HUNDREDS OF EARTH SHOCKS

Terrible Plight of Stricken Inhabitants of Valparaiso, Where the Disaster Approaches the Awful Destruction of San Francisco a Few Months Ago.

AT VALPARAISO. Homeless... 100,000 Killed... 2,000 Property Loss... \$250,000,000

This continues confusion of statements as to the magnitude of the disaster to Valparaiso, caused by the earthquake shocks which began on Thursday, Aug. 16, and continued at frequent intervals through the next two days.

It is evident that confusion and panic yet prevail at Valparaiso, and that until order is restored it will be impossible to ascertain with accuracy the loss of life and property.

Worse Than Frisco

Valparaiso, Chile, Aug. 19.—At 7.52 o'clock last Thursday evening, Valparaiso experienced an earthquake of great severity, and during that night eighty-two shocks were felt.

Most of the buildings of the city either were ruined or damaged. The loss was enormous, probably reaching \$250,000,000.

Many Villages in Ruins Santiago Badly Shaken

Santiago de Chile, Aug. 19.—It is known so far that eight lives were lost in this city as a result of the earthquake.

Several persons became so panic-stricken during the tremblings of the earth that they threw themselves from the balconies of their homes and were killed.

The fires, which followed the earthquake, were promptly extinguished, but while they lasted they greatly augmented the terror of the people.

As all the telegraph and telephone lines were more or less damaged the exact situation through the country is not yet known.

At Concepcion the shock was severe, and a number of persons were killed or injured.

In the city of Santiago much damage was done. Many public buildings, particularly churches, were dismantled.

The scenes at the hospitals and prisons during the excitement were distressing in the extreme.

Several return shocks of slight intensity have served to continue the state of public alarm.

The name Valparaiso signifies "vale of paradise." The long, narrow city extends bowl-like around the bay.

The Dominion parliament will be appealed to give the usual guarantee of bonds at \$13,000 per mile.

Those interested in the company are Mayor Bradshaw, P. C. Baker, Senator Davies, Wm. Cowan, Judge McIntyre, Sam McLeod, O. B. Manville, V. S. Cook, Prince Albert, John Simpson, Yorkton.

It is expected that a portion of the road will be built this fall to handle the lumber, fish and fur trade, which has grown to such an extent that the old method of freighting has proved entirely inadequate.

The morning World is delivered to any address in the city or suburbs before 7 a.m. for 45 cents a month.

Bronged by the English sun, but in the best of health and spirits, Lieut. Col. G. T. Denison arrived in Toronto yesterday.

Wants His Money Back. An interesting love affair came to light when the Brampton police arrested John Fletcher and Mrs. James Walker for the local police on a charge of stealing \$35 from the woman's husband last Tuesday. Fletcher was liberated from the Central Prison on August 14 and went direct to the Walker home at 55 1/2 Liberty-street. The same day the pair decamped and took with them Walker's \$35. They were to be arrested and were married after which they lived with Mrs. Walker's sister, Mrs. Malcoland. They were arrested this morning a day before the police were notified of the theft. The police are still searching for the couple. The wife of the man who was arrested for the theft of the \$35 is still in the Central Prison for robbery at Cayuga in 1904.

Japanese Women Best Formed. A famous German scientist who has made a life study of the beauty of women of all nations considers that he found the most perfect and harmonious development of form among the Japanese. His ideal proportions differ slightly from the standards of beauty set by the Greeks, and he gives the following as his "normal proportions" of the perfect figure from average measurements of many:

The height should be seven and a half times the length of the face, and the legs four times the length of the face. The shoulders should be one and a half times the length of the face, and when standing erect should reach exactly to the level of the knees, the calves and the ankles.

Here, however, are some other measurements which artists generally recognize as a standard for beauty. The stretch of the thumb and middle fingers should measure exactly the length of the face; the thumbs and middle fingers should exactly circle the neck, while the thumbs and middle fingers should exactly circle the level with the shoulders; the perfect woman should measure exactly her height from the tip of one middle finger to the other, while the arm hanging down should reach exactly half way down the side.

