work—intelligent, persistent application to labor. The old proverb of 'Poor Richard' needs to be reiterated and re-emphasized: 'He that by the plow would live, himself must either plow or drive.' There is no royal road to success in horticulture other than the intelligent application to labor.

'Tis it possible to eliminate almost all the drudgery, for it is fascinating work, but to plant and cultivate an orchard, to prune and spray, pick and pack the fruit, is closely allied to what the hired man calls hard work. Why should it be otherwise for the hired worker gets the most and best of his day's labor? We in business were so much independent and recreation, and I might almost say idly, if we but live up to our opportunities.'

The area in which fruit can be grown is far from being confined, as is usually supposed, to Hants, Kings and Annapolis counties. Lunenburg, Queens, Shelburne, Digby and Yarmouth (all these being counties with cooler climates and salt water connections) have large possibilities. It is not too much to say that, with the proper division of land and up-to-date methods of cultivation, twenty times the present population could make homes for themselves in the provincial counties of Kings, Hants and Annapolis.—Canadian Colliers.

The People's Interests. Why is it that members of parliament representing constituencies in the Maritime provinces are chiefly put up to fight every inquiry made by parliamentary committees?

Messrs. Carvell and E. M. MacDonald have unenviable reputations in this regard and now Mr. Kite has enrolled himself as a member of the 'thick and thin' brigade. When men graft they should not be protected, they should be punished.

When the charges were made in McGreevey's scandal years ago, Sir John Thompson was urged by one of his followers to ease up a little. What was his reply, 'I am not here to protect thieves.' He let the committee investigate to the limit. There were no reprisals to produce papers or persons or to permit the truth to be brought out. That is not the way these things are done these days.

The disimilarity of patronizing one company in preference to another is justifiable and wise when clearly demonstrated that it is in the first rank respecting those features in which you as a policyholder are materially interested.

SECURITY AND PROFIT IN The Excelsior Life Insurance Co. OF TORONTO

The legal requirements for security are exceeded by the establishment of this special Reserve Fund. By its careful conservative management it claims to have the lowest mortality experience on record, which, with its high interest earning makes it in every way the most desirable company to insure in from a Profit standpoint.

CAPT. S. M. BEARDSLEY, Manager for Nova Scotia. Box 230, Wolfville.

ATTRACTION CONTRACTS TO WHOLE AND PART TIME AGENTS.

Investigation was a crying disgrace to any country. Now Mr. Kite tries to protect a Quebec member who apparently has been grafting in the most secret way. He had his house repaired and it is charged the work was done by government employees who were paid by the government and that some of it all the stock used was owned by the government. That is the declaration of several witnesses. On technical grounds Mr. Kite objected to having some of the evidence put on the records.

Why be so ready and anxious to protect, why not consider the people and the needs for honest government?—Dartmouth Patriot.

For Bald Heads. A TREATMENT THAT COSTS NOTHING IF IT FAILS. We want you to try three large bottles of Rexall '93' Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy, and it should indubitably demonstrate that we know what we are talking about when we say that Rexall '93' Hair Tonic will grow hair on bald heads, except where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grows over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall '93' Hair Tonic, and we have the right to assure that what it has done for thousands of others it will do for you, in any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c. and 1.00. Remember you can obtain Rexall Remedies in this community only at our store—The Rexall Store, A. Y. Reid.

Badly Hurt In Thresher. Blood poison set in—Great suffering—Cure effected by DR. A. W. CHASE'S OINTMENT. Mrs. G. Hopkins, St. George, Ont., writes: 'I feel like shouting the praises of Dr. Chase's Ointment. While threshing grain, my son got badly hurt. One of the men who was pitching shovels, at the above and ran the prongs of the fork into my son's leg. He did not take much notice of it and in a day or two it got sore and very hot and blood poison set in. We did everything for it but it would heal one place and break out at another and kept on this way for three months. Finally I thought of Dr. Chase's Ointment and in a week's time we noticed a wonderful change. By the use of three boxes he was completely cured and the wounds healed up. There has not been a sign of a spot on his skin. Whenever there is itching or irritation of the skin or a sore that refuses to heal you can apply Dr. Chase's Ointment with every assurance that the results will be prompt and satisfactory. 50 cents a box, all dealers, or Dr. Chase, Bates & Co., Toronto. Write for free copy Dr. Chase's Recipes.'

Minard's Liniment for sale every where.

Canning Church Dedicated.

On Sunday, March 12th the new house of worship, erected by the United Baptists of Canning, was opened and set apart to the service of God. The steps leading up to the merging of these two families of 'common faith,' and the mutual good will that has attended developments hitherto, made the day one of delightful significance to all interested. The building itself is one of rare sympathy and perfection and reflects much credit on all whose thought and work it represents. It is not only a beautiful symbol and expression of religious sentiment, but also an ornament in which the people of the town take justifiable pleasure.

