RAILWAY STATISTICS.—It is crimated that a Railroad requires about 500 tons of fron per mile. In the last sees on, bills authorising the construction of 2,841 miles of railway were passed, which will require 1,800,000 tons of pig iron, or 1,450,000 tons of the transferred extract of the result of the second of

tons of the manufactured article. It is supposed the furnaces now in blast yield about 600,000 tons per annum; so that this alone will give three years employment. Supposing 2,500 miles of railway be sanctioned in the next session, and 2,000 in the following, it will require nearly 3,000,000 tons of pig iron for railroads only, a quantity so wast that at the first sight it seems almost impossible for the British iron n asters to supply it.—London pa. yed.—Intelligence was received e Long Island Rail Road, of a of Sag Harbor, SuFolk County, ich, taking the relative size of to consideration, our own des-on of July last sinks into insig-

THE ART-UNION was established in 1837, to aid in extending the love of the Arts of Design throughout the United Kingdom, and to give encouragement to Artists beyond that afforded by the patronage of individuals.

Its promoters believe that these arts can never attain their due rank in this country (already so advanced in meny of the other elements of civilization) until adequate encouragement be afforded to the inghest efforts of the Painter and the Sculptor, and that to afford this encouragement large and permanent resources are indispensable.

With a view to the accomplishment of this object, the Society has adopted the following

With a view to the accomplishment of this object, the Society has adopted the following

PLAN:

1. The Art-Union is composed of Anneal Subscribers of One Guinea and upwards.

2. The subscriptions, efter paying necessary expenses, are devoted to the purchase of Pictures, Drawings, Enamels, Sculpture, fieldels, and other works of Art.

3. Every Member, for each guinea subscribed, is entitled to one chence of obtaining at the Annual distribution some work of art.

4. The number of works of art which are to constitute the prizes drawn for at the annual distribution, and the respective value of such prizes, are determined by the Committee according to the state of the funds at the closing of the subscription books of the year.

5. The holder of a prize is entitled to select you mine the year countries herewith published, a work of art from any of the following public exhibitions in London, of the current year; viz., The Royal Academy, The British Institution, The Society of Pritish Artists, either of the two Societies of Panuters in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Works of Art exhibited in Water Colours, or the Water Colours of the Art Union of London in the Province of New-Bruntwick, is prepared to enter the names of subscribers and to furnish a Prospectus containing a more detailed account of its objects and proceedings on application at his Store, in Germain-street.

Bright things can never die—
Saith my philosophy.—
Phosbus, though HE pass by,
Leaves us his light.

Kind words can never die-Spoken in jest,
God knows how deep they lie
Stored in the breast;
Like childhood's simple rhymes,
Said o'er a thousand times,
Aye—in all years and climes,
Distant and near.
"Kind words can never die,"
Saith my philosophy—
Deep in the soul they lie,
God knows how dear.
