GERMANS MEETING WITH VIGOROUS RESISTANCE FROM ALLIES IN ADVANCE TOWARDS OSTEND

Invaders Said To Be Sweeping Across Country Towards Coast—New Plan May Hasten End of Aisne Battle—Germans Likely to Meet Strong Resistance In Advance Towards Ostend—French Forces Sent To Cut Enem Off, Have Taken Offensive—Bombs Dropped Into Ostend By Germans—Conflicting Reports From Vienna and Austria—Turkey's Warships Reported To Be In Black Sea Near Where Russian Fleet Is.

Paris, Oct. 13.—The official communication issued by the French war department tonight says:

"With the exception of an advance of some importance in the vicinity of Berry-Au-Bac there is nothing to report."

London, Oct. 13, 9.35 p. m.—The headquarters of the Belgian government were to-day transferred to Havre. With the exception of King Albert, who remains as head of the army, and the Minister of War, the members of the cabinet, with the other government officials and the diplomatic corps, left Ostend by steamer for the French port, where they will carry on the affairs of state, and where hospitality has been offered them by the French government.

The American and Spanish ministers, both of whom are still at Brussels, are the only diplomatic representatives accredited to Belgium remaining in that country.

This is the third move of the Belgian capital since the Germans succeeded in silencing the forts of Liege. The government first moved from Brussels to Antwerp, thence to Ostend and today across the border to Havre.

This final change followed quickly upon the German westward advance, which was begun immediately on the fall of Antwerp. Their success in taking the chief port of Belgium was the commencement of a new plan of campaign, which embraces the occupation of the whole of Belgium, including the coast towns, and possibly some of the northern French ports.

COSSACKS CROSS RIVER ON HORSEBACK TO ENGAGE WITH GERMANS ON OPPOSITE BANK

Took Enemy by Surprise After Daring Crossing and Captured 3,000 Prisoners—Some Rifles Used by Germans Were of 1880 Make.

London, Oct. 13, 11.20 p. m.—Details of the fight at Ratchka, a town near Suwalki, Russian Poland, just received in Petrograd, indicate that the battle was, to a large extent, a hand-to-hand encounter between the Cossacks and the German troops, and that the famous Russian cavalry scored a brilliant victory. This statement is made in a despatch from the Petrograd correspondent of Reuter's Telegram Company. The message continues:

"Between the two forces lay the river Rosputa, which the Germans depended upon to secure them against attack until it had been bridged."

"But the Cossacks swam their horses

across the stream and emerging, covered with slime and weeds, charged furiously upon the surprised Germans, making three thousand prisoners, and capturing two batteries.

"The prisoners were taken by the Russians into East Prussia. Most of the captives belonged to the Landwehr and Landsturm, and many of the latter were armed with rifles which have been long superseded in modern armies. Some of the rifles dated back to 1880. The majority of the prisoners were either under eighteen or over forty years of age, and a considerable number of them had had only one week's rifle practice before being sent to the front."

OTTAWA NURSE WHO TRIED SUICIDE UNDER KNIFE IN PRESENCE OF 200 DOCTORS

Has Fighting Chance for Life—Members of Homeopathic Medical Society Attend Operation.

New York, Oct. 13.—How the knife swayed the scales between life and death was witnessed today when two hundred physicians, in a clinic at Flower Hospital saw an operation performed as a last resort to save Miss Nina Smith of Ottawa, Ontario, who last Sunday night, in Grand Central terminal, swallowed bichloride of mercury.

There were present two hundred members of the Homeopathic Medical Society of the State of New York, which is holding its sessions at the New York Homeopathic Medical College, adjoining the hospital.

Nature is aided now in the treatment of cases similar to that of Miss Smith by the decapsulation of the kidneys, the operation being performed to release the great pressure resulting from inflammation, due to the effects of this powerful irritant poison.

The operation was in charge of Dr. J. B. Grant, of Utica, N. Y. It was performed with the aid of all that

CONNAUGHTS MAKE GENEROUS DONATION

Give Checks for \$600 to wife of Belgium's Minister of State, Who is Touring Canada to Raise Funds.

Ottawa, Oct. 13.—Madame Van Der Velde, wife of the Belgian minister of state, was the guest at luncheon today at Government House. After lunch their Royal Highnesses gave her checks amounting to \$600 for the Belgian Relief Fund, for which she is making a special appeal in Canada and the United States. One check for \$250 was given by the Duke, and another for the same amount by the Duchess, and one for \$100 by Princess Patricia. Mr. Maurice Gooor, the Belgian consul general, was also a guest at the luncheon.

modern surgery could offer, and technically it was a success, but whether the patient will survive will not be known for the next day or so.

At the hospital in the evening it was said that Miss Smith was still alive, and that she had a fighting chance for

HON. MR. NANTTEL TO RAILWAY COMMISSION

Place in Cabinet Will be Taken by T. Chase Casgrain—Report of Hon. Mr. Pelletier's Resignation Officially Denied

Special to The Standard.

Ottawa, Oct. 13.—T. Chase Casgrain, K. C., of Montreal, a distinguished French-Canadian lawyer and publicist, will shortly become a member of the cabinet. He will succeed Hon. W. B. Nantel, minister of inland revenue, who will be appointed to the Railway Commission, taking the place of Hon. M. E. Bernier, whose term of office has expired.

Reports of the resignation of Hon. L. P. Pelletier, postmaster general, were given an official denial this evening, and the statement was made that Mr. Pelletier was about to take an extended holiday.

It is known, however, that the postmaster general feels himself unable to undertake the hard work of his department longer. For years he has been a martyr to gout, but recently his affliction has been more severe than ever before, and for several weeks he has been confined to his room. In the event of Sir Robert Borden accepting Mr. Pelletier's resignation, it is likely that he will be succeeded by either Mr. Albert Seydewitz, M. P., or Mr. E. G. Patenaude, Jacques Cartier in present vacant, and Mr. Nantel's appointment to the railway commission would make another vacancy in Terrebonne.

There has been a suggestion that Hon. Dr. Roche, Minister of the Interior, will resign owing to illness, but this may be dismissed as very unlikely. Dr. Roche is now at his home in Minnedosa, Manitoba, and is reported as progressing very favorably. Hon. Robert Rogers is acting Minister of the Interior, and the department is being administered satisfactorily. Sir Robert Borden returned from St. Agathe this evening, and Mr. Casgrain is also in the city.

NEW YORK CHURCH DAMAGED BY SUPPOSED BOMB

Part of Floor of St. Patrick's Cathedral Torn Up and Damaged to Extent of \$4,000 by Mysterious Explosion.

New York, Oct. 13.—A supposed bomb made of dynamite in metal exploded under a pew in St. Patrick's Cathedral on Fifth Avenue late today. A hole was blown in the floor, and another smaller one in a window, three pews were destroyed and pieces were chipped from a granite pillar and from a temporary altar. Two persons were slightly injured by flying fragments of metal and wood.

Whether the explosion, the sound of which was heard blocks away, was caused by a bomb was a matter of doubt for some hours. The first reports of such an instrument had been employed were shortly afterward declared erroneous by the police, who reported that either a hot air box or a recently installed heating apparatus had burst. Later tonight, however, it was decided that a bomb had caused the damage.

Police and fire officials said they knew of no motive any one could have for exploding a bomb in the cathedral. Five persons were worshipping in St. Patrick's when the explosion occurred. John Rogers, a waiter, and John Ryan, a 14 year old boy, were in pews near the door and received bruises and lacerations. Rogers came rushing out of the church from Fifth Avenue in a cloud of smoke and dust, and the late day shopping crowds kept the police reserves active for several hours preventing persons from entering the church.

The damage amounted to about \$4,000, according to the police. A bomb was arrested tonight in St. John's Roman Catholic church on West Broadway, the second to be set off within seven hours in a church edifice in this city. It was in St. John's church that Frank Tanner, an industrial worker of the World leader, and two hundred followers were arrested last winter, while engaged in a round of demonstrations.

POPULATION OF OSTEND LEAVING CITY

Steamers to England Making Extra Trips to Carry Refugees—Hundreds of Wounded Belgians Among Day's Arrivals in London.

London, Oct. 13, 10.30 p. m.—So great is the demand for passage on steamers from Ostend that these boats arriving at Folkestone today carried no baggage. As soon as they discharged their human freight the steamers returned, where thousands of Belgian refugees were clamoring for transportation to England. The statements of some of those who succeeded in getting away indicate that a state of panic exists at Ostend, where crowds of fugitives continue to flock into the city, spreading exaggerated reports regarding the proximity of the German pursuers.

