## BRAMWELL BOOTH PREACHED TO THOUSANDS

### Massey Hall Could Not At- tempt to Accommodate Crowds—Mayor Read Ad- dress of Welcome—Sir John Gibson Presided at Great Religious Demon- stration.

Eager to hear the gospel message  
as delivered by General Bramwell  
Booth, and excited by the fact that  
they would not be admitted to the  
meeting, hundreds of citizens fought  
desperately for places in the lines  
formed near Massey Hall yesterday  
afternoon and evening. Women were  
crushed and children jostled about un-  
til driven to tears, while many robust  
men found their strength useless to  
cope with the throng. Thousands  
were turned away, but remained near-  
by in the hope that room would be  
made for them when more fortunate  
people vacated their seats.

To the police must go the credit for  
preventing serious injury to scores  
who risked body and limb in the mad  
scramble to reach points of vantage  
to see the general on the streets or  
to force an entrance into the hall.

Except for a few women who became  
faint, nothing serious resulted.  
**Beauty in Simplicity.**  
General Bramwell Booth's message  
was inspiring. It was instructive and  
it was elevating. Its beauty was in  
its simplicity. It was not an oratori-  
cal outburst. He spoke to the masses  
in the same manner and language that  
is employed every day. None could  
hear without being touched. The  
white-haired general pleaded with all  
a plea in common. He did not over-  
look members of his own army, among  
them he looked for the root of sin, and  
many uniformed men and women to-  
stepped forward and knelt in prayer.

During the meeting in the morning  
the people for confessions and need relief  
in prayer. Numerous men and wo-  
men soon began to weep, and before  
long the sobbing could be heard on Vic-  
toria street. It was particularly  
touching, and many people cried be-  
cause the lamentations of others  
reached their hearts.

Sir John Gibson presided in the  
afternoon. Owing to the illness of  
Commissioner Rees, chief of the  
army in Canada, Commissioner Law-  
ley conducted the opening exercises.  
General Booth was then introduced  
by Sir John.

**Fighting for Souls.**  
General Booth chose for his sub-  
ject: "Some Lessons of My Father's  
Life and Work." He said that he  
had learned from his father that the  
lower a man was the more he should  
be loved. It was this love for the  
fallen which had given the late gen-  
eral the courage to go into the slums  
and minister to those suffering from  
sickness of the soul as well as sick-  
ness of the body. His father had  
placed his heart into the work and  
had fought for the souls of men. He

GENERAL BOOTH  
As he appeared while reviewing the  
Salvation Army on Satur-  
day afternoon.

## POLITICAL INTELLIGENCE

(By Polycarp Le Blanc.)  
The South Bruce election may prove a  
revelation to Conservatives. For one  
thing it ought to put a damper on ap-  
pointing members of parliament to  
office. They were not elected for that  
purpose. The ornamentation of the  
bench of Ontario, with more M. P.'s is  
likely to be adjourned for a time. The  
ornaments were ready had South Bruce  
given the signal.

The investment in a senator costs in  
cold cash for indemnity and the upkeep  
of his share of the chamber at least  
\$3000 a year, and for 15 years that  
means that Senator Donnelly will cost  
this country \$75,000. In that time he  
will neither introduce a bill, nor frame  
a clause, nor return a ten-cent piece of  
real value to the nation that pays all  
this money. And there are scores of  
others like him in the Red Chamber.  
Their only value is their vote to uphold  
their party's policy. And yet there is  
real need for men in the senate who will  
tackle some of the problems of the coun-  
try. As long as we pay for a senate  
let us get something for our outlay.

Senator Donnelly is blamed by the  
Conservatives of Bruce for stifling all  
freedom in picking his successor. He in-  
sisted on Mr. Carrell against the wishes  
of many of the party. Mr. Carrell was  
the victim of over-persistent friends in  
the riding and out of it. But Mr. Don-  
nelly pledged himself to carry the seat if  
he failed.

Tables are being published to show  
that the Catholic vote which supported  
Mr. Donnelly deserted the Tory candi-  
date. That is not fair. It was Garman  
votes that failed Mr. Carrell and these  
apparently to be Catholic in religion. But  
they were influenced to vote for Mr.  
Trux because the speeches of Col. Sam  
Hughes against the Kaiser and the Ger-  
man navy were abundantly planted and  
westered among them, and the pranks  
of the Conservative party, Sir Hugh  
Graham, in the Montreal Star, were also  
carefully told to a wrought-up com-  
munity.

But the most significant fact of the  
election is the lack of leadership in their  
province of the Ontario ministers. Ont-  
ario won the last election, but the gov-  
ernment is anything but an Ontario  
government: it is a western-maritime  
Conservative party, in Montreal, and  
its policy and legislation, so far, is not  
Ontario-desired legislation. But legisla-  
tion desired by the banks, by the rail-

## WILSON DEMANDS ELIMINATION OF HUERTA

### Has Two Plans to End War- fare in Mexico, Inter- vention as Police Power by United States and Recogni- tion of Revolutionists as De Facto Government.

(Special to The Toronto World.)  
WASHINGTON, Nov. 2.—President  
Wilson has two plans for the elimina-  
tion of Gen. Victoriano Huerta, dic-  
tator of Mexico, and ending the war-  
fare which has engaged that country  
for almost three years.

According to high authority these  
plans are:  
(1) Intervention as a police power  
by the United States.  
(2) Recognition of the revolution-  
ists under Gen. Carranza as a de facto  
government, and the lending of moral  
support to their cause.

These plans are contingent one upon  
the other.  
John Lind, personal representative of  
President Wilson in Mexico, conferred  
today at Vera Cruz with the Norwegian,  
German, Russian, French and Spanish  
ministers to Mexico. He conferred with  
these diplomatic offices yesterday also.  
Mr. Lind not only made them acquaint-  
ed with the plans, but sought their  
opinions of them. Their opinions were  
not sought with the view of asking  
these governments, along with Great  
Britain and Japan, to join in an in-  
ternational movement, but to obtain  
their moral support. Great Britain has  
agreed to give the United States moral  
support in the handling of the Mexican  
problem.

**Under Penalty.**  
President Wilson is ready to de-  
mand the elimination of Huerta under  
penalty. This demand will be made as  
soon as President Wilson receives of-  
ficially from Mexico City a definite  
announcement as to Huerta's inten-  
tions as a result of the elections.

If Huerta does not make an an-  
nouncement within a reasonable length  
of time within the present week, Presi-  
dent Wilson will then inform him  
that the United States government is  
prepared to take such steps as it deems  
wise, in bringing the present distur-  
bed conditions to an end. He will do  
so just as soon as he can. He will do  
Huerta that he resign for the good of  
Mexico. The request will carry with  
it President Wilson's assurance that  
unless he acquiesces the United States  
will take steps to force acquiescence.

ways, and dictated from Montreal. On-  
tario, which put up the lines of the fight  
of two years ago, and the seats, is  
represented by ministers who were not  
able to hold South Bruce and who are  
treated with some contempt by the more  
astute politicians who sit in the ministry  
from the plains of the fertile west. More  
than what grows there.