Three services were held during the day. Rev. Edwin Crowell, D. D., preached the dedication sermon in the morning, Rev. J. W. Manning, D. D., offered the dedicatory prayer, after which the dedicatory hymn, written by the pastor, was sung by the choir and congregation.

At the afternoon session Rev. J. D. Spidle, M. A., of Kentville, was the preacher. He spoke from John's account of the healing of the man at the pool of Bethesda. It was a thoughtful and interesting presentation of Jesus as the friend and Saviour of man, of Christianity, as the completion and enlargement of Old Testament religion and economy, and of the Gospel as the only remedy for the sins and woes of mankind.

Dr. DeWolfe, principal of Acadia Seminary, was the speaker in the evening. Dr. DeWolfe is well known and appreciated by the people of Canning, on many occasions have been profited by his presentations of the great truths of the New Testament; and they were delighted that he was able to greet the crowded house that awaited his arrival. His text, also, as in the afternoon service, was from John's gospel: 'No man hath seen God at any time; the only begotten son who is in the bosom of the father, He hath declared Him.' In a forceful and popular fashion, he unfolded the profound doctrine of God's revelation of Himself to man in the divine and human life of His Son. The preacher based his remarks mainly on the Gospel according to St. John, and he referred to the words, 'the life and life of Jesus, especially his

life and death, he betrayed the character of the Divine Being as a Father, holy and righteous. The dedicatory sermon by Rev. Dr. Crowell was from Heb. 11, 1. 'Therefore we should give the most earnest heed to the things heard, etc.' The speaker took his theme: 'A new departure.'

(a) As the fuller revelation and privilege of the Hebrews who had heard the Gospel spoken by Jesus Christ and his apostles placed a obligation upon them, so the dedication of this house was the recognition of the same claim to-day.

(b) This dedication means the expression, emphatic consecration of our means, an ordination means the consecration of a person to a special office or service in the church. It acknowledges the supreme right of God our Maker to worship; it devotes this place to the praise and testimony of Jesus; it provides here the equipment for saving and educating the rising generation; it is to glorify God as an instrument for saving men.

(c) The outstanding lesson of the text was this: the union of the best elements of the past for the present and future good. This was urged by the fruit grower, breeder and navigator. The local union, like a marriage, was to be succeeded by embodying the result of experience in new endeavor, in using the accumulations of the past as capital for present and future enterprise.

(d) And this more earnest heed, would be the best preventative against 'letting slip' or 'drifting away.' Reference was made to the tenacity of the King James version of the Bible falling upon this Sunday. At that period, too, Baptist organization first took shape in England. We are to stand for the apostolic truths and are the heirs of the ages. The dangers about us are many; many are of a careless character, but poisonous, nevertheless. But since the souls drift will perish without the help of

TO RECAPITULATE. The company was granted:

ROYAL BAKING POWDER Absolutely Pure Makes Home Baking Easy SAVES FLOUR BUTTER EGGS And makes the cake lighter, finer flavored, more slightly, and insures its freedom from alum. Royal Cook Book—800 Receipts—Free. Send Name and Address. ROYAL BAKING POWDER CO., NEW YORK.

A Notorious Land Grab.

The following vulgar letter concerning a number of the good people of Cape Breton adorned the pages of the government organ at Sydney:

'I wish to thank all my employees for the loyal support which they gave me for D. D. McKenzie, Esq., a VOTER'S PROMISE CANNOT ALWAYS BE RELIED ON, but in this instance every single one of my men was true to his ante-election promise. I feel this the more in this election as there were many and various influences brought to bear on them on the other side, and to be able to say THAT NOT A SINGLE MAN OUT OF MY WHOLE FORCE VIOLATED HIS PLEDGE TO ME, IS PROBABLY A RECORD SELDOM BEFORE EQUALLED. This is not only a source of great pride and satisfaction to me as an employer, but it is a record that my men and their whole district of North River may well feel proud of.'

Murray, C. B., Nov. 4. FRANK J. BARNJUM, Pres. North River Lumber Co.

The frank author of the above advertisement is president of an American Company which has received a ninety-nine year blanket lease of all the crown lands in Victoria and Inverness, one third of the total ungranted crown lands of Nova Scotia. The area comprised in this notable lease is 510,000 acres—a princely paltry. The annual rental is less than the amount Mr. Murray annually allots himself as remuneration for his services to the province. The rental is \$6,000, about one and one fifth cents per acre, a little more than the price of a postage stamp. The owners of the lease ask a half a million dollars for K. Victoria county is represented by Mr. Murray in the legislature, and Hon. Jas. McDonald, another member of the provincial executive, represents Inverness. The deal is probably one of the most notorious and indefensible land jobs ever perpetrated on this continent. The government that signed the lease should be speedily hurled from power.

