Acadia Wins Football

The Acadia football team went to Windsor on Saturday and played a game with the Kings College team. The teams were very evenly matched. Acadia scored a try early in the game but were unable to convert. The final score stood Acadia 3. Kings 0. A return game was played on the Campus Wednesday afternoon. In spite of the wet weather a large crowd turned out to witness the game. The result was another victory for Acadia, the score being 10 to 0.

The Kings Collegiate football team also visited Wolfville on Wednesday and lined up against the Acadia Collegiate players. This game resulted in a win for Acadia, the score being 9 to 3.

Acadia's first intercollegiate league game is with Mt. Allison at Sackville, on Wednesday next. A good game is expected between these old rivals. The U. M. B. team plays here on Nov. 11th.

Will Close Camp Hill Hospital in November.

The extensive buildings erected on Camp Hill, Halifax, for military hospitals, and affording accommodation for 600 patients are to be closed as a hospital the middle of November. There are only a comparatively few patients now and they can all be taken care of in Rockhead and the old Cogswell street hospital, the building in use before the war. The Camp Hill buildings will be taken over and used as barracks by the Wellington barracks.

Baptist Women's Missionary Convention

The 49th Annual meeting of the Baptist Women's Missionary Union of the Maritime Provinces took place in this town on Wednesday and Thursday, the 15th and 16th of October. About 275 delegates were present and a large number of guests. The homes of Wolfville were most generously opened to entertain these women and all expressed the opinion that they were royally welcomed, and shall always remember with pleasure the unrivaled beauties and hospitality of our town.

An Executive Committee of about 30, held meetings on Tuesday. On Tuesday evening an informal reception was held, the church was crowded and all had a most enjoyable time. The officers of the Union were introduced and the President, Mrs. I. Hutchinson, of St. John, spoke a few words on their behalf. The new pastor, Dr. McDonald, and wife were called to the platform and spoke briefly, also the missionaries present, Miss K. Armstrong, Burma, the daughter of Mrs. H. M. Armstrong, the founder of the first Woman's Society in Canada, spoke touching of her mother's death and the work she so much loved. Mrs. Fisher gave a piano solo, Miss Prescott sang and Mrs. Ford gave a reading, all of these were greatly enjoyed. After greeting old friends and a general good time the social closed.

On Wednesday morning the Convention opened with a service led by Mrs. O. Chipman. Most encouraging reports were presented from all departments of the work in New Brunswick, Nova Scotia and P. E. I. More money was raised this year than ever before for both Home and Foreign Missions, a total of \$44,000. An address of welcome was given by Mrs. Alice Grant and responded to by Mrs. P. C. Reed, of St. John.

The Greetings from other Societies were given by Mrs. Watts for the Methodists, Mrs. Moore for the Church of England, Miss A. Blackadar for the Presbyterian, all of which were greatly appreciated. Mrs. Eve'igh, of Sussex, gave the response. A review of the Study Book, The 'Ministry of Compassion', was presented by Miss Esther Clark assisted by some College girls also a 'Candle Talk' on Christ the Light of the World, by Miss Gladys Masters. These were very helpful and will not soon be forgotten. 'Tidings', the organ of the Union, reported 10,000 subscribers, some Societies having doubled their subscriptions and others greatly increased them the past year.

The platform meeting on Wednesday evening was much enjoyed. A large audience listened in wrapt attention to Mrs. Prossor on Maritime Home Missions. Dr. Patterson, of Winnipeg, who gave a thrilling account of the great opportunity and need for mission work in the West, hundreds of School Sections without teachers, churches closed during the war not yet opened, a most urgent call for men and money to undertake this work now. Then came 'A Call to Young People' by Mrs. Edna Wilson, Woodstock. This address will linger long in our memories and hearts, it was both eloquent and inspiring. Mrs.

Black, of Windsor, sang a beautiful solo and the choir rendered good service.

On Thursday morning the Convention were invited to attend Chapel Service in College Hall. It was an inspiring sight to see about 600 students and 400 women. Mrs. W. G. Clark and Dr. McDonald were the speakers. Many mothers will carry away that sight and it will continue a blessed memory in all hearts.

This is the Jubilee year of the Baptist Missionary Union. Many plans were made for advanced work, among them the raising of \$50,000; The organizing of 'The World Wide Guild' for young women, Mrs. Edna Wilson has charge of this important work. A dainty and beautiful supper was beautifully served in the church dining hall to about 400 delegates and friends on Thursday evening, this was much enjoyed by all. It was under the leadership of Mrs. Wheaton.

