# TO THE PROFESSION

And Students in Medicine.

We have much pleasure in calling your attention to our carefully selected stock of

## MEDICAL AND SCIENTIFIC WORKS.

In each department will be found the latest books and newest editions, as well as the *Standard Works* in every day use.

## NEW BOOKS AND NEW EDITIONS

Follow each other so rapidly now-a-days that it is almost impossible for us to keep abreast with catalogues. We are, however, always ready to furnish M.S. lists, or answer inquiries.

The Great London Publishing Houses :

CHURCHILL, SMITH, ELDER & CO.,

BAILLIERIE, MACMILLAN, LEWIS,

LONGMANS, LIVINGSTON, &c.

And the American Publishers :

BLAKISTON, WOOD, LEA,

APPLETON, PUTNAM, DAVIS, &c.

Are always well represented in our stock, and we carry a good selection of their publications.

## STUDENTS IN THE DIFFERENT COLLEGES

Will always find us well supplied.

## THE PROFESSION

In town and country may always expect to find the new and important works on our shelves.

## CORRESPONDENCE SOLICITED.

The general departments are always well supplied with Canadian, English, American and Foreign Books.

*Mailing Orders from a distance carefully packed.*

**WILLIAMSON & CO.,**

**DEALERS IN PHYSICIANS SUPPLIES.**

TORONTO, ONT., June 14th, 1892.

*To the Students of the Woman's Medical College,*

**W**E desire to draw your attention to our large and varied stock of Physicians Supplies.

The stock embraces complete lines of the Pharmaceutical products of Messrs. Park, Davis & Co., Jno. Wyeth & Bro., Henry K. Wampole & Co., as well as a full assortment of Antiseptic Dressings, Bandages, Silk and Cat gut Ligatures, Suture Wire, etc., etc.

Among miscellaneous specialties may be mentioned Nitrite Amyl Pearls, Medical Dry Cell Batteries, Medical Books, Atomisers, Gelatole Preparations, Gauzes in Glass, Hypodermic Syringes, Soluble Elastic Filled Capsules, etc. Our stock embraces all those articles with which the student as a physician will be expected to be familiar, and we will take pleasure in introducing any student of the Woman's Medical College to the nature, physical appearance and uses of the manifold articles embraced in the designation *Physicians Supplies*.

We remain, very truly your friends,

ANNUAL ANNOUNCEMENT

OF THE

WOMAN'S MEDICAL COLLEGE

TORONTO.

The tenth session of the Faculty will be opened on Monday, October 3rd, 1892. Dr. Emily J. Irvine will deliver the Introductory Lecture at 3 p.m. The regular lectures will begin on October 4th, at 9 a.m., and will be continued for six months.

The new college building is one of the most complete of its kind in America. Among other rooms it contains a large Lecture Hall, fitted with special students' chairs, movable blackboards, chart frames, etc.; the Microscopical Laboratory, on the 1st floor, is modelled after the Biological Department of Toronto University, and each student is provided with the requisite space and appliances for the best work in Microscopy. On the same floor is the large Chemical Laboratory, fully equipped, and with accommodation for 37 students. Adjoining the Microscopy room is a commodious waiting-room, set apart entirely for the use of the students, and provided with books and journals; connected with this room is a students' lavatory.

The dissecting-room, is entirely separated from the main building and thus conduces to the health and comfort of the students.

Recognizing the great importance of the clinical study of Diseases of Women and Children to women students, the Faculty have still further amplified the course of instruction on these subjects by the addition of special practical instruction in Gynaecology and Diseases of Children.

To give students increased facilities for obtaining a practical knowledge of Obstetrics, an Extern Maternity Department has been established. By this means it is hoped that the students will receive such advantages as have never heretofore been placed at their disposal in Canada.

The course in Pathology and Microscopy has been arranged in conformity with the recent advanced requirements of the Medical Council of Ontario.

Forestalling the new Regulations of the College of Physicians and Surgeons, the Faculty have deemed it wise to afford its students the benefit of courses of Lectures in Practical Pharmacy, and in Mental Diseases.

One Summer Session being now compulsory upon every student in Medicine proceeding to a degree in Ontario, the Faculty have arranged for a thoroughly practical course, full particulars of which will be found on a succeeding page.

That the students of the College still make good use of the advantages placed at their disposal will be readily seen by reference to the record of their successes at the various examinations of 1892. (See pages 31, 32.)

Students of the Woman's Medical College may proceed to their degree before the University of Trinity College, or Toronto University. Intending students should determine, early in the session, to which degree they will proceed, so that they may be enabled to conform with the special regulations of the various Universities.

To encourage women to enter the Foreign Mission Field in connection with the various religious bodies, the Faculty admit such students to lectures for two-thirds of the regular fees, with the exception of those for registration and examinations; but each applicant for this reduction must furnish a certificate from the Foreign Mission Society under whose auspices she is, and also give a personal engagement to prosecute medical work abroad.

The Faculty of Knox College have cordially agreed to provide a special course of lectures in Theology to any Presbyterian students preparing for the mission field, and the Faculty of McMaster Hall will, it is expected, afford the same advantages to students of the Baptist mission.

It is open to women who do not contemplate pursuing the study of medicine with a view to professional practice to attend one or more of the courses of lectures, on payment of special fees.

The Parliament Street and the College and Carlton Street cars of the Toronto Street Railway pass every five minutes within a few yards of the Woman's Medical College.

