BOARD MAY BE ASKED REDS FLEEING

ITS FINDINGS AS

Premier Meighen At Conclusion of Rates Appeal Intimates That Whole Question May Be Referred Back to Government Body-Some of Ministers Are Impressed With Arguments in Favor of Permanent Passenger Rates.

Ottawa, Oct. 1.—By the Canadian Press.—There is much speculation in the capital today as to the probable decision of the Government in the appeal from the decision of the railway board granting the rail a increased board granting the rail a increased freight and passenger referring minister and his colleagues, at which both sides of the case were heard, that the hearing was no mere formally. The ministers present, without an evention, evidenced the closest possible interest in the proceedings, and piled counsel with many questions designed to bring further enlightenment to the cabinet as to the varied and complicated aspects of the matter under review.

During the hearing considerable new material was produced to which reference was made by Prime Minister intimated that some of the ministers were intended to be impressed with the arguments that the increase in passenger rates should have been made permanent and a smaller increase in freight rates allowed. This suggests the possibility of some readjustment as between the two classes of rates.

Brown, executive secretary of the organization to Chamber of Comdirectors, at a luncheon today possibility of a change in the was discussed, Rober t Green The possibility of a change in the name was discussed, Rober t Green raised the point that the name "Western Ontario" was a misnomed, as development had taken place in parts far more westerly than this. He suggested changing the name to Southern Ontario University, London. The initials of this would spell "Soul," he pointed out, indicating that the institution stood for more than material things. W. J. O'Brien also approved of a change in the name.

Favors Change.

Sherwood Fox, dean of the arts de-partment, said that the officials had realized for some time that the name was not adequate, and changing it might be considered with other alterawas not adequate, and changing it might be considered with other alterations in the incorporation.

He pointed out that associations had grown up with the present name and that much might be lost by changing it. The North-Western University at Evanstown, Illinois, is in the same position. Many universities are now more north-westerly than it, but it still retains its name. He thought possibly the example of California, where theer is a University of Southern California, might be followed, and the university na led the University of Western Ontaio.

John Cottam pointed out that this was the most southerly part of the Dominion, lying many miles further in that direction than the northermost parts of the United States. He said the proper name of the district should be Canada south and that the university should be named accordingly.

col. Brown's Address.
Col. Brown's aid in part:
Businessmen are interested in university work or higher education for many reasons. These may be either personal, vocational or public reasons or they may be all three. When a man has sons and daughters to educate and desires to live with his family in an atmosphere of culture and refinement, he seeks to locate his residence as close as possible to a university centre. Many business executives in these days of keen competition at home, and expanding opportunities abroad, are looking for young men to help them develop and enlarge their enterprises, and they are making a canvass of the universities for promising material. Every businessman knows that all commercial and industrial enterprises thrive in a community that has an intelligent, law-abiding and contented population; while commercial expansion is scarcely possible unless the nation is well governed its institutions sound, and the

Found Way to Cut Cost of Rebuilding

Working Out a New

Chesley, Oct. 1 .- O'Brien Bros., who ost their big barn by lightning recenty, have discovered a new way to beat the high cost of rebuilding. They got estimates on a new structure, and the estimates on a new structure, and the figures were \$6,200. They considered this too high, and set about planning to get a new barn at less cost. There are plenty of unused frames in his locality they went about reducing the assessment of Elderslie by buying Louis Mannerow's frame barn on lot 25, concession 9, Elderslie, for \$1,500, and the neighbors turned in to get the frame over to the Bentinck farm. The new barn is one foot longer and seven feet wider than the burned one. This can be easily adjusted by an additional root house wall. O'Brien Bros. will use steel siding and roofing, and they expect lightning will glance off it. This will bring the entire cost of the larger harn up to \$3,700, as compared with \$6,200 for an entirely new barn from stable floor to ridge boards.

Higher Costs Are Reflected in the Returns For Nine Months.

Customs returns to the and of September have increased \$433,836.90 over the same period in 1919. For the month of December of this year there was an increase of \$34,134.94 over last year, when the total returns were \$147,019.85. Increased costs of products which tend to increase the duty is responsible for the general big jump. For the first eight months of 1919 the returns totalled \$1,082,021.43, and from January to September, 1920, the figures were \$1,-648,184.53. New Apparel that meets the Demands of Autumn Days

Will the waistline be high or low, sleeves long or short, skirts wide or narrow? These are the questions on the eve of the autumn exhibits of New Fall Fashions, which are receiving most adequate reply in our fashion exhibits. It is to be a season of joyous splendor, with much social gaiety and great beauty in cloths. One notes a lowered waistline in frocks, the Redingote influence in suits, and the flare box coats and wraps, brings forward a new Russian blouse model. Softest of woolen fabrics, almost velvetlike in texture combine with richest of fur peltries. The note of luxury predominates everywhere this season.

RESERVOIR COST IS

By End of the Month.

The ten million gallon addition to the Springbank reservoir will be completed for less than the estimated cost of \$100,-

Springbank reservoir will be completed for less than the estimated cost of \$100, -000 if conditions continue as faverable as at present, E. V. Buchanan, general manager for the public utilities commission, stated today. In spite of the difficulty of obtaining cement rapid progress is being made and in all probability the work will be completed by the end of this month.

The excavating for the reservoir was done by D. O. Johnson of Brantford at a rate of 85 cents a yard, making the total cost \$25,000. It was at first intended that this should be done by day labor under the supervision of the city. General Manager Buchanan's estimate for the work was \$1.25 a yard, which included the purchase of a large amount of equipment. Other tenders were as high as \$2.50 a yard. Under these circumstances the commission felt justified in letting the work out on a contract.

The laying of the concrete is being done under a different plan. According to Mr. Buchanan, it is virtually day labor, John Putherbough being paid a certain sum for the use of his organization, including men and equipment, while he is also engaged to oversee the work. All materials are being purchased by the city and the men are being paid directly from the city coffers. This means that the work is being done at cost, plus a fee for the use of equipment, which it would be necessary to

MISS POLLY BRUCE DYING IN HOSPITAL

Last Surviving Member of the Family of General

Miss Polly Bruce of Annand Cottage, West London, was removed to Victoria Hospital yesterday afternoon in a dying condition. For some time past she has been suffering from an incurable disease, but had refused absolutely to be moved from the home, where she had spent the greater part of her life. Rendered helpless by her illness, she was dependent largely upon neighbors and friends for

SAYS LONDON SHOULD BE PROUD OF PARKS

Eastern States Have Nothing To Com pare With Them, Says General Manager Buchanan.

London has good reason to be proud of its public parks, E. V. Buchanan, general manager for the public utilities commission, stated today on returning from an extensive tour of the Eastern States. During his trip he had ample opportunity to observe the parks at a number of large cities.

None of them compare with Springbank or other city parks from the standpoint of beauty, he declared. Many of them are much larger, but this is the only respect in which they surpass the local beauty spots. Lynn, Mass., in particular, has a large public park. Little has been done to beautify it, but a number of excellent roads have been laid through it. This is a policy which springhank, Mr. Buchanan thinks. A number of well-built roads, in addition to those already there, would have the effect of making the park seem much larger, as all parts of it would be easily accessible.

hildbirth are too frequent, an inimized throughout the prov ince, is the opinion of Dr. B. T. Watson professor of gynecology and obstetrics a "Common Obstetrical Injuries, Cau-

Academy of Medicine in the Majestac Theatre on Thursday aftermoon, he voiced this opinion, and urged the necessity of more careful study of this subject by physicians.

"It is no easy matter to address such an audience on such a common everyday subject," he began. "Labor is a natural process, and ought not to be followed by injury and disability. At least that is what we read of it. Is it true? Women have difficulty in believing, and take it for granted that an operation is necessary after childbirth. Mothers of two or three children are generally in a miserable condition. Can this be prevented? This question is constantly presenting itself to all who come in contact with such cases.

"It is our duty to do all in our power to minimize them. Progress in the obstetrical art has been very great in the last century. Those methods used indiscriminately to save time and trouble inevitably result in disability. The successful obstetrician is he who has judgment of when to hold his hand and when to interfere with nature. I base my statements on personal observations." The anaesthetic is a wonderful help,

ment of when to hold his hand and when to interfere with nature. I base my statements on personal observations."

