BRITISH SHIPS HELD BY BULGARS AT KAVALA “THIEPVAL WEEK” ONE OF TRIUMPH FOR BRITISH TROOPS Russians Have Captured Another Height in Carpathians

HAIG'S TROOPS TAKE ANOTHER ENEMY TRENCH

Two Hundred Yard Stretch North of Bazentin-le-Petit Occupied.

GAINS AROUND GINCHY

Further Progress is Stayed, However, by Adverse Weather Conditions.

LONDON, Aug. 27.—Gains by British troops on the Somme front north of Bazentin-le-Petit and northwest of Ginchy are reported today by Sir Douglas Haig. In an attack in the former region the British took an additional 200 yards of trench and captured one machine gun.

The following official communication was issued this evening:

"During the past 24 hours had weather to some extent has interfered with our operations. We have, however, gained ground northwest of Ginchy.

"In the afternoon there was considerable artillery activity by both sides, the enemy fire being directed mainly against our support trenches, and more especially toward the north of Longueval. Our guns blew up some of the enemy's bomb stores.

"Between Neuve Chapelle and Arras several small mines exploded. The enemy blew up two small mines southwest of Anchy and south of the Ypres salient. There were no casualties in either case.

"Four German officers and 55 men of other ranks were captured south of the Ancre last night and this morning."

Capture of Trench.

The afternoon statement said:

ITALY DECLARES WAR ON GERMANY

Diplomatic Relations in the Meantime Have Been Severed.

FORMAL DECLARATION

Berlin Notified Thru Swiss Government of Final Step.

ROME, Aug. 27.—Italy today declared war on Germany.

What Berlin has to say.

BERLIN, Aug. 27.—Via wireless to Sayville.—The following official announcement was made here today:

"The Italian Government has declared, thru the Swiss Government, that it considers itself, from Aug. 28, at war with Germany."

Italy and Germany have been drifting steadily toward war. In fact, Italy's formal declaration amounts to little more than official recognition of a state of affairs which already existed. The declaration became inevitable when Italy recently sent troops to Saloniki to co-operate in the campaign of the entente allies on the Macedonian front. Inasmuch as Germany is direct in the opposing forces and has troops on this battle line.

Italy's position in regard to Germany had been an anomalous one after Italy withdrew from the triple alliance on Feb. 21 and July 20 there were engaged in the Verdun sector 66 divisions (nearly 800,000 men) of French troops. In the battle of the Somme, the announcement says, the French thus far have engaged 23 divisions and the British 37.

SIXTY-SIX DIVISIONS OF FRENCH AT VERDUN

Eight Hundred Thousand Men Engaged, According to Statement From Berlin.

BERLIN, Aug. 27, via Sayville wireless.—An official announcement issued here today says that between Feb. 21 and July 20 there were engaged in the Verdun sector 66 divisions (nearly 800,000 men) of French troops. In the battle of the Somme, the announcement says, the French thus far have engaged 23 divisions and the British 37.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

WHILE Germany and Bulgaria have given a pledge to Greece that Kavala will not be entered by Bulgarian troops, the invaders of Greek territory have not scrupled to take possession of a circle of forts around that seaport. Apparently the Greek garrisons fell back without resistance and were mere spectators of the bombardment by British monitors of the Bulgar positions. How long Greece is to continue in this passive attitude, which has disgraced in the eyes of the world, no one can clearly foresee.

Elsewhere on the Saloniki front artillery activity continues to be the feature of the Anglo-French operations, the work of demolishing the enemy's defences in preparation for launching infantry attacks being carried on systematically. The Serbians have borne the brunt of the close-range fighting during the past few days and they have well lived up to their splendid traditions. In the region northwest of Kukuruz where they have been making headway during the last few days against obstinate Bulgarian resistance, the Serbians have inflicted a severe defeat upon the enemy. Six counter-attacks by Bulgars have been repulsed with heavy losses to the enemy and the Serbs are following up this success with a fresh advance. "Desperate actions" are reported in the vicinity of Lake Ostrovo, where Bulgar detachments were caught in a Serbian trap, sustaining severe losses.

Sofia announces that Bulgarian troops are invading Albania and have taken the Town of Malik, ten miles west of the Greek border.

Adverse weather slowed down operations on the western front yesterday after violent infantry fighting at scattered points during the night. Sir Douglas Haig's troops captured another 200 yards (Continued on Page 2, Columns 1 and 2).

BRITISH FLEET OPENS FIRE ON KAVALA FORTS

Bulgars Have Occupied All But One Fort Around Greek Seaport.

PARIS, Aug. 27, 2:37 p.m.—Violent fighting between Bulgarian and Serbian troops continues on the Macedonian front, in the region of Lake Ostrovo. The war office announced today that the Serbians, making counter-attacks, had pushed back the Bulgarians. All but one of the forts about the Greek port of Kavala have been occupied by the Bulgarians. Two British monitors and one cruiser bombarded these positions on Friday.

The communication says:

"Eastern army: On the Struma front our artillery has continued to bombard enemy organizations. A Bulgarian battalion was caught by our fire. There was an intermittent cannonade between Lake Doiran and Majdanpek."

"West of the Vardar the Bulgarians renewed their attempts against Vestrink and northwest of Kukuruz. Five successive attacks conducted with extreme violence were shattered by the Serbian artillery fire."

"In the region of Lake Ostrovo desperate fighting continues, particularly west and northwest of the lake, where several Bulgarian attacks were driven back by counter-attacks of the Serbian infantry."

"Friday two British monitors and a cruiser bombarded the forts at Kavala, which had been occupied, with one exception, by Bulgarians."

The French staff office this afternoon gave out the following communication concerning the operations in the Balkans:

RUSSIAN AIRPLANE RAID

BULGAR PORT OF VARNA

Bombs Dropped on Buildings and Batteries—Ship Set on Fire.

