Scattered energies are wasted;
Misspent hours are worse than lost;
Are you seeking this world's favor?
Wisely pause, and count the cost.

What are trials, what are hardships, When the heart is fired with love? Prize your earthly home, but ever Seek a better home above. Prayer is never unavailing
Though we gain not all we crave;
God, in His great love, is always
Near to strenghthen, comfort, save.

Sense can only see the present.
Fraught with darkness, conflict, woodfaith beholds the coming glory,
Sees the dawn of heaven below.

None but disobedient children Dread their heavenly Father's rod; Men may get away from places, Not from conscience, not from God.

Wearying toil is not for ever, Heaven's own rest is drawing nigh; All our thorny griefs shall blossom Into glory by and by. Turners Falls, Mass.

Blow hard, old north wind, at the door, Blow hard, old north wind, at the door, Pile high the drifting snow, But there are kindly joys within That summer cannot know; For glowing hearths make gladsome hearts For all who haply come Beneath the cheering benison Of winter time at home.

Huge, crackling fires, whose flames in glee
Roar up the chimney flues,
The low-ceiled room where busy dame
Her wifely task pursues;
And happy, romping girls and boys,
Who gather in the gloam
Around the fire, proclaim the joys
Of winter time at home.

Within their closely-sheltered sheds
The cattle warmly doze,
While snug beneath the shelving stacks
The pigs in bliss repose;
Deep sounds of comfort and content
From every quarter come,
For every creature feels the charm
Of winter time at home.

The house and stables, sheds and stacks The house and stables, sheds and state Wear hoods of purest white; And level with the fence-tops go. The teams to left and right.

Afar the billowy snow fields stretch. Like sea waves capped with foam, And tinkling bells the pleasures tell. Of winter time at home.

Bliss is the season and the spot Where homely joys prevail! Where all may find a haven kind From tempests that assail!
And longingly will turn the thoughts
Of luckless ones who roam Of luckless ones who roam . . . To the warm hearths and warmer hearts -Mortimer C. Brown in Good Housekeeping

Select Ziterature.

In a Border Town.

(By A. S. Duane, in Munsey, Jan., 1896.) The little town of Brownton was like amp. The inhabitants had forgotten the time when white tents had not shone on their hilltops, and uniforms of blue or gray had not made color in the streets. It was Georgia Zouaves had come, had danced and ridden horseback with the prettiest of the girls in the southern families, only six months before; and now the town was in the hands of a Vermont regiment, with a colonel as grim as one of his own rocky hills,

and officers and men who knew more about plowing than dancing.

Many of the Northern sympathizers had crossed the river into Ohio during the Southern occupation; but when the Federal troops came, the Southerners were cut off from their own. They found a great many of the more outspoken of the townspeople haled up to take the despised oath of allegiance to the United States; and after that, hatred burned all the deeper that it was repressed. Old friends and neighbors who had visited daily for years, looked the other way when they passed on the street which ran sociably twisting its way through the town, accommodating itself to the shape of everybody's

love, and built a porticoed, cupolaed house next door to the old colonial mansion where four generations of Millers had been born,

rew older they found a shady place wher fence. Rose sat in her little chair on her side, and Rosie on her stool on her own anood, and rag and corncob, made perilous when they went to school and came dancing nome, their arms about each other, that people began to call them the "red and white

when armies pushed each other back and forth over the broad, sweet country, and ilies in the county, and had offered his ser nantly from the sight of a blue uniform.

It was while the Georgia Zouaves were the decision whether a considerable force which Wrenn sat, bound, on his way to the swaggering through the streets, each one of should be brought here to push the Union scaffold. The colonel had decided to make That night Rosie sat all night long at her camp fires on the hill. Somewhere, holding in the South and its cause. His experience his life and her happiness in his hand, Wrenn was going about his work. Every night she saw him. He would slip through the garden and find her in the rose bower, cold and wet enough now, where he had first told her he loved her; and she

plies, because she was Rosie's friend, and she never knew. One night Wrenn spoke of Rose, for the could talk of other things than the war. He | first time since that night in the early sumtold her of his home in Georgia, and before

would bring him food and all the news she

long the tale was one of personal interest to "I heard to-day that she was to marry the colonel of the Northern regiment here," he Perhaps it was shyness, or the birth of joy said carelessly. If it were true, she might at having a new world of her own, which made Rosie keep her secret to herself. The "The war has parted u "The war has parted us at last," Rosie

box bordered, syringa shaded walks of the said sadly. "I think her father must have garden became a veritable lovers' lane, but forbidden her to speak to me. It can be nothing else." The next afternoon Rose Allen, on her big jealous of the Miller influence, and kept her

daughter with her as much as possible. But black horse, the big white feather that curled one night Rose ran away. She had been riding until dusk, and then had slipped from rode by the side of the colonel from Vermont the stables into the old Miller garden through along a narrow road which led by the river the hole in the fence. There was an arbor covered with honeysuckle and heavy headed their horses, and the colonel had his white rmosas by the syringa walk, and Rose sat | gloved hand on the black horse's mane, he here for a moment to tie her shoe. Her head seemed to be pleading, and from the look in Rose's face she was tantalizing him. Perwas bent, and the big feathered beaver hat hid her face and hair. The walks were cov- haps, after the humiliation that had come to ered with tan bark, and soundless. It was her once, she liked to hear that she was loved dark in the arbor, except where a beam of in her own person.

the young moon trembled through the leaves. The earth was soft and the horse's made Suddenly Rose felt a pair of arms around no sound. A ledge of rock, hung with leafless vines, jutted out into the road. As the riders passed this, they came face to face with a man in a ragged blue overcoat. It was a voice she knew, and her heart gave a choking throb, while her head went Rose looked full in his face, as he lifted it in surprise, and her cheek grew white. She "I knew I should find you here:" and he cut her horse with her whip, and the man stooped and lightly kissed her. Then, laugh- jumped aside or she would have ridden over ing, he gently pushed her face into the moonhim. The colonel raced half a mile before h

light which lay in a bar across his sleeve. caught her. "What was it? A bolt?" he asked. boy let her go almost rudely, and sprang to "Only one of those rebel officers I thought you had driven out of the country," she said

"Miss Allen, I-I beg your pardon-" he in a tone of annoyance.

The colonel from Vermont wasted no began, but Rose was on her feet.
"How dare you! How dare you!" she words, but when he reached the camp he cried, and, lifting her lashed whip, struck gave some orders, and one of them referred him a stinging blow across the face. Then, to a slim, bearded man in a ragged blue army

ran, lost in the shadows of the trees, while That night Rosie slipped out of the kitcher door with her basket of food under her cloak, A day or two later, Mrs. Miller asked what and waited in the arbor. The leaves were had become of Rose. Nobody knew. They off the vines, and the moonlight was clearer heard the next day that she was visiting in than on that other night; but all around the the neighboring county.

Rosie's life was so full that she forgot the and dark. She did not see two men steal mrade of her girlhood, as many a girl has close to the summer house as Wrenn came done before. Wrenn explained his cut face | through the door. While he ate his supper as a "camp accident." Meanwhile Rose, in she softly whispered to him, happy in his a frenzy of hurt pride, thought of him telling | presence there, despite her overshadowing

Rosie of what had happened-thought of crawled to the fence and signalled, and half Not long after this the Southern regiment a dozen had followed him back. "You have all you want?" Rosie was say-

ing in force, and the Georgians were obliged to retreat. Lieutenant Wrenn came to say good by to his sweetheart. There were tears As if his words had been a signal, a light flashed upon him, and they looked up to see gether on the old haircloth sofa in the dusky the barrels of revolvers in their very faces. sitting room, and 1 am afraid that there The summer house had only one doorway, were some which fell upon Rosie's fair cheeks and all the men had gathered there. Quick from a pair of black, boyish eyes. The as lightning, Rosie was between those cruel chances of war might mean that this was a round steel eyes and Wrenn.

last good-by, although they told each other "Go!" she gasped out, and he that it would all be over in a few months, | through the low window in the back. In a week the Vermont regiment was firmly had been no word until Rosie's cry, but as established, and the colonel was the constant Wrenn sprang, two shots rang out, and the guest of Mr. Allen. Rose would ride and girl, putting her hand to her breast, fell as walk by with never a glance toward her old Wrenn threw himself to the ground. He friend. "What is it?" Rosie asked drowsily. white curtained window, and looked at the They had given her opiates until her senses were dull.

Rose spoke rapidly, her breath coming in gasps. "It is Harry's funeral," she said. 'They are giving him a military funeral, diers honor him. Will you let me go I must,

Rosie began to cry weakly, and Rose put

was able to collect. How he did his work her down and ran from the room. She rushed past Cely like a wild thing, her lip caught in her teeth. There was no time to saddle a horse. There was only one horse there, her father's fierce colt, which no woman had ever mounted. With strong hands the bit was pushed into his mouth, and springing to his bare back, Rose whipped him to his highest speed. There was a meadow between the Allens' house and the camp. She must cross it, and get back to American Nervine Tonic, which I did with that awful wooden frame behind the hill, before \_\_\_ She must not think. The horse rose like a bird to the fences, his hoofs fairly eating the ground under them. Sentries tried to stop her at the edge of the camp: one grasped her bridle, but the half wild horse tore loose. Her hair was falling about statement, which I want you to publish far

while he stood up bewildered. Her voice was husky with emotion.

