ALLIES PREPARE FOR FRESH ADVANCE Extremely Bitter Resistance is Being Encountered Along Chaumes-Noyon Front; Enemy is Bringing up Strong Reinforcements

By Courier Leased Wire. PARIS, Aug. 12.—Bulletin.—Nearly 40,000 prisoners and 700 guns have been taken by the Allies in Picardy, according to reliable information here. LONDON, Aug. 12.—Bulletin.—French troops have advanced nearer to the important point of Roye, from the southwest, by the capture of the villages of Armancourt and Tilloloy, according to the official statement from Field Marshal Haig today.

By Courier Leased Wire. PARIS, Aug. 12.—Bulletin.—There was no marked change in the fighting situation on the French front during the night, says the official statement from the war office today. The statement reads: Between the Avre and the Oise the situation is without change. During the night there was artillery fighting in the region of Marquilliers and Grivillers. Nothing is reported from the remainder of the front.

AUSTRIA IS HOPELESS OF VICTORY — ANNUNZIO Italian Poet Tells Some Home Truths in Flight Over Vienna—Emphasizes Effort of America.

ROADS ENCUMBERED LONDON, Aug. 12.—Reuter's correspondent on the French front, under date of Sunday, attributes the slower rate of progress on Saturday than on the first two days less to the resistance of the enemy than to the fact that the roads over which the Allies must advance are so encumbered with abandoned materials and trees which the enemy felled in great numbers across the roads, that the progress of the cavalry and infantry has been impeded.

TO MOVE EMBASSY. Amsterdam, Aug. 12.—Dr. Helfferich, the German ambassador to Russia has informed the Soviet Government that he will move the embassy from Moscow to Petrograd because of the personal safety of his staff, says an official telegram from Berlin. This action, it is added, was decided upon in consequence of the proclamation of the Social Revolutionists that they were about to begin a reign of terror Moscow. Petrograd was selected because conditions at Petrograd are almost as bad as at Moscow.

RESISTANCE STRENGTHENS London, Aug. 12.—The entry of the French Third Army under General Humbert into the battle on the line south of the original front of the Allied attack and the strengthening of the German resistance are regarded by the commentators in the morning newspapers as the two outstanding features of the Franco-British offensive during the week-end. The brief and rapid stroke of the French 3rd. army is recognized fully and important results are expected from it. The German reaction had been foreseen and the commentators at present see nothing in it to cause anxiety. Nevertheless a warning is issued against over-confidence and exaggerated anticipations. It is recalled that General Mangin on the Marne turned victory to defeat and that the British victory at Cambrai last November was converted into a grave reverse.

PEACE OFFENSIVE RENEWED IN MUNICH The Inter-Parliamentary groups of the belligerent countries that three representatives be appointed by a secret ballot from each belligerent for the purpose of exchanging views on peace proposals.

HUN PRESS CAN BE MUZZLED NO LONGER; ASKS POINTED QUESTION Caustic Comment on Situation is Passed by German Newspapers — Official Circles Seek to Conceal Truth From People—First Defeat of the War, Says Zeitung.

WEATHER BULLETIN Toronto, Aug. 12. Since Saturday showers or thunderstorms have occurred very locally in Ontario and Quebec and rain has fallen heavily in nearly all portions of the Western Provinces.

Invulnerable—Bank! Amsterdam, Aug. 12.—The Allies attacked the most invulnerable point on the German western front, says Captain von Salzmann in the Vossische Zeitung of Berlin, and therefore there is no question of the entire German position being menaced.

HUN PRESS CAN BE MUZZLED NO LONGER; ASKS POINTED QUESTION Caustic Comment on Situation is Passed by German Newspapers — Official Circles Seek to Conceal Truth From People—First Defeat of the War, Says Zeitung.

By The Associated Press. Mighty efforts are being made by the German high command to check the Allies' advance through Picardy toward Peronne, Roye and Noyon. On the northern end of the battle line, the British have not been able to progress rapidly during the past night, although London reports unofficially that the village of Bray has been entered.

SITUATION TO-DAY By The Associated Press. Mighty efforts are being made by the German high command to check the Allies' advance through Picardy toward Peronne, Roye and Noyon. On the northern end of the battle line, the British have not been able to progress rapidly during the past night, although London reports unofficially that the village of Bray has been entered.

NORFOLK NEWS

SAD ACCIDENT TO A CHILD

Farmers Have a Right to a Holiday if They Want One

The seven year old daughter of Earl Barber, of Boston, ran out in front of a Cadillac car and was run down by a foreman from Cook-shutt's plant, Brantford. The child had a hip and leg broken, and was hospitalized about the head. The accident occurred on Saturday evening.

Young Man in Trouble
Information was laid by Charles Crosby last night charging George Cafferty with common assault. It was alleged that Cafferty's youngest brother and one of Mr. Crosby's sons who have been chumming for some time, had a spat yesterday. The accused is said to have called rudely at the Crosby home at a late hour last night and to have used considerable abusive, profane and threatening language.
A warrant for his arrest was issued, and we understand he was arrested this morning.

Ill Advised Criticism
When one essays to call a thousand farmers to task for taking a half holiday to see the races, and in the same breath, as it were, allows another thousand urban citizens to pass unchallenged, he is taking ground which would appear very disadvantageous to called upon to justify his criticism. Any one of the farmers in question doubtless put in 50 many hours of work on the farm before and after the races. Last week, as the average townsmen averages throughout the year; and what is more, these same farmers had doubtless, very doubtless, been speeding up for several days before-hand. Whatever we may lay at the farmers' door, we can hardly convict him of working short hours.
He is not coming to work at 8 or 9 o'clock, and quitting anywhere from 4.30 to 5.30 or 7 o'clock. He is not taking a month or a week of holidays, in midsummer, or midwinter. Even his Sunday duties would tax the physical energies of some arm-chair critics or carpet knights.
He has surely a right to a half-holiday if he wants it.

WANTED Experienced dining room girl. Apply Battersby House, Simcoe.

Had these thousand farmers gathered on the day regularly, for a holiday. It is not possible to say that the Canadian force having secretly taken over that part of the Australian-line running south of the railway at Valenciennes, but they are each of several thousand yards in front of their objectives at fourteen thousand yards, and that on Saturday evening they had entered the rolling market of the Somme. Originally this drive covered a width of twenty miles in which the Canadian and Australian, still side by side, fought in the front line of the Australian "left" and English "right" was set at an exceedingly hard task between the Somme and the Aisne.

The criticism, if allowed to go unchallenged, is not calculated to foster a spirit of good will between the agricultural community and the urban population, the interdependence between which we have some days ago discussed in connection with the coming farmers' picnic, to be held here this week.

Win and the Individual
Mr. Isaac Howick of Culver street, who went West, on June 20th to take charge of a south Saskatchewan farm owned by his son, who has just gone overseas, reports crops very medium there. Another son who enlisted earlier, was killed a year ago, and this one has just passed East without an opportunity to drop off and say farewell to his mother, whom he has not seen for five years, nor had the latter an opportunity to see him en route, so strict is the censorship on the movements of troops.

Old Ends of News.
The funeral of Robert Silverthorn, an old resident of Round Plains, was held yesterday at Windham Centre.
Miss Maggie McKnight of Windham, a recent graduate from the Normal School, has been engaged to teach the Round Plains School.
Grand Marshal Robert Mead and W. O. Brady, representatives of No. 63 Encampment, are off to Toronto to attend I.O.O.F. Grand Encampment.

BELAND ROUSES ENTHUSIASM
The Courier-leased Wire.
Bellefleur, Que., Aug. 12.—Commenting on the magnificent spirit and heroic bearing of the 40,000 French-Canadian in the war, the Hon. Dr. Beland, formerly postmaster-general for Canada, spoke to the people of his native town, who yesterday turned out in thousands to welcome him, how proud they might be if they had sons or other relatives at the front fighting for the cause of righteousness, humanity and justice against barbarity. His direct plea to their sense of right and justice, stirred his great audience to an inspiring demonstration of sympathy for the speaker, and for the cause he urged. This demonstration was the most striking after Dr. Beland had shown how the war was forced on the Allies by Germany.

AUSTRIAN LINE IS TAKEN OVER BY CANADIANS

By J. B. F. Livesey, Canadian Press Correspondent.
With the Canadian Forces, Aug. 12.—It is now possible to say that the Canadian force having secretly taken over that part of the Australian-line running south of the railway at Valenciennes, but they are each of several thousand yards in front of their objectives at fourteen thousand yards, and that on Saturday evening they had entered the rolling market of the Somme. Originally this drive covered a width of twenty miles in which the Canadian and Australian, still side by side, fought in the front line of the Australian "left" and English "right" was set at an exceedingly hard task between the Somme and the Aisne.

