MINARD'S LINTMENT FOR HEAD-

ACHE.

Reichstag Adopt All Bills Connected With Dawes Report

U. S. Fliers Reach Greenland in Twelve and Half Hours - Astronomer Declares Mars Habitable - Prince Leaves for the West To-Morrow.

HOPPED OFF AT 8:15 YESTERDAY.
REYKJAVIK, Aug. 21. The United States patrol about fliers and Lieut. Locatelli, Italian pilot, hopped off from here at 8:15 o'clock this morning.

LOCATELLI IN THE LEAD.
REYKJAVIK, Aug. 21. The fliers passed the United States flier Richmond, on patrol about seven miles off the coast from Iceland, at 9:35 o'clock. Lieut. Locatelli was leading his companions, Lieutenants Lowell H. Smith and Erik H. Nelson, by five miles.

FLIERS REACH GREENLAND.
HALIFAX, N.S., Aug. 21. Radio advices here at 9:45 to-night announced the safe arrival at Greenland of the two American world-endurance fliers, ending their 825 miles hop from Iceland. The Italian flier, Lieut. Locatelli, was not mentioned. The time of arrival was given as 11:10, presumably Greenwich time. The two machines landed almost together.

ADOPTED BY THE REICHSTAG.
BERLIN, Aug. 21. The Reichstag to-night adopted all the Legislative Bills dealing with the Dawes report.

PRINCE HAS NO PUBLIC ENGAGEMENTS.

LONDON, Aug. 21. The Prince of Wales has no public engagements of any kind during the brief period which remains before his departure for the United States and Canada on the Berengaria, on Saturday, August 23. Although it has been made known that the trip is unofficial and in the nature of a recreational holiday, the Prince has had numerous invitations from different parts of Canada to attend functions of various kinds. Some of these it would be impossible to accept because of the date, apart from other considerations. Some of the larger eastern cities will certainly be visited on the way from the west, but the dates are still too uncertain to make acceptance of invitations to definitely fixed functions practical. The meeting of the Prince of Wales and President Coolidge of the United States is a definite fixture but will be stripped as far as possible of all formality.

AGREEMENT BEFORE FRENCH CHAMBER.

PARIS, Aug. 21. Premier Herriot put the Dawes reparation plan and the London agreement for making it effective before the Chamber of Deputies this afternoon and told the members, "I, for my part, have chosen, but nothing final has been done and Parliament in its turn can choose." The evacuation of the Ruhr, the Premier said, "had dominated everything at the International Conference in London and he had to choose between the re-establishment of the inter Allied Entente and a continuance of isolated action."

HAVRE STRIKE OFF.

HAVRE, Aug. 21. The dock employees who went on strike recently, returned to work today on the terms of the Company.

BIG HEADLINES FOR THE NEW ARRIVAL.

LONDON, Aug. 21. The afternoon papers devote long stories with big headlines to the news from Goldsborough of the birth of a second son to Princess Mary, daughter of King George, and wife of Viscount Lascelles. There are long descriptions of Goldsborough Hall and its surroundings and mention of the fact that King George and Queen Mary recently visited their daughter there but left for Scotland before the event occurred. Some of the newspapers record Goldsborough Village Gossip to the effect that the Princess made friends that her second child would be a daughter, but that Viscount Lascelles had desired another son as playmate for his heir who is

Domitian, is provided for in the new immigration agreement which has been concluded between Hon. James A. Robb, Minister of Immigration, and the British Government. Under the agreement the British Government provides all money for equipment and sailing which will total between four and a half and five million dollars, the settlers to repay the amount expended over a period of from five to twenty five years.

Glad to Know It

"I certainly am glad to know that Pearlina can be had here again," said a lady in C. F. Egan's store the other day. There are many women who will be pleased to hear that the great washing powder—Pearline—can be obtained locally again. "Pearline is the best of them all" said a grocer a few days ago and "I find it the easiest washing powder to sell." If your own grocer hasn't stocked Pearlina yet ask him to "phone the local agent, Gerald S. Doyle, for immediate stocks.—B

SAYS MARS IS INHABITED.
SAN FRANCISCO, Aug. 21. Capt. See, professor of mathematics in the United States Navy, and Government astronomer at Mare Island, in a statement made to-day said that astronomical research has proved beyond doubt that Mars is a habitable planet and therefore it is inhabited by vegetable and animal life of some kind. Of that opinion he is certain, all other details are speculative, according to his statement. "The chemical elements in Mars are the same as upon earth; the electrical, atomic and molecular forces are similar in all respects; all physical conditions are the same, therefore Mars and Venus are habitable like the earth, and therefore also inhabited like our own globe. The canals of Mars most likely are vegetable banks along water-courses."

Presentation and Address

Last night a farewell address and purse of gold was presented to Mr. Herbert Taylor, Supt. of Wesley Sunday School, by his co-workers. Mr. Taylor and his family leave shortly for Everett, Mass., which will be their future home. At 8:30 supper was served, and this was followed by a programme of solos, readings and addresses by officials of the school and congregation. A farewell address was read by the Secretary of the School and Assistant Supt., Mrs. Robert Joyce, presented Mr. Taylor with a purse of gold, as a token of appreciation of the splendid services he had rendered the school. Associated with Wesley Church for the past twenty-five years, Mr. Taylor has rendered valuable service in every branch and his departure will leave a void not easily filled. His many friends wish him every success in the land which he is about to make his home.

Municipal Council

WEEKLY MEETING.
The regular weekly meeting of the St. John's Municipal Council was held yesterday afternoon. Mayor Cook presided and the full Board of Councilors were present.

A communication was read from the Inspector General in the matter of the application of Messrs. James Baird, Ltd., for permission to erect oil tanks at their water-side premises, in which he stated he had no objection to permit being granted and that the erection of these tanks would be a decided improvement and safeguard as against the present method of handling oil at this premises. It was ordered that permit be issued accordingly.

The Imperial Oil Company, Ltd., called attention to the need of having the Southside Road repaired. This was referred to the City Engineer, as also the communications read from Mrs. Mary Sphire, Pleasant Street, M. Walsh, Hamilton Street, and the residents of Monroe Street, complaining of the conditions of gratings and hoppers in their respective localities and asking that something be done to remedy same.

W. J. Grounchev asked that a light be placed on Blatch Avenue. This was referred to the Lighting Committee.

The application of Mr. A. Power for lease of land, Cavell Street, was granted; rental to be the same as at present paid by property owners in the vicinity.

The contract for the supply of C. I. Pipe was awarded Messrs. Walter Clouston & Sons.

PLANS
The following plans were passed, subject to the approval of the City Engineer:

Dwelling, Miss O'Regan, Catherine St., Garage, F. Foley, Central Street, provided ventilator is installed. Permit was withheld from H. Mott, for the erection of a garage on Barnes Road, pending report from the Inspector General with regard to same.

The notice of motion given by Councilor Outerbridge at the last regular meeting, with reference to Taxi Cab Drivers, was passed by the Council. The Medical Officer of Health reported one new case of Scarlet Fever and one Typhoid in the city during the past week.

With the reading of the reports of City Engineer, Sanitary Supervisor, etc., and passing of accounts, the meeting adjourned.

CONFESSED TO INCENDIARISM.
NEW YORK, Aug. 21. A self-styled "Dr. Jenkyl and Mr. Hyde," an unassuming youth of 26, has blantly confessed to the police he has caused over 100 incendiary fires in Manhattan Island in the last few months, just to see the fire engines in action. "It was lots of fun," he explained with a smile, "to stand in front of a burning house and know that the people running from the place so madly didn't know that the one who had made all the excitement was right there looking at them."

ASSOCIATION OF FASHION

Founded in 1878 by W. J. Heister. The Evening Telegram THE EVENING TELEGRAM, LTD. PROPRIETORS.

All communications should be addressed to The Evening Telegram, Ltd., and not to individuals.

Friday, August 22, 1924.

Charity Thinketh No Evil.

A discourse delivered by Rev. R. E. Fairbairn to his congregation on Sunday last and published in the Daily News on Tuesday was in the nature of a severe criticism of the measure which has superseded the Prohibition Act and of those who approved of it.

As to the question of naming public men from the pulpit we leave it to the good judgement of the reverend gentleman to decide whether it was fair, whether it was warranted, or whether it served any good purpose.

The analogy chosen by the preacher, in which those who support the prohibition act are the chosen people, and those who think otherwise are the Philistines, is quite consistent with the attitude adopted by the extreme prohibitionists throughout the controversy.

We had an Act under which the law itself was brought into disrepute, not only in Newfoundland, but in every country where it had been tried.

with prohibition legislation in one of his lectures in the United States, stated the case clearly and concisely, and it is not necessary to concur with him in his political views in order to admit that he possesses a keen intellect, and ability to distinguish between legislation which is sound in principle and legislation which from its nature and origin is fallacious. He says:

"Surely the results so far as they have up to the present emerged from this experiment justify the conclusion that where one is dealing with self-restraining actions, the only moral conceptions which are either valuable or attainable are those which are imposed upon conscience through conviction; and that a law which intolerantly imposes upon adult citizens an abstinence which they dislike, by proscriptions which they consider tyrannical, can never effect a permanent improvement in human morals."

The preacher in expanding the curious illustration which he chose for his text declares:

"Let those who propose to add to their wealth through the debauchery of the people take care how we come near to the pillars of their house!"

Here is an accusation and a threat. Those who do not see eye to eye with the prohibitionists have an ulterior motive to serve! They have a direct financial interest, and all the forces which the former can command will be brought to bear to bring about their destruction!

Has the preacher forgotten the motive which prompted Samson to seek an occasion against the Philistines? And were not several of his exploits prompted by vindictiveness, or by passion aroused because of frustrated desires? Surely not even the most ardent advocates of the Prohibition Act will feel flattered at the suggestion of any resemblance between their case and that of this very questionable character.

That the terms of the manifesto gave no hint of such outrage is obvious, in that some even of Mr. Monroe's own candidates did not understand it. That his own constituents did not realize this will, I think, be made abundantly plain even to Mr. Monroe, in the near future."

The above contains a statement which is not by any means substantiated by the true facts of the case, and another threat, which savors strongly of politics, is used and is somewhat out of place.

Here again is an assumption which might well be considered libellous, were it not for the fact that the names of those against whom the charges are levelled are omitted:

"Now that the friends of drink, and those who would profit through drink, are in power, they must not be cheated of their prey, through any dallying with the judgement or conscience of the people."

Upon what grounds are such accusations made? We cannot but feel that all right thinking people, prohibitionists and anti-prohibitionists alike, will agree that such charges are unwarranted and do little to help the cause advocated. The speaker repeats the accusation further on, and cannot therefore be excused on the plea of impulse.

"Love, Hate and the Woman." Laugh, you can't help it after seeing the scream of a comedy "You Couldn't Blame Her." The audience roared. It was a comedy which compelled folks to forget all troubles. The feature "Love Hate and the Woman" was all that the name implies. The star Grace Davison won not favour in her extraordinary role; the same show is repeated to-night also to-morrow when every movie fan is urged to be present. Monday will see another high class feature at the Majestic particulars of which will be announced in the Evening Telegram.

The Act Respecting Alcoholic Liquors

Elsewhere in this issue will be found in full the Statute which supersedes the Prohibition Act. In order to discuss any question, it is first of all necessary to be familiar with the details, and we feel certain that the public will avail of its publication to read, mark and learn the contents for themselves.

Pearline for easy washing. Lord Birkenhead, in dealing

PEPY'S BEHIND THE SCENES.

August 19th.—This day the House closes with all due ceremony, and was indeed a more momentous session than many did expect, being much important legislation. Of this, the chief was the repeal of the Prohibition Act, and the Gender resolutions also of the highest importance. Indeed, it is the hope of all that the country may show the greatest possible improvement when the House again meets, as it will in the winter.

August 20th.—This a whole holiday, and the weather being fine, Povey would have me go with him to Bell Island, where he must go on business. So coming to the Island by way of Portugal Cove, to go down to the Mines, where Povey, transacting his business, to prepare to make a trip down the submarine mine which Mr. Lindsay arranges for us. He takes us to the mines office, and there presents us to Mr. Gray, who gives us overalls and rubber boots, and even caps with carbide lamps in them so that we are made into typical miners, much to our amusement. So to board a great ore car which takes us down into the depths of the earth, a mighty strange experience, and much colder than I did expect to find it in the lower regions. Naught to be seen on the trip down, all being darkness, and we very pleased when we did reach the work level which are more than two miles from the surface, and are some 300 feet below the bottom of the sea. Mr. Gray conducting us, we spend a most profitable 2 hours in the mine, having all things explained to us, and indeed, my head so full of knowledge of the mines that it was night bringing with it. So at last, back to the surface again, and finally to see ourselves, all covered with red dust and like to take much scrubbing to remove it. Anon to say goodbye to our friends and to hurry back to the city.

