

Plans now in progress between the employees and the railways in the United States.

Payment for Back Time. It is pointed out that the war board's offer meant the payment of increased wages from the dates the various agreements between employees and employers can be changed under their terms, dating back in most instances to May 1, 1918.

Your chairman emphasizes the desire of the employees for the adoption of the eight hour day with accompanying conditions on account of extra penalty payments for overtime which would result after eight hours' work.

Want Four Hours Less. The application of the United States eight hour day contemplates that eight hours be worked on each and every one of the six days, or forty-eight hours per week.

The war board stated its willingness to put in the eight hour day on the same basis of application and interpretation as will be determined by agreement between your members and the United States railways and to arrange mutually satisfactory conditions.

Reason Against Strike. 1.—Your organization is an international one, having approximately 80 per cent. of its members on United States railways and ten per cent. on Canadian railways.

2. Your executive officials have labored in the United States since the war began and are still so doing in regard to certain hoped-for amendments to the McAdoo laws and have made no threat to cease work.

3. We have offered to put in effect for the members of your organization the same rates and hours of labor as have been and may be agreed upon for your membership in the United States in corresponding territory, effective from the dates on which agreements on each of the Canadian railways can be changed under their terms, which in the majority of instances is May 1, 1918.

4. As the Canadian Railway War Board has offered to the Canadian representatives, representing the Canadian shommen, who are ten per cent. of your international organization, the same wages and hours of labor as have been and may be agreed upon at Washington to the 80 per cent. of your organization on the United States railways, the Canadian Railway War Board feels that you have no moral right to believe you should accept a strike, or believe the extreme limit to which it can go.

The Canadian Railway War Board, per Wm. Neal, General Secretary. The war board is meeting the government tomorrow (Monday) morning in Ottawa.

Could Do Nothing Else. Seen tonight, the representatives of the men owning the cars could be taken by them until the ultimatum which sets Tuesday afternoon at two o'clock as the hour for calling a general strike, if the men's demands are not conceded.

It is correct to say there is ninety per cent. of our membership in the United States, and that the majority of our sympathies are outside railway organizations may occur if a railway strike called.

HAMILTON NEWS FABULOUS OFFERS FOR HIS PARCELS

Hamilton Man, Former Prisoner in Germany, Tells of Destitution in Country.

Hamilton, July 14.—Conditions in Germany in regard to food, leather and other articles were said to be very serious by Lieut. Wickert who in the First Methodist Church tonight told the adventures he had gone thru in the hands of the Hun after he was made a prisoner when his machine was shot down. At that time the young aviator was wounded in the shoulder with shrapnel while his pilot was killed.

Lieut. Wickert stated that only a few people in Germany possessed leather shoes and that those who did were envied by their less fortunate brethren. Fabulous sums were offered for the contents of his parcels, especially soap, soup, tea, meats and coffee. Bread was so scarce that it went by the name of "Angel Food."

ALLIES CELEBRATE BASTILLE'S CAPTURE

Canadians Take Part in Big Demonstration at Paris.

New York, July 14.—Bastille Day was celebrated in almost every quarter of the allied and neutral world. Tonight cable and telegraphic reports from London, Rome, Paris, Athens and other European capitals and points throughout the United States descriptive of the enthusiastic celebration of the French national holiday are pouring in.

In general, the condition of grain crops in the Atlantic provinces is not so good as it was this time last year, and there is also a slight falling off as compared with a month ago, but the prospects for good yields are bright. In Quebec, wheat, the condition of which is above the normal, is reported to be better than last year. In Ontario, fall wheat remains poor, being 70 or 80 per cent. below average.

WHEAT ACREAGE SHOWS INCREASE

Total Is Estimated at Seven Per Cent. More Than That of Last Year.

CONDITION OF GRAIN In Ontario Fall Wheat Is Poor But Spring Wheat is Above Decennial Average.

Ottawa, July 14.—The Dominion bureau of statistics issued today the usual revised estimate of the areas sown to spring grains, an estimate of the areas under late sown cereals, and hood crops and the condition of grain crops on June 29, as compiled from the returns of crop correspondents.

For all crops except peas the estimate for area sown to spring grains is less than it was a month ago, the decrease being 2.5 per cent. more than last year, spring wheat occupying 15,497,300 acres, or 16 per cent. more than last year, and fall wheat 1,000,000 acres.

The estimated acreages of later sown cereals and hood crops, as compared with 1917, are: Spring wheat, 15,497,300 acres, as against 15,500,000 acres in 1917; fall wheat, 1,000,000 acres, as against 1,000,000 acres in 1917.