PETROGRAD, via London, Aug. 27.—An official communication issued by the war office this evening says:

"On the Black Sea at daybreak of the 25th, our seaplanes raided Varna (on the coast of Bulgaria). Bombs were dropped on the port buildings, harbor and anti-aircraft batteries. It was observed that a ship was lying in the harbor and port works were struck and caught fire."

CONGRESS CAN AVERT STRIKE?

Wilson to Call for Legislation to Meet Railway Crisis.

DEADLOCK UNBROKEN

Strike May Go into Effect Within Ten Days, Say Trainmen.

WASHINGTON, Aug. 27.—Tentative plans for a joint session of the Senate and House to hear President Wilson ask for legislation to prevent the threatened nationwide railroad strike, were discussed by the president with Senator Kern, the Democratic leader, tonight when it seemed virtually certain that the two bodies must follow final conferences between the employers and their employees tomorrow. Possibilities of legislation were talked over by the president with Senator Newlands, chairman of the Interstate Commerce Commission and Secretary Lane, during the day, and tonight the president made a quiet trip to the senate office building to find Senator Kern, who had been invited to attend a meeting of the finance committee.

No Sign of Break.

Since last night the belief that negotiations between the railroad executives and representatives of the men would end without an agreement has been growing. This feeling was strengthened today, when the members of the finance committee, 640, tired of their long wait, departed for home after delegating their powers to their demand for arbitration of a strike to effect a settlement or call for legislation to prevent the strike under no circumstances to agree to arbitration of the demand for a 10-hour day at the present rate of pay for the railroads.

Whether the plans considered by the Senate and House to hear President Wilson and his advisers at a session tomorrow developments, but it is understood that if all efforts fail to bring the president and their men together the president will go before Congress and ask that it deal with the situation, even if that necessitates definitely prolonging the present session.

Unless the railroad heads recede from their demand for arbitration of the eight-hour-day proposal, one brotherhood head said tonight, a strike affecting about 400,000 men will be called within the next ten days.

The measure given most serious consideration by the cabinet was one drawn along the lines of the Canadian act, which provides for investigation of industrial disputes by a commission for one year and prevents strikes during the period of investigation. If it finally is decided to press such a measure an effort will be made to put it in effect at once.

The national executives already have formulated the most careful plans to take care of the situation should a strike ensue.

ELEVEN RACING CARS

PILED UP—TWO KILLED

Eight Others Injured in Accident During Hundred Mile Automobile Race.

KALAMAZOO, Mich., Aug. 27.—Two men were killed and eight others injured, one of them mortally, when 11 of the 14 automobiles piled up at a turn during the 100-mile race at Kalamazoo today. The dead were: Marlon Arnold, mechanic, Chicago, and Jack Peacock, driver, Brooklyn, E. E. Marquette, Kalamazoo, mechanic for Peacock, was probably fatally injured.

The accident occurred when Peacock's car, leading in the race, skidded and struck the fence. It was overturned and thrown across the track. Ten of the machines, going at a terrific clip, plowed into the overturned car. Five of them were completely demolished.

Today's accident is the worst that has occurred at the world's racing circuit since 1911, when Leo Oldfield's car plowed thru the fence and killed eight persons.

SENTENCES POSTPONED ON FRENCH PRISONERS

Kaiser Stays Executions as Result of Reciprocal Agreement With French Government.

BERLIN, Aug. 27, via Sayville.—The following official statement was issued here today:

"The German Emperor has ordered postponement until after the war of the execution of all sentences imposed on the punishment of French prisoners, both civilian and military, on account of acts committed up to Sept. 1 of this year."

The Overseas News Agency adds:

"The newspapers state that this action was taken as a result of a reciprocal agreement with the French Government."

The imperial cabinet order providing for postponement of sentences upon French prisoners also provides for the immediate release of such persons from confinement and their return to the prison camp at Cottbus. In cases where a breach of discipline in German prison camps is involved, however, the offenders are excepted from the provisions of the order.

"Enemy airplanes flew over our positions on the Dneprwaty Lake and dropped bombs, killing a chaplain, Father Joskim Sedletzki, while he was fulfilling his pastoral duties."

"On the village of Tobol, the enemy opened fierce artillery fire on our crossings. Here the gallant regimental commander, Col. Mykov, was killed."

"In the Carpathians in the region of Koverla (on the frontier, 10 miles southeast of Kormozovo), our troops drove the enemy out of his position on Hill 1249, three miles northwest of Koverla Mountain, and occupied this height. In this operation we captured three officers, 17 men and four machine guns. Our advance continues."

The Russian army of the Caucasus, whose recently inaugurated offensive movement has resulted in the recapture of a considerable amount of territory from the Turks, is said by the war office to have made a further advance. The official account of operations in this region follows:

"In the direction of Diabekr stubborn fighting continues. Our columns have advanced toward the village of the village of Nurik."

KITCHENER APPEARS ON HOTEL REGISTERS

Young Women Proudly Write Berlin's New Name and Stand by It.

Kitchener has at last made its appearance on the hotel registers of Toronto. Two young women arrived at the Queen's Hotel early last evening, and proudly wrote the word "Kitchener" after their signatures. The town clerk looked, but was promptly taken up by the visitors from the western Ontario city, who announced the fact that the people themselves, and Kitchener, it would remain as long as they had anything to say in the matter.

ALLIED AIR SQUADRON MADE RAID ON GHENT

Terrific Explosion Indicated Blowing Up of Ammunition Depot.

LONDON, Aug. 27.—A squadron of the entente allies aeroplanes bombarded the neighborhood of Ghent, Friday morning, according to The Echo from Belge, says a Reuter despatch from Amsterdam. The bombardment had a terrific explosion shattering windows throughout the city. It is supposed to have been caused by the blowing up of an ammunition depot. A little later a second explosion equally severe, was heard. The newspaper says it is reported there were many victims.

