## Editorial Jottings.

The referendum on the prohibition question in Ontario will be taken on Monday, October 20.

Monday, October 13, has been fixed by the Government as Thanksgiving Day for the Dominion.

The Prince of Wales was born at White Lodge, Sheen, on June 23, 1894. He is therefore 25 years and 2 months.

One of the oldest documents known to man, a cuneiform fragment from the lowest stratum of Babylon, begins with the words: 'Alas! Alas! times are not what they were.'

Queen Mary has one more name than her son, the Prince of Wales. He has seven given names while she has eight—Victoria Mary Augusta Louise Olga Pauline Claudine Agnes.

European capitalism in the United States has made enquiries at Sydney concerning the possibility for regular shipments of Cape Breton coal to Norway and other parts of Europe.

The Earl of Athlone, brother of Queen Mary, will be appointed Governor General of Canada next summer in succession to the Duke of Devonshire, the present incumbent, according to the National News.

In Germany large families are encouraged. In Canada some landlords are allowed to discriminate against families with children. The Great War Veterans of Windsor, Ont., have declared war on this type of landlord.

Marshal Foch has recently asked the Belgian Government to have a search made for the body of his son, who was killed in August, 1914, in the Belgian Ardennes. Marshal Foch has religiously refrained from mentioning his lost son and few knew that the younger Foch was killed early in the war.

The Atlantic Biographical Station at St. Andrew's, N. B. is conducting experiments to determine the movement of the water in the Bay of Fundy. Bottles, each containing a post card, have been set afloat in the Bay at various points and a reward is offered for the return of each card with information as to its discovery.

One reason why so many girls and boys, men and women, too, are uninteresting, is because they try so hard to be like somebody else rather than be content to remain himself or herself in life. In nature you don't see an oak posing as a willow, or a black duck as a white leghorn, or a lilac as a peony, or a dog as a cat. Be natural and you'll be all right.

Those of our patrons who have assisted us by handing in the amount of their indebtedness during the past week or two have our sincere thanks. We appreciate thoroughly their help and expressed good wishes, and will do our best to merit their good will. The many kind things said about THE ACADIAN by readers and contemporaries have been indeed encouraging.

On the first page of THE ACADIAN this week is begun a series of articles on 'The Rural School Problem,' which will be well worthy of attention. Never in the history of our country did the school hold a more important place in the public interest than now. Every suggestion that may lead to a more efficient school should be accepted as worthy of consideration.

**1919 Victory Loan in Kings County**

Plans are being made for the flotation of the 1919 Victory Loan. The amount asked for in Nova Scotia this year is \$17,145,000, and the allotment for Kings county is \$350,000. Considering that this county last year raised \$838,500, it ought not to be difficult to raise the amount asked this year. Mr. George E. Graham, of Kentville, is the county chairman appointed for this year, and Mr. H. P. Davidson, of Wolfville, is the secretary. The county organizer is Mr. S. F. Thompson, of the Nova Scotia Trust Co. The county office this year will be in Kentville, but it is planned to have an office in Wolfville during the few weeks that the canvassing is being done. Mr. W. C. B. Harris has consented to again act as chairman of the Wolfville district.

## Citizens' League

The meeting of the Citizens' League held in Temperance Hall last Friday evening was poorly attended, there being only about twenty-five present. Reports were given by the various committees.

Dr. Coit, on behalf of the Beautifying Committee, called attention to the School Fair which is to be held today and asked the co-operation of all present to make it a success.

Mr. Herbert Stairs, for the committee on Law Enforcement, made several suggestions re keeping children of the streets in the evenings, enforcement of law regarding school attendance, etc. After considerable discussion it was moved and carried that the Citizens' League back the School Board in enforcing the truant law and that the League ask the School Board to appoint Mr. Crowell as truant officer.

Dr. DeWolfe reported for the committee on Civic Education that plans were being formulated to have the Chautauqua in College Hall the latter part of October.

Dr. Roach was appointed the League's representative on the committee to see about erecting a memorial tablet for Wolfville's fallen heroes.