47 Grosvenor Street, Toronto ; *or*

At the College.

### Hints for Intending Students in Medicine.

1. The License to Practise in the Province of Ontario can be obtained ONLY by passing the prescribed examinations of the College of Physicians and Surgeons of Ontario (page 26). N.B.—University degrees do not confer the license to practise in Ontario.

2. A Degree in Medicine can be obtained ONLY by passing the prescribed examinations of either the University of Trinity College (page 19), or Toronto University (page 22).

3. The Lecture Tickets of the Woman's Medical College are accepted by all the above mentioned examining bodies.

4. Students may be matriculated before the College of Physicians and Surgeons, or any one of the Universities, by passing the Pass University Departmental Art Matriculation, with the prescribed Science course added and compulsory, (viz., the Science course in Chemistry and Physics prescribed in the Junior Leaving Examination of the Education Department).

5. To attend lectures at the Woman's Medical College, no matriculation examination is required.

### PRACTICAL COURSES.

#### Anatomy.

*Lecturer*, . . . . . J. T. DUNCAN.

*Assistant-Lecturer*, . . . . . G. S. CLELAND.

*Demonstrator*, . . . . . S. P. BOYLE.

Assistant-Demonstrators, { L. A. DAVIS,  
JENNIE GRAY.

Lecturer in Topographical Anatomy. . B. E. MCKENZIE.

Anatomy is taught in the most practical manner possible, and its relation to Medicine and Surgery fully considered. The lectures are illustrated by the fresh subject, moist and dry preparations, sections, models and plates, and drawings on the blackboard.

The department of *Practical Anatomy* is under the direct control and personal supervision of the Lecturer on Anatomy, assisted by his staff of Demonstrators.

The methods of teaching are similar to those of the best European schools, and students are thoroughly grounded in this branch.

Every student must be examined *at least* three times in each part dissected, and no certificate is given unless the examinations are satisfactory.

Special demonstrations on the Brain, Thorax, Abdomen, Bones, etc., are frequently given.

The dissecting-room is open from 8 a.m. to 6 p.m. daily.

The Demonstrator will be present from 10 to 12 a.m. at least four days in the week, and one of the Assistant-Demonstrators will be present at other times.

### Normal and Pathological Histology and Bacteriology.

Lecturer, . . . . . GEORGE ACHESON.

Assistant-Demonstrators, . . . S. P. BOYLE, E. J. IRVINE.

The course in Pathology will comprise—

1. Lecture demonstrations on Elementary Pathology to students of the 3rd year.
2. Lecture demonstrations on advanced Pathology to students of the 4th year.
3. Fifteen demonstrations yearly of at least two hours length in Pathological Microscopy to students of both years.

Gross specimens will be presented as frequently as possible.

Each student will be provided at the commencement of the session with a microscope, and a number of slides, cover glasses, staining reagents, etc., and assigned a table and locker—for all of which she

will be

will be held strictly responsible. There will be a laboratory fee of \$5.00, which will be returned at the end of the session, less a deduction for breakages, etc., payable to the Secretary.

The course in Histology will consist of Weekly Demonstrations of two hours each. Students will be fully instructed in the technique of Microscopy, and in the preparation and mounting of specimens. Each student will be expected to possess by the end of the session a cabinet of at least fifty specimens of her own preparations which will be of great use in practice.

As in Pathology, every student will be provided with a microscope, etc., for which she must deposit at the beginning of the session a laboratory fee of \$5.00, which will be returned at the end of the session, less a deduction for any breakages, etc., payable to the Secretary.

Any student desiring at the end of the session to purchase her microscope may do so at cost price. Each student may thus obtain a microscope at a much more reasonable rate than is possible elsewhere.

### Chemistry.

<i>Practical Chemistry</i> , . . .	A. R. PYNE.
<i>Inorganic</i> " . . .	E. B. SHUTTLEWORTH.
<i>Organic</i> " . . .	G. CHAMBERS.

The practical course includes two or more hours laboratory work, once a week, throughout the session.

The students are instructed individually in chemical manipulations, blow-pipe analysis, and qualitative determination of the salts, acids, etc., they will require to use in practice.

Each student will be provided at the beginning of the season with a set of reagents, sandbath, blow-pipe, drawer and locker, Bunsen burner, etc.

There will be a laboratory fee of \$3.00, payable to the Secretary, which will be returned at the end of the session, less a deduction for breakages, etc.

### Maternity Department.

*Lecturer,* . . . . . H. T. MACHELL.

*Assistant Accoucheurs,* . . . S. P. BOYLE, L. A. DAVIS,

J. THOMAS, J. W. LYND.

This department will be under the direct supervision of the Lecturer in Obstetrics, aided by the Assistant Accoucheurs.

Students who have attended one course of Lectures in Midwifery will be furnished with cases in rotation, which they will be required to report and attend till convalescence.

Every facility will be afforded for acquiring a practical knowledge of the various obstetric manipulations.

The fee for this department will be \$8.00.

### Ophthalmology, Otology, Etc.

*Lecturer and Instructor,* . . . D. J. GIBB WISHART.

A dark room has been especially fitted up in the new building, and ophthalmoscopes, mirrors, etc., are provided, so that each student will receive a thorough course of instruction in the accurate handling of these instruments, and in the observation of the normal appearances of the eye, ear, throat and nose.

