurances that this was only the beginning of many.

Fire in School.

A fire occurred in the Centenary Hall School, Gilbert Street, at about 4:15 p.m. yesterday and a considerable amount of damage was done. The fire, the cause of which is unknown, broke out in a corner of the building and on the outside. The Western and Central fire companies were summoned and quickly put in an appearance with the use of the chemical engine. The blaze was extinguished and by 4:45 p.m. the all-out signal was given.

Shipping Notes.

S.S. Rosalind left Halifax yesterday at noon for New York.
S.S. Sable I left North Sydney at 2:30 p.m. to-day for here.
S.S. Manoa, which had been detained on the other side, is now enroute to Montreal and will leave there on June 28th for this port, via Charlottetown. This will be the first passenger steamer from Montreal since the Black Diamond Line ceased running seven years ago.
S.S. Venus II has arrived in port, 7 days from New York, with a cargo of hard coal, consigned to Job Bros & Co.

Shipping Gov't Fish.

A large number of men are engaged at Job's premises to-day, packing the Government Labrador fish, which was purchased last fall. The fish is being loaded on Baine Johnson's schooner, June, and it is understood will be sent to Alicante, where it will be placed in cold storage until next fall. The cargo will consist of some 1800 casks.

\$2.15 Last Summer
is
\$1.50 This Summer.

It is high time for the men to have a change from present conditions. They are to great disadvantages and can not do justice to their work if still clad in heavy weight Underwear. BISHOP'S have received by S. S. "Rosalind" a shipment of Muslin and Raybriegan Shirts, Pants and Combinations. Underwear that was Two Dollars and Fifteen last Summer is One Dollar and Fifty this year.

Obituary.

ARCHIBALD R. H. MACPHERSON.
The news of the passing away of Archibald R. H. Macpherson, in London, yesterday, which was announced by a cable message from Sir Edgar Bowring, came as a shock to his many friends in this city. For several months deceased had been in poor health, but had intended returning home by the next Digby. Archibald, the son of the late Peter and Susan Campbell Macpherson, was born in St. John's 57 years ago, and after a term of school here finished his education at Glasgow in his return he entered the business of his brother, the late Campbell Macpherson, and for many years held the position of buyer. In the year 1895, when the Borys were founded, he was elected a Director, holding the position of buyer for thirteen years, when on the death in 1908 of his brother, the founder, he succeeded as President, the business succeeding under his guidance, until it became a household word all over the country. Besides his interest in this business, Mr. Macpherson was closely identified with many local industries. He was a Director of the Nfld. Boot & Shoe Mfg. Co., President of the Riverside Woollen Mills Ltd. In advancing education he took a prominent part, being a member of the Education School Board, Honorary Treasurer of the Methodist Educational Campaign, Governor Nfld. Methodist College. In Masonic circles he was a member of St. John's Lodge; charter member and Past Master of Whiteway Lodge. The late Mr. Macpherson is survived by a widow, nee Miss Margaret McNelly, daughter of Mrs. and the late J. R. McNelly, a son and three daughters to whom the sympathy of the community will be extended in their sudden bereavement and great sorrow. Miss Margaret Campbell Macpherson, the well known artist, long resident in Paris, is a sister. Dr. Cluny Macpherson and Mr. H. A. Macpherson, of the Royal Stores, are nephews, and the Rev. Dr. Bond, a brother-in-law. It is probable that the mortal remains of the deceased will be sent home by s.s. Digby for interment.

DR. GEO. F. BOWDEN.

The passing of Dr. George F. Bowden, Medical Practitioner of Westleyville, which occurred on Thursday last at New York, where he had gone about two weeks ago for treatment, has come with a shock to his family and friends. Dr. Bowden leaves a wife and one daughter, who reside in Westleyville, another daughter, Mrs. Robert Morrison, living at Los Angeles, Cal. One son, Hugh Pierson Bowden, M.M., who went through the Gallipoli campaign, was killed at Cambrai, November 20th, 1917. Mr. W. H. Bowden, of Bowden & Co., printers, is a brother, and Mrs. H. Y. Mott and Miss Flora Bowden, of New York are sisters of the deceased, to whom the Telegram extends sympathy.

Stabbing Affray.

NEGRO SAVED BY POCKET BOOK.
To a pocket book which he carried in his breast pocket, a West African negro named Hynes, a member of the crew of S.S. Charlott, probably owes his life. In the Magistrate's Court this morning Hynes charged another member of the Charlott's crew, who was charged with attempting to stab him, according to the African's evidence, which was corroborated by others of the crew, he got into an argument with the wharf with the prisoner who threatened to cut his throat. Hynes said, "If you cut my throat off, the law will put your throat off." The prisoner then attacked the plaintiff with his knife and stabbed him in the side. Fortunately for Hynes he carried a thick, leather bound pocket-book and this was cut by the knife but not completely penetrated. Witness said he then ran to the ship followed by the defendant and there the third officer interfered. The third officer denied part of witness' story. He said Hynes picked up an axe to defend himself with against the prisoner's attacks. The prisoner denied possessing a knife. Upon being asked if he had any witnesses to call the defendant indicated a man in court who, upon going into the box, corroborated the plaintiff's story.
Judge: "I'm afraid you called the wrong witness."
Prisoner: "I'm afraid I did too."
A fine of \$100 or 3 months was inflicted on defendant.

Coastal Boats.

GOVERNMENT.
S.S. Prospero left Seldom at 6:30 a.m. and is due here to-morrow night.
S.S. Fortia left Fortune at 9:50 a.m. going west.
Govt. Railway Commission.
Argyle arrived at Lawn at 10 a.m. on the 9th, on way west; no later report.
Clyde left Twillingate at 6:45 p.m. yesterday outward.
Glencoe leaving Humbermouth to-day on N.W. coast service.
Kyle at North Sydney.
Moigte arrived at Hermitage Cove at 10 p.m. on the 9th, coming to Placentia.
Malakoff left Salvage at 6:05 p.m. yesterday inward.

Supreme Court.

(Before Mr. Justice Johnson.)
Daily Star vs. Newfoundland Conference of the Methodist Church.
This is an application on the part of plaintiff for an injunction that the Methodist Conference be restrained from distraining on the property of the plaintiff, a distraint already having been made and a replevin action commenced and at present set for trial. Mr. J. Barron is heard in support of application, Mr. I. B. Emerson, for defendant, opposes motion. Mr. Barron is heard in reply.—C.A.V.

TRAP FISHING GOOD.

—Fish is reported plentiful at King's Cove and vicinity. During last week one trap took fifty quintals and most of the trans-out are doing fairly well.

Ordination Service.

At the C. of E. Cathedral this morning Mr. M. B. Way was made Deacon and Rev. R. Fowlow was ordained priest by His Lordship Bishop White. The service which was commenced with a procession of clergy and choir closed by the Bishop who was vested in cope and mitre and was attended by Rev. J. Britton as chaplain. In the ceremony of the laying on of hands Revs. Dr. Bolt, Dr. Facey, Hugh Facey, J. Britton, A. Clayton and W. R. J. Hight participated. The Gospel was read by the new deacon whilst Rev. Mr. Hight, Rector of St. George's, preached a sermon appropriate to the occasion. After the ordination service the Communion Service was proceeded with the newly ordained receiving in both kinds at the hands of the celebrant.

