COUNCIL HAS NO POWER TO SAVE THE LICENSES

Three in the Newly-Annexed Suburbs Must Go on First of Next May.

PEOPLE ALONE HAVE POWER IN MATTER

Prof. Bowman, in Behalf of the Temperance Workers Expects No Difficulty.

"The city council could not make any provision, with re-gard to the issue of liquor statute, and the council could not of itself vary the number of licenses to be issued in the city of London. . Section 20A of the Liquor License Act says the matter shall be submitted to the electors. . . It is clear that it is not within the jurisdiction of the city council to amend a bylaw determining the number of licenses to be issued without the consent of the electors."

The above sentences are extracts from a communication to License Inspector A. R. Galpin, containing the interpretation of the act, made by Mr. C. Sanders, chief officer of the provincial department, and were obtained by Mr. Galpin in order to clear up any doubt as to what condition would obtain in the event of the annexation of London Junction and Ealing to the city

Three Hotels Must Go. This makes it clear that the two hotels in London Junction, the Evans House and the Barnes House, and one at Ealing, the Homister Hotel, must go, with the expiration of their East Middlesex licenses on May 1.

The hotelmen, it is alleged by temperance workers, were between two fires. Fearing local option in East Middlesex, they decided to cast their lots with annexation to the city in the hope that the number of licenses would be increased, but this, the authorities declare, is an impossibility from any stand-

The law states clearly that London shall have but 26 liquor 11-censes, all of which are at present held by fairly large hostelries, and which are said to have a commercial value of \$10,000 in a trans-

"I have had a great many inquiries on this subject," Inspector Galpin told The Advertiser today, "and interpretation of the law is ident cal with that furnished later by the department at my request. These hotels must go with annexation. Their East Middlesex licenses expire on May 1, and they will have to dispose of their stock in the meantime. Nothing can or will be done for them."

"The London commissioners have no sympathy with any of the places affected. There is no reason for their existence there, and the interpretation of the law shows that they have no recourse. NO CHANCE.

It was suggested to the inspector that the hotelkeepers named might endeavor to purchase London licenses and transfer them to their present quarters.

Not one chance for such a scheme as that," declared Mr. Galpin. "The commissioners would not listen to a transfer of a license to the hotels in these outlying districts." Prof. James Bowman, a promin-

ent local temperance worker, who is closely associated with the work of the Dominion Alliance and its connections, asserted that the temperance people are not anticipating any difficulty over the cancellation of the three licenses. "There is not a shred of hope for any of the three under the law, and they will simply have to quit, without a chance for a struggle," he told The Advertiser.

CONSTIPATION Can Be Cured.

You cannot expect to be well if you allow your bowels to become elogged What is necessary is to have a free mo tion of them every day, and to keep their in this condition all the time if you wish to be strong and healthy. If you don't keep them open the system will become clogged up with poisonous matter and produce constipation, headache, dy spepsia, bad blood, etc.

Keep the bowels in good condition by using Burdock Blood Bitters; the remedy that has built up an unrivalled reputation, during the past thirty-six years, as a cure for all troubles arising from a constipated condition of the bowels.

Mrs. Thomas Calder, East Lower Fort Garry, writes:-"I am writing you to let you know what Burdock Blood Bitters has done for me. I suffered very much from constipation and none of the medicines I took agreed with me. Now I am glad to say that there is nothing like B.B.B. Since taking it I have not been

Morning Light Is Best for Shopping

Smallman & Ingram, Limited | Do Your Christmas Shopping Now

The Next Five Weeks Will Be the Busiest of the Year at the Smallman & Ingram Store

And the reason is easily discovered when you compare style, quality, value and variety in all the stores, in all that pertains to the outfitting of the entire family and the furnishing of the home. Permit us to offer the suggestion of shopping before noon it you can do so, to be the more certain of prompt service during the busy holiday season in this your new and comfortable shopping home.

Our great-grandfathers were amazed at the patchwork buildings erected in their day with a limited height of three stories, but what would be their wonder at this finished building that replaced the old rambling store with low ceilings, uneven floors, narrow staircases and blind alleys and cubby holes?

SOME IMPORTANT FACTS—First, this is a fireproofed structure from bottom to top, not even the ceilings can burn; second, its steam for heating is conducted by underground pipes from a boiler a block away from the building, removing all danger from this source; third, all electric light wires are in steel conduits and all the modern appliances are here of a sanitary, well-ventilated, healthful building. Safety, spaciousness, conveniences and comforts for the people mark every part of the building, and it contains the largest, freshest stocks of merchandise we have ever gathered together.

A New Bookcase, Or a Few Additional Sections

Will be the happy solution of the Christmas gift in many homes.

The Gunn Sectional Bookcases may be had in any finish you may desire to correspond with the other pieces of furniture in tha room. Book sections are made in three sizes, 91/4. 111/4 and 131/4 inch depth,

and sold separately, also base and top. You may begin your bookcase by buying a base and top and one, two or three book sections, as you may require, and add more sections as your library grows.