The crowning service was held Thursday night—A farewell to our Missionaries. Miss Blackader, Mrs. Gordon Bars, Dr. and Mrs. Perry Eaton, Misses Machum and Eaton, all these gave expression to their feelings of loyalty to the mission work and delight at the prospect of going to their chosen field of labor, three go to India for the first time, eighteen leave for India this month under the Baptist Foreign Mission Board. Mrs. M. C. Higgins gave the farewell message from our Union, Mrs. Hobbs sang a beautiful solo. A memorial service was held for those who had been promoted during the year, 76 names were

read, among them the first President of our Union, Mrs. M. Williams and the founder of our Society, Mrs. W. F. Armstrong. Miss Armstrong gave a parting message from her mother to the Union, and other loving tributes were paid to this consecrated woman, her picture hung over the platform and the floral decorations were very beautiful.

The Convention was pronounced by all present a great success and we want to extend our hearty thanks to all who so willingly and generously helped to entertain.

Ontario Elections.

The result of the Ontario elections on Monday was the defeat of the Conservative government of Sir William Hearst. The premier and three cabinet ministers were defeated. Hartley Dewar, the leader of the Liberal party, was elected in Toronto. The election was a win for the United Farmers of Ontario, 42 of their candidates being elected. The Conservatives won 27 seats, the Liberals 28, and Labor 11. There was also one soldier and one independent Liberal elected. The results of the referendum on the Ontario Temperance Act are still indefinite, but judging from the returns so far received the prohibitionists will have a majority of about one hundred thousand.

Notes and Comments

Hon. F. B. Carvell has sold his residence in Woodstock, N. B., and has moved his family to Ottawa where he will permanently reside.

Major Gen. L. Wood will retire from the United States army as his friends are bound to have his name up for Republican nomination for President.

The sufferers by the Oromocto fire have been granted \$2,500 by the New Brunswick Government; and the city of Fredericton has contributed \$1,000.

Twenty seven war vessels were lost by France during the period of hostilities. Included in the list are three battleships, the Danton, the Gaulois, and the Suffren.

At Atlantic City some \$20,000,000 are to be spent in new hotels to make this sea-side place an American Riviera. There will be a Ritz-Carlton hotel costing \$8,000,000.

The Daily Mail, London, Eng., says the Government's Irish policy is rapidly taking shape and before long Ireland will have a good measure of Home Rule, that will kind of knock to smithereens that "Irish Republic" business.

Sir Herbert Holt, President of the Royal Bank, who has just returned from England, declares that only steady and intensive work can save the country from ruin. He says that there is at present a delirium of spending over there, this in spite of strikes.

There are 274 Canadian soldier prisoners in English jails;—a small percentage when we consider the tens of thousands of men that we had in England waiting for the homeward trip; less than one-fourteenth of one per cent. Well done, boys; you fought well and almost universally behaved well.

Bodies of American soldiers, who fell in the war, will, as far as possible, if requested by relatives, be returned to the United States. Secretary Baker said it was hoped that the great majority of American parents would decide to let them remain there but that the wishes of the relatives desiring the bodies returned would be carried out.

The Literary Digest has overcome the difficulty created by the typesetters' strike in New York by printing the whole magazine from plates made by photographing the original typewritten copy. Each page is in effect a photographic copy of the original article as written on the typewriter. The publishers intimate that this method may supplant the old method entirely.

One Toronto firm of jobbers in boots and shoes made a profit of \$190,000 last year, and a net profit of \$800,000 between 1912 and 1919, according to the evidence before the Board of Commerce. This, the Globe argues, confirms the view that the middleman, standing between producer and consumer, is responsible for much of the high cost of living.

Cigarette smoking is on the increase in England, especially among women, according to experts. One estimate places the demand for cigarettes at twice what it was before the war. 'Women smoke a great deal more than formerly,' said one tobacco man, 'and some of them can't even hang out the washing unless they have a cigarette in their mouths.'

In a hearing before Judge Alshuler, arbitrator of Chicago Stock Yards wages, G. B. Fitchie head of the milk waggon drivers, testified: 'Drivers in the city are working on an average wage of \$35 a week, and commissions bring the weekly pay up to about \$56 for men peddling milk to residences. Of course the men who drive the big automobile trucks which deliver the large consignments in hotels, restaurants, manufacturing and the like, can make more, some of them as high as \$80 a week.'

