INSURANCE AND POWER

Hugh Clark, M.P.P., Wants Investigation Into the Former

Phil Bowyer, M. P. P., Desires Government to Have Some Say in Niagara Falls Electric Energy Distribution

Toronto, Feb. 17.—Two editors who write original and bright things in country weeklies, namely, Hugh Clark of the Kincardine Review and Phil H. Bowyer of The Ridgeway Dominion, entertained the Legislature and a couple of hundred gallery spectators yesterday. The former moved and the latter seconded a resolution that "an humble address" be presented to His Honor Lieutenant-Governor Clark for the speech delivered from the throne on the opening of the House.

Both speakers did splendidly. Mr. Clark advanced a strong argument for an investigation into life insurance company methods if the province has such authority. He said he had been assured that it was quite within the purview of the Legislature. Mr. Bowyer's strong point was the advocacy of Government control of the development of electrical powers at Niagara Falls. The Government, he said, should demand that a proportion of the power developed should be handed over to the province for distribution to the municipalities at cost, or failing that, it should undertake the development of electricity as a provincial enterprise.

Investigate Insurance.
Mr. Clark touched on the life insurance scandals in this way: "I don't know whether it is in the purview of this Legislature to investigate the business of life insurance companies, but I have been assured by a barrister that the Legislature has such authority, and if it has the authority I think it ought to investigate the manner in which these companies do business."

"When the Big Three insurance companies of New York were being investigated one of the Canadian companies sent to Michigan for an expert who reported that the affairs of the company were in a sound condition. That was the first suspicion I ever had of that company. It appeared to me to be the act of a frightened man or set of them. It spelled hysteria. I wouldn't say a word to cause any policyholder any concern. Their policies are just as safe as the Bank of England; but they want to know if the profits are being applied to a reduction of the premiums or are being absorbed by families of the head men of the companies."

"It may be more in line with Dominion affairs, but I am afraid the influence of these gentlemen is too strong on the Government at Ottawa. But if we can we ought to take the matter in hand."

Power For the People.
On the question of electrical power from our waterfalls, including Niagara, Mr. Bowyer said:

"The possession of great water powers put Ontario on the level of Pennsylvania, which had immense areas of coal; the generation of electricity would improve the facilities of transportation, and give the farmer cheaper power to lighten his burdens. The Government should press on and give the people cheap power. It should demand that a certain proportion be handed over to the municipalities at cost, or failing that, it should undertake the development of electric power."

Ross Moves Adjournment.
Mr. Ross moved the adjournment of the debate at 5 o'clock. This, Mr. Whitney said, puts the debate over until Tuesday, according to the rules of the House. Mr. Whitney intimated that there would be a sitting on Monday, but no business till the address is disposed of.

Government Caucus.
Government members held a caucus in the morning and discussed the sessional program. A. A. Mahaffy of Muskoka and R. F. Preston of North Lanark were reappointed whips. Another caucus will be held on Wednesday next.

CAN'T WIND UP BUSINESS.

Lack of Inclination Apparently Delaying Hydro-Electric Report.

Geo. Patterson, M. P. P., for South Waterloo and a member of the Royal Hydro-Electric Power Commission, says that the latter has considerable business before it which will soon have to be disposed of. Reports that certain interests were declining to give information or were otherwise standing in the way of the commission were based only on surmises. A meeting was to have been held yesterday at the City Hall, but was postponed owing to the absence of Hon. Adam Beck, the chairman, who will be here next week.

At the City Hall there was a discussion among the legal men and the slow-witted of the Nicholls-Pellatt interests in furnishing a report was discussed. W. E. Middleton, the Nicholls-Pellatt lawyer, said to E. D. Armour, K. C., who represents the Government, that Mr. Nicholls did not feel that he could give the required information at the present time, as some of the directors were away, and he would not take the whole responsibility.

University Commission Report.
The report of the university commission, which has entailed a lot of labor, will be in the hands of the Ontario Cabinet about March 1, or may be a day or so later should present arrangements be delayed.

WEST KENT CONSERVATIVES HOLD SUCCESSFUL CONVENTION

Large Representative Gathering of Liberal-Conservatives Meet and Complete Organization Work—Officers Elected

The West Kent Liberal-Conservative convention held in the I. O. O. F. Auditorium to-day was without exaggeration one of the most representative and enthusiastically successful gatherings ever held in the city. Delegates were present from all over the riding and the speeches delivered this afternoon were well worth coming long distances to hear.

The convention was called for the purpose of organizing and electing officers. The delegates came prepared to do business and they took hold of the discussions and proceedings in a way that stamped them as men working in the interests of the county and men who believe in the grand future which is opening up for the Province of Ontario.

Two sessions were held, one in the morning and the other in the afternoon. In the morning, some discussions

were held relative to organization. The matter of finances was laid over until the afternoon meeting.

S. B. Arnold read the constitution which was drafted out by the city association, defining the objects of the association and the duties of its officers. The constitution was then discussed, many of the delegates dissenting from it. It was laid over until the afternoon for adoption or rejection.

The afternoon session opened at half past one o'clock with a very large attendance. At the opening of the meeting the following resolutions were passed unanimously amid much enthusiastic applause:

That whereas on the 25th of January, 1905, the people of Ontario, by an overwhelming majority, defeated the Liberal Government that for 32 years had conducted the affairs of the Province and at the same time declared their confidence in the Conservative party led by Mr. J. P. Whitney; and whereas, Mr. Whitney and his colleagues have made an honest effort to redeem their pre-election promises and give to the Province an honest administration of public affairs; and whereas, many important legislative changes have already taken place and many abuses have already been corrected; and whereas much legislation is expected during the present session, which legislation will conduce still further to the happiness and prosperity of the people of the Province.

Therefore be it resolved, that we, the Conservatives of West Kent at this our annual meeting since the elevation of Mr. Whitney to the position of Premier, desire to congratulate Mr. Whitney and his colleagues for the work already accomplished and desire further to express our confidence in the present Conservative administration, believing as we

do that the faithful service already rendered is but an earnest effort of the honest and capable administration of public affairs which the people of this Province believe the Whitney administration is both able and anxious to give.

That the Conservatives of West Kent desire to place on record their appreciation of the statesmanlike qualities of R. L. Borden, leader of the Conservative party in the Dominion Parliament, and their belief that the policy enunciated by him and the course adopted by him in dealing with the many matters which have come before the Parliament of Canada have been such as to merit their heartfelt approval, and we hereby pledge him our support and assure him of our belief that the people of Canada in the not far distant future will place him in that

SUCCESSFUL SMOKER

The Macabees held a very successful smoker in their lodge rooms last evening. There was a large attendance and an interesting and profitable time was spent. Three excellent addresses were given during the evening by ex-Mayor G. W. Sulman, who was the chairman of the evening, C. O. Trussler and S. W. Trussler, two of the Supreme Tent officers.

The following was the program of the evening:
Chairman's address.
Piano solo—Frank Phelps.
Reading—H. O. Springer.
Irish monologue and song—A. L. Wrigley.
Address—S. W. Trussler.
Instrumental trio.
"A. L. Wrigley made the hit of the evening with his Irish song, 'My Irish Daisy.' After the program was concluded a boxing match was pulled off between Black Diamond of Chatham, and Sacramento Pete of San Francisco, after which cigars and cards were indulged in.

PASSED AWAY

Hilbert Shell, an aged and much respected resident, passed away at his home on Queen street-south Thursday. He was 78 years of age.

The deceased had been a resident of Chatham for a great many years, and was very highly regarded by those who knew him for his many sterling qualities. At one time he was engaged in the milling business here.

He leaves one son to mourn his loss.

A THRIVING INDUSTRY

Bent Goods Company are Receiving Every Encouragement

Company is a Valuable Acquisition to Chatham's List of Industries—A Few Facts

The Chatham Bent Goods Manufacturing Co., Limited, who have established themselves near the bottom of Wellington street, are a pushful company, who deserve the thanks of citizens for the trade and money they have brought to Chatham.

They were formerly a Blenheim concern, but in the beginning of last year they decided to enter a larger field of operations and to modernize their plant to meet their growing trade.

They selected this city as a good site for a new factory and built it during the months of July, August and September last year. They moved here in October, bringing with them many of their employees with their families, numbering fifty-nine persons in all.

The company are installed in most up-to-date quarters, fitted with new and expensive machinery and steam-heated throughout. The factory itself is a brick building, 220 feet by 60 feet and is one storey high, while the adjoining warehouse and shipping room is a large corrugated iron and wood structure 216 feet by 34 feet. Both buildings have been specially designed to resist fire, and no expense has been spared to fit them up with modern appliances to minimize danger of accident to the employees.

There are eleven bending factories in Canada, but experts are unanimous in declaring this latest one to be the finest of its kind in the Dominion, both as regards equipment and size.

The machinery is driven by a 150 horse power steam engine, and the boiler used is a large one measuring 16 feet long by 68 inches diameter. It was specially made to order for the company by Park Bros.

In the engine room there are also plants for supplying the factory with steam heat and electric light, and there are six large arc lights in the main building, which light the whole factory in a splendid manner.

The company have purchased and put into use a "Simplex" watchman system, by means of which a track is kept on the movements of watchmen during the night. This system by enforcing discipline on the watchmen, militates against the chances of fire during the night. Thirty men are on the company's pay roll at the present and more will be added next July, when additions will be made to the manufacturing plant. The company is in a most flourishing condition and their employees are at present working steadily on a series of large orders.

RAISED A ROW

Three Young Men Imbibe too Freely and Have to Pay for Their Fun

A trio of penitent offenders faced Judge Houston at the Police Court this morning. The charges were drunk and disorderly. The three young men came out of the Garner House last evening about eleven o'clock and proceeded down King street towards the C. P. station. They had evidently got a whiff of some bartenders' towels as they started to whoop and yell as they passed along. The merry jollification was cut short by Officers Darr and Groves, who stopped the fun by marching them to the Police Station.

They pleaded guilty this morning. Harry Farby was fined \$6, Geo. Summers \$7 and David E. Kenny \$4.

When the trial was over the young men kept the telephone busy trying to raise the money, for if they do not pay they will have to spend a few days in jail at hard labor. Paul Reardon and John Larkin were fighting on King street a few nights ago and broke Mr. Murray's front window. Their case was adjourned until the Judge finds out if they intend to pay for the window.

WAS ACQUITTED

Mr. Harry Ball, the market Square auctioneer, takes exception to an article published in this journal relative to a case which was tried recently in the Police Court, in which he was the defendant. In this case Mr. Ball was charged with receiving a watch knowing the same to be stolen property. Mr. Ball, however, as has since been stated in The Planet, proved his innocence, and he was acquitted of the charge. O. L. Lewis defended him.