On February 1st, 1899, the government headed by the present premier, entered into a contract granting to the North River Lumber Co. 359,000 acres of public lands in Victoria county, and 151,000 acres in Inverness county. The company was to pay an annual rental of \$6,000 for the term of the lease—thirty years.

Within two years, namely before July 1st, 1901, it was to spend \$100,000 in each county. Within four years it was to erect one or more pulp mills of a daily capacity of fifty-two tons, an industry of importance giving employment to many people, and the interests of the public were supposed to be safeguarded by a provision in the contract that no unmanufactured wood was to be exported from the province. This was the contract that was confirmed by the legislature and no other power should have undertaken to vary it.

If anything could justify the making of a lease of this enormous area of public lands—all the crown lands of two large counties—it was the engagement of the company to erect mills and manufacture wood pulp. No other consideration could excuse a measure so sweeping, cutting off hundreds of farmers and fishermen from an adjacent supply of firewood and lumber, and throttling any attempt to exploit the vast undeveloped mineral wealth of Northern Cape Breton.

The American Company are now seeking to capitalize their lease and they represent the concession as containing an inexhaustible supply of pulp worth half a million dollars.

In Victoria county 359,000 acres. In Inverness county 151,000 acres. It was to pay a rental. The company was to spend in Inverness county \$10,000. All this was to be done before July 1, 1901.

The company was prohibited from exporting unmanufactured timber from the province. By various orders in Council the government of Mr. Murray has undertaken to sweep away the conditions of the contract as ratified by the legislature.

I—Feb. 1900—Time extended for expending money to July 1, 1901, for building mills to July 1, 1904.

II—July 1, 1901—Time for expending money further extended to July 1, 1904, and for building mills, to July 1, 1906, and declaring that wood should be considered as manufactured.

III—Feb. 1904—The company relieved from building pulp mills.

IV—Feb. 1904—Terms extended from 30 to 99 years.

None of these amendments were ratified by parliament but stand, and the company is permitted to denude the valleys of the north and export the wood; build no mills but still to hold the heritage of the people for three generations; to keep off the land for which they have not paid, the farmer and the fisherman, and yet the guardians of the public rights, the government of Nova Scotia, are satisfied because the president of the company insults some of the premier's own constituents and boasts that with his pitance of daily pay for heavy toil, he has purchased the independence of his workmen and delivered their franchise to his masters. Barnjum's unrebuked epistle is significantly dated at a new town named for the premier.

Using Purgatives Injures Health. What You Need in Spring is a Blood Building Tonic. A spring medicine is an actual necessity to most people. Nature demands it as an aid in carrying off the impurities that have accumulated in the blood during the long winter months of indoor life. Unfortunately thousands of people who recognize the necessity for a spring medicine do not know what is best to take and dose themselves with harsh, gripping purgatives.

This is a serious mistake. Ask any doctor and he will tell you that the use of purgative medicines weakens the system, but does not cure disease. In the spring the system needs building up—purgatives cannot do this—they weaken you still more. The blood should be made rich, red, pure, and only a tonic medicine can do this. The best blood building, nerve restoring tonic medical science has yet discovered is Dr. Williams' Pink Pills. Every dose of this medicine actually makes new, rich blood. This new blood strengthens every organ, every nerve and every part of the body. This is why Dr. Williams' Pink Pills cure headaches and backaches, rheumatism and neuralgia, banish pimples and eruptions, and give a glow of health to pale and yellow cheeks. Men, women and growing boys and girls who take Dr. Williams' Pink Pills eat well, and feel bright, active and strong. If you need a medicine this spring—and most likely you do—try this great reviving tonic and feel the new life, new health, and new strength it will put into you.

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE ACADIAN.

WOLFVILLE, N.S., MAR. 26, 1915.

Editorial Notes.

We fancy it must be more than a coincidence that the abominable agitation and a local election again make such good connection. It was so in 1906 and may be likewise in 1915.

During the discussion on the proposed amendment to the Temperance Act in the assembly last week Mr. Wickwire is reported as having said that it was not in the best interests of the province to have prohibition in Halifax at this time! We would like to hear what our readers think of this.

We notice in a Montreal paper of recent date the following curious paragraph: 'Though there are no prospects of any hangings in the near future, Sheriff Lemieux received, this morning, two applications for the position of hangman. Both came from Nova Scotia.' Wonder if either of these was from Kings county.

The town council of Pictou has placed in the estimates for the current year the sum of \$15,000 to be devoted to advertising the advantages and attractions of that town. Other Nova Scotia towns are spending money for similar work every year. The Wolfville Board of Trade, some years ago, raised an amount by private subscription which was devoted to the publication of a booklet which did a great deal to make our town better known, but of late years nothing has been done. If Wolfville's attractions were advertised as are some towns' her citizens would see something doing.

