Remarkable Exhibition
Of Flowers and Fruit
Was Formally Opened

Hon. Martin Burrell, on Opening Ontario Horticultural Exhibition Last Night, Declared the Wonderful Display of Farm Products To Be a Lesson to Those Who Regard Farmers as Inferior Beings--Exhibition Doubled Since Last Year.

The thousands of boxes of choice apples, grapes and peaches, the tons of clear extracted honey, wagon loads of toothsome vegetables and gardens of magnificent flowers that fill all available space in the commodious horticultural building at the Exhibition grounds, where the Ontario Fruit, Flower and Honey Show is now in progress, must rid forever from the city dweller's mind the common misconception that "any fool can be a farmer." This was the keynote of the address by Hon. Martin Burrell, Dominion minister of Agriculture, by which the horticultural exhibition was formally declared open last night.

The minister of agriculture, after making eloquent reference to the magnitude and striking significance of the event, at once drew the morale for the urban crowd who composed his audience, that in future they must look up and not down upon the men who, by the toll of their hands and exercise of self-developed intellects, made possible the remarkable scene in which they found themselves. "You must not think all the keen-witted and wise people live in the city. I grant you there are many of this type in Toronto. But out on the farms, where some people imagine an inferior class exists there are just as wise and witty citizens. The remarkable exhibition of their work which you see here tonight should forever dispel from your minds the fallacy that 'any fool can be a farmer.' Lovers of Nature. Mr. Burrell addressed his hearers as 'fellow lovers of nature.' He quoted the great horticulturist who declared that the apple was 'the most perfect union of the beautiful and useful in life.' The pioneers of the horticultural industry in Canada thought only of the personal enjoyment and satisfaction they would derive in their early pursuits. From a recreation it has now developed into a business and the unique display in the hall represented largely the commercial aspect of the industry. Pouching upon the upward movement in fruit growing the minister spoke of the tendency very evident, particularly in British Columbia, of confining men to smaller acreages, more scientific methods and larger gross returns. This is a feature of the development that is especially important, as it is doing much to remove the isolation of country life.

PREMIER OF SPAIN IS KILLED BY ANARCHIST ASSASSIN SHOOTS SELF

MADRID, Nov. 12.—(Can. Press.)—Jose Canalejas y Mendez, the prime minister, whom Spain has regarded as one of the greatest of statesmen, was shot and killed today by a young anarchist named Manuel Pardo. The assassin attempted suicide and it was first thought he was dead, but when he had been carried to the hospital he was found to be living.

No event since the throwing of the bomb at the carriage of King Alfonso on May 31, 1906, while the king was returning from the church after his marriage, has created such general consternation and such public sympathy.

PROF. CLARK OF TRINITY COLLEGE DIED LAST NIGHT

One of the Most Brilliant Scholars and Educators in Toronto Passed Away After an Illness Extending Over Two Years.

Toronto lost one of its most brilliant scholars and educators in the death yesterday afternoon of Rev. Prof. William Clark, D.D., D.C.L., of Trinity College.

He was an honorary member of the Royal Society of Canada, at one time being president of that body.

Many Literary Works. A number of literary and theological works have been written by Professor Clark, and also the translation of several important theological works from the German.

Trains East of Cochrane The Construction Stops Is Leonard's Assurance

Chairman of National Transcontinental Commission Does Not Admit That Friction With Contractors Caused Cessation of Work and Maintains That Commission Will Not Allow Undue Delay.

OTTAWA, Nov. 12.—(Special.)—The art will suspend work until spring and discontinue the train service east of Cochrane.

Major Leonard, chairman of the Transcontinental Commission, announced today that the commission would operate the line to Cochrane, as well as the New Brunswick section of the road and all portions of the line where the contractors were not giving a service.

As various sections of the line are completed the government will give the G. T. P. the opportunity to lease the same, but that company cannot be compelled to declare its policy until the entire line between Moncton and Winnipeg is completed.

There is reason to believe that the G. T. P. is not disposed to hurry up, and there is a gap of about 80 miles between Cochrane and Quebec. Hereafter the government will expedite construction if necessary, by operating trains, in order to bring supplies to contractors and rushing work.