Proved an Alibi.

A medical man who was charged in Court to-day with driving a car on the wrong side of the road, proved an alibi for the case was dismissed. The constable who was responsible for the summons stated that he turned to look at two girls and when he glanced back at the car it was because they were behaving in a disorderly manner. His Honour: "That is a charitable explanation, but I shall assume it is correct."
The accused proved he had been in a different place at the time he was supposed to have been breaking the traffic regulations and the case was dismissed.

C. C. C.

SILVER JUBILEE CELEBRATIONS.
The C.C.C. will celebrate their Silver Jubilee this year and arrangements are being made to hold their annual sports. St. George's Field will witness one of the greatest sports contests ever held on the afternoon of July 20th. A very fine programme has been drawn up and the medals, numbering nearly forty, are being made at home this year by Mr. A. McNamara, so that there will be no delay and winners will receive their prizes on the day of the sports. Among the prizes will be a Silver Cup, gold and silver medals of very neat design, a suitably inscribed pin, a hammer throw is another popular item and is sure to cause great enthusiasm among the followers of this game. The complete programme will be advertised shortly but in the meantime sports who intend to contest the open events would do well by getting down to practice. As soon as they are ready the medals, etc. will be on exhibition on Water Street.

Preliminary Survey of S. S. Charlott.

Yesterday afternoon Diver Squires made a preliminary examination of s.s. Charlott, to ascertain the extent of the damage done the ship below the water line. A fuller survey will take place when the cargo is discharged and the ship placed on dock. Work on discharging the oil cargo began this morning. There are 37 feet of water in No. 1 hold and 29 feet in No. 2. The ship's pumps are kept going and an extra pump was placed in position yesterday by the Reid Nfld. Co. The repairs will give considerable employment to the dock hands, who are at present out of work.

Successful Examination.

Nurse Joan Mann, of the General Hospital staff, has just passed a fourth most successful examination, this time averaging 98½ per cent, and finishing her course six months in advance of the time limit. Nurse N. Dwyer, in the same examination, followed next in the record of Miss Mann. Both young ladies belong to Harbor Grace. They are receiving the congratulations of their friends.

Personal.

Rev. Canon Jeeves, Rector of the C. of E. Cathedral, is at present confined to his home with a cold.

Sir John Crosbie's Criticisms of the Budget.

Newfoundland Has Met Her Waterloo---Schoolboy Financing Puts Ship of State on Rocks.

(Continued.)

There is a Railroad Commission to-day who have issued and sent out circulars telling all the officials that after the 30th of June next they will not be responsible for their salaries, and I am sure that if the Reid-Newfoundland Company are not prepared to take the Railway over and operate it, that the whole thing will go into liquidation or into the hands of a receiver. Once the crowd begins to know that the railway is going into the hands of the Government and to be run under Government control in the future, the three million dollars that the Government lost within the past twelve months on the operation of the railway will be only a mere feather to the deficit that is to come, because the Government can no more run a railroad as a paying proposition than I can disappear now from my place in this House. Take the six millions of dollars that you borrowed. That is all gone and accounted for as follows: at least \$2,500,000 for railway purposes; \$500,000 for the St. John's Municipal Council; \$500,000 for public works; \$1,000,000 as a reserve to be used for surplus Trust Account, and \$1,500,000 reserved for general purposes. But this last mentioned amount is no more in reserve than I am in Dr. Barnes' place now. You know, Dr. Barnes, and every member of this House is aware, that instead of having a surplus on the 30th day of June next, that this Colony will start out in debt and nothing less than \$750,000. That is your position--in debt instead of having a surplus. You naturally ask me why I say that. There is a lot of outstanding accounts and bills that are not estimated for or accounted for in this Budget. I fear not successful contradiction to-night from any man in the Government to prove to me that the statement I have made is not correct. I wish my hon. friend, Mr. Foote, was in his seat in this House so I could teach him something about finance. I wish to tell you Mr. Prime Minister to-night that your own figures show my words to be absolutely correct, because there is not in your estimate of Surplus Supply anything telling of the \$400,000 that was spent to purchase Labrador fish last year.

Hon. the Prime Minister.—The \$320,000 that was paid for Labrador fish is charged as a debt to us and we have taken no credit for it. It is already charged in Surplus Trust Account.

Sir John Crosbie.—Would you mind showing it to me?

Hon. the Prime Minister.—I shall be delighted to do it.

Sir John Crosbie.—What have you omitted to be the loss you have met with on pit props? There are some of the bills that I have already referred to as outstanding and unpaid. Has the Prime Minister made any estimate in Supplemental Supply for the loss on salt?

Hon. the Prime Minister.—Yes, it is all included in Surplus Trust Account.

Sir John Crosbie.—I say a lot of these outstanding accounts are not alluded to in these Estimates and I say that we got to start out with every dollar that we borrowed spent in debt on the first of July next and there are no figures submitted here to show anything to the contrary. As was so aptly said by Michael Cashin we could easily have a substantial surplus on the 30th of June next, but for the way that our public monies were wasted and squandered about by the present administration. Now I do not want to condemn the Minister of Shipping to-night, but I want to make this statement, that in the purchase of these steamers that are now lying in the harbor of St. John's, the Minister, I feel quite satisfied in my mind, did not know anything about the matter. I think that was already proven in this House by his answers to my questions. The position is we have paid out a half a million dollars for steamers that are not worth a Jew's harp to Newfoundland. I say that because I happen to know a little about steamers.

Hon. the Prime Minister.—The amount paid for that fish is included in sum totals, if not in detail.

Sir John Crosbie.—That is the trouble about this whole business, we cannot get the details.

Hon. the Prime Minister.—I may say that the sum of \$320,000 paid for fish is charged as a debit and we have taken no credit for the value of the fish. Respecting the matter of salt, the sum of \$77,000 was taken as a debit and against that \$23,000 was credited. That is accounted for in the \$1,422,000. The figures were checked by the Auditor-General and certified by him to be correct.

Sir John Crosbie.—Well, it is like a Chinese puzzle to me, I cannot find it.

Sr M. P. Cashin.—Sir John is right. It is not in this. It should be found in Supplemental Supply, the total vote for which is down here at \$1,151,400.

