Quickest, Surest Cough Remedy is Home-Made

Easily Prepared in a Few Min-utes. Cheap but Unequaled

Some people are constantly annoyed from one year's end to the other with a persistent bronchial cough, which is wholly unnecessary. Here is a home-made remedy that gets right at the cause and will make you wonder what became of it. Get 2½ ounces Pinex (50 cents worth) from any druggist, pour into a 16-ounce bottle and fill the bottle with plain granulated sugar's syrup. Start taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It also loosens the dry, hoarse or tight cough and heals the inflammation in a painful cough with remarkable rapidity. Ordinary coughs are conquered by it in 24 hours or less. Nothing better for bronchitis, winter coughs and bronchial asthma.

This Pinex and Sugar Syrup mixture makes 16 ounces—enough to last a family a long time—at a cost of only 54 cents. Keeps perfectly and tastes pleasant. Easily prepared. Full directions with Pinex.

There is a special and highly concentrated compound of genuine Norway pine extract, rich in grafacol, and is famous the world over for an ease, certainty and pronu thess in overcoming bad coughs, cheef in throat calls.

One of the better of the cause and will make a great change in the practice of a composition for filling cavities in human teeth, which it is said will make a great change in the practice of dentistry, has been made by Dr. C. C. Vogt, a prominent chemist and holder of a fellowship in the Mellon Research Institute at the University of Pittsburg, it was announced to-day. The new composition is said to have the plasticity of cement, the appearance of porcelain and the stability of gold, and is the result of two years' constant work on the part of the discoverer.

Careful inquiry into many thousand of cases of pneumonia shows that this disease usually attacks the person who is tired and worn out, and who is therefore lacking in resisting power.

In this letter is described a case in which the patient was in the greatest danger of contracting pneumonia or some similar disease, but fortunately she sought the aid of Dr. Chase's Nerve Food and was soon restored to health and strength.

So the Terra Novas are champions after all. We congratulate Captain Tobin and associates on their hard earned and well deserved victory. They are a strong aggregation of stick-handlers and noted as fast skaters. The Victorias proved them, selves to be vigorous opponents and gave a creditable performance last evening. The receipts of the game, we hear, were the biggest for the season.

MINARD'S LINIMENT CURES DIPH

The Llewellyn Mysteries.

Those whose pleasure it was to be at Canon Wood Hall last night enjoyed the time of their lives, for the Llewellyn Mysteries were out in great form and gave the best entertainment that has been shown in the city for many years, as was evident by the continuous applause throughout the performance. The entertainment was in the form of a minstrel show. All the old-time Southern songs were sung: Old Black Joe, Jauanita, Old Kentucky Home, solos and choruses were admirably rendered. Considering the fact that the Mysteries have but quite recently been organized, ing the fact that the Mysteries have but quite recently been organized, their performance last night was really remarkable. It is hoped that in the near future we shall have the privilege of seeing them again. Previous to singing God Save the King, "La Marsellaise" was heartily sung. At the conclusion of the performance a gathering of the Mysteries took place, songs and speeches were given by several of the members.

The mighty struggle around Verdun is declar-ed by some to be the greatest battle in the Germans have made some progress, but comparatively small in proportion to the munition expended and the lives sacrificed. After a fortnight's struggle, the French seem to have obtained the mastery of the German at tack and a state of quiet confidence in their ability to ward off further at tacks has ensued. This ability of the French is an indication that the Entente has reached the turning point tente has reached the turning point in the struggle, and the length of time needed to smash Prussian militarism will depend on Men, Money and Munitions. At home the people are fully alive to this and every effort is being made to see that the Entente are well supplied with men. A great movement is under way there among women to relieve men, particularly single men from the farm, workshops and offices, in order that they can fit them. fices, in order that they can fit themselves to take their places in the ranks at the front. The Dominions are all making great efforts to send as many men as possible. In Newfoundland, the new recruiting movement has taken root and a reference to the columns of the daily press will show that men Grand Falis has given a good lead, and many other places are showing a disposition to follow. It is the duty of every young man to answer the call, and it is the duty of fathers and mothers not only not to discourage them, but to do all in their power to encourage them to do their duty. CURED ECZEMA

The little son of Mrs. W. Adams of 489 La Salle Road, Verdun, Montreal, suffered for five years with the worst form of eczema. Mrs. Adams tried everything—took the child to various hospitals, where he received the best possible medical treatment, but of no avail. The doctors said the case was incurable! Then she heard of Zam-Buk and used it, with the result that to-day the child is completely cured of the terrible disease.