Shiga's "Black Hussars" and vaudeville, 2-8. "Fascinating House of Mystery," new melodrama, 2-8. "Star-Merry Maidens," Burlesques, 2-8. Hanlan's Point-Besses o' th' Barn Band, 2-8.

The Grand Opera House, after its extensive improvements, will open for the season on Aug. 27, presenting for the first time here at the Grand's scale of production the most successful opera success, "The Yankee Consul." It was originally booked for four weeks in New York and ran there over six months at the Broadway Theatre in Boston, where its schedule called for a fortnight, the piece remained two months and similar success was recorded in Philadelphia. Like the babbling brook "The Yankee Consul" seems likely to go on forever. The big company comes intact to the Grand with Isabelle Carroll as the prima donna and Harry Short in the leading comedy role.

A colored musical organization, known as the Black Hussars, is the feature of the bill at the Grand this week, and it is claimed that both from a scenic and musical standpoint they will be found exceptionally entertaining. Jas. Doan and Ida Nelson, who have been seen in a comedy sketch that will sustain their past successes. Catherine Hayes and Sabal Johnson have a pretty offering they call "A Dream of Baby Days." Others on the bill are: Herbert Lopez-the dog, the best trained dog in vaudeville; Stanley and Leonard, with a few new vaudeville ideas; Mitchell and Cain, "The Frenchman and the Other Fellow"; the Garrity Sisters, novelty dancers, and the kinetograph, with all new pictures.

At the Majestic, "The House of Mystery" a new melodrama that is heralded as being out of the ordinary in plot and presentation, will be seen. The story centres about five disolute men, known as "The Black Five." These men believe in the occult and sinful objects at the cost of human suffering and brutal crime. Constant Faith, a fashionable band of mysterious men were on the alert. Into the tangled web comes pretty and winning Edith Murray, a girl scarcely out of her teens, who is compelled to enter one of the large department stores in the City of New York, so that she and her good mother might see an existence. Her father's and final triumph are graphically portrayed.

The Star will maintain its record by presenting the Merry Maiden Burlesque in its skits. "The Hero of the Hoopla" and "A Necktie Party." The olio will be given by the Marvelous Ferrel Bros. in their new creation "The Fashionable Band of Mysterious Men." Edith Murray, the singer, the men who write and sing their own parodies; Edith Murray, the singer, in a repertoire ofcoon songs; Burton and the "Fellow"; musical instruments; Miss Pearl Carney, vocalist; Ward and Raynor, in an entirely new comedy sketch.

At Hanlan's Point this afternoon will be heard for the first time the famous English brass band, the Besses o' th' Barn. Critics have delivered themselves of praise in the following terms: "The band is great in expression, and the way it can work up a crescendo is almost a revelation. Its performances are finished in the highest degree, and these are the kind of brass instruments are capable of." "From the soprano cornets, who soar in the clear, to the upper octave with such a shrill brilliancy, to the big basses, who move about at a subterranean depth of profundity, they are a grand combination." "The superior qualities impressed one perhaps more than anything, the flexibility and precision with which brilliant passages of execution were compassed betokened highly skilled mechanism." "The exquisite balance and roundness of tone combined to meet the performance the perfection of brass band playing." This afternoon's concert will be given in the oval at 3 o'clock to-night at 8.

Stomach Cramps. COLIC.

THESE are very painful, and their attacks are often sudden and sometimes fatal. The principal seat is in the stomach and bowels, producing severe twisting, cramping pain, and often accompanied by vomiting. If you are troubled in this way, there is only one remedy to cure you, and that one is Dr. Fowler's Extract of Wild Strawberry. It has a record of cures extending over 60 years and we have yet to hear of it failing to either relieve or cure.