SILENCE AT THE FRONT MAY MEAN CHECK TO BULGARS ALLIES' PROGRESS IS SLOW

Rumor Has It That Turkey is Seeking Armistice—European Capitals Growing More Hopeful—Albania, While Eager to Shake Off Turkish Yoke, Has No Love for Allies.

LONDON, Nov. 12.—(Can. Press.)—There is no news tonight either from Sofia or Constantinople as to how the great battle at Tebatals is going. The silence may imply that the Turks are making a better defence than had been expected.

Albania Would Be Free. If the wishes of the Albanians weigh in the permanent settlement of the Balkan question Albania will be made an independent principality, as the Triple Alliance proposes, rather than subject to any of the Balkan states.

The Montenegrins have suffered a setback in their prolonged efforts to capture Scutari, largely owing to the defection of the Malissori tribes, who demand guarantees of Albanian independence.

MAY SHOW PICTURES OF WRECK IF NAME DOESN'T APPEAR

Censor Board Chairman States Peculiar Proposition to Proprietor of String of "Movies."

Why he should be allowed to show motion pictures of the Thanksgiving Day wreck at Streetsville Junction if he omits to mention that it was the trains of the Canadian Pacific Railway Co. but may not show such pictures if the name of the company appears, is a question which is vexing the mind of John Griffin, moving picture theatre proprietor.

Mr. Griffin, who owns a string of these theatres in Toronto and other cities and towns in Ontario, is one, he says, the only one of the Canadian motion picture men who takes pictures here in Canada, for his own theatre.

On the day following the wreck he sent out his men to the scene to take pictures of the wrecked cars in which the lives of two privates of A Company of the Highlanders were snuffed out Thanksgiving night.

Mr. Griffin then applied in person to Mr. Armstrong, saying that he would like some word, just one little word in explanation of the stand that the name of the C. P. R. made the pictures unit to appear before an innocent and intelligent audience.

KINGSTON NEEDS MORE POWER

KINGSTON, Nov. 12.—(Special.)—Urged by the board of trade, the civic committee on power are again taking up the question of another supply of electrical energy for Kingston. The committee is closing a deal with J. M. Campbell for the supply of 50-horse-power from the falls at Kingston Mills, the rate being three-quarters of a cent kilowatt hour, or about \$17.10 a horse-power. The distance from the city is five miles.

Kingston, however, needs a great deal more power, and the board of trade urges a deal for 300-horse-power. The utilities committee, if it decides that it would be too costly to add machinery to make the power by steam, will no doubt close a deal with either the Seymour Company or the Hydro-Electric Commission.

A Superior Supporting Company. The company in support of Miss. Simone, the delightful French actress, who is this week appearing in Louis N. Parker's new play "Al Verballing" at the Princess, is a superior one. Julian L'Estrange, Edgar Kent, and Pauline Frederick share the honors with the star.

INDIAN SUMMER. Our Canadian weather is very famous for the bright and sunny days of the fall season, which are catalogued under the heading of "Indian Summer." The new English hats—soft and hard felt—now being shown by the Dineen Company fit very well into the color scheme and fall weather of Canada.

CHRISTIANA, Nov. 12.—(Can. Press.)—A general election for members of the Storting was held today. It resulted in the return of 71 Radicals, 24 Rightists and Liberals, and 2 Socialists.

STREAM OF MONEY FROM ENGLAND TO FLOW UNCHECKED

Unless Over Eager Son Asks Too Much From Indulgent Mother Says Sir Edmund Walker.

AT N. Y. CANADIAN CLUB

Two Hundred Millions Needed Yearly For Canada's Material Development--Effects of Immigration.

NEW YORK, Nov. 12.—"We need at the moment, in addition to our own savings, over \$200,000,000 annually for our material development, and we get it from the mother country. Without this stream of new capital the stream of immigration would be lessened, but unless we have a widespread European war, I do not believe it will be checked," said Sir Edmund Walker, president of the Bank of Commerce, at the eighth annual banquet of the New York Canadian Club tonight.