Confidence men in London have a newer means of victimizing credulous persons. Dressed in an army officer's uniform, these tricksters produce papers purporting to show that they are entitled to a monthly allowance payable the following day and offer to sell the paper at a reduced figure. A desire to render a service man some return has led many persons to the exchange of \$75 or \$100 for one of these worthless allowance forms, according to police reports. Public warnings have resulted.

"I Hope Every City and District Will Win My Flag"

When Edward, Prince of Wales—eager, bright eyed, smiling and sincere—arrived in Canada in August, and when he voiced his great admiration of the wonderful achievements of Canadians, on the fields of battle and at home, once again we were thrilled with joyous pride.

He asked concerning Canada's reconstruction programme, and when he was told of the Victory Loan 1919, he graciously consented to the use of his Coat of Arms on a flag, which is to be the prize of honour for districts achieving their quota in the loan.

In dedicating "The Prince's Flag" at Ottawa on Labor Day, His Royal Highness said in part:—

"It is a great joy to me to be associated with the loan, which is the bridge between war and peace, and which is finishing off the job."

"I hope every city and district will win my flag." Striking, and beautiful in design, this flag will form not only a unique memento of Victory Year, but a lasting and outstanding souvenir of the visit of His Royal Highness—a visit which will remain as one of the most memorable events in Canada's history.

The reproduction above shows the design of the flag. The body is white, the edge red; in the upper left hand corner is the Union Jack, and in the lower right hand corner the Prince of Wales' Coat of Arms.

The flag is made in two sizes, 4 feet 6 inches by 9 feet for small cities, towns and villages, and 7 feet by 13 feet 6 inches for cities of over 10,000 population.

Canada has been divided into canvassing districts by the Victory Loan Organization. Each city forms one district. Other districts have been determined according to population.

Each of these canvassing districts has been allotted a certain amount in Victory Bonds to sell. To win the Prince's Flag, therefore, a district has to sell its allotment. That is the one and simple condition.

Anticipating that many districts will buy far beyond their allotment, the organization decided that for each twenty-five per cent. excess of the quota one Prince of Wales' Crest be awarded. Thus the workers in a district doubling its quota will be the proud winners of four small crests for their Honour Flag. These crests will be sewn to the flag. The Prince's Crest—

the three ostrich plumes—is shown at the top of the coat of arms.

To every organization with fifty or more employees, where seventy-five per cent. of the enrollment invests a total of ten per cent. of the annual payroll in Victory Bonds, a supplementary Prince of Wales Flag in smaller form—48 inches by 34 inches—will be awarded.

The allotment for each district has been carefully considered, and is based on a conservative estimate of the purchasing power of the district.

Your district can sell its allotment and thus win the Prince's Flag, provided each person does his or her share.

You will gladly do your part and encourage your neighbour to do his.

Remember YOUR purchase may be the one that decides whether or not your district is to be the proud possessor of the Prince's Flag.

The Prince's Motto is "I Serve"
Will You also Serve?

 "For three years, I was a terrible sufferer from *Dyspepsia* and my general health was very bad. I consulted a physician and took his medicine and faithfully carried out his instructions; but I did not improve and finally the doctor told me I could not be cured. At this time, a friend advised me to try 'Fruit-a-tives' and I did so. After taking two boxes of 'Fruit-a-tives', I was greatly relieved; and gradually this marvelous fruit medicine made me completely well. Footwear Prices Are Due for a Tumble.

New York, October 15.—Footwear prices are due for a tumble, in fact they have dropped twenty per cent. since the middle of August, and are going to take still another plunge after Christmas. J. F. McElwain, president of the National Boot and Shoe Manufacturers' Association said in an address before the Middle States Shoe Wholesalers' Association here last night. He said the consumer should notice these declines beginning next April as the shoe now being manufactured will not be marketed until that time. He said a falling off in the demand from Europe was responsible for the reduction.

The Canadian Express and the Grand Trunk Company have entered into an arrangement with the Handley-Page Air Service for carriage between Paris and London of millinery to be quickly carried to Canada direct in competition with New York services. Waging Big Fight Against Alcohol.

