UNIFORM SAILING RULES.

L.Y.R.A. DELEGATES CONFER WITH INTER-LAKE DIRECTORS.

Important Meeting of Yachtsmen at Erie, Pa.—Actual Sail Area and Water Line Length Classification Voted Down, But the Idea Meets With Favor—The International Race for Cleveland.

Erie, Pa., April 11.—The directors of the Interlake Yachting Association met here this evening and decided some important points relative to the season's racing. Proposals to change the approximate area of the Interlake were in attendance and the directors voted under instructions to accept the proposed change.

The directors also voted to accept the proposal to change the approximate area of the Interlake to that of the actual sail area, and to classify boats by water line length were both voted down, leaving the present rules unchanged. The directors voted under instructions to accept the proposed change.

The directors also voted to accept the proposal to change the approximate area of the Interlake to that of the actual sail area, and to classify boats by water line length were both voted down, leaving the present rules unchanged.

AT WOODBINE PARK.

Getting Ready for the Trials—New Arrivals at the Track.

Things are beginning to take on a business-like appearance at Woodbine Park, and this week will doubtless see many visitors at the course. The track is drying out nicely, and with a warm rain and the sun the "going" will soon be suitable for strong work. As it is the thoroughbred race, and several were "breasted" through the stretch, including King's County, who was the most successful in the club's history. Out of eleven matches played one only was lost, and the other ten were victories, most of them by handsome margins.

retary informed the meeting that a professional had been engaged, and was highly recommended by Mr. Richard Dart of Nottingham. He will be in charge of the summer season after June 30, and the secretary will be given any information to clubs desiring to change him or the summer season are good. Mr. Collins, who was the captain in 1895, remains, namely: S. D. Macgregor, R. D. Harvey and G. E. Dugan, and there is promising material among the younger riders.

The following officers were elected for 1896: President, Rev. C. S. Bethune; Vice-President, H. S. Macgregor; Secretary, E. M. Watson; Treasurer, G. E. Dugan; Stewards, H. S. Macgregor, R. D. Harvey and G. E. Dugan. The hon. secretary will be glad to hear from clubs desiring to change him or the summer season are good.

Michigan Yacht Racing Association to take part in the Put-In-Bay regatta next August. The association intended to abandon its circuit races this season and attend those of the Interlake, hoping that the committee would be returned next year. The time allowance to 50 per cent, and to hold the final meeting prior to the Interlake races at Put-In-Bay.

Cleveland is making a strong bid for the International race, and apparently has the inside track.

In Local Yachting Circles. It is quite likely that there will be no circuit races on Lake Ontario this season, and that instead the L.Y.R.A. yachts will spend a week at Cleveland, a week at Put-In-Bay and a week between Erie and Buffalo.

It is said that the syndicate that will build Vencor's opponent has not yet been completed, and apart from the fact that A. E. Jarvis, J. H. Plummer and two of the Goodwin's are interested nothing definite has been given out.

At the last meeting of the Lake Sailing Ship Association, L. J. Levy has received a copy of the proposed amendments of racing rules of the Seawanhauk Yacht Club. These are intended to conform with the International rules, and have already been adopted by the L.Y.R.A. and I.S.S.A.

TRINITY COLLEGE SCHOOL.

Most Successful Cricket Season in the Port—Cricket's History.

The annual meeting of the Trinity College School Cricket Club was held at the school, the president, Rev. Dr. Bethune, being in the chair. The treasurer's report was favorable, considering the extra expense entailed on the club by the loss of its materials in the fire. In spite of many difficulties, however, last year's season was the most successful in the club's history. Out of eleven matches played one only was lost, and the other ten were victories, most of them by handsome margins.

retary informed the meeting that a professional had been engaged, and was highly recommended by Mr. Richard Dart of Nottingham. He will be in charge of the summer season after June 30, and the secretary will be given any information to clubs desiring to change him or the summer season are good.

THE CANADIAN SCHEDULE.