Responding to the toast of Canada, he continued: "I do not believe the stream of money will be checked, except temporarily, when the over-eager son asks too much from the indulgent mother, and thus justifies reproach. We, in Canada, are as honestly determined to secure and maintain our rights as individuals and as political communities as any people in the world. But, if possible, we propose to enjoy these rights without losing our reverence for the great past to which we are heir, without losing the traditions of a great history, the fine traditions of which are not always preserved in our modern democracies, without renouncing our right to share in the troubles and the triumphs of that great empire which, separated though they be by seven seas, the mothers of nations and her five young cub are trying to improve and to keep intact as the greatest political and social enterprise in the history of the world.

A Rousing Appetite Is a Keen Delight

And What Is of Greater Interest Stuart's Dyspepsia Tablets Enable the Stomach to Digest Whatever Is Eaten.

We all like to see the way healthy children devour their meals. Would we could all do the same! Eating ought to be a delight. It is one of life's chief enjoyments. People who cannot relish a good meal are apt to fall into those ill-tempered moods from which they view the world as a sorry place to live in. So let us learn to employ the best means of harmonizing our existence and thus extract from our daily grind all the pleasure there is to be had. This we can do by keeping our stomachs in prime, active working order.

A majority of people have come to know the blessings which an occasional use of Stuart's Dyspepsia Tablets confer upon the stomach. They are unquestionably the most popular remedy known, for the reason that dyspepsia is the national disease, and these wonderful little tablets have long since acquired a national reputation as a thoroughly reliable and efficient cure for all forms of dyspepsia and indigestion.

The Electric Chafing Dish

Keeping side dishes warm

The Electric Chafing Dish is convenient not only for preparing luncheons, but it has become a very useful addition to the dinner table. Vegetables, even when kept under cover, grow cold in five minutes after taken from the stove, and no other article of food after losing its warmth becomes more distasteful.

has studied the volumes on the 'Origins of the British Colonial System,' and, doubtless, the brilliant students of Columbia, he will however realize that the various communities forming the British Empire have arrived at their present relations of mutual regard by an irregular and painful process, full of bitter experience, beginning with the selfish exploitation of the colonies by monopolist traders and arrested in the midst of a too slow development of colonial liberty by the loss of the United States.

"The loss of this great country was terrible indeed, but it is quite possible that but for that loss there would be no British Empire today. It would be foolish for any one to suppose that those colonists who remained loyal were careless about liberty, but with their love of liberty they combined a reverence for the past which made them take counsel with their past.

"I look as if this material development of the empire, schemes which when realized, will doubtless be accompanied by a corresponding share in the shaping of the foreign policy of the empire.

"Plains Hope On West Indies. The figures of our commerce are, naturally, as much smaller than the United States as our population is smaller, and I, for one, neither expect nor hope that our population will ever be as large. We are a northern country, and in almost every effort we put ourselves to overcome the difficulties caused by our winter, and must also bear the loss of the forces of nature which lie dormant in that season. We have not even a corn belt, and the joys of a Canadian winter that we would not exchange it for all the sub-tropical countries in the world."

UNDERGROUND CONDUITS ORDERED FOR HAMILTON; ALL WIRES COME DOWN

Hydro-Electric Commission Directs the City to Build Ducts and Cataract Power Company to Use Them—Provisions Made for Telephone and Telegraph Wires, and Soon All Wires Will Disappear from the Downtown Streets—Contracts Awarded for Brantford Transformer Station.

At a meeting of the Hydro-Electric Commission yesterday afternoon the commission determined that an order should be issued directing the City of Hamilton and the Cataract Power Company to construct a joint underground electric conduit system for the downtown part of the city.

To Hamilton the board's order means much. The order states explicitly that the city and the Cataract Power Company will have to get together immediately for the settlement of the wire question.

A special feature of the new system will be the provision made for each telephone and telegraph wire. The order provides service for the Bell Telephone Co. and the Great Northern Telegraph Company by ordering that special ducts and special manholes shall be installed in the new system.

Contracts have been let for the construction of the Brantford transformer station, which will be located midway between Brantford and Paris, to Bennett and Braden, contractors, Brantford. The work will be rushed along as fast as possible.

WEDNESDAY MORNING, NOV. 13, 1912

CITY ELECTRIC COMMISSION.