But you say it was the navy, not the  
ministry. Perhaps. And if you say that,  
then the naval policy goes back to the  
manipulation of the seats, to the seats,  
to Sir Hugh Graham, and you're back  
again to Montreal. Ontario Conservatives  
are only groping, they haven't yet quite  
appreciated the facts, nor can they see  
them clearly for some time, but any  
mistakes, any lack of up-and-up  
policy, most of all of progressive policy,  
will trace back partly to Sir Hugh  
Graham and partly to the contempt Mont-  
real has for progressive measures. The  
Ontario ministers were picked largely by  
Montreal men or men of Montreal influ-  
ence in Toronto. Sir Edmund  
Osier is the most influential man from  
Ontario, but he takes no responsibility.  
He has no progressive policy.

Mr. Borden has gone off to think it  
over. It is just as well under the cir-  
cumstances that the public, and especially  
the Ontario Conservatives who have been  
groping in the dark, have been asking  
explanations of things that they could  
not quite understand, should also begin  
to think and to press for answers. How  
much more of Sir Hugh Graham, how  
much of C.P.R., of banks, and how much  
of Montreal contempt for the so-called  
fate of the people of this province?

And then comes the most important  
of all questions that arise out of the  
situation as far as Ontario Conservatives  
are concerned: if their ministers cannot  
carry elections in their own province  
then they must give over the manage-  
ment thereof and the preparations for the  
next federal struggle to the more  
resourceful hands of the western minis-  
ters who claim that by Manitoba  
methods alone they can be carried not  
only in the west but in Quebec, and in  
Ontario if they are entrusted with the  
job. The question then for the Conserv-  
atives of Ontario lies between a pro-  
gressive policy put forward by pro-  
gressive leaders of their own and astute  
politicians from other provinces of prov-  
ing efficacy in election results. The  
Montreal and western chiefs are already  
jeering at the Ontario tenderfoots. If  
these outsiders take over federal Ont-  
ario they may next reach for Sir  
James!

**Polycarp Le Blanc.**  
NOTE: Mr. Le Blanc will discuss Sir  
Hugh Graham's new camouflages among  
Sir Lomer Gouin and other Liberals of  
Quebec in tomorrow's paper.

## AUSTRIA REGARDS C.P.R. AS FRIEND

### Parliamentary Resolution Up- holds Concession Granted as Means of Fighting North Atlantic Pool Trust.

LONDON, Nov. 2.—(Can. Press).  
After a debate lasting several  
days, the sub-committee appointed  
by the Austrian Parliament to in-  
vestigate the questions which have  
arisen as to the working of the im-  
migrant business, unanimously passed  
a resolution last night approving  
the policy of the ministry of com-  
merce in granting the C. P. R. a co-  
operation with a view to making Aus-  
tria independent of the North At-  
lantic pool-trust and to free authori-  
ties from exploiting this trust.

The resolution stated that the increase in  
immigration is due to economic con-  
ditions, and that if there were  
abuses in the immigration field no  
company should be spared. This re-  
solution will come before the full  
budget committee next Wednesday,  
and is considered highly satisfactory  
to the position of the C. P. R. and a  
condemnation of the pool agitation  
against that company.

## SON OF KAISER STILL A REBEL

### Polish Artist, Who is on Em- peror's Black List, Chosen to Illustrate Crown Prince's Book.

Special Cable to The World. Copyright  
by The Toronto World and N. Y. World.  
LONDON, Monday, Nov. 2.—The  
Express this morning prints this Ber-  
lin cable:  
"No opportunity is too trifling to  
be seized on by the crown prince to  
show his hostility to the Kaiser. The  
prince is now revising proofs of a  
book dealing with military problems  
which will be published next month,  
and has selected as illustrator the  
Polish artist Kossak, who is in the  
Kaiser's black book. Kossak used to  
be a favorite at court, but last year  
he refused an invitation from the  
Kaiser to attend a celebration at  
Marienberg to celebrate Prussian su-  
premacy over Poland. Since then he  
has been in disgrace, and his selection  
by the crown prince is regarded as  
a direct slap in the face to the  
Kaiser."

Attended Banned Theatre.  
"Another incident occurred last  
night when the crown prince with his  
suite attended a performance at the  
Deutsches Theatre, which has been  
boycotted by the Kaiser since the pro-  
duction of Hauptmann's socialist play  
"The Weaver" some years ago."  
"It is stated the prince's exile in  
Dantzic is to continue another year.  
It was reported he was about to re-  
linquish command there to take over  
the command of the Potsdam Foot  
Guards, but the Kaiser has vetoed the  
arrangements."

## Morris Sweeps New- foundland

ST. JOHN'S, Nfld., Nov. 2.—  
(Can. Press). Returns  
from the general election in the  
colony continue to show a  
"victory" for the government  
headed by Sir Edward Morris.  
The government has sixteen  
seats against eight for the  
opposition, according to late  
reports. With one-third of  
its count in Placentia, com-  
pleted returns also point to  
the re-election of three more  
Morrisites.

## NO CAR SERVICE IN INDIANAPOLIS

### Police Apparently Overawed by Strikers and Governor Refuses to Send Militia.

INDIANAPOLIS, Nov. 2.—(Can.  
Press).—The Indianapolis Traction  
and Terminal Co., whose men went  
on strike Friday night, attempted to  
run its cars today, but gave up when  
notified by Superintendent of Police  
Hyland that the police would be un-  
able to prevent bloodshed unless the  
cars were withdrawn. Joseph John-  
son, a striking motorman, was shot  
and wounded by a policeman, who  
fired into the crowd that surged  
around the first car to be sent out.  
Two cars were taken from the barns,  
each filled with policemen, but the  
crowds packed around them so tight-  
ly they could not be moved. Soon  
after the shooting of Johnson they  
were ordered back to the barns.

Go Ralston in a statement to-  
night charged that the city authori-  
ties are not doing their duty in fail-  
ing to provide police protection. He  
refused a request of Mayor Lew  
Shanks that he call out the militia  
and declared that the mayor has full  
authority and power to provide suf-  
ficient protection to run the cars.

Try Again Today.  
A further attempt will be made to  
start the cars tomorrow morning.  
Superintendent of Police Hyland  
notified Robert L. Todd, president of the  
traction company, that he would sup-  
ply as many men as possible and  
Todd declared he would start the  
cars as soon as the police were ready  
to go with them.

The downtown streets remained  
packed with people all day, although  
most of the disturbances ended when  
the attempts to move the cars ceased.  
The police mingled with the crowds  
but made little effort to disperse  
them except when the crowds surged  
too roughly around the deserted  
street cars in the downtown streets.  
Four policemen turned in their  
badges and resigned when ordered to  
accompany the cars. In spite of  
Superintendent Hyland's orders to  
arrest patrol wagon loads in order to  
disperse the crowds, not more than  
a dozen men were taken to the police  
station during the day.

In an attempt to rush the Louisiana  
car barns, where the imported strike-  
breakers are quartered, Isaac Fletcher,  
24, a strike-breaker from Philadel-  
phia, was fatally shot in the neck and  
died on the way to the City Hospital.  
Fletcher was shot by one of the men  
in the barn who was firing into the  
crowd from a second storey window.