Mrs. M. SCORD, Bristol, N.B., writes: "I was terribly troubled with cramps for some time and had several doctors attend me, but their medicine did not do me any good. I got two bottles of Dr. Fowler's Extract of Wild Strawberry and they completely cured me. I would not be without it in my house."

HURL BOB AT GOVERNOR PERPETRATORS ESCAPE

Two Missiles Explode Behind Carriage, But Object of Attack is Unharmed.

Warsaw, Russian Poland, Aug. 18.—Three bombs were thrown this afternoon at the governor-general's carriage from a third floor balcony of a house on Nalonska-street. Two of them exploded behind the carriage, without damaging it, but breaking the windows of all the neighboring houses. Gendarmes surrounded and searched the house, but the perpetrators of the outrage had disappeared. It was ascertained that shortly before the attempt some young men entered the house, threatened its occupants with revolvers and ordered them to leave the premises immediately. On the balcony where the bomb throwers stood the police found a fourth unexploded bomb.

SITUATION AT WARSAW.

Berlin, Aug. 18.—The Warsaw correspondent of The Vossische Zeitung gives this description of the situation there: "The population is terribly distressed, and there is hardly any street traffic because of the insecurity of life. The soldiers have received orders to fire on everybody arousing suspicion. All the hospitals are so overcrowded that patients are obliged to lie on the floors and passages. In the streets there are still lying dead who were found in the streets. It is not known how many have been killed during the night by the police. It is impossible to ascertain the number of dead or wounded. Dr. Lorentowicz and his assistant in the hospital at the suburb of Wolowka bandaged the wounds of 472 persons. The centre of the town is fairly quiet, but it is most dangerous to enter the Jewish quarter."

The latter has expressed himself as highly satisfied with the outcome of his personal conferences with the King.

The discussions between the monarchs in the presence of their diplomatic representatives covered many political questions of interest to both countries, without aiming at reaching specific arrangements, but with the view of coming to a satisfactory understanding respecting the policies pursued by the two countries.

This was accomplished in the main, and the foreign office expects to see the improvement in the relations between them continue.

UPRISINGS IN CUBA.

Havana, Aug. 18.—The rumors of uprisings in Cuba are confirmed in some quarters. A detachment of rural guards last night encircled a body of thirty men near Rio Hondu, Province of Pinar Del Rio.

The band, which is commanded by Colonel Pozov, the well-known veteran, fed after an exchange of shots, leaving one horse killed on the field. It is positively stated that two other bands are roaming about Pinar Del Rio, led by locally influential men, but at the palace here it is said that the Pozo band consists of only four men and that no other bands are out.

TRAIN HITS WAGON.

One of the Three Men Aboard it Rather Seriously Hurt. A westbound express train on the Grand Trunk at 12:30 Saturday struck an ice wagon belonging to the Grenadier Ice Company, which was crossing the track at Ellis-avenue and Lake Shore crossing at Swansea. There were three men on the drivers' seat at the time, and all were thrown from the wagon. William Carr, book-keeper and paymaster for the company, was one of the three men, and the only one who sustained serious injuries. F. W. Matthews' special ambulance was called, and Mr. Carr taken to Grace Hospital, where last evening he was reported doing nicely, his injuries, a scalp wound and some abrasions of the face, not being considered dangerous.

John Brydson, the driver, was shaken up, but was able to go to his home. The other man escaped injuries.

The wagon was empty at the time, and Mr. Carr was riding to one of the company's departments to pay off the men. The horses got clear of the track and were not hurt. The wagon was wrecked.

MAGISTRATE AND LAWYER PLAYS JOKE ON HIS RIVAL

Another War of Words. Gives Fictitious Orders for Ice, and is Stabbed by Man and Woman.

New York, Aug. 18.—As the consequence of a practical joke played upon a business rival, Robert Cusick, a young ice-dealer, is in a hospital, fatally stabbed. Pasquale Deshon, also an ice-dealer, and Mary Deshon, his wife, are locked up, charged with felonious assault, and are held pending the result of Cusick's injuries.