"Reprieve Wrenn," she said, "and telegraph the president—he always spares a life!" And then as if his understanding were too slow for her eagerness, she shook his hand. "Write it! They are killing him

"Why do you care?" She heard suspicion in his voice. "He is to marry my friend, and I love

her," she replied. For an instant they stared into other's eyes. Then Rose's fell. "I ask you this in the name of

for you," she said. "Fire a signal and run up a flag that the execution is to be delayed. Make haste," he said to the officer who stood there.

If We Can Defy old Laws of Light, Why

Little by little we see the foundations of that mighty structure, natural laws, hither- the carpet \$1,700 in gold. In leaves of to deemed invulnerable, crumbling under the bombardment of scientific investigation and discovery. In how many minds, only of \$20, \$50, and \$100 were discovered, aggrefive years ago, was there any questioning as to transparency and opaqueness of bodies? sometrs, hats, pots, kettles, door cracks and The properties of light and the substauces it acted upon were accepted as "laws," and investigations in which these elements were was brought to light, until between \$6,000 factors were carried on with these "laws" as the corner stone. Let us not call Prof. Roentgen's discovery

a "chance"; call it the result of persistent investigation on lines suggested by the lar. Money is believed to have been hidden telligence of man. And on this basis let us mises are being guarded from thieves. lay down the broad proposition that there are ne "fixed natural laws," but that certain weeks ago her mother died, and 15 years ago conditions exist only because we have not her father. Silas Lewman, committed suicide accomplished their overthrow, and concerted and intelligent attack upon any of the so-called laws will secure the accomplishment of ends scarcely dreamed of.

Having this in mind, why should not we combard the so-called fundamental law of gravitation? There is absolutely no reason why it cannot be overcome as well as that

It is probable-nay, certain-that many scientists (and others) will continue to plod and die in their efforts to construct flying machines fashioned after the birds, and that their efforts will be seconded by contributions of money by well-meaning and enthusiastic laymen But one of these days some quiet investi-

gator will announce to the startled million that he has overcome gravitation (the attract tion of the earth) and can soar at will, under perfect control, without the aid of gas bags, wings, aeroplanes, many-bladed propellors, or steam engines encased in cardboard boxes. And the writer expects to live to see it,

How many "flying machine cranks" (and others) have attempted to eliminate gravi-tation? They are all trying to get around it by devising mechanisms designed to float on the air. The air has been the prime factor in their calculations. Let them drop is and tackle the elimination of gravitation. I is a possibility.

Maple Sirup and Sugar.

In a bulletin from the New Hampshir station it is stated that experiments in let ting sap stand for several days before boiling, filtering sap, and rapid and slow evap oration had no decesive effect on the composition of the sirup. The sirups from soft maples were somewhat inferior to those from rock maples both in color and flavor. Delay in boiling sap did not seem to affect the color of the sirup, but injured its flavor. Sap that was kept five days and then boiled gave one of the lightest colored samples proed. The rapidity of boiling had little influence on the color, samples of sirup from saps that we allowed to slowly simmer away ing as light colored as those from similar saps boiled rapidly.

duced by boiling a quantity of sap until fin-ished, without addition of fresh sap. One sample produced by boiling about two quarts of sap in a large glass beaker until it was thick sirup, without addition of sap and without skimming, had little more color than the sap from which it had been made. This sap was from covered buckets and was thoroughly strained through cloth before boiling. Sap filtered through quartz sand produced a sirup in no way superior to the preceding, while one filtered through boneblack lost almost entirely the characteristic maple flavor. Sap mixed with rainwater gave a sirup objectionably dark colored. Dark sugars contained less saccharose and more reducing sugars than light sugars and had a much lower purity coefficient.

Experiments during three years in tap-

ping at depths of from 11 to 6 inches ind cated that the flow of sap is largely depen-dent upon the depth of the tapping, the deeper the hole the greater the flow, and that the theory that all or nearly all the sap comes from the outer wood is erroneous. girl who loved him too, and who had betrayed him to a shameful death, took the gentle, suffering body in her strong arms and held it.

The results of comparative tests of tapping the north and sound sides of trees favor the latter. A single hole yielded slightly more sap than two holes close together.

—Dr. Koch's cure for consumption went up like a rocket and came down like a stick; but Puttner's Emulsion still shines with undimned lustre as the best remedy for wasting diseases.

so justly deserve, is the prayer of

Hidden Wealth. OUEER PLACES OF CONCEALMENT CHOSEN BY

A short time ago Sarah Lewman, a spinster, aged 46 years, died, leaving an estate character and hoarded money. She was rarely, if ever, seen off the tarm near Jeffersonville, Ind., where she was born, and knew nothing of the ways of the world. Under

denosit her wealth in a place more safe. County-clerk J. C. Lewman was appointed administrator of the estate. He visited the homestead to make an examination of the books, old cans, out of the way nooks and walls money was found in liberal quantities. and \$7,000 had been gathered. All the money is in excellent state of preservation.

Additional \$1,000 in gold was found

quickened conception of the fin de siecle in- in the barn and other outhouses. The pre-

Mary Anderson Declines Princely Offers. Offers, princely in their nature, are re-

peatedly being made to Mary Anderson de Navarro to return to the stage, writes Ed ward W. Bok in March Ladies' Home Journal, but she turns a deaf ear to them all. big fortune if she would consent to return to the stage for a brief period. There were six figures in the amount stipulated, and the first figure was equal to the total number of numerals in the whole amount. But it had no effect upon her. She turned away from it easily and without an effort. "No," she said, "I am through with the stage." And

Mirror of a Town's Doing.

The newspapers of a town are its looking glasses says an exchange. It is here you see yourself as others see you. You smile on them and they smile back at you; you frown on them, and you are repaid in kind. They are the reflex of town. If the town is doing business the newspaper will show it in its advertising columns. If the merchants are spiritless, shiftless fellows, whose stores are jumbles of junk and jam, the newspapers will show it by lack of space they take. If you want the world to know that you have a live town you can only let it be known

through its newspapers.

The Maine Central Man.

Everybody on the road knows W. A. Kimball, the clever advertising agent of the Maine Central. His views on any subject are worth hearing. When he says that after having suffered for years from dyspepsia he was completely cured by Hawker's dyspepsia cure his words are golden winged messengers to all sufferers from indigestion or dyspepsia. He writes as follows;—"I have suffered for years with dyspepsia, and Hawker's dyspepsia cure cured me. I suffered terribly at times from the disease, but the cure has been complete. I recommend all sufferers from the same cause to take Hawker's dyspepsia cure." This is terse and to the point. Hawker's dyspepsia cure is sold by all druggists and dealers at 50 cts. per bottle or six bottles for \$2.50, and is manufactured only by the Hawker Medicine Co. (Ltd.,) St. John, N. B.

friends, do not look for them. If you do not want to find your enemies, do not hunt for them; they will hunt for you. And what is worse, they will find you, too. I have known men who have passed all their lives hunting for things which nobody wished to have discovered, and which only made the finders miserable. There are men who can-not smell a heliotrope held at their lips, but have a nose for carrion that would be a for tune to some poor struggling buzzard. He never looks for a good point about any man. He finds the spots on the sun, sees not one ray of its brightness. A clear running brook gives him the hydrophobia, a mud puddle is a reviving Turkish bath to his mean little soul. If he could go to heaven he would be of all men most miserable because he could find no mud to throw at the angels!

Withheld His Opinion.

Papa—Who's the smartest boy in your school, Bobby?
Bobby—Well, Tommy Jones says he is, and teacher says Billy Barlow is, and I—well, I don't like to say who I think is, 'cos I ain't as conceited as Tommy.

Is Infallibly the Cure for

front yard. Only "the Roses" had remained friends in all this unpleasantness. Rose Allen and Rosie Miller had been friends from their babyhood. Their families had never been intimate. The Millers were of the soil; their great grandfather had been an elegant gentle-man in the days when the Allens were mere dependents. In later years, the Allens had made money in speculation, in any and every way. "Traders," the Millers called then temptuously. The crowning insult had ome when Mr. Allen married the beautiful but poor girl with whom Mr. Miller was in

sympathizers. had brought home brides, and had been carried out for the last time.

But all the spite and heart burning had ever touched the children. When they ain' feedin' no po'h white trash.' the palings were broken in the old garden cestral soil, and the children of wax and urneys into forbidden territory. It was

Rose Allen, black eved, red cheeked, daring, pert, and saucy, was no prettier than Miller, with her yellow curls, and soft, shy blue eves. But Rose was the leader. always. She took possession of her gentler friend, and, if there was no other way, stormed her into submission. But the other girl or boy who was not sweetness itself to Rosie had to tread a thorny path. The friendship lasted even to the evil day

Brownton became a camp. While Mr. Allen had opened his house to the "Northern horde," and was reputed to be making money in army contracts, Mr. Miller had taken with him the sons of the old Southern famvices to the Confederacy. The seriousness of war did not touch the light hearts of the Roses. When the boys from Dixie were riding through the town, there was always a merry party of them at the Miller house; and when Rosie rode out with them, Rose Allen went too. She had no prejudices, and laughed when Rosie turned her face indig-

The Political Meetings.

