### LOCAL HAPPENINGS

Harvesting is now in full swing. Service at the Watford Baptist church next Sunday, July 29th, at

3 p.m. Mr. R. J. Campbell, preacher. The picture attraction at the Lyum will be shown every Thursday till the end of September.

Many a man who worries because he doesn't get what's coming to him would have a lot to worry about if

The soft refreshing rain on Monday night was very welcome in this immediate vicinity. Many soft water cisterns and gardens needed it badly.

Trinity church Sunday school picnicked at Bright's Grove on Wednes-day afternoon, Both old and young enjoyed the day to the full.

Martin O'Mera of London, a postoffice official there for ever 40 years, he talked t died Sunday last. He was well-known rest of ye." in Watford having visited here frequently.

On and after September 1st the minimum size for post cards within Canada is to be four by three inches. This is the smallest size to be permitted in the mails.

Among the features of the Sarnia Woodmen of the World picnic to be held at Tashmoo park on August 6th will be the visit of the crack uniform rank team of Niagara Falls.

Mr. W. O. Erb has been engaged as first assistant teacher at the High School at a salary of \$2,200 a year and Mr. Doolittle as Principal of the Public School at a salary of \$1500 a year.

The modern flapper-does she really love? Is she daring? of Fate" featuring the beautiful little screen favorite Mary Miles Minter, thrillingly tells the story at the Lyceum to-night.

Sunday next, July 29th, will be throughout Canada Peace Sunday, as arranged by the League of Nations Society, and the observed League's work will be dealt with in many pulpits .

Mr. Lorne J. Williams of Calgary, a Watford old boy, and some years ago a teacher in the Watford High School, has been appointed Principal of the Collegiate Institute at Sault Ste Marie, Ont.

At the meeting of the Grand Lodge Freemasons held in Toronto last week, Mr. A. D. Armstrong of Leo-pold Lodge, No. 397, Brigden, was chosen district deputy grand master

for Sarnia District. Old Sol and the lack of rain for over six weeks have saved the people of Watford a lot of work mowing the lawn and keeping down the weeds. Taking up the vegetables will not be a very big job this fall.

The most classic beauty of the the most classic beauty of the screen "Marion Davies" star of "Knighthood" in the brilliant Broadway success "Adam and Eve" by the same director, will be presented at the Lyceum, Thursday, Aug. 2.

The Scoffin family held their first reunion on Saturday at Springbank, London. Guests were present from Ingersoll, London, Springfield, Maple ton, Avon, Shedden, Watford, War-wick, Kingscourt, Forest, Detroit.

tune with Toronto.

The East Lambton Fall Fair Board are busy getting up a good prize list and making arrangement for special attractions for the Watford Fair which will be held Sept. 20-21. Exhibition hibitors are already preparing exhibits for entry.

Among the improvements being made to residential property in town is a spacious conservatory and sleeping porch that is being erected at the rear of Mr. Loftus Millar's fine home on Simcoe street, which will greatly enchance the appearance and

value of the property. The Bank of Montreal's Ontario crop report dated July 19th. says:—
Ideal growing weather. Crops maturing rapidly. Fall wheat cutting has commenced in some sections, and a good crop is assured. Hay is practically clustered by the commenced in the commenced in the commenced in the commenced in the commence of the comm ically all cut and bountiful crop reported. Spring wheat beginning to head out. Barley, oats and peas give promise of good yield. Corn in excellent condition and will be a big crop. Fruits, cherries and plums a good crop. Pastures in excellent condition."

Watford Markets-New Wheat90c

A Maine resort makes a strong appeal to anglers when it announces that it is a quiet spot where fish bite and mosquitoes don't.

Every man should have his own home. It is nice to have something to mortgage when you wish to buy a car.

Sydney Murrell, charged with the murder of Russell Campbell of Melbourne, and who escaped from London jail Sept. 2, 1921, and was captured at Susanville, California, May 2, 1923, was brought back from California this week and safely ensconced in a cell in the Middlesex county jail, London.

A Scotchman visiting in America stood gazing at a fine statute of George Washington when an American approached. "That was a great and good man, Sandy." said the American; "a lie never passed his lips."
"Weel," said the Scot, "I prasume he talked through his nose like the

A well-known and much respected resident of Watford for many years, Mr. Arthur Hume, passed away at Alvinston on Monday in his 85th year. The funeral was held on Wednesday afternoon from the residence of his nephew Thos. A. Gault, 2nd Watford cemetery. A more line, to extended notice will appear next week.

"Do you know what to do if the car should break down?" asked the thoughtful mother of the young man who was going to take her daughter for a ride. "Certainly," he answered. The young people were late in re-turning. The daughter rushed in to her mother and said: "Oh, Mama, the car did break, down! But Jack knew exactly what to do! We—we are engaged!"

Magazines publish articles on how to behave when invited to an autoride but it seems to us people who own motors might be more thought ful, too. They visit friends, and have meal and never think to invite the tired hostess for a joy ride. Riding is so common to them they forget the treat it may be to their hoste There are many invalids, too, sitting on porches just longing for a breath of country air and an outing.

Thomas McWatters, 116 North Vid-al street, Sarnia, had two ribs broken and his daughter Lola was badly shaken up Monday night about eleven o'clock when the auto in which they were riding was crashed mian's grove. One of the front Mitchell and, Miss Ross of Sydney, wheels of the touring car in which Mr. McWatters was driving, was torn noon with Miss Adams. Mr. McWatters was driving, was torn off and the front of the other car was damaged. The cars collided at a narrow section of the road.