There are various rumors afloat regarding the Toronto Hydro-Electric Commission and the vacancy in its membership. Probably nothing will be done until after Jan. 1, when Mayor Hocken, who will probably be continued in office, will be ex-officio a member of the commission. Mr. Geary, it is said, is not yet satisfied with being corporation counsel, and wishes to assume the post as well as the coat of Hon. Mr. Drayton, now of the Railway Commission. No one else is likely to favor this view of affairs. One of Mr. Drayton's garments easily cuts up into a whole suit for his successor. It is said that the names of some members of parliament are also mentioned for the hydro commission. It would be a decided mistake to appoint a member of parliament to a position requiring close and constant attention.

As The Hamilton Herald says, in discussing the suggestion that ex-Mayor Stewart be placed on the Hamilton commission, as he would be away in Ottawa a good part of the year attending to his parliamentary duties, he would probably not care to undertake the additional work to which he could hardly give that personal attention which would be required. And Mr. Stewart knows far more about the electric situation in Hamilton and the business of the commission than any Toronto member of parliament knows of the electric affairs of this city. The commissioner who could not give close and unremitting attention to the electric business of Toronto would be a comparatively useless official, and the duties of parliament are quite enough for a man if he performs them in addition to his own affairs without undertaking such important and onerous responsibilities as the Hydro-Electric Commission supplies.

A member of parliament would necessarily be a politician, and the sole salvation of the hydro-electric system is to keep it as far away from politics as the traditions of the country will permit. Efficiency is the one thing to consider, and only the most independent control can achieve it. The government, with whom the appointment rests, has the whole province as well as Toronto to consider, for the success of Toronto means success to Ontario in this matter. It should be comparatively easy to find a man of business capacity, not otherwise engrossed, who could pay the attention required to this important enterprise.

DEMOCRATS IN THEORY ONLY

The Globe and The Telegram have joined hands to deny any right to vote on money bylaws to the citizens of Toronto who pay the taxes; in other words, the people who have to pay for building the civic car lines and who have to pay the car fares are to have nothing to say as to what the traction policy of the city is to be, in so far as the votes of the citizens are concerned on bylaws in relation thereto. Nor are taxpayers, who pay the assessments to meet the sinking funds on all money bylaws, to have any say. Only property votes—only renters pay!

And the same Telegram is howling about the property owner who is made economically wealthy at the expense of the public generally, who have settled up Toronto and thereby increased the growth of the place. The Telegram says the unearned increment really belongs to the people who have made the city big; in the next breath it says that the people who, by their industry and their enterprise and by the taxation they pay, have made the city great, are to have no voice in its policy in so far as the expenditure of money is concerned. One day The Telegram says property has no right to the increase—it belongs to the people; and next day it says the people have no political rights, no voting rights—everything belongs to property!

That is, The Telegram is not a friend of democratic rule, and The Globe frankly says it is not. The Globe says those who pay taxes have no political rights and ought simply to be satisfied to pay the money. And to show further how inconsistent The Globe is: It is always talking of the political inequalities of Great Britain and how the democracy there is rising to demand its rights. As a matter of fact, the democracy of Great Britain that pays taxes has all the voting power in regard to money bylaws, or things of that kind. In England and in English cities it is THE PEOPLE WHO PAY THE RATES WHO HAVE THE VOTES. The Globe says the people who pay the rates and taxes should not have any say—that

property should have all the say. A fine state of affairs to have reached, all because The Telegram and The Globe have such an admiration for Mr. Robert John Fleming and his susceptibility at the city hall.

BALKAN POSSIBILITIES

Along with the phenomenal victories of the Balkan allies have come indications of their divergent interests. Greek troops have occupied Salonika, the best harbor and the port with greatest possibilities on the Aegean. Bulgaria has also an eye on the prize, and Austria's desire to have the outlet affords has long been openly avowed and discussed. Among these rival claims who will decide any more than on the conflict over Albania, where Austria, Italy and Serbia have equally diverse ambitions? The accomplishment of whatever hopes the allies have respecting the allocation of the territories they have conquered depends on their continuing solidarity. Together they possess forces that must be considered in an international European war—divided, one side or other stands to lose that for which all present sacrifices have been made. One of the unknown quantities today is the nature and extent of the understanding upon which they began concerted action.

