Interesting Scientific Experiment.

already given some account of the examina-ton of the eye of a murdered man, at Aubern, has now brought it from Holland to exhibit by two physicians, with a view of testing the it in this country. truth of an assertion in an English paper that
the eye of a murdered man, by being subjected to a peculiar operation, will reveal the
object upon which it last rested. As the sub-

der was debis, evidently lost from the de-struction of the optic nerve, and its separadoubt but that we should have detected the last aid and impression made on the mind and eye of the unfortunate man. The thing would evidently be entire; and perhaps we should have the contour, or better still, the exact figure of the murderer. The last impression before death is always more terrible on the brain from fear than from any other cause; and figures impression any other than the fact of the first made a regular attack upon the ship, and was not come in contact with white cause is and power may be formed from the fact of me! just the cause; and figures impression any other than the fact of the blow and the fact that the second mate thought it looked heard Oid could not called the fish made a regular attack upon the ship and power may be formed from the fact of the blow and the fact that the second mate thought it looked. The could not could not called the fish made a regular attack upon the ship and power may be formed from the fact of the blow and the fact that the second mate thought it looked. The could not could not called the fish made a regular attack upon the ship, and power may be formed from the fact of the ship and power may be formed from the fact of the fish made a regular attack upon the ship, and was not come in contact with white called the fish made a regular attack upon the ship.

"I am give the could not could not could not called the fish made a regular attack upon the ship, and was not come in contact with white called the fish made a regular attack upon the ship.

"I am give the could not could not could not called the fish made a regular attack upon the ship.

"I am give the could not could not could not called the fish made a regular attack upon the ship.

"I am give the could not cou exact figure of the murderer. The last impression before death is always more terrible on the brain from fear than from any other cause; and figures impressed on the pupil more distinct, which we attribute to the optic nerve, and its free communication with the property of the communication with t

between the lips as in a live man. It is The Rochester Union says—"We have and Mr. Van Ockelen, the inventor, ha

object upon which it last rested. As the subject is one of considerable interest, we give the statement of the physicians in their own words.—

Shoular Offical Experiment.—From the wind at the rate of 9½ knots an hour. the circumstances of reading Dr. Forbes' received such a severe shock that she heelsystem of examination in the case of murder. ed over several strakes, and her way was which appeared in several of our papers a completely stopped, while the men who were few months ago, we have been induced to sleeping on the starboard berths of the topexercise a similar experiment on the eye of gallant forecastle were thrown out upon the unfortunate Beadle, and trust the result their chests. Shortly after the shock a will induce some of our renders to make the immeuse whale rose at a short distance from like experiments on the eyes of the brute the ship's quarter, and after lying motion-creation. At first we suggested the satura-less for a short time, as if stunned by the blow, swam towards the vessel, as if with tion of the eye in a weak solution of atrophine, which evidently produced an enlarged state of the pupil. On observing this, we touched the end of the optic nerve with the extract, when the eye instantly became protuberant. We now applied a powerful less, and discovered in the pupil the rude worns away-figure of a man, with a light coat, beside whom was a round stone, standing or suspended in the air with a small handle stuck as it were in the earth. The remainder was debis, evidently lost from the device on board to be from 30 to appeared to those on board to be from 30 to 40 feet out of the water. The pumps were sounded, but the ship was found to be maktion from the mother brain. Had we per-formed this operation when the eye was en-tire in the socket, with all its powerful con-nection with the brain, there is not the least

nerve, and its free communication with the brain. We believe the brain is more intimately connected with vision, than with either sense or taste, hearing or feeling, and from this very reason, that we are constantly seeing a variety of objects giving exercise to the brain for the quantity of idea.

C. P. SANDFORD, M. D. THOMAS BELLAMY, M. D. THOMAS BELLAMY, M. D. We will call them Mr. A. contracted about \$7,000 worth of feal estate. While acquiring this property, Mr. A. contracted about \$7,000 worth of debts, \$2,500 of which belonged to Mr. B. Mr. A. is not any more honest than the law allows. So the thought he would get rid of "those from the quantity of idea.

WILD HORSES.—Whenever several of the law allows any more honest than the law allows. So the thought he would get rid of "those farmer one day, in the brain of passion he poured upon him a torrent of lasset and his property to his niece, a fine looking girl under the influence of passion can reason the influence of passion can reason. nerve, and its free communication with the brain. We believe the brain is more inti-

European Entelligeuce.

ter numberless repetitions have grown so that and vapid. The Telegraph rants in the sompelled to admit that the Railway is progressing, are more than half ashamed to rethat the Government will be defeated at the very opening of the Session. They seem to have no complaint to make, and to be completely at a loss for that commodity most profitable to journalists—a good grievance.

