ENGLISH RAILWAY STRIKE SETTLED BY LLOYD-GEORGE

**Chancellor Worked for Con-
ciliation When All Others
Seemed to Have Given it
Up—Committee of Five to
Investigate Workings of
Conciliation Board of 1908**

UNIONS RECOGNIZED EMPLOYEES WIN POINT

LONDON, Aug. 19.—A great wave of
relief swept over the country to-night
when, shortly after 11 o'clock, the an-
nouncement was made from the board
of trade offices that the railway strike
had been settled and that the men
would return to work immediately.

Telegrams were quickly despatched
to all important railroad towns bear-
ing the information, and crossed in
transit messages to London describing
strike riots in Llanelli and smaller
towns in the kingdom.

Most of the credit for the settlement
appears to rest upon the shoulders of
David Lloyd-George, chancellor of the
exchequer, who, in his statements to
parliament and in interviews with the
managers and the men, worked for
conciliation, when all others of the in-
terested parties seemed to have given
it up.

A joint committee of five members,
composed of two representatives of the
railway companies, two of the men
and a non-partisan chairman, will be
appointed Tuesday to investigate the
workings of the Conciliation Act of
1907, which the men claim is the root
of all their grievances. This device
overcomes the men's objection to a
royal commission, which they contend
always has been in practice a synonym
for delay.

A win for the men.
So far as technical advantage in the
compromise goes, it appears to be in
the men's favor, particularly as the
managers consent to meet their repre-
sentatives. The official statement con-
cerning the agreement says the manag-
ers consented to the scheme in view
of certain representations made them
by the government, including a pro-
mise of legislation to permit of an in-
crease in railway rates. The men claim
a victory for unionism on the point
of recognition of unions, which was
one of the most vital principles at
stake.

Messages were sent to 1800 branches
of the labor unions to-night, saying:
"The joint committee has settled the
strike. It is a victory for trade union-
ism. All men must return to work im-
mediately."

As a result of the settlement the sol-
diers who had been scattered at street
corners in London and other cities will
be withdrawn as fast as arrange-
ments for transporting them can be
made.

There is no doubt that to-day's af-
fair at Llanelli, Wales, where troops
fired on a mob, killing two men and
wounding two others, had much influ-
ence in ending the railway strike. The
government had almost its existence at
stake because of the strike, as it de-
pends on the working classes for its
power. The railway companies, who
seldom occur less often in the United
Kingdom than in any other European
country, and is particularly repugnant
to a Liberal.

Lloyd-George Did It.
The settlement was reached at a
conference between David Lloyd-
George, the chancellor of the exchequer,
and the executives of the men's
societies.

Premier Asquith returned to London
this afternoon from the country, where
he had expected to stay over Sunday,
and his secretary made constant trips
to the conference at the board of trade
and the headquarters of the railway
managers.

At the conclusion of the conference
the official statement was issued:
"Acting on representations made
to the railway companies by the govern-
ment, they to-day empowered Mr.
Cloughton and Sir Guy Garnet, gen-
eral manager of the Midland Railway,
to confer on their behalf with repre-
sentatives selected by the joint execu-
tives of the trades unions and railway
employees, with a view to discussing
with them the suggested terms of set-
tlement drafted by the board of trade."
There were present at the conference:
G. H. Cloughton, director of the L.N.
W. Railway, and Sir Guy Garnet, in
behalf of the companies; James Henry
Williams, M.P., and Messrs. Bellamy,
Williams, Fox, Lowth and Charlton,
in behalf of the men, and Mr. Lloyd-
George, Sir H. L. Smith and G. K.
Asquith, on behalf of the board of
trade. Ramsey MacDonald, M.P., also
was present during the conference.

"Mr. Cloughton stated that upon
certain representations by the govern-
ment, he and Sir Guy Garnet had the
authority of the railway companies to
meet the representatives of the men
with a view to discussing terms of an
agreement. The men having been dis-
cussed and agreed to, Mr. Cloughton
and Sir Guy Garnet stated that the
recommendations of the commission
would be accepted by the compa-
nies, even though they were adverse to
the companies' contentions on any
question of representation and should
the settlement be effected, any traces
of ill feeling which might have arisen,
certainly would be effaced."
Terms of the Agreement.
The terms of the agreement follows:
1. The strike to be terminated forth-
with and the men's leaders to use their
best endeavors to induce the men to
return to work at once.

The Man Who Settled the Strike.

RT. HON. DAVID LLOYD-GEORGE,
Chancellor of the exchequer in the Asquith cabinet.

FIVE DEATHS CAUSED BY RIOTING IN WALES

**Two Shot and Three More Perished in Burning of Rail-
way Buildings—Mob Looted Troop Train,
Outmanoeuvring Soldiers.**

LLANLLEI, Wales, Aug. 19.—Four
rioters were shot down by the troops
this afternoon, two being instantly
killed, and the other two mortally
wounded.

This part of Wales has been the
scene of exceptional violence since the
railway strike was declared. There has
been a succession of conflicts with the
police.

To-day a mob attempted to stop an
incoming train, and the police were
unable to disperse the angry men. The
Riot Act was read by a magistrate,
but it had no effect. The strikers con-
tinued their attack on the train and
mounted the locomotive. A military
officer discharged his revolver in the
air, but still the mob refused to quit.

Finally the troops, who had been sta-
tioned in the vicinity to protect the
depot and other railroad property,
were ordered to shoot. They fired
three volleys. At this the mob broke
away, leaving four men stretched on
the ground. Two were dead when
picked up, and the others were dying.

Rioting continued through the night
and three more deaths were added to
those of the afternoon, while many
persons were injured. These casual-
ties resulted from an explosion dur-

ing a fire started by the rioters in
the railway freight sheds.
The local mob was joined to-night
by 2000 strikers from the sur-
rounding districts, who also were in-
fused at the shooting of the men
by the troops during the afternoon,
and also 500 militiamen were guard-
ing the railway line, the mob com-
bined, outmanoeuvred them, tore up
the tracks, looted a troop train and
secured a large quantity of ammuni-
tion and other military stores.

Afterward the marchers marched
into the town and broke into the busi-
ness place of a justice of peace, who
had read the riot act and threw his
goods into the street.

When the police and troops dispersed
the rioters they again returned to the
freight sheds and set fire to them. As
the flames were licking up the build-
ing the rioters, with their rifles, in-
cluding the bodies of three men
were found. They had been killed
by the explosions.

Both in the streets and at the rail-
way sheds the soldiers were compelled
to make a number of bayonet charges
and many persons, including women
and children, were wounded.

TORONTO EXPENDITURE ANALYZED FOR CITIZENS

**Treasurer Coady Gets Out a Broad
Sheet, Telling Where the Six
Millions Are Going.**

For the first seven months of this
year the city has spent \$3,425,205, and
there is still \$2,781,245 in the treasury,
according to the report of R. T. Coady,
city treasurer, just to hand. The re-
port is a broad sheet of about three
feet by one in dimensions, and it tells
of all the doings of the treasurer's de-
partment up till Aug. 1.

Some of the expenditures exceeded
the appropriations. That excess totals
up to \$16,228. The largest overexpen-
diture comes under the heading of en-
gineering expenses.

