### ON TRIAL

England Interested in American Struggle  
and What the Outcome  
May be.

New York, July 18.—The steel strike in America is attracting much attention in England generally, and while long articles are being printed in the newspapers on the subject, no comment is made in the editorial columns, according to the London correspondent of the Tribune.

John Burns has been less reticent for he forecasts an American Armageddon, with the revival of the old anti-slavery feeling and the transformation of trusts into state organizations by the political power of hordes of workmen.

"Financiers watch the quotations from Wall street, and are unmoved by Socialist tirades. Combinations are felt to be on trial in America, and if they survive the great conflict with organized labor concentration of capital will be promoted in England.

### GOOD NEWS

Excellent Results Shown by Assay of  
Ore of Sovereign Gold Mining Co.

J. J. Ross, secretary of the Sovereign Gold Mining Co., in which so many people in this vicinity are interested, received this morning a communication from W. H. Jackson, giving the assay certificate on the ore. This letter furnishes excellent and very encouraging news for the fortunate shareholders in this enterprising company. It is as follows:—

J. J. Ross, Esq.,

Chatham, Ont.:  
Dear Sir,—I am in receipt of a letter from Douglas, He is now working on the Sovereign property and brought a piece of ore down to Ferguson and had it assayed. He thinks it is great. He also says there is quite a lot of it and that he can trace the ledge across the property. By what he states in his letter it must certainly be an important strike. I will try and get some samples of it when I go out. Expect to leave now in a week for B. C.

Yours truly,

W. H. JACKSON.

P. S.—I enclose the assay certificate sent me by Douglas.

The assay is as follows:—

S. Shannon, B. A., assayer and analytical chemist, Ferguson, B. C.

Description—Galenic and iron oxide with small quantity of copper pyrites and gray copper.

Gold—A good trace.

Silver—192.5 oz. per ton.

Value at 60 cents—\$115.50.

Lead per cent—41.

Value at \$4.25 per cwt.—\$34.85.

Total value of ore per ton—\$150.35.

I hereby certify that the samples of ore herein described and assayed for H. R. Douglas gave the above results.

S. SHANNON, Assayer.

## TOOK FIFTY PRISONERS IN SKIRMISH WITH BOERS

Successful Operations of the Kimberly Column—Sir William Harcourt Riles the Colonial Secretary.

London, July 17.—Replying to a question in the House of Commons yesterday afternoon, Secretary of War Brodriek said the statement printed by the Daily News to the effect that Lord Kitchener had advised the Government that it was now possible to withdraw the greater part of the infantry in South Africa, and that the Government was considering the question of replacing the infantry with mounted men, who would act as a police force along the railway lines, was wholly unauthorized, and was also inaccurate.

**SUCCESSFUL OPERATIONS.**  
Cape Town, July 17.—The British column which started from Kimberley some time ago has returned to that place after successful operations in the neighboring districts. The column brought in 50 prisoners, a large number of refugees and considerable cattle. The Boer invaders are still roaming all over the upper part of

these districts, in the neighborhood of Richmond.

### CHAMBERLAIN ANGRY.

London, July 17.—In the course of a debate on the finance bill in the House of Commons this afternoon, Sir William Vernon Harcourt (Liberal) trenchantly criticized the Government's financial policy, and said those persons believing the statement that the general expenditure would fall after the termination of the war were living in a fool's paradise. Sir William's speech, which was throughout undilutedly pessimistic, drew angry interruptions from Joseph Chamberlain, the Colonial Secretary. The latter, in the course of his reply to Sir William, took a sanguine view of the situation in South Africa; said nobody doubted the war would soon be over, and when the Boers recognized they had been thoroughly beaten, and had returned to peaceful occupations, interest on the Transvaal debt and sinking fund would be easily payable out of the surplus revenue derived from the new colonies. The finance bill passed its third reading by a vote of 291 to 121.

## STEAMER IN GREAT PERIL WITH 300 PASSENGERS ABOARD

All Were Saved With Difficulty by Fortunate Presence of Other Steamers—Sharp Bow of Steam Yacht Struck the Steamer Tremont—Great Coolness Displayed.

New London, Conn., July 17.—With forty feet of her bow cut clean off, the Str. Tremont, of the Joy Line, which left Boston yesterday for New York with 300 passengers, was towed into New London this morning in a sinking condition and beached. All her passengers had been transferred to other steamers in the Sound, and continued from there to New York. The Tremont's injury is due to a collision in the Sound at midnight last night with the steam yacht Wild Duck, Captain Wilcox, of the Tremont, says the night was perfectly clear, and the steamer was proceeding on her usual course, when about 12 miles west of Cornfield Light a schooner-rigged steam yacht was made out on the bow. The officers of the Tremont supposed that the yacht would pass astern of their vessel, as her course seemed to be on a line diagonally to that of the Tremont.

**NO DANGER WAS THOUGHT OF** until the yacht had approached, to within a quarter of a mile, when she was hailed from the Tremont, and no answer was received. When too late the Tremont attempted to change her course to avoid the impending collision. The sharp prow of the yacht struck her about 30 feet back of the port bow, and she sheered diagonally across, coming out on the starboard side. The force of the impact was sufficient to throw passengers from their bunks, and caused the greatest excitement among them for a time, but the officers of the Tremont, maintained discipline, and aid was quickly at hand. The steamer City of Worcester and the City of Lowell were both near by, and promptly went to the assistance of the Tremont. As soon as the extent of the Tremont injury was known, the City of Lowell went alongside and the transfer of passengers from the disabled boat was quickly effected. The City of Lowell was bound to New York, and resumed her trip as soon as it was seen that the Tremont had all the assistance necessary. The crew of the Tremont remained on board their vessel, and accepted an offer of the New Hampshire for assistance to New London. In tow of that steamer the Tremont reached here this morning. Immediately

**AFTER THE ACCIDENT** the steam yacht backed away from Tremont, and left at once, coming in to New London harbor this morning. From shore it appeared that she had sustained considerable injury to her stern. Captain Wilcox insists that it is fairly clear night, and that if proper look-out had been kept on the yacht the collision would not have occurred. The accident to the Tremont is the second misfortune that has come to the Joy Line within three weeks, the steamer Old Dominion, of that line, being now on the rocks off Rye Beach, New York, where she struck on a foggy night.

### HAS COURAGE

With Fractured Hip, Engineer Refused to Desert his Train on the N. Y. C.

Rochester, N. Y., July 18.—An exhibition of courage seldom equaled has just been made known. Joseph Parry, one of the oldest engineers of the New York Central Railroad, while making his run on the old road from Auburn to this city, fractured his right hip bone, while alighting from his train at Seneca Falls, for orders. It was impossible to get another engineer to complete the trip on time, and Mr. Parry was helped back into his cab, and made the run to this city, arriving only 15 minutes late. During the run the jarring of the engine was continually grinding the broken ends of the bone against each other, and it seems wonderful that the engineer was able to undergo the great pain and retain consciousness.

### We Will Sell

At a low figure 27 acres of good land on Con. 3, Chatham Tp., one mile from Chatham.

We have several desirable homes in this city which we will offer this month at bargain prices. We have a few houses to rent.

### CANADA'S CHANCE

How the Dominion's Trade With South Africa can be Easily Developed.

Ottawa, July 18.—A valuable report to Sir Richard Cartwright was received yesterday at the Trade and Commerce Department from James Cumming, Canadian agent at Durban, Natal. Mr. Cumming says he has visited all the business towns in the colony, and found a general demand for goods that Canada could supply at a profit better than can be done from Great Britain and the United States. At many points he discovered Canadian lumber, doors, furniture, asbestos, canned fish and fruits, bacon, cheese, etc., on sale, and bought as Yankee or British products. The wholesale merchants in South Africa usually handle all kinds of goods, seldom purchasing direct from manufacturers in Britain or the United States, but ordering from shipping and commission houses in London or New York. The New York shipping houses have travelling representatives in Natal, and an agency in Durban, the only port of the colony. The large increase in the imports from the United States, Germany, France, and Belgium are due to the efforts of these representatives and to the easy modes of direct transportation. Durban is favorably situated for the Johannesburg trade, when peace is restored. If one or two commission houses in Montreal or Quebec, says Mr. Cumming, would open agencies in Durban and keep travellers in the interior a profitable Canadian trade would be developed in lumber, timber, furniture, agricultural imple-

ments, carriages, boots and shoes, canned meats, fish and fruits, and at certain seasons butter, cheese, eggs, apples and vegetables. The country will not be able to feed itself for years, and with the wondrous gold developments that are at hand, now is the time for Canada to obtain a share of the valuable trade awaiting them. The mercantile classes will give Canadian goods the preference over those of any foreign country. In his intercourse with many of their legislators, Mr. Cumming says he found a strong desire expressed publicly and privately that when a new customs arrangement is made for South Africa the example of Canada should be followed, and Great Britain and the sister colonies be given preferential trade advantages over the foreigner, and thus gradually bring about Imperial Federation.

### GROWS WORSE

Relatives and Friends Summoned to the Bedside of Tolstoi.

St. Petersburg, July 17.—Newspaper and private dispatches received here from Moscow represent Count Tolstoi as seriously ill with gastric trouble, and say his friends and relatives have been summoned to his bedside.

Count Tolstoi has often been overcome by serious attacks of this nature but hope is entertained that he will again conquer his illness. He never completely recovered from his attack of gastric fever last winter.

London, July 17.—According to a telegram from Tula, European Russia, dated yesterday and received to-day by M. Tcherikoff, Count Tolstoi's representative in Great Britain, the Count's fever is said to be very violent, but improvement in his condition is perceptible.

Berlin, July 17.—"Count Tolstoi's strength is gradually sinking," says a dispatch from St. Petersburg, "in consequence of a disease of the stomach, from which he has suffered for years. Lately he has been subject to violent cramps. His physicians have no hope. Numerous friends have left Moscow for Yasnaya Polyana, the count's estate."

**THE JOINT COMMISSION.**

Lord Pouncefote said he thought the joint commission would sit again in Washington, although not until after his return. He said it would be his aim to foster the desire for closer commercial relations between the United States and Canada, and thought some arrangement to the mutual advantage of the two countries feasible. He would like, he said, to include Newfoundland, making its interests identical with those of Canada.

Lord Pouncefote also paid a warm tribute to the American people and expressed the deepest sympathy with Mr. Hay in the loss of his son.

### A WARNING.

Editor Planet.  
Dear Sir,—In your local of Tuesday evening, I notice an item with reference to the laying of street crossings, an importation has been made of an experienced, Flint, Mich., mechanic. Have we not had enough alien labor lately in connection with corporation work? We have men capable of doing such work. Why are they ignored? I fear very much that we have expensive machinery in connection with the Board of Works, and that at the end of the year a big deficit will be the outcome, notwithstanding the key-note has been sounded several times lately, but seemingly ignored by the City Engineer. Your rate has been struck gentlemen, endeavor to have a clean sheet at the end of year.

