

Note Presented to Russia By Britons and Japanese

Ottawa, July 3.—According to advices received by the British newspaper from the British and Japanese Ministers at Peking have presented a note to the Chinese government in the following terms: First, Russia's occupation of Manchuria threatens the maintenance of peace in the Far East, and injures the interests of England and Japan.

Fourth, Great Britain and Japan acknowledge no treaty between Russia and China, which does not bind Russia to evacuate Manchuria. Fifth, if, after the evacuation of Manchuria, a treaty between China and Russia with respect to the civil administration of Manchuria is deemed necessary, such treaty can only be concluded with the approval of Great Britain and Japan.

TEXAN CATTLE

Editor World: That the Imperial government should actually purchase United States cattle wherewith to restock Boer farms would seem to those who apparently overlook the great divergence between natural conditions in Canada and those in South Africa, a very serious matter.

LYNCH LAW HELPS NEGRO

Booker T. Washington Says It Will Solve Race Question. Louisville, Ky., July 3.—Booker T. Washington, head of the Tuskegee Normal School, speaking at Milledgeville, Ga., tonight, said the recent regrettable incident in connection with the race question only went to show that lynch law was not confined to any one section of the country.

DEFICIT MANY MILLIONS.

Free Delivery Blamed for Drop in U.S. Department.

Washington, July 3.—That a thorough reorganization of the postoffice department was long overdue is shown by the statement that the postal service for the fiscal year just closed marks a continual decrease in the amount of mail matter being nearly double that of the previous year, and that the deficit is more than \$4,000,000, despite the fact that the amount of mail matter has increased.

BRITISH VETERANS MEET TO PLAN WAYS OF HELP

Col. Graham of Boston Makes Plan to Visit Toronto.

An enjoyable event of the homecoming program was the veterans' smoking concert, held on the lawn at the Richardson House last evening. President Jones being unfortunately absent, the duties of chairman fell to Vice-President Walter Bright, who acquitted himself admirably.

of our first love, Toronto, and will not be content until we will be able to return in such numbers to tread the sacred soil of the land of our birth, so that when we all join hands we will form a circle large enough to surround our dear old city of Toronto and hold it within our loving embrace.

MONTREAL NOT PLEASED

AT GOVERNMENT'S POLICY

The Star and The Witness Describe Government Built Line as Wasteful.

Montreal, Que., July 3.—(Special.)—No end of interest was evinced in railway circles to-day by the effect that the government had practically decided to construct a line between Montreal and Winnipeg.

"There is nothing I can add at the present moment," said Mr. Hays, "because the question, as far as the G.T.P. is concerned, is still under negotiation."

The Star says: "As if the Intercolonial railway had not been a sufficient source of loss to the country, the government of Canada, on the eve of an election, proposes to build a line from Montreal to Winnipeg."

Witness Says Waste. The Witness, discussing the railway policy, says: "We do not hesitate to describe this as a deliberate waste of public money. It practically parallels the Intercolonial from Montreal westward, a line on which traffic is even now hard to obtain."

Both Harry Lawson and his father, the new peer, were elected members of the House of Lords on the personal nomination of the King, which still remains a subject of controversy.

New Zealand's Latest. The most radical step ever taken by a government to foster home industry by going into the field of trade competition is proposed by New Zealand.

Government Railways. F. O. Adams writes as follows in The Chicago Record-Herald: The prospect that the Canadian government will undertake the construction and operation of a railway connecting the Atlantic with the Pacific was again the topic which opened the discussion.

Government Only Competitor. "Because there are no capitalists interested in the existing railway system, it is the only competitor of the government," remarked Judge Sawyer, "and it is not a competitor of the government, but a competitor of the public."

Are Our Roads Antiquated. "I hold that the government should build and operate its own line, which is a far different proposition from purchasing the existing lines," explained Colonel Monroe. "Most owners of railroad stocks and bonds are making frantic efforts to sell them, and the result is that the government is acquiring a large amount of antiquated property."

Words of Women. A plain woman takes pride in her dress, a beautiful woman in her enemies. A woman will often say no when she means yes; but never yes when she means no.