TOWNSHIP OF YORK GETS WATER SUPPLY

Main Line Pipe Connected Up and Water Formally Turned on Saturday

The water that will supply the Township of York from the city limit, north to Eglinton avenue, and from Yonge street west to the boundary of Weston, was formally turned on by Thomas Griffith, reeve of the township at 2.30 Saturday.

The cost of this water system, the new complete system, is estimated by the township engineers, Frank Barber and R. O. Wynne-Roberts, to run nearly half a million dollars. Mr. Barber gave Mr. Wynne-Roberts much of the credit for seeing that the work was successfully carried thru, and he said they could congratulate themselves that they were so far ahead.

Mr. Wynne-Roberts said the township had undertaken a work of great magnitude, as they had tried to satisfy both the city and the township.

F. H. Miller, first deputy reeve, said that the establishment of the waterworks had created a better relationship between the township and the city.

Wm. Graham, third deputy reeve, said that the present project had been a long dream, both on the part of the city and the township.

W. H. Randall, superintendent of the maintenance department of the Toronto waterworks, was there to represent R. C. Harris, city works commissioner.

The new main is a twenty-four inch pipe which gets its feed from the city, and this pipe branches into smaller ones of six and twelve inches in diameter. These smaller pipes will eventually be connected with the city system, so that if the main gets out of order the water supply can still be kept up.

Hoffman and Company had the contract for the laying of the larger pipe, and Mitchell and Mohan, laid the contract for the laying of the smaller pipe.

Charles Fellows, assistant engineer of the department of works, and Robert Hutchman, assistant engineer of the water main section of the department of works, did the inspecting for the city.

—Second Floor, Queen St.

### Men! Share in the Sale Clearance

#### Of Straws at \$1.00 (Mostly Half Priced)---Half Price, \$1.50---Panamas, Half Price, \$3.50

Men, there's a difference between a "Toyo" hat (panama weave) and that of panama leaf. Panama today in the hat business is a much abused word. Make sure when buying your "Panama" hat that you know the difference between the Japanese Toyo that has swept the country and the Panama; also that you get the benefit of the difference in price. "Toyo" is a Japanese paper woven the same as panama—it is tough in texture, holds its shape, looks for all the world like panama in weave, texture, color and style; and has come into such vogue that very few know the difference. Toyo hats sold in the Men's Hat Section at \$2.25, \$2.50 and \$2.75.

The hat of South American palm leaf will last several seasons, and may be cleaned, re-blocked in the fashionable shape of the day, and made like new each season. Panamas are priced at \$5.00, \$6.50, up to \$12.00.

#### Note Well These Hat Values in the July Sale

Men's Boater Straws, some half price, of sennit straw, with black corded ribbon band, and well drummed or cushion sweat band. Sizes 6 3/4 to 7 1/2. Today, \$1.00.

### Now For Values, Men!

'Tis the Clothing Section also coming into the sale with Trousers at \$2.40 and \$2.90. Share in this offer today, if you want trousers; also watch the values offered for the next few days---remember, "something different every day."

A trouser clearance is always a popular one, especially on Mondays, perhaps it's because the man of the house has more time on the week-end to realize his needs—or perhaps it's because an odd coat and a pair of trousers make a suit for business or knockabout wear, at a cost that is strictly in tune with the economizing spirit of present times.

At \$2.40 are trousers of tweed in worsted finished materials, in many patterns and shades of greys with narrow and medium width stripes. There's also brown, and some plain patterns

in the lot. Have 2 side, hip and a watch pocket. Some with belt loops and side straps. Sizes 32 to 42 waist measurement. Today, sale price, pair, \$2.40.

At \$2.90 are trousers in worsted finish and striped patterns, suitable for wear on almost any occasion. Have belt loops, side straps, 2 side, 2 hip and watch pocket. Sizes 32 to 42. Today, sale price, pair, \$2.90.

We reserve the right to sell not more than two pairs to any one customer.

