The Ivernia Struck on Daunt Rock, on Irish Coast -- Now at Anchor with 25 Feet of Water in Fore Compartment -- Passengers Behaved Admirably -- No Sign of Panic.

Queenstown, May 25.—The Cunard line str. Ivernia, which left Boston May 16th, for Queenstown and Liverpool, struck Daunt Rock, at noon today during a fog as she was approaching this port after an eventful voyage.

The passengers were at luncheon at the time of the accident, and quickly rushed on deck. The ship only hung on the rocks for a short time, and then slid off into deep water with a large aperture in her starboard bows through which the water poured and threatened to flood the hold.

MR. COWAN WRITES TO TELEGRAPH

His Letter Contains Further Evidence Of The Deliberate Misrepresentation Of The Dredgers' Morning Organ.

House of Commons, Ottawa, May 20th, 1911. To the Editor of The Daily Standard St. John, New Brunswick: Sir,—Subjoined is a copy of a letter I have written to the editor of the Daily Telegraph. I enclose copy of the pamphlet therein referred to. Yours faithfully, GEO. H. COWAN.

The Editor, Daily Telegraph, St. John, N. B. Sir,—My attention has been drawn to two articles in your issue of the 22nd April last, the one an editorial, the other a front page article, each under the heading, "Cowan vs. Cowan." In the editorial you say that, when telling New Brunswickers about the perils and evils of Reciprocity, I must have forgotten the pamphlet I wrote on "Better Terms" in which I said Reciprocity would relieve British Columbia from the disability imposed upon her by the tariff.

PREPARING FOR REBELS

Portugal Massing Troops On Northern Frontier In Readiness To Combat Any Possible Monarchist Uprising.

Lisbon, May 24.—That the situation in Portugal is serious is evidenced by the fact that the government is hastily despatching reinforcements to the north. The official explanation of this is given out in that the government is aware that monarchist plotters with 2,000 mercenaries are on the Spanish frontier and intend to cross to Portugal at the first opportunity in the hope that inhabitants of the village will support their cause.

DISGRACE TO THE POSTAL SERVICE

To the Editor of The Standard. Sir,—Having recently returned to St. John from a visit in several cities of the Dominion, I could not help but notice the difference between the mail conveyances in other cities and here. Can you inform me through the columns of your paper whose duty it is to see that the contractor lives up to his contract. Yours truly, PROGRESSIVE. [We believe it to be one of the duties of the postmaster of St. John to have supervision over this contract.—Ed. Standard.]

STERLING NOW HOLDS BARKER RACE TROPHY

Special to The Standard. Halifax, May 24.—Victoria Day was celebrated quietly in Amherst. The horse racing at Sackville drew a crowd of two hundred turfmen from this town, and most of the motormen with their families spent the day at their cottages at the shore or on fishing trips.

The government, however, it is said does not look for a revolutionary movement. It believes that the disturbances will not go beyond rioting, but nevertheless all military precautions are being taken. As next Sunday which is election day, approaches, rumors of conspiracies, royal plots and Republican factional differences multiply. Nevertheless public order continues.

RUPTURE IN THE POPE TO HOW TRURO

He Will Enter Vigorous Opposition To Alleged Persecution Of His Church By Portuguese Government.

Lisbon, May 24.—The long looked for rupture between the church and the government is now an accomplished fact, as a result of the protest issued yesterday by the bishops against the separation law. The violence of this protest has caused a sensation. It vigorously attacks the provisional government and declares that the law is not one of separation but of annexation of the church. After being despoiled of all property and authority, the bishops declare, the church has been placed in an abject position under the heel of the government.

MONTREAL AIMED TO HAVE HOLIDAY WITH NO CRACKERS

Fifty-eight Boys And Four Men Arrested For A Too Noisy Celebration Of Victoria Day.

Montreal, May 24.—Fifty-eight boys and four men were arrested by police and plain clothes men tonight for exploding fireworks within the city limits in violation of the order of the city controllers. They will appear in the recorder's court tomorrow. Otherwise, Victoria Day in Montreal passed uneventfully. Intermittent showers spoiled the attendance at baseball and lacrosse matches and at the races. The fire record was small, only three unimportant blazes being attributed to fireworks.

BIRD MEN PLAN FOR LONG TRIP

French Aviators To Start Today On Third Stage Of Paris-Madrid Flight For \$20,000 Purse.

San Sebastian, Spain, May 24.—The three aviators, Vedrine, Garros and Gilbert, who yesterday completed the second stage of the Paris-Madrid flight for the Petit Parisien prize of \$20,000 will leave tomorrow morning for the third and most difficult stage. Whenever the aviators appeared in the streets they were cheered by the admiring populace. They refrained from exhibition flights for fear some accident might mar their chances in such of the route as possible in auto. They expressed the hope that they would be able to cover the entire distance of the third stage about 266 miles without a stop.

HOW TRURO SPENT DAY

Ball Games And Rifle Match Were Principal Holiday Attractions—Body Recovered From Coxcomb Lake.