On Wednesday evening last the Court House in this town was crowded with an audience composed of members of both political parties, and including quite a number of ladies, to hear the Hon. W. S. Fielding and Hon. J. W. Longley discuss the political sales of the day. As on the occasion at Middleton these gentlemen were listened to with marked attention and frequently applicated as they made points satisfactory to those who agreed with them in their views of the situation. Each speaker occupied an hour and a half and fully sustained his reputation as an eloquent platform orator. At the conclusion, three cheers were given for the Queen, and the audience quisely retired. Again, according to announcement, J. J. Ritchie, Q.C., of Annapolis, occupied the platform in the same house on Friday evening last the Court House in his town was crowded with an audience composed of members of both political parties, and including quite a number of ladies, to hear the House. W. S. Fielding and Hon. J. W. Longley discuss the political parties, and including quite a number of ladies, to hear the Hon. W. S. Fielding and Hon. J. W. Longley discuss the political parties, and including quite a number of ladies, to hear the Hon. W. S. Fielding and Hon. J. W. Longley discuss the political parties, and including quite a number of ladies, to hear the Hon. W. S. Fielding and Hon. J. W. Longley discuss the Political parties, and including quite a number of ladies, to hear the Hon. V. S. Fielding and Hon. J. W. Longley discuss the political parties, and including quite a number of ladies, to hear the Hon. J. W. Longley discuss the political parties, and including quites an under subscission of the super day. As on the occasion at Middleton these gentlemen were listened to with marked attention and frequently applicated the subscission of the situation. Each speaker occupied the platform in the same house on Friday evenin became the determination that there must be no war between these two nations, neither at present nor in future, if means could be devised of preventing it. This led to the discussion of the establishment of an international court of arbitration, to which all questions in dispute between the two nations could be referred for settlement, and already this idea has taken a strong hold upon the minds of the best thinking men of both countries. Strong societies have been formed in Great Britain and the United States for the purpose of furthering this object; and last week, on Washington's birthday, the people of the latter country gave this subject their chief attention at all their public gatherings. At the meeting in Philadelphis, held in old Independence Hall, letters commending the movement were read from President Cleveland and many men prominent in every sphere of life, while of those in attendance many were the leaders in commerce, education, law, the army and navy, and other branches of the public service. To have gained the sympathy and co-operation of these men is to have half accomplished the object sought. me the determination that there must

these men is to have half accomplished the object sought.

If, therefore, President Cleveland's famous message leads to the establishment of such an international court, as seems now very probable, it will surely come to be regarded as a very great blessing. Such an institution, by submitting for all time and for all matters in dispute between these two great

stion, by submitting for all time and for all matters in dispate between these two great nations a guarantee of arbitration instead of war would form a fitting termination of the many events which have marked man's progress towards a higher and better life during this wonderful nineteenth century.

—The gift of \$100,000 to Mount-Allison college, at Sackville, N. B., by the late Mr. Massey, the millionaire manufacturer of agricultural implements, of Toronto, is in deed a princely one and will prove an in expressible boon to that institution. Just now when our colleges are called upon to make additions to their staffs, in order to keep abreast of the scientific and literary progress of the age, such a bequest is a sort of godsend to a struggling institution, and will no doubt bring joy to the hearts of the members of the governing body and other friends of that college. It ought to place that institution on a sound financial basis and enable its board of management to make such additions to its staff of instructors, and such other improvements, as will place it in the front rank among the best of the arts colleges of the dominion.

Surely this is a better use for a wealthy man to make of a part of his money than to leave millions of dollars to his children, to the many event entertained at the residence of a part of his money than to leave millions of dollars to his children, to be a deal of the counter of the new company of our content and out the target of the many of our content and out the famination of the many out to make such additions to its staff of instructors, and such to the property of Mr. Silas Whitman, about the wester of the great manner, and where, a fater and outle, and the manne

these vessels carries seven dories and sixteen before. Report says that the early morning train from Kentville to Halifax daily will start trom Middleton instead of Kentville during the summer season. This will enable business men and others of the valley as far west as Middleton to visit Halifax and return the same day after spending several hours in the city. The small fruit industry would be especially benefited by such an arrangement as the fruit could be shipped in the morning and sold the same day.

A fast train from Halifax early in the day to connect at Digby with the first trip of the Prince Rupert daily is also one of the probabilities. These are extras, and with the

babilities. These are extras, and with the regular train service of the past two seasons should afford very excellent facilities for travel-everything in fact that could be de-

-THERE does not seem to be much oppowith it would apparently take but a short time-to settle this troublesome matter. A resolution condemning remedial legislation, moved last week by Mr. Pitts, an orange member representing York county, failed for the want of a seconder. Although Mr. Pitts coaxed about every member of the House to second his resolution, calling upon them by name one after another, no one would do it, so the matter had to be dropped. This is even a worse fate than Mr. McCarthy's resolution to deal have been far more serious.

will do, the majority will be but small,defeated, the government, so report says, will not resign, but will dissolve parliament at once and appeal to the people.

The Imperial Government has declined to come to the aid of the Nova Scotia Government, in connection with its scheme for abolishing the Province's Legislative Counretary refused to interfere with the Shortis sentence. The home authorities plainly

Presentation and Banquet.

Gordon & Keith's handsome stores and warehouse, facing on Barrington street and running through to Granville street, were burned to the ground, with all their contents, early on Sunday morning. Several other buildings and stock were more or less damaged, and the total loss will likely foot up to something in the vicinity of one hundred and fifty thousand dollars.

Luckily the weather was mild, and the wind low. Had there been a very brisk breeze at the time the conflagration would have been far more serious.

Association.

H. R. Shaw, of this town, and Frank, son of Warden Roop, are entering into a co-partnership for the purpose of conducting a grocery store in the thriving town of Middleton. A piece of land, 40x50 feet, situate on Commercial street, and adjoining the south side of Morrison's block has been purchased from Mr. C. C. Dodge, proprietor of the Middleton hotel, on which a new store will at once be erected.

—The Bridgetown Meat Market proprie-

McCarthy's resolution to the same elect met with last session in the Canadian parliament. His resolution was seconded, but only two members, McCarthy and O'Brien, voted for it.

—The present week is likely to prove the most interesting one of the session at Ottawa, as the remedial bill is to be dealt with. Various rumors are afloat concerning the probable fate of the bill when the vote on the second reading takes place. The number of government supporters who are likely to vote against the second reading of the bill is now reported to be about eighteen, which would make a difference of thirty-six on a division. If all opposition members also vote against it, as liberal papers declare they will do, the majority will be but small,—

The comedy drama entitled "Uncle Dan"; or, A Messenger from Jarvis Section," given in the Court House last Saturday inght by the Wallace Hopper Company, drew forth one of the largest gatherings that has been a similar occasion in that building for a long time. The entertainment was being the value as the result that arrangements are now being to Mr. C. Jackson, lumber contractor for Messrs. Pickols & Mills of Annapolis. During Mrs. Marshall's career, she had, by a closely studying the requirements of the trade, enjoyed a large share of public patronage, and her well-stocked establishment will be much missed by many residents of that neighborhood.

The comedy drama entitled "Uncle Dan"; given in the Court House last Saturday night by the Wallace Hopper Company; given for the wallace Hopper Company; given for the Saturday night by the Wallace Hopper Company; given for the section of the Bate and the satisfaction of the Suprama entitled "Uncle Dan"; given for the large state to Great Village for interment on Tuesday.

—Mrs. L. C. Marshall, of Paradise Cormers, Pickols & Mills of Annapolis. During Mrs. Marshall's career, she had, by closely studying the requirements of the trade, enjoyed a large share of public patronage of the season of 1896 by W. H. Townsend, L. S. Eaton, C. L. Dodge, o The comedy drama entitled "Uncle Dan'l;

dience. The Wallace Hopper Company is a strong one and well worthy the patronage of all those who appreciate dramatical entertainments.

The Weather.

After the severe cold experienced during the winter now drawing to a close, the unexpected thaw of the past few days has been anything but agreeable to our lumber operators and others engaged in the forest, as all work is now practically suspended. The thaw set in on Friday last and has unceasingly continued up to the hour of going to press, with the wind prevailing from the south, accompanied by slight showers. The going on runners on the main thoroughfares is at an end for the present, and in place of the beau-liful we are now compelled to use wheels. The fields are in many places bare, and appearances indicate a very early spring.

Mrs. Harris will be much missed by her many friends in town and also from her accustomed place in the choir of St. James' church, of which she has been a regular and efficient member for many years.

been a regular and efficient member for many years.

Miss Chipman, of Moncton, successor to Miss Blanche Tibbits, as organist of St. Luke's church, Annapolis, entered upon her duties on Sunday last. Miss Chipman is most highly commended by Prof. Watts and Mr. Daniel, organists in two churches in Moncton, and her old friend, Rev. J. Roy Campbell, R.D., of Dorchester, commends her in unqualified terms as a person of general culture, and congratulates the parish that is fortunate enough to secure her services. Miss Tibbits and her mother leave for Boston this week, carrying with them the best wishes of a host of friends, not only in the town of Annapolis, but also residents in many other parts of the county.

R. G. Leckie, T. B. Riter, of Riter & Connolly, iron and steel manufacturers of Pittsburg; and W. C. Coffin, engineer, of New York, arrived in Halifax on Saturday morning. They represent the Colonial iron, coal and railway company, incorporated last year by the New Brunswick legislature, and their mission to Halifax was to obtain infor their mission to Halifax was to obtain infor-mation regarding the comparative advan-tages afforded by this city for the erection of blast furnaces. They have already ex-amined the ground in St. John with the same purpose and Annapolis has also been repre-sented as a possibly desirable location. The penitentiary site near the people's heat and light property, was examined among other properties in Halifax. Mr. Leckie says that in selecting a site all the advantages of as-sembling the raw materials as well as the distributing advantages have to be considerdistributing advantages have to be considered. The gentlemen have obtained all the data required, will go into it thoroughly at their leisure and come to a conclusion at an early date. Mr. Leckie leaves this morning for Torbrook, and the others start for New York.