## STRUCK ICEBERG STEAMER IS CRIPPLED

### Manchester Commerce, With Crew of Forty, Making for St. John's, Nfld., After Col- lision in Straits of Belle Isle —Many Bergs in Steamers Tracks.

MONTREAL, Nov. 2.—(Can. Press).  
The Manchester Commerce struck an  
iceberg while passing thru the Straits  
of Belle Isle early on Saturday morn-  
ing and sustained injuries which, the  
sevens, did not incapacitate her en-  
tirely, for she was subsequently able to  
shape her course for St. John's, Nfld.,  
where she will be docked for over-  
hauling and repair.

The weather report from Point Amour  
on Saturday morning, as supplied by  
the signal station at that point, was  
"cloudy," no mention being made of  
fog; but fog sometimes falls quickly  
in the straits at this time of the year,  
especially when ice is floating in the  
vicinity, so it may yet transpire that  
it was on account of sudden fog ob-  
scuring her course that the Manches-  
ter Commerce met with the accident  
which compelled her to make for the  
nearest port. Meagre details of the  
accident reached here late tonight.

J. R. Binning, managing director of the  
Furness-Whitby interests in Mont-  
real, stated that he had merely been  
informed that the Manchester Com-  
merce had struck an iceberg. As to the  
extent of her injuries he had received  
no details. However, he was confident  
that she was in no immediate danger of  
sinking.

**Seen From Other Steamers.**  
Icebergs are known to be afloat in  
the steamer track in the Straits of  
Belle Isle, as the White Star liner  
Canada encountered four of them dur-  
ing her last trip from Liverpool. Capt.  
Jones reported upon arrival here that  
the first of these bergs had been met  
80 miles to the east of Belle Isle; the  
second 60 miles to the east, the third  
off Cape Norman, and the last 12 miles  
west of that point, all after being direct-  
ly in the track of the steamers nav-  
igating the straits.

The Manchester Commerce, which is  
commanded by Capt. Couch, is an iron  
screw steamer built in Westport, New  
York, in 1898. She is of 1928 tons gross  
register, 450 feet 8 inches long, 45 feet  
2 inches beam, and 30 feet 8 inches  
deep. Her officers and crew number  
about 40. She has few if any pas-  
sengers aboard.

## POSTAL CLERKS ARE INDIGNANT

### Fined Day's Pay for Refusing to Work Long Hours, Saw Lawyers, Ottawa Next.

A complaint was registered a short  
time ago by the employees of the Tor-  
onto postoffice that the department  
was undermanned. As a result of  
this the men have been obliged to  
work overtime in order to handle the  
immense amount of mail that passes  
thru their hands. One night twelve  
men, after having worked half an  
hour longer than they were supposed  
to, walked out in a body. When  
they returned they were notified that  
they would be fined one day's pay  
for this action. When the story ap-  
peared in The World the postmaster,  
they say, denied that he intended to  
fine the men, and the matter appar-  
ently was settled. When the twelve  
men in question received their  
cheques on Saturday, however, they  
found that one day's pay had been  
deducted and became indignant. A  
conference was arranged and they  
decided to consult E. F. B. Johnston  
and R. C. Robinson as to the legality  
of the procedure of the postmaster,  
with the result that they were told  
that he had no right to fine them be-  
cause they refused to work overtime.

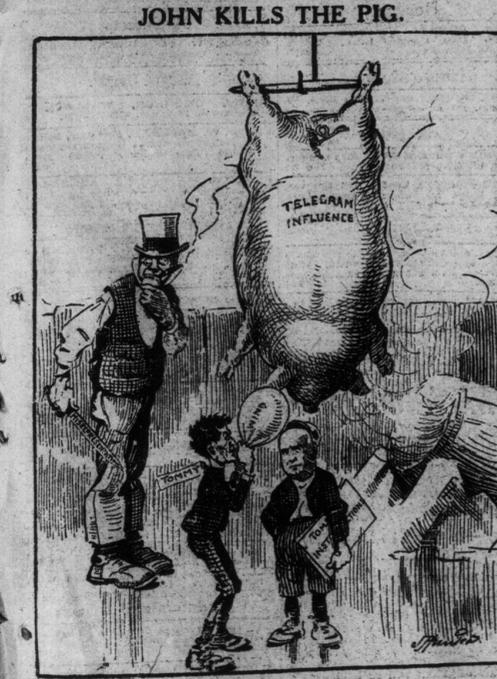

The men have decided to lay the  
matter before the postmaster-general  
at Ottawa.

## ONE TAKEN, TWO ESCAPED.

William Johnston of 225 Victoria  
street was arrested by Plainclothes-  
man Milton late Saturday night,  
charged with assaulting and robbing  
Joseph McGaw of 111 Beverley street,  
in a lane in the rear of the Gaiety  
Theatre. Two men, accomplices of  
Johnston, made their escape.

**Fur Weather is With Us.**  
Now that conditions have changed to  
frost, the question of what furs to  
buy arises in the minds of most  
ladies and men. Dineen's 140 Yonge  
street, have been in this line of busi-  
ness—manufacturing and selling—  
for 45 years. It is recognized as a wise  
policy to buy furs where confidence  
can be placed. Dineen's are surely  
worthy of the most implicit trust and  
their values are consistently good.

**Duplicating a Great Success.**  
H. B. Warner, the eminent English  
actor, who scored such a phenomenal  
success in "Alas Jimmy Valentine,"  
is now repeating that success in "The  
Ghost Breaker," which begins a  
week's engagement in Toronto tonight  
at the Princess Theatre.

JOHN KILLS THE PIG.

# Why Does The Telegram Oppose the Street Railway Purchase in the Interest of the Humber Valley Surveys and Why Does The Globe Spring to the Aid of The Telegram?

The Telegram is fond of quoting texts which are usually confined to more sacred topics than are naturally associated with the Telegram or its interests. On Saturday it debased a verse from the Psalms, "Mine own familiar friend has lifted up his heel against me." With no better sanction, and no more apostolically, we suggest another text to the Telegram: "I was dumb and opened not my mouth."

The Telegram is actually silent, or shall we say, silenced, on a topic which has been nearer its heart for a long, long time than any other. We stated the case last Monday morning at considerable length, and we have waited patiently, curiously, with amusement, to hear what The Telegram had to say. But there wasn't a squeak; not the tiniest little whine on the question on which all Toronto is now talking.

Why has The Telegram opposed all extensions of city territory, all improvements likely to enhance the value of real estate, all attempts to throw wider areas of land into competition for the benefit of the small householder; all efforts to better street car service; to abolish double fares, increase accommodation and open up communication with new fields for settlement—but one?

Why is The Telegram opposed to setting the people free from eight years' strapholding, free from double fares to all suburban districts save one, and free from the electric franchises of one kind and another which the purchase of the street railway properties in the city at the present time would cancel?

We showed how The Telegram opposed annexation wherever it was suggested, except of the Humber Valley surveys; that it opposed the Bloor street viaduct until the east end aldermen had to be conciliated into voting for bridges over the Humber in the Humber surveys district; and opposed to giving any real estate enterprise but that of the Humber surveys a chance. These are not suppositions or dreams. They are facts which had not been considered previously, but patent to everyone, once attention has been called to them.