"The anaesthetic is a wonderful help, but should not be introduced untimely because of the persistence of friends or distress of the patient. The so-called twilight sleep has a bad name, and is in bad repute because of notoriety of the lay press. I firmly believe that, properly administered, in some cases it is good. Morphine should be given with it at first. It keeps the patient in a drowsy condition, and there is no distress of the patient suffering, and a temptation to interfere too early.

Very important.

"The ante-natal operation, after all, is very important," continued the speaker. "Every woman who has borne a child is also entitled to an examination in ten days, which is especially important after the first confinement. There are difficulties in country practice, I know, and will anticipate your criticism on this point.

"Another difficulty is the poor remuneration for obstetrical work, and the prejudice and ignorance of the patient. Do not let us, in the face of these reasons, shut our eyes to the fact, but let us educate the people to the fact that obstetrical work is eitited to

New Feature.

New feature in medical work for
men Ontario was introduced by Dr.
A. Kelly a prominent Detroit

surgeon, who treated the many medical men present to motion pictures of an inguinal hernia operation, historectomy of the stomach, intestinal anastomosis.

Dr. Kelly suggested motion picture libraries as a method of teaching suribraries as a method of teaching surgery and pathology as a new departure in medical schools. Although the initial expense of filming operations, and other demonstrations, is prohibitive, he explained that many films could be made off the original negative, thus considerably reducing the cost. The academy members were in favor of this suggestion, on the basis that much mote knowledge could be thus obtained than from an operating theatre with many students congregating therein.

Dr. Kelly explained his manner of doing inguinal hernia operations with the use of a local anaesthetic. He cautioned those present not to attempt this method unless they thoroughly understood administration of a local anaesthetic, but lauded its merits as a substitute for the reason discrements.

FIREMEN'S PROBLEM APPARENTLY UP TO **NEXT YEAR'S COUNCIL**

Appeal To Legislature Need Not Worry Aldermen At Present.

Appeal of the city council to the Legis-ture against the measure which will Appeal of the city council to the begins fature against the measure which will give firemen one day off each week with pay may be disregarded on the ground that it is a matter which does not affect this year's council in any way.

The new legislation will become effected on January 1, 1921. According to estimates made by Chief Aitken ten extra men will be required in order to give the others the day off. This will increase the annual expenditure \$15,000 or \$20,000. Members of No. 1 committee viewed this possible expenditure with some alarm. They were not unwilling that the men should have a day off, but they did not want to pay them for it.

Now the contention is made that this year's council has no business considering the proposition. The expenditure will have to be provided by next year's council, and that body is the one which should decide whether it wants to make it or not.

Fresh Milk Made Safe

by sealing—and sterilizing

It is sweet, pure, rich milk to start with—"whole milk". We collect it daily—where it is produced—in the heart of Canada's best dairy counties.

Then, while it is still fresh, it goes through our spotless condenseries, is sealed in bright, new containers, and is sterilized. Could milk be delivered to you in more perfect condition?

Its safety guarded by sealing.

Its purity assured by sterilization.

You can keep a supply on your pantry shelves—and use it at your convenience. Open a can of Carnation Milk (dilute it as desired) and you have milk of natural consistency for your table, for the children to drink, for cooking, for baby's bottle

For, Carnation Milk is not artificially sweetened.

Use as you would fresh milk-for every household need.

Part of the water has been evaporated from it. Carnation Milk is so rich that it takes the place of cream, for coffee and tea, for cereals and fruit.

But, add water to Carnation Milk-an equal part-if you want milk of natural consistency. Adding even more water will make a drink unusually appetizing

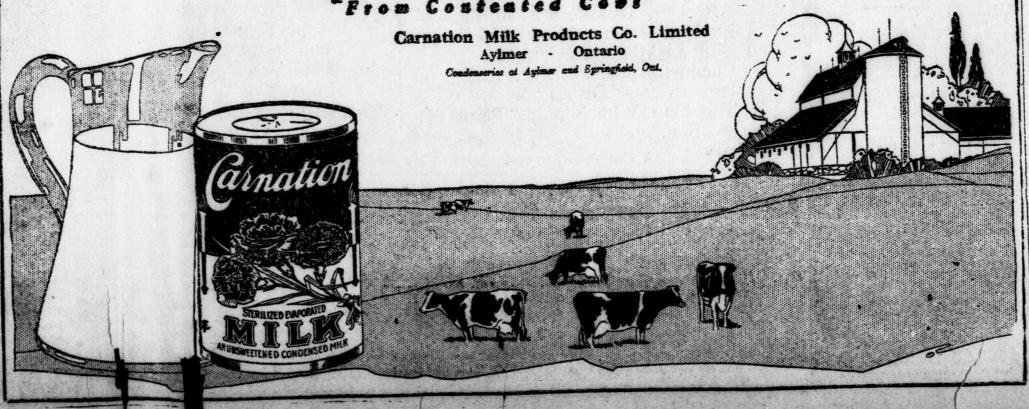

Carnation Milk serves your every need for milk and cream.

Your Grocer is the Carnation Milkman. Phone him.

The suggestion occurs that the subject which has for months been the maelstrom of public controversy, should be taken to a quiet and se cluded spot for impartial investigation.

Presiding over the commission is Mr. Justice Sutherland, whose white hair and kindly face end a judicial tone. On his right is seated Brig. Gen. C. H. Mitchell, recognized not only for his experience in engineering fields, but as one who achieved exalted rank overseas. Back from the forehead his light hair is receding. Clean shaven, with a pair of gold-rimmed spectacles, above which is an occasional furrow, he looks a man who would have a keenly analytical mind. Beside him is Mr. Fred Bancroft, of shorter stature, with a round and florid face, adorned by a heavy dark mousiache. Engaged on one of the newspaper staffs, Mr. Bancroft is not only a student of labor problems, but keeps an eye on the daily activities of his time and generation. On the left of the chairman sits the tall and well-knit figure of Mr. A. F. MacCallum, C. E. Much of his hair has also departed. He wears neither moustache nor stated that the Liberal attitude towards the beard. THE FORWARD MOVEMENT.

To the Editor of The Advertiser: Dear Sir-Please allow me a few words re the pertaining to the church and its work are indorsed by the majority of the people, judging from what I have heard at first hand. In reference to the of the safety propaganda have forward movement I might say that churchgoers great delay in placing the blame for the Wall street and non-churchgoers are thoroughly convinced that whole matter is a farce-a camouflage. In fact it has turned out exactly as some of us expected. For years the nominal church has been seeking power-temporal, not spiritual. Money is power from human standpoint. Every dollar coaxed, frightened and otherwise squeezed out of the people helps the ospel ship to sink. When silver instead of souls is ought after and bargained for the so-called shep-terds become "hirelings"—the blind leading the We are amazed to find that men who claim o be ambassadors for Christ argue that "if the notive is all right no criticism can be made of the methods employed to attain the desired ends." This is a most damnable doctrine and originated with the evil. What true Christian can practice any wrong that good may come? Will God wink at any wrong act that has for its object the good of self or others? Are we not told to avoid the very appearance of evil? Are we not told that our yea should be yea, and nay, nay? Are we not told to be perfect even as our Father is perfect? A certain preacher make the statement that "It is the work which they are rrying to accomplish that matters." Is that true? s that what Christ taught? Never! We are to keep burselves unspotted. Give no offence. This false breasoning was used by the inquisitors. This same man forgets himself and Christ, and says: "It is the church's job to add 'people' to its rolls." Is that what Christ told His disciples to do? Never! He said: "Feed my lambs"-not fleece them. Instead of adding "people" to its rolls it should add stars to its crown if it has any by getting people's names added to the Lamb's Book of Life. That's what counts. Paul wished to know nothing, but Christ and Him Crucified. Jesus, Paul and the apostles made it their business to save souls not gather silve nor count noses. Churchgoers today are starving for the Truth—they are fed on husks, and is it any wonder that pews are empty? It has come to a pretty pass when the lalty—the masses—mus castigate the so-called pastors. "Feed my lambs." Preach the truth. I do not wish to scold the preach ers, but would like to see them awake to the truth Ye have taken away the key of knowledge."-Luke

In the army the youths reared in the country were slow in learning to play. They were behind the city boys in forms of activity requiring the action of the entire body. What's to be done about it? The committee recommends games which involve the free use of the entire body, which require precision of action and which employ the expression of the rhythmic instinct. Group games, organized athletics and folk dancing are remedies suggested. But who is going to accomplish this reform? Who is to hold him up on the way from the barn to the house and ask him why he is letting his rhythmic instinct so to seed?

