TRAGIC DEATH  
IN OTTAWA OF  
J. E. ROURKE

Word was received by relatives in the city yesterday of the sudden death in Ottawa of J. Ernest Rourke of the currency branch of the governmental department of finance, which occurred on Saturday. The telegram announced that he had died suddenly while at his office.

The late Mr. Rourke was born in St. Martins (N. B.) the son of the late James Rourke, former M.P.P. for St. John county. He was for some time in charge of the Savings Bank in Princess street in St. John, and his wife was Miss E. Hume Campbell, daughter of Charles Campbell, of St. John. Mrs. Rourke, wife of Captain Furlong, of St. John, is a sister of Mrs. Rourke and she has come to Ottawa for the funeral. Besides his wife and two children Mr. Rourke is survived by his mother, a sister and a brother, all in St. Martins.

A Canadian Press despatch from Ottawa says that J. E. Rourke committed suicide by poisoning late on Saturday. He had been acting for the finance department in an audit of Victory Bonds which was being made by a firm of commercial auditors. Through this audit discrepancies in connection with interest coupons came to light, and it is understood that one of the officials is now in the hands of the authorities in connection with the affair. The strain of the investigation proved too great for Mr. Rourke, as his health was undermined from constant work through the war period.

Protested Innocence.

After the tragedy was discovered letters by Mr. Rourke protesting his innocence of any connection with the Victory Bond coupon discrepancies whatever. Coroner Craig has decided that an inquest will not be necessary. Officials of the department are reticent regarding the coupon discrepancies, though it is rumored that they amount around \$88,000. But none of Mr. Rourke's own work or that of anyone else is being called into question in the slightest.

**FORMER LABOR MINISTER DEAD AT OTTAWA**

Hon. T. W. Crothers, who was formerly minister of labor in the Borden cabinet and appointed to the Senate about two months ago, died suddenly at Ottawa on Saturday. He was seventy years of age, and has been in poor health for some time. Hon. Thomas Wilson Crothers, K. C., B. A., was born at Northport, Ont., in 1850. He received his B. A. at Albert College, Belleville. He was called to the Ontario bar in 1880 and made a K. C. in 1905. He was elected to the House of Commons in 1908 and 1911, and was made a member of the Privy Council and minister of labor in 1911. He was a Conservative in politics and a Methodist in religion.

**FOGH IN MONTREAL.**  
Immense crowds turned out on Saturday in Montreal to line the streets along which Marshal Foch was driven from the Windsor station to the civic library. **SAYS HUSBAND  
WENT BACK TO  
FIRST WIFE**

Spouse No. 2 Tells the Court That Wealthy Land Owner Quit Her the Day After the Wedding—Married on a Dare, His Tale.

(New York Times.)  
Mrs. William D. Wilson, whose husband is a wealthy land owner in Ulster county and a holder of valuable Manhattan property, is suing for a separation. She told Supreme Court Justice Bury yesterday in applying for alimony that her husband married her on August 11, 1921, at Shandaken, Ulster county, deserted her the next day, and within a week returned to his country place, Olivera, near Big Indian, N. Y., accom-

panied by his former wife, Mrs. May Bugner.  
"He ordered me to get off the estate and stay off," Mrs. Wilson deposed. "He told me he found that he could not love me, and gave me the name of a firm of attorneys in New York, requesting that I have our marriage annulled. He said if I would do this he would pay me \$10,000."  
Mrs. Wilson said she refused to be a party to such court proceedings and that her husband had continued to live ever since with his former wife. She alleged that the first Mrs. Wilson got an annulment on the ground that Wilson had a police record of which she knew nothing. The plaintiff says that Wilson told her he spent \$10,000 on his first wife and gave her \$10,000 when she procured the annulment.  
Wilson replied that he was willing to live with the plaintiff, but that he married her "on a dare," and that they did not intend to live together when they were wedded.  
Justice Bury granted \$25 a week alimony and said the defendant's contention that he married the plaintiff on a dare "is not worthy of serious consideration," while his offer to live with her "does not impress" the court.

**HARDING TO GO TO ALASKA.**  
Trip to Aid in Shaping Legislation is Planned in Summer.

Washington, Dec. 12.—President Harding plans an inspection trip to Alaska next Summer, it was said definitely at the White House.  
The question of what measures the Government shall adopt to develop the last pioneer territory of the country will soon be one of the pressing problems of the Harding Cabinet. The President hoped to visit Alaska last Summer to acquaint himself with conditions but the plan was abandoned when the extra session of Congress was prolonged and the call was issued for the conference on the Limitation of Armament. Instead, Secretary of the Interior Fall made an inspection trip to the territory.  
It is understood that the chief decision before the Administration regarding Alaska lies between calling upon Congress for further appropriation to open up the Alaskan territory for gradual, permanent settlement, or for throwing open the resources of the country for development by private interests. Since the war, Alaska's white population has fallen off to an alarming extent.  
President Harding would include in

his Alaskan tour a visit to the Pacific Coast, which might mean an absence from Washington of three months. There is the possibility that the Mayflower may be sent in advance through the Panama Canal to the Pacific Coast, where Mr. and Mrs. Harding would board the yacht for a voyage through the inside channel to Alaska.