Shock at the Front.
Men rarely die of shell shock but they have been dying at the rate of 20,000 a year in the English and French armies alone as a result of a far more deadly form of shock—traumatic shock. The latter is usually fatal when skilled assistance is not at hand. Dr. William T. Porter, of the Harvard Medical School, has been sent into the front-line trenches in France to study the line between the front and the rear. He found, usually following a serious fracture of a major bone like the hip bone of a single wound through the sub-cutaneous fat layer. By experimenting with injecting olive oil into the veins of a cat Dr. Porter developed symptoms identical with those appearing in cases of traumatic shock, confirming his belief that fatty globules are released into the veins by certain wounds and these gradually plug up the arteries and the arteries of the brain until circulation ceases. There began an interesting series of experiments in the front-line trenches which Dr. Porter tried the experiment of treating carbon-dioxide, so freshly wounded men to prevent shock. The pupils were dilated with his tests and crowded arm in respect to the symptoms of action. All of these details, together with many keen and humorous reactions of a trained observer in the front-line trenches, are given in Dr. Porter's recently published little book "Shock at the Front." In fact, one well known critic insists that the book is from being a mere medical treatise is rather "a glimpse of the war done in sharp strokes by a physician who has as pretty a technique with the pen as with the scalpel."
The Sing of the Hornet.
I once saw on the porch of my residence on Lake Hopatcong a mud hornet deliberately fall into a tangled herself in a spider web. Hudson Maxim writes. The spider, perching upon an outer corner of the web, instantly sprang at the hornet, then stopped and decided that it did not want to tackle that hornet, and returned to its perch.

Airman Killed.
By Courier-leased Wire
Camp Borden, Ont., Aug. 12.—Lieut. J. W. Munro, in training here as a pilot, was killed as the result of an airplane accident here on Saturday night. His next of kin is Mrs. A. Munro, of Pualineh, Ont.

Kate Smith, caterer, was drowned at Hamilton.

Clean to handle. Sold by all Druggists, Grocers and General Stores.

CAUSE OF TRENCH FEVER

Veterans of Past Wars Offer Their selves for British Experiment.
The splendid refusal to believe of a number of men too old to fight who volunteered to be infected with trench fever so that the origin and character of the disease could be investigated was described to a representative of the London Daily Mail by Major W. Byam, R.A.M.C., who is carrying out the experiments with trench fever, under the direction of Bruce's director, New End Military Hospital, Hampstead, N.W. Major Byam says it has been established that it is not the bite of the louse that sets up the disease, but its excreta scratched into the skin by the patient.

Graphite in War.
Graphite in various ways essential to the success of the military operations of the Allies. Large amounts are required for the manufacture of crutches, for ironing facings, for dry battery fillers and for a protective polish for explosives. Its most familiar uses, in lead pencils and stove polish consume comparatively little of the total output.
The crystalline graphite for making crutches, the experts say, should contain as high as 85 per cent. of graphite carbon and should be free from mica, pyrite and iron oxide, which are particularly harmful impurities. It should also preferably be sufficiently soft to be ground to one millimeter or more in diameter, and thus be more easily bound together by the clay with which it is to be made.
Most makes of crutches prefer to use the material of the British graphite with the American-made graphite. Domestic flake graphite may be used alone for making crutches, but as the domestic production cannot yet be increased sufficiently to supply the needs of the crutch manufacturers, graphite imported from Ceylon and Madagascar must still be used.
A part of the greater demand for crutches during the last two years has been due to the fact that crutches made with domestic flake graphite did not stand as many "heats" as those made from the Bavarian clay, so that a larger number were required to perform the same work, but the difficulty of obtaining satisfactory clay for use in crutches has been largely overcome and crutches now made with domestic flake graphite are thoroughly satisfactory.

The Sing of the Hornet.
I once saw on the porch of my residence on Lake Hopatcong a mud hornet deliberately fall into a tangled herself in a spider web. Hudson Maxim writes. The spider, perching upon an outer corner of the web, instantly sprang at the hornet, then stopped and decided that it did not want to tackle that hornet, and returned to its perch.

Noway's Concrete Ship.
Commercial vessels Norman L. Andromeda, of 1,200 tons, the largest 600-ton concrete ship from the Fougner yards at Moss, Norway. This ship has four water-tight compartments, one of 120 tons, built by the Bolinder motor, is placed aft. The boat has two large holds and two masts, each equipped with a two-ton motor which.

WAGE INCREASE.
By Courier-leased Wire.
New York, Aug. 12.—Announcement of a general increase of 10 per cent. in wages to all employees of the Western Union Telegraph Company, belonging to the association recently organized by the com-

pany was made here to-day. This increase retroactive from July 1, applies to about 45,000 workers. The advance is subject to approval by Postmaster-General Burleson, now in charge of telegraph and telephone lines under proclamation of the President.

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much difficulty. I suffered from much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for you."

—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.
Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

Are Your Eyes as Good as Your Memory?

It is easy to think back to the days of your youth, but only a few people can see as well as they could as children.

WEAR KRYPTOKS

If you need two pair of glasses in order to see at both the near and far points of vision, you should wear a pair of our invisible bi-focals. These wonderful glasses hide this fact so nicely that they take years off your age. They make you both look and feel younger.

Harvey Optical Co.

ITALIAN IS COMMITTED FOR TRIAL

Tony Wright, Arrested Here Was Wanted by the Galt Police

A dispatch from Galt says: "Dr. J. H. Raddford, M.O.H., and the local police are conducting an energetic campaign under the Venereal Diseases Act, and early this week a girl from Southampton was sentenced to six months in the Mercer reformatory, and this morning a French Canadian girl from Hull, who came here only four weeks ago, was given a like term. In connection with the conviction of the latter, Tony Wright, an Italian arrested in Brantford on Friday, was charged with procuring and he was committed for trial at the assizes."

ONLY SLIGHT CHANGES

London, Aug. 12.—Bulletin.—Only slight changes in the line of 3 whole are reported in dispatches reaching London this afternoon but a ding-dong battle is raging all up and down the northern section of the present battle line. American troops are in the suburbs of Bray today fighting a tremendous battle for the outskirts of the little city.

EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspepsia.

W. J. Bragg, Auctioneer, will offer for sale by public auction on Tuesday, August 13th, at 232 Chatham street, commencing at 1.30 p.m., the following goods: Four-piece parlor suite; 2 oak pedestals; green Brussels rug; 9 x 12; 1 pair arch. curtains; green armchair, 2 small rug; small stand; oak sideboard; 6 H. B. chairs; extension table, 4 leaves; oak secretary; drop leaf; rug; tapestry; 9 x 12; all curtains, blinds, pictures; glassware, dishes, knives, forks, etc.; gas range; couch; kitchen cabinet, with drop leaves; 14 yds. linoleum; washing machine; mowder; garden tools; pots, pans and all kitchen utensils; 7 yds. Brussels stair carpet; also the contents of 2 bedrooms, beds, dressers, commodes, springs, mattresses, toilet sets, carpets, etc.

Remember the date, Tuesday next, August 13th, at 232 Chatham street, corner of Rawdon, at 3.30 p.m. No reserve. All will be sold. Terms spot cash. These goods are almost new.

DEAD SEA MYTHS.

Many Long-Cherished Beliefs Have Been Disproved.

Dr. E. W. O. Masterson, addressing the Royal Geographical Society, asserted that there was an accumulation of indisputable facts showing that there had been a considerable rise in the level of the Dead Sea in the nineteenth century—a rise which had been accompanied—as he firmly believed—by a steadily increasing rainfall.

Travellers had reported a curious "white line" which was visible at times running north and south down the centre of the sea, and many speculations were made as to its cause, one divinity professor even suggesting that it might represent some existing rift in the bottom of the sea. This line, said the speaker, was due to an elevated mass of unconsolidated foam which, on account of the dense and oily character of the Dead Sea water, remained floating on the surface longer than an animal or vegetable would remain on the ocean. During the night it was blown steadily across the lake in a long irregular line.

There was also a peculiar disturbance of the water. An American traveller had reported that on three successive nights, when no wind was stirring, a heavy breaker came pounding upon the beach, followed by a succession of other waves for about an hour. Dr. Masterson reported a similar experience and attributed the wave disturbance to the rapid change of temperature which sets in shortly after sunset.

Ancient writers established a myth that the Dead Sea was an abode of death, that its shores were sterile, and that even birds flying over its waters were liable to fall from the sky. These ideas are now known to be the reverse of the truth. It was true that the waters were so permeated with salt that it was impossible for life could flourish in the bulk of its volume, but near the shores, where streams of brackish water found their way into the sea, small fish, crabs and mollusks were seen, and he had seen fish in the sea. A bottle of water taken from the same spot immediately afterwards was reported to contain no less than 33.3 per cent. of solid matter of the Jericho hotels, before the war, there was a declaration jointly signed the same year by over a dozen tourists that they had seen a man swimming at the same spot. At many spots along the shore there are oases in which acres of reeds and many trees flourish, and at such spots animal life was abundant.—*English Mechanic.*

Byner Bursts Bubble.

Walter Byner, a young American poet, has just confessed that he is the perpetrator of a literary hoax that has fooled the critics for over two years and that has banished into ignominy many of the heeded prophets of verse in America. As "Emmauel Morgan" he has been writing the maddest of mad ultra-modern poetry, which has been published in reputable magazines and in book form, and has received the highest praise from persons distinguished in literary circles. The new verse, however, was only intended as a satire on the Futurists, Vorticists, Cubists, Imagists and their company. Now that the cat is out of the bag, the illustrious followers of "Emmauel Morgan" are looking for a place to hide.

A little over two years ago, Byner and his friend "Anne Knish" (no other than Arthur Davidson Pickers) founded a new school which they called "Spectra." Most of the efforts were written in a couple of afternoons, and were published in book form by Kennerly under the title "Spectra." They won immediate success. As a reward, for they included such gems as this:

"Two cocktails round a smile
A grapefruit after grace,
Flowers in an aisle
Were your face.

A strap in a street car,
A sea-fan on the sand,
A beer on a bar
Were your hand."

Missed After All.

An Irishman was coming down one of the bridges of the Liverpool landing stage on his way to the Birkenhead boat. Over his shoulder hung a bag containing about a bushel of potatoes and in his hand he carried a stout stick.