### RAILWAY SITUATION SEEMS TO PROMISE A GENERAL TIE-UP

#### Negotiations Between Shopmen and Railway Board Still Hang Fire.

From the Sunday World. The World learns that the negotiations between the railway shopmen and the Canadian Government railway board are still hanging fire, and that the outlook is somewhat ominous. The shopmen, it will be remembered, demanded a large increase in wages, and the railway board offered to advance wages along the line of the McAdoo schedule, so that the shopmen in Canada would have the same wages as the shopmen in the United States. This offer was not accepted, as the shopmen pointed out that the McAdoo schedule was being revised upward to meet the objections of the American railway men. The board then offered the men the McAdoo schedule, plus whatever might be added as a result of the negotiations now going on in the United States, but insisted that the shopmen in Canada should continue work, just as the shopmen in the

### AVIATOR IS KILLED AT ARMOUR HEIGHTS

Thru the fall of his machine from a height of about 200 feet, Second-Lieut. A. W. Hill of Malden, Mass., under training as an instructor in the R.A.F. was instantly killed at Armour Heights at 7:30 Saturday morning. The body was partially burned when the airplane caught fire on striking the ground, but the medical officers stated that the crash must have killed the young aviator.

Lieut. Hill enlisted in the R.A.F. last December and spent about two and one-half months at the school of aeronautics in training. The body was brought to the morgue where an inquest will be held.

### WORK ON BIG HOSPITAL WILL BEGIN TODAY

Work will be started today by the public works department on Toronto's new \$2,000,000 military hospital, which will be remodelled out of Old St. Andrew's College, and will have for the present a capacity of three hundred beds. Men will start putting the main college buildings and wings in shape for hospital accommodation and offices for administration.

The key of St. Andrew's College has been handed over by Dr. Bruce Macdonald to T. A. Hastings, representing the public works department, and already the workmen are tearing up the floors, where the wood is to be replaced with cement, and starting on the other work of reconstruction.

### News From The Sunday World

#### THE WAR.

English and Australian troops carry out successful minor engagements on the west front, capturing a number of prisoners and a few machine guns. The French have pushed their advanced posts between Montfleur and the River Oise forward a distance of approximately 600 yards.

It was officially announced in Washington that British reinforcements have been despatched to Siberia to help protect the stores at Vladivostok against the Bolsheviks.

#### GENERAL.

Applications for writs of habeas corpus on behalf of men who have been enlisted under the Military Service Act are flowing into the courts in the Province of Quebec.

### ONLY TEN APPLICATIONS FOR CIVIL SERVICE JOBS

Either the civil service does not hold any great attraction for Toronto young men and women, or very few of them possessing any experience in shorthand and typewriting are at present out of employment in Toronto. Up to four o'clock Saturday afternoon only ten candidates for vacancies in several of the departments of the civil service had presented themselves for examination at the University Medical Building where examiners sat all day to put competitors thru the necessary tests. It was not expected that more than half a dozen would turn up. All those who went forward for examination were girls.

#### SEE CANADA NOW.

It is safe to say that but a small percentage of the people of Canada have ever visited any of the many resorts in the "Highlands of Ontario," notwithstanding the fact that they are right at their door, and are unsurpassed in America for loveliness and variety. Write to any agent of the Grand Trunk Railway System for handsomely illustrated literature, descriptive of Muskoka Lakes, Lake of Bays, Algonquin Park, 30,000 islands of Georgian Bay, etc. These booklets are replete with information, give list of hotels, the character of the different resorts, where to go for fishing, canoeing, camping, or where to find a choice hotel retreat for a quiet week or month. ### FIRST PARADE MISSED IN LAST FORTY YEARS

Sergt. Arthur James Bennett, of the Royal Horse Artillery, died at the home of his daughter, Mrs. W. J. Cordell, of 125 Faison road, at 6:30 Saturday morning, in the 77th year of his age.

The late Sergt. Bennett was born in Ireland, but raised in Woolwich, England, and early became connected with the Imperial Army, and about forty-five years ago came to this country. He was a veteran of the Crimean and Turkish wars.

### FOUND DEAD IN BARN.

Woodstock, July 14.—Caley Wallace Cannel was last week found suspended by a hayfork rope in his brother's barn, John Cannel, East Zorra. The deceased was a Hamilton man, and was assisting his brother on the farm. The unfortunate man had just returned from a trip to California, and was in his thirtieth year. His wife predeceased him about a year ago, and Mr. Cannel, it is said, has been rather despondent since that time.

FRANCE UNCORRUPTED THE ALL BLOOD SPILT

French Consul in Toronto Issues Appeal for Support for Flag Day

M. Rochepeau de la Sabliere, French consul, has issued the following appeal for today, French flag day in Toronto:

"We celebrate today one of the most solemn anniversaries in the history of the world: the victory of Freedom against Oppression, the hearts of the free world beat more loudly for today, French flag day in Toronto:

"Every year, on this 14th of July, as that horrible but inevitable struggle grows bitter and more bitter, the most splendid records of generosity and more in union with those of France; more and more they realize how priceless are these principles set forth in 1789, for the welfare of mankind."