#### IF IN DOUBT, DON'T DO IT

The outdoor season is here again, and records show that the first few weeks are productive of by far the highest number of casualties. The man who drives a car should remember ber that no great damage is going to be done if he allows the car coming in the opposite direction to get across that narrow culvert first. That fool desire to get there first often leads to business for the car wreckers and wick, Kingscourt, Forest, Detroit.

One of the advantages of Radio in rural districts was demonstrated on Tuesday when the news of the big hold-up of bank messengers was broadcasted soon after its occurrence and heard at all receiving stations in tune with Toronto.

to business for the car wreckers and undertakers. Better swimmers than you have gone down for the hird time. Take it easy. Swimming out a great distance from the shore means that you practically eliminate those who might come to your assistance. If you don't know anything about a cance he careful Learn if you want canoe be careful. Learn if you want to, but don't make a martyr friend in so doing. It is a wise man who knows enough to realize that he is in the old flat-bottomed rowboat class. Play safe. If in doubt, don't do

#### CHOP STUFF

Archie Dewar of Plympton, county master of East Lambton L.O.L. attended the Orange Grand Lodge at Winnipeg last week.

The widow of Donald McPhee, for many years a tailor of Sarnia, died at Corunna Friday, after a stroke the previous Tuesday.

The death occurred at her home in Sombra on Saturday morning of Mary Jane Carpenter, aged 74. Deceased was one of the township's early settlers, and was highly respected. She leaves a grown-up fam-

Melvin Boges has disposed of his 200 acre farm on the 12th line, Enniskillen, known at the Callinan farm, to Judge Lane and G. A. Innes of Port Huron at a good figure. It is the intention of the new owners to improve the property and work it to its limit.

According to the Amherstburg aper the dogs of that town have paper taken the curfew notice of the Chief of Police seriously and there seems to be much less riotous conduct on the part of dogs after nightfall than before the prohibition was put into effect."

The Blenheim Tribune says: "The report of the presence near High-banks of a hoop-snake has created some alarm among the residents of that summer resort. Several residents claim to have seen this peculiar snake. When it travels it takes the form of a wire coil and rolls over the ground. It is black in color and very thin. When attacking a victim it can strike a heavy blow with its tail, which is part bone after which it sucks blood. The bites are declared

to be not fatal." While on a motor trip to Appin or Sunday morning last Bert Christner accompanied by his brother Walter and his wife and three children, of Dresden, had a bad accident when the rear wheel of the Ford car in which they were riding broke, upset-ting the car and pinning them under the body. Walter Christner is the only one of the party seriously injudied, he sustaining a broken arm broken shoulder-blade and four broken ribs. He was brought to his home on Sunday night, and is getting along as well as can be ex-

pected. Miss Jean Sherman, aged 12 years and 10 months, daughter of Mr. and Mrs. Edgar Sherman, and a pupil of Public School won distinction for and school by winning the Hon. Manning Doherty second prize of \$20 in gold at the Entrance examinations at Thamesville. Miss Sherman presided, and after the minutes of previous meeting roll cell was an accounted a total of 636 marks of the president and after the minutes of previous meeting roll cell was an accounted at the first previous meeting roll cell was an accounted at the first previous meeting roll cell was an accounted at the first previous meeting roll cell was an accounted at the first previous meeting roll cell was a second make a note of this.

The regular monthly meeting of Zion W. S. was held at the home of Mrs. H. A. McKenzie, July 12th. The president make a note of this. M. Graham at the Thamesville secured a total of 636 marks out of a possible 750. Fred McCracken, aged 13 years and 9 months, a pupil of Miss Jean McLean of Blenheim school won first prize of \$30 in gold, given by Hon. Manning Doherty. His total was 656 marks.

Victor Cozens of Wyoming, who was seriously hurt by falling in a boiler while employed on a boat be-longing to the Imperial Oil Company near Montreal, returned home last Wednesday. He had been in a hospital in Montreal for some weeks. He pital in Montreal for some weeks. It sustained a fractured wrist, severe burns on the arm, a fractured skull and other injuries. He was adjusting the lid of a large boiler when the fumes of gasoline rendered him unforms of the state of the conscious, causing him to fall 27 feet into the boiler, which was being cleaned from its gasoline content, previous to being filled with oil. A rope was thrown him, which he was able to adjust with his uninjured arm, and he was pulled to safety.

Jesse Smith, who is well known in the townships of Sandwich South and Maidstone, for several years and Maldstone, for several years past, received fatal injuries on Sunday morning last, from which he died on Monday morning. Mr. Smith who has been employed by Mrs. G. Fairbairn on her farm on the Base line for some weeks past, was doing chores around the buildings about 7 chores around the buildings, about 7 o'clock, and was walking around a straw stack when he was attacked from behind by a dehorned bull, the animal knocking him down and attacking him while on the ground. Some of the members of the family drove the animal away, and Mr. Smith was assisted to the house and Dr. McDonald, of Essex, called. The doctor found that some of the ribs were broken, one of the ribs puncturing the lung, and his collar bone dislocated. He died from his in-Two million nine hundred thousand persons in Great Britain are drawing disability allowances, costing \$160 a 80 years of age and was about head.