**FOUND MAN  
IN DUG OUT**

Veteran of Great War Has Been Living in Nova Scotia Woods Since Last August.

(Halifax Chronicle.)  
A story tinged with much pathos arising out of the Great War was unfolded at the police station last night. A report was received at the station early in the evening from a resident in the vicinity of Marshbow Woods that a man had been living in the woods for some months past, and asking the police to take him in charge as he was in a pitiable condition. Sergeant White went to the woods and brought the man to the station, where he told his story.  
The man, who is about thirty-three years of age, and well educated, said he had been living in the woods since last August in a dugout which he had prepared. He claims, and the story was found to be correct in every detail, that he went overseas as a captain and was promoted to the rank of major in France. On his return to Halifax he was stricken with influenza and was treated at Camp Hill Hospital. The horrors he had endured overseas, combined with his sickness after his return home, had the effect, he said, of making him so discouraged that he cared little whether he lived or died.  
After drifting about for a time, subsisting on his gratuity, he learned on medical authority that his lungs were affected, and with this final misfortune he had all hope and cared little for what the future might bring. The thought then occurred to him that if he could get out in the open away from everything and everybody he might perhaps return to his former self, and accordingly he prepared a dugout in a secluded part of the woods, which he lined with bags, and carefully concealed, so that it might not be observed. There he has existed since August.  
Asked how he had managed to subsist, he replied that he still had some of his gratuity money with which he bought food. When brought to the police station he was in rags and tatters, and had a heavy growth of beard on his face. Asked as to his family, he replied that they did not reside in the city, and that he had been too dispirited to communicate with them for some time. The case will be investigated.

POWER COMPANY MATTERS BEFORE COMMON COUNCIL

Question of Resumption of West Side Loop Discussed.

Litter from the Company Regarding the Alleged Overcharge for Paving—Nelson Wharf Work Approved—Hydro Distribution Matter.

On account of the difficulty anticipated in the preparation of specifications, it was decided at this morning's committee meeting of the common council not to call for tenders for the renewal of a portion of the Nelson wharf, West Side, and permission was given Commissioner Bullock to go ahead with the work with the city crews.

Power Company Matters. Commissioner Frink read a letter from the N. B. Power Co. in which it was claimed that there was an overcharge of \$1,000 on the city's bill for the company's share of pavement in Prince Edward street, and \$556.80 in Douglas street, a total of \$1,556.80.

The mayor said he had received no letter from Dr. E. A. Smith, chairman of the N. B. Electric Power Commission, as printed in the morning papers today. Regarding the decision of the council to call for tenders for the renewal of the outer portion of Nelson wharf, Commissioner Bullock read a report of the city engineer in which he said that it was almost impossible to prepare specifications to cover a tender of this kind.

He said that the hiring of a pile driver and crew would cost the city about \$85 for each day employed. The mayor expressed the opinion that for emergency work of this kind to create unemployment, the rate of labor might not be kept absolutely to the union scale.

It was decided that the motion calling for tenders be rescinded and the work be undertaken by days work at an estimated cost of \$15,000, to be paid for by bond issue.

Commissioner Frink said that a section of the Newman Brook bridge had been removed to allow the dumping of material there to fill in the gap. It was the intention to remove the bridge when the gap was filled, but so far there was a great amount of material dumped over the culvert.

Commissioner Thornton thought that the city should take care of the class of material thrown in these dumps. Considerable difficulty had been experienced at the Elm street dump last year, he said; the fire department was called out frequently and one little girl was badly burned.

## UNEARTH GANG OF BOY THIEVES

Startling Developments from  
Truancy Report in Ontario  
Court.

St. Thomas, Ont., Dec. 12.—The arraignment of two thirteen year old boys charged with stealing clothing, and other articles, was the first step in the unearthing of a gang of boy thieves during the last three or four weeks named three other boys as accessories.

The three others, when produced in court, implicated another trio, and they turned over information that led to the arrest of a sixteen-year old lad who was admitted to the police that he was a leader of a well organized gang of petty thieves, and had been directing one of their movements.

One of the boys brought a black book to court with him and reported that he was secretary of the organization.

## LONDON PRESS WELL PLEASED

Ratification of Four Power Pacific Treaty.

"Apparently Impossible is in Effect an Accomplished Fact," Says One; "Best News World Has Had in Years."

(Canadian Press Cable)  
London, Dec. 12.—Ratification of the four power treaty relative to insular possessions in the Pacific which was announced on Saturday is believed to be assured when the convention is submitted to the U. S. senate, in the view of newspapers here. Today's journals, which have been commenting favorably upon the proposed treaty, today greeted the terms of the convention with enthusiasm, and basted their forecast of ratification upon the fact that U. S. Senator Lodge presented the treaty at Saturday's plenary session of the conference on limitation of armaments.