An ammunition depot at Meirbeke also was blown up, and a zeppelin was seriously damaged.

POLITICAL CRISIS NOW REPORTED IN HUNGARY

Coalition Cabinet is Demanded, But Emperor Refuses To Comply.

LONDON, Aug. 27.—The developments in the Balkans seem to be causing serious perturbation in Austria-Hungary, according to advices received here from Bern, Switzerland. These advices say there is a serious political crisis in Hungary. The opposition leaders have demanded a coalition cabinet, which the emperor has refused to comply with.

In addition to all night sittings of the Hungarian chamber, the despatch adds, and Austrian cabinet council sat for eight hours Thursday and six hours Friday, and the Hungarian cabinet for nine hours Thursday and ten hours Friday.

Hon. W. S. Fielding, ex-minister of finance, was in Toronto yesterday on his return from Algonquin Park, where he spent his vacation. He left on the one o'clock train last night for Montreal. Fielding, instead of giving information, was anxious to learn about the election in Southwest Toronto, and he was highly elated over Hartley Dewar's victory.

WILTSHIRES AND WORCESTERSHIRE GIVE CRACK GUARDS HOT RECEPTION.

"WITH THE BRITISH ARMY IN FRANCE, Aug. 26, via London, Aug. 27.—"It was a week of gains and the kind of gains we want," said a British staff officer today, reviewing the result of the week's British offensive.

"A thousand yards here and there," the officer continued, "but every time it has meant an advantage on ground we wanted for future purposes. The German attacks have been only counter-attacks to recover ground they have lost. Not an attack that we made this week but has been a gain. As a matter of fact, our troops were more efficient than ever. They put up with the fire which was put on them. The British Keenly Elated.

At the end of what might be called Thiepval week the British are more jubilant than at any time since the offensive began, except on the occasions when they broke the first line July 1 and the second line July 14. They put on the old first line trenches in front of Thiepval, a record concentration of gun fire.

The correspondent, while watching this curtain of shell fire, saw phlegmatic veterans as excited as schoolboys in their rejoicing. Under these attacks of fire the British by two attacks rushed up to within 300 yards of that patch of ruins which was the Village of Thiepval. The correspondent (Continued on Page 2, Column 3).

CORNERING OF GRAIN ENEMY'S SUGGESTION

Berlin Post Proposes Move to Worry the Entente Powers.

THE HAGUE, Aug. 27, via London.—To corner the grain supplies against the entente powers, despite the tremendous money sacrifices, is a step seriously urged by the commercial editor of The Berlin Post.

"If England buys Roumanian grain to let it rot rather than to allow us to have it," says the writer, "we can do the same thing by manipulating the grain markets where our enemies buy and which are also accessible to us if corners in the Chicago and New York markets are possible in peace times. They are more so now when the demand for grain is so keen and the crops in America and enemy countries are so poor."

NEW CHIEF OF GREEK STAFF IS APPOINTED

PARIS, Aug. 27.—A despatch from Athens to The Temps says a great impression has been created in Greece by the appointment as chief of staff of the Greek army of Gen. Mochlos, an avowed friend of the entente powers, under royal decree, the despatch says, Gen. Donummanis and Col. Metaxas are displaced.

FRENCH LINES HELD AGAINST THREE ONSETS

PARIS, Aug. 27.—Weather conditions have caused a cessation of active operations on the western front. The French war office tonight says briefly:

"There is no important event to report along the whole front, where the bad weather continues."

Three attacks were made by the Germans last night against French positions in Vaux-Chapitre Wood, northeast of Verdun, and one in the Apremont forest in Lorraine. The afternoon official statement of today says these assaults were repulsed. The statement follows:

"On the Somme front the night was comparatively calm. Persistent bad weather interfered with operations."

"On the right bank of the Meuse (Verdun front) the Germans in the night made three successive attacks on our positions in Vaux-Chapitre Wood. They were stopped each time by our fire. The enemy was obliged to return to his trenches after suffering appreciable losses."

"Hard fighting in forest attacks of the enemy on our small posts between Arracourt and Eimbernell were repulsed easily. In Apremont forest there was lively fighting during the night. Our grenadiers engaged in combats of considerable violence with enemy patrols, which they dispersed. At about 10 o'clock the Germans made an attack on a front of about 800 yards against our trenches near Croix St. Jean. The enemy was caught by our curtain of fire and sustained a complete defeat."

"On the remainder of the front nothing of importance occurred."

Artillery Duels on Somme.

The official communication issued by the French war office Saturday night read as follows:

"On the Somme front the day was marked by artillery duels, which were very brisk, notably in the north of Maupas and in the region to the west of Clercy."

"There was an intermittent cannonade on the remainder of the front. It was most violent in the Thiaumont-Flcury (Verdun region) sector."

PALACE OF REPUBLIC AT VENICE IS SEIZED

Italian Gov.'s Reprisal for Abominable Violations of International Law by the Austrians

ROME, Aug. 27, via Paris.—The ancient palace of the republic of Venice, the Palazzo di Venezia, concerning which there has been a long popular agitation, has been confiscated by the government under a decree issued Saturday. The palace was given by Pope VIII to Venice and remained in possession of the republic until its fall, when it passed to the Emperor of Austria. For some time it was the seat of the Austrian embassy, and since then has been occupied by the embassy to the vatican.

The decree says the place is confiscated as a measure of reprisal for "abominable violations of international law and devastation of monuments and buildings in Venice without any military motive."

Bulgars Enter Kavala Town Before Occupying Other Forts.

ZAIMIS IN QUANDARY

British and French Ministers Ask Explanation of Greek Attitude.