Truro, May 24.—The main holiday attractions here were the baseball games between Halifax Wanderers and Town nine. What the locals did to the city boys was a caution. They won the morning game 13 to 5, and the afternoon 39 to 4. The Wanderers cannot blame the use of the cork centre ball for the way the Truroians pounded their pitchers, for they were outclassed in every department of the play. In the morning the overseas shoot for the trophy donated by the London Daily Mail was held on the Truro Rifle Club's range. A bad cross and shifting wind made good shooting almost impossible. The following is the list of competing rifle men and their total scores: Dr. C. S. McArthur, 97; G. E. Barreux, 95; T. McCallum, 93; W. H. Semple, 89; E. S. McNutt, 89; J. Snelling, 89; J. S. Creelman, 89; O. J. Kilgus, 88 Total 729.

ROADS ARE IN GREAT SHAPE

Fredericton Auto Party Made Trip To Calais And Return Yesterday And Report Roads Fine.

Fredericton, May 24.—Miss Tompkins, daughter of W. S. Tompkins of Medicine, died today following an operation at her home for an internal rupture of a blood vessel. The holiday passed off quietly today, the only attractions being the professional baseball games. The steamer Simcoes arrived about 4 p. m. with an excursion party from St. John and left two hours later on the return trip. A fine automobile trip was made today by J. H. Crockett and party, including W. E. Jardine and R. Macoun. They left here this morning at 7:45 o'clock, visited St. Stephen, the Milltowns, Gahns, Maine, and St. Andrews, returning here at 7:30 o'clock this evening after having covered 197 miles during the day. Their record is a good indication of the excellent condition of the roads.

LAURIER AT LONDON DINNER

Flowers Speech By Canadian Premier At Pilgrims' Dinner Did Not Evoke Unanimous Enthusiasm.

London, May 23.—The dinner of the Pilgrims' society tonight in honor of the colonial premiers was historic because of the unexpected and noteworthy plain-speaking of Sir Wilfrid Laurier, premier of Canada. Sir Wilfrid addressing an audience composed of many of the great men of England, handled the annexation question without gloves. He began by expressing amazement that during his three days' stay in England he had heard so many people of standing voice doubt concerning the desirability of the United States regarding Canada. He scoffed at the idea, however, of the possibility of annexation being seriously considered on either side of the border. Lord Roberts presided and welcomed the premier and the Earl of Halsbury followed with a warm expression of cordial greetings to the guests. Sir Edward Grey, the foreign secretary, proposed, Anglo-American arbitration, without adding anything significant to his former utterances on this subject, and declared that the British government endorsed the Munroe doctrine.

IMMIGRANT DIED IN QUEBEC SHED

Quebec, May 24.—Mrs. Sarah Turner a third class passenger on the steamer Royal George dropped dead in the immigration sheds, just after disembarking from the vessel this afternoon at 5 o'clock. She was going to meet a family named Matthews in Toronto. Heart disease is supposed to have been the cause of death. The coroner was notified and will hold an inquest.

GOLF PLAYERS MAKE GOOD SHOWING OVER LONG ISLAND LINKS

Garden City, L. I., May 24.—Supplementing a capital round of 79 in the morning, John C. Ward of the Home club returned a fine 77 this afternoon and won the low score medal in the 36 hole qualifying test for the championship of the Metropolitan golf association here today. Ward's total of 156 left Oswald Kirkby, of Englewood, N. J., by a stroke, Max Behr, of Morris county, the New Jersey champion, and A. H. Reed, of St. Andrew were next at 160, while Walter J. Travis, of Garden City and Jerome Travers, of Upper Montclair, followed at 161.

THE SONS OF TEMPERANCE IN SEMI-ANNUAL SESSION HERE

Report of Grand Worthy Patriarch Shows that the Order is Flourishing in all parts of the Province—Sessions will be Continued Today.

The grand division of the Sons of Temperance met last night in the rooms of Loyalist Division, Paradise Row, when the semi-annual meeting was held. Grand Worthy Patriarch E. S. Hennigar occupied the chair and the grand officers of the division also attended. Following the opening of the meeting, G. W. P. E. S. Hennigar extended a hearty welcome to Rev. G. Lawson, of Moncton, who holds the office of Most Worthy Patriarch of the Sons of Temperance in North America. Rev. Mr. Lawson makes a suitable reply to the welcome extended him by the chairman.

The initiation to the grand division of a number of candidates from the subordinate divisions was proceeded with.

The reports of the grand officers of the division were then given to the different committees to be reported on at a later meeting.

The report of Grand Worthy Patriarch Hennigar was as follows:

The G. W. P.'s Report. The report of the Grand Worthy Patriarch was as follows:

To the Officers and Members of the Grand Division, Sons of Temperance of New Brunswick—

Officers and Members, it is with feelings of pleasure that I welcome you to this semi-annual session of Grand Division. I trust that our meeting together at this time will be productive of great good to our order.

Ever since my first election to this high and honorable position, I can truly say I have done my very best to advocate the intent of our noble order, and the cause of temperance and humanity, since assuming this office I have felt a great responsibility resting on me, but rejoice to say have had the good will of the membership. I believe the reports and statistics of our standing at the present time will be a source of great satisfaction to you, and trust we will gain fresh impulse and determination for the work before us from this meeting.