Considerable is being said these days about the valuable amendments that are being secured to the Temperance Act. It should be distinctly understood that only in one direction can the act be amended in order to make it effective. While liquor is sold freely in Halifax and furnished to the people of other counties without restraint the Nova Scotia Temperance Act will accomplish its purpose, amended, in the direction of preventing sobriety among the people. All the talk about penalties, appeals and other provisions amounts to very little so long as the act does not apply to Halifax, the fountain head from which the flow of the intoxicating and debasing stuff is increasing and not diminishing. Temperance people will not surely allow themselves to be humbugged by such palpable attempts at disguising the real issue.

Considerable interest has been manifested in the new road-making machine which arrived on Saturday last. It comprises a 10-ton Bradford Pitts double-cylinder steam road-roller from the Watrous Engine Works Co., of Bradford, Ont., and a No. 1 Champion steel rock-crusher with elevator and revolving screen complete. The crusher is mounted upon wheels which makes it portable. It was made by the American Road Machine Co., of Goderich, Ont., and is claimed to have capacity for crushing from twelve to eighteen tons per hour. The engine in connection with the roller develops an actual capacity of from 25 to 30 h. p. The roller will be used for drawing the crusher, hauling the road-grader, rolling the streets, as well as rolling the crushed rock when making new streets. It will probably be some time in May before the street department will be able to begin laying the new streets, owing to so much work being required upon the underground system. New water-boxes will be required for all service pipes on the street, as well as new valves to all the hydrants, and every property must be connected with the sewer before the work of laying permanent streets can be begun.

Boxing and Good Manners.

It will be gratifying to the many admirers of Sir Frederick Borden, Minister of Militia and Defence, to learn that he and the famous Empress Catherine of Russia had not a few traits in common, chief among them being an aversion to the vulgarities and unmanliness of the so-called sport, boxing. Some months ago, Sir Frederick learned with sorrow as well as annoyance that the young men we are training at Kingston in the gentle art of making war were becoming more or less addicted to the habit of striking at one another. The seriousness of the offence was somewhat mitigated by the fact that, on the majority of these occasions, the participants were large, stoutly gloved, stuffed with hair or some other soft material, but the vulgarities appear to have remained, for the Minister immediately intimated that he did not consider boxing a gentlemanly or appropriate diversion for young men who might sooner or later be connected with the Department of Militia and Defence. We now learn with interest that views very similar to those of Sir Frederick are held by the Russian authorities. Boxing exhibitions of any kind are strongly deprecated in the realm of the Czar, and boxing itself is regarded with grave disfavour. The Empress Catherine of glorious memory was strongly opposed to the 'exchange of blows among the common people, especially in public,' which she held to be an uncivilized and a thing to be frowned down upon. Kingston exhibits are scarcely to be regarded as in the category of 'common people,' but the fact that the exhibition has been extended to them only shows the differences in good morals between the period of the Empress Catherine and the time of Sir Frederick Borden. Montreal Star.

Our Public Schools.

The annual report of the Superintendent of Education for the year ended July 31st, 1910, has been received. The usual interesting information is contained therein. Dr. MacKay makes the following reference to the report and work of Mr. Roscoe, which will be read with pleasure by readers of THE ACADIAN:

The report of C. W. Roscoe, M. A., is especially interesting on account of his graphic summary of the educational progress made in the counties of Kings and Hants since he became inspector in 1873. On account of failing health, after thirty-seven years of unremitting and highly successful service, he tendered his resignation at the close of the school year. He worked up to his extreme physical limit with a courtesy of demeanor, a coolness of judgment, a firmness of purpose, and a tact which can hardly be expected to be excelled.

The following paragraph from the report of Mr. Roscoe will also be of interest:

Now that my term of office has expired, it is but natural that I should refer to the progress and some of the changes made during my incumbency. In 1873, A. D., when I became inspector for Kings county, there were 93 schools taught by 92 teachers in the county. For the past term there have been 135 schools taught by 144 teachers. The increase in number of schools has been 42, teachers 45. In 1873 there were but 9 graded schools, 8 of which had two departments, and one three departments, total 19 classrooms. At the close of the school year 1910, Kings county had 18 graded schools, 11 two-department schools, one three, one four, one six and one eleven, total 52 classrooms. This shows that the graded school-houses have just doubled in number and the classrooms nearly trebled. The efficiency of these schools also shows an immense advancement in both the quality and quantity of work done.