THE HOW AND WHY OF IT.

"Fruit-a-tives" are the parts of the fruit that do you good. Apples, Oranges, Figs and Prunes are pressed—the juices separated from the tough, woody fibre—and concentrated. Then—and this is the secret of "Fruit-a-tives"—one more atom of bitter principle from the orange peels is forced into the concentrated fruit juices. By this process—one of the most remarkable achievements of the age—the juices are made stronger, and many times more active medicinally. Finest tonics and internal antiseptics are added, and the whole evaporated and pressed into tablets. "Fruit-a-tives" are the greatest tonic, laxative and blood purifying medicine ever discovered.

ANNOUNCEMENTS

At The Grand—

Peck's Bad Boy, matinee and night—Feb. 21.

Little Johnny Jones—Feb. 24.

Summers Stock Co., week—Feb. 26.

(Supplied to The Planet by Press Agents.)

PECK'S BAD BOY.

The coming of the ever funny farce-comedy, "Peck's Bad Boy," at the Grand on Wednesday, Feb. 21st, for matinee and night, will delight every small boy, for there is nothing short of a circus that will make with delight as quickly as a sight of the flaming posters along the walls announcing the coming of "Peck's Bad Boy." But not only does the small boy enjoys it, but adults as well, for it carries them back to days of long ago and for the time they forget all cares, and imagine themselves back to their boyhood days. The play is full of bright and sparkling specialties; catchy music, combined with the pranks of the Bad Boy, make it one of the most entertaining of plays.

Seats on sale Monday.

BOOKS AND MAGAZINES

The February number of "What to Eat" makes a specialty of valentine entertainments and menus. Any lady who wishes to know what is newest and best for repasts of any kind, whether social or for the family, will find this magazine indispensable. It is published by the Pierce Publishing Co., Chicago.

Little Folks for February is a Valentine number, containing several pretty Valentine stories for little children. In addition there are numerous rhymes, puzzles, and interesting stories. Little Folks is published monthly by Charles Stuart Pratt and Ella Farmer Pratt, Salem, Mass. Price, \$1 per year.

One writer has truthfully said that the Four-Track News is a magazine that it publishes nothing that is not worthy of the attention of a great deal of historical interest. The Four-Track News is one dollar a year, or ten cents a copy, and can be had of George H. Daniels, Publisher, 57 East 42nd Street, New York, or at any news stand.

The March number of the Cosmopolitan has been issued already. The Treason of the Senate and The Girl of the Middle West are both particularly worthy of special mention, the latter being illustrated by H. Richard Boehm, of New York. Among the other contributors is Sir Gilbert Parker. The Cosmopolitan is too well known to need any word of commendation, but the March number is fully up to the usual high standard.

"The Quiver" for February contains so many good things that it is difficult to know upon which to touch in the small space allotted to us. "Religion in Art" is most entertaining, as is also "The Bad Boy and the State." There are many interesting stories, some of which are continued. About ten pages are devoted to the children. These are only a few of the good things provided. The price is 15 cents a copy or \$1.50 per annum. Cassell & Co., Publishers, New York.

The first number of The Scrap Book, a new magazine, has reached us. To say that it is to be edited by Frank Munsey tells in one sentence that it will be good; but it is different to all other magazines in that it is to treat of all subjects. It is to be a regular Scrap Book, and to insure material Mr. Munsey has been buying up all the scrap books possible from all over the country. The contents are not only indexed but classified, which in itself adds value to the magazine. Anyone who looks over for it at once, as grave or gay, young or old, men or women, will find something of interest to them specially. Published by Frank A. Munsey Co., 175 Fifth Avenue, New York. I am bringing out another new magazine that you will come pretty close to liking. I wouldn't be surprised if it hit you harder than anything in the shape of a magazine you have ever seen. There isn't much style to it, but it has the stuff in it that you and everybody else will want to read. It is called

Something New in Magazine Making

THE SCRAP BOOK is the most elastic thing that ever happened in the way of a magazine—elastic enough to carry anything from a tin whistle to a battleship. Everything that appeals to the human brain and human heart comes within its compass—fiction, which is the backbone of periodical circulation; biography, review, philosophy, science, art, poetry, wit, humor, pathos, satire, the weird, the mystical—everything that can be classified and everything that cannot be classified. A paragraph, a little bit, a saying, an editorial, a joke, a maxim, an epigram.

Nothing Like It in the World

There isn't anything in the world just like THE SCRAP BOOK. It is an idea on which we have been working for several years, and for which we have been gathering materials. We have bought hundreds and hundreds of scrap books from all over the country, some of them a century old, and are still buying them. From these books we are gathering and classifying an enormous number of gems, and facts and figures, and historical and personal bits that are of rare value. Furthermore, we have a corps of people ransacking libraries, reading all the current publications, the leading daily papers, cyclopedias, etc., etc.

Don't fail to get a copy of this first issue of THE SCRAP BOOK. It sells at the price at which all our other magazines sell—Ten Cents a Copy and One Dollar by the Year.

tence that it will be good; but it is different to all other magazines in that it is to treat of all subjects. It is to be a regular Scrap Book, and to insure material Mr. Munsey has been buying up all the scrap books possible from all over the country. The contents are not only indexed but classified, which in itself adds value to the magazine. Anyone who looks over for it at once, as grave or gay, young or old, men or women, will find something of interest to them specially. Published by Frank A. Munsey Co., 175 Fifth Avenue, New York. Price one dollar a year.

THE FIRST JAPANESE AMBASSADOR TO THE UNITED STATES.

In appointing so eminent a representative as Viscount Suxo Aoki to be her first ambassador to the United States, Japan has indicated, not only her appreciation of the friendly character of Japanese-American relations, but also her realization of the importance of trade and industrial problems the two countries will face in common in the future. Viscount Aoki, who is one of the ablest and most experienced of Japanese diplomats, is in his sixtieth year. He has had a long and honorable political career. In 1873 he was secretary to the Japanese legation at Berlin, afterward becoming minister at the German capital. From 1890 to 1899 he was Vice-Minister of Foreign Affairs, and from 1899 to 1891 and 1898 to 1900 full Minister of Foreign Affairs.

He has been twice minister of Germany, and once to England. He is at present a member of the Privy Council of the Empire, has the highest Japanese decorations, is of the first class of the Order of the Rising Sun, and stands in the front rank of Japanese diplomats, outranking Mr. Takahira, and even Baron Hayashi, the Japanese Minister to London. In fact, he is one of the most eminent of Japan's public men. Viscount Aoki has had a German university education, and his wife is a German lady. German, moreover, is more familiar to him than any other foreign language, but he speaks English readily. He represented his country at the Hague Peace Conference in 1899. It is interesting to note that when he was Minister of Foreign Affairs, Mr. Takahira, whom he succeeds here, served under him as Vice-Minister. The elevation of the Japanese legation at Washington to the rank of an embassy marks the number of ambassadors at Washington since, which is more than are stationed at any other capital in the world.—From "Viscount Aoki, Japanese Ambassador" in "The American Monthly Review of Reviews" for February.

NOW IS THE TIME TO ADVERTISE

GREAT IDEALISTS.

Prof. Kilpatrick's Panegyric Upon the Sons of the Heather.

"Let us be benevolent to those who do not enjoy so high a distinction as ourselves of being born north of the Tweed," said the Lieutenant-Governor in setting the toast-making responses a-rolling at the 69th St. Andrews' Society dinner at Toronto on Nov. 30, 1905. "We seek to rekindle to-night that spirit of love to our country, which, however deep, can never encroach in any way upon our love for the country of our adoption. Scotchmen deserve well of the whole Canadian commonwealth. We have done our share in building up this vast Dominion. Let me give you Lord Rosebery's words 'that man is the best Imperialist who loves his native province most.'"

"We are assembled in spirit with all true Scotsmen throughout and beyond the Empire this night," said Prof. Kilpatrick to the toast "The Day and All Who Honor It." The achievements of brither Scots must come to our thoughts. In all fields of activity the name of Scotland is writ large. The Scotsmen are noted empire-builders. All over this Canada are traces of their work. No greater idealists live. They have continued across the water their ideals of home life, and have presented to the Empire an ideal of purity, of the social bond and of brotherhood. They have also contributed an ideal of character—a distinctiveness which the Empire would do ill without. A vigor of mind, steadfastness of purpose, tenacity of resolution, a devotion to causes lost and won—these were immutable traits of the Scotch character.

"Another element which formed the ideal of every Scot's aspirations was righteousness. Foremost among his political ideals was the demand for freedom, the sacred right of resistance against oppression and political losses. It was not an idle demand to have one's own way, but a consciousness that freedom was subverted by order. The Scot was that public spirit which espoused true causes and disdained to pay hirelings to fight his battles. He votes his own vote and plays his own part.

"The Scot realized, furthermore, that patriotism was above party or class. Nothing was worth living for but the unity of the nation. It was the business of every Scot to-day to cultivate a just national pride, and to realize that he could serve Canada best by maintaining his national distinctiveness. "Let us fulfill our manifest duty," concluded Prof. Kilpatrick, "and continue the line of Scotch tradition—pure homes, upright men, good citizens, honest statesmen. We are all of high lineage. We are sprung from heroes, warriors, patriots and martyrs."

All earthly ills yield to two all-potent remedies, time and silence.

Men don't mind getting into a little bit of scandal if the ground of retreat is very well covered. Some people spend all their lives looking behind them.

WOULD KICK AND SCREAM

Baby's Awful Suffering from Eczema—
—Could Not Hold Her—Tore
Face and Arms Almost to Pieces—
—Grateful Mother Says:

"CUTICURA REMEDIES
SAVED HER LIFE"

"When my baby was six months old, she had eczema. We used all kinds of remedies, but nothing did her any good. In fact, she kept getting worse. I used to wrap her hands up, and when I would dress her, I had to put her on the table, for I could not hold her. She would kick and scream, and tear her face and arms almost to pieces. I used four boxes of Cuticura Ointment, two cakes of Cuticura Soap, and gave her the Cuticura Resolvent, and she was cured, and I see no further need of the Cuticura Remedies. I should advise any one suffering as she did, to give Cuticura a fair trial. —Mrs. G. A. Conrad, Lisbon, N. H."

FIVE YEARS LATER

Mrs. Conrad Writes:
"It is with pleasure that I can inform you that the cure has been permanent. It is now five years since she was cured, and there has been no return of the disease since. I have advised a lot of friends to read Cuticura in all diseases of the skin."