Hugh McTagart, president of the Mosa and Ekfrid Agricultural Society, was seriously hurt while assisting with the hay harvest on the adjoining farm of James McTaggart. Flies made the horses which Mr. Mc-Taggart was driving restless, and in a sudden starting up of the team he was thrown violently against a large kettle, breaking four ribs and sustaining other injuries. Dr. McLachlan, who is attending Mr. McTaggrat reports him to be doing as well as

can be expected. The water tower at Parkhill is being repaired by a process which is rather unique in this country. The process originated in Europe and was first introduced here three years ago. Dry cement is forced through a hose to the top of the tower by a high pressure engine. Near the top, this cement is joined by a stream of water. The soft mixture is blown against the sides of the tank and into every crevice and crack. apparatus used for this is called a blow-gun and the cement has a great pressure behind it. The tank is lined with a wire netting and the meshes of this net are all filled and then the job is finished off by a thick coating of cement. It will take ten days to complete the job and the outside of the tank will be plastered by a steeple jack who will hang himself over the side with ropes. His work will be interesting to citizens can see him hanging at a rather dizzy height.

#### WARWICK

Miss Mary McCormick of the pub-lic school staff of Kitchener is spending her holidays with her brother, Joseph P. McCormick, 2nd concession north, Warwick Township. Mr. Harold D. Leach has been ap-

pointed to the position of assistant principal of Assumption School, Windsor, for the ensuing year and will assume his new duties upon the

opening of school in September. Dr. T. G. and Mrs. Kingston of Croswell, Mich., spent the week end at the old home "The Lindens", 4th line. The doctor, after a residence of 36 years in Croswell is removing to Grand Rapids, where he intends making his future home.

The voters' list of the township for 1923 was posted by the clerk on Saturday last, July 21st. By a change in the Voters' List Act only 21 days are now allowed to make appeals instead of 30 days as heretofore. Interested parties should make a note of this.

The regular monthly meeting of

previous meeting, roll call was ans-wered by missionary clippings and the Devotional Leaflet read by Mrs. J. B. Parker, Miss Lela Fuller read an interesting paper on the "Mission of a Mite Box," and the following heralds gave us the latest missionary news:—China, Mrs. S. C. Reycraft; Japan, Mrs. Joseph Parker; Indians, Mrs. Robert Wynne. The er; Indians, Mrs. Robert Wynne. The ladies are going to make an autograph quilt in the near future, quilt committee to decide on design and buy cotton. It was also decided to hold a public meeting as soon as a suitable speaker could be secured. Meeting closed with the Mizpah. Next meeting at the home of Mrs. W. E. Parker. W. E. Parker

The annual meeting of the Birnam branch of the Bible Society was held on Sunday afternoon in Zion Cong'I church, 2nd con., north. Mr. J. F. Smith, president of the branch, pre-sided over the meeting of the execu-tive, and Rev. T. D. Rayner, pastor of the church, presided at the public meeting, at which were present rep-resentatives of the congregations of Bethel Methodist, Knox Prebyterian and Ebenezer churches, as well as of Zion church. The secretary's report which was given by L. H. Vance, and the treasurer's report, by Mac Luck-ham, indicated that good service had been rendered to the Bible Society during the past year. The election of officers for the coming year resulted as follows: President, J.F. Smith; secretary, L.H. Vance; treasurer, M. Luckham; directors, T.L. Luckham, and Stanley Brent for Zion church; William Vance and R. Hall for Bethel church; and R. Ellerker and G. Brodie for Ebenezer church. Collectors were also appointed as follows:Zion church, Mrs. Wm. Rich-ardson and Mrs. Victor Barnes; ardson and Mrs. Victor Barnes; Bethel church, Miss Jean Smith and Miss Mildred Brent; Ebenezer church Miss Mary Ellerker and Miss Margaret Kilmer. The special preacher was the Rev. R. J. Bowen, F. R. G. S. of London, district secretary of the Bible Society for Western Ontario. W. C. Aylesworth, Publisher. T. Harris, Editor.

FRIDAY, JULY 27, 1923

NOTE AND COMMENT 

Of the 16 chosen to maintain the status in the legislature of the U.F. O., as a political party, 11 were for-merly Liberals and 5 Conservatives.

Owen Sound Sun-Times:-Hats off to the man who finds his recreation and diversion in his garden, while the "maddening crowd on pleasure bent" scurry in every direction past him in search of what he finds at home.

Toronto Saturday Night:-What is needed now is strict economy. It is going to take a lot of clean, construc-tive work to pull Ontario out of the financial hole in which it now finds

To assist in the movement of settlers to Western Canada, a reduction of approximately one-third in the rates on settlers' effects by both Canadian Pacific and Canadian National Railways was announced at Winni-

London Advertiser:-In a movie show the other night a man was tied to a track and in the distance an engine was coming around a curve. A beautiful girl in a high-powered car was dashing off to save him. Then it said: "Cintinued next week." It's a mean trick to leave the poor beggar strapped there for a week.

After Oct. 1 the revenue stamps necessary for cheques, receipts and other documents may be obtained from collectors of customs and excise and all chartered banks. It is only right that the Inland Revenue Dept. should get the benefit of the money raised in this way, yet the distrib-ution will work hardship to the public. Why could not a limited quantof these stamps be supplied to all post offices?

Amherstburg Echo:—Two near fatalities recorded in The Echo this week (one at Amherstburg, one near Harrow) in which unlighted buggies were struck and practically demolished by automobiles, again emphasize the position taken by The Echo for a long time, that, if for no other reason than self protection, all vehicles using the public highways at night, should carry a light conspic-uously displayed. In this era of overcrowded automobile traffic it is like taking one's life in one's hands to drive the main roads at night in a horse-drawn vehicle not so equipped. and we trust the new Government will put legislation on the statute books providing for this.