LONDON, Aug. 28, 2:40 a.m.—"Despite German assurances to Greece that Seres, Drama and Kavala would not be occupied by the Bulgarians," Reuters' Salonki correspondent, "an order sent last Tuesday to the commander of the forts at Kavala said if the Bulgars advanced the fortifications were to be handed over to them."

An Athens despatch of Thursday, Aug. 24, delayed in transmission, says: "Bulgarian cavalry have passed through Kavala in the direction of Coroni, where up to the present the Seres have arrested their retirement and are continuing their broad sweeping movement, which evidently is intended to crumple up the Seres on Salonki."

ONE DIES OF INJURIES WHEN MOTOR OVERTURNS

Special to The Toronto World. GUELPH, Ont., Aug. 27.—As the result of a motor car accident early Sunday morning, a Thomas Gow of Paris, died at St. Joseph's Hospital at 5 o'clock this afternoon, and four other occupants of the car, whose names could not be learned this evening, were more or less injured. On Saturday evening three men from Burford drove to Guelph and overtook the two who met Gow and a friend and the two insisted on coming to Guelph with them. It was while they were on the way back to Guelph that the accident happened. About a mile from Marden Station, as the auto was turning a sharp corner at a crossroad, it tipped over, the driver being thrown into the air and landing on his head, fracturing the skull. The cause of death was a hemorrhage of the brain. Dr. Savage, coroner, was notified and an inquest will be held.

of trench north of Bazentin-le-Petit and have also advanced their lines slightly northwest of Ginchy. Heavy artillery duels are reported in progress toward the north of Longueval.

German attacks northeast of Verdun and in the Apremont Forest in Lorraine have been repulsed by the French. On Saturday night the enemy launched three onslaughts on French positions in the Vaux-Chapelle Wood in the Verdun sector, but the accurate French fire drove the Germans back to their trenches with "appreciable losses." Sharp fighting also took place in the Apremont Forest, where the enemy made an assault on the French trenches near Croix St. Jean. "The enemy was caught by our curtain of fire and sustained complete defeat," Paris reports.

Fresh Russian successes in the Carpathians have brought the Slavs appreciably nearer to surmounting the natural barriers in the way of the pouring of troops into the plains of Hungary. An important height, three miles northeast of Koverla, has been taken at the point of the bayonet.

In the Caucasus the Russians are continuing to press the defeated Turks and Slav columns have reached the banks of the Mas-ladarasi, a tributary of the Euphrates.

"It was a week of gains and the kind of gains we want." Such is the comment made by a British staff officer on the recent results achieved on the Somme front. The winning of a trench here and there may seem immediate objective on the Somme, the Bapaume-Peronne line.

Altho Italy joined the European war on the side of the entente allies more than a year ago, war on Germany was not officially declared until yesterday. Diplomatic relations have been severed between the two countries for that period of time, and on the day following the declaration of war on Austria, the German ambassador, Prince Von Bulow, left Rome, and two days later the Italian ambassador took his departure from Berlin. A state of war practically existed between the two countries during this time, altho no open hostility was displayed, but an open declaration became inevitable when Italy recently sent troops to the Macedonian front to co-operate with the British and French troops against the forces of which the larger part were Germans, with German leaders directing the conduct of the campaign. With one-half of her army not engaged, Italy will be able to send troops at the call of her allies to places where they are urgently needed, and thus tend to assure the ultimate success of the war and shorten its duration.

ONLY FIVE BRAVE MEN WERE ATTESTED

Recruiting Reached Low Water Mark Saturday—Seven Applied.

R. C. D. RECRUITING

Want a Few Men to Leave With Early Draft for Overseas.

Recruiting reached the low-water mark of any day since the outbreak of war, on Saturday, when only five recruits were obtained out of seven, who came up for examination. On Saturdays the recruiting depot is only open until 3 p.m., and the previous low mark was six for the same day about four weeks ago. The recruits were divided up, one apiece, among the following units: 208th, 242nd, 57th Battery, Guards, A.M.C., I.

The Royal Canadian Dragoons still have need of a few more to fill the ranks left open by the draft recently sent overseas. The next draft leaves shortly, and any man who wants to get overseas quickly, with a good clean unit, there are plenty of opportunities for advancement should get information in regard to the Dragoons, and this may be obtained at 47 King street or Stanley Barracks. Visitors can see the Dragoons at the Canadian National Exhibition, and are cordially invited to visit them at Stanley Barracks. The Dragoons left with the first contingent in the present war, sending over 400 men and 550 horses, and have since sent over 550 more men. The training depot is in Toronto, and the conditions of enlistment are the same as for C.E.F. forces.

ITALY DECLARES WAR ON GERMANY

Berlin Notified Thru Swiss Government of Final Step.

(Continued From Page One.)

May 23 of last year and declared war on Austria. Altho by this act she arrayed herself on the side of the entente powers against her former allies, Germany and Austria, she remained officially at peace with Germany until yesterday. Before Italy took this step Germany exerted every effort to induce her to remain neutral, sending to Rome as Ambassador Prince Von Bulow, former chancellor and one of the ablest statesmen of Germany. The prince succeeded for some time in averting war between Switzerland and Italy when he saw a rupture was inevitable took steps toward preservation of an official peace between Germany and Italy. On behalf of the government, he negotiated with Italy a special agreement under which, in case of war between Germany and Italy, the latter pledged themselves to respect the properties and lives of their respective subjects in each other's domains. This meant for Germany a guarantee of many millions of dollars' worth of property in Italy and for Italy the safety of 80,000 Italian subjects who were still living in Germany.