Each of the Four Clubs Will Play 3 Games—How the Holiday Plans were Distributed.

The Canadian Baseball Association Schedule Committee met in London on Friday night, the Alerts, Maple Leafs, Galt and Hamilton being represented. They decided to play 3 games for each club during the season to open May and close Sept. 25. This is a good move, and should give patrons of the four clubs all the baseball they want. Guelph is not included in the arrangement, according to The Herald. Five of the Leafs' home games are fixed for Wednesdays, Guelph and Galt play two games on July 1st, one on May 1st and one on Sept. 1st.

On the way to the fire the new Rorald engine met with a mishap. While turning the corner of Church and King the left hind wheel collapsed and the engine was overturned. Engineer Brown and the men aboard saved themselves by jumping, and the horses remained where they were because they could not move forward. The engine was overturned on wheels. After working an hour or so another wheel was secured, and the engine, which was but little injured, was taken back to Richmond-street station.

Another mishap was caused by the collapse of the engine, and as a result Moses Little, a man 25 years of age, who lives on Adelaide-street east, was taken to the General Hospital. He had been running to see the smash-up, when, owing to heart failure, he fell heavily on the sidewalk, thus inflicting an ugly scalp wound. He was carried into the ambulance house at Police Headquarters, where his wound was dressed, but as his condition appeared to become more serious, he was taken to the hospital.

Mrs. D. Says: "For years I have been suffering with indigestion, and the doctor's worth of Miller's Compound Iron Pills, and am now quite well and strong."

Many Cable Despatches Cut Down for Busy Readers.

Ex-Governor Thomas M. Holt died on Saturday at Raleigh, N.C., of Bright's disease, aged 50 months, and the largest cotton manufacturer in North Carolina.

It is no longer a doubt that Rev. George R. Knapp, the medical missionary, has been expelled by the Turkish authorities from Beirut.

A Bulwary despatch says Capt. Brand, a commandant of a column which is at a point thirty miles distant from here, has sent an appeal for help, he being pressed by the forces of the Emir of Brakha. 250 men will go to the assistance of the commandant.

CHAPTER OF ACCIDENTS.

Fire at the Depot—Royal Engine Overturned on King-Street—Excited Spectator Falls in a Fit.

The cooking range in the restaurant at the southeast corner of the old Union Station, caused the building to catch fire shortly after 6 o'clock last evening, and the firemen put the blaze out about 10 o'clock.

On the way to the fire the new Rorald engine met with a mishap. While turning the corner

Ladies' Covering Circular Cape, lined with black silk, handsomely embroidered with aurah velvet collar, 6.00
Ladies' Black Cloth Cape, handsomely embroidered with aurah velvet collar, 6.50
Ladies' Fine Black Circular Cape, lined with black silk, handsomely embroidered with aurah velvet collar, 17.50
Ladies' Jackets, in fine navy blue cloth, lined with black silk, sleeves collar and pocket laps, trimmed with small pearl buttons, 12.50

Where else will you find as much that's new and stylish in things to wear? Toronto doesn't answer the question and Montreal can't. You'll have to travel to New York or London and pay those "metropolitan" prices to find as much newness and novelty. Better save the journey. The fashion centre is here—now, and prices need not be compared to be found superlatively the lowest.

Very Near Actual Cost!

We're not in business to lose money except on very special occasions. And yet people all the time insist that we sell at a loss and that we can't possibly make a cent at our prices. They don't stop to think that manufacturing has been completely revolutionized the last few years and that the possibilities of ready money are greater now than ever before. Buying and selling strictly for cash instead of asking three or six months' credit turns to your advantage in such prices as these:

- 48-inch All-wool Hosiery, in fawn, tan, dove, electric blue, moss green, nurtle green, brown and royal blue, regular price 60c a yard, Tuesday, 25c
\$2.00 yards Black All-wool Estamine Serge, best available dye, regular price 30c a yard, Tuesday, 15c
Heavy All-wool Estamine Serge, 42 inches wide, extra weight, in navy blue and black, regular price 40c a yard, Tuesday, 25c
Ladies' Fine Jean Corsets, in drab color, with 5-inch long waist, sizes 16 to 24, regular price 50c, Tuesday at...
Ladies' Choice Dongola Kid Buttoned Boots, patent calf toecap, pointed and round toe, flexible sole, regular price \$2 and 40c, Tuesday, 1.50
Ladies' Choice Kid Oxford Shoes, patent calf toecap, pointed and round toe, flexible sole, very flexible, B width, special for Tuesday, 1.00
Men's Fine Fur Felt Hats, latest Philadelphia block, Sutton's shape, with unbound edges, in black, tan, blue, drab and slate, regular price \$2, Tuesday, 1.50

This would never have been the store it is but for the ruling principle of "Cash and One Price." Credit is a moony thing—the longer given the more telescopic, and honesty pays for dishonesty in higher prices. There's a fashionable glamor for "running up a bill" and buying what you never would buy if "ready money" were the word. But the safe principle is the T. Eaton principle—cash. And the more you encourage it the less you pay proportionately for everything you need.

THE REMEDIAL BILL

The House rose at midnight Saturday, after being in continuous session since 6 p.m. yesterday, for the longest sitting of any British legislature. But the Remedial bill was not passed. Nor will it be.

The Government have not yet abandoned it. They intend to propose to the House this afternoon that it go on with the measure. It is likely, however, that the Opposition will move the adjournment instead and discuss the recent mission to Winnipeg. That may take a day. After that the Remedial Government will bring up the bill, and if the obstruction is continued announce the withdrawal of the measure and then propose to go on with the supplementary estimates. These may take ten minutes, or may go through in ten minutes.

The result will be that the Manitoba school question will go to the people in the forthcoming elections, whether it would have gone had the bill passed. In either case the bill was bound to be voted on by the people. Negotiations for a settlement of the question outside of legislation are still pending with the Manitoba Government.

IMPERIAL PROTECTION

The United States is a self-contained country. It produces the raw material necessary for the development of nearly every kind of manufacture. It is able to feed a population two or three times as large as that which occupies the country at the present time. The United States could get along very well without depending on foreign nations for a single article. Great Britain is quite differently situated. While she leads the world in manufactures, she has to rely upon foreign countries for her food supplies. The United States, being a self-contained nation, is in a position to apply an almost indiscriminate protective tariff against foreign importations. Great Britain has not the capacity for producing the food required by its people, and no degree of foreign trade would enable it to grow the cereals necessary for its maintenance. Protection is a mighty instrument for good when intelligently applied, but its efficacy is limited. Protection cannot exact blood from iron, neither can it develop an industry in a country which is not suitably conditioned therefor. England cannot grow wheat. Canada cannot produce tea. A protective tariff in either case would be an absurdity.

But while Great Britain is not self-contained, the British Empire is. We have lately realized the fact that the Mother Country and the colonies have the same interests. The British Empire, as an Empire we are all-powerful and able to defy any probable combination of Powers. Disintegrated, we lose prestige, we lose authority, we become a prey to the caprices of foreign Powers. The safety, the greatness, the expansion of the Empire depends on the conservation and development of the Imperial idea. This is the motto that underlies the Chamberlain Zollverein project. For the purposes of defence, so the Empire is to be one against the world as far as trade and commerce is concerned. If the Empire is self-contained, like the United States, it can afford to make use of the lever principle. Protection is the lever by means of which Mr. Chamberlain thinks the Empire can best be consolidated, and the development of its individual members the best way to carry out the Imperial project. Imperial protection can make the Empire self-contained as far as food supplies at least are concerned. India, Australia and Canada can supply the Mother Country with all the wheat, butter, cheese, milk, meat, oats, barley, rice, etc., that it consumes. The application of the protective principle to food products would give a wonderful impetus to the agricultural resources of the colonies. The value of the food products imported by Great Britain from foreign countries, the colonies excluded, measures the volume of the possible new business between the colonies and the Mother Country in these articles.