SLEEP FOR BABY

Instant relief and refreshing sleep for skin-tormented babies, and rest for tired, fretted mothers, is to be had with Cuticura Soap and gentle anointings with Cuticura Ointment, the great skin cure. This is the purest, sweetest, most speedy, permanent, and economical treatment for eczema, itching, scurrying, burning, scaly, crusty, and pimply skin and scalp humors, from infancy to age.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Druggists, Grocers, and Dealers in the U. S. and Canada. Write for Free Booklet. Send for "Cuticura Skin Book." Mailed Free.

Electricity For Insomnia.

A series of remarkable experiments has just been concluded in the Ecole de Medicine at Paris by Dr. Stephenson, a well known therapist, who has at last succeeded in producing anesthesia by the electrification of the brain. Strangely enough, while the value of electricity in treating paralysis and other portions of the body has long been known, it was only this year that the discovery was made of the counter action of the electric current—that is, that sleep could be induced by it to a point where the patient was rendered insensible to pain.

Is Disease a Crime?

Not very long ago, a popular magazine published an editorial article in which the writer asserted, in substance, that all disease should be regarded as criminal. Certain it is, that the sickness and suffering of mankind is due to the violation of certain of Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

It would be harsh, unsympathetic, cruel, yet criminal, to condemn the poor, weak, over-worked housewife who sinks under the heavy load of her household cares, and suffers from weakness, various displacements of pelvic organs and other derangements peculiar to her sex.

Frequent bearing of children, with its exacting demands upon the system, coupled with the care, worry and labor of rearing a large family, is often the cause of weakness, derangements and bodily which are aggravated by the many household cares, and the hard, never-ending work which is called upon to perform. Dr. Pierce, the maker of that world-famous remedy for women's peculiar weaknesses and ills—"Dr. Pierce's Favorite Prescription"—says that one of the greatest obstacles to the cure of this class of malady is the fact that the poor, over-worked housewife can not get the needed rest from her many household cares, and labor to enable her to secure from the use of his "Prescription" its full benefits. It is a matter of frequent experience, he says, in his extensive practice in these cases, to meet with those in which his patients, after reason of the woman's inability to abstain from hard work long enough to be cured. With those suffering from prolapse, anteversion and retroversion of the uterus or other displacement of the woman, it is very necessary that, in addition to taking his "Favorite Prescription" they abstain from being very much, for long periods, on their feet. All heavy lifting or straining of any kind should also be avoided. As much out-door air as possible, with moderate, light exercise is also very important. Let the patient observe these rules and the "Favorite Prescription" will do the rest.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for paper-covered, or 50 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

First Baptist—11 and 7.30.
Union A. M. E.—11 and 7.30.

International Bible Lesson for Tomorrow.

A Day of Miracles in Capernaum.—Mark 1, 21-34.

Golden Text—"He healeth many that were sick."

Verse 21—Our Lord, from His childhood, was a constant attendant on public worship in the synagogue, or Jewish meeting house.

Verse 22—According to their custom, He would be requested by the ruler or director of the service to take some part therein. The services were of quite a different character and were conducted by the priests in their courses. The teaching of the Scribes was commonplace and traditional, and had not the divine accompaniment and authority of the Holy Spirit, as our Lord's had.

Note how soon Satan's enmity is stirred, and he seeks to upset the service, by—verses 23 and 24—a poor wretch under the control of one of his evil ones abruptly crying out in terror; the demon in possession fears destruction from the presence of the Lord.

Verses 25 and 26—Mark with what ease, with a word, He dismisses the frigid, the poor, writhing, foaming victim. Ah! had He not vanquished the Prince of Demons in the wilderness and commanded him to depart.

Verses 27 and 28—Jesus will not suffer a slave of Satan to testify of Him until He has first made him the Lord's free man. His mighty power amazes even more than His preaching, and ere sunset the whole city and country had heard of His loving sympathy for suffering mortals. If Torrey and Alexander stirred Toronto, how much more the Lord Himself stirred Capernaum.

Verses 29, 30 and 31—After morning service He is entertained at the home of His fisher friends, where Simon Peter's mother-in-law is down with fever. On learning of it He takes the old lady by the hand and, raising her up, the fever leaves her, and she helps to cheer up the Master. See what a touch of His hand can do in the home; the heart that does not entertain Jesus Christ cannot be a happy one. Our Lord chose as chief apostle a married man, and, no doubt, his good wife and mother were helped and not a hindrance to his apostleship.

Verses 32, 33 and 34—From Friday's sunset to sunset was a Sabbath day, and they would not carry about their sick until the 7th day was over. Simon Peter's mother-in-law was suffering from a fever, and even the Master performed, without money and without price—and He is the same Jesus yesterday, to-day and forever.

Rear-Admiral Highborn Praises Pe-ru-na.

ADMIRAL'S WORDS CARRY WEIGHT.

REAR-ADMIRAL HIGHBORN is one of the best known admirals of our navy. His statement concerning Peruna will have much weight as it goes out into the world.

What he says is echoed by many other naval officers of high standing.

WHAT THE ADMIRAL SAYS.

Philip Highborn, Rear-Admiral United States Navy, writes from Washington, D. C., as follows:

"After the use of Peruna for a short period, I can now cheerfully recommend your valuable remedy to any one who is in need of an invigorating tonic."—Philip Highborn.

AN EVERPRESENT FOE.

The soldier and the sailor are especially subject to catarrh in some form or phase.

Exposed as they are to constant changes, subject as they are to various vicissitudes, and all kinds of climate, wet and dry, night and day, they find catarrh to be their most insidious and everpresent foe.

In the barracks and on the field, Peruna is equally efficacious.

Taken in time, it will absolutely prevent catching cold.

PE-RU-NA AN ABSOLUTE SPECIFIC.

After a cold has become established, Peruna will break it up quicker than any other remedy known to man.

Even after a cold has become settled in some organ of the body Peruna can be relied upon to promptly dispel it.

Peruna will cure catarrh, whether acute or chronic, but a few doses taken in the first stages of the disease will be more effective than when the disease has become chronic.

If you suffer from catarrh in any form, do not neglect it. Take Peruna at once. Delays in such matters are dangerous.

RECOMMENDS PE-RU-NA.

"I am convinced of Peruna's curative qualities and I unhesitatingly recommend it to all persons suffering from catarrh."—Commodore Somerville Nicholson.

FROM HIS OWN EXPERIENCE.

"The use of your Peruna as a remedy and cure for catarrh by many of my friends who have been benefited by the same, as well as my own experience as to its efficacy and good tonic properties causes me to recommend it to all persons."—Ex-Lieut. U. S. Navy, James M. Morgan.

PE-RU-NA CURES THROAT CATARRH.

"I can cheerfully recommend your remedy, Peruna, to my friends and other sufferers as one of the best remedies I have ever used for catarrh troubles of the throat and kindred diseases. I also consider Peruna a grand tonic."—Admiral James A. Greer.

FOR COUGHS AND COLDS.

"I have used your Peruna with satisfaction and can cheerfully recommend the remedy as an effective remedy for coughs and colds."—Rear-Admiral J. A. Howell.

USED PE-RU-NA IN HIS FAMILY.

"I have used Peruna in my family with the most flattering results.

"I can recommend your valuable remedy as a most efficient remedy for coughs, colds and catarrh."—Col. U. S. Marine Corps, C. J. Porter.

No remedy ever yet devised has received such unstinted eulogy from so many renowned statesmen and military men as Peruna.

We have on file thousands of testimonials like those given above. We can give our readers only a glimpse of the vast array of endorsements Dr. Hartman is receiving.

This would be a pleasant world if men would pay debts as cheerfully as they pay grudges.

PASSED AWAY

At noon to-day news was received in Chatham of the death of Mrs. Elizabeth Slocum, who left the Maple City two years ago to take up her residence in Detroit.

The deceased was very well known and highly esteemed in this city, and many people will sympathize with her husband and daughter, who are left to mourn her loss.
She had been ill for some time and yesterday had a relapse, which terminated in death this morning.

COUNCIL MEETING

At a committee meeting, held last evening, the members of the City Council decided on drawing up a counter proposition to be submitted to the officials of the C. W. & L. E. It will come up at Monday's meeting of the Council.

A NEW INDUSTRY FOR CHATHAM

President Backus, Vice-President McCormick, Secretary Ross and Director J. Johnson, of the Chatham Fruit Packers' Association, are in the city to-day negotiating for the purchase of a site on which to build their new packing house.
The Association also purpose establishing a cider mill and to go into the manufacture of jams and apple butter.

EMPLOYEES' BANQUET

The Blonde Lumber and Manufacturing Co. gave a splendid banquet to their employees, at the Aberdeen Hotel, on Thursday evening.

Mine Host Sechard provided a sumptuous spread for the 75 people present, and after the repast a very fine musical program was given by local talent.

Mr. N. H. Stevens, vice-president of the company, acted as chairman in the absence of the president, and, although he is reputed to be an excellent chairman at all times, he surpassed himself on this occasion.

He made an excellent speech, commenting on the thrift and intelligence of the company's employees, and referred to the ever-increasing business of the company as a tribute to the clever workmanship done in the factory.

Mr. Ben. Blonde, manager of the company, also made a good speech, in which he said it was a great pleasure to him to meet his officers and employees under such harmonious and enjoyable circumstances.
The toast of the evening was "The King," and was drunk standing by all present, followed by the singing of the National Anthem.
The whole affair was a success in every way and the company broke up, unanimous in their opinion that the banquet had been one of the best ever held in this city.

THE NEW LEADER

Chatham music lovers will be interested to learn that Mrs. John Cooper, of Detroit, has accepted the choir leadership in Holy Trinity Church, this city.

Mrs. R. V. Bray, whose place Mrs. Cooper will fill, has resigned, owing to the fact, that she found she had not the time at her disposal which she would have liked to have devoted to the work. Mrs. Bray was

MRS. JOHN COOPER.
New Leader of the Holy Trinity Choiran able leader, whose services have always been greatly appreciated.
The papers were signed by Mrs. Cooper yesterday, and she will commence her duties Sunday, March 4th.
Mrs. Cooper's reputation as a choir leader needs no comment, and the congregation of Holy Trinity are to be congratulated on securing the services of this talented and accomplished lady.

The marriage is announced of Miss Bessie Ward, daughter of Mr. and Mrs. W. A. Ward, of Wardsville, Ont., to Mr. Joseph Hagerty, on Wednesday, March 7th, at eleven o'clock.

Miss Cora Merritt, entertained on Tuesday in honor of her guest, Mrs. Barnett, of Cleveland, by giving a tea, followed by progressive euchre. The bell prize was won by Mrs. Barnett, the lone hand by Miss Ida Merritt, and the booby prize by Miss Lillian Garrett.