### HOSPITALS.

Women preparing to undertake the arduous duties connected with missionary work, will in Toronto find special inducements in the study of disease. The city being in a central position and connected with so many lines of railway and steamboats, its hospitals often receive foreigners suffering from diseases indigenous to their respective countries, thus affording to students a wide field for the study of rare and peculiar forms of disease.

#### The Toronto General Hospital.

This hospital, situated directly opposite the Woman's Medical College, includes the *Mercer Hospital for diseases of the Eye and Ear* and the *Burnside Lying-in Hospital*. It contains 350 beds and is the largest and best conducted hospital in the Province. During

last year 3,385 in-patients were admitted, and 10,929 of out-patients received treatment in the out-door department. Particular arrangements have been made for the benefit of the students of the Woman's Medical College. Special seats in the operating theatre, with a separate entrance, are set apart for their use. Practical instructions at the bedside will be given in the hospital wards by Dr. Nevitt and Dr. Macdonald. These classes are exclusively for students of the Woman's Medical College. A limited number of Clinical Clerkships may be obtained by students of the final year on application to the above-named gentlemen. Every opportunity will be afforded for the most careful study of disease in all its forms. *Post mortems*, to which women alone will be admitted, are held, of which due notice is given. The regular Clinical Lectures given daily in the large theatre by the various professors are open to the women students.

The out-patients Clinics take place daily at 1.30 o'clock. Students of the Woman's Medical College will receive special attention on Mondays from Dr. McMahon.

Dr. Jas. F. W. Ross will give a weekly Clinic in Gynaecology to the final students, at which every opportunity will be given for personal examination of the patients.

#### The Victoria Hospital for Sick Children.

This large and commodious hospital, with 160 beds, is situated on College St., in direct street-car communication with the College. This is the only hospital wholly devoted to diseases of children in Canada, and with its most approved modern appliances, and the excellent Intern, Extern, and Dispensing Departments, affords unrivalled advantages to the students of the Woman's Medical College.

Clinics in Diseases of Children will be delivered in this hospital twice a week by Drs. Nevitt, Macallum, Thistle, McKenzie and Machell.

Students desiring Clinical Clerkships are requested to apply to any of the above.

#### The Toronto Dispensary.

The City Dispensary is situated on Simcoe St., and has one of the largest and most varied Extern Clinics in the Province. Dr.

Ross will  
on Tues-  
G. B. Sn

Ross will give Clinical instruction in Gynæcology in the Dispensary on Tuesdays and Fridays to students of the Woman's College. Dr. G. B. Smith gives excellent opportunities to the students for minor operations and case diagnosis.

### Other Charities.

The students of the Woman's Medical College will have opportunity from time to time of attending Clinics on interesting cases in the Home for Incurables, the House of Providence, the Infant's Home, Girls' Home, etc.

### College Examinations.

1. College examinations may be held at the end of each session by the Lecturers.

2. No candidate will be considered as having passed any College examination who has not obtained at least 50 per cent. of the aggregate number of marks allotted to such examination. Nor will a candidate be considered as having passed on any individual subject who has not obtained at least one-third of the marks allotted to such subject.

3. To obtain Honors in any College examination, or any single subject of such examination, 75 per cent. of the aggregate marks allotted to such examination or single subject will be required to entitle the candidate to the standing of First-Class Honors, and 66 per cent. to that of Second-Class Honors.

4. In determining the relative standing of the candidates presenting themselves at the several College examinations, the comparative value of the subjects will be estimated according to the following schedule:

#### First Examination.

1. Anatomy—Bones, Muscles, Ligaments, Viscera of Abdomen and Thorax	200
2. Practical Examination in Anatomy	100
3. Physiology—Digestion, Circulation, and Respiration	200
4. Inorganic Chemistry	150
5. Botany	50
6. Materia Medica	100
	<hr/> 800

**Second Examination.**

1. Anatomy.....	20
2. Practical Anatomy.....	100
3. Physiology.....	200

4. Forensic Medicine.....	100
5. Sanitary Science.....	100
6. Medical, Surgical and Topographical Anatomy.....	100
7. General Pathology.....	100
	<hr/> 1050

**Diplomas.**

Diplomas will be awarded at the close of the final examination to successful candidates.

The candidates for Diplomas must furnish satisfactory proof,

1. Of having attended a full course of Lectures in the Primary and Final branches of the Woman's Medical College, Toronto.

2. Of having spent four entire years in the study of Medicine at some recognized University, College, or School, the last of which must be attended at this College.

3. Of having passed the Faculty Examination at the end of their fourth year.

ANATOM

1. A prize in Books or Instruments, awarded for the best examination, written or oral, in the Final branches.

2. A prize in Books or Instruments, awarded for the best examination, written or oral, in Primary branches.

3. A prize in Books or Instruments, for the best sessional examination in Therapeutics.

Candidates must in all cases give satisfactory evidence of regular attendance at Lectures during the session.

To obtain any of the aforementioned prizes, candidates must pass the prescribed examination with First-Class Honors.

4. A Special Prize will be awarded to the student passing the best examination in Anatomy in the first and second years respectively. The examination will be both written and practical. In order to compete for these prizes, students must take the regular examination for the year in all subjects. The prizes will not be awarded unless First-Class Honors are taken in Anatomy, and the standing in the other subjects must be to the satisfaction of the Faculty.

