POWER WRESTED FROM HIM **Financiers Planned Campaign With Government Aid to Overthrow Operator** in **Obedience** to Ultimatum. New York, March 17 .- (Special.) ... -Harriman has got to go. He has no conception of what is lawful and what is unlawful. He has a lawless nature. He has no moral sense. He is a menace to this country. He is a disgrace to the institution of railroads. The government purposes to follow him up and expose his dealings and practices against public morality and business decency until it is impossible for him to stand up longer against the storm of public opinion that will overwhelm him.

This ultimatum from President Rousevelt to J. Pierpont Morgan, when the magnate pleaded for a halt in the administration's fight on predatory railroads, was the real cause of the sensational upheaval in the stock markets in the last two weeks, according to The New York Press. It will not be pleaded that he did not intend to resign, nor is there any reason to believe that his intention to-day is different from his intention of Nov. 20, 1906. That intention was good, and it seems surpassing hard that when Mr. Hyman desires to be good his friends in parliament should by their voices prevent him.

To relieve the situation. to satisfy the urgent and insistent demand of the public, and to let Mr. Hyman be good, Sir Wilfrid Laurier should hurry up, not hush up, Mr. Hyman's resignation.

This is a common device on the part of private ownership supporters, and has a certain superficial plausibility which a moment's consideration suffices to remove. Toronto may soon be invited again to bronounce upon the matter of operation of its public franchises, and the citizens who are so greatly interested in the provision of cheap and efficient service and utilities, should make themselves conversant with the facts and arguments necessary for the formation of a sound opinion. And in this case of the capital required to conduct a profitable public franchise, they should not be influenced by attempts to induce the belief that the money raised on the city's credit for that purpose is in any different position from money raised by a private company, either on bond makare issues. It has been noticeable for many weeks that all classes of securities at the To-ronto market have been exceedingly dif-ficult of sale except at concessions in prices. This state of affairs was primarily due to the inability of the loaning institu-tions to grant any assistance to further speculation and to a desire among these same institutions to lessen rather than in-crease their loans on securities.

Only by contact could he keep abreast of the times. There were great problems before the people of Canada to-day. Locally, there were weighty difficulties which the suburban residents would require to face, such as sewage, water sup-