The matter of changing the time came up for discussion. Dr. DeWolfe announced that the Seminary and Academy were going back to the old time on Monday. Mayor Hales was asked what the council was going to do in the matter. He said that the council had decided to change the time on Oct. 1st. It was thought that the town should have the same time as the Institutions. It was therefore moved and passed that the League ask the town council to change the time of the town back to old time on Monday.

A Wolfville Branch of the Great War Veterans Association of Canada was formed at a meeting of returned men held in the Town Hall on Friday evening last. The aims of this Association shall be to perpetuate the close and kindly ties of Mutual Service in the Great War, to preserve the memory and records of those who suffered and died for the nation, to ensure that proper provision is made for the care of the sick, wounded and needy among those who served in the Overseas Forces and to open a Club Room in the town where the overseas men may spend their evenings in a profitable manner with reading, writing and games, etc. With these objects before them it is hardly necessary to state that the Veterans will without doubt receive the whole-hearted support of the town in general.

At the meeting on Friday evening some forty or fifty men were present and the following officers and committee were elected:

Pres.—Eugene Stackhouse, M. M.; Secy.—Treas.—P. W. Davidson (two wooden legs do not necessarily indicate a slow team); Executive Committee—Geo. Nowlin and Geo. Dexter, Wolfville; B. Palmer, Grand Pre; and Jas. Amburg, Gaspereau. At present there have been some forty members signed on and it is important that all men hand in their names for membership as soon as possible. The Association expects to open a Club Room within the next few days over THE ACADIAN Building (formerly Graham Building) and the success of the enterprise depends upon the finances obtained, which are at present derived mostly from membership dues. Any man wishing to become a member should fill in an application for membership either at the office of the Secretary or A. P. Robart's store. Any man belonging to another branch and desirous of transferring to the home branch should hand in his name to the Secretary who will make the required application for transfer.

To-day (Friday) the Give Service Girls have kindly offered to co-operate with the Veterans in carrying out a Tag Day. In this manner it is hoped to raise sufficient funds to give a good start to the Club Room furnishings. When you are tagged during the day stop and realize, first, that you are giving towards a Club Room for the older boys and young men of the town in order that they may have some place to spend their evenings besides "the street corners, and secondly, that you are helping to give a Club Room to the boys who a few months past were helping to give a Country to you. This is to be a Tag Day but it does not necessarily follow that you are only to give a few cents. You are requested to give nothing less than ten cents and are expected to give as much as you consider the movement is worth to you and your town. No subscriptions will be too large. It may be the last chance

### WOLFVILLE HIGH SCHOOL.

At the Provincial High School examinations, in June, the following records were made by students of Wolfville High School.

GRADE XI									
	English	Latin	French	History	Chem.	F. Math.	Algebra	Geom.	Average
Mary Patriquin	41	70	84	73		54	72	97	72.8
Nina Wickwire	44	78	78			54	80	98	64
Marion Kinsman	51	44	78	37		67	80	80	61.8
Karl Nowlin	46	55	68			58	68	70	61.8
Arlene Bishop	63	63	77	57		52	67	61.5	
Allan Parker	43	50	68	60		38	60	66.6	
Mildred Pick	44	62	50			51	41	72	53.3

The following Grade XI pupils were successful in the subjects taught by the principal but failed to make the required minimum of 50 in English.

GRADE X									
	English	Latin	French	History	Arithmetic	Algebra	Geom.	Average	
Evelyn Beattie	63	75	78		85	97	99	82.8	
Gertrude Rogers	45	44	57		43	70	69	56.6	

The following two made the required average, but fell below 50 in English.

GRADE IX									
	English	Latin	French	Geom.	Drawing	Arith.	Algebra	Average	
Ruth Young	81	71	76	74		51	91	73.5	
Graham Patriquin	84	66	79	77		76	50	72	
Charlotte Kinsman	73	80	74			65	64	71	
Margaret Robarts	59	56	77	74		56	83	67.5	
Margaret Allan	72	52	80	66		48	80	66.3	
Claire Cutten	54	77	75	69		46	72	65.6	
Leicester Coit	32	62	58	71		55	86	64	
Wallace Barteaux	42	54	66	68		75	67	62	
Margaret Mitchell	54	59	67	60		45	71	61	
Helen Redden	77	50	58	67		42	60	59	
Laura Silver	59	70	74	60		45	37	57.5	
William Stairs	43	30	65	43		69	74	43.3	
Curtis Newcombe	56	50	55	71		30	46	46	

In the foregoing lists it will be observed, there are the records of 28 out of 38 who wrote. These 28 all passed the prescribed test in all subjects taught by the principal, in many instances making very high records. Six of the 28 fell below the minimum 50 in English and consequently, though making the requisite average of 50 or more, did not receive the certificates for which they wrote.