Temperance Sentiment. We are glad to note the fact that the temperance cause is rapidly growing, not only in Canada, but in the country to the south of us, some times we meet with a little disappointment in some sections of the province, especially large cities, but on a whole, we believe the sentiment for prohibition in the largest section of the province is very apparent. Sometimes we are puzzled to know why that many citizens take a very active part in planning to beautify our towns and villages and work along moral reforms, but hesitate to take a very great part in removing the greatest curse to mankind from our country. We believe, that if this temptation were removed from our boys and girls we would have a country no one would be ashamed of, notwithstanding cheering news comes to us from Nova Scotia, Toronto and sections of this province. We trust the day is not far distant when all the electors who desire to see this great evil removed from our land, will demand our legislators to make a law that will free our country of the great evils of intemperance.

The Order. The Grand Scribe will deal with the membership and will under a statistical report for the past six months. It is cheering to know that in many of our subordinate divisions we have some very active temperance workers who are to the front in everything that is for the good of the community.

Young People's Work. This phase of our temperance work many of us believe is the ground work upon which we ought to lay great stress and do everything we can to have a juvenile band formed in connection with each subordinate division. Of March 1st I had the great pleasure of meeting with the Band of Hope at Richibucto, under the auspices of Richibucto Division No. 42, and had the opportunity of addressing them. A very large number of boys and girls were present and from the interest the leaders take in the meetings we believe their work in this department will be rewarded. Some other sections where juvenile work is carried on I hope to have the pleasure of visiting. The Grand Patriarch will have a report to present to us at this meeting.

Official Visits. Since our last annual meeting I have visited the following subordinate divisions: Granite Rock, Gurney, Loyalist, McCarthy, Caledonia, Silver Stream, Port Elgin, Jolicoeur, Back Bay, Corn Hill, Rexton, Star of Hope, Richibucto, Bass River, Northumberland, Newcastle, Doaktown, Dry Lodge, Moncton, Sackville, Bale Verte and Midgie.

On Jan. 22nd I attended King's Co.

annual district division at Carsonville with a large attendance. Officers were elected and installed and plans marked out for future work in the evening a very large temperance meeting being held in the Methodist church with an excellent programme. On Jan. 20th I attended the annual meeting of Kent-Northumberland district at Harcourt, Kent County. A good representation of delegates were in attendance. A very large public temperance meeting was held in the evening.

Feb. 3rd I attended St. John district division in Loyalist division hall, Paradise Row. Officers were elected and installed and plans were laid for future work.

I was glad to have the opportunity of meeting with many faithful workers and hope in the near future many more district divisions will be formed in the province.

Correspondence. There has been quite a lot of correspondence in connection with this office. It seems to me it is one way of keeping in touch with the order. I have had a large number of letters from faithful workers in reference to the work of our order which is encouraging. During a term consisting of national questions have been raised which goes to show everything is running smoothly.

Reorganizing Divisions. Feb. 7th I had the pleasure of organizing divisions at Back Bay, Charlotte county, with a good staff of officers and believe they will do good work in that section. Feb. 23rd reorganized South Branch division at that place with the assistance of Rev. Bro. Archibald.

March 6th, I reorganized Northumberland division at Chatham. This division has been dormant for some years, and owns a very large hall in good repair.

Public Meetings. Since the last meeting of grand division I have attended public meetings at Scotch Settlement, Buttoche, Douglstown, Loggieville, Harcourt, Port Elgin where the M. W. P., Rev. Bro. Lawson, was present and delivered an excellent address. I also attended meetings at Jolicoeur, Back Bay, Carsonville, Cornhill, Rexton, South Branch, Richibucto, Milltown and Macos Bay. Also planned meetings at Whitteville and Nelson, but on account of sickness in those places they were postponed, but I expect next month they will be held.

I feel indebted to Revs. A. C. Archibald, F. M. Bacon, W. W. Rainnie, John B. Young, J. E. Gillmor and Grand Scribe Robinson.

Halls. At the late annual meeting of the grand division I was requested to interview some legal gentlemen, to know what claim this grand division has on halls owned and built by subordinate divisions throughout the province. We will have a statement presented by a legal gentleman at this session, and hope this matter will be finally settled.

Conclusion. I wish at this time to return my

FORMED COMPANY OF GIRL GUIDES

St. Mathew's Church, Douglas Avenue, has First Company in City, and one of First in Canada.

The first company of the Girl Guides was formed this week with those attending St. Mathew's church, and 39 girls have joined. Miss Margaret Henderson was elected captain and Miss Lena Hastings, lieutenant. There will be five sections of eight girls to a section. C. F. Stevens, supt. of the St. Mathew's Sunday school is the organizer. Miss Stella Robinson has been chosen acting staff sergeant and secretary, and Mrs. Charles F. Stevens is chaperone. Those who have joined the guides are taking an active interest in the matter.

Since thanks to the membership of the order throughout the jurisdiction for kindness shown me on my visits to different parts of the province; in many places was made welcome to the homes of the members. I desire to thank the grand scribe for efficient help rendered to me and hope the next term will be more successful than the past and we all will go to our homes with a strong determination to work for this grand old institution and the temperance cause in general.