The Gunn Sectional is the simplest bookcase, made with easy sliding glass door front and dust-proof. Book sections, size 91/4, 111/4 and 131/4.\$3, \$3.25, \$3.50 Base and top, \$2.00 each; long drawer base \$4.25 A two-section Case with base and top fitted for \$10.00 Writing Desk Section\$9.00

LONDON, MONDAY, NOV. 18. TWO BY-ELECTIONS.

The by-election in Hochelaga has some points of resemblance and some of contrast to the more famous byelection of Drummond and Arthabaska in November, 1910-just two years ago.

The resemblance lies in this: in the first instance the Nationalists challenged the Liberal naval policy, and in the present instance they are challenging the C recreative naval policy or what it is generally believed the Conservative naval policy will be.

The contrast is between the attitude of the Constrative party toward the Drummond by-election, and the attitude of the Liberal party toward the Hochelaga by-election

In Drummond, the Quebec Conservatives joined with the Nationalists in a crusade against any form of naval expenditure. It was during this convented the bogey of conscription, and Secessions have occurred before from pin sticking into a three-million-dollar test that the enemies of Laurier indrew their celebrated word-pictures of the too personal regime of the Pank-French-Canadian youths being forced hurst ring. Mrs. Despard and Mrs. to fight on British ships of war, and Billington-Greig withdrew from the being disembowelled by German or W. S. P. U. on the ground of its Japanese cannon. It was Mr. Blondin, undemocratic organization, to found ment to the deputy speakership, who was the author of the famous phrase, well as personal ascendancy, soured "Our fathers had to shoot holes in the British flag in order to breath the air of liberty." Messrs. George E. Foster and Hon. Robert Rogers, now cabinet min- extremes estrange friends, isters, publicly advised the Conservatives of Quebec to support the Nationthe Conservative press of Optario when the Laurier candidate went down before a wave of anti-British prejudice. Dr. Reid, now minister of customs, went so far as to send a telegram of congratulation to Mr. Monk, generalissimo of the Opposition forces in Que-

In Hochelaga, where Hon. Mr. Coderre is seeking election as secretary is fighting the Government on the naval ssue, with the support of Mr. Bourassa and the Nationalist press. Taking it for granted-as everyone does-that the Government intends to propose an emergency grant to the admiralty, he declares against naval expenditure of any kind, as did Mr. Coderre and every French-Canadian Conservative candidate in the general election. In similar circumstances in Drummond we know what the Quebec Conservatives did. Quebec Liberals are taking a different The Liberal press of Montreal, French and English, is supporting Mr. Coderre on the ground that the election of Mr. Doyon would be a victory for Nationalism, and would be a repudiado her share in the naval defence of the Empire

The contrast between Drummond and Hochelaga should make Ontario Conservatives reflect.

A SUFFRAGETTE SCHISM.

After a spell of comparative quiet. part to imprisonments and of Miss Christabel Pank-Paris, the militant suffragettes in Great Britain are getting ready for a new campaign. But the hatching of the new plans has produced a division among the leaders of the Women's Political and Social Union. Unable to agree to the Pank hurst proposals for further advanced action, Mr. and Mrs. Pethick Lawrence, hitherto among the main financial props of the W. S. P. U., have severed their connection with that organization, resumed complete control of the paper Votes for Women, and decided to push the cause as in-

A new official organ has begun to appear of the W. S. P. U., The Suffragette, under the editorship, by absent treatment it seems, of Miss-Christabel Pankhurst. Like the journalism of Marat, the new venture suggests in its very title a progress in concreteness and violence from the milder and more academic shades of Votes for Women. No mere man like Pethick Lawrence may qualify the pure quill of The Suffragette. It is a wo man's cry to women this time.

What is the cry of the Pankhursts in which the Pethick Lawrences do not concur? In the first place, the W. 8 P. U., under Mrs. Pankhurst's impulsion, is going to rege on to more violent and general defiance of law "I incite this meeting to rebellion." said Mrs. Pankhurst at Albert Hall. paralleling her action to that of Sir Edward Carson and other Unionist leaders as regards Ulster. Apparently the Pethick Lawrences, and probably other faint hearts, do not want to rebel just yet. There is to be some general onslaught on property, the details of which Miss Pankhurst, writing for The Suffragette, pretends to leave to individual initiative-to evade the law of conspiracy, if possible. There are enough of these individuals, attention to the state of the city she says, "to create an intolerable situation for the Government."

ferring to the report that life is to be attacked, she says:

"The policy of destroying life is left to the Unionist party and to the combatants in the Near East! The militancy sanctioned by the Women's Social and Political Union consists in defiance of legal enact ments and in attacks upon property. The only limit the union puts to militancy is that human life shall be respected." After the above compliments to the

mionist party, Miss Christabel goes on to declare her belief that "the would certainly be no darker under a Tory Government than under a Liberal Government." She will be kept a long time waiting at the door while Tory Government passes the law the wants. If such a Government ould stay in long enough, a woman might go through the gamut from ster of fifty, and still expect. The Gevernment would forget all about She might cry aloud in the streets, but no Government man would

The second difference between the anguine Pankhursts and the moneyed Pethick Lawrences is over election policy. Mrs. Pankhurst and family have decided to oppose Labor candidates as well as Liberal. The P. L.'s do not see things that way. They have a feeling that the Labor party is rather the best male friend to unenfranchised woman. But the Pank-

As the militants, then, have severed themselves of late from the more rational suffragist organizations, so now they divide among themselves as to the degree and direction of militancy. the Women's Freedom League. Miss by schism right and left of her, may prove to have in her more of Mara movement into ineffectual strands, and discredit a worthy cause

ABUSING LOCAL SHIPPERS.

