

RUCTIONS IN CITY COUNCIL AS PERSONALITIES FIGURED

Controller O'Neill and Ald. McBride Expressed Their Opinions of Each Other in Plain Language — Queen-Bay Widening Ordered and Hospital Grant Passed.

There were ructions in the city council yesterday afternoon. Ald. McBride intimated that Controller O'Neill was especially interested in restoring a contractor's deposit on a withdrawn contract. The row that followed was an interchange of such bitter personalities that the demands for order could not be enforced by the chairman. Ald. McBride said what he thought of Controller O'Neill, and the controller said what he thought of the alderman.

There was nothing funny about the wordy duel. It made a situation that might have become even more disgraceful at any moment. The fact that the belligerents were on either side of the arena to John F. Connelley, a politician would have been effective, alone prevented a battle with fists.

The provocation was from Ald. McBride, and the exchange of personalities came so thick and fast that Ald. Dunn who was presiding, was too busy preparing for eventualities to use the mallet upon the slab. It was when a fistful encounter seemed to be the determination of the controller that some of the members cried out for order.

A large crowd of citizens were on the floor of the chamber and in the gallery. They received a lively lesson in pre-election municipal politics. Later on Ald. McBride and Controller O'Neill indulged in personalities, but without as much bitterness as in previous encounters. Mayor Hocken was absent during the disgraceful scenes.

The first altercation came with the discussion over the recommendation of the board of control to return a deposit of \$500 to John F. Connelley, a contractor. Ald. McBride heckled the board about the interest of controllers who voted for returning the deposit. Controller O'Neill told him he was not the sort of man to give the information to.

"You're paid \$2500 a year to give me the information of the board that I ask," Ald. McBride said. "It would look like \$25,000,000 to you if you got it!" Controller O'Neill hit back.

"Let me say I got my money honestly, not by running hotels," Ald. McBride yelled.

"I would not be ashamed of running a hotel, but I would be ashamed to have Ald. McBride associated with me in that business," Controller O'Neill declared. Then he got down right mad and yelled, "I'm going to declare war right now between Ald. McBride and me. Ald. McBride can't accuse me of being an agent of a race track, going around with stuff in my pockets that sends to jail many people and breaks up homes. Ald. McBride is chuck full of abuse of members of this council, and that is the only way he knows how to take part in a debate. His record probably prevent his re-election to the council."

"If I had to sit with you next year I'd sooner resign," Ald. McBride declared.

Several of the members tried to stop the war of words between the alderman and controller, but Ald. Dunn, who was presiding, would not favor either side. The recommendation was struck out.

Controller Foster objected to Eric N. Armour, K.C., being appointed counsel for the city in the judicial investigation of the charges against the city architect's department. He intimated that the architect's department was still in vogue," said Mr. McGrath, and the laughter broke out. "You interrupted me," he explained. "I was about to say 'still in vogue in Canada.'" Then there was a rosy of amusement.

He described the several overtures for confederation, the last in 1895, when Newfoundland would have come into confederation for a subsidy of \$54,000, but the Conservative government would not agree.

Mr. McGrath said that in justice to the government, it was to be remembered that \$54,000 looked bigger then than now, and all the other provinces would have demanded extra subsidies also. Confederation was no longer an issue. Each side in recent elections of union would be reduced, that trade did not turn on these issues, and the debate was debatable whether the island would be justified in accepting the conditions. The importance to Canada as the sentinel of the St. Lawrence was of her own or as part of the imperial must turn for sailors. A sine qua non would have an irreducible minimum of ten members to represent the island at all times to defend British connection. Their public men would take care to have the representation point copperfastened.

The commercial value of Newfoundland consisted in the trade of \$5,200,000 from Canada, \$5,500,000 from the United States, and \$3,500,000 from England. Union would give a large part of the U. S. trade to Canada.

Good Railways. Why not? Mr. McGrath answered by saying that the promise to build railways had been anticipated. They had 1000 miles of railway, 300 come and 200 to be ready next year, capita as they had in Canada. They had two steamers nightly to Canada, train across the island daily. They had financed these things satisfactorily by Prince Edward Island and British Columbia.

They had a fine breakfast table, and to all intents and purposes, Newfoundland was tax free. The bulk of the land was being borne by the better classes. Service, were free. People got all the land they wanted for nothing. Fishermen had each his home, cow, pig, sheep, etc., and he could shoot caribou, rabbits or game birds when he wanted. The population had kept

pace with Canada up till ten years ago, and was keeping pace with Ontario since then. They had \$1,250,000 surplus in the last ten years, and had spent \$750,000 of this in public works and put \$500,000 in the Bank of Montreal for a rainy day. There had not been a case of insolvency in ten years worth notice by Dun or Bradstreet. They bought four cheaper in St. John's than in Halifax.

All See Injury. Confederation was opposed by the merchants and by the manufacturers, by the farmers and the fishermen, who all saw injury to their own interests in it. They did not wish to support two sets of politicians instead of one. Last year the fisheries were worth \$10,000,000, the pulp and paper manufacture \$2,700,000, and the mines exported \$1,250,000.

Eighty per cent. of the trade was in fishing products, and the fishermen were strongly opposed to confederation, therefore it was absolutely out of the question. "Canada has nothing of a practical character to offer us," said Mr. McGrath in conclusion. In his own opinion, it was wise not to consider confederation. The menace of foreign domination might force it, but the people were too prosperous and contented to consider it even if the Dominion made an offer.

With President Bono and the guest of honor were seated, the mayor, Archbishop McNeill, Sir John Williams, Justice Kelly, Rev. Dr. Ryan, Major Currie, Z. A. Lash, K.C., Kenneth Dunlop and Dr. J. A. Macdonald.

REPAIR SHOP FOR DISTORTED MINDS A GREAT SUCCESS

Experiments at Ohio State Capital Justify Theories of a Buckeye Mental Mechanic. SEEKS A SOUND BODY

Bloodless Surgery Performed by Means of Study and Diversions.

MASSILLON, Ohio, Dec. 6.—They are rebuilding human minds at the State Hospital for the Insane here. They are hunting out the perfect parts, making note of the worn and damaged, and substituting new. It is a process of bloodless surgery. There are no operating tables, no anaesthetics, no knives. The equipment consists of a recitation room, a library, a billiard and bowling room and a gymnasium.