And, especially, the people want to know why The Telegram is so anxious to give the Humber surveys a handicap over all other surveys to the extent of providing it with eight years or so single fare access, when all other suburban districts can only be reached thru a double-fare journey.

The Telegram is a romantic creature and loves poetry. We quite believe that The Telegram dotes on the scenery of the Humber Valley, but is this all? Is it because of its intense desire that the citizens of Toronto should be constrained to confine themselves to contemplation of the beautiful scenery of the Humber, that The Telegram would prevent them going to the Beaches in the east end, or up the Kingston road, or over Gerrard street and Danforth avenue way, or up north to York Mills, or out to the St. Clair avenue allotments north and west; or that leads The Telegram to fight so bitterly and make all kinds of misrepresentation and falsification of the reports of the experts, so as to lead the people to sacrifice themselves for eight years to the Happy Valley and the interests of its owners?

We cannot believe it. We must follow The Telegram's example and quote poetry again:

It is not the soft magic of streamlet and hill,  
Oh, no, it is something more exquisite still,  
'Tis that friends the beloved of my bosom are near,  
That make every dear scene of enchantment more dear.

Who are these friends beloved of The Telegram's bosom? That has been appearing and will appear more fully in the course. But chiefly The Telegram has surrendered itself to Controller Church and, secondly, to Mr. Home Smith. There are lesser favorites beloved of The Telegram's bosom. The Telegram never lectures Controller Church, or fold him what to do, as it lectures Hon. Adam Beck, and tells him the proper course to take in life and death and hydro-electric policy; and, as we have seen, in the presence of the awful pulchritude of Mr. Home Smith, The Telegram observes a respectful silence. There is no doubt The Telegram succumbed to the fascination of Mr. Home Smith. There is no law against a man's personal pulchritude, but we doubt whether he should be permitted to introduce it as an element in civic politics. Yet it is a strong factor in Toronto at the present moment. The Telegram recognizes it, bows to it, yields absolutely to its sway. If there were any more reasonable explanation we would hasten to accept it. But what other explanation is possible of the conduct of The Telegram? What else would lead it to abandon the public interest, while it clamors against all other annexations, urge the annexation of the Humber Valley; put obstacles in the way of development by way of a Bloor street viaduct, but hasten on the Humber bridges; denounce the attempt to relieve the citizens in general of double fares, inadequate street car service, electric franchises, and all their contingent disadvantages, while favoring the Humber Valley surveys with annexation, a new street car franchise, the opportunity for single fares for eight years to all suburban districts which can only be reached by double fares? All this extraordinary discrimination against the rest of the city to the advantage of the Humber Valley is so unexpected in The Telegram, so foreign to its ordinary principles, that one is compelled to seek for an explanation, and none is forthcoming.

What other friends beloved of The Telegram's bosom are there? The solitary reference during the week to our article of last Monday has been an article in The Globe, which in the most gallant way, sprang to the assistance of The Telegram and Mr. Home Smith, and charged the Laird of Donlands with jealousy of the Laird of Lambton Mills, the latter being Mr. Home Smith's friend. This wholly weak suggestion, so foreign to the facts, merely indicates that the Globe's zeal on behalf of The Telegram and Mr. Home Smith outruns its discretion. The World has done all in its power to assist Mr. Home Smith, not on account of his pulchritude, but as an enterprising young citizen engaged in the development of an important section of the city, and public-spirited enough to devote a considerable part of his property to the public interest. We did not object to his annexation scheme, nor to his bridges, nor to his car-line, except that we stated our hope and expectation that there should be no more alienation of civic franchises. But we were not opposed to the Humber Valley proposals, and, on the contrary, supported them as we would support and have supported similar proposals. The Telegram, however, has been against any and all developments of this description in the city save the one. Every real estate owner who offers to sell his land is styled a land-butcher, and there is no limit to the violence of the language poured upon those who would enlarge the boundaries, always excepting Mr. Home Smith and the Humber Valley. Nor can The Globe found a charge of jealousy on the existence of Donlands. Donlands has not sought for annexation, and is not in the hands of the land-butcher's guild. It is quite out of place to charge Donlands with seeking annexation. It has not opposed the admission of other territories, or the charge of jealousy might seem reasonable.

The Telegram has furiously raged over the dilemma that Donlands being obviously outside the city limits, it does not incur city taxation, but this is true of all similar farming property. We have suggested a metropolitan area, and Ald. Wickert has followed up this idea, with a view to remedying the omission. But The Telegram will have none of Ald. Wickert or his metropolitan area. The Telegram is difficult to please, having been enchanted with the pulchritude of Mr. Home Smith.

All this would matter little but for the vital interests of the citizens which are to be sacrificed to the dumb devotion of The Telegram to the Humber Valley, in order to advance that district every other district in the suburbs is to continue for eight years, and perhaps longer, under the burden of a disjointed car service, with double fares, while the central citizens are to be accommodated with crowded cars, strap-hanging carriages, and the courts have declared, to the verge of indecency, and eight years of impaired service and restricted growth in the population and business of the city.

Why does The Telegram oppose the street railway purchase in the interest of the Humber Valley surveys, and why does The Globe spring to the aid of The Telegram? Why are they willing to falsify and misrepresent the statements of the experts who have reported on the proposed purchase, and why do they decline to wait for the Mackay and Cozens reports before deciding to throw down the rest of the city in order to advantage the Humber Valley surveys?

## CREW OF SCHOONER BARGE TOWED IN PICKED UP AT SEA BY RUDDERLESS BOAT

BOSTON, Nov. 2.—(Can. Press.)—The crew of the schooner Gypsum Emperor, which was dismantled in a storm, were picked up by the Hamburg American steamer Barcelona, from Philadelphia for Hamburg, according to a wireless message received here today.

The Gypsum Emperor was bound for Halifax from New York when she blew down from the coast last night and was built in 1892 in Philadelphia, N.S., and was owned by her master, Captain Thomas Martin, of Philadelphia.

COBourg, Ont., Nov. 2.—One of the most clever steamboat handlings was done here late last night when the tugboat of the steamer Ralph, belonging to the Port Anne quarries, brought the steamer right into Cobourg harbor with the barge Sophia Minto without the use of his rudder, which was broken out in the lake. It was very difficult to bring in both the boats as there was a strong gale blowing from the west, but did so and had them tied to the dock without further damage. The barge left this morning on their way up the lake.

## SMALLPOX EPIDEMIC IN RUSSELL COUNTY

OTTAWA, Nov. 1.—(Can. Press.)—Owing to a visit paid to St. Onge, in Russell County, near this city, by Dr. Lomer, medical officer of health, and Dr. Hollingsworth, civic food inspector, the shipment of milk or cream from that place to Ottawa has been prohibited. The reason was that a large number of small-pox cases. In one school, out of a class of 52, there were only 18 pupils in attendance. Dr. Lomer visited a couple of houses to make sure it was smallpox and found practically all cases either absent or recovering from the disease, getting over a mild attack. He was told that the same conditions existed on both sides of the road for two miles and a half. The disease is of a mild type.