Co-operative selling in which a start has been made in this country in marketing wool and celery will prove to be the salvation of the farindustry. Just why a middleman should make an equal profit in a few weeks' time with the farmer who gave of his time and money for several months in raising his produce is one of the unexplained mysteries. Canadian farmers will do well to follow the lead of Denmark, once the most poverty-strcken country of Europe, but since its adoption of the method of co-operative selling, one of the richest.

Many people seem to think that the possession of great numbers of automobiles by the country folk is a sign that they are making good and that the difficulties that the farmer is supposed to encounter are largely imaginary. Many people living in outlying districts however, can testify that the automobile is an absolute necessity for them. With their old team of horses it might have taken them a day to get to the market town and back again. But with the automobile they can usually make it great deal of money to the farmer now, with the high prices that must be paid for help. Gasofine and tires

good crop can mean so much. Is it not worth while to look carefully at this Rainbow Covenant and the power it gives?

Strasbourg, Sask. (Sgd) Anna Ross be paid for help. Gasofine and tires on his flivver are cheaper than the pay of a farm hand. But when the use of an automoble is abused, the upkeep may overbalance their use-fulness.

Children Cry FOR FLETCHER'S CASTORIA Read the Want Ade on Page Four. ery. SEVEN YEARS

There is a new crop springing up all over Canada. Will it be good or bad? That depends largely upon weather conditions. As I consider I am in possession of the key to the clouds, I am very anxious to pass it on to others. Perhaps the best way to do this, and at the same time to give some idea how to use it, will be to give the last seven years of my own experience, though I might well make it fourteen. make it fourteen.

This is one of the two years in which I suffered really staggering disappointment. Yet when the year was completed, I do not know that any of the other years were more radiant with light on the subject.

I was at this time living in California. Every year while I was there, we had good seed-time rains, and we had good seed-time rains, and 1916 was no exception. The crops were doing well until it came time

for the grain to fill out to plumpness. The precious "latter rains" were much needed. Yet in our little S. School no one proposed prayer on the subject, and I felt my hands tied unless there

should be something of a community interest and desire. One day I met a prominent farm-

"Mr. A." I asked, "don't you want rain? "Yes, we need the rain now," he answered.

"Now Mr. A., you know I am ready to lead a prayer meeting for rain, but I cannot act unless the community is with me in the matter. If you really want rain, ask your three former neighborn, ask your three farmer neighbors to come to the S. School next Sabbath, and we

will unite for the rain on the Rain-bow Covenant, and you know we

shall get it."

"All right," he said.

I knew that Mr. A. believed in the power of prayer, and went to S. School fully expecting to hold a little service for rain. What was my surprise and disappointment to be handed a note from Mr. A. saying that business had called him from home, and he would not be present. I well understood it. He had been "asham-ed" to pass on the invitation. Not a farmer was there and we had no prayer meeting.
But the next Sabbath, there were

three farmers present, and one of them proposed prayer for rain. My own mind in the meantime had

changed. The very next day they were all going to start haying, and the rain, though good for the wheat, would certainly damage the hay. I felt we were too late, and said so. But there was a unanimous vote that rain would do much more good than harm, so we had united covenant prayer that it might be sent.

How I watched the sky the next few days! On Friday afternoon the heavens got black with clouds, and the rain seemed positively almost in the act of falling. But it did not fall. The clouds parted and cleared away, and my heart fell. Week after week went, and there was no rain. I did not know what to think. This was my first disappointment.

At that time there were some things that I did not know. I know them now, and can clearly see that the answer was being beautifully worked out, but not in my way.

Fact No. 1 That Friday afternoon when the rain seemed imminent, the very far-mer who had proposed prayer for rain in the S. School, was standing in a large hay-field with winrow after winrow of beautiful fresh green hay stretching all around him. His heart rose against the thought of that perfect hay being drenched like tea-leaves by one of California's deluges, so he stood up in the midst of the hay and asked that it be kept back until that had been secured. That prayer was promptly answered. Fact No. 2

But the covenant prayer about the wheat crop was not forgotten. Following that Friday, two or three weeks of uncommonly cool weather were sent, also a night or two of heavy mist rolled up from somewhere, and, so, without the rain, the wheat was filled out to a perfect sample.

Fact No. 3 That was the first year of really high prices. What with the good crop, and the high prices, and the sale of about 90 cattle, one of our S. School families was able that year to clear off a long-standing and growing mortgage of \$10,000. One good crop can mean so much. Is it not worth while to look carefully at

#### Health for Weak Despondent People

From End to End of Canada Dr. Williams' Pink Pills Doing Good Work.

There is not a nook or corner in Canada, in the cities, towns, villages and on the farms, where Dr. Williams' Pink Pills have not been used and from one end of the country to the other people sound their praise. You have only to ask your neighbors and they can tell you of some run down man, suffering woman, ailing youth or unhappy anaemic girl who owes their present health and strength to Dr. Williams' Pink Pills. The success of this medicine is due to the factthat it acts directly upon the blood, making it rich and pure, and thus brings new strength to every organ and nerve in the body. Mr. Andrew F. Webb, Melanson, N. S., tells what Dr. Williams' Pink Pills have done for him as follows:—"I was in a run down condition from overwork and what the doctor called ed me to try Dr. Wiliams' Pink Pills After taking several boxes I improved wonderfully and feel like a different person. I sleep well, eat well, and my nerves are stronger and with confidence I can recommend these pills to all weak, run down people."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will imBlats' Diary

## Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and

grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural pro-

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living and brought up their families. It meant hard work, but today they

We Must Cut Production Costs

Canada is meeting with the keenest competition in the mark. eting of her products. To hold her own and regain her place on the world's market, she must reduce cost of production. The only way to do this is to

increase production per acre, per cow or per other unit. But improved quality, also, is

sential to meet market de-The quantity and the quality of the products and the

production in competitive countries is beyond our control. Prices of agricultural products are regulated by world supply and demand

Hence, decreasing production will not help the Canadian

Money in Mixed Farming

In recent years, at different points the prairies, oats fed to steers have ought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 99c as against the Fort William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make machine.

a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted.