"That none of those should be surrendered, is why France shall fight, until her wealth has gone to smoke, until her pitiful stream of refugees, fleeing from town to town, shall have reached their last billeting."

"At that, France would not yet be conquered. Her spirit is immortal. But you all, free people, will not stand for such a holocaust; your sympathy has come forth with most magnificent deeds of heroism, with the most splendid records of generosity. To the rescue, have you cried out, the cause of liberty, of justice, of our blood; there is our money."

"And today, you want to shower down again, in these little blue boxes, not a small trifle, but a real donation, a gift, as a hearty testimony of your sympathy to a noble cause, as a warm appreciation of wearing on your breast that flag, which means so much to humanity."

"And you, brothers, of 16 to 45, you French, Belgians, Poles, Greeks, Syrians, Armenians, Ruthenians and others, living in Canada, who, since four years, have not yet understood what that mighty war means, to you, as well as to others, bring that little flag to your lips—listen at his whisper!"

"I hope there will be a generous response to the flag day on behalf of glorious France, which has had to endure the most terrible privations and trials, exceeding in horror anything the imagination can conceive, shall live in the days to come an ideal of the most sublime patriotism. France has been for us an inspiration. Canada's heart goes out with deep, grateful gratitude."

"The magnificent heroism of France in the midst of unbelievable dangers and frightful privations and trials, exceeding in horror anything the imagination can conceive, shall live in the days to come an ideal of the most sublime patriotism. France has been for us an inspiration. Canada's heart goes out with deep, grateful gratitude."

DOROTHY DIX'S TALKS

THE DIFFERENCE BETWEEN THE SEXES

By DOROTHY DIX The World's Highest Paid Woman Writer.

Now that the war has forever done away with that small and circumscribed circle "that was called" "woman's sacred sphere," and has forced hundreds of thousands of women into occupations heretofore exclusively followed by men, employers are beginning to note with interest the essential differences between the two sexes.

They say that girls learn more quickly than boys, that they are more accurate, more faithful and better at routine work than boys. They are more careful in handling goods, they break and waste less, but they have less initiative than boys, and no desire whatever, apparently, to know why they do such and such a thing.

They seldom even try to understand the mechanism of the machine they operate, or to learn the history of the goods they are trying to sell. They are content to do their little part, and indifferent to work that springs from visualizing the business as a whole, or feeling that they are an important cog in the wheels of a great enterprise.

But, according to the consensus of opinion among these new employers of feminine labor, while the boys are content to do their little part, and indifferent to work that springs from visualizing the business as a whole, or feeling that they are an important cog in the wheels of a great enterprise.

On the other hand, men have never had to study women, and they haven't done it. They have contented themselves with saying that the feminine sex was an unguessable conundrum, and letting it go at that. The only time a man ever takes any cognizance of what a woman thinks is when she dares to disagree with him, and then he doesn't try to find out why she thinks it. He merely attempts to make her think his way.

A woman knows her husband down to the last fibre of his soul. She can tell to a dot what he will do under any given circumstance. A man has not even a hazy acquaintance with his wife's soul, and he admits that he hasn't the slightest idea of which way she will jump in any emergency. This is a pity because if men knew women as well as women know men, and if men thought women as well worth study as women think men, the two sexes would arrive at an understanding that would make for mutual good.

Now that under the changed conditions of the world women are no longer dependent on men for a livelihood, and men are becoming dependent on women for work this difference between the sexes will doubtless be eliminated to a large degree. What a woman has no longer to jolly her frills and furbelows out of a man, she will be less interested in studying his moods and tendencies than he will be in having to placate him in order to get them.

And when she realizes that she is not just making a time in working while she waits for a marriage pin, but that she has got to support herself as long as she lives she will undoubtedly develop a greater interest in things, and go at her job in the same spirit with which a man attacks his career.

The war is bringing about great changes, but none greater than the effect it is having on moulding men and women into new characters.

HEROISM OF FRANCE TO BE RECOGNIZED

Toronto, on Monday, Will Be Given Opportunity of Contributing to Secours National.

Mayor Church hopes that today there will be a generous response to the French tag appeal of the Secours National. It is in honor of a noble nation, for whom our friendship and admiration has no limit, a nation towards which the anxious eyes of the whole civilized world have been turned. The mayor says: "It is with the greatest emotion that we think of France a martyred country, which has become a field of battle. The struggle against an unceasingly and out of it will emerge the liberty of the world. We shall never forget this hand of France, where so many of our sons sleep their last sleep. It is forever sacred to us."