Miss Marion Fleming gave a delightful card party last night for guest, Miss Hutchinson, of Chatham, N. B. The house was beautifully decorated with carnations and tulips. Miss Mary McKeough won the prize for points, a large bunch of violets; Mrs. J. T. O'Keefe won the prize for honors, a bunch of tulips; and Mr. C. H. Gunn and Mr. Walter Elliott carried off the gentlemen's prizes, two packs of cards.

The members of the Chatham Elks Club gave a charity ball on Valentine's night. About one hundred and fifty were in attendance. The music was furnished by Finkel's Orchestra, of Detroit, which many considered the best music that had ever been given for dancing in Chatham. The ball room was decorated with palms and ferns. Instead of a supper, refreshments were served all through the evening in the Club dining room. The table was beautifully decorated with white carnations and ferns, and purple (the Elks' colors) Those who did not dance were entertained at billiards and cards. A great number of strangers were present.

Mrs. D. S. Patterson will entertain on Monday afternoon.

Mrs. Kingsmill, William St., is entertaining this afternoon.

The marriage of Miss Muriel Ermattinger, only daughter of Judge and Mrs. Ermattinger, St. Thomas, and Mr. W. K. Moorehead, U. S. Consul, will take place at Easter.

Mrs. Kingsmill, of William St., gave an exceedingly pleasant Thimble party on Thursday afternoon in honor of her guest, Mrs. Deane, of Windsor. Misses Hollinrake and Pearl White contributed greatly to the enjoyment of the afternoon by their beautiful singing. These ladies are always popular.

Mrs. Frank Phelps gave a Valentine Tea to about twelve of her girl friends in honor of Miss Hutchings, of St. Mary's, on Wednesday evening. The decorations were beautiful, being done in pink ribbon and hearts. The heart scheme was carried out in the table decorations. Progressive euchre was the game of the evening.

On St. Valentine's eve Miss Nellie Lambert entertained about twenty of her young friends. The house was tastefully decorated, the supper table being particularly attractive with its charming color scheme of pink and white. The tall vase in the centre was filled with beautiful pink and white carnations and ferns, and stood on a mirror which was surrounded with similar streamers. From which trailed long streamers of pink satin ribbon with pink hearts attached. At each plate was an appropriate favor in the form of a hand-painted heart, showing Dan Cupid in every form of the love-making art. It was a most enjoyable evening for everyone.

It is with much pride and pleasure that Manager Ericson, of the Grand, is able to announce to the theatre patrons of Chatham, the engagement in this city, of what is beyond question of doubt, the most popular success known to the Universal Comedy Stage in recent years. "Little Johnny Jones" will be presented at the Grand Opera House in this city on Saturday night, Feb. 24, by one of the largest and most expensive organizations on tour this season. The play and music is by Geo. M. Cohan, who has recently jumped into great prominence as an author and composer, through the medium of this phenomenal success "Forty-Five Minutes from Broadway" now running at the Amsterdam Theatre, New York, and "Geo. Washington, Jr." a huge success now packing the Herald Square Theatre in the same city. "Little Johnny Jones" will be presented in Chatham by the largest most fashionable theatre, the Illinois. Its fair of Canada will only embrace a few of the most important cities, the company going direct from here to the Princess in Toronto and thence London, Hamilton, Kingston, and Ottawa, which will conclude its Canadian tour. It was only by extra efforts that this big attraction has been secured for a date in this city and it is the sincere desire on the part of the Grand Opera House management to make the engagement a notable one in the history of local theatricals.

handed into the office to-day by a long haired individual who gave his name as H. Shortfellow. It is entitled "The Bridge." For lack of space we can only print the first stanza, which is typical of the whole production:

I stood on the bridge at midnight
And mused, (with inward groans)—
On City Councils and by-laws,
And railway companies—and loans.

WHEN ALL HOPE WAS ABANDONED

Elzear Cote Found in Dodd's Dyspepsia Tablets a Speedy and Permanent Cure For His Stomach Troubles.

"I suffered for four years from stomach trouble. I consulted three doctors and they told me that I had Dyspepsia and no remedy would help me." So says Elzear Cote, of St. Hedwig, de Clifton, Que. But Mr. Cote found a remedy that those doctors did not know. It was Dodd's Dyspepsia Tablets and it cured him. He says:

"Then I quit the doctors and started to take Dodd's Dyspepsia Tablets. After the first box I had no more trouble. It is now two years since I took them and I am still well. I do all my own work. I am never who have stomach troubles to use Dodd's Dyspepsia Tablets."

Dodd's Dyspepsia Tablets digest the food themselves. This gives the overworked stomach a chance to rest and it naturally comes back to its normal healthy condition.

Men of character are the conscience of the society to which they belong.

Clergy of Different Denominations Unite in Endorsing Psychine

Psychine, in its great work of healing those diseases that lead to consumption, and even consumption itself, has naturally come under the notice of a large number of the clergy, and many of them have felt it their duty to let the public know what splendid results come from its use. Here are a few instances of what clergymen say:—

REV. JAS. ODERY, formerly of Broadway Tabernacle, Toronto.—

"I have found Psychine to be one of the best remedies for throat and chest troubles that I know. It is prompt, efficacious and reliable."

REV. WM. H. STEVENS, Paisley, Ont.—

"Psychine seemed just the stimulant my system needed. I shall add my testimony as to its efficacy at every opportunity."

REV. R. M. BROWNE, Amherst Head, N. S.—

"I have often recommended Psychine since taking it myself, for I believe it is a cure for the troubles you specify."

REV. J. J. RICE, 51 Walker Ave., Toronto.—

"My wife suffered two very severe attacks of La Grippe, one of which threatened rapid consumption, there being a hereditary tendency in that direction. They were speedily corrected by Psychine, leaving no trace of the disease."

REV. CHAS. STERLING, Bath, N. B.—

"I have used Psychine in my family; the results were marvellous. I have visited people who state they never used it equal. I have no hesitation in recommending it."

REV. J. S. I. WILSON, Markdale, Ont.—

"I have taken two bottles of Psychine, and am pleased to say that I am greatly improved in health. I was troubled with my throat, but now I find it about restored to its normal condition. I find my work very much less taxing. I have reason to believe Psychine is all that is claimed for it."

Where sickness is there the minister of the gospel is found. His is the opportunity to note how the sufferer got relief, what furnished the relief and what caused the cure. Large numbers of the clergy of Canada recommend Psychine. They know, out of their experience, that it is the greatest preventive of consumption, the greatest builder-up of weak men and women science has given to the world,

PSYCHINE.

(Pronounced Si-Keen)

REMEMBER, Psychine cures Consumption, but its greatest work is the cure of those diseases that lead to Consumption. Psychine cures Colds, Coughs, La Grippe, Pneumonia and Catarrh. At all Druggists. \$1.00 Per Bottle.

CARRIED HERO TO COCKPIT.

Grandson Lives In Toronto — Grandfather Veteran of Trafalgar.

Toronto counts among her citizens the grandson of one of the men who fought with Nelson, and carried that wounded hero to the cockpit of the Victory, while the old ship flew the signal "England expects that every man this day will do his duty."

Mr. W. J. Kemish, an old navy man and a pensioner, living at 248 Brook avenue took a keen interest in the celebrations made on Trafalgar Day. In memory of that great sea battle, fought just one hundred years ago, on the 21st of this month.

Mr. Kemish's grandfather, whose name was Thomas Hastings, during his lifetime took part in some stirring and historical sea fights. At the battle of Trafalgar First-class Petty Officer Hastings was one of the crew of the ship "Hastings," Captain Blackwood. During the battle Hastings, who was one of the crew of the captain's gig, helped row that officer aboard the "Victory," and after Nelson had been shot down assisted to carry him to the cockpit.

A few years later Mr. Hastings, having risen to the rank of a warrant officer, was aboard the "Hastings" during that memorable fight with the Chesapeake.

When the odds were going against the British ship, Capt. Brooke shouted to his men, "Board my brave fellows; we shall yet win the day." Hastings was one of the boarding party, and during the rush he had his right wrist cut in two by a blow from a cutlass.

Later Mr. Hastings was appointed boatswain of the Pembroke dockyard, in Wales, and received William IV. during his visit there.

Mr. Kemish followed in the footsteps of his father and grandfather, and at the age of 14 was an ordinary seaman on the paddle-wheel sloop Alecia, five guns, stationed on the west coast of Africa. During his tour of duty he saw a lot of fighting. He assisted in the capture of six slave ships, out of the Congo, and the prize money amounted to \$20,000. While on the African coast Mr. Kemish was sent in charge of a prize crew to take the captured American brigantine Woodward, with 612 slaves in her hold, to St. Helena. During the trip 188 of the slaves died.

Upon returning from the African station Mr. Kemish was appointed to Algiers, 51 guns, attached to the Mediterranean fleet. After having spent four years on that station he was appointed to the gunnery ship Excellent at Portsmouth, and went through a first-class course in gunnery, and appointed to the corvette Fawn.

Mr. Kemish was in 1864 to 1865 on the North American station. The Fawn was at Jamaica during the negro rebellion, and assisted in putting it down. Mr. Kemish remembers seeing eighteen blacks hanged one morning before breakfast. The same vessel was also stationed at St. Andrew, N. B., during the Fenian raid, and captured two boats, loaded with rifles.

Mr. Kemish has amongst his medals that given for the Fenian raid. Mr. Kemish was then appointed to the Endymion, and made a trip round the world in her under Sir John Erskine.

Returning to England, Mr. Kemish went through yet another gunnery course, and was then appointed chief gunner's mate on the H. M. S. Vulture, doing duty as a commissioning officer. Whilst in the Vulture lying at Zanzibar the body of the famous explorer, Dr. Livingstone, was brought down to the coast, and taken aboard the Vulture, and the Vulture was the vessel that buried him. Mr. Kemish saw much service in the East Indies and the Persian Gulf. On the 1st of July, 1876, Mr. Kemish received his pension and left the service. He is also in receipt of a Greenwich Hospital pension. Mr. Kemish came to Canada in 1879, and settled in Toronto.

Lord Nelson and Canada.

