The association of American Advertisers of New York has examined and certified to the circulation of The Albertan.

WEDNESDAY, APRIL 27, 1910.

THE MARKET SITE

A large number of people of the city are not in accord with the mayor in favoring the site by the Langevin bridge for the city market.

Many believe that the Cushing property would be very much more favorable.

The latter site is nearer the center of the city, it is more convenient to the class of people likely to use it, despite the grading of the mayor; it is on the great car line; it is on the C. P. R. track. It has everything in its favor, could it imagine.

However, it is not very wise to get into a controversy upon a subject of this kind, or all sites will be decided. It might be well if the city would refer both sites to the public in the form of a plebiscite, and then decide upon the site favored, just as the public library was selected.

That would be a means of settlement and the opinion of the people could be arrived at in that way.

BACK TO THE BEGINNING

The government papers in their effort to get something to divert the interest of the people from the real issues, have completed the orbit, are right around at the beginning again.

Having used the sectional scare and the party cry, they are now repeating what was said long ago, that this is an effort of the C.P.R. to kill the government and save itself from the law suit which is in progress.

A Calgary weekly paper used that argument to the finishing point, and quite exhausted it weeks and weeks ago.

Any future government undertaking to withdraw the suit against the C.P.R., or turn it over to the court, would not last in power for any length of time. It couldn't exist for a portion of a year, it would be down and out just as soon as any such policy was announced.

That must be evident to every person. The very people making the first break in opposition are the Liberal members and the Liberal newspapers, who have had nerve enough to come out and oppose the present government when they found it so very wrong in this railway transaction.

The suggestion that the C.P.R. is in any way associated with the attitude of any of the insurgents, is almost too trivial to mention. The accusation is another exploded, foolish, senseless and crude.

HUSH!

The attitude of the man Minty and the man Clarke during the entire A. & G. W. railway transactions, as shown in the correspondence, which has been made public concerning these matters, seems to have been not unlike that of men who having got a good hold on the swag, were making their best efforts to get away with it before any member of the family awoke. There is a continued "hush" about it. Ever since the first move was made there has been an attempt to keep things from coming out.

It is necessary to keep as quiet as possible," writes Bowen to Clarke, "I have not seen the premier's speech from the throne, but I trust he made no special references to our interests.

"Few details should go into the government guarantee act, as they might provoke too much discussion in the house." Why too much discussion?

"At another time Mr. Minty writes that 'we must be careful to avoid any reference that might provoke debate.' And nothing provoked debate in the house when the measure went through. One member of the house rose up to ask a plain and reasonable question and he was misinformed, and that was the last of it.

And they are keeping it up to the man Clarke's declining to come to Alberta to tell how it all happened and Minty sits tight and will say nothing. Now, who can support an outfit of that kind, particularly in a transaction which has been shown to be so terribly bad as the A. & G. W.

THE LACROSSE GAME

The good old lacrosse game, the National game of Canada, and the best of them all, has fallen upon evil days in the province of Alberta. Last year there was no Senior league and this year it seems that there will be no strong Senior league. There are some very good lacrosse players in this city and Calgary has a very excellent team, but it has no competitor.

It seems that in its place, that has sneaked off Edmonton, Strathcona and Medicine Hat.

This is very unfortunate. The lacrosse game is a sturdy, hard, rough game. It is not a pastime for molly coddles, but the recreation of stalwart, sturdy men. The game should thrive in this country, for it is the sport of giants and here is where the best of the human race is found.

The game should thrive in this country because it is a game of young men and here the young men are found in great number. However, it must be admitted that however superior the game is, it is not thriving very rapidly. Whether it is because it is

not so widely known, or because it requires more careful and arduous training, it is not progressing as satisfactorily as the national game of our southern neighbors, which is taking such a hold upon the people of the province. It, too, is a good game, but there should be room for both in Alberta.

It is unfortunate that the game is not getting a firmer hold in the province. It is possible that the real reason is that Calgary is too strong, compared with the teams that might be organized in the other cities and towns. This could be averted by Calgary organizing more than one team. This was tried this spring, but it failed for some reason or other.

However, it may be some kind of an effort should be made to get the good old game going again.

A VICIOUS EFFORT

The people of Alberta are very anxious to know all about this iniquitous railway transaction. It is their money that is being spent by the government, and they want to find out if it is being spent in the right way.

The man Clarke, who is getting the money, and the man Minty, his partner, decline to inform the public about the details of this transaction. Can any person believe that such efforts would be made to conceal the facts if the transaction was right and proper and in every respect above board? Why are they so very anxious to conceal the facts which the people are anxious to get at, and which the people should have?

The government can get both Clarke and Minty to appear before the commission if the government insists upon their appearance. Minty was in Edmonton prepared to give evidence a few days ago. The government can cancel the \$7,000,000 contract at any time it is disposed, and a gentle intimation that that contract would be cancelled if Clarke and Minty did not come forward and tell everything that they knew, would result in something.

However, the ministers do not seem to be reporting to any such measure. Beyond placing in their own papers some general advice to themselves about the cancellation of the contract, they do not seem to have done anything in the matter at all, though the premier announced that Clarke and Minty would both be present at such an investigation.

The general opinion, and it is borne out by the attitude of the government, is that the government doesn't care so very much if they never come back any more, any more, at all. At least the government is making no effort at all to get the men here to tell what they know.

EDITORIAL NOTES

The Sunday street cars in Edmonton are operating at a loss. The people in the north should get in the habit of going to church, and the city might get a fare now and then.

Not in our time has such efforts been made by any person on earth to keep from divulging the facts, as Clarke, Minty and the others are making. Are these efforts being made to conceal the details of an honest and upright transaction?

There is a certain speediness about the Alberta government which is interesting to watch. There is the midnight flight with the files, and the midday flight of Mr. Minty, both dramatic and sensational, but neither meaning anything, of course, of course.

Some people are discussing the moisture question and are inclined to be somewhat anxious for rain. We are having the usual amount of moisture for the month, but the weather has been so very fine that the season is more than a month ahead of time. The moisture will drop on us in good time.

A Gallician homesteader attempted to sell some Edmonton people rocks, believing them to be diamonds, and Edmonton people call him insane. The last time such a play was made the Edmonton government stood for the proposition and called the man a great railway builder and gave him \$20,000 a mile, and even greater favors. It was a different time of the moon then.

The evidence in the royal commission became so bulky and voluminous that the Albertan decided to eliminate the publication of further verbatim reports. However, having received a large number of requests for publication, the Albertan will resume the full reports. It regrets that the space in the paper is so limited that it will be unable to print more than three or four columns a day.

For some time a Calgary newspaper has been weeping because the Albertan at one time did such terrible things to Hon. W. T. Finlay. What the Albertan did was to criticize Mr. Finlay for uniting with the Edmonton ministers and placing the university in the northern part of the province. The Albertan believed at that time that the university should not be placed in Edmonton or Strathcona and that that opinion, still and has no apology, to offer for censuring Mr. Finlay for the action he took. If the evening paper endorses Mr. Finlay in his course, it has a perfect right to do so.

Discovered the Jewels

New York, April 26.—The mysterious disappearance of \$100,000 worth of jewels of the late Mrs. Theodore Octavia Moss, widow of the late theatrical manager, has been cleared up by a freak of chance.

The missing jewel collection was revealed, it was learned today, by the accidental striking of a foot on a secret spring, which released a door in a pedestal in the home of Mrs. Moss on Madison avenue, and revealed a dazzling array of gems.

All the rubies and diamonds that had been famous during the life of Mrs. Moss.