The London Free Press rails against the local shippers and jobbers who advise that the electrification scheme be approached with caution and that it should not be "rushed to a vote of the people" without full knowledge of its bearing upon the future relations of the Michigan Central and Pere Marquette with the city. "Obstructionists and doubting Thomases" it dubs them of state, a Labor candidate, Mr. Doyon, in its evening edition. Here are some of the men that are called these names:

> C. Struthers & Co. Robinson, Little & Co. Elliott. Marr & Co. James Wright & Co.

E. C. Mitchell, National Drug and Chemical Company. D. H. Howden & Co., Limited.

C. A. Whitwam, vice-president Hobbs Hardware Company.

MacMillan, Calder & Co. John Tanton & Son. . .

T. B. Escott & Co. R. B. Wanless, Coates, Burns & Wan-

These are the signatories of the petition presented to Sir George Gibbons; doubtless many shippers would have tion of the principle that Canada should signed it if there had been time to make a thorough canvass. The firms on the petition represent a very large proportion of the wholesale and jobbing business of the city, and their opinions should carry corresponding weight. Instead of this they are denied even ordinary courtesy: they are stigmatized as doubting Thomases because they merely ask for information. Those who declined to make publie until Nov. 15 a report dated July 5 should not be angry because a little time is asked for consideration by citizens, who have large interests at

Petrolea's defeat at Sarnia on Sat-

In the meantime the London club claims lost. And there seems to be no way of finding out just who is champion until the O. R. F. U. deals with the matter on Tuesday night.

After the game at Sarnia Saturday, the writer asked Dr. Fairbank, of the Petrolean club, just how the game affected the district. The doctor stated that Petrolea were the champions.

BRILLIANT BUCKING WINS FOR SARNIANS

Great Line of Smashing Stunts of Bossenbury and VanAlstyne Responsible For Victory

[BY JINX.]

Sarnia, Nov. 17.—Showing a surprising streak of form and outplaying their opponents at almost every stage of the contest, Sarnia beat Petrolea here Saturday afternoon in the final game of this O. R. F. U. junior district by the score of 6 to 3.

It was one of the biggest surprises that Petrolea have received during their that Petrolea have received during their football career. But Sarnia was out to win, and for the greater part of the game they had the Oil Town aggregation on the run. On the first five minutes of play they shattered the Petrolea line and dis-played such a dazzling amount of play-ing ability that their efforts were re-warded with a touchdown. This was all that was needed to give them confidence, and they played through the rest of the contest like men who were sure of vic

Game Delayed By Accident, Game Delayed By Accident,
Owing to an accident to the Petrolea special train, the green and white did not reach Bayview Park until after 4 o'clock. The special train was derailed just as it was leaving the Oil Town, and before the team could be conveyed to Sarnia nearly three hours had elapsed. For this reason it was agreed to shorten the playing time as much as possible.

The Petrolea Line Was Weak. The Petrolea Line Was Weak.
Petrolea's greatest weakness seemed to
be in the line. Time after time the
sarnia forward division plunged through
the green and white line for gains, Van-Alstyne and Bossenbury bucking like ver-itable demons. Several times Sarnia gained the ten yards on bucks, Bossen-bury diving into what looked like a solid formation of Petrolea players, and while the men swayed back and forth his head would appear at the other side like a human bodkin. It was a wonderful exdibition of grit and gameness, and the greatest credit of the victory rests on the shoulders of he and Van Alstyne.

When Sarnia Scored. Sarnia's touchdown was scored in the rst five minutes of play. After the ick-off, Sarnia secured the ball and tried a series of bucks. They gained several yards in this way, and a march n the Petrolea goal began. ooters were shouting themselves hoars lear the centre of the field. "Dutchy McGurk, Sarn'a's diminutive back, secured the pigskin and through the Petrolea line. He quarter-dodged through the Petrolea line. He was off like a shot, and after a brilliant run of nearly fifty yards he was brought down on Petrolea's ten-yard line. On three bucks Sarnia carried the ball a few inches over the line and made five points.

Twice before half-time Petrolea, ticked the ball over the line and Mcfurk was downed before he could rush

However, Sarnia also succeeded making a rouge, and the half ended 6 to 2 in favor of the Tunnel Town. Only one point was scored in the secand half. Petrolea rushed the play into ond half. Petrolea rushed the play into Sarnia territory soon after the kick-off, and the ball was booted over the goal line, Moses being tack'ed before he could rush it out. This made the score 6 to 3.

A Fierce Struggle.
From then on it was a battle royal. Both teams played good Rugby under the existing conditions. Delays were numerous, owing to players getting knocked out temporarily and to the fact that the out temporarily and to the fact that the darkness was so great that the yardsmen could not distinguish from the rest of the crowd. This necessitated one

Darkness May Have interfered.