August 21st.—Up betimes and abroad, the weather warm. So to the office where I pass the morning being much work to be done. Next day of the world's fiers, they leaving Iceland, and do arrive at Greenland at a late hour of the night, and are nigh to the completion of their flight, for which the greatest credit is due them. My wife this day in the worst possible humor, and tells me I no longer love her spending more time in the company of Povey than I do with her. I to let her wretch rave however, being in no mind to appease her in the way she did wish me, since my account at the banque is grown mighty slim.

Address On Cod Liver Oil The address at the Rotary Club luncheon given by Mr. E. M. Johnson, who has been for some time engaged in research work in connection with the medicinal properties of our cod liver oil, is unavoidably held over and will appear in the Telegram to-morrow.

Successful Musicales IN AID OF SUNSHINE CAMP. A most successful musicale was held at the residence of Miss May Furlong yesterday afternoon in aid of the Sunshine Camp for the poor children of the city. The following ladies kindly contributed to yesterday's programme:—Songs by Messdames Warren, Gomez and Browne, Misses Herder, Hutchings and Ryan; piano solo by Miss Tait, who also acted as accompanist, also recitations by Mrs. Sharon Cliff, and Miss Mary Keegan. The amount realized \$120.00.

Personal Miss Edythe Bright, daughter of S. and Mrs. Bright of Colonial St., leaves by S. M. Maglo for Labrador, to resume itinerant missionary work with the Rev. Henry Gordon.

Miss Mary Russell who, after spending two months vacation with her brothers, E. J. Russell of the Royal Stores, and William J. of Ayre & Sons Grocery, leaves by the Silvia Saturday for her home in New York. Miss E. Emberry will leave by Silvia for New York to-morrow after a six weeks vacation with her brother, Mr. Jas. Emberry, Torbay Road.

TO-DAY'S MESSAGES. RADIO STATIONS WARNED TO STAND BY. WASHINGTON, D.C., Aug. 22. Powerful radio stations of both Army and Navy Department are standing by from midnight last night to 8 a.m. Monday to "listen in" for possible signals from Mars. Admiral Sberer, chief of naval operations last night issued order to naval stations, including those in Honolulu, Balboa, Canal Zone, San Juan, Sitka, Alaska and Cavite, Philippine Islands. A similar order was issued to army stations earlier in the day by the War Department.

TO-DAY'S MESSAGES.

WASHINGTON, D.C., Aug. 22. Powerful radio stations of both Army and Navy Department are standing by from midnight last night to 8 a.m. Monday to "listen in" for possible signals from Mars. Admiral Sberer, chief of naval operations last night issued order to naval stations, including those in Honolulu, Balboa, Canal Zone, San Juan, Sitka, Alaska and Cavite, Philippine Islands. A similar order was issued to army stations earlier in the day by the War Department.

IS IT MARS?

VANCOUVER, B.C., Aug. 22. Mysterious signals, picked up at Ft. Grey Wireless Station here during last week culminated yesterday in a strange group of sound which caused wireless experts here to wonder if planet Mars is trying to establish communication with the earth. Four distinct groups of four dashes each came through ether globes, the operators stated. Signals were in no known code. Starting on a slow note and ending with "zip" and neither spark nor continuous wave is responsible for sounds. A close watch is to be kept for the next few days, and it is expected eminent British scientists who will be here next week will be asked to devote some time to the phenomena.

BELGIANS TO SIGN AGREEMENT.

BRUSSELS, Aug. 22. The Belgian Ambassador to Great Britain, acting as representative of his government, will on August 30th sign the Dawes plan agreement which was drawn up at the International Conference, it is announced.

RECEIVES REWARD.

TORONTO, Ont., Aug. 22. Edward Bennett, partner of Charles Matthews, former Deputy Treasurer of Ontario, in the quick lunch business in Santa Clara, Calif., has received the complete reward of \$2,500 for giving the Ontario Government information which led to the arrest and deportation of Matthews on the charge of violating secret commissions act.

NO WORD OF LOCATELLI.

REYKJAVIK, Iceland, Aug. 22. The delayed American armistice world fiers have negotiated the hazardous hop from Iceland to Greenland, arriving safely to night at Frederiksdale their goal near Cape Farewell on southern tip of Greenland coast. Lieut. Lowell Smith, commander of the flight landed at 6:10 p.m., and Lieut. Erik Nelson at 7:15. The aircraft left here at 8:15 o'clock this morning. No word as yet been received as to the landing of Italian aviator, Lieut. Locatelli, who accompanied them on the flight.

A TRIUMPH FOR FRANCE.

PARIS, Aug. 22. Premier Herriot to-night won the assurance of a favorable vote in the Chamber of Deputies on the London agreement after he had read a long declaration defending his negotiations at the London Conference. The danger that the Senate would take hostile action seemed very remote. The Chamber sustained the government by a vote of 320 to 209, in deference to a motion to refer the London Accord on the Dawes' Plan to a commission with the understanding that Herriot sign it first, and that Parliament would debate the question or ratification later, on the theory that the agreement is a new treaty outside the Versailles Treaty. It was the only chance the Premier said, and a months' work of experts could not be expected to re-

Magistrates Court

A domestic servant appeared before court charged with the larceny of \$20.00 of the property of her employer. Within the past six months. Sentence was suspended.

A woman belonging to Southern Hr. P.B., who has been taken in by the police on different occasions for safe-keeping, was charged this morning with being loose and disorderly. Rather than send her to jail, arrangements were made to secure lodgings for her at the Salvation Army Rescue Home.

A resident of Spaniard's Bay who has been collecting subscriptions during the past six months for a man who had his home destroyed by fire, was charged with misappropriating some of the funds and diverting them to his own use. The defendant admitted his guilt and promised to make good the amount.

A taxi driver, summoned by Sgt. Stapleton for driving a motor car on the public highway at a speed dangerous to the public, was convicted and fined \$25.00, or in default 30 days imprisonment.

The case against a resident of Water Street West for a breach of the Prohibition Act was dismissed.

establish equilibrium. He had brought back, however, a system substituting practical methods for generalities and taking the reparations problem out of the political and placing it in the economic field. The changes thus obtained were France's gain. Never again, the Premier proclaimed, could France have had a majority vote of the reparation commission for anything feasible in the Ruhr operation, so he chose realities instead of illusions, and felt that the keystone of arbitration was a triumph for the French.

DAWES PLAN APPROVED.

BERLIN, Aug. 22. The Reichstag consisting of members of the governments of the Federated States to-night adopted all the Legislative bills dealing with the Dawes Plan. Before the vote was taken on the representative of Mecklenburg Streets declared that his government disapproved of the London pact and requested him to vote against the bills. The bill relating to the Bank of Emission was then adopted together with the other bills. That regarding the railways involving a change in the German Imperial constitution was adopted by the requisite two-thirds majority, the representatives of Bavaria, Wurttemberg and Thuringia abstained from voting.

Prohibition Case Dismissed

The postponed case of a resident of Water Street West charged with selling hop beer overproof, was concluded before Judge Morris this morning with a dismissal. The charge against the complainant was laid in June last by Sergeant Stapleton, but for one reason or another has since been postponed. Analysis showed that the beer was one quarter of one per cent. over the strength allowed by law. Mr. Brown appeared for the defendant. Judge Morris summing up stated that it was not the impossibility of carrying out the Prohibition Act that he was continually commenting on, but rather on the fact that there was no discrimination left in the hands of the Judge who was trying the case. In the case of a man convicted for selling hop beer which contained 25% over the standard he had to be fined, for a first offence the same amount as the most notorious bootlegger or moonshiner, also up for the first time.

Government Boats

Kyle, no report arriving Port aux Basques.

Sagona left Port Saunders 8.45 a.m. Inward. Sunday's express connects at Humbermouth.

Portia left Hermitage 7 a.m. Sebastopol at Argentinia. Sailing after arrival of to-day's train.

Argyle left Lamaline 7.30 a.m. Saturday's train connects for Bay.

Malakoff left Port Union 6 a.m. for Trinity Bay.

Prospero left Exploit 3.30 a.m. Coming south.

Meigle arrived in port from Labrador at 12.25 p.m. Wren, no report.

BORN. On August 19th, to Mr. and Mrs. T. Croucher, McKay St., a daughter.

DIED. On Aug. 22nd, at the Sanatorium after a long illness, John Thomas, eldest son of the late William and Catherine Rossiter, aged 16 years, leaving a mother, father, 2 brothers and 2 sisters to mourn their sad loss. Funeral on Sunday at 2.30 from his late residence 35 Wickford Street. Friends and relatives please attend without further notice. May the Sacred Heart of Jesus have mercy on his soul.

Dinah Maidment, widow of the late A. J. Crocker, aged 78 years. Funeral on Saturday at 3.30 p.m. from 2, Duckworth Street.

Passed peacefully away, James J. Mayo, in his 75th year. Funeral on Saturday at 2.30 from Carmel's Mortuary Rooms, Duckworth St., friends will please except this the only intimation.

On Thursday, Aug. 21st, Benjamin Murphy, (Cooper), aged 74 years. He leaves three daughters and one son in the United States, and one daughter, Mrs. Henry Skinner, of this city. Funeral will take place from his late residence, 38 Brine Street, on Saturday at 2.30 p.m.

Passed peacefully away, after a long and painful illness, at Bellevue Hospital, New York City, on August 20th, William J. Barnes, son of the late William and Johannah Barnes of this city, in his 69th year. Funeral notice later. May the Sacred Heart of Jesus have mercy on his soul.

NOTE OF THANKS.—Mrs. Robert Meaney desires to express her sincere thanks to all kind friends who so willingly helped her in the recent illness and death of her dear father, Ernest Kosh, especially to the following:—Mrs. Keegan, Gaynor and Fox of the General Hospital, also the Nurses of Carson Ward, Drs. Carnell, Knight and Mitchell, Rev. Fr. St. John, Mr. and Mrs. John Murray, Mr. and Mrs. George Robinson, Mrs. Alfred Snow, Mr. and Mrs. John Hurley, Mrs. Patrick Kavanagh, Mr. Michael Bradley, also the following for wreaths: Mrs. James Clarke, the members of the Cadet Football Team. Special thanks to Mrs. John Murray and Mrs. James Clarke for kind attendance to him during his illness.

Mr. Merchant: Next to failure to stock "ARMADA" Tea, the gravest merchandising error is not stocking enough! Its popularity is growing because it satisfactorily meets the demand of people who want "something different" and who appreciate the paramount quality of the choicest high-grown it is possible to procure in Ceylon. At all Good Stores

Obituary ALICE MIRA CHURCHILL. On Monday, Aug. 11th, death visited the home of Mr. Albert Churchill of Hodge's Cove, Random South, taking away his only child, Alice Mira, at the early age of 20 years, 7 months. The deceased was only eleven months old when her mother died, and as soon as she became old enough, took up the duties of housekeeper for her father, which duties she faithfully performed until a short time before her death. Even during her illness which lasted but a year, she struggled to care for her father, who she loved very much. The many sheaths that covered her casket, and the many young people who lingered weeping by her grave side showed how much Alice Mira Churchill was loved by the people of her home village. Our sympathy goes out to the lonely father, who without wife or child continues his journey alone. His beloved daughter found a friend in Jesus, who bore her safely thither, and she expressed a wish that her father too would seek and find this Friend, so that in his lonely hours he may find comfort, and meet his beloved ones in the end.—A.N.H.

G. Knowling, Ltd. Shipping. S.S. Meta has cleared from Harbor Grace taking a cargo seal oil and skins for Murray & Crawford, Glasgow. From Cape Race. WINDY, light, weather dull, proceeded by fog; a steamer was heard passing west at 4 a.m.—Bar. 30.2 Ther. 62. RICHARD HUDNUT'S THREE FLOWERS VANISHING CREAM. BAND CONCERT—To-night, by Methodist Guards' Band, Victoria Park—August 21st.

Most Powerful Magnet Used Experiment. The most powerful magnet in the world, used in the laboratories of the University of Cambridge, is now available in St. John's. It is a powerful magnet, and is used in the laboratories of the University of Cambridge, in the laboratories of the University of Cambridge.

Workman Walk Across Greenland. Construction of a suspension bridge across the strait between the two islands of St. John's and St. Peter's. This great project will bridge across the strait between Poughkeepsie and St. John's. Its total length will be 1.5 miles.

Miniature Fire-Files. A miniature workman motorized book and filed by hand out of the Jersey City, N.J., U.S.A. It was modeled after the motor equipment department of the only difference being the motor engine employed.

The Spectrometer. The spectrum, the astronomer's tool, play an important part in the industry. In the method of spectral analysis—a method perfected by Bureau of Standards—a number of industries of valuable new aids in purities in metal alloys, success in detecting boiler explosions, purity standards in platinum, rhodium and ladium.