Sr John Crosbie.—That means, after adding the \$320,000 paid for fish, reality be at least \$1,631,000. Instead of \$1,151,000, as shown here in the Estimates, also add the loss on pit props and I do not know how much more. Personally, I do not blame the Government for this attitude in connection with the cutting of pit props last winter in order to save abo-bodded relief. I would, perhaps, have acted similarly if I were in the Government, but I would have attempted to get back something for the money expended. If you do not get any money in return for these pit props, well that is purely an accident and it is something over which the Government have had some control, whatever. But the fact still remains that it is to be debited to the Colony. It is piling up our

public debt, and it is money that we have not been told about in this House up to the present, and when it is going to be added up and included in the sum total, it will be seen that matters are much worse in Newfoundland than you, Mr. Prime Minister, even anticipated yourself. Well, where are you going to do about it? Sir Michael Cashin pointed this out already this evening when he intimated that he intended to go to the country and remain in this country and that he was speaking for and on behalf of the people of Newfoundland in all honesty and in all sincerity, because he has been trying to see some way out of the darkness that we have got into.

Hon. the Prime Minister.—If the hon. member will permit me, the \$350,000 is included on page 8 of the Budget, and it is intended as an expenditure under the Audit Act.

Sir John Crosbie.—But that is not all. There are a lot of other things. Let me tell you a story about auditing. I have seen auditors on books in this country. The bookkeeper of one place furnished the books and the auditor went over them and scrutinized them and gave a certificate for anything to be correct as far as he could see. But that bookkeeper, a clever sort of fellow that he was, kept in the dark a lot of things that the auditor did not see. Personally, I do not lay any blame on the Auditor General whatever, but when some of the bills come in and he has to pass them he will realize that there is something rotten in Denmark. How long has this sort of thing to go on? What are we going to do about it? Now I am a great believer in education and would like to see all the facilities possible available for the purpose of educating our people, but I do not believe that such that the people cannot stand it and the taxes are so great that it means hunger, then I say cut it out. Put it in its proper place and spend less money than we are spending to-day. That is one of the ways that the Government can turn and do something to help the economy. Cut out this nonsensical department of Education and go back to where we were a few years ago. As I told the Hon. Minister of Education here the other day, hungry children cannot learn and if we tax them they cannot produce. Well, then, why not get out of this path of spending money lavishly for this useless department. Do you know, Mr. Chairman, that there is not going to be enough to pay for the interest on this year to pay the revenue that is estimated in the Budget and you got to cut down in every department to save the money? Personally, and I am afraid, even after doing all that I suggested, you will not be able to save her then. The Hon. Mr. Coaker, who is in charge of the fishery matters, has said that \$4.00 for Labrador and \$5.00 for Shore will be the prices that fish will fetch next fall. The earning power of the people will be much less than I told you a little while ago, and by the time you throw out the fish and the dam out of the Shore fish it will lessen the total value of our fish products by about seven or eight million dollars. I contend that the smallest bit of judgment could have saved this situation. I saw commercial men who made the same mistakes as the Government made. They thought the good times were on for ever. They thought the streets were paved with gold; the Government also thought so. But what do we find to-day? We find, through lack of judgment on both their parts, a total collapse all round. I told a man recently that we had to get back to pre-war days and the quicker we realized that the better. If the Government had seen the dark days that were ahead, the expenditure that was taking place, how much better would we be in Newfoundland? Take this loan that has been raised by the Prime Minister. For the purpose, Mr. Chairman, that ever before in the history of Newfoundland was a loan raised behind sealed doors, and I was if Wood and Co. who handled the previous loan for this Colony, and others, had had an opportunity to bid on the loan and no such amount as \$750,000 interest would be charged to the Colony. My youngest boy could do better than get this loan at 88, and I will tell you why. At that time you accepted 88 for it in New York our 6 1/2 per cent. bonds were selling there at 94 and we allowed New York brokers to haul off 5 and 1/2 dollars profit. That is what happened exactly. With a single stroke of the pen 5 and 1/2 per cent. was taken off this Colony and no opportunity given to anybody to float this loan, except three or four American brokers, and then the only reason given to this House is that the Government were afraid to tell the Opposition, fearing the Opposition would stop the raising of the loan. If we got the loan at 84, and 1/2 per cent. interest on the six million dollars—a happening that was never known before in the history of Newfoundland. Why was not some other firm called in to tender for this loan. If bonds were sold at 84, plus interest and exchange, which netted, practically, 104, why were we ticked off with 94 1/2? Its the worst piece of bungling in finance this Colony has ever known, and the only excuse given by the Prime Minister for it is that he does not know very much about finance. Three hundred dollars' worth of thought appears to be a small amount comparatively, but if the Government had saved that on the raising of this loan, it would have enabled them to go on for another year without having to cut civil servants' salaries. Mr. Chairman, look what this bit of frenzied finance has cost. It makes one's blood boil to think that any New York brokers can put one over on us in that fashion and can look upon us in the way that some members of this Chamber, that Newfoundlanders are too green to burn. We members of the Op-

position know and realize the responsibility that is now upon the shoulders of the Government and I feel that the responsibility is very great, and I feel that gladly would I do something to help them in this emergency. I do not say that in any spirit of sarcasm, because I can see the hard times through which we are passing. I stated in this House some three or four years ago and I repeat it now, I am not so satisfied with conditions or that there is any likelihood of a silver lining appearing in the dark clouds ahead, as my hon. friend Mr. Bennett, who tells me that Newfoundland can be pulled out of the mess she is in, there has got to be some awful suffering take place to bring her back to normal. I have no hesitation whatever in saying that Newfoundland has not yet seen the dark spot at all. It is only the shadow we have seen of the darkness, so to speak, as I said some weeks ago. If the Government, with the assistance they have given, can manage to start out the fishermen and we can get them all away from here, it will be a good thing. But there is another entirely new situation that has arisen and that has to be grappled with. There are people in this House to-night, there are people in Conception Bay who were depending on Bell Island for a living and which industry has been closed down for a considerable time past. If something is not done for the people in that section of the country, the unemployment will be more acute. We have to find some sort of labor for those people to-day, because they must produce a portion of the revenue that is required of them. If something is not done and done very quickly to solve the unemployment question nothing will save the greater majority of our people in Newfoundland. And I want to serve notice on the Government that if they cannot devise some scheme before next winter whereby men will be enabled to lay by something for their families, I want to say that when that hour arrives it is going to be a terrible one of reckoning, and anybody who has any foresight at all can see it in the distance. Again I say to the Prime Minister, what are we going to do about it?

GOOD GATE.—The gate receipts at last night's football game amounted to the substantial sum of \$141.40. This is the second largest gate for the season.

Whitty Case Dismissed.

JUDGEMENT FOR MAYOR AND COUNCIL

The case of E. J. Whitty vs. the Mayor and City Council for arrears of wages was dismissed by Judge Morris yesterday afternoon.

A great deal of interest had been manifested in this case which was a test to decide whether the Council was justified in reducing the wages of men employed on Relief Works. After Mr. Ayre had concluded his lengthy address His Honor summed up as follows:—

"From the evidence submitted in this case the following facts appear. The Municipal Council decided to do certain work within the city limits, and instructed the city engineer to proceed with the work. Men were employed to do this work, at first, to the number of eighty men, and the plaintiff was employed as foreman. The wages agreed upon were thirty three cents, the foreman receiving two cents an hour more by reason of his position. The work had been working between two and three weeks when the Council decided to reduce the rate of wages and to this effect they instructed the Secretary, Mr. Mahoney. The plaintiff, on the 23rd of May, received a notice, notifying him that beginning Thursday, the 26th May, the pay for the work would be at the rate of \$2.50 per day or 25c per hour of a ten hour day. At the end of the week the plaintiff was paid at the rate of \$3.50 per day or 35c per hour plus two cents an hour as foreman.