The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

### Poultry Pays

Poultry makes money for those who adopt modern meth-ods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving ruinous glut in their local market.

There is a market for good Canadian horses, whether light or draught.

Grow Seed Canada's Northern

grown seed possesses extra vitality. There is a large market for it to the south. Can-

ada exports seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

#### The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

Editors of Canada's Weekly Newspapers Photographed at Halifax.

No annual convention trip which the Canadian Weekly Newspaper Association has ever taken has been more memorable than that which has just been completed. Newspaper men from all parts of Canada—from as far west as Vancouver Island, B. C., and as far north as The Pas, Manitoba met together at Toronto to board the special Canadian Pacific train that was to take them by a series of easy stages to accommodate them. The editors and there were and some children numbered altogether about 180, and it took a train of twelve cars to accommodate them. The train was made up of eight standard sleepers, two diners, a baggage car, and a strong was a spiendid welcome to the travellers.

Which added greatly to the comfort of the trip. The train was manneed of the trip. The train was manneed of the trip. The train was manneed of the party moved on to St. John where similar hospitality, and here the canadian Pacific steamer "Princess" the party enjoyed a delightful sall of the meetings it was decided that a large extent due to the organizing through the Annapolis Valley to Halifax was made over the Dominion at Wembursh and the party was provided the Evangers of the Evangers and the party was provided that the proposition of the Evangers and the party was entertained by the Canadian Pacific at the famous Charles and dike-lands of the Evangers and the party was entertained by the Canadian Pacific at the famous Charles and train of twelve cars to accommodate them. The train made a special canadian validation to Quebec where a provided the party was entertained by the Canadian Pacific at the famous Charles and train of twelve cars to accommodate them. We Must Use Canadian Coal

Address by Mr. F. W. Gray, of the British Empire Steel Corporation, before the Canadian Weekly News-

heritage, and that the future of this country is so promising as to need no emphasis and to call for no exaggeration on our part.

Nevertheless, Canada suffers under one serious limitation, one that, but for the resources of Nova Scotia, would, in the long run, be fatal to our hopes of national development, and would some day force the ab-sorption of Canada to the United

I refer to the shortage of coal deposits in Eastern Canada. Between the coalfield of Nova Scotia and the fringe of the great coalfield of Alberta there intervenes a distance of 1,800 miles, or as far as from England to the Caucasus, that is entirely without coal resources.

The coalfields of Nova Scotia, 70 per cent of the reserves of which are true, as it is in all urban centres at concentrated around this city, is a this time htat sinister forces, origin-Dominion. With the exception of some inferior coal in Chili and the coalfield of Vancouver Island, is it the only coal deposit on either the Atlantic or the Pacific shores of the American Continent. The nearest coal de-posit in the United States is 800 miles away. These conditions give to the Nova Scotia field extraordinary economic and national value, out of all proportion to the actual extent of

Coal is the basic raw material of modern civilization, and no nation can hope to become great, self-sustaining and independent that is without coal. It is not too much to say that the coal of Nova Scotia is the guarantee of economic independence, and consequently the guarantee of national independence, to Eastern ineers are making technical history

In the West there is a large concentration of coal resources which some day will cause Alberta to exceed the East as an industrial centre, and will bring population and wealth Ontario and Quebec, from which a will become a predominating factor assured supply of suitable fuel for

soluble bond that the Fathers of Con- dearer and increasingly hard to ob-

federation planned for.
Those who saw Sydney Harbor in during the years 1914 to 1917 been to provide the householder and could not have manufactured munitions or exported grain and war

From the Island of Cape Breton not less than 6000 men went to the Front, almost entirely volunteers and in very large part composed of min-ers. As a result of this, the production of coal has been very much reduced.

Readers of newspapers, particularthose published ourside of Nova Scotia, may be pardoned if they have an idea that social conditions are very disturbed in the mining districts of the province. It is probably scarcely necessary to state that a population with the war record like that of Cape Breton Island cannot, in the nature of things, contain any dangerous elements of disloyalty and is, as it always was and will be intrinsically sound at heart and able to deal with its own social problems in the manner approved of by our

racial and national traditions. The coalfield situated around Sydney is unique, 70 per cent. of the reserve in the coal seams is situated under the sea. Coal is now being mined at distances exceeding 214 miles to sea and 70 per cent. of all the coal being mixed in this district is won from under the sea. Our engineers are making technical history. and their projects are of a character that will make Cape Breton renowned in the annals of mining engineer-

ing. A crying need of the Provinces of the West in such degree that it large of this audience comes, is an

in the political economy of the Dominion.

The coalfield of Nova Scotia, if its resources are properly used, will enable the East to hold its own, and will prove a main factor in holding East and West together in the indisciplination.

domestic heating at a moderate price. The small householder cannot longer afford to pay from \$18.00 to \$20.00 per ton for anthracite, and the cannot look for much relief in the price of anthracite, if any. Indeed, as the years go by, it will become

June 20th, 1923

It is not necessary to inform this audience, which is drawn from all parts of Canada and has arrived at this eastermost point after travelling over a great part of the country, that as Canadians we have a rich and vast heritage, and that the future of this late of the country is the neutrality of the United States

federation planned for.