This year has been an exceptionally
heavy one for the city, so far as con-
struction work has been concerned.
The appropriations in that branch
amounted to \$46,327, other credits
expenditure is charged up to the plant
bringing it up to \$73,411, and there was
\$87,164 expended, exceeding the cash on
hand by 13,753. The next largest over-
expenditure is charged up to the plant
account in the street cleaning and
scavenging department. It amounts to
\$1719.

In totals, \$110,801 was brought for-
ward from 1910; the appropriations for
this year amounted to \$5,834,236; other
credits brought it up to \$6,190,124. This
gives the expenditure so far \$3,425,205,
and the balance left \$2,781,245.

FATAL FALL FROM WAGON

Veta Valletta, Thrown From Load of
Fruit, Dies From Shock.

After enduring his agonies for seven
hours, Veta Valletta, the Italian who
was thrown from the top of a wagon
loaded with California fruit, near the
Yonge-street fruit market, on Satur-
day afternoon, died in St. Michael's
Hospital early Sunday morning.

Valletta was employed by White &
Co., wholesale fruit dealers of Front
and Church-streets, and on Saturday
afternoon was sent to assist a G. T. R.
driver in conveying fruit from the
market to the warehouse. The road-
way along the Esplanade between
Yonge-street and the White ware-
house is not very smooth, and a sud-
den start of the horses threw the un-
fortunate man to the ground, and be-
fore he could escape the wheels of the
heavy dray had passed over his left
leg, fracturing it below and above the
knee.

The doctors at St. Michael's Hospital
state that death was due to shock more
than the injuries.

Coroner Wilson will open an inquest
to-day at the morgue.

G. A. R. ENCAMPMENT.

A strong representation will be sent
from the local G.A.R. post to attend
the 44th national encampment of the
Grand Army of the Republic in
Rochester this week. Fully a dozen,
including Thomas Hughes, the post
commandant, and Adjutant J. H.
Knowlton will leave to-morrow for the
convention.

As S. Knowlton post is attached to
the department of state of New
York, and the local representatives
will march with the delegation from
that state.

RECIPROCITIES!

I've allus voted Liberal, an' s'ct right
An' to our crowd,
An' swallered all our scandals, when
the Tories hollered loud;
But I'll be dangid if I can stand this
"reciprocities!"
It's jest 'ike sayin' to the "Yanks,"
"Now take what you can see."

My old friend Alan Aylesworth has
left the single ship,
An' quite a lot of other chaps have
also "took the tip."
Manly German, up in Welland, an'
Lloyd Harris up in Brant,
Sed plainly to Sir Wilfrid: "To swaller
this we can't."

It's the biggest kind of humbug to fool
the farmer chaps,
An' give the "Yanks" another chance
to put us on their map.
The Yankee farmer sports grain, an'
lamb, an' garden stuff,
An' to tell us that our market is the
"biggest kind of bluff."

So this time I'll vote for Borden to
keep Yankee products out,
An' the night the votes er counted
you'll hear the people shout:
"This country's for Canadians! No
Yankees need apply!"
We win the fight, fer we were right;
Sir Wilfrid, dear, "Good-by!"
—T. M. Humble.

D. R. A. ENTRIES.

OTTAWA, Aug. 20.—There are 675
entries for the D. R. A. opening here
to-morrow. Last year there were 612,
the year previous from a Queen-street
car at the corner of Queen and Bath-
urst-streets Sunday evening. She was
removed to the Western Hospital,
where it was found she was suffering
from a small scalp wound. She will
be obliged to remain in the hospital
for some time.

TO THE RESCUE.

—From The Vancouver Province.

Perfect Crop Weather

WINNIPEG, Aug. 20.—Two
more days of perfect crop weather
have given impetus to the
belief that even in the latest
districts grain will be ready to
cut before there is any danger
of frost. Rain has been record-
ed in slight quantities at three
or four points, but nothing in
the nature of a general down-
pour has occurred.

In Saskatchewan and Al-
berta, where the crops are
latest, grain is reported to be
filling rapidly. In Northern
Alberta, the yield promises
well, samples from several dis-
tricts received yesterday show-
ing exceptionally well develop-
ed shoots. Between three and
four thousand more harvesters
have arrived from the east and
south. Cutting is general in
Manitoba and the men have all
been placed. Threshing of rye
is reported in some districts.

MARQUIS AT THE WALDORF.

The Marquis of Queensberry will not
arrive in Toronto for some days yet.
He wired to the Queen's Hotel last
night for his letters to be forwarded
to him at the Waldorf, New York.
Evidently his lordship intended to
come straight thru, but found the
gaities of New York more attractive
than the gold of Porcupine.

MANITOBA VOTERS' LISTS.

OTTAWA, Aug. 20.—Frank J. Par-
rell and R. J. Hickson, of the Domini-
on Printing Bureau, left on Saturday
to superintend the printing of voters'
lists at Winnipeg.

CONSIDER WITH COLLEAGUES

Sir James Whitney Has Nothing De-
finite to Say About Local Elections.

Sir James Whitney preserves a dis-
creet reticence about the longev-
ity of the present legislative as-
sembly of Ontario. The World called
him up on Saturday and requested to
know whether there was any basis to
the evening paper story that a provin-
cial election was to follow or accom-
pany the federal one.

"Well, now, that's a serious matter,
which my colleagues and I will have
to consider," was all that The World
was able to extract from Sir James
on the matter.

BELL BOY ARRESTED.

On Sunday evening James Stanton
Northrop, 37 D'Arcy-street, was ar-
rested in a downtown hotel, where he
worked in the capacity of bellboy, on
a charge of stealing a gold pin with
two diamonds, from the room of one
of the guests. Northrop is but a boy of
17 years of age, and was considered a
trustworthy young fellow. The arrest
was made by the hotel detective, and
the lad was handed over to Detectives
Cronin and Miller.

Water Warm in North End.

Complaint of the warmth of water
circulating in the houses of the dis-
trict north of College-street, when
downtown water has been cool, arises
from the fact that more water was
used at times than the pumps could
supply from the lake, so the reservoir
had to be drawn upon. The water
there gets heated in summer.

BORDEN WORSTS A HECKLER AT HARRISTON

If Canadian Farmers' Home
Market is Any Good, Pro-
tect It — Reciprocity Will
Only Add to the Surplus
Which the American People
Export.

HARRISTON, Ont., Aug. 20.—The
Conservative leader was given a rous-
ing welcome here on Saturday even-
ing. Three thousand people crowded
into the rink for the meeting. They
came from six counties, Wellington
(where Harriston is situated), Huron,
Bruce, Perth, Dufferin, and Grey.

Special trains brought them in from
Orangeville in one direction and from
Wingham in the other, while the reg-
ular brought a large contingent from
Drayton district. They knew how to
cheer and they gave abundant evi-
dence of it.

On his way up to Harriston on Sat-
urday the Conservative leader spent
two hours at Stratford, in the riding
of South Perth, where G. H. McIntyre,
ex-M.P., is the Liberal candidate.
While at Stratford Mr. Borden held
an informal reception at the Conserva-
tive rooms, when he met about two
hundred of the local Conservatives.
After his arrival at Harriston he made
a tour of inspection of the chief in-
dustries of the town.