Resolution of Appreciation. The following resolution of thanks was adopted at a meeting of the Toronto Old Boys Association of Chicago held at the Hotel on the morning of July 3, 1903: Be it Resolved, that we, the undersigned, members of our association, extend to Stewart Houston, secretary of the Home Owners' Association, our sincere thanks for his membership of the Reception Committee, city officials and citizens of the city of Toronto in general, our most sincere and heartfelt thanks for the uniformly cordial greetings extended to our Old Boys on every hand.

From New Mexico. From far-off New Mexico has come Dr. J. H. McConnell, on a brief visit to his father, Michael McConnell, Spadina-avenue. Dr. McConnell graduated here in 1806 and went south and now practicing in Las Cruces, where he is doing extremely well.

A New Ten Commandments. There are ten new commandments, which are rather good: 1. Never put off till to-morrow what you can do to-day. 2. Never trouble another for what you can do yourself. 3. Never spend your money before you have it.

It shouldn't, Joseph Dodd, Tablets tell the same story. They have used them, or you wouldn't be feeling Bloating and Dyspepsia. They never fail to cure and cure permanently.

BRITISH ESTIMATE OF YANKEE CAVALRY.

New York Sun: In a recent memorandum issued to the British army, Lord Roberts makes some interesting remarks on the United States cavalry. The memorandum discusses the proper armament for cavalry, and in this connection, the action of a lance is considered. First, cavalry against infantry and second, cavalry against infantry and the German cavalry of 1870.

Some Law Should Apply to Both. The reason for the other portion of the opinion to learn is that both the nomination in the execution of the same law should be made. When the nomination is made, it should be made in the same way as the nomination of a white man.

Managers of Baseball Clubs. A few days ago I claimed that the lack of a condition of the baseball club of about \$5000 and lots of games, had been hoped from day to day that the second baseman would be able to throw something to the club. There is nothing else for the local manager to do but to release the pitcher and come back to the club the second time to play ball.

STUDENTS FOR THE FIELDS. Kansas City, Mo., July 3.—Twelve Harvard students from Boston applied at the State Employment Bureau here to-day for work in the Kansas wheat fields, and received their assignments. Two Montreal Deaths. Montreal, Que., July 3.—R. W. Kilgour, the victim of the shooting at Huntington, on Dominion Day, about 3 o'clock to-day. At 10 o'clock this morning Judge Desnoyers was called to the hospital to receive the ante-mortem statement of the dying man. The story he told yesterday was read over to him, and he confirmed the truth of his deposition, adding that he expected to die at any moment.

Pierre Thomas, who resided at 2090 Labelle-street, Boulevard St. Denis was killed at 6:30 a.m. to-day at the corner of St. Denis and Labelle-streets, by an electric car of the Montreal Park and Island Railway. At the time of the accident Thomas was standing at the corner with his dinner pail in his hand, waiting for an Amherst car to take him down to his work.

The Tyfold Collar. The picture shows how the collar is cut out on each side to allow for adjusting a neck tie without springing the collar open. The collar comes close together in front, it keeps the tie in place and you don't see the cut-out part. Besides the tie is retained just over the button, which is also kept out of sight. Your summer comfort will be increased if you wear one, and you'll thank us for the style. Dealers sell them.

Finest Tally-Ho in Town. P. Maher, the leading liverman of Toronto, has added to his stock a fine four-in-hand tally-ho coach. It is the only coach in Toronto having rubber tires and rubber bearing axles and ball bearing wheels, and can be rented daily at the King Edward Hotel, either for tourist or private parties. It is very richly upholstered in Pullman plush. It is reported in scientific circles that radium has cured a long standing case of cancer, as well as a case of tumor.

TEN IDEAS SUBMITTED FOR A PLATFORM

Province Demands Change of Rulers, and Cry Goes Up for Convention.

Editor World: The time has arrived for a reorganization of the Conservative party.

A convention should be called before the meeting in September next.

The basis of a political party is the political convictions of its members.

First and greatest: Corporations must serve the people.

Secondly: The temperance question should be squarely faced.

Third: Ministers of the Crown must not be connected with public corporations.

Fourth: The legislature must be extended to its proper place in our constitution.

Fifth: Publicity must be recognized as the vital breath of public business.

Sixth: Honors to Railways.

Seventh: Not a dollar of public money or bonus of any kind for railway building.

Eighth: Ontario is entitled to have a voice in the appointment of its judges.

Ninth: Offices that are not necessary must be closed.

Tenth: The office of magistrate must be taken out of politics.

KILLING FLIES.