Among today's arrivals at Folkestone and Dover were several hundred wounded Belgian soldiers. It is likely that their number will be considerably increased in the course of the next few days. They are being looked after by the relief committee for wounded allies and are being sent in small bodies to different provincial cities and towns, where arrangements have been made to provide them with hospital accommodations.

It is estimated that already nearly 100,000 Belgian refugees have landed on these shores. It is feared that the stream of fugitives will increase in volume as the German occupation of Belgium becomes more complete.

WILL KEEP TREATIES WITH NETHERLANDS?

German Government Promises Status of River Scheldt will be Regarded as Heretofore.

BRITISH GRAIN SHIP ASHORE

The Floriston Grounded at Guyon Island, N. S., and Likely a Total Loss.

Louisburg, N. S., Oct. 13.—The British steamer Floriston with cargo of grain ran ashore at Guyon Island last night and will likely be a total loss. This morning the steamers Sigma, Eleanor, C. M. Finch, and the Coast Guard left here to render assistance, but all the boats returned this evening unable to do anything for the ship. They report the steamer lying on the eastern side of Guyon Island ledge with all holds full of water, including the engine room. The crew landed at Gull Cove, Gabarus, today, but the captain and officers were still standing by the ship this afternoon.

The Floriston is of 2,329 tons register of Newcastle, Eng., and has had a hard run of luck since present cargo was loaded on board at Montreal. She ran ashore at Newfoundland, but was floated by the steamer Seal, after lightening some of the cargo. After repairs were effected at Quebec she sailed to take bunkers at Louisburg and intended proceeding to Halifax to complete her cargo.

IN HEAVY FIGHTING NEAR THOUROUT YESTERDAY ALLIES HAD ADVANTAGE

German Column Ambushed By Allies and Mowed Down, and Put to Rout By Bayonet Charge—Left Six Hundred Dead On Field While Allies Lost Only Few Men—Petrograd Reports Situation Unchanged In Eastern Prussia.

London, Oct. 14, 1.41 a. m.—The following despatch dated Monday, has been received by the Central News from Ostend:

"It is reported that a heavy engagement occurred today near Thourout, (a Belgian town 12 miles southwest of Bruges). The operations around Ghent have opened favorably for the allies. The Germans asked for an armistice to enable them to bury their dead, but the request was refused. They imagined to be the remnants of a retreating Belgian army, a German column was ambushed by a force south of Ghent. The German soldiers were mowed down in swaths and a bayonet charge completed their rout. Some six hundred dead were left on the field while the allies' loss was practically nothing."

Paris, Oct. 14, 3.01 a. m.—The following official communication given out Tuesday night in Petrograd, has been received here by the Havas Agency:

"Operations continue to develop on our front, which extends from the region of Warsaw, across the Rivers Vistula and San, to Przemysl, and further south as far as the River Dniester.

"The situation in Eastern Prussia remains unchanged."

Rome, via Paris, Oct. 13, 10.32 p. m.

An emphatic denial comes from Cettigne of the Austrian statement that the Montenegrins have fired on Red Cross hospitals. Everything has been done, the Montenegrin officials say, to spare places having the Red Cross flag flying sometimes to the serious detriment of military operations.

It is declared also that a large number of Austrian wounded have been helped and nursed by Montenegrins, and are still cared for in Montenegro where they receive the same treatment as the Montenegrins wounded.

Rome, Oct. 13 via Paris, 10.30 p. m.—According to advices received here the German officers at Constantinople estimate the Turkish army at 400,000 men. The estimates made here on figures from reliable sources place the number at between 600,000 and 700,000.

REPORTED SUCCESSES OF ALLIES IN WOEVRE DISTRICT DENIED BY BERLIN

Official Statement from German Army Headquarters Says Enemy's Attacks at Soissons Have Been Repulsed.

Berlin, Oct. 13 (via Amsterdam and London, 11 p. m.)—Heavy fighting continued in the Argennes, two chains of hills in Northeastern France, according to an official statement received here today from the German general headquarters, under date of October 13. Violent attacks made by the enemy east of Soissons have been repulsed, it is said. The communication follows:

"There is no important news from the western war theatre. Violent attacks made by the enemy east of Soissons have been repulsed. Heavy fighting continues in the Argennes. Our troops are moving forward through dense underwood in very difficult ground with siege trains for use against the fortifications. The French troops offer obstinate resistance, firing from trees where machine guns are posted. Beside rifle pits, which are arranged in tiers, they have built strong points of support."

The statement contradicts news given out by French army authorities regarding success met with by the allies in the Woivre region, and denies other reports. It continues: "All the French attacks at St. Mihiel have been repulsed. Stain (twelve miles northeast of Verdun) remains in our possession."

TORONTO WILL SEND CARLOAD OF SUPPLIES TO THE BELGIANS

Toronto, Oct. 13.—The Board of Control today decided to make a contribution of a carload of food and clothing to the Belgians. The railway companies have undertaken the free transportation of the goods to the port of lading. The British Admiralty will provide ocean transportation. It is estimated this will cost about \$10,000.

FIRST WOMAN IN STATES TO BE APPOINTED ASST DISTRICT ATTY

San Francisco, Oct. 13.—Mrs. Annette Abbot Adams, the first woman to be appointed an assistant United States District Attorney, took the oath of office here today in the federal court.

ARCHBISHOP HOWLEY CRITICALLY ILL

St. John's, Nfld., Oct. 13.—Archbishop Howley, Roman Catholic primate, is critically ill, and the worst is feared.

Paris Reports Considerable Progress on Monday—Austrian Corps Defeated in Galicia Trying to Re-form Near Przemysl.

Paris, Oct. 13.—The following announcement was given out in Paris this afternoon: "On our left wing our forces have resumed the offensive in the regions of Hasebroeck and of Bethune against detachments of the enemy composed in large part of cavalry coming from the front along Bethune, Estaires and La Bassée. "The town of Lille, held by a territorial detachment, has been occupied by a German army corps. "Between Arras and Alost we have made notable progress. "On the centre also we have made progress, in the region of Berry-Au-Bac, and we have advanced toward Souain in the west of the Argonne and north of Malancourt. "Between the Argonne and the Meuse, on the right bank of the Meuse, our troops who hold the heights of the Meuse to the east of Verdun, have advanced. "To the south of the road from Verdun to Metz, in the region of Apremont, we have gained a little territory on our right, and repulsed a German attack on our left. "On our right wing, Vosges and Alsace, there has been no change. "To sum up, yesterday was marked by perceptible progress on the part of our forces in various points on the field of battle. "In Galicia the Austrian corps defeated in Galicia are endeavoring to reform at a point four kilometers west of Przemysl."

Petrograd, Oct. 13.—Prince Oleg, a son of Grand Duke Constantine, died yesterday of wounds received in action. An official despatch from Petrograd on Oct. 11, said Prince Oleg had been wounded during a cavalry engagement at the front. He was carrying a Russian standard at the time he was shot. The Hague, Oct. 13, via London.—The American hospital ship Red Cross, which arrived at Rotterdam last Tuesday, sailed at 3 o'clock yesterday afternoon for New York with 150 refugees aboard. London, Oct. 13.—The Kaiser Wilhelm canal, telegraphs the Amsterdam correspondent of the Reuters, between the Baltic and the North Sea, has been closed to ordinary traffic for the duration of the war. Tokyo, Oct. 13.—Japanese and German have agreed to armistice and have ceased fighting temporarily at Tsing Tau while dead and wounded are removed. New York, Oct. 13.—The military expert of the New York Times, who is an associate editor of the Army and Navy Journal, says this morning: "The advantage of Ostend to the German cause would lie in furnishing a harbor of refuge for their submarines in case they should attempt a raid from Emden or Heligoland against the troopships and freighters that are maintaining the British communications for their troops on the continent. Such a raid, if successful, might cause great loss of life, and might have important influence in handicapping the British plan of operations. In any case, it would have an appreciable moral effect. "It may be taken as certain that Great Britain is now rushing to Ostend every volunteer and every marine from home who is considered fit for service in the field. Just as Great Britain's naval defence consists in seeking the enemy's ships in their home waters, so does her land defence depend upon the fighting on the continent. She has nothing to fear from invasion by airships; these may, however, succeed in bombarding various English towns. "After ten weeks of war the allies in the field have proved that they can withstand the German attacks. Their present superiority in numerical strength will steadily grow, and it may be that in equipment and mounts they will steadily make a relative gain. They have survived the maximum development of the German strength without suffering any decisive defeat, and hereafter matters should be more and more in their favor."