Sarnia fanz claim that the darkness prevented the Tunnel Town squad from the side of his head, but the injury was the result of an accident. There appeared to be no deliberate attempt to "get" a man, and all the rough work occurred in the heat of the contest. The teams

disorganized them. The Petrolea fans explain that it was the darkness that prevented their team from overcoming Sarnia's lead, and had the daylight lasted they would have won easily.

Be that as it may, to the observing, it would have seemed that the Sarnia play-crs dig slow up as the daylight faded. They lacked the aggressiveness that featured their play in the first half. But in the last half they did not have the ball in the last half they do not have the ball in their possession so much of the time. They had to fail back on defensive work. Petrolea, too, were disorganized. The darkness prevented any chance they might have had to win. Only a fluke would have given them a touchdown, while they could not push the play close anough to the Sarnia line to rouge.

If Sarnia had won today by more than five points, then all three teams would be tied for first place. Dr. Fairbank spoke with conviction. He took it as a matter of fact that Petrolea had won the group. The game at Sarnia did not seem to bother him.

The first half was played under the American rules, and as the locals had hardly any idea of the game, the visitors were able to score 20 points against the zero annexed by them. The American style of play is altogether different from that played in this section of the country, and it seemed to the players that everything prohibited in the Canadian game was allowed in the American style, and vice versa. The locals were completely at sea during the first quarter in attempting to solve the interference of the Assumpsea during the first quarter in attemption to solve the interference of the Assumption team, and also the forward passes.

The Meds were not able to grasp the method of play for some time after the game commenced, and in the first quarter the visitors scored one touch, which was converted by Brennan, making a total accounts to be all was passed. was converted by Brennan, making a total of 7 points. As soon as the ball was passed out the quarter, the whole visiting team would form interference, and the man carrying the ball behind the protection would lope down the field. As soon as the interference was broken up the ball-carrier would break away for a gain of at least ten yards before being downed. The game commenced with London kicking north with the wind, but soon the play was within 25 yards of the locals' line, where the visitors lost the ball by falling to make the required ten yards in four downs. The Meds made a little progress, but Assumption soon regained four downs. The Meds made a little progress, but Assumption soon regained possession, and O'Connor carried the ball over for the first 6 points. The ball was kicked to the Sandwich

MANAGER WILLIAM ("DERBY DAY")

CLYMER.

At the outset this year the pennant was conceded to the champion Wilkesbarre team. Then the uncertainty of baseball proved itself, and in a month Wilkesbarre was doomed to the basement.

Within two weeks three regulars were out with broken legs, two 1911 stars were laid up sick, and two 1911 pitching mainstays went stale.

Clymer made changes, but the team laid up sick, and two 1911 pitching mainstays went stale.

Clymer made changes, but the team clymer made changes, but the team seemed to grow weaker and July 16 saw it near the bottom.

Then "Derby Day" went to work. He bought "Dixle" Walker from Batimore, and Decanneire from St. Paul. Gaiser, a star when right, returned from a six weeks' enforced lay-off, Martin, a Yankee farmer, struck his pace, and "Jim" come back" and the trick plays and the running passing methods of their team, saw then that McGill would carry off the leather over the heads of the Varsity backs, Maynard recovering and being held on Varsity's thirty-yard inc. But their college spirit did not wane. They gave all the old cheers, they wane. They gave all the old cheers, they velled lustly throughout in an effort to inject confidence into their colleagues

Won on Any Field. McGill would have won on a fast field. s it was the gridiron was a little sticky, having a light coating of snow, when the game began, but the footing was fairly secure. It may surprise some if it were said that McGill put up a more scientific brand of Rugby. They showed the finish of the table training methods, the professional coaching, in every play they made. They seemed to rely on the great Billington's right foot and the following up of the wings to win. Eucking and kicking were the features of their style of play. Varsity tried long passing, fakes and everything else they knew, but they were of no avail. Gonter punted they were of no svail. Gonter punter well, but the Varsity wings did not show the class of Laing and Lewis in following up. Varsity were afraid of Billinging up. ton from the drop of the hat. This boy's stock was boomed for days previous to steek was been all knew his provious to the tussie and all knew his provies as a punter. Varsity tried what they had very seldom tried to any extent before—bucking for yards. They did not work the open playing they were noted for. They tried to hold the ball by bucking for yards, so that Billington would not for yards, so that Billington would not get the opportunity to kick. Sometimes hey managed to tear off the necessary gains by this means, but the McGill line was a great impenetrable bulwark and more often they failed.