He is 17 years old, and was employed as office boy by brokerage firm near the scene of the disaster, running through Wall street on an errand. He picked himself up and immediately began to pick up injured persons and place them in an automobile which stood near, and with that made four trips to a Broad street hospital, and delivered thirty patients to the doctors there. He found the auto unlocked in that place of hurry and business excitement, and was unable to find an owner fo it after his work was done as a rescuer. A BUSY PORT [Montreal Gazette.]

When you shoot a big Atlantic liner across the ocean in a day or two (more or less) you damage romance; but inside the big steel walls there is the sense of mystery, while the sea itself, in every mood, haunts the heart with the suggestion of power and implacability and tragedy.

At a big port like Montreal, second on the con tinent, the shipping is varied, and once in a while the sailing ship comes up from the underworldredolent of spice and tar and fruit and remoteness and mystery and romance. It may be a molasses boat from the Barbadoes, suggesting tropical calm and the drowsy poppy, which makes you forget your wife and family; or a towering and rakish vessel which deposits on the wharves as much gin as would bring oblivion to the whole male population. Case after case, piled up mountains high! All

There are creatures who watch that mounta with an infinitude of longing. There are other creatures who wonder how gin is compatible with so-called prohibition. The big boats come in from the other side and discharge their cargoes. The human features are full of interest, and one does not easily forget the wistful look in the eyes of the bright-faced English irls, not knowing what the future has in store, and a little wavering on that account. A superstitious New Orleans man wrote to an editor saying that he'd found a spider in his paper and asking whether

Sage Tea and Sulphur Turns Grey, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded brings back the natural color and lustre to the hair when faded, streaked or grey. Years ago the only way to get this mixture was to make it at home, which is mussy and trouble some. Nowadays, we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge soft brush with it and draw this through your hair, taking one small strand at a time; by morning the grey hair disappears, and after another application or two, your hair becomes beautifully dark, thick, glossy, and you

that was a sign of good or bad luck.
The editor replied, "Finding spider was neither good nor bad luck for you. The spider was merely looking over the paper to see which merchant is not advertisting so that he can go to that store.

By Mrs. Helen Green Van Campen, Author "Behind the Scenes," etc. In The Morning Telegraph, New York.

"Everyone wishes to hear about what is going on in the wide world, and you will be interested to know that is our most popular publication in the Northland. It is THE LITERARY DIGEST.

"I was out in the wild country looking over a mining prospect, and while on the move toward my destination an old miner ran out from his shack and bid us stop. He said 'Got a LITERARY DIGEST for me?' I talked with him, and he said he wanted THE LITERARY DIGEST because it told him about what was going on in the worldeverywhere. He got the news in condensed form, and liked it that way. I have since investigated and have found that virtually everyone up here looks to THE LITERARY DIGEST to tell them things. Not everyone takes the publication, of course, but

when a man reads it he saves it and passes it on to a neighbor, who passes it along in the same

"It is interesting to see one of the old-timers sit down to read his LITERARY DIGEST. It is a serious matter with him; he does not merely skim through it; he reads it carefully, advertisements and all, like old man Jucklin did his Bible-'from kivver

"Then he gives it to another old-timer, who also reads it from start to finish. Afterwards they light their pipes and engage in debate on the topics they have been reading about.

And I, even I, have got the habit, too. Please mail a LITERARY DIGEST to me every week, if you can think to do it."

Mr. and Mrs. Walter Stevens and two sons, Charles and Mell, of Wel-lington street north, have returned home after a delightful two-weeks' auto trip to Detroit, Kalamazoo, Chi-cago and other places.

Mrs. Alexander Durdin, Thompson avenue, was the hostess of a delightful dinner and linen shower given on Tuesday at her home in honor of the bride-to-be, Miss Edith Maitland. The Chelsea Green Presbyterian choir also entertained the bride-elect recently, making her a handsome presentation.

Without a doubt she wanted me to fly into a passion, and accuse her of all sorts of underhandedness and subterfuge. There was a common, bourgeois streak in Julie, She would dearly love streak in Julie, She would dearly love streak in Julie, She would dearly love fly into a passion, and accuse her of all talking with him. But had Fred ever been mine for the losing?

It was a heart-breaking question. And with Julie's sharp black eyes upon me, I could find nc answer to it, unless one in the negative.

"I intend to stay in town for a few days." she proceeded. "The country is beautiful, but just a little "triste" at times. I have explained to your aunt that I have some business in the city so for a few days she excuses me."

First Time in Years Soccer Game Has Been Scheduled To Take Place in Tecumseh Park - Rival Musicians Plan Battle.

Tomorrow afternoon the teams of the 1st W. O. R. and Grand Trunks, City League champs, will meet over at Tecumseh Park in a Cup Tie game.

It will be the first time in years that a soccer game has taken place at Tecumseh Park, thus marking the progress the game is making.

Interest attaches to this game because it makes the first appearance of the 1st W. O. R. team, and they are meeting, theoretically at least, the strongest soccer team in the city. The result will pretty well determine how far the regimental team are to go in the Cup Tie series. The Grand Trunk Brass Band will

be in attendance at the game, and the Kiltie Band of the 1st W. O. R. will be pitted against the east end musicians in a side-line battle. It practically marks in a side-line battle. It practically marks is the debut of the regimental band as well as the soccer team.

SOCCER KICK-OFFS

The grievance committee of the City Soccer League met last evening to discuss the protest of the G. W. V. A. in the soccer game played last Saturday afternoon against the Public Utilities in the McCutcheon cup ties. The protest was allowed on the grounds of an inefficient referee. The referee will not be allowed to take any further part in soccer in this city.

It has been reported that Colon Veatch, famous halfback of the Newcastle United of England, is in town. If this report is true, the officials of the league would like to have Mr. Veatch call on them.

Motreal, Oct. 1.—The M. A. A. A. football squad had their final workout last night in preparation for the opening game of the big four against Argonauts at Toronto Saturday. The practice was held on a rain-soaked field, and in view of the conditions, Coach Bill Hughes did not keep the players on the field for much more than half an hour. Hugh Jacques, star centre half on last year's championship team, put on a unifrom and got in some practice with the boys. The appearance of Jacques ha sraised the hopes of the executive that he will play again thi syear, as his presence on the team would be a welcome one. velcome one.

Frank McGill is another of last year's players who may come around to the assistance of Bill Hughes next week. There is no question but that his sterling performance at quarter back position during the entire season was largely responsible for the successful showing of the team last year.

Bill Hughes will call the players again for another rehearsal today. Mystery Still Surrounds

Racehorse's Disappearance

Montreal, Oct. 1.—In connection with the mysterious disappearance during the night of September 13 of the racehorse Fair and Warmer from the Bluebonnets race track, its owner, J. S. Whatley, yesterday issued a statement to the effect that last Tuesday he and his lawyer called on another lawyer, unnamed, who had declared publicly in the press that the horse was within five miles of Montreal and would run at Woodbine, Toronto, on Tuesday last. Both Whatley and his lawyer declare that the lawyer said he knew where the that the lawyer said he knew where the horse was, but declined to disclose its whereabouts. Dr. Routly Tells Medical Association - Co-operation Would Help Public.

inertia on the part of many Ontario medical men is responsible for conditions unsavory to the public and themselves, according to Dr. Routly, secretary of the Ontario Medical Association, who addressed the Western Ontario Academy of Medicine meeting held in the Majestic Theatre here Thursday afternoon. He treated Inertia as a disease outlined the cause and symptoms, and prescribed the treatment and gure to those present.

"The cause is lack of co-operation of practitioners who disregard that axiom that man liveth unto himself alone," he declared. "There are 3.450 registered practitioners in the province, 1,300 of whom are members of the Ontario Medical Association. Two years ago our membership was 500 practitioners, and although the present strength is gratifying, we have a long piece to go ere we reach 3.460."

"Irregular Practitioners.

"A sympton," he declared "is irregular practitioners. I have it on very good authority that in one province irregular practitioners asked to be registered, saying we use neither drug nor knife therefore, are not diagnosticians." If they touch my child on the back, while that child has measles, and go to your child while it has scarlet fever and touch it on the back is that diagnosis. Fifteen of them decided to try a government examination Out of the fifteen four showed toms, and prescribed the treatment and

back is that diagnosis. Fifteen of them decided to try a government examination. Out of the fifteen, four showed up, two finished and obtained an average of 5 per cent. You say, 'O, in my town we disregard them.' Are you doing your duty if you think they are imposing on the public?