New York Press Flies are hateful insects. One has to write about them. Where are all the chemists in the world, that we are not informed of some method of keeping the pestiferous creatures out of houses? There is a gummy paper which tangles up their feet so that they cannot get away. They linger and die. Sometimes you sit down on that paper and lose the seat of your trousers, as Colonel Higginbotham did. There is another paper which you immerse in water. It poisons the flies. They get sick in a short time and die. They fall all around. They drop into plates, cups, glasses, etc. Mrs. Jones put a dish of this poisoned water on her dressing table, forgot it, laid her new silk dress over it and now is heartbroken. The dress is eternally ruined, for the stain will never come out. There are sundry fly traps, but they are disagreeable things to look at when filled with hapless prisoners. I have been told that the canstow plant in a room will drive out all flies, but we are not obliged to believe all we hear.

LABOR LEADERS JAILED.

Chicago, July 3.—Jail sentences have been imposed on two labor leaders by Judge Jesse Hoffman, and two others are required to pay fines. The men were adjudged in contempt of court for failure to respect the injunction restraining them from interfering with the business of the Kellogg Switchboard and Supply Company. Arthur A. Hopkins, business agent of the Brass Moulders' Union, was sent to the county jail for three months, and William Lynch, William Lynch, and Thomas Queenan were fined \$100 each. The court gave eleven women strikers until July 20 to prove by their conduct that there will be no further violation of the injunction on their part.

HIG MAY DIE.

Tilbury, July 3.—While returning home from Fletcher this afternoon, Mr. John Richardson of Tilbury East met with a serious accident near here. His horse became frightened, running away and completely demolishing his rig. Mr. Richardson was thrown out on his head and shoulders. The physicians report him as doing favorably, but on account of his advanced age they fear he may not stand the shock.

IT WOULD BE BETTER.

Bob, Ind.—The spectacle of a quarrel between a Christian congregation, and the pastor who has served for 20 years, is not a pretty one. True, that age gets cranky, and you quickly give evidence of an age limit for compulsory retirement on an allowance, would be a better ending for cases that linger too long in the centre of life's little plays.

Poisoned by Green Goods Men.

Detroit, July 3.—Charles Alger, postmaster of Hamlin, Mo., lies at the residence of his brother, United States Senator Alger, in a semi-conscious condition, and physicians are unable to determine whether he is suffering from excessive heat or from poison administered by enemies. It is said that Mr. Alger has been instrumental in suppressing the work of "green goods" men in Missouri, and it is believed he came into contact with a representative of green-goods men in Cleveland.

Not All Golden Sunshine.

Circulars have been received by local union organizations from "the warning Canadians and others to stay away from that street and not be lured there by the specious promises and captivating tales of certain capitalists. "Don't be deceived," says the circular. "California is over run with people unable to secure work unless they work for starvation wages."

Grasshopper Raid Kill Cattle.

Butte, Mont., July 3.—Prof. Coolidge of the State Agricultural College, at Bozeman, has returned from an investigation of the grasshopper ridden district about Forsyth. He says that the insects have devoured everything in a strip seventy miles long and five miles wide, and that as a consequence of their raids, range conditions are very serious. He says that the plains are dotted with cattle that have starved to death as a result of the grasshopper raids.

VETERINARY HAD TROUBLES.

Quarantined for Scarlet Fever, The Doctor Disagreed.

Editor World: I feel it my duty to inform the public of my isolation for scarlet fever, which is generally believed to be a mistaken diagnosis by M.H.O.; also to show the weakness of the Health Act and how we are helpless and strangers to fair play when the M.H.O. and Board of Health are armed to the teeth with authority. They may make mistakes to the extreme and are protected, but there are no provisions of protection or any remuneration for the victim. I am practicing veterinary medicine and surgery, and on May 28 I called Dr. Houlton, M.H.O., to take my temperature. He said I had bronchitis and gave me a poultice bottle for the cough. This was the last and only medicine I took and on the 30th he diagnosed scarlet fever. He then reported to the Board of Health that I had a dangerous form of scarlet fever. All symptoms, sore throat, red as a lobster, (the head, feet, and that I had slept in a house where scarlet fever was once again.

June 1 the M.H.O. left my room and went on a large excursion among children of all ages. In the afternoon two medical doctors examined me thoroughly and found no scarlet fever. The Board of Health met in the evening and gave no attention to the opinion of my two doctors, and did not give them a chance to meet the board, and placarded my boarding house.