The two leading Balkan states, especially Bulgaria, bound to take the heaviest end of the campaign, would scarcely have moved without a previous sounding of the mind of their more powerful neighbors. None knew better than the astute, unscrupulous czar, Ferdinand, the exact conditions under which he sought an increase of territory. In a quarter of a century from the nominal ruler of a principality under Turkish suzerainty he has become the acknowledged sovereign of an independent kingdom. And in this war he has staked not only his crown but his large private fortune, devoted, it is understood, unreservedly to the objects of the campaign. Whatever may be the daily fluctuations in the European barometer, as presented by irresponsible agencies, the chances are that an understanding is more nearly reached than is commonly supposed, and that the problem will be solved by the emergence of a Balkan sovereign recognizing commercial interference with Czar Ferdinand at its head.

A RECOGNITION AND APPRECIATION.

Canada is not yet so rich in literary genius that she can afford to overlook those who have added to the literary standards of the country, and among those who study distinctively Canadian literary art there will be no need to urge the recognition today of the seventy-fifth birthday of Mr. John Reade, M.A., LL.D., F.R.S.C. While not of Canadian birth, having assumed the garment of the flesh in Ballyshannon, Ireland, he came to Canada at an early age, and has added no inconsiderable lustre to the intellectual culture of his adopted nationality. Mr. Reade's poetic gifts are widely recognized and he gained the esteem of some of the great critics, such as Matthew Arnold, and the appreciation of many distinguished contemporaries by his volume, "The Trophoeus of Merlin," published in 1870, and many subsequent works. With Professor Penhallow he inaugurated the Montreal branch of the American Folk Lore Society. He has been president of the English Literary and Historical section of the Royal Society of Canada, and he is a fellow of the Royal Society of Literature of Great Britain. As a newspaper man he has long been associated with the Montreal press. Canadians will unite in wishing for him a green old age, and in congratulating him upon the attainment of so many honors, the achievement of so many labors and the possession of so many friends.

BOARD OF TRADE LUNCHEON.

The Board of Trade will hold a "Commemorative Luncheon" at the St. Charles Restaurant, today at 12:30 sharp. The special committee appointed in April last, will present their report, re "high cost of living." Opportunity will be afforded the members for a general discussion.

Low Rates to Southern Points.

Florida, Georgia, and Virginia offer special attractions to the traveler at this season of the year, and the Canadian Pacific Railway is offering reduced rates. The following train service will be in effect, via Detroit: Leave Toronto, 8 a.m.; arrive Jacksonville, Fla., 8:40 a.m. the third day. This is the fastest time between Toronto and the south, and the service not only embodies the utmost comfort and convenience, but in addition has the advantage of through sleeping cars from Detroit.

Banquet to Start Activities.

A mammoth banquet in honor of the secretaries of all northwestern commercial organizations visiting the Northwestern Products exhibit will be the first large affair the association will give. This will be held the evening of Nov. 23, at which time also ways and means of accomplishing co-operation between the association and the Northwestern Development League and other topics concerning immigration will be discussed. A statement sent by Louis W. Hill of the Great Northern was read by Joseph Chapman, Jr., chairman of the Northwestern Development Committee of the Minneapolis Civic and Commerce Commission, who called the meeting to order. Mr. Hill declared that during the last five months, 79,000 people have immigrated to Canada from the United States, taking with them \$110,000,000 worth of household goods and machinery.

The above occupies the leading place on the first page of The St. Paul Pioneer Press, and shows how much blood and treasure Canada is drawing from the United States these days.

The "Louis W. Hill" quoted by The Pioneer Press is the son of Jim Hill, the big railway man, and is chairman of the board of directors of the last five months 79,000 people have come into Canada from the United States and brought with them \$110,000,000 of household goods, machinery and money. Many of these people came from Minnesota.

These people are flocking into Canada not because they are dissatisfied with the United States or with its laws, but simply for the reason that a well-to-do farmer in the Northwestern States with a family of boys coming up now knows there is a better opportunity for them if they come to Canada and by land cheap, as they can do, settle it, improve it, and have a farm for every member of the family in a short time; so they sell out in the United States, bring their goods, cattle and effects into Canada, take up at least a square mile of land and start to make a new home for all.