The Peer—"Well, I suppose they'll go missing me as usual, but I must say it's getting rather warm."—Punch.

CHRONICLES OF THE KHAN

A Tiff in the Family

"That isn't correct," said Aunt Lucy, with a frown.

"It's quite proper, just the same," retorted Phoebe.

"Old Twilight opened his mouth, but shut it again, and Big Bill, who was fanning a hole in a grain bag, looked uneasy.

"Aunt Lucy felt that she had to rise to the occasion, and she rose.

"What's the diff?" queried Old Twilight. Even as you or I, he hates a scene.

"I won't" retorted the girl doggedly. "I'm agoin' to do the proper thing."

"What's the diff?" queried Old Twilight. Even as you or I, he hates a scene.

"There is a big difference," said Phoebe, sulkily. She sat at the window picking imaginary beads, threads out of her frock, and her little chin was as hard as a knuckle.

"Ain't it the correct thing, the proper thing?" queried Aunt Lucy.

"Phoebe smoothed out imaginary creases with her hands. "Not always," she replied.

"I don't know but Phoebe may be right," interposed Twilight. "I notice that the Bible draws a big difference between the just man and the righteous man. The just man is always correct, but the righteous man is always proper, but, by hedges! now, when I come to think of it, he's not always correct. An' he don't hev to be. The Bible don't seem to be stuck particular on the just man, but it cottons to the righteous man every time."

"The Pharisees were correct, but the Lord He didn't have no use for that bunch at all, at all. The people who He selected with here on earth, weren't in the correct set, exactly, but they was proper folks."

"Your correct man, Lucy, is all angles and hard spots, your proper man is all curves. The word hee-bin saved repeatedly be feller who jumped the fence, threw the rules and regulations to the winds, and did the proper thing under the circumstances."

"When Napoleon started out in the war game, he didn't 'interfere' to Hoyle. The feller on the other side complained most bitter that he didn't fight like a gentleman 'all; but he didn't care for the regulations, he did the proper thing a day. He was a proper duck was Napoleon. He reminds me of the Irishman who was boxing an Englishman, and Pat had thrown sentence to the winds."

"Plyce yer gloves," protested the Britisher.

"Here's the blows," says Pat, "place them where ye please."

"The world is full of too much red tape, and that's perfectly correct. It ain't got half 'nuff in the milk of human kindness, an' that's perfectly proper. If the preachers would only do the proper thing, they wouldn't be so correct, but they are perfectly impossible. There were two young men mentioned in the Bible: one was Joseph and the other was David—one was correct an' the other wasn't exactly. But which do we love the best? When it comes down to the fine point, David always did the proper thing, an' he wasn't particular whether it was 'ordin' to the rules of the Sanhedrin or not. Hapoun Al Raschid wasn't quite the correct thing, but, Lord, Phoebe, I wouldn't like to put out that fine old sport from my repository."

"The trouble with these here correct people is that though you dislike them, you don't show it. It would never do you to take your medicine. They can't see you, cut you, slander you, and you've got to take your medicine. They may be wrong, and they are wrong half the time; by hedges! but they are correct, and they are in their safe, and you can't do a danged thing.

"Hate protects itself by doing the correct thing." Love often gets into trouble by doin' the proper things; and if there's anything more pathetic than that I'd like to know it."

"What air you goin' to do?" queried Aunt Lucy.

"I'm goin' to do the proper thing," said Phoebe.

"Well, go an' do it, then!" snapped Aunt Lucy.

Putting Things In

Big Bill went into the bank this morning and wrote off a check.

"But you haven't put anything in," objected the manager.

"Do I have to put something in?" inquired poor Bill.

"Why, certainly, you can't expect to get something out if you don't put something in."

"A bank is just like a garden or a milk cow," explained Bill to me that evening. "You can't get nothing out unless you put something in."

The Singing Lesson

It's right at the corner of the house in a basement—the last is—and the old robes have certainly broken the record. Who ever heard of young Phoebe being half-dressed in the middle of April?

When it is nice and warm at noon they hang on the edge of the nest and stare up at the wonderful sky, and the still more wonderful earth; but chiefly do they watch their parents winging across the far pastures bearing them bits of sweet, toothsome grub, and perfectly delicious cut worms.

Every evening Paw perches himself on the very tip-top of the slippery-slim, and sings for them, and their hearts do swell with pride and love. There is one young young robin, a little ahead of the others, and quite bossy, who scrambled out on a branch yesterday, and his brothers and sisters screamed: "O-ee! O-ee! You'll fall! You'll fall!"

"Who'll fall?" he enquired scornfully. "Say, you make me ashamed. It's fierce to have to stand for an outfit like you all the time."

"His mother sidled up to him and said: "My dear, it's high time you were learning to sing. Now, sit up straight."

"Yes!" put in Big Bill, "what's the diff?"

"Take three long breaths."

"Yes!"

"Don't look at me!"

"Yes!"

"Look up at the sky."

"Yes!"

"Now, say 'Tweet!'"

"Now, say 'Tweet!'"

"Now, say 'Tweet!'"

A PARROT'S MEMORY

Calls to Sailer Who Owned It Seven Years Ago

(From the New York Press.)

Seven years ago someone stole a parrot from Robert Turner, a steamer water sailor, who lives when asleep in in Boonton, this state. The bird had been the boon companion of Turner for eleven years before that, and had made two trips around the world with him. Turner found his parrot today; or, to be more accurate, the parrot found him. Fully recognized him by his voice, called him, and manifested every evidence of delight at seeing him again, although the bird had not been held him for seven years.

"Talk about a memory!" Turner said, proudly. "Why, I've known lots of women in my time who couldn't remember me seven years."

Turner decided to walk from Boonton to New York today to rejoin his ship. He was swinging along the road, singing a good old deep-sea chanty, when he reached a roadhouse on Pompton turnpike, in this village.

"There goes Bob," he heard a voice say, and it seemed familiar. "Hello, Bob!"

Turner stopped and looked toward the roadhouse. In a cage he beheld a big green parrot with a yellow head. He recognized it at once.

"Hello, Jim, old shipmate!" Turner roared. He walked up to the cage, put his fingers through the bars and began scratching the parrot's head. The sailor and the bird were having a great time talking to each other when the proprietor of the roadhouse appeared.

"You and my parrot must have met before," Turner said.

"Yes, we met first eighteen years ago, when I bought him in South America," Turner replied. "For eleven years we travelled the seas together and went around the world twice. Seven years ago, when I was in New York, someone stole Jim from my ship. I spent several weeks trying to find him and had to give it up. I never expected to see him again, but here he is."

There were tears in the sailor's eyes, and the proprietor felt for him.

"I guess what you say is alright," the roadhouse man said. "I thought that bird from a sailor a little less than seven years ago. For a long time afterward the parrot would not say anything except 'Poor Bob's gone.' I never knew what it meant, and I thought perhaps Bob was the name of the sailor from whom I had bought the bird. I understand it now. I hate like sin to part with Polly, but I am sure it's your bird, so take it if you want it."

Turner decided to be even more magnanimous. He said the parrot had a good home ashore, and it would be better than one aloft.

"So you just keep him for yourself," the sailor continued, "and when I come along this way, it will be a pleasure to feel that I had at least one good old friend on the voyage."

The roadhouse proprietor invited the sailor to have a cup of tea or something of that sort, and then handed him a roll of bills. Turner said goodbye to Jim and proceeded on his way. The last thing he heard as he rounded a bend in the road was the rattled lament of the parrot, "Poor Bob's gone."