The meeting opened with a battery
of appeals from the Conservative can-
didates and the local members. The
first was W. C. Chambers, the stand-
ard bearer for West Wellington for
the Ontario legislature. James How-
man, federal candidate in East Huron,
brought a message of confidence and
H. B. Murphy gave a sanguine re-
port of the campaign in North Perth.
Fighting Addresses.

Vigorous fighting addresses were also
made by two members of the legisla-
ture, C. B. McKeown, Dufferin, and
A. H. Musgrave of North Huron. All
struck vigorously the note of national
menace in reciprocity and all were
heartily applauded.

The chairman of the meeting was Anson
Spotton, mayor of Harriston, and a
prominent figure in the business com-
munity.

Mr. Borden's voice was somewhat
stronger than in Woodstock, but it
was still necessary for him to guard
it carefully, and Hon. I. B. Lucas
came up from Toronto by the evening
train to join forces with the Con-
servative leader.

Mr. Borden opened his speech by re-
calling the strange circumstances un-
der which parliament was dissolved.
He pointed out how a pledge had been
given that parliament would be in
session for another meeting of the
Olivier committee, that pledge being
given in the presence of Mr. Oliver
himself, and then dissolution was
brought on suddenly before that meet-
ing of the committee could be held.

"In the recent standards of the public
life of this country," declared Mr.
Borden, "are not consistent with such
conduct." (Cheers.)

Sir Wilfrid Laurier's utterances at
Simcoe again came in for the attention
by the Conservative leader, and in
going so met with several interrup-
tions.

Mr. Borden asked each of his inter-
ruptors to repeat his interruption. The
first did not accept the opportunity.
The second asked what was Sir John
A. Macdonald's policy in 1872.

"Sir John said in 1871," retorted Mr.
Borden, "that Sir Wilfrid Laurier's
proposal was voted treason." (Cheers.)
And then he went on to deal with
1873.

"This is 1911," he said, "not 1878. It
would be just as wise to give a grown
man a nursing bottle as to say that we
want reciprocity now because we want
it twenty years ago." (Laughter.)
"Are the American markets wider
than those of the empire," he asked a
moment later, "is the surplus" he contin-
ued, "of the same character as the sur-
plus of the American people's export."
If we sell our products in the United
States it will only increase the surplus
which the American people export."

The Keynote of the Campaign.

Ask Sir Wilfrid Laurier or his candidates or his newspaper sup-
porters to explain what President Taft means by the following :

From the speech of President Taft at the joint banquet of the
Associated Press and the American Newspaper Publishers' Associ-
ation held in New York on April 27, 1911:

"I have said that this was a critical time in the solution of the
question of reciprocity. It is critical because, unless it is now decided
favorably to reciprocity, it is exceedingly probable that no such oppor-
tunity will ever again come to the United States. The forces which
are at work in England and in Canada to separate her by a Chinese
wall from the United States, and to make her part of an imperial com-
mercial band reaching from England around the world to England
again by a system of preferential tariffs, will derive an impetus from
the rejection of this treaty, and if we would have reciprocity with all
the advantages that I have described, and that I earnestly and sin-
cerely believe will follow its adoption, we must take it now, or give it
up forever."

Why is it critical?
Does he mean that reciprocity will help to head off the imperial
commercial band around the Empire?

VACANT-MINDED CHILD GATHERED IN BY POLICE

Boy of Twelve Unable to Express Himself and With No Clue to Parentage Picked Up in Street.

A lad of 10 or 12 years of age was found wandering about Queen-street, near the subway, on Saturday evening, in a state of utter helplessness mentally. On being asked his name he replied by looking a complete blank. He was taken into No. 6 police station and later to the Children's Shelter.

It is said that shortly before the lad was picked up he was in charge of a woman, who had the garb and general attitude of a foreigner. His mind is such a blank that he has to be fed with a spoon and looked after like a mere infant.

His mind is such a blank that he has to be fed with a spoon and looked after like a mere infant. He was placed in front of a washstand yesterday and told to clean himself up. He seized the soap and began applying it to his hands and continued doing so until the attendant became rather tired of watching the performance and took the soap from him and proceeded to apply it vigorously to the boy's body, which doubtless had not known such cleansing for a good while.

Possibly the little chap was not to blame for not smearing his face over with the soap, for it was quite apparent that he had not been brought up to that sort of living, excepting on high days and holidays. What he did was done in abundance at least abundance of soap was used.

"Hello, mister," he cried as one of the attendants entered the room where he was placed. It was quite an achievement for the lad, and the attendant was so startled that he continued his conversation, but the lad took on his old vacant look and the attendant had to go on about his work, believing the boy was fully as bad as he had thought.

Who the lad is no one knows, but the police are confident that the parents wished to rid themselves of their encumbrance by leaving the lad on the street to follow wherever fate might lead.

He had good boots, dark coat and knickerbockers. His hair was cropped off close to his head, but what had sprouted up since the operation had been applied, was almost black. His underclothing, while not of the best material, was not worn out by any means. Bulging from his trousers' means, an extra pair of under drawers were found. From his head to his feet he had the appearance of one who expected to be going to the cold of the night and possibly for several nights.

NO MORE HAND-TO-HESS SALVATION'S SOCIAL

Prof Eakin Emphasizes Solidarity of Humanity and Need to Seek Own Divinity in Saving Others.

That there can be no individual success apart from the success of the whole community was the basis of an interesting sermon by Rev. Prof. Eakin at the Wesleyan Church last night. It was an unusual line of thought that the preacher pursued through the course, and he dealt with it ably and well. Dr. Eakin entertains something of the socialistic ideal applied to Christianity. His belief in the spiritual unity and solidarity of the race is profound.

"Let us lay aside every weight, and the sin which doth so easily beset us, and let us run with patience the race that is set before us." Dr. Eakin wasted no time in getting to the point that he wished to impress on the congregation.

"Our character and moral growth here depends on our relationships. Have we any reason to believe that it will be otherwise beyond the grave? We are to be saved for you to attempt to gain success at the expense of your fellows." His continually main aim was for the own mind and win. The destination of your neighbor build up your own, for there is no salvation for the individual apart from the race.

No individual Heaven. It was decidedly out of the ordinary line of sermons when Rev. Prof. Eakin said forcibly and with assurance: "Our individual heaven is a myth. There is no such thing. Salvation is social. Some people think that by some mysterious process they are going to get to some place of perfect bliss, alone. But no person can do this without the individuals who surround him."

It is only as a man realizes his obligation to the world around him that he grows to perfection. "Every man must do it. Eakin believe that the same heavenly rewards are in store for the eleventh-hour repentant as for the first man who enters Christian life. Referring to the statement in the Presbyterian catechism, "The souls of believers are at their death made perfect in holiness and do immediately pass into glory," Dr. Eakin wished to remark that with all deference to those who formulated that statement, it wasn't true to reason or Scripture.