WANTED—women; apply Royal Bank of Canada 9 and 10 a.m.—THE TRAINS. bound express letters. Mrs. Innes, 100. Press leaving Port. amount of wire from LEAGUE FOOTBALL Series. St. John's. Fiddians vs. C. 10c. Ladies, free 10c extra.—MEXAR'S LINIMENT.

Most Powerful Magnet Used for Experimental Work

The most powerful electric magnet in the world, used in connection with wireless research, has been installed in the laboratories of the University of Strasbourg, in Alsace. It was constructed upon the calculations of M. Weiss.

When the magnet is in operation, the strongest man would be unable to pass a steel butcher knife through the air between its two poles.

The apparatus is equipped with numerous adjustments that admit of a wide variety of uses in wireless experimental work, and is mounted on a wheeled truck so that it can be moved from place to place in the laboratories.

Workman Walk Across Great Hudson Bridge

Construction of America's greatest suspension bridge—the Bear Mountain bridge across the Hudson—has progressed to a point where workmen actually have walked from shore to shore across two temporary suspension bridges.

This great project will be the first bridge across the river between Poughkeepsie and New York City. Its total length will be 2252 feet, including approaches.

Miniature Fire-Engine Filed From Brass

A miniature working model of a motorized book and ladder, filed entirely by hand out of brass, recently was constructed by a fire captain in the Jersey City, N.J., fire department. It was modeled after the first piece of motor equipment installed in the department.

Practically every part of the real machine is embodied in the miniature, the only difference being that an electric motor is used instead of the gasoline engine employed in the original.

Welcome! Welcome!

CATERING TO THE TOURIST TRADE.

Our store is wide open to the Tourist arriving in our City, and we will be pleased to give any information that a visitor to our City may require. We carry a full line of Picture Post Cards, Books of Views of Newfoundland; and our office is at his disposal where he can write letters and address Post Cards.

Our stock of British and American Tobacco, Cigars, Cigarettes and other Smokers goods, are of a very high grade.

A visit to our store will surely add to the pleasure of your trip.

CASH'S TOBACCO STORE,
July 17, 1924. Water Street.

The Spectrum in Industry

The spectrum, once used only by astronomers, now is beginning to play an important part in American industry. In the development of a method of spectral analysis of metals—a method perfected by the U. S. Bureau of Standards—an increasing number of industries are finding a valuable new aid in detecting impurities in metal products.

This system has been used with success in determining causes of boiler explosions, and in preparing purity standards of vanadium steel, platinum, rhodium, iridium and palladium.

Here and There.

If they charged you a dollar a cake the makers could not give you a better soap than Ivory—adv.t.

Dr. G. N. Murphy will resume his practice on Monday, August 25th.—aug22,21

Dr. F. A. Jones, Dentist, will close his office from August 23rd to September 15th.—aug19,41

NEW LIQUOR LAWS.—The new liquor laws published in this issue does not come into effect until a proclamation is issued. This will probably take place as soon as the board of control is appointed.

WANTED.—Two good Charwomen; apply Janitor, The Royal Bank of Canada, between 9 and 10 a.m.—aug22,11

THE TRAINS.—Yesterday's west bound express left Norris' Arm 4.20 a.m. There is no report of the express leaving Port aux Basques on account of wire trouble.

LEAGUE FOOTBALL.—The Cup Series, St. George's Field, this evening at 7.15 sharp. Feildians vs. C.E.I. Admission 10c. Ladies free. Grandstand 10c extra.—aug23,11

How "Ma" Jong Beat the Game

She Plays a Winning Hand

There are two Great National Games just now—Ma Jong, and Wise Shopping. In both games, it is necessary to make wise moves and to use discretion. You win if you use judgment. The Mother of the family is the real "purchasing agent"—and much depends upon her sound logic in selection. "Ma" will shop wisely and always win, if she follows the suggestions on this page. And "Pa" Jong or Smith or Brown, or whatever the name may be, should be equally interested. Come on—get in the game. It's your move.

A BILL Entitled "An Act Respecting Alcoholic Liquors."

Enacted, etc.

TITLE.
1. This Act may be cited as the "Alcoholic Liquor Act."

INTERPRETATION.
2. In the interpretation of this Act, Rules and Regulations made hereunder, unless the context indicates a different meaning:—

1. The word "alcohol" means the product of distillation of any fermented liquid, rectified either once or often, whatever may be the origin thereof, and includes synthetic ethyl alcohol.
2. The word "spirits" means any beverage which contains any kind of alcohol obtained by distillation mixed with drinkable water and other substances in solution, and includes, among other things, brandy, rum, whiskey and gin.
3. The word "wine" means any alcoholic beverage obtained by the fermentation of the natural sugar contents of fruits (grapes, apples, etc.) or other agricultural product containing sugar (barley, malt, etc.).
4. The word "beer" means any beverage obtained by the alcoholic fermentation of an infusion or decoction of barley, malt and hops in drinkable water.
5. The words "alcoholic liquor" mean and include any alcoholic, spirituous, vinous, fermented or malt liquor or combination of liquors, and mixed liquor, and all drinks or drinkable liquids and solids, patented or not, containing 3 per cent. and upward of alcohol by volume.
6. The word "Board" means the Board created by this Act under the name of "The Board of Liquor Control."
7. The word "electors" means persons qualified to vote at an election of a member of the House of Assembly.
8. The word "bottle" means any vessel intended to contain liquids having a capacity of not more than twenty-four ounces.
9. The word "residence" means the premises where a person resides permanently or temporarily, and includes the aggregation of the rooms inhabited by him, as well as the cellar.
10. The word "peddling" means having on one's person, or transporting with one, with intent to sell the same, outside any establishment where the sale thereof is allowed.
11. The word "traveller" means a person who in consideration of a given price per month, day or fraction of a day, or per meal, is furnished by another person with food or lodging, or both; and includes a passenger travelling by railway passenger train or passenger steamer.
12. The word "area" means any number of contiguous towns, villages or settlements in the same Electoral District which may be associated together by petition under this Act, or by the Board, for the establishment or discontinuance therein of a branch establishment of the Board, having a population of not less than five thousand.
13. The word "meal" means the consumption of food of kind and quantity sufficient for the bodily maintenance of the consumer, in the dining room of a hotel, tourist hotel or club, or at a banquet, or of a railway passenger train or passenger steamer.
14. The word "hotel" means a building provided with special accommodation to provide food and lodging for travellers and where such accommodation is habitually furnished.
15. The word "banquet" means a complimentary or ceremonial occasion when persons meet in a public or fraternal manner for the purpose of eating or drinking together with toasts, speeches or songs.
16. The word "Club" means a corporation created by competent authority which is the owner, lessee or occupant of an establishment operated solely for objects of a social or athletic nature, but not for pecuniary gain, and shall include the premises occupied or used for any such purpose.
17. The words "Member of a Club" mean a person who, whether as a chartered member or admitted in accordance with the bye-laws of the club, has become a member thereof, who maintains his membership by the payment of regular periodic dues in the manner established by such rules or bye-laws, and whose name and address is entered on the list of members supplied to the Board, at the time of the application for a permit under this Act, or if admitted thereafter, within ten days after his admission.

18. The words "Tourist Hotel" mean a building provided with special accommodation to provide food and lodging for travellers, and where such accommodation is habitually furnished, and which is specially and mainly for the accommodation of travellers from places outside the Colony, visiting it for sport or for health, and which the Board is satisfied is desirable for the promotion of tourist traffic.

19. The word "import" herein shall not be construed to include—

- (a) Alcoholic liquors in transit from and to places outside this Colony placed in bond in a Customs warehouse in the Colony.
- (b) Alcoholic liquor, part of a ship's stores, warehoused or sealed up, as provided by Chapter 22, Consolidated Statutes (Third Series), and Acts in amendment thereof.
- (c) Wines imported for the purpose of being matured and re-exported, or to be sold to the Board, deposited in establishments licensed for that purpose by the Board.

Provided that the Board shall be notified by the importer or master of the ship, as the case may be, respectively, of the importation and exportation of such alcoholic liquor at the time thereof, and the Board shall keep a register of such importations and exportations, open during office hours of the Board for public inspection.

(d) The Board shall keep an inventory showing the importations and exportations, and stocks on hand, of alcoholic liquor in bond, in Customs warehouses, and of wines stored for maturity and export.

(e) Alcoholic liquor on board warships of any nation, for the use of officers and crews, shall not be subject to this Act while on board the said ships.

20. "Sale" includes soliciting or receiving an order for; to keep or expose for sale; to deliver for value or in any other way than purely gratuitously; to peddle; to keep with intent to sell; to traffic in; or for any onerous consideration, promised or obtained, directly or indirectly, or under any pretext, or by any means whatsoever; to procure or allow to be procured for any other person.

(a) Every delivery of alcoholic liquor made otherwise than by a purely gratuitous title shall be considered a sale.

(b) In any proceeding under this Act, the burden of proving that a delivery was by purely gratuitous title shall be upon the defendant.

21. The word "Court" means a Stipendiary Magistrate sitting as such.

22. The word "vehicle" means any instrument of transportation, including any article used in transporting.

23. "Public Place" includes any place, building or conveyance to which the public has or is permitted to have access, and any place of public resort, including any shop or store in which any goods are exposed for sale, but not a hotel, tourist hotel, club or banquet in respect of which a permit has been granted hereunder.

THE BOARD.

3. The Governor-in-Council shall appoint three persons to be a Board of Liquor Control, and shall indicate the member who is to act as Chairman. It shall be vested with all the rights and powers belonging generally to corporations:—

- (a) The members shall hold office during pleasure.
- (b) The salary of the members shall be fixed by the Governor in Council, subject to approval by the House of Assembly at its next Session.
- (c) The members shall not exercise any other calling, profession, trade or employment whatsoever, with a view to deriving profit therefrom, directly or indirectly.
- (d) No vacancy in the Board shall have the effect of dissolving it, and the Governor-in-Council may fill every such vacancy.
- (e) The head office of the Board shall be in the City of St. John's.
- (f) A quorum at meetings of the Board shall be two members.

4. The functions, duties and powers of the Board shall include the following:—

- (a) to purchase, import, possess and sell, in its own name, alcoholic liquor in the manner set forth in this Act. Any or-

der by the Board for alcoholic liquor must bear the signature of two of its members, and a duplicate of every order shall be kept at the head office of the Board;

(b) to lease or occupy any building or land required for its operations;

(c) to borrow sums of money, guarantee the payment thereof and of the interest thereon, by the transfer or pledge of goods or in any other manner required or permitted by law and participation by Cap. 216, Consolidated Statutes (Third Series), entitled "Of Warehouses, Receipts and the Securities in the possession of Banks"; to issue, sign, endorse and accept cheques, promissory notes, bills of exchange and other negotiable instruments;

(d) to control the possession, sale and delivery of alcoholic liquor in accordance with the provisions of this Act;

(e) to prevent and investigate every contravention of this Act, seize alcoholic liquor sold, kept or transported in contravention hereof, and apply for the confiscation thereof, whenever required by this Act, and to prosecute offenders in its own name before any court of competent jurisdiction;

(f) to appoint every officer, inspector, clerk, or other employee required for its operations, dismiss them, fix their salaries or remuneration, assign them their respective duties, define their powers, and engage the services of experts and of persons engaged in the practice of a profession.

5. The Board or any member thereof may not be prosecuted for doing or omitting to do any act in the performance of its or his duties prescribed by this Act, unless by consent of the Minister of Justice.

6. Every member of the Board, and every person appointed to any position by the Board, must, on entering upon his duties, give security by means of a guarantee policy to the amount fixed by the Governor-in-Council or the Board respectively.

7. Every employee of the Board shall hold office during pleasure, and may be dismissed by the Board without any notice.

8. No member or employee of the Board may, directly or indirectly, individually or as a member of a partnership or corporation or as a shareholder of a company, have any interest whatsoever in dealing in or in the manufacture of alcoholic liquor, or in any enterprise or industry in which alcoholic liquor is required, nor receive any commission or profit whatsoever from, nor have any interest whatsoever in the purchase or sales made by the Board or by the persons authorized by virtue of this Act to purchase or sell alcoholic liquor.

(a) Nothing herein, shall prevent any such member or employee from purchasing and having in his possession for the personal use of himself or family any alcoholic liquor which may be purchased or kept by any other person (other than the persons mentioned in Section 33 hereof) by virtue of this Act.