REFLECTIONS OF A BACHELOR

(New York Press.)

Love letters are certificates of imbecility. Mighty little comes of trying to do too much.

Good fellows in the crowd are bad providers in the family.

A big family can keep a man out of most other temptations.

The first thing a

MISS ELLEN TERRY—Britain's greatest actress, who is making a farewell visit to America.

Work was commenced yesterday in removing the Frontier stables, an old Calgary landmark, which was erected in 1852.

Florence McKenzie, the three-year-old daughter of David McKenzie, died yesterday at the family residence, 309 Centre street.

The staff of the Holy Cross Hospital wish to thank Mr. F. C. Lewis for the donation of \$65, the price which he has at the horse show, which he generously donated to that institution.

Langfellow's poem, "Death of Minnehaha," sequel to "Hiawatha," will be shown at Starland on Monday next.

McCullum & Co. received the contents of a five room house too late to advertise particulars. These goods will be sold at Wednesday's sale, commencing at 2.30 sharp.

Plumber Inspector Fletcher reports that 25 plumbers have been examined in this month to obtain plumbers' licenses. Most of them are new comers, many of the recent arrivals having come from Scotland.

H. Sibbald of Crossfield brought his small son to the city last night on the late train, the baby having been kicked by a horse and its leg broken at the high. The child was removed to the Holy Cross in the ambulance.

The first run of the special grand attraction, "Roosevelt's Hunting Trip in Africa." The genuine picture. Special lecture. Starland's usual prices, 15c and 10c for children.

The Ladies' Aid of Wesley Methodist church will be at home on Friday, 25th inst., from 4 p. m. to 8:30 p. m. A progressive tea will be given, also sale of work and candy, the proceeds to be in aid of furnishing the parsonage.

Chamberlain's Stomach and Liver Tablets assist nature in driving all impurities out of the system, insuring a free and regular condition, and restoring the organs of the body to health and strength. Sold by all Druggists.

Burroughs & Richards, architects, have filed plans with the building inspector for a two-story terrace, which Henry Poffenroth is to erect at Riverside, costing \$24,000. The same architects have filed plans for a terrace of about the same kind for C. T. Herbert on Ninth street west.

A telegram was received yesterday from Mr. J. T. Lewis, father of Mr. J. T. Lewis, saying that his wife's horse had won 23 championships.

Hodges & Bates, architects, will open tenders May 10 for building two additional stories on the Y. M. C. A. building, for which funds were raised last fall. On the second floor will be 40 bed rooms, 3 shower baths and other conveniences, while on the third floor will be a lecture room, study rooms and rooms for various other purposes.

Convalescents from fever and injuries that have kept them bed ridden for some time and of people run-down and below par generally will find a course of treatment with Ferronin, the invigorating tonic just the thing to put them on their feet again in good shape. Ferronin is composed of fresh lake trout, Citrate of Iron and pure oil.

Spanish Sherry Wine, \$1.00 per bottle. Calgary Confectionery Co., 214 C. P. Bldg. will hold a box social and dance on Tuesday evening, the 26th of April, at their hall in the Robinson-Linton block. Boxes will be sold by auction and a handsome prize will be given to the lady whose basket brings the highest price. No admission fee will be charged, but every gentleman in order to obtain any portion of the next furrow being turned without being cut loose from the adjacent sod. There seemed to be very little friction on the share and mole board, it having so small an angle with the landside, and the long sweep of the arms or rods back of the mole board seemed to turn the sod with perfect ease and little friction, although turning the sod 20 inches in width, and a depth of not less than 4 inches, the draft was so light that it would appear one good team could handle it without very great effort.

Earthquake Shocks in Portugal. Lisbon, April 26.—Violent earth shocks have occurred in the upper Madeiras but no casualties have been reported.

TOO LATE FOR CLASSIFICATION. WANTED—Furnished rooms with board for married couple, will pay reasonable rent. Central location desired. Box B.520 Albertan. 2514-118

FIFTEEN MILES OF PIPE FOR CALGARY

Two Hundred Car Loads Will Be Needed to Do the Work of the City During the Present Year.

Two hundred carloads of clay pipe will be needed to construct the sewers which are to be laid in Calgary this summer. Who can listen to this statement without realizing that this city is growing so fast? Measured linearly, the pipe will extend fifteen miles.

The council last night approved the recommendation of the commissioners that the contract for furnishing the pipe be awarded to the Canadian Equipment & Supply Co. The pipe is manufactured by the American Sewer Pipe Co. of Akron, Ohio. It will take ten trains of twenty cars each to bring the pipe here from Akron. The Canadian Equipment & Supply Co. were the lowest bidders for furnishing the material, there being half a dozen others. Their bid was \$75,517.50, with \$5,638.75 additional for specials and \$382 for bands.

ROOSEVELT RECEIVES TAPESTRY FROM FRANCE

A Very Nice Remembrance From French President.

Paris, April 26.—This afternoon President Fallieres, through Commandant Baris, the officer of his military household, presented Theodore Roosevelt with a magnificent tapestry, the design of which is a copy of Jerome's famous painting, "Love Mounted on a Hippocentaur." The tapestry was made at the celebrated government factory at Beauvais and involved several years work.

THEODORE ROOSEVELT—From latest photograph.

MINISTRY CHOSEN AT PARTY CAUCUS

Outlook of Conditions in General of the Commonwealth of Australia—Many Changes to Be Made.

Melbourne, April 26.—The labor party caucus assembled on Friday to choose a ministry. A rejection is certain of the proposed agreement under which the commonwealth should return annually to each state twenty-five shillings per head of the population from customs revenue. The proposal that the commonwealth should take over state debts is largely favored.

Gives Away Empty Title.

Brussels, April 26.—According to the newspapers published here today Prince Victor Napoleon, before marrying Princess Clémentine, daughter of the late King Leopold, will officially renounce his pretensions to the throne of France. The wedding of the prince and princess is to take place next autumn.

Mr. Barney Nelson was decidedly off color and could not have appeared. He was suffering from a severe cold and at times his voice took a pluck that resembled a street car cutting corners.

However, the evening was made enjoyable to those present by the splendid and talented recitations of Miss MacLachlan and Mr. Sherry in song and recitations.

The local leatherworkers and their employers have decided to try to reach a settlement among themselves regarding the demand for an increase of ten per cent in wages. Yesterday was the date fixed on which each side was to appoint a man on an arbitration board to adjust the difficulty.

The demand of the leatherworkers affects only the Great West Saddlery company and Riley & McCormick, the other employers having acceded to the request of the men. The demand is for a nine-hour day in place of a ten-hour day at the same wage, and for an increase of 10 per cent on piece work. The employers have offered a compromise, which contemplates, it is said, a general re-organization of the basis on which the work is paid for, and granting the nine-hour day.

Mr. R. J. Hutchings, of the Great West Saddlery company, said last night that the firm is not opposed to a shorter work day, as most of the work is done on the piece work basis, so that it does not make much difference to the employer how long the man he hires works.

Second Call for Troops. Lima, Peru, April 26.—The second call of the government for troops today was responded to by several hundred men at both Lima and Callao. These were distributed among the infantry, cavalry and artillery.

Change in Time Table. The C. P. R. has completed its timetable, which goes into effect June 5 on the main line. These trains will leave Calgary as follows: Westbound, No. 1, 12:00 o'clock; No. 5, 4:30; No. 9, 7:30. Eastbound, No. 2, 14:05; No. 6, 24:45; No. 10, 26:10.

C. P. R. OFFICIALS MEETING THE CITY. Messrs. Peters and Bury Conferring With Local Official Regarding Some Affairs of Mutual Interest.