Faithfully submitted in L. P. and F. E. S. HENNINGAR.

After the reading of the report a lengthy discussion followed relative to young people's work in temperance. After which the meeting adjourned until this morning at 9 o'clock in the Loyalist hall. Another session of the grand division will be held this afternoon at 2 o'clock.

This evening at 8 o'clock a mass meeting in connection with the business session will be held in Zion church. Rev. G. Lawson and a number of speakers will deliver addresses and a select choir will render a musical programme.

NEW GLASGOW ENJOYED GOOD HORSE RACES

Special to The Standard. New Glasgow, N. S., May 24.—Victoria Day was celebrated here in good style. Races were held at the union trotting park, and a football game in the Athletic grounds were the principal features. Two hundred and fifty excursionists arrived in New Glasgow from Charlottetown at noon, accompanying the Abegweit football team. The enthusiasts of horse races were here from Halifax, and from provincial towns. The horse races from a financial standpoint were the most successful ever held by the club, while the races were decidedly interesting and closely contested. The races were all half mile heats. The summary follows:

4 years old trot, half mile heats—	
Monarchville (Jackson)	1 2 1
Baron Wood (Kelly)	2 1 2
Delgarno (Cox)	3 3 4
Billie Miller (McLean)	4 2 3
Dr. Achille (Gannon)	5 5 4
Time 1:19; 1:20; 1:19 1/2; 1:20.	
2:20 Trot.	
Queen Brilliant (Gannon)	1 1 1
Grace Abbott (Dwyer)	2 2 2
Parlin (Stearns)	3 3 3
Time 1:13 1/2; 1:14; 1:12.	
2:40 Pace.	
Tom Commodore (Sweet)	1 1 1
Ferrol Jr. (Dwyer)	2 2 2
Blackbird (Cameron)	3 3 3
Teddie C. (Cox)	4 4 4
Time 1:13; 1:10; 1:12.	
Gentleman's Named Race Stallion.	
Jean M. (C. Miller)	1 1 1
Cock Robin (Wright)	2 4 2
Robert L. (Ferguson)	3 3 4
Little Minister (McLean)	4 2 3
Ironaldes (Nerin)	5 6 3
Frank B. (Bowler)	6 8 7
Fairy Queen (McDonald)	8 5 9
Jean M. first money; Cock Robin 2nd money; Little Minister 3rd money; Robert L. 4th money.	
Time 1:21 1/2; 1:20 1/2; 1:20.	

The largest crowd that has attended a football game here for a number of years was in attendance at the game when the Abegweits defeated New Glasgow by a score of 3 to 0. The Island boys made a good down in the last ten minutes of the second half. The touch down was made directly behind the goal posts, but was not converted into a goal.

No Word of the Newport.

In the words of Browning, "What's become of Waring?" has been an important question around City Hall for some days past. Also that other classic question, "What's happened to Smith?" has been frequently asked wherever two or three of the city fathers have gathered together. Although the chairman of the ferry committee and Superintendent Waring have been away since Friday, nobody knows whether or not they succeeded in negotiating the purchase of the ferryboat Newport. The Mayor stated last evening that he had received no notification that the boat had been purchased, but he had heard the superintendent was looking up the registry papers and seeing that everything was shipshape and Bristol fashion from a legal point of view. At Ald. Smith's residence it was said that he had written that he would be home today on the Boston express, but that he had not made any mention in his letter of the result of his quest. The impression is that the civic ambassador has fulfilled his mission and is economizing on telegraphic tolls.

PROBATE COURT, CITY AND COUNTY OF SAINT JOHN To the Sheriff of the City and County of Saint John, at any Constable of the said City and County—Greeting:

WOODSTOCK NEWS Woodstock, May 22.—The trial of Thomas Frederick and Thomas McIntyre, of Houlton, charged with stealing a sum of money from Frank Wallace, was held in the police court this morning.

MINISTERS PASSED RESOLUTION ON THE TEMERE DECREE St. Stephen, N. B., May 22.—At a meeting held here yesterday of the Protestant ministers of St. Stephen and Milltown, a resolution was passed denouncing the decree of the Roman Catholic hierarchy regarding the celebration of matrimony which strike at the root of British law.

Here's a Home Dye That ANYONE Can Use. HOME DYING has never been more or less of a difficult undertaking than when you use DYOLA.

DEBEC NEWS Debec, May 22.—A very enjoyable time was spent in the Forester's Hall on Friday evening, when nearly two hundred of the friends of Aid. Carson and John Hay of the firm of Carson & Hay, who start early this week for Vancouver, B. C., assembled and after spending a very enjoyable hour in games and social intercourse, the young ladies served the assemblage with ices and cake.

By Lydia E. Pinkham's Vegetable Compound Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's remedies have done for me. For two years I suffered. The doctors said I had typhoid, and the only remedy was the surgical knife. My mother bought me Lydia E. Pinkham's Compound, and today I am a healthy woman. For months I suffered from inflammation, and my Liver Pills have no equal as a cathartic. Any one wishing proof of what your medicines have done for me can get it from any druggist or by writing to me. You can use my testimonial in any way you wish, and I will be glad to answer letters." Mrs. CHRISTINA REED, 105 Mound St., Peoria, Ill.