## FOR CITY AND COUNTY.

A western paper makes the suggestion that every farmer should display his name on the front gate of his farm, and adds: "It would be a matter of trifling expense and no particular trouble, for every farmer in the country to have his name and the number of his lot neatly painted on a small board to be nailed to the gate post nearest the concession line; and such boards would prove of incalculable value to the public and to farmers themselves and lend interest to many a stranger passing through."

It would also be a great convenience to the public if county and township councils would have the roads labeled. All over Ontario it is a matter of difficulty to find your way in the country as there is absolutely no guide for people unfamiliar with the locality, and it is often impossible to get information except at farm houses which are usually situated some distance back from the road.

Up-to-date city and town residents label streets for the benefit of visitors. County residents might follow suit.

## OFFICIAL REPORTS.

In connection with the charges that Lord Kitchener is suppressing reports of fighting in the Transvaal and also contradicting the correct reports of war correspondents the following is cited as an instance previous to the Vlakfontein affair: On June 5 Reuter's agency received a despatch that 240 men under Col. Wilson had surprised and defeated 400 Boers under Beyers, killing 37 and capturing 100 with all their supplies. The war office published a despatch from Lord Kitchener denying the statement, Reuter took the matter up and quipped Kitchener with the following result:—

Mail brought extract papers regarding Wilson's engagement with Beyers, which you stated without foundation. Please inform us whether whole story was fabricated, or whether merely word "surprise" was wrongly used.

Kitchener answered as follows:—Word Beyers was wrongly used. It is thus manifest says Reuter's agency that the fighting reported actually took place and that the sole point in Reuter's despatch to which Lord Kitchener took exception was the statement that Beyers was in command of the Boer force, which was attacked by Colonel Wilson.

## BREEDING WHEAT.

The experimental work of the Minnesota agricultural station during the last ten years has resulted in the establishment of a new wheat averaging almost 4 1/2 bushels per acre more than the Fife. Even at an increase of only two bushels per acre, this will mean an annual increase of crop value amounting to \$22,000,000 for Minnesota and the two Dakotas.

This wheat-breeding is a scientific following out of the system so successfully pursued in breeding animals. Various animals for service or sport have been bred by selection. From the wolf or original wolf-like dog we have all kinds of hunting, bird and toy dogs, and the bull-dog looks more unlike the greyhound than the latter is unlike the wolf. So with the choice breeds of thoroughbred cattle, specialized for dairyman or butcher, and derived from the wild, long-horned, hump-backed cow; so with Berkshires and Tamworths, bred originally from the lean razorback; so with trotting, racing and other pedigree horses and the Clydes, traced back to the wild horse of Asiatic plains. This breeding by selection, so as to produce a certain special type adapted for special work, is a labor of generations and ages. Even the comparatively modern American trotter means a development of half a century.

This wheat and other grain-breeding is not new, but the carrying out of the experiments is far too costly for the resources of any private individual, if worked on the lines of the Minnesota Agricultural Department.

An English nurseryman took a few bushels of common Canadian "Surprise" oats, and after some years developed a vastly superior grain; far plumper, weighing more to the bushel and bright in color as ivory.

Our middle aged readers will remember the case for "Norway" oats, which sold at first at a dollar a kernel.

Many years have passed since Henri Vilmorin began wheat breeding in France, and tested over a thousand new wheats. The work of the state institution began a decade ago in Minnesota. Few of us have the slightest idea of the labor involved. The pollen from one wheat has to be artificially transferred to the stigma of another. This is done about 4 a. m., when the florets open. Then the wheat head is tightly enclosed in a sack, so that no bird, insect or wind-

borne pollen, may mar the work. Needless to add, that pollen and stigma—the father and mother of the new variety—are themselves carefully selected from the best samples.

The result may be a complete failure, combining the bad qualities of both parents or successfully uniting their points of merit. From the single head, one handful of kernels is threshed out. From this seed wheat is raised year after year till enough can be saved to sow a twentieth of an acre. The most intelligent of the Minnesota farmers were given sample seed of the new wheat to sow, and also complete record forms to be filled up so that it might be learned whether the new wheat had any unfair advantage over the old by reason of better soil or more careful cultivation.

In a few cases owing to some speciality of the soil the new wheat was inferior in yield to the old, but after elaborate competition it is safe to call its yield at least two bushels an acre more than that of the old varieties.

If the authorities of the Guelph Agricultural College were to carry on similar experiments, not all at Guelph but in Kent for instance, which would secure also for Essex, Lambton and Elgin, an immense benefit might be given to our farmers who have such severe competition to withstand from the vast wheat fields of Manitoba and the Canadian Northwest.

## MOTHER'S HOLIDAY.

Have any of my readers ever thought of those mortals to whom that season, essential to the annals of Canadian life, called "the summer holidays," comes with anything but a suggestion of pleasure and restfulness? asks a writer in the *Sarnia Canadian*. Perhaps nowhere in the world is this "holidaying" more characteristic of a people as a whole; but those of whom I speak are the mothers—those women who have brought their children through all the dreary ailments of childhood, and see them reach the period when impulses and pure animal spirits make them reckless of dangers clearly seen by the unhappy parent. I have always thought that the holiday of the ordinary Canadian family was enjoyed largely at the expense of the strength and nervous poise of the mother of the household, and again I have watched the curious tragedy of a parent's eyes being opened to the characteristics of children who, during winter, have spent most of their time in the school room or in the enjoyment of sports which took them out of the light and hearing of their elders. An English woman with a certain amount of laudable self-concentration insists on keeping her identity and purging her sports and amusements until well on in middle life, so that her offspring have to take their enjoyment in life only as a matter of secondary importance when compared to her; but in this country a middle-aged woman

man is very prone to put herself and her identity in the background, and slave and toil for the young people, who take all her efforts to make life pleasant for them as a matter of course. The result is that she is unable to share with pleasure in the sports and pastimes which should bring them in touch, and "mamma" is left at home when a dancing party starts on a day's outing, and she doubtless bids them good-bye in fear and trembling, "engendered by nervousness, with the reiterated injunction, "Oh, be careful," and this nervous dread remains in her mind all through those long hours of absence when she has to conciliate some refractory domestic and try to arrange some difficult problem in household management. The morning papers always seem to bring before her eyes some accident which has befallen rash and daring youth, and constantly the nerves and brain are on the rack. (As often as not the husband shares the terrors of the wife, and as the hour which should bring the party of young people home approaches he will begin pacing from verandah to shore, and instead of allaying his wife's fears add to them by his restless manner.

Which do you like best, the extreme cold of winter or the extreme heat of summer.

What punishment should be reserved for the correspondent who tries to conjure up a war between Russia and Japan in this weather?

The cable despatches give a lengthy account of the successful experiments of a Brazilian aeronaut in navigating the air. Our esteemed but boiler-plate contemporary gives us an exhibition every little while of getting up in the air.

**DANGEROUS.**  
Hamilton Spectator.  
An Oxford man, while haying the other day, was shot through the shoulder. Why will people continue the dangerous practice of haying?

**WELL ANSWERED.**  
Ottawa Journal.  
"Seriously, why is a man in a shirt waist less proper than a woman in a shirt waist?"—Brookville Recorder.  
"Simply because a man is less proper than a woman any place."

**A GRAND SUBSTITUTE.**  
Toronto News.  
If the Ontario government is restrained from using certain copyrighted extracts in the *Second Reader* it can make good the loss with suitable compositions taken from the editorial columns of the *Hamilton Times*.

**DREADFUL LANGUAGE.**  
Toronto Globe.  
The *London Globe* refers to this journal as its "epitaphous contemporary." This is more than any of our local contemporaries have ever done. Would our London namesake feel flattered if we reciprocated by calling it "our homocynonymous contemporary?"

**POINTER FOR THE PARSONS.**  
Kingston Whig.  
Now, gentlemen of the clerical profession, it is for you to say how many you will have at church in this hot weather. The folks will go if the service is short, otherwise they will go to the parks and comfort themselves with the thought that there are "sermons in stones and good in everything."

**THE IMPERIAL IDEAL.**  
Boston Herald.  
In the colonies of Canada, Australia, New Zealand and—when peace has been secured—South Africa, the English possess areas which under proper encouragement can be made to produce many of the agricultural commodities that they now buy of us. Those who are promoting the British imperial federation plan look to see the time, and that at no distant day, when there will be free trade between England and her colonies, with an imperial tariff resting upon the products of all other countries.

**PAN-AMERICAN, BUFFALO, N. Y.**  
Parties who intend visiting the Pan-American Exposition at Buffalo, can secure private accommodation within ten minutes' walk of the grounds. For particulars and rates address M. H. Terry, formerly of Chatham, 1262 West Ave., Buffalo, N. Y.

## THE MARKETS.

## THE LOCAL MARKETS.

Planet Office, Tuesday evening, July 16.

The following gossip was given to The Planet by John Waddell, of J. B. Stringer and Co's:

It can be said this is the period (July and August) of light receipts, and truly our streets bear out the statement. Wheat holds at 60c for what little offers. Oats 28 to 30c, the latter price for samples that are well formed. Corn, 37 to 39c as to variety. Barley, 70c to 100 lbs. with but little offering. One dollar per bushel for good samples of beans but of them only a few are left in the farmers' hands. Corn and oats are in demand, the former for home use, the latter for home and export wants, very little of either grains are left in the country now. Barley is also cleaned up. Beans are likely to be scarce before another crop, at any rate the 1900 crop will be well cleared off before the next crop is ready, which usually is in October, early. Present prospects point to a full crop of beans, oats, barley and corn.

The following are the prices:

Wheat, 63.  
Mixed oats, 28c.  
White oats, 29c.  
Barley, 70 to 75c.  
Corn, 39c. per 56c lb. shelled.  
Ear corn, 37 to 38c.  
Beans, primes, 80c. to \$1.00  
Buckwheat, 50 to 55c.

## HAY.

The hay market at present is very quiet, very little shipping is being done from here.

The following are the prices:

Hay, clover, \$5.50 to \$7.  
Hay, baled, \$9 to \$10 per ton.  
Hay, loose, \$7.50 to \$8.  
Hay, buyers are paying \$5 to \$6.

## SEEDS.

Seeds are also very dull. Very little is doing in this line.

Mill, 40c.  
Red clover, \$5 to \$6.  
Alfalfa, \$5 to \$6.  
Alfalfa, \$5 to \$6.  
Timothy, \$1.50.

## HOUSEHOLD SUPPLIES.

The market was better Saturday than it has been for some time. There is not much new stuff coming in. Cherries and currants are the chief features the former selling at from 6 to 8c. a quart and the latter at 7c. a box. Red and black raspberries are coming in a little better lately. They sell at advanced prices. The prices in all of the other products remain the same as last Saturday.

## WOOL AND HIDES.

The local dealers report that the wool and hide markets are very slow. The farmers are too busy with their crops to come in at present.