"Let men only know that there is an element of divinity in their work, and it is no detached detail, and we will have holiness to the Lord written on their foreheads, and the sweetness of the desert air. That may be good poetry, but it's not good sense," he declared.

"Everybody is needed somewhere. You may think you are a negative quantity, but God is calling you out. He needs you. Consecrate yourself to truth and duty and it will be the life of the world, and meaning to life's mystery."

CARRIED AWAY UPPER LOWER LOCK GATES

Steamer Kaywest Will Be Held For Damage to the Welland Canal.

ST. CATHARINES, Aug. 20.—(Special.) The steamer Kaywest early this morning carried away both the head and one of the lower gates of lock No. 1, on the Welland canal, and was damaged to the extent of \$100,000. The Kaywest, a 1,200-ton steamer, was carrying a load of lumber and was bound for Port Colborne. The accident occurred at 10 o'clock. Captain Esford was in command, but Second Mate Le Point was doing the navigating.

It is stated that the boat was being pushed in order to reach Port Colborne before six o'clock, and that the accident occurred while the boat was being pushed. The Kaywest was carrying a load of lumber and was bound for Port Colborne. The accident occurred at 10 o'clock. Captain Esford was in command, but Second Mate Le Point was doing the navigating.

Captain Esford appears to have done everything possible to avoid an accident after he saw what was impending, but without success. While not actually asserting that the accident could have been avoided, he claims the snubbing posts at the lock are too close to the head gates for all round safety. He has called for repairs to the snubbing posts at the lock and for the head gates to be moved further apart.

Chief Engineer Weller and his staff are working on the repairs to the lock in record time. The journey had to be made through twenty locks before an effective work could be done. The navigation was suspended on Sunday night hour, nine o'clock, as if nothing unusual had happened. This was the first serious break in the Welland Canal this year.

TREMENDOUS BUILDING ACTIVITY IN CANADA

Permits For Seven Months Show 28 Per Cent Increase. With Toronto Well Up to Average.

Table showing building activity in Canada for the first seven months of 1911 compared with the same period in 1910. Columns include City, 1911, 1910, and Inc. Cities listed include Toronto, Montreal, Ottawa, and others.

SOME NOT TO BE BOUGHT SPT OF POLITICIANS

Rev. J. J. Redditt Preaches on Character Building and Honesty and Touches Practical Topics.

Rev. J. J. Redditt, in Elm-street Methodist Church last night, spoke of men going around now while the country was facing a general election, passing themselves off as honest men and declaring that every man had his price, as if subjects for investigation. They would say such a thing were themselves accused. Every man has not a price, he declared emphatically.

Character building was the keynote of his sermon. The first great demand in this life is good character. The fact is that we are all architects, we are all constructive creatures. Wherever we are, whatever we are doing, that great purpose of character building is before us. We are building a character. Great cathedrals and all great buildings fall into insignificance in comparison with character building. If not, suffering follows. That determines our worth in the universe. It is always what our character is worth, not our genius, not our mental power, but our goodness.

Character building was the keynote of his sermon. The first great demand in this life is good character. The fact is that we are all architects, we are all constructive creatures. Great cathedrals and all great buildings fall into insignificance in comparison with character building. If not, suffering follows. That determines our worth in the universe. It is always what our character is worth, not our genius, not our mental power, but our goodness.

FATAL FIRE IN GERMANY

FRANKFURT, Germany, Aug. 20.—The Opel Sewing Machine and Bicycle Works at Russelsheim, on the River Main, were destroyed by fire last night. Two persons perished in the flames and many were injured. The loss is estimated at between \$1,000,000 and \$1,200,000.

Be sure to secure a copy of Exhibited by the Government. If you don't see the exhibition, you will miss it. It is a great opportunity to see the latest in machinery and industry. The exhibition is held in the city of Frankfurt, Germany. It is a great opportunity to see the latest in machinery and industry. The exhibition is held in the city of Frankfurt, Germany. ONTARIO SOCCER FINALS—GREEN RIVER AND BARCAS WIN

ROBESIDE, Aug. 19.—(Staff Correspondence.)—Amidst wild enthusiasm, the finals of the Ontario soccer football championship were decided Saturday afternoon at Rosedale Lacrosse Grounds.

The excellent work of the Green River forward line was the feature of the game, time after time the ball being carried right down the field on a beautiful combination, to be broken only by the fast action of the defense.

ST. ALBANS BEAT PARKDALE

At Bracondale on Saturday, the home team broke their run of losses in league games by beating Parkdale in an exciting finish by six runs.

The visitors batted first and made a good start, but were out for a total of 17 runs. The home team, however, batted well and scored 23 runs.

Reflections From the August Sale of Furniture

“Just a moment for reflection,” said a certain woman about to purchase a dresser bearing the green ticket of the August Furniture Sale.

There are many similar opportunities for long-drawn-out happiness in these Dressers and Cheffoniers, offered on Tuesday at exceedingly low August Sale prices:

Dresser, in mahogany finish, with extra large bevel mirror; low base, with double top; swell front; three deep drawers; plain brass trimmings. Priced for the August Sale 21.25

Princess Dresser, mission design, in mahogany finish; 70 inches high, 36 inches wide; long cheval mirror; heavy corner posts; two deep drawers; all well finished. August Sale price 12.25

Dresser, of new design, in mahogany finish, carved; has large oval mirror, bevel plate; heavy double top and corner posts; four drawers; plain brass trimmings; easy-running castors. August Sale price 12.90

Cheffoniers at Sale Prices Cheffonier, surface quarter-cut oak, in golden finish; double top; 44 inches wide; three long, deep drawers and four smaller ones; panel ends; heavy corner posts; brass trimmings; castors. August Sale price 9.90

Cheffonier, new design, in mahogany finish; is 72 inches high, 32 inches wide; bevel plate mirror; double top; five deep drawers; wood knobs; lock and key. August Sale price 14.50

NORTHERN SENIOR LEAGUE

Before a large crowd in Jesse Ketchum Park, Parkdale, administered a fine whipping to the Lyman team, the score at the end of six innings being 12 to 0.

Lyman only secured three hits off Dod Woods. Capel 11 hits and Lyman's play left the tale, the whole Captain playing the longest hit of the game.

Rochester 8

Lacrosse

Westminster 6
Vancouver - 5

Note and Comment

Saturday was a field day for Toronto cricketers. Baseball and soccer football were equally successful towards more championships. The two lacrosse clubs were winners, and not to be outdone the baseball team won both ends of the double-header, being all the more successful after that disastrous trip on the road.

The Toronto Cricket Club outlasted Windsor, winning by an innings and nearly a hundred runs, chiefly owing to the superiority of the local bowling. A splendid feature was the large attendance and the interest in the match, which was held at Rosedale, when the annual international match will take place between Canada and the United States.

McConnell's victory over Montreal has somewhat cleared the atmosphere in regard to the ultimate winners in the N. E. championship. The Indians have but one more game to play and that is against the Toronto club on the grounds, which, on form, should be a win for the Indians.

The Leafs demonstrated on Saturday that they are a team and not a collection of individuals. True they had only five hits in the first game, but the two winners were not hit, more hitting was unnecessary. The second was easy, Baltimore giving only meagre opposition. In fact, the Orioles did not perform like permanent possibilities, and their batting was not up to the mark.

