# OPENING OF BRITISH HOUSE; THE BIG TARIFF FIGHT IS ON

Government Has an Important Cabinet Meeting

BEFORE FACING THE SITUATION

Is Assured the Support of Irish Members on Repeal of the Grain Tax.

London, June 9.-The approach of the first serious parliamentary brush in the free trade-protection fight filled every seat in the House of Commons this afternoon. Before facing the situation, which must largely place them at the mercy of the Liberal and Irish votes, the members of the Government attended an important Cabinet meeting, at which all the ministers were except Gerald Balfour, the

Henry Chaplin (Conservative), former president of the Board of Agriculture, and the mal-content Unionists were actively engaged early in the day in and around Westminster in rallying the supporters of Mr. Chaplin's amendment to the budget bill, which declares that the removal of the tax on grain "involves a needless and injurious disturbance of trade and a serious loss of revenue, without substantial relief for the consumer," and if any taxes are removed it should be those levied on tea and other articles general consumption. Before the debate opened Premier Balfour ascertained from John Redmond, the Irish leader, that the Nationalist members of Parliament would support the Government as against Mr. Chaplin, Liberal leader, Sir Henry Campbell-Bannerman, had already announced that his party would also uphold the proposal of Chancellor of the Exchequer Ritchie to remit the grain tax. This practically insured the Government from possible defeat at the hands of its own supporters. The curious situation created the keenest interest.

excitement was caused by John Redmond asking that a committee be appointed to inquire whether the arrest Attempts to Prevent Rupture Between stantinople on a semi-official mission, of P. A. McHugh, M. P., on Saturday last, was not a breach of privilege This the Speaker, William Court Gully, refused to do and William Redmond wound up the discussion by loudly and ironically deploring the fact that Mr. McHugh, who is now in Sligo jail, would ot be able to receive King Edward when his majesty visited Ireland-Sir Michael Hicks-Beach (Conservative) invited the Speaker's decision as to whether the opportunity could be modifying the situation. If no change taken for the debate on Mr. Chaplin's takes place the idea prevails that M. amendment. The Speaker replied that Loubet will not ask to see the Pope, it was not relevant to the budget bill. as the question of preferential tariff necessarily bring about a rupture berates between Great Britain and her tween France and the Vatican. colonies was not raised in the bill. # **BILL FOR PENNY** SAVINGS BANKS

Design to Cultivate Thrift in Small Matters.

STATUS OF PRINTING BUREAU

Discussion on the Bill Respecting Infectious Diseases-The Treadgold Commission.

Ottawa, June 8. - In the House o

commons today, Mr. Fielding intro-

duced a bill respecting penny banks

Mr. Fielding explained that it is

measure for the cultivation of thrift

in small matters. The idea is to encourage small savings in a class that cannot be reached by the Governmen savings bank, and the Governmen considered it would be better to make a general rule that would apply to al such institutions. Incorporation wil be by letters-patent, issued by the Governor-in-Council. They are not in tended to be money-making or money lending concerns, but will be purely money .- saving institutions. The amounts deposited will be turned in a once to the Government savings bank except that five per cent will be retained to meet withdrawals. Capita to the amount of \$10,000 will be required as a guarantee, but the bank wil Judgment of Court in Representation An Order Granted for Winding Up the be allowed reasonable latitude in investing this. As such banks will be benevolent organizations the Government will allow them one-half pe cent more than the regular rate o interest in the Government saving bank. This is to meet expenses, and if it is found more than sufficient fo that purpose, it can be reduced at another session. The limit in the amoun that can be deposited is \$300.

Mr. Robinson - What is a penny There is no such coin in Canada. Mr. Fielding replied that the worwas merely used to denote any small savings. The bill was read a first time A question by Mr. Brock elicited th Is Thought to Be Lost With All It Makes Royalty Think of Dynamite information that the union label put upon the Labor Gazette to indicate that the work is done by union labor As to the relations between labor or ganizations in Canada and the United States, the Government have n information, except what has appear employing people in the printing bu reau, made no account as to membership in any organization

> Mr. Clarke asked: 1. Is the Govern ment printing bureau in this city ar "open" office or is it a union office 2. Are men who do not belong to the Typographical Union permitted to work as compositors in the composing room, and, if so, how many such men are now employed there? 3. Were the demands recently made by the compositors in the bureau for an increase o wages submitted to the fair wage officer of the labor bureau to pass upon and if so, did he report favorably o unfavorably upon the demands? Sir Wilfrid Laurier replied: There

never has been any objection on the part of the Government to employ union men only. It is now an "open office. The Typographical Union o stok. Poland, as equaling in some new increased scale of wages to commob, he says, forced an entrance to without previous demand or confer ence. The scale was declared to b scale.

The bill respecting infectious

against the introduction of diseases.

Mr. Fitzpatrick explained the bill amending the law regarding the department of public printing. Since 1893 the law has provided that printing and stationery for the I. C. R. may be obtained outside of the printing bureau at a cost not to exceed what it would cost if done in the bureau Not long ago the Auditor-General dis covered that the certificate for outside printing did not satisfy the statute The amendment overcomes the difficommercial rates charged for similar works or supplies in similar quantities. A clause empowering the superintendent of the printing bureau to employ apprentices, purveyors and others, "with the approval of the minister," was opposed by Mr. Puttee, of Winnithe bill to amend the public works act. Sir Wilfrid Laurier brought down the report of the Minister of Justice, in which the Treadgold commission is to be appointed. The report rehearses the circumstances under which

There is no doubt that the situation is extremely tense, and all kinds of rumors are afloat, one which many are inclined to credit, being that Mr. Chamberlain contemplates immediate resignation. It is said that he has no love for the Irish land bill, and would willingly precipitate a crisis before the Liberals have time to organize their election platform and free trade propaganda. Further, his health is not the best. He needs rest, and is said not to be averse to allowing the Liberals to form a government, being confident that it would be short-lived, and would enable the Conservatives to return to power stronger than ever.

Mr. Chamberlain's letter to a trade unionist, published in all the papers today, intensifies the interest in the discussion. The Colonial Secretary says: "It will be impossible to se cure preferential treatment with the You are, It's Ten Chances to One It's colonies without a duty on corn, as well as other articles of food. cause these are the chief articles of colonial produce." The letter maintains that the shilling duty on grain,

RELIANCE ON HER METTLE. New York, June 8. — This week the new cup candidate Reliance will have a chance to show what she can do over the cup course off Sandy Hook, where she will sail three races with the Constitution and Columbia. While the Reliance won four races on the Sound, and was only prevented from winning a fifth through the time limit expiring, little is known of her all-round qualities, except that she is a wonderfully fast boat in light winds and smooth water, and this week's contests should give her a good test under cup conditions. In the Sound series the wind was so light and flukey that on only two days was the wind true enough to compare her speed with the older boats. In the first of these races, on May 26, in a 10 or 12 knot breeze, the best the Reliance could do was to beat the Consti-

OPEN DAMPERS-BACK TO BED.

The "Sunshine" consumes so little fuel during the night that plenty remains to make an instant and strong fire when the dampers are opened in the morning. The operator may then return to his warm, cozy bed while the house is heating-heats in 15 or 20 minutes.

Self-acting gas damper works automatically so that disagreeable odors always escape through the gas-pipe - never pass through

registers into the house. The "Sunshine" is simple in construction, easy to operate, requires very little attention and will produce more heat from the same amount of fuel than any other heater.