TO STIMULATE STUDY IN DOMESTIC SCIENCE

The executive committee of the Canadian Industrial Reconstruction Association recommends that a post-graduate scholarship or fellowship be offered in the department of economics at McGill, Toronto and Manitoba universities, which will be open to women graduates of any Canadian university for the purpose of carrying on research work of an economic character in the home-making or occupation of women. The above is the result of a report of the executive, and is for the purpose of arousing interest in the work of reconstruction which is sure to follow the war.

There is also a proposal to offer a matriculation scholarship at various Canadian universities for essays by girl matriculants. Prizes are also to be offered in the various provinces for essays by school children on national pride or the value of trade training in finding advantageous employment.

Miss Marjory MacMurphy has charge of the women's department of industrial reconstruction with headquarters at the Royal Bank Building.

THE BOOK ROOM HOLDS ANNUAL PICNIC. The largest picnic in the history of the Methodist Book Room was enjoyed by upwards of 800 employees at Queenston Heights on Saturday, July 13, leaving by the earliest morning boat and returning by the Steamship Chippewa at midnight. This was the annual picnic of the concern.

A feature of the occasion was the presentation of a delightful bouquet of roses to Rev. Dr. Briggs, steward of the company. Games and sports of all sorts were enjoyed, and when the party was returning on board the Chippewa they indulged in what was characterized as the largest sing song ever held on board this steamer. A feature of this song fest was the baton wielded by Rev. Dr. Briggs, which was about six feet long and imposing in appearance. All arrangements were in charge of Watson Ross, Bert Warner and J. Baxter.

The Book Room has sent more than 90 employees over to the front. Of this number seven have died, and two returned men were among the plenickers. A splendid service flag has been secured for the room, and hangs outside the building at the corner of Queen and John streets, showing the maple leaves surrounding the names of the 90 men who depart either on Flanders fields in Britain, or returned to Canada.

EXAMINE OFFICERS. A board of examiners will meet at Niagara-on-the-Lake this afternoon for the purpose of examining the officers attending the Provisional School Army Medical Corps. The board will have as president, Lt.-Col. C. Carter; and as members, Capt. E. Morrison and an officer, not under captain's rank, to be detailed by the commandant of the Polish army camp.

WAR GARDEN BULLETIN. SAVE YOUR CABBAGE. It is about this time that the flies of the cabbage maggot are being deposited against the stems of young cabbages. The best preventive where these pests are concerned is the felt disk placed around the plant as soon as it is set. But for those who did not take this precaution earlier in the season care must be taken to prevent the pest from reaching the plants. A good remedy is to dust the infected plants with pyrethrum insect powder and air-slaked lime or other dry diluent one part the former in four of the latter. After being thoroughly mixed together the powder and lime should be kept in a tight vessel for 24 hours before using. The mixture should be applied from a dusting, sold by seedsmen, or from a cheesecloth bag tied on the end of a long handle. A mixture of Paris green and dry arsenate of lead may be safely used as a spray for cabbage and the heads are half formed, but not afterwards.

BENEFITS OF TOUR OF RED CROSS WORKERS. A letter telling of the helplessness derived from the recent tour of the United States Red Cross workers through Canada has been received by Col. H. C. Bickford, Toronto district commandant, from Douglas G. McMurton, New York, as follows:

The benefits derived from the tour through Canada were extensive and real, and will be most helpful in developing special service here. On behalf of the members of the party, and the situation they represent, may I express to you their deep appreciation of the courtesy and hospitality you extended to them while in your city.

Mrs. Harold Manning Leaves To Work for Soldiers' Comforts. Mrs. Harold Manning is planning to leave for overseas the beginning of September to work in England as a voluntary worker under Lieut. John Arnold in the soldiers' comforts department. Mrs. Manning's husband, Lieut. Manning of the 67th Battery, has been overseas for two years, and has also her brother, Gunner Jas. Edicott. Mrs. Manning received her passport from Ottawa last week.

MEDICAL PROFESSION'S HANDS BY FIGHTERS

Tribute Paid to Soldiers and Sailors by Dr. J. W. MacMillan.