Being under full sail, the moment the vessel was coming down the steep slope carried him nearly across the landing stage, when, seeing a boat about ten feet from it, he shook out another row, made an astonishing jump and jumped.

Just as he reached the deck the potato bag shifted heavily to port and laid out a clerk who was smoking a cigar through a mezzanine holder, while the stick hit a round merchant in the waistband, shutting him up like a knife, and Pat himself assumed an involuntary devotional attitude.

He was the first to recover his perpendicularity and, as he replaced the bag in its normal position, he complacently remarked:
"Be no wawl, that was a powerful jump, but I got the boat, boys!"

"Got the boat!" shrieked the clerk, spitting out pieces of amber. "Why, you confounded idiot, this boat is coming in!"
And so she was.

The Shocker's Load.

"De biggest load some folks has got for carry," observed Brother Williams, "is a grip full of excuses for getting out o' doin' de right thing at de right time. For instance, ef it's good cuttin' o' day, aint got no axe; an' ef dey get a ax, dey got no grindstone ter sharpen it; an' ef de grindstone's dar, de wells' gone dry an' dey's no water ter wet it!"

A Cultured Maid.

The following advertisement appears in the "Help Wanted" column of the Shamrock (England) Daily Telegraph recently: "Mistress will give maid lessons in two foreign languages, and master will instruct her in differential calculus and comic sections."

A Chatham lad was electrocuted when about to drive into the flames. A four-year-old boy was killed by an auto at Hamilton.

BUILDING ACTIVITY IN PARIS

Permits Issued During First Seven Months of Year Total \$27,048.00

OTHER NEWS OF PARIS

Paris, Aug. 12.—(From Our Own Correspondent).—The following building permits were issued in Paris from January 1st to August 9th by the Building Inspector, Mr. George W. Wheeler: Alabastine Co., Willow street, \$2,500; Pennman's Limited, Willow street, \$3,900; Geo. McFarlane, Jane street, \$300; J. M. Brown, Ball street, \$700; Wm. McLoughlin, River street, \$3,900; A. Lyle, America street, \$100; E. P. Rendle, William street, \$2,500; Pennman's Limited, Willow street, \$2,000; Donald Sinclair, River street, \$148; Alabastine Co., Willow street, \$4,200; total, \$27,048. Owing to scarcity of help in the market and high cost of building material the contract for several new houses has been withheld.

The following letter was received by the Paris branch of the Red Cross from Capt. W. K. Patterson in the 4th British advance, in Germany, prisoner with R. Mullender, also of town:

Group 4, 195 Fulton Street, The Hague, Holland.
To Mrs. Harold Galt,
I suppose you have already heard of my exchange from Germany to Holland. The change is indeed for the better, as there is nothing on this earth like man's freedom. I now take the opportunity of expressing my many thanks to you and your committee, and the many workers in connection with the Red Cross Society, for your kindness shown to me when in Germany, a prisoner. I received the food parcel monthly through the Canadian Red Cross. I am now longing for the time when I can return, for I am beginning to realize that I have done enough roaming on the European continent. I trust that the conference being held now regarding prisoners of war will make the necessary arrangements for our private soldiers, who are still in Germany.
I have not seen Trooper Robert Mullender since August, 1916, but hope he will soon be transferred to Germany. Again, thanking you for the kind favors shown in the past, I remain, yours respectfully,
Capt. W. K. Patterson,
4th C. M.F.

June 27th, 1918.
Late on Saturday night Ruthford was notified that a Ford car had been abandoned by some party on St. George street, near Paris Station. The license number received by the police so far of the car having been stolen.

Mr. Geo. Pitts and Miss Anne Pitts have left on a motor trip to Niagara.

On Friday a bad grass fire in Geo. E. Taylor's field and the railway bank spread to such dimensions that the wooden bridge crossing the G.T.R. near Guthrie's on the Galt road, was in grave danger. A call was sent to Paris Fire Brigade, who took out their auto truck and chemical engine, using the latter to good advantage.

MONDAY, AUG. 12, 1918.
THE SITUATION.
During four years Great Britain and her overseas Dominions have had to build up armies and equipments while also assisting in the task of helping to hold a powerful foe who entered the fray at top notch in both respects. That is the main reason why the Hun, despite French and Belgian valor, has for so long a period been able to hold his original seizures in Belgium and France and to maintain the initiative—attacking when he chose to do so and resting up until such time as he was ready for another assault. It is not too much to say that this day has now definitely passed. John Bull and his lusty sons have grown stronger each week and the United States is commencing also to become a factor with almost limitless possibilities in men and resources. There have been very anxious moments and periods when the disaster margin was very closely approached, but all that is over now. If the Hohenzollern-Hapsburg outfit could not bring their war machines in full working order they most decidedly cannot do so now, and through and above everything let the fact not be forgotten that the British navy has proved the corner stone of all that has and will be accomplished.

The German resistance is commencing to be "suffer than it was during the first onslaught, but still the Allies continue to make marked progress. The important enemy base, Montdidier, Chaulnes Junction and other notable strategic points have been added to the list of Allied captures, the total number of prisoners taken is now over 40,000 and guns over 700, while it is reported that Hun officers are finding it increasingly difficult to keep their retreating troops in hand. Men who were taught that they were invincible and then find themselves harried from point to point naturally become restive and difficult to hold effectively together. In fact, some military observers go so far as to say that the present tide may sweep the foe to his own frontier, but this, of course, is mere conjecture.

The Canadians, as usual, have covered themselves with glory. On the first day in which they entered the offensive they took 6,000 prisoners, captured every gun confronting them and advanced 14,000 yards. This is a record for any front. It is now announced that four thousand of the boys of the Maple Leaf will be mobilized as a special force to join other Allied forces in Siberia in aid of the Czech-Slovaks and it is eminently fitting that Canada should thus be represented. Without intervention the state of affairs in Russia might easily develop into a condition of menace with regard to the East, and this Dominion can most appropriately take part in any movement calculated to minimize and then remove that danger.

THE GAME OF BOWLS.
Lawn bowling has become one of the established institutions of Canada and it is safe to affirm that no other diversion affords more healthy or beneficial amusement for members of all classes and all ages. A healthy octogenarian can play it with as much zest as the youth of seventeen and both derive equal pleasure from the sport. It is a great leveler and has none of the exclusive elements associated with golf because that great game requires time, and means which ordinary individuals cannot afford. And, blessed thought, there is no hunting round for a lost ball or other strains on the bad language department. In addition bowling is the one open air pastime which can be followed at night, and with regard to which shortening days constitute no interference whatever. As to its ancient origin there cannot be any doubt for the Bible records that Balaam addressed himself to a Jack and Drake finished a game while the Spanish Armada was in the offing. There is scarcely in Ontario so small a place that a green cannot be found and for the Dominion tournament opening in Toronto this week no fewer than seven hundred players have entered. A good bowler is a good fellow, he learns to give and

take and there is no body checking to stir up otherwise amicable feelings, albeit he must possess a keen eye and good judgment if he is to give a successful account of himself with regard to the ever varying ends.

NOTES AND COMMENTS.
Mercury has always been known as the messenger of the Gods, but during these August days he tells of nothing but wilted collars and coatless males.

The German long range gun has been silent for two days. So have these other long range fighters, the Kaiser and his six sons.

The Toronto Globe still continues to harp upon Premier Borden's absence in the Old Land as if he was solely there on a pleasure jaunt. Just about as much so as the editor of the self-same Globe when he was away for some months in connection with war work.

It is estimated in the United States that the wheat yield this year will be 900,000,000 bushels, or 225,000,000 more than last year's. This will far more than offset the Canadian shrinkage, which is inevitable.

Dufferin avenue and some other paved streets might be up-sided and used for tennis were it not for the fact that the holes are so big that even elephants could get through.

German prisoners are stated to be very bitter in their comments with regard to the Crown Prince, whom they state to be incompetent and superseding the orders of qualified generals. Well isn't he a Hohenzollern and therefore one of the elect who can do no wrong?

Berlin papers are commencing to make the demand with regard to recent reverses that the people be told the truth. That would be a strange diet for their already weakened tummies.

Lenine is commencing to hunt for a safe spot. He has been the boss betrayer of his countrymen and should be finally rewarded with something slow and lingering.

Your Problems Solved.
BY REV. T. S. LINSOTT, D. D. (All rights reserved)
Dr. Linscott in this column will help you solve your heart problems, religious, marital, social, financial and every other anxious care that perplexes you. His personal answer is required, enclosed a five cent stamp. No names will be published; if you prefer, give your initials only, or use a pseudonym.

Bible Student—A Bible Student wants to know why God permits war. Doubtless for the same reason. He permits any other so-called evil. The problem of war is no more difficult than the problem of child-suffering, sickness, bereavement, sorrow and trouble generally. The ill of life originates from ignorance, disobedience to law and human selfishness, and make him nearly all life's sufferings and sorrows on themselves and learn life's lessons in this way.

Protestant—You write in a bitter spirit about Roman Catholics; even if what you say were true, would rather belong to that church than to yours if you are a sample of it. I have had considerable dealings with Roman Catholics and find them as reliable as any other class in the community. There have been abuses in the Roman church, but when the Protestant church has been in existence as long, and had the same political power, I fear it will not be free from similar faults. The Roman Catholic Church believe in our God, trusts in our Christ, and are expecting the same Heaven. No person can hate as you do and enter Heaven.