#### Fees.

The total Collegiate fees for all students taking a full course of four years at this College will be \$360.00. This sum to be paid in four annual instalments of \$90.00. The above sum of \$360.00 includes enrolment, tuition for four Winter and one Summer Sessions, examination fees, and fee for Diploma. If the student elect to attend the two other Summer Sessions of the course, she may do so without further payment.

The fees to be paid by students taking special courses, or students entering from other Colleges, will in all cases be a matter of special arrangement by the Faculty.

#### Hospital Fees.

Toronto General Hospital—Perpetual Ticket, \$24.00.

Toronto Dispensary (6 months)—\$2.50.

Victoria Hospital (one year)—\$6.00. Perpetual Ticket \$15.00.

#### Text-Books.

The following are the Text-Books recommended by the Lecturers in the various departments:

ANATOMY—Gray, with Holden's Landmarks; Quain, Heath's Dissector, or Ellis' Dissector.

PHYSIOLOGY—Foster, Kirk, Vee.  
 CHEMISTRY—Roscoe, Remsen, Wilson, Armstrong.  
 PRACTICAL CHEMISTRY—Jones, Croft.  
 THERAPEUTICS, MATERIA MEDICA—Wood, Mitchell-Bruce, Brunto  
 SURGERY—Erichsen, Ashhurst, Bryant, Mansell-Moulin.  
 MEDICINE—Roberts, Taylor, Flint, Fagge, and Osler.  
 MIDWIFERY—Playfair, Galabin.  
 GYNÆCOLOGY—Hart and Barbour, Goodell, Emmett, or Skene.  
 MEDICAL JURISPRUDENCE and TOXICOLOGY—Reese, or Guy and  
 Ferrier; for reference, Taylor, and Woodman and Tidy.  
 PATHOLOGY—Ziegler, Hamilton.  
 MEDICAL and SURGICAL ANATOMY—Treves, McLachlan, Bellamy,  
 Owen.  
 ORTHOPÆDICS—Gibney, Sayre, Marsh, Bradford.  
 SANITARY SCIENCE—Wilson's Handbook, Manual Ont. Bd. of Health.  
 HISTOLOGY—Klein, Schafer.  
 EYE, EAR, NOSE, and THROAT—Swanzy, Buck, 'Bosworth', Jackson and  
 Gleason.  
 BOTANY—Spotton.

### SUMMER SESSION, 1893.

The Summer Session of the Woman's Medical College will commence on Monday, April 24th and continue for ten weeks.

It will be open to any woman medical student on payment of the regular fees.

In making arrangements for the Summer Session, the Faculty have endeavored to give a course essentially practical in its nature, which will consist of Lectures and Practical Instruction in the College and Clinical Instruction in the General Hospital, the Hospital for Sick Children, Toronto Dispensary, College Maternity Dispensary, etc.

A special feature of this course is the attention devoted to the Departments of Gynæcology and Diseases of Children. Clinics in each subject will be held, at which students will receive practical instruction in the Examination of Patients, etc., and if so desired, additional instruction for two hours a week, in Gynæcology, may be arranged for at the Toronto Dispensary, under Dr. Ross.

The Extern Maternity Department affords ample opportunity for a practical training in the conduct of Accouchment and is under the direct supervision of thoroughly qualified instructors.

The fee for the entire course will be \$50, payable on or before the 10th of May.

The fees to be paid by students taking special courses, or students entering from other Colleges, will in all cases be a matter of special arrangement by the Faculty.

The following Courses will be given in the College :

- DR. A. R. PYNE—Practical Examination of Urine, Chemical and Microscopical, to include the recognition of pus, bile, hæmatin crystals, blood, etc.
- DR. POWELL—Practical Surgery, including operations on the cadaver, bandaging, and the use of surgical instruments.
- DR. AUGUSTA GULEN—Dietetics, Nursing and the management of the Sick-room.
- DR. B. E. MCKENZIE—Applied Anatomy, including demonstrations with cross sections and prepared dissections.
- DR. WISHART—Practical instruction in the dark room in the use of the Ophthalmoscope, Laryngoscope, and Rhinoscope (a set of instruments is provided for each member of the class).
- DR. JAS. F. W. ROSS—Abdominal Surgery. Surgical treatment of Abscess and Hydatids of Liver ; Diseases of Gall Bladder, Spleen, Intestines, and Peritoneum ; Cysts of Urachus, Appendicitis, etc.
- DR. G. B. SMITH—Posology and Prescription Writing with a view to the preparation of elegant and palatable mixtures.
- DR. L. M. SWEETNAM—Electro-Therapeutics.
- DR. W. B. THISTLE—The elements of Diseases of the Nervous System. A series of illustrated demonstrations.

#### Clinical Instruction.

- DR. McMAHON, Out-Patients, at the General Hospital.
- DR. MACDONALD, Medicine, " " "
- DR. THISTLE, and
- DR. MACCALLUM, Children, " Victoria "
- DR. ROSS, Gynecology, " General "
- DR. NEVITT, Surgery, " " "
- DR. MCKENZIE, Orthopædics, " Victoria "

Students may also attend other Clinics at the Hospital at 2 p.m. daily, and at the Toronto Dispensary (Simcoe St.) at 12 a.m. daily.

Special fees are charged by the Hospitals and Dispensary for occasional students.