Attention is called to some phenomenal marks in the above lists. In Geometry, one 100, two 96, one 98, one 97, one 92, one 87, one 80, a 97 and a 96 in Algebra; a 91 and 84 in French. Follow the French column down, a splendid showing. Follow the other columns. They will be instructive.

**Guard Baby's Health in Summer.**

The summer months are most dangerous to children. The commoner tags a token of their esteem cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes her guard to prevent these troubles, or if they do come on suddenly to cure them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

LOST.—A cane, on Sunday afternoon, on either Acadia street, Linden avenue or Summer street. Finder will be rewarded on leaving at this office.

### Afternoon

A landmark of old-time Wolfville has disappeared this week by the removal of one of the handsome old Elms in front of the old T. A. S. DeWolf property on Main street. For some years it has been thought that this tree has been unsafe and it was ordered removed by the Town Council some time ago. The work was done by the employees of the Telephone Company.

We invite you to call and inspect our Phonographs and Sewing Machines. We can save you money and give you complete satisfaction. WOODMAN & Co.

### and Evening in

A large and enthusiastic audience filled the Opera House on Thursday evening of last week to witness 'The Old Homestead' as presented by the 85th Batt. Band Concert Party. All the characters were excellently taken, but special mention should be made of Joshua Witcomb, played by Harry Murray, under whose direction the play was staged. Aunt Tilly, played by G. E. Rackham, was especially interesting to Wolfville people as Mr. Rackham was for some time a resident of Wolfville and leader of the local band.

### RINK

Today is Wolfville's first School Children's Exhibition day, there will be sports, with prizes, on the campus in the morning at 10:30. At 3:30 the formal opening of the Exhibition at the Rink with two or three addresses on live topics by outside talent. The Exhibition will mean much to the children who have worked on this all summer. There are over 200 prizes offered. Come and see who wins them. In the evening at 8:00 is the Boy Scouts Band Concert and some interesting amusements. The girls will have candy and ice cream booths. Exhibition Day has come to stay. Do your bit to help the children make this their first attempt a big success. Admission free.

### The Treaty

Jan Christian Smuts, Premier of the Union of South Africa, in presenting the peace treaty to the Union Parliament asked, not for approval of the document, but for ratification. As Smuts himself signed the peace treaty after voicing strong objections, his course must commend itself as consistent. All that is asked of any country is ratification, and while ratification implies approval in the largest sense, it does not imply approval with every last item of the agreement. Smuts signed the agreement because he regarded it as the best attainable not because he considered it a perfect document. South Africa endorsed his action as Canada and the United States and other countries should endorse the action of those who acted as their agents in the deliberations. The Canadian Commons in ratifying the treaty also took the consistent course, upholding our treaty representation which guarantees the future peace of the world as it can only be guaranteed through the League of Nations.

### Customs of Ancient Inns

Abroad, where many quaint and curious hotels, taverns and inns of respectable antiquity abound, it is natural to find numerous odd customs. For instance, there is an inn in a town on the Rhine wherein whenever a patron is heard to swear he must place a coin equivalent to the bar on the counter.

Until recent years there was a most respectable inn in Warwickshire, the proprietor of which was accustomed to invite all his patrons to accompany him and his wife on Sunday morning to a church directly opposite the inn. On returning from service each customer was expected to partake of refreshments offered by the

hospitable landlord free of charge. Those who put up at one hotel in Edinburgh obtain, if they are accustomed to the ways of the place, a first-hand knowledge of the Scottish disposition. Patrons of this hotel must remember to keep their shoes or boots in their rooms over night, otherwise their footwear will be blacked, regardless of its original color.

Rooms or offices to let about October first. Hot water heating. A. J. MCKENNA.

### The Noble Work of Agnes Weston.

(By Charles Bailey.)