The Council was strictly within its rights in reducing the rate of wages of its employees, as it also had the right to employ or discharge the men. The evidence of the Premier, Mr. Bennett and Mr. Higgins, given in the case, had no bearing on the work done at Golf Avenue, on which the plaintiff was employed, but referred to work outside the City limits. East and West, and undertaken jointly by the members of the Legislature for St. John's and the Municipal Council."

The plaintiff's claim is dismissed.

Civic Commission.

WEEKLY MEETING.

The weekly meeting of the Municipal Council was held at 8 p.m. on Thursday, Mayor Gosling presided, and Councillors Ayre, Morris, Peet, Vinicombe and Jackson were present. After the Minutes of the previous meeting were read and confirmed, the following matters were disposed of.

A communication was received from Inspector General Hutchings, stating he had no objection to permission being given the Department of Marine and Fisheries for the erection of a wharf on the King's wharf, for the purpose of an Acetylene Compressing Plant.

The Deputy Minister of Public Works asked the attention be given the street fronting Departmental building. This was referred to the City Engineer.

Mrs. Furniture and Bedding Company asked extension of time for payment of City Taxes. Request cannot be acceded to, as the Council considers the first duty of citizens is to pay taxes due the city.

The Hon. Secretary, Child Welfare Association, asked permission to hold concerts in Bannerman Park, dates of which will be arranged with the Bandmasters of the different brigades. This request was acceded to.

Walter Carl, Quidi Vidi Road, asked that the new houses in this locality be numbered; also that street light be given attention. Both matters will be attended to.

Wm. Tulk, Geo. Pike and others, New St., off Quidi Vidi Road, asked that this street be named and houses numbered, as the residents are at present subject to considerable inconvenience, owing to lack of same. At their request, it was decided that the street be given the name of "Carroll Avenue."

A. N. Harbin asked attention be given the water tank, Clifford St. The matter was referred to the Sanitary Supervisor.

Application of Francis Chaytor to cover roof of building, corner Waldgrave and George Streets, with rubberoid so as to make same tenable, was referred to the City Engineer.

A letter was read from the Secretary, Sergeant's Mess, Royal Regiment, in connection with the Memorial to be erected in Garrison Park, asking the co-operation of the Council in putting the park in suitable condition. Council will place a curb and gutter along the park, and the matter of railing, lighting, etc., was referred to the Engineer for consideration.

Plan, submitted by E. Tucker, for alterations to building, Holdsworth St. was passed, subject to the approval of the City Engineer. Application of J. Doyle to repair dwelling, Military Road, was acceded to.

Inspector Rooney reported on houses situated on Casey St., between Brazil's Square and Charlton Street, not having water and sewerage connections. The owners are to be notified to have same installed.

It was ordered Waterford Bridge Road be prepared for oiling, and owners of autos, cabs, trucks, etc., requested not to use this road, while work is being done.

City Engineer reported on the work done during the past week, relaying of water mains; repairing of storm sewers, etc.

Report of City Health Officer showed five new cases of Diphtheria in the city for the past week.

After passing the payrolls and bills the meeting adjourned.

King's Cove Notes.

Codfish, which had been quite plentiful, have again moved off from the shore, but our fishery skippers anticipate good catches with the arrival of the caplin Salmon, which are very plentiful here just now, are a great help to many at this time of the year. On Empire Day quite a number of our troutling experts indulged in a battle with the speckled beauties and as ponds were well patronized. Included amongst the waltonians were many ladies, but rumour says they could not surpass their gentlemen friends in landing the fishie trout.

Work on the Government wharf is now in progress and men are busy gathering material for it. The employment thus afforded is a great help at this critical period.

MASONIC SERVICE.—A special service will be held in the C. E. Cathedral at 2:30 p.m. to-morrow for all the Maschic Lodges. The preacher will be the Rev. Dr. Bolt, M.A., D.C.L. The collection will be in aid of the Masonic Benevolent Fund.

FRENCH CRUISER HERE.—The French cruiser Ville d'Ys has been in port since yesterday morning. She came here for supplies and coal and will probably leave during the day to resume her work on French fishery protection service.

Dr. Scholl's Foot-Eazer
"EASES THE FEET"

Hurting, burning, tender feet, cramped toes, "rheumatic" foot and leg pains, are often due to weakened or fallen longitudinal arches. In all such cases, Dr. Scholl's Foot-Eazer can be depended upon to give immediate relief.

It springily supports the arch, bridging the weight from the heel to the ball of the foot and induces solid foot comfort. Worn in your regular shoes—no larger size or "freaky" shape required. In fact, it materially improves the appearance of the shoe and enables one to wear the smart, well-fitting shoes of the present styles without the slightest discomfort.

There is a
Dr. Scholl
Appliance or Remedy For Every Foot Trouble

If you have corns, bunions, callouses, enlarged joints, flat-foot, weak arch, crumpling toes, run-over heels, weak ankles, overlapping toes, perspiring feet or any other foot trouble, it can be quickly relieved and corrected.

This store carries in stock all of the famous Dr. Scholl's Appliances and Remedies and

We Understand Feet

Come into this store any time and let an expert examine your feet and advise you how to get complete foot comfort.

Examination and Advice Free

Let us demonstrate, upon your own feet, that the proper appliance will absolutely put a stop to that suffering and inconvenience, while actually improving the appearance of your feet. Don't wait until you need shoes but come in now. Everybody is welcome.

When the Rain Comes With the North Fog

Provide Yourself with a pair of the Famous B.F.G. HIPRESS RUBBER BOOTS--Hear What all Fishermen, Farmers and Lumbermen Say Who are Wearing Them To-Day:

THE BEST EVER MADE
THE BEST EVER SOLD
THE BEST EVER WORN

The Hipress Boot is now used all over the Globe--SOUTH AMERICA, AUSTRALIA, EUROPE and AFRICA, ALASKA, CANADA and all over

"This NEWFOUNDLAND of ours."

And prevents all Foot Troubles arising from Ill-fitting Footwear

Ask for the Red-Line
You men who live in your boots
and give them the very hardest wear--you want these great brown boots with the "Red-Line" around the top. They'll outwear any old style black rubber boot ever made--

Goodrich
"HIPRESS" Rubber Footwear

The rubber in these boots is Goodrich "Red-Line" Stock--so tough it will actually outwear steel.

These boots are made by a new process--not by hand, the old style black boots--but vulcanized under tremendous pressure--very new, better and more reliable--they can't crack, leak, peel or pull apart. And they're unbreakable--they'll last you through all styles.

Side Talks by Ruth Cameron

THE ALMOST PLACES.