There will be opportunities for attendance at *post mortems* during the session, of which due notice will be given.

The Maternity Dispensary will also be open for those desiring Practical Obstetrical instruction. Additional Courses may be added.

## STUDENTS' SOCIETIES.

### The Students' Association.

Officers for 1892-93:

<i>Hon. President,</i>	DR. A. STOWE GULLEN.
<i>President,</i>	MISS M. M. BRANDER.
<i>Vice-President,</i>	MISS G. HULET.
<i>Secretary,</i>	MISS E. HURDON.
<i>Treasurer,</i>	(To be elected from among the first-year students).

This society meets fortnightly for the reading and discussion of reports of Clinical cases, and the examination of Pathological specimens.

A prominent feature of the society is the open meetings, when addresses are delivered by prominent ladies and gentlemen, and vocal and instrumental selections are rendered.

It serves to promote social intercourse and scientific work among the students.

In connection with the Association there is a reading and assembly room, where leading medical and other publications are kept on file, and where the students may gather between the lectures.

A students' library is in course of formation.

### Young Women's Christian Association.

Officers for 1892-93:

<i>Hon. President,</i>	MRS. J. HARVIE.
<i>President</i>	
<i>Vice-President.</i>	MISS J. DOW.
<i>Recording-Secretary,</i>	MISS P. SMITH.
<i>Corresponding-Secretary,</i>	MISS J. S. SHIRRA.
<i>Treasurer,</i>	MISS M. H. IRWIN.

The Association meets at 5 o'clock every Wednesday afternoon throughout the session, in the students' room.

Missionary meetings are held monthly, and Bible readings every fortnight.

The proceedings of the Association last year were characterized by great earnestness and a deep interest in spiritual things.

## UNIVERSITY OF TRINITY COLLEGE, TORONTO.

*Incorporated by Royal Charter.*

### Excerpts from the Proceedings in Medicine.

#### DOCTOR OF MEDICINE, AND MASTER OF SURGERY.

The candidate for a Degree in Medicine must have matriculated in that Faculty or in Arts, (in the latter if they desire to practise in Ontario).

The candidate for Degrees in Medicine or Surgery must be of the full age of twenty-one years.

She must furnish certificates of having attended *four Winter Sessions* at some Medical College recognized by the University, except she be a graduate in Arts or Science, when attendance at three Winter Sessions will be accepted.

Before admission to the Primary Examination in Medicine, she must have attended in some recognized Medical College two courses of Lectures of six months each on

Descriptive Anatomy, Practical Anatomy, General Chemistry, Materia Medica and Therapeutics, Physiology, including Histology.

and one course of three months on each of the following subjects: Botany, Practical Chemistry, including Toxicology.

Before admission to the Final Examination, she must further have attended two courses of Lectures of six months each in some recognized Medical College on

Theory and Practice of Medicine, Medical Pathology, Principles and Practice of Surgery, Midwifery and Diseases of Women and Children.

and two courses of three months each on

Medical Jurisprudence.

and one course of three months on  
Sanitary Science.

She must have attended for at least *eighteen* months the practice of some General Hospital, and, during two sessions, Clinical Lectures on Medicine and Surgery.

She must have attended for at least six months the practice of a Lying-in-Hospital, or give satisfactory evidence of having otherwise enjoyed equivalent advantages of gaining obstetrical knowledge, with a certificate of attendance upon at least six cases of labor.

She must have passed two University Examinations, called the Primary and the Final Examinations in Medicine.

Before admission to the Primary Examination, she must produce a certificate that she has passed the First Year Examination in some recognized Medical College.

#### PRIMARY EXAMINATION IN MEDICINE.

This Examination may be passed at the end of the Second Year. The subjects are: Anatomy, Descriptive and Surgical; Physiology, including Histology, Chemical Physics, and General Chemistry, Practical Chemistry, Botany, Materia Medica and Therapeutics, and Toxicology. In 1894, a separate paper will be set in Surgical Anatomy.

The Primary Examinations of other recognized Universities, and that of the College of Physicians for Ontario, Quebec, or Manitoba, will be accepted in lieu of the University Primary Examination, provided that the candidate shall in all cases pay the full fee for the Degree; but if any of the subjects of the Primary Examination do not form part of the Examination allowed, the candidate shall be required to take such subjects together with her Final Examination.

Graduates in Honors in Physical and Natural Science of at least Second-Class standing of any recognized University shall not be required to take such subjects of the Primary Examination, as they have already passed in their University Honor Examination.

#### FINAL EXAMINATION IN MEDICINE.

The Examination shall take place at the end of the Fourth Year. The subjects are: Theory and Practice of Medicine, Medical Pathology, Principles and Practice of Surgery, Surgical Pathology, Clinical

cal Medicine, Clinical Surgery, Midwifery and Diseases of Women and Children, Medical Jurisprudence, Sanitary Science.

In 1895 a separate paper will be set on Medical Pathology with an examination in Practical Pathology, and in 1896 there will be a paper on Pathology, Medical and Surgical; also instead of one paper on Midwifery and Diseases of Women and Children, there will be two papers, one on Midwifery, and the other on Gynæcology and Diseases of Children.

In order that a candidate may pass in either of these Examinations she must obtain thirty-three per cent. of the marks assigned to each paper, and fifty per cent. of the total marks of the Examination. Candidates who satisfy the Examiners will be arranged in three classes in order of merit, the standard for the first and second class respectively being seventy and sixty per cent. of the total marks of the Examination.

