In Banner Township. Apropos of the great Scarboro sathering on Tuesday at Bendale was the presence of Henry Swan, head of the well-known firm of Swan Bros. of East King-street, and a man who has always taken a warm personal inter-est in his native township. So intent was he on reaching St. Andrew's that alighting from the Scarboro car at stop 23, he walked up to St. An-drew's Church, a distance of three and a half miles. Needless to say he met with a hearty reception from his scores of Scarboro friends. St. Andrew's Church last year rais-ed for all purposes \$2423.54, a sub-stantial sum and more than many city churches. The board of manag-ers is composed of D. Furdie, A. J. Paterson, J. J. GALT, June 15 .- (Special.) - The sixth annual convention of the British Veterans' Association opened, here to-day with a large attendance. President Gardiner of Wentworth, in his annual address, stated it was a disgrace that old British soldiers who had fought for their country, and who were now untheir country, and who were now un-able to look after themselves, should die in public houses of charity and have their remains shipped to the school of anatomy. This the president claimed in speak-ing of the move to have a sallors and soldiers' home provided by the Ontario Government. No encouragement had been received from the government

The home team had the better of the game all thru, scoring in the first half, and by very close mar-gins in the last half. Of what earthly use are these back numbers to Jeffries? He can't try out his punches on either of them, because

he doesn't want to call in the corone Cy. my wind and stomach gave out and it was all up with me. Jeffries, if he wins this battle, will be the only champion that has ever come back after years of idleness, and he'll be entitled to no idleness, and he'll be entitled to no end of credit. But a man who says he's got a cinch at this stage of the game either doesn't know a thing about the fighting game or is blinded about the fighting come or is blinded by prejudice. #### CONQUEST OF THE AIR.

Recent aeroplane flights have made it sufficiently plain that the epoch of aerial navigation has at last arrived. The aviator is no longer dependent for levitation on a bag filled with a gas lighter than air, nor is he at the mercy of the wind to carry him wherever it listeth. Very remarkable indeed have been the achievements of Mr. Rolls, the Englishman, who crossed the channel from Dover to Calais and returned. In the words of The London Times, the whole thing was done with such precision, and with such freedom from apparent · effort

that there is hardly anything to be said about his flight except that he flew to France and back again in the most matter of course way, without landing at Calais, and alighted at his starting point with everything in as perfect order as when he set out. This, too, despite the fact that altho the weather was generally favorable. there was considerable wind at the altitude he adopted, and that athwart

titude he adopted, and that athwart his course. Similar precision characterized the flight of Glenn H. Curtiss from Albany to New York, and the achievement of Charles K. Hamilton on Monday last, who fiew from Governor's Island to Fhiladelphia, a distance of 86 miles, and failed to accomplish his return journey, when within sight of his soal, only because his engine was running badly in consequence of dirty spark plugs. These flights, too, were accomplished at speeds often much er-ceeding those of the fastest express trains. Scarcely a week passes with-out the intimation of some new device calculated to increase control and diminish the risk of accident mich er-calculated to increase control and diminish the risk of accident mich er-calculated to increase control and diminish the risk of accident mich er-calculated to increase control and diminish the risk of accident mich er-calculated to increase control and diminish the risk of accident mich er-calculated to increase control and diminish the risk of accident mich er-calculated to increase control and diminish the risk of accident mich er-calculated to increase control and diminish the risk of accident mich er-sone calculated to increase control and diminish the risk of accident mich er-calculated to increase control and calculated to increase control and pure water goes.

dous growth of the city, which necestates new and improved methods and finds in the new librarian a man capable of oppreciating the situation. Toronto needs at this time of ex-pansion almost more than anything else a liberal education, and those who have not acquired it at school can obtain it nowhere so well as from the shelves of the public library.

Fortunately the younger generation take readily to knowledge. It is to be wished that some of their elders had as open minds. The spectacle that Toronto presents, to the outside world, of ignorance in high places, is certainly deplorable. Time will renove these failures. Patience is need-

PUBLIC LIBRARY POLICY.