Billington Off Color. It looked rosier for the Blue and White when the second quarter got under way, for then Billington slid back in his punting ability. Several times he kicked into touch, giving Varsity possession. sity gathered two points early in this session on this account. They worked the ball down to the McGill 20-yard line. the ball down to the McGill 20-yard line. Here Varsity failed by the running passing way and Gonter was forced to kick, which netted a safety touch. Paisley kicked the ball to the dead line when Gage was hot on his trail. Varsity at this stage continued to have the better of the play. Billington's kicking was away off color, and the ball was finally worked to McGill's ten-yard line, with the Red and White in possession. Gonter the Red and White in possession Gonter had lifted it over the touch-line, but Paisley succeeded in running it out. Billington kicked into touch again, and Varsity got possession a few yards out, and this was their great chance to score a try. But, accompanied by weeps among the Varsity rooters, they lost in the scrimmage, and, when McGill secured, Ell'ington punted away up the field. Following this, McGill had most of the play, and the quarter ended 9 to 2.

Maynard Was Marked.

It was clearly seen that Varsity were beaten. McGill's bucking and kicking were more effective than the variety of football as played by the Blue and White. The McGill wings were marvels for speed, and floored the Varsity halfbacks the moment Blilington's punts were caught by them. Not only the outside wings, but the other wings also, were on the ball. Maynard, Cuznor and Goater were bewildered and helpless. The Indian sign was always on Maynard, and the speedy, dedging ex-captain never broke away for the end runs for which he has been noted. McCill did very little one-man tackling; there were generally two or three men to pull an opponent to earth. It must be said that McCill were not always strong on tackling low; they grabways strong on tackling low: they grab-bed the runner anywhere, by shoulder arms or hirs. The main thing was to get

On account of the Bankers failing to turn out, a picked team was chosen to play the Meds. The picked team after a close and exciting game managed to win out by the close score of 18 to 16. The teams:

kicked into three more rouges before the gong announced the end of the quarter. He was Varsity's Jonah.

A Stubborn Fight, Varsity put up a more effective argunent in the last quarter. A slight wind was at their backs, which he ped Gonter somewhat in his punting, which was of a fair standard throughout But McGill bewildered and disconcerted Varsity when they practically discontinued bucking and kloking and made some sensational runs, after tearing holes in the opposing line. Lee, Laing and Lewis got away to gains, and Billington, instead of kicking, per usual, broke away for thirty yards by the usual, broke away for thirty yards by the end route. Early in the quarter Gonter added a point to Varsity's small score by kicking to the dead line from McGill's thirty-yard line. But after that Laing lipped off forty yards and away for a few more. Evidently McGill had been saving themselves and were in grand condition, while Varsity were tired and unable to stave off the cyclonic slaughts. McGill had carried the Varsity's twenty-yard line, and Billington punted. Gonter fumbled the catch, and in the nick of time kicked it to the dead in the nick of time kicked it to the dead line, giving McGill two points, and it might have been a try. There was no more scoring, and for the last ten minutes Varsity held McGill around midfield, puting up a stubborn fight. Several were hurt during the game.

Palsley was carried off in the last quar-ter when tackled by Charles Gage, who,

Varsity, accompanied by about 500 rooters, returned to Toronto on Saturday night, sick, sore and disguested with the outcome of the affray. But they admitted that McGill deserved the champion-ship, and some believed that it was a good. hip, and some believed that it was a good hing for intercollegiate football. Varsity neld the title for four years, and McCill's rictory will surely mean a great fighting spirit in the league, and altogether will be a boon to Canadian football. You can't win all the time. meeting Saturday morning in the Temple Building. Over twenty delegates were present from different clubs of the city and from outside towns. Two amendments were made, one being that "No club shall be admitted or remain a member of the association which plays under the name of any commercial organization," and the other a change in the playing rules, L. E. which reads. "The players who face Nelson the puck must keep the blades of their sticks on the ice while the referee drops the puck." This amendment will to some extent obviate the delays retary W. A. Hewitt. which sometimes occur at centre ice. Eatons Are Barred.

The motion of Pr. W. G. Wood to debar from membership any club playing under the name of a commercial organization was in regard to the Eaton A. A. A. Last year the executive of the O. H. A. refused to a mit any club so named, and this year it appears to be the purpose of those in charge to go even farther, and debar any such organization from remaining a member. Secretary Smith, of the Eatons, said that the E. A. A. A. would not play hockey in the O. H. A. under any but their accustomed hame. They would drop out sooner than change. Louis Blake Duff, J. T. Sutherland, T. Harry Wace, R. M. Grover, and Francis Nelson, all favored the amendment. Eatons were wanted in the association, but to remain under their present name was contrary to the wishes of the O. H. A. Eatons Not Pros.

ALERTS VICTORY

The Hamilton Team Won Both Games of Round, But Torontos Are Not Content.

GAME WAS A ROUGH ONE

Several Melees Occurred, and Many Delays Took Place Owing to Scrapping.

Toronto, Nov. 18. — After beating the Toronto K. and A. A. team both at home and in this city by a score on the round of 2, to 11, the Hamilton Alerts are perhaps as far away from the O. R. F. U. senior championship as ever. The garnet and gray deseated the Queen City team at 'Varsity field on Saturday by 9 to 7, but the Torontos have protested the game. In the event of the protest being sustained, the teams will have to meet again next Saturday, probably on neutral grounds. If the contention of the T. K. and A. A. be not sustained the Alerts will meet the winners of the Argonaut-Mc-Gill game in the Canadian final, which will be played at Hamilton.