Dominion Atlantic Enterprize. It is reported that important changes are Dominion Atlantic when spring business Dominion Atlantic when spring business opens. One change proposed is the running of an early morning express from Halifax to Digby, there to connect with the Prince Rupert for St. John, where connections will be made with the train for Montreal and the boats of the International line for Boston, which are to leave in the afternoon instead of the morning as heretofore. Another of the morning as heretofore. Another change will be placing of sleepers on the coute between Halifax and St. John, an innovation new to the Dominion Atlantic. Business on the line is reported to be quite atisfactory, and it continues to enjoy the putation of being the best-paying piece of ilroad property in Canads. It revels in munity from troublesome rate wars, and content to answer the needs of its local flie, a sure source of paying revenue,—ston Herald.

Rev. Wm. H. Boole Dead. New York, Feb. 24 — Rev. Wm. H. Boole, one of the best known Methodist ministers in this state, died to day from heart failure. William H. Boole was born in Shelburne, N. S., on April 24, 1827. He became a Methodist minister of the New York eastern conference in 1856, and in company with other ministers of the association for the promotion of holiness, Mr. Boole went to Salt Lake City in 1871 and preached on June 11 before Brigham Young and the other heads of the Mormon church against polygamy, and his words were so earnest that a heads of the Mormon church against polygamy, and his words were so earnest that a
riot was narrowly averted. He hired
"Brown's rat-pit" on Water street, this
city, in 1899, and established there a mission
and home for fallen women. It met with so
much success that he afterwards bought the
building and established there various forms
of charities. He gave it up to assume a pastorate in Meriden, Ct., in 1877. He was
one of the founders and a trustee of Prohibition park.

HE DIED IN OHIO LAST WEEK IN THE NINETY-FIRST YEAR OF HIS AGE. Norfolk, Ohio, February 28.—Samuel Edison, father of Thomas A. Edison, the inventor, who died here Wednesday after an illness of several weeks, was ninety-one years old. He was of Dutch extraction and was born at Digby, N. S. When six years of age he went to New York, and removed to Fort Gratiot, Mich., in 1855. The old man was married twice, his second wife, the inventor's stepmother, surviving him. Thomas A. Edison has been all over Europe and has made frequent trips to Florida in the winter. "Tom is a good boy," said the old man on one occasion, "He sends me around to have a good time."

The Persecuted Armenians.

Toronto, Feb. 25.-The latest scheme for Toronto, Feb. 25.—The latest scheme for relieving the persecuted Armenians is to deport them to Canada and settle them in the Northwest Territories. At a meeting of the Toronto Ministerial Associacion yesterday Rev. Dr. Hunter stated that such a proposal was on foot, it being thought if the Dominion government would grant land for an Armenian Colony the British government might be appealed to for funds to aid in carrying out the project. A strong committee was formed to take the matter up.

On Saturday last Mrs. Asaph Daniels, of South Farmington, while going out the door of her residence, accidentally slipped and fell, resulting in the breaking of her wrist. Dr. S. N. Miller was called, and at latest reports the unfortunate woman was doing well.

DO YOU Want a Farm The subscribers offer for sale that valuable roperty known as the Beals Farm, at Williamston, wned and occupied by the late ELIAS BEALS, Esq.

BEALS, Esq.

It consists of between 175 and 200 acres, is well-watered, has a young orchard capable of bearing 200 barrels of apples, is well-wooded, with an abundance of good pasturage, and is in all other respects one of the most desirable properties to be found in the country, and the country of the co JAMES CURRELL, ROBT. FITZRANDOLPH, Executors.

Bridgetown, Feb. 17th, 1896.

(FERRYS SEEDS)

Miss Hattie Spurr is visiting her aunt, Mr. G. E. Spurr, in Torbrook.

Mr. W. H. Pierce, who was injured by the upsetting of a load of straw, is recovering.

Mr. Fred McNeil has purchased from Dr. Lyman the property known as the late Jacob Miller face.

Mrs. Scinnel left on Monday for Halifax, of the plant of the tread-daughter, Abbie Splinney.

On Friday evening a sociable was held at the residence of Deacon L. Baker. An enjoyable time was spent, and the sum of \$12 was realized.

Capt. E. F. MoNeil lost a fine young horse on Saturday evening. Should the 22d Batt. go into camp this fall he will have to train another.

Mr. Duncan Smith, purser on the Yarmouth and Boston steamboats, has purchased the Bishop property. Both of these farms have good orchards.

Enterprise Lodge, I. O. G. T. was favored on Saturday evening with a visit from a number of the members of Progress Lodge, Tremont, Kings county.

Miss May Clarke, of Bear River, who has been visiting friends in Melvern, returned to Lawrencetown with her cousin, O. P. Goucher, on Sunday last.

Mf. Frank Spinney for the last fortnight has had two teams hauling oak, pine and hemlock logs from H. Munroe's lot across the river, near Kingston Village.

The thaw has caused our atreets to be deserted to-day. Last week all was activity. Teams were hauling ice to Kingston were securing ice for their own use. M. W. Hudgins and brother are cutting for all comers.

Nictaux.

Two of our young men, Messrs. Wm. Rodgers and Hardy Neily, have gone to New York to obtain a business training.

Rev. J. W. Brown was called away on Monday to attend the funeral of his aged father, at Grafton, Kings county, who was for years a Deacon of the Baptist church in that place.

others. The parsonage reaps the benefit of the species of the proceeds.

May be not obtain a business training.

Rev. J. W. Erown was called away on Monday to attend the funeral of his aged for year a Denou of the Espitic hearth in that place.

A large number of the friends of Rev. The species of the proceed of the proceed will and appreciate the proceed of the pr

words be remembered by young and old.

South Williamston.

William Miller, of Port Lorne, is the guest of Jacob L. Beals and family.
William Eaton and wife, of Halifax, have

risiting friends here the last few days.

Thos. Charlton, who has been very at latest reports slowly recovering.

The shaffner arrived home last toston, where she has been pursof study.

Senger and Miss Marshall, of she were the guests of Mr. and Mr. Morse on Sunday.

Phineas Charlton, who has been conto the house the last two weeks through ss, is able to get out again. Since last Friday winter has taken a turn.

Since last Friday winter has taken a turn.

Now we have snow-banks, ice and mud.

On Tuesday evening, Feb. 25th, we were favored with a lecture by J. J. Ritchie, Q. C. He held the attention of the respectable and respectful audience for over an hour, while he explained the policy of the two political parties who are so soon to test their respective strength. At the close the National Anthem was sung, followed by three cheers for John B. Mills.

On Saturday evening we met at the hall for another purpose,—a pie social. Thirty pet to go.

Principal's C. Sheffear of Paradise and there is quite a quarity yet to go.

Principal's C. Sheffear of Paradise and the polity of the two political parties who are so soon to test their respective strength. At the close the National Anthem was sung, followed by three cheers for John B. Mills.

On Saturday evening we met at the hall for another purpose,—a pie social. Thirty pet to go.

Principal's C. Sheffear of Paradise and the near future to cancel. We

the English market and there is quite a quantity yet to go.

Principal S. C. Shaffner, of Paradise, and Rupert Shaffner, of Granville spent Sanday with their parents, Mr. and Mrs. George B. Shaffner, of this place.

Mr. Ernest Bishop of Somerset, Kings county, Miss Pauline Marshall of Bridgetown, and Miss Estella Marshall of Havelock, have been visiting friends and relative here the last week.

Mr. and Mrs. Bernard Ellictt, and Mr. here the last week.

## Lawrencetown.

Our sleighing here is about gone.
Miss Lottie Parker, of Berwick, visited friends here last week.
Rev. J. Howie occupied the Methodist pulpti last Sabbath evening.
Services for Sunday the Sth. Methodist 11; Baptist 11; Church of England 3.
Miss Josie Gates left for her home at Melvern Square on Monday for a month's vacation. Our sleighing here is about gone.

Miss Lottie Parker, of Berwick, visited friends here last week.

Rev. J. Howie occupied the Methodist pulpit last Sabbath evening.

Services for Sunday the 8th: Methodist 11; Baptist 11; Church of England 3.

Miss Josie Gates left for her home at Melvern Square on Monday for a month's vacation.

Miss May Clarke, of Bear River, who has been visiting at Melvern Square is again with her friends here.

Miss May Oakes returned from her visit at home on Monday last and is again at W.

E. Palfrey's west store.

The missionary service in the Baptist church Sunday evening was one of interest, but not convinced.

Mr. and Mrs. Milledge Best are spending their honey-moon at Mr. Albert Balser's, on Gates Mt. Mr. Best have just returned from Danvers Mass., where he has been for several months.

We learn that Miss Cielly McKenzie, who visited this place some time ago and won the affection of all who made her acquaintance, has now a namesake here in the person of Mr. and Mrs. Lockhart Hines, infant daughter.

Saint Croix.

Captain Jesse Neaves is again able to attend to his usual duties.

Captain Jesse Neaves is again able to attend to his usual duties.

Mr. James Hall left here on Thursday on a visit to his daughter, who resides in Mass.

Mr. Norman Milberry has lately purchased the property owned by Capt. S. Groves, at Granville Ferry.