Those who saw Sydney Harbor in the war years, filled with vessels of sydney coal, a by-product, coke. This is a fuel that has all the desirable qualities of anthracite, but in greating of the importance of the combined coal and steel industries to Canada. Had ovens in Montreal and other cities the neutrality of the United States. tain. the neutrality of the United States of Quebec and Ontario, it is possible during the years 1914 to 1917 been to provide the householder with a other than a benevolent one, Canada fuel that will cost him less than ancould not, without the coal of Nova thracite, will give him greater heat—Scotia, have provided men or ships, with less labor, and will relieve Canada of the necessity to import anthracite. If this is done, the mines of Nova Scotia would have an annual market for coal that would be absolutely dependable and steady; the quantity of coal mined in Nova quantity of coal mined in Nova Scotia would increase, and it would be unnecessary to send money out of the country for imported anthracite

The manufacture of domestic coke from Nova Scotia bituminous coal in the large cities of Ontario and Quebec is one way in which Nova Scotia can help those provinces, and in turn receive very considerable assistance herself, and in combination add greatly to the wealth of the Domin-

#### Sanitation on the Farm

Agricultural Department Has Demonstration Truck visit Glencoe

search work conducted by the Agricultural Department of Ontario in recent years, it has been proved conclusively that one of the main wons why help clusively that one of the main rea-sons why help on the farm is scarce, why farmers' sons and daughters sons and daughters leave the farms, why the average farmer plans to leave his farm in his declining years to live in towns and villages, is lack of city conveniences of water on tap, lack of those comforts enjoyed by the average city dweller. Realizing these conditions, the educational department is conducting an educational campaign throughout the province in the form of a truck which is fitted up with a modern bathroom and kitchen. This demonstration truck paid a visit to Glencoe last week, drawing many people from the surrounding coun try. There is a wall erected down the centre of the truck., on one side of which the following plumbing fix tures are fitted up with water at the taps complete: One water closet, one wash basin, one bathtub and one shower fixture.

These goods are all working and are so placed as will show those vis the truck just what plumbing goods are like and would look like in one's bathroom.

On the other side are a kitchen sink and drain board, with a hot water boiler, all connected up, with water on tap. Then on this same side are found several pressure water sys tems—two electric, one gasoline and one hand driven, along with a double

rivetted pneumatic tank.

Edwin Newsome conducts lectures and calls upon farmers where advice is asked and assists anyone needing help in solving water supply and sewage disposal systems, and even goes so far if time permits as to draw plans and draw up necessary specifications that will needs of anyone residing in rural districts.

Referring to the work Mr. New some said in part: "There are way and means whereby every farme can have his farm house fully fitted up with city conveniences. It is all very well to declare that farmers have no money, but such statements cannot be borne out by facts. As a class, the farmers of Canada have a

greater amount of cash on deposit in chartered banks than any other Canadian citizens. Furthermore, farmers have as a whole more of the oil stocks and bonds than any other class. As a class, he owns more cars in Ontario, the cost of which would put a bathroom in every Ontario farm home, and it is estimated that less than one out of every hundred farmers in Ontario can boast of a

"Now the point is this: If one were to compare values dollar for dollar and the service which a bathroom, hot and cold water in the kit-chen, all ready to hand, it is without question far better to have a sani-tary, clean, comfortable home than many other investments. A motherto-be on a farm should not have to do the lugging of water, operating a pump and making so many useless and unnecessary steps. Even with the average hand pump there are thousands placed one to two hundred feet away from the house, whereas by digging a trench a few feet down in the ground and installing the pump in the house with the cylinder down in the hole would result in decreasing the vertical suction pipe in length and enable water to be pumped more easily and save miles of unnecessary tramping to and fro for water.

"A farm house can be fitted up with a complete bathroom, kitchen sink, water on tap 24 hours a day, water supply under pressure with pump operated by hand, along with a complete sanitary sewage disposal system, including septic tank, for about \$450 to \$480. Where hydro is available an electric automatic system, along with the rest of the sani-tary equipment, can be installed for around \$600, and if a gasoline eng-ine operated water supply giving as high as 360 gallons of water per minute, is necessary, these whole city conveniences can be procured for around \$750, and the cost of upkeep is so small that the item needs little consideration. For example, an electric pump will give 150 gallons of water for less cost in electric current than what would be uesd by an ordinary 40-watt eelctric lamp, and no expert electric wiring is necessary. Just put a lamp socket near to the pump and insert an ordinary cord and plug. Such an outfit would only require a few drops of oil once or twice a month. A gasoline engine or twice a month. A gasonne engine will only use about a quart of gaso-line to pump about 750 to 800 gal-lons of water, and where a large tank is installed and one pumping a day only is necessary, as high as 1,000 gallons of water can be had by using a quart and about 2 ounces of engine oil. A hand pump of modern type if operated for about 30 min-utes a day will deliver under pres-sure about 120 to 150 gallons. So even a hand pressure system would

done to eliminate the hardships of the women-folk on the farm and strongly advises that steps be taken to have city comforts installed on the farm. If anyone living on farms or in rural homes requires specific information on this subject it can be procured by writing to the Physics Department, Ontario Agricultural College, Guelph, or Women's Institute, Parliament Buildings, Toronto.