Cusick yesterday thought it would be good fun to play a trick on Deshon, who has an ice cellar in 154th-street. So he hired a boy to visit the rival dealer and give him imaginary orders for ice. Deshon went out with a cart full of ice, only to find that his prospective customers were myths.

This angered him greatly, and he told his wife about it.

Cusick, delighted with the success of his joke, spread the news around the neighborhood, and Deshon came in for a good deal of chaffing from his neighbors. EAST TRAIN STRIKES AUTO

Three Dead; One Will Die. Collision in the Dark—Slight Turn in Road Concealed Danger.

Asbury Park, Aug. 18.—Three automobilists were killed and another fatally injured at the Allaire crossing on the Pennsylvania Railroad, near here to-night, when an express train crashed into the touring car of J. George LaFargue, a piano manufacturer of New York City.

Mr. LaFargue, his wife and Mrs. Charles Lurch were instantly killed. Mr. Lurch, the only other occupant of the car, was unconscious when picked up and is in a precarious condition.

Mr. LaFargue handled the machine himself as the party approached the Allaire crossing, the car was run in at a good speed, it is said. There is a slight turn in the road near the crossing, and as the party sped along they did not hear the approaching train.

As the car swept over the tracks the train crashed into it and the occupants were thrown high into the air. The car was hurled 30 feet and wrecked against the Allaire station.

HOP-SCOTCH AT ISLAND PARK

Took Place of the Dance Red Ribbon Boners Were to Have Had.

The timely arrival of P. C. Miles at the public pavilion, Island Park, on Saturday evening prevented what seemed for a time to be shaping for a free-for-all fight.

Henry Hughes has the refreshment privileges of the pavilion, but no license to charge for dancing. The pavilion for dancing purposes—at least not on Saturday night. The pavilion is public and therefore open to all. Nevertheless it is alleged that Mr. Hughes has been in the habit of charging a fee of \$5 to any club desirous of arranging a dance. This fee Mr. Hughes asserts is simply for rental of the piano for the evening, but when arrangements are made it is understood by the dancing party to mean to the exclusion of any outside the party.

Saturday evening the Red Ribbon Club had the privilege—at least members of its club say they paid for the use of the pavilion. After the hop was fairly begun along came a party of Scotch folk, recent arrivals in Canada who desired to dance. A partition of chairs was pulled across the floor and the two parties started to dance and incidentally to breathe orderlies' epithets in each other's direction. It was not long before the storm came, and the Scotchmen, who considered themselves imposed upon, lined up in battle array. Both sides were ordered to charge bayonets when Pollock's Miles interfered, reinforced by Park Superintendent David Kimmons, and ordered all the warriors to retire. No one was arrested.

Members of the Red Ribbon Club stated that they had paid \$5 for the exclusive use of the portion of the pavilion they were occupying, and that it was to cost them \$3 extra for music.

indulged in, only three men being ruled off, and only for minor offences.

Referee Robertson called the teams together sharp at 7 o'clock for the first punctual start of the season.

Nolan took the face-buff from Feltner, and the ball was rushed into Tecumseh's goal, but as soon as Feltner Nolan secured and carried down, passed to Finlayson, the latter passing to Dade, who scored the initial goal in one minute of play.

The ball was rushed again to Tecumseh goal, but with no effect. Strachan broke up a strong attack, Finlayson made a fast run down from end to end, passed to Hamilton to Dade, after suggesting the nets for Montreal's second goal.

Montreal opened the attack, but Tecumseh's defence was so tight that the ball was cleared by Feltner and Nolan.

After some pretty combination work by the Capitals home, Nolan simply relieved the danger.

BOWLERS AT GODERICH. MANY BRICKET MATCHES DECIDED ON SATURDAY

British Tourists Were Up to Eight Shots on a Four Rinks Match.