9. (1) For the purpose of carrying out this Act the Governor-in-Council may make any regulation he may deem necessary, and may amend or repeal any such regulation, respecting:—

- (a) loans made by the Board;
- (b) the keeping of its books and the rendering and auditing of its accounts;
- (c) the condition and inventory of the goods it has on hand;
- (d) the Board may make any regulation it may deem necessary, respecting its internal economy and the conduct of its business (including methods for ascertaining the wishes of electors as to the opening or closing of branches), and may amend or repeal any such regulation. It shall transmit a copy of every such regulation to the Governor-in-Council.
- (3) If any regulation be made hereunder by the Governor-in-Council, or by the Board, and approved by the Governor-in-Council, and published in the Newfoundland Gazette, any contravention of any such regulation shall be an offence under this Act.
- (4) No regulation made by the Board and approved and published as above mentioned may be repealed or amended save by another regulation of the Board, approved and published in the same way.
- 10. All property possessed by the Board in its capacity as such shall be the property of the Colony.
- 11. Every sum of money collected by the Board shall be deposited in the name of the Board in such bank as the Minister of Finance and Customs, at his discretion, shall indicate, and money of the Board in any bank or banks which the Minister of Finance and Customs considers available, shall, on demand, be handed over to such Minister, and every such sum of money after it is handed over shall form part of the Consolidated Revenue Fund.
- 12. The Board shall render an account to the Minister of Finance and Customs, in the manner and at the times indicated by the latter, of its receipts and disbursements, as well as its assets and liabilities:—

(a) in stores and warehouses of the Board, or in some other place under its control;

(b) in accordance with the provisions of this Act by those who have acquired it from the Board either from its principal store or a branch thereof, or who have acquired the same under Section 35 of this Act;

(c) in the residence of any person, provided that such liquor shall not be kept with intent to sell the same (and one sale shall suffice to establish such intent);

(d) in the baggage of a traveller who is transporting such liquor for his personal use;

(e) in places where it is expressly permitted by the Board to be kept, and where the Board may permit spirits or wine but not beer, to be kept in ships about to proceed to sea, in Labrador or Bank fishing vessels, or in logging camps, or by specially appointed persons whose branches do not sail, for medicinal purposes only, and not for sale as a beverage;

(f) No alcoholic liquor shall be carried in any ship, vessel or boat engaged in coasting, fishing or trading in this Colony, beyond such quantity as may be bona fide required or necessary for ship's stores, and permitted by the Board. The master of any ship, vessel or boat, as well as the owner thereof, or either of them, if cognizant of any breach hereof, shall be guilty of an offence against this Act.

(g) The Board may permit wine and beer to be kept on railway passenger trains or on passenger steamers for use as a beverage at meals;

(h) as to sacramental wine, in a church, chapel or dispensary, and the keeping of alcoholic

(a) The Board's operations shall be subject to examination and audit by persons appointed by the Governor-in-Council.

ESTABLISHMENTS OF THE BOARD

13. The Board may have the following stores and warehouses:—

- (1) its principal store and warehouse in the City of St. John's;
- (2) A branch thereof in that part of the City of St. John's included in the electoral division of St. John's East, and a branch thereof in that part of the City of St. John's included in the electoral division of St. John's West;
- (3) Branches thereof in areas defined by the Board in which no part of the City of St. John's is included, provided:—

- (a) The number of branches in any electoral district shall not exceed the number of members of the House of Assembly by which such district is entitled.
- (b) In no area shall a branch be opened unless and until a majority of the electors therein shall by petition authenticated to the satisfaction of the Board request the opening of such branch.
- (c) A branch may be for the sale of alcoholic liquor generally, or of wine and beer only, as the petition for opening the branch may request; and the purpose of a branch may be enlarged or contracted as provided hereinafter.

Nevertheless, railway passenger trains and passenger steamers on which the sale of wine and beer is permitted shall, for such purpose be held to be branch establishments of the Board, and sale thereon as hereinafter provided shall be lawful in any part of the Colony.

(4) All branches shall be in charge of persons appointed by the Board, and such persons shall be and be held to be agents of the Board. They shall be paid such salaries, or allowed such profits or commissions, as the Board shall decide.

(5) No profession, trade or occupation other than the sale of alcoholic liquor shall be conducted in any branch, save on railway passenger trains and on passenger steamers.

(6) If at any time after two years from the opening of any branch a majority of the electors residing in any area in respect of which a branch is located shall by petition authenticated to the satisfaction of the Board, express a desire that if limited to wine and beer a branch shall be allowed to sell spirits, or, if allowed to sell spirits, shall be limited to wine and beer, or that a branch shall be discontinued, the Board shall order accordingly.

(7) Members of the Board and Stipendiary Magistrates shall require witnesses to the signatures of petitioners hereunder to testify to the truth thereof, and are authorized to administer oaths.

(8) Any person signing the name of any other person to a petition under this Act without the express authority of the person whose name is so signed, and any person taking a false oath as to the authenticity of the signatures to any such petition, shall be guilty of an offence against this Act.

14. Alcoholic liquor sold in any branch shall not be consumed therein.

15. No alcoholic liquor may be kept, possessed or transported except:—

- (a) in stores and warehouses of the Board, or in some other place under its control;
- (b) in accordance with the provisions of this Act by those who have acquired it from the Board either from its principal store or a branch thereof, or who have acquired the same under Section 35 of this Act;
- (c) in the residence of any person, provided that such liquor shall not be kept with intent to sell the same (and one sale shall suffice to establish such intent);
- (d) in the baggage of a traveller who is transporting such liquor for his personal use;
- (e) in places where it is expressly permitted by the Board to be kept, and where the Board may permit spirits or wine but not beer, to be kept in ships about to proceed to sea, in Labrador or Bank fishing vessels, or in logging camps, or by specially appointed persons whose branches do not sail, for medicinal purposes only, and not for sale as a beverage;
- (f) No alcoholic liquor shall be carried in any ship, vessel or boat engaged in coasting, fishing or trading in this Colony, beyond such quantity as may be bona fide required or necessary for ship's stores, and permitted by the Board. The master of any ship, vessel or boat, as well as the owner thereof, or either of them, if cognizant of any breach hereof, shall be guilty of an offence against this Act.
- (g) The Board may permit wine and beer to be kept on railway passenger trains or on passenger steamers for use as a beverage at meals;
- (h) as to sacramental wine, in a church, chapel or dispensary, and the keeping of alcoholic

liquor elsewhere than in places mentioned in this paragraph shall constitute an offence under this Act. Nevertheless the transportation of alcoholic liquor by any town, village or hamlet, by steamboat or common carrier, shall be lawful.

PERMITS TO KEEP AND SELL WINE AND BEER.

16. Permits may be granted by the Board

- (a) To the owners, operators or managers of hotels, tourist hotels and clubs to keep and sell bottled wine or beer in such hotels, tourist hotels, and clubs, to travellers and members only, respectively, at meals, for consumption at such meals.
- (b) To a person in charge of a banquet to keep and sell bottled wine and beer at such banquet, for consumption at the dining table, during the meal. No permit shall be necessary for a banquet in a place in respect of which a permit has been granted under the preceding sub-section.
- (c) A permit shall not be granted in respect of an hotel or club situated in a town, village or hamlet, or in a settlement included in an area in which a branch establishment of the Board is not permitted under section 13 hereof, but a permit may be granted to a tourist hotel in any part of the Colony, provided that no sale of wine or beer shall be made in a tourist hotel by the holder of a permit, while in his possession, he kept in the bottles in which it was when purchased by him, bearing the label of the Board, and he shall not put therein any other alcoholic liquor.
- (d) A holder of a permit shall not allow the sale of any bottle of wine or beer which does not bear thereon a label precisely and correctly indicating the contents thereof.
- (e) A holder of a permit shall not allow the mixing of any alcoholic liquor he is not permitted to sell with any wine or beer he is permitted to sell.
- (f) A holder of a permit shall not sell or allow to be sold wine or beer between half-past eleven o'clock in the evening and nine o'clock in the morning of the next day.
- (g) The Board may refuse to grant, or may revoke, any permit without assigning any cause for such refusal or revocation.
- (k) The fee for a permit shall be fixed by the Board.
- (l) Every applicant for a permit for a hotel, tourist hotel or club shall, before filing his application to the Board, give notice of his intention to apply for such permit, by advertisement in the form prescribed by the regulations made hereunder, once a week for four consecutive weeks preceding his application, in the "Newfoundland Gazette," and in a newspaper published in the locality in which the premises are situated, or if no newspaper is published in that locality, then in the "Newfoundland Gazette" and a newspaper published in St. John's.
- (m) The application for a permit shall be in the form prescribed by the regulations, and shall be filed with the Board accompanied by the prescribed fee, and such application shall contain a description of that part of the premises in respect of which the applicant desires a permit, and shall furnish such other matter, information, description or plan of that part of the premises in which it is proposed to keep, sell and consume as may be required by the regulations and by the Board.
- (n) No permit to sell in respect of a hotel or tourist hotel shall be issued or granted:—

(1) Unless such hotel or tourist hotel contains, in addition to what is required for the permit, and shall furnish such other matter, information, description or plan of that part of the premises in which it is proposed to keep, sell and consume as may be required by the regulations and by the Board.

(2) Unless the hotel or tourist hotel and the part thereof where wine and beer may be kept, sold and consumed under the permit applied for, are constructed, equipped and conducted to the satisfaction of the Board, and constructed and

equipped so as not to facilitate any breach of this Act or the regulations made thereunder, and the premises have been approved of in writing by an inspector appointed or authorized by the Board to inspect the same;

(3) The Board shall consider any objections or protests to the issue of permits filed by any person with the Board.

(4) Every permit shall be constantly and conspicuously exposed in that part of the premises specified in the permit where wine and beer may be kept, sold and consumed, under such permit.

(5) Unless sooner cancelled, every permit issued by the Board during 1924 or 1925 shall expire at midnight on the 31st day of December, 1925, and thereafter every permit issued shall expire at midnight on the 31st day of December in the year in which the permit is issued. In case the permittee applies for a new permit in respect of the same premises, he shall not unless so required by the Board be required to give notice by advertisement of his intention to apply for a new permit.

(6) No permit shall be transferable.

(7) Every permit issued under this Act shall be subject to all conditions and restrictions imposed by this Act and the regulations made thereunder in force from time to time.

IMPORTATION, MANUFACTURE AND ADULTERATION.

17. No person other than the Board, or a person permitted by the Board so to do, may import alcoholic liquor:

(a) The Board shall give a permit to import wine for sacramental purposes to a person nominated by the head in this colony of any religious denomination generally recognized as worshipping herein, and the importation and the sale and delivery of such wine by such person for sacramental purposes shall be lawful, but the sale or delivery thereof except for sacramental purposes shall be an offence against this Act. The permittee shall report his proceedings to the Board when requested.

18. No person may manufacture any alcoholic liquor except by permission of the Board:

(a) The Board may permit the manufacture of wine or beer.

(b) The Board may refuse to grant, or may revoke, any permit to manufacture wine or beer, without assigning any cause for such refusal or revocation.

(c) The fee for such permit shall be fixed by the Board.

19. Every manufacturer shall make to the Board every month, in the form that the Board shall determine, an exact return, showing the amount manufactured, and disposed of, and the amount in stock:

(a) Any manufacturer who fails to make such return to the Board within the fifteen days following the expiration of any calendar month shall be liable to a fine of fifty dollars per day for each day's delay, from the expiration of such fifteen days.

(b) The Board may make an examination of the manufacturer's books, or check the accuracy of any return.

(c) Any manufacturer refusing to allow such examination, or failing to make an accurate return, shall be liable to a fine of one thousand dollars.

20. A manufacturer shall not sell or deliver wine or beer except to the Board, or to a person authorized by the Board to sell wine and beer, or to a purchaser from the Board, and in a manner indicated by the Board:

(a) A manufacturer selling to any person holding the Board's permit to sell wine and beer shall collect from such person before delivery a charge at the rate of five dollars per centum on the gross value of such sale, and shall pay the amount so collected to the Board when called upon.

(b) Wine and beer sold and delivered by manufacturers shall be in bottles only, bearing a label approved by the Board.

(c) Any manufacturer who fails to collect such charge before the delivery, or to hand the charge over to the Board at such time as it may fix, or who shall sell and deliver wine and beer in bottles not bearing a label approved by the Board, shall be guilty of an offence against this Act, and be liable, in addition to the costs and the payment of the purchase price collected, or to be collected, to a fine of one thousand dollars. Every such failure, moreover, shall entail a cancellation by the Board of the manufacturer's permit.

21. No person shall mix or cause to be mixed any deleterious or noxious ingredient with alcoholic liquor sold or exposed for sale by him, or sell any alcoholic liquor:—

(a) Any person having possession of any alcoholic liquor adulterated by deleterious or noxious

ingredients shall be deemed knowingly to have exposed the same for sale, unless he can satisfactorily account therefor.

(b) Whenever any person is prosecuted and found guilty of any offence under this Act, the amount of the fine, or the length of the term of imprisonment to which such person would be otherwise liable, shall be doubled, if, at the trial, it is proved that the alcoholic liquor sold by such person was of bad quality and was unfit for consumption, had been made fraudulently or was adulterated or misrepresented as to its character.

SALE AND PEDDLING.

22. Alcoholic liquor shall not be sold except by the Board or its agents or under and according to permits granted hereunder by the Board, save as permitted by section 30 hereof.

(a) No sale or delivery shall be made before nine o'clock in the morning or after six o'clock in the evening of any day, or on any Saturday after nine o'clock in the afternoon.