Another Operation Avoided. New Orleans, La.—"For years I suffered from severe female troubles. Finally I was confined to my bed and the doctor said an operation was necessary. I gave Lydia E. Pinkham's Vegetable Compound a trial first, and was saved from an operation. Mrs. LILY PEYRoux, 1111 Kerlereau St., New Orleans, La.

She Was Surprised When Dr. Morse's Indian Root Pills Cured her Chronic Liver Complaint Mrs. R. Smith, of Wainipie, Man., tells an interesting story of relief from almost intolerable sufferings: "I can hardly tell you how great my sufferings have been. Chronic liver complaint accompanied by biliousness were a daily source of trial to me. Every day I experienced the sickening effects of these ailments. I longed for some medicine that should permanently drive them away. Hearing of Dr. Morse's Indian Root Pills, I thought they were worthy of a trial. My surprise was great when, after the very first I experienced relief. Continuing with them I found my troubles were slowly but surely leaving me, and before long I was well again. It was to be free from the harassing effects of the ailments that had long sickened and weakened me. So great is my faith in Dr. Morse's Indian Root Pills that I shall never on any account be without them."

Notice All accounts due The New Star for advertising or subscription, must be paid at once as the books are being closed.

TO CURE TOOTHACHE. Search over the whole globe and you'll not find the equal of Nerviline. An aching tooth it relieves at once. Fill the cavity with batting dipped in Nerviline and rub the gums with Nerviline also. If the face is swollen and sore, bathe with Nerviline and then bind on a hot flannel. This can't fail because Nerviline kills the pain on the spot. Just as good for earache, neuralgia or stiff neck. A 25c. bottle of Nerviline cures the aches of the whole family. Try it.

SAINT JOHN, THURSDAY MORNING, MAY 25, 1911.

A RECORD OF "UNPARALLELED SUCCESS."

A recent reference in these columns to the disastrous effect of the past session on the prestige of the Laurier Government, the evident weakness in the cabinet and the unmistakable signs of disintegration in the ranks of the Liberal party has apparently caused some annoyance to the Telegraph. The organ of the dredging ring cannot have failed to mark the signs of the times but, as in duty bound, continues to hark the falling hand by which it lives. The Standard is accused of "whistling" to keep up its courage and indulging in day dreams. We are told that "the Laurier Government, with a long record of unparalleled success, never stood so high in the estimation of the people of Canada as it does today, and never was so much in a position to appeal to the electors with so much confidence as now."

It is a matter for regret that the Telegraph does not descend to details. A review of the history of the past session would have afforded some excellent material for its text. What more striking endorsement, for example, of the assertion that the Laurier Government "never stood so high in the estimation of the people of Canada" than to recall the memorable occasion on which Mr. Gilbert took his seat as member for Drummond-Arthabaska. The disclosures showing the "unparalleled success" which attended Mr. Fielding's efforts to safeguard the interests of the shareholders in the defunct Farmers' Bank might also be touched upon with advantage. The "confidence" which the electors must continue to repose in a finance minister who believes that the Biblical exhortation "let not thy right hand know what thy left hand doeth" is sufficient warrant for accepting a gift of \$120,000 from his friends and supporters, is also worth emphasizing.

The strong sense of public duty which induced Mr. Lanctot, M. P., to use Government paint and avail himself of the services of Government workmen in having his house decorated, might also be brought forward as a strong argument why a Government which endorses the practice should be held in high estimation. Hon. Frank Oliver's dextrous juggling with the McGillivuddy charges are surely worthy of note as part of the "long record."

Last but by no means least, the Telegraph could enlarge on Sir Wilfrid Laurier's pledge to the country only last year that no changes should be made in the tariff until a tariff commission had made an examination and reported, and then point with pride to the subsequent pilgrimage to Washington and the Reciprocity Agreement as the strongest of reasons why the premier should stand "high in the estimation of the people of Canada" as a man who keeps his word.

Taking these few incidents of the recent session, not forgetting some passing reference to the action of Messrs. Sifton, Harris and German and thousands of other Liberals throughout the country who have placed patriotism before party, the Telegraph will undoubtedly have earned another dredging contract from its friend and benefactor, Mr. Pugsley, when it presents some convincing testimony to prove that the Laurier Government never was "in a position to appeal to the electors with so much confidence as now." Meanwhile the Standard will continue to "whistle," despite the obvious fact that the Telegraph dislikes the tune.

ANOTHER TREATY OBJECT LESSON.

In the year 1908 a treaty was concluded between Great Britain and the United States for the regulation of the fisheries on the boundary waters between the latter country and Canada. This treaty was duly ratified by the Senate of the United States as required by the constitution of that country. It then had binding force upon both nations.

The treaty provided that the times, seasons, and methods of fishing in the contiguous waters and the nets, engines, gear and apparatus should be fixed by uniform and common international regulations, restrictions and provisions. It also provided for the appointment of an international commission whose duty it should be to prepare a system of uniform and common international regulations to be applied in these waters.