The theory is that the cells of the brain, like those of every other part of the body, tend to wear out by use. If the man is normal, nature repairs the damage as fast as it is wrought. If the machine breaks down and goes into

repair work is interfered with and the scrap heap. The world is full of people who are growing with startling rapidity. Now a salvage corps is at work trying to redeem some of the wreckage. The repair shop here has been in operation only a few weeks, Dr. H. C. Eymann, for 30 years in charge of the insane in Ohio, has long contended that broken-down minds can be reconstructed, rebuilt and made practically as good as new. He finally conceived the idea of a school where patients could be massaged and exercised mentally by study and diversion, and developed physically by moderate and enjoyable sports and pastimes. The state officials lacked faith to finance the experiment and Dr. Eymann sought other sources. In the institution was a man whose brother was a millionaire. To this millionaire he explained his plan and got \$5000 on condition that he keep the name of the donor secret. From other citizens he secured \$3000 more.

Athletic Equipment. Plans were drawn for a building with bowling alleys and a billiard room in the basement, classroom and library on the first floor, gymnasium on the second and tennis courts in the rear of the structure. The \$10,000 paid for the material, the patients did the work and now the institution has a school, and now the institution has a school, and now the institution has a school.

Results Are Obtained. He had touched a perfect set of cells in Susie's brain. "In the Gloomings," she started eagerly. Hutt started off and Susie Brown joined in vociferously. Now she is leading the whole class in singing. When Mr. Hutt finds the broken-down parts of the mind he exercises the sound sections until nature has strengthened the weak. He believes there is a work-base in the mentality of each. His task is to find it.

He reached another patient, a man, by challenging him to a game of billiards. The man had sat for months brooding. He played almost as poor a game

day she is the brightest pupil in the geography division. Susie Brown hadn't spoken a word since she had been an inmate of the hospital. Mr. Hutt invited her to join the "Gloomings" because she hadn't embraced it sooner that she came to the belief that her soul was lost, and she brooded over it continually. "Now we're going to sing," said Mr. Hutt one morning on opening the school. "We're going to let Susie Brown name the song."

THE MOORE AVENUE BRIDGE. Who is responsible for the Moore Avenue bridge (south of Mount Pleasant Cemetery) being impassable and closed to traffic? Who should repair it and why is it not repaired at once? These are questions that residents in Moore Park and beyond ask one another daily, but nobody seems to be taking any action. Meantime the bridge is closed to traffic, and the whole traffic burden is transferred to a smaller bridge on East Heath street, which was never intended to take the full burden of all the traffic to Bayview Avenue south of Mount Pleasant. In fact, certain vehicles dare not use this bridge for fear of accidents, and have to take the Eglinton Avenue detour, although the objective point may be a considerable distance south of the corner of Heath street and Bayview Avenue. A condition such as this is a disgrace to the County of York in the first place, the Township of York in the second place, and last, but not least, the City of Toronto, for it is traffic from the city that is most inconvenienced by the lack of a safe highway at this point. The bridge was originally a township bridge and was looked after by the township, but when the City annexed the territory in Moore Park east to the Belt Line railway, the bridge then crossed a boundary line between the two municipalities, viz., the Township of York and the City of Toronto, thus becoming a county bridge for which the County of York is responsible.

THE MOORE AVENUE BRIDGE. Who is responsible for the Moore Avenue bridge (south of Mount Pleasant Cemetery) being impassable and closed to traffic? Who should repair it and why is it not repaired at once? These are questions that residents in Moore Park and beyond ask one another daily, but nobody seems to be taking any action. Meantime the bridge is closed to traffic, and the whole traffic burden is transferred to a smaller bridge on East Heath street, which was never intended to take the full burden of all the traffic to Bayview Avenue south of Mount Pleasant. In fact, certain vehicles dare not use this bridge for fear of accidents, and have to take the Eglinton Avenue detour, although the objective point may be a considerable distance south of the corner of Heath street and Bayview Avenue. A condition such as this is a disgrace to the County of York in the first place, the Township of York in the second place, and last, but not least, the City of Toronto, for it is traffic from the city that is most inconvenienced by the lack of a safe highway at this point. The bridge was originally a township bridge and was looked after by the township, but when the City annexed the territory in Moore Park east to the Belt Line railway, the bridge then crossed a boundary line between the two municipalities, viz., the Township of York and the City of Toronto, thus becoming a county bridge for which the County of York is responsible.

CLUB BANQUET The Ravin's Club held their annual banquet in their clubrooms at the rink last night. A record attendance of members was present, and a successful season is assured.

WINTER, BEGONE! SAYS WEATHERMAN

Mild to the West of Us, Warm to the North of Us.

POOR MAN WINS OUT

Business Will Suffer When Sun Shines Again in a Few Days.

There was joy in the hearts of the Toronto clothiers yesterday, on account of the cold snap which held the city in its grip.

During the past few weeks the countesses of the merchants of Toronto have been overclouded and they were inclined to be decidedly pessimistic regarding the outlook for a good fall and winter business.

Poor Man Wins

There is another class of citizens to be considered, namely, the working class. The advance of winter is never welcomed by them, owing to the hardships and problems associated with it.

According to advice received from the meteorological office, it is to be the latter. The cold weather will last only a couple of days and then we will have a continuation of the milder weather which characterized November.

West of Lake Superior the weather is abnormally mild for this season of the year, the thermometer registering an average of 45 degrees above zero in Alberta.

As the weather in the north is still comparatively mild, and till this condition changes Toronto will not experience a continuation of severely cold weather.

Yesterday, the weather was abnormally mild for this time of the year, when the thermometer usually registers in the neighborhood of zero, and as the cold snap of the past few weeks for an indefinite period.

AUTHOR OF BLUE BIRD GOOD AMATEUR BOXER

PARIS, Dec. 8.—(Can. Press.)—The Paris correspondent of the London Mail has had a long interview with Maurice Maeterlinck, the Belgian author, on the subject of boxing.

Maeterlinck ridiculed the idea that boxing was degrading, saying: "It is the discipline of violence; it is violence civilized by conventions that are almost courteous. The boxer is never a coward. On the contrary, his knowledge gives him a confidence combative instincts are an integral part of his nature. The man who lacks them lacks mental energy."

The Old Songs and the New

Stephen Foster and Ragtime Music. The modern ragtime music—so-called—may be considered but a temporary aberration.

But the simple songs of the past—the beautiful music and the heart-stirring words—will again come into their own.

Foster was born in Pittsburgh, Pennsylvania, July 4, 1826, and received his education in the public schools.

Then came "O, Susanna"—popular with the minstrel troupes—and for which he received a hundred dollars.

During his life Foster composed the words and music to about one hundred and thirty ballads—many of which were translated and sung in foreign countries—and which proved him to be by far the most popular of American song composers.

Among his most popular productions were "Old Black Joe," "Way Down South," "Nelle Was a Lady," "Old Dog Tray," "Old Kentucky Home," "Old Folks at Home" and "Come Where My Love Lies Dreaming."