(b) No sale or delivery shall be made on Sundays, or on Bank or Public holidays, or in any constituency in which an election of a member for the House of Assembly is taking place, on the day of such election.

(c) No sale shall be made except for cash.

(d) No sale shall be made on any one day to any one person of more than one bottle of spirits, except for industrial purposes.

(e) Special regulations to safeguard the rigid observance of this limitation shall be made by the Board under Section 9 hereof.

(f) No spirits, wine or beer shall be sold by the Board or its agents, for beverage purposes, except in bottles, wrapped or corked so as to prevent fraud, and bearing labels or marks to identify it as sold by the Board.

(g) The Board shall give notice through the Newfoundland Gazette of the character of such labels or marks.

(h) Making any such label or mark, or having it in one's possession or affixing it to any bottle containing spirits, wine or beer, without the authority of the Board, shall be an offence against this Act.

(i) No person shall sell or deliver except to the Board, or consume, within this Colony, any alcoholic liquor in transit mentioned in section 2, (19) hereof, or sell, deliver or consume within this Colony any alcoholic liquor, part of a ship's stores, mentioned in section 2, (19) hereof.

Subsections A and B hereof shall not apply to sales on passenger trains and steamers, and subsections A, B and C hereof shall not apply to sales for medicinal purposes, or to sales in hotels, tourist hotels, clubs or banquets.

23. No alcoholic liquor shall be sold:—

(a) To any person who has not reached the age of twenty-one years.

(b) To any keeper or inmate of a disorderly house.

(c) To any person convicted of drunkenness or of any offence caused by drunkenness. This prohibition to sell to such person may be suspended by the Board at any time from the date of the conviction upon application by such person to the Board.

(d) To any person who habitually drinks alcoholic liquor to excess, and to whom the Board has, after investigation, decided to prohibit the sale of such liquor upon application to the Board by the husband, wife, father, mother, brother, sister, guardian, employer or other person depending upon or in charge of such person. The prohibition of any person by the Board may be removed by the Board.

(e) To any Equimaux or Indian, except by authority of his superior officer.

(f) To any inmate of a hospital, or lunatic or poor asylum.

(g) No sale made to any of the foregoing persons or to persons concerning whom a notice has been given under section 23 hereof by any person permitted by the Board to make sales, shall constitute an offence, unless the vendor has knowledge that such person is one to whom a sale is prohibited.

(h) The delivery of alcoholic liquor to any one of the persons mentioned in this section shall be held to constitute a sale.

Notwithstanding, alcoholic liquor may be sold to any of the foregoing persons by the Board or its agents, or by persons authorized under section 30 hereof, for medicinal purposes, under regulations made by the Board.

24. No person shall:—

(1) possess a still or other implement of a kind commonly used for the manufacture of alcoholic liquor (ex-

cept a person holding a permit from the Board to manufacture such liquor), and the possession of such a still or implement shall be prima facie evidence of a violation hereof, and unless the satisfaction of the Magistrate shall be held to the guilty of a violation of this section, and shall be liable to imprisonment, without option of a fine, for three months on the first offence, and for six months on a second or subsequent offence.

(2) Consume any alcoholic liquor in any public place, or

(3) Be in an intoxicated condition in any public place, or

(4) Sell and alcoholic liquor to any person apparently under the influence of alcoholic liquor; or

(5) Permit drunkenness to take place in any house or on any premises of which he is the owner, tenant, occupant, or

(6) Permit or suffer any person to be apparently under the influence of alcoholic liquor to consume any alcoholic liquor in any house or on any premises of which the first named person is owner, tenant or occupant; or

(7) Give any alcoholic liquor to any person apparently under the influence of alcoholic liquor.

25. Whoever, being of the age of less than twenty-one years, is found in any place in which alcoholic liquor is sold, and gives no satisfactory reason for his presence, or who has alcoholic liquor for himself or for another, or performs any work in the establishment of the Board, shall be guilty of an offence under this Act.

26. Whenever any Stipendiary Magistrate, or any person authorized by the Board, to the satisfaction of the Magistrate, that any person is a habitual drunkard, or is inflicting on his health by excessive drinking of alcoholic liquor, or neglecting his family by reason thereof, the Magistrate shall cause a written or printed notice to be given to the Board, certifying the facts, and thereafter no sale of alcoholic liquor shall be made to such person unless and until the Board shall direct, after inquiry into the habits and circumstances of such person, except for medicinal purposes, upon the prescription of a duly-qualified Medical Practitioner.

27. Any two Justices of the Peace, or any Stipendiary Magistrate, who may riot or tumult happens or is expected to happen, or when any day may be taking place, or about to take place, may order any agent in the place to close his premises, or any permittee to cease selling wine or beer during any time when the Justice or Magistrate may order.

28. Peddling alcoholic liquor shall be an offence against this Act.

SALE ON PASSENGER TRAINS AND STEAMERS.

29. The Board may permit the sale by persons specially authorized thereto of wine and beer to bona fide travellers on passenger trains or on passenger steamers, or on passenger steamers, to be consumed by such travellers at the tables in the dining rooms thereof, or the ordinary meals, upon such terms as to the amounts which may be sold to a traveller, and to the prices of the said wine and beer, and otherwise, as shall be prescribed by the Board:

(a) The trains and steamers of which wine and beer shall be sold under permit by the Board shall for that purpose be deemed to be establishments of the Board, and the persons permitted to make a sale thereon shall be agents of the Board.

30. Notwithstanding anything hereinafter contained, it shall be lawful for the Board to make special provision for the keeping and sale of spirits of wine, or both, (but not of beer), for medicinal purposes only, in Labrador or Bank fishing vessels, in logging camps, and in areas where the sale thereof as a beverage is not legal.

(a) Any person selling or buying for use as a beverage or for medicinal purposes non-bona fide medicinal, any spirits or wine kept for medicinal purposes, shall be guilty of an offence against this Act.

(b) The quantity which may be sold for medicinal purposes at any one time, the price, which may be charged for it, and the conditions to secure that the same shall be proper, and for medicinal purposes only, shall be at the discretion of the Board, and shall be subject to regulations made by it.

EXCEPTIONS.

31. No provision of this Act shall be reason only that such product contains any alcoholic liquor, prevented:—

(a) the sale of any perfume, essential oil, or extract of any kind, or any fluid extract or essence, or vinegar;

SIDE TALKS.

By Ruth Cameron.

WHERE IGNORANCE IS BLISS.

A woman who has a very well deserved reputation for wit, with the fault that almost always goes with such a reputation, was telling us about a committee she served on.

She gave us a characterization of the various members, a vivid description of stout Mrs. Brinkley's attempts to get herself up like an ingenue, of Mrs. Jones' unique ideas on parliamentary law, of Mrs. Dickenson's determination to bring her acquaintance with Senator S. into the conversation, of Mrs. Gray's funny mannerisms of blinking when she talked.

We couldn't help enjoying her wit, even when we disapproved of some of the thrusts of that caustic tongue of hers.

But when she left us, the inevitable reaction came. The women she had been describing were as much her friends as we were.

But I know!

"I'd like to know what she says about me when my back is turned," I said.

"So would I," said several of the other women.

And I suppose we thought we meant it.

But did we?

Would we really like to hear what that sharp tongue says about us behind our backs? Aren't we much happier to know in a vague way that

it says some things we wouldn't like, but not to have discomfort of knowing definitely what those things are? Indeed, when you come right down to it, would we really want to know all the things that our best and kindest friends say about us behind our backs?

Should We Want Them to Know?

Or would we want them to know all the things we say about them?

In the main we approve of them most heartily. In the main we are very loyal, especially if anyone else runs them down. But they do have a few faults, they do have one or two funny little mannerisms, and we have been known to speak justifiably. Yet, would we want them to hear just what we have said at these times? Wouldn't it make them uncomfortable if they did hear?

And, conversely, would we want to hear what our friends say of us at such times?

I Can Guess Sometimes.

I haven't a doubt that I furnish my friends with plenty of material for criticism and for humor. I can guess pretty well at some of the things they say. But when I turn my mind in that direction, it shies away. It doesn't even like to think of those things being said. How much less then could I bear hearing them?

No, I think on the whole, we ought to be willing to let it be behind our backs; to know that our friends don't think us perfect and more that we think them absolutely perfect, but to remain in blissful ignorance of the details.

A frock of white chiffon is trimmed with bands of curled white wool, and embroidery in silver thread.

Some of the most demurely smart bathing suits are of bright ringham checks. English prints or cretonnes.

Over a lace-edged lip of flesh-colored satin is worn a bouffant frock of white tulle, charming for the dance.

The decollete of the evening gown should be high enough in back to leave a place for the hand of the man.

a constable, shall be to the officer in charge of the Newfoundland constabulary force for the benefit of widows and orphans of deceased members of the force.

50. In proving a sale for the purpose of any proceeding under this Act, it shall not be necessary to show that any money actually passed if the Magistrate hearing the case be satisfied that a transaction in the nature of a sale took place.

51. If it shall be proved that bottles or decanters, or tumblers or glasses, or other vessels which are usually employed for holding and using alcoholic liquor, were found in and upon the premises of a person accused of the sale of alcoholic liquor, and that such vessels had been recently used, or that persons were found drinking or drunk on the premises of the accused, such proof shall be prima facie evidence of a sale in violation of this Act, and the accused shall thereupon be required to establish his innocence.

52. In any proceeding under this Act, it shall not be necessary to specify the particular sort of liquor sold, nor to whom, nor the time when sold, but it shall be sufficient in the summons to charge the party accused with a breach of some section of this Act, and no judgment shall be withheld on account of variance between proof and summons if it appears to the satisfaction of the Magistrate that the defendant was aware of the real cause of complaint. The Magistrate may grant time to make a full defence on the merits. No judgment shall be set aside for any variance or for any formal objection.

53. Any sale of alcoholic liquor made on the premises of any person by the wife, child or servant of such person, shall be considered presumptively as the act of the husband, parent or master, and the husband, parent or master shall be liable for an offence against this act as though he had personally made the sale. The wife, child or servant shall also be liable.

54. A Stipendiary Magistrate convicting any person for a breach of this Act shall forthwith report the conviction to the Board, and the Board shall once in each month publish in the Newfoundland Gazette and a daily newspaper the name, place and residence of every person convicted during the preceding month.

55. The Board or any defendant feeling aggrieved by any conviction, judgment or sentence of any Magistrate, may appeal to the Supreme Court as follows:—

(a) The Board, if appealing, shall within ten days give written notice to the convicting Magistrate and to the defendant of its intention so to appeal by such notice through the mail.

(b) The Appellant shall within ten days give written notice to the convicting Magistrate and to the Board by posting said notice through the mail by registered letter, or by personal service, of his intention so to appeal, and shall within the said ten days—

(c) Give sufficient sureties to the said Magistrate to prosecute the appeal at the next ensuing sitting of the Supreme Court, or at such time as the Supreme Court shall order, and to abide by the judgment of the Supreme Court thereon, and to pay such penalty and costs, or perform such other act, or comply with such conditions as may be ordered or imposed by it.

56. When an appeal has been perfected as aforesaid,—

(a) The judgment shall be stayed until the event of the appeal is certified to the Magistrate by the Registrar of the Supreme Court.

(b) The Magistrate shall forthwith send a full and accurate record to the Registrar of the Supreme Court, consisting of—

An Open Letter to His Excellency the Governor

99 Broadway, New York, Aug. 10, 1924.

Sir W. L. Allardice, Government House, St. John's, Nfld.

Your Excellency: Doubtless, it will appear strange to you that I should at this time address you through the public press. Unfortunately, I have not had the privilege of personally meeting you, as has been the good fortune of so many of my fellow countrymen. Therefore, your many excellent qualities and the live interest you take in all things pertaining to the welfare of Newfoundland have only been made known to me by correspondents, and through the medium of the public press.

Perhaps Your Excellency is not familiar with the fact that the Government of Newfoundland was progressive enough in November, 1920 to appoint a Trade Commissioner to the United States with headquarters at New York, but developed unprogressiveness sufficient six months later to discontinue the office. This writer was the appointee. The advantages of having a Trade Commissioner or official representative of the Newfoundland Government in this country are too obvious to discuss. But, I have digressed. My real object in writing you, is to tender personal congratulations for the lively interest you are taking in matters pertaining to our great national asset—the fisheries. You will be surprised to know the great lack of interest taken by public men in Newfoundland in attempting to deal with this industry along scientific lines. If I omit Sir Edward, (now Lord Morris) of London, England; M. E. Condon, Cape Breton and myself, very few attempts were made through the medium of the press to show to our people the boundless possibilities of our sea-wealth.

I was very much impressed with a letter that appeared in a St. John's newspaper on December 5th, 1923, written to you, from Professor Stanley Gardiner, Zoological Laboratory, Cambridge. I have also noted in recent issue of Evening Telegram, the arrival of a capitalist from England interested in the development of our fisheries.