REMOVING PERILS OF IMMIGRATION

Dr. Graham Taylor Says Education Will Overcome the Evils.

ABILITY TO DETACH

Students Should Reattach Themselves to Humanity to Pay Debt.

Dr. Graham Taylor, warden of the Chicago Commons, and a specialist on the interpretation of social conditions and settlements, delivered two powerful sermons to university students at Convocation hall on Sunday along these lines.

"Among the essentials of progress," Dr. Taylor declared, "is the sense of separateness which is necessary to self-consciousness, and also the ability to detach oneself to the many, to the age, and to the race. A sense of the community as well as that of the individual is necessary to social progress."

"The perspective by which we see the relation of the part to the whole and of the whole to the part, is realized only if we have the ability to detach ourselves from our surroundings. This sense is acquired only by education and by religion, and but few are able to attain it. One of the results of solidarity is that the individual is scarcely allowed to realize that he actually exists, that he possesses characteristics which are peculiarly his own."

"The ability to detach must be accompanied by the ability of reattachment. One of the greatest dangers of modern society is isolation. The isolated individual is the person whom we do not know, and with whom we are the despiser of prison reformers, and of philanthropists. He is not created himself, however, he is a result of the conditions of modern civilization. The detached family is a menace; it cannot hold itself together and is sure to disintegrate."

Remove the Peril. Immigration has in this its greatest menace. These less assimilative forces mingled with the life of the nation should tend to the strengthening of its fabric, but left to itself it will be a great menace. In this we recognize a peril so great that it has to be feared and dealt with. Education is what will remove this peril. Culture properly defined is the rise of the individual to the life of the species.

"So to us who have the advantages of education," urged Dr. Taylor to the students, "is a social trust. We have a debt which must be given back to the nation. University-educated people who do not respond to this call are guilty of a new kind of treason. Reattach yourselves then to humanity, and remember that only in so far as we go onward can we go Godward."

FAILED TO EQUAL AVIATION RECORD

PARIS, Nov. 2.—(Can. Press.)—The half-yearly competition for the Pommeroy Cup, it is officially announced, was won by Marcel G. Brindejonc des Maudslays, who last June flew from Paris to Warsaw by way of Berlin, a distance of 1500 kilometres (approximately 933 miles) in 13 hours, 45 minutes, and 45 seconds.

BACK FROM CUBA

Mr. W. Presnell has just returned from Havana, Cuba, after purchasing a full supply of tobacco for the coming year. The steady growth of the Harper Presnell Cigar Company's product in the face of the hard times is truly wonderful, and it certainly speaks volumes for their goods. The firm's output for the first year was between three and four millions, a record certainly to be proud of. Mr. Presnell extends an invitation to the Toronto public in general to the home of Father and Mother, and trusts that many will avail themselves of the opportunity of seeing the cleanest and most up-to-date cigar factory in Canada.

WOMEN'S CANADIAN CLUB

The officers of the Women's Canadian Club announce Monday, Nov. 10, as the date of their next meeting when Dr. Adam Shortt will be the guest speaker. The subject chosen is "A Comparison of American and Canadian Forms of Government."

FIRST OF THIRTY-SIX

Thirty-six laymen's mission county conferences in Ontario will open today with one at Hamilton for Wentworth county. The speakers at Hamilton include Rev. S. S. Bates, Rev. W. G. Wallace, Rev. J. H. Arns, Rev. Murdoch Mackenzie, Rev. R. G. McBeth, Rev. R. M. Hamilton, J. H. Gundy and Kenneth J. Beaton.

NO INTERCHURCH CHAMPION YET

St. John's Reached the Top at Saturday's Meet—Is Now a Tie.

ST. CECILIA'S MISSION

Rev. Fathers O'Reilly and Doyle Will Hold Special Services.

A large crowd witnessed the start and finish of the five-mile race, the last event in the fifth annual interchurch athletic meet, on Saturday afternoon. The course was the old one, not quite five miles in length, but parts of it exceedingly heavy running, and a number of the contestants who started did not finish. The result of the race considerably changed the standing of the different associations made a week ago and landed St. John's Anglican in the premier place by E. Begley and M. Penn winning first and second places respectively. G. Downey of High Park Methodist came third, and J. Begley of St. John's fourth.

This made the first standing of the clubs as follows: St. John's, 21 points; Davenport Methodist, 19; High Park Methodist, 13; Victoria Presbyterian, 9.

The All-round individual championship has not yet been decided as a tie now exists between E. Begley, St. John's, and S. Mould, Davenport Methodist, with 19 points each. A race will probably be run this week to decide the winner.

Special preachers occupied the pulpits of several Ward Seven churches yesterday. At the Annetta Street Baptist, Norman Davis was the speaker at the morning service, and Rev. Mr. Wallace preaching at St. John's. At the Anglican Church, Rev. Prof. Cotton of Wycliffe College preached in the morning and at the evening service the preacher was the Right Rev. Bishop Sweeney of Toronto, and spoken from the pulpit of the superannuated fund.

Dr. Treacy of St. Cecilia's, R. C. Church, Annetta Street, has secured the services of Rev. Father Doyle, C.S.S.R., and Rev. Father O'Reilly, C.S.S.R., both of whom we do not know, to preach at his church beginning Nov. 23, and lasting until Dec. 2. These preachers are widely known throughout North America and have many friends in Toronto.

NATHAN'S FORCES BADLY WORSTED

Allied Radicals, Republicans and Socialists Were Defeated in Rome.

ROME, Nov. 2.—(Can. Press.)—The second ballot in the general elections was taken today in about one hundred constituencies, and the results indicate that the various parties will not be materially changed from the figures given out officially last week when the Liberals, or minority, elected 240 members, thereby winning a sweeping victory.

SITUATION UNCHANGED

The results in Rome were considered very significant, two Nationalists being elected over a Socialist and the Radical Prince Teano. Both of the latter were supported by the municipal "bloc," composed of Radicals, Republicans and Socialists, headed by Mayor Nathan.

Ministerialists Continued to Sweep Italy on the Second Ballot.

The usual fortnightly meeting of the Dominion Conservative Association will be held in the Grand Hotel, St. Andrew's Hall, for which a program of some importance has been arranged.

TOPMORROW

The British Imperial Association has a membership in Brampton of 154. R. A. Gray, the principal of the High School, reports an average attendance of 800 pupils daily for a month of October, and that there is plenty of room at the school for expansion.

A MALE SPINSTER IN THE TOWNSHIP

East York Association Has Gay Time Going Over Voters' List.

The executive committee of the East York Township Voters' Association met Saturday night and completed the revision of the voters' list for the coming year. They claim that their list is unexcelled in a very deplorable condition.

Many old raters are left on the list after having been on for over twenty-five years. Several are down in a canvass this year. Others are down as freetholders, who do not and never did own a foot of land in the township.

Scores of manhood franchise electors are not on many of whom have been here for over five years. One man is dubbed a "spinster" and a non-resident. The omission of the manhood franchise vote causes a loss of many dollars to the revenue of the township, as each male British subject of the age of 21 years is taxed a dollar.