Mr. Henry J. Morgan, author of Men and Women of Canada, writes The Globe from Ottawa: In a recent issue of your paper you recall an incident in the life of Nelson where the hero, not long before the battle of Trafalgar, visited the premises of Messrs. Pettit & Son, undertakers, Brewer street, Golden Square, to take a view of his coffin. You rightly state that the coffin in question was a gift to his chief from Capt. Benjamin Halliwell, who had this gruesome token of affection made from a piece of the main mast of the French frigate L'Orion, captured at the battle of the Nile, "in order that Nelson might be buried in one of his own trophies," but what perhaps is not generally known, to our people in connection with this occurrence is that Capt. Halliwell was the son of a Canadian gentleman—a Unitarian, Lord Nelson's friend, and an exciting, and eventful career, died at York, now Toronto, where he was a landed proprietor, March 28th, 1799.

Mr. Halliwell, Sr., according to Sabine, was the father of another eminent Canadian, Chief Justice Elmsley, at whose house he died, and by whom his remains were interred in the old Garrison burial ground at York.

Mr. Halliwell, Halliwell, is stated by no less an authority than the Dictionary of National Biography to have been born in Canada. I am otherwise led to believe that his place of birth was Boston, Massachusetts, where his father, previous to the American revolution, held office as Commissioner of Customs, with a seat in the Royal Council. The son lived, as I have said, to become an Admiral, and besides receiving the Neapolitan Order of St. Ferdinand, was decorated by his Sovereign with the Grand Cross of the Order of the Bath. Having in his later years, succeeded to the estates of the Carews of Beddington, he assumed the name and arms of that family. He was a worthy and gallant officer, whose meritorious services in every sea entitled him to a conspicuous place in the naval annals of his country.

Cured her Father's Drunkenness by a Simple Remedy.

Saves her father from a drunkard's grave. Free sample of Samaria Tonic Prescription checks his drinking and leads to a complete cure.

"It seemed hopeless to keep father from drinking, and we all felt the disgrace. When things were at their worst, a friend advised me to try Samaria. I saw that you offered a free sample treatise, and that the remedy was tasteless and could be given secretly. I determined to try it, and, have been glad every day since. The full treatment, which I gave him in his tea, cured him, and I am pleased to say he never touches whiskey now. How glad I am that I wrote you and how happy we all are together. Father says that he could never have stopped drinking of his own accord."

Chickens That Came High.

A good story comes from New Hamburg, says The Waterloo Chronicle. A farmer living not a thousand miles from that place, on entering his chicken-house on morning discovered that a number of his best birds were missing, and on looking around found a purse lying in the straw of the hen-house. Picking it up he imagined his surprise, and found it contained \$40 in bills. He quietly put the money in his pocket and said nothing. Later in the day a wealthy neighbor called and asked if he had any chickens for sale. The farmer told him he had not, but he insisted on seeing them anyway. But the visitor did not see much of the chickens. From the time he entered the hen-house his eyes were riveted on the floor, and the way in which he kicked around in the straw spoke more convincingly than could words.

Many a man feels that he could be quite comfortable if his conscience would meet him half-way.

MRS. HUBBARD A CANADIAN.

First Woman to Explore Labrador Wilds Born in Ontario.

In the Township of Hamilton, Northumberland, Ont., was born Mrs. Leonard Hubbard, the celebrated woman who is the first Canadian lady to explore the wilds of Labrador. The announcement that the much-heralded New York explorer is a Canadian will cause surprise, but it is authentic. According to Dr. Morgan, author of Canadian Men and Women of the Time, Mrs. Hubbard, just returned from her adventurous journey to discover the secrets of her late husband's failure and subsequent death in that black and inhospitable country, is one of our own countrywomen.

She is the daughter of James Bennett, a farmer of Bewdley, Township of Hamilton, County of Northumberland, Ontario. As a girl she qualified as a trained nurse, and while in the performance of her duties as such took up her residence in New York, where she was called upon to nurse Dr. Leonard Hubbard, Jr., through a serious illness.

It was a case on his part of love at first sight, and a marriage soon followed. The world knows how in 1893 her husband met his death in the Labrador wilds, and it was to clear up doubts and uncertainties, and also to complete the report of her husband's exploration, that she undertook the journey from which she has now returned.

When she returned to Quebec, she was found to be a small, slight woman, of delicate and refined appearance, who would seem to be the last to face the dangers and hardships of such a journey through the wilderness. She politely but firmly declined to be questioned about her expedition. She would merely say that she had followed the route taken by her husband from the coast to the point where he had met his death from exposure and starvation, that she had found where he had diverged from his route and lost his way, that she had cleared up some important points in regard to the head waters of the Northwest River, which flows into Lake Melville and Hamilton Inlet, as well as in regard to Lake Mishikamun, the height of land, and the George River, which flows into Ungava Bay, and that she had not suffered much from the hardships of the journey.

Mrs. Hubbard emphatically denied that she went to Labrador to locate mineral wealth said to have been discovered by Mr. Hubbard on his fatal trip. She simply set out to complete the work which he began, and has succeeded in doing so.

MARK HANNA ROCK GONE.

Stood on the Pacific Coast and Was Gravestone For Ships.

A recent despatch from Victoria, B. C., says: Notification has been sent by Lighthousekeeper Daykin of Cape Carmichael to the resident agent of the Department of Marine, that "Mark Hanna" Rock, otherwise known to navigators of the North Pacific as one of the many mariners' gravestones that decorate the western seaboard of Vancouver Island, has strangely disappeared.

The rock until very recently reared 50 feet above the water, near Bonilla Point, off Carmichael, the Canadian sentinel at the entrance of the Straits of San Juan de Fuca, opposite Cape Flattery, on the American shore.

The rock was named for the Ohio statesman and Republican organizer by Lighthousekeeper Daykin, because of the remarkable likeness its contour bore to a facial silhouette of the late American Senator. Apart from this distinguishing feature, however, there was another peculiarity about Mark Hanna Rock which in earlier time might have invested it with superstitious dread. It is said that it possessed a remarkable magnetic power, for on its rugged and storm-beaten base many a vessel has pounded to destruction.

But the rock is no more. It was destroyed some weeks ago in the seismic and electrical disturbance felt in slight degree here and to a greater extent at Nanaimo. It was noticed, black and grim, rearing itself through the storm in the afternoon preceding the quake. In the morning Lighthousekeeper Daykin observed with amazement that the sea broke untroubled there it had lifted itself from the deep.

The question is now being debated among local scientists whether or not the strange magnetic force said to be a property of the rock had ought to do with its final demolition.

Adopting Ontario Methods.

The Provincial Department of Agriculture has received an interesting note from Leonard, Mr. George Bain, editor of the Nainshire Telegraph, called at the Department last year, and among the publications given him were some of the Nature Study bulletins issued by the Department for Public School teachers. Mr. Bain states that some of the teachers of the Nain district are very much interested in these, and intend to use them as the basis of their nature study work. The steady demand for these bulletins from Ontario Public School teachers has exhausted the bulletins on "Weeds," "Grasses" and "The Making of Collections." The bulletin on "Weeds" has been revised by Prof. Orinhead, making it more suitable for teachers, and it will be re-issued during the winter.

Flight of Birds.

Pigeons fly at the rate of fifty-five miles an hour, swallows at the rate of ninety-two, rooks at the rate of twenty-five. There was once a three-mile race for a wager between a dozen rooks and a dozen pigeons. The first bee finished a quarter of a minute before the first pigeon, and the bees won all round, although they were hard-disputed somewhat by being previously filled in flour for the purpose of identification.

How Canada Was Saved.

In reviewing Capt. Mahan's book "The Power in its relations to the war of 1812" The London Post says: "We doubt whether his narrative brings out as fully as the facts justify that it was the patriotism and gallantry of the Canadian militia which saved Canada during that uphill game of the first twelve months."

THE POSTMASTER TELLS HIS SECRET

His Health Mainly Due to the Use of Dodd's Kidney Pills.

Postmaster Lee Looks Ten Years Younger Than His Seventy-Six Years And He Gives The Credit To The Great Canadian Kidney Remedy.

Tabucintac, Cumberland County, N. B., Feb. 12.—(Special).—Horatio J. Lee, postmaster here, is now in his seventy-sixth year, but so bright and healthy does he look and so energetic is he in his movements that he would easily pass for ten years younger.

"How do I keep young looking," the postmaster says, "I attribute it largely to my good health and my health is mainly due to the use of Dodd's Kidney Pills."

"I first learned the value of this Kidney Remedy some years ago. I was then suffering from Kidney Disease. My feet and legs swelled and I had to rise eight or ten times in the night because of urinary troubles. Six boxes of Dodd's Kidney Pills restored my health at that time and I have used them at intervals since."

"To anyone afflicted with Kidney Trouble I say 'Dodd's Kidney Pills are right.' Try them and you will be sure to find a benefit."

DISRAELI'S MAXIMS.

Every one loves power, even if he does not know what to do with it. Always have distinguished friends. Never have fools for friends. They are of no use.

To govern men you must either excel them in their accomplishments or despise them.

To rule men we must be men. Our wisdom must be concealed under folly and our constancy under caprice.

Next to knowing when to seize an opportunity the most important thing in life is to know when to forego an advantage.

The divine right of kings may have been a plea for feeble tyrants, but the divine right of government is the key-stone of human progress.

Talk to women as much as you can. This is the way to gain fluency, because you need not care what you say and had better not be sensible.

\$25,000.00 GIVEN AWAY.

In the past year Dr. R. V. Pierce has given away copies of his great work, "The People's Common Sense Medical Adviser," at an expense to him of \$25,000.00 exclusive of postage. This standard book on medicine and hygiene, contains 1008 pages and more than 700 illustrations. It treats of the greatest and gravest problems of human life in simple English, from a common sense point of view. It answers those questions of sex which linger unspoken upon the lips of youth and maiden. It is essentially a family book, and its advice in a moment of sudden illness or accident may be the means of saving a valuable life. This great work is sent absolutely free on receipt of stamps to defray the cost of mailing and customs. Send 13 one-cent stamps for the book in paper binding, or 50 stamps for cloth covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

SICK HEADACHE

Many varieties of headache exist, those most prevalent being sick or bilious headache, nervous headache, headache from constipation, etc.

Headache is an effect of disease, the cry of the suffering body for relief from some pressing disorder.

Undoubtedly the cause must be removed in order to cure the headache permanently. Wrong action of the stomach, liver or bowels is responsible for nine out of ten cases of headache.

In sick headache (a very common form) there is sometimes nausea and vomiting and usually constipation.

In nearly all forms of headache

Burdock Blood Bitters

has proved itself a specific—a medicine that has cured where all others failed. Keep the stomach, liver and bowels in perfect working order by the use of nature's regulator and tonic, Burdock Blood Bitters, which cures all forms of headache by removing the cause.

Miss L. Smith, Morrisburg, Ont., writes: "I desire to let you know how much good Burdock Blood Bitters has done for me. I was troubled with headache all the time, and could get no relief, until a friend told me of your Burdock Blood Bitters. After taking two bottles of it, I can say that I am completely cured."