When we were out driving the other day and I had that unusual privilege of choice of just where I wanted to go, I named a small village which, though only 40 miles away, I had never seen.

My friends said they would be delighted to take me there but they would like to know, if not too much to ask, why I wanted to see that particular place.

And this was the reason. It was one of the "almost places" of which my life and every life has its share. Do you know what I mean?

When the Roads Forked.

When I was in my last year in college a call came for a graduate of my college to teach in the high school in this little town and as no graduate was available the dean offered me the position with the right to finish my college work by myself. I considered the proposition quite seriously and did not want to give up my last

half year at college and finally refused. Suppose I had accepted, of course the whole trend of my life would have been changed. I should doubtless have totally different friends, be doing different work, living in some different place, have a different name. The name of that town has always had a special significance for me and I have always wanted to see what my surroundings would have been like had I taken the other roads where the roads forked.

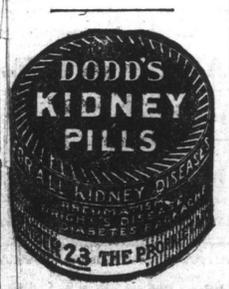

Another of these almost-places is a house which we came near taking a few years ago. I sometimes pass that house and again I find myself in imagination exploring the other fork. Sometimes the other has nothing to do with a place but has to do with some other kind of decision or perhaps with some small event.

A Wide Fork for One Inch to Cause.

It is surely an arresting thought to consider how easily one's life might have been totally different if some small factor had been different. For instance a few weeks ago I had reached that stage in learning to drive a machine where the first fear has passed and that exhilarating sense of confidence, which is said to be more dangerous than fear, has arrived. The door of the machine was

not shut quite tight and as I started down a hill I essayed to open it and shut it again while driving. But my ambition was bigger than my skill, I took my eye off the steering wheel a second too long and straightened up to find myself with two wheels in a deep ditch and my machine making up its mind whether to turn over or not. It decided not to. If I had gone an inch further it might have decided the other way. That afternoon as I started off on a pleasure trip I meditated on the difference that inch made. Doubtless if I had gone an inch further I might be in a hospital instead of where I was. What a wide fork for one inch to cause!

Doubtless your life, too, is full of forks and of one kind or another. Don't you find it interesting to contemplate and wonder about them sometimes!

KEEP YOUR WORD.

You'll be rated as a bird, in the busy haunts of trade, if you always keep your word, never let a promise fade. If you promise you will pay for your wagonload of lime on the twenty-ninth of May, do your paying right on time. Then the smiling merchant prince will remark, with beaming eye, "It is many ages since I have seen so prompt a guy?" And the merchant prince will say to the other princes near, "There is no more honest jay from Dansheba clear to Beer." If you promise you will meet James Adolphus Arthur Mix on the corner of the street at ten minutes after six, do not make Adolphus wait for the fraction of an hour, or he'll think you are a skate, and his spirit will be sour. And upon a future day, when you need him in your biz, and approach him, he will say "Moly Hoses and Gee Whiz! Once I had a date with you, and you kept it--in a horn; so I naturally view you and all your works with scorn." One has great renown for wit, one can wrestle like a Gotch, and another makes a hit when he warbles "Leaboard Watch"; one can write a classy ode, one can rear up and orate, one can scorch along the road at a barney Oldfield gait. There are many kinds of

A National Task.

Much has been said of the power of money. Its sway is recognized to move mountains and change rivers. There is another force, active in the world to-day, however, whose strength may possibly eclipse even that of the dollar. This force is public opinion. One sees on all sides evidence of the clamor for its approval, and the lines set to entrap its support. It is recognized as a power in commerce, it is known as a spur to production, and it is undoubtedly the basis of the present system of politics.

It is evident, then, that could these two forces be harnessed and used cooperatively there would be no limit to what they might accomplish. Contemplation of such a proposition is in the minds of the Red Cross of Canada at the present time. The Red Cross faces a national task--that of improving the national health of our country, and it must have a national impetus behind it. For its work in the war the question of popular support never came the question. No one dared criticize the work or aims of the Red Cross and money came in freely in the form of huge endowments for the work of binding up the wounds in France and Flanders. To-day, however, the Red Cross would bind up Canada's own private wounds sustained in daily life, and make impossible their recurrence. For this reason the present membership campaign is a two-fold affair. Its aim is to interest every man, woman and child from Halifax to

Vancouver in his or her own improvement and bettering of living conditions, or in other words the creation of a nation-wide army of the Red Cross workers, each fired by the spirit of the first bearer of the symbol; and secondly, by insuring to every citizen a membership in a local organization at a nominal fee, to raise the necessary capital to carry on the projected work.

Keep the large manila bags in which your bulk groceries come. When the dustbag of your electric cleaner needs emptying, insert the mouth of the dustbag well inside the paper bag and shake thoroughly.

MUTT AND JEFF

YES, JUST IMAGINE! "DEMPSEY K.O'D BY A MUTT."

By Bud Fisher

JEFF, HAS IT OCCURRED TO YOU THAT THE FACT THAT SOMEONE OF DEMPSEY'S SPARRING PARTNERS MAKES IT POSSIBLE FOR ME TO BECOME FAMOUS?

NO, MUTT?

LET ME KEEP THIS QUIET!! I'M TALKING WITH JACK IN HALF AN HOUR AND I'M GOING TO CUT LOOSE WITH ONE GOOD BLOW ON HIS BEAK AND KNOCK HIM COULD! JACK DOESN'T CARELESSLY WITH ME AND I'LL BE AS FINE AS A PIE!

FINE, NOW'D YOU EVER THINK OF THAT? POOR JACK.

JUST IMAGINE WHAT THE PAPERS WILL SAY!! MM! -- "DEMPSEY, K.O'D BY A MUTT." MUTT SAID TO PHONE HIM FROM THE TRAINING IN ABOUT AN HOUR, AND HE'D GIVE ME AN OUNCE OF GOOD NEWS.

I WANT TO SPEAK TO "K.O. MUTT." -- HUH??!

MUTT'LL BE ALL RIGHT TOMORROW! THEY SAY HE GET AWFUL ENOUGH WITH JACK AND JACK HAD TO KNOCK HIM OUT.

POOR MUTT! HE'S BEEN ROAMED BY JACK'S FISTS!

WILLIAM LOSWORTHY, LTD., Water St. West.

TRINITY.

Dr. and Mrs. Sinclair came to Trinity by the Prospect on Thursday week. All the town and his wife turned out to greet them and to welcome them. The members of the Committee were present to meet them. Some of the members took them to Garland Hotel, and others looked after their luggage, and every effort was made to assure them of a whole hearted welcome and to make them feel at home. They are now at Garland Hotel, where for the present they will occupy the rooms just vacated by Dr. and Mrs. Barlow. The doctor's first call to duty came early the morning after his arrival. One of our highly respected citizens—Mr. William House, had been knocked down by a punchon of molasses that had run amuck, and it was feared that he was badly injured. The doctor, however, found no bones broken, and assured him that he will be all right. He is glad and so are we.