Candidates who do not pass in at least three of the subjects of Examination in the Examinations of the Faculty of Medicine, obtaining thirty-three per cent. of the marks of each paper, and fifty per cent. of the total marks of these subjects, shall be deemed to have failed altogether in the Examination. Candidates who pass in three subjects at least, obtaining the requisite single and total marks, as above, may be allowed to take the remaining subjects at the next following and subsequent Examinations, provided that a candidate shall not be given credit for any portion of the Examination unless she shall have obtained at least thirty-three per cent. of the marks of each paper, and at least fifty per cent. of the total marks of such part of the Examination.

Candidates in the First-Class of the Final or the Primary Examination in Medicine shall be awarded Certificates of Honor, provided they obtain at least seventy-five per cent. of the marks of the Examination.

The Primary and Final Examinations may be taken together at the end of the Fourth Year.

The Registrar will see medical students in his office at Trinity College on Saturdays from 11 to 1.30, and on other week days from 12 to 1.30.

### Fees for Examination and Degrees.

For Matriculation .....	\$5 00
For Registration in Medicine of a candidate not examined by the University .....	1 00
For Degree M. D., C. M. ....	24 00

The fee for the Degree of M. D., C. M., shall be paid by the candidate as follows : \$10 before presenting herself for the Primary Examination, and \$14 before presenting herself for the Final examination. Candidates rejected at either Examination shall be entitled to have the fee returned to them, less \$5. Candidates conditioned may present themselves subsequently for examination without payment of any further fee, except at the supplementals, when the fee will be \$5.

### UNIVERSITY OF TORONTO.

#### Excerpts from the Regulations Relating to the Examinations and Granting of Degrees.

##### DEGREE OF M. B.

There are two ordinary modes of proceeding to the degree of M. B., viz., (1) by taking a Pass Course ; (2) an Honor Course.

##### ENTRANCE.

Candidates for a Degree must pass the Matriculation Examination unless (1) they possess a Degree in Arts, not being an Honorary Degree, from any Dominion or British University, or (2) have already matriculated in the Faculty of Arts or of Law in this University, or (3) have passed an examination entitling them to be registered as matriculants in the College of Physicians and Surgeons of Ontario.

Before presenting themselves for examination, candidates must produce satisfactory certificates of good conduct, and of having completed the sixteenth year of their age.

The Ordinary Annual Matriculation Examination (both Pass and Honors) will commence in the beginning of July.

Supplemental Matriculation Examinations will be held in the latter part of September, at which new candidates may offer themselves.

The Matriculation Fee must be paid to the Registrar at least three weeks before the date of commencement of Examination.

Candidates may delay presenting themselves for the Matriculation Examination until any time before the Final Examination.

### Regulations Relating to Undergraduates.

Undergraduates are required to attend Lectures, and receive practical instruction during each of the four years at one or other of the Schools of Medicine recognized for this purpose by the University.

Each undergraduate at the end of each year of her course must present herself at the annual Examination of that particular year, except in the case of those who elect to take a Primary and Final Examination; and those so electing will not be allowed to compete for Honors or Scholarships.

Undergraduates below the standing of the Fourth Year, who have been rejected, or prevented from attending the Annual Examinations by sickness, domestic affliction, or other cause beyond their control, may present themselves for examination at the September Supplemental Examination. Candidates of any year, who have passed a creditable examination in the majority of the subjects required may present themselves at the Supplemental Examinations next ensuing in the subjects in which they failed, and upon passing at such Examinations shall be allowed their year. Candidates who failed to attend at the Annual Examinations must prove to the satisfaction of the Vice-Chancellor, before presenting themselves in September, the existence and sufficiency of the alleged cause of absence. Candidates who were rejected must pay a fee of ten dollars, and those who did not attend, a fee of five dollars, before offering themselves for the Supplementary Examinations.

Graduates in Arts of the University may enter at the Second Examination, but must take such subjects of the First Examination as they have not taken in their Arts Course.

Candidates must obtain at least one-half of the total marks in each

Examination, and one-third of those assigned to each subject in order to pass.

Certificates required for the different Examinations.

#### First Examination—

(1) Of having attended Lectures in the following subjects :

Anatomy (50 lectures), Physiology (50 lectures and demonstrations), Inorganic Chemistry (50 lectures), Physics (25 lectures and demonstrations), Biology (40 lectures), Practical Chemistry and Practical Biology (each 50 hours).

(2) Of practical instruction in Anatomy during six months.

#### Second Examination—

(1) Of having attended Lectures on the following subjects :

Courses of 50 Lectures each in Anatomy, Physiology, Organic Chemistry, Materia Medica and Elementary Therapeutics.

(2) Practical Laboratory Demonstration and Instruction in Physiology (50) Pharmacy (3 months), Chemistry (50 hours), Embryology and Histology (50 hours).

(3) Practical instruction in Anatomy (second course of six months).

#### Third Examination—

Of having attended lectures on the following subjects.

Courses of 50 Lectures each in Medicine, Surgery, Obstetrics, Pathology, Clinical Surgery and Clinical Medicine, Medical Jurisprudence, Therapeutics and Materia Medica, and a course of 50 hours in Practical Pathology.