It was rather generally expected that the greatly improved Toronto team would win, but they were not equal to the occasion. 'I ne Aierts had a much more difficult task than at Hamilton, where they won with ease. The Queen City outnt made the Hamilionians aght like terriers for every inch of the ground, and there was really very little difference in the relative strength of the teams.

At Hamilton the Ambitious City back field outclassed the Toronto backs, but on Saturday there was little to choose between the secondary lines of defence. Everett Smith, whose prodigious fumbling in the first game en-abled the Alerts to roll up a pig margin of points, was "the goat" again on Saturday. With the score 6 to 0 against the Alerts, and the latter on the defensive in the second quarter, Smith displayed lamentable lack of judgment Had Do Gruchy fumbled a punt on his 15-yard lone, and Smith, in trying to recover it, dribbled it across the field and back toward his own line. fast game from the beginning, the reached him and nailed the ball, going over for a touchdown. Smith's play was to fall on the ball and retain possession. His mistake in the light of lisle Indians this afternoon by the score subsequent happenings probably cost

The contest ended in a melec doubt. This is the first defeat for the dry incipient scraps. The tackling was far below standard. Both sides tackled the Red and Blue total. But this was more men than the low, diving variety high and scrag tackles brought down The Alerts were in perfect condition, and withstood the gruelling much better than the Torontos, many of whom were laid out. The game was rough, but not a great deal of deliberate play was in evidence. One side was as much to blame as the other for

what "dirt" was meted out. A meeting of the union executive will be held tomorrow night to consider the protest.

HATPIN MENACE TO GO

London, Nov. 17. - Has the hatpin question been finally solved? It depends upon the users. Woman, if she will, can in the future wear the hatpin 'of blameless life."

Small machines will be in use in the west end shops in London which will bring emancipation to long-suffering man from the menace of the protrud-ing hatpin. Their mission in life is to cut off the odd inches of pointed steel which threaten man with blood poison-

A WONDERFUL PSALM

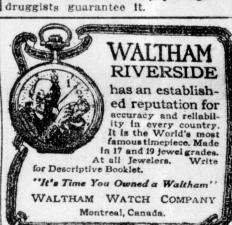

Rev. Mr. Norwood's Sermon in Memorial Church.

Rev. R. W. Norwood, rector of the Cronyn Memorial Church, preached an eloquent sermon Sunday evening on Psalm cxxxix., verses 7 to 11. The psalm constituted one of the most wonderful examples of God's consclousness in the Bible. It was the highest development undoubtedly of purse \$300, selling, 1 1-8 miles—

he was willing to sacrifice at least ten minutes of it could he but listen to the "discussion" between Stampa and Bower. Therein he would have erred greatly. Helen was tired, and she admitted it. She did not decline his aid when the path was steep and slippery. In delightful snatches of talk they hanaged to say a good deal to each other, and Helen did not fail to make plain the exact circumstances under which she first caught sight of Spencer outside the hut. When they arrived at the carriage road, which begins at Lake Cavloccio, they could walk side by side and chat freely. Here, in the valley, matters were normal. The snow did not place such a veil on all things. The windings of the road often brought them abreast of the four men in the rear. Bower was trudging along alone, holding his head down, and seemingly lost to Helen, of course, heard all that passed. She had long since abandoned the effort sine had long since abandoned the effort to disentangle the skein of that day's events. Everybody was talking and acting unnaturally. Perhaps the ravel of things would clear itself when they gained the commonplace world of the hotel. In any case, she wished the men would hurry, for it was unutterably cold in the crevasse.

At last, then, there was a movement shead. Borth began to mount. Muttering an instruction to Karl that he was to give the girl a friendly pull, he cut smaller steps more widely apart and at a steeper gradient. Soon they were on the floor gradient. Soon they were on the floor of ice and hurrying to the next bridge. Not a word was spoken by anyone. The fury of the gale and the ever-gathering snow made it Imperative that not a moment should be wasted. The lightning was decreasing perceptibly, while the occasional peals of thunder were scarcely audible above the soughing of the wind. A tremendous crash on the right announced the fail of another avalanche; but it did not affect the next broad crevasse. The bridge they had used a few hours earlier stood firm. Indeed, it was now welded by regelation since the sun's rays had disappeared. Soon they were

now welded by regelation since the sun's rays had disappeared.

The leader kept a perfect line, never deviating from the right track. Helen, who had completely lost her bearings, thought they had a long way farther to go, when she saw Barth stop and begin to unfasten the rope. Then a thrust with the butt of her pickel told her that she was standing on rocks. When she cleared her eyes of the flying snow, she saw a well-defined curving ribbon amid the six inches deep. The violent exertions of nearly three hours since she left the hut had induced a pleasant sense of languor. Did she dare to suggest it, she would have liked to sit down and rest for a while.

Bower, who had substituted reasoned Bower, who had substituted reasoned thought for his madness, addressed Spencer with easy complacence while Barth was unroping them. "Why did you believe that I was doing a risky thing in stopping to assist Stampa?" he asked. "I guess you know best," was the uncompromising answer.
"Yes, I think I do. Of course, I could not argue the matter then, but I fancy."