Such a number of enterprising people—and they are the cream of the Northwestern States—and the money and goods they bring with them, are of more account to Canada than anything else she receives these days. These people and their wealth are much more advantageous than money that is brought in for building railways, and whoever helps to bring in these

In Last Five Months 79,000 People With \$110,000,000 Have Come Into This Country From States—American Railways and Business Men Get Together.

(St. Paul Pioneer Press, Nov. 3). An organization, the prime object of which will be to encourage immigration to Minnesota, develop the state and discourage immigration, especially to Canada, was launched in Minneapolis yesterday afternoon, when representative business men of St. Paul and Minneapolis met in the offices of the Immigration Association of Minnesota. The following temporary committee was appointed to decide the nature and scope of the organization: Howard Noble of the Great Northern Railroad, Ell S. Warner of the St. Paul Association of Commerce; W. F. Dixon of the Chicago, Milwaukee & St. Paul Road; Douglas Poake, president of the Minneapolis Civic and Commerce Association; H. J. Maxfield, state immigration commissioner; W. A. Campbell, secretary of the Northwest Development League; W. B. Calloway of the Soo Line; C. L. Mosher and W. R. McKenna. Howard Strong of the Civic and Commerce Association will be secretary of the committee and its first meeting is to be held tomorrow morning.

Mr. Maxfield suggested that certain work should be required of the department each year, and that it should be made a more businesslike branch of the state government. He said an amendment should be adopted by the legislature relieving settlers of the hardship of visiting a tract of land in the state to look it over, returning home and then attending the auction in the county in which the land is available. Secretary Campbell held that the work to be accomplished is too large for such an organization as was proposed and that Minnesota business men all should join in the work. He pointed out that a railroad official called to his attention that out of every 1000 cars that pass thru the Minnesota transfer 600 of them have Minnesota destinations.

President Elliott said the Northern Pacific has spent more than \$9,000,000 in exploitation work and advertising, and that if the Association of Commerce or some such organization in the state could place its official stamp upon such development literature such messages would bear more weight. Besides the organization committee, the following were present: A. M. Cleland, L. J. Bricker, Robert Miller, Thomas Cooper and C. E. Beyer, all of the Northern Pacific; Y. G. Bierd and S. G. Lutz of the Minneapolis & St. Louis; G. H. Moore, St. Paul Road; H. C. Leedy and E. Clyde Hillweg of the Civic and Commerce Commission.

settlers and effects is doing much to make our country, and to help to make not only settlers but business for the Canadian east.

Some people wonder what is the reason for the recent marvelous development of Toronto, Montreal and the towns of Ontario. It is this settlement of the Canadian west by enterprising people from the United States that is doing it largely. They send a great stream of business to us in the east.

ED-BOLEMAN IS IDENTIFIED AS THEF

Edward Field, Who Was Held Up at Point of a Revolver in His Liquor Store, is Positive That O. H. Latremouille is the Man Who Did the Deed.

With all the evidence taken, it remains but for the addresses of the crown and defending lawyers to be made, ere O. H. Latremouille, the ex-policeman, charged with having entered Edward Field's liquor store at 307 Wellesley street on October 7 last, and robbing the till, holding Field manacled at the point of a revolver, will learn his fate.

"Look at that man in the box," said Chief Justice Sir William Mulock to Field. "Now do you positively recognize him as the man who robbed you on that night?"

"I do, without doubt," was the reply. Field told of how a man, whom he identifies as Latremouille, entered his store about 8:30 on that night, and asked for a couple of bottles of liquor. He turned to serve him when an exclamation from the man made him turn around, to find himself looking into the barrel of a revolver which was pointed at his forehead.

"I do, without doubt," was the reply. Field declared he said "I want that till, do you understand?" asked Edmund Meredith, K.C., crown prosecutor.

"No, I couldn't speak, I was scared," Field stated to the best of his knowledge prisoner was dressed in a light gray coat, with a black soft hat. Beyond that he could not say.