Quite a number of our residents spent a very pleasant evening at the entertainment given by North Division, Port Lorne, which proved a grand success. The dialogues, recitations and speeches were interesting and instructive, and the Ethiopian performance, by two of the members, evoked much merriment. The W. M. A. of the Methodist Church had a successful oyster supper on the 29th. About \$16.00 was taken.

The many friends of Miss Annie Shaffner was pleased to see her return on Saturday last from the United States.

The lecture of Prof. Cox on astronomy was not well attended on Monday evening last, but the lecture was one of much information and instruction and proved that the lecturer was the master of his subject.

## Belleisle.

Owing to the big thaw our ice bridge i March has come in like a lamb.
A ripple on the political waters is become ing quite discernable.

Mrs. Seth L. Gesner is with her parents, Mr. and Mrs. R. L. Hardwick, of Annapolia.
We are pleased to state that Mrs. Mary A. Bent, who has been so seriously indigenced during the winter, is slowly recovering.
Mr. Obadiah Troop has been confined to his house for the past week, a wing had his leg very badly cut and bruised by a kick from an ox, that had been recently shod.
The Belleisle Division, S. of T., gave a free entertainment at their room on Thursday evening of last week. It was a very humorous and enjoyable occasion, and the parts were finely rendered, especially the singing. The hall was packed to the door.
The protracted thaw of the last few days will seriously impede lumbering operations.
The Goldsmith Bros. are very busy now and are Golds excellent work, with any amount of the control o March has come in like a lamb. leaving us.

Miss Morse, of Paradise, is visiting her friends here.

On Thursday night last a large team carrying twenty of our residents drove to Belleisle hall to an entertainment given by the Division. We wish to congratulate the members are their worses.

Very mild and spring like to-day.
Mr. and Mrs. Bernard Ellictt, and Mr.
Sands Harsenell, were the guests of Mr. and
Mrs. Lemuel Ellictt a few days last week.
The large number of young people from
this place who heard Rev. J. H. Toole's ser-

Captain Jesse Neaves is again able to at-

Round Hill.

Mrs. Lemuel Welton is improving.
Mrs. Charlotte Pelton has returned home after quite a lengthy visit in Massachusetts.
Mr. and Mrs. George Nelly, of Wilmot, made Mrs. Calvin Baker a visit last week.
On Friday night, 28th ult., the lodge deputy, A. H. Baker, of Progress Lodge, No. 301, I. O. G. T.; installed the following officers for the ensuing quarter: Frank Ford, chief templar; Grace Goucher, vice templar; Jennie Woodbury, secretary; Maggie Gordon, assistant secretary; Ida Welton, financial sec.; Alice Saunders, treasurer; Jennie Welton, chap.; Alb't Woodworth, marshal; Ethel Banks, dep. marshal; Howard Tufts, guard; J. A. Banks, sentinel.
On the 26th ult. a deep shadow was cast over the Torbrook Iron Mines and community by the death of Mr. Nowlan, the trusted and efficient secretary of the mines. His remains were interred in the Tremont cemetery on Friday last, under the auspices of the Orange Lodge, which ceremony was imposingly and beautifully carried out. Of this order he was a worthy member. The sermon was delivered by the Rev. Mr. Gaetz (Methodist), the impressiveness of which will long be remembered.

More Octocernatians.—In your last issue I noticed a list of octogenarians of the upper part of Annapolis county. By just crossing the line into Kings might be added the worthy name of Archibald Walker, Esq., who has reached the advanced age of eighty-seven years, and is still living at Kingston where he is extensively and honorably known; and with the exception of failure in his eyesight, the aged gentleman is enjoying apparently good health. Also we might mention three of the family of the late William McGregor, two sisters and a brother,—Polly, Allen, and Zelucy,—who have been residing together for over forty years, aged respectively eighty-six, eighty-two and seventy-seven, and although the eldest, Miss Polly, has attained so great an age, she weaves an nually hundreds of yards of floor carpeting and also a large amount of woolen cloth; and we will challange the two counties to produce another at the

Quite a number of our old residents are on

March is April like. The W. M. A. Society meets at Mrs.

The W. M. A. Society meets at Mrs. Forshye's.

The Literary Society meets next week at Mr. H. W. Longley's.

No very marked change in the sick ones. The families who have had the measles are doing well.

The Division had a very pleasant evening at Round Hill on Friday evening; fine weather, good sleighing, and best of all a remunerative audience.

Mrs. Marshall's auction on Saturday afternoon and evening was well attended and a large quantity of goods was disposed of. She has, however, removed a large and varied assortment to her dwelling house, which she will be glad to dispose of to any who may wish articles such as she had in her store.

Samuel Neaves and family moved to Ogil-Samuel Neaves and family moved to Ogilvie wharf early last Friday morning.

The late thaw has carried away nearly every vestige of snow from the fields.

Rev. F. M. and Mrs. Young, of Bridgetown, were the guests of Rev. E. P. and Mrs. Coldwell on Thursday last.

The entertainment at the hall was a great success, and the entire programme was listened to with marked attention by a crowded house. Quite a number of visitors were present from Flasblight Division.

## Correspondence.

Mr. and Mrs. Langille a donation, and over \$13.00 more were added to the former donation funds.

The temperance concert given by the young people in Mrs. Sandford's hall on Thursday evening was listened to with rapt interest and was a success financially.

Mrs. A. S. Potter and Miss M. E. Banks attended the wedding reception of Mr. and Mrs. John W. Banks at their residence, Inglisville, on Monday, Feb. 24th.

to clause 93. It was by virtue of this section that Manitoba was enabled to pass her free school law of 1890, and yet Mr. Ritchie deliberately led the audience to believe that there was nothing in the B. N. A. Act relating to the educational matters of the province of Manitoba.

Now what are the exceptions as contained in sub-sections to section 93. Sub section 3 says:

or dissentient schools exists by law at separate or dissentient schools exists by law at the union, or is thereafter established by the legislature of the province, an appeal shall be made to the Goyernor-in-Council from any act or decision of any provincial authority affecting any right or privilege of the Protestant or Roman Catholic minority of the Queen's subjects in relation to

minority of the Queen's sunjects in relation to education.

SUB.—SEC. 4.—In case any such provincial law as from time to time seems to the Governor-General-in-Council requisite for the due execution of the provisions of this section is not made, or in case any decision of the Governor-General-in-Council on any appeal under this section is not duly executed by the proper provincial authority in that behalf, then in every such case, and as far only as the circumstances of each case require, the parliament of Canada may make remedial laws for the due execution of the provisions of this section, and of any decision of the Governer General-in-Council under this section.

Mr. Ritchie's contention that the word may in this act is of the same force as shall must have been a most painful trial to him, under the circumstances. To have admitted before the meeting that it does not have the same force as the word shall, would have broken the backbone of his previous argument that the Dominion government was bound by the constitution to pass remedial legislation. To escape the horn of the dilemma on which he would have been impaled he had to deliberately tell his audience that in this case the word may meant shall. How are the mighty fallen!

Yours very sincerely,

Bridgetown, March 2nd, 1896.

Montreal, Feb. 28.—The Trade Bulletin Business in wholesale circles begins to show signs of gradual improvement as the spring advances, and buyers in various lines are beginning to anticipate their requirements. Quite a number of our merchants, however, complain of difficulty in getting the usual increase in their credits at this season of the year, bankers telling them that funds are scarce.

DRY GOODS. THE HAY TRADE.

THE HAY TRADE.

Although the market on spot is firm, owing to light stocks, on the whole the volume of business is small, and below the expectations of dealers. New business is scarce both here and in the country, and very little hay is being delivered at interior points, owing to the late extreme cold weather and blockaded roads. Advices from New York report a fairly steady market there with prices firm for No. 1. From Toronto the reports are less encouraging, sales of car lots of No. 1 Quebec hay having been made at \$14 and \$14.25. The market there is dull and overstocked. A few care continue to go forward from the interior to New York, but they are old contracts. they are old contracts.

LATEST ON CHEESE.

A lot of about 1,600 boxes of September and October goods under finest has just been sold at 8½c, showing a loss to the seller of about 1c per lb. Finest western fall is quoted at 8½c to 9c. There is a little better feeling by cable advices to-day, one cablegram reading: "Dulhess breaking away; more business passing, but at no better prices. Look for improved values soon." It seems that the recent low prices for cheese on the other side have been caused by the immense quantities of cheap Danish bacon, and New Zealand frozen mutton that have been dumped on the English markets, which of course have had their effect on the cheese market.

Dr. Sexton is visiting our village and vicinity, preaching and lecturing to full houses, which show that his discourses are appreciated.

As the month of February ends a thaw begins, and up to the present writing is still in progress with prospect of completely destroying the sleighing, which has been good so long we are loth to part with it.

J. G. Clark has his store completed and filled with goods, and now we are called on to rebuild a house for one of our old and respected citizens, Alex. Russel, who had his house burned last week. It is supposed the fire originated in a barrel of ashes in an out building, which was burned, with valuable articles. Most of his household effects were saved. No insurance. SPECULATION IN PORK.

The flour market has undergone very little change since our last report, the local demand being fair, but by no means active, as buyers are more cautious. Still there have been sales of straight rollers at \$4 to \$4.10 and of Ontario patents at \$4.25 to \$4.35. Last week sales aggregating about 7,000 to 8,000 bbls. of straight rollers were made at f.o.b. prices at the mills west of Toronto, but said to be equal to our quotations in Montreal, although from one letter from the west submitted to us we should imagine the prices were below the basis ruling here. Strong bakers remain quiet and prices are a little irregular. Millers still contend that at the high prices they have to pay for their wheat there is no profit in flour.