Paris, Oct. 15.—The fight against alcohol will be a leading plank of the national platform in the forthcoming election. Ministers are demanding the absolute suppression of alcohol and the walls of Paris and the larger cities are already placarded with these demands, and pamphlets and posters have been mailed by the hundred thousand to hotels and individuals in the Provinces.

London, October 15.—Mrs. David Lloyd George, wife of the British Premier, is taking a prominent hand in the prohibition campaign, addressing a meeting of 2,000 women at Glasgow yesterday. Despatches received here quote Mrs. Lloyd George as saying that the success of the campaign depended upon women.

It is the duty of women to help the victims of alcoholism at home, as it was to help the victims of Prussianism in Belgium five years ago, Mrs. Lloyd George is reported to have said. 'Scotland is on the eve of a great campaign, and next year the eyes of temperance reformers throughout the world will be focussed on Scotland. If Scot'and is won the victory will be a greater stimulus to the world to do likewise.'

There is one woman candidate in the Ontario elections. Mrs. J. W. Bunday is the Liberal nominee for seat 'B' in North East Toronto. Mrs. Bundy, who has the distinction of being the first woman to seek election to Parliament in Toronto, is President of the Toronto Women's Liberal Association, and is widely known through the Province as a social welfare worker.

There are said to be eight hundred thousand women voters in the Province.

Business Insurance.

Every industry, whether great or small, must build for present success and future expansion. Our biggest business enterprises have grown out of insignificant beginnings and their present success can be traced to their realization of the tremendous advantage to be gained by advertising—the accepted definition of which is 'business insurance'.

Take, for instance, Scott's Emulsion, this business was started nearly fifty years ago by two men without great financial backing, but they thought enough and believed enough in their preparation to know that the years to come would bring success, but they also realized that success could not come without publicity. Newspaper advertising was started, and has been continued, with the result that Scott's Emulsion is universally relied on as a tonic-food for children and adults of all ages. Its pure Norwegian cod-liver oil is prepared by the Scott & Browne process at their plant in Norway under their own supervision, where a large fleet of boats is kept employed during the fishing season. The livers are taken from the fish and the oil extracted by a steaming process. The crude oil is placed in air-tight casks and shipped to their refining plant at Bloomfield, New Jersey, where it is kept at a temperature of from 15 to 20 degrees above zero until used. This is probably the only plant in the country where oil can be refined in real Norway temperature insuring its absolute purity.

Notwithstanding the above facts, the makers are aware that the public has a short memory and to curtail on the advertising would invite forgetfulness, so rather than risk this forgetfulness they continue to pay the premiums on their 'business insurance' policy.

Scott's Emulsion will be found advertised in this paper, and if the makers think well enough of our publication to use it as their medium to gain publicity, consistent use of our columns will surely give standing and a definite asset for future expansion to others. The best way to protect business is through 'business insurance'—which is advertising.

Eight Canadian Memorials in France.

London.—Col. H. M. Hughes, C. M. G., will go to France to acquire ground for eight Canadian war memorials. Sites have been chosen at St. Julien, Observatory Ridge, Courcellette, Passchendael, Vimy Ridge, Amiens, Dury, and Bourlon Wood. The smallest is about 60 yards square and the largest 500 yards. The nature of the memorials has not yet been determined although the erection of towers is favored.

The Acadian's New Form

THE ACADIAN makes its appearance this week in a new form. This change is one that has been under consideration for some time and we trust will be approved of by our many readers. It is one of many that we hope to realize in the near future. The new form makes a smaller and easier read page and a better appearance, without the sacrifice of any of our reading space. The publishers have already received from readers of THE ACADIAN numerous expressions of appreciation. The handsome new dress which was provided just before the present publishers assumed control pleases our patrons. It is our aim to make the paper still more interesting and readable. THE ACADIAN has set the pace for progress in this town and vicinity since it was established nearly fifty years ago and it is not the intention of its present publishers to make any change in this regard. Our desire and purpose is to make a paper that will be a credit and real help to its constituency.

We wish to thank those who in a tangible way have given us assistance. There are still many outstanding accounts which ought to be paid, and the payment of which would be of real assistance to us just now. We are expending a good deal of money upon the business and plant, and at present prices the problem of finances is not an easy one. Many have come to our aid and their help is appreciated.

Our wish is to make THE ACADIAN a real newspaper and in order to do this adequately we solicit the aid of all the friends of the paper. When you have any real news do not forget THE ACADIAN. Write, phone or call.