Dr. J. W. MacMillan of Winnipeg preached a memorial service at St. Andrew's Church, King street, for the medical officers and nursing sisters who lost their lives when the S. S. Lusitany was sunk by a German submarine on June 23. He said: "Human brutality is no novelty in the world for every place shows the brutality that man has wrought on his fellow man. In all commercial institutions and domestic life show us this and history is full of the cruelty of man to man. Up to the point of the Lusitany had unrepeatable hardships today and the lesson for us is to stick it thru." He said the pacifist was the man who sought peace at any price, for they had unrepeatable hardships today and the lesson for us is to stick it thru. He said the pacifist was the man who sought peace at any price, for they had unrepeatable hardships today and the lesson for us is to stick it thru.

THOS. A. WISE GIVES ADDRESS IN CHURCH

That a sermon was a sermon no matter where delivered, on the stage, or in the pulpit, was the opinion expressed by Thos. A. Wise, the genial comedian now appearing with the Robins Players, to a large audience at the Bond Street Congregational Church last night. "When you ask a layman," he said, "what makes the biggest hit in the play, the horse, the chariot race and the scenery, I suppose. Wrong, all wrong, my friends. That which makes the greatest appeal is that indefinable something in the last act, the crowd ascending Mount Olivet which takes us to the near presence of the Christ." Speaking of the morality of the stage, Mr. Wise said, in part: "The actors' home life is as pure as that of any other profession. There are thousands of actors' homes in the United States with a home life almost ideal." He said that the societies formed for the betterment of stage working conditions, notably the Actors' Church Alliance, which is seeking to abolish the "black list" of actors on Sunday. Mr. Wise also declared that it was due to the people themselves that a mistaken idea was abroad about the morality of the actor. "Why, I know of statues on some old law books of some states which class the actor with the wizard," he said. "Some of our greatest preachers were shownmen, like P. T. Barnum being no exception to the rule. He may have been a good preacher, but he was a man and a true friend."

MILITARY FUNERAL FOR SERGT. B. DOWD

The funeral of the late Sergt. B. Dowd of 415 Ashdale avenue, was held on Saturday afternoon from the residence to Prospect Cemetery, the remains being interred in the G.W.V.A. plot. Charles H. Stokes, on behalf of the Riverside branch, took charge of the funeral. Capt. (Rev.) D. J. Lane, who conducted the services, delivered a stirring address upon the life and work of the late comrade. The funeral was a military one, the gun carriage and the firing party being detailed by the Canadian Garrison Regiment. The pallbearers were all comrades from the late sergeant's regiment, the 168th Battalion, and three of them were members of the Riverside branch of the G.W.V.A. The circumstances of Sergt. Dowd's death were sad. He was to have been married to Miss Dorothy Criet next Saturday. He was quite well on Sunday, July 7. On Tuesday he was taken ill and died Wednesday from the effects of gastritis.

CHARGE OF THEFT.

Ethel Young, aged about twenty-one, 97 Westmoreland avenue, was arrested yesterday afternoon on the charge of having stolen a blouse from S. J. Murphy, 82 West Bloor street.

PLAYS PICTURES AND MUSIC, TORONTO'S OWN MARY SETS NEW STANDARD

Over Three Thousand Increase in Population is Given.

It remains for Mary Pickford to set a new standard in cooks. From the beauty standpoint this latest role enacted by the "most popular girl in the world," has created a sensation, and judging from the nature of the picture in which she takes command of the kitchen in "How Could You, Jean?" her latest picture, she must be an expert in that domestic art as well. The Allen Theatre has chosen this most recent Arcturion triumph to satisfy the discerning thousands of "Little Mary" fans. On Saturday, when the new program was presented, in spite of the new weather vogue, a record crowd was on hand all afternoon and evening.

Miss Pickford is at her best in this newest role. As Jean Mackaye, she appears as a young heiress suddenly frowned upon by fate, who leaves her penniless. Smiling in face of the cruel blow, Jean decides to be "hired out" as a cook, for this art has always been a gift with the young aristocrat. Many amusing and pathetic scenes ensue, Jean is paid marked attention by the Swedish hired man, on the country estate to which she is sent, until a young motorist (Ted Burton), and son of a millionaire, arrives, and bribes Oscar to give up his "job." Ted assumes his duties, and many strange things happen before he finally proves his worthiness, position and birth to Jean, whom he finds half angel—and half cook.

"Whist or no whist," is the title of the new Judge Brown episode, while another travelogue of unusual interest is "Quain Quebec." Roland Todd provides the musical features of the program this week, contributing a fine piano solo.