Article 3 says: "The two governments engage to put into operation and to enforce by legislation and executive action, with as little delay as possible, the regulations, restrictions and provisions with appropriate penalties for all breaches thereof; and the date when they shall be put into operation shall be fixed by the concurrent proclamations of the Governor General of the Dominion of Canada in Council and of the President of the United States."

The international commissioners were duly appointed, Dr. Starr Jordan for the United States, and Prof. Prince for Great Britain on behalf of Canada. These commissioners met and finally agreed upon the system of international regulations and reported them to their several governments.

What then remained was for the two governments to provide for the enforcement of these regulations by such legislation and executive action as was necessary, and to affix the proper penalties for infraction. When these provisions were made the regulations were to be brought into force by concurrent proclamations of the Governor General and the President respectively.

Nearly three years have passed and these regulations have not yet been proclaimed. Canada is ready to issue the proclamation, the delay is with the United States. And when and why? The answer illustrates a phase of United States treaty conduct, which, to say the least, is instructive. It turns out that the United States fishermen do not like the regulations which have been made by the commission. The United States Senate therefore proposes to change these regulations made by the commission, and to do so in the interests of its own fishermen.

But under the treaty which it sanctioned and by which both countries are bound, the commission, and the commission only, has the right to make regulations. Neither the Parliament of Great Britain nor the Congress of the United States have any power under the treaty to make or modify them. If either party to the treaty is dissatisfied with the regulations, the treaty provides a way of modifying them. They are in any case to remain in force for four years, then either party, after notice of one year, can demand a change in the regula-

tions and in that case "the commission shall proceed to make a revision thereof." Note that it is not Parliament or Senate that makes the revision, if it be demanded. This duty according to the terms of the treaty is imposed on the commission. The treaty also provides that if the commissioners themselves recommend modifications of the regulations, the two governments may by concurrence or joint action make the modifications at any time.

The Senate of the United States, however, after having solemnly bound itself to carry out the regulations, made by the tribunal provided by the treaty, now not only declines to do that, but actually claims the right, and is proceeding to exercise it, to change these regulations. It does not like them, it practically refuses to enforce them as the treaty requires, and it now proposes to change them to its liking. For two years the large fishing interests in the waters contiguous to the boundary of the two countries, and which it was the object of the treaty to preserve and regulate, are left to the tender mercies of United States fishermen, unrestrained by any effective regulations.

This action is in singular harmony with the past history of our treaty experiences with our neighbors to the South. When it pleases them not to be bound, they find a ready means to evade them, and if necessary to repudiate them.

The lesson is an eloquent one for us now on the eve of the proposed enactment of the Reciprocity Agreement, and we believe it will not be lost upon us. As a matter of historical fact the United States has never lived up to the terms and conditions of any treaty arranged with Canada.

EXPERIENCE AT BELFAST.

The experiences of the city of Belfast, Ireland, with six years of municipal ownership and operation of street railways must be of exceptional interest to any community concerned with street railway problems, whether with a view to confirming private control or to adopting municipal ownership. For any city undertaking the ownership and management of its street railway system is altogether likely to meet with some of the obstacles which have confronted Belfast, and all cities making the attempt could not but hope that they would be able to come clear of difficulties and misfortunes as Belfast has.

There has been municipal ownership in Belfast since the latter part of 1904. At the end of the first year of it there was glee by the friends of those who opposed the venture, because the financial showing for the year's operations was not good. Belfast City Tramways were \$35,000 "in the hole" on the year's work. Still, the discerning patrons of the lines knew there was some difference between conditions on March 31, 1905. The service was better, the horse car system was passing before electric installations, the fares were lower. They rather thought the better financial showing would not be long delayed. Nor was it. The following year showed a profit, and at the time of the latest report, March 31, 1910, the Belfast City Tramways were realizing a net profit of \$225,000.

At the present rate of profit, in less than 20 years the street railway lines in Belfast will be the city's property without one dollar of incumbrance thereon. If the present policy of management is persevered in, the lines at that date will be the best equipped, most economical, and most serviceable of any in the list of lines owned and operated by the cities of the United Kingdom. If the history of municipal ownership in Belfast is bright, it is no more so than the immediate prospect. The Old Land has set a splendid example for the cities of the new continent.

DICTIONARY FOR THE AIR.

The Aeronautical Society of Great Britain has set out to compile a glossary of aeronautics—the "entire science of aerial navigation"—and thus to discipline the rather irregular terminology of the new art. Some of the more important kinks which the glossary straightens out are as follows:

We are to observe the difference between "aerostation" and "aviation." The former deals with "gas-borne" or "lighter-than-air" machines; the latter with "dynamically-raised" or "heavier-than-air" machines. Zeppelin promotes aerostation; Wright, aviation. The word "airship" should not be used to denote an aeroplane, but only a dirigible balloon. "Aeroplane" should not be used to denote the planes themselves, nor should "plane" be used to denote the whole machine.

The word "hangar" is abolished in favor of the simple and entirely adequate English word "shed." In the new lexicon there is no such word as "airman," the new lexicon there is no such word as "airman," the approved term is "aeronaut"—one who practices any branch of aerial navigation. According to this British scheme, an "aviator" is merely one who practices aviation—which, as above, implies the use of a machine heavier than air. The operator of a machine lighter than air appears to remain without a suitable appellation. "Aerostat," which would fit in consistently enough with the plan here outlined, is coldly condemned by the dictionaries as "rare and incorrect."

