The copy filmed here has been reproduced thanks to the generosity of:

Musée du Château Ramezay,  
Montréal

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Musée du Château Ramezay,  
Montréal

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## As a Summer Resort.

---

**CACOUNA** is a leading Canadian watering place situated on the Lower St. Lawrence, one hundred and twenty miles below Quebec, opposite the mouth of the far-famed Saguenay River. It is the seat of an old French parish, preserving the ancient customs of Old France. It is placed on an elevation above the sea and facing the West ; having a beautiful evergreen slope to the salt water beaches. The St. Lawrence here is twenty miles wide with the bold Laurentian Mountains forming the opposite shore which with the remarkable pure air produces most beautiful sunsets and is surrounded with lovely views as far as the eye can reach. The magnificent shade trees and groves ; Lawns, Play grounds and Promenades ; driving on the fine roads, inland or on shore ; Boating, Sailing and Fishing form some of its many attractions.

**Cacouna** is the favorite resort for Canadian and American families, who have erected here neat and tasty cottages for their summer homes, facsimiles of which are shown on this sheet produced from photo views.

**Cacouna**, like "Newport," may be styled a "Summer Cottage City."

Its Repertoire and reputation for entertainment only adds to its charms.

**Churches** of different denominations have been erected here by summer residents for the convenience of visitors, at which eminent clergymen officiate.

## As a Health Resort.

---

**CACOUNA** is a great natural Sanitarium. Its salubrity, elevation and average summer temperature, as well as salt sea breezes and balmy air, make it specially attractive. Many Southern and Western physicians prescribe a summer residence here to such of their patients as are subject to general debility and lassitude resulting from life in low latitudes. The late Dr. Campbell, of Montreal, in his lifetime Canada's leading physician, testified that after a careful observance of the effect upon his patients of the different watering places, both of the United States and of Canada, he was thoroughly convinced, that for convalescents Cacouna was immeasurably superior to all others. And he gave a practical illustration of his faith in Cacouna by erecting there the summer residence of his own family.

**Sea Bathing**, one of the principal recreations with a smooth and gentle sloping beach and no under tow with the tide, is made perfectly safe.

**The Atmosphere** is dry and temperature even, never preventing one from out door pleasures, either from extreme cold or heat. A great point, too, in favor of Cacouna, is the absence of any thing like fresh water marshes or annoying insects. The porosity of the shale rock and gravel soil causes the absorption of rain fall at once.

**The Sea Water** from this iron bound coast when taken internally is a wonderful remedy for dyspepsia, etc.

**Hay Fever** must succumb to this climate and many reliable testimonials can be given of immediate relief. The strong air produces sweet sleep and perfect rest.