The annual meeting of the Retail Merchants' Association was held at Halifax last week. At the opening meeting fine addresses were given by J. A. Banfield, of Winnipeg, president of the Dominion Board of the Association, and E. M. Trowern, of Ottawa, secretary of that board. Mr. Branfield emphasized the immense influence of the press. Like the live business man he is, he sounded the slogan, 'Publicity pays,' in the development of business. 'Get behind your newspapers' was the burden of his address delivered with true western pep.

Canadian Motion Pictures.

The first Canadian success in motion picture production, accomplished through the collaboration of strong Canadian financial interests, a cast of Canadian actors, and scenic splendor lent by beautiful Canadian locations, bids fair to demonstrate to practically every corner of the earth that Canadian motion picture production will be a significant factor in the future.

Under the title of 'Back to God's Country,' by James Oliver Curwood, the world's greatest living writer of animal stories who has devoted the greater part of his life to popular fiction about Canada, the picture will soon be distributed in the leading theatres of Canada.

Nell Shipman, screen favorite of inter-national popularity but who is especially known in Canada as the little Canadian girl born in Victoria, B. C., plays the leading role.

The greatest motion picture interests of the world regard the accomplishment of the Canadian Photoplays, Ltd., of Calgary, Canada, as one of the most remarkable of recent screen events. The First National Exhibitors' Circuit, Inc., through which organization 'Back to God's Country' will be distributed, anticipates a gross return on the picture equal to that on any of the most pretentious productions in the history of the industry.

In conjunction with the release of 'Back to God's Country,' a song of the same title, written as the musical interpretation of the feature, will be published by the Waterson, Berlin & Snyder Co., New York City. Words of this song number will be translated in three languages. Arthur Pryor, famous band director, is arranging the song as a theme to interpret the picture when it is shown at the Capital Theatre, New York. Pryor's band of seventy pieces will play the musical score of the picture at its New York premier. Paul M. Sarazan is the author and composer of the song number.

A second picture, entitled 'The Yellowback,' is now being produced by Canadian Photoplays, Ltd., and the third picture, entitled 'Nomads of The North,' will be adopted from the book published by Messrs. Doubleday Page & Company.

The aim of the company is to make three super-features per year and to give them special exploitation in all countries where the Union Jack flies.

**THIS WOMAN
SAVED FROM
AN OPERATION**

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my housework. I had the best doctors in Eau Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. Binzer, Black River Falls, Wis.

It is just such experiences as that of Mrs. Binzer that has made this famous root and herb remedy a household word from ocean to ocean. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities or "the blues" should not rest until she has given it a trial, and for special advice write Lydia E. Minard's Liniment Cures Burns, Etc.

Rheumatic People

CAN ONLY FIND RELIEF BY ENRICHING THE BLOOD.

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather of autumn may start the tortures of rheumatism, but is not the cause. The cause is in the blood and the blood only. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh and muscles; these are the symptoms of poison in the blood which may shortly leave the victim pain-racked and helpless.

There is only one way to cure rheumatism, and that is through the blood. Liniments, hot applications, and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by the rich, red blood which Dr. Williams' Pink Pills actually make. This new blood drives out the poisonous acids and impurities, and the rheumatism disappears. If you are a sufferer from this painful malady begin curing yourself to-day by the use of Dr. Williams' Pink Pills, and see how soon the pains and stiffness of the joints fade away, leaving behind new energy and new health.

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

The Gratuity.

Study a parliamentary committee is giving the problem of the returned soldier should result in practical and workable suggestions which both the country and men will find acceptable. Actuaries' figures establish that more than \$1,000,000,000 would be required to meet the suggestion of \$2,000 for each man, a clearly impossible sum for Canada to raise. Statements made by the Veterans' advisory committee through representative officials establish that the present schemes of help are both incomplete, inadequate, and discriminatory. Something better must be evolved, and the fairest proposal appears to be one based on length of service, although even that will leave something to be desired in the case of the men who got quickly to France, while others with a longer enlistment term never got near the firing line. The hearing has developed the willingness of the country to aid the men and the difficulty of deciding what is fair alike to the men and the country. It is recognized, however, that present plans fall short of meeting the requirements and must be enlarged to bring under consideration every deserving case.

Spoke Too Freely.

"You Americans are too frank, you do not look before you leap. That is why you are poor diplomats" said Lloyd George at a dinner in London recently. "In fact, diplomacy calls to mind the conversation I once overheard between two American gentlemen at a house party:

"Beastly bore, isn't it?" said the first.