The officially at peace until yesterday, Italy and Germany severed diplomatic relations last year. On the day following Italy's declaration of war against Austria, Prince Von Bulow and his staff departed from Rome, and two days later the Italian ambassador at Berlin, Riccardo Bollati, was withdrawn. It was on account of this fact that Italy adopted the unusual procedure of asking Switzerland to inform Germany of her declaration of war. Italy's action probably will have little effect on the military situation in the immediate future, altho as the war goes on it may have more important bearing. Italy's step is of no significance as respects that theatre of war. Germany hereafter will be free to take such part in the Austro-Italian campaign as may be decided on by the Teutonic allies, either in the way of leadership or by utilizing the soldiers when needed in the rapid shifting of troops from one front to another, such as is practised by the central powers.

BRITISH ELATED OVER TRIUMPHS

Signal Successes Achieved Around Thierval During the Past Week.

(Continued From Page One.)

pondent saw the British infantry capture trenches which it had taken 15 months to build and with no more casualties than he had witnessed in little fights in the Philippines. Shells Used Lavishly. Every prisoner taken who had been to Verdun said there was nothing at Verdun like it.

Instead of widening the front of their offensive, the British seem to be concentrating guns and more guns on their present front. They are using shells as freely as the machine guns use cartridges. New batteries of heavy guns keep on arriving from England.

In order to hold Thierval, the Germans, too, must bring up more guns and try to blast the British out of their new trenches. Last night the German counter-attack was the heaviest the Germans had made since the offensive began. This offensive it was said that you could take any trench at any time with gun enough, but that you could not hold it if the enemy concentrated his guns. Of late the rule has been broken, and the British were more elated over last night's repulse than even over their gains around Ginchy and Guillemont today and yesterday.

Fought Prussian Guards. All night long the Prussian Guards in the war. The prognosticated that the British will win within one year, in which the allies will be the victors. DAY LETTER SYSTEM IS NOW EFFECTIVE

C. P. R. Telegraph Inaugurates New Service Over Dominion.

J. McMillan, who has initiated many notable improvements since he became general manager of the C. P. R. telegraph service, 18 months ago, has decided to inaugurate today an important service entirely new to Canada, over the 110,000 miles of wire under his immediate control, namely, the day letter, which may now be sent between points in Canada on the Canadian Pacific system, at a rate very much reduced as compared with the usual commercial rush telegrams.

Mr. McMillan is convinced that many of those who send telegrams would be quite satisfied if they arrived on the same day, and a proportion of the cost of the rush telegrams is due to the cost of speedy delivery. The day letter of 50 words will be rated at one and a half times the cost of regular rush message of ten words, and can still bring an answer the same day, which is as quick as many people desire.

There are 1600 C. P. R. telegraph offices throughout Canada, each of which will be a Dominion-wide service, stretching from Louisville, N. S., to Victoria, B. C. Messages will be taken in either French or English, code words not being permissible.

Where Dame Fashion Favors Fascinating Models For The School Girl

The Preliminary Opening of New Fall Styles at Popular Prices

Features Many Charming Ideas in Misses' and Children's Apparel

Tuesday Should Be a Gala Day For Her on Whose Horizon School Still Looms Most Important

Suits and Dresses for Misses

Sizes 14 to 20 Years

THAT "PLEATED COATS ARE AN ATTRACTIVE FEATURE OF THE COLLECTION" was said of the suits in a very recent Fashion display by one of the foremost costumiers of Paris. A style so admirably adapted to growing figures is sure to be emphasized for youthful models, and many suits—yes, and dresses—in the Misses' Department show pleats falling from a shoulder yoke and confined by a belt at the waist.

WITH DEEP YOKE, THE NECESSARY PLEATS and a loose belt, is a charmingly girlish suit which may be obtained in all wool poplin or serge in navy, green, brown or black. The skirt is in flaring style, with fancy pointed yoke.

Buttons which are an obsession as trimming on French suits are noted here forming a row up the velvet trimmed cuffs and in military style along the shoulder. Price, \$20.00.

THE LOOSELY BELTED RUSSIAN COAT is another favorite, and an attractive model in that style is in all wool poplin or whipcord in navy, green, brown or black. The long backed collar ending in a ruffle—not gathered, but cut to flare—is a unique feature; military braid in bands on peplum and cuff is a smart trimming feature. Price, \$18.50.

Many other handsome models are included in the display, all coats being satin-lined and warmly interlined.

TO WEAR A SERGE FROCK IS TO BE GOWNED A LA MODE at present, and that one can be obtained at a moderate price in the smart Autumn hues, navy, Copen., green, brown and black, and made on the straight, almost princess lines, which Dame Fashion demands in the afternoon dress of today seems almost too good to be true. Again is the yoke and below it at front and back three wide box pleats confined at the waist by an unusual belt, which buttons across, as the cut shows, at both front and back. Price, \$10.00.

A BALKAN DRESS is a new idea for a school frock. In navy, Copen., brown or black serge made with large sailor collar and side pleated skirt, specially designed for Juniors, this dress has its Moyen Age waist extending to the hip line and ending midly-like in a deep fold. Price, \$8.75.

Many other charming styles at equally attractive prices. —Third Floor, Albert St.

Children's Dresses in Smart Styles

Sizes 6 to 14 Years

PERCHANCE SHE IS SIX and making her first entrance into the busy life of school, or perhaps she is fourteen and exchanging the grades for the broader sphere of the High School—at any rate, she begins in a few days a new year, and a new frock is an absolute essential for her debut.

A JUMPER DRESS OF SHEPHERD'S CHECK, smocked on the shoulder, would be "just the thing" for the great occasion. It is made in one piece style, with inset belt, kilted skirt and piping of black military braid at neck, on sleeves and belt, and is worn over a white linene guimpe with trimmings of guipure lace. Price, \$10.00.

LONG STRAPS EXTENDING DOWN THE FRONT and closely stitched to simulate box pleats, till they reach the patent leather belt then left loose and fastening down in pointed tabs on the quaint little pouch pockets are the quite unusual touch on a dress of black and white check woven with line of color and having trimmings of rose or green to match. Price, \$8.00.