Doctor Sinclair very kindly gave the Evening Telegram reporter the pleasure of a short interview, and his permission to give to the public the following outline history of his life to date: Barron Norman Sinclair was born in Anglesey, North Wales, in 1872. He was graduated at the University of Edinburgh in 1895 with the degree of M.B., C.M. His first practice was at Holy Head where he

remained for seven years. Then he went to Barmouth, North Wales, as locum tenens to a doctor who was ill, and when the doctor died, Doctor Sinclair succeeded to the practice and remained there four years. In 1906 he went up to London, and by 1915 he controlled a practice worth 1200 pounds a year. Then came the war. He immediately offered his services and was appointed a member of the R.A.M.C. (Royal Army Medical Corps) at less than 600 pounds a year, with the rank of Lieutenant and afterwards that of Captain. For the first year of service he was Sanitary Officer to Woolwich Garrison, and Lecturer on Sanitation at the Military Academy, Woolwich. Then he was ordered to Salonika, and was attached to the 38th General Hospital for a year. At the end of the year he came back to France and was appointed Senior Medical Officer to No. 6 Camp at Calais, in connection with the 35th General Hospital, where he remained for three years. In 1920 he was given charge of Military Hospitals, and he held that position in several places till April 25th, 1921. His discharge papers show, "Medical Category A." Doctor Sinclair was married to Miss Munns, of London, England, in 1908. He appreciates the kind and hearty welcome given to him and Mrs. Sinclair in Trinity, and his first impressions of Trinity and Trinitarians are of the best.

Since the South Side hills have been deserted by the people who once lived there, they have become a favourite as well as a dangerous rendezvous for horses. It is a favourite spot because of the richness of the pasture lands, where the old farms and gardens were in days gone by. It is a dangerous spot because of the high cliffs that rise straight up from the shore—and the horses, tempted by the grass that grows to the very edge of the cliffs, often venture too near and fall over. On several occasions, at the rounding up time in the fall, a horse has been missing, and either his bones have been found at the bottom of the ravine, or the carcass has been carried out to sea by the tide. One was found last Monday, like Napoleon's army, "neither up nor down." He had fallen over the edge but had lodged on a shelf of rock half way down. All the men who could be found at the time, gathered with tackles and planks, and as gently as they could, lowered him to the beach, from which he went around the headland, and back again to the green grass, apparently nothing the worse for his ups and downs.

We are always glad to hear of those who are men of to-day, but whom we know as boys in Trinity. In an interview with Mrs. Hollands we have heard of her two sons who were known to us some years ago, as Frank and Harry. At the present time Frank is preparing for Holy Orders at King's College, London, and expects to take the degree of B.D. (Bachelor of Divinity) some time during the present month. He will be ordained Deacon, at the Michael-

mas ordination season, and will then accept the appointment of Curate at St. Stephen's, Hounslow, England. Frank Hollands is clever enough to capture anything in the scholastic line, and this gift, together with his highly devotional character, will fit him for all that a Priest of Holy Church should be.

Harry Hollands is an electrician, and his efficiency is assured by the fact that he is in charge of the United Towns Electric Co's Station at Fear's Content, and enjoying the fullest confidence of his employers. We are proud of you, boys.

Some twenty or eighty years ago there was a house in the upper part of "the big garden" in Trinity, opposite Green's Well, and a lane led from the Well, across the little garden to the house. The house was occupied by Mr. and Mrs. John Fower and family. About two hundred yards in a direct line up the hill, behind the house, on the top of the steep ridge, that is there to-day, Mr. Garland had a tall flag staff erected. It had been there for years. Then Satan tempted two boys to climb down the staff some dark night. It was only the work of a quarter of an hour with a hand-saw, and the deed was done. The boys, however, had not looked very far ahead in their mischievous plan; hence they had not thought of where the staff would go when it fell. They soon knew, however, for no sooner had it struck the ground than it shot down the hill with the velocity of a sky-rocket. The end of it struck the roof of John Fower's house, changing its position to perpendicular, went down through the roof, passed within a foot of the bed where Mr. Fower lay ill, went on through the floor of the bedroom, down through the kitchen where Mrs. Power was doing some late scrubbing, knocked the scrub-bub into stove, went through the kitchen floor and embedded itself in the earth. In the morning, the flag staff on the hill was gone; but there it was down end up, like a big splinter, in John Power's house, with the old folks nearly frightened to death, and still wondering where the stick had come from. Whilst my father often told me about it, he always referred to it as the work of "two bad boys." That those two boys were suspected of having done the mischief, nothing could be proven against them. Now, however, that my father has passed away, I don't mind saying that I believe he was one of the boys, whilst those who knew how inseparable George Lockyer and Dick Green were boys, had a very definite idea as to the identity of the other boy. Next to the old folks in the house, those boys got the biggest fright of their lives, and I have reasons for knowing that it was a turning point in their lives towards more thoughtful seriousness.

enjoyable holiday in Trinity, and is registered at Garland Hotel.

Rev. Fr. Dwyer, of Bonavista, was in town this week, and had some improvements added to his automobile, at the Grant & Palmer Machine Shop.

Mr. Newbold, representing Lever Bros., England, spent a few days in town last week, and was a guest at the Grant & Palmer Machine Shop, and he will come again.

Messrs. Grant and Palmer drove to Bonavista last week, and installed an engine in Dr. Forbes' car. Mrs. Grant and Miss Stella Lockyer accompanied them, and spent a pleasant day in Bonavista.

A public meeting of citizens was evening last, when the Committee, appointed to secure a Medical Depot for Trinity, gave their report of work done, and results, etc.

Mr. James A. Carmichael, representing the Direct Agencies Ltd., paid his first visit to Trinity this week, and registered at Garland Hotel. He called on his customers and saw the town. Naturally he will come again, and stay longer next time.

Mr. Pierce-Fowler, Manager of the Royal Bank at Rose Blanche, is spending his annual holiday with parents and friends at his home—Trinity East. Miss Casement, to whom we understand Mr. Fowler is engaged, is also visiting his mother, Miss Casement is a graduate nurse doing duty at Rose Blanche. We are glad to see them, and we wish them well.

At the Children's Service held in St. Paul's Church on Sunday last, the Missionary offerings of the children of the Sunday Schools of the Parish were presented. These offerings are for the support of the Rev. Ives Stocker, who, as a Missionary in China, is entirely supported by the Church of England children in Newfoundland, and is known to them as "Our Own Missionary." Rev. Mr. Stocker will visit Newfoundland next month on his way from England to China. —W.J.L.

Restoring Nerve Power.

In many people the tissues of the nerves have suffered from the strain of War and from the shortage of fats. You can restore your nerves in a natural way by eating "Skippers." The pure olive oil in which they are packed is worth its weight in gold to those who suffer from "fat-starved" nerves.

Your retailer will supply you with a tin of

"SKIPPERS." A guarantee on every can.