The apparently impossible is in effect an accomplished fact," says the Telegraph. "Our alliance with Japan has passed out of existence upon the only terms which Japan could regard as satisfactory and which we could feel to be honorable by this achievement alone. President Harding's administration has fully justified the bold and magnanimous stroke of statesmanship by which it severed the bond between us and Japan." The newspaper concludes by paying a warm tribute to Japan's "generous and statesmanlike conduct throughout the proceedings."

In the opinion of the Westminster Gazette, the one weakness of the treaty lies in the fact that it does not guarantee the integrity of China, but with this exception, the newspaper declared today it regarded it as the "ideal solution."

It remarked that the provision of the convention that a threat by one power should be the business of all contained the spirit of the League of Nations, and that "we have emerged from a nightmare of misunderstandings about secret motives and Mr. Harding has carried the good will of the world by his initiative."

Under the caption, "The Real Thing at Last," The Morning Post expressed the hope that the League of Nations would be well founded. It reiterated its opinion that the League of Nations would be well founded. It reiterated its opinion that the League of Nations would be well founded.

Great Britain will be immensely benefited by the treaty, while Holland and Japan will also benefit. The treaty will be well founded. It reiterated its opinion that the League of Nations would be well founded.

## MANY ENJOY DR. RYAN'S LECTURE

Large Audience Hears Eloquent Discourse Under the Auspices of the Catholic Women's League.

A large audience in St. Vincent's Auditorium last evening keenly enjoyed a lecture given under auspices of the Catholic Women's League, by Dr. E. J. Ryan, Mrs. D. P. Chisholm, president of the League, was in the chair. The lecture of the evening spoke of Jerusalem, the Holy City, with which he became intimately acquainted in his work there in the war. He reviewed the history of the place and its cosmopolitan population, told of the famous eight gates, and took his hearers to the Holy Sepulchre, the Mount of Olives, the Garden of Gethsemane, the house where the Holy Ghost descended upon the apostles, the scene of the Last Supper, Mount Calvary and other places so closely associated with the passion of our Lord.

The lecture, clothed in his descriptions of the place, indeed, his whole narrative in eloquent language and held everyone in closest attention throughout his highly entertaining discourse.

He was warmly congratulated upon his lecture and this was expressed in a vote of thanks moved by Miss Muriel Corkey and seconded by Mrs. L. A. Fewings. Another enjoyable feature of the evening was the artistic singing of "The Holy City" by Frank Hazel, with Mrs. M. A. Quinlan as accompanist.

**OXYGEN AND LIFE.**  
While it has been recently shown that distress in a crowded, heated room is not due to an excess of carbonic acid gas, it has been proved on how little oxygen human life can be supported.  
Surgeon Murray LeVick, who went with Captain Scott to the Antarctic, lived with his party for seven months in an "igloo" or snow hut with ice-lined walls, and during that time the atmosphere was almost still in the place, with not sufficient oxygen to support the combustion of a lamp or even a match.  
The circumstance tends one to revise one's attitude towards those sanguine folk who, in imagination, have peeped not only Mars, but the moon as well.

The result was that the traveller's luncheon, consisting of bread and butter and eggs, was found to contain gold and diamonds. Pores of the bread had been filled with gold and carefully covered with butter, while the eggs had been emptied and refilled with diamonds.

Former St. John Girl, Herself a Missionary, Weds Episcopal Missionary to Eskimos—Took Two Months to Reach Destination.

Out of the frozen north on the very fringe of civilization comes news of the culmination of a romance in which a former St. John lady figured prominently. A letter received from Miss Evelyn Isabel Roberts, daughter of Mr. and Mrs. L. H. Roberts, 27 Garden street, brought the news that this fall she was married to G. Eldon Merritt by Rev. J. W. Geddes. The ceremony was performed at Bernard's Harbor, an outlying spot in the Arctic circle away north of Port McPherson, where Mr. Merritt was engaged in Episcopal missionary amongst the Eskimos.

Miss Roberts, who is a trained nurse, took a course in missionary work at Hartford University, on the conclusion of which she left for Bernard's Harbor on June 25. She arrived at her destination on August 25, consuming nearly two months for the journey. The many friends of Mr. and Mrs. Merritt will wish them every success in their work and much happiness in their married life.

### EXPLANATION WHICH IS OF IMPORTANCE

#### Chairman of N. B. Electric Power Commission Writes Mayor Regarding Matter of Cost of Power—The Kenist Report.

Dr. E. A. Smith, chairman of the New Brunswick Electric Power Commission, has sent the following letter to the Mayor:

Dear Mr. Mayor:

We note the newspaper account of a recent report submitted by you to the common council and discussions thereon. The section of this report dealing with the cost of power might, we think, bear some amplification and explanation. In your report you state that Mr. Kenist gives the cost of power during 1929 as 1.888¢ per k.w.h. If you will note Mr. Kenist's report carefully, it states that this cost is only the operating cost of the New Brunswick Power Co., including fixed charges on the capital invested, was 2.00¢ per k.w.h. Moreover, Mr. Kenist points out that this was the actual cost to the company and does not represent the price which the company should charge. It is to be noted that with any price for coal that can be contemplated during the next few years and with generating stations of sizes applicable to the needs of this country, electrical energy generated by steam plants cannot be sold at a price materially less than 2.00¢ per k.w.h. It is assumed that the consumption of electrical energy in St. John will not be greater than the present output of the New Brunswick Power Co., that an existing steam plant be retained, and on the operating cost of the steam plant, namely, about 2.00¢ per k.w.h., a reasonable margin be added for depreciation and overhead. In the Musquash development, which latter price, by the way, is considered to be a minimum price with a possibility of reduction on the basis of a contract of 20 years. It is abundantly evident, particularly from Mr. Kenist's report, that no opportunity exists for greatly increased consumption over the present output of the New Brunswick Power Co., and that for domestic purposes but for manufacturing purposes. With energy and costs as mentioned, the present output of a central steam plant being in the neighborhood of 300,000 k.w.h. per annum, it is in connection with the Musquash development should be very attractive indeed.

We think that in fairness to the Musquash development, it should be added to your excellent report for the information of the public, and we are therefore taking the liberty of giving a copy of this communication to the press.

Yours truly,  
(Sgd.) E. A. SMITH,  
Chairman.

### WOMAN WAS TOO WEAK TO STAND

#### Miss Campbell of Winnipeg Regains Both Weight and Strength in a Short Time.

"I just can't begin to express my gratitude for all that Tanica has done for me," said Miss Florence Campbell, 380 River avenue, Winnipeg, Man.

"My health gave away almost two and a half years ago, when I had a bad case of influenza, followed by a slight touch of pneumonia, and was in bed for weeks. When I finally did get up I was too weak to stand, and it looked like I couldn't regain my strength. To make bad matters worse I began to suffer from stomach trouble that nothing I ate agreed with me, and I got so nervous and restless I never got a good sound sleep.

"I am just like a different person now. My strength has come back and I feel as well as I ever did in my life. I think Tanica is the grandest medicine ever made."

Tanica is sold in St. John by the Ross Drug Co., Ltd., and F. W. Munro, and by leading druggists everywhere.

### Got No Sleep

#### But now the neuritis has gone, the pains have ceased, and the nervous system is restored and the writer of this letter pays a grateful tribute to the medicine which made him well.

Mr. John Woodward, P.T.O., Lucan, Ont., writes:

"I give my most pleasurable recommendation to Chase's Nervine Food, especially the Nervine Food. I was a sufferer from neuritis for several years, and tried all kinds of remedies, yet never seemed to get any better. At last my nerves and my whole system seemed to give way through not being able to get any rest or sleep at night for pain, which mostly used to take me in all parts of the limbs and feet. My nerves would twitch till my whole body would seem to jerk just up as I lay in bed. Almost at the point of death, I decided I would get Dr. Chase's Nervine Food, which I did, and within a few days I was feeling myself almost normal again. I also keep a box of Dr. Chase's Kidney-Liver Pills on hand, and for the past year I seem to enjoy my usual health."

### CHICAGO TO USE SHEEP GLANDS TO RESTORE BACKWARD CHILDREN

Chicago, Dec. 12.—Sheep glands administered to backward and subnormal children will enable those children to make up for lost time in their classes, according to Dr. Frank G. Brunner, Director of Special Schools in announcing the start of sheep gland experiments. Observations of the success of the experiments are to be made in a school of 200 backward children. Pituitary and parathyroid glands are being used.

"We do not contemplate injection of the secretion of the glands," Dr. Brunner explained. "The gland is in the form of a desiccated tablet and will be fed at stated intervals. Experiments under my direction in New York indicate that the use of these glands will be successful in curing the defects of mentally abnormal children."

### YOUNG GIRLS NEED CARE

#### Mothers! Watch Your Daughters' Health Health Is Happiness

From the time a girl reaches the age of twelve until womanhood is established she needs all the care the thoughtful mother can give.

The condition that the girl is in at this time is so critical and may have such far-reaching effects upon her future happiness and health that it is almost criminal for a mother or guardian to withhold counsel or advice.

Many a woman has suffered from prolonged pain and misery through having been the victim of thoughtlessness or ignorance on the part of those who should have guided her through the dangers and difficulties that beset this period.

Mothers should teach their girls what danger comes from standing around with cold or wet feet, from lifting heavy articles, and from overworking. Do not let her overdo it. If she complains of a headache, a pain in the back or lower limbs, or if you notice a change in her health, make life easier for her. She needs thoughtful care for a few years.

In all such cases Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions. It contains nothing that can injure and can be taken in perfect safety.

Read how Mrs. Elcher helped her daughter. She says: "At the age of sixteen my daughter was having trouble every month. She had pains across her back and in her sides. Every month her back would pain her so she could not do her school work. My mother and I read the book which was left at my door. She took it faithfully and now regular and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter in your little books and in the newspapers."—Mrs. RAYNE EICHER, 406 N. Fairview St., Philadelphia, Pa.