Makes For Quackery.

"A serious sympton of inertia quackery. From two to feur millio dollars per year go out from the province annually on patent medicines, an it is very largely wasted. People taking them without the direction of the family them without the direction of the family physician are doing themsives harm, and there is an economic as well as a personal loss entailed. If the doctors of the province were solidly organized how long would quackery continue? The postmaster-general when informed that there was a Canadian branch of a United States firm denied the use of the United States mails pleaded ignorance, and declared that nothing could be done until further legislation. Only when the profession in duty to the public advises this legislation will there be a change.

"Another sympton is the workmen's compensation act. I do not want to start any trouble, but if I were to cal for grievances against this act here we would not finish our program tonight. The workmen's compensation is the only analogue of state medicine in the province today, something to which you and I must bow. What redress have you got? (Replies of none from the audience). "Standardization of drugs at present because of inertia calls us to depend on drug houses. We pay big money for inefficient service. The Ontario Medical Council with us should obtain a pharmaeutical laboratory for the analysis of drugs. To summarize, we are an ununited force.

"The Cure.

"The cure for inertia," the speaker concluded, "is that we should have more members and more meetings similar to that of today. Our \$2 fee for membership is ridiculous compared to other organizations. I wish this meeting would memorialize the association to raise the fee to \$5. Would you sooner give \$2 for nothing or \$5 for something?"

Following this stirring address the meeting adopted the suggestion of Dr. Routly, and by a unanimous resolution memorialized the Ontario Medical Association to increase the annual fee to \$5. Dr. H. W. Hill requested the meeting on behalf of the university extension committee to consider cooperation for certain clinics for the public to be inaugurated throughout Western Ontario. The academy indores this action and referred it to a committee to report details at the next meeting.

FEEDING SPOILED MEAT TO PIGS CASE IN KENT DROPPED

But Butcher Pays Fine For conducting a Slaughterhouse Without Permit.

RLENHEIM, Sept. 30 .- As a result of a visit in this district by Dr. Mc-Nally, district officer of health, Geo. Duff of Chatham appeared before Magistrate J. C. Whittington on two charges, one for conducting a slaughter house in Harwich without a permit of the local board of health, and the other for feeding decomposed meat to hogs. He pleaded guilty to the first charge on the advice of his solicitor, after Dr. A. R. Hanks, M. O. H., had told of his findings on a recent visit to the premises, and stating that he was not aware that Mr. Duff was conducting a slaughter house until so informed by the D. O. H. Mr. Duff was fined \$10 and costs, amounting to \$20 in all, on the first charge, and the second was not pressed by the M. O. H.

It appeared that Duff lives in the city and rented a farm about a mile out, where some slaughtering was done. The premises as described by the M. O. H. were very unfit for the purpose and continuance of some slaughterhouse business after being warned by the D. M. O. to close up, led to the charges being laid. Mr. Duff held there are slaughter-houses in some other municipalities worse than his and held that he was not responsible for some slaughter house until so informed by municipalities worse than his and held that he was not responsible for some of the unlawful conditions found by the local M. Seeks Permit To Leave France For

Paris, Sept. 30.—Deprived of his rights as a citizen of France, because of his intrigues to induce France to break her alliance with England and Belgium, and sign a separate peace with Germany, Joseph Caillaux, one time premier, now is said to be seeking permission to leave this country and go permission to leave this country and go
to Brussels, where he has been offered
a position as private counsellor by a
large banking firm.

French officials declined to comment
on the report, but the correspondent of
the Sun and New York Herald was informed in well-informed circles that a
bitter protest would be presented if the
Government decided to grant Caillaux's request for a passport.

THE DUMBELLS IN "BIFF! BING! BANG!" AT THE GRAND.

BANG!" AT THE GRAND.

To say that you saw the Dumbells in "Biff! Bing Bang!" when here before is no reason for your not going to see them again. The entire production is all new from the opening number "Good-bye Khaki" to the closing plavlet "The Duchess Entertains the Wounded Tommies." The term "second edition" doesn't half do it justice, because one who saw them last year wouldn't recognize the present vehicle, so vastly improved is the entire production. The catchy song numbers, many of them unheard here before, the clever wit and comedy patter, eccentric and novel dancing, delightful music, not speaking of the wonder costumes as worn by the members of the company, the lighting and scenic effects are of a character seldom seen in present day entertainments. The female impersonations at the hands of Ross Hamilton, who by the way is one of the cleverest female impersonators that has ever graced the footlights at the popular playhouse, and Arthur Holland, who is a close second for honors, are the bright features of one of the most delightful entertainments that has been offered this current season. The Dumbells will remain for the balance of the week wich a special popular Saturday matinee.

COMEDY "SAN TOY" COMES TO THE GRAND NEXT MONDAY.

F. Stuart Whyte will offer to London playgoers next Monday, Tuesday and Wednesday at the Grand his revival of the London gaiety success "San Toy." that bewitching Chinese musical comedy with an all-star English cast of players, with Miss Zara Clinton in the principal role of "San Toy." Mr. Whyte, encouraged by the success of his former annual pantomime offerings Hank Mann appears in a comedy film that is even funnier than usual, which is saying a good deal. Loew's news events are timely and interesting.

Bill Hart is starred as Dan Kurrie, while the leading feminine role is played by the famous Mary Thurman. Dan has been leading a wandering life for years because of his hasty action with his six-shooter when the ranch foreman hit Boss, Dan's favorite horse. He learns telegraph from the daughter of an old stationmaster, and falls in love with his teacher. Garber, a director of the railroad in that district, is also in love with the young lady, and his machinations finally deprive Dan of his job as station agent, and send him back to ranching. They also come very near to depriving him of his sweetheart, as she promises to marry Garber. Dan goes back to the ranch to forget. Then things begin to move quickly. Dan learns the secret of the band of robbers who have been terrorizing the district and who nearly succeeded in robbing the station at the time in which he was in charge of it. In a daring attempt to frustrate their latest plan, which is a large gold shipment and on which his sweetheart is also riding, he takes a short cut across country. With his famous pony he jumps from a steep cliff into the river. Then under the fire of the bandits, he swims across, while he sends his faithful steed back out of danger. His daring action is well rewarded, as the bandits are completely foiled, and with them the wicked plans of Garber, who proves to be at the bottom of the troughout Canada for the past five years, has revived this graets to

which have been so enthusiastically received throughout Canada for the past five years, has revived this greatest of all London successes. and staged it in such lavish manner, that those who saw the original show some few years ago claim the present revival to be the greatest production of the piece yet presented, not only from the standpoint of scenery and costuming, but in the casting as well. A sparkling chorus of twenty charming misses is one of the bright features of the production. A popular Wednesday matinee will feature the engagement here, and seats for all performances are now on sale.

AT THE ALLEN.

"Treasure Island" the photodramat-ation of Robert Louis Stevenson's of the same name was shown at Allen Theatre yesterday afternoon evening to highly appreciative atand evening to highly appreciative attendances, and will be the headline attraction again today and tomorrow. The picture is well produced and interestingly developed. It has a fascinating and gripping interest for both old and young, and in its successful appearance here and elsewhere, it disproves quite the popular fallacy that a successful photoplay cannot be put over without a love story as part of the plot.

Realistic staging for all the scenes is an outstanding feature of the production, and the quaint little seashore tavern, the big sailing vessel the stockades, the caves, the island scenery, are splendidly and substantially pictured. The cast of players might fairly be described as an allestar case the tured. The cast of players might fairly be described as an all-star cast, the excellence of the pirate characters being especially evident. Usually the one or two villains in an ordinary play are weakly portrayed, or badly overdone. But here one sees a score or more of villains, every one of whom is a brilliant actor, before the camera Of course, there is no opportunity to see real pirates today, but instinctively one assumes from the actors' natural facility and finesse that this is just how pirates would behave, and did behave, in the old days of buccaneering, hidden treasures, romance, and adventures bold upon the Spanish Main.

Everyone owes it to the repressed desires and dreams of his boyhood days to see "Treasure Island" in the movies. to see "Treasure Island" in the movies.

If Freud's theories are right, it will prove an excellent health tonic. Youthful hearts will be thrilled with delight, but older hearts will find quiet satisfaction in seeing as it were dreams of romantic younger days pictured in vivid fulfillment.

Clever comedies, good music, and views of the New York explosion in Wall Street, add to the interest of the

AT THE PATRICIA.