The Way They Did It

Each sum change each figure in the total back to its letter as represented in the secret code above the sum; for instance, 1 can tell you that the first number of the total of the first sum is 7. The letter C is the seventh letter in the code above the first sum, therefore the first letter represented by your total is letter C. Now change every number of your total in the same way and you will have the name of the Movie Star represented by that sum. This is not an easy problem, but patience and perseverance may find you the names of the great Movie Stars. For the best answers submitted we will pay the following prizes:

International Arbitration

ADVOCATED IN PARLIAMENT.

On Tuesday, June 12, 1849, a proposal was made in the House of Commons in favour of International Arbitration, which are two words of Latin origin. It was proposed by the distinguished Queen Victoria, by seeing her to direct Viscount Palmerston, then Secretary of State for Foreign Affairs, to enter into communication in all matters that could not otherwise be peacefully settled. This was advocated by Richard Cobden, who lived from 1804 till 1865, the distinguished promoter of Free Trade, who originally represented Stockport, but at this time sat for the West Riding of Yorkshire; and afterwards for Rochdale. He declined to accept any Government office or a baronetcy, or a seat in the Privy Council. But he travelled through France, Egypt, Greece, and the United States of America, and advocated Free Trade, and thus succeeded by the abolition of the Corn Laws, or of taxes paid on imported wheat. If the late and last Emperor of Germany had acted on this principle of international decision by arbitration he would have saved himself and his Empire from their fall, and Europe from its recent war, with thousands of lives lost on battle-fields, and Central Europe from its present conditions of chaos and confusion.

Extension of Time for Prize Poem Contest Describing Good Effects of Blossom Laundry Tablets.

Was advertised in Comic Weekly to close end May. Now decided to extend time to end September (on account of Comic Weekly's temporary suspension).

Open to boys or girls 10 to 16 years of age. Each poem sent in must be accompanied by a pasteboard container of Blossom Laundry Tablets.

THE KING'S BIRTHDAY

The King's Birthday was joyfully spent by goodly number of our citizens at Trinity Brook.

The town is getting cleaner every week. Some of the improvements are decidedly artistic.

Mr. Samuel Grant, Mrs. Grant, and little Bobbie, are now on their way to Blanc Sablon for the summer. We shall miss them.

Mr. Reader, of Goose Bay, was in town last week in the interests of a lumber mill, and registered at Garland Hotel.

Good progress has been made in the construction of the public wharf. It will be substantially convenient when completed.

Hot Summer Sun Trying On the Complexion

How to Protect Your Skin and Bring Roses to Your Cheeks

A Free Ointment Prescription Does Its Work Overnight. You Can Prepare It at Home.

New York—Exposure to sun, dust and wind has a very bad effect upon the skin and complexion. There is a way to overcome this. Here is my own discovery and takes just one night to get such marvelous results. I saw Mrs. Edna Wilder when her friends ask her about her wonderful complexion and the improved appearance of her hands and arms. "You can do the same thing if you follow my advice," she says. "I tried it my duty to tell every girl and woman what this wonderful prescription did for me. Just think of it. All this change in a single night. I never tire of telling others just what brought about such remarkable results. Here is the identical formula that removed every defect from my face, neck, hands and arms. Until you try it you form no idea of the marvelous change it will make in just one application. The prescription, which you can prepare at your own home, is as follows:

"Go to any grocery store and get ten cents' worth of ordinary oatmeal, and from any department or drug store a bottle of Derwillo. Prepare the oatmeal as directed in every package of Derwillo. Before applying Derwillo cleans the skin thoroughly with a good cleansing cream. (Laska cold cream I have found to be the best). The first application will astonish you. It makes the skin appear transparent, smooth and velvety. I especially recommend this method for dark, sallow skin, shiny nose, freckles, tan, sun spots, coarse pores, rough skin, wrinkles, and, in fact, every blemish the face, hands and arms are heir to. If your neck or chest is discolored from exposure, apply this combination three or four times. The objectionable defect will disappear as by magic. It is absolutely harmless and will not produce or stimulate a growth of hair. Since short sleeves are in vogue it is necessary to have beautiful hands and arms and

no matter how rough and unattractive the hands and arms or what abuse they have had through hard work and exposure to sun and wind, a combination will work a wonderful transformation. Thousands who are using it report the same results I have had."

"Mrs. G. V. writes: 'Ointment and Derwillo have worked miracles with my complexion. I had many deep wrinkles and a sallow, rough skin. My hands and arms were covered with freckles. After eight weeks' use of Mrs. Edna Wilder's wonderful complexion prescription these objectionable defects have entirely vanished. I look ten years younger, and advise every girl and woman to try it and feel confident after one or two applications they will use it continually and be just as favorably impressed with it as I am. I recommend it to all of my friends.'

NOTE—To get the best effect be sure to follow the complete directions contained in every package of Derwillo, and it is so simple that anyone can use it, and so inexpensive that any girl or woman can afford it. Department stores and druggists guarantee that there will be noticeable improvement after the first application or they will refund the money. It is sold in this city at all toilet counters under a money refund guarantee, including

House of Assembly.

FRIDAY June 10.

CODFISH EXPORTATION ACT REPEALED.

Proceedings at the House yesterday were very dull indeed. During the afternoon the Amendment to the "Maintenance of Roads Act" was discussed in Committee of the Whole. Nearly every Opposition member spoke on the bill and it did not pass until quite 10 p.m.

The House met at 3.15 p.m. Mr. Smyth in an eloquent address presented a petition praying for a road in his district.

Mr. LeGrou tabled the report of the Select Committee on the question of Soldiers' and Sailors' pensions.

Mr. Sullivan said that amongst other things, the Report recommended that returned members of the armed forces in applications for positions in the Civil Service. The report was received.

Capt. Lewis drew attention to the fact that the steamers which were to bring fishermen to the Labrador were leaving too early for the convenience of the men who had not yet obtained passes.

The Prime Minister suggested that Capt. Lewis confer with the Minister of Shipping on this matter.

Sir Michael Cashin and Mr. MacDonnell gave notice of question.

Mr. Sullivan brought up the matter of the rejection of applications for admission to the Tuberculosis Sanatorium. He has a girl in Miramsh, another in Iona, and a boy at Kingwell and Dunville in the incipient stage of consumption, none of whom can get into the Sanatorium. He said it was disgraceful to keep young girls in the incipient state of consumption out of the hospital. If it were only a question of another hundred thousand dollars, let it be voted for the sake of humanity.

Sir Michael Cashin endorsed Mr. Sullivan's remarks and said that all that was necessary were some beds.

The Minister of Public Works interrupted Sir Michael and said the cost of maintaining more beds at the Sanatorium was too great.

Sir M. P. Cashin—You can spend every cent you lay hands on and devote it to party heaters and now, these suffering humanity is concerned, nothing is attempted.

Upon the Minister of Public Works again interrupting he was told by the Prime Minister that the Sanatorium was only a rest house for incurables.

Mr. Sullivan told the Minister he should be ashamed of himself for making such a statement.