A host of friends will regret the untimely death of Fred (Pap) Phelan, which occurred yesterday from typhoid fever. He was one of the best cricketers of local sportsmen, being an expert tennis bowler, cricketer, and a member of the C. C. Y. C. and an executive officer of the Toronto Bowling Club.

A well-known English monthly magazine recently published an article bearing the good old hackneyed title, "If it is possible to make money by betting, it is possible to lose it." It is treated in the same old manner, and in the same old way, those who have lost money in attempting to score the elusive winner are vehement in their denunciation of betting, while those who have won or say they have won are equally voluble in declaring that a living, if not a handsome one, may be made out of the game.

On the whole, the bookmakers have rather the better of the deal. But the idea that a man has to adopt the selling of horses to become a millionaire is an idea as ludicrous as it is worthy of the respected secretary of the Anti-Gambling League.

"Does it pay to back horses?" It is a question that has often been asked, and the answer is this: It pays a few people; it does not pay the great army of bettors known as the public. Backing horses does not pay unless a man has patience, and a lot of it. Bet now and again, when you know something or think you do, and the Monday after the weekend has been expunged from the calendar. But don't bet on every race or even every day.

Rain wash-staggering under everything they carry. Clorita and Zahra led the fleet down the lake from the eastern gap to Whitby. The two schooners, Merrythought, Strathcona, Agate and Zelma could not hold the flying "roar" any longer for a minute in the stiff north wind that blew, and the sail, cuppers under all the way down.

Old residents of Whitby must have thought that they had seen something across on them, and that the grain fleet was in harbor as in a general way. Fifteen boats crowded for the scene along the dilapidated old docks and elevators. It was a busy scene, and a scene for Whitby. As for the race, the schooners made a show of the cutters in the first division, and in the second division Patrick won on time allowance from Zoraya. It was straight sailing all the way, the wind being strong until sundown and favored no one. Following are the results:

First Division

Start	Clap	Cor.
Clorita	3:15	2:41.30
Zahra	3:15	2:36.22
Agate	3:15	2:32.18
Strathcona	3:15	2:48.20
Zelma	3:15	2:51.19
Merrythought	3:15	2:54.48
Tama	3:15	3:08.29
Chinook	3:15	3:07.98

Second Division

Start	Clap	Cor.
Patricia	3:10	2:54.18
Zoraya	3:10	2:53.47
Yves	3:10	2:58.43
Clayton	3:10	3:02.30
Kawa	3:10	3:02.48

Niagara District

St. Catharines, Aug. 19 (Special).—Merrittion to-day replaced Wellington in the lead of the Niagara District Baseball League. All that remains for that team to win the championship is to finish the next two games with only one loss, one win will tie with Wellington, and a third will give them the title. Merrittion will have equal chances, provided the next games, which will be played at home, are won. To-day's games resulted: St. Catharines 6, Niagara Falls 3; Merrittion 15, Port Colborne 6; Standing Wood, Lost. Pct. Merrittion .12 .6 .861; Wellington .11 .7 .532; Port Colborne .11 .7 .532; St. Catharines .9 .3 .309; Niagara Falls .9 .3 .309.

Next Saturday's games: Niagara Falls 6, Merrittion 15; Port Colborne at Thorold.

Commercial Reports

Uncertainty in Market On Conflicting Field Reports

Sharp Upturn in Wheat Caused by Heavy Buying Orders But In Natural Reaction Gain is Largely Lost—Market Closed Firm

CHICAGO, Aug. 21.—Unfavorable threshing returns sent wheat up in lively fashion to-day, the close being 1/2c to 3/4c to over yesterday. Corn was irregular at close, with some buying, final prices being 1/2c to 1/4c over. Provisions also displayed strength, and closed 1/2c to 1/4c higher.

The wheat pit turned bullish 1/2c to 3/4c. Reports of poor harvesting results in the American Northwest and crops in the Canadian wheat country. The latter up to-day has been the great influence under which prices have advanced, but opening with a show of strength, but shortly afterwards prices lagged, until the most influential of grain houses began to buy. Then the pit became active, and closed 1/2c to 3/4c higher.

Chicago, Aug. 21.—Unfavorable threshing returns sent wheat up in lively fashion to-day, the close being 1/2c to 3/4c to over yesterday. Corn was irregular at close, with some buying, final prices being 1/2c to 1/4c over. Provisions also displayed strength, and closed 1/2c to 1/4c higher.

WHEAT MARKET FAIRLY ACTIVE

All Months Affected by Strong Buying Orders—Lower Prices, Looked For.

J. P. Bickell & Co., from Logan & Bryan.

Wheat—Following the late rally in wheat yesterday, the trade took to the buying side of the market this morning, and a sharp upturn for all months was the result. A group of large houses, evidently with good volume of outside buying orders, were active in December wheat, especially on the advance. Profit-taking sales became quite general around top figures, and reaction of about 1/2c followed. There was a return of firmness to the trade ignored anything there was in the foreign news of a bearish character this morning. The Liverpool market was 3/4c to 1/2c higher. Cables told of slow demand for cargoes and better crops from India and Argentina. Paris reported weak market, owing to liberal arrivals and better yields from French crop than expected. All this had little effect as compared with the repetition of the very poor harvest and threshing returns from Minnesota and North Dakota. After a temporary reaction, the market for Minneapolis market had a very sharp upturn, and it was easy for the trade here to follow. Speculated steers and cows again to-day from the cash trade, as the late business yesterday raised shipping sales to 2500 bushels, and a leading local house this morning sold 100,000 bushels of No. 2 red wheat for Buffalo delivery at 1/2c over September prices here. Duluth wheat movement continues to fall off, but there is better hope than for a settlement of the strike. Winter wheat movement continues to fall off. Remember, there is still a chance for a frost accident in the Canadian Northwest. Conservative feeding appears to favor buying side of the market on healthy reaction.

Only fair activity was noted in corn futures for the day. Certain lead-ers continued to buy, and a few were credited with buying corn the first hour. Other leaders already long large amounts of corn were credited with buying. The additional rains over Iowa and Kansas checked the bull feeling but not the corn. Our Mr. Ingalls, Southern Minnesota and Iowa, finds corn promise this. The serious shortage in feed, and Europe will no doubt bring shipping demand for corn later. Wheat and profit taking caused a strong bearish movement. Oats—Good shipping demand for oats continues. Local receipts are moderate—100 cars today. The market is delaying movement. Many points are making rapid profit returns from first hour. A leading house bought a half-million bushels December oats first hour. Our suggestions are that the market has been in favor of growing strength in oats along with the stubborn market in corn.

Wheat—Fairly active, opened easy for all except September, which was firm. The market was generally bearish, but the unfavorable threshing returns reported from the American Northwest, and further growing actual, and prospective yields in the Canadian Northwest. Some of the best reports coming from the affected district in North Dakota received here proved to be all excellent, and the market was generally bullish. The market was generally bearish, but the unfavorable threshing returns reported from the American Northwest, and further growing actual, and prospective yields in the Canadian Northwest. Some of the best reports coming from the affected district in North Dakota received here proved to be all excellent, and the market was generally bullish.