#### Fourth Examination—

(1) Of having attended courses of 50 Lectures each on Medicine, Surgery, Pathology, Clinical Medicine, Clinical Surgery, Gynecology and Medical Jurisprudence and Toxicology, courses of 50 hours each in Practical Pathology and Topographical Anatomy, of 25 lectures in Hygiene, and 12 lectures in Medical Psychology.

(2) Of having conducted at least 6 labors. } Certificates received from any  
(3) Of Proficiency in Vaccination. } registered Practitioner.

(4) Of attendance for eighteen months in the Wards of a Public Hospital having not less than 100 beds.

(5) Of attendance for 12 months on the Out-practice of a Hospital, Dispensary or registered Practitioner.

(6) Of attending 12 Autopsies.

(7) Of being skilled in compounding and dispensing drugs, and shall set forth that the candidate has been engaged for a period of at least three months in such work.

(This certificate may be from a registered Practitioner, the Apothecary of a Public Hospital or of a Public Dispensary, or from a member of the Pharmaceutical Societies of Ontario or Quebec.)

The Certificates required for the Primary Examination are the same as those required for First and Second Examinations. For the Final Examinations, the same as those required for the Third and Fourth Examinations.

Candidates taking Honors will be entitled to First Class Honors if they obtain seventy-five per cent. ; to Second Class Honors if they obtain sixty per cent. of the aggregate marks.

The Committee shall have power to allow any applicant desirous of presenting herself for any of the Examinations in the Faculty of Medicine (except the Final Examination) any Examination which she may have passed in any other University or School of Medicine, upon production of proper certificates showing her standing in such University or School of Medicine.

### Subjects of the Different Examinations.

#### FIRST EXAMINATION.

Anatomy, Physiology, Inorganic Chemistry, Biology (including Botany and Zoology), Physics.

#### SECOND EXAMINATION.

Elements of Organic Chemistry, Practical Chemistry, inclusive of Chemistry applied to Physiology, Anatomy, Physiology, Materia Medica, and Pharmacy, Embryology and Histology.

#### THIRD EXAMINATION.

Medicine, Surgery, General Pathology including Morbid Anatomy and the mode of conducting Autopsies, Obstetrics, Clinical Examinations in Medicine and Surgery, Therapeutics.

#### FOURTH EXAMINATION.

Medicine, Surgery, Obstetrics and Diseases of Women and Children, General and Special Pathology, Forensic Medicine, Hygiene, Medical Psychology, Clinical Examinations in Medicine and Surgery, Therapeutics, Topographical Anatomy.

#### PRIMARY EXAMINATION.

Anatomy, Physiology, Materia Medica and Pharmacy, Chemistry (Inorganic, Organic and Chemistry applied to Physiology), Biology, Embryology and Histology.

#### FINAL EXAMINATION.

Medicine, Clinical Medicine, Surgery, Clinical Surgery, Obstetrics and Diseases of Women and Children, Therapeutics, Medical Jurisprudence, General and Special Pathology and Pathological Histology, Hygiene, Mental Diseases, Topographical Anatomy.

Wherever possible practical as well as written examinations will be required.

### Medals, Prizes, and Certificates of Honor.

A Gold Medal and three Silver Medals are offered annually for competition among those students of the Medical Faculty who have succeeded in obtaining the Degree of M. B., with First Class Honors, and will be awarded according to the percentage of marks in the aggregate results of the Second, Third and Fourth Examination.

## COLLEGE OF PHYSICIANS AND SURGEONS OF ONTARIO.

### Regulations for 1892-93.

#### SECTION I.

#### MATRICULATION.

1. Every one desirous of being registered as a Matriculated Medical Student in the Register of this College, except as hereinafter provided, must on and after the 1st day of November, 1892, present to the Registrar of the College the Official Certificate of having passed the Pass University Departmental Art Matriculation Examination, with the prescribed Science course (*viz.*, Chemistry and Physics) added and compulsory, whereupon she shall be entitled to be so registered upon the payment of twenty dollars, and giving proof of identity.

2. *Up to November 1st of this year, Students may be Registered upon presenting to the Registrar of the College—the official certificate of having passed the Second Class Non-Professional Examination with Latin, or a certificate of having Matriculated in Arts in any University in Her Majesty's Dominions.*

3. Graduates in Arts, in any University in Her Majesty's dominions, are not required to pass this examination, but may register their names with the Registrar of the College upon giving satisfactory evidence of their identity and certificate of qualifications, and upon paying the fee of twenty dollars.

4. Every Medical Student after Matriculating shall be registered in the manner prescribed by the Council, and this will be held to be the preliminary to her Medical studies, which will not be considered to begin until after the date of such registration.

#### SECTION II.

#### MEDICAL CURRICULUM.

1. On and after the first of November, 1892, every Student must spend a period of five years in actual Professional studies, except as hereinafter provided; and the prescribed period of studies shall include four Winter Sessions of six months each and one Summer Session of ten weeks. The fifth year shall be devoted to Clinical work, six months of which may be spent with a Registered Practitioner in Ontario, and six months at one or more Public Hospitals, Dispensaries, or Laboratories devoted to Physiological or Pathological research, Canadian, British or Foreign, attended AFTER being registered as a Medical Student in the Register of the College of Physicians and Surgeons of Ontario,—“But any change in the curriculum of studies fixed by the Council shall not come into effect until one year after such change is made.”