"The Old Homestead" Local theatregoers will possibly have their last opportunity of seeing Denman Thompson's classic of the New Hampshire hills, "The Old Homestead," this week at the Royal Alexandra Theatre. Certainly they will never see a more popular star in the title role than Thomas A. Wise, who is being presented by Edward H. Robins, supported by the Robins Players. The entire company will be utilized in "The Old Homestead" and Manager Robins promises to make the production of the most complete production of this famous old comedy that has ever been seen on a local stage. The matinee will be as usual on Wednesday and Saturday.

Shea's Hippodrome. Gorgeousness and exquisite attention to detail mark the Wm. Fox production of "Du Barry" with Theda Bara, the feature film this week at Shea's Hippodrome. "The Fountain of Love," the feature vaudeville attraction, is a spectacular musical fantasy. Gilmore and LeMoine, presenting "Vaudeville Frivolities" will be another attractive turn. Young and Wheeler, "Bachelors of Music" have a unique instrumental specialty. Brewster, offering "The Game of Animal Intelligence," George and the Hippodrome Pictorial Weekly and Pathe News pictures, changed twice weekly, are among the other presentations.

Loew's Theatre. "Hit-the-Trail-Holiday" which will be shown this week at Loew's Theatre and Winter Garden, introduces George M. Cohan as Billy Holliday, the prototype of Billy Sunday, the temperance evangelist, in the role of a bartender who is reformed and thru the love for a girl becomes an ardent prohibitionist. Three acts will share the headline vaudeville honors: Henry Horton and Company in "Uncle Lem's Dilemma," a rural comedy; Holmes and Le Vere, in a song and piano oddity, and O'Neill and Walmsey introducing "Comedians of Life." Other specialties embrace: The Three Robbins, singing "Songs of Yesterday and Today," Charles Ledegar, "The Komio on the Kabuki Pedrin" performing monkeys, in "Fun on a Battleship," Loew's Pictorial Weekly and the "Mutt and Jeff" animated cartoons will also be shown.

Hayakawa at Strand. A rare treat is in store for patrons of the Strand Theatre today, tomorrow and Wednesday when Sessue Hayakawa, the world-famous Japanese actor, will be seen in his latest Paramount picture, "The Bravest Man," a picture which critics incline to think the greatest in which he has yet been a role, and which certainly affords him a scene of supreme and superlative beauty. The picture portrays the character of a quiet, studious and ambitious gardener, who sacrifices his love thru loyalty to friendship.

Mae Marsh at Regent. "The Glorious Adventure," Mae Marsh's latest picture which is showing at the Regent this week, is replete with surprises. One of them shows Carey Wetherbee (Mae Marsh) defying all the conventions in visiting and trying to make her home with a strange bachelor, who is at first hostile, then gently tolerant of her odd point of view. Another shows her at the mercy of an enraged mob of factory workers whom she is trying to help.

Mabel Normand at Madison. In "The Venus Model," the Goldwyn comedy-drama to be presented at the Madison Theatre today, tomorrow and Wednesday, Mabel Normand has precisely one of those roles in which she excels all other screen stars. Her part is that of a clever and good-hearted girl who finds a fortune for herself and others in a bathing-suit.

TWO MEN ARRESTED.

Police Claim They Were Trying to Break Into Store. Richard Howard and Lewis Sinclair were arrested about 2 o'clock Sunday morning by P. C. Elwood, while attempting to break into the rear of Taylor's Drug Store at 223 East Queen street. When discovered they were attempting to drill a hole in the door. Howard was caught at once, but Sinclair made a break for liberty, but was caught later. When arrested Sinclair had fifty morphine tablets in his possession.

NEWS OF LABOR

LABOR SITUATION IS AT STANDSTILL

The labor situation in general on Sunday was at a standstill. The newest phases of the situation were the strike of the C.N.R. transport teamsters in sympathy with the Dominion Transport employees, and also the serious possibilities arising out of the determination of the letter carriers to force the hand of the government. The Plumbers and Steamfitters at the Polson and Toronto Shipbuilding Company's yards were still on strike, and stood firm for their demands of a week ago for the same conditions applying to other downtown firms in the city. The textile workers' strike at the York Knitting Mills remained unsettled, the company still refusing to recognize the principle of trades unionism. The machinists of Toronto held a mass meeting Sunday to consider important matters affecting the trade, and expressed themselves as satisfied with the action of the Russell Motor Co. relative to the employees recently dismissed and now reinstated.