Mrs. Adams writes: "The cruption started on the child's neck, and spread rapidly until his body was entirely covered. I first took him to a hospital for the treatment of the skin, but instead of getting better the cruption got worse. better the eruption got worse. incurable.

Five years had now elapsed since the eruption had first appeared, and I feared the doctors were right! Some one advised me to try Zam-Buk, and it was so highly spoken of that I determined to do so. A few weeks after I commenced using Zam-Buk I noticed a decided improvement. This was so encouraging that I continued the treatment. Gradually my boy got better and better, until, after four months of Zam-Buk treatment, he was entirely cured and his skin was absolutely clear. I cannot tell you how grateful I am for what Zam-Buk has done, and I shall never be without it."

NAVAL ACTIVITY IN BALTIC EX-

Certain somewhat vague persistent rumours, which have been circulated here several days by word of mouth, regarding the North Sea war zone, have created a state of expectancy among Londoners. This has been heightened by despatches received from Scandinavia to-day predicting a battle between British, Russian and German warships as not far distant. The Russian torpedo boats are report-The Russian torpedo boats are reported to have been seen near the Island of Exelsund in the Baltic, south of Stockholm. The general opinion in Scandinavia is said to be that Britain and Russia will intercept the German sailings from Sweden as soon as the ice is melted. The ice is al- an opposition bench. It is understood as the ice is melted. The ice is al-ready partly broken up and thus ren-dered it easy for forcing. > WOMEN AND FARM WORK. LONDON, To-day,

Britons are coming slowly to a realization of the country's needs, declared Walter Hume Long, President of the Local Government's Board, addressing an inauguration of women national and land service corps, which intends to undertake agricultural work, during the absence at the front or in Government employ of men in British Isles. Long declared the Government required the co-operation of all classes. He heartily approved of the women's movement which, he said, meant that women would now take even a larger share in the defence of the country. We want soldiers, said Mr. Long. The movement means to have sufficient soldiers. We are getting them, but we also want to keep the land cultivated and to obtain a maximum output, so that we may assist out the overseas trade. There is a wide-field open for women's activities. Women have proved themselves capable of work which before the war they were thought unfitted to perform, and it is the farmer's patriotic duty not to employ single men, who can be spared for more important work. The Government announced the intention to employ corps for the purpose of training women for agricultural purposes.

The steamship service between this port and Fleetwood and Heysham in England were suspended last night, owing to a strike by the crews of the Yoke and Overskirt, and with Sleeve in either of Two Lengths.

Dotted Swiss with "Val" lace and insertion is here shown. The design is good for any of the soft fabrics now in vogue, batiste, crepe nun's veiling lawn and dimity. It is also nice for silk and cashmere and other lightweight woolen goods. The waist may be finished with the yoke portions, which could be of contrasting material, or it may be cut low as in the large view, and have the new sleeve with flounce. The long sleeve is nice if warmth is desired. It is finished with a deep cuff, that could be made of material to match the yoke. LIGHT, HEAT, COMFORT!

The proprietor of one of the best known multiple shopping systems is credited with saying, "Give me any old shop, in any old street, and I'll guarantee to make it in twelve months the most widely known and best frequented shop in the district." He was asked to explain. Holding up three fingers he said, "I believe in the trinity of LIGHT, WARMTH, COMFORT. I should dazzle the moths until the candle drew them, I should bring them into a warm, comfortable shop, filled with a soft, pleasing radiance, and the rest is-well, mere child's play."

Mixed metaphors, perhaps, but expressive. Now we can more than imagine the kind of shop this well-known individual would open, for we pass it in almost every town—always a landmark to the street. No one fails to notice it. There is an indefinable of welcome and invitation as one stands for a moment on the pathway and lets one's gaze travel inside it. The subdued restful lighting effect that so charms because of its very unobtrusiveness, the absence of dark corners, the intangible feeling that if one would step inside one would be sure of experiencing a delicious sense of warmth and comfort and cheerfulness-all these are part of its appeal. Truly a shop with an

LONDON March 6. LONDON, March 6.
An important movement of German roops in Belgium is reported in a despatch from the Hague. It is said that information has been received at the Hague from Macstricht, Holland, that 40,000 German cavalry men of the Landstrum are on their way to the front near Ypres.

Irom the north of England were late in reaching London, having remained stationary while the raid was in progress. In some counties official warning of the approach of the Zeppelins was given, and the usual precautions taken. A correspondent on the East Coast says: The approach of the dirigibles from the northeast was in progress. heralded from ships that, immediately afterward, were sky-lighted by incendiary bombs. Then came terrific thuds of explosive bombs. Houses were shaken to their foundations. Snow had been falling fast, and the people crowded into the snow-clad streets.