"Yes. It is anything but exciting."

"I say old chap," added the first, "why not get away from the infernal place. What say if we jump into my car and take a run down to the club?"

"Sorry, dear boy, but I can't. You see, I'm the host."

Thrift in the Schools.

Increasingly insistent is the demand that the schools of this Dominion teach citizenship—that they equip the child to do the full duty of a good citizen. It is not forgotten that the schools have for generations done excellent work; but the experience of the last four years has brought the realization that a change in method and in subject-matter—a shifting of emphasis—is urgently required. A young man may be an expert in arithmetic, in spelling, in writing, grammar, geography, and every other subject on the curriculum and may, none the less, display qualities of brutality, injustice, wastefulness, and treason—may, indeed, be a bolshevik. An altered type of training, a new view of relative values, must come. A knowledge of the fundamentals on which rests the structure of democracy must be a part of all instruction worthy of the name. Education may make or mar a nation—it has done so in Europe and elsewhere.

What are the fundamentals? Honesty is one. Industry is another, and there are many more. Frugality is an important one, and one that is being overlooked in this new country. Canada was built on thrift, among other things—the pioneers were specialists in thrift.

Thrift is not hoarding; it is not miserliness; it consorts not with the pessimist. Thrift is intelligent care of money and resources, conservation for the future, wise and thoughtful spending. The thrifty man is an optimist, for he has stored up power.

And thrift must be taught in the schools. This will not add to the teachers' burdens, for every subject of study can be so taught that it helps to inculcate the practice of thrift. A Thrift Club in the classroom works wonders in the discipline of the school; it gives the pupils something worth while to talk about and something worth while to think about. United for a common aim, they learn esprit de corps. They come to know the value of money and the principles of business; they are imbuing the necessary preparation for citizenship. For the attractive investment of small savings, War-Saving Stamps afford an excellent medium. This plan has been highly successful in the schools of Great Britain, of the United States and of Canada.

Thrift taught in the schools encourages industry because children wish to earn so that they may save. And, more than ever in its history, this old world needs to go to work. Production must be increased. Produce, save, invest, must become the universal slogan.

A doctor came up to a patient in a lunatic asylum, slapped him on the back, and said: "Well old man, you're all right. You can run along and write your folks that you'll be back home in two weeks as good as new."

The patient went off gayly to write his letter. He had it finished and sealed, but as he was about to affix the stamp the latter slipped through his fingers to the floor, alighted on the back of a cockroach that was passing, and stuck. The patient hadn't seen the cockroach. What he did see was his escaping postage stamp zigzagging aimlessly across the floor, and following a crooked trail up the wall and across the ceiling.

In depressed silence he tore up the letter that he had just written and dropped the pieces on the floor.

"Two weeks," he said "I won't be out of here in three years."

A New Western Writer.

Robert Watson, who is on the staff of the Hudson Bay Company at Vernon, B. C., is a Scot who came to Canada some years ago and who last year captured the reading public with his breezy, wholesome novel of the Old Land and the New, 'My Brave and Gallant Gentleman'. He is continuing in the work of putting the Pacific Province into literature and this 'Fall there appears his 'Girl of O. K. Valley', a simon-pure romance full of charm of atmosphere and vigor of action, by an author whose stories of Canadian life and distinguished by refinement of style and sentiment and touched with warm humanity.

After a short time of poignant happiness with the young lover who has welcomed her to Okanagan Valley, the nets of treachery and intrigue are flung over Katie by her avaricious uncle and her jealous cousin Elizabeth. The solution of the mystery and the happy ending mark the author as a master of the Far North West adventure story.

As a character study of two girls, one blessed with aristocratic birth and bearing, and of delicate beauty of mind and body; the other a flamboyant arrogant young belle, this book will arrest the attention of all who admire vigorous, wholesome stories with a bit of mystery attached, and a lucky ending.

Canada Must Develop Real Community Music

The growth of the community music means many things. It means an endless source of pleasure to those who listen and far more to those who participate. It means a mighty stimulus to the love and understanding of good music. It means that at least we are beginning to weary of being entertained by others and means to create and perform our own music, through our own efforts. Most important of all, it means that Canada is discovering at last that she is a united nation and is expressing her joyful sense of unity in song.