Almost all the school buildings have been built or undergone very extensive repairs during the last thirty-seven years. Most of the buildings are now new. New furniture, new blackboards, new school maps, apparatus, etc., have been supplied, until the schools are now pretty well equipped. About all the graded schools and some of the miscellaneous ones have supplied scientific apparatus and are prepared to teach chemistry and physics. There is still room for improvement, but the advancement made, to one who has spent thirty-seven years connected with the work, is notably marked. I may cite two or three cases to indicate the improvement made. Kentville, in 1873, had its school in an old tumbled-down building, inferior to some of the horse stables now in town, and it was taught by one class 'B' and one class 'C' teacher. Now the school is in a house that has been built and enlarged two or three times to meet the demands. And at length the time has come when a new brick school is needed and must be built to retain the academic grant. The school now employs 11 teachers, four of class 'A', three of class 'B', two of class 'C', one of Domestic Science and one of Mechanical Science. A good library has been procured and several hundred dollars' worth of physical and chemical apparatus provided; so that the school is in a position to do superior work and does it. An excellent building has been erected on the school grounds for the departments of Domestic Science and Mechanical Science. The schools in Wolfville, Berwick, Canning, Canard (Upper and Lower) measure up well beside Kentville, and, in fact, some of these schools in some respects excel.

Allow me to make note of the following: In 1873 there were 71 male teachers employed in the counties of Kings and Hants. During the term just closed there were only 16. In 1873 there was but one teacher of the academic class in these two counties. During the last term there were 10 'A' teachers, five male and five female. The 'A' grant was received by E. E. Fairweather, R. W. Ford, May new Foster, Josiah B. Campbell, John A. Smith and George W. Hill. The 'A' grant was received by Winifred Webster, Bertha Orner and Laura Kaulbach. The 'A3' grant by Besiege Parrel. I cannot make a comparison of the 'B' teachers, as in 1873 class 'C' female was styled 'First Class', and class 'C' male 'Second Class'. There were, however, in 1910, 65 class 'B' teachers, only one of whom was male. I believe there were no class 'B' female teachers previous to 1873.

Of the very many teachers whose schools I have visited during the past thirty-seven years I wish to testify that all have treated me with the utmost frankness and courtesy, and have been willing to give attention to and carry out any suggestion that I have made, so far as they were able, and have thus made it a pleasure to be connected with such a noble body of workers. I have also been connected with three boards of district school commissioners, of which I have acted as clerk. I wish to bear testimony to the valuable work done by these commissioners and to their readiness in all cases to co-operate with me in dealing with all matters pertaining to the well being of the schools. It has always been a great pleasure to meet these boards, and I regard it as one of the many pleasant memories of my life that I have succeeded in retaining their confidence for so long a period without interruption. During my incumbency there have been three Superintendents of Education for the Province, viz: Rev. A. S. Hunt (deceased), Dr. David Allison, and Dr. A. H. MacKay. From all of these and from the clerks in the Ed-

GIVE THE BOY A WATCH ON HIS BIRTHDAY

Two to one he'd name a watch above everything else, if he had the choosing. It will give him even greater pleasure than his first pair of suspenders. Besides a WATCH is a true mission. It teaches responsibility and inspires ambition to manly character. I have a very good stock of BOYS' WATCHES from which to make your selection. They range from \$1.00 to \$7.00. For the older boy who has had his first watch and knows how to take care of a better one, get him an Elgin in a Gold Filled Case at \$10.00. Do make the Boy happy on His Birthday.

J.W. Williams

Holocaust in New York.

A cigarette lit by a cutter and thrown into a heap of clippings started a fire in a New York factory last Saturday afternoon which proved to be the worst disaster that city has known since the steamship General Slocum was burned to the water's edge off North Brother's Island in '04. One hundred and fifty persons, ninety of whom were Jewish and Italian girls, were crushed to death on the pavements or smothered, and others were shrivelled to a crisp in the awful holocaust. The tragedy took place in the factory of the Triangle Waist Co. on the eighth, ninth and tenth floors of a ten story building where seven hundred hands, 500 of these women, were employed. The fire occurred about five minutes before quitting time. The exits of the building proved almost useless. Practically all who escaped either climbed to the roof and scrambled thence to the roof of the adjoining building or led at the first rush for safety before the smoke grew too thick.

No Reason for Doubt.

WHO SAYS YOU CAN'T EARN MORE?

You can earn more than you are earning now—much more—and still more as the years go by. Legitimate salaries to specially trained men run into large figures, and there will never be a time when you cannot earn more if you make yourself worth more. YOU can get this special training quickly and easily, in your spare time, without leaving home, or paying more than your present earnings will afford.

It Is Time For a Change.

That it is high time for a change of government in Nova Scotia is clearly suggested by the remarkable statement of Premier Murray at Yarmouth, September 7th, 1909. On that occasion, which he said was memorable because it was the first opportunity he has had to address the electors of that stalwart liberal county, he said: 'We have administered the affairs of this province practically since confederation, forty-two years, except for a period of four years between 1878 and 1882.'

A Book for Mothers.

Every mother is naturally anxious for information that will enable her to keep the little ones in good health. The Dr. Williams' Medicine Co. have issued a little book which contains a great deal of information on the care of babies and young children that every mother ought to know. The book will be sent free to any mother who will send her name and address, with the name of the newspaper, to the Dr. Williams' Medicine Co., Brockville, Ont.