Wool, washed, 12 to 12.1-2c.  
Wool, unwashed, 7c to 8c.  
Calf skins, 6c to 7c.  
Lamb and Shearlings, 10 to 15c.  
Cow hides, No. 1, 5 1-2c; No. 2 4 1-2c.  
Pelts, 10c.  
Horse hides, \$1 to \$2.  
Dog skins, 25 to 75c.  
Musk rats, 5 to 10c. each.  
Mink \$1 to \$1.50.  
Skunk, 25 to 75c.  
Red fox, 75c. to \$1.50.

## MEAT.

Spring lamb, 85c to \$1.15 per quarter.  
Pork, 9 and 10c.  
Mutton, 7 and 8c.

## FISH MARKET.

Smoked Herring, 40c. per doz.  
Pickled, 10c. per lb.  
White fish, 10c. lb.  
German carp, 2c. per lb.  
Catfish, 20 to 25c.

## OUTSIDE MARKETS.

## TORONTO GRAIN MARKET.

Toronto, July 17.—Wheat—The local market continues very quiet, with apparently no export demand. No 2 red winter and white are quoted at 62 to 62 1-2, low freights, to millers. No. 1 spring, nominal, at 64c. on Midland; No. 2 goose, 61c. middle freight, Manitoba wheat, dull, with sellers of No. 1 hard at 80c, grinding in transit. No. 2 hard at 78c. and No. 3 hard at 73c. For Toronto and west 2 cents lower. Millfeed—Market is steady. Bran sold at \$11.50 middle freight, and shorts firm at \$14 to \$14.50, middle freights. Very little offering.

Corn—There is no business in Canadian corn; none offering, and prices nominal at about 44c. United States Corn, Montreal freight, quoted at 55c. Rye—The market is quiet, and prices nominal at 46 to 47c. west. Buckwheat—Market dull, with the prices purely nominal.

Peas—Nothing doing.  
Barley—There is nothing doing, and prices are purely nominal.  
Oats—The market continues steady, with good demand. Sales of No. 2, white at \$11-2c. north and west, and at 32c. east. No. 1 quoted at 32 1-2 cents east.

Flour—Trade is quiet, with 90 per cent. patents quoted at \$2.50 middle freights in buyers' sacks. Straight rollers in barrels for Lower Provinces, \$3 to \$3.05, and Manitoba patents \$4, and strong bakers at \$3.70.  
Oatmeal—Quiet and steady. Car lots, at \$3.65, in bags; and at \$3.75, in wood; small lots, 20c. extra.

## TORONTO DRESSED HOGS.

Toronto, July 17.—Dressed hogs are unchanged here at \$9.25 to \$9.75.

## MANITOBA WHEAT CROP.

The latest reports from Manitoba say that wheat never looked better, and bar accidents will yield 35 bushels to the acre. Farmers will be disappointed if it is less than 30 bushels. The crop is ten days earlier than usual this season, and cutting will commence about August 10th. The plant is strong and healthy, with heads long and full. The wheat in Deloraine and

## Risking Life

To make a living! And we stand and stare up at the man in the clouds, wondering that any man can be so foolhardy. But what of the business man, who has hardly time to snatch a hasty meal, and gulps down a lunch of pie and milk in a few minutes? He too, is risking his life to make a living. Life is sustained by food properly digested and assimilated. The result of hasty eating and irregular meals is a "weak" stomach, and a "weak" stomach means a weak man. When the stomach is "weak" the food eaten is not properly digested and cannot be perfectly assimilated, so that there is a daily loss of nutrition, which in time will result in physical collapse.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the assimilation of all the nutritive values of the food eaten, and so builds up the body into sound health and strength.

Mr. Ned Nelson, the celebrated Irish Comedian and Mimic, of 577 Royden Street, Camden, N. J., writes: "We fulfilled an engagement of twelve weeks and the constant traveling gave me a bad touch of that dreaded disease called dyspepsia. I had tried everything possible to cure it till last week while playing at a P. Kett's Bijou Theater, Philadelphia, in the Nelson Trio, a professional friend of mine advised me to try Dr. Pierce's Golden Medical Discovery. I tried it, and, thank God, with good results."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Souris districts is 3 1-2 feet high. From Brandon to Portage La Prairie the same condition prevails. "What is feared more than anything else is the harvesting; getting the grain out quickly. It is estimated that at least 20,000 men are needed from outside to help in the harvesting."

## TORONTO PRODUCE.

Toronto, July 17.—Butter—The shipments of dairy in tubs, pails and crocks are heavy, and the market is well supplied. New butter is steady at 16 cents for the best, but cold storage stock brings 16 1-2 to 17c. There is an abundance of medium to poor grade stuff, which sells at a fair demand at 12c to 15c. Creamery is in good demand at 20c to 21c, for prints and 19c to 20c for tubs and boxes.

Eggs—Market is active, with large offerings and a steady demand. The prices are unchanged at 12c for acetals, 11 to 11 1-2c, for fresh stock and 8c to 9c for seconds.

Potatoes—Quotations for old are nominal at 25 cents per bag, on track here, and 30c to 35c out of store. New are coming in a little more freely and are selling well. Jobbers quote \$1.10 per bushel for large lots and \$1.20 to \$1.25 out of store.

Cheese—Market quiet, and prices unchanged. June make is jobbing at 9 1-2c.

## HARWICH COUNCIL.

A special meeting of the Municipal Council of Harwich was held in the township hall on Thursday, June 20, at 10 a.m., subject to the call of the Reeve, to consider the Spring Creek drain. Members all present.

The minutes of the Court of Revision of May 25th and June 12th were read and approved.

A communication was read from Messrs. Wilson, Kerr & Pike re Spring Creek drain, also re H. Ensign's notice re the cleaning out of the English branch of the Union drain.

Harwich, June 16th, 1901. I hereby beg leave to report re Adam Henry and damages claimed by him from the road ditch, that I found him willing to make a friendly settlement on the following terms:—The Harwich Drainage Board to pay him, Mr. Henry, \$700 damages and place the culvert across the Communication Road, near the catch basin, where the old culvert originally was. Mr. Henry would not sign a petition for the Drainage Act, and Mr. Roe also refused to sign a petition for the same. All of which is respectfully submitted.

(Signed) Jonathan McCully, Reeve.

Moved by Buchanan and Morrison, that, whereas, for the better maintenance of the McArthur Middle Level and Tap Outlet drain—a drainage work partly in Harwich constructed under the provisions of the laws respecting drainage by local assessment—and to prevent damage to lands and roads it is deemed expedient by this council, whose duty it is to maintain the said drain in Harwich, to make a new outlet for the said McArthur Middle Level and Tap Outlet drain, or otherwise improve, extend or alter the same.

Be it therefore resolved that Wm. G. McGeorge, O. L. S., civil engineer, be and he is hereby appointed to examine the said drain and prepare a report, plans, specifications and estimates of the drainage work necessary for such better maintenance, new outlet, improvement, extension or alteration, and to make an assessment of the lands and roads liable to be assessed as provided by the statute in that behalf—Carried.

Several parties from Shrewsbury appeared and made complaint as to the filling up of the outlet of the Willow Creek Drain.

Moved by Buchanan and Morrison, that complaint having been made by a number of the ratepayers of Harwich about hogs being buried in their gravel pit at the station, resolved that the council offer a reward of \$5 for such evidence as will convict the guilty parties, said reward to be paid upon conviction.—Carried.

Also that the County Treasurer be instructed to strike from his roll the arrears on the following lots in Shrewsbury, as they have not been patented: S. W. St. Patrick St., 11, 12, 13, 14, and 15; also from Elk H. 6 and 7, and from 3, 4, 5, 6, 7, 8 and 9 in Buckhorn, as the same are and have been assessed in with farm property.—Carried.

Moved by Morrison and Buchanan, that the original Committee of Harwich and Howard re approach to Kent Bridge, and the Clerk of Harwich, meet at Ridgetown at the Township Hall to come to some party for the earth to the said approach, the Clerk to notify the Reeve and Clerk of Howard, and Messrs. J. C. Williams and F. Arnold, of Howard and E. P. Langford of Harwich, to meet on Saturday, June 29th, at 1 p.m.

Moved by Young and McCormick, that A. Fabe be paid the sum of \$10 for damages to his horse and rig, claimed on a defective culvert, this not being accepted the following resolution was substituted in lieu thereof:—

Moved by Young and McCormick, that, after hearing the evidence of A. Fabe concerning an accident to his horse and wagon in crossing a culvert on Con. 4, R. T., resolved that we pay \$15 for the accident to the horse and \$1 for the wagon.

If this offer is accepted it is to be considered as settling the claims in full.—Carried.

The following accounts were paid:—Municipal World, voters' list supplies, \$1.88.  
Banner-News, Advt., Court of Revision, \$4.50.  
Planet Pub. Co., do, \$3.60.  
Meeting adjourned.  
GEO. M. BAIRD, Clerk.

"Was said by W. Whig.  
That a man with a gig  
Enjoyed a clear claim to gentility.  
But a man who would now  
Win the parvenu's bow  
Must belong to the automobility."

## A TORONTO LADY'S STORY

Suffered From Backache So Severe She Could Hardly Raise Herself in Bed.

SHE THANKS DR. PITCHER'S BACKACHE KIDNEY TABLETS FOR COMPLETELY CURING HER AND GIVING HER NEW LIFE AND ENERGY.

There are hundreds of women in Toronto and thousands in Canada to whom life is an absolute burden on account of the unceasing ache in the back, the

irritability, bladder and urinary troubles, who are reluctant about mentioning their ailments to anyone.

To all these kidney and backache sufferers Dr. Pitcher's Backache Kidney Tablets come as a veritable boon and blessing. They clear out the clogged-up kidneys, cure the backache and urinary troubles, roll away the burden of pain, and give health, strength and energy.

Miss Anna Defoe, a young lady whose address is 355 King street west, Toronto, recently wrote as follows:

"For a number of years I have had kidney trouble and backache, so bad that in the morning I could hardly raise myself. A severe dragging pain would catch me in the small of my back, and I had no appetite, and often suffered from severe headaches, and a general breaking down of the entire system was the result. But, thanks to Dr. Pitcher's Backache Kidney Tablets, they put new life and energy in me, relieving me of that awful pain and soreness gently and easily, so much so, that I continued to get better, until I was entirely cured. I am in condition now to make known to the world what Dr. Pitcher's Tablets have done for me and for whose future welfare I have the best wishes."

Dr. Pitcher's Backache Kidney Tablets are 25 cents a box at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

dragging pains in the loins, the headaches and aches.

Many, too, are suffering from kidney

Mrs. Philip Laurendeau and chil-  
dren, of Detroit, are the guests of  
Mrs. Alex. Jacques, West street.

The Lake Erie Railway will run a  
train to the Eau to-night at 8.05, and  
return leaving the Eau at 9 o'clock.

Miss Louise Kennedy, of Detroit,  
has returned to her home after at-  
tending the funeral of her cousin,  
Miss Aggie Doyle.