When a mother detects from the writhing and fretting of a child that vorms are troubling it, she can proture a reliable remedy Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these

#### NEW EGG LAW

A new and equitable law providing the eggs be bought from producers coording to grade and that they be secording to grade and that they be sold to consumers according to grade is now in force. There are five grades in the fresh class. Specials, extras, pullet extras, firsts and seconds. The first named are eggs of uniform size, weighing 24 ounces to the dozen and over, air cell small and not over three-sixteenths of an inch in depth. Extras weigh 24 ounces to the dozen, pullet extra twenty ounces, first 23 ounces and seconds all other eggs that fall below the requirements of the ether four classes. The new Act will not effect the farmer immediately but its value will be impressed upon him by degrees. It will be the buyer who will be required to grade the eggs. He in turn will demand that the merchant from whom he buys grade them and the merchant in turn will demand from the producer that they be candled and graded before being brought to his store. The new law may make more work for the farmer's wife, who generally depends upon money from eggs for her national bank, but as "specials" and "extras" will demand a larger price than the other classes, more money

Watford, Ontario,

Dear Sir:

Permit me through your paper to take this opportunity of thanking the citizens of Watford, both ladies and gentlemen, who with the interest of the town at heart and for no personal gain joined so willingly in signing a petition that I should remain as Principal of your Public School. The vection was so extensive and with the names of those who would have signed if they had an opportunity, would have embraced, I think, nearly every householder in town with the exception of those connected with school board matters who native extensive and with the names of those who would have signed if they had an opportunity, would have embraced, I think, nearly every householder in town with the exception of those connected with school board matters who native extensive and with the names of those who would have embraced, I think, nearly every householder in town with the exception of those connected with school board matters who native extens sold to consumers according to grade is now in force. There are five grades "extras" will demand a larger price than the other classes, more money will flow into the bank while at the same time the buying public will be protected from unscrupulous farm-ers and dealers who often in the past have sold packed eggs at fresh egg

Some Wise, Some Otherwise Some Newsy, All Readable.

Two million nine hundred thousand persons in Great Britain are drawing disability allowances, costing \$160 a

A Maine resort makes a strong appeal to anglers when it announces that it is a quiet spot where fish bite and mosquitoes don't.

In the Province of Ontario there are ninety-six boards administering the Mothers' Allowance aid. These are taking care of 3837 mothers and 11,777 children, Few provincial expenditures are productive of more happiness and have greater possibilities for good.

A bishop of the Methodist church relates the following experience: Af-ter the service on Sunday morning, he was approached by an old lady who expressed great appreciation of his discourse. "Why, bishop," she said, "you can never know what your sermon meant to me. It was just like water to a drowning man."

A report made to the Hydro Commission sets forth that, in connection with the work of extending power to rural parts of Ontario, 650 miles of

The amount of money turned over in horse-race gambling in Canada the pains in my shoulders and limbs are almost gone. My constipation is fully relieved and I wake up in the mornings refreshed and oright and happy as a young girl.

"Dreco also brought immediate relief to my hughered with bad and oright."

"The amount of money turned over in horse-race gambling in Canada last year was over one hundred millions were wagered on Ontario licensed race tracks. This sum of one hundred millions represents more than dred millions represents more than

Citizens of Harrah, Oklahoma protest the ringing of the 9 o'clock curfew, because it interrupts their slum-bers. Every night after the village No suffering from kidney, stomach has settled down for a good rest, and the lights are turned out, the clanging of the curfew rouses the citizens from their slumbers, and the situgently, toning and regulating the ation is becoming well-nigh unbear-system. This natural herb and root registered a registered a County Attorney. complaint with the

In the Ford plant the management has discovered that 670 jobs can be performed by men without legs, 2,637 by men with one leg, 2 jobs by men without arms, 715 by men with one arm, and 10 by blind men. Actually at work on these jobs are 9,563 "sub-standard" men. There are a thousand tubercular employees no are working, but isolated from others.

Leviathan is not the biggest ocean arrier affoat, but it suits the pride of her American owners to claim that she is, and it suits the revenue policy of the British port authorities at Southampton to allow the claim and collect \$1,200 by way of additional harbor dues every time the big ship of exaggerated tonnage enters port. Even fame that is got by mere blowing is not always cheap fame. John Bull is willing to let others do the boasting as long as he has the privil-ege of putting a tax on it.

On December, 31, 1923, a new Motor Vehicles Act will go into force in Ontario, the following being the provision governing parking lights:
"A motor vehicle while standing upon any highway at such times as lights are required by the provision of this section for such vehicle may show one light carried on the left side of the car in such a manner as to be clearly visible to the front and rear for a distance of at least two hundred feet, and to show white to the front and red to the rear of the vehicle, provided however, that such light shall not be displayed while the motor vehicle is in motion."

Premier Ferguson's ministry can Premier Ferguson's ministry can be termed a Ministry of young men. The Premier himself has just attained his 53rd birthday. Mr. Nickle is in his 54th year; Mr. Henry is in his 52nd year; Col. W. H. Price is 45; Mr. McCrea, 46; Dr. Forbes Godfrey, 56, and Sir Adam Beck is still reckoned a young man in energy at 66. From the standpoint of religion, the majority of the Cabinet ministers are Anelican, these being Mr. Ferguson. Anglican, these being Mr. Ferguson, Col. Price, Dr. Carr, J. R. Cooke and Mr. Martin. W.F. Nickle and Lincoln Goldie represent the Presbyterians; Gordie represent the Fresbyterians; Dr. Godfrey, G. S. Henry, Hon. Thos. Crawford, J. W. Lyons, the Method-ist; Chas. McCrea is the only Roman Catholic in the Cabinet, while Sir Adam Beck is a Lutheran.

Corns are painful growths. Holloway's Corn Remover will remove them.