RED CROSS MATCHES.
"From all parts of Canada," writes Ralph Rayville, Editor of the "Canadian Golfer" comes word of the holding of Red Cross matches in Golf Links. One intensely interesting match has been arranged for Saturday, August 17th, over the beautiful seaside course at St. Andrews-by-the-sea, N. B. This will be participated in by the well known Montreal professionals, C. R. Murray and the Royal Montreal, twice open champion of Canada; his brother, Albert Murray, of Kanawak, Montreal, who also has two open championships to his credit. A Woodward of the County Club, Montreal, and the local pro, John Peacock, of St. Andrews.

There are a large number of prominent golfers from all parts of Canada and the United States, sojourning at St. Andrews and this match is provoking very great interest indeed.

Montrealers who wish to go down to St. Andrews to see the Exhibition Course played by these crack professionals will find excellent train service on the Canadian Pacific and opening in Toronto this week no fewer than seven hundred players have entered. A good bowler is a good fellow, he learns to give and

take and there is no body checking to stir up otherwise amicable feelings, albeit he must possess a keen eye and good judgment if he is to give a successful account of himself with regard to the ever varying ends.

NOTES AND COMMENTS.
Mercury has always been known as the messenger of the Gods, but during these August days he tells of nothing but wilted collars and coatless males.

The Toronto Globe still continues to harp upon Premier Borden's absence in the Old Land as if he was solely there on a pleasure jaunt. Just about as much so as the editor of the self-same Globe when he was away for some months in connection with war work.

It is estimated in the United States that the wheat yield this year will be 900,000,000 bushels, or 225,000,000 more than last year's. This will far more than offset the Canadian shrinkage, which is inevitable.

CANADIAN EXPEDITIONARY FORCE TO GO TO SIBERIA

Force of Four Thousand to be Raised by the Dominion to Accompany Allied Army of Intervention to Russia.

The following official statement was handed out to-night: Ottawa, Aug. 12.—"For some time past the situation in Russia has been under close consideration by the Allied governments, and decisions have been reached which will lead to the rendering of assistance to the Czech-Slovaks and Russians who are resisting the aggression of the Central powers.

Canada will take part in this movement, and following important communications from the Prime Minister, the Government has authorized the mobilization of a special force of about 4,000 for active service in Siberia, with a base at Vladivostok.

A further announcement will be made shortly. In connection with the decision to send a Canadian expeditionary force to Siberia it is related that the familiar with the situation in the portion of the Russian Empire which is being held by the Central powers is being continued, and with Canada's vital interest in what is going on in that part of the world, that should the designs of the Central powers be realized in Siberia, with its coast and important railway system, would fall under German control.

Canada's extensive Coast Line. Canada has an extensive Pacific coast line and a vital interest in the development of the Far East. It follows that she is deeply concerned in a movement which will settle the future government and economic conditions on so important a portion of the sea coast of the "ocean of the future."

"Siberia, in soil, climate and agricultural capabilities, is remarkably like the Prairie Provinces of Canada. It is densely populated at present, but is being rapidly colonized, and is destined before many years to become exceedingly productive. As it has a great railway system, which connects Western Europe with the Pacific Ocean, there is sure to develop an enormous trade, which will profoundly affect the commercial development of the Pacific.

If Germany gets control of this region and organizes its trade this future development, it is believed, will proceed on lines exceedingly hostile to this country. On the other hand, if Russia is helped to become a free country Canada can have a legitimate share in this future trade.

There also would be military danger to be apprehended from the establishment of a country under German control and organization upon the Pacific.

FRENCH CONTINUE ADVANCE

London Aug. 12.—The French are continuing their advance between the Aisne and the Oise, according to news received in London to-day and have captured the town of L'Esclapart, St. Aulien, three miles directly west of Roye.

The line on this front now runs from L'Esclapart, St. Aulien, southwest to Arras, and thence, three miles easterly direction through Guey, eleven miles southeast of Montdidier. It then curves more to the east and passes through the Montigny quarry to the Mill north of Amont, just north-west of Ribecourt, on the Oise.

The British have captured the western edge of the town of Bray on the Somme, the advance state.

PERSONAL

Rev. C. S. Oke is in Toronto for a few days on business. Mrs. A. McFarland started on a trip to Montreal this morning. Dr. Watson has returned from holidaying at Point-Au-Baril, Georgian Bay. Mr. Firth Buller left on Saturday for a week-end visit to his parents in Peterboro.

Mr. and Mrs. James Stace and family have returned from a most enjoyable summer outing at their cottage on Lake Belmore.

Mr. G. H. Williamson of the Y. M. C. A. has returned to his duties after a week's vacation.

Mr. E. F. Reed and family, Sherbrooke street, returned to Kitchener over Sunday.

Mrs. Chas. Thomson and family, 65 Palace street, have returned from Port Bruce on Lake Erie after a six weeks' vacation.

Mrs. Thelma Luck, late of Calgary, left on Thursday to reside in Denver, Colorado, after a few weeks' visit at the parental home, Superior street.

Mr. Ed. R. Armstrong, Supt. of the power of the Dupont Powder Co., Princes George, Florida, was a visitor at the parental home, also his brother, E. D. Armstrong, Smithville.

BRITISH STEAMER SUNK. By Courier Leased Wire. New York, Aug. 12.—The Associated Press carries the following despatch: Nantucket, Mass., Aug. 12.—Sinking of the British steamer Penitence by German submarine off Georges Bank was reported here to-day.

The Penitence, a vessel of about 4,000 tons gross, apparently was sunk by a German U-boat that destroyed also fishing schooners Saturday. First reports made no reference to the crew's safety and gave no details of the attack.

CASTORIA For Infants and Children In Use For Over 30 Years Always bears the Signature of Dr. J. C. Watson

Margaret Garrett's Husband

By JANE PHELPS CHAPTER CXXIX.

Meeting Daddy. How I fussed over my darling before I sent them to meet Bob! Donald was so excited he could scarcely stand still long enough to be dressed.

"I'm going to see my daddy, mummy! I'm going to make him tell me a story, and—"

"Perhaps daddy won't have time to tell you a story, little son, and you must not annoy him by teasing him. Just be mother's little man."

"All right, mummy, but I guess daddy will do what I want him to," he replied with all the faith of childhood.

"After I had sent them off, I walked the floor and cried my wish-fulness to the four walls. Would the pain never cease, the lust never grow less? I visualized Bob when he met his boys, both bigger than when he last saw them. Children of their ages grow so fast. I thought of them as lurching together in Bob's room, and of him perhaps telling George about it. It was a day of agony for me."

About five o'clock Elsie and Annie brought them home. "I'm going to have dinner with you to-night," Elsie said. "The boys are tired; let's get them to bed, and then we will have a nice long talk. You have suffered to-day, Margaret, your poor child. Your eyes show it."

"Now tell me," I said when an hour later Elsie and I were sitting quietly together in my room. "Bob looked well. He seems older some way. He had some gray hair at his temples. I don't remember that he was gray."

"He wasn't," I interrupted. "He asked after you. Seemed pleased when I told him you were well and keeping up your studies and your reading. You may be sure you suffered nothing in my hands. He was so happy to see the boys. I thought he never would stop fondling them. And Donald—you should have seen him. He surely loves Bob."

"Yes, Elsie, and it sometimes seems to me that we, neither Bob nor I, had the right to deprive the boys of a father. It frightens me when I think of them as great big boys with only a woman to direct and manage them. Donald is a handful already, bless his little heart. He is so loving; yet he is so stubborn and willful. I hope I shall be able to do what is right and best for them."

"You will, dear." "Did Bob say anything about—her?" I asked. "No, not a word."

"Did he say how long he was to be in New York?" "Yes, he said he was going to leave to-night."

"Back to her, I suppose. How he must love her to hurry back like that!" "I wish you would try taking him south for the cold weather," the doctor said. "It would do him good, and it wouldn't harm you. You are not looking well yourself."

I would do anything to save my boy pain. So the very next day Della, the children and I started for Florida. (To be continued to-morrow.)

IMPROVEMENTS REFUSED

By Courier Leased Wire. Ottawa, Aug. 12.—The Railway Board, in a judgment issued to-day, refuses the application of the Brotherhood of Locomotive Engineers for an order directing the railways to equip all push and transfer engines with wedge tanks, low enough for engineers to see over and with headlights on the rear. The Board finds that the present time when the resources of railway companies are being taxed to the utmost by war necessities and material and labor are so difficult to obtain, it is unwise to place "any such burden upon the railway companies" apart from the question of expense, the Board declares that a case for the order asked for has not been made out.

DOMINION TOURNEY

By Courier Leased Wire. Toronto, Aug. 12.—Over 700 bowlers, including 300 from out of town points, are here for the Dominion tournament, which opens this afternoon. The stakes entered number 124 all, and the tourney will last practically all week. The British trophy competition for champion sinks will also be played.

WANTED WA. The Courier unusually large terms as a... BIG POTATO Extreme sat... ELIM AVE. PI Under the sh... ARVIS-O CONSTRUCTION

Local News

CARDS FOUND.

A number of registration cards found on the streets and elsewhere recently, have been handed in at the police station, and are waiting their owners there. It is not safe to be without one, these days.

WANTED WAR NEWS

The Courier bulletin boards drew unusually large crowds morning, afternoon and evening yesterday, despite the heat, and the telephones in the office were ringing almost continually the entire day, citizens inquiring as to the news from the western battle front.

COAL FOR FACTORIES.

Factories in Brantford receive their coal this year on the same principle as the factories in the States. All the factories are classified as essential, non-essential and partially essential and receive coal according to their necessity to the carrying on of the war.