All this is extremely refreshing, and augurs well, I trust, for the future. Unfortunately, in the past we have had some eminent men visit Newfoundland, seemingly zealous in

the interest of our fisheries; but, apart from enjoying our hospitality and whipping the streams "where the speckled beauties lie," after leaving our shores, they faded away, and were heard of no more. Governors have come and gone, and while it cannot be denied that among them there were some who displayed considerable enthusiasm over Newfoundland's welfare, and busied themselves about matters of more or less importance—the fauna and the flora, etc., yet not one of them, that I know of, (save yourself), ever made a practical gesture in the direction of the fisheries—our first line of defence. It must be apparent to Your Excellency that the haphazard methods under which our fisheries are being prosecuted, the enormous amount of waste in connection therewith, the system of marketing—all have changed but little since the day that John Cabot of happy memory, first set foot on our shores. Why is it that the country with the best fish that swim the seven seas, actually receive less in the markets of the world for its products than any other? Why is it that a fish such as the herring, which for centuries has been such a valuable asset to Scotland, Holland and other countries of Europe, has not been made equally as profitable to Newfoundland? Again, how does it come that I can enter any delicatessen or grocery store in any American town or city, from the Atlantic to the Pacific, and purchase canned herring, from Norway, Finland, Scotland, and not be able to find the Newfoundland article? Is it not a national disgrace that we are throwing away in Bay of Islands every year thousands of small herring not suitable for Scotch pack, when a similar fish, put up in cans in tomato sauce, and distributed world-wide by such enterprising firms as Marshall's of Scotland, are worth millions of dollars? And this applies not only to our herring, but our scallops, fowder, crab, eels, codfish tongues, caplin, squid and others. There can be but one answer to the above questions. Indifference almost criminal to the development of the industry—lack of enterprise among those whose very existence depends on the systematic development of our fishery products.

Quoting your correspondent Professor Gardiner, "There are certain good edible fish, which you have scarcely begun to catch, but no fish of such superlative quality, and existing in such numbers as to make the opening up of new kinds of fish enterprise to be urged. The interrelationships, such as trade, regularity of transport, etc., between Newfoundland and the U.S.A. are quite unknown to me. I would only urge keeping in close touch with the U.S.A. for Newfoundland has the fish that will come to the regularly set on the dinner tables of the U.S.A."

I do not agree with the Professor's statement as to superlative quality. Most of our fish have superlative quality, and judging from what has been accomplished here in the commercializing of certain inferior fish we produce, I believe to be correct. America is the natural market for our fish. It must be shipped in here fresh. We must give our customers what they want, otherwise, their requirements will be taken care of by somebody else. We must do what every progressive country in the world is doing that has an article of food to sell. The appearance of the package must convey the impression that the contents are intended for human consumption. Unfortunately, our indifference in the past and careless methods of packing have not inspired confidence. In other words, the brand must be sold. Let it be an actuality that Newfoundland has the best fish to the world. Then, once having produced an article of which quality is beyond question, let us judiciously advertise it. Millions of

people would buy and eat our cod-tongues, our caplin, herring, and other fish if they were put up in the manner they want them. The success of every food specialty in this country can be traced to the publicity propaganda waged as to its merits. Such nationally known articles as California raisins, Sun-Kist oranges, Kellogg's Brand, Ward's Whole Wheat Bread, Finnan Haddie, Gorton's fish, and others, owe their existence and wide popularity to genuine quality and the judicious use of printer's ink.

I had much difficulty in convincing some Newfoundland exporters of dried codfish that for the Italian trade of New York, a cleanly appearing box, 30 inches long, 20 inches wide, 10 inches high, containing 100 pounds of fish would be readily purchased in preference to the old-time drum. Finally, one enterprising firm experimented, and I am gratified to say, with considerable success. Let us get ready to partake of the advantages in a commercial way that are bound to accompany the demand for fish in the U.S.A. Many of the old prejudices against sea-food that wrought such harm in the past, have disappeared. Scientific research has disclosed the fact that we must eat a certain amount of fish which is rich in iodine and a preventative of goitre. The great prejudices of the American housewife against fish in the past, were due to the fact that in most instances she was sold a frozen article that was half rotten before it was placed in the freezer. Needless to say, it did not come out any fresher than it went in. It must be borne in mind however, no matter how fresh the fish is when the process begins, freezing takes from its flavor and purity. However, recent innovations in the handling of this kind of food seem to hold out hope that we shall be able to transport live fish to great distances by rail.

One authority says: "The day may not be so far distant when the patron of every first-class restaurant in the country can walk into his favorite hotel, select his fish from a number of species in a tank, and have it served up to him a few minutes later as fresh and tasty as if he had just caught it."

"In Germany, France, and England and the ghettos of American cities," says the Literary Digest, "this epicurean habit has been possible for some time."

Last spring, New York saw its first shipment of large quantities of live fish by rail. Collecting live eels for the Christmas trade, has been the custom of dealers for some time. During this season, the eel is the favorite delicacy of the Italians, and it brings fancy prices. Secondly, these fish are caught months in advance and kept in tanks to supply the seasonal demands. We are told last year one dealer alone sent 160,000 pounds of live eels to New York from the eel fisheries near Quebec. These eels were loaded aboard barges which were towed through Lake Champlain and down the Hudson river. A similar experiment with sea-trout proved successful. Germany, however, has the most up-to-date method yet devised for transporting live fish. It consists of a tank with oxygen tube attached and so arranged that it will feed its air in the proper proportions, thus doing away with the need of an attendant on the journey.

Mr. Barry H. Richards wrote very interestingly on this subject in the "Forecast" New York, some time ago.

PETROLEUM FROM FISH.

A most important discovery has been recently made by Professor MacFarlane of the University of Pennsylvania, who believes that the supply of petroleum is inexhaustible and holds that fish are the sole source of supply. The "Literary Digest" of October 27, 1923, said, "It is born out, Professor MacFarlane thinks, by the fact that through the success of a geological formation from the Silurian beds to those of recent days oil shales to those of recent days fish remains are met. He cites in order of age, West Russia, N. Scotland, Pennsylvania, Oklahoma, South America, California, Texas, Roumania & Maku oil shales." To further quote the Digest "These fish although sometimes 'weird' in structure are," says he, "the ancestors of our present fish, and the process of oil manufacture is continuous. 'So long as we have with us,' says the professor, 'submarine, earthquakes and a plentiful fish supply, we shall not want for petroleum. The humble 'mossbunker,' known wherever it is used for blue fish bait as menhaden, may furnish no mesh percentage of the future oil supply according to this theory. The river lamprey, salmon, herring, tunny and others, store oil in the flesh it seems, while deeper sea-fish, like cod, dogfish and sharks store it in their livers. Professor Baird calculated in one season the bluefish and other enemies devoured at least a quintillion (1,000,000,000,000,000) mossbunkers." Developing the theory from this point, Professor MacFarlane wrote in the New York Times as follows: "Now if a mass like this were to be suddenly destroyed, heated, and the oil separated, it would furnish more petroleum than the world already has or could use for many years to come. This gives us some notion of the terrific wealth of fish life along even our Eastern coasts. But many of the known oil shale and fossil fish beds cover hundreds or even thousands of square miles." In the same

article, Professor MacFarlane goes on to say: "That Professor Joseph Leydi, distinguished as anatomist, paleontologist, zoologist, and botanist showed that oil escaping from the Philadelphia gas works soaked on the surface of the Schuylkill at first, but soon it mixed with abundant mud particles till these pressed down and sedimented the oil. This successive oily mud films suggested a commencement of shale. This important, though apparently trivial observation gave us the key to the formation of oil shales. And in recent years the Anglo-Indian geologist Stewart, by experimenting with Burmese oils, has fully verified Leydi's views, and further extended them."

These quotations will show Your Excellency the deep interest that is being manifested in this country by those who probe the problems of sea-life.

Some time since, one of the St. John's dailies made reference to an experiment with herring oil by Inspector Howlett of the Fisheries Department. It should prove practicable and remunerative. Of course Your Excellency is familiar with the recently discovered curative qualities of Newfoundland Cod Liver Oil for rickets in children. My authority for this is Dr. Darlington, one-time public Health Commissioner for New York City.

PREDICTION THE CATCH OF FISH.

Under this heading I read some time since an article that may have some application to fishery conditions in Newfoundland. After pointing out that the herring fisheries support thousands of people and the hardships among fishermen inflicted in a year when there is a poor run of fish, the writer stressed the fact that all this waste and wear of equipment might largely be avoided were it possible to know beforehand how large a catch to look for. The following salient points I take the liberty of quoting:

"Experiments have been recently made on the coast of France to collect data for such predictions. A report to the French Academy of Sciences by M. LeDanois, printed in his Comptes Rendues (Paris), presents an interesting hypothesis with respect to the law governing the movements of schools of fish. He discards the usual theory that the Gulf stream divides into currents which bathe the various European coasts, in favor of warm overflows caused by the expansion of equatorial waters in summer. Assuming this to be correct, important biologic results ensue.

For example his observations in 1921 indicated that the movements of the white tuna fish were closely connected with the displacement of strata of warm water whose temperature at 150 feet of depth was over 25 degrees Fahrenheit. But 1922 was an unusually bad year for the herring fisheries to the North Sea. M. LeDanois attributes this fact to an exceptional entry of the waters of the Atlantic into the North Sea, changed the life conditions to which the herring are habituated and therefore, reacted unfavorably on the catch. The penetration into the North Sea of warmer layers of water from the Atlantic was much less in extent in 1922. This led the observer to expect a good catch in the winter—a prediction which came true. M. LeDanois draws the important inference that by studying in August the extent of the waves of warm water entering the Gulf of Gascony, the probable catch of herring in the North Sea during the following winter may be correctly predicted."

Norway has been making similar experiments. Would it be too much to anticipate Newfoundland making a forward move in this direction?"

A WORD ABOUT PEAT.

Your Excellency must have noticed that Newfoundland is rich in Peat bogs. Attempts have been made to convert peat into an article of fuel but without meeting with much success. It was prominently featured in Sir Edward Morris' (now Lord Morris) manifesto when he sought election in 1908-9. He carried out his promise. The ordinary method of cutting the bog into slices and drying them in the air as practised by the peasants in Ireland and other parts of Europe was resorted to but it did not work out satisfactorily. As has often been demonstrated before "Necessity is the mother of invention," Germany has solved the peat problem. The invasion of the Ruhr by France helped. German ingenuity was called to solve the trouble involved in the diminution of coal supplies, available to them. They turned peat into fuel of good quality by the invention of a cheap and practical method. The excess moisture was got rid of which heretofore was the great trouble. Many thousands of dollars have been spent in this country attempting to devise some practical mechanical means for obtaining a commercially valuable fuel from peat. At last a Boston firm has succeeded in producing machinery of a practical nature that will squeeze out the water and render the carbon available in it for the production of heat. I have gathered considerable data regarding the construction of this machine, the quantity it will process in 24 hours, the cost per ton and other valuable information. Should Your Excellency desire to be in receipt of these details

An Open Letter to His Excellency the Governor

(continued from page 10.)

I shall be pleased to forward same. Judging from the samples of brigades I have seen, it does seem that a step forward has been made in the scientific treatment of pest for fish.

TOURIST TRAFFIC.

Here is something that should be properly developed so a long way in general. What Bermuda is to the American tourist in winter Newfoundland can be made in Summer. It is surprising that a country with such wonderful attractions as Newfoundland is so little known to the outside world. And yet reasoning more closely it is not surprising. Our provincialism has been our curse. Solution has advantages, but it is a luxury for which we have paid an exorbitant price.

During my term at Trade Commissioner here, I endeavored through the public press and the lecture platform to disabuse the minds of many American people of the erroneous idea

that Newfoundland possessed nothing but "fish and fog," and a subject for public charity most of the time. Time and again, I have had to contradict articles of a far-fetched and lying nature appearing in the great dailies of this country, pillorying Newfoundland and its estimable people. She has been the target for the foulest of literary assassins. Deep wounds have been inflicted which will scarcely be healed in the lifetime of the present generation. In view of such unenviable publicity the impressions of the outside world are not surprising. The time has long since arrived when we should be differentiated from the Eskimo of Labrador. Thousands of Americans are continuously steaming across the Atlantic to enjoy the attractions that Norway and Switzerland and other European countries offer.