Several other members urged the necessity of action in the matter of increasing the number of beds in the Sanatorium.

The House, on motion of the Minister of Public Works, went into Committee of the Whole to consider the following resolution:

That the Schedule of the Act II, George V. Cap. 40 (1920), entitled "An Act respecting the Maintenance of Certain Public Roads," shall be repealed.

By this resolution the taxation on motor cars becomes as follows:

SCHEDULE.
Motor Cycles \$10.00.
All other Motor vehicles except "Ford" motor cars, but including "Ford" motor trucks \$1.50 per unit of horse-power.

"Ford" motor cars \$1.25 do.
Cars for Hire \$1.00 do.

Motor trucks, same as Motor cars. Horse-power under this Schedule is to be determined according to the standard of scale of the Royal Automobile Club of London, England.

The Resolutions also stated that; Owners of "Ford" and "Chevrolet" motor cars, who have paid the fees prescribed by the Act, shall be entitled to a refund of the excess of such fees over the fees prescribed in section one hereof, and such excess may be deducted from the fees payable during the present year.

Every car regularly plying for hire shall carry conspicuously displayed thereon a notice containing the words "For Hire." In default of such notice, such car shall for the purposes of the fee payable thereon, not be considered a car for hire.

A Bill shall be introduced to give effect to these Resolutions.

The Resolutions were discussed at considerable length before they finally passed. The contrast between spending money for the benefit of motorists and economizing on people suffering from consumption was drawn by several members.

An amendment was made to section three of the Act on motion of Mr. Vincombe, supported by the Minister of Justice. The amendment was that "except under hire" be added after "thereon."

Nothing of particular interest occurred during question time.

The Prime Minister informed Sir

Michael Cashin that he knew nothing of the Devine business circular, but Mr. Devine would be recalled after June 30th.

To the following question of Mr. Moore—"To ask Hon. the Minister of Marine and Fisheries what quantity of material in tons (salt, gravel or rock) was removed by Dredger 'Priestman' from the dock and water front premises at Fort Union during the season of 1920, if such dredging as performed was considered public or private work; if private, was there a contract signed with the Minister of Marine and Fisheries for the performance of this work, and at what price per cubic yard or ton. How many days was dredger engaged at this location. Was this work as performed paid for by the Company owning the premises dredged. What was the total cost of work done. What amount was paid the Department of Marine and Fisheries for same, and if not paid why not?"

The Prime Minister stated that 870 tons of material had been dredged in the vicinity of Port Union, free of charge. Mr. Hickman had to pay \$1260 not so very long ago. He has some dredging done at his docks.

The Minister of Justice tabled particulars concerning the cost of publication of the Statutes of the Consolidated Statutes of Newfoundland. The Bill to amend the War Measures Act was read a third time.

The House went into Committee of the Whole on the Darcy Exploration Co. Resolutions and a section was amended. The Bill was then read a third time.

The House next went into Committee of the Whole on the Bill to amend the Seal Fishery Act. The main points in this amendment are that wooden ships are not to sail for the fishery before 8 a.m. on March 10th each year and the reopening of sections 15, 15, 28, 30 and 31 of the Act.

The Bill passed without any comment.

The House went into Committee of the Whole on the Bill to Repeal the Codfish Exportation Act.

The Bill passed without any comment.

The remaining Orders of the Day were deferred.

The Prime Minister said he would move for Committee of the House to discuss the operation of the Railroad. He also said he would move the Suspension of the Rules on all matters before the House at the next session.

At 11.15 p.m. the House adjourned until 3 p.m. on Monday.

until he obtained a bottle of Stafford's Soothing Syrup to keep him quiet.

There is no necessity of having your baby crying for twenty-four hours when the Soothing Syrup will do the trick. Try a bottle.

Price 30c.; Postage 10c. extra.

Something New in An Ice Cream Parlour.

Last night our representative was afforded an opportunity to view (new) Green lantern ice-cream parlours on Theatre Hill, which have just been completely re-decorated and enlarged. The building has been enlarged towards the rear some twenty feet and in place of the two small rooms operated on the ground floor by the former owners, we were taken through two large, strikingly handsome apartments, one situated above the other, each capable of seating about sixty patrons.

The scheme of decoration is original and the colours blend so harmoniously that we lingered about the place in admiration. Entering from the front we were led into the lower restaurant, which is about thirty-five feet long and twenty feet wide. At the back is a stairway, finished in white and mahogany, leading to the upper room, which is of about the same seating capacity and situated directly above.

The walls are panelled in Japanese tapestry with a mottled ground, each panel containing an electric Green Lantern of artistic design. The ceiling is white and the frise of the same woodwork, including the chairs and tables, is of mahogany, the latter being covered with dark Japanese tabacotins with a bouquet of cut flowers standing in the centre of each. The lighting system is of the semi-indirect type and sheds a soft glow over the rooms. The whole has an air of refinement, comfort and elegance, which attracts and appeals strongly to one's artistic tendencies. Smoking (of cigarettes only) is permitted in the upper room, the genial and obliging Manager, Mr. Charles Parford, informed us that nothing but freshly made products will be served in the establishment. The management are to be congratulated upon their enterprise and originality. The place is a work of art and will amply repay a visit. We predict for the firm abundant success.

C. C. C. BOAT CLUB.

A meeting of the above Club will be held on Sunday morning at 11 o'clock sharp at the usual place. It is necessary that all members be present as business of importance will be discussed.

By order,
J. M. TOBIN,
Hon. Sec. C.C.C. Boat Club.

JOB'S STORES, Ltd.

Wedding Bells.

On June 8th at St. Thomas's Church, a quiet wedding took place, the Rev. Mr. Moulton officiating; the contracting parties being Mildred Pretty, daughter of Herbert and Mary Pretty, of Dildo, T.B., to Mr. William Brown of St. John's. The bride looked charmingly dressed in moure silk with picture hat to match. Her uncle, Mr. Charles Pretty, acted as father-in-law; her bride's maid being Miss Hilda Cranford. The groom was ably supported by his uncle, Mr. Jas. J. J. After leaving the church the wedding party drove around Quidi Vidi Lake to the home of the groom's parents, where a reception was held. We wish Mr. and Mrs. Brown every happiness.

YOUR TEETH—

DR. LEHR, Dentist,
229 Water Street.
PYORRHEA.
Pyorrhoea is the most destructive, the most difficult to treat, yet one of the commonest of all the diseases of the teeth. It is present in the mouths of countless thousands of adults who fondly think their teeth are in perfect condition. It progresses slowly, and in its early stages, painlessly. The gums become soft and bleed easily, then they grow sore and become inflamed. Pus forms at the roots of the teeth and they loosen in their sockets. When the disease reaches this stage it affects the general health and usually extraction is the only remedy.

For Sale!

On the rental plan, one house situated on Military Road, 999 years lease, ground rent only \$15.00 per year. This house has lately been fitted up with all modern improvements, has a large shop, and is a good stand for an Ice Cream Parlor; has a nice backyard with entrance from Knight Street. Possession given immediately.