In the resolution of the public library board to move the central circulation library to College-street, two things have to be noted. First is the wonderful success of the new library policy under Mr. Locke, and along with that, and emphasizing the value of Mr. Locke's services, is the tremencost than they can possibly be under individual civic government.

cussion on the introduction of a reso-lution bearing on the certain doctrinal views published in booklet form by Prof. Matthews of McMaster Univer-sity. Thomas McGillicuddy, clerk of the association, explained yesterday that any discussion of those views had been really left to the general Baptist convention, next October. Moderator Roberts intimated that be night, the congregation of Central Presbyterian Church, at the corner of Grosvenor and St. Vincent-streets, reversed a decision of May 25, and decided to sell the present property and church. Out of a congregation with an enroll-ment of 500, only 157 votes were record-ed. Of these, 98 voted for removal, and 59 against, the majority upholding the view of the pastor, Rev. Dr. McTavish, that the present location was an over-worked district, and that the church could not be maintained without sink-ing deeper into debt and disintegration. Dr. Gibb Wishart and A. I. Forster moved that the following committee seek out and take options on a site and district offering the best opportunities listrict offering the best opport district offering the best opportunities for carrying on the church's work and to report back to the congregation by the end of October: Theron Gibson, pr. The production they will give of Shakspere's delightful pastoral comedy will be the most pretentious offering they have made in Toronto. This state-ment means comething as these where they have made in Toronto. This state-ment means something, as those who have witnessed, the performances of "The Marriage of Kitty" and "Leah Kleschna" will heartily agree to. Miss Haswell will be seen in the role of Rosalind, a part she has played many times with great success in the larger cities, much to the delight of the audi-ences.

A great many who take interest in theatricals seem to doubt whether Shakspere at popular prices will meet with the success that the Players seem to anticipate. Rehearsals have been in progress for two weeks and a large corps of scenic artists and stage carcorps of scenic artists and stage car-penters have been at work preparing the production, and it is safe to say that every detail regarding scenery and accessories will be well taken care of. Annie Jean, eldest daughter of Mr. and Mrs. John Henderson, was united in marriage to Rev. Henry Albert Berlis of Victoria Harbor.

At the strains of the wedding march: played by Mr. Peter C. Kennedy, the bride entered the church on the arm of her father. The ceremony was performed by Rev. Dr. Wallace, assisted by Rev. Thomas Cowan, uncle of the oride. The bride wore a beautiful fvory gown of French silk voile, with draperies of duchess lace and pearl mings, and tulle veil caught up with a Juliet cap of pearls and orange plossoms, and wore the gift of the groom, a handsome gold bar pin with triplet diamond setting. She carried an empire bouquet of lilles of the valley, which fell to the hem of her dress. The bridesmaid, Miss Margaret Henderson, sister of the bride, wore a charming frock of pale pink silk mull, with trimmings of silk clunk lace and large lingerie hat and carried a shower bouquet of sweet peas. Rev. W. A. Cameron was best man. The groom's gift to the bridesmaid was a sunburst of pearls and to the groomsman a pair of gold cuff-links.

A LUCKY SECRETARY

LONDON, June 12.—The prizes which he English civil service system offers requently surprise Americans because f their monetary value. For example, Villiam Henry Clark, the 33-year-old ecretary of Chancellor of the Ex-hequer Lloyd-George at a salary of, 4000 a year, has just been appointed member of the Indian council, with he portfollo of the department of nines and commerce. In that posi-ion he will receive a salary of \$25.-77 a year and have two official resi-ences, one at Simls and the other at calcutta.

dences, one at simila and the other at Calcuta. This promotion is his reward for his unremitting work as secretary to Lloyd-George. For months last year Clark went with less than four hours' sleep at night, and he proved himself a zealous, capable aid. Clark entered the civil service as a clerk after competitive examination. and was appointed secretary to the board of trade by Lloyd-George when the latter was president of the board. The promotion is criticized severely by the leaders of the opposition, who con-tend that there are many older and equally deserving civil servants who are as much entitied to the India coun-cil portfolio.

are as much entitled to the India coun-cil portfolio. Clark's appointment came about in a singular way. Lord Morley, the secre-tary for India, asked the chancellor of the exchequer to recommend some one who would be useful in carrying out Morley's pending administrative re-forms. Morley has found the greatest opposition to his reform plans among the reactionary members of the India council.

Alexander Sold For \$100,000-In Yonge-Carlton Block.