MACKENZIE KING MAY TOPPLE FROM PEDESTAL

North Waterloo Conservatives Nominate Mayor Weichel, Who Will Put Up Strong Fight.

Berlin, Aug. 20.—There was unbounded enthusiasm at the North Waterloo Liberal-Conservative convention, held Saturday afternoon, in the town hall at Waterloo. The spacious hall was packed to the doors with delegates from all parts of the riding, indicating the strong and united front that will be presented in the fight which bids fair to topple Mackenzie King from his pedestal. E. Reid, president of the Liberal-Conservative Association, occupied the chair. In spite of the rash guesses indulged in by nervous opponents, only one name came before the convention, that of William G. Weichel, mayor of Waterloo, and the acclaim with which he was received, together with the fighting speech he delivered, generated a brand of enthusiasm that promises to sweep all before it. His nomination was moved by J. E. Seagram, ex-M.P., and Dr. Lockner, M.L.A., and was made unanimous.

Toronto Concern Will Get 3% Bonus To Build Dry Dock

Order-in-Council Passed by the Dominion Government, Granting the Poison Iron Works a Twenty Year Bonus on \$900,000 for Establishing a Big Plant Here.

An order-in-council has been passed by the Dominion government granting the Poison Iron Works, Limited, of Toronto, a 20 per cent bonus yearly for twenty years on \$900,000 to be spent in building the new dry dock and repair plant at Toronto. The plans and specifications for this dock and repair shops in connection therewith have been under consideration during the last year. The dock when completed will be of sufficient capacity to accommodate the largest steamers plying on the lakes, and will be built in three sections, and when coupled together will be 600 feet long by 100 feet wide. The Poison Company will have to build the dock, completed, it is expected, by about the first of next year and will be able to dock vessels of the largest tonnage. The lifting capacity of these two sections will be 4,000 tons in all, capable of handling the largest vessels now on Lake Ontario trade. When the third section is built, the lifting capacity will be increased to 10,000 tons, and the total length of the dock will be 600 feet. Dredging, piling and concreting will be done in the basin, a basin of sufficient draft of water for operating the docks.

The dock will be equipped in an up-to-date manner. The pumps will be run by electric power. Being built in sections, each section can be used as a separate dock, and the two sections now being built will each accommodate steamers up to 175 feet. In cases where larger boats are to be docked, the two sections will be joined together. New steel shear legs of 100 tons lifting capacity are to be installed. The dock will be located at the foot of Frederick Street, just west of and adjoining the company's present plant. The company has leased from the city 125 feet of land just west of the present property, which will be blasted to a depth of 28 feet to accommodate the floating dock. The company are also building a new boiler shop which will be the finest and most complete in Canada.

Chicago, Aug. 19.—In a round up of blind pigs last night, the police arrested a number of men on a charge of selling liquor without license. In court this morning nine pleaded guilty, paying fines of \$100 to \$500 each. The others will fight their cases.

ASTOR AS A LIFE-SAVER. NEW YORK, Aug. 19.—Col. John Jacob Astor's yacht Noma rescued five members of the sloop Zingara, which was wrecked in a squall off Horton's Point, Conn., last night. Astor, V. Reed, father and mother of the dead writer. Each is to be paid a monthly income and at their death the entire fortune is to be divided equally among the institutions named in the will.

FARMS FOR SALE

CHOICE FARM of 48 acres for sale in the Town of Oshawa. The undersigned has for sale a magnificent farm of 48 acres, 1000 feet front on the Oshawa, 17 acres of which is laid out as an apple orchard, bearing Northern Spies, Baldwin and Greenings, and being probably the best-situated farm, from the standpoint of convenience, in the Province of Ontario, over 1000 barrels of apples were packed from this orchard last summer, the trees being in their prime. If a buyer wished to retain only the orchard, the remaining 28 acres could be sold as town building lots, at a price which would pay for the entire farm. The house on the farm is a solid brick, 12 rooms, and is worth \$2000. There is also a large barn, with stone stable. Fruit men have followed the orchard alone as being worth \$1000 an acre. For full particulars write or phone Russell Perkins, the Oshawa real estate man, Oshawa, Ont. Telephone Main 151.

FOR SALE—25-acre farm of the late Henry S. Adams, in the Township of Ancaster, 4 miles from Hamilton. For particulars call at 108 South Catherine Street. 67

CHOICE STOCK and grain farm, containing 155 acres, soil rich clay loam, well watered, good buildings, 3 acres orchard, 3 acres hardwood. Dues 2 1/2 miles east of Elgin Mills. Apply to owner, Henry R. Heist, Victoria Square. 13

WHEAT LAND—A half section of first-class wheat land in Saskatchewan for sale at \$20 per acre. Seven miles from station. Good water, no scrub. Five dollars per acre cash, balance easy. Inspection invited. Apply Ottawa, Box 100, World Office. 67

FARM TO RENT. 150-ACRE farm to rent, six miles from Toronto. Apply, Wm. F. Boake, Downsview. 67

ABOUT six miles from Toronto—Ezbelville road, for dairy. A. J. Mercer, 335 Rushmore road, Toronto. 67

ADVERTISER has good lot which he will sacrifice for spot cash. Box 22, World. 67

PORT ALBERT, B.C. will be the expiration of term of the lease of the farm after October 31st. If you have anything from \$100 to \$1000 not wanted, please write to the advertiser. Postcard brings reliable figures and facts. L. W. Bick, 302 Kent Building, Toronto, or Grand Street, Victoria, B.C. 67

ADVERTISER has a few choice lots which he will exchange. What have you to offer? Box 22, World. 67

ADVERTISER has 230 acres of west-end farm in Saskatchewan for sale. Changes. What have you to offer? Box 22, World. 67

FOR SALE OR TO RENT for 10 years, 300 acres at Grahamsville, near Gravelton Station, finest grain and grazing farm, 125 acres in grass, including 100 acres dairy and stock; security, or rent in advance required; can fall plow, eleven miles from Toronto. Apply to G. Phillips, 61 Yorkville-avenue, Toronto. 67

FINANCIAL. CALIFORNIA WANTS CORRESPONDENCE with Toronto brokerage firm. Will visit your city in September to perfect permanent connection with reliable California securities; an 8 per cent. annually, guaranteed, interest on \$100,000 in resources and \$300,000 in surplus. Prior correspondence invited from those having facilities for placing such securities and who are prepared to take up active work after investigation. Address H. C. Galloupe, 125 So. Broadway, Los Angeles, Cal. 67

Mining Markets Brighter at Week End--Sentiment Improving

Better Tones to Porcupines Losses Partially Overtaken

Mining Markets Lively For Time of Year--News of the Camp Decidedly Good--Cobalts Looking Up

World Office.
Saturday Evening, August 19.
 Although the trend of the mining market toward the close of the week was generally upward, it was a rather faltering movement that indicated that powerful influences were at work to prevent the rise of the mining shares to their proper level.