John Burky, of Harwich, and John  
Dolson, of Raleigh, brought in the first  
new wheat to the Taylor mills this  
morning. It tested 60 lbs. to the bush-  
el.

Geo. T. Crow's new store and resi-  
dence at Prairie Siding is nearing  
completion. The carpenters will  
have completed their work to-mor-  
row.

Garnet Parker, King street, left for  
Toronto, this morning to accept a po-  
sition in one of the leading drug  
stores in that city. Mr. Parker  
was formerly employed in Lambert &  
Turner's soda water works.

The marriage took place last even-  
ing, at the residence of the bride's  
daughter, Delaware avenue, of Geo.  
Conibear and Mrs. Presley, of Dres-  
den. They were united in the holy  
bonds of matrimony by Rev. T. T.  
George, pastor of Victoria avenue  
Methodist church.

By a typographical error, the  
freight rate from Detroit to Boston  
was made to read "11 1-2 cents per  
wt. per mile" in the report of the  
Board of Trade meeting in yester-  
day's Planet. The freight rate is  
11 1-2 cents per cwt.

The funeral of the late Mr. Burke  
whodied in London Tuesday took place  
this morning from the residence of his  
brother, John Burke, of Mitchell's  
Bay to the Maple Leaf Cemetery. It  
was very largely attended by friends  
and relatives of deceased.

The seats of the Collegiate Insti-  
tute Assembly Hall have been sold to  
the Amherstburg Opera House and  
were shipped to-day on the "Ireland."

The city solicitor has been in-  
structed to take action against the C. P.  
R. and train crew who delayed the  
passing of a funeral with freight  
train blockade yesterday. The City  
Council are acting in the matter.

At the meeting of the Council  
of the Board of Trade Tuesday night,  
regarding freight grievances, Mr.  
Waddell pointed out that beans suf-  
fered from discrimination in as much  
as they are classed apart from "Grain  
and Grain Products," and it was an  
injustice to the producers, as railroads  
by this discrimination got much higher  
rates on them than otherwise. He  
contends for the producers, beans  
should class with "Grain and Grain  
Products," which they would have  
same treatment. He also complains  
that car lot rates, and less than car lot  
rates are disproportionate, that the  
latter are excessive and should be  
reduced to be in some reasonable pro-  
portion, like as is the case of their  
treatment by the railroads in the  
States. Mr. Waddell claims that these  
redresses given to the producers of  
beans in the county of Kent and the  
province generally, would save a con-  
siderable sum, possibly \$8,000 to \$10,  
000 on the whole crop. Mr. Waddell  
will fight this issue with the carriers  
in the interests of the producers, who  
are the greatest sufferers by it; recog-  
nizing what is a benefit to them is  
good for the whole community.

## THREE MONTHS

British House of Lords Settled  
Earl Russell's Case in Lon-  
don Very Quickly.

Nobleman Pleaded Guilty to Bigamy  
Charge, but Kicked on the Court.

London, July 18.—Earl Russell, ar-  
raigned at the bar of the house of  
lords to-day on the charge of bigamy,  
pleaded guilty after lengthy argu-  
ments against the jurisdiction of the  
court.

The peers reached their decision af-  
ter consideration of the case lasting  
20 minutes.

Earl Russell was sentenced to three  
months' imprisonment as a first-class  
misdemeanor.

The trial was carried on with all  
the quaint middle age ceremonies. The  
arguments lasted one hour. Both the  
Earl and Countess Russell (Mrs.  
Somerville) through their counsel  
pleaded they did not know they were  
doing wrong, but had acted on the  
best legal advice obtainable in Nevada.

### A SUSTAINING DIET.

These are the enervating days,  
when, as somebody has said, men drop  
by the sunstroke as if the Day of Fire  
had dawned. They are fraught with  
danger to people whose systems are  
poorly sustained; and this leads us to  
say, in the interest of the less robust  
of our readers, that the full effect of  
Hood's Sarsaparilla is such as to sug-  
gest the propriety of calling this medi-  
cine something besides a blood puri-  
fier and tonic,—say, a sustaining diet.  
It makes it much easier to bear the  
heat, assures refreshing sleep, and  
will without any doubt avert much  
sickness at this time of year.

### The Probabilities

Are, that your temper will improve,  
and you will enjoy walking and skat-  
ing in real earnest once that sore corn  
is removed. Putnam's Painless Corn  
Extractor never fails, give no pain  
and will relieve you in twenty-four  
hours. Give Putnam's Corn Extrac-  
tor a trial and be happy.

## DELIGHTFUL HONEYMOON

Mr. and Mrs. Walker had a  
Most Pleasurable Trip.

The Excursion Down the St. Lawrence  
Long to be Remembered.

John Ross Walker was highly de-  
lighted with his trip to the Atlantic  
coast. Speaking of his pleasure voy-  
age this morning he said:  
"It was really the finest trip of  
my life, and I couldn't ask for a  
pleasanter tour."

"At Hamilton Mrs. Walker and my-  
self took the Richelieu and Ontario  
Navigation Co's steamer "Hamil-  
ton" bound for Montreal. The boat  
is a real floating palace and we en-  
joyed the voyage very much. We  
went through the Thousand Islands  
by daylight. The scenery is some-  
thing magnificent. At Montreal, we  
were the guests of the Atlantic  
Steam Navigation Co., and here we  
boarded their boat the Atlantic for  
our trip to the Coast. The Atlantic  
is a beautiful twin screw steamer  
complete in every appointment and  
equipment."

"Mr. and Mrs. Webster joined us at  
Quebec. Mr. Webster is president  
of the Atlantic Navigation Company.  
Our party now numbered four, and  
this added much to the pleasure of  
the trip. This route was only open-  
ed up last year, but already is pro-  
ving very popular, especially with Am-  
ericans. Any wishing a trip to the  
Coast can have none nicer than by  
going by water from Hamilton."

The boats of the Atlantic Naviga-  
tion Co. stop at all the quaint and  
interesting places. The scenery is  
magnificent, especially Furber Rock,  
600 miles from Quebec. The rock  
stands in bold profile out from the  
coast, chiseled in solid stone. It is  
300 feet high, 600 feet long and 100  
feet wide. The storms and waves have  
scathed and cured for the fisher-  
men and boys are kept turning the  
large casks called quintos. They are  
packed in by hydraulic pressure. The  
large fish are all shipped to the Bra-  
zils, the small fish to the Mediter-  
ranean points and to Spain, and the  
medium sized fish are shipped to the  
Barbados. Last year the catch was  
phenomenal. The establishment  
visited had 60,000 quintos left over.  
The people at Grand Basin are good  
natured and bright, and are kindred  
islands to strangers.

We returned by the same steamer  
to Montreal and from there took the  
Algerian to Hamilton. We also  
spent a couple of days at Buffalo,  
where we met Consul Webster. He  
wished to be remembered to all his  
old Chatham friends and said that he  
had a warm spot in his heart for old  
Chatham.

## WELL DONE

Splendid Showing of the Students at  
the Pines in the Recent Musical  
Examinations.

The following is a list of success-  
ful musical students at the recent  
examinations held at the Pines in  
the Toronto Conservatory of Music:  
Piano department—Second year—  
Honors—Mabel Edmondson. First  
year—Pass—Mary G. Sullivan. Hon-  
ors—Eva S. Desiel. Pass—Mary O.  
Leary. Primary—Honors—Helen  
Thomas. Pass—Jessie McVean, Lulu  
Land. Theory department—First  
year—Pass—Mary G. Sullivan. Prim-  
ary Honors—Jessie McVean, Agnes  
Bower. Pass—Eva Desiel.

A SPRAINED ANKLE is not an un-  
common accident. Pain-Killer re-  
lieves and cures almost as if by mag-  
ic. The greatest household remedy.  
Avoid substitutes, there is but one  
Pain-Killer, Perry Davis'. 25c. and  
50c.

## ...A CHANGE OF CLOTHING...

Is desirable with change of season. Thoughts of summer  
attire are in the minds of the careful dressers, also in the  
minds of the up-to-date tailors. The result is an interest-  
ing display at our store 116 King St., all the novelties in  
imported and domestic woolsens at remarkably low prices.  
No matter how fastidious the taste something to please will  
be found here.

## TELEGRAPH

The Danish Ministry has resigned.

Montagu Allan has been elected  
President of the Merchants' Bank.

Paul Drouin, of Ottawa, who fell  
out of a hotel window, died from his  
injuries.

Disorder and lawlessness mark the  
resumption of Chinese authority in  
Peking.

The Grand Jury at Rat Portage  
found a true bill against Wm. Wat-  
son for murder.

The opinion is entertained that the  
body found in the river at Ottawa  
may be that of Miss Poyner, of Strat-  
ford.

J. F. Richardson, of Ottawa, has  
gone to Amherstburg to superintend  
the laying of the new Pelee Island  
telephone cable.

A Vancouver woman was given \$10  
damages against a New Westminster  
woman, whom she sued for making  
comments on her bathing costume.

Kake Skin, the Indian, was arrested  
and removed from Colquhoun's Island  
by the Dominion police. The title to  
the island will be decided in the  
courts.

The body of F. Sutherland, son of  
Deputy Sheriff Sutherland, drowned  
in Dog Pond, was recovered at Dids-  
bury, N. W. T., about four miles from  
where he attempted to cross the riv-  
er.

During operations with a military  
balloon on an island in the Neva, near  
St. Petersburg, the balloon exploded  
and blazed up. One person was killed  
and twenty were injured, several  
fatally.

You Prevent Hay Fever, or Cure It  
in a prompt, pleasant and effective  
way by inhaling the germ-killing,  
throat and lung healing Catarrho-  
zone. Delightful to use, simple in its  
operation, free from stomach nauseat-  
ing and destroying substances. It is  
a marvel of scientific efficacy. Cat-  
arrhazone kills the germs that ex-  
cite the disease, heals the inflamed  
surfaces and prevents a recurrence of  
the malady. Catarrhazone cannot fail  
to cure Hay Fever because it destroys  
its cause. Druggists, 25c., 50c., or mail-  
ed to your address if price is forward-  
ed to Poison & Co., Kingston, Ont.

NO HOME should be without it.  
Pain-Killer, the best all-round medi-  
cine ever made. Used as a liniment  
for bruises and swellings. Internally  
for cramps and diarrhoea. Avoid sub-  
stitutes, there is but one Pain-Killer,  
Perry Davis'. 25c. and 50c.

ANCIENT ORDER UNITED WORK-  
MEN.

With the mercury in the 90s, the A.  
O. U. W., decide to continue the re-  
duced rates of admission during the heat-  
ed term. B. other Graham, the affable  
and successful organizer, will be with  
us for a few days this week. Breth-  
ren assist him and your officers to  
keep the fraternal wheels well oiled  
and in perpetual motion. Remember  
the rates are now at their lowest.

## FOREST FIRES

Feared That the Losses Will be the  
Heaviest in Years—Companies  
Send out Men.