"The Harvest Moon," which began nowing at the Patricia Theatre last showing at the Patricia Theatre last might, is a delightful picture, showing Doris Kenyon, a fascinating little actress, as leading lady. The story is of a young girl, who is brought up in the beautiful home of Professor Fullarton, believing him to be her father, although he thinks she is the illigitimate child of his divorced wife. It seems that she is in reality the daughter of a famous French exponent of the power of suggestion, who married the girl's mother shortly after her divorce from Professor Fullarton, but this fact is not revealed until the close of the picture. The whole story centres around the idea that the power of suggestion is strong enough actually to bring about a reality. The cynical sister of Professor Fullarton is continually suggesting to the innocent and lovely girl that she has wicked tendencies, which suggestions become still stronger as the girl shows a desire to go upon the stage.

Her deflance of the professor and his sister when she runs away to follow a dramatic career brings her in touch with the hero, a young actor and playwright, who helps her along in her artistic career, which eventually brings her happiness. The heauty of the stage settings and the exceptionally fine actors in the picture make it indeed worth while. The fascinating and sometimes sordid life behind the scenes is shown with vividness, a well as the is shown with vividness, a well as the

cultured life among the set in which the professor and his sister move. Especially beautiful is the character of the Frenchman, who is ultimately revealed as the girl's father. His hand it is that continually smooths away difficulties and endeavors to overcome the fils which the power of suggestion alohe has brought about.

I fine vaudeville act, in which splendipiano and singing numbers are a pat, together with excellent pictorial reliew films and some comedy reels, complete this most excellent of progression.

Claim Against Company.

"The railway organizations endeavored to obtain a settlement of this dispute with the Grand Trunk Railway management, carrying the case to the board of directors in Britain at the time that the Grand Trunk Railway bill was before Parliament.

"The employees well understament," said Mr. Robertson, "that when he Grand Trunk Railway arbitration has been adjusted the employees will be fairly and justly treated with regard to pensions. They furthermore fully understand that their claim against the Grand Trunk Railway Company for pensions unpaid since 1916, is a claim against the railway company and not the Government."

"They, and their counsel, are presenting their case to the board of arbitration, and the department of iabor has placed at their disposal correspondence interchanged between the department and the Grand Trunk Railway on the subject, so that both the employees and the railway company will be on an equal footing as regards access to all the facts including the communication from the Grand Trunk, which Mr. King retained in his private possession from 1910 until June, 1920, at which time he filed it with the department in keeping with his promise to Parliament when the Grand Trunk employees' pension matter was under discussion in the House.

"The representatives of the Grand Trunk employees themselves will, I am sure, not corroborate Mr. King's statement as to the attitude of the Government towards this matter."

CALGARY, Sept. 30.—Hon, Gideon Robertson, minister of labor, makes strong exception to the statement made by Hon. W. L. Mackenzie King, eader of the Liberal Opposition, that the representatives of the railroad brotherhoods had petitioned the prime minister and himself to see that the perpresentatives of the railroad brotherhoods had petitioned the prime minister and himself to see that the perpresentatives of the grand Trunk were definitely defined in any agreement which might be reached, adding that "they might as well have spared themselves the trouble of making any representations, for the Government general them altogether."

"I do not know whether the honorbie member has been quoted corectly," remarked the minister of tother in an interview in Calgary Thurssy, "but if he has, his statement quite contrary to facts, which are iselfy as follows:

made from only the very finest Australian Merino sheep's wool, combed and scoured to absolute purity and cleanliness, and "knit-to-fit" the form and give lasting comfort.

It Pays to Buy the Best

"CEETEE," the pure wool underclothing that will not shrink, may cost more than other makes, but it wears, looks, feels and satisfies beyond the powers of other makes.

"CEETEE" underclothing is knit on special machines, and knit full-fashioned to fit the body. "CEETEE" has no seams, all joins being knitted together, not sewn as in

ordinary underwear. "CEETEE" will give you more genuine comfort than anything you have ever worn. There is nothing to equal it for warmth, comfort and long life.

"CEETEE" wears wonderfully well and is soft as down.

ladies, men and children in ribbed and plain styles. It is made under the same skilled supervision as the famous "CEETEE" underclothing. The raw materials used are of the best and the finished garments as perfect as it is possible to make them.

REMEMBER—If you can't buy "CEETEE" be sure to buy "TURNBULL'S"

For sixty years, the C. Turnbull Company of Galt, Limited has been making superior underclothing for men, women and children. The Turnbull Trade Marks are known and looked for by thrifty people who consider quality and long wear, rather than the initial purchase price.

NORTHEAST TORONTO

Has Promised Reply To G. W. V. A. Representatives in 48 Hours.

TORONTO, Sept. 30. — Sir Adam Beck, chairman of the Ontario Hydro-Electric Power Commission, last night nised representatives of the centra branch of the Great War Veterans' ciation that he would notify them Association that he would notify them in 48 hours whether or not he would accept a nomination for the vacancy in Northeast Toronto, created by the resignation of Hon. Dr. H. J. Cody, former minister of education. The soldier delegation offered the nomination to Sir Adam.

Sir Adam's decision was not known at a late hour tonight.

Dictum of Chief Justice in the Dufferin Election Argument.

TORONTO, Sept. 30 .- Argument by ounsel in the election trial which took place at Orangeville early this week was heard today at Osgoode Hall here by Chief Justice Sir William Mulock and Mr. Justice Rose, who had pre-sided at the election court in Orange-

and Mr. Justice Rose, who had presided at the election court in Orangeville.

Gordon N. Shaver, counsel for the petitioner, John Reburn, defeated Conservative candidate in the Dufferin County provincial election of October 20 last, spoke for more than three hours and a half. Gordon Waldron, solicitor for the United Farmers of Ontario, represented Thomas Slack, U. F. O. member for Dufferin. The judges reserved their decision.

Mr. Shaver claimed that the promise made by Mr. Slack to return subscriptions made by friends in the riding among the farmers' clubs if he were elected was a corrupt act, and that while the elections act contemplated subscriptions. If these were paid back is constituted a bribe.

Must Prove Corrupt Purpose.

With reference to the subscriptions, Sir William Mulock remarked:

"Place the worst construction on the circumstances that you can; these men were willing and keen to vote and work for Mr. Slack."

As to Mr. Shaver's contention that the repayment of the subscriptions constituted a bribe, Sir William said: "It cannot make it a corrupt act unless you can prove it was done for a corrupt purpose."

of Stealing Cloth.

WOODSTOCK, Sept. 30.—Mark Tong, prisoner in the local jail, committed uicide in his cell this afternoon. Tong, whose home was in Toronto, was entenced with another Chinaman sentenced with another Chinaman named Wong Ping to five years in Kingston on three charges of theft from local stores, and was in jail awaiting to be taken to Kingston to serve his sentence when he ended his life. At noon hour, when Jailer Clarke took the Chinaman his dinner he seemed in good spirits. He was seen again about 4 o'clock, but when the jailer took the evening meal to the cell, he found the prisoner hanging to the framework above the door. He had fastened one end of his necktie to the iron frame, and the other end around his neck, using a stool to stand on. This he kicked away. A doctor was summoned, but life was extinct. An inquest has been ordered. Tong and his companion pleaded innocence of the theft charges, but admitted having opium in their possession,

BORDEN NOT GOING TO FIRST ASSEMBLY LEAGUE OF NATIONS

Canada Entitled To Send Three Delegates-Only One Vote.

OTTAWA, Sept. 30.—Canada's delegation to the first meeting of the assembly of the League of Nations assembly of the League of Nations will, it is understood, consist of Sir George Foster, minister of trade and commerce; Hon. C. J. Doherty, minister of justice, and Hon. Newton Wessiev Rowell, formerly president of the Privy council. Canada is entitled to send three delegates to the assembly, but, in common with other states members, will have one vote.

It was at first hoped that Sir Robert Borden might be able to be a member of the delegation. Sir Robert was, however, compelled to decline, on the ground that his health had not yet sufficiently recovered.

The assembly meets at Geneva in November.

EAST END CITADEL FOR SALVATION ARMY

Plans For New Building Have Been Sent To Toronto.