As I write, the thermometer is registering 95 degrees of heat, making life in New York almost unbearable. The city parks have been thrown open so that those who are awake in the congested quarters may spend their nights in the open. Let us get ready to turn some of the wealth that now finds its way across the Atlantic in our direction. It is not time that Newfoundland started to build a modern Hotel at St. John's and some

couple of other points. Here are a few of the questions put to us after we have enlarged upon the beauties of the country: "How can we get there? How long does it take? Is it nice and cool? Have you moving pictures? What are the hotels like? Can we get a drink up there?" Everything is lovely until we come to the hotel question, then, to put it mildly, our answer is not quite satisfactory. After my arrival here in November 1920, I took the question of a hotel at St. John's up with the Furness Whity, Red Cross Line, and Reid Newfoundland Company, pointing out that my observations led me to believe it would mean a very much augmented passenger list. My suggestion was kindly received, but the depression in shipping circles, prevailing at that time evidently was a deterrent to further progress. But now that the dark clouds are passing over and we are getting back to normalcy, it is to be hoped that a start will be made. I also interviewed General Kincaid of the United Hotels of America. This Corporation built the magnificent Mount Royal Hotel at Montreal, and are operating many others throughout the country. But, as an evidence of good faith in the venture local capital should be forthcoming. I cannot close without saying a

word of commendation for the "Road Boater," recently compiled and published by Mr. R. Hibbs, M.H.A. Indeed it is well worth perusal. Mr. Hibbs' ideas are in keeping with the best thought of all modern municipal palliates. While men of Mr. Hibbs type remain with us, Newfoundland is not quite lost.

The only apology I can make to Your Excellency, if I have bored you with this long, draw-out effusion, is my love for the land of my birth. The ardent desire that her people participate to the fullest extent in the fruits of her great natural resources with which she has been so lavishly endowed.

With deep appreciation,
Believe me to be,
Very respectfully yours,
JOHN M. DEVINE.

What is Next Week's Big Sensation?

"THE PRODIGAL SON" AT THE NICKEL.

Sir Hall Caine's powerful story, "A Prodigal Son," is to be seen in Stoll's gigantic English film masterpiece on Monday. This film is the only picture which has ever played at an admission price of \$4.00. It was produced in England in seventeen reels, and was shown through that country as two separate shows, at \$2.00 admission for each show. The success and popularity of the film was tremendous, earning the name in the Old Country of the greatest film ever produced.

For exhibition in the United States and Canada, the picture has been cut down to ten reels, and in its new form is considered to be even better than it was formerly. American critics see the picture to be one of the few masterpieces of the film world, surpassing "Hearts of the World," "Over the Hill," and "Way Down East."

The story concerns two brothers. The youngest brother, Oscar Stephenson, a spectacular, reckless and daring figure, who knew no restraint and no law save that of indulgence.

The locale of the film is laid in Iceland, England and Monte Carlo, and passes from one scene of stirring action to another with force, power and lightning-like succession. It is full of surprise, climax and strong moments. The love scenes of the "Prodigal Son" add in power, depth and vastness, adding something new to the technique of filmdom.

This is an remarkable production which should be seen by all lovers of screen drama. No one in St. John's will want to miss it. Watch for it on Monday.

MARKET LETTER.
(From our Boston Correspondent.)
Since the end of the inflation period in 1920, we have had a number of periods of increased business activity. None of these upswings have been of very long duration. Attempts to operate our industrial plants at capacity have resulted in over production in a comparatively short period. It began to look as though the country's manufacturing plants were seriously over built. Many people held that the best that industry in this country could look forward to was recurring periods of productive activity after which we would

have to slow down operations until the demand for goods had a chance to catch up with the supply. There were two factors which prevented more than short periods of business activity. One was the depression of European industry. The other was the inability of the farmers to purchase their normal quota of goods. It is the improvement in these two factors which has resulted in the stock market discounting a large improvement in business activity. Europe depends upon this country in normal times, not for manufactured goods, but for certain essential raw materials of which we control the world's surplus supply. Resumption of industrial activity abroad, entailing normal purchases of these materials by foreign countries, will benefit all branches of American business. All of the different industries in this country are closely related. When one is depressed, the normal purchasing power of the country is reduced that much, and some other industry suffers from that lack of purchasing power. A full measure of prosperity is dependent upon the recuperation of various industries which now are depressed. Reviving European industry will aid greatly in accomplishing this. The stock market has recognized that with the aid of increased purchases from Europe and the agricultural communities, the next upswing in business should be of materially longer duration than the last few periods of activity. After having reflected that fact, it is only natural that it should quiet down and react somewhat. But the actual fulfillment of the market's prophecy of business improvement should find the average level of stock prices considerably higher than it is now. It is unlikely that a downward movement of more than nominal proportions will develop. Railroad stocks, in particular, act as though their upward movement might be resumed at any time, and copper stocks give indications of being under steady accumulation.

L.O.B.A.

At last Thursday night's meeting, Davidson Lodge, No. 160, presented the Past Grand Mistress Sister Flora Burrows, with a pendant, and earrings set with Labradorite, accompanied by an address done in gold lettering on pastel satin, as follows:
To Most worthy Past Grand Mistress Sister Flora Burrows, L.O.B.A., British America:
Dear Sister Burrows,—On behalf of Davidson Lodge, No. 160, we extend to you our sincere appreciation for the insight and information received from your all too short stay amongst us, and trust that your visit it has been an enjoyable one. We feel sure that the effect of your presence amongst us will tend to strengthen and broaden the Order which we all love, and in bidding you good-bye we would ask you to accept this small token of our appreciation, and we sincerely trust that you may be long spared to carry on the good work in the interests of the L. O. B. A.
Yours fraternally,
BESSIE THISTLE, W.M.
REBECCA ENGLAND, Rec. Sec.
St. John's, Nfld., Aug. 15th, 1924.
It was moved that Sister Burrows be made an honorary member of the Lodge, which was carried unanimously.

A Golden Jubilee.

A pleasing event took place at Topsail on Saturday, August 16th, when Rev. Canon and Mrs. Netten of St. John's celebrated the Golden Jubilee of their wedding at Winsor's Hotel, where they are spending a few weeks. Present at the function were three of their children—Mrs. H. M. K. Whiteway of "Riverview," St. John's, and Messrs. Bert and Lex Netten; three other sons reside in Canada and the States. The presence of a few family connections and intimate friends added to the pleasure of the occasion, and some valuable gifts, mostly in gold, were received by the happy couple. A magnificent wedding cake graced the centre of the tea table, which was charmingly decorated with hot house flowers. The toast of the evening was proposed by their son-in-law, Mr. H. M. K. Whiteway, who in a happy speech congratulated the venerable couple on attaining their Golden Anniversary, to which the Canon graciously replied. His many friends will rejoice to know that the Canon's health has greatly improved during his stay in Topsail, where the famous Topsail air has succeeded in making a new man of him. In fact so alert and interesting are both, it is difficult to believe that fifty varied years of married life have passed over their heads. We congratulate them heartily and wish them many more serene and happy years along the path that "winds into sunset," and trust that they may yet be spared to celebrate with us their Diamond Jubilee.

BELL ISLAND CADETS WIN FOOTBALL CHAMPIONSHIP

By defeating the Football Team of the Wabana Mine Workers Union at Bell Island on Wednesday 2-0 the Cadets won the Championship for the third successive year and thus became the permanent owners of the Kent-Shea-Dwyer Trophy, which has been the permanent property of the Club since its inception in 1920.

Founded and organized in 1920 by Major J. M. Greene the Cadets Football Club has a record unexcelled by any other Sporting organization in the Country. Inasmuch that every Cup set up for competition on Bell Island has become the permanent property of the Club since its inception in 1920.

Since their organization in 1920 the Cadets have had to face such dauntling opponents as the Old Scotians, Dominions, Dominion Fire Brigade, Swans, Young Bretons, Van Vets, Stars, Labor Corps, and United Mine Workers. This season all the old players of former teams combining in the Union Team to prevent if possible the passing of the Kent-Shea-Dwyer Cup; but after a regular series of six games in which there were two ties, two victories for the Cadets and two victories for the Union the Play-off on Wednesday decided the Championship in favor of the Cadets.

The names of the Champions are James Murphy (Captain), James Dugan (Sub-Captain), Gus Connors, Patrick Murphy, Matthew Farrell, Vincent Farrell, Bernard Downey, Thomas Ryan, John Barrett, Michael Doherty, James Connors (Junior), Ron Penny, John Jenny, Con Power, A. Hawco, Peter Power, and the old veteran Jas. L. Connors, President of the Club.

During their career in Bell Island football, the Cadets won the Championship in 1920; the Higgins-Fox-Vincombe Tie Cup in 1921, and the Championship in 1922-23-24, Mr. J. M. Greene being President in 1920-21-22, Mr. J. L. Connors 1923-24, Mr. J. R. McBrody being the first Captain 1920, Mr. J. Connors 1921, Mr. Gus Connors 1922, Mr. P. T. Murphy 1923 and Mr. J. Murphy 1924.

Hearty congratulations are due the Champions on such a successful career, and it is hoped that the veterans lay down their armor after this season they leave a record well worthy of emulation by their successors. We are desirous that a fitting celebration to commemorate the event will be held in the future; in which the Track and Relay Team also Champions of the past four years comprising of the Farrell Brothers and Mr. Patrick Murphy will be honoured.

OTOOLE WINS GRETTELING RACE FROM LINEGAR

A New Local Record Established. The 5 mile track race, staged at St. Bon's Campus last night, drew a large gathering of spectators and proved to be from a sporting standpoint, one of the season's successes. The only drawback in the whole arrangement was that the course was not roped off to avoid crowding. To pick the winner during the various stages of the race was an impossibility, and it was not until the final lap that O'Toole went ahead of his worthy opponent, Linegar, and won out by a scant few yards. Towards the end the race was very close, and when Linegar sprinted to pass O'Toole, which came at a moment probably a little earlier than expected, a number of people crowded in on the course, while others, to get a better view of the finish, actually crossed over the track in front of the runners as they were rounding the last lap, thus seriously interfering with their progress. Such action was an injustice to the runners and it is hoped, in the interest of sport, that the same will never occur again. Throughout the entire race excitement reigned supreme and the finish was most spectacular. O'Toole, by his win, successfully defended his title and the time, 27.05 means the establishing of a new record over the distance. O'Toole therefore has beaten his previous time by 21 4-5 seconds. In our opinion, had Linegar held himself in check for another hundred yards or so, the result would have been different.

Linegar, who ran a marvellous race, was suffering from a sore foot, and while it may not have affected his running, it must have been somewhat of a handicap.

SAINTS DEFEAT B.I.S.

The Tie-Cup Series opened last night, and if the game played is any indication of the football that will be played in this series, the fans are promised some thrilling contests. The Saints and B.I.S. were last night's contestants and the game ended in a victory for the former by a score of 2-1. The night was ideal for playing as it was cool for the players and there was no wind or bright sun. A large number of fans were present. In the first period honors were evenly divided and both teams scored a goal. The players exerted every effort to increase their success and excellent forward play was the result, but it was not able to beat the defence work put up, which was particularly good. After a brief breathing spell the teams again faced off and from the outset began a stiff fight for supremacy. There was not a dull moment throughout the whole time. The Saints, by clever play, managed to get the desired goal which gave them the game, and try as they would, the B.I.S. were unable to equalize before the final whistle was sounded. Mr. T. Delahanty was referee.

C. E. I. CREW DINED.

A most enjoyable evening was spent at Donovans by the members of the C.E.I. who gave a dinner to the coxswain and crewmen of the winning crew in the football race at St. Joseph's garden party. In the unavoidable absence of the President Hon. J. J. Long, the chair was ably filled by the Vice-President, Geo. W. LeMessurier, Esq. The trophy, a magnificent silver cup presented as a prize for the football race by Mr. Eric Churchill, was formally handed over to the Institute, and the coxswain, Mr. T. Kearsey was presented with an interesting souvenir of the occasion. The usual toasts were enthusiastically drunk, the speeches being short and interesting. After the banquet games were played till a late hour. The thanks of all are due to those members of the Institute who so kindly furnished transportation in their motor cars.

LEONARD WAS INJURED IN MORAN BOUT.

NEW YORK, Aug. 12.—(United Press)—Postponement of the Micky Walker-Benny Leonard welterweight championship fight, scheduled for August 20th, will not be considered until a definite report on the injuries Leonard sustained in his fight with Pal Moran last night in Cleveland is obtained, Jimmy Johnston, promoter of the fight, said today.

"I told Leonard he was taking too big a chance, but he would not call off the fight, and it looks as if I might have to hold the bag. I don't know how badly he hurt his thumb, and I won't do anything until I talk to him and see the hand," he said.

Johnston recently took out \$75,000 insurance on Leonard to protect the bout. Johnston lost another big bout last summer when Johnny Dundee made such a bad showing in a minor fight in Philadelphia that the Leonard-Dundee fight had to be called off.

CLEVELAND, Ohio, Aug. 12.—(Associated Press)—Benny Leonard, the world's lightweight boxing champion, returning to the ring after nearly a year's absence, scored a decisive but costly knockout over Pal Moran, of New Orleans, here last night, when he defeated the challenger in a 15-round contest, winning all but one of the rounds by a wide margin.

The champion injured his thumb when he sent a crashing swing to Moran's head in the fourth round. The injury, physicians said today, will prevent Leonard from engaging Micky Walker, world's welterweight champion, in a 15-round contest scheduled for New York a week from tomorrow. Leonard, the physicians said, probably will be forced to rest for at least a month before he would be in condition to resume training.