Ottawa, July 17.—The continued dry  
weather has made the task of fighting  
the forest fires in Northern Ontario,  
along the line of the C. P. R., a diffi-  
cult one. Monday and yesterday  
gangs of men were despatched to the  
scene from Ottawa and vicinity by the  
W. C. Edwards Co., J. B. Booth, and  
the Hull Lumber Co. The fire is either  
on or threatening the limits be-  
longing to the above firms. Mr. Alex.  
Lumsden, M. P. P., will be a heavy  
loser by the fire, which, according to  
late reports, was threatening serious  
loss on the Hawkesbury Lumber Co.'s  
limits.

Mr. Lumsden telegraphed that the  
fire had spread, and was eating its  
way through the W. C. Edwards Com-  
pany's extensive limits. Men who  
were sent forward to fight it, how-  
ever, stated that the firm's territory  
had not yet been attacked, and a light  
rain was falling. On the Kippewaw,  
Petawawa, Temiscamingue, and other  
rivers and lakes great loss has al-  
ready been occasioned, and unless an  
early and heavy rain checks the fires  
the losses will be the greatest experi-  
enced in years. The heaviest losses so  
far are Alex. Lumsden, M. P. P., and  
the Hull Lumber Co.

## ROSEBERY

The English Peer's Manifesto Discussed  
by Leading Liberals.

London, July 17.—Lord Rosebery's  
letter dealing with the present po-  
sition of the Liberal party is the lead-  
ing topic of conversation, but its ulti-  
mate effect cannot yet be gauged. The  
Liberal Imperialists appear to be em-  
barrassed and disinclined to adopt  
barraged and implied advice to  
break away from the remainder of the  
party. On the other hand, the anti-  
war Liberals, although criticising the  
letter as mischievous, are generally  
pleased, because they believe Lord  
Rosebery has excluded himself from  
future leadership. The ex-Prime Min-  
ister's friends do not share the latter  
view, believing that he is willing to  
be would not resume the leadership  
of the Liberal party under the old  
conditions.

The letter is universally regarded as  
making the position of Mr. Herbert  
Asquith more difficult when he speaks  
at the much boomed dinner on Fri-  
day.

Sir Edward Gray, who is one of the  
strongest votaries of the Liberal Im-  
perialists, made an important speech  
this evening. He frankly, but not bit-  
terly, declared that Lord Rosebery's  
attitude was dangerous if not an im-  
possible one. If he wished unity in  
the party, he ought to use his influ-  
ence to achieve it, a view which Sir  
Edward's audience loudly applauded.

### DECISION.

The decision of a New York State  
Judge that the anti-scalping act,  
passed by the last session of the New  
York Legislature, is unconstitutional,  
is decidedly opposite to the view  
taken by the Supreme Court of Pen-  
sylvania on a similar act of the  
Pennsylvania Legislature. (The  
Court of Appeals, the highest court in  
New York State, has yet to pass on the  
act declared unconstitutional by a  
judge of the lower court, though a  
somewhat similar act was, a year or  
more ago, declared unconstitutional by  
the higher court. The people gain  
nothing as a result of "scalping." The  
experience of Pennsylvania is a proof  
of that fact. The disappearance of  
the scalpers from this State has been  
a gain instead of a loss, particularly  
as the railroad rookeries all issued  
tickets. Scalpers are nothing more or  
less than parasites, producing nothing  
but living off the substance of others,  
while often promoting theft and for-  
gery.—Editorial from the Philadel-  
phia Press, May 29, 1901.

HOUSE AND LOT FOR SALE—75  
Lorne Ave. Apply to W. H. Nichol,  
King street.

## ST. THOMAS Business COLLEGE

The growth of this institution during the last two years has been wonderful. The attendance has been doubled on account of the thorough course of training which we give. One of our young men is now drawing a salary of \$1,000 a year; another \$800; others from \$400 to \$600. Within the last month two of our students have gone direct from the College to positions paying \$500 a year. WE QUALIFY OUR STUDENTS TO FILL THE BEST POSITIONS.

Young people are foolish to spend the best part of their lives learning Latin, French and the dead languages, when a few months spent in our Commercial or Shorthand Department will fit them to earn salaries like the above.

Eighty-seven per cent. of all our students who have written on the examinations of the Business Educators' Association of Canada this year have been successful.

Send for Catalogue.  
H. T. GOUGH, Principal.  
St. Thomas, Ont.

## Local Budget

Bicycle repairs at Brisco's. Miss Ellison, Queen street, left this morning for Detroit.

J. G. Crookshank, of Blenheim, was in the city yesterday.

Misses Nan and Margaret Bell are in from Erie Beach to-day.

Wm. Sheridan, of Dresden, was a Chatham visitor yesterday.

Miss Annie Besant has accepted a position with S. C. Walker.

J. R. Morris, of Blenheim, was a Chatham visitor yesterday.

R. B. Neil, of Leamington, was a Maple City visitor yesterday.

Printer with two or three years experience is wanted at this office.

Mrs. T. B. West, of Wallaceburg, was in Chatham yesterday.

John Park, of Park Bros., is in Windsor to-day on business.

Mrs. Jas. Taft, Queen St., is very low in St. Joseph's Hospital.

Mr. and Mrs. F. J. Fox, of Wheatley, were in the city yesterday.

Miss Annie Miller, Harvey street, is sick in St. Joseph's Hospital.

Miss B. Scott, of Butte, Montana, was a guest in the city yesterday.

Frank Northcott, of P. W. Ellis & Co., Toronto, is in the city to-day.

A chance to buy a good Shirt Waist for the price of a cheap one on Saturday, at Thibodeau & Jacques.

James Carwell has prepared plans for a fine four-room school for Tecumseh. The school will cost \$5,000.

The Lake Erie Railway will run a train to the Eau to-night at 8:05, and return leaving the Eau at 9 o'clock.

Sale of Shirt Waists on Saturday at Thibodeau & Jacques. See to-morrow's paper.

Store to Rent!—With handsome modern front, next door to Northway & Co. Apply to Lewis & Richards.

Mr. W. B. Webber, wife and family, of Hamilton, are the guests of Mr. E. A. Mounter, Lorne avenue.

Wait for the best! William St. Baptist Sunday School Excursion to Belle Isle, on Tuesday, 30th.

Mr. and Mrs. W. E. Rispin and three children leave to-day for Muskoka Lakes. Mrs. Rispin and children will remain there about a month.

Band concert at Rond Eau, every Tuesday and Friday night, leaving Chatham at 7:15 p.m. Fare 25c. 24th Regt. Band.

Bert Miller experienced a slight sunstroke on Monday, from the effects of which he has since been laid up. He expects to be out again in a few days.

The Lake Erie Railway will run a train to the Eau to-night at 8:05, and return leaving the Eau at 9 o'clock.

G. T. Bell, General Passenger and Ticket Agent, was in the city yesterday, visiting Mr. W. E. Rispin, City Passenger Agent, and arranging for special excursions to Pan American Exposition, Buffalo, which will be announced in due course.

The Park St. Methodist Sunday School will have their Annual Excursion to Wapole Island on Tuesday, July 23, 1901, per Str. City of Chatham. Wait for it, and enjoy a sail on River St. Clair.

James McMahon, the old Crimean pensioner, so well known to Maple Cityites, was among those laid off by the Engineer on Saturday night. Mr. McMahon feels badly over his dismissal. "For 22 years I have worked for the corporation," he says, "and then I am dismissed for nothing."

W. E. Rispin, City Passenger and Ticket Agent, 115 King street, will issue tickets July 24th, 25th and 26th to Chicago and return at \$8.70 each, good returning July 31st, and extension of time can be granted on payment of 50 cents in Chicago, good until 24th of August. He is also selling cheap tickets to Pan-American Exposition, Buffalo, and to Winnipeg and all points to the Northwest, special excursion July 23rd.

The offensive sewer outlets into the river are all being put under water. This week the outlet at the foot of William St. was so fixed and an iron elbow was put on the mouth of the sewer at the foot of First St., so that passengers on the city and canalists will be spared greeting offensive odors at this point. The engineer also complains of the blocking of King St. with boxes and barrels on market days. One store recently had the sidewalk all blocked with sugar barrels. The engineer says that he intends to have the police move in the matter.

The Government Dredge was at Port Stanley working when the Winona was there last week. The men on the dredge told the captain of the Winona that they were coming to Rond Eau to do some work there as soon as they were through at Port Stanley, and they would probably be at the Eau this week.

Johnnie, the little son of Michael Cleoberty, King St., gate keeper on the C. P. R., met with a very painful accident yesterday. He was playing around the station when he fell off one of the baggage trucks, cutting a bad gash in his forehead just above the eye. He was taken to Dr. Rutheford's office, where Dr. J. W. Rutheford dressed the wound.

The city engineer says that it is a shame that the mouth of the creek should be blocked up with logs. He urges that they be removed at once, as they stop all the sewage and filth from getting away.

Rutheford dressed the wound.

The city engineer says that it is a shame that the mouth of the creek should be blocked up with logs. He urges that they be removed at once, as they stop all the sewage and filth from getting away.

The Government Dredge was at Port Stanley working when the Winona was there last week. The men on the dredge told the captain of the Winona that they were coming to Rond Eau to do some work there as soon as they were through at Port Stanley, and they would probably be at the Eau this week.

Johnnie, the little son of Michael Cleoberty, King St., gate keeper on the C. P. R., met with a very painful accident yesterday. He was playing around the station when he fell off one of the baggage trucks, cutting a bad gash in his forehead just above the eye. He was taken to Dr. Rutheford's office, where Dr. J. W. Rutheford dressed the wound.

## Dr. Spinney & Co

Detroit's Old Reliable Specialists

Life in Age, Rich in Honor, and the Experience of a Third of a Century. Whose successes are Without Parallel: the Sufferer's Friend; the People's Specialist.

WOMEN weak, pale, tired, nervous, dependent, the ambition, losing flesh, fretful, overworked, given to worry and solitude, backache and headache, nerves, astrung, sleepless nights, limbs tremble, faint feelings, Leucorrhoea, painful periods, or any Female Diseases, quickly cured by our FAMOUS PRESCRIPTION.

YOUNG MEN led into evil habits, not knowing the harm, and who are suffering from the vices and errors of youth, and troubled with Nervous Debility, Loss of Memory, Rashness, Confusion of Ideas, Headache, Dizziness, Palpitation of the Heart, Weak Back, Dark Circles Around the Eyes, Flashes on the Face, Loss of Sleep, Tired Feelings in the Morning, Evil Temperaments, Dull, Stupid, Aversion to Society, No Ambition, Bad Taste in the Mouth, Dreams and Night Losses, Deposits in the Urine, Frequent Urination, sometimes accompanied with slight burning, Kidney Troubles, or Diseases of the Genito Urinary Organs can here find a safe, honest and speedy cure. Charges reasonable, especially to the poor. CURES GUARANTEED.