Another important building to be erected in connection with the Salvation Army in the city will be that of the new east end citadel. Plans for this new building have been drawn up and are on their way to Toronto for indorsement at headquarters. This building will be one of the finest Salvation Army structures in the city, and is only one of the many buildings the oriner officer. Col. Rawling, has built. The cost of this building is not yet

FIVE PERMITS.—Building for the month of October is not starting off with rush. Inspector A. M. Piper is confi-dent that it will prove a fairly good dent that it will prove a larry good menth, however, as several large contracts are pending in various parts of the city. Five small permits were issued today for a total of \$1,500. The two largest were: F. C. Fitzgerald, foundation, 900 Waterloo street, \$575; T. Silverstein, foundation, Ottaway avenue, \$500

HUMANE SOCIETY.—The regular HUMANE SOCIETY.—The regular monthly meeting of the Humane Society was held in the city hall Thursday evening, Miss E. Elliott presiding. Inspector George Tustin gave a lengthy report on his work during the month, stating that a total number of 364 cases had been handled. A number of animals had been destroyed, he said, who were suffering from diseases. 57 of these were dogs and 38 cats. BANQUET AT "Y." — The military department of the local Y. M. C. A.

occupied the attention of Magistra'e Graydon in police court today, an alleged breach of the motor vehicle act by F. J. White of this city. Mr. White, assisted by his son, was able to prove that he was many miles from the spot I where he was supposed to have been exceeding the speed Mmit. The case was dismissed. The following were assessed \$5 each for breaches of the act: T. H. Baneff. S. Paddock and P. B. Mc-Pherson. For minor breaches of the same act. M. Caravella, John Bridge and A. Hamson were fined \$2 each.

GIRLS' CLUB.—The annual meeting of the Girls' Social Service Club was held on Wednesday evening at the home of Miss Isabel Tanton. The following officers were elected: President, Miss Velma Wylle; vice-president, Miss Gertrude Anderson; secretary, Miss Vola McDonald; treasurer, Miss Florence Burdon; press reporter, Miss Ora White. The work of last year of visiting the children's shelter one evening ach week and providing a couple of hours of amusement and occasional treats was so satisfactory that the same work will be continued this winter; also help will be provided for families in need that are brought to the notice of the club.

BUSINESS GOOD.—London reports to Bradstreet's say that business continues to show improvement, and there is little Bradstreet's say that business continues to show improvement, and there is little complaint as to general conditions. It is claimed by some of the local businessmen that business here is generally conducted on such a stable basis, and the resources of this part of the country so varied that there is little chance of matters being convenient that ters being seriously uset, even were such a thing threatening. Rural trade is good and wholesale trade is fairly active. Sugar has dropped one and a half cents per pound. Farmers are busy after a good year. STANDARD STOCK EXCHANGE.

Toronto, Oct. 1.—There was a rather easier tendency in the trading on the Standard Stock and Mining Exchange this morning, although the business transacted was lighter in comparison with recent daily sales lists. McIntyre was firm, however, at 206, and Nipising at 950. The heaviest selling was in the weaker stocks, particularly igford and Schumacher.

Corroborates Witness.

Eli Hodgins, one of the present councillors, was then called and said that January 6 or 7, while in the Queen's Hotel he heard Hodgins say "We beat him in Granton. He is a liar, a rogue and a thief, and I have \$1,000 to back it up." Harry Lankin, who was in the hotel at the same time, said that he heard Hodgins say the same thing. Verne Hodgins was also in the hotel at the same time, and he added that Hodgins said he had the papers in his pocket that would preve Reveraft was a thief. Mrs. R. De Coursey, wife of the proprietor of the hotel, heard Hodgins say that he had the papers to show that Reycraft had taken the money.

One of the chief witnesses of the session was Mrs. Elliott, formerly township treasurer. During the time she was treasurer she was also accountant in the Standard Bank in Lucan, and did her work in connection with the township after her banking hours. She stated that the township had borrowed money on several occasions from Mrs. D. O. Stanley. Two notes of \$1,000 each were among the money obtained from Mrs. Stanley. The township books were then obtained and a thorough examination proved that the two notes had been paid, along with the interest. She said that she showed the notes at a meeting of the council some time later.

\$1.000 from the township and that he had papers to prove it.

Michael Blake, one of the present township auditors, was then called to testify, and he said that Hodgins told him at Hector Millson's sale that there was a shortage of \$1,000 in the township books and that Reyeraft was the man who took it.

"I told him he mustn't say that, for he might get into trouble," said Mr. Blake. "Hodgins then said that he wouldn't, because he had the papers right with him to prove it."

Mr. Blake was then cross-examined by Mr. Meredith. Mr. Blake produced a copy of a letter he wrote to the council when it asked him to be one of the auditors for the year. In the letter Mr. Blake wrote back, he said, that he wouldn't act for the money there was in it because the books were in too bad a shape. He also stated that there was something the matter to keep them from balancing and that he didn't want to find it out.

Mr. Justice Logie, at the close of the cross-examination of Mr. Blake, adjourned the sitting until this mornins, when the witnesses for the defendant will be cailed.

men of the western provinces, will visit London in the near future for the purpose of creating interest among the businessmen of this city in plans for settling the virgin lands of the prairies. This information was contained in letters received by several of the larger firms of the city today.

Because it is believed that a closer settlement of the west will prove a short route to financial security in Canada, these men have banded together to accomplish that nurrose. It was pointed in the work must be taken up by societies because the covernment is untable to spend anything for peopling privately-owned lands.

The organization intends to select settlers, to welcome them, give them informaticn and advice as they require it, and to make of them good Canadians. The homes for these people will be located within 20 miles of the existing railways.

Among those who will visit this city will be James Ramsey, M.P.P., Edmonton; W. D. Anderson, president of Afberta Trust Company, Edmonton; W. R. the students who would come to the
university if the accommodation were
provided. You know that there are
12,000 pupils in the secondary schools
in Western Ontario. If the university

Your Railway and The Cost of Living

BEFORE the privy council at Ottawa protest against the new railway rates has been made on the grounds that the giving of the new rates would raise the cost of living by a percentage many times higher than the percentage actually charged by the Canadian railway.

It was pointed out that the numerous middlemen who act as the distributors of goods would each add his percentage of profit to the freight rate, so that although the railways might only receive, say 40 cents additional freight charge on a shipment the public would be forced by the distributing middlemen to pay many times that amount.

The management of the various Canadian railways desire, through this, their association, to draw the attention of newspaper readers to the highly significant fact that the recent increase in United States railway rates—an increase similar to the increase in Canada—has actually been followed by a decrease in the cost of living in that country.

Furthermore---

A great Canadian manufacturer recently made public—without any solicitation and without the previsous knowledge of the railway managements—figures which proved that the retail selling price of a yard of plain white cloth in Winnipeg, after being hauled from Montreal to Toronto and Toronto to Winnipeg, would be increased only one-half a cent. Even after the whole-saler had added 20 per cent profit to the new freight rate and the retailer another 50 per cent.

He showed that these distributors, whether rightly or wrongly, added 15 cents to his mill price of 16 cents per yard.

Yet the railways carried the raw cotton for this yard of goods from Texas to Montreal, and the finished goods from the mill to Toronto and Toronto to Winnipeg for one and one-half cents.

One and one-half cents as against fifteen cents.

We venture to believe that whatever the explanation or the justification may be, the same serious additions to cost by the distributing trades will be found in relation to almost every article of common household use.

This is not to attack distributors. They may themselves be victims of a bad system or of an overcrowded trade. But is to point out that if they add whatever persentages they, as a trade, find convenient on top of the freight rates the railways cannot help either themselves or the public. The oppressive results of these practices should not be charged against the railway management, nor cited as reasons for holding freight rates downmerely because railway rates can be held down, while other prices soar as the various trades find necessary.

R AILWAY charges always must be a serious item in determining cost of production. But the managements of your railways urge upon your attention this fact, that antiquated, overloaded and wasteful systems of distributing goods are much more properly a subject for public anxiety.

CANADA CANNOT PROSPER WITHOUT RAILWAYS; CANADIAN RAILWAYS CAN-NOT PROSPER UNLESS CANADA PROSPERS

In all sincerity let us suggest that the people of Canada beware of those who would restrict and even strangle the railways simply because control exists there, and is not so convenient in other departments of commercial activity.

DEALS WITH W. O. LINES Witness Claimed Hydro Com-

mission Was Trustee For the Municipalities.

TORONTO, Sept. 30 .- In giving evidence before the royal commission on Ontario hydro radials today, Chief Engineer Gaby of the Ontario Hydro Commission, was examined particularly regarding the plans for the extensions in Western Ontario.

Western Ontario.