John Martin, who entered the store just as the robbery was leaving, also identified Latremouille as the man he saw leaving the store.

"You are perfectly sure?" asked his lordship.

"Perfectly," was the reply.

Martin corroborated Field in that he wore a soft black hat with a grayish collar and a light-colored coat.

Mabel Finnes related how in standing across the road waiting for her sister she noticed a man on the same side with her looking over at Field's store. She could not say what made her watch him, beyond that it seemed odd that he should be gazing into a store from across the road.

"Looking at that man in the box, do you positively recognize him as the man who robbed you?"

"I do."

Mr. Curry objected.

J. W. Curry, K.C., objected strongly to the evidence of William J. Donnelly, whose store was robbed on the same evening, being admitted. After Donnelly had answered the questions, Mr. Curry asked the jury to retire, and then on the grounds that Donnelly's statement that he recognized Latremouille as being the man who robbed him would have the effect of influencing the minds of the jury, the same as a previous conviction, he declared that there had been a miscarriage of justice, and that he should now be discharged and the case retried at the next assizes.

On his lordship declining to grant a new trial, Mr. Curry asked the jury to retire.

Captains of Teams Engaged in Campaign to Raise \$44,175 Report Encouraging Progress.

FOR CURRENT EXPENSES

Past Year Has Been Most Active and Successful in History of Association in Toronto.

The captains and members of the seven teams which are engaged in a three days' campaign to raise \$44,175 for the Young Men's Christian Association of Toronto lunched together at McCoskey's yesterday and reported progress. E. R. Wood, president of the association and captain of team No. 1, presided, and expressed his pleasure that nearly a third of the entire amount had been subscribed in the first few hours of the canvass. Other captains who reported were Harry R. G. Henderson, John Firstbrook, A. T. Field, W. E. A. Burnaby, R. E. Gunther, G. Glendinning and the leaders of the teams of the Central, West End and Broadway Associations. It is planned to raise the entire amount required by Thursday evening.

The money now being subscribed is to cover the current expenses of the Toronto associations for the year ending April 30, 1913. The total amount of the budgets of all the associations for the period is \$117,577. The income from miscellaneous sources will be \$11,776. Members will contribute \$31,877 in the shape of fees, etc., more than one-third of the total, leaving \$44,175 to be raised by subscription.

A Successful Year.

G. A. Warburton, general secretary, stated that the past year has been the most active and successful in the history of the Young Men's Christian Association of Toronto. The membership has largely increased in all departments and interest in every feature of the work has multiplied. When the new building next year Toronto will possess the most modern and complete buildings, which will be the equal for serviceability in any America. That the new building is the result of the utmost is shown by the crowded condition of the present buildings.

New Buildings as Liabilities.

Speaking of the new buildings, money for which was raised three years ago, Mr. Warburton declared that a new building for such work at that of the Young Men's Christian Association is both an asset and a liability. "It is an asset in that it represents money which can be used to erect the new building, which is a liability in that it commits the association to an increased expenditure for the larger building which should be borne in mind both by those who solicit money and those who give it. It costs far more money to run a fully equipped association than it does to run one at Broadway than it did the Boys' Institute in the old days."

"It is, however, always the case that as the budgets grow, the proportion given by the men and boys for whom the work is conducted steadily increases. If the association should follow the policy of a club and make its members pay all the expenses, then the work would be shut out by the ministry most would be shut out by the cause of high fees. It is for this reason, for the help of the fellow just beginning to climb that the good people of our city are always ready to assist with their gifts of money."

MUSIC TAUGHT FREE

HOME INSTRUCTION

Special Offer to Readers of The World.

In order to advertise and introduce their home study music lessons in every locality the International Institute of Music of New York will give free to our readers a complete course of instruction for either Piano, Organ, Violin, Mandolin, Guitar, Cornet, Banjo, Cello or Eight Singing. In return they simply ask that you recommend their Institute to your friends after you learn to play.

You may not know one note from another; yet, by this wonderfully simple and thorough method, you can learn to play. If you are an advanced player you will receive special instruction.

The lessons are sent weekly. They are so simple and easy that they are recommended to any person of little child who can read English. Photographs and drawings make everything plain. Under the Institute's free tuition offer you will be asked to pay only a very small amount (averaging 14 cents a week) to cover postage and the necessary sheet music.