VARICOLE and PILES, and KNOTTED VEINS of the Leg cured at once without operation. Doctors will deny this. But we are proving our claims every day. The method is simple, the cure is certain and permanent.

\$1,000 for Failure.

RUPTURE AND FISTULA CURED. The SIGNS OF SYPHILIS are blood and skin diseases, painful swellings, bone pains, mucous patches in the mouth, hair loss, pimples on the back and watery growths. We cure these for life without injurious drugs.

Have you the seeds of any past disease working in your system? IMPOTENCY or Loss of Sexual Power, and do you contemplate MARRIAGE? Do you feel safe in taking this step? You can't afford to take any risk. Like a father, like a son. We have a never failing remedy that will purify the Blood and positively bring back Lost Power.

MIDDLE-AGED MEN. There are many troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and weakening of the system in a manner the patient cannot account for. On examination of the urinary deposits aropy sediment will often be found, and sometimes particles of albumen and color of a thin milkish hue, again changing to a dark, torpid appearance. There are men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. The doctors will guarantee a perfect cure in all such cases, and healthy restoration of the urinary organs. A NEW METHOD. BOOK FREE—Those unable to call should write for question list and book for home treatment. Thousands cured at home by correspondence. Our honest opinion always given, and good, honest, careful treatment given to every patient.

## Dr. Spinney & Co

Office Hours—9 to 5 p. m.; Sundays, 9 to 11 a. m., also 2 to 4 p. m. Consultation free.  
290 Woodward Ave., Detroit, Mich.  
Private entrance, 12 E. Elizabeth St.

## VARICOCELE

No matter how serious your case may be, or how long you may have had it, our NEW METHOD CURE will cure you. It is the "wormy veins" return to their normal condition and hence the sexual organs receive proper nourishment. The organs become vitalized and manly powers return. No temporary benefit, but a permanent cure assured. NO CURE, NO PAY. NO OPERATIONS NECESSARY. NO DETENTION FROM BUSINESS.

## STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, sharp, cutting pains at times, weak organs, and all the symptoms of nervous debility—they have STRICTURE. Don't let doctors experiment on you by cutting, stretching or tearing you. This will not cure you as it will not cure the stricture tissue, hence removes the stricture permanently. It can never return. No pain, no suffering, no detention from business by our method. The sexual organs are strengthened, the nerves are invigorated and the bliss of manhood returns.

## Cures Guaranteed

We treat and cure BLOOD POISON, NERVOUS DEBILITY, IMPOTENCY, STRICTURE, VARICOCELE, SEMINAL LOSSES, BLINDNESS, KIDNEY DISEASES, CONSULTATION FREE. BOOKS FREE. CHARGES MODERATE. If unable to call, write for a QUESTION BLANK for HOME Treatment.

## BOOKKEEPERS' TROUBLES.

The Strain Which They Are Always Under to Guard Against Error.

"The fellow who has to handle a considerable amount of money that belongs to other people is constantly in dread," said an old accountant recently while discussing recent defalcations, "and my own experience in such matters has caused me to have a world-wide sympathy for the man who gets into trouble. The man who has to keep track of the cash of a large institution wears a heavy responsibility, and the responsibility generally wears its way into his character in one way or another. The impress will sometimes be found in highly tensioned nerves and will manifest itself in a certain irascibility of temperament, a crabbedness, an overbearing excitability, a quickness to resent and things of that sort. Again, I have known accountants to become morose, and I have seen some cases of thoroughly developed melancholy. The wonder is to me that so few instances of complete nervous and mental collapse are to be found among the men who spend their lives in handling large sums of money that belong to other people."

"The dread which constantly haunts a bookkeeper is something terrific. The very slightest mistake will throw him clear out of balance, and in many cases the accountant does not enjoy that system of checks which enables him to balance his books as he goes along. Banking institutions close their accounts as they go along, and the men who work in these institutions know the charges, the credits and the balances generally at the end of each day's work, thanks to the system of daily clearances. This makes the work of the honest man in the bank easier."

"But the harder lot falls to another class of accountants who are forced to handle large sums of money daily, men who receive money in various amounts of various denominations and for various purposes and who have to pay it all in the same way; men who in the regular course of things have to take due bills from stockholders and employees and who have many other such practices to deal with. The things that go to the very vitals of his professional efficiency and his personal integrity, and hence he is constantly haunted by the dread that some small error through no fault of his will creep into his record to reproach him in one way or another."

"The point is that the bookkeeper is not sufficiently protected, for errors may slip in from side lines, by overlooking a misplaced due bill or something of the sort. On the other hand, so much has been received and so much has been paid out in the regular course of business, and the employer will take the balance sheet for a correct record of the company's business. The income and the output must balance, but the poor accountant frequently finds himself toiling far into the night in an effort to bring about his happy result. He knows that there must not be the difference of a hair's breadth, figuratively speaking, when his employer scans the balance sheet, for in this age of astute suspicion he feels that his personal integrity is involved in the matter. Correct balances do not only measure the professional efficiency of the accountant, but they also form a yardstick by which the employer measures the moral worth of the man."

"These reflections and my own experience strengthen the sympathy I have for that vast horde of fellows who are keeping their daily tab on the world's business, footing up the profits and losses and figuring the balances first one way and then the other at the setting of each day's sun."

## A Lost Chance.

"It was when I was new on the Stock Exchange," said an old broker, "and I was newly married, too, that I indulged in an occasional fling for pin money. One morning I saw a chance to make a good turn on Erie, and I plunged. Before the day was over I had cleaned up \$15,000. It was like finding it. When I reached home, I asked my wife to come down town with me the next morning and purchase as handsome a diamond necklace as my \$15,000 would buy. She said that such a purchase would be extravagant and that she really didn't care for such a necklace."

"I knew my own weakness for blowing in money that was mine, but I could not convince her that it was wise to buy the necklace. The next morning when the exchange opened that \$15,000 bothered me. I plunged again, not on my judgment, but because I happened to have that money, and this time I not only lost it all, but half as much more. I have never felt flush enough since that time to indulge in diamond necklaces. My wife has always said that it was her fault and that if I ever offer to buy jewelry for her again she will accept even if we have no bread in the house."

## An Irishman's Device.

A writer in the London Times recently gave some interesting "Recollections of Last Century," the early part of it, of course. Speaking of Smithfield, he tells us of the wonderful shows of Bartlemy fair, "where for sixpence we could see in 20 minutes a tragedy with a ghost and a pantomime, or a riding circus, or Wombwell's menagerie, or the fattest woman, the tallest giant and the smallest dwarf, a shaven bear, a learned pig and I know not what wonders besides. The crowd to be passed through was enormous. Even chimney sweeps, fresh from their work, found it hard to make way through it, and only one person, as was reported, ever completely succeeded in doing so easily. This was an Irishman who knocked out the top and bottom of a cask, drove nails through it from the inside and all over and, getting into it, hung it by straps on his shoulders. So attired, he brandished his shillalah and passed freely through the close packed multitude."

"There is a man up town," says a liquor dealer quoted by the Philadelphia Record, "who has a monopoly in his business, at least I know of no opposition in his line, and I think I would know of it if he had. His game is to extract whisky from empty barrels. He buys the casks, takes them to his place of business and subjects them to a secret process. I have heard it said that he gets a gallon of whisky from every barrel, but I can scarcely credit this. He told me once that the liquor he extracts from the wood possesses some peculiar property that prevents it from blending with other whiskeys, so he has to dispose of it in its natural state. Even at that he had made a lot of money. Where does he sell it? To the lowest groggeries—the places where 5 cent drinks are demanded."

## The Old Motto Still Prevails

### SMALL PROFITS AND BIG SALES

McConnell, the cut-rate grocer, is still in business at the old stand, Park street east.

Our prices bring in customers from all parts of the city. Our stock is fresh and good. A trial order will convince you.

### FOR CASH

We will reduce 10 per cent on dinner, tea and chamber sets; also on China, opal and glassware; also on Great value in teas; 3 per cent off all 25c. per lb. teas, 5 per cent off all teas over that price, for the day only. Other goods at our usual low prices, for good groceries.

J. McConnell PHONE 100

### A Boy Inventor.

How important to the world may be the turning of boys' thoughts into the right channel, is indicated by the fact that the telephone was originated by Prof. A. G. Bell when he was a boy. His father, the venerable Prof. A. M. Bell, gives an account of the matter in a letter published in Mr. George Iles's new work, "Flame, Electricity and the Camera."

"In the boyhood of my three sons I took them to see the speaking-machine constructed by Herr Faber, and we were all greatly interested in it professionally. To test their theoretical knowledge and their mechanical ingenuity, I offered a prize to the one who should produce the best imitation of speech by mechanical means."

"All, of course, set to work, but nothing of startling novelty was devised. The scheme of my second son, A. G. Bell, was, however, the best. This contest—as well as the whole course of the boy's education—directed their minds to the subject, until the sole survivor of the lads came to the conclusion that imitative mechanism might be dispensed with, and merely the vibrations of speech be transmitted to an electric wire. "This was entirely his own idea. He illustrated it to me by diagrams, and sketched out the whole plan of central-office communication long before anything had been done for the practical realization of the idea. I can claim nothing in the telephone but the impulse which led to the invention."

Physical Remedy for Insomnia. A Swiss physician, Dr. Otto Naegele, has just published a new cure for sleeplessness, which depends upon the employment of the physiological processes which normally attend sleep. In other words, the patient is directed to imitate as far as possible the motions and position of a person actually asleep.

The eyes should be rolled upward and, as observation shows that the head of a sleeper, nodding and swaying, that member should be rotated in elliptical curves with a slow, regular motion. The breathing should be slow, regular and deep. At each inspiration the words "Schlaf ein," should be repeated mentally.

(The doctor fails to state whether these words are to be used in the original or in translation by patients who do not habitually speak German.)

The head should move first to the left, then forward, then to the right, and then backward, the last motion being especially energetic. From four to ten to eighteen revolutions in a minute are recommended.

It is claimed that sixty revolutions will certainly produce drowsiness. If these are made with regularity, and precision, and the head is bent well back at the backward throw.

A Persian lilac bush in Kansas City Mo., is 20 feet in diameter.

Thirty million persons left Europe during the century just closing to seek their fortunes in other lands.

Stubfoot will outwear two pairs of Ordinary Common Rubbers.

Search the World and you will find nothing better than Stubfoot.

Imitated by Every Rubber Manufacturer and Dealer, but no imitation has our speciality. Manufactured by Rope Canvas or Duck, the only fabric that can be thoroughly impregnated with the Para Gum.

When worn out have leather soles put on and use for a Plover Boot.

The J. D. King Co., Limited, have the only genuine Stubfoot Rubber.

Don't buy unless the words Stubfoot are stamped upon the sole of each Rubber; all others are frauds upon the Public.

## ITEMS OF INTEREST.

If a girl can "get along" with her own brothers, I think she has a pretty good disposition.

