The copy filmed here has been reproduced thanks to the generosity of:

University of Toronto,
Science & Medicine Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▽ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

University of Toronto,
Science & Medicine Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par la première page et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par la seconde page, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant la nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

**DELEGATIONS AND MEMBERS AS ON
JULY 24, 1913.**

So many requests have been made for advancee lists of delegations and members that this iist is being printed now although it will be out of date before it is printed, for the reason that members are joining and delegations are being appointed daily.

At the last Session, which was held in Sweden in 1910, there were 879 members, 625 of whom actually attended the Session. Thirty-six countries were represented and there were 175 delegations, appointed by various governments, universities and societies throughout the world.

On July 24, the numbers of the Twelfth Session are as follows:—

45 countries represented; 303 delegations; 902 members.

Anglo Egyptian Sudan.