Attack on Russian Princess Described

New York, Oct. 13.—An attack on the Princess Marie of Russia, a close relative of Tsar Nicholas, in the streets of Coburg, Germany, during which practically all her clothing was torn and her face and hands were severely bruised and scratched, was described by Mrs. L. V. Cazlaro, the wife of Brigadier General L. V. Cazlaro, retired, of the United States Army, who, with the general and their daughter, was a passenger on board the Ryndam, of the Holland-America line, which arrived last week from Rotterdam. General and Mrs. Cazlaro have spent the greater part of the last fifteen years at Coburg, Germany, and of late have been tenants of the Princess Marie in a chateau near the palace where she lives. They declared the attack on the Princess, with whom they are personally acquainted, was an outrage which caused all Germany to blush with shame, particularly because it occurred in the city of Coburg, where she has lived for more than thirty years and which has benefited to a great extent through her philanthropy. "The Princess was en route in an automobile from the palace, about eight miles from Coburg, where she lives part of the time, to her home near the edge of the city," said Mrs. Cazlaro. "The car was stopped by ropes which had been placed across the road and a crowd of ruffians dragged her from the automobile, beating her until she fell fainting to the ground. Her clothes were torn and shreds and her face was scratched and bruised until she was unrecognizable. "Save Princess From Mob "Pedestrians who witnessed the attack from a distance probably saved her life by dispersing the ruffians. The assailants were found to be of the lowest class of hoodlums and were probably excited to their deed in the belief that the Princess was anti-german toward Germany's interests, although she is strongly in sympathy with the country and had shown as much by word and action, despite her connection with the Russian royal family. "The newspapers of Germany are held down with an iron hand by the military authorities and are not allowed to publish anything unless it is favorable to the German interests, according to General Cazlaro, who said that the populace was unaware of the German reverses at Meulhausen when he left Coburg, three weeks ago. The newspapers are filled with stock pictures purporting to show British soldiers in a wild retreat before German bayonet charges, he said, and the people, who must depend solely for their information on the newspapers, believe confidently that the German troops are carrying everything before them. "A picture post card in wide favor in Germany and which has been enlarged and displayed in all public places, said Mrs. Cazlaro, is one depicting an English soldier with both arms shot off and minus a leg. The picture bears the caption "Made in Germany." Dr. Karl Muck, director of the Boston Symphony Orchestra, who was a passenger on board the Ryndam, was detained four weeks in Berlin, where he was compelled to perform clerical work in the War Office. He denied the reports of German atrocities, and asserted that evidence is now in the War Office to show that acts of barbarism were committed by Belgians on wounded German soldiers which far outdo anything that has been charged to the Germans. "Describes Mutilated Germans. "I not only saw the reports now on hand in the War Office," said Dr. Muck, "but talked to three German officers who returned from Belgium with their eyes soused out having received the injuries while lying helpless because of wounds received on Belgian battlefields. Others returned with their hands cut off and their arms missing, the work of Belgian women. Barbaric acts such as the above are likely to be committed during any further fighting and during the most enlightened warfare by individuals whose minds have become unbalanced in their lust for blood, and I am afraid saying that Germans are guiltless, but I think that when the facts become known at the end of the present war Americans will find that they have been misled by the many false reports which have emanated from Belgian sources. "The Ryndam brought 411 first, 453

BELGIUM MAY BE THEATRE OF NEXT GREAT STRUGGLE

Gen. D'Amade Sending Reinforcements to Belgian Territory Allies Said to Hold Good Positions There —Amsterdam Report Says German Bombarding Bruges, 14 Miles from Ostend.

The Hague, Oct. 13.—According to a special despatch to the Cologne Gazette, from Zurich, Switzerland, a large number of civilians who arrived in Zurich from Belgium reported that an artillery duel was progressing in the direction of Belfort, when they departed. A special despatch to the Atond-post, says 1,500 German wounded have passed through Liege for Aix-la-Chapelle, to which place within the past two weeks, 20,000 wounded have been transported. The Hague, via London, Oct. 13.—The total number of interned Belgian and English soldiers en route to North Holland is estimated at 20,000, exclusive of the wounded who are being treated there and in cities near the Belgian border. The number of wounded has not yet been ascertained. Other soldiers have been interned but their number is still unreported. The English soldiers have been provided with a special depot at Groningen. London, Oct. 13.—A despatch to the Times from Ostend says that a German aviator dropped two bombs on Ostend on Monday. Neither of the bombs exploded. The correspondent adds that the German minister of marine, M. Augagneur, has gone to Havre to receive the French government and permission to establish his government at Havre, and guarantee them the full exercise of their authority. "The French minister of marine, M. Augagneur, has gone to Havre to receive the French government, which should reach there today. "A despatch to the Havas News Agency from Havre says that posters were put up around the city, bearing the signature of the mayor, announcing the arrival of the Belgian government to France, in order that it may have full liberty of action. The foregoing was announced officially in Bordeaux today. Several Belgian ministers, accompanied by a group of officials, left Ostend this morning for Havre, where the French government has prepared temporary offices for them. King Albert remains at the head of the Belgian army. Tokyo, Oct. 13.—As a result of the communication to him of the Japanese Emperor's desire to spare the lives of non-combatants and neutrals in Tsing Tau, Meyer Waldeck, governor of Kiao Chow, has sent German officers to meet Japanese officers to arrange the details for their departure before the inauguration of the final attack upon the German fortress by the Japanese and British forces. During an armistice yesterday on the battlefield of Tsing Tau, twenty-two German defenders of the fortress were buried. The fortress fires 1,600 shells daily. "How far are we from Boston, Mr. Conductor?" "About twenty miles." "Ah! I guess I'll put away this novel and get out Plato."

BELGIUM GOVT THINK ENEMY LOST BOAT IN BALTIC RAID

Believed in Petrograd that One of German Torpedo Boats Which Attacked Russian Cruisers Was Sunk.

Bordeaux, Oct. 13, via Paris, 5:14 p. m.—Concerning the move of the Belgian government to French territory, the following official notice was given out in Bordeaux today: "The Belgian government, not finding on its own territory the freedom necessary for the exercise of its authority, has asked hospitality of the French government and permission to establish its government at Havre, and guarantee them the full exercise of their authority. "The French minister of marine, M. Augagneur, has gone to Havre to receive the French government, which should reach there today. "A despatch to the Havas News Agency from Havre says that posters were put up around the city, bearing the signature of the mayor, announcing the arrival of the Belgian government to France, in order that it may have full liberty of action. The foregoing was announced officially in Bordeaux today. Several Belgian ministers, accompanied by a group of officials, left Ostend this morning for Havre, where the French government has prepared temporary offices for them. King Albert remains at the head of the Belgian army. Tokyo, Oct. 13.—As a result of the communication to him of the Japanese Emperor's desire to spare the lives of non-combatants and neutrals in Tsing Tau, Meyer Waldeck, governor of Kiao Chow, has sent German officers to meet Japanese officers to arrange the details for their departure before the inauguration of the final attack upon the German fortress by the Japanese and British forces. Health First

In buying food articles we must consider several things—economy, results, convenience, reliability; but the most important is Health. Health means everything. If one gets cheated in buying dresses, shoes or bonnets it is provoking, but the harm is chiefly loss of money. In buying food articles, if imitations or poor stuffs are supplied, there is a loss of money and probably an injury to health also; and good health is beyond price. Remember these facts when buying baking powder.

ROYAL BAKING POWDER Absolutely Pure No Alum

Canadian Pacific Railway office staff in Belgium. Most of them reached Holland last Friday, crossing thence to England. Ascent Grosset and the other British members of the staff left Belgium early in the campaign. Among other arrivals from the war zone are Mrs. Ruben Leblanc and her daughters, with Mrs. Comeau, of Concession, Nova Scotia, who were recently in Sweden. They have sailed from Glasgow for Quebec on their way home. Getting Ready. A visit to the schoolroom of St. Paul's church, yesterday afternoon, showed that very great interest is being taken in the direction of aiding the forlorn Belgians. Packing cases, ready for a host of clothing, food and other necessities, were much in evidence, under the efficient control of a willing staff of ladies. The goods will be ready for shipment this evening.