We are offered a statistic for 1893: During that year Great Britain imported \$150,000,000 worth of wheat and flour in addition to what she received from the colonies. The United States, Canada, Russia, 11 and Argentina 1-2 per cent. of this importation. An Imperial protective tariff would transfer this business to Canada, Australasia, India and South Africa.

The foreign importation of meat in 1893 was \$142,000,000, of which the United States contributed 71 per cent., Denmark 11, Holland 7 and Argentina 7 per cent. Canada, Australasia and the British Islands are quite capable of supplying all the wheat, butter, cheese and milk that Great Britain can consume. Great Britain consumes \$94,000,000 worth of foreign butter, cheese, and milk. The principal exporting countries are Denmark, France, Holland and the United States. From our experience in cheese and butter, we know that it would not require the imposition of a very large duty to transfer the whole of this business to Canada and Australasia. The most important of the transatlantic communication would give us a monopoly of these products, nor would the British consumer pay more than he does now.

The foreign importation of oats and barley is \$50,000,000. Canada, the Cape, New Zealand, Victoria and Tasmania are capable of furnishing these products, which are now obtained from Russia (61 per cent.), Turkey and Sweden.

The \$10,000,000 worth of rice imported could be raised by India and the Straits Settlements. These colonies are well adapted for sugar production and the sugar produced in the West Indies and the Straits Settlements is now imported by Great Britain; Mauritius, West Indies, Straits Settlements, India, Queensland, New South Wales, South Africa, Honduras, of maize there was imported into

Guinane Brothers. Guinane Brothers. Monday-Morning, April 13.

There's One Best Shoe Store That's Guinane's

There's one big shoe store that welcomes competition and hails with glad acclaim honest shoe goodness—that's Guinane's. No doubt you've often bought a pair of shoes for \$4, and a few days after you see in the window of another store the same shoes for \$2.50—and the latter place—that's Guinane's, sure.

Our \$3 Men's Shoes—"The Slater Shoes"—stand for the shoe goodness that costs \$5 in any other store. And in Ladies', Children's and Misses' Shoes it is the same at Guinane's. The style and comfort comes through the shoe making we know how to get—the prices come low because we know where to get them and when to get them. We see to it that the lasts are absolutely right—following nature's footlines—that the leather is right and the making is honestly done.

- Some price incidents in a big store: Ladies' Dongola Buttoned Boots, \$1. Ladies' Dongola Oxfords, new shape toes, B, C and D widths, \$1. Trimby & Brewster's \$5 shoes, A A A and B widths, \$1.75. Ladies' Vici Kid Buttoned Boots, Good-year Welt, \$1.75. Trimby & Brewster's \$7 Buttoned Boots, in A A A and B widths, \$2. Gents' Dongola Lace Boots, \$1.50. Gents' Cordovan Lace Boots, \$1.50. Gents' Calf Lace Boots, \$2. Gents' Tan Calf Lace Boots, \$2.

SOLE SELLERS OF THE FAMOUS "SLATER SHOE" GUINANE BROS. "214" YONGE STREET.

Goodyear Welt Sewn (Slater Method), BEAUTIFUL HOMES.

How to Make Home Beautiful and How to Make it Happy. How to make home beautiful and how to make it happy are two different things, but they are closely related. Benjamin Cates of B. Cates & Son, general house decorators, 367 Carlton-street east, Toronto, tells how to do it. He says that the happy home is not in the following words. His experience shows how home, happiness and a beautiful life can be obtained. Read what Mr. Cates says: "For the past two years I have had severe pain across my back; the urine was of thick consistency, with difficult and burning sensation in voiding. I have taken one box of Doan's Kidney Pills, and am now well. The urine is now perfectly natural in character, pain all gone and my strength has returned."