No one should overlook this wonderful offer. Tell your friends about it—show this article to them.

The International Institute has successfully taught others and can successfully teach you, even if you know absolutely nothing whatever about music. The lessons make everything clear. Write for a free booklet, which explains everything. It will convince you and cost you nothing. Address your letter or postal card to International Institute of Music, 98 Fulton St., Dept. 270-A, New York, N. Y.

REPEASION NOT LAW BEING USED

Lord's Day Alliance Having Less Recourse to Prosecution Now -- Annual Meeting on Friday.

One of the striking things that will be brought up at the meeting of the Ontario Lord's Day Alliance next Friday, will be the little recourse the alliance has had to the law during the past year, as compared with its efforts in its work of other years.

The annual meeting will be held in the schoolroom of the Metropolitan Church, Friday next, starting at 10 a.m. The officers will be elected and the work of the year reviewed.

OSHAWA NEEDS 500 HOMES

The only place to build them is in Industrial Park, because that is where the workmen want their homes, convenient to work, easy access to business section, postoffice, and only two blocks from the car.

The manufacturers want men, but must first find homes. Spend half a day and see for yourself. This land is the best land offered for sale in Oshawa. Nothing of equal value is obtainable at these prices. See for yourself.

INDUSTRIAL PARK LOTS \$200 AND UP FOR 30 FOOTLOTS. Your best investment is in Oshawa. But buy close in property. We were the first to offer Oshawa lots for sale.

FEAR A HOLD-UP BY BACK MEN

Industrial Education Committee Will Get Report on Cost of Bricks if Imported.

There are only two brickyards in Canada making the kind of brick required for the million dollar technical school.

The reports showed that the site was being cleared, but the prospect was not to be begun for several months.

The building committee is expediting matters as rapidly as possible, and a special meeting will be held on Tuesday to consider the specifications for some of the technical details.

It was decided to put in two passenger elevators and one hoist during the construction of the building and to have elevator shafts made for two more elevators, to be installed later.

TALK ON SALESMANSHIP

Geo. W. Bartram Advised Advertising Men to Study Their Mediums.

At the Toronto Ad Club luncheon yesterday the speaker was George W. Bartram.

Bartram spoke on "Salesmanship," strongly advocating that salesmen of advertising study their mediums more thoroughly, so as to be able to give the advertiser the most effective information that would help him to place his goods before the public intelligently.

After the address short talks were given by various members, denouncing misrepresentation and the fraudulent methods frequently used by sellers of advertising space.

At the next week's luncheon the club will be addressed by Mr. Hammond of the Robert Simpson Company.

ECZEMA RECORD ON AT STOCK YARDS

Good Cattle Steady—Undesirable Grades 10c to 25c Lower—Hogs \$8.

At the close of the market there had been unloaded and counted 212 cars of live stock, comprising 424 cattle, 109 hogs, and 25 sheep and calves.

There were 212 cars of cattle that had not been unloaded or counted, making in all 272 cars of cattle, which constitutes a record for one day, being the greatest run in the history of the trade in Toronto.

There were some good to choice cattle—more than for several markets—and there was an abundance of medium, common and inferior grades.

Trade early in the day was slow, but brightened up a little as the market advanced, as there was a large number of cattle changed hands.

Prices for good to choice cattle held about steady, but all common and undesirable grades were from 10c to 25c per cwt. lower and many of the extra good to dispose of at the decline. The top price reported for beef cattle was \$4.34, the highest being \$4.34, and not more than 12c cattle out of 483 brought these prices.

There was a choice lot of steers weighing 1200 lbs. each that were sold by Dunn & Leavack at \$4.60 per cwt., but they were bought by a country farmer, who has faith in the future, to go back to the country as feeders.

Butchers The best prices paid for butchers' cattle were \$3.15 to \$3.20, \$3.25 to \$3.30, \$3.35 to \$3.40, \$3.45 to \$3.50, \$3.55 to \$3.60, \$3.65 to \$3.70, \$3.75 to \$3.80, \$3.85 to \$3.90,