ST. JOHN, N. B., WEDNESDAY, OCTOBER 14, 1914.

THE WAR SITUATION

Judging from the despatches of yesterday, the campaign of the Germans is entering upon a new stage of development which may lead to the speedy termination of the Battle of the Aisne and the concentration of a mighty attack upon the coast towns of Belgium and Northern France, presumably as a preliminary to an attack upon England itself. The German government, yesterday, served official notification upon Holland that it was not the intention to use the River Scheldt for purposes which could not be justified by existing treaties, and if this promise is intended to be kept it would appear that the reported German project of using Antwerp as a base for attacks upon England, by airship and otherwise, has been abandoned in favor of the sea coast towns in Belgium and the Netherlands. Whether Germany does or does not intend to make a serious attack upon England is not at this time apparent, but there can be little doubt that it would be undertaken if the authorities controlling the movements of the Kaiser's army and fleet could convince themselves that it would be attended with success. Such a move would unquestionably bring the German and British fleets into conflict and for that reason would likely be welcomed by the British sailors who for weeks have waited in vain for the vaunted warships of the Kaiser to come out from under the Kiel fortifications and submit to a test of mettle. The result of such an encounter is likely to be more satisfactory to Britain than to Germany. If Germany desires it, there is no doubt Admiral Jellicoe and his associates will be ready for whatever may betide. Meanwhile, there is assurance from England that all precautions have been taken against an aerial attack, while it is beyond the range of possibility that an invading army could be landed upon British soil so long as the fleet remains intact.

What is more likely to be at the bottom of Germany's new plan is the desire to make a bold stroke in the hope of enervating the German people. So far the Germans have not achieved distinct successes against the British soldiers, while the fleet has not dared to come to grips with Britain's tars. The Kaiser's doctrine that Germany is superior to Britain both on land and sea will not thrive on inaction and it is not unreasonable to believe that the campaign against Britain is being projected as much for the effect it will have in Germany as from any belief that it will succeed. From the eastern frontier the reports are contradictory as both Vienna and Petrograd claim successes. It is also reported that Turkey is about to preach a Holy War against the French in Morocco, and is driving the Greeks out of Asia Minor, both of which actions may lead to additional complications in the situation. If Turkey enters the conflict on the side of Germany it is likely to have the effect of bringing, at least, Roumania and Greece into line with the allies, while Italy can hardly remain neutral while all her neighbors are at war. Altogether the next few days may be productive of the most important developments which have taken place since the outbreak of hostilities.

BELGIANS FOR NEW BRUNSWICK.

The suggestion that Belgian refugees should find, in the Province of New Brunswick, opportunity to make for themselves new homes must strike most people as a happy thought and one to be encouraged in every way. The prime need of this province for many years will be experienced agriculturists to populate the farms and increase the production of foodstuffs. The present Government has carried out an energetic policy with the goal in view of supplying that need, and, to date, such efforts as have been made have been attended with considerable success. The suggestion that the heroic Belgians should be assisted to find in this province what cannot remain for them in the land of their birth, peace, plenty and prosperity, is one which, we are sure, will meet the heartiest approval.

There is no better class of settler than the Belgian, or Swede; this has been amply demonstrated on the prairies of our own Canadian west and in the Western States. In fact the influx of immigrants from the Western States to Canada, during the past four or five years, has largely been made up of natives of Northern Europe, who have prospered in Western America, but who, thriftily, are willing to dispose of their land there at satisfactory prices and move into Canada where land equally as good can be secured at a lower figure.

Aside from the known fact that the Belgian agriculturist is a master of his calling and could, unquestionably, produce good results from our New Brunswick acres, there is to be urged

the sentimental reason why he should come to New Brunswick. It is a source of pride that something more than a century ago the ancestors of some of the finest New Brunswick families came to this province from the United States because they could not remain in the latter country and maintain their allegiance to their King and their traditions. New Brunswick is the province of the Loyalists, of those who were loyal and true to their country and their country's demands. They existed, most of them, more than a century ago, but the Belgians of today who flocked to arms and faced hardship, suffering, and, almost extermination, rather than yield to the demands of brute force, showed a spirit every whit as commendable as that manifested by the Loyalists of 1783 and succeeding years. They have suffered persecution and faced death rather than deliver their country over to the enemy, and, by their self-sacrifice, they have earned the everlasting gratitude and friendship of every citizen of the British Empire. By all means let us encourage the movement to bring Belgian settlers to the Province of New Brunswick. New Brunswick needs them and will welcome them with open arms.

GLoucester's CHOICE.

In J. Bennett Hachey, M. L. A., the Conservatives in the County of Gloucester have selected as their candidate for the Federal representation a man who will make an aggressive campaign and who, if elected, may be depended upon to do good service for his constituency. Mr. Hachey, though a young man, has already made his mark as a useful member of the Legislature of the Province. He made his entry into public life at the provincial election in 1912 when he polled a large vote and had no difficulty in defeating his opponent. Since his election he has been a hard and conscientious worker, and by his ability and zeal in forwarding the interests of his county he has added greatly to his standing as a representative merchant of Bathurst and for some years has been prominent in all its affairs.

Reference to its political history shows that Gloucester County in selecting its parliamentary representatives, has shown a marked preference for the party in power. If it should happen that it was out of joint with the ruling party the error was rectified at the first opportunity. Thus it will be seen that while Gloucester was Liberal during the tenure of the Mackenzie ministry from 1873 to 1878 and for one term thereafter, it changed its allegiance soon after the Liberal ministry was defeated and from 1882 to 1896 returned members in sympathy with the government of the day. The first election in which the government of Sir Wilfrid Laurier sought the country was in 1900, and it was in that year the present member, Mr. O. Turgeon, was elected as a government supporter. Gloucester was a lap behind in the election of 1911, but if there is anything in precedent it would appear that the county is ripe for another change and that at the next election it will be again recorded as favoring the party in power. Mr. Hachey enters the field of Dominion politics at an auspicious time and this, added to his own well known ability, general popularity, and the fact that the administration of the present government has met with the approval of the country generally, will doubtless suffice to entitle him to affix "M. P." to his name after the next election.

News of the probable entry of Mr. T. Chase Casgrain, K. C., into the Borden cabinet will be received with general approval. Hon. Mr. Casgrain for years has been one of the leaders of political thought in the Province of Quebec. A great lawyer and a Canadian who in many ways has given proof of capacity and ability he will be an acquisition to a cabinet which already is probably the strongest and most capable Canada has known since the Macdonald ministry was at the height of its fame.

One Mr. Hearst, of yellow journal fame, is holding peace demonstrations in New York. This is the same gentleman who some years ago when the United States and Spain were on the verge of hostilities called to one of his staff artists in Cuba. "You furnish the pictures and I'll furnish the war." It is a cause for thankfulness that Canada has escaped the Hearst pest, except insofar as his publications find a sale here.

The Boston Braves succeeded in winning world's championship baseball honors in four straight games. And yet, last year, when the Giants were defeated by the Philadelphia Athletics, there were many to say that the world's championship was likely to be Connie Mack's for keeps.

The war news during the past few days has not been all Canadian news, but even in the face of report-

ad German successes there will be none to doubt that Britain and her allies will prevail in the end.

Emperor William believed that Canadians of German descent would side against England in the present war. The towns of Berlin, Ontario, settled almost entirely by German-Canadians, has contributed \$200,000 to the Patriotic Fund. That's the answer.

Come, Ye Sons of Britain's Glory

Come, ye sons of Britain's glory, England calls and whistles. Flash through every land the story "England's home to you is dear!" From the South and from the West.

Come the British lion's whelps; Australasia sends her bravest; Canada's vast granary helps.

Sons of Briton, sons of freemen, Born at home or born afar, Sons of Saxons, sons of Saxon, Come, for Britain is at war!

Hark the cry of Africa's sea-coast, Hark the thrill from India's strand, Hark the shout of all our kindred, Echoes loud from land to land, England calls and whistles children Scattered far o'er land and sea, Round the brave old flag are gathering England's loyal sons are ye!

Sons of Briton, sons of freemen, Born at home or born afar, Sons of Saxons, sons of Saxon, Come, for Britain is at war!

Show the world when England beckons, Sons and daughters round her throng; Britain on her kinsmen reckons, England's son will fight the wrong. Rally round the flag of Freedom, All ye sons from o'er the waves, Shout your message, "Cease oppression! Tyrants, War Lords, die your graves!"