WATER IN DEMAND.

There has been a large amount of water pumped during the last few hot days. Up till about 5 p.m. the water pumped is at the rate of about three million gallons; after 5 the pumps are taxed to the fullest extent, being called upon to pump between eight and nine million gallons.

BIG POTATO CROP.

Extreme satisfaction with the potato crop on the civic farm at Harley was expressed by Mayor MacBride this morning after a visit which he made with Mrs. MacBride and Ald. and Mrs. Clement, paid to the farm yesterday. Eighteen acres have been sowed in potatoes, and a yield of 2000 bags is expected. These will be sold on the market early in the fall. Mayor MacBride was high in his praise of Mr. and Mrs. Heaps for their work on the farm. "The crop," he stated, "is one of the finest in Canada." Preparations are now under way to cut the wood of the farm, which is expected to yield 2000 cords. The farm is expected to return the city between \$15,000 and \$20,000.

ELM AVE. PICNIC.

Under the shade trees of Mohawk Park on Saturday last, the members of Elm Ave. Methodist Sunday school held their annual picnic. After a pleasant time of walking, talking and friendly intercourse, a well organized programme of sports was the order of the day, both children and grown-ups eagerly contested each item, causing much fun and excitement. Although quite a number of the members were away on holiday, over 150 sat down to a well served and satisfying supper. The children enjoyed their time in a circle on the grass, while the adults did justice to their plates. Prizes were distributed to the winners, and as night began to appear, all wended their way home tired and satisfied, yet in perfect agreement that it was the best ever.

PAVING WEST ST.

Satisfactory progress is being made with the paving of West St. between Albion and Pearl, opposite the Bell Memorial. A cement sidewalk is being laid along the side of Grace Church, and the work, which was started less than a week ago, is nearing completion.

DOING FAVORABLY

Mrs. Dempster, 52 William street, has received word from the ministry in England, that her son, Flight Lieutenant Duncan E. Dempster is suffering from a compound fracture of the left side, but is making favorable progress. Lt. Dempster was reported seriously injured on Tuesday of last week.

WATER FOR TILL.

This summer the water pumped to Terrace Hill has been pumped through a separate line and good service has been the result. With the completion of the new pumping station on Albion street all these difficulties will be at an end. The new station is being held back at present by the disability to secure transportation for the necessary parts.

MANY LETTERS

The Courier thanks all those who have written letters in connection with the improving of Mohawk Park, and is gratified at receiving such hearty assurances of support. It is to be regretted that space will not permit of the publication of all letters received, but an effort will be made to select those most representative of the different attitudes of mind. All letters will be thankfully received, however.

STORM LAST NIGHT.

Rain, rain! Beautiful, cool, wet, refreshing rain, and lots of it, fell in the city last night, from ten o'clock until on in the early hours of the morning, attended by a peculiar electric storm which did comparatively little damage. A barn on Alfred street fell a victim to the elements. The heavy shower did a world of good to crops of every kind throughout the county and district, but appears to have had little permanent effect on the hot weather.

MAY BE DISCHARGED.

If young men who are in the army can give conclusive proof that they were not twenty years of age on October 13, when the proclamation calling on them was issued, they will be discharged from the C. E. F. The ruling, which has just been issued at headquarters in Ottawa, does not let any man out of khaki unless he is under twenty, and the reason for the order appears to have been the number of young men who have given their ages as older than they really were, and are now repenting of it.

SOCCER TEAM BEATEN

Brantford United footballers went down to defeat, 3-1, at the hands of the unbeaten Toronto Scottish on Dunlop Field, Toronto, on Saturday afternoon. Dispatches from the Queen City indicate that the locals were completely outclassed. "Beaten with ridiculous ease," says one advice. "Brantford was no match for the Scots, who scored as they pleased, and could have doubled the final score." The Scots, however, are the strongest team in the provincial league, and there is no disgrace to the locals in having gone under at the hands of such a worthy opponent.

PASSED AWAY.

Word was received in the city to-day of the death in Boston, Mass., of W. F. Finlayson, the only surviving son of Mrs. Wm. Finlayson, 45 Sheridan street. Deceased was born here, but went to the States many

years ago. However, he had been a frequent visitor to Brantford and had many friends here. He leaves a wife and one daughter Marjorie, to whom he was very attached, and also a sister, Mrs. E. Alton, residing in Brantford with her mother. He was a very fine type of man and a devoted son and brother.

ATHLETIC MEET

A girls' team target throw, and a bicycle race in which Miss Sisson will stand against the boys are the principal features of the last athletic twilight meet which is to be held Wednesday night at the Agricultural Park. Besides this there is an excellent variety of events for the youth of Brantford to distinguish itself.

SOME TOMATOES.

Mr. P. F. Simmons, 114 Clarence street, has had in his garden a group of prize tomatoes in his garden. Ten of the vegetables fill a basket, and weigh nearly eleven pounds. The largest one weighs one pound, nine ounces.

MISTAKEN IDENTITY.

Mayor MacBride stated this morning that a case of mistaken identity had prevailed with regard to the firey burned on the Market Square Saturday night. The firey returned to the market and general account of the firey was given from the Crown Prince for every big celebration. Ald. John Burrows was the creator of the effigy.

LOCAL MAN BIGAMIST?

Returned Soldier Arrested at Brockville, Says Home is Here

No record can be found locally of any returned soldier named Ernest Jewett, who is referred to in the following dispatch from Brockville: "The body of Stella Victoria Morgan, who committed suicide by drowning after her marriage to Ernest J. Jewett, returned soldier, was found floating in the St. Lawrence river yesterday, and was handed over to the authorities for an inquest. The cause of the suicide, according to a note left by the young woman, was due to the dead woman learning that Jewett had another wife and child living in England. He is now awaiting sentence on a charge of bigamy, to which he pleaded guilty. Jewett hails from Brantford, Ont."

ROUNDED UP CHINAMEN

Ten Celestials Arrested by the Police on Gambling Charge Last Night

MANY MADE ESCAPE

A Chinaman's home has more exits than you. Hindenburg has lives, or Russia has revolutions. Detective Schuler, Seng, Donnelly and Constable Tyrell, of the police department found last night, when they visited a Chinese grocery at 40 Dalhousie street, ten men on the ground floor, and one in the basement. Cards, dominoes, dice, counters, and other paraphernalia of the goddess of chance strewed the floor, and there was a general exodus of Celestials from every part of the building. The fugitives appeared to discover doors where doors had never existed before, and fled into the highways and byways. Ten of their number, however, were taken into custody to wit: Lee Payne, Lee Cong, Lee Kwang, Lee Nee, Lee Wing, Ning Ling, Jap Yoo, George Sue, Hui Bing, Wong Yoo.

They were allowed out on bail, and will appear in court tomorrow.

SOCIALIST CASES AGAIN IN COURT

Charges Against Russians Will be Disposed of This Afternoon

Charges against Artim Kusmitich, Harry Moroz, John Grusczki, Alex. Barro, Paul Moroz, P. Harrington and Felix Consequich, of having in their possession objectionable literature and publications prohibited by order of Council, were given another hearing in the police court this morning, and Mayor MacBride gave assurance that a decision would be rendered at four o'clock this afternoon. The evidence submitted took the form of translations of the documents seized.

Mr. J. G. Donohue of Toronto, in summing up for the defence, submitted that the majority of the literature seized was not of a forbidden nature, and that there had been no evidence to prove to whom the prohibited publications belonged. He also challenged the veracity of the official interpreter, an Austrian. On the day on which he interpreted this case for us," pointed out Mr. Donohue, "his people were chortling over the sinking of a hospital ship. They have proven their duplicity too often for us to place any reliance upon his word. He submitted that the Social Revolutionary party, to which the defendants belonged, was a party which supported the Allied cause in Russia to-day.

Mr. McEwen, for the Crown, pointed out that one of the papers seized was published by the National Workers of the World. "Some branches and aims of the I. W. W. are quite legitimate," insisted Mr. Donohue.

REV. DR. SILCOX SPOKE IN CITY

Editor of Canadian Congregationalist Occupied a Local Pulpit

"Do one thing and do that thing better than anyone else" formed the basis for a very interesting sermon preached by the Rev. Dr. Silcox, editor of the Canadian Congregationalist at the Congregational Church last evening. "The great thing in life" is to pay no attention to anybody's affairs but your own. When you start to do a thing put your whole energy into your work, and do not allow yourself to be bothered after other people's business. The only way to succeed is to put all the force that you can muster into what you are doing, that is what all the great men of history did. Edison studied electricity in the fullest sense of the word and became the greatest electrical inventor of the world.

In this way make your religion your business and see that you exercise to the fullest extent of your ability to look after it and nobody else. Some people refrain from entering the church because there are people in it that are not exactly what they ought to be. One must remember that out of twelve disciples of Jesus only one ever proved unfaithful. Did you ever see a field of grain that had no weeds in it or an orchard from which came no wormy apples? If a man sows twelve fields of grain and from eleven a good crop was yielded would he call himself a failure as an agriculturist? If 92 per cent of a man's investment were successful would he be a failure as a financier. The answer to all of these questions is emphatically "no." Why then should a person say because a few people in the church were bad that the church was not good enough for

BARN STRUCK BY LIGHTNING

Building on Alfred Street Destroyed During the Storm Last Night

Lightning caused a fire during the heavy thunderstorm last night that practically destroyed a bank barn on Alfred street, belonging to Mr. Andrew Quinlan. The barn was well stocked with straw and hay and when the firemen arrived the upper part was a mass of flames. They succeeded in getting all the horses out and in saving most of the harness and vehicles. The reflection could be plainly seen all over the city and many rumors of the skating rink being burned were quickly circulated. The whole upper part of the barn is a total wreck, the loss being about \$600.