His eyes fell under Spencer's contemp-His eyes fell under Spencer's contemptuous glance. Yet he carried himself bravely. Though the man he meant to kill, and another man who had read his inmost thought in time to prevent a tragedy, were looking at him fixedly, he turned away with a laugh on his lips. "I am afraid, Miss Wynton, you will regard me in future as a broken reed where Alpine excursions are concerned," he said.

"You were mistaken—that is obvious," said Helen frankly. "But so was Barth, He agreed that the storm would be only a passing affair. Don't you think we are very deeply indebted to Mr. Spencer and Stampa for coming to our assistance?" If do, indeed. Stampa one can reward in kind. This sort of thing used to be his business, I hear. As for Mr. Spencer, a smile from you will repay him tenfold." "Herr Spencer," broke in Stampa, "you go on with the signorina, and see that she does not slip. She is tired. Marcus Bauer and I have matters to discuss."

The old man's unwonted harshness appealed to the signory was a signory with the signory of the signor You were mistaken-that is obvious, The old man's unwonted harshness appealed to the girl, as did the host of other pealed to the girl, as did the host of other queer happenings on that memorable day, shot from his eyes. Helen missed none of this. But she was fatigued, and her feet countered on the upper glacier had almost soaked her to the skin. Nevertheless, she seemed to have settled on the men. "That means a wordy warfare," she said bravely. "I pity you, Mr. Bower, You cannot wriggle out of your difficulty. The show will soon be a foot deep in the valley. Goodness only knows what would have become of us up there in the huit!" foreign air she had noted once before. "I

New York. Nov. 16.—The third annual ession of the Clinical Congress of Surgeons ended last night. It has been in many ways the most satisfactory congress held. The registration of 2,600 was three time as large as the attendance at the last year's meeting in Philadelphia. More than 150 clinics have been held daily, and on Wednesday the numper reached 220. Nearly 3,000 operations will have been performed this week for benefit of visitors. Out of all these, the first fatal termination came on the oneluding day of the congress, when leorge Hart died on the operating table the New York Polyclinic Hospital beore a group of distinguished surgeons. A feature of the concluding business session was a movement to elevate the standard of surgery and of surgeons in the United States and in Canada. It is purposed to establish a special college surgeons, an institution modelled after he Royal College of Surgeons in Engand, which shall give a degree supplementary to that of M. D., showing that he bearer is a fellow in the new institution and fully qualified to practice surgery. This, it was explained, would create a "blue book" of surgeons and the public would know that any surgeon

General William Booth Memorial Building

This will be the name given to the building to be erected in Ontario for the training of men and women for various branches of work. The Lieutenant-Governor has signified his intention of accepting the presidency of the fund to be raised in Toronto, and already the outlook is cheering.

The late General William Booth, when discussing certain branches of work with some leading men, said: "You have schools of art, you have colleges of music, you have universities, where men and women of the better classes are taught those things which will make them a help to the community and a grace to society. Now, why not, I say, a University of Humanity? This is what I want to make our training colleges-a university where consecrated men and women can learn how best to serve their fellow men and women."

This scheme was very dear to the general's heart, especially in the part where young men and women would receive a com-plete and scientific training to fit them for dealing with all conditions that bring poverty and distress into peoples lives; but it was not possible to have this plan brought into operation in his lifetime. It is confidently expected, however, that it will materialize soon, although the general has passed to his reward, and it is hoped that all churches will at least take a retiring offering for this purpose next Sunday, and that the tag day in this city on the 23rd will be very helpful to this end.

C. D. BURDICK OWNS THE HIGGINS FARM

Purchased the Land for the Sum of \$32,000.

It has been learned that Mr. C. D. Burdick, formerly manager of the Helena Costume Company, has purchased the Higgins farm, in East London, for the sum of \$32,000. It is his intention to break it up into building lots and factory sites.

The McCormick Company are endeavoring to secure options on several pieces of property for the proposed new factory. Some time ago they did bond a number of suitable locations, but the federal square idea did not then appear likely to be fultille, so the options were allowed to lapse. The dennite offer of the Government to contribute \$130,000 to the scheme has caused the company to again secure options, if possible.

in the meantime the real estate activity in the eastern portion of the city has made prices of land sour, and the company could not secure the land for twice the money asked some time ago. It is understood that some

The robbery was one of the most carefully planned and carried out that has been brought to the attention of the police of this county. The man suspected of the assault was seen riding a bicycle rom the city about three o'clock on Saturday afternoon, and was observed by everal people riding back to the city about 8 o'clock in the evening. Sometime previous to Mr. Wilkinson's arrival home he entered the stable and prepared for the attack. He so arranged the stable doors that he could have a complete view of the yard, and had unlatched the door between the cow stable and the horse stable so that he could easily make a getaway if Wilkinson was accompanied thedral, conducted the services. by another man. Extensive Additions. It is said that the owners of three of the places are now having plans prepared for extensive additions, that these expenditures are merely contingentt upon satisfactory arrangements with the present lesset. One man has informed Inspector Galpin that he is now ready and willing to Spend from \$50,000 to \$0,000 on his hotel, providing that certain little dif ficulties can be cleared up. Two others are working along similar lines, bute the works have been temporarily held up in anticipation of definite action by the syndicate, which some time ago secured the Western Hotel site, on which

to erect a large modern hostelry. The city hall location is said to have nfluenced the selection of the site on Richmond street north, and as the promoters claim that they were given to understand that the new municipal building would go to Richmond street they acted in that direction. However, since the Spencer block dealings, and the federal square proposition have taken form, little or nothing has been done on the Richr, and Fullarton street hotel question.