Mr. J. E. Peters, assistant to Second Vice President Whyte, of the C. P. R., arrived from the north last night in his special car, accompanied by G. J. Bury, general manager of western lines, his purpose being to confer with the city officials regarding various arrangements that must be made with the municipality in reference to the new yards, which the company is to construct at East Calgary.

Among these matters are the location of the overhead bridge and water supply. When Mr. Peters was last here a route for the bridge was decided on, but since that time the council has offered objections and expressed a desire to eliminate a jog in the plan for a bridge proposed by the railroad engineers.

Mr. Peters and Mr. Bury came west from Winnipeg over the new line from Sasquatoon to Wetaskiwin, reporting that conditions are very prosperous along the road. Mr. Peters will remain in the city tomorrow, while Mr. Bury will go on to Macleod. They will meet here and return east together.

Diarrhoea should be cured without loss of time and by a medicine which does not irritate the bowels. Chamberlain's Colic, Cholera and Diarrhoea Remedy not only cures promptly but produces no unpleasant after-effects. It never fails and is pleasant and safe to take. Sold by all Druggists.

AT THE THEATRES.

At the Lyric.

Those who attended the Lyric theatre this week could not fail to be impressed by the splendid performance of "The Marriage of Kitty," now being played by the Eckhardt Theatrical Co. Tonight and this afternoon's matinee will be the last two performances of "The Marriage of Kitty," and if you fall to see it you will have missed a wonderful performance of a very interesting comedy. Commencing Thursday night "Brown's in Town" will be given its initial performance in this city. There has been farce comedies and more farce comedies, but when Mark Twain wrote the one called "Brown's in Town" he little realized that it would turn out to be the very best ever produced on the American stage. Such was the case, as can easily be seen by the long successful run it has had in the large cities throughout the States.

At the Orpheum.

With the Orpheum well filled, it is easily seen that this week's bill is easily set out on at this play house. Every sketch is a feature in Adair De Armond & Co. Manager Sherman has secured a clever trio. The Tregars are skilled wire artists. This week's bill closes vaudeville and next week Manager Sherman has on the board Henry Bernard's musical "Merry-makers."

This grand feature picture, which has caused such a tremendous sensation not only in Winnipeg, but through the entire world, will absolutely be shown without fail tonight at Starland. The picture is genuine, first run, and highly diverting and interesting. It is the kind of subject which everyone who has a thought of the goings on in the outside world ought unthinkably to see, and shown as it will be tonight, not only at Calgary's favorite theatre, but also at the very moderate price of 15c for adults and 10c for children. It is sure to draw the whole city to the gay little Eighth Avenue theatre.

Jessie MacLachlan Concert. The concert given last night in the Central Methodist church by the Jessie MacLachlan Concert company was a decided success, and it was at a very late hour that the event closed with the singing of God Save the King. The large number of encores to which the different artists gave response kept the audience in attendance until after 11 o'clock.

The recitations given by Mr. Craig-hall Sherry were undoubtedly the best numbers of the evening, while Miss MacLachlan scored several hits with her songs.

Mr. Barney Nelson was decidedly off color and could not have appeared. He was suffering from a severe cold and at times his voice took a pluck that resembled a street car cutting corners.

However, the evening was made enjoyable to those present by the splendid and talented recitations of Miss MacLachlan and Mr. Sherry in song and recitations.

DISCUSS WAGES OF LEATHER WORKERS

Conference Between Employers and Men Held Yesterday—A Compromise Suggested by Employers.

The local leatherworkers and their employers have decided to try to reach a settlement among themselves regarding the demand for an increase of ten per cent in wages. Yesterday was the date fixed on which each side was to appoint a man on an arbitration board to adjust the difficulty.

The demand of the leatherworkers affects only the Great West Saddlery company and Riley & McCormick, the other employers having acceded to the request of the men. The demand is for a nine-hour day in place of a ten-hour day at the same wage, and for an increase of 10 per cent on piece work. The employers have offered a compromise, which contemplates, it is said, a general re-organization of the basis on which the work is paid for, and granting the nine-hour day.

Mr. R. J. Hutchings, of the Great West Saddlery company, said last night that the firm is not opposed to a shorter work day, as most of the work is done on the piece work basis, so that it does not make much difference to the employer how long the man he hires works.

Second Call for Troops. Lima, Peru, April 26.—The second call of the government for troops today was responded to by several hundred men at both Lima and Callao. These were distributed among the infantry, cavalry and artillery.

Change in Time Table. The C. P. R. has completed its timetable, which goes into effect June 5 on the main line. These trains will leave Calgary as follows: Westbound, No. 1, 12:00 o'clock; No. 5, 4:30; No. 9, 7:30. Eastbound, No. 2, 14:05; No. 6, 24:45; No. 10, 26:10.

C. P. R. OFFICIALS MEETING THE CITY. Messrs. Peters and Bury Conferring With Local Official Regarding Some Affairs of Mutual Interest.

Mr. J. E. Peters, assistant to Second Vice President Whyte, of the C. P. R., arrived from the north last night in his special car, accompanied by G. J. Bury, general manager of western lines, his purpose being to confer with the city officials regarding various arrangements that must be made with the municipality in reference to the new yards, which the company is to construct at East Calgary.

Among these matters are the location of the overhead bridge and water supply. DIRIGIBLES NOW IN COMMISSION

Germany Has Fleet of Fourteen Sailing in the Air—Others Under Construction

Although Germany has a preponderating lead over the rest of the world in the matter of airships, she loses no opportunity of increasing her aerial resources. Profiting by the knowledge acquired during the airship manoeuvres at Cologne in the autumn, certain improvements have been introduced into the three leading types of German airships, and these are to be thoroughly tested at a further series of trials to be held in the same neighborhood this month.

The manoeuvres began on April 4 and will last six weeks. Three of the latest army airships of the Zeppelin, Gross and Parseval types, representing the rigid, semi-rigid and flexible systems, will take part in the manoeuvres. The new improvements in the manoeuvres are intended to give training for officers and men. Further experiments with wireless telegraphy will be conducted, and it is reported that trials will be made with a light machine gun to be mounted on the decks of the vessels.

The Berlin correspondent of the Daily Mail gives interesting statistics of Germany's flying fleet. Fourteen vessels are actually in commission. Nine others are under construction. Ten or a dozen factories and dockyards where airships are manufactured on systematic lines are at work. Twelve or fifteen permanent garages several of them elaborately equipped stations, have been built at various strategic points along the frontier, in the proximity of the sea and at inland centers.

A special battalion of nearly 1,000 officers, engineers and men, trained in all the exigencies of aerial navigation, has been organized. Germany's great ordnance makers, the Krupp and Ehrhardt, are perfecting airship-destroying artillery and experimenting with guns and explosives for offensive operations from a height. Airship manoeuvres have become a regular feature of the army's work.

The Kaiser's aerial fleet consists today of the following completed vessels:

Table with columns: Name and Type, Length, Diam., Speed, Weight, and other specifications for various airships like Zeppelin I, II, III, etc.

Each of the above vessels is of demonstrated capacity. The Zeppelins have traversed Germany from end to end, remained aloft for continuous periods of from 24 to 40 hours, and developed a radius of action equivalent to a flight from Berlin to London. The Gross and Parseval vessels have executed continuous cruises lasting from 17 to 24 hours with a radius of action of between 300 and 400 miles.