June 2 my temperature was 101.2. The Secretary of the Board of Health and Inspector Houlton said I must have scarlet fever, that the other doctors, including the M.H.O. However, he would see me, which he did next day, the 3rd, and reported to the board that the diagnosis of the local Medical Health Officer and that he did not recognize the other doctor.

June 4, I was taken in a grocery wagon to spend the balance of six weeks alone in quarantine in an isolation hospital, which was a frame structure with shanty top, not water proof and open walls, making a play house for squirrels and cats, and mosquitoes, a stick of timber to lean against, and a box of soap. A couple of benches and bedstead of rough lumber, with a large box stove comprised the furniture. To bed water on the wall nearest to step outside or roast beside. On June 10 after four days of cold lunches I started a fire and a quart from the stove which extended about 15 inches above the roof, burned the shanty down.

They set up a small tent, only large enough for my bed. The night turned wet and cold, rain coming thru the holes in the tent, and I had wet clothes to wear next day, with no change of drying them, which was very uncomfortable. The weather continued more or less damp and cold for the balance of quarantine, and for the next 18 days I preferred to sleep with my clothes on to the damp bed. June 18 M.H.O. set up a camp stove in another tent which was so small that I could not sit; 15 inches from the stove.

June 23, after five weeks, the wind and rain woke me, to find everything in the tent soaking. I left the tent and went to a log barn. Returning, I met the veterinary inspector, who took me to my horse stable, where I got dry clothes, and they were agreeable to leave me in the stable till the 30th, when I would complete the six weeks, but the M.H.O. stipulated that I should not leave the tent being left in the tent, and they gave me a sleep robe as a substitute for one on the next four nights.

During my isolation weeks letters and papers were carried to and fro by men, women and children. My visitors came in, closed range, shoes, hands, and the iron pipe, slept on my bed, etc., and on five days numbered from 14 to 20. These were common, consisting of families. When they were in the tent, they would allow me to build a stable and bring my horse with the public. He would allow me to take my horse to hotel stable and meet the public, with the cure on my horse, but would not allow me to go to my stable under the same conditions. These offers I refused.

After I left the boarding house the M.H.O. attempted to fumigate and in some places, slept in a house where scarlet fever existed, which I can prove. He did not come in contact with any person who had scarlet fever, and he examined me, the M.H.O. was the only one to positively say I had scarlet fever, and he did not swear to it. With all due respect for his health, Ontario Public Health Act is most unfair.

HUMOR OF THE DAY.

"Sure, some was told me Mike Murphy was working."

"Nothin' as the kind. He's a walkin' dillygally."

"There isn't much difference between me and Eve," said the little girl who was forced to wear leaves, and I have to wear leaves,"—Philadelphia Record.

Brace—Lipton still sticks to the name of Shamrock. This year he brings over his third yacht of that name.

Boomer—That's right. Sir Thomas knows what he is about. The natural shamrock has three leaves, you know, twice already; this year it will make its third leave.—Boston Transcript.

The Flancee—Sam feels mighty happy over his engagement to me. He says he done had drew de prize in de lottery oh life.

Her Friend—Wall, in det case, he oughter be willin' to stop gamblin'—Puck.

She—They say the eyes are the windows of the soul, I believe.

He—Yes, and when a man goes into a drug store and shuts a window quickly, the clerk knows just about what the poor soul wants.—Yonkers Statesman.

"Don't you know that it is wrong to gamble?"

"Yasser," said Pickanluny Jim, as he shook the dice. "Ah knows 'it's wrong to gamble, but dis here ted's gambler; dis here is a guessein' contest."—Washington Star.

Oh, pity him who toils away and cannot while he strives to win. Anticipate the fun that may be had by blowing money in.—Chicago Record.

STORE CLOSING AT 5.30.

Twenty Good Substantial Reasons Why You Should Shop Early Monday Morning.

You know why we are making an unusually earnest effort to "crowd" business just now. We want to make this a bigger and a better store. We want to increase our selling space by one-sixth. We want to add a whole flat to the active business part of the store.

That's the whole effort of the store on Monday. The stock-room must first be cleared, then we'll all "move up one" and breathe afresh. That explains why prices have such little relation to values in the following extraordinary list:
