TALE OF ATROCITIES BY THE BEATEN BULGARS CONFIRMED

Fearful Cruelties Practiced in Seres ALMOST UNSPEAKABLE

Building After Building Set Afire, the Residents Crucified, Hacked to Pieces or Burned by Madened Soldiers—The Progress of the War

(Canadian Press) Saloniki, July 14.—The shocking and burning of the town of Seres by the defeated Bulgarian army, and the accompanying outrages on women and atrocities on men, were fully confirmed today in a despatch from a well known Greek correspondent...

The Greek correspondent, he telegraphed, opened a cannonade with four field guns from a hill above the town on Friday. At the same time, bands of Bulgarian soldiers led by their officers scoured the streets, first pillaging the stores and houses and then drenching them with petroleum and setting them alight, until the greater part of the town was blazing.

Many people were crucified, hacked to pieces or burned alive by the maddened Bulgarians, who committed incredible outrages on women and children, until many died from the effects. The condition of those who escaped is lamentable.

Rich merchants are dying of hunger, while wretched mothers, trembling with cold, are trying to find covering and food for their naked and starving children. The situation is desperate as all the pharmacies were burned down and there is a total lack of medicines for the sick and bandages for the injured. The Greek authorities in Saloniki are rushing food stuffs, clothing and medicines to the stricken town.

London, July 14.—The Daily Telegraph's correspondent with the Greek army says that the Greeks, to date, have captured eighty-two guns and 10,000 prisoners.

A Belgrade despatch to the Telegraph says that the Serbian invasion of Bulgaria has been successful, but was confined to the front Kustendil line. The Serbians are advancing and making good progress.

The Daily Mail's correspondent with the Serbians sends the following despatch: "There has been no fighting since Wednesday. The weather is wet and the roads heavy. A Russian photographer, who visited the scene of the Kivovak battle, found evidence of the Bulgarians having crucified, mutilated and burned wounded Serbians."

The Constantinople correspondent of the Mail reports long negotiations between Turkey and Roumania, and believes an understanding has practically been reached. Roumania wants five torpedo boats, which Turkey is willing to lend on condition that Roumania supports her.

Saloniki, July 14.—Refugees from Seres speak of the Bulgarian police set fire to the town in several places on Thursday. While the fire was raging the Bulgarians gunned on the adjacent heights, notably the consulates, which were crowded with fugitives, and poured shrapnel into the crowds of people fleeing from the city.

Yenna, July 13.—There are persistent reports that the Serbians have occupied the Bulgarian town of Kustendil. It is also reported that a force of Roumanians have arrived at Corbis and is preparing to cross the Danube into Bulgaria north-west of Pleva.

ERNEST ROSS LOSES LIFE IN DREDGING OPERATIONS HERE; FALLS FROM SCOW; IS DROWNED

Left alone on the dredging scow which was returning from dumping its load outside, Ernest Ross, a young man who had been married but three weeks, was carried overboard by the weight of the heavy wire hawser which he was losing from the scow and was drowned in Courtney Bay today at twelve o'clock.

Mr. Ross went out on the scow from the dredge McMartin which was towed by the tug Muscalonge. It is customary for two men to go but for some reason Ross was alone. The report is that the tug took the scow out and Ross dumped it and was returning to the dredge McMartin. When about fifty feet from it the signal was given to loose the hawsers. As Ross did so this weight proved too much for him and he lost his balance and fell overboard. As is usual on the dredge there were life belts at hand but Ross rose and sank three times before help could reach him. His heavy rubber sea boots rendered it impossible for him to swim.

His young wife was prostrated when she heard the news.

GRANITE OR CONCRETE WALL AT THE FACE OF THE NORTH WHARF

Proposal For Permanent Structure To Be Submitted to Property Owners

The reconstruction of the North Market wharf has been under discussion at city hall for some time and the project will advance another step this afternoon. The wooden wharf is badly in need of repair and at its reconstruction of the same material would involve heavy expense the commissioner of harbors has suggested that it be replaced by a more permanent structure.

At this afternoon's meeting of the common council, Commissioner Schofield will move that plans, specifications and estimates for the construction of a granite or concrete wall for the face of the wharf be adopted and be submitted to a meeting of the owners of property located on the wharf at a meeting on Wednesday afternoon.

The city is willing to undertake the construction of the outside wall if the property owners will co-operate in the building of a similar wall on the inside of the wharf which would act as a support for the buildings. The space between the two walls would be filled in with concrete and the whole would make a permanent structure greatly superior to the present form of construction.

CAPTAIN AND WIFE DROWN Barge Founders in Lake Erie; Crew Are Saved

Dunkirk, Pa., July 14.—Captain Bernard McIntyre and his wife, Elizabeth, lost their lives on Saturday afternoon, when the barge Annabel Wilson, bound for Port Colborne, Ont., foundered in Lake Erie off this city.

The crew of the barge clung to a small boat and were rescued. They are James Mullin of Kingston, Ont.; Henry Simmons of Erie, Pa., and Albert Blundell of Port Robinson, Ont.

FOUND THE ROAD BAD

F. J. Jeffrey, Major C. Herbert McLean, E. A. Vessey and H. M. Rive were the guests of Rupert H. Rive on a week-end automobile trip to St. Andrews. They left St. John on Saturday afternoon and returned on Sunday evening. Speaking of the trip this morning Mr. Rive said that he found the roads very bad. There was one hole in the road near Leppreux which would certainly have wrecked the car and possibly cost some lives if they had struck it at an ordinary rate of speed. On another section there was a stretch of about fifteen miles little better than a hole in the road which was in poor condition and was such as to discourage travel on this road which should be an important thoroughfare between the United States border and St. John.

CHINA MAY AGAIN BE IN THROES OF CIVIL WAR

London, July 14.—Heavy fighting is reported all around Kiu Kaing, province of Kiang Si, on the Yang Tse Kiang says a Peking despatch to the Daily Telegraph. The fighting is the result of the occupation of the city by northern troops.

The outcome has not yet been learned, but should success attend the Kiang Si troops, who number 9,000, civil war, according to the despatch, will be inevitable.

POLICE REPORTS. William Beausili was reported yesterday by the police for allowing two cows to go at large on the Marsh road. A hole in the sidewalk on the Marsh road was reported by the police and the street department notified.

DETECTIVES GOT INTO TROUBLE IN TORONTO ORANGEMEN'S PARADE

One Went to Pass Through Lines—Supreme Grand Master Gives Address

Toronto, July 14.—Five thousand Toronto Orangemen braved the heaviest rain of the season today as they marched in the annual parade. The parade was a success and the Orangemen were well pleased with the result.

The procession took an hour and a half to pass. An exciting time took place in front of the city hall, when Detective Jervis and Detective Miller were arrested by a mob of Orangemen. The Orangemen were angry because the detectives had arrested a man who was carrying a flag.

Ottawa, July 14.—A cablegram from the International Agricultural Institute gives the official preliminary estimate of the 1913 wheat crop of Hungary, not including Croatia and Slavonia, as 147,847,000 bushels against 173,325,000 bushels in 1912.

Twelve Killed, 200 Hurt As Result of Boyish Pranks

CLUNG TO BOTTOM OF OVERTURNED BOAT FOR NEARLY HOUR

Young Man Rescued By Party of Yachtsmen on the River

A young man who is summing with his people a decidedly exciting experience yesterday afternoon while sailing in his boat in the Kennebec river near Baywater, and it was only after clinging to the bottom of his overturned craft for nearly an hour that he was rescued by a party of yachtsmen aboard the "Fei Yuen."

He had been sailing most of the afternoon and with a wily stiff breeze had blown from Renforth well down the river until he was just a little below Baywater, when a squall struck the sail before he could lose the sheet and he suddenly into the river. The boat turned bottom up. Being able to swim he managed to make the boat and clambered to the top where he clung for his life in a fairly heavy sea with the wind blowing strongly.

The young man passed by but those on board did not see him as they were seated with their backs to him. On the next tack however, Wm. C. Brown, one of the party, espied the upset boat about half a mile distant and saw the young man frantically waving his arms. He immediately steered to his assistance, and when just near him lowered sail. Edward Simpson, three of the boys, and with the help of Mr. Ellwell and Oscar Peterson the young man was rescued. He was taken back to Renforth on the yacht and his own yacht was towed in later in the afternoon.

NO SALOONS IN UNITED STATES BY YEAR 1920

Programme Outlined by Rev. Dr. Polling at Christian Endeavor Convention

Los Angeles, July 14.—Twenty meetings were held here on Saturday by the delegates to the 26th International Christian Endeavor convention. Rev. Daniel A. Polling, of Columbus, Ohio, national superintendent of the temperance and Christian citizenship department, outlined a programme for the next two years. It is expected it will be adopted by the convention.

The feature of his plan was the work to be done in the campaign, which has as its object the prohibition of saloons by 1920. Ultimately, he said, he hoped there would be a federal constitutional amendment prohibiting the manufacture and sale of liquor. He declared that Christian Endeavor leaders were not satisfied with the prohibition bill introduced in Congress by Representative Hobson of Alabama, because of "loopholes" in it.

"The Hobson measure," he said, "extends to prohibit the manufacture of intoxicating liquors for use as a beverage, but this does not far enough. It should prohibit the importation or exportation of liquor."

BRYAN ADDS A NEW PROPOSAL TO HIS PROJECT FOR PEACE

Washington, July 14.—The complete text of Secretary State Bryan's peace treaty proposals has been made public by the state department. The memorandum is identical with the one which has been furnished to all the governments that have expressed a desire to examine it. In addition, Secretary Hobson sent copies of the memorandum to all United States diplomatic representatives abroad, thirty-nine in all.

The memorandum consists of two parts, one of the draft of the proposed treaty and the other a supplementary proposal by Mr. Bryan. The new feature of the supplementary memorandum of Mr. Bryan, is his suggestion for maintaining the status quo, during the period of investigation of any dispute between the United States and another government.

WHAT'S IN A NAME?

Shakespeare wrote: "The choicest treasure mortal times afford is spotted reputation."

Whether we are in business or in a profession, whether we are large or small, if our success depends upon our dealings with the public, a fair and honest reputation is indeed a choicest treasure."

To have no reputation is almost as undesirable as to have a bad one.

Sometimes an enterprising manufacturer arranges to distribute his product through an equally enterprising retailer. In this way two substantial reputations unite in a common cause. Each strengthens and fortifies the other.

The retailer who has not yet enjoyed the benefits of selling a nationally known article and of being helped by the manufacturer's "spotless reputation" fagged out of his own is overlooking one of the finer points in latter day merchandising.

MEDDLE WITH WHISTLE OF TRAIN AND SEND ONE CRASHING INTO ANOTHER

Death List in Los Angeles Catastrophe May Be Greater—Conductor Had Left Train a Moment to Send a Signal

(Canadian Press)

Los Angeles, July 14.—To meddle with the whistle of a train is a fatal mistake, as is attested by the loss of twelve lives and the injury of some 200 persons near here last night, when two Pacific electric trains collided, near the city limits. Many of the injured will die. Three trains loaded with excursionists to the beach at Venice, sixteen miles from Los Angeles, had stopped at a curve where a switch is turned. The last train began moving forward, while the two foremost trains remained standstill. Carrol Bartholomae, conductor of the last car of the centre train, jumped to the track with his light flag the approaching train. Some youths, passengers say, pulled the whistle in just as the train was passing. The head-quarters of the Toronto delegation of 125 announced that none of the Canadian visitors were in the wreck.

William Vaughan, over whose absence from home his family were very distressed on Saturday returned this morning much to their relief. He suddenly made up his mind to go to Moncton on Friday night to spend the twelfth there and did not have time to leave word with his people.

No further word has been received of Harry Pitt, the sixteen year old son of Policeman Pitt of the West Side, whose disappearance from home the Times contained word on Saturday. His family are very anxious as he has now been away a week.

Chatham, N. B., July 14.—Charles E. Main died last night at his residence in Water street in the 33rd year of his age leaving his wife, who was formerly Miss May McDonald, daughter of Mrs. Andrew McDonald of this town, and two small children to mourn the loss of a loving husband and father. His mother-in-law, Mrs. W. C. Main, both of whom were present at the funeral, were very distressed by the death of their son. Mr. Main had formerly been connected with the P. & N. Railway, and was a member of the Chatham branch of the Methodist church.

DISAPPOINTED TOURIST

One of the police officials of the I. C. R. in the Union Depot decided to spend Sunday in the country, and chose Toronto as a nice quiet spot, where he might commune with nature and breathe in the fresh, sweet incense from rural lanes and groves. Unfortunately the policeman, one of whose duties when about the depot is to look after visitors, tourists, etc., and see that they connect safely with their trains, got off at Hampton station on his way out on Saturday, and spent too long in looking about admiring the scenery with the result that the train pulled out without him. He came in on a freight yesterday morning.

ST. JOHN'S VESTRY EXPRESS REGRET AT MR. FAIRWEATHER'S DEATH

Resolutions expressing regret and sympathy at the death of George E. Fairweather have been passed by the governors of the Wiggan's Male Orphan Home and by the vestry of St. John's (Stone) church. The latter reads as follows:
Resolved, That the vestry of St. John's church, in the parish of St. Mark, desire to take the first opportunity accorded them since the decease of the late George Edwin Fairweather to express their regard for his memory and their sense of the valuable services he rendered during a long and honorable life to this church and parish and to the diocese at large.

A member of the congregation from his earliest years the late Mr. Fairweather was always liberal in his contributions and regular in his attendance. He was for many years superintendent of the Sunday school. He was a member of the vestry and a church warden until at his own request he was relieved from office. He represented the parish in the Diocesan Church Society and the Diocesan Synod and was treasurer of the Diocesan Church Society for fifteen years, until he retired from office at its approaching amalgamation with the Diocesan Synod.
He loved the mellow sound of the (Stone) church bell and devoted his poetical talent to the expression of his regard for the services to which it had summoned his parents and himself in the years that had passed, as he wrote also of his own deep faith and expressed his gentle kindly nature in his hymn "For Jesus Sake."

"If I but one kind, gentle word could speak,
By loving act, some happy truth unfold,
To lead but one, the path of peace to seek,
The path that leads to Christian love and grace
And ends in Heaven's eternal rest and peace.
And all for love of Jesus, blest,
The Rock and Stay, the perfect rest,
My life were not in vain;
For in the sight of God how dear is one
Redeemed, through Jesus Christ, our Lord—the Son,
And cleansed from sinful stain."

Mr. Fairweather was respected in life and his death was regretted by all who knew him.
Further, Resolved that this resolution be entered in the minutes and a copy sent to the widow and family of the deceased with the expression of the deep sympathy of the members of the vestry in their bereavement.

Are Men Bargain Hunters?
By J. R. HAMILTON
Former Advertising Manager, Wanamaker's, Philadelphia
(Copyrighted)

TEN YEARS ago a certain advertiser took a great number of statistics to find out if men were regular readers of advertising. Most men said they looked at the Ads, but an average of three cases out of five admitted that they were not influenced by prices.

A few weeks ago another set of statistics were taken and this time five men out of every seven said that they were influenced by price advertising during the Clearance Season.

There were two peculiar results of these statistics. First the tremendous change that ten years has made in the influence of advertising with men, and second in the character of the men who admitted that they followed the advertising in doing their buying. IN EVERY CASE THE MEN WHO CLAIMED TO READ AND BUY FROM ADVERTISING WERE THE SHREWDEST AND MOST WELL-TO-DO MEN OF THOSE WHO WERE QUESTIONED. In other words the men who could afford to ignore a bargain were the ones who always took advantage of it. And the men who could not afford to ignore it were the men who did not follow the Ads and did not know that bargains were being offered.

Now the Clearance season has come again for all good stores. They must lower their stock. They must reduce their prices in order to lower their stock. And they must advertise in order to let the people know what they are about.

Consequently this paper from now on will be filled with good merchandise for men, offered at a reduced price.

And if these same statistics hold true throughout St. John five out of every seven men will be reading this advertisement and following up the bargains that are being offered.

There isn't any better way for a shrewd man to make money than to save money. And any man with money knows how money is made.

There isn't any easier way in the world to earn a dollar than to save it.

Turn to your advertising now and see how it works out with you.

CATHOLIC JUBILEE BEGINS In the Catholic churches throughout the world there was begun yesterday a jubilee in commemoration of the 1600th anniversary of the birth of St. Joseph. The jubilee was still in progress in the cathedral of the Edict of Milan by Constantine the Great. The edict made by the pagan Emperor, who later became a convert to Catholicity, caused a cessation of the persecutions with which the Christians had to contend in honor of the decree, His Holiness Pope Pius has called upon the Catholics in all parts of the world to observe a jubilee which will feature from yesterday until December 8. In order to fulfill the obligations attaching to the jubilee, there must be penance and communion, alms giving, and six visits to the Cathedral church, parish church, or any other church where mass is celebrated.

By canoe and portage in the Northern Wilds, The Call of the Strenuous Life, Fishing in the Kootenays, and Fishing off the Coast of Newfoundland, are some of the principal articles while thoughtful sportsmen will be interested in reading the Ontario and Quebec inter-provincial fish and game laws. The regular departments are well maintained and the issue a good one for the summer sportsman's reading.

NEW LIBERAL PAPER The advent of a new Liberal paper in Montreal is an event of interest throughout Canada. The new Journal, which made its first appearance on Saturday, is named the Daily Telegraph and Daily Witness. It succeeds the Daily Witness published so long by John Dougal & Son, who will hereafter confine their attention to the Weekly Witness, World-Wide, Northern Messenger and Canadian Pictorial.

Editorially the new journal defines Liberalism, tells of its great achievements in the past in the mother country, in Canada and elsewhere, and declares its own devotion to that cause. Now that the Montreal Herald has become the organ of the Liberal and anti-imperial group in Montreal, the advent of a stalwart advocate of the principles of Liberalism is timely, and the new journal should command the support, not only of the Liberals of Montreal, but of Liberals elsewhere who desire to secure a metropolitan journal from day to day.

BEN LINDSEY ON TRIAL An attempt is being made in the city of Denver to remove Judge Ben Lindsey from the position of judge of the juvenile court. The surprising part of the affair is that the women of Denver are said to be behind the movement, and claim that the work of the juvenile court is not satisfactory, a tendency to undue leniency being productive of as much evil as undue harshness.

For quite a number of years Ben Lindsey has been a national figure in the United States, and his plan of dealing with juvenile offenders has been adopted in many other cities besides Denver. He has been called upon to deliver lectures all over the country, and has spoken in several Canadian cities, while magazines and newspapers have devoted a great deal of attention to him and his work, and his theory of the best manner of dealing with juvenile delinquents. His method was to repose confidence in the boys, put them upon their honor, and by appealing to their better nature gain their confidence and encourage them to change their ways and live honest and useful lives.

The news that the women of Denver have turned against Judge Lindsey is certainly surprising; for, as the Bangor Commercial points out, if the juvenile court is accomplishing what he claims, and what the public has generally believed, it ought to appeal in the very strongest manner to the women of the city. Whatever may be the situation in Denver, however, the Lindsey method of dealing with delinquents has proved a success in many cities to an extent which leaves no question in the public mind as to its superiority over any method marked by harshness or severe punishment, inflicted without discrimination.

The United States department of agriculture and census bureau shows that while the population of the country increased between 1907 and 1912 from 87,178,938 to 95,765,578, the number of cattle decreased from 72,534,000 to 66,527,000. This leads Collier's to observe: "There is no way for a man to serve his fellow men during the immediate future more powerfully than by raising cattle, and no way more certain of reward. There is no principle of political economy more necessary for the government of the United States to practice than to withdraw the premium which a high tariff has put upon the manufacture of every kind of luxury, and restore the people from the factories to the farm."

The Bangor Commercial says:—"The strenuous campaign that has been carried on against arson in New York city has brought its need of accomplishment as evidenced by the fact that in the first six months of the present year there were 5,608 fires in the metropolis as compared with 5,445, a very fine reduction. STATESMANSHIP IN HANDS OF MEN STILL YOUNG In Europe kings and ministers have shown such longevity that it has been said the world was governed by old men. In striking contrast is the average age of about 30 of the new cabinet at Washington, the president himself being close to the year which is sometimes spoken of as being the prime of intellectual life, although old for athletes.

When the present British cabinet was reconstructed at the death of Campbell-Bannerman five members retired at the average of sixty-five, and five succeeded at the average of forty, making the average under fifty-two for the cabinet as reconstructed. This compares with the average of sixty-one for the Canadian cabinet. There were ten British ministers under fifty and only three Canadian. There was no Canadian under forty, whereas there are two in the British cabinet in the thirties.

Although Mr. Roosevelt was younger than Mr. Wilson, being the youngest of all presidents, his cabinet was older averaging fifty-four. It is odd that when it is so often remarked that science is prolonging human life our statesmen are growing younger. In the days of "the fathers" the age of presidents was nearer sixty than fifty. J. Q. Adams at fifty-seven being the youngest of the first half dozen and fifty-six being the average for twenty presidents. This does not include presidents succeeding to the office from the vice-presidency, as did Mr. Roosevelt at forty-three. It was only our earlier presidents who were elderly. Washington himself was a colonel at twenty-two, Jefferson wrote the Declaration at thirty-three. Patrick Henry made his famous "treason" speech at twenty. Alexander Hamilton made himself immortal as a financier at twenty-four with his conception of a national debt as a national blessing. On the other hand, it is but a few years since A. R. Thayer analyzed the ages of 280 prominent men of the 19th century and found the average of 112 statesmen was seventy-one. New York Times.

LAST TRIBUTE TO HON. JOHN V. ELLIS
The funeral of the late Hon. J. V. Ellis took place on Saturday afternoon, marked by the simplicity desired by the departed, but attended by hundreds of citizens of all ranks, was a fitting tribute to one who had been such a large place in the life of the community but whose career had been marked by the same simplicity and lack of ostentation. After the private service at the late senator's residence, Princess street, and the public service at Trinity church, conducted by Venerable Archbishop Raymond, Rev. P. Coulthurst and Rev. G. F. Scoville, the body was conducted to Greenwood cemetery for interment.
Besides the local mourners among whom were the mayor and city commissioners, many prominent men attended the funeral, including Hon. J. E. Wilson, representing the provincial government; Chancellor C. G. Jones, of the U. N. B.; Senators Daniel, Gilmore and Donville; Dr. James Christie, of Pioneer Lodge, L. O. O. F., of which Senator Ellis had been the last surviving charter member; L. B. Archibald, of Truro, past supreme grand master of the Knights Templar of Canada; G. N. Babbitt, deputy recorder, general of Fredericton; G. W. Babbitt, town clerk, and E. C. Cole, of Moncton. The cast was borne by F. Ellis, William L. Ellis, M. D., George D. Ellis, and Joseph N. Ellis, sons of the deceased; James S. Whittier, a nephew, and Edward R. Taylor, non-in-law.
In addition to the relatives, the employees of the Globe walked among the mourners, besides representatives of the Masonic Order, the St. John's Natural History Society, the Home for Incurables and the S. P. C., with which Mr. Ellis had been connected during his lifetime.
In addition to the floral offerings mentioned on Saturday there were tokens from the Natural History Society, St. John's postmaster and staff, Alumni St. John's High School and Masonic emblem from Montreal, Ottawa, Quebec and other cities in addition to those from the local lodges.

SUDDEN DEATH OF CHARLES W. STOCKTON
Charles W. Stockton dropped unconscious on King street yesterday afternoon and died a few minutes later. He had been suffering from heart trouble recently, but in spite of the warnings of his family, had insisted on marching at the head of the Orangemen's parade and was on his way home when death overtook him.
Mr. Stockton, of 29 Brussels street, was foreman of the city waterworks and had been an Orangeman for more than thirty years having held all the offices in the gift of the primary lodges. He was Worshipful Preceptor of Queen's No. 62 Royal Black Knights, Past County Master and member of Gideon Lodge No. 7. He was recognized by all the members of his order as a leader, and had managed at the head of the parade during the afternoon, a prominent figure in front of the band.
Mr. Stockton was 58 years old. He leaves his wife, two married daughters, two unmarried daughters, Maud and Bertha who live at home. He was regarded as one of the most capable and energetic in the city waterworks department and his removal will be a distinct loss to the city. He was respected by his superiors as a man of ability and popular with fellow employees.

PRICE OF BOOKS WILL SOON BE RAISED
Telegraph and Times' Great Offer Will Be Withdrawn in a Few Days, So Don't Delay.
Delays are dangerous, and as business demands the withdrawal of the Telegraph and Times Dictionary, you have no time to lose in clipping that coupon. Even for the sake of further educating the public the present distribution cannot be continued. In a few days the Telegraph and Times proposition of supplying the big little bundles of ready reference information and the book that is worth \$8 will be placed upon the shelves of the book stores, the presentation will end, and the sale at \$4 a volume will be started. In an effort to raise the standard of their profession, stenographers of St. John are giving the educational campaign their unanimous support.
The reason for the low average of wages paid the toilers at the typewriters has been given by employers as a lamentable lack of knowledge of the English language, spelling and punctuation, on the part of the employed.
The plan which the Telegraph and Times has suggested and the stenographers are eagerly endorsing is that each operator who is anxious to better his or her condition obtain from one of our distributing stations the best and handiest work of English ever compiled—the Webster's New Illustrated Dictionary.
Practical experience has proven that by using the copy as an error eliminator perfect copy can be produced and the argument of the employer that the employe is not worth more than the low salary paid successfully refuted.
The demand of stenographers for dictionaries is growing hourly, and the result is sure to be more money and better work.

RECORD IN CLYDE SHIPBUILDING
During June, Clyde shipbuilders launched twenty vessels, aggregating almost 50,000 tons. The total for the half-year amounts to 84,600 tons, which is the highest on record for a similar period. Work is plentiful, and with the prospect of the wage question being settled, a record for the year should be established.

Managers Must Choose.
New York, July 12.—Whether or not a strike of upwards of 80,000 conductors and trainmen on forty-five railroads shall be declared within the next few days, depends upon whether the railroads recede from their present position and withdraw from their refusal to arbitrate the wage and other differences between the companies and the men.

A great procession was held and speeches were listened to by very large crowds at Connel park. The principal speakers were Grand Master Sellen, Rev. G. W. Schuman and Rev. Mr. Barton.

More details of new British capital issues in the first half of 1913 are now available. According to a compilation by the Economist Canada's borrowings in the London market for the first six months of the year exceeded those of any country, not excluding the Mother Country itself. Aggregate issues for home purposes amounting to \$20,224,400, Canadian issues were \$20,847,400. The only other country to approach Canada in this respect was Australia, which secured \$11,996,400. Canadian issues were nearly 80 per cent of the total set down under the head of "British Possessions."
The Situation and the Market
New York, July 12.—It is impossible not to give recognition to a stubborn strength in the stock market which would ordinarily indicate the approach of a good rise. The market is pocked with unfavorable news, but it presents a dogged resistance. A bank failure occurs of large dimensions and which in its ramifications would have shaken down a weaker position in the market. But the effect is negligible. Short selling continues, but no stock in any volume is disclosed. The Balkan fire flare up, and Canadian Pacific records, in downward quotations, the uneasiness abroad, but the rest of our market does not follow the quotations except fractionally. The fact is the position of the country is really sound and strong, and it only needs clearing up abroad to give a forceful swing upward all around not only in securities, but in general business. The west is buoyantly optimistic, as shown by the Journal of Commerce's telegraphic canvass. This cheerfulness is based on crop prospects which each day makes more dependable, and on the continued impression out there, that the tariff changes have been fully discounted, business needing only the troublesome thing out of the way in order to buckle to and make new advance. Here in the east, even the sentiment is becoming more hopeful. The Union Pacific dissolution is settled as far as the plan is concerned, and part of the Southern Pacific stock is disposed of. The remainder (\$88,000,000) is a large amount, but some sort of syndicate operation will be planned out to care for it.

ARREST FOLLOWS DEATH OF HIS WIFE
Very serious charges will be faced by Elijah Starkey, of Cody's, Queens county, who was arrested on Saturday and taken to the jail at Waterbury on a charge of assaulting his wife. It is fully believed that more serious charges will follow. The preliminary hearing will be tomorrow before Squire Asquith of Waterbury. Mrs. Starkey died a few days ago. She confessed before her death that she had taken poison, having been driven to it by the cruel treatment of her husband. While she was lying in the last stage of life a fire broke out in her house and she was forced to jump from a window to the ground, dying soon after. She said she knew nothing of the origin of the fire.
The family has lived at Cody's for some time, and when it became rumored that Starkey, who is about fifty years of age, had been brutally using his wife, her relatives at once laid information and had him arrested. Heart-rending stories of the man's cruelty are told, but whether they are true or not will be brought out at the trial. Just prior to her death, it was said he had beaten her severely, but Dr. Hethington, who attended her said that while she had several bruises on her body, he did not think them severe enough to cause death.

BOY DROWNED IN YORK POINT SLIP
While playing about York Point slip on Saturday afternoon about six o'clock Albert, the twelve year old son of Mr. and Mrs. Fred Nordstrom, of George street, fell into the water and was drowned, while his young companions, Simon Gallert, Pearl Martin and a lad named Boyer were only a short distance away. The youngsters had become separated at the time of the sad fatality. Little Albert had been doing some fishing and is supposed to have lost his balance. When his little playmates missed him they at once set up a cry and immediately efforts were made to find the body, but it was not for an hour that it was holed up by Policeman O'Leary with a pike pole. Grappling irons had been in use before this. Attempts at resuscitation were futile. Five young brothers and one sister survive besides the lad's parents. The body will probably be buried on Tuesday afternoon.

MASONIC TRIP TO COAST
The Sovereign Great Priory of Canada the governing body of the Masonic "Order of the Temple" will meet this year in Vancouver on August 4 and 5. A very attractive programme is being arranged by the knights of the order of the Pacific coast and the delegates and their ladies, as this is the first time in the history of the order that the Great Priory has been so far west.
A transportation committee has been set up at work for many months arranging rates and dates and an itinerary has been completed which will be very interesting and enjoyable. From the latest advice several sleepers will be required to provide accommodation from Montreal. Thirty-five names have been sent into the committee including a few from the maritime provinces.
If the committee from Toronto and London report as favorably a special train over the C. P. R. will leave Toronto on Saturday July 26. This train is scheduled to make stops at the important points, where local bodies of the order will meet the train and show the delegates the points of interest in their respective cities.
Among the places at which stops of from three to six hours will be made, are Port Arthur, and Winnipeg, (at the latter the stop will be all day), Regina, Moose Jaw, Medicine Hat and Calgary; fifteen hours at Banff, six hours at Laggan to visit Lake Louise and a short stop at the Glacier arriving Friday noon at Vancouver.
Monday and Tuesday will be occupied with the annual session; but the evening as well as the Friday and Saturday previous will be devoted to entertainment several trips up the Fraser River and vicinity to see the beautiful scenery.
New Westminster will take part in the entertaining and a visit will be paid to Victoria.

Some of Morgan's Stocks
New York, July 12.—A partial list of the late J. P. Morgan's enormous stock and bond holdings was made public here when the executors of the estate applied for the transfer of about 100 lots of various securities from the state controller to themselves. Among the securities appear only one share of United States Steel, a preferred certificate, worth today about \$104, and two shares each of Northern Pacific and Illinois Central.
The more imposing items are 2,188 shares of New York, New Haven and Hartford stock, and 8,200 Southern Railway common. Incidentally, it is not stated that the present list comprises the decedent's full holding in any specified security.

SAY MR. THORNE LIKELY TO BE NEXT SENATOR

His For the Saying is Ottawa Report, But R. D. Wilmot's Friends Urge Sunbury Man's Claims

An Ottawa despatch of Friday to the Montreal Star says—“W. H. Thorne, a prominent business man of St. John, is said to have the first call on any senate vacancy in New Brunswick, and will all probability succeed the late Senator Ellis.” Mr. Thorne left on Saturday for the west in company with Hon. J. D. Hazen, minister of marine and fisheries. Mr. Thorne will accompany Mr. Hazen on his tour of the western and Pacific provinces and will be present at the welcome which will be extended to the New Zealand warship at Vancouver. He will be away for six or eight weeks.

It was said today that there is some question whether Mr. Thorne would accept the appointment.

It is understood that R. D. Wilmot, ex-M. P. for Sunbury is in the field for the appointment and that his friends are strongly urging his claims.

Four Street Cars There on Arrival of the Onconce

On Monday last the Times referred to the fact that a very poor street car service attended the arrival of the steamer Oconce at Indiantown that morning. This morning there was quite a different story to tell. When the two hundred people or thereabouts who landed from the steamer walked out to the square at Indiantown they found four cars ready to accommodate them. The four were quickly filled and the people make quick time to the city, highly pleased with the street car service.

CASES WHICH NEVER SHOULD BE TAKEN TO POLICE COURT

“People talk of the father and gentler sex,” said Magistrate Ritchie in the police court this morning, and yet when we have women witnesses on the stand against one another, the contradictions would lead us to suppose that somebody should be in Dorchester for perjury.” The case which caused these remarks was that in which Mrs. Annie Ritchie, Mrs. Alice Freese, were charged by Mrs. Jane Bailey with assault. From the evidence given it was plain that the case was one of those often in court when two families are occupying the same house. The witnesses in their statements, which were quite at variance with those of the opposite side.

Mrs. Jane Bailey and Mrs. Alice Freese testified to the little Foley girl kicking Mrs. Freese and on the magistrate's asking whether they had exchanged any remarks about it said that they had not. The magistrate thought this very strange. Mrs. Freese also told of Mrs. Foley attacking her when she went up stairs to complain of the girl's action.

Mrs. Foley, Miss Maisie Bailey, Mrs. Eva Jamieson and Miss Blanche Foley gave evidence on the other side of the case and presented facts and conversation very differently.

E. S. Ritchie who appeared for the defendants, after remarking that the case was apparently the old story of six of one and half a dozen of the other asked that it be dismissed. Magistrate Ritchie took occasion to remark on the contradictory and inconsistent evidence often given in cases of the kind and urged the principals not to let clotheslines and wash-tubs and foolish trifles bring them into public disgrace at the police court. He then discharged the defendants.

Edward Legere, who was arrested for wandering around Pond street late last night and not being able to give a satisfactory account of himself, said that he had come from Sussex and was trying to find a box car to sleep in. The magistrate explained the law with respect to box cars and told the prisoner to get back to Sussex with all speed, with six men charged with drunkenness were fined \$8 or two months, and two were remanded.

Saposnikoff pleaded guilty and was fined the maximum penalty \$100 and costs or three months in jail. He paid the fine.