Goderich, Aug. 18.—The British bowlers arrived here from Stratford at 11 o'clock this morning. They were met at the station by a large procession of citizens and the band of the 33rd Regiment. Carriages provided by the town council were in waiting and the procession marched to the music of the band to their headquarters at the Hotel Bedford. The ladies of the party were given by Mr. E. Williams of the Bank of Commerce around the town.

After dinner the civic carriages were on hand to drive the visitors to places of interest and at 3 o'clock all assembled at the bowling green, where Mr. F. Blair, on behalf of the town council, delivered an address of welcome. The day was all that could be desired and the attendance at the green was large. The score was as follows:

ABLE TO MAKE STATEMENT.

But It is Not Expected That It Will
Provide Evidence.

Owen Sound, Aug. 19.—(Special).—
While Miss Louise Jones, the victim of
last Saturday night's attack is now in
a condition to make a statement, no
formal deposition has yet been taken.
It is hardly likely, however, that she
will be able to give the police much
assistance. So far, all she has said
concerning the attack is that someone
jumped out upon her and dragged her
from the road. A provincial officer is
expected to take up the case this week.
The authorities profess themselves to
be in the dark and say there is no basis
to their knowledge for any supposition
that "sensational disclosures" may be
expected. It is, however, believed
that the tramp at present under ar-
rest is not the guilty man.

STENSLAND AT MIDWAY
SUSPECT IS SHADOWED

May Be the Chicago Bank De-
faulter—His Loot is
\$1,000,000.

Spokane, Wash., Aug. 18.—Shadowed
by detectives, a nervous middle-
aged man left Boundary, B. C., by stage
this morning to go into the mountain
mining camps, upholding the statement
that he was Mr. Montgomery, a mining
man from Los Angeles.

By officials here he is believed to be
Paul O. Stensland, the fugitive president
of the Milwaukee Avenue State
Bank of Chicago. "Montgomery" ar-
rived at Midway, B. C., a week ago
accompanied by a handsome brunette
about 25 years of age, whom he in-
troduced as his wife. He was a stout
man, middle aged, with gray and
somewhat nervous.

Comparison of the pictures of Stens-
land and the woman who is believed to
be with the banker strengthened the
belief that "Montgomery" was the
fugitive.

A message was sent to the Chicago
authorities asking for a detailed de-
scription of the banker and if this
corresponds the Midway police expect
to take "Montgomery" into custody.
The Canadian authorities decided they
would not be justified in arresting
"Montgomery," however, when he
crossed the border, they left for the
hills to-day they left him proceed.

The chief of police of Midway states
that the officers here still shadowing
him however, and can capture him if
he is the man wanted.

During his stay at Midway Mont-
gomery appeared to have plenty of
money, and to be in no hurry to inspect
his names, acting like a man of leisure.
He played cards, went fishing and
made himself a "good fellow" but al-
ways appeared to be in a hurry.

For several days a man who suspected
him to be the banker has been shadow-
ing him, joining in his games and
fishing with him, failing to give an
accurate description of the amateur
Ont., who spoke for further
information, and telegraphed this city,
calling for Montgomery's arrest. The
authorities, however, were satisfied
and preferred to await more de-
tailed information. Should the sus-
pect prove to be the man wanted,
it is said to be almost impossible for him
to escape.

WOMAN WHO SUES SENATOR
DIXON "CAREER" IN CANADA

Dr. W. A. Dixon Declares He
Married Her in Chatham—
Writer on Toronto Press.

New York, Aug. 19.—Senator Patrick
H. McCarren, who a month ago
was sued by Mrs. Mary A. Dixon for
\$200,000 for alleged breach of promise
of marriage, gave a new and interest-
ing turn to the suit yesterday by pro-
ducing an affidavit from Dr. William
A. Dixon, who says he is the woman's
legal husband, and securing from
Justice Dickey an order for the ex-
amination of Dr. Dixon before a re-
feree on Aug. 30.