When the Opposition thus loss heart, and

drc., cease, journals not in opposition feel the lose to be very serious, for our people are of such a disposition that they do not to read frequently, dissertations on the of affairs in Europe, or on matters and things Perley Poore, a gentleman of considerable such immense sums for constant repairs, yet in general. The abstract does not seem to celebrity as an author, recently, in fulfalment in this country, where cedar and hackmanouit them; they require to hear of something tangible, something local, something in short

Surely the Opposition press is not utter thoroughly exhausted. Surely the Government is not so excellent, or are their acts so faulties that come fav, or error, or blenish may not be discovered. We hope for our own sake that the Opposition are not wholly sileneed, but that they will find something new topsy for themselves or against their fees. CORRESPONDENCE.

WALTER GILLEY. St. Andrews, Nov. 4, 1858. - (3 i)

IMPORTANT TO EVERYBODY.

TOR the last three years, I have been engaged in a gase known only to myself, and, comparative others, whom I have instructed for the um of 200 deach, whichias severaged me state arate of 2,000 to dollars year amount; and having made arrangements of Europe in the first of 187 to segge in the said since, I am willing to give full instructions in the ampresent in the Chirich State or Canadas, who remail me the sam of I dollar. I am Induced, from success I have used favored with, and the many that chirologic ments I have been favored with and the many that the chirologic ments I have been favored with and the many that have also for the received from those method in hastracted, and who are making from 5 to 15 dollars.

Entructed, and who are making from those whom I be a making from 5 to 15 dollars it was at \$0, to give any person an opportunity to engage the business, which is easy, ishound and very postars at a multi-coat. There is positively No Haward in it matter. References of the bas since can be expected as a making coat and I can refer to persons whom have used unted, who will destify that they are making the other baloes or gentlemen, can engage, as which parfect east make a very handsome income. Ser at leadies in various parts of New York State, Pennsy can, and Maryland, whom I have instructed, are as almost a continuous and but a few shalling to strength of the other baloes. The continuous and but a few shalling to strength of the other baloes. All forms are the statement of the other baloes are the continuous and but a few shalling to strength of the other baloes. All betters must be addressed from the reference of I dollar I'm illuminations and increases. All letters must be addressed from the research of the case be perfectly unformation. Notember 185.

AYER'S PILLS

A NEW and singularly successful remedy for the A cure of all Billious diseases.—Costiveness, Indigestion, Jaundice, Dropsy, Rhematism, Fevere, Gout, Humors, Nervousness, Irritability, Iudianomation, Favere, Gout, Humors, Nervousness, Irritability, Iudianomation, Favere, Gout, Humors, Nervousness, Irritability, Iudianomation, Favere, Gout, Humors, Nervousness, Irritability, Iudianomation, Indiana, Indiana,

Doct. A. A. Harris, Practical Chemist of the Port of Boston, and Goologia for the State of Massachusetts.

Ina L. Moone, M. D., an eminest Surgeon and Physician, of the City of Lowall, who has being used them in his extensive practice.

H. C. Sourriwick, Eq., con of the first unschants in New York City.

C. A. Davis, M. D., bup't and Surgeon of the United States Marine Hospital, at Chelses, Mass.
Did space permit, we could give many headred such names, from all parts where the Fills have been used, but evidence even more convincing that the certificates of these enfinest public men is shown in their effects upon trail.

These Fills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of reachest study, are offered to the public as the best and most complete which the present state of reachest eventy of Vegetable remedies, extended to change in such a manner at this material to be the sulfacture of the drugs themselves, but of the medicinal strategies in such a manner at this material best footback process, in a clate of purity and combined together in such a manner at this material best footback in such a manner at this process. The reason is perfecture a more efficient remedy than had hitherto been only of Vegetable rendered with more or desired emmonious. While by the old mode of composition, over ymedicine is burdened with more or desired emmonious and injurous qualities, by this, cashingle vidual virtue only that is desired for the curative cities of each substance employed for left behind, the curative virtues only being retained. Hones it is self-evident the effect should prove as they have proved more purely remodual, affective files a warr, more powerful anticity expedient that my chormedicine known to the world.

As it is frequently expedient that my readient should be taken under the counsel of an attending Physician, and as he could not prove as they have proved more burely expedient the side of the could not properly indeed of r