B.B.B. is for sale at all drug stores and general stores. Do not accept something just as good."

The blue heaven is much larger than the cloud.

THE CHEERFUL LIFE.

No Character is Complete Which Lacks Moral Sunshine.

It takes a great deal of sunshine to produce a perfect peach or a perfect rose. The sunshine will do what clouds cannot do. It is the sunshine that gives the inimitable tint of beauty to fruit and flower.

No character is complete which lacks moral sunshine. Many a man has failed because he was too serious, because he thought that life was too important and too short "to be trifled with," as he put it. But the fact is, the cheerful life is the healthy, productive life. Cheerfulness is as necessary to man as sunshine is to the flower. Nothing normal can be produced in darkness or in the shade. Fun is just as necessary to the normal life as water is to fish or as oil is to machinery.

Note it where we will, the smileless life—the life which has no brightness or sunshine, no humor or gladness—is morbid, sour, pessimistic. It is the joyous life, the cheerful, happy life that is helpful and inspiring. This is the sort of life the world wants. It has too many sour faces, too many vinegary countenances, too many critics, too much pessimism. It wants more sunshine, more optimism, more joy.

Going through life seeing the crooked, radiating bitterness, criticizing, finding fault, seeing only the ugly, ignoring beauty, nagging, worrying, fretting and tearing down? Some people seem to have a genius for seeing the crooked, the ugly, the disagreeable. There are too many vinegary peddlers. We need more joy peddlers, more sunshine makers, people who ignore the ugly, the bitter, the crooked, but who see the world of beauty and perfection which God has made. We need the people who see the man and the woman that God made—pure, clean, sane and healthy—not the ugly, diseased, and discordant, criticizing one that sin, wrong thinking and wrong living have made. A man becomes sour and creative when he sees his fellow men and the world as God made them—but those who look for the bad, the ugly, the crooked, are never creative. They are never producers. They are destroyers. They tear down.—Success Magazine.

FINGER NAIL PHOTOGRAPHS.

The Latest Fad In England of Brides and Engaged Girls.

Photography on the finger nail is the latest fad in London society. It is an odd extension of the craze for photographic buttons and lockets, which have enjoyed such great popularity of late.

The idea is absolutely novel, and is being adopted by men and women alike. It is considered quite correct in some circles for a young bride to bear a portrait of her husband on the nail of her wedding ring finger. A number of engaged girls also have chosen this quaint method of keeping the features of their fiancés in a position where they can glance at them at all hours of the day.

"It is quite a simple matter to secure finger nail photographs," said a well known photographer. "It is best done by what is known as the carbon process."

"A photograph of the subject is first made in the ordinary way, and reduced to a size suitable for the finger nail. A print is then made from the negative on carbon paper, which is placed in a special frame. The photograph is then placed on the finger nail. When dry, the transfer paper is stripped off and a finished photograph is left on the finger nail."

"Finally, a thin coat of transparent enamel is brushed over the photograph, rendering it perfectly safe to wash the hand without damaging the picture."

"On the average person the photograph is partially destroyed by the cutting away of the nail in about three weeks. As the cost of each finger nail photograph is half a guinea, it becomes an expensive luxury if continued for a year."

"How to be Friendly With Wasps." A correspondent of the Leeds (England) Mercury bears testimony to the inoffensive behavior of wasps if not molested. He writes: "My favorite garden seat in summer is near an extensive beehive and evergreens. The wasps come to this bed while I am reading, roam over my book or newspaper. My hands and face are at their own pleasure. If I have been eating or drinking anything sweet they make free with my lips and cheek. They come and go peaceably, and I encourage their companionship by keeping perfectly still. I was never stung by a wasp but once in my life, and that I deserved the punishment, which I provoked. A lengthened experience convinces me that if you remain passive and do not wantonly molest them you may live on the most friendly and sociable terms even with wasps."

"Couldn't Smell In The Dark." An old gentleman too impatient for his hot water and a light to be brought rushed into the kitchen, seized hold of the first pan on the stove and dashed away with it to his dark room. On plunging his hands into the wash hand basin he was amazed to find that it contained something thicker and stickier than water—that he had, in fact, spoiled the first course of his dinner by trying to wash in the soup.

Bolting over with passion, he began to upbraid his wife, and on her suggesting that he might have smelled it was soup he thundered. "How in the name of fortune could I smell in the dark?"—London Answers.

Mortification. A culture that is founded upon a glorious ignorance sometimes leads to funny results. There is the recorded instance, of course, of the lady who after talking for some time of the higher kinds of music was asked if she knew Bach's figures. "Bach?" she repeated. "Is he still composing?" "No," he is decomposing," answering her questioner.—London Chronicle.

MITCHELL'S BAY.

The farmers of this vicinity are taking advantage of the good roads and are drawing ice.

Quite a number from here attended service at Baldoon on Sunday. Mrs. Wm. J. Ross, of the townline, spent the past two weeks with her parents here.

The social held at Mrs. D. Burke's, on Thursday, was a grand success. Mr. Clancy has returned to the Bay after spending a week in Detroit.

The Ladies' Aid of the Mitchell's Bay Methodist Church intends holding a Valentine social at the residence of Mrs. Chas. Dunlop, Thursday, Feb. 15.

Miss Ann Sewell is spending this week with her sister, Mrs. David Burke.

Swalows, they say, never fly over other swamps, but in fact when used in the "Swallow" way, they will follow the swamps.

BEAR LINE.

Skating on the Boyle drain through Mr. Elgie's farm is extra fine; as good as a rink.

Miss Johnson, of Chatham Township, spent Sunday with Mrs. S. Chapple.

There will be service in Hinds church on Sunday next.

Big Point and Pain Court will have Evangelistic meetings in Hinds' church every night this week except Wednesday.

wedding bells ringing shortly.

Some fifteen of the brethren of Court Pride of Dover, No. 8765, attended the At Home given to the visiting delegates to the District High Court in Chatham, and all report being treated well by the Chatham Courts.

Mr. Jas. E. Watson is looking forward to harvesting his ice crop, and the boys are anticipating an oyster supper soon.

Miss Mary A. Hind has returned, after a lengthy visit in Michigan. Wm. J. Foy and J. A. Doolittle were elected officers of the District High Court, A. O. F., held in Chatham, Tuesday, Feb. 6th.

Mr. Mac Smith is Dr. McFarlane's new foreman.

The wedding bells are ringing between the 5th and 9th concessions. The following officers were elected for Court Pride of Dover, A. O. F., for 1936:—

P. C. R.—Jas. A. Doolittle. C. R.—L. Dulong. S. C. R.—Geo. Mason. Sec.—Geo. Kreiger.

Treas.—Matt. Boyle. S. W.—Ernest Chappelle. J. W.—Jas. Hardick.

S. B.—Geo. Thomas. J. B.—Israel Rivers.

Trustees—Fred Hind, A. Brown and John Roy.

Medical Officer—Dr. Geo. T. McKeough.

R. Conroy was married to Miss Mary A. Hind, second daughter of Elim Hind, a well-known and prosperous farmer here.

Miss Pearl Chappelle is now living in Chatham.

Heart, Throat, Liver and Skin

DR. AGNEW'S FOUR FAMOUS SPECIFICS CURE COMPLETELY THE WORST DISEASES OF THESE PARTS—DREADFUL HEART DISEASE RELIEVED IN THIRTY MINUTES.

Heart disease will affect people differently, but in all cases it must be viewed with great alarm. Dr. Agnew's Cure for the Heart is the one remedy that can be safely depended upon in times of trouble. It will give relief in thirty minutes.

Mr. Thomas Perry, of Aylmer, Que., was troubled with severe heart complaint for five years, the pain, at times, being so severe that he could not attend to business. Every other remedy failed until he tried Dr. Agnew's Cure for the Heart, which gave immediate relief, and his words are these: "I have now taken four bottles of the cure, and am entirely free from every symptom of heart disease."

A cold in the head need not be trifled with, for it is catarrh in an incipient condition, and catarrh is not to be trifled with. Dr. Agnew's Catarrhal Powder, as scores of clergymen, members of parliament, and prominent citizens in the Dominion have borne testimony, drives away a cold in the head like magic, and where this has assumed the shape of aggravated catarrh producing deafness and throat trouble, it effects a permanent cure.

It is not always safe to take pills for liver trouble. They not infrequently create other troubles that are serious. Dr. Agnew's Liver Pills, whilst thoroughly certain of removing all liver trouble, give no difficulty either at the time or afterwards. They are pleasant to take and cost only 10 cents.

The faculty that Dr. Agnew has displayed in getting at the seat of trouble is manifest in his Ointment, as in the other three remedies. This contains the elements that give speedy and permanent relief in all skin diseases, and is peculiarly effective in curing piles. 35 cents.

THE OLDEST OBELISK.

It Stands On the Banks of the Nile Not Far From Cairo.

The oldest of all the obelisks is the beautiful one of rosy granite which stands alone among the green fields on the banks of the Nile not far from Cairo. It is the gravestone of a great city which has vanished and left only this relic behind. That city was Bethshemes of Scripture, the famous On, which is memorable to all Bible readers as the residence of the priest of On, Potipher, whose daughter Asenath Joseph married. The Greeks called it Helopolis, the city of the sun, because there the worship of the sun had its chief centre and its most sacred shrine. It was the seat of the most ancient university in the world, to which youthful students came from all parts of the world to learn the occult wisdom which the priests of On alone could teach.

Thales, Solon, Eudoxus, Pythagoras and Plato all studied there; perhaps Moses too. It was also the birthplace of the sacred literature of Egypt, where a number of the oldest books in the world, generally known as "The Book of the Dead," giving a most striking account of the conflicts and triumphs of the life after death, a whole copy or fragment of which every Egyptian, rich or poor, wished to have buried with him in his coffin and portions of which are found inscribed on every mummy case and on the walls of every tomb. In front of one of the principal temples of the sun in this magnificent city stood, along with a companion long since destroyed, the solitary obelisk which we now behold on the spot. It alone has survived the wreck of all the glory of the place. It was constructed by User-tesen I., who is supposed to have reigned 2800 B. C., and has outlived all the dynastic changes of the land and still stands where it originally stood nearly forty-seven centuries ago. What appears of its shaft above ground is sixty-eight feet in height, but its base is buried in the mud of the Nile, and year after year the inundation of the river deposits its film of soil around its foot and buries it still deeper in its sacred grave.—Pall Mall Gazette.

Fooling a Scientific Man.