German vessels are building which represent even more powerful types than the fleet already afloat. Three of them being of even larger dimensions than any of the Zeppelins yet launched. One of these vessels, Zeppelin IV, is intended for passenger service. The three airships in the most remarkable of the vessels under construction, the distinguishing feature being the use of iron instead of the aluminum, steel and wood materials of other systems. According to the design of its inventor, Anton Borden, it will be an immense air cruiser with accommodation for 50 or 60 persons. The vessel which will be launched within the next few weeks is provided with five motors developing altogether 480 horse power. One of them, of 80 horse power, drives the propeller, which is fitted at the bow. The other four develop 100 horse power each, and are utilized to set in motion the vertical and slight horizontal screw planes which steer the vessel upward and downward and to starboard and port. They also control the motion of the ship forward and astern.

It is estimated that these powerful motors will give the vessel a speed of at least 45 miles an hour when they are all working, and it is even thought that an average of 60 miles an hour will be attained. The entire weight of the framework, motors and equipment is 30 tons, without the gas filling, and the enormous volume of gas contained by the vessel when fully inflated will permit of the transport of 100 tons of freight or 50 or 60 persons.

Krupps have designed three weapons for attacking aerial craft. For all the Krupp guns the same principle is used. It is asserted that the fuse is perfectly adjusted that it will detonate the shell immediately on piercing the hull of an airship or a balloon. The Krupp airship-destroying guns are also provided with tracers whereby the trajectory can be followed by day or night.

The Ehrhardt airship destroyer is designed for mounting on a motor car. It is a rapid fire gun, which discharges a 3.3 pound shell, and is capable of firing over a range of 3,800 yards.

Troubled Every Winter With Severe Colds.

Dr. Wood's Norway Pine Syrup Cured Her

Mrs. W. J. Hammond, Hamilton, Ont., writes: "I beg to say that I have used Dr. Wood's Norway Pine Syrup for my youngest child who was troubled every winter with bronchitis and very severe colds. At night she would keep up all night with her coughing until I tried your syrup, which gave her instant relief. After the first bottle was finished I got more, and always kept a bottle in her room at night. Dr. Wood's Norway Pine Syrup is certainly a wonderful thing in a case like the above mentioned and no one can praise it too highly. I have taken every opportunity to recommend it to all my friends and relatives." "There is nothing to equal Dr. Wood's for the cure of Coughs, Colds, Bronchitis, Croup, Asthma, Hoarseness, Sore Throat, Pain of Tightness in the Chest, and all Throat and Lung Troubles." It prevents Pneumonia and Consumption. Put up in a yellow wrapper; three pints, three the trade mark; price 25 cents. Manufactured only by The T. M. Wilson Co., Limited, Toronto, Ont.

CORREA DE PASCO—A Typical Peruvian City

or at an elevation of 45 degrees to a height of 4,750 yards. The German army's scheme of aerial defence, says the Daily Mail's correspondent, contemplates a chain of permanent stations which will eventually extend in a sweeping semi-circle from the extreme western corner of the empire through the north and east. The idea is that Germany shall be fortified in the air along her entire French and Russian frontiers and the area flanking the sea. Every fortress within this is to be provided with one or more vessels. At present the military airship stations are at Metz, Cologne, Frankfurt, Berlin, Friedrichshafen and Magdeburg. The larger ones, at Metz, Berlin and Friedrichshafen, can accommodate two or more vessels of the largest type. Gas generating plants are attached to the military airship stations, which are to be duplicated gradually at all strategic points as the fleet grows.

GIVES UP DRAWING ROOM FOR LIFE AS QUEEN OF GYPSIES

Baltimore Girl, Paired by 'Sham of Society,' Abandons Mansion for Tent. Baltimore, April 26.—The Gypsy songster knew whereof she spoke. The daughter of Rome, adopted or native born, cares nothing for the habiliments of wealth nor the prestige of position in society, once she wanders, like the call of the wild, the lore of the land of Bohemia, has possessed her soul. Within the week here has come the fiction-like story bearing out the truth of it all. Six years ago there disappeared from her home in Baltimore Jessie King Habersham, one of the season's debutantes and a girl to whom wealth and society offered its full quota of feminine happiness.

Today she is camped as the queen of a roving band of Gypsies, fifteen miles from the heart of the city of St. Louis, in a camp along the Mississippi river. Not until a week ago, save to her father and a few of his intimates, was the identity of Queen Jessie known. The girlhood friends who at first had shuddered at the thought of her possible fate, had almost forgotten the story. Call of Wild Impulse. Two years passed before the father learned of his only daughter's whereabouts. Then, from somewhere on the coast, she sent her first note home. "I'm the wife of King George," the Gypsy chieftain, and am happy," it read in substance. "I find none of the shame of society in the life of the Gypsy camp."

As a school girl, Miss Habersham was a dreamer. She wanted to be a wanderer, and her friends who were confident that with more mature years she would enter gracefully upon the social career mapped out for her.

But the yearning for the plains, the roving life, was within her, and she yielded, as others have before her, to a compelling force greater than the influence of earlier teaching and of a flattering environment. Society stifled her, she said, with its shallowness and its conventions. Two weeks after her debut she had tired of it, and her thoughts began to wander again to school days, when she had become interested in a Gypsy caravan. Since then the life had always appealed to her. She had studied in secret the Gypsy language, and had read of the romances of these men and women of the road.

HOT BREAD'S CHAMPION

Dyspeptics Have Found a Friend in Secretary of Agriculture

(From the Brooklyn Daily Eagle) Millions of dyspeptics, from Passamaquoddy to Puget Sound and from Duluth to El Paso, have found a friend and benefactor in James Wilson, the venerable Secretary of Agriculture in President Taft's cabinet. For half a century, ever since Mr. Wilson was a young man, a blind and baseless tradition has forbidden southerners, biscuits and graham gems and muffins and fresh home-made bread to those of impaired digestion. The medical profession has weakly yielded to this old wives' tale. Now, however, a new tradition has been discovered in a new man, Secretary Wilson, who has broken the old tradition and challenges all comers as the champion of hot bread, of fresh bread, of bread that every dyspeptic has heretofore indulged in only at the expense of defying his wife, his doctor, and his conscience.

There are many now living who can remember when a fever patient was forbidden internal use and external application of cold water. For centuries that practice had prevailed. Now cold water is approved, and the practice saves lives the old system would have sacrificed. The school of medicine that holds drugs beneficial in direct ratio with their poisonousness and foods injurious in direct ratio with their palatableness is gradually passing away. But the blind and baseless tradition that hot bread is indigestible remains to be crushed out. Secretary Wilson is doing his part in the work. His new cookbook has other virtues. It tells how good bread may be made, and that will be new to hundreds of thousands of young women whose grandmothers knew as much about the subject as the Department of Agriculture knows now. If carefully read and pondered, the cookbook may even start a boom for bread that has collected no germs from exposure, that has not felt the soiled hands of the packer and the truckman and the grocer's boy who brings it to the door, and is really fit for the eating of self-respecting men and women. There are millennial possibilities in that cookbook.

WHOLESALE SHOULD HAVE SOME CHANCE

But at the Present Time the Manufacturer Seems to Be Getting All the Profits Going

Toronto, Ont., April 26.—This is manufacturer's day in the wholesale grocery exchange, and it is a day for all parts of the province are represented. In speaking regarding trade conditions, Hugh Blain of Eby, Blain & Co. asked manufacturers to get "a little in price and give wholesalers a chance to live." He said that the manufacturer is growing tremendously wealthy, while the wholesaler is distributing goods at less than cost. He said it is about time the manufacturers were getting together and readjusting matters, and deciding to give a little more to the distributor for rendering their services.