OBITUARY

ARTHUR BROOKS The death occurred Saturday afternoon of Arthur George Brooks aged thirty-one. The deceased leaves a wife and one child, and one brother in Hamilton. He had been employed at the Massey-Harris Co. up to the time of his illness. The funeral will take place to-morrow afternoon from his late residence, 172 Eagle Ave., to Mt. Hope cemetery.

B.L.H.L. MEET.

A general meeting of the Industrial Recreation League will be held at the Y.M.C.A. to-night.

What have you got to sell?

Useful things—which you no longer use— have a greater money-value nowadays than ever before.

Furniture and furnishings of the home, side-tracked for newer things; office furniture and fixtures, replaced and no more in actual use; wearables; books, pictures, musical instruments, art objects; used automobiles, still serviceable — these and many other things have a cash value which you may readily realize through advertising in... —For Sale—through the classified.

It is not defensible to hoard food or fuel in these war times, neither is it patriotic to store away or to relegate to the junk heap used-but-useful articles which may be urgently needed by many people who would find it hard to purchase them at first hand. Don't permit any useful article you own to be a slacker. If you cannot use it, sell it to somebody who can—and invest the money you realize from its sale in war bonds.

Courier Want Ads. Give Good Results. Telephone 139.

MAKE MOHAWK PARK PAY

Move Launched by The Courier on Saturday Receives Hearty Support of all Classes

Once more, The Courier has started something, set on foot a move which is destined to be espoused by citizens of every class and in all parts of the city. The slogan of Making Mohawk Park Pay, inaugurated by this paper on Saturday, is already taking hold everywhere, finding support in every quarter. The demand for a renovated Mohawk Park is spreading. Citizens who have long felt within themselves that just such a course of action was necessary, have been encouraged by The Courier's attitude to make public their sentiments, and as a result since Saturday night, The Courier has been almost deluged with letters, expressing the heartiest approval of its article on Mohawk Park in Saturday's issue. Space forbids the publication of all such letters, but many points of view are represented, and a few are reproduced here. All who have written are heartily in line with any definite move to provide a better street car service to and from the park, and to place it on its feet in the matter of accommodation. All others in sympathy with the movement, and there are few who are not, are invited to send in letters, which will receive publication as soon as possible. The issue is one which is up to every citizen of Brantford to do his or her bit toward Making Mohawk Park Pay.

A MOTHER'S VIEW To the Editor of The Courier: Dear Sir,—I want first to tell you how pleased I was to see in your Saturday issue a demand for better playground and park facilities. I am the mother of five lively children, and living in the city, I find it hard to keep them off the street. If there was a square or a park at Mohawk, I would be so glad to have them take a lunch and go there often. But because of the steep, unguarded bank overlooking the little lake, and the danger of accident, I try to keep them in the yard. I live near Recreation Park, and as a playground it is not too bad, but of course, you know, there is absolutely nothing there to amuse a child, and worse than all, not a spot of shade. I am hoping that through your effort, Mohawk Park may be improved.

A MOTHER OF FIVE. TIME FOR ACTION To the Editor of The Courier: Dear Sir—Allow me to express my appreciation of the demand voiced in the columns of your paper on Saturday for the modernizing of Mohawk Park. For years Brantford has lagged far behind other cities of the same or smaller population, in eastward in the direction of Peronne and Ham. On the southern end of the front, the Germans have been unable so far to be more than slow down the progress of the French. In this sector an important advance is reported in the fact that the French have reached Antoval on the crest of the hills west of Ribecourt. In the German drive early in June, the fall of Antoval proved fatal to the French hopes to hold the valley of the Oise, as well as the Forest of Carlepoint, on the east bank. If Antoval is firmly held by the French, the German line along the Oise, it seems, is in danger and if the French continue to gain the enemy's retirement from territory held along the eastern bank of the river may be forced.

Reports Wednesday appear to indicate that the line where the present heavy fighting is going on is not one upon which the Germans have decided to stand definitely on the defensive. On the contrary the present fight appears to have reached the stage presented three weeks ago, when the Germans made a stand along the Ourcq river, and the Heights of Fere-en-Tardenois. This stand, it developed, was for the purpose of permitting the enemy to get his artillery out of danger and remove stores from threatened region, so far as possible.

The coming day or two will probably be marked by savage fighting, especially on the south, where the continued progress of the French would weaken the whole German position, if it does not turn the flank of the Noyon-Nesle line, which it appears may be the first defensive front upon which the enemy may elect to stand. The front as it stands today runs in a generally straight line from the Somme southward to Lille, where it begins to curve eastward until it reaches the Oise. The high ground on the north is proving difficult of capture by the Allies, while to the south heavy forces of German reserves are reported coming in to the fight.

HANGED HIMSELF IN BARN

Chas. Marlow, Paris Hill Ave., Committed Suicide Saturday Night WAS IN POOR HEALTH

Despondent over his ill-health, Charles Marlow, aged twenty-eight years, hanged himself Saturday night in the barn adjoining his home on Paris Hill Avenue, Terrace Hill survey. When he was found, life was extinct. He leaves a widow and four small children. Marlow, who was employed by Turbault and Cutcliffe, had been in poor health for some time, but had been at work until noon Saturday. The afternoon he spent in painting his house. During supper, he was noticed to be acting strangely, as though distracted by something. In the evening, his wife and children went for a walk, and on their return found him hanging from a cross-beam in the barn. He had stood on a chair while fastening the rope about his neck, and later kicked the chair away.

The cries of the children summoned neighbors to the scene and an alarm was turned in to the fire department. The pulmotor was hurried to the scene by a party consisting of Chief Lewis, Capt. Kingswell, Detective Schuler, Dr. Stinson and others, but life was extinct in the body. Coroner Dr. Helks was later summoned and decided an inquest unnecessary. The body was removed to the undertaking establishment of Reid and Brown.

VERITY'S AND MALLEABLES WON SATURDAY

Plowmakers Defeated the Cordage by Score of 9-5.

FIELDING WAS POOR

Malleable Team Had Walk-away in Game With Motor Trucks

Pratt and Letchworth's made a bid for the leadership of the city league when they defeated the Motor Trucks 15-5, but Verity's were on the alert and retained the coveted position at the top of the ladder by beating the Cordage 9-5, with the result that the league standing remains unaltered. Jamieson, the Cordage's ace twirler, held the plowmakers fairly well in hand, but got poor support from his team mates, a couple of bad innings spelling disaster. Verity's bunched their hits in the second and third frames and did all their scoring then. Watt, on the contrary, although he was hit fairly readily by the Cordage, was successful in keeping their bingles scattered and received better support. Pratt and Letchworth found Lynn, of the Motor Trucks, easy picking, and did everything but take him apart to see what made him tick. The sixth inning was the only one in which they forgot to score, but they made up for it by adding three tallies in the 7th. Lynn was taken out to be succeeded by Young, and the latter by Whittaker, all to no avail. The scores:—

Summary—Double plays, Crandall to Davidson; Summerhayes to Price; Three base hit, Sears; Two base hit, McAuley. Bases on balls, off Watt, 2; off Jamieson 4. Struck out by Watt 5, by Jamieson 4. Stolen bases, Crandall, Davidson, Croley, Price 2.

Lemon Juice For Freckles

Girl! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

McKinnon, Hurley 2. Left on bases, Cordage 6, Verity's 5.

"ATHLETIC GOODS."

That Son-in-Law of Pa's

(By Wellington.)

It is Certainly a Great Outing for the Twins.

GIANT GERMAN DREADNAUGHT BROUGHT DOWN. The Giant Airplane, Germany's Biggest Bombing Machine, known as the Lismar model, was brought down recently in the neighborhood of Retz, southeast of Soissons. It carried nine men, including the pilot officer commanding, three observers and machine guns, two specialist engineers, a second pilot in charge of the engines, and two assistant engineers. It also carried two tons of bombs and four machine guns, and attained a speed of 75 to 80 miles an hour. The important parts and dimensions of the huge machine are indicated in this diagram.

LOSS OF APETITE is commonly gradual; one day after another it sets aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.

HAMILTON THROUGH WITH NEW LEAGUE

Will Not Consent to Toronto's Proposal to Shift Games

Hamilton, Aug. 10. — As far as Hamilton is concerned, the New International League can go to Toronto-40, Amsterdam, Jerusalem or Geneva.

This city is "out" of the organization absolutely, and if an effort is made to bring P. Donovan's hirings back here for a series with Buffalo at the tail-end of next week the ball-players will think they are holding a secret practice. There will not be enough fans in the ball yard to start a row.

The determined attitude being taken by this city against the league is due to the fact that the Toronto Hamilton series scheduled for Hamilton next Tuesday, Wednesday and Thursday is going to be shifted to Toronto, as feared. President Jay Jay McCaffery, of the Toronto club, was in the city yesterday talking over the situation, and he refused to change his decision to have the games played in Toronto. He said that the series was transferred, no matter how Hamilton felt about it.

Hamilton is going to stand for such treatment. Certainly not, if there will be any earthly use in bringing the ex-Spruce team back here for their other games. The fans will not turn out. And why should they? They are being deprived of seeing the best series of the year, and are asked to turn out to see the second-division clubs merely for the sake of helping to keep the league alive, under circumstances of an insult to the city.