Replying to a question of Mr. Hellmuth, he said that the estimates now submitted regarding the Hamilton-Galt-Elmira lines were the same as those submitted to the Government, except that fuller details were given. It was the same scheme which was voted on by the municipalities interested Fuller. by the municipalities interested. Fuller details, he said, would be ready next week, when. Mr. Hellmuth promised, they would be gone into more defi-

lels the G. T. R. to Long Branch. This line, said Mr. Gaby, would run on the same grade as the Grand Trunk to Long Branch with no level crossings. Between Long Branch and Oakville twould have the same crossings as the Grand Trunk. After reaching Oakville it was proposed to take over the present Dominion Power transmission lines, now in operation, instead of duplicating it. The estimates include a reproduction of the cost of this line from Oakville to Burlington but it was hoped the present line would be acquired. From Burlington a new line would be constructed into Hamilton, seven and one-half miles long, saving half an hour, as compared with the present beach-line entrance. The purchase of the beach line was not contemplated. The Hamilton terminal would be at James street, some 2,000 feet from the City Hall.

Would Parallel G. T. R.

The line from Hamilton to St. Catharines would parallel the G. T. R. to Red Hill, and from there run near the present Beamsville raidial on to St. Catharines. The present estimate, said Mr. Gaby, included the cost of right-of-way already purchased. These estimates include two-thirds of the cost of a terminal at Toronto. The estimated cost of the Toronto-Hamilton line was \$9,864,665, and the Hamilton and Niagara

division to St. Catharines \$3,593,182.

W. S. Murray's report had made the total cost \$15,037,944. Further contingencies would bring the total cost to \$17,293,635.

gencies would bring the total cost to \$17,293,635.

Regarding the Toronto terminal of the Toronto-Guelph line, Mr. Gaby said it would connect with the Toronto to Hamilton line at Sunnyside and enter Toronto on its rails.

Regarding the existing Hamilton-Beamsville line, Mr. Gaby said it could continue to operate and would probably look after the local suburban traffic to Hamilton.

Mr. Gaby said that as he remembered it the estimated cost of the Guelph line was \$1,000,000; the Weston-Woodbridge, \$500,000; and the total of all the Toronto suburban lines over \$2,000,000. These estimates were made at the time Sir Adam Beck, chairman of the Ontarlo Hydro-Electric Power Commission, was negotiating with the Mackenzie interests for the purchase of the Toronto suburban lines, Mr. Gaby said. Bylaws in connection with the lines had not been submitted to the municipalities concerned.

I. F. Hellmuth, K.C., representing the Government, said the inquiry in this connection would have to halt until material on operation had been obtained.

Mr. Gaby outlined the plans of the line between Toronto, Hamilton and St. Catharines. This line, said Mr. Gaby, would run on the same grade as the Grand Trunk to Long Branch, with no level crossings. Be-Most folks forget that the kidneys,

non-hydro municipalities, questioned Mr. Gaby as to the repeal of the radial railway act of 1913 and the passing of the act of 1914. He said that by the first act the municipalities had power to build radial lines, but the new act took this power from them and gave it to the hydro-electric commission.

and gave it to the hydro-electric commission.

"In short," said he, "they left the municipalities the right to ask for radials and to pay for them."

The hydro-electric commission were trustees for the municipalities, was Mr. Gaby's reply to this.

Mr. Robertson asked how the Hydro-Radial Railway Association was appointed, if directly by the people. Mr. Gaby answered that they were not appointed directly by the people, but were chosen by the councils, and practically had no power.

"And the hydro-electric commission consulted that association?" Mr. Robertson asked.

"I would not care to go that far," replied Mr. Gaby. He said it was not the association that had advised the hydro-electric commission—it was the representatives of the municipalities that had contracts with the commission that had done so.

Hearing of Railway Rates Appeal Closed-Premier Meighen Promises "Due Consideration" — Admits Policy "Repugnant To Public Policy" May Have Been

Icanadian Press.]

Ottawa, Sept. 30.—Hearing by the Government of the appeal from the decision of the railway board granting increased railway rates was closed shortly after 6 celock this evening, after two days of argument the prime minister stated that due consideration would be siven to the representations made both in support and in defence of the rates judgment. He remarked that many of the matters discussed before the ministers were such as could only be determined by a prime perly constituted from Unless the Government proposed to reverse the decision of the board it would be necessary for it to confine itself to the question of whether or not a policy had been adopted which is, repugnant to public policy. Should it appear that an error had been made by the board, a reference back to that body would be appropriate. However, much matter had been made by the board, a reference back to that body would be appropriate. An Array of Counsel. During the afternoon counsel for the railways, including W. C. Chisholm for the Grand Trunk system, and F. N. Chrysler for the Canadian Railway Association, closed their arguments. Then counsel representing the appellants were allowed to reply, R. J. Symington, counsel for the Manitoba Government, J. B. Coyne, counsel for the Winnipeg Board of Trade, G. R. Geary, representing the corporation of Toronto, and D'Arcy Scott, counsel for the Saskatchewan Government, being heard. They all emphasized their former arguments and dealt at some length with new matters brought into the case by the representatives of the railways. During the afternoon counsel for the

the representatives of the railways. Closing Argument.

The closing argument in support of the appeal was made by Mayor Thomas L. Church of Toronto, who in his opening sentence declared that the Ontario Government is so busy administering the Ontario temperance act and other matters in which it is concerned that it has no time to attend to the interests of the people. Mr. Church said that he also represented over 300 Ontario municipalities that have decided, because of bad treatment by the steam roads, to have a transportation system oads, to have a transportation system m Western Ontario of their own.

roads, to have a transportation system in Western Ontario of their own.

Should the new rates be maintained, he said, no relief could be given to the housing shortage in Toronto, where 15,000 new homes are required. Ontario had been discriminated against in the matter of short haul rates.

Paralyze industry.

"The working people of Toronto," said Mr. Church, "are almost in rebellion about these things, and business men say the new rates will paralyze industry and industrial life."

But the people have confidence in the prime minister and believe that he will solve these problems. Action was necessary if the present current of unrest was to be stemmed.

Mr. Church complained that the railway board was unfair in its attitude to the people. He noted that while there were no members of Parliament present to represent the people, a whole carload of railway lawyers was in attendance. He asked the Government to allow the appeal and to send the judgment back to the railway board for a proper report.

BIG CITY TO RISE NORTH OF 53RD DEGREE

Mayor C. F. Gray Says Possibilities of District Makes Brain Reel.

Winnipeg, Sept. 29 .- That the second largest city in Manitoba will emerge from the wilderness in the northern portion of the province when the vast natural resources of the hinterland are developed was the prediction of Mayor Charles F. Gray upon his return from a trip north with the Maritoba Legislature party.

The Flin Flon, he said, would be the greatest copper mine in the world. A stampede to the district is inevitable,

"It makes the brain reel when one cees the possibilities there in timber, pulpwood, fish, water power, copper lead, sulphide, and precious metals, such as gold, silver, radium and tungsten, north of '53,'" he said. "The mining possibilities in that district will create one of the most conservative mining fields the world has ever seen." The people of Manitoba, he declared, have no conception of the untapped resources of the province. The Flin Floa mine has ore in sight worth \$180,000,one. The diamond drilling in the mine so far has shown the vein to be 300 feet wide, 2,500 feet long, and 900 feet deep, and the end of its possibilities are not known, concluded the mayor.

RUSSIAN NOBLES REDUCED TO POVERTY MAKE GOOD AS FARMERS IN FRANCE

Paris, Sept. 29.—Many of the Russian nobility who fled from Bolshevism to France now meet its chief requirement—that all must work with their ment—that all must work with their hands that they may eat.

The roster of deposed royalty is long but every few days there comes to public knuowledge the situation of another Russian person of prominence whom adversity has not conquered.

A large dairy farm has been established near Parls by Count Paul Ignatieff, where members of that family and some of their noble friends are reconstructing another fortune.

The Duke of Leuchtenberg-Beauharnais is farming near Tours. The Prince Lyszezynski is a bank clerk. Princess Mestchercky and a number of others are commercializing their knowledge of art, doing interior decorating. Prince Goudacheff, once Russian ambassador to Spain, is a far-

Paris, Sept. 30.-The American sysem of holding presidential elections tem of holding presidential elections is not favored by French merchants, who are greatly chagrined by the fact that American tourists in France are hastening home to vote. A month ago it was almost impossible to get accommodations in the, larger hotels, such as the Ritz, the Crillon, the Grand and the Rhin, but managers of these places now say they will have no difficulty providing the most elaborate suites after the first week in October, as their American clientele, with the exception of a few permanent residents, insist they are not going to

erous westerners return to restore the cover in their unprofitable existence.
On the other hand, the tourist agencies are well pleased, as they look on the homegoing Americans as advertisements for French resorts and battle-fields. Big firms like the American Express Company. Cook's and the steamship agencies are crowded daily by persons seeking staterooms in steamships for the United States. As a result of this homebound rush the price of transportation is soaring sky high, ordinary first-class passage in some cases and incidentals, such as steamer chairs, vises of passports and gratuities.