Sons of Briton, sons of freemen, Born at home or born afar, Sons of Saxons, sons of Saxon, Come, for Britain is at war!

Tommy Atkins Is An Optimist

It is a habit with "Tommy Atkins" that even with defeat staring him in the face he always sees the bright side of things and has his little joke. Many of his pals may have bit their lips, but he is a cheery optimist, and his letters from the fighting line show this better than anything else. A gunner of the Royal Field Artillery, who must be a football enthusiast, in writing to his parents could not conceal his rilling passion—that is next to fighting—for he writes: "The greatest match for the European Cup is still being played out, and I dare say there's a record going to be made. In spite of the fact that the Germans haven't scored a goal yet, and they're simply kicking at the ball any way in their blind rage at not being able to score. Our team is about as fit as you could have them, and they're all good men, though some of them are amateurs and the Germans are pros."

"The German forwards are a rotten pack. They have no dash worth anything about and they're going to the funeral of their nearest and dearest. When they are in the trenches they always fall away from their backs, and their goalkeeper's about the rottenest I think you ever set eyes on. I wouldn't wish to see any of them for their chances of lifting the cup, and if you have any brass to spare you can put it on the Franco-British team, who are certainly goals so fast that we haven't time to stop and count them."

"The Kaiser makes a rotten captain for any army. It's little wonder they are losing. Most of our side would like to tell him what they think of him and his team."

A private while in the trenches contracted neurialgia in a form a degree worse than Robbie Burns' "Hell O' A' Diseases," and a wonderful cure comrade wrote to his mother as follows: "There's one chap in our company has got a ripping cure for neurialgia, but he's going to make out a patent, because it's too risky and might kill the patient. Good luck's one of the ingredients, and you can't be sure of that."

"He was lying in the trenches the other day, nearly mad with pain in his side, when a German shell burst close by. He wasn't hit, but the explosion knocked him senseless for a bit. 'Ye, ye, ye,' he said, 'that's the way when he came around. 'And so's six of your mates,' says he. 'Oh, crickey!' says he. His name's Palmer, and that's why we call the German shells now 'Palmer's Neurialgia Cure.'"

"They say here that you can always tell the Germans who have never been in action against us before. The ones who know what to expect come up very gingerly, like men sneaking into the vestry of a church to rob the collection boxes. The new hands come across in a fine, jaunty way until they get a volley into them, and then they stare up at the sky, to see who's throwing things at them. That is, the ones who are able to look up, for some of them are done for and have looked at the sky for the last time."

Frames will get out of adjustment, however. That cannot be helped. You ought to have us inspect yours every few weeks. There is no charge for that service.

mon has issued a formal statement dealing with Belgium's case against Germany. It makes interesting reading, as it discloses the German claim that France was about to invade Belgium, and that Germany was forced to violate her neutrality as a protection against France. Incidentally it is made clear that the invasion of Belgium had long been contemplated by Germany. It is recalled in the note that in 1870, when France and Germany were at war, both Governments were queried by the British and by the Belgian Government as to the neutrality of Belgium. Both France and Germany gave formal assurances that the neutrality of Belgium would be respected. Even Bismarck said that to give this answer was "superfluous" in the face of the existing treaties, so it would appear that the Iron Chancellor had a greater respect for the neutrality of his successors. On August 2, of the present year, the German Minister to Belgium gave an assurance to the Belgian Government that Belgium had nothing to fear from Germany. He used this expression: "You will see perhaps your neighbor's house in flames, but your house will remain intact." A few hours later he informed the Belgian Government that the German Government had received "unimpeachable news" to the effect that the French had the intention of marching on the Meuse by Givet and Namur. He went on to say that the German Government feared that Belgium would be invaded by France. "It is the urgent business of Germany to forestall this attack of the enemy," the German Government would be filled with lively regret if Belgium were to regard as an act of hostility to her the fact that her precautionary measures obliged her to violate on her side Belgian territory."

This note was accompanied by some comment from the part of German Government, which was in the nature of an argument to Belgium to become a "friendly neutral." As far as Germany was concerned, and not to oppose the march of German troops over her territory. If she maintained this attitude she was told that Germany would pay for any damage done after the war was over, and would underwrite the integrity of Belgium for the future. If, however, Belgium resisted the march of German troops she would have nothing to expect from Germany. The difference between them "will be left to the decision of arms."

It is to be observed that in this formal communication there is no reference to the actual invasion of Belgium by French troops, nor to the German aviators who were said, as an afterthought, and on a later occasion, to have been scouting over the country. It was simply admitted that the invasion of Belgium was necessary to the success of the German plan of campaign, and that the mere word "neutrality" was not to deter her. In fact, this much was admitted almost in the same words by the German Secretary of State in his interview with the British Ambassador at Berlin. In this interview von Seeow said that Belgium had already been invaded. He justified his action by saying that Germany had to enter France by the shortest route. It was a matter of life and death to Germany. Rapidity of action was the great German asset, while that of Russia was the inexhaustible supply of troops. It was in the conversation that there occurred the famous "scrap of paper" comment from the part of German Government, which was in the nature of an argument to Belgium to become a "friendly neutral."

It is to be observed that in this formal communication there is no reference to the actual invasion of Belgium by French troops, nor to the German aviators who were said, as an afterthought, and on a later occasion, to have been scouting over the country. It was simply admitted that the invasion of Belgium was necessary to the success of the German plan of campaign, and that the mere word "neutrality" was not to deter her.

As You Go Down the Street

Notice how many people are wearing glasses the frames of which do not fit them.

It's a micrometer job to fit a pair of frames to a face—no work for a mere salesman to undertake.

A prescription for lenses is like a set of plans and specifications. They are worthless unless carried out by skilled mechanics. It takes a skilled and experienced mechanic to fit glasses and frames to the face.

You are sure of that expert work, when you come to Sharp's. We are not satisfied with making absolutely accurate glasses. We are exceedingly careful to have those glasses properly adjusted when worn.

Frames will get out of adjustment, however. That cannot be helped. You ought to have us inspect yours every few weeks. There is no charge for that service.

remark, which is referred to in the Belgian statement. The Belgian authors then proceed to show that France had not violated Belgian neutrality, and indeed not the slightest evidence has been put forward in support of this assertion. On the contrary, France had pledged herself not to invade Belgium, and it has been officially denied in France that there had ever been the slightest intention of doing so. The best proof of French intentions is found, perhaps, in the fact that after the violation of Belgium had become an accomplished fact, and after the King of the Belgians had appealed to France and Britain to maintain the terms of the treaty whereby they had guaranteed her neutrality, it took France more than ten days to get her troops into Belgium. It would be impossible to find stronger evidence in refutation of the German claim about the intention of France. The document proceeds to mention some of the devastation wrought by Germany in Belgium and considers with these words: "Such is the Belgian case. Humanity will judge it."

PROCLAMATION!

The city of St. John has a clear duty and a well defined course in defending the mother country.

WHAT IS YOUR PATRIOTISM WORTH?

Remember that St. John's best contribution to the defence of the Empire lies in keeping busy, providing all our people with food, clothing and the other necessities of life. Let us forget all our little differences and show our patriotism in a whole-hearted way.

LET US RESOLVE

Whereas the British Empire is in a state of war and as a result general trade conditions are adversely affected.

And Whereas Canadian business men and women see the necessity of continuing confidence and furthering the interests of domestic trade, and also realise that every dollar spent in St. John on Canadian goods is a help to the cause of Empire.

Therefore Resolved, that what we have we'll hold, that we'll keep the wheels going, keep the crops growing, and keep the dollar at home.

Further Resolved, that in recognition of the fact that it is our duty to keep the dollar within the Empire and that this can best be done by buying Canadian goods *at home*, we declare it our policy to give Canadian produce and Canadian merchandise the preference in every possible way consistent with common sense.

**When You Spend a Dollar Outside of St. John,
St. John Gets the Goods, But Loses the Dollar**

**When You Spend a Dollar in St. John,
St. John Gets Both!**

KEEP THE DOLLARS AT HOME

NEWS OF THE SONS OF TEMPERANCE

Sussex, Oct. 13.—F. G. Moore, grand worthy patriarch of the Sons of Temperance, assisted by E. S. Hoadley, Jr., G. W. P. He sold his new division here last evening to the organization exercises a public meeting was held in the main street Baptist church, at which W. N. Blagden, president, addressed the members...