2. Graduates in Arts or Science of any College or University recognized by the Council, who shall have spent a year in the study of Physics, Chemistry and Biology, and have passed an Examination in these subjects for degree in Arts or Science, shall be held to have completed the first year of the five years of Medical Study, and will only be required to pass three years after graduating in attendance upon Medical Studies, and one year thereafter in practical Clinical work before being admitted to their FINAL Examination.

*No tickets for Lectures will henceforward be accepted by the Council unless it is endorsed thereon that the pupil had attended at least 75 per cent of each course of said Lectures, as shown by the teacher's own roll.*

3. Applications for every Professional Examination must be made to the Registrar of the College of Physicians and Surgeons of Ontario two weeks prior to Examinations. No application will be received unless accompanied by the necessary tickets and certificates, and by the Treasurer's receipt showing the fees have been paid.

4. Each "Six Month's Course" shall consist of not less than Fifty Lectures, and each "Three Month's Course" of not less than twenty-five Lectures.

5. Every Student must attend the undermentioned courses of Lectures in a University, College or School of Medicine approved by the Council, viz. :

Two courses of not less than six months each (in different years) upon

Anatomy, Practical Anatomy, Physiology, (including Histology), Theoretical Chemistry, Materia Medica and Therapeutics, Principles and Practice of Medicine, Principles and Practice of Surgery, Midwifery and Diseases of Women, Clinical Medicine, Clinical Surgery.

One course of not less than six months each upon

Medical Jurisprudence, Medical Surgical and Topographical Anatomy.

Two courses of not less than three months each (in different years) upon

Diseases of Children, Practical Chemistry, (including Toxicology).

One course of not less than three months each upon

Sanitary Science, Practical Pharmacy.

One course of ten Lectures upon

Mental Diseases.

One course of fifty Demonstrations upon

Physiological Histology.

6. Every Candidate will be required to prove that she has carefully dissected the whole adult human body.

7. Also must have attended the practice of a General Hospital for twenty-four months during the first four years of study.

8. Also must have attended six cases of Midwifery.

9. Also, must before being registered as a member of the College of Physicians and Surgeons of Ontario, have passed all the Exami-

nations herein prescribed ; and attained the full age of twenty-one years.

10. Graduates in Medicine from recognized Colleges outside the Dominion of Canada, who desire to qualify themselves for registration, must pass the Matriculation required by the Council and must attend one or more full Winter Courses of Lectures in one of the Ontario Medical Schools, and must complete fully the Practical and Clinical Curriculum required by the Council after the fourth year, and shall pass before the Examiners appointed by the Council all the Examinations hereinafter prescribed, so as to complete fully the Curriculum.

### SECTION III.

### EXAMINATIONS.

1. The Professional Examinations are divided into three parts : a "Primary," "Intermediate" and "Final."

2. The Primary Examination shall be undergone after the second Winter Session, and the Intermediate after the third or fourth Winter Session, the Final after the fifth year.

The following branches shall be embraced in the Primary Examination :

Anatomy, Physiology and Histology, Chemistry, (Theoretical and Practical), Materia Medica and Pharmacy.

3. Each Candidate for the Primary Examination will be required to present with her Lecture Tickets, a Certificate of having undergone and passed an Examination at the School she has attended at the close of her first Winter Session, on Primary Branches. Also a Certificate of ability to make and mount Microscopic Specimens.

4. Each Candidate for Final Examination must present a Certificate of attendance at six post-mortem Examinations, and a Certificate of ability to draw up a Report of a Post Mortem Examination ; and a Certificate of having reported satisfactorily Six Cases of Clinical Medicine, and Six Cases of Clinical Surgery, and of having attended twenty-five Pathological Demonstrations, and of having passed her Intermediate Examination. 6. The Primary and Intermediate Examinations shall be "Written" and "Oral". The Final "Oral" and "Clinical."

7. The following branches will be embraced in the Final Examination :

Clinical Medicine, Clinical Surgery, (including Vaccination), Diseases of Women, Diseases of Children, Medical and Surgical.

8. Any Candidate who makes 60 per cent. in three or more branches, but fails in the others, shall receive credit for the subjects so passed, and be compelled to pass in the other branches *only* at a subsequent Examination.

9. The next Professional Examination will be held in Toronto and Kingston simultaneously, commencing on the second Tuesday in April, 1893.

N.B.—There will be a Supplemental Examination held in September, 1892.

#### SECTION IV.

#### FEEES.

The following scale of fees has been established by the Council of the College of Physicians and Surgeons of Ontario :

a. Registration of Matriculation.....	\$20 00
b. Primary Examination .....	30 00
c. Final Examination, including Registration.....	50 00
d. Each Examination subsequent to a failure to pass.....	\$20 00

These fees are to be paid to the Treasurer of the College before Examination.

## To the Medical Profession and Students

We have much pleasure in recommending  
the well-known firm of

J. A. CARVETH & CO.,

TORONTO,

as the most reliable to supply the latest publications  
of Medical Books, at lowest prices.

They carry the largest and most complete stock  
of Medical Books in Canada, and being specially  
appointed Agents for the Largest Foreign Publishing  
Houses, can in many cases supply their works at  
lower prices than any other Canadian House.

Catalogues sent free of charge upon application.

Address all communications regarding books to

J. A. Carveth & Co.,

413 Parliament Street,

TORONTO, ONT.