Mrs. Williams will profit by her own experience. She says: "When I was thirteen years old I had sick spells each month and as I was very backward I would wear the pain and my mother knew nothing about it. I read in the daily paper about Lydia E. Pinkham's Vegetable Compound and I had a bottle of it sent to me. I took it and in a few days my back was better and I was able to go to school. I have had no more of these spells since."—Mrs. G. E. WILLIAMS, 2477 W. Toronto St., Philadelphia, Pa.

For almost fifty years Lydia E. Pinkham's Vegetable Compound has been known to thousands of women, young and old, of all nations and climes. Ask your relieving women, young and old, of all nations and climes. There are women who know of its merits.

Thousands of letters similar to the above are in the files of the Lydia E. Pinkham Medicine Co., and for years such letters have been published. Surely it is worth your while to make a fair trial of Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

### THE COUGH WITH THAT TICKLING SENSATION

A little tickling in the throat, now and then a dry, hacking cough; you think it is not bad enough to bother about, but every hack makes a breach in the system, strains the lungs and prepares the way for more serious trouble. How many people have that tickling, irritating sensation in the throat? The dry, harsh cough keeps you awake, and when you get up in the morning you feel as if you had had no rest at all.

**DR. WOOD'S PINE SYRUP** is just the remedy you require to stop that irritating, tickling cough on account of its soothing, healing and expectorant properties.

Mrs. P. Johnson, Port Alberni, B. C. writes: "I have suffered for years, on and on, with a tickling cough. I could not sleep nights and had to sit up in bed to get relief. In fact, I consulted several different doctors' prescriptions until I heard of Dr. Wood's Cough Pine Syrup. I tried a bottle and found great relief. I had taken the bottle and have not been troubled since. I shall always keep it in my medicine chest."

Get it here and get "Dr. Wood's" when you ask for it. Price, 35¢ and 60¢. A bottle put up only by The T. H. Millburn Co., Limited, Toronto, Ont.

### AGED FOUNDER OF M'CLARY CO. DEAD

Word was received here yesterday by George S. Bishop, local manager of the McClary Manufacturing Company, of the death of the founder of the firm, John McClary, who died yesterday morning at London (Ont.). He was a Liberal and a member of the company and a life past company, president of London Life Insurance Company and president of the Ontario Loan and Debenture Company. He was a Liberal in politics and a Methodist in religion.

Mr. McClary had been long and prominent in business and was the head of the McClary Manufacturing Company, which was established originally in 1831 and incorporated in 1871. He was a Justice of the peace, a director of the London and Western Trust Company, president of London Life Insurance Company and president of the Ontario Loan and Debenture Company.

His death was a great loss to the community and the company.

### WAS TROUBLED WITH HER LIVER FOR OVER 4 MONTHS

#### When the liver becomes slow, sluggish and does not supply sufficient bile to thoroughly cleanse the bowels, the bile gets into the blood, contaminating it and liver troubles follow among which are, sick or bilious headaches, heartburn, water brash, jaundice, floating specks before the eyes, pain under the right shoulder, coated tongue, bad breath, yellow eyes, etc.

Dr. J. C. Williams' Laxa-Liver Pills quickly remove the secretions, clear away the waste matter by acting directly on the liver, and making the bile pass through the bowels instead of allowing it to get into the blood.

Mrs. Alice McCall, Niagara Falls, Ont., writes: "I was very badly run down for over four months. I tried several medicines, but got no relief. One day my husband brought me home a box of Dr. Williams' Laxa-Liver Pills, and before I had used half of it I was much better. I only used two pills and I am a different person today."

Price, 25¢ a vial at all dealers, or The T. H. Millburn Co., Limited, Toronto, Ont.

### It's Nerve Force from Nuxated Iron

#### That helps make STRONG, MAGNETIC, FORCEFUL MEN, who make their over-mastering presence felt the moment they enter a room.

**NUXATED IRON** contains the principal chemical constituent of active living nerve force in a form which most nearly resembles that in the brain and nerve cells of man. It also contains organic iron like the iron in your blood and like the iron in spinach and apples. Organic iron enriches the blood and plenty of rich red blood means nerve force, so that Nuxated Iron not only feeds what might be termed artificial nerve force to the system, it stimulates the blood to manufacture a greatly increased supply of new nerve force. If you are weak, nervous or run-down, and if within two weeks' time you do not feel that it has increased your nerve force and made you feel better and stronger, you can have your money back, refunded. Sold by all druggists.

### FRENCH DOCTOR CLAIMS SERUM CURE FOR SEASICKNESS

#### To Be Immune in Worst Stomach Transient Traveller Requires Only To Be Inoculated.

Paris, Dec. 12.—Dr. Poppers, head of the laboratory of the Pasteur Institute, has discovered a cure for sea sickness, it is announced. The French transatlantic traveler with a weak stomach, gets to be inoculated with Poppers's serum by the ship's doctor as soon as he boards and thereafter he can laugh the best effects of the storm king to scorn. For months past Dr. Poppers has been experimenting with an ingenious apparatus invented by a well-known engineer, M. Fouan, which reproduces every movement of a storm-tossed vessel. He put all sorts of animals, rabbits, guinea pigs, chickens and pigeons in the apparatus, none of which was affected even after six hours of the roughest movements. Dogs, on the other hand, suffered severely from seasickness, and one of the experiments resulted in giving some of the Poppers's serum.