Dr. Dixon is a physician living at
722 St. Nicholas-avenue, this city. The
discovery was made by the Toronto
tribune of Canada of John J. King, who
was sent there by McCarren's at-
torney to investigate the antecedents of
Mrs. Dixon.

In his affidavit Dr. Dixon asserts
that he first met Mrs. Mary A. Dixon
in Toronto in 1893. Continuing, he
says:

"I then lived in Toronto and was
then engaged as a young practitioner
of the faculty of medicine. The plain-
tiff herein was also at that time a
resident of Toronto and a writer for
the Toronto press. She was then
known as Minnie Downs Le Ferte, and
was the widow of Dr. Donald T. La
Ferte, claiming that she had been
married to him in January, 1891, and
to have lived with him for two years
in Detroit, in the State of Michi-

"She delivered to me a paper which
purported to be a certificate of her
marriage to said Dr. La Ferte on Jan-
uary 1, 1891, also a paper which pur-
ported to be a copy of the will of Dr. La
Ferte, and another paper which pur-
ported to be a copy of the inventory of
his estate. She told me the said
estate amounted to about \$150,000, and
that her share of it amounted to
about \$50,000. She also produced a
baby, telling me that it was her child
by said Dr. La Ferte.

"She subsequently, and after my
marriage to her, confessed to me that
the certificate of marriage, the copy of
the inventory of her estate, and the
baby, and she confessed to me that
said child was not her child.

then at Chatham, in the Province of
Ontario, where we separated in 1898.
"Soon after our marriage I learned
that her representations of having a
share in any such estate were false,
and that she was wholly without prop-
erty and means. She was very extrava-
gant and in a short while incurred debts
to the amount of \$4000. She often
attempted to extort money from my father
and by false representations, and by
letters, and by threats to which my
name was forged.

WOMAN'S WORLD

Alas! How Easily Things Go Wrong
Alas, how easily things go wrong;
A sigh too much or a kiss too long,
And there follows a mist and a weeping
rain,
And life is never the same again.

Alas! how hardy things go right!
'Tis hard to watch on a summer's night,
For the sigh will come and the kiss will
rain,
And the summer's night is a winter's
day.

And yet how easily things go right,
If the sigh and the kiss of a winter's
night
Come deep from the soul in the strong-
er ray
That is born in the light of a winter's
day.

And things can never go badly wrong
If the heart be true and the love be
strong;
For the mist, if it comes, and the weep-
ing rain
Will be changed by the love into sun-
shine again.

—George MacDonald.

School for Brides-Elect.

Mrs. Katherine Lee-Thorold, presi-
dent of the School for Brides-Elect of
Euston, London, England, is visiting
the college of the same name which
she founded three years ago in Logan,
Penn., and is an outgrowth of the En-
glish institution. Mrs. Thorold, who is
the organizer of the English school, in
speaking of her enterprise, says:

"Our motto is 'How to make a man
happy.' We have 900 pupils, most of
them prospective brides, with wedding
days not far off, and a few of them
young matrons of not more than six
months' standing.

"Our girls learn how to cook, to serve
a full course dinner, to brew a favor-
ite punch and to turn out successful
chafing dish concoctions. In marketing
they learn to select the choicest cut
and not to order a whole lamb for two,
and they learn how to distinguish ripe
fruit from green, and fresh vegetables
from those of last week's stock. They
keep in touch with the market prices
of food and are taught to reduce their
expenses to a minimum. They are taught
the patience of their husbands shall not be
tried with big and unnecessary bills.

"They learn how to furnish the home,
from the ordering of the furniture to
the arranging of the rooms. Their in-
structors are women drawn from the
best of the sanitary profession, who
select a maid and brings her to the
school for a thorough course of training.
The future mistress, previous to the
advent of the maid, has been taught the
course, how to give orders to the cook
and other servants or how to plan each
day's work as the case may be. You
know many marital jars are caused by
poorly-trained servants.