NEWS FROM DIGBY

Digby, Oct. 13.—Mr. Watson Fenwick, who returned to Digby, his native town, several years ago from Hampton, N. B., and built for himself and family a fine dwelling in the North End, has again taken up his residence at Hampton. The family left several days ago and Mr. Fenwick followed at the end of the week, returning home yesterday.

Mr. M. E. Holdsworth and William Crossboom are the only ones representing Digby among the Down-Easters attending the ball games at Boston.

The Digby fishing schooner Quickstep, Captain Arthur Longmire, sold on her last trip 45,000 pounds of mixed fresh fish to American buyers at Yarmouth. Captain Longmire got \$2.00 per hundred pounds for his haddock which was one cent per pound more than was paid for haddock at Digby the same day.

The schooner Loran B. Snow, Captain Roy Longmire, arrived today from the fishing grounds off Cape Sable with 70,000 pounds fresh fish and sold on the trip to J. E. Snow and E. M. Robertson.

SPECTACULAR TO BE ADMITTED FROM LORD MAYOR'S SHOW

London, Oct. 13.—The Lord Mayor's show will this year be held on a very limited scale. Usually the 9th of November witnesses a huge procession all around London, which never fails to arrest all business and traffic for several hours. This year a very short route will be taken, and all clowning and spectacular features will be omitted. As already announced, the banquet will be held as usual at the Guild Hall. Mr. George McLaren Brown, European manager of the Canadian Pacific, is on the Lord Mayor's committee this year.

HOPEWELL HILL

Hopewell Hill, Oct. 12.—The engagement of Miss Mary Newcomb, daughter of Mr. and Mrs. George W. Newcomb, to Alfred E. Hopkins, of Fairmont, Sask., the marriage to take place in Saskatchewan the latter part of this month.

AN INJUNCTION IS GRANTED TO C.P.R.

Restraint Quebec and St. John Construction Co. From Obstructing or Interfering with C. P. R.'s Property.

Fredericton, Oct. 13.—There is a new chapter today in the clash of the C. P. R. and the I. C. R. over the St. John Railway matters, now commonly known as the battle of Aberdeen street.

An injunction has been issued at the instance of the C. P. R. by Mr. Court, restraining the Quebec and St. John Construction Company, who were doing the construction work and John Thompson, the managing director from obstructing the C. P. R. or breaking up or interfering with the roadbed or right of way. This injunction was issued at St. John yesterday, and brought here last night by a special officer of the C. P. R. and delivered to Deputy Sheriff Timmins, who served it on the parties shortly after midnight.

The injunction is operative until Thursday, 15th inst., and tomorrow at St. John there will be a hearing at which the I. C. R. will be allowed to be heard. It is understood that unless a settlement is reached in the meantime the I. C. R. will be allowed to continue its operations in the north of their station where the obstruction has been placed.

SICK, SOUR STOMACH, INDIGESTION OR GAS

"Pape's Diapepsin" makes upset stomachs feel fine in five minutes.

Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a state of misery, gassy and upset, and what you just ate has fermented into stubborn lumps, head aching, nausea, indigestion, gas and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapepsin and in five minutes you'll feel what became of the indigestion and distress.

TRADES LESS ACTIVE

New York, Oct. 14.—Dun's Weekly Review of Trade and Commerce, conditions as a whole are those of somewhat reduced transactions. The harvest of the great grain crops of the West, that of wheat being the largest on record, and the marketing of these high yields, with continued heavy demand for export, makes for an agricultural prosperity that to some extent is communicated to Western industries and to the business generally.

As regards immediate business, conditions as a whole are those of somewhat reduced transactions. The harvest of the great grain crops of the West, that of wheat being the largest on record, and the marketing of these high yields, with continued heavy demand for export, makes for an agricultural prosperity that to some extent is communicated to Western industries and to the business generally.

HEARING IS RESTORED TO DEAF

Without Mechanical or Artificial Hearing Devices. Deaf Hear Through Their Own Ears. A Wonderful English Discovery.

Thousands of people suffer from curable deafness or poor hearing, who having tried specialists, advertised treatments, artificial ear drums, ear phones, electric vibrators and various mechanical appliances without success have at last resigned themselves to a "word of silence" thinking that nothing can ever restore to them their normal hearing. Yet their case is not hopeless. A remarkable scientific treatment discovered a little more than a year ago in England is making people hear after years of deafness and is also unequalled for quickly stopping the distressing head noises which so often the companions of defective hearing. This discovery is called Parmital and has attracted worldwide attention. Reports of the remarkable results it has given to deaf people have come in by the hundreds.

JACK JONES' GORGES CALL IN COURT

Not the Only Auto Owner in Metropolis, Police Magistrate reminds him.

London, Oct. 13.—"You and your motor cars, take altogether too much room; there are others in London, besides yours," a police magistrate told Jack Johnson in imposing another fine on the colored heavyweight champion for obstructing the street.

KINGS COUNTY COMES TO ASSISTANCE OF STRICKEN BELGIANS

Penobscot, Kings County, Oct. 13.—At the L. O. B. Lodge "Victoria" No. 143, last Friday evening a vote of ten dollars was voted to buy food and clothes for the Belgians Relief Fund, and besides the voting of the money a large collection of clothing and other articles was made.

The farmers of this end of Kings county are doing a splendid business with their potato crops that they have sown. Grain is also a bumper crop. With large crops and splendid prices, the farmers certainly have much to be thankful for.

OBITUARY

John A. Kelly, the well known vocalist, died very suddenly, yesterday morning at his residence, 405 Union street.

Mr. Kelly had apparently been enjoying his usual health, and on Monday evening was up town. He was suddenly taken ill with heart trouble about six o'clock this morning, and passed away shortly afterwards.

QUEEN'S MILITARY HOSPITAL HAS BEEN OPENED

Fifty-two Wounded Already Being Cared For.

London, Oct. 13.—The necessity which knows no law has resulted in the premature opening of the Queen's Military Hospital at Shorncliffe. Fifty-two wounded, some being British blue-jackets and the others Belgians and civilians, are now lying there, thus enabling at one swoop the entire accommodation provided by the Canadian War Contingent Association. All day yesterday Dr. Douglas Armour, the superintendent, was busily engaged taking trips in the motor ambulance between Dover and Shorncliffe, the wounded being received at Dover from Ostend.

WHEN YOU HEAR THAT DINNER BELL

Does Your Mind Go Back to the Days When You Could Eat Like a Farm Hand?

The memory of an appetite is a wonderful thing. The loss of stomach power—the ability to eat—the yearning after good old-fashioned food—that comes upon you when you hear the dinner bell. You can't realize what thousands of others have demonstrated.

MAIL CONTRACT

Sealed tenders, addressed to the Postmaster General, will be received at Ottawa until noon on Friday, the 30th September, 1914, for the postal office of Rusagornia, Beaver Dam, and at the office of the Post Office Inspector.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS

COAL—Coal mining rights may be leased for a term of up to 200 years, but not more than 150 years. The lease must be in writing, and the applicant must file a plan of the proposed mine with the local assessor. The applicant must also file a plan of the proposed mine with the local assessor.

THE STURDY BOXER TO THE FRONT

Among the St. John boys who entered for foreign service with the military and who are now in England as an ammunition division was George Garnett, a strong, athletic young man and has owned and trained for the police officer. For the past couple of years young Garnett became very prominent among the front-line fighters during his short time boxing before the public he weighed in at 128 pounds. Among the contests that he has been seen to win were a victory over a local contender named Walcott, who received a decision over Walcott, got a decision over Gallet and in a second contest with Gallet they boxed a draw.

He is a courageous young man and like the other St. John boys who left their homes for the front-line fighters in the Empire, he will no doubt give a good account of himself.

JOCKEYS MAKE GOOD TRAINERS

New York, Oct. 13.—Within the last few years there have been added to the list of American trainers the names of quite a few who were formerly top-notch riders. Holding trainers' licenses and having had considerable experience of their vocations are George Odono, for years one of our best riders, who has been engaged in training since the last year of the war, and has had several years of his own training school. Only during the Saratoga meeting did he run a horse, and he has since been engaged in training since the last year of the war, and has had several years of his own training school.

The latest one of the old school riders who has determined to be a trainer is none other than "Puddin'" McDaniel, who intends getting together some horses to race on the Metropolitan tracks next season. McDaniel, who ranked high as a rider for several years, has been engaged in business since the last year of the war, and has had several years of his own training school.