A NAVY SERGE DRESS made in loose belted style has trimmings of red or green velvet. Price, \$8.00.

Scallops buttonholed in British red are a distinctive feature on the round collar and cuffs of another navy serge; the skirt is kilted and topped by a broad, loose belt with two tiny pockets. Price, \$5.50.

A TRUE SAILOR-COSTUME OF SERGE has a navy middie and cream skirt, belt, and wide collar. In another dress a plain navy waist is combined with a tartan kilted skirt and vest; other frocks have trimmings of tartan and many show conventional embroidered motifs in colored silk. The prices for these dresses range up to \$15.00.

The Top Coat in Miniature

Warm and "comfy" and eminently serviceable, these children's coats include all that is desirable for the cooler days of the nearby future.

VELOURS CLOTH, SERGE, CHINCHILLA AND CAMEL'S HAIR CLOTH are a few of the popular materials among these new arrivals, some being light in weight for early Fall wear, others being heavy and buttoning up close to the throat.

IN PLAIN "STORM" STYLE, as our artist has pictured it, is a practical chinchilla coat in light or dark grey and navy; large buttons of mottled grey give the touch distinctive. Price, \$10.00. With collar of imitation beaver the price is \$12.00.

A VERY FULL COAT, GATHERED TO A YOKE, is of brown camel's hair cloth, which has seal brown velvet forming an inlay in the collar and one of the large new cuffs cut in pointed style; diagonal pockets. Also in green or navy. Price, \$13.50.

A SNUG VELVET COLLAR with button trimmed strap of cloth is notable; a coat shown in navy, green, Copen. or grey velours cloth. The fancy cuff has a touch of velvet and large metallic buttons complete what is an attractive coat. Price, \$5.75.

These coats and many others equally good in style are shown in sizes 6 to 14 years.

Some wide as an ordinary sailor, but soft and drooping are raised from the head by a high bandeau; others are small with characteristic band, or flaring brim, while one develops a double tam at the back with facings of blue between.

WIDE BRIMS THAT DROOP at each side, others bent in charming curves, "flop" shapes, and the ever popular straight or slightly tilted brim are other good styles for Autumn.

Toronto Officials Inspect Camp.

Mayor Church and the Toronto City Council paid their first visit to Camp Borden on Saturday afternoon. While there the party were the guests of Lieut.-Col. T. H. Lennox, commander of the 20th Irish-Canadian Battalion, and Capt. "Joe" Thompson of the board of control, the unit's quartermaster. Before being shown over the camp with Lieut.-Col. Osborne, representing headquarters staff, the councilmen luncheoned with the officers of the 29th.

The mayor presented Capt. "Joe" Thompson with a handsome wrist watch and walking stick on behalf of the council.

The luncheon was followed by addresses by Lieut.-Col. Lennox, Mayor Church, Controllers John O'Neill, Thos. Foster, Joe Thompson, and Col. W. Hendrie, brigadier of the 4th brigade.

Colonel Lennox explained that the Toronto Council had been invited to Camp Borden so as to give it an opportunity to get a true idea of camp conditions. The conditions in camp had been exaggerated in most of the reports sent out. He declared there could not be found one officer in camp who would differ from this view.

Mayor Church's Reply.

Mayor Church said the object of the council's visit was not to criticise the camp, but to look over conditions at the invitation of the 29th Battalion officers.

presentation of colors to the 215th

The visiting council men were Ald. Robins, Beamish, Ramsden, Flewman, R. H. Graham, McBrien, Rydman, Archibald. In the party were James Somers, W. Randall, Sergeant-Major Creighton, assistant Architect Price and Deputy Chief of Police Archibald.

Owing to the Exhibition management not permitting boxing, the boxing championships will be carried to a conclusion in camp, commencing Wednesday night. On Wednesday afternoon the final field day will be held here.

Entries for the Toronto Exhibition events have to be handed into battalions orderly rooms here by tomorrow morning. The Camp Borden brigade champion teams in baseball, lacrosse, soccer and cricket will meet in semifinal championship fixtures starting tomorrow.

About 500 members of the 161st Huron Battalion, who have been away on harvesting furlough, returned to camp on Saturday.

BRITISH SHELL KAVALA FORTS

Monitors and Cruisers Bombard Bulgar Positions Near Greek Seaport.

(Continued From Page One.)

Intermittent artillery activity by both sides in the region of Jonkoi, on the left bank of the Struma. The British artillery has bombarded ceaselessly enemy positions. In the direction of Mount Voles there were some engagements by patrols.

"In the centre there was a medium cannonade in the region of Lake Doiran, but the cannonade was very lively west of the River Vardar.

"On the Serbian front northwest of Kukurus, the Bulgarians delivered six counter-attacks in the region of Vetsink, but were repulsed along the whole line." They suffered a sanguinary defeat and are falling back, continuously pressed by Serbian troops, whom they are stubbornly resisting.

On our left wing desperate actions continue in the region of Ostrovo. North of the Ostrovo road the Serbian fire caught Bulgarian attacking detachments, which had approached to within 150 metres of our line and inflicted on them very heavy losses.

In front of a single trench 200 Bulgarian corpses were found.

"West of Lake Ostrovo our advanced elements pressed forward slightly. The enemy made no attempt in this direction. South of the lake

isolated actions ended in favor of the Serbs.

"According to statements of prisoners, the losses of the Bulgarians during the recent action in the region of Ostrovo have been great, especially from the Serbian artillery, which indubitably dominates the hostile artillery."

Enemy Camps Bombed.

An official statement issued by the British war office Saturday night concerning the operations around Saloniki, says:

"There was only artillery activity on the Struma and Doiran fronts.

"Our aeroplanes bombed enemy camps at Kula, Topolca and Prosenik, about six miles south of Demir-Hisar."

Albania Invaded.