Leonard, with his damaged thumb in splints, left for New York today to submit the injuries to specialists for an X-ray examination. If the injury is as serious as the preliminary examination indicated, Leonard will request that his match with Walker be postponed until probably September 15.

The champion, engaging in his first contest since last September, revealed at his old-time form. He was in and out, shooting left jabs and hooks and right crosses that invariably found their mark. He displayed remarkable judgment in distance and accuracy

RENAULT OUTPOINTS BARTLEY MADDEN.

NEW YORK, Aug. 12.—(United Press)—Jack Renault, the Canadian heavyweight champion, may be given a bout with the winner of the Fitz-Wills contest or with Tom Gibbons, as a result of his decisive fifteen round victory over Bartley Madden last night.

QUEENSBORO STADIUM, N. Y., Aug. 12.—Bartley Madden, struck it out for fifteen rounds with Jack Renault at the Queensboro Stadium last night, lost the decision and got the finest opinion a brave fighter ever got. Renault won in every round, he seemed, though he could not stop his man, something that Madden never before encountered. He brought up at the finish badly cut about the face and dead tired, though unconquered. He did not have a ghost of a chance to win as it turned out.

He was outpointed and outboxed, but never was he outgamed. His coolness was admirable, his pluck dauntless. You'll find fewer gamer men in this world than little Bartley Madden.

I like grit, and I take my old stave kelly off to a man who is brimful of it. At the end of the 12th round Renault was drubbing Madden without a let up, and Ed. Purdy, the referee, looking over Madden for signs of distress, seemed to be in doubt as to whether he should stop it or not. It was a case where for the man who has never been knocked out. Though in truth, Madden looked far worse than he really was. The cut on his face made Madden look hopelessly beaten when, as a matter of fact, it meant only the re-opening of the old cuts inflicted by Fred Fulton several years ago.

Madden got a tremendous cheer as he finished the fourteenth. It was a great comeback after the hard previous round. The last round was a shambles, and I, for one, was glad that it finally came to an end. Madden's face was a red curtain, his left eye by now was closed tight, and he could not possibly have endured another round. Bartley's eye closed tightly as he blew his nose into his glove, a thing he must have known would happen if he resorted to that foolish trick.

The official figures were given as follows: 16,095 attendance, for a gate of \$42,000.

HARNESS RACING NOTES.

Willington Defeats Hal Bee 2:02 1/2 and Smashes Track and State Record at Harrington Fair.

Willington 2:04 1/2 the fastest which will snow teamed, successfully last year now owned and driven by William Yelland of Frankford, Pa., stepped three very fast miles to win the free-for-all pace. The first heat was paced in 2:05 1/2, last half in 1:01 1/4. This shattered the track record by five seconds and the state record by two. Towards the end the speeding heats were enough to show that the first mile was no flash.

Free-for-all Pace—Purse \$1,000. Willington, bg, by Bonington (Yelland) 1 1 1 Hal Bee, bm, by Hal B. (James) 2 2 2 Peter Daphne, bg, by Peter O'Donna (Goodhart) 3 4 3 Cherry Willis, bm, by Peter the Great (Tyson) 4 3 4 Time—2:05 1/2, 2:07, 2:07 1/4.

It may be interesting to horsemen of this city to know that Mottram, owned by Joseph Judge a half sister to Willington, both being out of McKinney's best daughter, "Sweet Marie" 1:02, the leading money winner of 1904, and one of the greatest trotting mares the harness racing world has ever seen.

Fight By Rounds.

In the first round Renault took the aggressive, starting right in to put a finishing blow on Madden. The tough New York-Irishman, who boasts he has never been knocked off his feet, covered up, content with remaining upright. Little damage was done by either boxer in this round.

Renault started to box his opponent in the second round, jabbing with his powerful left and crossing prettily with his right. Renault was getting in some damaging blows to Madden's body.

Unsolicited Appreciation

On the 8th inst. we mailed a cheque to an out-of-town claimant who had only recently recovered from a six weeks' disability. On the 12th we received this answer, unsolicited and unexpected:—

"I must indeed thank you and your Company for the prompt and generous settlement of this claim. It speaks volumes for the stability, integrity and square-dealing of the Company you represent."

For 36 years this Company has shown the same promptness, square dealing and stability. All obligations assumed by us are met when due without useless red tape or undue delay.

TOTAL ASSETS, \$38,000,000—CLAIMS PAID, \$102,000,000
U. S. FIDELITY & GUARANTY CO.
J. J. LACEY, Nfld. GENERAL AGENT.

Collar and cuffs of net and embroidered lace are used on a street rock of corded silk, with a gored skirt.
An inner collar of white organdie and edging of soft black ostrich are used on a coat of black crepe moiraine.

A child's party frock of crepe do chine is fitted at the neck, and the sleeves are finished at wrists with smoking.
To achieve the smartest silhouette, one's frock is cut circular in front, and worn under a matching three-quarter length coat.

Our Coal Resources

Misleading Information Reputed by Scientific Fact.

Editor Evening Telegram

Dear Sir:—Sir Alexander Gibb, Engineer, who recently visited this country in connection with the Newfoundland Power and Paper Company, Ltd., Corner Brook, Bay of Islands, in an interview with the Montreal Star, August 12th, last, has this to say in reference to Newfoundland:—

"Besides the possibilities of fish and of pulp, Newfoundland has extensive mineral deposits which are as yet unworked. Copper, iron, plenty of oil shale, and coal, though the latter was not of the best quality, had been reported in geological surveys of the country, and with power available the cost of treating them would be lower. It present they were undeveloped because of lack of money."

It would be interesting to know from what source Sir Alexander Gibb got his information or in what geological survey of the country is it recorded that our coal is not of good quality? I refer to the section where coal in quality is available, that is the section of the Middle Barachois, Robinson's and Northern Fesler Rivers, where the following seams in workable dimensions are open to the naked eye. The Jukes, containing from 5ft. to 8ft. of coal over a section of 2,000ft.; the Howley, from 4ft. to 11ft. of coal; the Cleary, 2ft. 2in. of

coal; Murray No. 1, 3ft. 3in. of coal; Murray No. 2, 5ft. 4in. of coal; Furlong, from 2 to 4ft. of coal. During the operation there last year, preparatory to the property being inspected by Sir Stopford Brunton, Bart., Mining Geologist, Hon. Carl E. Milliken, ex-Governor of the State of Maine and Arthur J. Selfridge, Esq., Counsellor at Law, Boston, Mass., there was uncovered on the west side of the Barachois River, a section where several seams had run together, containing over 20ft. of coal.

It is evident that Sir Alexander Gibb's information was supplied by a source of propagandists who hang around the St. James Club in London, the Ritz Carlton, Windsor, and Mount Royal Hotels, Montreal and I may add, one or two hotels in this City, and every train and steamer operating in and around Newfoundland, who are leaving no stone unturned to kill our coal fields and every other enterprise that does not bear the hall-mark of certain big corporations operating in Newfoundland and in New Scotland. For the information of Sir Alexander Gibb and other English Capitalists who may be interested in Newfoundland, particularly in the New Works at Bay of Islands, the following analysis from some of the seams in the area of the St. George's Coal Fields, Ltd. may be interesting.

ANALYSIS OF COAL SUBMITTED TO MR. G. T. HOLLOWAY, 57 CHANCERY LANE, LONDON, ENGLAND.

	Cleary Seam	Jukes Seam	Howley Seam	Shears Seam
Moisture	3.548	3.036	2.271	4.90
Volatile Matter	30.897	30.344	29.784	33.12
Fixed Carbon	55.229	60.142	54.468	not given
Sulphur	3.846	1.963	3.947	0.44
Ash	6.339	4.515	10.459	3.16
	100.000	100.000	100.000	Coke 61.371*

*The evaporative power of this coal expressed in pounds of water by one lb. of coal at 212F. was 12,371, which considerably exceeds that of North Sydney, or the best Scotch, Welsh or English Coals.

ANALYSIS OF COAL FROM JUKES SEAM.

By Professor D. James Davies, B.Sc., F.G.S., Member of the Society of Public Analysts, England, Government Analyst for the Dominion of Newfoundland, March 12th, 1919.

Moisture and Volatile Matter	34.50%
Fixed Carbon	57.50%
Sulphur	0.91%
Coke	65.50%

	Howley Seam	Cleary Seam
Moisture and Volatile Matter	31.70%	30.45%
Fixed Carbon	62.15%	67.39%
Ash	6.90%	7.39%
	100.00	100.00
Coke	68.30%	69.55%

One must realize that Governments and Corporations do not fight for pastime, they were fighting for the gold which is bound to accrue from this valuable property.

For the information of the shareholders and the country in general, I am in a position to state that a company is now being organized in the City of Boston, under the management of the Hon. Carl E. Milliken, referred to above, which to work the property on an extensive scale, but before doing so, they are going to test the property by a series of Diamond Drilling, the sites for which are now located; drilling operations to be started during the coming month.

In writing the above we are not looking for notoriety nor a newspaper discussion, we are simply making a plain statement of facts and what we crave the support of every right thinking man in this country, we would ask the press not to allow any anonymous writers to blacken this, the greatest mining enterprise ever attempted in Newfoundland.

Yours truly,
THOMAS J. FREEMAN,
Managing Director,
St. George's Coal Fields, Ltd.,
St. John's, Nfld., Aug. 21, 1924.
Note—Hon. Carl E. Milliken, to whom reference is made is mentioned in the following news item which appears in the Methodist Monthly Greeting:—

"An American Encyclopedia of Christianity is to be published by a committee of Protestant Americans, of which Henry Wade Rogers, federal judge, and Carl E. Milliken, former Governor of Maine, are members."

On the evening gown one sometimes sees a swathed girdle, and again, no girdle at all.

It seems that furs, particularly mink, leopard and tiger, will be a fall trimming note of interest. The very smartest necklace consists of three strands of pearls with an emerald brooch in front.

A beaded frock of filmy black chiffon has wing drapery in back that makes it delightful for dancing. Jewels relieve the severity of a straight gown of silver cloth with a pointed décolletage.

The flared tunic is a note of interest about the three-piece costume for afternoon wear.

THE DOMINION STORES!

 but that doesn't help him to get rid
 of a hook!
 He may be a millionaire; yes, even
 a duke!
 But what he wants and not think
 of the pros play that he can't
 get rid of a slice.
 He may be a lawyer of eminent note,
 whose cases from Blackstone perhaps
 he can quote;
 but bunkers and hazards will still
 get his goat.
 He may be a statesman, respected and
 great.
 But in his hands the affairs of the
 state;
 but diplomacy won't keep an iron
 shot straight.
 He may know the sciences ancient
 and be
 the holder of many a college degree;
 but that takes more than brain to get
 well off the tee.
 He may know the Pharaohs and talk
 of King Tut.
 But solve hieroglyphics and sign
 writing;
 but that will not win the hole if he can't
 sink the putt.
 So golfers be happy and dub on your
 way.
 Take this consolation to soothe your
 dismay;
 you know too much if good
 golf you would play.
 Good golfers are few, and the few that
 have spent all their time on that snap
 of the wrist;
 they have learned how to drive, but
 the classics they've missed.
 Don't fret o'er your game as you
 And wish you could shove brassie
 shots in that way;
 for you could if you did nothing else
 every day.
 Cleanliness is one of the chief sec-
 rets of charm, and perfect clean-
 ness results from the use of Ivory
 Soap.—adv.t.

This Week's Finest and Rarest VALUES

Stand Out Conspicuously

Speed the parting guest, and welcome the new-comer. For the next two weeks we will be speeding the summer goods, that is,—hastening their exit with depleted prices, and many are the bargains you will find to be just what you wanted.

Also during this period we will be welcoming new comers.—Fall goods of all kinds. These will be on display just as soon as they arrive. So you can expect to see new things almost hourly.

Thus the Store will prove of most extraordinary interest, be just as we desire it to be, a meeting place for you and your friends day in and day out.

Business Bringing Values at Baird's

Breaking Up The Home!

You can hardly blame this man for what he is doing, as he is evidently suffering from an attack of Indigestion. It would be much cheaper for him to purchase a bottle of some good Stomach Mixture.

Stafford's Prescription A

would certainly help this man, and any other who would feel like doing the same thing. The usual symptoms of Indigestion or Nervous Dyspepsia are as follows: Uncomfortable feeling about Stomach after eating, Headache, Nausea, Acid and Bitter Eructations, Langour and Depression of spirits, Irritability of Temper, Tenderness over Pit of Stomach, Bad Taste, Loss of Appetite, Constipation, etc. If you have any of the above symptoms try a Bottle of STAFFORD'S PRESCRIPTION A, and we are certain it will cure you. You can purchase a trial bottle for

30 Cents
or large bottle (about three times as large) for 60 Cents.