It was reported yesterday that the Grosvenor Hotel property at the cor ner of Alexander and Yonge-streets had been sold for \$100,000. The present tenant, it is understood, has a lease of ten years on the property, which is owned by the O'Keefe Brewing Company. The deal is being put thru by the H. H. Williams & Co., and it is understood that the purchase of this property is closely connected with the big real estate purchases which have been made for the Carlton-street block. It is thought that an amicable arrangement will be made by which the lease of the property will be bought

It is understood that in the two blocks bounded by Yonge, Alexander Church and Carlton, and in which the Grosvenor is located, there are only two properties which have not changed hands within the last year, all of the transactions having passed thru the hands of H. H. Williams' firm.

# SHACKTOWN DWELLERS SLOW TO AID MISSIONS

### British Immigrants Look for Church Support, Says Rev. Robert Gay at Synod Meeting.

That some of the most heroic work in Canada is being carried out by the Anglican Church in the "Shacktown' district, only four or five miles from the heart of Toronto, was a statement made by Bishop Sweeny at the annual missionary meeting of the synod of the diocese of Toronto held in the parish house of St. James' Cathedral last night. His lordship presided and, despite the sultriness, the attendance

was large. The difficulties of the work were also strikingly emphasized by Rev. Robert Gay, in charge of St: Monica's Mis-sion, Norway. He said that 99 per cent. of the people in the neighborhood were immigrants from England and that while there were some good specimens of churchgoers among them the large majority had no conception of the life and work of the Church of England in Canada. They had to be taught that they should support the church instead of looking to the church for their own sustenance

After the opening prayer by Bishop Reeve, Bishop Sweeny spoke in warm approbation of the mission work of the diocese, and paid a trioute to the stimulus given it by the laymen's missionary movement and the invaluable aid of the women's auxiliary

Archdeacon Warren, the missionary secretary, spoke of the mission work in Toronto's suburbs as demanding great sacrifices, while the northeast ern part of the diocese was a veritable wilderness of 400 square miles. Good results were expected from the appointment by the bishop of a chief missionary for the Haliburton district. and the grouping of the mission boards.

Rev. E. R. James, Alliston, explained that his church there had been held back in becoming self-supporting by schism which had led to the founding of a rival church, but that the latter had now gone out of existence.

Conditions in Haliburton, Rev. C. V. Pilcher pictured humor-

ously the privations of missionary life in Ontario's northern wilds, but showed earnestness in his declaration that 'miserable pittances" were the reward.

Rev. T. A. Nind of Minden, Haliburton, asserted that the struggle of the people in that district to wrest a bare livelihood from the soil and the dearth

In the foreign situation for a year past, there has been very little to coun-terbalance foreign debts. The railroads have apparently secured all the money they can get in London, and of late they can get in London, and of late Germany and France, notwithstanding the comparatively high rate in the lat-ter country. There is therefore a large debt to be liquidated and up to the pre-sent it has been impossible to pay more than an insignificant amount of this in merchandise. On Wall Sttreet. Erickson Perkins & Co. had the fol-lowing: Traders attacked the stock market during the last hour, regarding the dulness as an indication that the pools did not care to put them higher at the moment. A day's delay in bring-ing up the railroad measure in the sen-ate lengthened the time for inactivity and the bears thought this offered a further chance to attack prices. # A Page of Friday Bargains in the Simpson Summer Sale

WHILE this sale continues, every day counts as a bargain day. We are reducing prices on Summer goods with a view to clearing the bulk of the Summer stock during this month of June. We are getting along nicely, too. But Tomorrow is Friday, and Friday is our regular bargain day. To make Friday emphatically bargain day this week, we must need compete with the Summer Sale bargains offering every day. Read the list over and judge for yourselt how well we have done so.

Men's 75c Work Shirts 59c

The Break in the Sky Line FOR many years the facade of the Robert Simpson Company has

formed one of the marked architectural features of lower Yonge street. People have sighted its cornice from afar in the long vista of the street, and for long have they wondered at that gap in the graceful line occasioned by the staunch little building that used to be the Wanless jewelry store.

To some it reminds them of a boy with a front tooth out. Others wondered how it happened to wedge itself into such a little hole.

Everybody doubtless will be interested to know that this last break in the uniformity of the Simpson block will soon be mended. -We will tear down and rebuild the Wanless store this present sum-