Western Bank of Canada. The fourteenth annual meeting of the shareholders of the Western Bank of Canada was held at the head office of the bank, Ottawa, on Wednesday, the 8th inst. The report of the directors is short and a most satisfactory one, as even a cursory glance at its contents will show. It is one of the most flourishing banks in the town, and this is very largely owing to the thorough business capacity of the manager, T. H. McMillan. The shareholders are to be congratulated on the way in which their interests are conserved by the manager and directors. While there has been business depression, the Western Bank has concluded one of the most successful years in its existence. The net profits of the same amount to \$33,693.10, out of which a dividend of 7 per cent. per annum was paid. The bank now stands at \$105,000, or about 28 per cent. of the paid-up capital. The same judgment has marked the care of the bank's business in its branches as at the head office. There have been no severe losses during the year, showing the prudent management of the bank's funds. The shareholders are to be congratulated on the way in which their interests are conserved by the manager and directors. While there has been business depression, the Western Bank has concluded one of the most successful years in its existence.

City Hall Notes. The City Clerk has ordered a parade of the deputy returning officers for No. 1 Ward, on Tuesday afternoon, the 15th inst. There is a possibility of the appointment of the new Board of Control coming up for discussion at the meeting of the City Council this afternoon. The act provides for the appointment of a Board of Control, the second meeting of the council after the act receives the royal assent. The council will probably arrange on Monday for a special meeting to make the appointment. The amended bill respecting the "Toronto Fire Department Superannuation and Benefit Fund," will form one of the subjects of discussion at this morning's meeting of the council. The Works will meet at 2:30 on Monday to endeavor to settle the question of land damages in connection with the widening of the Queen-street subway.

Forty boys and twenty girls have arrived at the Stratford Home from the Old Country.

Give Pearline to the Plain Facts about Pearline, and then give Pearline a chance to prove them, by giving it a fair trial. Nothing else will give the same result. It washes safely, as well as surely; it cleans carefully, as well as easily. It is as cheap as soap and better. Anything that can be washed, can be washed best with Pearline. It lightens labor and does lightning work. As nearly as we can figure, about eight millions of women use it. Do you? You will sooner or later. Don't Listen To peddlers or unscrupulous grocers who offer imitations of Pearline, and say, "It is just as good as," or "the same as" Pearline. IT'S FALSE—Pearline has no equal and is never peddled.

CHEW T. & B. MAHOGANY

5 and 10 cent plugs. The more you use of it the better you like it.

Ladies' Hats in Theatres. Editor World: The State of Ohio has passed a very sensible measure, one prohibiting ladies wearing outlandish hats in theatres. Such a measure is badly needed in this province. I attended the Grand on Saturday afternoon, but had the misfortune to get a seat two rows behind three well known young society ladies who wore known hats, made after the latest fashion, made Gainsborough in size, well trimmed with feathers and lace, and stage. I shut off my view of the performance, but it was useless—the broad hats spoiled my afternoon's amusement. Now, I think the ladies of Toronto ought to show better sense. Toronto women, as a rule, are not selfish; they are simply thoughtless. I hope the day will soon come when ladies attending Toronto theatres will learn that there are others in the place besides themselves, and when they are forced to wear broad hats on the streets for the sake of fashion, and until opera glasses are constructed on the 2c rays principle that when they enter our theatres and are comfortably seated they will remove their awning headgear. I claim that this is a real grievance and one that ought to be taken in hand by the authorities. THEATREGOER, April 12.

Atlantic Spring Passenger Service

Through tickets by Canadian lines to or from Europe are issued at lowest rates at the office of the Intercolonial Railway, Rossin House block, 42 York-street, Toronto, where sailing lists and full information can always be obtained.

Assessment System to the Fore

Life insurance at cost, yet on a permanent basis, is now demanded by the intelligent public. This demand is being met by the Colonial Mutual Life Association, a strongly guaranteed, purely Canadian company with headquarters at Montreal. The popular strides it is making proves the popularity of its variety of plans. There is still room for respectable agents, who can obtain all information at the head office for Ontario, 26 and 28 Adelaide-street west, Toronto.