These touching and beautiful compositions are all to be found in "Heart Songs"—that wonderful song collection now being offered by this paper for six coupons each at the cost of our heavy endorsement back of it.

The Wise Goose Says

A law ought to be passed to prevent theatre fires, as only last night she overheard her father say that the papers roasted the new show at the playhouse, and wasn't it terrible to read of such things every day!

A DAILY STORY FOR CHILDREN

The Black Crow

Once upon a time there was a black crow. Now, this crow didn't have feathers, and it couldn't fly as other crows could, but it had to stay in one place all the time.

When the children went by they would look up and say there's the crow, and little tots would ask what's that up there, how did it get there? They would want it to play with, but the crow couldn't come down to play with anyone, it had work to do up there.

Once in a while it would be taken down and given a new coat of black paint. Then it would look quite fine for a while, but after a while it would grow shabby again, for it had to be out in all kinds of weather.

MIXED RECEPTION FOR LEADER OF MILITANTS

Cheers and Jeers Greeted Mrs. Pankhurst on Arrival in London.

LONDON, Dec. 8.—(Can. Press.)—Militant suffragettes gathered in force to welcome Mrs. Emmeline Pankhurst, their leader, on her arrival today from Exeter, where she had been released from jail last night.

Although an ambulance and a stretcher were taken to the station they were not needed as Mrs. Pankhurst was able to alight from the train with the assistance of a nurse and another companion.

The crowd of women at the station who cheered Mrs. Pankhurst were just about equal to the crowd of men and boys who jeered the leader.

An epoch in the history of Winnipeg will be commemorated on Wednesday, Dec. 10, when the magnificent City of Port Arthur, constructed and operated by the Grand Trunk Pacific Railway, will be formally opened with a grant given by the Order of Nurses.

The Homely "Wandering Jew"

What flower lover does not know this dear trailer, so frequent in pots of hanging plants, vases, and all manner of flower receptacles, whose sole excuse for existence is the holding of trailing plants?

BROWNING LOVE LETTERS TO BE NATION'S PROPERTY

LONDON, Dec. 8.—(Can. Press.)—Browning lovers have succeeded in raising \$15,000 toward the purchase of the Browning love letters, which it is hoped will be acquired for the nation.

There was a great outcry last May when the letters were sold at public auction and fell into the hands of a London dealer for about \$25,000.

The stem of the Wandering Jew is prostrate, trailing rooting at the joints. Leaves slightly sheathed at the base, alternate, oblong, with marked parallel veins, light green, often purplish above, sometimes marked with two broad stripes of silver hue.

While this trailer is said to bloom producing terminal clusters of small white, rose-red, or blue flowers, yet we ourselves have never seen the flowers, nor have we ever found anyone who was fortunate enough to see or possess plants that did.

Wandering Jew will grow in the dark corner, the leaves shining with a dark hue, almost as if they had been dipped in oil. Plenty of strong sunshine will often make the leaves show up their hidden stripes.

Plenty of water is helpful to profuse growth. Wandering Jew will grow in any dark corner, the leaves shining with a dark hue, almost as if they had been dipped in oil.

## LEAF'S OPEN AT PROVIDENCE LEAGUE HAD QUIET SESSION

**Will Vote on Inter-League Proposition Today — Talked on Players' Demands — Jack Knight Goes Down Again.**

NEW YORK, Dec. 8.—Baseball managers, players and writers from many cities gathered here today to attend a series of meetings that will occupy their attention until Wednesday or later. The International League opened its annual session this afternoon, and tomorrow the National League club owners will convene and Gov. John K. Tener of Pennsylvania will in all probability be elected president for a four year term.

Consideration of the demands of the players as presented thru their fraternal body, the National Players' Association, will be discussed. The International League regarded them generally as objectionable and deferred action, announcing that it would await action by the National Association of Professional Baseball Clubs.

The International League formally awarded the 1913 championship pennant to Newark. The next season will be played on April 15 with Toronto playing at Providence, Montreal at Jersey City, Buffalo at Baltimore and Rochester at Newark.

The league discussed, but took no action on the proposition that an inter-league post-season series be arranged with the American Association, the regular season of each league to close August 15 and every International team to play every Association team three games. President Charles E. Bennett of the Brooklyn National League Club addressed the meeting today, favoring the plan.

The clubs were represented today by J. J. Stern, Buffalo; C. T. Chapin, Rochester; J. H. Montgomery, Toronto; Samuel Lichtenheim, Montreal; John Dunn, Baltimore; Thomas Fogarty, Jersey City; and C. H. Ebbets, Jr., Newark. President Edward Barrow hel the proxy for Providence. The league's Baseball Writers' Association met and elected Wm. J. Kelly, Buffalo, president, and Fred J. Bendell, Newark, secretary.

Announcements and reports of several baseball deals were the subject of gossip. The Montreal Club purchased Boyle, first baseman, from Louisville, and sold Towler, catcher, to the Chicago Cubs. The league's Baseball Writers' Association met and elected Wm. J. Kelly, Buffalo, president, and Fred J. Bendell, Newark, secretary.

The meeting of the Ontario Basketball Association will be held at West End Y on Saturday afternoon at 3 o'clock. Guy Lane of Hamilton, president, will inaugurate the delegates after the meeting. Those asked to communicate with R. N. Peacock, 71 Crescent road.

## ICE ON SATURDAY AT ARENA GARDENS

**Pipe Trouble is Straightened Out — Beaches League Meeting—Hockey Gossip.**

The Arena will be flooded after 5 p.m. this evening, when all the repairs and re-setting of the pipes will have been done over carefully. The arena, as may be expected from the first year of ice making in a brand new building, the ice was not just perfect all the while, but this year the management have instructed the builders of the ice plant, to send men here and have the pipes and things found, some over and tested. The result was that one or two leaks were found, and the same were the result of the ice being set from the factory of the plant. Mr. Soliman of the Arena stated last night that he would work on all night, and most likely have a fit for hockey practice or pleasure skating by Friday, most assuredly by Saturday night. The pipes and the entire plant have been gone over carefully by the makers of ice plants, and should be satisfactory. That the ice this season will only be of the finest possible.

## TIGERS' BEST WIN OVER ALL-STARS

Hamilton Paper Notes the Victory Over Quality and Quantity—Rugby Notes  
Hamilton papers show surprise at the number of Toronto players put into the game against the Tigers, forgetting that every man who practised had to get a chance, and those in charge desired to give the champions a game worthy of their calibre. The A.C. and D. League concert will be held at Occident Hall on Friday night, and a general admission of 25c will be charged. There should be a large crowd of football enthusiasts on hand, and the concert itself will pass all records of its kind in Toronto, as some of the best talent available has been secured.