Let us see that the children have their share in this national chorus. Let every village, town and city gather its young people and train them for a community chorus or orchestra. There could be no surer means of making them loyal to each other and to their country and of preparing a musical future for the nation.

The war has taught us for one thing, how to come together as a community for spiritual expression in song. We shall be the richer if we preserve and cultivate this practice.

What a Boy Scout Did.

During a race riot in the city of Omaha a few days ago a twelve-year Boy showed the results of his Scout training. When for the time being law and order had been cast aside in the community and the police officers were engaged in various parts of the city, battling with gangs of men and boys seized with the mob spirit, this twelve-year-old Scout stationed himself at a prominent intersection and directed traffic. He stayed on the job all night, and well into the morning. Traffic was tied up and congested in many parts of the city, but at this one corner it flowed along as smoothly as if an experienced traffic man was doing 'point duty.'

The lad in this case showed a lot more sense than most of his elders. There cannot be much wrong with the teaching which puts that kind of spirit into a boy.

A Woman's Influence.

So great is the mind of a sweet-minded woman on those around her that it is almost boundless. It is to her that we all go in seasons of sorrow and sickness for help and comfort; one soothing touch of her kindly hand works wonders upon the feverish child; a few words dropped from her lips in the ear of a sorrow stricken sister will do much to raise the load of grief that is bowing its victim down to the dust in anguish. The husband comes home worn out with the pressure of business and feeling irritable with the world in general, but when he enters the cosy sitting room, and sees the blaze of fire, and meets his wife's smiling face, he succumbs in a moment to the soothing influence which act as the balm of Gilead to his wounded spirits that are wearied by the stern realities of life. The rough school boy flies into a rage from taunts of his companions to find solace in his mother's smile; the little one full of grief with its large troubles finds a haven of rest on its mother's breast; and so on might go on with instance after instance of the influence that a sweet minded woman has in the social life with which she is connected. Beauty is an insignificant power when compared with her.

Few Bond Buyers Affected By Tax.

IT IS INTEREST THAT WILL BE TAXED NOT THE PRINCIPAL. There is a general impression abroad that the total amount of money invested by any one subscriber in the Victory Loan 1919 will be subject to taxation. This impression is erroneous. It will be the interest from the investment that will be taxed, not the principal invested.

As a matter of fact very few investors in the new loan will be brought within the scope of the Income War Act by reason of investments in Victory Bonds. With small estates and investors the law does not become effective under \$2,000 in the case of married persons or persons with dependents, and \$1,000 in the case of married persons without dependents. Municipalities and fraternal societies will not be subject to taxation investments in the loan at all. The interest from the bonds will not be more taxable than ordinary income, subject to the general law of the land.

The Visit of the Prince of Wales.

The Prince of Wales will end his Canadian tour in a few days much to the regret of all Canadians. He has certainly endeared himself to all who have had the good fortune to meet him. Every subscriber for 1920 is to receive a copy of the portrait free. The subscription price is \$1.25 a year including the Prince's portrait. To old and young, rich and poor, the Family Herald and Weekly Star is a great favorite and the publishers are to be congratulated in supplying such a handsome portrait of the Prince. As might have been expected the Family Herald and Weekly Star's circulation is increasing by leaps and bounds. It is in the highest sense a great paper.

Teething Troubles.

Baby's teething time is a time of worry for most mothers. Baby's little gums become swollen and tender; his bowels get out of order and constipation, colic or even diarrhoea sets in. To make the teething period easy Baby's Own Tablets should be given the little one. They sweeten the stomach; regulate the bowels and keep baby good natured. Concerning them Mrs. Marcel D. LeBlanc, Memramcook, West, N. B., writes: 'I have used Baby's Own Tablets for the past six years and have found them indispensable. To my mind nothing can equal them in allaying the fever accompanying teething. I would not be without them and can strongly recommend them to other mothers.' The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Don't forget the Halloween Barn Dance at the Rink, Friday, Oct. 31st. Good floor, music, eats, etc.

A Good Appointment

Mr. R. W. Tufts, of this town, who has followed the study of ornithology for many years, is being congratulated on having just received an appointment from Ottawa under the Dept. of the Interior, as Migratory Bird Warden for the Maritime Provinces, with a competent staff to assist in the work. The ratification of the international treaty between Canada and the United States, with reference to migratory birds, marks a new epoch in bird protection and should receive the enthusiastic support of all bird-lovers and true sportsmen.