A Berlin despatch this afternoon says: "Bulgarian forces are invading Albania and have captured the Town of Malik, ten miles west of the Greek border. An official statement issued yesterday at Sofia reports. Occupation of territory in northeastern Greece continues, and further Bulgarian detachments have landed the Aegean Sea. The repulse of a Serbian attack in the Mogenica Valley on the western part of the front, also is announced."

He was taken to the foot of Yonge street in the life saving boat, and from there to the hospital in a taxicab. His condition is not serious.

SERIOUSLY INJURED AS CAR HITS POLE

Austrian is Hurt When Motor Breaks Pole in Twain.

POLICE HOLD DRIVERS

Criminal Negligence Charged Preferred Against Alleged Speeding Motorists.

Demetre Scuroon, an Austrian, was severely injured at 9 o'clock yesterday morning, when a motor car, owned by the Dominion Bank, and occupied by

Robert Moffatt, chauffeur, 55 Regent street, and J. Edwards of the same address, struck an electric light pole at Queen and Simcoe streets, falling to the sidewalk. Neither Moffatt nor Edwards was injured, and they were held by the police on a charge of criminal negligence. Scuroon has several ribs broken and is suffering also from internal injuries. He was taken to the General Hospital in the police ambulance.

According to Policeman Gilgan, who was on duty near the scene of the accident at the time, the car was westbound on the south side of Queen street, and traveling at a fairly fast speed. When opposite the pole the car suddenly swerved toward the sidewalk and struck it with considerable force, about four feet from the bottom. The heavy concussion caused the pole to snap at the thin end near the top. The weight of the pole caused a second break near the butt, and the Austrian, who was passing, was struck on the head by it and knocked down. Moffatt, Edwards and the policeman extricated the unfortunate man from his position, and rushed him to the hospital. His condition is regarded as critical.

HAIG'S TROOPS TAKE TRENCH

British Make Gains Around Bazentin-le-Petit and Cinchy.

(Continued From Page One.) more machine guns were captured than originally reported. "Yesterday evening we took a further 200 yards of a German trench north of Bazentin-le-Petit, capturing one machine gun. "During the night the enemy's artillery has been active between the Somme and the Ancre. The enemy also shelled the neighborhood of Bethune during the night and our heavy artillery retaliated on railway stations and barracks used by the enemy. "Near Hill 60 the enemy employed a

mine which caused no damage. There is nothing to report from the rest of the front. "Reputed Two Attacks. "The British official statement, issued Saturday night, said: "German troops made two attempts to enter the British lines in front of Bethune, north of Arras, and German artillery shelled points near Ypres and Arras. On the Somme front the Germans bombarded the Mametz Wood and trenches north of Delville Wood. Fighting was reported continuing in the region of the Mouquet farm. The statement reads: "Reputed Two Attacks. "The enemy's artillery bombarded Mametz Wood about midday today, and our trenches north of the Delville Wood during the afternoon. Around the Mouquet farm the fighting continued today. In this area, and in the trenches south of Thiepval, we have captured one German officer and 66 men of other ranks during the last 24 hours. "Two hostile attempts on one of our saps south of the Bethune-La Bassée road this morning were driven back by our rifle fire. The enemy shelled Roclincourt (north of Arras), La Courture and our trenches east of Zillebeke east of Ypres) during the day, and there was also much trench mortar activity on both sides near the Hohenzollern redoubt. Yesterday our batteries successfully engaged many enemy gun positions, some of which were destroyed or otherwise damaged. "Our aircraft carried out many attacks on points of military importance behind the enemy's lines, dropping in all about five tons of bombs. One hostile machine was brought down and at least one other was brought down in damaged condition. Two of our machines are missing. "Enemy's Version. "The statement issued by the German war office this afternoon says: "North of the Somme, after strong artillery preparation in the early hours of yesterday morning and during last night, the British repeated their attacks north of Thiepval and northwest of Fozieres. They were repulsed after desperate hand-to-hand fighting at some points. In these operations one officer and sixty men were captured. Enemy attacks north of Bazentin-le-Petit and assaults with hand grenades near Fourcaux Wood were unsuccessful. "In the Maurepas-Clery section, after violent artillery fire and the use of flame throwers, the French advanced to the attack with heavy forces. These attacks were without success. North of Clery enemy troops which had penetrated our lines were ejected by a swift counter-attack. "South of the Somme hand grenade attacks from west of Vermandovillers were repulsed. "On both sides of the Meuse (Verdun front) the enemy displayed increased activity at times. In the evening attacks were begun near Thiaumont and Fleury. They broke down under our fire. West of Craonne and in Apremont forest attacks by small detachments of the enemy were repulsed. Near Arrancourt and Eaucourtville patrol enterprises undertaken by the French were unsuccessful."

FRESH ITALIAN GAINS IN ALPINE REGIONS

Advances at Several Points Along Northern Part of the Front.

ROME, via London, Aug. 28.—Italian troops have won additional successes in the Alpine regions along the northern part of the Austro-Italian front, the war office announced today.

The advances were made in the Fassa Alps and in the Travignolo, Travanzenze and Rienz valleys. No

activity in the Gorizia sector is reported. The statement follows:

"In the Posina valley we repulsed an attack against our positions on Monte Selugio. The enemy suffered heavy losses and left some prisoners in our hands. In the Fassa Alps our Alpine troops made progress towards the ridge of Monte Casariol.

"Our vigorous pressure in the Travignolo valley continues and a counter-attack against the northern slopes of Col. Erison was repulsed. In the Travanzenze valley and the upper Soie we advanced along the slopes of Tofano III. On Monte Piano, at the head of the Rienz valley, our troops carried a strong enemy trench beyond Forcella dei Castrati, taking about 30 prisoners, including one officer. A counter-attack was checked promptly. On the remainder of the front there was some artillery activity.