**SOCCER NOTES.**  
The game to decide the championship of the Anglican Senior League was played on the Don Flats on Saturday last, between St. Anne's and St. Mark's. The boys from St. Anne's went on the field confident of winning, and came off with flying colors, winning by the score of 3 to 0. The winners have had a very good season, going thru the league with only one loss, St. Mark's beating them by 1-0, their goal averages being 35 for 5 against. The following players have played for St. Anne's the whole season: Stevens, Kirk, McAllister, McDowell, Ferguson, Naylor, E. Naylor, Taylor, Chester, Smith, McAllister.

The regular monthly meeting of Celtic Football Club will be held in St. Mary's Hall, Bathurst and Adelaide streets, tomorrow (Wednesday) evening, at 7:45. A large attendance is requested, as this is the final meeting previous to the dance, which takes place in St. Mary's Hall. Anyone wishing tickets for the dance can procure them at this meeting. New members will be made welcome.

**PARADES**  
Parade sent in a list of nominations regularly as follows:  
President—A. F. Barr, Toronto.  
First vice-president—J. W. McAllister, Hamilton.  
Second vice-president—Dr. Fairbanks, Toronto.  
Secretary—Hugh Galt, Toronto.  
Treasurer—Jas. J. Dolan, Toronto.  
Junior representative—Dr. McPherson.  
It is "officially" given out that, because Parke had not received the percentage from the Canadian final, that their list was ignored.

**PARADES**  
The Wanderers Hockey Club of Toronto have practically arranged games with the Syracuse team, for Saturday night at Syracuse. Syracuse expected to wire their acceptance of the terms early this morning. Syracuse want a return game here, and the club are trying to get the arena. Syracuse asked for Dec. 19 and 20, but latter date is taken, and they will have to consider other.

**PARADES**  
The Regina City Council has agreed that the arena of the new Winter Palace building be flooded this winter and used for hockey matches until March 1 when it would be cleared for the Winter Fair. Upon request of the city commissioners it was decided to grant this, providing the cost that would be entailed would be borne by the clubs. The report of the commissioners said the estimated cost of making ice and removing the same by water charges in connection with light and superintendence, and light and Victoria Hockey Club has suggested that the following arrangement as to the price may be made: To meet this expenditure to pay the city 1 1/3 per cent. of the receipts from all games; the Commercial League and the City League to contribute 50 per cent. of the gate receipts from all games, and the Victoria Hockey Club to guarantee the city that the above revenue will be met up to \$1500.

Beverly..... 43   Dovercourt B. .. 28  
Jarvis..... 34   College..... 24  
The above tells the story of the two games on Royal Temples' team that day night. The Beverley team won the first half had to work hard to hold the score to 11-11. In the second half, however, their superior condition counted, and they scored at will. Marshall and Kelly were excellent, and scored on difficult and spectacular shots. B. team will bear watching after the game, as they are in a very hot and hottemed state. Mackey with his left-hand shot is especially tricky, and hard to defend.

## Ottawa May Have New Rugby Club

OTTAWA, Dec. 8.—There is every possibility of a new senior rugby club in Ottawa next season. It is now learned that the united padding clubs of the city, the Britannias, the Rideaus, the Ottawas and possibly the New Edinburghs will combine to form a team. Con Kuhn, Guy Boyce and Reg. Galsford are the men who are behind the scheme.

**HOBBY GOSSIP**  
Two new clubs were admitted at a meeting of the Mercantile League last night. Rice-Lewis will replace Canadian Fairbanks, and the addition of the Imperial Oil and Goodyear Tire teams will make the league an eight-club affair.

**HOBBY GOSSIP**  
The Don Rowing Club held their hockey reorganization meeting last night. J. Birney was elected manager, and E. McKenna assistant manager. The Don will play in the Beaches League.

**Joe Donnelly's Record**  
As Pro Around Montreal  
MONTREAL, Dec. 7.—Joe Donnelly, the star wing player of the McGill Rugby football team, whose amateur status is now being investigated by the management of the club, is said to have played with the Athletics of the Montreal City Baseball League, during the spring of 1911. The City League is a well-known and an admitted professional organization. Donnelly played with the Athletics on Sunday, May 7, 1911, against the Richmond team, winning by a score of 8 to 2. The same season Donnelly played with the Athletics against the Victoria team, losing by a score of 1 to 2. The Eastern Canadian League was also a professional body and was affiliated with the Montreal City Baseball League. At the end of the term at McGill that year, Donnelly severed his connection with the Athletics and set Montreal for the Maritime Provinces.

Investigated—What the  
Clubs Are Doing.

VANCOUVER, Dec. 8.—It is likely that a sweeping investigation into the method of management of certain of the clubs in the Senior Amateur Hockey League will be made as a result of charges entered with the B.C.A.A.U. and the hockey governing body, that certain clubs in the organization have exerted undue influence to persuade players in the league to transfer their allegiance from one club to another.

The charge was openly made at the meeting of the City League on Saturday last, and it is now alleged that since that time further irregularities of a like nature have occurred, and the matter has been officially brought to the attention of the B.C.A.A.U. More than moral sanction was used to secure the services of certain men; it is alleged, and that they would profit financially by a transfer is the only deduction which can be arrived at in the premises.

A meeting of the Vancouver branch of the Amateur Union is called for tomorrow, when an effort will be made to have the unpleasant state of affairs thoroughly cleared.

Following the same method employed in organized baseball, the clubs of the N.H.A. will give hold-out players till the first practice date in which to send in their contracts. Failing this, suspension will follow. It is also likely, if the hold-out extends into the practice season, fines and further suspensions will be in order, just the same as Johnnie McGraw and those men pull.

The Argonauts will play an exhibition game in Hamilton tomorrow night.

Hamilton Herald: "Just as soon as Hamilton secures an arena, the N. H. A. will give that city a franchise, for Hamilton is regarded as a good sporting city and ripe ground for professional hockey."

The building of an arena has been contemplated here for some time, but no definite action having yet been taken. However, it is expected that a start will be made on a new uptown rink here next spring.

At a meeting of the Montreal Hockey League, held on Saturday night, it was decided to play six-man hockey this winter.

Just now it looks as if the Ottawa defence would consist of Percy Lesueur, Horace Merrill and Fred Lake or Hamby Shore. Grannary and Wilson will both be tried out for cover-point. On the forward line there will be Greg, George, Harry Broadbent and Allan Wilson for certainty, with the probability of Mike Murphy and another young amateur whom the Ottawa are keeping under observation. Producers confirmed that they can easily pass up Ronan, Darragh and Shore, and still have a first-class aggregation.