It looks very much as if the league is being run for the benefit of "Trans-Canada." Every time he can work it he shifts games to Toronto. Why shouldn't the Leafs win the pennant under these conditions. But he certainly will not get away with his latest move. He may have the games played at Toronto Island all right, but it will mean the Hamilton will close its gates to the International League for the remainder of the season.

It's nothing short of a change in his mind the team that is masquerading under the name of Hamilton will get no support either from the local press or fans.

Her Misfortune

Mr. Caboodle was always exceedingly courteous to the fair sex. One day when he was driving his car, a politeness he remarked that he had never seen an ugly woman.

A woman standing near, who happened to have a flat nose, overheard him and, confronting him said: "Sir, look at me and confess that I am ugly!"

"Madame," replied Caboodle, "like the rest of your sex, you are an angel fallen from the skies, but it was your fault that you happened to alight on your nose."

Worse Than Warfare

Black—I see in addition to a black eye that Tinker has two front teeth broken.

White—Yes, someone made him eat his words!

MATRICULATION EXAM RESULTS

List of Brant County Pupils Who Obtained Honors

The results of the examination for honor junior matriculation are given below. The standing obtained in each subject is indicated after a candidate's name—I., indicating first-class honors; II., second-class honors, and III., third-class honors, respectively.

The statement of standing of all candidates will be mailed in the course of a few days to the principals or inspectors. In the case of those who wrote at the University of Toronto, their statements will be sent to the Registrar of that institution. Candidates should apply to these parties for further information.

Brant and Haldimand.

WAS GOING DOWN HILL FASTER, HE SAYS

Newton Was Just About 'All In'—Like New Man After Taking Tanlac

"Talking about things that help people, this Tanlac has done me more good than anything else I ever got hold of," said Matthew Newton recently. Mr. Newton lives at 2432 St. Clair avenue, Toronto, and is employed in the yards of the Canadian Pacific Railroad. "I bought Tanlac," he continued, "because I needed something to get me out of that awful run-down condition, which I had been in for six or seven months. I had been on the night shift now for some time, and for the past three months, especially, I haven't felt at all like myself. My appetite was bad, my strength was away down and I felt tired and draggy all the time. I would come home in the morning exhausted and 'all in,' and what little sleep I got seemed to do me no good. I actually dreaded to start out to work at night because I felt to worn out and no account, and I seemed to be losing ground every day."

"Tanlac has acted different from any other medicine I have ever tried. It has built me up in every way. My appetite is much better and I can eat what I want and thoroughly enjoy it. That drowsy, mean feeling my work has been better and I can like a different man. I was in pretty bad shape and Tanlac has straightened me out to where I am now feeling fine. Tanlac has been such a fine thing for me, and I can enthusiastically recommend it to anyone." There are thousands of people who complain of being nervous and run down. They are not sick exactly, but feel tired out and good for nothing most of the time. They need something to build them up and throw off the symptoms of this weakened, debilitated condition. The system, besides being purified by Tanlac, is toned up and invigorated, as the medicine, aside from assisting the blood, reinvigorates the constitution, overcoming as it seems to quickly do, nervousness, indigestion, non-assimilation of the food, headache, backache, kidney derangements, general debility and many other ailments that are so common to the thousands of half-sick, depressed men and women.

POSTPONE STRIKE.

Ottawa, Aug. 12.—Members of the Street Railway Men's Union at a meeting early this morning decided to postpone their proposed strike 24 hours. They were to have walked out at 5 a.m. to-day.

HELP NEEDED FOR WESTERN HARVEST

When travelling to Western harvest field—go by Canadian Northern Railway and give loyal support to the People's Life. Purchase through tickets and ask for routing via Grand Trunk to Toronto, thence Canadian Northern. Information of value to harvest hands is given in a leaflet entitled "Harvesters' Work and Wages," to be had from any C. N. agent.

RHEUMATISM GOES IF HOOD'S IS USED

The genuine old reliable Hood's Sarsaparilla corrects the acid condition of the blood and builds up the whole system. It drives out rheumatism because it cleanses the blood thoroughly. It has been successfully used for forty years. For rheumatism, stomach and kidney troubles, general debility and all ills arising from impure blood, Hood's has no equal. Get it from your nearest druggist today.

Canadian Masons In England

H. S. Carmichael, Passenger and Freight Manager of the Canadian Pacific Ocean Service, was installed W. M. of the Canada Lodge at the installation banquet held recently in London, England, attended by the Rt. Hon. Sir Edward Clarke, Sir Gilbert Barker, General J. G. Ross and many other Canadians and English representative men interested in Canada.

The Canada Lodge No. 2527 on the Register of the United Grand Lodge of England was founded in 1911, in order to provide a Masonic centre for Canadians resident in Great Britain and Brethren from the Dominion visiting the Old Country. The object of the founders was also to form a bond of union between the Brethren of the Dominion and the Brethren of the United Kingdom in the strong hope and confidence that Freemasonry might so even still further assist in the great work of forming these bonds of "indissoluble attachment" which shall forever unite the component parts of the British Empire. The Lodge has now 252 members,

many of whom are Dominion members resident in all parts of Canada. No fewer than 150 are initiates of the Lodge, 205 members of the Lodge are on active service in H. M. Forces.

Mr. Hugh Strain Carmichael, the newly-elected W. M. of Canada Lodge, is a native of Glasgow. He has been connected with the Transatlantic steamship trade since 1888, when he joined the staff of the State Line, which in 1891 was taken over by the Allan Line. In 1896 he commenced his long connection with the Canadian Pacific Company at Glasgow, transferring to its Liverpool office in 1903, when the company established its transatlantic passenger service. In 1908 he was promoted to be general passenger agent for Great Britain and Europe. Since the establishment, in 1915-16, of the Canadian Pacific Ocean Services, Ltd., which manages the entire fleet of the C. P. R. and Allan Lines, Mr. Carmichael has occupied the position of passenger and freight manager, and has his headquarters at Waterloo Place, London, England.

ALL READY FOR THE MASKED BALL. This isn't a Ku Klux Klan, nor a band of Highwaymen, but a group of French Artillerymen wearing gas masks in expectation of a bombardment.

PUBLIC CELEBRATION OF ALLIED VICTORY

Parade and Open Air Meeting Held in the City Saturday Night—Kaiser Burned in Effigy on the Market Square.

Bells rang, sirens hooted and hundreds cheered as Kaiser Bill went up in smoke on the Market Square on Saturday night, as a part of the civic celebration of Haig's victories on the Pivotal battle front. It is years since Brantford held such a demonstration, for her citizens are not prone to effusions of well-ringing and cheering for every rumor of victory borne on the wind, but roused at last to an unprecedented pitch of jubilation, they certainly gave vent to a lot of pent-up enthusiasm on this occasion. The celebration took the form of a parade from the Armories to the Market Square, where the Kaiser was burned in effigy, and thence to Alexandra Park, where open air dancing on the pavement was indulged in at the conclusion of a program of speeches.

Headed by the Dufferin Rifles Band, the procession assembled at the Armories at 8.30, the fire trucks, and G.W.A., and the deathly hum of the disconcerted effigy of the All Highest Hun ruler, forming the main body and a lengthy string of automobiles and pedestrians bringing up the rear. Amid the strains of the band, the ringing of the fire hall bell and the hooting of the sirens on the trucks and a score of other cars, the parade set under way, advancing as far as the Market Square, where Wilhelm was hoisted ignominiously to the gallows and real raiment, bedecked with wooden crosses, ignited with all due ceremony. If William doesn't last any longer in the flames of the next world than he did here, he'll not have much to enter for his obituary.

Mayor Reads Good News. The parade then swept onward once more, and halted at Alexandra Park, where Mayor MacBride addressed the crowd, which by this time had swelled to thousands. His Worship recalled the first battle of the Marne, in September, 1914, and considered the present time fitting for another such demonstration. He read a despatch from Paris, received by The Courier late Saturday afternoon, stating that the victory was of even greater proportions than was as yet realized, and the number of prisoners taken far in excess of the figures published. Hearty cheers greeted the good news.

Our hearts had been weary in March last, when the German offensive had opened, pessimism had almost gained the upper hand at times. In such a time of stress, the speaker declared himself glad to see a man of the calibre of Lloyd George at the head of the Empire; the little Welshman, was like Daniel in the lion's den, inasmuch as he was all backbone and grit.

"Let us pattern ourselves," urged the Mayor, "after the men in the trenches, and the men who have returned; let our battle cry, as their's, be 'Are we downhearted? No!' and let us carry on to the end." His Worship went on to pay tribute to the valor of the first British army in France, the "contemptibles," and called upon Pte. Thomas Mason, a veteran of that expedition.

"Out there no man is better than another," declared Pte. Mason. "They're all heroes. Canada and the old country gave us the brunt of the fighting for four years, and now

German armies, but believed in the ability of the allies to hold the offensive from now on. We are four years nearer to victory to-day than we were in 1914," he declared, "and though our hearts have been tried in the fiercest furnace of war ever lighted, we have stood it like men. We are fighting God's battle, and the battle for civilization, and we can look forward with confidence to the final result."

"We are out to teach the boche that his ideal of militarism is best; we will knock his Kultur out of his head, or knock his head off. Every German thought or statement to-day is tantamount to a fresh declaration of war, inasmuch as they show German intention of retaining almost all that they have won by sheer brute force. Our courage will never relax until the day of final victory."