The Belgians once succeeded in getting cut rates on an operation from Sir Morell Macdonell. He engaged to attend a case at Antwerp. When he landed he was met by three men in mourning, who informed him that the patient had died, but that they would pay his fee.

"And now," said the man, "since you are here, what do you say to visiting the city hospital and giving a clinic for the benefit of our local surgeons? It is not often they have an opportunity of benefiting by such cases as yours."

Sir Morell said he would gladly comply. He went to the hospital and performed many operations, among which were two of a similar nature to that for which he had been called over. When he finished all thanked him profusely. On the steamer going home he met a friend who had a business house in Antwerp.

"Pity scurvy trick they played on you, Sir Morell!"

"What do you mean?" asked the surgeon.

"Told you the patient died before you arrived, didn't they?"

"Yes." "Lied. You operated on him and a friend with the same trouble at the clinic. Got two operations for one price!"—Readers' Magazine.

Record Output of Gold.

Figures have recently been issued from various gold producing centres throughout the world, giving the values of the output for those districts for the past year, and in the aggregate the result is the largest production of which there is any record as follows:—

Transvaal	£20,802,000
United States	17,267,000
Australia	17,104,000
Russia	4,800,000
Canada	2,886,000
Mexico	2,700,000
India	2,327,000
Rhodesia	1,600,000
West Africa	633,000
All others	5,630,000
Total	75,749,000

The total for 1934 was £69,888,000. There is thus an increase in the value of the output of nearly six millions sterling, the principal factor in which is an advance of 4-3-4 millions in the Transvaal figures. Canada exhibits a falling off, owing to the exhaustion of the Yukon placers.—Lloyd's Weekly Newspaper.

Value of Trading In Your Own Town.

A right that belongs to every citizen is the privilege of spending his earnings in whatever manner and where he wishes as long as he keeps within the law. No one will dispute the farmer's claim that he can send his money to any place that he wishes and buy goods he needs wherever he wants to. But there is an economic side of the question that should not be overlooked, says D. M. Carr in Home Trade Advocate. The resident of a community should be active in furthering the interests of the place he calls home. He is working contrarily to his own good when he sends his money to the distant city for supplies he knows can be secured in his home town. The dollar sent away goes out of circulation and ceases to be a factor in the building up of the community from which it is sent.

Feeding Consumptives.

The importance of wholesome food in combating tuberculosis is dwelt upon in the Dietetic and Hygienic Gazette in the following words: "Many people owe to dyspepsia the lowered vitality which made possible the successful tubercular infection. While we plead for good tenements, while we strive to control the infection of air and dust, and demand the destruction of all sputum of all infected people in a community, let us bear in mind that people not yet infected and people in whom infection has occurred, but is held in check by present physical vigor, need from every hygienical consideration of tuberculous patients, careful care of the digestive system, and for this purpose, good cooks are better than druggists."

Name Coincidences.

An English paper is collecting name coincidences. At Cambridge university are two Japanese students, M. Seda and M. Wasing (pronounced wisky). Their names are side-by-side on the residence list. J. Hunter reports that he was once asked to fill a vacant village pulpit. The regular preacher bore the name of Fox. In Leeds Miss Orange married a Mr. Peel. There is fear that an offspring of this happy union will hyphenate the two surnames. Another matrimonial case is quoted by a correspondent from the published "Tory of John Epps, M. P." On page 605 the doctor notes: "Feb. 17. This morning a patient consulted me named Ann Devil. Finding she was a single woman, I suggested that some day she might become Ann Angel, which made her smile, though she was in great pain." A note made later states, "The curious thing is that she did marry a Mr. Angel."

Wisdom often consists in keeping our thoughts to ourselves.

MRS. HUNTER'S STORY
Says She and Her Husband Agree Perfectly. Both Quite Well Again

Mrs. I. Hunter, of 111 Raglan Road, Kingston, Ont., has written for publication a statement of her case as follows:—

"I have suffered with kidney and liver trouble and chronic constipation for some time. I was subjected by doctors and druggists with little or no benefit."

"Finally, a friend advised me to try Dr. Leonard's Anti-Pill, and the results have been truly wonderful."

"My husband has used Anti-Pill for rheumatism and was benefited greatly. We agree that Anti-Pill is most wonderful medicine and heartily recommended it."

This is a very strong recommendation. Anti-Pill is undoubtedly the greatest of family remedies. All druggists, or the Wilson-Fyle Co., Limited, Niagara Falls, Ont.

SHOULD BE CORRECTED.

The London Free Press of Thursday contains a special despatch, dated from Chatham, relating to the bridge matter between the Electric Railway and the City, in which certain statements are made that would lead the reader to believe the Railway Company is holding the City up for concessions that are not due to them, and generally placing this Company in a very unfair light.

The article speaks of the Company "Antagonizing the City," "Holding it over the heads of the stockholders and people interested," "Threatening to quit construction work unless concessions are granted," "Merely bluffing," and "Playing the sympathy card."

The people here, however, are thoroughly versed in the true state of affairs. The Company and the City are at present working on a purely business proposition, and they will, no doubt, arrive at a decision which will be satisfactory to all parties concerned. The Company is anxious to bring capital here in order that the road may be completed to the lake. They cannot interest outside money concerns if the Council does not offer every encouragement to them for the immense amount of money they have already expended, as no shrewd capitalist will invest in a road which is not receiving support and good will from the city that is receiving the benefit.

Correspondents should be very careful to send accurate and fair reports, especially to a paper so widely read as the Free Press. The despatch in question was unfair to the Company, the City, and to the Free Press itself.

FISH AND GAME.

The decision formed at the meeting of sportsmen and fishermen held in Harrison Hall Wednesday afternoon, viz., to establish a branch of the Ontario Fish and Game Protective Association, in the city, should receive the warm approval of every right thinking resident. While the attendance was not discouraging, still it was a matter for regret that the business men of the city did not better show their approval of the scheme with their presence.

It was shown by Mr. Evans in his address that the Canadian waters are being rapidly depleted of their best fish, and it was also claimed by that gentleman that Canadians are not receiving the benefit they should from this important industry. It is indeed time for a general awakening, not only of sportsmen, but of citizens generally, to the wastage of this, one of the greatest assets in the Province.

The general policy of the association is pronounced to be, absolute divorce from politics and an invitation to all citizens to join. All branches shall be governed by the same by-laws, but each branch shall control its own finances and be kept in touch with others through a headquarters bureau. The primary aim of the association is to act as a voluntary auxiliary force to aid the constituted authorities in the prosecution of offences against the regulations set down in the game laws.

Some little friction was caused at the meeting by fishermen who were under the impression that the association would interfere with their work, against their interests. They claimed that they are doing now, what it is the aim of the association to establish. In this event they should be the first to join the association, as such a step would tend to advance their interests rather than work against them.

The formation of this association will be largely due to the efforts of such men as W. B. Wells and Caleb Wheeler, and others who have worked so earnestly and untiringly for a number of years to provide better game protection. The matter should be brought up again as soon as possible, for the sooner the work of organization is completed and the association is placed on a working basis the sooner the country will commence to reap the benefit.

A meeting of the West Kent Farmers' Institute will be held in the Union Hall, Raleigh, on Monday evening. Anson Groh, of Preston, a practical farmer, and Major Shepard, under orders from the Ontario Department of Agriculture, will deliver addresses, which will be of much interest and benefit to the farmers who attend. These gentlemen talk on live, practical subjects, and the discussions which will follow may be freely participated in by anyone seeking information.

FISHERY ENQUIRY CLOSED.

Special Commissioner Judd Will Present Report as Soon as Possible.
Toronto, Feb. 16.—With the close of the argument by Mr. I. F. Hellmuth, K. C., in the Fishery Branch investigation, the commission was brought to an end yesterday morning. Special Commissioner Judd stated that his report would be submitted to the Government as soon as possible. Owing to other court engagements, Mr. Hellmuth curtailed his argument, and Mr. DuVernet agreed to accept further arguments in writing. These and Mr. DuVernet's reply will be submitted to the Commissioner, who enjoined haste in the matter.

In concluding his argument Mr. Hellmuth had been satisfactorily met. Whatever charge there might be were the fault of the system inaugurated by Sir Oliver Mowat and not of the man, and were carried on with the knowledge, approval and practical direction of his chief.

May Have to Resign.
Ottawa, Feb. 16.—The condemnation of the engineering staff found in the report of P. Holgate, C. E., of Montreal, to the Minister of Railways upon the leaks in the lift locks at Peterboro and Kirkfield, point to a demand for the resignation of R. B. Bethune and Spence, inspectors at Kirkfield and Peterboro, respectively.

A Government Inquiry.
Ottawa, Feb. 16.—The Government have had before them, incidentally, the subject of life insurance, and it is said that during the coming session steps will be taken to procure from those in Canada who have given attention to the subject their views as to desirable amendments to the Insurance Act. Presumably this would be done by way of a Parliamentary committee, which would be appointed to take evidence and receive suggestions.

John Cleave, of Chatham, was drowned in the River Sydenham, seven miles above Wallacetonburg. His funeral, which took place in Chatham, was largely attended. He was a respected townsman.

An old lady was found lying on the pavement in King street unable to give an account of herself and in an exhausted condition. She afterwards proved to be Sarah Rourke, of Port Stanley, and her age was given by people who knew her to be 82. She was desirous of going to Dover to find a relative named Gomer, and the Charity committee will endeavor to discover who this person is.

An earthquake at Quebec causes much commotion, the shock being felt as far away as the west of Ontario.

An attempt was made by a clever thief to steal a horse and rig from Israel Evans' livery stable, but while driving the rig to DuPont's tavern down the river Evans' hired man came on the scene and frustrated the efforts of the wily scamp, who, however, escaped.

Kennedy Ughart generously made a present of ten dollars to the Chatham Fire Department as a slight testimony to the good work done by the brigade at the fire which destroyed some of his property.

The tide boom at the Chatham North saw mill broke away, allowing some six to nine hundred logs to drift away down the river, involving a heavy loss on the mill owner.

The annual spring show took place on the grounds of the County of Kent Agricultural Society on Tuesday, 20th April, in very bad weather, but in spite of the heavy downfalls of rain a great concourse of people were present. Twenty-seven

horses were entered in the competitions as follows:
Seven for the best for agricultural purposes.
Six for the best for road horses.
Eight for the best for general purposes.

The first prize winners in each class, respectively, being: Louis Williston, Gideon O. Scott and Wm. Gray.

The many sports of the fair were well patronized and richly enjoyed, while the numerous exhibits of things agricultural were most entertaining and instructive.

Chatham people take great interest in a movement to deepen and generally improve the mouth of the River Thames, with a view to facilitating shipping traffic between Chatham and Detroit.