Foremost on the roll of honor-heroes of whom the world was not worthy—stands the name of Agnes Weston, the British sailor's friend, tried and true, whose recent decease occurred in her seventy-ninth year. The impress of her immense influence for good, for godliness and sobriety is indelibly engraven in the hearts of the hundreds of thousands of men and boys who constitute the personnel of the British Navy.

About forty-five years ago Miss Weston commenced her efforts publicly on behalf of temperance as superintendent of the Royal Navy department of the National Temperance League of England.

Miss Weston's activities were both multitudinous and multifarious, and practically unceasing as well as most strenuous, to further temperance principles on land and on board ship, in addition to Bible classes, Sunday services, mothers' meetings, mission bars, in door and open air endeavors, organization and supervision of agents and helpers, etc. Chief among these combined counteractive temperance and spiritual phases of her labors for God and humanity have been the Sailors' Rests or Institutes at Davenport, Portsmouth and elsewhere. Preventive, reformatory and hortative these have proved of incalculable blessing. Drunk or sober, Jack finds a welcome there, and is helped. Even when so incapable that he has to be put to bed by the manager and his assistants, the greeting received next morning is not a lecture of reproach, but kindly words and a warm-hearted appeal to sign the pledge and start afresh. When, too, he has become an abstainer and desires to pursue the Christian way he is taught that he must in his turn seek to influence others, speaking, singing, or perhaps only by the silent but necessary witness of a consistent life.

Recognized and praised by Britain's leading admirals, Miss Weston's work received frequent marks of royal endorsement. Queen Victoria, King Edward and Queen Alexandra and King George and Queen Mary each expressed emphatic approval and admiration. By request of Queen Victoria, the 'Royal' was prefixed to the title of the Rest. In May, 1910, King George sent his personal congratulations to Miss Weston on her seventieth birthday, and a kindly message when two years ago the work of the Royal Sailors' Rest was definitely extended.

Prayer, love and faith were the motive principles behind Miss Weston's magnificent achievements. She believed in God and she believed in her fellowmen. Loving all, she especially loved those, and the dear ones of those, who live and labor on the mighty deep. Her sympathies confined to no one nationality, her name, it is said, was almost as well known in distant Japan as in her own land—Britain. A keen student of the Word of God she sought to base her life and efforts on the Saviour's self-sacrificing altruistic teachings and example. Hundreds of thousands of sailors, their wives, mothers and daughters, bless God for Agnes Weston and her noble, Christlike endeavors the past half century, to save, relieve, ameliorate, strengthen and console.

Well did Agnes Weston earn the

## Modest Dances Hereafter.

Modesty and respectability will prevail in dancing from now on, according to the official forecast at the second annual convention of the American National Association of Masters of Dancing held at New York. Three hundred members from all parts of Canada and the United States attended, and Fenton Bot, president of the association voiced these predictions.

"The old waltz is coming back—is already back," he said, "and there will be no new dances, only a few modifications. For instance, ladies who have been pushed backward over the ballroom floor too much, will go forward on a 50-50 basis with the men."

St. Joseph, Levis, July 14, 1909. Minard's Liniment Co., Limited.—Gentlemen.—I was badly kicked by my horse last May and after using several preparations on my leg nothing would do. My leg was black as jet. I was laid up in bed for a fortnight and could not walk. After using three bottles of MINARD'S LINIMENT I was perfectly cured, so that I could start on the road.

An apple tree bearing thirty-two kinds of apples and six of pears has been produced by Henry Flater, of Findlay, Ohio, after years of experimenting. The tree, declared by experts to be one of the most exceptional horticultural wonders ever produced, was the last of the famous Vance orchard.

When Mr. Flater went to work on it the trunk was decayed in several places. Limbs were dead and farmers declared it never would yield again. Filling the holes with cement and bracing the broken limbs with chains, Mr. Flater grafted on various kinds of apples. Year after year he added new grafts, until this summer the tree is giving more than three dozen kinds of fruit. The tree is more than seventy-five years old and is bearing apples from early Summer until late Fall.