TRY THEM BEFORE YOU BUY THEM

Gin Pills Sent Free

Understand it if it did it is just something born in one and a part of one, concerning which others cannot know because of lack of similar feeling. "Here I am in my little Gypsy camp instead of at the home I once knew, and in which I spent the days of my girlhood and my early womanhood. There are only six of us. The band has dwindled down again, but there will be many more when summer comes, and we take to the trail again. We live knowing that today we are here, and that tomorrow may see us somewhere else. I like it better so. "Last night it rained—oh, so hard. The lightning and the thunder were terrific. I remember the time when, at home, I would have buried my head beneath the covering of my bed. Subject fear would have overtaken me. "That is changed now. Somehow the storms make me happy. A great peace and content comes into my soul while the storm rages without, and when I hear the tent flaps beating a tattoo about my head and feet, it makes me realize the might of nature. It causes me to rebel against the light and the low air must bow to nature's will, and I fall asleep glad that I am one of her children. "I would not have the world believe that it is because I am a 'crank' about nature that I am here. I love the outdoor life, and the fresh wind, and just want to be free, but there are other reasons. "Sometimes I think that my soul is that of a wandering Gypsy, by some mysterious means, and I am here, the being of an American girl. My appearance is that of thousands of young women who grace this land today, yet my soul is not attuned to the excitement that the color of my skin would indicate for me. "The things that appear vital and most important to me are the merest dross. I have no part in them. I cannot make them a part of my life. I am just different, that's all, and one who sooner or later the soul will have its outlet and one will regret the wasted years spent unappreciated. "They call me the Gypsy Queen because I married 'King George.' I am no queen in the accepted sense of the word, but I have my husband's wife—his queen. "I met my King six years ago, when I started out to be a Gypsy rover. He was good to me and I grew to love him, for from the first day I knew that I should always be a Gypsy, a wanderer, a creature of the wanderlust. "I am happy now, happier than I ever have been, even in the dreams of childhood's days. Why, then, should I get of going back? Why give up the happiness we have for the sorrow that may come through its relinquishment? I am not contentment all one may seek in this world and all that is promised in the next? Why should I leave my heaven on earth when there are millions of people today who would give their all to be as happy as I now am?"

EVERYBODY WANTS TO WELCOME T. ROOSEVELT

The Reception Committee Swamped With Applications From Organizations

New York, April 26.—The reception committee, which has in charge the welcome home of Theodore Roosevelt, in June, is being swamped with applications from organizations in many parts of the country, who wish to take part in the land and naval parades and other features of the celebration. Mayor Dainger of Omaha and two hundred citizens have chartered a special train to come to the festivities. German musical societies with 8,000 members and Italian societies with 4,000 more, are among the recent applicants for assignment to some part in the celebration.

MARK TWAIN'S HEROISM

Worked to Pay Debt for Which He Was Not Responsible.

(From the New York Sun) In the summer of 1895 the adjustment of the affairs of the bankrupt publishing house of C. L. Webster & Co. reached a point at which it was desirable to have the testimony of that concern's principal backer. That gentleman was in bad health at the time, the weather was unusually oppressive, and the ordeal which he had to undergo was one from which any man would shrink. Yet he thought suffering in every way to assist in the disclosure of the exact condition of the firm.

That gentleman was Samuel L. Clemens, and those who were aware of all the circumstances will never forget, nor will they wish to forget, the manner in which he bore the ordeal. He and the sincere desire he manifested in every word and tone and attitude to do exact justice to the creditors of the failed company. When the examination was concluded, this brave and honest gentleman, still unretorted to health, set out on a lecture trip around the world, not to refill his emptied purse, but to earn money for the payment of debts of the firm for which the law explicitly said he was not responsible, but which his conscience accepted as personal obligations and his fine sense of honor compelled him to recognize.

The picture of Walter Scott, ill and broken, feverishly writing on and on to repair his fortunes, is one that is imprinted on the mind of every reader. Besides it belongs the equally pathetic picture of Samuel L. Clemens, in his old age cheerfully assuming a task that only a young man would seek to escape and gladly sacrificing years of richly earned repose and comfort that no man might suffer in pocket from the perfectly legitimate, but financially unfortunate enterprises of his business associates.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all Druggists.

CHOICE CORNER PROPERTIES

For Lease and For Sale

We are instructed to lease for a term of five years a very desirable corner on 9th Avenue and 9th Street west, four lots 100 x 120 feet to a lane. This property will soon be served with a spur line, and is an ideal spot for a warehouse. Very reasonable terms can be given.

We have for sale an excellent trackage proposition on the corner of 11th Avenue and 5th Street W., being lots 40 and 41, block 69, section 16. This is by far the cheapest property in this locality. Price \$8500. \$3000 cash, balance 1 and 2 years at 6 per cent.

A FORTUNE HERE---

For the Man Who is Quick

528 ACRES \$200,000 PER ACRE 528 ACRES

This is without a doubt the very best, close in, sub-dividing property obtainable within the 3 miles radius that can be bought at the above figure. Almost every acre of this splendidly located land can be used for sub-dividing purposes. 400 acres of this lies due east of what is known as Nose Hill, and immediately north of La Grange, where 25 ft. lots are selling from \$50 upward. This land, situated as it is on a sort of plateau, commands an excellent view of the city and surrounding country, and would make an ideal spot for a suburban house. The other 128 acres which borders on Nose Creek and N. Balmoral, is meadow land and cannot be excelled for garden purposes. On this property is built a \$2,500 house, also out-buildings and everything necessary for an up-to-date dairy. The terms on the above property is 1-2 cash and balance to cover five years. We will consider selling in parcels from 100 acres up. We are safe in saying that this property will double in value in 1 year's time. Come while the chance is open and make money.

Frost Saved the Crop
 Atlanta, Ga., April 26.—Cloudy weather last night saved Georgia from a killing frost, which undoubtedly would have completed the destruction of the fruit and vegetable crops which have been damaged to the amount of hundreds of thousands of dollars. The weather continues cold, the thermometer being around forty degrees.

Investigation is Killed
 Albany, N.Y., April 26.—By the decisive vote of 116 to 32 the assembly today refused to withdraw from the Ways and Means committee the Loomis resolution for the appointment of a commission to investigate the New York stock and consolidated exchanges and all other exchanges throughout the state. This kills the measure.

The Most Vital Diseases
 New York, April 26.—Cancer heads the list of diseases which the Bureau of health finds are causing an increased mortality in New York. Others are appendicitis, cirrhosis of the liver and scarlet fever. Deaths for the quarter totalled 20,660 against 19,143 for the corresponding quarter last year.

PUBLIC NOTICE

UNCLAIMED land warrants issued to members of the Red River Expeditions of 1870, 1871, 1872 and 1873, and to members of the North-West Mounted Police. NOTICE is hereby given that warrants, entitling in each case the grantee or his assignee to a free grant, without actual residence or settlement duties, of a quarter section of Dominion lands, containing 160 acres, of the class open to homestead entry in the Provinces of Manitoba, Saskatchewan or Alberta, which were issued some years ago by the Department of the Interior for services rendered in connection with the Red River Expeditions of 1870, 1871, 1872 and 1873, or for service in the North-West Mounted Police to the persons hereinafter named, have not yet been delivered owing to the fact that they have not been applied for by the grantees and that their addresses are not known to the Department. The warrants in question will be delivered to the grantees thereof, or in case of their death, to their personal representatives, upon satisfactory evidence being sent to the Secretary of the Department of the Interior, Ottawa, that the applicants are entitled thereto.