The next contest will be the North Pole-Avenue road stop of the St. Clair Avenue Civic cars. The city authorities are now making a survey of the road with a view to widening it and providing for waiting passengers.

More real fun than ever before at a Halloween celebration at the Ontario Ladies' College marked this annual event at the big Whitby night. The costumes were more interesting and there was a very beautiful exhibition of the minut by a quadrille of young ladies in colonial costumes.

HALLOWEEN AT ONTARIO LADIES' COLLEGE

The British Imperial Association has a membership in Brampton of 154. R. A. Gray, the principal of the High School, reports an average attendance of 800 pupils daily for a month of October, and that there is plenty of room at the school for expansion.

With the Churches

The Rev. Arthur Bowen (late of the Congo, Africa) preached morning and evening at the Earlscourt Baptist Church yesterday, on the South African subject, "The Kingdom of God is within you." Mr. Bowen's sermon was well received and the church was well attended.

RECORD GRAIN SHIPMENT

PORT ARTHUR, Nov. 2.—(Can. Press.)—From Port Arthur elevators yesterday was shipped 949,431 bushels of grain, a new record for a day's shipment. During the month of October 11,000 cars have been unloaded in Port Arthur, compared with 800 cars for the same month last year and 12,000,000 bushels came into the city during October, compared with 3,500,000 bushels for the corresponding month last year, which establishes another new record.

WILL ELECTRICITY SWISS RAILWAYS

BERNE, Switzerland, Nov. 2.—(Can. Press.)—The Swiss government is providing for the expenditure of \$7,000,000 for the electrification of the St. Gothard railway. This, it is said, will be the first step in the electrification of all the Swiss national railways.

Kicks and Criticism for City Hall—Also Why and Wherefore.

LOTS OF CHURCH NEWS

The Earlscourt Baptist Church this evening the Rev. Andrew Brown, B.A., of Memorial Institute, will give a lantern lecture on "Light and Shade of Toronto History"—the story of the Baptist social work and Canadianizing the foreigner within our gates.

Not a note of music was heard, or beat of drum on Sunday in the streets of Earlscourt, the cause being the absence of the Salvation Army (Earlscourt contingent) at Massey Hall to welcome their general.

The exodus of Britishers for the home land continues unabated. The number who return to the old country for the Christmas holidays is visibly increasing each year. All accounts are that the province would be in debt \$2,000,000, he was pleased to announce that the province's current expenditures against current revenue, all accounts had been paid and a handsome surplus on hand.

The government had redeemed its pledges re the liquor traffic. The statement made from the public platform to the effect that the government and the liquor interests were in alliance was without foundation. The instance was cited of North Grey and East Wiltshire that if Mr. Rowell knew anything about the alliance he never mentioned it in either constituency or together with the county of Peel would be held up as an example in East Middlesex in the coming by-election.

The attacks by the opposition against the department of agriculture were unwarranted. Instead of the farmer having to go to the Agricultural College at Guelph, the knowledge taught there was brought the farmer to the door of his own district superintendent for the county. The students were sent from the farm of the O. A. C. and after taking a past grade course were available by any county in the province. He gave for example the County of Lambton with three farm experts, where the results made to get results. He immediately set about installing the best methods and apparatus to be found. ELECTIONS GIVE ASQUITH WORRY

Two Vacancies to Be Filled—Loss of Reading Not Unlikely.

SCOTTISH SEATS SAFE

Buckmaster's Re-Election in Yorkshire Riding Considered Fairly Well Assured.

LONDON, Nov. 2.—(Can. Press).—The United Kingdom is in the throes of a miniature general election. There are five vacant seats for the House of Commons, four of them caused by recent judicial appointments and consequent changes in the cabinet. The government is quite naturally a little anxious, as it has to contend with a lot of dissatisfaction both with what it has done and what it has failed to do.

The Unionists, too, are making determined fights in every constituency, and are aided in some by the nomination of Labor and Socialist candidates, who always draw votes from the Liberals.

The greatest interest centres in the contest for Reading, the seat which Sir Rufus Isaacs gave up to take the lord chief justiceship, and here the Unionists have the best chance of making a break in the government defenses.

May Loss Reading. Sir Rufus Isaacs, a resident of the city and an otherwise popular and strong candidate, always held his seat by only a narrow margin, which at the last election was won by Mr. Leslie Wilson, who fought him at the last election, is again the Unionist candidate. George Peabody, C. Booth, the Liberal candidate, a former member for Bath, and a relative of the late George Peabody, the American millionaire who did so much for British charitable institutions, is quite a stranger to Reading, having entered the constituency only in the eve of the contest, and, besides, the Socialists are opposing him.

Reading has had a most peculiar political history. It is largely a one-firm town. Most of the members of the firm are Unionists, but the head of the firm, the late Sir George Palmer, was a Liberal. The votes and influence of the firm were therefore about evenly divided between the two parties, consequently the narrow majorities.

After the death of Sir George Palmer, a few weeks ago, the whole influence of the firm will be of the Unionist candidate.

Buckmaster's Return Expected. The other election in an English constituency, the Kelghey division of Yorkshire, is also being fought by a Unionist, Mr. Buckmaster, who is expected to be re-elected on his appointment to the position of solicitor-general, does not give the government so much concern. Mr. Buckmaster was returned only a year ago at a by-election, receiving 325 votes over the Unionist candidate, in a two-cornered fight. This time it is not expected that there will be any official Labor candidate, so the election will be a contest between the Unionist and the Liberal.

"POMERANIAN" GOES THRU SERIOUS STORM

MONTREAL, Nov. 1.—(Special).—The steamer Pomeranian from London and Havre, went thru a terrific ocean storm on Oct. 24 which so disabled the vessel that she did not reach Montreal until this morning. The crew and passengers were swept away from their decks and smashed to bits by the tremendous seas which broke over the vessel's side. The crew and passengers were thrown down by a wave and slightly injured.

NEWS OF ST. MARY'S.

ST. MARY'S, Nov. 2.—L. D. Carley has taken over the bakery and confectionary business on South Water street, formerly conducted by Cayley & Strocker.

Friday night being Halloween, a number of special constables were detailed to keep down the mischievous spirit of the followers of St. Simon.

The Salvation Army have rented the old postoffice shop on South Water street, pending the erection of a new barracks on East Queen street.

The collegiate institute held day sports were concluded on Thursday afternoon. Although the events were keenly contested, there was not a large crowd in attendance, owing to no announcement being made.

A St. Mary's ladie, Keith Matheson, son of Mr. and Mrs. Roy Matheson, who was married with the bride price of \$100 in cash in the Stratford Herald recent baby contest.

A schooner taken in tow. CHATHAM, Mass., Nov. 2.—(Can. Press).—The schooner Henrietta Simmons, which was sighted with the sails down away last Friday by the British steamer Anglian, 35 miles south-east of Boston, is being towed here today. Flying distress signals, she was taken in tow later by the revenue cutter Androscooguit which had been in search of her. Her condition was reported. The Henrietta Simmons was bound from South Amboy for Augusta, Me.