Receipts of oats have been more liberal, and prices are easier. Sales of car lots of No. 2 white were made on this market at the beginning of the week at 31½0.; but yesterday sales were made at 31c., with more offered at the same figure and not taken. Sales of mixed at 29½0. to 30c.

The butter market remains steady under a good demand for local requirements, fresh creamery selling at 21c. to 22c., with selections of single tubs bringing a shade more money. A lot of 30 pkgs. of old creamery, said to heve been well kept, sold at 1% to Dairy butter does not appear to be wanted at any price. There is some old western butter here that will be difficult to dispose of few more than 8c, or 9c. BUTTER. of for more than 8c. or 9c.

THE BOSTON LUMBER MARKET. The lumber situation is still encouraging to the mill men and dealers. Trade is in fair shape here, and reports from the lumber regions are more favorable than any that have been received before this season. Prices are well sustained, and many kinds of lumber, give indications of selling higher

To the Editor of the Monitor:

At the Conservative meeting on Friday evening, addressed by Mr. Ritchie, I propounded the following question, i. e.: "Is there anything in the British North America Act which compels the Dominion parliament to interfere in the educational matters of Manitoba." In the course of my remarks I opposed the contention held by him that the government was bound by the constitution to give a remedy, and based my argument on the fact that the word may was not mandatory or compulsory, but only permissive, and simply conferred upon the government the power to give a remedy if they thought proper to do so.

It must have surprised a great many of those present to hear the answer given to the question by the gentleman learned in law. It is answer was that he could not find anything in the British North America Act compelling the government to give a remedy because that the province of Manitoba was not then in the union. It will be sufficient simply to ask if the British North America Act does not apply to any province coming in after the union as well as to those provinces which were in existence at the time of the union.

Section 93 of the B. N. A. Act clearly sets forth that the legislature of each province may exclusively make laws in relation to the demicok, \$11.75 to 12; random do, \$11 ted hemlock, \$11.75 to 12; random do, \$11 ted the union.

Section 93 of the B. N. A. Act clearly sets forth that the legislature of each province may exclusively make laws in relation to education, subject and according to certain provisions which are set forth in sub-sections to clause 93. It was by virtue of this section that Manitoha was enabled to pass her free \$2.75 to 3; clears, \$2.40 to 2.50; second clears, \$1.90 to 2; extra No. 1s, \$1.50 to 1.75; No. 1, \$1.50.

Antipodal Storms.

WHOLE VILLAGES DESTROYED AND OVER New York, Feb. 28.—A special to the Herald from Victoria, B. C., says: The captains of the vessels arriving here faom Australia bring information of a terrible storm which has devastated the coast of Queensland. There were furious hurricanes and a fearful downpour of rain, which flooded the entire district. More than one hundred lives were lost, it is reported. Whole villages were destroyed. Thousands of houses were wrecked and with other property destroyed on shore the damage is estimated at half a million pounds sterling.

Three weeks before this great storm a hurricane visited the Hapal group and in Liouka and the neighborhood two hundred houses were blown down. The damage to the cocoanut trees was so great that it will take the island two or three years to recover from the effects. HUNDRED LIVES LOST.

this section.

And yet Mr. Ritchie said there was nothing in the B. N. A. Act relating to the province of Manitoba as respects this question of remedial legislation. Is not section 22 of the Act of 1870, admitting Manitoba to the union, founded upon section 93 of the B. N. A. Act, and without section 93 of the latter act section 22 of the Manitoba act could not have been passed.

Mr. Ritchie's contention that the word may in this act is of the same force as shall. to secure our root supply. The Lines are nounces that the government intends to devote the bulk of the money which would otherwise have gone automatically to reduce the national debt to increasing the navy on the lines of the bill introduced by the Radi-

Church Services, Sunday, March 8th.

In Advanced Years

The strength and pure blood necessary to resist the effects of cold seasons are given by Hood's Sarsaparilla. "I have for the last 25 years of my life been complaining of a weakness of the lungs and colds in the head, especially in the winter. Last fall I was again attacked. Reading of Hood's Sarsaparilla I was led to try it. I am now taking the fifth bottle with good results. I can positively say that I have not spent a winter as free from coughs or pains and difficult breathing spells for the last 25 years as was last winter. I can lie down and sleep all night without any annoyance from cough or pain in the lungs or asthmatic difficulty." E. M. CHAMBERS, J. P., Cornhill, N. B.

A SUFFERER FOR TWELVE YEARS WHOSE TROUBLE WAS AGGRAVATED BY KIDNEY ISEASE TELLS HOW TO REGAIN HEALTH AND HAPPINESS.

From the Smith's Falls Record. Since the Record began to publish accounts of the cures by the use of Dr. Williams' Pink Pills, its representatives have found that half the wonderful cures effected by this medicine have not yet been given to public. Women as well as men who have found relief are eager to let the facts be known for the benefit of other sufferers Among them is Mrs. James Cotnam, of the

SUFFERED FROM SEVERE HEADACHE. The lady referred to was for twelve year a constant sufferer from nervousness, headache and kidney trouble. Having read so much about Dr. Williams' Pink Pills she de termined to give them a trial. Their use for a short time brought a great improve ment, and after taking them for about month the nervous headache and kidney trouble left her. The degree of thankfulas the above can better be imagined than de scribed. Here are Mrs. Cotnam's words "If you could only know or if I could but tell of the intense suffering which I have endured and the many sleepless nights I have spent in mental and physical agony, you would not wonder at the degree of thankful ness I feel for my restoration to health." Her trouble was a continual dread to her, and for a long time prevented her from doing any work. Since using the pills she is as well as ever-or to use her own words-"fully restored." In this household Pink Pills are now looked upon as one of the ne-

As is the case with every good cause Pink Pilis have much to contend with; spurious articles have been placed on the market, and, though in appearance and color they may resemble the genuine, they have an altogether different effect on the system. The writ-er was once in a store when Pink Pills were asked for by a customer. The dealer hadn't them but said that he had something "just as good." The public are warned against this " just as good" scheme which is too often resorted to by some store keepers. It should be borne in mind that Dr. Williams' Pink Pills are a specific for all diseases arising from an impoverished condition of the od or a shattered condition of the nervous forces, such as St. Vitus dance, locomoter ataxia, rheumatism, paralysis, sciatica, the after effects of la grippe, loss of appetite, headache, dizziness, chronic erysipelas, scro-fula, etc. They are also a certain cure for the troubles peculiar to the female system, correcting irregularities, suppressions and all blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses o firm's trade mark and wrapper (printed in red ink), and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady. N. Y., at 50 cents a box, or six boxes for

A Warning to Cigarette Smokers.

One of the most terrible warnings against cigarette smoking was given not long ago by a charister boy in one of the Brooklyn churches, who died in great agony at St. John's hospital. This is the story as given in the "Laws of Life."

Almost his last words were "Let any boy who smokes cigarettes look at me now and know how much I have suffered, and he will never put another into his mouth." He was a bright boy, an exquisite singer and had many friends. He lived with his grandmother and worked in a chandelier factory

Here is his story as he told it to his nurse, his trouble had originated from cigarette smoking. Some days he said he smoked cigarettes. At first he kept his grandmother in ignorance of his indulgence. As he continued to smoke the appetite grew on him with such force that he was unable to break it off, and it began to affect his constitution. "Why," I asked him "did you not stop when you saw what it was bringing you to?'

Oh, I could not," he replied. "If I could not get to smoke I almost went wild. I could think of nothing else. That my grandmother might not suspect me, I would work extra hours instead of spending my regular wages for cigarettes. For months l kept up this excess although I knew it was killing. Then I seemed to fall to pieces ail of a sudden." His disease took the form of dropsy in the legs and was very painful.

Sister Cornelia continued the story "During all his sufferings he never forgot what had brought him to his terrible condi tion. He kept asking me to warn all the boys against their use. A few days before he died, he called me to his bedside and said that he thought he had not lived in vain if only those boys who are still alive would profit by his sufferings and death."

There is no form of tobacco so danger as cigarettes, because the nicotine in the smoke is not absorbed in the loose tobacco smoked clean up to the end, but is taken, un filtered and undiluted into lungs. It was not the poison in the paper but the poison of the tobacco which killed Samuel Kimball, and is ruining the health of thousands of other pale-faced boys.

For Boys' Guidance.

SOW A CROP OF WHEAT AND REAP A HAR-"Don't be deluded into the belief that i s smart to know things that you wouldn't like to tell your mother," writes Ruth Ashmore in an article on "That Boy of Mine," in March Ladies' Home Journal. "Don't think it is smart to listen to stories that are not nice and which are about women. Gentlemen never unite in deriding women -that is a peculiarity of cads. Never read a book that you could not share with your sister, and never look at a picture that might no be framed and hung in her room. What You think somebody will call you 'girly' Oh, no, my dear boy. If anything is said conduct there will be approbation given you, and the chances are that the older man will say of that younger one who is properly modest, 'Brown is a nice fellow; I should like him to come and see my daughters." It is not necessary for you to see the folly of anything. That is an exploded Why should you sow a crop of wild pats? Why not sow a crop of wheat and get a harvest worth having? From day to day, my boy, you make up the story of your life, and it is the little things, the little hones things, that will make you a man, mentally as well as physically."