"One of our squadrons bombarded the railway station at Sanceristofore, north of Lake Caldanezzo, causing heavy damage. All the machines returned except one. Above Gorizia, after lively air fighting, one of our bombers forced a hostile aeroplane to land in the neighborhood of Alsavizzo."

ITALIANS MAKE GAINS IN THE CARNIC ALPS

Austrian Positions on Cita Vallone Have Yielded to Assaults.

ROME, Aug. 27, via London, Aug. 27, 2.32 p.m.—In the Carnic Alps the Italians pushed forward yesterday, taking Austrian positions on Cita Vallone, the war office announced today. No revival of activity is reported on the Isonzo front, where a lull has followed the Italian offensive,

which resulted in the capture of Gorizia and territory further south. "On the Trentino front," the statement says, "the enemy showed considerable activity with his artillery and trench mortars. There was much musketry fire also, but no infantry attacks developed. Our artillery repelled effectively and damaged the enemy's defenses on the northern slopes of Monte Cimone.

"At the head of the Digoa River, in the upper Piave Valley (Carnic Alps), we extended our occupation of positions on the Cita Vallone.

"In the Gorizia area and on the Carso, hostile artillery was directed actively against the Isonzo bridges and the Vallone positions. A few shells fell on Gorizia and Romanz-

TWO DROWN THE DOG TRIES TO SAVE MAN

Spaniel Attempts to Pull Master From Water by Hair.

TWO OTHERS RESCUED

James Fraser and Doris Adamson Die in Paris Accident.

BRANTFORD, Ont., Aug. 27.—James Allan Fraser, a well-known soccer player, and Doris Eleanor Adamson, eldest daughter of Rev. R. J. Seton Adamson, were victims of a double drowning Saturday afternoon at Paris when Fraser, whose swimming ability was poor, attempted to rescue the girl after she had swam into water beyond her depth and became alarmed, frantically calling for aid.

Fraser's dog, a cocker spaniel, realizing the predicament of his master, sought to extricate him and pull him from the water by the hair. Fraser's weight, however, was too much for the animal, and he was forced to release his hold. The dog, afterward faced up and down the shore, whining and moaning, looking longingly at the spot where his master had disappeared. Throughout the remainder of the day he acted despondently, and despite the most inviting morsels of food could not be consoled.

Two other girls, Consuelo Inkster, daughter of a well-known lawn bowler, and Marion Thomson, were rescued from drowning about the same time by Baden Barker and Stanley Lilley when they swam into water over their heads and shouted for help. Fraser's body was recovered ten minutes after the accident, but all efforts to resuscitate life were futile. The Fraser family is prominent for its representation of hockey players and the number of its members in service, two of them having been invalided home within a short time. Rev. Mr. Adamson is rector of St. James' Anglican Church, Paris.

ALGONQUIN PARK.

The Algonquin Provincial Park of Ontario is a region of expansive lakes abounding with the sportiest of fish, of hurrying streams, primeval forests of pine, spruce and fir, where almost every species of Canadian fauna roams in freedom; cool swamps and wild upland lush, swept by pine-scented winds; ideal camping spots and sylvan retreats—everything, in fact, that is dear to the heart of the lover of outdoor life. Situated in the Highlands of Ontario, 2000 feet above the level of the sea, 205 miles north of Toronto, 23 miles west of Montreal and 170 miles west of Ottawa, this unspoiled tract of 1,754,412 acres will forever remain a playground heritage for the people of Canada and the United States. In this immense reserve every possible taste has been cared for. For those who want to enjoy the pleasures of the pathless woods, and yet secure all the comforts of good service and social companionship, there are first-class hotels. For those who care little for life in hotels, yet cannot adopt altogether the idea of the "simple life" under canvas, there are log-cabin camps, which can be used as headquarters while exploring the park. At these camps there is a large central lodge or meeting-place, and in close proximity to it there are a series of individual log cabins comfortably furnished, and with modern conveniences, including bath rooms with hot and cold water. The large lodge is used for a general rendezvous and the log cabins furnish privacy for families or parties. The log cabin camps will close this year on September 15th, but the Highland Inn will remain open until September 30th. September is the ideal month of the year in this charming territory. Our Great Event

A third annual war exhibition is as fine a testimony to the steadfast and optimistic character of the civic life of Toronto as could be desired for the capital city of Ontario.

This year's display will indicate but little of the sacrifices made by the city to the military authorities since last September.

One special new feature will be found in the accommodation of the public in the opening of the new route to the fair by Bathurst street and the Old Fort.

Ottawa Parliament Buildings. Attacks made upon those responsible for the demolition of the portions of the Parliament Buildings at Ottawa, which were deemed available for use after the fire, do not come very well from authorities who were responsible for the erection of buildings on the same grounds that had to be taken down after their completion on account of poor constructive work or insecure foundations.

The Globe and Sir Sam

There is only one conclusion to which an ordinary rational person can come after reading the Globe's bulletin last Thursday about Sir Sam Hughes. The Telegram editor must have broken loose and bitten the Globe editor.

It would be a crime, the ghastliest and most murderous crime of the war, no matter what the excuse or what the cause, were Gen. Sir Sam Hughes given a real command of living soldiers in a genuine engagement any where on the war's battle front.

The Globe appears to have forgotten altogether the existence of the general staff, and in its rabid state imagines that Sir Sam Hughes is in danger of superseding Gen. Joffre, or the Grand Duke Nicholas.

The Globe will scarcely deny the soldierly quality of obedience to Sir Sam in its lucid intervals. We need not speak of courage or daring. The Globe will not deny that Sir Sam, if occasion required, would give his life for his country as freely as any.

It is reasonable to suppose that it is not on military grounds at all that the Globe objects to Sir Sam, but on political. It is true that under the phobic influence the Globe speaks of "the Camp Borden horror."