### U. S. SOCIETY MUST NOT CARRY "HIP LIQUOR"

Chicago, Dec. 12.—Society girls and women were warned by United States District Judge Clyde that they must abstain from the practice of carrying "hip liquor," it has been considered the height of smartness to carry a jeweled flask and display it in the open. The district attorney says he may make an example of certain prominent women unless this violation of the prohibition law is stopped at once.

"Hip liquor is rampant," said Mr. Clyde. "The newly developed liquor habit among women is a more serious menace today than the 'moonshine' of the bootlegger."

The government is making a rigid investigation of a recent "harem party" of the exclusive Casino Club, which resulted in the expulsion of three young society men.

**FREDERICTON GIRL HOME FROM EUROPE**

Miss Bessie Kelly, Who was with American Red Cross, Tells of Conditions in New Countries.  
(Fredricka Gleason.)  
After having been service as a nurse with the American Army during the war, and since her return to the American Red Cross in almost all the countries of Europe, Miss Bessie Kelly, formerly of this city, arrived here yesterday, and is the guest of her sister, Mrs. William Rutledge, Charlotte street, with whom she will spend Christmas.  
Miss Kelly went overseas in January, 1918, with the American army, and was in hospital five miles back of the German trenches and saw many gruesome sights. She was also in the first army of occupation, with the United States army, and in September, 1919, she was transferred to the American Red Cross and sent to Poland to work. In speaking of Poland Miss Kelly says the people there are the most patriotic she ever saw.  
The conditions are bad, due to the high exchange rate, it being 2,000 marks on the dollar, while before the war it was only five marks. The industries were all destroyed by Germans and Bolsheviks, and they have not the money to buy from France or England and the food is not by Germany. The crops, she said, have been the best in fifteen years and there is a reduction of the exchange, better times are looked for.  
In Czechoslovakia, formerly under rule of the Austrians, conditions are much better than in Poland, Miss Kelly said, as it is rich and independent and one of the most prosperous of the new countries. Constantinople is crowded with refugees, and it is a problem how to care for them. The French and English governments are helping to a certain extent in looking after the poor. All through the Balkans, people who formerly lived in luxury now have their jewels, family silver, furs and other valuables in the pawnshops, so great is the stress.  
Miss Kelly was one of those favored with an invitation to see the Sultan of Turkey as he was leaving the mosque. While waiting for his appearance, coffee and Turkish cigarettes were served, and on his arrival no one spoke, and he drove away. Many odd experiences happened to Miss Kelly while traveling. At one time, in Poland, she had the skirt of her uniform stolen, and as she had not a second uniform she had to take the lining of her trench coat and pin it together for a skirt until she got to the Red Cross depot in the next town. In Italy baggage belonging to many of the nurses was stolen, and they often found themselves at great disadvantage for want of winter apparel. All through her service Miss Kelly had the distinction of being the only member of the Red Cross in contact with malaria and nearly every other disease, she never reported sick, which was considered most wonderful by the doctors in the party.  
The American Red Cross is to withdraw entirely from European countries in July next, and during the past year

**PERILS FROM PETS.**  
Unless Looked After Carefully, May Be Source of Danger.  
Pets may be a source of danger in a house unless they are looked after very carefully. Frequent children are allowed to play with unhealthy or unclean dogs and cats, and their parents wonder why they suffer from colds and other ailments so often, say the British Medical Officers. Never keep a pet that is not perfectly healthy, and see that it is always absolutely clean.

ROB FUR FIRM TWICE AND GET \$105,000 LOOT

First Visit to Store in 57th Street, New York, Netted \$30,000 Five Weeks Ago—\$10,000 Worth Left Behind.

(New York Times.) For the second time in five weeks thieves broke into the fur store of David Silver at 46 West Fifty-sixth street about midnight Tuesday and carried away twenty-seven fur coats and other articles valued, it was understood, at about \$75,000. The thieves waited until a special outside watchman had left for a short time. Then they jammed their way through three heavy locks on the door of the store. The intruders completely upset the store in their search for loot. Coats, stoles and other fur articles to the value of \$10,000 met with their disapproval and were thrown to the floor and trampled on.

His Reward for Investigating the Chronometer Used on Shipboard. How do ships find their way across the ocean? This has always been a puzzle to the average landsman, says a sailor to the London Daily Mail. Of course, the landsman has a very naive idea of latitude and longitude, but how these are obtained, and by what means, is generally a mystery.

### RECALLS GREAT DAYS OF OPERA

**Christine Nilsson Retired in the Full Possession of Her Powers—Compared to Jenny Lind.**

The news of Christine Nilsson's death, says the London Times of November 23, can stir personal memories only among the older generation of music-lovers, and in those who remember the great days of opera in London 40 years ago. The younger generation knows her only as a name—one of those names that elders use in order to prove that there are no great singers today comparable to those of their own youth. Christine Nilsson is a more distant memory than many of her contemporaries, and a peculiarly quaint one, because she had the courage to retire while in full possession of her powers. She left the operatic stage in 1881, and only a few concert performances in the years immediately following prolonged her career. Since then she had lived in retirement, chiefly in Paris.