The action of the market at the mid-week when a very noticeable upturn was recorded, moreover, showed that the public setted advantage of the low prices to both even up their holdings and to secure stocks for investment purposes. The speculative interest seems to have disappeared and although it is difficult to make a prediction as to the course of the market in the near future, there seems to be no reason to doubt that the long looked for upturn is under way. The rise may be slow, and its movement may be irregular, but in the face of the good reports that are coming out of the mining camps of the north, the constant new discoveries and exploring of orebodies at Porcupine, the mining shares must come up to their real values.

It is apparent that the market has broken away from outside derogatory influences and that from henceforth it must act according to its own dictates.

As is customary during the summer, the local exchanges closed Saturday, but the trade on the New York curb was certainly not against the Friday values.

RICH COPPER ORE STRUCK NEAR KENORA

Developing on Lake of the Woods Property Reveals Existence of Immensely Rich Body.

According to word just received in Toronto, exceptionally rich copper ore has been disclosed by the latest work on the Allie Island copper mine in the Lake-of-the-Woods.

The syndicate of two who own the property have been developing it on a fairly extensive scale the last two months. They have had very enticing offers for their property, but preferred to spend a few thousand in getting an idea just what it contained. The wisdom of their course is shown in the development of the last few days, for when they have been opening up very profitable ore, copper in great quantities has been discovered at the bottom of the shaft. This is exactly as prominent mining men who have visited the property have prophesied all along.

The news readily intimates that assays are now being made of the new ore, and that Dr. Scovill and Frank Moore will probably work the property in a very large way.

The Lake-of-the-Woods country is said to be fairly excited with the copper find and added to the news of additional gold discoveries and the prospect of early development of the district's iron deposits, the people of Kenora are confidently looking forward to a period of unprecedented mining activity.

As this new copper find turns out as well as reports indicate, and coming from a most reliable source there is no reason to doubt that Ontario can expect to see a great copper field arise in its northwestern section. And that at the same time as the revival of the gold mining industry in the Lake-of-the-Woods and at Strathcona, this part of Ontario will prove a most formidable rival to that rich mineral section of the province which lies along the T. and N. O. Railway.

The Week's Sales

The weekly statement issued by Heron & Co. shows that transactions in mining shares for the week ending August 18 on the Toronto market totaled 366,634 shares, having a value of \$15,422.80, as follows:

Shares	Value
Cobalt Lake	11,250
Gould Consol.	22,700
Beaver	28,700
Flintkilling	15,100
Little Nipissing	20,300
Green - Mehan	11,300
Rochester	20,200
McKinley-Darragh	9,500
Chamaine-Parlane	8,000

Totals	229,665

More Free Gold On Imperial

New Vein Plentifully Supplied With Precious Metal--Property Being Prospected.

The following telegram was received yesterday by R. W. Norrington, vice-president of The Porcupine Imperial Mining Co., from A. H. Cramp, general manager: "Shots in new vein three feet wide on Imperial exposed more free gold than ever shown before on the property. It should make Imperial worth fifty per cent. more. Having assays run on this vein, I will be glad to suggest that you and President Taylor come here immediately."

During the period of rebuilding the camps on the Imperial property and the repairing of machinery and re-tiling the shaft, a crew of men have been put to work on the surface, which last fall was only prospected in two or three places.

The two surface results have disclosed a number of new veins and ore shows, and the report of this new strike does not come to the management as a great surprise, as management was confident that with systematic shaft trenching leads would be uncovered in many new places, as the heavy mineralized shear zone that traverses the Imperial ground should contain many shoots of commercial value.

WILL TAMPERED WITH

Sensational Developments in George Will Case.

KINGSTON, Aug. 20.—(Special.)—Sensational developments are expected in connection with the finding of the will of the late Joseph George Will, depends on whether there will be opposition to probate of the will in view of the fact that the estate has been divided to be divided under the intestate law, the widow getting one-half, and the balance going to deceased's next of kin. H. Sullivan and G. H. Williamson, the witnesses, have identified the will. It has not been presented to the court, but will be very shortly.

"Who put the will in the house where it was found by the plumbers?" This is the question. The answer is that the will means that the widow will only receive \$4000, instead of \$12,000 or \$14,000, which she would have received had her husband died intestate. Albert Cottenden of Toronto, an admitted son of the deceased, will receive about \$25,000. He has declared all along that his father left him the bulk of the money.

The will shows that an attempt was made by some person to change the amount willed to the widow from four to forty thousand dollars by adding the letters "ty" to the most glaring, and at this, the word would be spelled wrongly, and was not initialled as required by law.

COBALT ORE SHIPMENTS

Following are the shipments from the and those from Jan. 1, 1911, to date:

Aug. 19, Since Jan. 1	Aug. 19, Since Jan. 1
Badger	60,000

The Boyd-Gordon also shipped 2200 lbs under last week.

A Message to You From PORCUPINE

Is the purchase of Railroad Securities or Coppers surrounded by any great profit possibilities under present conditions?

No. Our financial giants are advising their friends, their clients and the world at large to buy Gold Securities when first issued and when low, stating that, if sound judgment is used, great profits are inevitable, and quick.

PORCUPINE is the sensation of the mining world. We are advising all of our best friends and clients to buy the better Porcupines immediately, but we advise the use of care in selection. We have been familiar with the Porcupine District from its discovery, and we are in close touch with the development now in progress. We will give you careful analysis, unbiased, unprejudiced opinion and advice.

We have a very intimate knowledge relative to one Porcupine Stock that, we believe, based upon the expressed opinions of eminent engineers and expert practical miners, if purchased without delay, is surrounded by wonderful profit possibilities. Correspond with us at once, and we will gladly share with you the above referred to intimate knowledge.

Do not delay. Do it now.

TOGO AT THE FALLS

Sends Message of Good-Will to the American Nation.

NIAGARA FALLS, N.Y., Aug. 20.—(Special.)—Accompanied by official representatives of his own government and of the United States, Admiral Togo arrived here this morning and took the George Sego trip in the private car "Rapida." Because of his ill health, Count Togo will remain here quietly to-morrow. Official representatives of the United States, Admiral Barker and Barker, who were the most cordial reception that the government and people have accorded to me during my visit.

"I am prepared to loan any amount at from ten to ninety days on listed Cobalt and Porcupine stocks."

C. T. PATTERSON
 Telephone Adelaide 135.
 51 YONGE STREET, - TORONTO.

THE NEW GENESIS.

J. M. McCloskey, who is totally blind from an accident, is selling a small pamphlet, entitled, "The New Genesis." It is a lecture by Mr. McCloskey, based on some astronomical data generally known, and his own study and research during thirty years. It also contains several of Robert W. Service's "Songs of a Sourdough." The price is 25 cents.

MACHINERY AT EXHIBITION.

When His Excellency Earl Grey, Governor-General of Canada, on Monday, August 28, to the exhibition, he set in motion the machinery at the Canadian National Exhibition. It is confidently expected that the greatest fair in the history of the Dominion will be under way. Never before have arrangements been made on such a mammoth scale. The fine exhibition building, with its 4,000,000 worth of exhibition buildings, has been further improved to the extent of \$300,000, and it now has paved streets, a new postoffice, a new building for women's work, and a lighting plant of its own, furnishing 20,000 lamps for lighting and decoration purposes.