"Then there is still another thing
which these prospective brides learn to
do, and that is to make their hus-
bands' shirts, not the full dress cut,
but the negligee. They learn to make
a perfect fit, and also how to select the
proper materials. You know, or per-
haps you don't know, that four shirts
of the best material, home made, equal
in cost one ready-made shirt.

"The school is now being put in readi-
ness for the fall term, and just before
I left England twenty additional pupils
had registered."

Virtues of Fuller's Earth.

The first aid to the home house-
keeper's says The Chicago Chronicle, is
Fuller's earth. There is absolutely no dan-
ger in its use, and its cost is very low.
It is a powder which is made of the
contents of a coffee cup. The girl who
has many elaborate dresses to keep
will do well to purchase it in bulk. It
is not inflammable, has no odor and
will not fade color, no matter how deli-
cate the tint or the finest. Semi-ready
suits remove all traces of dust, grime or
grease stains; even that most vicious
of summer stains, the green soda, will
yield to this simple treatment. The
earth is applied dry and the brushes
used for cleaning purposes vary with
the fabric to be cleaned.

For instance, if a broadcloth suit of
delicate coloring is to be cleaned, shake
it thoroughly to remove loose dust and
brush it with an ordinary clothes brush,
then draw over an ironing board, and

over every inch of the surface with a
rather stiff fine brush that has been
cleaned and dried, and then dip in the
Fuller's earth. If an exceptionally ob-
stinate spot is found mix common laun-
dry starch in a little clear water and
rub the mixture into this spot; allow
this to dry, preferably in the sun if
the coloring will not fade in the sun-
light, or lay it where the wind will
strike it. When the starch mixture has
dried rub the place again with
Fuller's earth and the spot will have
disappeared.

In cleaning silk with Fuller's earth
use a very soft, clean, velvet brush or
a piece of old Turkish toweling dipped
in the powder. For straw hats use a
stiff scrub brush and plenty of the
earth. This will remove all grime from
the hat, finger-marks also, and will not
injure the hat as gasoline does nor eat
the straw as the various acid clean-
ers do. Ten cents' worth of Fuller's
earth is sufficient to clean even a pic-
ture hat of straw.

White and delicately colored feath-
ers which are soiled but not limp from
dampness can be beautifully cleaned
with Fuller's earth. They should be
stretched on a cloth and the earth
rubbed in with a fine brush. Feathers
that have been soiled by dampness
and which have also acquired a dingy
look can be washed with a fine white
soap and recurred at the door of a
moderately hot oven or even the point
end of a sharp knife.

MORE AND MORE MEN
Are Demanding That Their Finer
Suits Have Silk Lining.

A silk lining in a frock coat is like
the silver lining in a cloud—most
practical use. But all the same it's
the yellow line to gasoline does not eat
each year the sale of Semi-ready frock
coats increases. More and more of
them are being made with the finest
silk demand silk lining. A silk-lined
frock suit or dinner tuxedo for \$80-
\$100 is a fine thing, and as only
the Semi-ready tailors can.

SPASMS OF SPECULATION OCCUR IN WALL STREET

Bullish Manipulation Overshadows Everything Else at New York

—Local Financiers Waiting.

World Office, Saturday Evening, Aug. 18.

Another chapter in Wall-street's modern operetta is unfolded by the past week's events, and the process by which the securities are ultimately to get into the hands of the public is being clearly revealed. It is no longer a question of theorizing on dividends. The time has arrived when practical illustration is necessitated. The greatest surprise of the year was reserved for this week, and the culmination of a brilliant operation reached in the declaration of a dividend of 5 per cent. on Southern Pacific, and an increase to 10 per cent. on Union Pacific. The strongest advocates of dividend disbursements had not ventured to predict such good things as occurred. A bonus on Union and a 4 per cent. dividend on Southern Pacific were as far as anyone could be expected to stray, and seldom before has Wall-street been surprised in extravagant prophesies by actual developments.