Gleisler Producers, who will play with the Quebec here in the National Hockey Association this winter, was a visitor to Montreal on Saturday on his way to report to Quebec. Producers confirmed the recent report from London, where he has been for some time, that he would not report to the Canadians if traded for Laviolette, unless he was offered a big advance in salary. Producers has made arrangements to go into business and settle down in Quebec, and coming to Montreal would mean a great deal of expense to him. Producers is in good shape and ready to start in at practice at once.

Donald Smith was signed on by the Canadian Hockey Club on Saturday, and immediately left on a hunting trip, which will keep him away for the rest of the week.

The rest of the players are in training at the Canadian A.C.C. Club and all will be in full swing in a few days.

The Canadian team is now composed of the following: Smith, Bernanquette, Dubeau, Jette, Guivevment, Marchand and Vesina. Lalonde and Laviolette have so far refused to sign contracts.

With the signing up of Carl Kendall, the forward formerly with the amateur New Edinburghs of Ottawa, the Wanderer hockey team is complete, Kendall refused to go to the Pacific Coast this winter with the Pacific, for whom he played last winter, and was secured by the Montreal Club. He will report to Manager Boone for the first workout of the training season.

The management of the Wanderers state they are fully prepared to go on the ice without either Ross or Hayward, but up to the present have refused to sign contracts.

Vezina will play again for the Canadiens. The little goalkeeper of the Frenchmen has come to terms with Man-

FIRST NIGHTS AT TORONTO THEATRES

WARM RECEPTION FOR JOHN DREW

His Company is the Best He Has Had for Long Time. TWO PLAYS WERE GIVEN The Tyranny of Tears and The Will Were Greatly Enjoyed.

John Drew appeared in a double bill at the Princess last night and the most interesting playgoer must have felt that it was altogether good value.

This was even more apparent in the second piece, Sir James M. Barrie's "The Will." It is quite a serious little piece in the outcome, set in a comedy frame to start with.

There are three scenes in the story, which takes place in the office of the clerk, the young Devoizes, seeking to aim at the clerk's mouth, threw in the fire.

After the first scene, the young couple in their youth and enthusiasm, only a young man wedded, have come to his will, and the wife has only to say about it than the husband.

Twenty years have hardened the tearful bride into a disillusioned woman of the world, and she is now a widow and society and ambitious for the future.

Mr. Drew presented a masterly sketch of the octogenarian this scene. Rose has proposed to divide his money among half a dozen of his rivals, "with my respectful curse and if modern life has anything of tragedy, the profound dramatic realization of the bitterness of life's failure reaches it in this episode, magnificently interpreted by Mr. Drew.

AL JOHNSON WAS THE WHOLE SHOW

Honeymoon Express Would Be Rather Slow Without the Comedian. SOME GOOD DANCING Doyle and Dixon Carried Off Generous Share of Applause.

The entertainment at the Alexandra this week is Al Johnson, the black-face comedian. The bill would have him appearing in conjunction with the "Honeymoon Express," but all the gay kaleidoscopic skits of that vehicle merely serve as an effective background to his inimitable mimicry.

From the opening of the evening it was apparent that the comedian held his house. The audience went off literally at halfcock. The bulk of the entertainment was endured with a mild appreciation until the roguish black countenance smirked again around the curtain corner.

Of itself the "Honeymoon Express" subscribes largely to the general arrangement of an extravaganza. The gowns are during the scenery spectacular, the dancing graceful and the action free. These things always spell a hit in an offering of this character.

One scene, that of the race between motor and railway train, produced a splendid picture of a French-Canadian of the fisherman type given by Allan Brander. His presentation of the character deserves the highest commendation.

It is a play that will have a strong popular appeal, and should attract large audiences to the Grand all week and especially at the matinees on Wednesday and Saturday.

The sale of seats for the hilarious farce comedy "The Glad Eye," which is to be the attraction at the Alexandra next week, was very brisk.

"THE CONFESSION" A STAGE SERMON

Attracted a Large Audience to the Grand Last Night. IS A GRIPPING PLAY MANY CLEVER TURNS Has Well-Connected Plot and is Presented by a Capable Company.

"The Confession," a semi-religious play, was given for the first time in this city at the Grand Opera House last night before an audience that was composed of many clergymen and laymen prominent in the Catholic Church.

The drama, around which centres the sacredness of the sacrament of penance, met with a reverent and warm praise that can be given him. Everyone is pleased to see Eddie. The little Foy's are as clever as their sire and promise to keep the ancestral name before the footlights for many a day.

"The Confession" is one of the few productions on the stage that have the unqualified endorsement of Cardinal Gibbons and other dignitaries of the church, even those outside the Catholic Church, while, of course, the former appreciate more fully its deeper meaning.

The play that will have a strong popular appeal, and should attract large audiences to the Grand all week and especially at the matinees on Wednesday and Saturday.

As will be seen by reference to the advertising columns, Paul Wells' second Toronto recital will be played on Wednesday evening in the concert hall of the Toronto Conservatory of Music.

EDDIE FOY NOW A VAUDEVILLE STAR

With the Little Foy's He Heads Shea's Bill This Week. MANY CLEVER TURNS Pathos and Mirth Mingled Thruout a Well-Balanced Bill.

Eddie Foy and the little Foy's are decidedly a drawing feature at Shea's this week. Eddie is an old-time favorite, and is just his old self, which is the best praise that can be given him.

Other features are Clinche Reiser and Henrietta Gore, in "It Only a Fool," which provides some side-splitting laughs; Anita Barling, Europe's clever and greatest lady juggler; Bessie, whose act wins her the applause of the house; Bowman Bros., the famous acrobats; and Bert, who does some clever gymnastic feats.

The Rector Girls, a very well-balanced burlesque show, opened at the Star Theatre yesterday afternoon. "Oh, You Married Men" and "Seeing the Tenderloin" are the titles of the two burlesques which are repeated in the way that could be desired in the way of mirth and singing.

Mrs. Arliss with her husband in "Disraeli." Florence Arliss, in private life the wife of the actor, is appearing in "Disraeli" at the Star Theatre.

A large crowd of enthusiasts attended the matinee of the A. R. Clarke & Co. Ltd., Hockey Club yesterday, to select their officers for the ensuing season.

WELLINGTON COUNTY BONDS ALL TAKEN LOCALLY AT PAR

Issue Amounted to Twenty Thousand Dollars - Body of Unknown Man Found on G. T. R. Tracks at Guelph - Attempted Suicide.

(Special to The Toronto World.) GUELPH, Dec. 8.—The body of a man, apparently about 40 years of age, dark complexion, smooth faced, about five feet six inches in height, shabbily dressed, whose name is as yet unknown, was found on the Grand Trunk Railway tracks, a little more than a mile west of the diamond crossing, this morning by a little boy on his way to school. The body was terribly mangled, but was still warm when the official arrived.