And Other Public Officials Join in Unstinted Praise of the World's Great Book "Panama and the Canal in Picture and Prose" Such Endorsements Should Convince You That YOU Need This Book. Get it NOW. Don't Delay.

FROM THE SECRETARY OF STATE.

August 16, 1913. My Dear Mr. Abbot—New York. My Dear Mr. Abbot—I have just had an opportunity to examine your book, "Panama and the Canal." It is an admirable volume—the story is most interesting, the illustrations are profuse and illuminating and the workmanship is excellent. The book is worthy of your reputation and of the gigantic engineering enterprise which has put Panama on the World-Map.

Thanking you for the pleasure and instruction which the book has given me, I am, very truly yours, W. J. BRYAN.

FROM THE MAJORITY LEADER IN THE SENATE.

August 15, 1913. My Dear Mr. Abbot—Your new book "Panama and the Canal in Picture and Prose" is a "thing of beauty and a joy forever." The mechanical execution is unsurpassed, and you have made a great contribution to Panama literature. It should be in the hands of everybody, and especially those who are not able to visit the Isthmus in person. After reading your splendid descriptions and looking at the fine illustrations no one can fail to have a complete and accurate knowledge of every subject concerning the Isthmus and the Canal of any possible interest.

Yours very truly, JNO. W. KERN.

FROM A WELL-KNOWN OHIO SENATOR.

August 15, 1913. My Dear Mr. Abbot—"Panama and the Canal in Picture and Prose" is a very valuable contribution to the bibliography of a country which is bound to be an object of increasing interest to the people of both continents. Yours very truly, T. E. BURTON.

FROM THE CHAIRMAN OF SENATE COMMITTEE ON INTERSTATE COMMERCE.

August 15, 1913. My Dear Mr. Abbot—I have examined with great pleasure and admiration your exquisite book on Panama. Of all the works relating to that matchless enterprise with which I am acquainted this product of your genius is most excellent and satisfactory. As a contribution to history, geography, literature, artistic arrangement and illustration it is a triumph of art. Yours truly, W. C. ADAMSON.

FROM AN ILLINOIS CONGRESSMAN.

August 21, 1913. My Dear Mr. Abbot: I am delighted with your book "Panama and the Canal in Picture and Prose." It is the most valuable publication on Panama yet issued. You have thoroughly popularized the entire matter. I think I have read everything published on the subject of Panama, and know of no information of real value on the subject which is not contained in your book. You have rendered a great public service. The book is written in a charming manner, and presents the interesting, romantic history connected with that part of the world as no one else has yet been able to do. I know of no other book of travel appearing in recent years so interesting and valuable as this. Very truly yours, HENRY T. RAINEY.

FROM A LOUISIANA SENATOR.

August 25, 1913. Dear Mr. Abbot—"Panama and the Canal in Picture and Prose" is one of the most thorough works of its kind that has come before me, and on its face it shows the result of untiring efforts on your part. It appears to be remarkably well arranged, and I am sure it contains an exhaustive fund of information. Very sincerely, JOS. E. RANDELL.

FROM A PROMINENT REPUBLICAN SENATOR.

August 22, 1913. My Dear Mr. Abbot—My wife and I spent a most delightful Sunday in going over your magnificent book on Panama. We had visited the Isthmus last Christmas and were familiar with the different places, which lent an additional charm to the work. I have about the most "readable" book I have had hold of for a long while. Sincerely yours, WM. S. KENTON.

What It Is

This beautiful big volume is written by Willis J. Abbot, a writer of international renown, and is the acknowledged standard reference work of the great Canal Zone. It is printed from new type, large and clear, on special paper; bound in tropical red velum cloth; title stamped in gold with hand color panel; contains more than 600 magnificent illustrations, including beautiful color pages.

Call and See It

THE VICE-PRESIDENT'S CHAMBER.

Washington, August 21, 1913. My Dear Friend Abbot—I was delightedly surprised the other evening to receive a copy of your work upon Panama. Typographically it is a thing of beauty; and as for its accuracy, I know you so well as to believe it all. If it appeals as it should you will have scored a great success. Sincerely yours, THOMAS R. MARSHALL.

FROM THE SECRETARY OF THE TREASURY.

August 13, 1913. Dear Mr. Abbot—From the cursory glance I have just been able to give your book on Panama, I feel sure that it contains much of interest, and I shall take a great deal of pleasure in reading it more carefully. Sincerely yours, W. G. MADDOX.

FROM THE MAJORITY LEADER IN THE HOUSE.

August 12, 1913. My Dear Mr. Abbot—The book is a graphic presentation of the facts concerning this greatest of all modern contributions to the world's progress and the amity of nations. Your style of treatment makes it as interesting as it is informative, and it will be prized both by those who have visited the Canal Zone and those who have not. It is a very valuable addition to my library. Sincerely yours, O. W. UNDERWOOD.

FROM A LEADING PROGRESSIVE SENATOR.

August 18, 1913. Dear Mr. Abbot—I am fascinated with your book, as I was with the Isthmus itself. This spot, where the nations meet, is of rapidly increasing interest. It will be a pleasure resort as well as a commercial centre. It is fortunate that one so well equipped as yourself has written just at this time the story of this interesting place. You have caught its spirit, its romance and beauty. The wealth of pictures adds greatly to the interest of your vivid descriptions. Yours very truly, MILES POINDEXTER.

FROM A WELL-KNOWN DEMOCRATIC SENATOR.

August 15, 1913. My Dear Mr. Abbot—Your book upon Panama is splendidly illustrated and written, and I have enjoyed it very much, besides getting from it a great deal of most valuable information. Very truly yours, JOHN SHAW WILLIAMS.

FROM CHAIRMAN OF SENATE COMMITTEE ON INDIAN AFFAIRS.

August 19, 1913. Mr. Abbot's work on "Panama and the Canal" is the most interesting and valuable publication relative to the Isthmus I have ever seen. Its careful preparation is especially evidenced by its completeness of detail, involving infinite pains in research. The story is an inspiring one, and the narrative is related in a most pleasing style. Both as a literary and historical production of great value, and as a model of typographic art, its place in any library ought to be assured. Sincerely yours, WILLIAM J. STONE.

FROM A NEW YORK CONGRESSMAN.

August 30, 1913. My Dear Mr. Abbot: I desire to congratulate you most heartily on your latest book, "Panama and the Canal in Picture and Prose." A book of this kind is usually regarded as a picture book, and surely this one is most beautifully illustrated. But your book could be regarded as a picture book if one were to regard it from its letter press alone. I found it packed with information about the world's most wonderful Canal, about the people there and the tropical conditions and about the ruins and the history that tell of Aztec and Toltec days, and the later amazing adventures of Balboa, Cortes and their handful of Spanish companions, who mixed their private business of buccaneering with the public duty of exploring and discovering a new world. The style in which you have written is most clear and flowing, and altogether this book is by far the best presentation of this much-talked-of subject that I have seen my good fortune to find. Sincerely yours, HENRY GEORGE, JR.

FROM A FLORIDA CONGRESSMAN.