## PILES

Former British officers returning from France and Belgium, where they have been going over the ground where a year ago they were still fighting, express astonishment at the manner in which nature is blotting out the scars of the war. 'No Man's Land' everywhere is covered with a mass of poppies,' said one officer, 'and the disappearance of the rusty barbed wire makes one almost forget the place was ever the most desolate prospect a man ever saw. But the trenches are still there and so is much of the timber, both startling reminders of the days when we did not know just what was going to happen next.'

## Children Cry FOR FLETCHER'S CASTORIA

A London paper states that the Dutch have been able to make arrangements for bringing over 50,000 tons of coal monthly from the United States, and as we now see from Cape Breton as well. They are probably paying a high price, but they cannot get coal from elsewhere. England sends practically none, and there is a little forthcoming from Germany, incidentally that shows how false was the story that whatever the result of the war might be Germany was ready to resume export trade at once. She is not able to export to her nearest neighbor, although a remunerative market is there open to her.

That Great Britain intends to insist upon having 2,250,000 tons of the three million tons of German shipping to be divided among the Allies by the reparation commission after the ratification of peace is the statement made to the Daily Mail by an official of the Ministry of Shipping, who added that the position was delicate and complicated, and that intricate internal negotiations were yet to be completed. Nevertheless, he was confident that Great Britain ultimately would obtain approximately what she demanded. Even then her loss in shipping during the war would exceed 5,000,000 tons.

are 100 per cent sanitary, because there are no joints or seams to clean. They are made in one piece, from wood only, used in connection with a special pressure. The hard, enamel surface is baked on at high temperature, and is absolutely impervious to liquids. Eddy's Milk Pails are practically indestructible. They cannot be dented and no cracks can develop on the surface. Rust cannot attack them and no ordinary accident will do them injury. They cost no more than ordinary milk pails. They will save you labor now, and in the long run they will save you money.

## Another Niagara Discovered.

What is thought to have been a second mighty cataract of Niagara has been discovered at Thorold, Ont., by Doherty, Quinlan and Robertson, Limited, contractors on Section 3 of the new Welland ship canal. After excavating some twenty feet of solid clay near the upper end of this section the rock bed was found to be very smooth, and further down a series of steps in the rock have been found to be smooth on the edges also and well worn.

The edge of the cataract so far uncovered begins at the new Niagara, St. Catharines and Toronto railway bridge, and runs in a southwesterly direction for a distance of about 400 feet. This being the end of the excavation does not permit further explanation.

The first fall is in the form of steps for a distance of thirty feet with a total drop of twenty-five feet. The depth of the next fall cannot be determined yet, but the excavating shows that it likely was a perpendicular fall for an unknown distance.

Altogether it gives the appearance of an immense river which connected Lake Erie and Lake Ontario some thousands of years ago, the exact age being unknown.

If Marshal Foch did not actually give the British credit for winning the war he at least came very close to doing so, in his letter to the British Parliament.

"If I was able to bring the war to a speedy conclusion, it was due to the sustained determination of the British government to reinforce and keep up in 1918 sufficient effective and give powerful assistance to the transport of American divisions.

Marshal Foch's letter should end the 'who won the war' talk, as well as the 'we won the war' talk.

The U. S. Government has so much 'coin of the realm' that it actually bulges out the walls of the vaults containing it. The Treasury has asked Congress to appropriate \$1,500,000 to make the vaults secure and provide additional ones. The treasure is gold and silver accumulated during the war.

## Children Cry FOR FLETCHER'S CASTORIA

Mr. Arthur Henderson, former Labor Minister in the British Government, intimates to the workers that they are mistaken in thinking that they have the right to strike on every possible occasion and for every purpose. Popular opinion evidently is with Mr. Henderson. He has just been elected by a thousand majority in Widnes, where he fought one of the most notable bye-elections since the present Parliament was elected.

Sir Joseph Davies, K.B.E., who has just returned to England from a visit to several United States shipbuilding yards, is optimistic as regards the future of British shipbuilding. Sir Joseph states: I have had an opportunity of seeing shipbuilding in America, both in the old and the new yards, and I have returned convinced that we at home can hold our own in shipbuilding, unless a great change is brought about on the other side.

Say, do you know the kind of a fellow who's just to the world's mind? The kind that folks enthrone over and take off their hats to? It's the man who does things. Not the man whose grandfather got there; not the man who would if he could; not the man who is going to some day—but the man who does it.