A search of his clothing revealed the fact that the man had no money, but a small red pass book was found in his pocket. In this were several entries. On the first page was the name of T. Johnson, 348 Leslie street, Toronto. On another page was the name of the towns between Toronto and Berlin, with the number of miles between each place, and on still another page were the names and addresses of a number of girls in different parts of England, thus giving point to the idea that he was an Englishman.

"Whether the unknown was hit by a passenger train or was riding off the buffers of a freight and fell off has not been determined, but the coroner is satisfied that the cause was the same."

Wellington County Council is in session. One of the important questions to be decided will be the payment of a permanent treasurer, Miss Reynolds, daughter of the late county treasurer, having been appointed for only one year.

The warden, in his address, announced that the whole issue of 320,000 debentures, issued in connection with the erection of the new jail and the residence, and the erection of the new county bridges, was subscribed locally at par, with accrued interest to date of sale, which is considered a very satisfactory transaction under existing circumstances of the money market.

John Lynn, an employee of the Robert Stewart Co., attempted suicide at 8:30 this afternoon, when he jumped from the second store window of the factory to the cement sidewalk below.

He was lucky, getting off with a broken collarbone, a cracked rib, cuts about the face, Lynn had been acting strangely of late, but was not under surveillance. He was removed to the general hospital.

The Johnston referred to in the above item is not the man who resides at 348 Leslie street, Toronto. When a writer reporter called at this address he saw Mr. Johnston personally, and the latter was naturally very much surprised to hear that he was supposed to be dead. When the situation was explained to him, he was at a loss to account for the mistake, as he had never been in Guelph. He was of the opinion that the man found in Guelph had written it in his pass book for reference.

ENGINEER WANTS AN INVESTIGATION

Kingston City Official Asks Inquiry Into Charges Preferred.

(Special to The Toronto World.) KINGSTON, Dec. 8.—Mr. O. Freese of Milwaukee, mother of Julius Freese, a prisoner who died in Portarlington Penitentiary on Aug. 27, is willing to come to Kingston and give evidence before the prison commission. The claim of the mother is that her son was not treated while confined in prison. He died on the day of his release. Mrs. Freese may be called by the commission.

City Engineer R. J. McClelland will ask for an investigation into the charges made against him by Ald. Carr. The latter supports the engineer with a copy of them. Mr. McClelland wants his side of the matter heard either by council as a body, or by a special committee of council, or by a judge. He sees nothing in the charges that bear on his professional qualifications, and he states that all charges can be refuted or explained in a manner that will relieve him of any blame.

RAILWAYS ARE ASKED TO PROVIDE SUBWAY

Galt's Petition to Dominion Commission—New Milk Bylaw—Hunters' Licenses.

(Special to The Toronto World.) GALT, Dec. 8.—Three railway tracks, the Grand Trunk, Grand Valley and L. R. & N. combine to make a dangerous crossing at the East River road entrance into the town, and as a result of a farmer's narrow escape at the spot a petition has been presented to the railway board, asking that the railroads be compelled to put in a subway.

Word has been received from the minister of agriculture that Galt's most important feature of the new bylaw is that it makes it compulsory to put milk into bottles.

During the past hunting season many farmers have had stock killed by careless hunters, and in consequence the hunters' privileges will be greatly curtailed. A law will be enforced requiring all hunters to carry a license and many farmers express their determination to prosecute all trespassers.

A BRIDGE ACROSS RIVER

Niagara Falls Likely to Be Location if Only One Structure Built.

(Special to The Toronto World.) NIAGARA FALLS, Ont., Dec. 8.—E. H. Scammell of Ottawa, Canadian organizer for the century of peace celebration movement, was the principal speaker at a mass meeting held in the city hall tonight to discuss the celebration of the one-hundredth anniversary of the signing of the treaty of Ghent.

He told of the peace celebration conference in Richmond, Va. last week and of conferences with Secretary of State Bryan and the house foreign affairs committee.

Mr. Scammell said that Canada would spend dollar for dollar with the United States in appropriations for the peace celebration. He stated that if only one peace bridge was built across the Niagara River, he thought Niagara Falls would be selected as its site.

Other speakers were Mayor C. C. Cole of this city, Peter A. Porter of North Tonawanda, and E. T. Williams of Niagara Falls, N.Y.

A mass meeting similar to the one held on the Canadian side is being planned for Niagara Falls, N.Y., in the near future.

Unconfirmed Report of Finding of Wreck Near Bayfield.

GODFRICH, Dec. 8.—A report reached here this morning that the wreck of the Wexford had been located in the vicinity of Bayfield. Below the identity of the ship could be learned for certain Sunday's gale intervened.

An effort will be made to identify the boat as soon as the heavy seas subside.

Two bodies, supposedly from the lost ship, were washed ashore this morning at Inverhuron and Gobel's Grove.

SISTER IDENTIFIED

MAN DEAD 3 MONTHS His Tiepin Proved That Wm. Annany Was Killed by Train.

After having been buried three months an inquest held, and full details published in the press, the body of a man found on Sept. 3 on the railway tracks at Abell street, was identified at the morgue yesterday as that of William Annany, 149 Euclid avenue, by a sister.

Coroner Mason's jury, on the death of the unknown man, returned a verdict of accidental death, but the features were disfigured by the train wheels, proper identification was never made up till yesterday. Calling on the morgue office, the sister explained that her brother, three months ago, had shipped his trunks to Cobalt, where he intended to go for work. A man, she said, discovered that he never arrived at his destination. As her brother was of a roaming nature she was not especially worried, but eventually not hearing from him, she made enquiries, and learned that the day after he left the body of an unknown man was found on the railway tracks. Identification at the morgue was finally made by a horse-shoe tie pin, which had been retained for the purpose.

WOODSTOCK MAN'S STRANGE SUICIDE

Walks Into Police Chief's Office and Dies After Drinking Carboic. HAD BEEN DESPONDENT

That Rash Act Was Premeditated Shown by Letter in His Pocket.

(Special to The Toronto World.) WOODSTOCK, Dec. 8.—William Hillman, aged about 45 years, died in the office of the chief of police this afternoon as the result of carbolic acid, which he had swallowed before entering the office.

Shortly before 3 o'clock the man walked into the office and stood for a moment behind the chief's chair. The chief finished a few words he was writing and turned around, to be met by the odor of carbolic acid, which the visitor acknowledged having taken. A doctor was summoned, but before he reached the office Hillman was dead.

Little is known of Hillman locally, but it is believed he was the victim of despondency. He had been employed with the Thomas Organ & Piano Co. until Saturday morning last. That the suicide was premeditated was shown by a letter found in the dead man's pocket.