Another of the original "contemptibles," made a plea for the men still in the trenches. "Don't forget them," he urged. "We had a hot time of it at the Marne, from September 6 to 11, 1914, but I guess they're having a hotter time of it now. But the odds are more evened up now than they were in the early days. We thought they would never stop coming, but it looks as if they'd stopped at last. Make no mistake, we're going to see it through. The Kaiser nicknamed us 'a contemptible little army,' but he'll find there are lots more just as contemptible still over there."

At J. T. Burrows confined his remarks to an offer to hang anyone who sympathized with the Kaiser, as he hanged that individual on the market square. Lt.-Col. Howard, the first Brantford officer to volunteer for active service, recalled early days with the contingent men at Valcartier and overseas, declaring himself proud of the men whom he had commanded and of all of the five thousand and more whom Brant county had sent forth on active service. He predicted that the news of Brantford's celebration would cheer the men in the trenches for whom our best wishes went forth.

W. G. Raymond, "We could have chosen no more auspicious time than the present for such a celebration," declared W. G. Raymond, in opening an address of his usual eloquence. "We bore reverses of last March calmly and philosophically, yet to-day we have placed more men and guns in the field than we lost in that time of stress. Britain to-day has more guns than ever before during the war."

Allies Hold Offensive. General Koch, in the opinion of the speaker was entitled to the credit of being the master strategist of the age. He had waited patiently, under the shock of each German assault, until he saw his opportunity and then had swept down upon the foe from the Suissons salient, and while they gazed at him, he had hurled his army against them, and had swept them back into their own country.

In his closing remarks Mr. Potts declared the allied armies and their leaders, and for the speakers of the evening. In the intervals between the speeches the returned men presented won the favor of the crowd by a number of their trench songs. "Take Me Back to Hildy," "I want to go Home" and others. The Dufferin Rifles band also played a number of selections, and furnished music for the dance, which with the memorabilia evening was brought to a close.

The "Cost of Selling" Real Estate through classified advertising is usually so small that it is not remembered afterwards at all. No maximum or minimum amount can be fixed in advance, or course, if that could be done, the selling of real estate would be too simple a problem to require any consideration whatever. The important fact is that the result is sure if the advertising is reasonably adequate. Telephone 289 for information and rates etc.

A TUNNEL TO AFRICA

FRENCHMAN PROPOSES LINKING TWO CONTINENTS.

He Suggests That the Tunnel Can Be Made Under the Straits of Gibraltar and Finished in Five Years—Spanish Government Has Decided to Investigate His "Bold Scheme."

THE Spanish Government has decided to investigate a scheme for a tunnel under the Straits of Gibraltar and an engineer colonel will make investigations. It is believed the scheme could be completed within five years. The idea of linking up Europe and Africa by means of a tunnel under the Straits is not a new one. It was proposed as long ago as 1899 by a M. Berlier at a meeting of the Society of Civil Engineers in France, but the scheme was then considered too Utopian to merit even an examination. The project of yesterday, however, often becomes the reality of tomorrow. At any rate, the scheme has once more been revived, and this time by a M. Henri Bressler, who lately read a paper on the subject to the French Academy. He appears that all the various sections agreed that it was highly interesting, and that the project merited further examination.

As a member of the La Compagnie des Chemins de Fer d'Orleans has already submitted a petition for a concession to the Minister of Public Works in France. However distant the realization of this project may be, there is no doubt that it is one of intense interest, not only to residents of Morocco, but to the world in general. One does not know quite how to admire the most boldness of the conception, or the faith of the Frenchmen who, in the midst of the struggle now going on, and on the issues of which so much depends, are so calmly sitting down to initiate a colossal enterprise, and expatriating on the benefits which will follow in its train, when the enemy has not even been expelled from a large and productive part of their own country.

M. Bressler drew attention to the importance which Dakar, the Senegalese port and the nearest point of English Trans-African Railway, to Dakar. The journey to St. Louis, the capital of Senegal, via the tunnel, could be made in three days; and by linking up the line with the proposed English Trans-African Railway, the Cape could be reached from London in eight days, without a single change of carriages. At a speed of 80 kilometers, the Straits could be crossed in 20 minutes. The Spanish railway gauge would have to be enlarged to suit that of the French railways, or else a special line would have to be built. As for the Trans-African line, the engineering difficulties need be encountered, for the line would be the most part traverse flat, desert country.

In making an estimate of the cost of the tunnel, the average price per linear meter, viz., 4,415 francs, for boring the four principal tunnels through the Alps—the Arberg, Monte Cenis, the Simplon and the St. Gotthard—has been taken as a basis. M. Bressler, however, for a submarine tunnel, estimates the cost at 10,000 francs per linear meter. This, in a length of 25 kilometers, would give a total of 250,000,000 francs, and to this he adds a sum of 110,000,000 francs for the organization of the port of Dakar, thus making in all 360,000,000 francs. It has seemed to some that he has not reckoned on a sufficient length for the tunnel, which, in order to reach a depth of 840 meters, would have to be carried farther inland than he thinks; but, after all, at this stage, there is nothing to be gained by arguing about details—the atmospheric and hydraulic pressures to be met with at such a great depth, and the expense of the work. The sea route between South America would be so very much shortened by landing at Dakar, no doubt the tunnel would draw much business from the existing routes, with the consequence an immense increase in the volume of trade would follow, so that in all probability, owing to such increase, the shipping companies need not fear any diminution in their present profits.

The Foreign Legion. The term "foreign legion" is often used by irregular volunteer corps of foreign sympathizers raised by states at war, often by small states fighting for independence. The term "the foreign legion" is colloquially but incorrectly applied to-day to the Regiments Etrangères in the French service, which are composed of adventurous spirits of all nationalities and have been employed in many arduous colonial campaigns. Foreign legions were employed by the kings from medieval times. A number of them were formed during the revolution and under the first empire, of which one was maintained till a recent period. This body, called specifically the legion, made itself famous in Algiers and in the Crimea.

Statsmargarine. The Berlingske Tidende, of Copenhagen, says the Government of Norway has arranged for a standard mixture of 75 per cent. margarine and 25 per cent. Danish butter to be called "Statsmargarine."

Hard to Grasp. Dowies—"What a grasping fellow you are, Smith! You've bothered me about this bill fifty times in ten days!" Smith—"You've got me very hot grasping. I've bothered you about the bill, I admit, but I haven't been able to grasp anything yet!"

Children Ory FOR FLETCHER'S CASTORIA

Rippling Rhymes

WOMEN TRIUMPHANT.

The woman barber is on deck; to-day she dyed my sideboards blue, and brushed some talcum on my neck, as well as any man could do. Her fingers held my nose, she lathered me with quincey grace, and tined up the brush that grows around the borders of my face. To-day I took a littey ride; a woman driver held the wheel; she was as blooming as an eel. And when I offered her in pay a bogus seven-dollar bill, she threw me over a stack of hay with most surprising strength and skill. I went to shock some sheaves of wheat, that all the nations may be free; and as I tolled on weary feet, a hunky dame worked next to me. As counsellor for James Pritchard Hose, in court I did my very best; a woman lawyer then arose, and knocked my logic gaiter west. While I was dealing with my wife I fell downstairs and broke a thigh; a woman surgeon brought a knife, and fixed me up as good as new. The men have gone to whip the Hun; their wives and daughters stay behind, to see that every duty's done, to carry on the ceaseless grind. To-day I thought, with whoop and song, I'd celebrate a Hun defeat; a woman peeler came along, and pinched me on Commercial street; a woman jailer saw me kneel contritely on the prison stones; a woman jailer heard my spiel, and put me down for fifteen bones.

The One He Wanted.

Young Isaac stood in line at the library to draw out a book. When his turn came he asked respectfully, "Please give me Miss Alcott's Jew book."

The young lady looked puzzled. "A book by Miss Louisa M. Alcott?"

"Yes," reiterated Isaac, "her Jew book."

"Can you remember the title?"

"No; but it's her Jew book," he insisted.

"Well, I'll read over some of the titles of her books to you, and perhaps you can tell me the one you want when you hear it read."

"Little Men," "Under the Lilacs," "Rope in Bloom."

"That's it, that's it!" cried Isaac. "Rosenbloom!"—Literary Digest.

DUTY OF GERMAN'S DEAD.

To Be Buried Naked, Leaving Clothes to Others.

The cold-blooded, matter-of-fact way in which it is proposed to strip the German dead of their grave clothes is astonishingly illustrated by an article in the Elberfeld "Freie Presse" of Thursday, April 18.

Not only have the living a duty to the Fatherland, but also the dead. The duty of the dead is to be buried without clothes. It has often been noticed that the dead are being buried not only with clothes, but with underclothes, and even shoes and stockings.

This is a beautiful custom, no doubt, but it is impossible in war-time. The paramount necessity to-day to stretch our stocks of woollen goods makes it imperative that we should abandon this custom.

Everything depends to-day on our utilization of every possible piece of clothing, and only the soberest sense of our authorities and tenderness and consideration towards the families and susceptibilities of the

people have so far prevented the compulsory stripping of the dead before internment.

A hint, however, has now been given to all the authorities connected with burials to put a stop to this practice and to confiscate all unnecessary clothing.

If the dead cannot be buried naked, why not give them paper clothes? Our paper industry is far enough advanced to-day to enable us to give the dead worthy and even beautiful clothing.

It is now the duty of the Government to promulgate the decision that only those who succumb to contagious diseases shall be buried in their linen. Otherwise this linen and all other clothing and underclothing must belong to the community.

Victory depends on such little things as these.

DON'T WORRY ABOUT THAT RUPTURE