R. Farrell opens a new leather store near the market.

J. McGlove, in the employ of the Detroit and Milwaukee Railway Co., was killed at Chatham by a freight train.

Many Chatham people attend a big volunteer review in Brantford.

Capt. Smith, of Chatham volunteers, receives an invitation from the Amherstburg regiment to attend, with his company, a battalion drill in that town.

The weather is most unfavorably, many of the farmers in the vicinity suffering great loss in consequence of the destruction of their garden crops and inability to proceed with their work.

The council of Chatham Township hold a very interesting and busy meeting at Shaw's Inn, Louisville, on the 27th of April. L. H. Johnson, Reeve, and Councillors Everitt, Houston, Mickle and Kinney being present. Many applications from farmers to cut ditches formed the chief business dealt with, the wet weather having flooded many places.

SELECTIONS

RUSSIAN TERRORISM.

The Russes to Which Trepoft Is Compelled to Resort.

I was chatting the other evening with a Parisian who had just returned from Russia and who told me that in western Europe we had as yet no real idea of the state of affairs there.

"Trepoft, for instance, who has the position once occupied by Plevna, knows that any moment he may be blown to pieces, as Plevna himself was, although he spent £20,000 a year to assure his personal safety. Do you know," my friend added, "how Trepoft goes out? A landau leaves the palace surrounded by a squad of Cossacks. A man is in it, but the man is not Trepoft. Trepoft drives in an ambulance wagon, with the red cross of Geneva floating from the driver's seat, and as he passes people cross themselves and murmur, 'Another one of Trepoft's victims.'"

"I went to interview Trepoft a few days before I left St. Petersburg," he added. "I had received a letter promising me an audience. At the palace I was passed on to a secretary, who took me through three empty salons to a small private office, where he left me. A few minutes later he returned and pointed to a telephone upon the table. 'His excellency is waiting for you,' he said quietly. 'Waiting? Yes, at the other end of the wire. He sees nobody.' But I am a personal friend of his excellency," I explained. 'And that is why you are allowed in the palace,' was the answer.

"And so I said goodbye by telephone to Andre Levont and he said the words 'Au revoir' across my lips as he passed from the driver's seat, and as he passed people cross themselves and murmur, 'Another one of Trepoft's victims.'"

Wordsworth's "Joke."
A rare old book, called "The Living Authors of England," published in 1849, commences with a study of Wordsworth, in which is recorded what is said to be the only joke the poet ever made. At a friend's house after dinner, it appears, the conversation turned upon wit and humor. Thomas Moore, who was present, told some anecdotes of Sheridan, whereupon Wordsworth observed that he did not consider himself a witty poet. "Indeed," he said, "I do not think I was ever witty but once in my life."

Being pressed to tell the company what this special drolery was, the poet said, with some hesitation: "Well, I will tell you. I was standing some time ago at the entrance of my cottage at Rydal Mount when a man accosted me with the question, 'May I, have you seen my wife pass by?' whereupon I answered, 'Why, my good friend, I didn't know till this moment that you had a wife!'"

The company stared and upon realizing that this was all there was to the poet's joke burst into a roar of laughter, which Wordsworth smilingly accepted as a genuine compliment to the brilliancy of his wit.

More Intoxicants are drunk between 6 o'clock p. m. Dec. 31 and 6 o'clock a. m. Jan. 1 than during any other twelve hours in the year, declares a writer in What to Eat. "Women who never taste liquor on any other day now often make it a practice to indulge freely on the event of watching the old year out and the new year in. The seats in the great restaurants in New York and Chicago are engaged two months in advance for the occasion, and on the night of the revel the orgies, in which women at other times recognized in church and high social circles participate, continue till daylight."

The scene in one restaurant is described as follows:
"Women rose to the floor and, brandishing their spilling glasses, proposed toasts to the house. Some made speeches. Men tied about their heads wreaths of winged glasses, knives and forks and loaves of bread all bound together by napkins, and rose to make speeches, and respectable women laughed at them as if it were a very funny sight to see."

Women have a knack of saying things which mean a great deal.

Men of character are the conscience of the society to which they belong.

Neither Indian nor Ceylon tea alone produces the Red Rose flavor

To produce a tea with the "rich fruity flavor" of Red Rose Tea from either Ceylon or Indian alone is impossible.

Neither Indian nor Ceylon in itself possesses the Red Rose flavor, but combined in proper proportions they produce the "rich fruity flavor" that has made Red Rose Tea famous—that makes Red Rose Tea the only tea used in any home where it is once tried.

Red Rose Tea is good Tea

CAUSES OF INSANITY.

60 Per Cent. of Inmates of Asylums Are of Farming Class—Interesting Paper by Dr. W. R. B. Smith.

The cause of insanity was the principal subject discussed one morning at the Normal School, on the resumption of the eighth Canadian Conference on Charities and Corrections. Dr. Helen MacKinnon, in an address on "The Care of the Feeble-minded," argued that feeble-minded women should be placed in special institutions, and that defective children should receive special attention.

Dr. W. R. Bruce Smith, Inspector of Hospitals and Prisons, read a paper entitled "Suggestions for Preventing the Increase of Insanity." In every refuge, rescue home and orphanage may be found, he said, "deplorable evidence of the necessity of some action being taken that will check the ever-increasing number of mental degenerates that are being brought into the world. There are hundreds of feeble-minded girls in this province that should be cared for in some institution specially set apart and conducted as an industrial refuge. Only last week in one of the smaller cities of Ontario I counted at least a dozen young women who could be classed only as high-grade imbeciles, and who had either just become, or were about to become, mothers. The probable destiny of their offspring need be little questioned. Then, when I looked about and saw the marks of degeneracy so evident in many of the other children, I could only wonder how long it will take to awaken public conscience to a proper comprehension of the importance of this great question."

The time had come, Dr. Bruce Smith contended, when as much attention should be given to the prevention of insanity as to the care and custody of its unfortunate victims. He also said that the province was too lax in regard to the admission of undesirable immigrants, and by the pernicious system of housing, immigration agents abroad mental and physical degenerates had been landed here and finally drifted into one of the great public charities.

"There is no doubt," Dr. Bruce Smith proceeded, "that 50 per cent. of the inmates of Canadian asylums are drawn from the farming community. This must be accounted for largely by the mode of living which obtains in many farm-houses. Socially they are isolated from the world, especially in the newer districts. Imperfect hygienic surroundings, the monotony of their daily lives, a dietary that seldom varies, often the entire absence of bathing facilities, and we might draw a picture that reveals a state of domestic life that no wonder often ends in despair. The human brain demands idleness, and we must teach the farming community that they owe it as a duty to themselves as well as to the nation to cultivate a higher ideal of home life."

There were books published which were not conducive to soundness, as well as purity, of mind. Dr. Bruce Smith gave the following conclusions:—(1) That if the conditions under which many cases of insanity originate were properly understood many attacks of the disease might be avoided; (2) that the public should be enlightened in regard to the nature of insanity, in order that they may properly estimate the influence of heredity, the most potent factor in the causation of the disease; (3) that care should be taken to provide a special refuge for feeble-minded women of the child-bearing age, in order that a deplorable condition now manifest in Ontario may be checked; (4) the prevention of insanity is not promoted by merely studying the phenomena of the disease; (5) that the study of child character and the careful consideration of the variability in the development of mental phenomena during the period of growth, in the child are all-important; (6) the burden must be adjusted to the capacity of the individual in order that it can always be carried with safety when this is possible, and when it is not possible that the line of descent and every such defect should terminate in the individual himself.

His Happiest Hour.
He—Do you remember the night I asked you to marry me? She—Yes, dear. He—For a whole hour we sat there and not a word did you speak. Ah, that was the happiest hour of my life.—Translated For Tales From Echo de Paris.

Pain Through Ignorance.
All our misery, all our pain, is traceable to ignorance and misuse of our forces. Enlightenment is the sovereign cure alike for physical and mental ills.

Learn to attend to your own business—a very important point.

Old age is a sprinter that overtakes us all.

Sensible.
That was both a kind and a wise man who, when about to marry for the second time, settled \$10,000 upon his unmarried daughter. "I should like to have her go on living at home," he said, "but who can tell whether she and her stepmother will be harmonious and quite happy together? She shall feel that she is free to go or stay." The consequence was mutually happy relations, since both women knew there was no dependence or necessity for them to live in closer relations than might prove agreeable.

The Wornout Nerves, The Weak Heart, The Tired Brain, The Wasted Strength.

What a multitude of women there are who feel that these words exactly suit their case. From early morn till late at night they have been on the go, year in and year out, attending to the daily household duties, looking after the wants of her children and spending the rest of her time attending to social and church work. In it any wonder then that sooner or later there comes a general collapse? The action of the heart becomes weak and palpitating, the nerves become unstrung, the brain feels in a whirl like the time and the usual force of vitality is lacking.

It is at this time a woman should look after herself. If she does not, serious female disorders may set in and often cause weary months and years of helplessness and miserable suffering. What she needs is something to build up her system. For this purpose there is nothing so equal

MILBURN'S HEART AND NERVE PILLS

They are the women's friend in every sense of the word.

They will strengthen the weak heart, tone up the shaky, starved nerves, make the brain clear, and restore the lost vitality.

Mrs. George Lohme, Stanley Section, N.S., writes: "I was greatly troubled with weak and dizzy spells and was so run down I could not attend to my household duties. I bought two boxes of Milburn's Heart and Nerve Pills and after taking them I found that my trouble had all passed away. I am now strong and healthy again."

Milburn's Heart and Nerve Pills are 50 cents per box or 3 for \$1.25. If your dealer does not hand them, send direct to The Milburn Co., Ltd., Toronto, Ont.

STARTLING BUT TRUE.
People the world over were horrified on learning of the burning of a Chicago theatre in which nearly six hundred people lost their lives, yet more than five times this number, or over 3,000 people, during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have wardied it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a very severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. Wilcox, Logan, New York. Sold by all druggists.

The Dominant Air.
As through an opera runs the rhythm of one dominant air, so through men's lives there rings a dominant note, soft in youth, strong in manhood and soft again in old age. But it is always there, and whether soft in the gentler periods or strong amid the noise of the perihelion, it dominates always and gives its tone to the whole life.

—It will pay you to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy in your home. It only costs a quarter. Sold by all druggists.

It is not what a man bears but what he believes that makes him wise or foolish.

Coughs, Colds, Hoarseness and other throat ailments are quickly relieved by Oresolene Tablets, ten cents per box. All druggists.

Women may be more constant than men, and they are more apt to talk about it.