The committee at work on the new glossary ought to fill this hiatus before asking, as they do, that all writers on aeronautical subjects will generously sink individualism and co-operate in the use of the terms they approve. But here, as in other matters, complete consistency may have an uphill fight against the wayward development of usage.

Current Comment

(New York Sun.)

It is all part of our tendency to be kind and considerate to lawbreakers; to think of the family of the man who has killed somebody instead of considering the family of his victim; to lay stress on the devotion of the relatives of the man who has looted a bank, rather than to take into account the broken depositors and their sharp sufferings. Hence the general approval of the fantastic extension of the pardoning power which meets with no real, sane disapproval.

(Philadelphia Press.)

Two Boston experts have worked out the problem of teachers' salaries, and find that a woman cannot live on less than \$1,240.50 a year, while a single man can get along on \$838. The figures are probably correct, but as a matter of fact, experience shows that both will live on what they get, no matter how lean and paltry it may be, since that is all they will have.

The fair-weather voter, like the fair-weather Christian or the fair-weather friend, is not of much use or reliance when real work is to be done. That support of good government which considers its own comfort or convenience before public principles is but a broken reed.

Of course, there ought to be a Father's Day, and we suggest as a celebration that we let him have the contents of his pay envelope all to himself one week in the year.

RECIPROCITY ARGUMENTS?

To the Editor of The Standard. Sir—Your contemporary the Telegraph in defending the Tariff Commission charges the conservatives with holding that trade in war, and that if it benefits one country it must hurt another. This is sheer misrepresentation, the Conservatives hold no such doctrine.

When we purchase tea from the Chinese, or the Japanese, or coffee from the Brazilians, we make no claim that anyone is hurt by the transaction. Trade is not war and it cannot be undertaken and continued without profit to all parties engaged in it. Is the Telegraph quite sure about that? What about the rum trade? What about the Congo India rubber trade? What about the opium trade? What about the black slave trade that formerly existed and the white slave trade that is said to exist at present? Farmers were forced to sell at less than cost and some of the purchasers claimed that they lost money by the transaction. One objection to the free trade pact with the U. S. is that they have a surplus of almost everything it is proposed to sell them, so they are merely among the middlemen's profits! WILLIAM BOYLE, Maplewood, N. B.

THE AILMENTS OF WOMEN.

The girls and women who suffer with what they think as "Female Trouble" would look to their kidneys, they'll soon find the source of their ailment. The kidneys are closely allied with the female organs, and if the vitality of the kidneys is interfered with, great suffering occurs. There is no better medicine than Dr. Hamilton's Pills, they stimulate and strengthen the kidneys, assist other organs to do Nature's work, cleanse the system and thereby maintain perfect health. Great benefit and certain cure is guaranteed for all women who use Dr. Hamilton's Pills.

PARRSBORO FIREMEN FIGHT BUSH FIRES.

Special to The Standard. Parrsboro, N. S., May 24.—The firemen were called to Riverside this afternoon to fight a brush fire that was spreading rapidly and threatened several houses. Fortunately the fire was within reach of the town water system and was put out without much trouble. James Spicer of Spencer's Island, who was sentenced to Dorchester for manslaughter, has been released on leave and arrived here today on his way home.

IN THE COURTS

County Court. The May session of the County Court met Tuesday morning at eleven o'clock in the court house. Judge Forbes presided. A. A. Wilson, K. C., appeared for the crown and owing to the absence of Clerk Ferguson, Mr. Wilson acted for him.

His Honor in charging the grand jury in the case of the King vs. George A. Blair, took the occasion to make a few caustic remarks concerning the administration of justice by country justices.

The other criminal cases were disposed of at an earlier court held under the Speedy Trials Act. His Honor wishes to inform the delinquent grand jurors that unless they appear in court on Monday he will fine them.

The grand jury are: James Collins, (foreman), Charles D. Jones, (sterey), Robert McConnachie, John K. Storey, William E. Raymond (absent), Fred J. McInerney, Arthur W. McMackin, James U. Thomas (absent), William M. L. Angus (absent), George E. Bell (absent), George Murphy, William M. L. Williams, Robert Strain, Walter H. Golding (secretary), Walter Bailey, Joshua Ward, W. Alex. Foster (absent), John Edgewood, Edwin A. Ellis (absent), William H. Bell (absent), Patrick Higgins, Robert J. Armstrong, Timothy Brien.

The petit jury are: George H. McLaughlin, James Morgan (absent), Charles M. Lingley, Daniel Monohan (absent), Thomas J. Bowen, John R. Greer, James E. McLaughlin, Y. Smith (absent), Harry G. Smith (absent), John Ross, John S. Seaton, William J. Magee (absent), Robert H. Collier, H. Chipman, William D. Foster (absent), William G. Estabrooks, Stanley Bustin (absent), James Bond (excused), Thomas E. Dillon, Sydney Gilroy, Harry McLaughlin.