Local Happenings.

Cash paid for Hides at Willow Vale Tannery, Wolfville.

A meeting of the proprietors of the Wickwire Dyke is to be held at the usual place on Monday afternoon next, at 2 o'clock.

Mrs. Ethel Green has sold her dwelling on Gasperau avenue, which has been adv. for some time in THE ACADIAN, to Mr. A. C. Johnson.

Leave your orders at once with A. J. Woodman for having your carpets, curtains, draperies, etc., cleaned by the new and greatly improved Regina Vacuum Cleaner.

THE ACADIAN regrets to learn of the rather serious illness at Ottawa of Mr. Avard Cohoon, son of Rev. Dr. Cohoon, of this town. We trust he may soon be on the road to recovery.

There will be a meeting of the Tabernacle Society this evening at the Tabernacle, at 8 o'clock. Important business will be before the meeting and all interested are requested to be present.

Just received—velvet, labet and collar pins, the latest styles in beautiful enamels. W.L.L.A.M.S., The Jeweller.

A social will be held in the S. S. room of the Methodist church, Wolfville, this evening, the 31st, under the auspices of the Ladies' Aid. Games, music, recitations and light refreshments bespeak an enjoyable evening. All are invited. A silver collection will be taken.

The lecture by Rev. Dr. MacKinnon, of Halifax, which has twice been postponed on account of the illness of the lecturer, will take place next Monday evening in St. Andrew's church. The subject will be: 'The Public Man.' No one who can possibly bear this lecture should fail to do so.

Recall Kidney Pills, 'The Best Yet.' Your money refunded if not satisfactory, at RAND'S

On Friday evening of next week, in College Hall, will be given a violin and elocution recital by the pupils of Acadia Seminary. The program will consist of violin solos, duets, quartettes, etc., and a presentation of 'As you like it,' by members of the elocution department. Pupils from the departments of piano and voice will also assist. An attractive entertainment is assured.

Horse Clipping properly and promptly attended to at Hutchinson's Stables, Wolfville.

We wish to thank those who have responded to our appeal by handing in the amounts owing to THE ACADIAN. There are a large number, however, who have not yet been heard from, and these we would again ask to assist us by at once making payment in full of their part. There is at present a large amount due this office, every cent of which is needed. The amount of your indebtedness may appear to be insignificant, but with many other small amounts aggregate a considerable sum.

Money to loan on approved real estate security. Apply to R. S. Crawley, Wolfville, N.S.

The parlor concert given on Tuesday evening at the Royal Hotel in aid of the building fund of the new Baptist church was a very pleasant affair, although not so well attended as it should have been. An interesting program was rendered, including piano duets by Misses Rockwell and Haines, both of whom also gave vocal readings by Mrs. R. W. Ford, vocal solos by Miss Helen Beckwith, and violin solos by Mr. R. W. Ford. At the close of the program ice-cream and other dainty refreshments were served.

April is the month for Blankets. Here is the place to get them, cheap and best. W.L.L.A.M.S., The Jeweller.

The officers of Wolfville Division, S. of T., for the ensuing quarter were elected on Monday evening last as follows:

- W. P. O. A. Patriquin, W. A. Miss Freeman, W. A. Miss Freeman, A. R. S. Miss T. E. Hutchinson, F. S. Miss Ernestine Bishop, Treas.—Miss Emma Schofield, Chap.—Rev. M. P. Freeman, Cond.—Mrs. Howard Pines, Asst. Cond.—Mr. Legge, J. B.—Miss Chisholm, O. S.—J. W. Vaught, Patron.—W. A. Freeman, F. W. P.—G. M. Peck.

Just received G. B. Chocolates, bulk and packages. Luggets and Fenway Chocolates (American) in 1 lb. packages at A. V. RAND'S.

The meeting house of the Wolfville Baptist church was sold at public auction on Wednesday afternoon. Quite a number of the members of the church and others were present to witness the sale. One of the conditions was that the building must be removed completely before April 20th so as to enable the work of constructing the new building to go on without interruption. The building was purchased by the contractors for the new building, Messrs. A. W. Ainslie & Son, of Annapolis, for forty dollars. We understand that the college authorities have granted the church the use of College Hall for holding their Sunday and other services until the new building is completed, which will be in about a year's time.

Special Bargain Announcement

Arc Light Dead.

Arc Light, a 1904, died at the stable of his owner, Mr. Fraser, Truro, a few days ago at the age of 25 years. Mr. Fraser had been driving the old warrior, and he never seemed in finer shape up to the moment that his stout old light stopped beating.

Arc Light was by Rampart, dam, Gipey by Robert R. Morris, 2nd dam by Crown Prince 2 25. He was bred by Dr. Taylor, of Hampton, N. B. He made his record of 2 1/4 in a race at Lawrence, Mass., September 10, 1904, driven by C. W. Bell, of St. John.