Well-Managed Indians

It seems to me that the statesmanship o Canada has settled the question how to deal sion that in this Canada stands

Gen. Sheridan is credited with the atrocious remark that the best Indian is a dead Indian. Canada has shown that the dead Indian is the very worst Indian. In 1892 the Indians of Canada produced 181,-740 bushels of wheat and 339,632 bushels of orops in proportion, as well as \$1,309,474 worth of fish, furs, and other industries. Dead Indians could not have done these things. It is to the credit of Canada that she is converting what was a danger to the State into a strength to the State. It was not the Indian's fault that he was degenerating-it was his destiny; it is not our fault than those to which he put it-it is our mission. But it would have been our fault if we had looked on the Indians' vast territories merely as outlets for our surplus population, without considering the claims of the occupiers to our aid, our protection, ay! and to our sympathy, as men with souls and as

British subjects with rights.

It would have been our fault and our shame if we had regarded the Indians as we regarded the wild beasts, the natural evils of a new country, to be gradually removed in the process of settlement. Canada was kinder and wiser. When the Indian sent up his wail of lamentation, "We are miserable and wretched, our pipes often cold, our tents melancholy," he did not cry of deaf ears. The redman was not allowed to sicken beprosperity. Canada has saved the Indians, and in doing so she has profited herself. It is argued by many that, figures notwith-standing, the Indians are dying out. Even if this be so, surely it is better that their last words be words of thankfulness and blessings for the good done to them, rather than im precations and curses against those whom destiny has placed to rule over them.

Extensive Use of Canned Goods. It is really surprising the variety of things o eat that are put into cans. As as matter of fact, one can live, and live comfortably, on canned foods alone. "I can stock your house," said å big wholesale grocer, "so that you need not make another purchase of food for five years, and you shall have every day a perfect dinner of soup, fish, entrees, roasts,

its, pudding, cheese, and coffee, all canned goods." Canned goods, though, have proved themselves of the greatest value to the traveler from the fact that an enormous amount of nourishment can be carried in an exceeding-ly small compass. The Arctic explorers first found out the value of canned meats and vegetables, and in this way were able to travel with less hardship and to do things which would have been impossible had it been necessary for them to depend upon

food in its original form. When the Greely expedition went away in 1881 a large quantity of pemmican was put on board. A large part of it was not consumed on the trip, and on the return of the explorers it was sent back to the firm from which it was bought. When the Peary expedition was being fitted out, ten years later, and the same firm was doing the providing, they opened sample cases of this pemmican and found it to be in as good condition as if fresh made. So it was sent out with Peary, and on that explorer's return to New York what was left proved to be as good and as nourishing as it had been in 1881.

No expedition of recent date has plunged into the Dark Continent without being well equipped with tin boxes of all sizes and varicties. It is said that there is no desert plateau in any part of the earth where one is not liable to run across an empty beef can. Translantic steamers and sailing vessels about to start out on long voyages use these goods in great quantities, because they keep so well and because they can be stored so

High Prices For Novels.

The boom in prices for the work of successfortune of successful prospectors of gold mines. At the time the contract was finally settled I informed you that Mr. Du Maurier had received £10,000 from Messrs. Harper for his forthcoming novel. The price is princely, but the American publishers were confirmed in their judgment by the fact that a London firm, Messrs. Smith, Elder & Co., had voluntarily approached the author of "Trilby" with a similar offer. Mrs. Humphrey Ward, whose business affairs are managed by an expert, has, after a somewhat prolonged campaign, signed a contract whereby she will also receive £10,000 for her next work, which is to be published simultaneously in the United States and this country. The latest record price has been paid to Mr. Conan Doyle, who for his new novel "Rodney Stone," the opening chapters of which appear in the current number of a magazine, has received a check for £7,000. The payment of £10,000 for the copyright of a novel is not unrecorded. The best known case is that of "Endymion," the transaction proving so unremunerative to the publisher that Mr. Disraeli generously offered to make part repayment. But there is certainly no case where within a period of six months an aggregate of £27,000 has been paid to three elists contributing each a single story.— Ediuburgh Scotsman.

Fortunes From Judicious Advertising.

J. C. Ayer began life as a drug clerk and advertised Cherry Pectoral in a small way, but when he died he left a fortune estimated at \$15,000,000. C. I. Hood began "that tired feeling" in a small way in 1870, and is now rated as a millionaire. A. B. Scott and Browne, was working at a moderate salary twenty years ago; to day his firm is spending \$1,000,000 a year for advertising. Brent Good, proprietor of Carter's Little Liver Pills started on a cash capital of \$840, and now cannot spend the money he is making; and many the same way. Judicious advertising has made it possible for Seabury & Johnson to spend annually \$50,000 on popularizing their products; W. I. Hanson Company \$500,000 on Pink Pills for Pale People, and Wells, Richardson & Co. \$500,000 Paine's Celery Compound. Dr. A. L. Helmbold was at one time a retail druggist in Philadelphia. He finally began the manufacture of his Buchu Compound, and put his entire surplus capital of \$2,000 into a contract for one month's advertising, and in a short time comparatively, was enjoying a clear income of \$150,000 per year, besides spending as high as \$250,000 annually in advertising. Orange Judd, the publisher, owed his first success largely to the mistake of his office boy in ordering a page advertisement instead of a column, as instructed.

Good Results Observed Good Results Observed.

Rev. Dr. McLeod, Thorburn N. S.: "I have in several cases observed the good results of your remedy for dyspepsia in my congregation, I have no hesitation in recommending it as a useful remedy."

Prominent men throughout our land witness to the merits of this great remedy. GREAT because it cures. Free sample K. D. C. Co., Ltd., New Glasgow, N. S., and 127 State street, Boston, Mass.

—In Japan the currency is on a silver basis, with the result that \$100 in gold is worth \$218 in money of the realm. —The marriage rate in England and Wales during the last quarter of last year was lower than in any previous like period. Agricultural.

Milk, butter, poultry and eggs are ducts that can be marketed every month in the year. One is not compelled to borrow before selling such products. The success 0 bushels of wheat and 339,632 bushels of tatoes toward feeding the world, and other a few and breed for what they want. Their progress may be slow, but by beginning in a moderate way, giving particular attention to the use of improved breeds, they reach in a few years a secure position, as they have receipts coming in daily from such products,

and are enabled to have ready money at all Any plant not desired on a farm is a weed Some weeds cannot easily be destroyed, and yet they can be utilized at times. A farmer who had difficulty in getting rid of white mustard turned sheep on it. The sheep gave a good profit, and as the mustard was then a profitable crop it became desirable, and no longer a weed. He had to resort to sowing mustard seed in order to keep up the supply

the second year.

It costs a large sum on cold days in order to keep animals warm. They have no stoves as sources of heat, being warmed by food eaten. The animal heat must be sufficient to enable them to endure severe cold. This heat, which is created, is an expense to be borne first of all, as the gain in weight will be according to the excess of food over that necessary to supply the ordinary necessities of the animals. The way to save a portion neath our civilization and to die amid our of this expense is to provide warm and dry quarters. Good shelter is something which pays for its cost in one or two seasons.

are more liable to be filthy than clean, as the cows are kept at the barnyard nearly all the time. It is impossible for the milk to be clean when the sides and udders of the cows show the effect of the filth on the floors of the stalls. Good bedding and stanchions are aids to cleanliness, but the cows should be brushed and the teats and udders washed before milking.

Experiments made show that good butte an be made at a cost of 13 cents per pound, but the cost may be more or less, according to management, breed and kind of feed. The skill of the manager is more important than the food, as injudicious feeding may occasion a loss. Each cow is an individual whose preferences and characteristics should be studied and understood.

Shade Trees.

Farm News notices the fact that the fashon of setting shade trees is becoming almost niversal and it is one that should be encouraged, for they are both picturesque and iseful, and add much to the appearance of a home. When this is being done, though, care should be taken not to set the tree where they will be in the way at some future time. When setting trees try to imagine how they will look when full grown and ther you can easily determine where they should stand. The primary object of a shade tree is, of course, the cool shade they provide but this is something that can be easily over done. We know of more than one house that is shaded until it is gloomy, and that is not the object of shade about a house. As sunshine is the greatest and best disinfectant and deodorizer the trees should be set so as to allow the sun to strike every part of the house and shine into every window that it could reach if the trees were not there Again the trees should be set in places where they will never interfere with views from the windows of the house unless there may b some that it is desirable to use the trees as trees make the best living screens for they are there the year through. Too many trees in a yard is not as bad as none, but they spoil the effect. We have many natural trees that make perfect shade trees, and the nurseries furnish many ornamental sorts that look well in a yard. Set shade trees by all means, but do not set them so as to keep sunshine from the house, and spoil your out-

Give Cows Clean Water.

Impure water is the best medium yet discovered for the transmission of germ disease o animals. Substances may be brought into existence in which microbes will multi ply faster and live longer, but these sub stances must be artificially produced at considerable pains and need not be at all considered in the production of disease amo farm animals in the business of stock raising In water rendered impure by the presence of decaying organic matter practically ever disease producing microbe will live and multiply; hence impure drink not only reduces thrift, but is also the most fruitful medium to introduce germ diseases among farm animals. These diseases are generally the most virulent and dangerous. Take, for example, specific swine plague. The suis bacillus soon dies in pure water or pure air, but in water contaminated with decomposing organic matter it will live for weeks. An mpure water containing suis bacillus is sure to produce swine plague in the animals drink-

There is little excuse for forcing farm animals to drink foul water, for nowadays pure water can be provided certainly and easily. During the last 25 years there have been great improvements in implements and ma chines for watering live stock.