There is no promise so sacred to a woman as the one she has not been asked to give.

A girl may forgive a man for kissing her on the impulse of the moment, but never for apologizing for it—in Indianapolis Journal.

There is a peculiar little sensation which goes with the keeping of an appointment made by herself.

If a girl sends off all of her beaux for one, she can safely gamble on losing the one.

Many women look long for something that they can't find. Guess what.

Because a woman stares in the windows she passes it is no sign that she sees more than her own reflection.

By using a lymph discovered by a Paris physician, it is now possible, according to reports from that city, to regenerate the red globules in the blood of lepers. Dr. Metchnikoff of the Pasteur Institute is the discoverer, and he thinks that when he has improved the serum he may be able to rejuvenate the organs of the human body.

The kila, or the household foe, is a favorite pet of Chery, the Chinese women, who are also extremely fond of a variety of Angora cat. The ordinary cat of Southern China is, like the Manx, tailless. It is occasionally used for food, but not so popular as horse or dog flesh. When raised for the table it is fed on rice and vegetables.

Japan is the largest consumer of rice in the world, the average being 300 pounds per person a year. The Americans use but four pounds per capita. Belgium uses more tobacco in proportion than any other country, about 110 ounces per capita yearly, while Italy uses only 25 ounces.

Experts who have examined rags are of the opinion that a very high grade of paper, not only adapted to newspapers, but suitable for books as well, can be made from that material of which Louisiana produces thousands of tons that are now got rid of as a waste product.

A Knoxville, Tenn., lawyer publishes the following professional card in a local newspaper: "Sherman R. Maples, attorney, Lumber for sale cheap, order. Flooring, ceiling, etc. Twenty per cent under yard prices. Call quick."

There is only one sudden death among women to eight among men.

Breakage of propeller shafts at sea costs an immense sum annually in salvage.

Married couples in Norway are privileged to travel on railways at a fare and a half.

Coal is worked so easily in China that in Shanxi it sells at less than a shilling per ton at the mines.

There are 4,200 species of plants used for commercial purposes. Of these 420 are used for perfumes.

The coast region of Georgia is to have a sugar refinery, the first one in the state. It is to be located in Baxley. The postal savings bank system is in operation in Austria, Belgium, Canada, France, Hungary, Italy, Netherlands, Sweden, and in most of the colonies.

An Italian electrician has invented an electric cartridge, which he offers as a substitute for dynamite and smokeless powder in mines, rock blasting, and for heavy ordnance.

The average depth of sand in the deserts of Africa is from thirty to forty feet.

From a French journal we learn that we are making varnished paper tiles durable and better than slate tiles.

The first photographic portrait taken from life was produced by Professor Draper at the University of New York in 1839.

At one place in England slates are washed twice a day with a disinfecting fluid. The slate and sponge should be inspected.

It is claimed that some artists tame tigers with the smell of flowers, and the rose seems particularly grateful to this usually fiery animal.

Dr. Aar's experiments, given in the Zeits. Pädag. Fach, show that the glabella mostly prefer green and the boylets the combinations of blue.

During an influenza epidemic in the north of England, the curious fact has been noted that only the men working in very high temperatures have escaped infection.

In a note to the Academie des Sciences, M. Niclou states that the infant is tainted with the alcoholism of the mother, transmitted in the milk; also before birth.

Pipe lines have long been in use for conveying natural gas, petroleum, etc., and now one is in operation at Utah for conveying sugar beet syrup. This line is twenty-five miles long.

"Crucose's Island" lies, not in the South Pacific, but in the Caribbean Sea, within days' voyage of New York. Charles Kingsley declares "Crucose's Island is almost certainly meant for Tobago."

Balloons are used for drying lines in Paris laundries. Bamboo frames are attached to a captive balloon, and the clothes are attached to them. The balloon makes six ascents daily to the height of about one hundred feet.

When the temperature of the air is thirty-two degrees sound travels 1,091 feet a second, and one additional foot a second for each additional degree of temperature. Electricity in theory travels at 288,888 miles a second; in fact at the rate of 192,924 miles a second.

The East Indian army has for years been clothed in a cotton uniform dyed of a dust brown color, to which the Hindoos have given the name of khaki meaning earthy. The advantage of khaki lies in the fact that being nearly the color of earth, men dressed in it become invisible at some distance, and therefore do not present easy shots for a marksman. The true khaki color has the advantage of being fast to rubbing, fast to light, fast to washing and soaping—in fact, for all ordinary wear and tear it is one of the fastest colors extant.

## Perfect Manhood.

In rightly yours; but if you are not the man you should be, if you are losing your energy, your vital force, memory, annoyed by Varicocele, shrunken parts, and feeling if you don't care what happens, you are suffering from Lost Vitality; it comes upon man unaware; do not deceive yourself or remain in ignorance while you are being dragged down by this disease; no matter what the cause may be, whether early abuse, excess, or overwork and business cares, the results are the same; premature loss of strength and memory, emaciation, impotency, Varicocele and shrunken parts. OUR LATEST METHOD TREATMENT WILL CURE YOU. We guarantee it as a positive cure for these conditions; it is the outcome of years of experience; it equalizes the circulation, stops all drains, thereby vitalizes the parts, restoring them to their normal condition and making the man of you as nature has intended. Do not be misled by so-called Specialists and Institutes. Read the following facts:

1. We do not accept an incurable case for treatment.  
2. Each time you call you see Dr. Goldberg personally. He has 15 Diplomas, etc., travels, and should be sufficient guarantee to his abilities. All other chronic, private and blood diseases either have some doctor in charge of their office or have an assistant to doctor you.  
3. We are doing business on our own reputation, not of our professor.  
4. Our records show more actual cures than all the other Specialists combined.  
5. You need pay nothing until you are convinced that you are thoroughly cured.

OUR LATEST METHOD TREATMENT GUARANTEED

### DRESDEN.

July 18.—Mr. and Mrs. L. J. Reynolds, are the guests of Mr. and Mrs. W. H. Switzer.  
J. A. Taylor and wife returned home last evening after spending some time at the Pan-American, Toronto and other points.  
Arthur Baxter and family have moved to Chatham, where in future they intend to reside.

A game of baseball was played here yesterday between the Thamesville and Dresden Juniors, the latter winning.  
Miss Whillans returned home last night after a visit of some length to the Pan-American and other places.  
William Ruble had his leg amputated above the knee this morning. He has been a sufferer for some years. The operation was performed by Drs. Galbraith and McDonald.  
Our streets will be lit up on Saturday night by the new electric light plant.

### TILBURY

July 18.—Mrs. R. Hill, Otterville, is visiting her parents, Mr. and Mrs. J. Waddell.  
Luke Beuglet spent yesterday in Detroit.

A bowling match here yesterday between the Grits and Tories resulted in a score of 43 to 23, in favor of the latter.

Mr. Douglass, who has been visiting his sister, Mrs. G. Munro, left for Owen Sound yesterday.

J. A. McGregor left on Tuesday on a trip to Calgary.

### CEDAR SPRINGS.

John J. Claus and F. A. Percy celebrated the glorious 12th at Leamington. They report a good time.

Masons and carpenters are busy on the new school at the station.

John Ridley and Alex. Forbes took in the cheap excursion to the west today.

Farm help is very scarce here, wages ranging from \$1.25 to \$1.75 per day. The wheat harvest is now in full swing, but the crop is below the average owing to the dry weather and the heavy fly.

James Heatherington and Jos. Ripley have engaged with Mr. Chas. Slicker to thresh for the season. They commenced Monday to thresh alfalfa.

Miss Houghton, Detroit, and Miss Grace Ehlh, of Chatham, are the guests of Mrs. Ehlh this week.

JEANNETTE'S CREEK.  
The Misses Howe, of Comber, are spending their holidays with their grandmother, Mrs. Howe.

W. Fullerton was in Chatham on Tuesday.

Miss Coulter, of Detroit, is a guest of Miss Clara Smith.

Several from here went on the excursion to Belle Isle on Tuesday.

F. C. Peck has made an assignment to Mayor Sulman, of Chatham.

Alex. Peck, of Providence, was here on Tuesday.

### CARNEGIE'S CURES

Richest Man on Earth Cannot Digest Food.

How many people have envied Andrew Carnegie retiring from the strife of business with a fortune so colossal that he may scatter millions in charity and feel it no more than the average man feels the bestowal of as many coppers? And yet the multi-millionaire himself declares he is not to be envied. He is unhappy. "I am sixty years old and cannot digest my food," he says.

The German poet tells us the story of Faust the old man who sold his immortal soul to the devil for the gift of youth and health. Andrew Carnegie, rich, powerful, envied, states he would make Faust's bargain if he could. He cannot digest his food.

Dyspepsia, more than any other disease, disfigures a man with life. It batters him, destroys his joy in living, makes him see the world through smoked glasses. What good is life to Andrew Carnegie, what is the use of all his millions. He cannot digest his food.

Dodd's Dyspepsia Tablets would help Andrew Carnegie. They would beyond question insure the digestion of his food. Thousands and thousands of people in this country have found the blessing of regained health through Dodd's Dyspepsia Tablets. Hundreds of thousands in the United States have done the same. In Great Britain, "hough Dodd's Dyspepsia Tablets have only been introduced a couple of years, they have already broken through the prejudice of the Englishman against new things as far as the mass of people are concerned. It is a strange paradox that Andrew Carnegie, with all his wealth fails to find what so many poor countrymen have discovered—the value of Dodd's Dyspepsia Tablets.

### Cook's Cotton Root Compound

It is successfully used monthly by over 10,000 Ladies. Safe, effective, Ladies can take no other, as all Mixture, Pills and Balm are dangerous. Price, No. 1, 61 per box; No. 2, 10 degrees stronger, 81 per box. No. 3, 15 degrees stronger, 101 per box. The Cook Company Windsor, Ont. Nos. 1 and 2 sold and recommended by all apothecaries in Canada.

No. 1 and No. 2 are sold in Chatham by C. H. Gunn & Co., Central Drug Store.

## HONORS EVEN IN GOOD GAME

Blenheim and Chatham Lacrosse Teams do Battle on Tecumseh Park.

Both Clubs Make Good Showing—Work of the Beginners was Excellent.

Tecumseh park presented a very lively appearance yesterday, when the Chatham and Blenheim lacrosse clubs crossed sticks for the first time in three years.

It is quite evident from the large crowd of people who witnessed the game, that lacrosse is still the favorite game among the citizens of Chatham. Quite a noticeable feature was that a very large number of ladies attended and seemed to take as much interest in the game as the players themselves. Meanwhile the Chatham club have no reason to complain of the interest and support manifested by the Maple City citizens. They loudly applauded the efforts of the players and responded nobly when the hat was passed around for the collection.