YUKON RIVER A MIGHTY STREAM

Great Empire Lying Beneath the Northern Lights is Well Watered.

If any one has an idea that the Yukon River is a puny stream fed by glaciers trickling away to the sea, the region should be dismissed. writes Edgar Allen Forbes in Leslie's Weekly, for the river is so mighty that it can be spread over a width of sixty miles of over 2100 miles, and still have depth enough in the main channel to float heavily laden freight steamers.

From its mouth near St. Michael, at the Behring Sea, it is navigable all the way to White Horse in the Yukon territory of Canada, an unbroken stretch of over 2100 miles—two-thirds of the distance from New York to San Francisco. Add to this the navigable water of its tributaries—370 miles on the Innoko River, 380 on the Iditarod, 620 on the Kobuk and 382 on the Tanana—and one will begin to have a fair idea of what a big river there is in the great empire beneath the Northern Lights.

The valley drained by this wonderful river system of the north is the hope of Alaska. The wealth of the past and of today has come from mines and fisheries, and the lifetime of all mining regions is briefer even than human life. It has been only a few years since the Klondike was the most active mining camp in the world.

Dredging shores are now made with the individual mines and turned over to two big dredging companies, which work the low grade tailings. And these also must shortly pass.

Some of the rivers of Siberia flow over ice many years old and almost as solid as rock.

Dredging shores are now made with a plug of rubber in the soles to prevent slipping.

GUARANTEE BONDS OF NEW RAILROAD

Government Pledged to Aid the Alberta and Great Waterways Line.

EDMONTON, Alta., Dec. 8.—Official announcement has been made in Edmonton by J. D. McArthur, president of the Edmonton, Dunvegan & British Columbia Railway Company, that two parties of surveyors are in the field on the route of the Alberta and Great Waterways line, and that construction work will begin in a few days at a point 12 miles north of this city, where the line to Fort McMurray will be completed next fall.

Mr. McArthur will build the Alberta and Great Waterways line, the bonds having been guaranteed by the government of Alberta for a road of 250 miles, the line being 255 miles.

It is further announced that trains on the Edmonton, Dunvegan & British Columbia road will be in operation as far as Mirror Landing on Jan. 1, 1914. It is planned to reach the Peace river country next summer and the line is to be completed next fall.

THEIR LONG TRIP TO ARCTIC CIRCLE

Four Hudson Bay Employees Will Journey Over Two Thousand Miles. CARRYING MAIL BAGS

All Experienced Men—Packet for Stefansson Included in Collection.

EDMONTON, Alta., Dec. 7.—Four trusted employees of the Hudson Bay Company, which has operated in this country since 1870, accompanied by two dog teams, each carrying three hundred pounds of mail and provisions, are on the way to Fort McPherson, 2100 miles north of here, on what is conceded to be the longest overland mail trip in the world.

The trip from Edmonton to Athabasca, 100 miles, was made by train the first day, after which the party started on the lonely trail which follows the windings of the Athabasca, Slave and Mackenzie Rivers. One of the teams, with two men, is destined to Fort Smith, the other going to Fort McPherson. The "mushers" are experienced river and woodsman, who have passed years in the north country.

Included in the mail is a small packet for Stefansson, the Arctic explorer to be delivered at Herschel Island, the most northerly mail point in Canada. The original plan was to push on to the far outpost, but advice just received are that the supply ship Behreder, which sailed from Nome last July, has not yet reached there. In the event the ship does not arrive soon, the detachment of Royal Northwest Mounted Police, stationed on the island, will fall back on Fort McPherson. Otherwise the mail carriers will continue their journey 200 miles further north.

Fraught With Danger. "The winter trip to Fort McPherson is fraught with great danger," said Acting Postmaster Cairns. "We feel confident that the men will get thru, as they know all conditions of the country." Formerly French was the most widely spoken language; today it is the mother tongue of only 4,800,000, as compared with 100,000,000 who speak German and 130,000,000 who speak English.

TO STOP GAMBLING IN BARBER SHOPS

Chatham Police Start Crusade Against Sunday Work—Rare Operation.

(Special to The Toronto World.) CHATHAM, Dec. 8.—Chief of Police Groves has started a crusade to stop gambling in the city barber shops on Sunday. He has notified all the barbers of the city to keep their blinds up on Sundays, but few of them are complying with the request. The chief will appeal to the council to make it compulsory for the blinds to be up.

Today an information was laid against a barber shop owner, charging him with allowing gambling on his premises.

One of the most interesting clinics at the recent congress of surgeons in Chicago, was the Lane operation, brought into effect in the mending of broken bones. The Chatham surgeons performed a similar operation yesterday on a young man named Young, who was struck by a train some time ago and received a broken arm. The bones refused to knit, and the Lane operation, discovered by the surgeon to the Duchess of Connaught, was performed. The surgeons have every reason to believe that it will prove successful.

SEEK TO CORNER POTATO MARKET

U. S. Interests Believed to Be Behind "Powdery Scab" Scare.

(Special to The Toronto World.) OTTAWA, Dec. 8.—Officials of the department of agriculture are inclined to the belief that the proposed embargo by the United States on Canadian potatoes because of alleged "powdery scab" is being engineered by American interests, who hope to corner the market in that country.

Representatives of the agriculture department will be present at a conference in Washington on Dec. 13 with the United States Bureau of Agriculture, and the matter will be thoroly threshed.

To officials here it seems absurd that an embargo should be laid on all Canadian potatoes grown from Nova Scotia to British Columbia.

THIS MAN'S MEMORY A PERFECT BLANK

Peculiar Condition of Patient in Niagara Falls Hospital—Is He From Toronto?

(Special to The Toronto World.) NIAGARA FALLS, N.Y., Dec. 8.—With his mind a blank for more than 24 hours, a young man, who lost his memory when he fainted in the lobby of St. Paul's Church last night, begged the nurses at the Memorial Hospital to do all in their power to learn who he is.

Today he was questioned by Dr. Miller, but was unable to tell his name or where his home is. A picture of two children, a girl about five years old and a boy about three years old, a Toronto street car transfer, dated Nov. 29, and a Buffalo and Niagara trolley conductor's receipt, found in his pockets, were shown to the man, but none of them awakened his memory.

The man is about 26 years old, 180 pounds in weight, 6 feet tall, light complexion, well dressed.

DEATH OF FORMER TORONTO RESIDENT

Hugh J. Craig, Who Passed Away in Montreal, Was Prominent in Local Masonic Circles.