Her voice was of delicious quality, for its sweetness was never cloying, and there was always in it an element which in the hands of a less consummate musician might have become shrill. Her stern critics said that, while her art was wonderful in the more serious types of music, she was ready occasionally to lower her standard for the sake of popularity. There are few singers who have never laid themselves open to this charge. It is certain that Christine Nilsson made her reputation by singing great music greatly, and did so at a time when the palm of greatness was not handed to every soprano able to show a technique a little above the average. She was sometimes compared with her more famous compatriot, Jenny Lind, whose favorite part of Alice, in "Robert le Diable," was one of Christine Nilsson's most brilliant successes early in her career. Here was, in fact, an independent art, which won her a place among the great memories of the old and now long-vanquished opera.

She was born on August 20, 1843, in the district of Wederslof, in Sweden, her father being a small farmer on the estate of Count Hamilton. Berones Lehnusen, who was an accomplished singer, gave her her first vocal instruction, and, after the girl had some lessons of Berwald, the baroness took her to Paris to study with Wurtel. She appeared in a version of La

Traviata at the Theatre Lyrique, Paris, in 1864, and soon afterwards added the Queen of Night and Donna Elvira to her repertory. The second of these parts was one of those most closely identified with her in England, where her Marguerite in Faust made her great fame. For this her type of Northern beauty was perfectly fitted, and as she was a highly accomplished actress, she gave to Goun-

became another of her almost exclusive parts. In the wonderful performance of Don Juan in 1869 she sang the part of Elvira to the Donna Anna of Tilius and the Zerlina of Patti. In Pizarro she sang at various times the part of the Countess and Cherubino, and was, of course, required to "create" the principal parts in various operas—good, bad and indifferent.

From June 8, 1867, when she appeared at Her Majesty's Theatre in La Traviata, she was a prime favorite in London; she sang in various oratorios at Exeter Hall in 1869, and went to America in 1870-72. Soon after her return to Europe she married M. Auguste Rouzeau, in Westminster Abbey on July 27, 1872. It was in America that she first essayed the part of Elza, in which she made one of her most striking successes. Another production in which she was seen to greatest advantage was that of Boito's Mefistofele, first seen in England at Her Majesty's Theatre in 1880.

Her husband died in 1882, and in 1887, after various tours in different parts of the world, she married the Count Casa di Miranda, who died in 1902. She took leave of the profession on June 20, 1888, at a concert in the Albert Hall, but re-appeared there for Sims Reeve's final concert in May 11, 1891.

### PRENTICE BOYS' CHRISTMAS FAIR

**Auspicious Opening in West End on Saturday Evening—Proceeds For Renovation of Hall.**

The Christmas Fair of Prentice Boys' Lodge, No. 30, which will be continued until next Saturday evening, was opened last Saturday evening in the lodge hall, Guilford street, west end, with a fairly good crowd in attendance to take advantage of the fun afforded and the opportunity to win some excellent prizes. An efficient committee, under the patronage of Clifford G. Price, had planned very carefully and every indication is that their efforts to raise funds for the renovation of the hall will be crowned with success. A door prize will be given nightly, the final prize next Saturday evening being \$25.

The other members of the supervising committee, besides Mr. Price, are W. L. Donohue, excelsior, electric reading lamp, William Porter; floodgate, a kiddie kar, D. A. Duffy; door prize, half barrel of flour, Mrs. Edwards.

### COBB PLANS HOME FOR TIGERS DURING THE SPRING TRAINING

San Francisco, Dec. 12.—Ty Cobb, Detroit American League club manager, wants to establish his players on their Spring training trip in a large home with excellent food and pleasant quarters. Many players, Cobb says, complain of living conditions in the Spring camps, and their dissatisfaction shows itself in their work. Cobb, who is leading the San Francisco Club in the California Winter League, leaves late this week for New York, where he will meet Frank Navin, President of the Detroit Club, Dec. 14. He says he will present his Spring training plan to Navin and ask for permission to try it out.

## HOLMES & EDWARDS

### Reflecting the Spirit of the Giver

For Christmas no better remembrance could be given than the gift of silverware. As the years roll by, its lasting charm and gleaming beauty reflect the spirit of the giver and recall the loving thoughts which prompted the gift.

It is the fineness of finish, the refreshingly new and exclusive patterns that make Holmes & Edwards so dear to the heart of any woman.

But behind this is that practical charm—the charm of durability for which it is renowned. For Holmes & Edwards flatware, both in Silver Inlaid and Super-Plate, is protected at the wear points.

In Silver Inlaid blocks of solid silver are fused into the back of the most used pieces—where friction mars ordinary wear. In Super-Plate these points are protected by a heavy extra deposit of sterling silver.

Besides the beautiful gift suggested here, you can secure Holmes & Edwards silverware such as tea services, compots, bread trays, in the same high quality. Your dealer will show you.