The game commenced at 4 o'clock, and lasted for 95 minutes. At the first face-off the ball was kept pretty much at the Chatham goal. The Blenheim boys were evidently in the pink of condition and "played all around" the Chatham boys during the first 20 minutes of the game. At the end of the first half the prospects for the Chatham boys were not the brightest. Baird had succeeded in scoring one goal for Blenheim, and if it had not been for the excellent work of Newman in the Chatham goal the score would have been much larger in favor of Blenheim.

During the second half, however, the Chatham boys lived up to the game, and owing to the splendid work of Summers, McLeod and Wilson, they succeeded in scoring a couple of goals. During this half the ball was secured by the Chatham players and after some beautiful combination work by home players, the ball was passed to Wilson, who sent it twirling towards the Blenheim goal. Mercer, the goal umpire, immediately threw up his hand, and pronounced a score. Wilson, the field captain of the Kent, disputed the decision and appealed to the referee who decided in favor of the Blenheim boys. If this goal had been allowed the score would have stood 3-2 in favor of Blenheim. Shortly after this, during the last half of the game, Burke sent a liner through the Chatham goal. This was the last goal made during the game leaving the score 3-2.

The Blenheim club have a good swift team and their playing yesterday was the result of hard and continued practice. Those who distinguished themselves by playing cleverly were Knight, Clements, Gibson, Burke, Gray, Baird and Shillington. The others, while they did phenomenal playing, also deserve a great deal of credit. Elliott, Jahnke, Newman and Wilson were the stars in the Chatham team. The rest of the players, however, are mostly beginners and have not had the practice that the Blenheim boys have had. The general opinion of the lacrosse "cranks," who witnessed the game is that Chatham has possibly a better team than Blenheim. What they lack is experience and practice in combination work. Fetterly, who played every point for Chatham, played a very even game. He was severely handicapped, however, by a badly injured leg, the result of an accident while practicing a few nights ago. Two of the beginners, Sowerby and Summers, showed up well, when the fact that this was their first game, was considered. In fact, the game was one of the cleanest ever played in Chatham. It was free from any quarrelling or ill-will among the players, which so often mars the lacrosse games played here. W. Henry acted as field captain for Blenheim, and J. D. McNab filled the same position for Chatham. "Mac" is a thorough lacrosse player and helped the Chatham boys very much in their playing.

The Chatham club will play in Blenheim, as a return match next Tuesday. The next game here will be a week from today, when the opposing teams will be Chatham and Detroit. The following was the line up of the teams yesterday.

### CHATHAM.

Newman—Goal.  
W. Jahnke—Point.  
Fetterly—Left defense.  
Elliott—Left defense.  
Dack—2nd defense.  
W. Angus—3rd defense.  
Ed. Williston—Centre.  
Baird—3rd home.  
Coupland—2nd home.  
McLeod—1st home.  
Wilson—Outside home.  
Summers—Inside home.

### BLENHIM.

Gibson—Goal.  
Knight—Point.  
Blewett—Cover point.  
Green—1st defense.  
Bell—2nd defense.  
Jacklin—3rd defense.  
Clements—Centre.  
Grant—3rd home.  
Burke—2nd home.  
Gray—1st home.  
Baird—Outside home.  
Shillington—Inside home.

"We were very much pleased with the design you have made of the Victoria Ave. Greenhouses receive such words of commendation every day. Telephone No. 181.

## WELCOME THEM HOME

Cordial Reception Tendered Mr. and Mrs. Walker by Canada Flour Mills Co.

President Stevens Presides and Practical Testimony is Given of Appreciation of Esteemed Couple.

A very pretty event characterized the home coming of Mr. and Mrs. John Ross Walker. Last evening, Mr. Stevens, President of the Canada Flour Mills Company, and the employees of the company, assembled at the office and marched to the residence of Mr. Walker in a body. The men gave Mr. and Mrs. Walker a royal welcome home.

Mr. Stevens was chairman of the reception gathering and made one of his felicitous happy speeches, presenting the bride with a beautiful bouquet. He then introduced John Smell, who read the following address:

To Mr. and Mrs. Walker,

Dear Friends,—We are assembled here to-day to wish you very much joy and to pray that each of you may be long spared to enjoy your beautiful home with all that combines to make life pleasant.

Honored and respected Sir,—We, who have known you best and longest, have not lost sight of your many sterling qualities.

The kind, considerate treatment, which we have ever received at your hands during the many years in which we have been associated together in our various capacities as employees of the Kent Mills, and your policy of ruling through kindness, have been fully appreciated and endorsed by us.

Your wise and generous administration has had the effect of making every man a willing co-worker with yourself for the advancement of the business which we all love.

The many kindnesses shown to us by you, Sir, have woven around our hearts, an affection for you and yours which time cannot efface.

When any of us were ill, we soon saw your stalwart form by his bedside with words of encouragement and an earnest solicitude for his recovery. Should there be trouble in our midst, we feel that we have in the person of our model manager, an interested and ever willing ally, with wise counsel ready at hand to assist us.

These and many other noble traits of character and deeds have endeared you to us, Sir, in view of the very friendly relations existing between us, we have ventured to believe that you and your esteemed lady, Mrs. Walker, will be pleased to accept from our hands, this silver tea service, as a souvenir of this momentous and happy occasion.

Signed by the committee—Lewis Keys, John Smell, John Holmes, Edward Smith, Thomas Brown, James McLaughlin.  
Ed. Smith and Lewis Keys, then on behalf of the employees, presented Mr. and Mrs. Walker with a handsome tea service. Excellent speeches were then made by William Benson, Charles Morrell, Louis Keys, John Holmes and others. Mr. Walker, on behalf of Mrs. Walker, thanked all present for their kindness and good wishes. Excellent refreshments were then served and enjoyed by all and the gathering broke up with many expressions of good will and prosperity for Mr. and Mrs. Walker.

Those present were: N. H. Stevens,

## MASONIC EVENT

H. R. M. the Duke of Connaught installed as Grand Master of England—Canada Represented.

London, July 17.—In the Royal Albert Hall to-day, His Royal Highness the Duke of Connaught was installed as Grand Master of the Masonic Grand Lodge of England, in the presence of a great throng of brethren, who occupied seats in the auditorium and the galleries of this celebrated building. It was a magnificent sight, and one that is rarely witnessed, for it is only the fifth ceremony of the kind that has taken place in England since the beginning of last century. Thousands of Masons—and none below the rank of past master, master of a corner lodge or even a lodge in full regalia—filled the vast hall, and the sight was one that will never be forgotten by those who enjoyed the honor of being present.

The office of Grand Master had been held by the Prince of Wales since 1874. When he ascended the throne of England, then his brother, the Duke of Connaught, was chosen for this most exalted position.

The Grand Lodge of Canada, now in session at Hamilton, sent greetings, and when the cable was read this morning, the fraternal enthusiasm was unbounded, and the sentiments of the brethren across the Atlantic were cordially received. The Earl of Amherst, Pro-Grand Master, received R. W. Bro. G. W. Bennett, representative of the Grand Lodge of Canada, and presented him to the assemblage. He was given a distinctive seat on the stage along with the officers of the Grand Lodge and the distinguished representatives, and he was also honored with a special line in the program of proceedings, and was placed with Ireland and Scotland in the royal procession. Every mention of Canada by the speaker brought forth repeated cheers, and the grand colony of the Empire occupied a foremost place in the ceremony.

In order to become a successful hypocrite a man must work at it every day in the week.

The secret of some men's success lies in doing a thing first and talking about it a few days later.

## The Cottagers' Evening Paper

## The Planet

Arthur Kipp  
Planet Agent  
ERIEAU

RONDEAU, THURSDAY, JULY 18, 1901.

## Day's Doings At Rondeau, Maple City's Summer Resort.

How Cottagers and Campers are Spending The Season of Recreation on the Shores of Lake Erie.

The boys are having lots of fun out of that handsome craft; they call the Cinderella.

Mr. and Mrs. Fred Chanter are visiting at the Mushroom, J. E. Oldershaw's summer residence.

Judge Houston and family will move to the Eau on Saturday. They will reside at the west end.

Miss Jessie Harper, Sandaieu Cottage, left for a week's visit to the exposition at Buffalo. She was accompanied by Mrs. Bruce Cameron.

Miss E. L. Borrowsman, Amherstburg, and Miss Belle Koffage have returned to Chatham after visiting at The Botby, Sandy-Knows.

Mr. and Mrs. Duncan McLaughlin and family, and Mrs. C. McLaughlin, of this city, and Mr. and Mrs. Malcolm McLaughlin, Grand Rapids, Mich., are spending a few days at the Bungalow.

The West-Enders have christened their station Ristobohy. This is not an easy name to pronounce nor is it the name of a Russian nihilist, but it has been selected because it contains the first letter of the family name of all the residents at Ristobohy. The West-Enders are proud of the name they have chosen for their village and now all they want is some one to pronounce it for them.

Supt. Jones and family are enjoying the Eau breezes at Altitude Cottage.

The Bonnie Belle is in commission and many are the merry parties she takes out over the Eau.

A. F. Falls took out a unique combination of meat and drink last evening. He had a can of fish worms and a pot of cream.

The work of scowling the Klondyke has been given to Capt. Stringer and that craft may be seen on the Eau at an early date.

There are timbers lying on the piers at Erieau that have come all the way from British Columbia. They will be used in repairing the piers.

"I hear," said Mr. Harper, Jr., to Mr. Rutley, Jr., "that you beat everything you went up against on Sunday." "Yes," said Willie to Normie, "I was out sailing in my fine yacht, the Louise and I beat the Bonnie Belle and the Baden-Powell. Archie Park was sailing the Baden, so I am twice delighted." "You didn't beat the Mikrobe," said Mr. Harper, Jr., to Mr. Rutley, Jr., with some degree of elation. "Well, we would have, only we didn't go up against her, and if you don't keep quiet, we will go up some dark night and nab her." The Mikrobe, which will be better than beating her," said Willie to Norman, and thus the conversation ended.

Fred Briscoe spent last evening at N. C. R. Cabin.

That freestanding craft with her crew of buccannars that has created such furies of terror and struck chill fear to the quaking hearts of nervous young ladies, has once again been heard from. She is at her full work once more and that bold chief of the thirsty rovers, W. H. Brackin, with his gang of outlaws of the sea, is scouring the deep in his swift ship "The Pirate." This news is horrible and strikes quaking fear and trembling to the stoutest heart. Chief Brackin's hobby is to swoop down on the unsuspecting cottages where there are any pretty young ladies and by guile or force carry them off for a sail on the beautiful waters of the Eau. From despatches just at hand it is learned that Mr. Brackin was on one of his lawless cruises yesterday and, swooping as the fish hawk does, his presence was unsuspected till his cheery voice was heard in the bay at Riddle's Hollow and, before the residents could ward off his attack, the bold Pirate Chief had carried off the residents of N. C. R. Cabin for a very pleasant sail. The party was out about two hours and all enjoyed the excellent ride beneath the colors of the sky and the cross-bones immensity. There is a peculiar charm in pirates and especially to the pirate chiefs, especially when they are all as good natured as Bill, the Bold.