In charging the grand jury His Honor said in part:

"I am glad to say there is only one case to come before me today. I have read over the depositions several times I do not think the magistrate was justified in committing the defendant. It is the case of the King vs. George A. Blair, who is charged with assaulting Ellen McBurnie of the Parish of Lancaster. The facts of the case briefly are: Blair is a constable in the employ of the City of St. John. He was endeavoring to collect taxes from William H. Allingham, who refused to pay. Blair then proceeded to levy upon the goods of the tenant in the house. In endeavoring to levy, as was his duty, Blair brushed passed Mrs. McBurnie, who in the excitement of the moment became ill. There is no evidence of intent, therefore the case should not have been sent up.

"One, W. H. Allingham, a magistrate in Parville, was shortly after this arrested by Blair for non payment of taxes. Allingham was taken to jail, but was liberated on paying the taxes. He wanted revenge and induced McBurnie to have Blair arrested. This man Allingham then betrays the constable to the grand jury before one McFarlane, another justice, who committed him for trial.

"This is really not an assault and Blair should not have been committed. The case is trivial and the whole proceedings were loosely conducted, as the witnesses did not even sign the depositions.

"I say that the action of Allingham is outrageous, and he should have been indicted instead of Blair. Allingham is guilty of both assault and misuse of the law and the part played by him is the most disgraceful affair that ever came under my notice since I came on the bench. Blair is a constable in the honor took the occasion to score Justice McFarlane for sending the case up, thus costing the county needless expense.

About half an hour after the jury retired they returned no bill, but recommended that constables be more cautious in levying for taxes. His Honor dismissed the grand jury and the petit jury until Monday, at 2:30 p. m.

ABRAHAM WAS NOT MUCH OF A LAR, THOUGHT DR. GRANT

Testimony at Heresy Trial Says He Pointed Out Worse Specimens in Bible—Said Heart Failure, Not Deity, Killed—Denied there is a Devil.

Atlantic City, N. J., May 23.—At the Chalfonte Hotel all day today the Judicial Commission of the General Assembly of the Presbyterian church listened to the reading of the record in the trial of the Rev. Dr. William D. Grant by the Presbytery of Northumberland, Pa., which recently acquitted him of charges of heresy.

Whole Church Stirred. All day long prominent ministers and elders not connected with the trial dropped in and listened. The Grant case has stirred up the Presbyterians as nothing else has done in years.

Further testimony in the case against Dr. Grant is that he taught that Moses had the "lines" when he wrote certain Psalms, that Jonah never lived, that the story of Adam and Eve was not true, as there was no devil, the account of the devil written by the poet of today.

That he had said that Jesus Christ was a "liqour man," because at the marriage of Cana of Galilee he turned water into wine.

That he had spoken of breaking up a prayer meeting and starting a club to find out how Jonah swallowed the whale.

That he held the Biblical account of the death of Uzzah to be a libel against God, and that instead of being struck dead because he touched the ark of the covenant, when it was being moved, it was a case of heart failure.

That he had said that the miracles of Old Testament could all be explained by natural causes.

That he held Christ to be the most prominent of the "sons of God," therefore the Son of God.

That he had said that the miracles of Jesus were a perfectly natural event on the part of the mob in Jerusalem.

That he had said it was impossible for the devil to take Christ up into the pinnacle of the temple.

That he had said that the miracles of Jesus were a perfectly natural event on the part of the mob in Jerusalem.

MAY BE ABLE TO DEFEAT THE LAW

Much Opposition Against the Early Closing By-Law May Result in its Repeal or Modification.

Opposition to the early closing by-law has developed considerable strength and it is believed sufficient pressure will be brought to bear upon the city fathers to induce them to repeal the by-law or to modify it in several ways.

H. P. Robertson, fish dealer of Britain street, stated last evening that the fish merchants were very strongly opposed to the by-law, as Tuesday and Thursday evenings were the what Saturday evening was to the grocers and other shopkeepers.

Asked whether the early by-law would affect the fishermen, he said they landed their catches as the tide suited, and that the wholesalers had to receive them at any time.

THE COMMITTEE WILL MEET THIS MORNING

Hydro-Electric Question to be Considered by City Council Committee, at Meeting Today to Prepare Report.

The committee appointed by the city council to consider the hydro-electric question will meet this morning to draw up a report for the council meeting.

County Temperance Federation. The county temperance federation met on Tuesday evening at the residence of Robert Cocher. The meeting was most enthusiastic and was largely attended.

THE HOLIDAY WAS HIGHLY ENJOYED

Agreeable Weather and Good Programme of Attractions Made Victoria Day Pass Pleasantly.

Agreeable weather honored Victoria Day, and the great majority of the citizens celebrated the holiday in some fashion.

The steamer Sincennes which went to Fredericton under charter to the A. O. H., carried a large crowd of excursionists, and the steamer Champlain which made a trip to Belleisle, had another large contingent of pleasure seekers.

The yacht clubs celebrated the day in the usual manner. At the E. K. Y. C. the commodore made a speech, and performed with all due ceremony the rite of unfurling the flag to the breeze.

Many anglers spent the day whilping the streams in the surrounding country, returning home late at night with an air of triumph and a great stock of fish stories.

Beginning May 24th, Rowe's Studio will develop any size film for 10 cents.