Apart from pleasant memories which Americans are taking home with them from France, however, they also are carrying unprecedented quantities of gowns and hats and even men's clothing, which can be purchased here for about half what it costs in New York. One Rue de la Paix milliner admitted that his sales to Americans since last April had exceeded his total sales of 1513. Modistes have reaped an unanticipated harvest, firms like Molyneux. Paquin, Worth, and Mercier reporting recently that they were unable to fill all their orders because of lack of trained employees.

PORTO RICO BISHOP CRITICIZES MODERN DRESS

SAN JUAN, Sept. 29.—Present styles of dress and the newer dances are severely criticised as immodest and degrading by the Right Rev. William A. Jones, bishop of the Roman Catholic Diocese of Porto Rico, who has issued a warning to both priests and parishioners, against their demoralizing influences. Certain of the modern dances are a "mockery to shame and in reality are nothing more than a bait to sensuality." in the opinion of the bishop, while the style of the day in women's dresses, he

FORMER MINISTER HE REMOVED LETTERS

Hon. G. Howard Ferguson Gives Evidence At the Timber Probe.

TORONTO, Sept. 30.—Hon. G. Howard Ferguson, minister of lands, forests and mines in the Hearst Government, was a witness today in the timber inquiry being conducted by Justices Riddell and Latchford, and was on the stand four hours. He will be heard further tomorrow.

Hon. Mr. Ferguson answered the numerous questions put to him by R. T. Harding, the crown counsel, without appearing at all ruffled until the question of missing papers was broached. The suggestion that the ex-minister was responsible for the removal of cerwas responsible for the removal of cer-tain letters from the files of the de-partment of lands, forests and mines, when he made way for his successor was warmly resented by him.

Absolutely Untrue.

"There have been allegations that things had been removed by the minister," Mr. Ferguson said. "I would be glad to know specifically what those letters are. Personal honor is concerned, and I want to know. It is said that I removed letters, and it is absolutely untrue."

Mr. Harding pointed out that copies of three letters, written at different times, were not in the department.

Mr. Ferguson replied: "My secretary removed all that were to be taken away. No letter of a public nature was removed from the department within my knowledge. In my term of five years over a million letters came into my department, and I regard it as a compliment that only a small file of letters were lost. I have gone through my letters, and there is not a letter which, in my judgment, deals with public matters on which should be autonomiated.

year the files were gone through and the "dead material" thrown out.

Did Not Know Russell.

With regard to the matter of W. H. Russell having obtained mining claims to pulpwood land and disposed of large quantities of pulpwood, according to evidence given some time ago in connection with the timber probe, Mr. Ferguson said he did not know Mr. Russell and had no recollection of having met him until this week. As to the staking of the Black Bay Peninsula for mining locations, the Black Bay Peninsula was withdrawn entirely from staking under the mining act on Mr. Ferguson's recommendation, he stated. This action had been taken upon reports that claims were being staked for the purpose of taking off the timber on them. PRELIMINARY TRIAL OF THOROLD RIOTERS POSTPONED TO OCT. 8

Mr. Justice Riddell pointed out that in the Russell case the evidence showed that there had never been any pretence of doing mining work. The claims had been staked simply for the pulpwood. He wanted to know why steps had not been taken to ascertain what Russell had already done.

Mr. Ferguson said he had not known that Russell operated to the extent shown during the investigation. IN MEMORIAM.
BURGESS—In loving memory of Lieut.
Edward F. Burgess, killed in action
in France, Oct. 1, 1918.
Nobly at life's green threshold
He cast aside the sweet of life;
Unknown to the world, he stands at
Our side, and whispers:
Death does not divide.
Only those who have loved and lost,
Can understand war's bitter cost.
Never forgotten by
b. Mother, Brothers and Sisters.
COWEN—In loving memory of Pte.
Alexander Cowen, who was killed
two years ago today, Oct. 1, 1918,
somewhere in France.
Into the field of battle
He bravely took his place,
Fought and died for his country,
And the honor of his race.
He seeps not in his rative land,
But 'neath a foreign sky.
Far from those who loved him best,
But in a hero's grave he lies.
b. A Friend.
FOX—In loving memory of Lieut. William Harold Fox, 1st Canadian Bat
tallon, killed in action two years ago

liam Harold Fox, 1st Canadian Bat-talion, killed in action two years ago today (October 1, 1918), at Cambral. Gone, but not forgotten.

—Inserted by Father, Mother, Sister

Second Day of East Elgin Fall **Show Draws Record** Crowds.

RACES WELL CONTESTED

Big Exhibit in Domestic Products and Home Cooking Departments.

[By Staff Reporter.] AYLMER, Sept. 30. - Despite cold veather, many thousands gathered in Recreation Park for the second day of the Aylmer and East Elgin Agricultural Society's fair. It was the intention of the fair board to have Premier E. C. the fair board to have Premier E. C. Drury give an address. He, however, wired James Thayer, first vice-president, that it was impossible for him to attend. Arrangements were made to have Hon. Manning Doherty speak. He wired that he was sorry, but that he could not attend. Many hundreds of fair visitors were disappointed when Premier Drury did not appear. Some came long distances expecting to hear him.

Hon. G. Howard Ferguson Gives Evidence At the Timber Probe.

TORONTO, Sept. 30.—Hon. G. Howard Ferguson. minister of lands, forests and mines in the Hearst Government, was a witness today in the timber inquiry being conducted by Justices Riddell and Latchford, and was on the stand four hours. He will be heard further tomorrow.

further tomorrow.

Hon. Mr. Ferguson answered the numerous questions put to him by R. T. Harding, the crown counsel, without appearing at all ruffled until the question of missing papers was broached. The suggestion that the ex-minister was responsible for the removal of certain letters from the files of the department of lands, forests and mines, when he made way for his successor was warmly resented by him.

Absolutely Untrue.

Absolutely Untrue.

"There have been allegations that things had been removed by the minister," Mr. Ferguson said. "I would be glad to know specifically what those letters are. Personal honor is concerned, and I want to know. It is said that I removed letters, and it is absolutely untrue."

that I removed letters, and it is absolutely untrue."

Mr. Harding pointed out that copies of three letters, written at different times, were not in the department.

Mr. Ferguson replied: "My secretary removed all that were to be taken away. No letter of a public nature was removed from the department within my knowledge. In my term of five years over a million letters came into my department, and I regard it as a compliment that only a small file of letters were lost. I have gone through my letters, and there is not a letter which, in my judgment, deals with public matters or which should be put on public files."

year the files were gone through and the "dead material" thrown out.

Did Not Know Russell.

With regard to the matter of W.

H. Russell having obtained mining claims to pulpwood land and disposed of large quantities of pulpwood, according to evidence given some time ago in connection with the timber probe, Mr. Ferguson said he did not know Mr. Russell and had no recollection of having met him until this week. As to the staking of the Black Bay Peninsula for mining locations, the Black Bay Peninsula was withdrawn entirely from staking under the mining act on Mr. Ferguson's recommendation, he stated. This action had been taken upon reports that claims were being staked for the purpose of taking off the timber on them.

Difficult to Prove Fraud.

Mr. Ferguson said the claims had been staked under the mining act, and as the requirements of the law had been met, there appeared to be no authority under which these claims could be interfered with. It was difficult, Mr. Ferguson explained, to prove that a man was acting fradu-lently when he made an affidavit of finding a showing of mineral, as had been done in cases probed by the

been done in cases probed by the commission.

Mr. Justice Riddell pointed out that in the Russell case the evidence showed that there had never been any pretence of doing mining work. The claims had been staked simply for the pulpwood. He wanted to know why steps had not been taken to ascertain what Russell had already done.

Mr. Ferguson said he had not known that Russell operated to the extent shown during the investigation. When the district in question had been withdrawn from staking the order-incouncil in connection with the matter was not made retroactive. It was the then minister's opinion that no action against those who had already could succeed.