The attractions, too, are on a more ambitious scale than ever before attempted. The reproduction of the coronation procession is in itself a tremendous undertaking. It was necessary to bring the hundreds of various uniforms from England, and to drill 1500 of Canada's citizens, soldiers in the parts they were to perform, but it has been done and done well, and visitors to Toronto will see the great pageant just as it passed along the streets of London when King George and Queen Mary were crowned. The bringing of the Coldstream Guard Band, King George's household musicians, from London, is another big undertaking, but they were engaged to lead the 12 military bands in the Festival of Empire music, and they had to come.

Then there are international yacht races, motor boat races, eight-oared races, horse races, athletic sport, circus and vaudeville, and a score of other special attractions. The "Ex." as it is called in Toronto, surely promises two full weeks for all visitors.

CANADA'S CUSTOMS.

The customs returns for July show receipts of \$6,974,485, as compared with \$5,724,714 in July of last year, or an increase of 21.2 per cent. The first four months of the fiscal year show an increase in customs collections of \$3,395,945 as compared with the same period last year. The total collections being \$23,917,748. The total collections for the month in Ottawa were \$2,336,811, which is a large increase over the amount for the same period last year.

BERLIN HIGHER.
 BERLIN, Aug. 18.—The course opened active and higher to-day. Later prices receded and closed dull. Exchange on London 24 marks, 48 pence for checks. Money, 3 1/2 per cent. Private discount rate, 2 1/2 per cent.

Turkish Electrical Trust.

BERLIN, Aug. 18.—An electrical trust, which covers the whole of Europe, is reported to be in the process of formation by German banks. It is called in Turkish, surely promises two full weeks for all visitors.

A New Champion.

SOUTHAMPTON, L.I., Aug. 19.—Thomas C. Bundy of California won the cup in the singles on the tennis court here to-day. He beat Mc-

The Recession Is Over

We are not violating any confidences in making public the fact that during the past two market days the "INSIDERS" have been buying large blocks of stock in at least three of the Porcupine issues. For this reason we say THE RECESSION IS AN END.

Another market feature to conjure over is the fact that scarcely a day passes but important and rich finds are being made in the already proven zone in Tiedale. Already proven veins on the Big Dome have been traced clear across the West Dome Property and into the Apex. Drilling and shaft sinking on this big vein is now going on at both the West Dome and Apex properties.

An important statement of underground conditions at the Hollinger Mine was made by an engineer of world-wide reputation immediately after an examination made on Thursday last, as follows:

"Hollinger is one of the world's gold mines, and is being handled as splendidly from a mining standpoint as any mine I have ever examined."

The discovery of an exceedingly rich vein 3 inches wide, almost solid gold, was made by surveyors last week at the north-west corner of the Dome. The fact that this strike was made within a short distance of the DOCK EXTENSION MINES is considered important by mining men who have examined it.

In less than 24 hours after a sensational lead was opened up on the North Dome property last week, the vein widened out to 8 1/2 inches, and the ore is exceptionally rich, assaying about \$2,000 to the ton.

This exclusive information was received by us from OUR MAN ON THE SPOT, and can be depended upon by investors. The general undertone of the market is good, and in spite of heavy liquidation in certain Porcupine stocks the prices went up. We firmly believe THIS IS BUYING TIME, and purchases made at the low levels now prevailing in the market will show a substantial profit within a comparatively short time. We especially advise the immediate purchase of

IN THE STOCK MARKETS

Financial London on the Outlook—Comment on the Recent Irregularity of Wall St.

London, Aug. 20.—Within the limited space of the past three weeks, this country has experienced an unusually record-breaking high temperature, atmospheric and financial. Sweeping changes in the British constitution, introduction of the system of a break with our oldest traditions, the withdrawal of the British from the American market, the general labor unrest, the attempt to tie up the whole English transportation system, and the mysterious collapse in the market for American shares, all these things are surprising, then, if our whole financial community is sensitive and nervous.

New York Weekly Bank Statement
NEW YORK, Aug. 19.—The statement of clearing house banks for the week shows that the banks held \$1,707,100 reserve in excess of legal requirements.

NEW YORK STOCKS

Hugh D. Cameron Arrested and Taken to Chicago on Account of Conspiracy Against U.S. Laws.

Charged with conspiracy to defraud the United States Inland Revenue Department out of money, which run into the millions of dollars, on the manufacture of oleomargarine, Hugh D. Cameron, formerly an operative of the United States Revenue Service and presently employed as a traveler out of Toronto by Swift & Company, Chicago, packers and manufacturers, who recently located a branch of the extensive business at the Union Stock Yards at West Toronto, was arrested by the United States Friday night by Detectives Cronin and Mitchell, accompanied by Special Agent Hall of the United States Secret Service.

Some years ago the U. S. Government forbade the double duty brand which had been so extensively worked on sugar and other articles which carried a scale of inland revenue taxation being practised in connection with the manufacture and sale of oleomargarine. Of this product "The Four Man's Buttery" there are two kinds, white and white. On the white the tax is but 1-4 cents per pound, while the colored variety is taxed 2 cents per pound. The plan was to pay duty on the white brand, which was later colored and sold for the higher price, but evading the higher tax.

Railway Strongly Opposed to Plan of Cutting Up Property Where Freight Tracks Are Planned

NEW STOCK EXCHANGE
Will Build on Pellatt Property at 88 Bay-Street.
Sir Henry Pellatt has sold his property at 88 Bay-street to the Toronto Stock Exchange for about \$125,000.

BECK WILL DISSECT IT.
Hon. Adam Beck will be in Toronto on Tuesday. He is going into the figures prepared by H. C. Beckett of Hamilton and circulated in pamphlet form by the Catewaite Power interests during the recent hydro-electric contest there.

SHORT OF G. R. BOXES.
A petition is to be forwarded to Postmaster Rogers requesting that post boxes be placed along the waterfront. At present the nearest boxes are at the corners of Yonge and Front-streets and York and Front-streets.

CITY LIBERAL CANDIDATES.
Joseph Oliver will probably contest North Toronto in the Liberal interests. A convention will be held on Friday next. Mr. Oliver and W. H. Shaw will be the names submitted to the meeting.

GUNNS LTD. IN FLAMES
MEAT AND ICE RUINED
Late on Saturday \$46,000 Fire Visits Big Packing House, Burning Seven Refrigerator Cars.

Fire of unknown origin which started in the top floors of Gunns, Limited, burning seven refrigerators, and after burning for about an hour, was extinguished by the fire department. The damage to the property was estimated at \$46,000.

TORONTO'S BIG TANK
Twelve Million Cubic Feet of Gas in New Structure.
Fourth largest gas tank in the world is the tank of one now in operation in the east end of Toronto, and has a capacity of 12,000,000 cubic feet of gas every 24 hours, which assures the city of a good gas supply for years to come.

May Merge Independent Lake Freight Lines
There is much talk among vessel men at Cleveland regarding a proposed merger of independent lake freighters. The details of this affiliation of interests have not yet been worked out, but it is pretty well understood that the merger will have taken place before the opening of navigation in 1912.