Women in Dairies.

Modern machinery has taken away every ne of woman's occupations from her-spinning and weaving, sewing, and last, of but ter making. The milkmaid poetry has van ished. But women must not for that reason give up the dairy business. Women as well as men can manage dairies. They can avail themselves of the best machinery in market, read and think and keep up with the times in butter making, cheese manufacturing and milk and cream selling and make a prosperous living for themselves just as they did in the olden times when the poets sang of the milkmaid. There is something in woman's quick fingers and dainty cleanliness that is particularly adapted to the improved methods o butter making. Thousands of women are to-day earning good livings in the various branches of dairy occupation, and thousand more can do the same.

Preserving the Old Orchard.

If the orchard is worth preserving and caring for, it should not be kept in grass but cultivated frequently, up to about the middle of August. Crimson clover might then e sown; if it does well, some pasture would be secured in late fall and early spring. Replow another year and continue the cultivation as in the first year. If crims clover does not succeed in your land and lo cality rye might be sown in order to keep the ground well furnished with humus and preserve its power of retaining moisture in dry weather. But if conditions are such that it seems advisable to seed it down, then sow four to five quarts of timothy, two of red clover and one of alsike per acre. In addition to this it might be well to add about two pounds of orchard and tall meadow fescue if good seed can be produced. If the land is not run together and is friable on the surface, it need not be plowed. Cultivate harrow and sow the seed as early as possible

Minard's Liniment Cures Garget in Cows.

Quality Superior to Quantity

'My dear," said a New York man to his wife, after perusing the evening paper, "are you aware of the fact that a man's brain eighs three and a half pounds?"
"You've just read that, haven't you?"

"Well, doesn't that article say that a woman's is somewhat lighter?" "And it also informs you that a woman's in is much finer quality?"

Well, then, just concentrate your three nd-a-half-pound intellect on that scuttle, and figure out how much it will weigh after you bring it up full of coal from the cellar." The man with the great head departed for the lower regions in search of information.

Eastern Passage, Halifax, Dec. 15th, 1894. C. GATES, SON, & Co. C. GATES, SON, & Co.

Dear Sirs.—My son Spurgeon has been sick with Liver trouble for a number of years, and we have tried every medicine that we could hear of without his receiving any benefit until he used your LIFE OF MAN BITTERS AND SYRUP, which have made a cure of him. As this may be of benefit to others you are at liberty to publish it. Yours truly,

BARBARA A. NEWCOMB.

Coal! Coal! HARD COAL

Furnace, Egg, Stove and Chestnut. SOFT COAL. OLD MINE SYDNEY.

GEO. E. CORBITT. ALL KINDS OF JOB WORK NEATLY The Kousehold.

'thrifts." Among these is "the plaything

which is called the furnace." The chimney

open and beneath it is a blue and white tile

ox, with a drawer beneath for wood. In

the top of the "stove" are two fire boxes,

one burns charcoal at the rate of 5 cents a

day on really busy days. A piping hot fire

can be made in one of these boxes in about three minutes, there is no waste of heat or

uel, and there is many a weary American

mother who would rejoice and be glad if she

she could keep clean with a dishcloth, fuel

she could put in with a spoon, and ashes she

ould carry out in a saucer.

Over the fire or on the side next its heart,

there is always the never-failing soup kettle

terical lump in her throat, that is good

sense. When a French housekeeper makes

her clear bouillon it is a matter for rule, but

into the everyday soup kettle goes every

scrap of food in perfect condition and un

weetened. A crust of bread, a slice of

apple, a bit of cauliflower, a shred of cab-

bage, a piece of bacon, a couple of chicker

wings, one follows the other, day in and day

out, until by some unlucky chance it runs

With the coffee and bread first, breakfast

established as a matter of national custom,

oup, or at least the foundation for soup,

eady for both luncheon and dinner, the

kitchen and the cookstove lose half their

error for the Frenchwoman. With ways of

cooking meats whereby they almost cook

from the baker, salad, cheese, and fruits for

desert, that is why life sits more lightly on

the banks of the Siene than on many who dwell on the other side of the Atlantic.

Art of Walking Well.

Have you ever noticed how few women

valk well? Nowadays, when the streets are

full of all sorts and conditions of women, you

all the time how they must do it, and the

esult is an affectation worse than any awk-

wardness. French women have a lous? If

u want to walk well, hold yourself erect

on't throw shoulders back, though you

have probably often heard that piece of er

ral position. Don't put your toes down firs

like a dancing master, but try to make both

heel and ball of the foot touch the ground at

once. Hold your body firmly, your head

ombs and hairpins to confine obstreper

locks that otherwise would hang like a

mussed shawl fringe over throatband and

collars, and, not least of all, for dressy occa-

sions there are these adjustable fichus. A

clean ugly girl is infinitely more attractive

than a pretty dirty girl. It is shocking to observe how many neglect the apparently

appearance. Ill-kept teeth, finger nails and

hair, buttonless shoes, ragged dress braids,

sagging waistbands and soiled, untidy laces

would detract from the personal charms of a

-- Eggs are a standard breakfast dish, and

there are so many ways of serving them that

t is a common saying that they may be pre-

pared in five hundred different ways. We

have boiled eggs, poached eggs, fried eggs,

eggs on toast, scrambled eggs, steamed eggs,

eggs used in omelettes, custards, and salads

Simply boiled in the shell, they are palatable

and wholesome, and the best way of doing

this is to put them in cold water on the

stove, and take them out when the water

boils. The gradual heating prevents the

brittle skin from forming next the shell. It

is a mistake to think that rare eggs are more

digestible than eggs well done. There is a

waxy stage which the yolk acquires after five

ninutes boiling, but, if cooked for ten min

utes, when the yolk becomes friable and

mealy, they are quite as digestible as soft-

Wedding Breakfast Menu

A simple menu for a wedding breakfast is

the following: Scalloped lobsters in indivi-

dual shells, chicken salad, rolled bread and

outter; very carefully-prepared tougue,

pretty shapes, bread sticks, ice cream and

fancy cake, the wedding cake, hot tea, coffee,

-"It amuses me," says a physical culture

eacher, "to hear mothers tell their children

to hold their shoulders up. It is the chest not the shoulders, that needs attention. If the chest is raised the shoulders fall naturally into a proper position. I tell my pupils to imagine a ball at their throats which they must roll off over their chests."

Tomato sauce is a nice looking as well as appetizing garnish for a head of boiled cauliflower. Put a tablespoonful of vinegar into the water in which the cauliflower is cooked to prevent it from turning dark. Make a puree of canned tomatoes; season well with

butter, pepper, and salt, and pour arouthe cauliflower.

ocolate and iced lemonade.

from the first reader:

Can the cow run? Yes, the cow can run. Can the cow run as fast as the horse? No. the cow cannot run as fast as the horse."

"Chimminy!" thought Jimmie; is 'at all?

'At's dead easy." His hand was up in a twinkling in imitation of several others.

His interested face caught the teacher's eye, and she said:

could find in her Christmas stocking a stove "Well, James, you may try it, but be careful and get it right. You may stand up

by your seat."

Jimmie arose. Ordinarily he was not bashful, but now his face was flushed and he —a wholesome custom, economical one, and one which every American woman who diswas trembling with importance as he said: covers it clings to faithfully. A bowl of soup to a hungry child or a beggar, a cupful herself as fast as de horse? Naw, she ain't soup to a hungry child or a beggar, a cupful when the mother herself is tired and a hysin it wid de horse, see!" The teacher was overcome, but neverthe

It was in one of the cozy villages of bonnie Scotland, where gossip is the chief barter and church the chief duty of every "mon" and all the "weemin." For once gossiy

suddenly grown unpopular, and the numbers of his congregation were steadily diminish thing must be done; so he concluded to do little house-to-house missionary work, and thus arouse more interest in church affairs. But his enthusiasm was short lived. The first man he accosted was Tonald Campbell,

ing tendencies.
"Tonald," began the minister, "for why were ye no' at the kirk last Sawbath?" "I was at Mr. McShouter's kirk, meer

HEAD CLERK FOUND THE OLD MAN WILLING

The following story comes from the west: prosperous proprietor of a considerable clothing business in a country town. He had in his employ one John S., whom he had adup, your chin in, and walk a great deal with vanced from cash boy to head clerk, and who had for many years been an attache of

merchant's desk with another request for an increase of \$10 per month. "Vy, Shon,"

could not get along without me." "Grace," said the older woman, looking "Mein Gott! Shon, vot vood I do suppose you vas to die?"

"Well." hesitated John, "I suppose you would have to get along without me then. "The "old man" took several whiffs from his big pipe and said nothing. At last gravely remarked: "Vell, Shon, I petter gonsider yourself dead."

There is a man in Taylor knows how to mortgage cows. The zuma Record knows this man, and for him. The man is a farmer, and rec ly a collector called on him for the payr of a note secured by chattel mortgage.

"Well, I'll have to take the eleven co named in the mortgage." "Oh, no, you haven't got eleven cows on this farm."
"Why, yes, I have." And the collector

as follows: " One red and white cow, one cow spotted red and white, one red cow with white spots, one cow with white spot in forehead. white cow with red spots on side, one white fore feet, one white cow with red spots on shoulders, one red cow with white spots on hips, one white cow spotted with red. 'Now, how do you like that?" continued the