The undelivered warrants above referred to are the following:

DR. LEE DE FOREST TO LECTURE ON WIRELESS TELEPHONY

Here to Select a Site for a Wireless Telephone Station.

Dr. Lee de Forest, the inventor of the system of wireless telephony, which has so far attained the highest degree of commercial success, arrived in the city today. He is here to select a site for the erection of a long distance wireless telephony station, which will be one of the links connecting the Atlantic with the Pacific Ocean. The plans of the company include stations to be erected in Winnipeg, Regina, Moose Jaw, Calgary, Victoria and Vancouver. From these points, connection by wireless telephony will then be carried on to points within a comparatively short distance.

Dr. de Forest, in explaining the progress of his invention, said that one of the features is the fact that so little energy is required to handle it. For instance, the largest type of Marconi station may require 25 to 30 kilowatts, and a voltage of from 25,000 to 40,000. In the Radio system, the voltage seldom exceeds 1,000, and but two or three kilowatts are needed. Owing to the difference in the currents used and the type of machine, the two systems may operate in the same field without conflict. His system employs a continuous wave, while Marconi uses the heavy spark for setting up vibrations in the ether.

First Long Distance Experiment

While in Italy in 1908, installing his system in the Italian navy, the doctor conceived the idea of carrying on a series of experiments for long distance transmissions overland. An instrument was invented on the Eiffel Tower, Paris, and messages were sent to Marseille, 550 miles away. More recently installations have been put in at Chicago and Milwaukee, where telephonic communication for the 90 miles is easily carried on. With recent improvements he says that the land range under reasonable atmospheric conditions, is 500 miles, and that Dr. Selti, with whom he has been associated, has sent messages 1,277 miles over the sea. The flat prairie country he considers as especially favorable for wireless work. In fact, an enthusiast might be tempted to see visions of a plant in the home of each of the well-to-do western farmers.

Dr. de Forest is a most interesting personality, and a brilliant talker. Though but 36 years of age, his work has placed him among the leading scientific men of the age, for his patents cover practically the whole of the present known field for wireless telephony. He was born in Council Bluffs, Iowa, but was reared in Alabama. When but a boy, he had scientific leanings, and his first experiments in the electrical field were prompted by the scientific department of the Young Men's Association. While attending the public school, he was still working with home made apparatus, and later at Yale he went in for the scientific course, specializing on electricity. The Hertzsprung wave attracted him, and later while in the employ of the Western Electric company, in their electrical department, he spent his spare time on a detector for handling the waves, as sent by the Marconi system. The finding of such a detector is now being placed on the market.

A talk on wireless is so replete with technical expressions, and terms which are beyond the layman, that Dr. de Forest has prepared a lecture in English, and he has tried to translate these expressions and arrangements are being made for delivering it in Calgary. It will be given on April 27th, next.

THE DEATH WARRANT DELIVERED

No defence can be offered when you appear in the court as a convict, and the offender has to die. Nothing so certain to quickly cure corns as Putnam's Corn and Wart Extractor; try Putnam's, it's free from acids, and painless.

Y. M. C. A. in Chicago

(Chicago News)
 Chicago's future depends mainly upon its growing boys and its beginners in the business world. The men and women who have seen much of life generally recognize the importance of opening all possible doors of knowledge and opportunity for the business men of tomorrow. It is shown by the generous response which has been made to the appeal of Chicago Young Men's Christian Association for funds with which to do its work.

The outcome of the campaign so energetically conducted by friends of the association and of Chicago, is most gratifying. It should give to everybody still greater faith in the future of this city, not only because of the useful activities which the newly secured funds will enable the Y. M. C. A. to carry forward, but because of the proof it affords of the fine spirit which animates the leaders of this great community.

To raise \$250,000 in twelve days on top of \$800,000 previously raised within two years was no light task. It had been accomplished in a splendid way by intelligent team work and by making known to the whole city the great value in manhood which must accrue from widely extending the system of gymnasiums, reading rooms, dormitories, and general educational advantages furnished by the Y. M. C. A. Thus Chicago has established another world record which is greatly to its credit.

Nordica for Suffragettes

(Mrs. Nordica in Columbian Magazine)
 I believe in the militant suffragettes. When men take the view that to gain an end warlike methods are excusable they are heroes. Many a man has fought and gone to prison for a principle. He is a hero, then, and I think no great reforms have been brought about without their being those willing to cast themselves into a breach and to fight.

The time has come for women to keep quiet. In the business of life the time has come when things can be entirely one-sided. There must be a mutual arrangement. And any lady who does not care to "flaunt herself," as it were, in the public eye has only to stay at home and keep quiet.

It is really such a degrading thing for women to go to the polls and vote — if those polls where our men go to make the laws and the lawmakers of our country are really too debased and wretched to be seen in — isn't it about time that someone take a hand in the matter? Is there any public place in this great country — any meeting place — not fit for a woman to go and vote on the laws which shall govern herself and her children? If so, it is about time that such a place be brought up to the level of our churches and schools and street cars and thoroughfares, and everywhere that women go. It is time, I say, that the polls come out of the "blough of despond."

Canadian Club President

Toronto, April 26.—John F. Mackay, business manager and treasurer of the Toronto Globe yesterday was elected president of the Canadian club.

Enjoy Your Meals

By Simply Eating a Little Pleasant Tablet After Each of Them.

A Tablet Digests a Meal. Trial Package Free.

When digestion is perfect the fluids necessary to this process come naturally to the stomach. The stomachs of those who are of right proportion and do their work speedily and well. When indigestion and dyspepsia are prevalent, these same juices come slowly if at all, and the stomachs are filled with strong acids and alkalies. When such a condition exists each meal is a hardship upon the digestive organs. The usual remedy is to take a strong laxative, but on the contrary it weakens them, so that man by the very act of eating causes conditions to arise which themselves bring him pain and suffering for the next meal.

By eating one of Stuart's Dypesepia Tablets you mix the tablet with your saliva and it goes into your stomach a strong, vigorous fluid, many times more powerful than the natural digestive juices. These tablets are made up from natural vegetable and fruit materials and are composed from Hydrated Magnesia, Golden Seal, Lactose, Nix, Asapha Pepsin and Jamaica Ginger. There is the formula and one grain of it will digest 3,000 grains of food in any stomach. Beside digesting the food it will give the blood the power to enrich the digestive fluids so after a time nature will take care of itself. Thus you have no stomach trouble one of these tablets after each meal is a powerful assistance to nature and is an excellent habit to make.

UNIVERSITY BUILDING WILL COST ABOUT \$600,000

Regina Firm Receives Contract For Saskatchewan Building

Regina, April 26.—The tender of Smith Bros. & Wilson, contractors, Regina, for the erection of five of the Saskatchewan University buildings at a cost of \$600,000 has been accepted by the Board of Governors and approved by the Provincial Government. This amount does not include heating and ventilation which will be dealt with separately.

The five buildings are: the main college, to cost roughly about \$240,000; students' residence, agricultural engineering building, stock pavilion, power house, tunnels and fire protection system. It is expected that the contractors will commence work at once. The three smaller buildings are to be completed this fall and the college building and students' residence next year.

The buildings will be collegiate Gothic in design, and in the judgment of one competent critic will present as good a specimen of this style of architecture as can be found in the Dominion. Indeed, it will reflect the highest credit on the architects, Brown and Wallace of Montreal.

In the college building, rooms and lavatories are provided for the departments of chemistry, physics, biology, animal husbandry, field and dairy and dairying, also for library and offices. There is also in this building a large assembly hall capable of seating about 1,000 persons. It is designed specially for the large numbers who will attend the conventions and short courses for farmers. The stock pavilion will accommodate about 200 to 300 head. Over 150 students can be accommodated in the fine new residence when completed.