MACHINISTS PLEASED AT REINSTATEMENTS

Several hundred machinists met on Sunday evening at the Labor Temple and expressed full satisfaction with the action of the Russell Motor Co. in deciding to reinstate L. Johnson and the two women employees, long the subjects of dispute between the company and the employees. It was stated that the officials of the machinists union would take all necessary steps in the future to maintain the future of the company and other companies comply with the terms of the agreement drawn up between 48 factories and the union. In this connection, the representatives of the Amalgamated Society of Engineers at the meeting decided to forward a resolution to Hon. F. W. Crothers, minister of labor, to the effect that the reinstatement of the three employees at the Russell Motor Co. unconditionally was proof of the fact that labor was being given its place of due recognition. The resolution also urged upon the government the necessity of either terminating or deporting any officials of any company who indiscriminately incited or caused industrial strife.

TRANSPORT WORKERS WILL STAY ON STRIKE

The transport workers of both the Dominion and the C.N.R. companies on Saturday afternoon decided at a meeting held at St. Andrew's Hall, Nelson street, to continue the fight for a straight wage of \$80 a month. Geo. Ward, the chairman of the strikers' committee, approached Superintendent Buller of the C.N.R. Saturday morning relative to the demands of the men. Mr. Buller stated that the men had broken faith with his company in striking on five minutes' notice. The committee pointed out that negotiations had been in progress between the company and its employees for a month. The employees had at first asked for a wage of \$80 a month, but this being refused, had pressed for a straight \$80 a month. The superintendent replied that the company was willing to make

NEW YORK STOCKS EXTREMELY QUIET

Transactions Smallest of Year to Date and Price Changes Narrow.

New York, July 13.—The low record of the year on the stock exchange was made today, transactions barely reaching 100,000 shares.

Relatively more activity was manifested by Corn Products, American Linsseed, American Ice, Booth Fisheries and similar specialties than by the recognized leaders, but this movement exerted no influence.

United States Steel and associated industrial and equipment were firm in their gains in the moderate selling of the final hour.

Rails were lifeless, many investment issues remaining unquoted. Simatra Tobacco was subjected to bear attacks at an extreme low of 11 1/2 points.

The bank statement failed to correct previous weeks' severe loss of cash, actual excess reserves increasing by about \$30,000,000.

Old United States A's advanced 1-2 per cent. on call during the week.

CANADIAN CAR STOCKS FEATURE AT MONTREAL

Final Agreement Regarding Sale of Directors Inspires Bids.

Montreal, July 14.—A brisk demand for Canadian Car, with some activity in Canada Cement, Montreal Power and Steel of Canada, gave the Montreal Stock Exchange a livelier appearance Saturday.

Buying of the Car stocks was apparently premised on the final agreement in regard to the sale of directors' stock.

LITTLE ACTIVATION IN LOCAL MARKET

Cement, Slightly Higher, is Only Issue in Which Interest is Shown.

Trading was almost negligible on the Toronto Exchange on Saturday morning, several stocks yielding a total of 153 shares.

Cement was the centre of whatever interest was displayed, 35 shares changing hands at 11 1/2 to 11 3/4.

Rockwood Oil's yield materially increased.

Five Wells Now in Operation and Ten More Are Expected Soon.

Hamilton B. Wills, in his weekly market letter, says:

"During the month of June the daily shipments by the Rockwood Oil and Gas Company averaged about 175 barrels.

MATERIAL SETBACK GIVEN CORN PRICES

President Wilson's Veto of Wheat Profiteering Bill Affects Other Grains.

Chicago, July 13.—President Wilson's veto of the bill to enhance the price of wheat gave a material setback today to the corn market.

It was a foregone conclusion that the veto of the bill to enhance the price of wheat would be followed by a similar move against the corn market.

## Are You Getting Your Share of the "Arrow" Shirts?

The Sale is Going Full Tilt! \$1.50, \$2.00, \$2.50 and \$3.00 Shirts at One Extraordinary Price---

# \$1.39

The man who neglects this shirt opportunity will be pretty apt to regret it, because market conditions are such that a repetition of these values seems almost impossible.

The shirts are distinctive in character—authoritative in style—dependable in quality—the sort of shirts that most men prefer.

Made from specially woven fabrics of beautiful colors and designs, these Arrow shirts represent the culminating point in shirtmaking and are splendidly tailored.

In point of comfortable fit, proportions and general excellence they maintain the standard implied by the Arrow label.

An important feature about these shirts is the variety of sleeve lengths to suit all types of arms. Complete sizes from 13½ to 17. Truly, the most remarkable shirt values of the season at \$1.39, or 4 for \$5.50.