For a New Hotel, Many inquiries are received from ime to time concerning hotel conditions in London, and promoters are willing to come to London providing that they can be shown that a firstclass place would do business. It is not thought that any endeavor would be put forward to increase the number of licenses here, any of the backers of any such scheme would have to purchase one of the existing per-

Real Estate Deal.

Mr. H. Frank Whetter, of Chelsea Green, has sold several lots off his property at the corner of the Wellingon and the Thompson roads, near the village to a Mr. Thornton, of Toronto. The latter will rect dwelling houses on the newly-acquired property, with 6 store on the corner lot.

Although no sales have been reported as yet, several speculators been spying out the land in Ealing with views of making purchases in that vicinity. They complain that the price the Ealing people are wanting for their purchase any. With the coming of annexation, the people feel that their land is valuable, and have boosted prices accordingly.

SYRUP OF FIGS IS BEST FOR A CHILD

If Its Little Tongue Is Coated, Breath Feverish, Stomach Sour and Bowels Clogged.

Every mother immediately realizes after giving her child delicious Syrup of Figs that this is the ideal laxative and physic for the children. Nothing else regulates the little one's stomach, liver and 30 feet of tender bowels so promptly, besides they dearly love its delightful fig taste.

If your child isn't feeling well, resting nicely, eating regularly and acting naturally, it is a sure sign that its little insides need a gentle, thorough cleansing at once.

When cross, irritable, feverish, stomach sour, breath bad or your little one has stomach-ache, diarrhoea, sore throat, full of cold, tongue coated, give a teaspoonful of Syrup Figs, and in a few hours all the foul. constipated, clogged-up waste, undigested food and sour bile will move on and out of its little bowels without nausea, griping or weakness. and you will surely have a well, happy and smiling child again shortly. With Syrup of Figs you are not drugging your children; being composed entirely of luscious figs, senna and aromatics, it cannot be harmful.

Mothers should always keep Syrup of Figs handy. It is the only stomach. liver and bowel cleanser and regulator needed-a little given today will save a sick child tomorrow.

Full directions for children of all ages and grown-ups plainly printed on

OVER MINES AT COBALT

Government Says Millions Were Secured Through Sale of Securities That Were Misrepresented.

[Canadian Press.] New York, Nov. 18 .- The Federal Gov-

ernment called for trial in the United States district court here today what it considers one of its most important cases growing out of alleged misuse of the mails. It involves the integrity of the so-called Hawthorne group of mining stocks and brings to the bar as defendants men of national reputation. They are five in number-Julian Hawthorne, son of the novelist; Nathan el Hawthorne; Josiah Quincy, former mayor of Boston and assistant secretary of state in the Cleveland administration; Albert Froman, a promoter; Dr. Wm. J. Norton, a nerve specialist, and John Mc-Kinnon, secretary-treasurer of the Hawhorne company.

All were engaged directly or indirectly in the sale of stock in the Hawthorne Sliver and Iron Mines Company, and al-lied concerns were indicted in New York n January last for alleged use of the nalls to defraud investo s. The Government contends that at least \$3,000,000 accrued from the sale of securities; that sales were effected through misrepre-s mation of the character of the p operties, and that no thistanding promises no dividends have been paid.

Charge Persecution.

The defendants maintain that they have been the victims of a ruthless crusade on the part of the postoffice department. Before the case was called today, a statement was issued in their et alf, as follows:

ations at their mines is the action of the their management, thus compelling the of the present war, telling of the pertheir management, thus compelling the of the present war, telling of the pertheir management, thus compelling the of the present war, telling of the perthe Christians in Macein the resurrection of the dead, the directors to suspend operations until secutions of the Christians in Mace- in the resurrection of the dead, the the Government case could be disposed donia by the Turks. he Government case could be disposed donia by the Turks.

"It is claimed by the defence that the sovernment is trying by this prosecution o hold officers of the Hawthorne companies responsible for mining failures where disappointments have been met where disappointments have been met with and to deprive them of the credit of success where this has resulted. More specifically, the action of the Government is based upon the alleged mis-representation and false statements contained in the literature sent through the Syndicate located near the Cobalt distric

These mines were described as the Tenese mines were described as the Temagami Cobalt Mines, Limited, the Elk Lake Cebalt Mines, the Montreal Cobalt Mines, the Hawthorne Silver and Iron Mines and the Julian S. The Government alleges that these mines are outside of the silver producing belt of Cobalt and that this fact was sup sed in the circulars and letters sent Julian Hawthorne, it is alleged, was selected for his ability to write glowing descriptions and because his name on the prospectuses, together with that of Josiah Quincy, would inspire confidence among investors.