August 22, 1913. Dear Mr. Abbot—I have looked over your book on Panama and the Panama Canal very carefully, and I consider it the best book on the subject that I have ever seen. The descriptions and illustrations are excellent. I am greatly pleased to be able to add it to my library. Yours most truly, FRANK CLARK.

FROM AN ALABAMA CONGRESSMAN.

August 21, 1913. My Dear Mr. Abbot—I have just examined your excellent book entitled "Panama and the Canal in Picture and Prose," and I assure you that I am delighted with it from cover to cover. The style and diction are enthralling, the illustrations are beautiful, and the subject-matter is full of instruction and replete with information. This contribution entitles you more than ever to the grateful appreciation of your admirers. With best wishes, I am your friend, JOHN L. BURNETT.

THEOLOGY ABOVE HEADS OF JURORS

Abstruse Questions Bearing on Ritual Murder Make Atmosphere Hazy.

FRIEST IS OBSTINATE

Upholds Prosecution's Views Altho Repudiated by Authorities of Vatican.

KIEV, Nov. 2.—(Can. Press).—Counsel for the defence in the trial of Mendel Beilis, charged with murdering the Christian boy Yushinsky, have succeeded in preventing the prosecution from having the minutes read of previous cases dealing with alleged ritual murder. The medical testimony having been concluded, the sitting today began with the testimony of theological witnesses, among whom only one upholds the views of the prosecution, namely, the priest, Father Pranas, whose evidence has already to a great extent been repudiated by the Vatican authorities.

Among other experts to be heard is Prof. Kokevoff, a relative of the Russian premier. A long list of abstruse questions concerning ritual murder was put to the theological experts, neither questions nor answers apparently being comprehensible to the jury, which is composed of peasants and small shopkeepers. The list included such questions as "By what did the Jews replace the victim in the case of the first-born sacrificed to Jehovah?" "What portion of the body, according to the interpretation of the Talmud and the Cabala, is it out of which the soul is mostly held to issue with the blood?"

While Father Pranas was testifying he mentioned Christ, whereupon the president of the court declared that the name of Christ could only be mentioned when the court was sitting behind closed doors. Pranas contended that the extermination of the Christians was the main object of the existence of the Talmudists.

ANOTHER PETITION FOR HON. JIM DUFF

Veterinary Students Not Yet Satisfied—Say Saunders is Incompetent.

The trouble at the Ontario Veterinary College does not appear to be over, although a large number of the students have come to the conclusion that they are only making matters worse for themselves by persisting in their protests. Another petition was sent to the minister of agriculture following the meeting of the students at the college, in which it was stated that Dr. Saunders was, in their opinion, not a competent lecturer in anatomy, which is one of the subjects which he teaches at the college. They do not deny that he is one of the most competent men in the Dominion along certain other lines.

CONDUCTED BY MRS. EDMUND PHILLIPS

Their Royal Highnesses the Princess General and the Princess Patricia of Connaught, made their first appearance in public since their return to Canada, on Friday night at the Russell theatre, when they occupied the royal box, accompanied by Sir Frederick and Lady Williams-Taylor, Mr. Misses, Mrs. Jos. Boone, ladies-in-waiting and Captain Buller, A. D. C.

The Lord bishop of Toronto and Mrs. Sweeney gave a tea on Saturday afternoon for the Toronto clergy and their wives, at the Seaside house, where they received in the spacious drawing-room, Mrs. Sweeney wearing a gown of Copenhagen blue crepe over satin with real lace and diamonds. The tea-table was centred with an iridescent basket of pink carnations and miniature chrysanthemums on a pink and silver centre-piece. The tea was presided, assisted by Miss Amy Dixon, Miss Marjorie Hamilton, Miss Berder, about 135 were present.

Mrs. Delamere, Heath street, gave one of the nicest teas of the season on Saturday afternoon at her home, 1000 Bloor street, which have just been newly decorated. The flowers arranged by the clever fingers of Miss Keefer, were lovely, especially on the mantel-piece, as it was all in green and white shades. Miss Mollie Delamere wore a pink and white gown with a pink and white sash and carried a bouquet of pink roses. Mrs. Delamere looked exceedingly well in black satin and black and white brocade velvet. Mrs. Delamere's guests were very numerous, and the tea was a very handsome mahogany one centred with Japanese embroidery on grass lawn and a graceful silver vase of pink roses.

TEA AT ITS BEST

THE MORNING CUP. The morning cup of "Salada" Tea is most refreshing and soothing to the tired or nervous woman.

"Salada" Tea is the most delicious of all teas because of the care exercised in every detail preparation from picking to packing. Only the choicest selected young leaves and buds of upland-grown tea plants are used, and from these are derived the delicious flavor and delicate aroma which have made "Salada" famous for sale by all grocers, in sealed lead packets only.

TRINITY WOMEN LAND FIRST FOUR PLACES

Annual Cross-Country Race of Varsity Harriers Going to Montreal.

According to the result of the cross-country race held on Saturday morning by the Varsity Harriers, it would appear that all the long-distance runners around the U. of T. are students of Trinity College.

The weather was cold, and there was a strong wind blowing when the race was started, at 10.30, by Mrs. Beaton, the donor of the trophy, at Rosedale Athletic Grounds.

The race was started on the Rosedale track, and after a lap had been run, the runners struck north past St. Andrew's College, and then took the race to the course led through a bush, then took a road going north.

Queen's Students Celebrate Victory

KINGSTON, Nov. 2.—(Special.)—The fact that the Queen's football team defeated McGill in Friday's game, there by winning their first game in three years, was too much for the students of the crowd.

About two or three hundred of them, in a way of celebration, held one of their 20-minute rallies in the business section of the city Saturday night, and played high jinks for several hours.

McMaster turned the tables on the City Teachers and won the second game in the rounds for the Varsity Second Soccer League championship Saturday morning, scoring 7 goals to the Teachers' nil.

YALE TEAM BEATEN EASILY BY COLGATE

Notre Dame Wallops the Army—U. S. College Football Results.

At New Haven—Colgate found Yale's much vaunted defence more of a tradition than an actuality on Saturday and defeated the blue 15 to 6 by playing superior football.

At Princeton—Princeton's reconstructed football eleven defeated Yale 14 to 0. The visitors never threatened Princeton's goal line.

Phenomenal Batting Civil Service League

Following is the standing of the Civil Service Baseball League for the season of 1913, and the batting averages of the players of 300 per cent and over.

LADY CHAMPIONS AT TORONTO CLUB

On the links of the Toronto Golf Club Saturday afternoon, Miss Ravenscroft, the English champion, and her partner, Temple Blackwood of Toronto, defeated Miss Harrison, champion of Ireland, and Glenhorne Moss of Toronto.

## A Value Unexpressed

There are things of sentiment that cannot be set down in dollars and cents—that evade every effort to place a crude valuation upon them.

Such is the great Russian painting, Makoffsky's "Wedding Feast," now being shown in the Store.

That the owner has and does refuse almost unbelievable sums for it adds, no doubt, to its interest.

But each person who looks at it adds just so much to its value to the world of art and intellect.

Its money value is over \$50,000.00.

Third Floor, Richmond Street Side.