After August next you cannot buy Oleo in Canada. The Dairymen's Association have been successful in their fight and Oleo has to go. It is their night and Oleo has to go. It is butter or nothing and in many places where a working man has a large family it will be nothing. It will be like the Irishman's "potatoes and point" that is they are the potatoes after pointing them at the one small fish on the table. It seems tike a rather undemocratic procedure to tell us what we shall and shall not eat. If what we shall and shall not eat. If Oleo is cheaper than butter and it fits the pocket book of some families and if they prefer to buy Oleo then why cannot these families do as they please and buy Oleo. To let them do so will not have the price of butter. so, will not hurt the price of butter for those who want butter and can afford to buy butter, will not buy Oleo. The poorer people of our cities have a real grievance in this legis-lation and they will doubtless make their voices heard in the future.

Requests have come from all quarters for copies of the draft bill and the formal basis of union of the Methodist, Presbyterian and Congregational Churches of Canada, the Methodist Conference Special Committee has decided to arrange with the other two denominations for copies of the draft bill and basis to be distributed at a formal price to the churches and the world. Requests for copies have already been received from the United States. Australia from the United States, Australia, New Zealand, South Africa, the British Isles, Germany and Switzer-land, In answer to the letter from Lord Robert Cecil regarding the stand of Canadian Methodism in relation to the League of Nations, the committee has replied, pointing out that Dr. S. D. Chowen, general super-intendent of the church, is sending a request to every Methodist church pastor and Sunday school superintendent in the Dominion, that they preach sermons on "Peace" on Sunday, Aug 5th, the anniversary of the outbreak of the Great War.

### BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentry, cholera infantum and stomach troubles come without warning, and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in the house where there are young children. An occasional dose of the Tab-lets will prevent stomach and bowel troubles, or if the trouble comes suddenly the prompt use of the Tablets will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville,

#### SUPPOSED ORIGIN OF THE "KETTLES" AT KETTLE POINT

That the kettles at Kettle Point were thrown off thousands of years ago by a violent eruption of some far distant planet and that they kept together in their long journey through space, grinding against each other space, grinding against each other with the rotary motion peculiar to all heavenly bodies, causing their spherical form when at last they found a resting place in the mud at Kettle Point, which was at that time undoubtedly covered with water is the opinion of James A. Allen of the court with the court wit South Mitton street, Sarnia, who has taken a lively interest in such matters in recent years.

Had they hit anything solid, owing to their brittle nature, they would have been smashed to atoms he be

lieves.
"This mud has since turned to shale rock, which is of a very old formation, underlying the limestone rock in some parts of Ontario.

I searched in vain for any evi dence of fossils in this shale, whereas some limestone is very rich in fos-sils, particularly the limestone of Rock Glen," Mr. Allen said.

"This shale has at one time been subject to a tremendous pressure, possibly in the ice age. It is much harder than the shale that I have seen in other parts of Ontario.

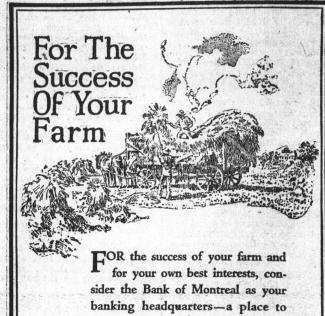

"In this shale is embedded these meteors or kettles. Then came the waters of Lake Huron, wearing away the shale rock, leaving the meteors exposed, the smaller ones being cer-

#### Restored to Health By Taking "Fruit-a-tives"

### Made of Fruit Juices and Tonics The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in the letters written by them to "Fruit-a-tives". For instance:

"I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking "Fruit-a-tives" and this fruit medicine completely relieved me of all my misery".

### GRAND CIRCUIT MEETING TO BE HELD AT DEVONSHIRE, WINDSOR, CANADA, AUG. 2 TO 8

When it is known that the list of nominations to the early closing stakes -five in number and carrying a total value of nearly \$20,000 at Devonshire have been connected with harness horse racing has the outlook been so good for sensational racing as it does good for sensational racing as it does Kinnan, general manager of the Devonshire meeting said in reply to a ques-

you give your order to any travilling agent phone 11w. There is a tendency among some of the check book firms towards higher prices in the near future; however, we have been instructed to accept orders at present prices for delivery any time in the prices for delivery any time in the next three months. Look up your supply and if you will require more in the next six months, give your local agent the order.

### BEFORE MY BABY GAME

I Was Greatly Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont.—"I took your medicine before my baby was born, and it was a great help to me as I was very poorly until I had started to take it. I just felt as though I was tired out all the time and would have weak, faint spells. My nerves would bother me until I could get little rest, night or day. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a new bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to recommend this good medicine. I will lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will help others take it."—Mrs. HARVEY MILLIGAN, Sydenham, Ont.

It is remarkable how many cases have

It is remarkable how many cases have been reported similar to this one. Many women are poorly at such times and get-into a weakened, run-down condition, when it is essential to the mother, as well as the child, that her strength be kept up.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be taken in safety by the nursing mother.

#### DENTAL

The program as outline for the Aug. 2-8 meeting consists of five rich stakes and twelve class events, a total of seventeen races, but in all likelihood the large number of entrants in several of the events will necessitate the dividing of such unwieldy fields into two races, so that the probability is that the total list of stakes and class are all list of stakes. There is no track in the country are all list of stakes and class are all list of stakes. The list started each day at 2:00 and class are all list of closek.

GEORGE HICKS, D.D.S., Trinity university, L.D.S., Royal College of Dental Surgeons, Post graduate of Bridge and Porcelain work. The best men and the patrons at the gate is ever overlooked no matter what the cost of the campaigning horse are all list of stakes are all list of stakes. The list of closek.