The agricultural building is to be fitted up with forges and benches for smith and carpentry work, and also will have a place for traction engines and heavy farm machinery of the lightest kind with class rooms and drafter room attached. This building will be one of the best of its kind in Canada and suitable for a province which spends \$25,000,000 of farm machinery.

The power house has been built sufficiently large to accommodate heating, lighting and power plant to supply buildings twice the size of the present in fact, at a very small cost the power could be increased to supply two other buildings as large as the largest one of the present group.

It is intended, when the number of students justify it, to turn over this group of buildings to the College of Agriculture for its exclusive use, and to provide for the arts students in another building. In the preparation of the plans and all arrangements the aim has been to make the buildings suitable and worthy of the work of the college of agriculture. Indeed, the pupils of their cost are properly chargeable to agricultural education.

The government approved of the government's determination to erect buildings of a substantial character requiring a small annual expenditure for maintenance, also a small outlay for remodeling interior alterations to adapt the buildings for other purposes. In the opinion of those who examined the plans carefully the structures will be of a very superior type and splendidly designed. The feeling of the Board was that the province will have good reason to be well satisfied with them.

GREAT ACTIVITY IN THE DIOCESE

What Was Done in Alberta By His Lordship, the Bishop, and the Others.

Dioceesan Bulletin No. 3
April 26, 1910.

Since the beginning of the year the bishop has administered the site of confirmation in the following places: Lethbridge, (St. Augustine's); Battleground, Banff, Rimby, Bentley, Cowley, Edmonton, (Christ Church); Edmonton, (St. Paul's); Lamont, Olds, Bowden, Strathcona, Castor, Calgary, (Pro-Cathedral); Calgary, (St. Barnabas); Macleod, (with candidates also from Graman and Carman-gay); Mission; Pincher Creek, Sunnyslope, Hillside, Leduc, Ghost Elm.

The bishop has also visited for meetings, services, and in several instances celebrations of Holy Communion: Excalibur, Stettler, Camrose, Didsbury, Carstairs, Acme, Hillside, and Three Hills.

Since the beginning of January the bishop has dedicated the following new churches: Immanuel, Battleground; The Epiphany of Our Blessed Lord, Rimby; St. Mary's, Bentley; St. Aidan's, Cowley; St. Michael and All Angels, Edmonton; All Saints, Castor, and Christ Church, Ghost Elm.

It is interesting to record that All Saints' Church, Castor, was, when dedicated, the only church building in that new and rapidly growing town.

On the day of the dedication of Christ Church, Ghost Elm, the bishop consecrated the churchyard.

The following clergy have resigned and left the diocese since the last bulletin was issued: The Rev. A. Todd, late of Lamont Mission; Rev. A. G. A. Ratner, late of Torville Mission; Rev. C. W. Peck, late of Millerville Mission, and Rev. J. C. Potts, late of Mission of Carstairs and Didsbury.

The Rev. Canon Robinson resigned the Rectory of St. Cyprian's, Lacombe, and obtained a year's leave of absence.

The Rev. W. W. McMillan, B. A., priest in charge of St. Cyprian's, Lethbridge, has been instituted first rector of that parish, at the request of the congregation, it now being self-supporting.

Lay readers' license has been granted to Mr. Thomas Davies Tennant, of Leduc Mission.

A new parish has been formed, and duly defined and erected by the bishop, in Strathcona under the title of St. Luke's.

On the occasion of the visit of the bishop to St. Barnabas, Hillhurst, Calgary, for confirmation on March 20, he dedicated a beautiful set of communion vessels presented by Mr. Thomas Riley, churchwarden, in memory of his mother.

The treasurer of the diocese reports having received from the general treasurer of the M. S. C. C. a cheque for one-tenth of the amount of the society's grant to the diocese for this year, viz: \$350.

The treasurer of the diocese has forwarded to the M. S. C. C. the sum of \$530 on account of the diocesan apportionment for this year being a little more than one-eighth of the total amount asked for.

Since the date of the last bulletin up to and including April 20, the treasurer has received the following amounts on account of the parochial apportionments for M. S. C. C.: Weedon, \$2.00; Exshaw, \$5.00; Castor, \$27.40; Nanton, \$20.00; Colestaine, \$5.00; Table Butte, \$5.00; Nanton, out-stations, \$10.00; Olds, \$2.00; Pro-Cathedral, Calgary, \$200.00; Blackfoot Reserve, \$1.00; Sturgeon Mission \$20.00; ac-709; Pincher Creek, \$17.15; Pincher Creek, Sun. Sch., \$10.10; Carman-gay, \$2.50; Carman-gay, Sun. Sch., \$1.25; Lethbridge, St. Mary's, Sun. Sch., \$4.25; Peigan Reserve, \$6.25; Cowley, \$3.80; Banff, \$22.50; Innisfail, \$2.00; Okotoks, \$13.75; High River, Sun. Sch., \$3.00; Lacombe, \$13.50; Lundbreck, \$5.00; Sarcee Reserve, \$4.00; Macleod, Sun. Sch., \$12.00; Macleod, \$27.20; Onaway, W. A., \$2.60; Coleman, \$9.15; Frank, \$2.50. Total \$571.10.

This amount together with the sums recorded in the last bulletin give a total of \$644.40 towards the total apportionment of the diocese of \$4,000.

Monday, Tuesday and Wednesday, May 2, 3, and 4 are Rogation days. The bishop desires the clergy and lay readers of the diocese, wherever possible, to give their people an opportunity of meeting for prayer "that we may enjoy the fruits of the earth in due season, and for other national blessings."

The bishop will hold an ordination for priests and deacons in the Pro-Cathedral, Calgary on Trinity Sunday, May 22. It is his desire that church people throughout the diocese will remember those about to be ordained and especially upon those days set apart for the purpose, viz: the Wednesday, Friday and Saturday before Trinity Sunday, being the Ember days.

Two Good Farming Propositions

NO. 1—BETWEEN CLARESHOLM AND CARMANGAY—North 1-2 20-12-25-4; west 1-2 21; fenced and cross-fenced, 570 acres broken, 80 acres in winter wheat, 250 acres in spring wheat, 120 acres in oats, balance summer fallow; 4 roomed cottage, stable 40 x 80, stone foundation, granary for 12,000 bushels, well, power windmill, \$36.50 per acre, \$5000 handles this for a few days.

STIRRETT & REILLY

EXCLUSIVE AGENTS PHONE 88 FARM LANDS AND CITY PROPERTY. 111 EIGHTH AVENUE EAST. James E. Reilly

Frost Was Very Serious
New Orleans, La., April 26.—Reports received today from all parts of Louisiana and Mississippi, indicate that the earlier estimates of the damage to the cotton crop as a result of Sunday's cold, were not exaggerated. With the cotton acreage damaged to an extent of not less than 100 per cent, including a total loss in many quarters, planters today turned their attention to replanting, only to be presented with the grave problem of a lack of seed.

Searching for Murder Suspect
Bosburn, Man., April 25.—There is a hue and cry for Nicola Woeney, wanted for the alleged murder of Philip Kouchel, near Rosburn. He left the farm when a detective went to arrest him last Friday and got off into the bush. The evidence points to him as the guilty party, and the police are scouring the country, so that his arrest is expected shortly.

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's Cough Remedy. Pleasant to take, soothing and healing in effect. Sold by all Druggists.

On May 1st