His majestic air when at full speed, his stamina and impressive action made him in his palmy days the most popular race-horse in the maritime provinces.

Weather for February.

Barometer.—Maximum, 7th. 30.56; Minimum 18th. 29.495. Temperature.—Maximum, 4th. 45.2; Minimum 13th. 8.7. Precipitation on Feb. 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 19, 21, 23, 24—14 days. Total Precipitation 3.37 in. Total Snowfall (unmelted) 29 in. Snow on ground at beginning of Feb. 4 in. Snow on ground at end of Feb. 6 in. Number of gales, 4. Aurora on Feb. 21, 27, 28. W. A. COIT, OBSERVER.

Mr. and Mrs. A. D. Elderkin, who have been spending some weeks in the United States, returned home on Wednesday afternoon, after a very pleasant trip.

Canadians Eat Eggs from Many Countries.

We Bought over Nine Million Eggs from the United States Last Year and Large Quantities from China

Canada imported 893,324 dozen eggs during the fiscal year ending March 31, 1916. From the United States alone 757,316 dozen eggs came to Canada. China sent us 27,075 dozen, and Hong Kong 41,245 dozen, while small quantities came from Great Britain, France and Japan.

Our egg exports amounted to 164,835 dozen, but only 39,917 dozen went from Canada to the United States, so that we bought from the American 124,918 dozen more eggs than we sold to them. Canada sold 33,465 dozen eggs to Great Britain, 20,947 dozen to Newfoundland, 10,700 dozen to Bermuda, 2,196 dozen to the British West Indies, 44,100 dozen to Cuba, 12,555 to St. Pierre and a few dozen to British Guiana, Mexico and China.

Deducting our total exports of eggs from our total imports of eggs it will be found that Canadians consumed 728,489 dozen more eggs than the total production of eggs in Canada.

The duty on eggs coming into Canada is three cents per dozen. If the Reciprocity Agreement goes into effect this duty will be removed and the importations of eggs will greatly increase.

A board of tariff experts, recently appointed by the United States Government to compare Canadian and American prices, has reported on the price of eggs at Buffalo, Toronto, Burlington, Vt., Montreal, Lancaster, N. Y., Prescott, Ont., Bangor, Eastport and Calais in Maine, and St.

Agriculture in Nova Scotia.

The report of the Secretary for Agriculture was placed on the table of the House of Assembly by the Provincial Secretary, the Hon. Mr. Murray, on Monday, March 27th, last. The report contains an outline of the various activities of the department, and gives evidence of the continued aggressive policy of this department.

In addition to a statement of the routine work, the report contains a series of articles on 'Fruit Growing and Gardening in Nova Scotia', which should prove of great interest to the farmers generally and the fruit growers of the province in particular. This makes the fourth series of educational articles issued by this department in connection with the annual report. The report of 1907 dealt with sheep, that of 1908 with dairying, that of 1909 with soils, etc., and that of 1910 with the above mentioned.

The report of the Secretary for Agriculture seems to be a popular feature. It has led to a more than 100 per cent. increase in the requests for the report from the people of the province itself, and has been most highly appreciated by the new settlers who have recently come to our province.

While the present series of articles deal most largely with the fruit growing as carried on in the Valley, yet there are a number of articles dealing with fruit growing in other parts of the province, and also with such subjects as strawberry growing, tomato growing, vegetable gardening, cranberry culture, etc., as adapted to all parts of the province. In the main body of the report are presented interesting facts in regard to the general work of the department. The report of the College shows a marked advance for the year. There is an increase in attendance in all courses, and a most marked increase in the regular courses, amounting to 44 per cent. over last year. The particulars given in regard to the various varieties of crops, vegetables, fruits, etc., as contained in the reports of the Farm Superintendent and Horticulturist make valuable reading. The live stock men will with interest study the pictures of some of the best known horses and cattle owned on the College Farm, and also the records of production of the high class herd of dairy cows. Equally valuable information is given in regard to poultry raising, insect pests, and plant diseases, as well as many other interesting points.

There is reported an increase of 8 agricultural societies as compared with last year, a most successful series of county exhibitions, detailed figures in regard to which are submitted. The work of the drainage machine is outlined and a copy of the 'Timber and Drainage Act' passed last year, is printed. The names of the winners in the Field Crops Competition are given in detail and an announcement is made in regard to the extension of this competition for the season of 1917. One of the most striking features brought up in the report is the increase in butter and cheese manufactured in 1916, there being 18 per cent. more cheese and 50 per cent. more butter than in the previous year. Altogether the report is a comprehensive, interesting and valuable one. It will be sent to the officers of agricultural societies, to the members of county associations, and to all who apply by letter to the Secretary for Agriculture, at Truro.