He rode with fair success through the early part of the season, riding two winners out of ten mounts, but the effort required to keep within riding weight proved too much of a hardship, and after the season was advanced he decided to leave riding to the younger boys. However, he states that he makes another try at it, especially in view of the fact that in this country should be ruled. As a trainer he would be a success, as he has always been possessed of natural horsemanship; something many successful riders lack.

A Number for Women.

There are in the world six countries in which, according to the latest issue of the "Canada Life Echoes" women have full parliamentary franchise, and in a surprising large number of countries they have a partial franchise. The article dealing with this matter in the October number of the "Canada Life Echoes" is but one of several that are designed to interest the feminine reader. The issue takes the form of a number for women, and it is illustrated with many extremely interesting pictures of a titles into which the modern woman is so largely entering. Several features of the book give it a permanent value. One of these is a comprehensive series of directions for first aid ministrations to victims of accidents. Prompt and intelligent action has frequently been the means of saving lives, and it is well to be prepared for such contingencies. In any case, pain can be alleviated and the results of accidents can be made less disastrous. Other features of the book are: "The New Brunswick (Canada Life Assurance Co., St. John, N. B.).

Bethel—I do so love football.

Bethel—I don't. I detest it. Jack-gone and got his collar-bone broke. Jack can't put my head on his shoulder for a month.

BASEBALL SPORT NEWS AT HOME AND ABROAD

A STURDY BOXER TO THE FRONT BOSTON BRAVES ARE WORLD'S CHAMPIONS IN DECIDING GAME -- SCORE 3 TO 1 IN YESTERDAY'S CONTEST IN AN ERRORLESS BATTLE; FOUR STRAIGHT WINS; FIRST CHAMPIONSHIP FOR NATIONALS SINCE 1909

1912-1913 WORLD SERIES BALL GAMES

Among the St. John boys who enrolled for foreign service with the army and who are now in England as an ammunition division was George Garnett, a strong athletic young man and a son of George Garnett, the ex-police officer. For the past couple of years young Garnett became very prominent among the boxing fans and showed that he was quite able to travel in a fast class in the ring. He is but twenty-one years of age and during his short time boxing before the public he weighed in at 128 pounds. Among the contests that he has been seen in, he won from McKiel, received a decision over Gallet and in a second contest with Gallet they boxed a draw.

Table with columns: Player, AB, R, H, PO, A, E. Rows include Boston players like Moran, Evers, Connolly, Mann, Whitted, Schmidt, Gowdy, Maranville, Deal, and Philadelphia players like Murphy, Oldring, Collins, Baker, McInnis, Walsh, Barry, Schang, Snawack, and Rudyolph.

lapped a slow roller which Deal ran in on, making a fine throw to first for the out. Walsh, playing for Struss, who has an abscess on his head, slammed a two base hit against the fence low enough for him to have caught it. Jack Barry was tossed out. Maranville to Schmidt, Walsh being unable to advance on the out. Schang struck out.

The Royal Rooters Band struck up a lively tune, and Connie Mack sent Pennock, Wyckoff and Bressler out to warm up. The crowd roared for Connolly to help, but while he was at bat Shawkey by a quick throw, nipped Evers off first, and the side was out.

In answer to an enquiry from a subscriber of The Standard as to the dates and scores of the world's series games between the Boston Americans and the New York Nationals in 1912, it will be seen by the following that the teams played eight games before the series was finished. One of these games, which was the second in the series, was played at Boston and went eleven innings to a tie, each team having scored six runs, when the game was called owing to darkness. The last game which decided the series was played at Boston and went ten innings, the Red Sox winning with a score of three to two. The date, place and score of each game follows:

Wines and Liquors. Established 1874. Wholesale Wine and Spirit Merchants. Agents for various brands of wine and spirits.

Due to the shortness of the series, the club owners and National Commission divide a smaller sum of money than in any world's series since 1910. As the winners, the Boston players receive sixty per cent. of \$121,900.94, or \$73,140.56, while the Athletics, as losers, profit to the extent of \$48,760.38.

Rudolph Pulls Out of Tight Hole. The Athletics got two hits in the fourth inning, but did not have the punch to put a man across the plate. Collins opened with a sharp grounder to Johnny Evers, and was easily batted out. He tried to steal second, and was out on Gowdy's fine throw to Maranville.

Barry made his first and only hit of the series in opening the fifth inning. Maranville threw out Gowdy, but Barry could not handle it in time to beat the Athletics' shortstop. Barry went to second on Schang's out, Evers to second on Schmidt's out, and Murphy to second on Schang's out.

Put Game on Ice in Fifth. Barry made his first and only hit of the series in opening the fifth inning. Maranville threw out Gowdy, but Barry could not handle it in time to beat the Athletics' shortstop.

San Francisco, Oct. 13.—The match between Jimmy Clabby of Hammond, Ind., and George Chip of Newcastle, Pa., who were to have fought twenty rounds here last of this month, was called off today owing to a disagreement as to weight.

JOCKEYS MAKE GOOD TRAINERS. New York, Oct. 13.—Within the last few years there have been added to the list of American trainers the names of quite a few who were formerly top-notch riders. Holding trainers' licenses at present and making a success of their vocations are George Odum, five years one of our best riders, who has been engaged in training since 1908, and has owned and trained some real runners. "Fiddle" Penny, who has been a foremost trainer for the last ten years or more, has been successful. Only during the Saratoga meeting did C. H. Shilling, whom many regard as the premier rider, and who has been on the ground for the last two years, following an indefinite term of suspension, declare his intention of applying for a trainer's license, and immediately set about purchasing a stable of horses which he now has in Kentucky.

Each of the four umpires received \$1,000, the money coming from the National Commission's percentage of the profits. Connie Mack is the only manager who to date has won three world's championships and he appears to have stumbled over the mystic fourth, just as Managers McGraw, Jennings, and Evers have. Mack failed to win four league pennants in a row.

Barry made his first and only hit of the series in opening the fifth inning. Maranville threw out Gowdy, but Barry could not handle it in time to beat the Athletics' shortstop.

Barry made his first and only hit of the series in opening the fifth inning. Maranville threw out Gowdy, but Barry could not handle it in time to beat the Athletics' shortstop.

There are in the world six countries in which, according to the latest issue of the "Canada Life Echoes," women have full parliamentary suffrage, and in a surprising large number of countries they have a partial franchise. The article dealing with this matter in the October number of the "Canada Life Echoes" is but one of several that are designed to interest the feminine reader. The issue takes the form of a number for women, and is illustrated with many extremely interesting pictures of activities into which the modern woman so largely enters. Several features of the book give it a permanent value. One of these is a comprehensive series of directions for first aid ministrations to victims of accidents. Prompt and intelligent action has frequently been the means of saving lives that otherwise would have been lost. In any case, pain can be ameliorated and the results of accidents can be made less disastrous. Other attractive features make up this book, and it will be sent free to anyone for writing name and address to J. M. O'Neil, Manager for New Brunswick, Canada Life Assurance Co., St. John, N. B.

Bob Shawkey to wed divorced woman soon. Philadelphia, Oct. 11.—"Bob" Shawkey, one of Connie Mack's young pitchers will wed Mrs. Herbert Mason Clapp, who was divorced by the grandson of Mason, the "blacking king," before his death. They will be married as soon as Shawkey returns from a short vacation, following the settling of baseball's classic. News that Shawkey and Mrs. Clapp were engaged was received with surprise by friends of the pitcher. Manager Mack said he had not heard of the engagement. Mrs. Clapp is a member of the Athletics and is engaged to Mrs. Clapp. Not only in baseball circles did the announcement create interest. Mrs. Clapp is quite generally known through frequent appearance of her name in public prints.

THE WEATHER.

Maritime—Moderate winds, fine and cool with light frosts.

Washington, Oct. 13.—Forecast: Northern New England—Generally fair Wednesday and Thursday; warmer.

Toronto, Oct. 13.—The cold wave from the north has now extended into the Maritime Provinces, and frost will be almost general tonight from Ontario to Cape Breton. In the west southerly winds and clear skies have caused a sudden change to warmer conditions.

Around the City

Dangerous Hole.
The police report a dangerous hole in the sidewalk on the Marsh Road near Robinson's store, which needs immediate attention from the street department.

On Way to Penitentiary.
Chester Russell, who was sentenced to twenty-five years in Dorchester on the charge of criminal assault on Miss Mary Forsythe, a school teacher of Pomeroy Ridge, Charlotte County, was brought to the city last night and will be taken to Dorchester this morning.