**WILLS OF TWO PROMINENT CANADIANS**

**Sir Sam Hughes Left \$800,000 and Senator Edwards \$1,992,948.**

Toronto, Dec. 12.—Sir Sam Hughes, former Minister of Militia, was worth \$800,000 when he died. His estate is almost wholly made up of Victory bonds. Sir Sam liquidated his stock holdings and made investments in Victory Bonds a year before his death. At the time of his death he still held considerable real estate in the West and coal lands in the Crow's Nest Pass district.

His real estate holdings in the province of Ontario included Glen Eagle Range, 2,200 acres, in the Haliburton district, and his fine home in Lindsay.

The will, which was drawn up by Hon. Wallace Nesbitt, names the Toronto General Trusts Corporation as the executor of the estate.

The whole estate is divided among Lady Hughes, the son General Garnet Hughes, now in England, and the two daughters, Mrs. Byron Greene, of Dale avenue, Toronto, and Miss Allen, at home.

Ottawa, Dec. 12.—The estate of the late Senator W. C. Edwards, pioneer Ottawa

lumberman, mill-owner and parliamentarian, is valued at \$1,992,948.46, according to a statement issued by his solicitor. Application for probate will be made tomorrow. The entire estate is divided among members of his family and that of his widow, Mrs. Edwards is given a substantial life annuity.

More than half the entire estate consists of Dominion of Canada Victory bonds. The Senator died possessed of \$1,020,093.83 worth. His next greatest interest was in the Bathurst Company, Limited, Bathurst, N. B. He was owner of 8,928 shares in this company, valued at \$446,400.

The statement values 1,000 shares of Rindon Company stock at \$2,700.

The principal assets of the estate are: Dominion of Canada Victory loan, \$1,020,093.83; 100 shares Bank of Commerce, \$18,500; 1,337 shares Ottawa and Hull Power Company, \$138,700; 8,928 shares Bathurst Company, Limited, Bathurst, N. B., \$446,400; 2,700 shares Canada Cement Company, \$122,250; 1,250 shares Woods Manufacturing Company, \$87,500; 666 shares Babcock Carrier Florida Company, Punta Gorda, Florida, \$55,500 and real estate at Mousseau Lake, Quebec, \$12,208.

The Senator explained in his will that, owing to the large amount of succession duties which would be levied against his estate and which he understood were utilized by the Government largely for the benefit of various charitable and benevolent institutions, he made no bequest to any charities, "such as I otherwise would have done," as his statement concludes. It is estimated that the province of Ontario will obtain about 20 per cent. of the estate, or nearly \$400,000.

A chimney fire in a house belonging to R. Naves in Moore street brought some of the North End fire department out near midnight Saturday. The blaze was quickly extinguished.

Twenty young women of the parish were received into the society of the Children of Mary in the church of the Assumption, West St. John, last evening. Rev. J. J. Ryan, the pastor, preached a sermon appropriate to the occasion. The young women wore white dresses and white veils at the ceremony.

In consequence of a spill on the toboggan slide at Rockwood Park, Saturday, four of the nurses from the county hospital, Mrs. Brankley, Miss Higgins, Miss Thoburn and Miss Gature, suffered a severe shaking up. Two of the young ladies had their glasses broken in the spill.

Letters received from the father and sister-in-law of the late D. Arnold Fox were read at the morning service of St. John's (Stone) church yesterday by the rector, Rev. A. L. Fleming. They described with much feeling the last hours of Mr. Fox and both expressed deep gratitude to the congregation of the church and to the people of St. John in general for kindnesses shown to Mr. Fox.

of the Church of the Assumption. A large number of seamen now in port were at the hall both yesterday afternoon and last evening. They expressed themselves as delighted with the provisions made for their entertainment and comfort. The hall will be open every evening hereafter.

Two horses were destroyed within a few yards and a few hours of one another on Saturday. The first animal, which belonged to Albert Sullivan, was shot near the City road end of the Wall street bridge by Policeman Gaudet, as it had been suffering from a stiffed joint on the hind leg and finally collapsed on Saturday. The second animal, which belonged to James H. Peacock of Sandy Point road, was shot by Policeman Gibbs near the Paradise row end of the bridge. The horse was coming toward the city when it suddenly stopped, and it was found that the hind leg was broken. After some examination, a wound was found on the inside of the horse's leg, which probably came from a kick received previously.

The C. G. I. T. Girls' Council held their first supper gathering on Saturday evening at the Y. W. C. A. recreational centre. Arrangements for the supper were made and carried out by the girls under the direction of Mrs. J. D. Hunter, Miss Greta Holman and Miss Jean Somerville. The guests of the evening were Miss Mary Allison, Mrs. J. A. McAvity, Miss I. McKenzie, Miss Jessie Lawson and Miss Florence Cummings. Certain phases of the working centering around plans for Christmas were discussed by groups with the following leaders: Misses Dorothy Stewart, Bessie Carlos, Lillian Cruikshank, Edith Lawrenson, Margaret Rice, Jean Sewell, Marian Porteous and Marjorie Reiding. Miss Allison then gave a brief talk on the spirit of Christmas. A business meeting was then held.