Children Cry FOR FLETCHER'S CASTORIA

The death of Rev. R. C. Ford, pastor of the Coburg St. Christian church, St. John, occurred suddenly at Halifax last Friday afternoon. Rev. Mr. Ford was spending a few days in Halifax on his way to his old home in Milton, Queens county, on a short vacation. The deceased was seventy-three years of age and was well known throughout the province. He was at one time pastor of the Christian church at Port Williams. He leaves one son and one daughter, his wife having predeceased him three years ago. The son is Rev. F. C. Ford, of Cleveland, O., and the daughter is the wife of Rev. R. E. Stevens, of Wisconsin.

Children Cry FOR FLETCHER'S CASTORIA

A bill was presented to the legislature this week by Mr. Hall, of Queens county, for the giving of free fishing rights to the citizens of this province along the rivers and lakes of the province. The matter was strenuously opposed by the premier and other members of the government and finally defeated by a straight party vote, 24-5.

Miss S. M. Jackson, of Boston, a fashionable dressmaker of long experience, is spending some time at Gasperau, at the home of Mrs. George Davidson, during which she will do a limited amount of work either at her home or at the houses of patrons. Those desiring her services should apply at once. 314 25.

FOR SALE.—Welsh Pony, 3 years old, carriage and harness, can be seen and demonstrated at any time. Apply to A. V. RAND.

Mr. T. S. Roy, of the Senior class at Acadia, has been unanimously called to the pastorate of the Digby Baptist church. While supplying for the church he has made many warm friends who will gladly welcome him as their pastor.

Minard's Liniment Cures Dandruff. Minard's Liniment Relieves Neuralgia.

It prevents decay.

T. L. Harvey

A Theorist.

To the Editor of THE ACADIAN. DEAR SIR,—I notice in the Acadia Orchardist of March 28th a somewhat remarkable letter from Mr. Burpee L. Bishop, of Greenwich, in favor of reciprocity.

It is not fair to give any reason why reciprocity would benefit Canada, except that free trade is the correct economic theory.

I submit that practical people are more concerned about facts than theories.

Until Mr. Bishop can give us some thing more substantial, I advise him to continue his theological researches and devote his time to raising fine turkeys. ANTI RECIPROCIITY.

FOR SALE.—Heavy draft horse, good order, weight about 1400 pounds. Apply to J. W. SELFRIDGE, Wolfville.

The communion of the Lord's Supper will be celebrated at St. Andrew's church next Sunday at the morning service. This evening at 7:30 o'clock a preparatory service will be held, when a sermon will be preached by Rev. Mr. McCurdy, of Canard.

Kidney Suffering

Backaches and tired feelings tell of weak kidney action—Prompt relief by using D.R.A.W. CHASE'S KIDNEY AND LIVER PILLS.

There is no treatment for kidney disease which will afford you relief so quickly as Dr. W. Chase's Kidney and Liver Pills, and none which will so certainly cure the most complicated form of this disease. There is a reason for this. Dr. A. W. Chase's Kidney and Liver Pills affect the action of the liver and bowels as well as the kidneys and thereby effect a thorough cleansing and regulating of the excretory system. Mr. S. Argyus, Esq., Charlottetown, Ont., writes: 'I have suffered a great deal with kidney troubles and pains in the middle of the back and have tried many remedies without obtaining any relief. I wish to say, however, that I can heartily recommend Dr. Chase's Kidney-Liver Pills as a splendid medicine as they have proven of very great benefit to me.' Dr. Chase's Kidney and Liver Pills, one pill a dose, 25 cents a box, at all druggists or Widdowson, Bates & Co., Toronto. Refuse substitutes.

Fruit Farm for Sale.

Don't make a Mistake. Don't Buy too Quick.

Don't buy until you have talked with us. Remember that THE INTERNATIONAL HARVESTER COMPANY'S Power Spraying Outfit is the only well tried spraying outfit now being offered here, all the others are new and untried. The I. H. C. outfits have been in use in this county for four years and have many well satisfied users. Remember, too, that we are here on the ground and we know our business, and can be called to your assistance at any time. We are not amateurs in the Gas Engine business having had years of experience and our services are free to those who purchase from the I. H. C. through our agency.

FAWCETT STOVES and RANGES are the result of fifty years experience in the making of strictly first-class and up-to-date Cooking Stoves and Heaters.

Read what a Nova Scotia lady has to say of the VICTOR Steel Range: Londonderry, N. S., July 19, 1909.

The Charles Fawcett Mfg. Co., Ltd., Sackville, N. B.

Gentlemen: The VICTOR Steel Range to hand safely, and I must say it is simply 'GRAND.' It seems like play, almost, to cook now. I'm sure I'll sing its praises to all my friends. I hope it will still continue to prove successful. Wishing you every success in your business, I remain Yours etc. (Sgd.) MRS. J. SHENTON BIGNBY.