Knocked Down.
Yesterday afternoon, about 4.30 o'clock, Samuel Jackson was knocked down by a horse driven by Harry Leach on the corner of Unit and Waterloo streets. Jackson was severely injured and was conveyed to a doctor for treatment.

A Change.
The secretary of the Board of Trade received word yesterday that the Andean Hall at St. Andrews, built by the Roman Catholics of St. Andrews for general amusement purposes, had been purchased by Howard Chase and would be converted into an amusement house. The price paid was \$4,200.

Narrow Escape from Death.
Yesterday morning William Power had a narrow escape from being killed while at work on the dredge Don Frederico. He was at work under a heavy iron door when one of his fellow employees allowed the door to drop. Powers jumped, and although he saved his life, he received a severe injury to one of his legs and had to be removed to his home on Britain street.

Bonehead and Then Some.
About 7.45 o'clock last evening the fire apparatus and a lot of disgusted firemen responded to an alarm from box 35 on the corner of Germain and Queen streets. When they arrived at the box they could not find any fire to fight nor the person who sent in the alarm. It is the same old story, a false alarm sent in by an individual with a solid head without space for an atom of gray matter.

Organization of a St. John branch of the Retail Merchants' Association of Canada will be discussed at a meeting in the Board of Trade rooms Thursday evening. N. C. Cameron, treasurer of the Ontario Provincial Board of the association is in the city making arrangements for the organization of the branch.

When seen by a reporter Mr. Cameron said he had been for a trip through the Maritime Provinces and found business conditions down east much better than in other parts of Canada, but he thought a Retail Merchants' Association would help the position of the retail man. Among the questions which this organization seeks to deal with is that of fixing goods upon the manufacturer instead of upon the retail dealer, improving the credit system by distribution of information calculated to cut out the dead beat, improving the assessment value, providing for the government inspection of weights and measures, and showing municipalities why the small order houses should pay taxes.

It is said that the St. John branch of the association would be the headquarters of the Retailers' Association in the Maritime Provinces.

RETAILERS WILL UNITE

DON'T MISS THIS GREAT DRAMA!
"One Wonderful Night" was presented in four reels at Imperial Theatre yesterday afternoon and evening and lived up to its advance notices most satisfactorily. It was a splendid photo-play, elaborate in its presentation and acted by a superb aggregation of metropolitan stars, headed by the universal favorite, Francis X. Bushman who was only recently voted the most popular player in America. This special high-class drama will be shown again today and those who have not experienced one of those strenuous whirls about New York in a single evening, will have many thrills in store if they decide to enjoy Louis Traylor's story-picture today or tomorrow. The Imperial's new vaudeville, Scotch singer and story-teller, as well as Miss Elsa Marie are valuable additions to the bill.

EMERGENCY FUND TO PROVIDE THE WINTER WORK FOR CITY MILITIA OFFICERS

Commissioners vote \$30,000 to carry on Public Works and to give employment to laborers during cold season—All in favor of scheme.

The city commissioners yesterday afternoon, on the recommendation of Commissioner Potts, voted the sum of \$30,000 to be used in the public works department for the purpose of keeping men employed during the coming winter. The money is to be secured by an overdraft and charged as an emergency fund. The grant will enable public works to be carried on during the winter months, and it is likely that the stone crushers will be operated all winter in order to have an adequate supply of material for road work in the spring.

Commissioner Potts in introducing the resolution pointed to the work done by his department during the year. The question of employment would come up and the city would be compelled to provide something, and this grant would enable the department to keep at work all winter.

Commissioner Wigmore was in favor of the idea. He thought the city should provide work during the whole year for its permanent staff. In the

NEW AVENUES OF TRADE OPEN FOR BUSINESS MEN

St. John manufacturers and exporters are making enquiries as to the possibility of developing new markets for their products, especially in countries which have been relying on Germany, but as yet few of them have taken definite steps to avail themselves of the opportunities which may have been occasioned by the war in Europe. An impression has, it is said, prevailed that the war would only be of short duration and that it would not be worth while for local manufacturers or exporters to go seeking orders in markets where there might be only a temporary demand for Canadian goods. But now that developments are beginning to indicate the possibility of a prolonged war more serious attention is being given to the idea of opening new markets, and tentative enquiries will, it is expected, be succeeded by more definite action looking to the opening of new markets.

It is reported that several important English steamship companies have offered to give passage to representatives of manufacturing or big trading firms, anxious to open up new markets in territory previously untouched by them. This offer, it is said, applies not only to representatives of manufacturing firms looking for new markets for finished products, but for representatives looking for new sources of supply of raw material for the industries of the Empire. The idea of the steamship companies in making this offer is not only to encourage the manufacturers and traders of the Empire, but to make more business for themselves.

United States Boards of Trade, as well as newspapers, are urging American manufacturers to go out and seek to get the trade, which Europe cannot handle on account of the war, and it is believed the enterprising manufacturers of St. John will not let the Americans get their hands on all possible avenues of new trade. It is said that the Americans by reason of a general financial depression are not in a position to make the most of their opportunities; a man from New York, who was in the city yesterday, said the conditions in the American metropolises were nearly desperate, the situation of business and the number of unemployed being the greatest ever known.

HEARTLESS; RUNS AWAY; LEAVES BABY

WILL SOLDIERS OR LABORERS BOARD SHIPS

Sad case reported in county—Husband in jail, wife deserts, child in Municipal Home.

A sad case has taken place in the county, and in which County Police Officer Saunders has played an active part. About two weeks ago George Cameron alias George McCord, with his wife and their nine months' old boy were residing in James Connell's house in the county, when after having some words with his wife, Cameron gave her a beating. Policeman Saunders was called on and placed the wife under arrest. He was taken before the county magistrate and sent to jail to serve a term of a month. About a week ago the wife, who had been beaten, became tired of her surroundings, and having no means of paying her way, thought it best to make a change. She made a quiet get-away without even notifying the Connell family, and when she left she managed to take with her a coat valued at \$14 and also a hat, and now Policeman Saunders is scouring the country trying to locate the woman. Mrs. Cameron has since then changed her face if located, which is even more serious than taking the clothing, as she abandoned the little boy.

The child was taken by the kind hearted police officer to some friends of his in the neighborhood where it was cared for until last evening when the county officials made arrangements for its care and last evening the policeman took it in charge, wrapped it up warm and took it to the Municipal Home.

The child cried bitterly all the way in the road and wailed its mother, and it is hoped by the officer that he will be able to capture the woman. There is a possibility of her spending a term in prison if the officer ever gets her in custody.

The father of the child has yet two weeks to spend in jail, and it is reported he will, when that time is up, be taken to Moncton where, it is said, he is wanted by the Moncton police on the charge of jumping bail in a case in the railway town some time ago.

Speculation as to whether transport department or longshoremen will do the work.

There has been some speculation as to whether the British Government in arranging for the shipment of horses and grain through St. John this winter employ soldiers or longshoremen to load ships. On this point military men here have no definite knowledge. Soldiers members of the rural squadrons of the 28th N. B. Dragoons are now being employed, in connection with the establishment of a remount depot on the barracks grounds. But it was said that the dragoons had been selected primarily to act as a guard over the army horses being assembled here.

So far as to the shipments of horses the longshoremen here do not appear to be much concerned as to who will put them aboard the ships. Gangways will be rigged so that horses can be led aboard and taken to the different decks, and it is expected that the time required to rush a cargo of horses aboard will be very small, and it will not make much difference whether the horses are led aboard by soldiers receiving \$1.10 a day or longshoremen receiving \$3.50 or more.

However, if the horses have to be swung aboard in slings and lowered to the different decks it is naturally expected that the longshoremen will do the work, rather than soldiers who might know nothing about it.

In regard to the shipment of grain, which may be sent forward under the auspices of the British government, the idea that soldiers may be required to load it is scouted by longshoremen. So far as military men here know it is not likely that the government will ask soldiers to do longshore work of this nature.

"If the British government put soldiers receiving a dollar and ten cents a day to do the work for which longshoremen receive a much larger wage, it would put itself in the position of a strike breaker, and arouse tremendous indignation among the working class throughout Canada," said a longshoreman yesterday.

WHITE AND WALSH SIGN UP.

Chicago, Oct. 13.—Freddie Walsh, champion lightweight boxer, and Charley White, of Chicago, have signed articles for a ten round boxing match in Milwaukee on November 9, according to an announcement here today. The men will weigh in at 133 pounds at five o'clock.

NOTICE