(Special to The Toronto World.) CORNWALL, Dec. 8.—The funeral of the late Hugh J. Craig, who died in Montreal, took place yesterday from the residence of his brother, J. R. Craig, Glen Walter, to Salem Church Cemetery, Summerstown, and was conducted by Cornwall Lodge, A. F. & A. M., at the request of Zealand Lodge of Toronto, of which deceased was a past master and a life member.

The late Mr. Craig was connected with the Grand Trunk in Toronto for many years, but of recent years had been stationed in Montreal. He was prominent in Masonic circles, having been a member of King Solomon Chapter, No. 4, R.A.M.; Geoffrey De St. Ademar, Free Mason, No. 2, Knights Templar; Rameses Temple of Mystic Shrine, all of Toronto, besides his connection with Zealand Lodge.

SHARP ISSUE OVER I.O.F. ASSESSMENT

Insurance Report of Three States Raises Question of Validity.

ATTEMPTED LIEN VOID

According to Memorandum and Members Advised to Demand Full Payment.

MADISON, Wis., Dec. 8.—(Canadian Press).—Whether an act of the Canadian Parliament will enable the Independent Order of Foresters of Toronto to do what otherwise is admitted to be a violation of its contract with a majority of its 140,000 members in the United States, is a question of international independence raised in the report made today on the society by the insurance departments of Illinois, Nebraska and Wisconsin. An examination of the affairs of the Canadian organization has been in progress for several months.

Far-reaching Effect. The question raised is said to affect every person holding a policy of any kind issued by an insurance company or an organization of a foreign country. According to Herman L. Ekern, insurance commissioner of Wisconsin, if it is once recognized that insurance contracts issued in the state under a license to the company or society can be repudiated in any part under laws of a foreign country, it follows that such contracts can be entirely repudiated and such repudiation would have to be enforced by the courts in the United States.

Object of the Levy. This society, which has assets of about \$20,000,000, by levying a special assessment to make up a total deficiency in reserve of \$25,000,000, attempts to make this assessment a lien averaging about \$260, to be deducted from the policies of the members," explained Mr. Ekern.

A memorandum attached to the report, states that the attempted levy of this lien is void, and advises the members of the society to take the option of paying assessments at their old rate and to insist upon payments in full.

Ultimately the question must be settled by the courts, the memorandum states. The report from the State of Wisconsin to the effect that Herman L. Ekern, commissioner of insurance, had advised the members of the independent Order of Foresters in that state that they would be justified in refusing to pay the recent assessment levied on them by the order, was answered yesterday by W. H. Hunter, supreme counselor, who resides in Toronto. Mr. Hunter is confident that when the courts settle the matter they will decree that the order has a perfect right to levy an assessment on the members so as to make up deficiencies in the capital. He pointed out that as a sequel to the stand taken by Mr. Ekern some weeks ago the order had withdrawn from Wisconsin and was not making any attempt to get more business from that state.

BITTER ONSLAUGHT ON FOOD SHARKS

Congressman From Tennessee Would Imprison Speculators in Cold Storage Food-Stocks.

'VORACIOUS VULTURES'

Federal Regulation is Demanded in Vigorous Style by People's Champion.

WASHINGTON, Dec. 8.—(Can. Press).—"Voracious vultures of the market places" and "plunder-birds" were characterized as such by Representative McKellar of Tennessee, when he spoke today, championing his bill for federal regulation of the cold storage business.

Saying that his proposed legislation was not designed to injure the cold storage business as such, Mr. McKellar declared: "The drastic features of the bill are aimed only at the corrupt and dishonest, at the voracious vultures who stand around in the market places and reap where they have not sown, and feed on other people's food. I do not believe any member of this great house will stand up for any such plunder-bird of food sharks."

Prison Terms and Fines. The McKellar bill, which would prescribe both prison terms and heavy fines for violations of its terms, would make it illegal to adulterate and misbrand food products into interstate commerce and would limit the periods in which food products may be held in storage without becoming adulterated.

Reviewing the data produced by the senate committee which investigated the high cost of living, Mr. McKellar declared, "any greater crime against the public than the cornering of markets on foodstuffs. Almost every household in this country is complaining at the high cost of eggs and we find these gamblers not only cornering the price of eggs and reaping unfair and unjust profits from it, but actually laughing at the public. My bill would put these gamblers out of business and would give the consumer a chance."

Profits of from 100 per cent. to 200 per cent. were made by the "egg kings" in storage eggs, Mr. McKellar declared.

Do You Remember

how mother would cuddle you up close to herself in the rocking chair or tuck you in one of those dear old cradles of the time when it wasn't a crime to have rockers on the cradle? And as she rocked and sang, "In the Sweet Bye and Bye," "Swing Low, Sweet Chariot," or "Twinkle, Twinkle," you just felt yourself slipping away into dreamland until you never could remember the last words she sang. And these old lullabies are better today than they ever were.

You will find them all in

BLIZZARD SWEEP OVER NEW ENGLAND STATES

Mercury Dropped Abruptly and Gale Was Heavily Snow-Laden.

BOSTON, Dec. 8.—(Can. Press).—The storm which caused havoc in Texas Friday rushed over New England at a 60-mile-an-hour gait today, bringing snow and a 30-degree drop in temperature. New Hampshire reported over 17 inches of snow. In Boston the storm was less severe, the

wind velocity being only 35 miles an hour, while there was just enough snow to cover the sidewalks in the suburbs.

Shipping clung to snaz anchorages. So severe was the gale in Massachusetts Bay that the steamer Calvin Austin, which started on her regular run for Portland, Eastport and St. John, put back for shelter until the storm abated. Heavy rain preceded the drop in temperature. During a sharp thunderstorm one-fifth of an inch fell in twenty minutes, and in the next hour the temperature dropped from 31 to 28. Tonight the weather cleared with the temperatures well below freezing.

Glen Buell Girl Rendered Unconscious and Condition is Serious.

BROCKVILLE, Dec. 8.—(Special).—Myrtle Gilroy of Glen Buell, pupil of the Brockville Collegiate Institute, while visiting her home on Saturday, received an electric shock which rendered her unconscious. With some other children, she playfully grasped the wires leading from a hand battery, and when the current was turned on she fell in a faint. She has not regained consciousness, and her condition is regarded as serious.

ORIGIN OF COFFEE

Houses in Turkey Formerly Looked Upon With Bitter Hostility in Sultan's Country.

For one who has ever walked thru the streets of a Turkish town it is almost impossible to imagine them without coffee houses, writes H. C. Wright in Scribner's.

The beverage so quickly appreciated was a quick-looked upon by the recent arrival of the Koran against orthodox as inelastic to the public mind.

The name of the drug may have had something to do with the hostility it encountered. Kahveh, whence our coffee, is a slight modification of an Arabic word—literally meaning "that which takes away the appetite," which is one of the names of wine.