California Wine

are rapidly coming to the front, being the best grades are some fine ones, equaling the best of the East, and at much lower prices. We have only the best grades.

ZINFANDEL—a Claret closely resembling the Bordeaux wines... BURGUNDY—a wine comparable with the finest Burgundy... ANGELICA—resembling the light wine of the Rhine... FORTIFIED—superb wine of light body.

Michie & Co.

51-2 King-st. W. TORONTO.

SELLING JUNCTION LOTS.

Tax Sale Was Satisfactory—Over 400 Sold—Other Junction News. Toronto Junction, April 11.—A crowd of spectators at the auction of a lot to-day, and all lots, over 400 in number, were disposed of, there being no unsold ones. Although the market was in very few instances equal to the paid taxes, the aggregate amount was rather considerable. In addition to the contents of the town's debtors, and Treasurer Jackson, the sale was of the whole estate. A statement of the proceeds will be prepared for presentation to the Council at Monday night session. The Guelph Presbytery having sent to Mr. J. W. Rae's acceptance of the call extended to the Presbyterian Church, an effort is being made to arrange for the induction to take place on April 30. About 150 delegates are expected to attend the Women's Missionary Convention for West Toronto, which will be held in the Methodist Church on Thursday.

THE ROYAL GRENADIERS.

Large Muster at the First Sunday. The church parade of the regiment took place yesterday from the Artillery to St. Luke's Church. The band, drums and pipers, and a number of men were in the ranks, and a splendid appearance they presented. The band, drums and pipers, and a number of men were in the ranks, and a splendid appearance they presented. The band, drums and pipers, and a number of men were in the ranks, and a splendid appearance they presented.

What We See "Dollar Week" From the States. The latest advices from Australia indicate that instead of exporting to England the Australians will have to import a very considerable amount this year to make good their own shortage. One estimate puts the amount of their deficit at about one hundred thousand, and as the Argentine crop is already showing signs of a heavy competition with our wheat in London market will be very considerably reduced.

In what seems to have been a very average production, Victoria exported a little over ten bushels per acre from 3,000 acres in wheat export this year breadstuffs to the value of \$7,500,000. In the same year, the United States exported 13,181 tons of wheat, chiefly wheat. Its wheat exports range from \$5,000,000 to \$8,000,000 a year. In the same year that the United States exported 13,181 tons of wheat, the Argentine Republic, Her Asian and Argentine imports almost exactly equalled those from the United States. It is worth noting that the Argentine Republic is a heavy shifter of the wheat trade, as they furnish England about 25 per cent. of her wheat. The Argentine Republic does not take four import consideration, and while nearly the four used in the United States, America, we are not so completely dependent on the British market as we are in the past. A dividend of 20 cents on the stock has been declared by the refiner, the Ontario Lumber Co. Ltd. The stock, plant, etc., was valued at \$110,000.

35 Per Cent. Linen Damask of the Highest Quality

Today we place in stock our largest purchase of slightly more than 1000 yards of 35 Per Cent. Linen Damask ever consumed in this city. The goods are as fine as we ever had for sale, while the price is the best we ever obtained.

Oak Hall, 115 to 121 King-St. E., TORONTO.

The 3-year-old son of Thaddeus Price of Elmstead, Essex County, fell into the well at his grandfather's house and was drowned.

Mrs. M. Scott of Brewer's Mills, near Kingston, who was reported to have been cured of consumption by Christlan Scientists, is dead.

The Windsor Board of Trade will urge the C.P.R. to erect an elevator in that city. It is said the company will do so if the city votes a bonus of \$25,000.

J. C. Widenholt of Walkerton bought a dog from his brother in New Hamburg, and had the animal shipped by rail. The dog stayed a couple of days and then made its way back to New Hamburg. 27 miles.
