ALL NEGLIGENCE NOT CRIMINAL

Justice Latchford Intimates a Reasonable Judicial Attitude Toward Convicted Railway Employee

BRANTFORD, Oct. 18.—(Special.)—Justice Latchford, addressing the fall session jury that heard the case of Joseph McGuire, a former Grand Trunk fireman, charged with criminal negligence and neglect of duty, said that he would never send a man who was not a criminal to associate with criminals unless the offence was of an extraordinary nature.

The jury after five hours' deliberation, returned a verdict of guilty with a strong recommendation to mercy. The charge arose out of a wreck on the Mount Vernon grade, seven miles from this city, on Oct. 6, 1908, in which Engineer Frank Freeman Burchell of London, and C. Ribbles lost their lives. McGuire was in charge of a shunting engine, which he sent out behind a freight, and failed to protect its return to the city. A work train followed and a head-on collision resulted. McGuire, afterwards left the country, but came back for trial.

The coroner's jury brought in a verdict recommending indicting the Grand Trunk directors, and at the spring assizes the jury disagreed. The prisoner has since been out on his own bail, which was renewed to-night. He will appear in the morning for sentencing. N. L. Davidson was crown prosecutor. The afternoon two grand jurors, Squire Hazleton and J. W. Murray, who failed to appear, were fined \$25 each by Justice Latchford, and 10 petty jurors were fined \$20 each. No explanation had been received from the jurors in question by the sheriff, and the judge remarked that in future they would find it cheaper to attend.

DIED FROM OVERDOSE

Wm. H. Thompson Took Too Much Dope Sunday and Died Last Night

Thru taking an overdose of veronal sleeping powder, William H. Thompson, aged 38, of 165 Lippincott-street, died at the Western Hospital at midnight. He was taken to the hospital Sunday and expired last night in unconsciousness. The circumstances of the case are not yet known.

Mr. Thompson, until six months ago, was a member of the W. A. MacKenzie Co., investment securities. Then he went into business for himself, having an office in the Crown Life Building, where he dealt in municipal debentures. Not long afterwards he discontinued his business and entered the employ of Dymond, Cassels & Co., where he stayed until about a month ago.

TOWN TREASURER ARRESTED

Charged With Forgeries That May Reach \$75,000.

FRAMINGHAM, Mass., Oct. 18.—John A. Lombard, town treasurer, was placed under arrest to-night charged with forging two notes aggregating \$50,000, in the name of the town. Lombard was dealt in municipal debentures. Not long afterwards he discontinued his business and entered the employ of Dymond, Cassels & Co., where he stayed until about a month ago.

FIRE APPARATUS DEFECTIVE

Responsible for Death of Quebec Fireman Saturday Night.

QUEBEC, Oct. 18.—At the coroner's inquest held this morning on the remains of Fireman Jerome Fortin, killed at the burning of the custom house Saturday night, a verdict was rendered that death was caused by a fracture of the base of the skull, due to a fall from a ladder.

HUMAN BLOOD STAINS

Test Made of Spots on Clothing of Pale Steffoff.

Dr. Gideon Silverthorne has completed his test in the analysis of the blood stains found on the clothing of Balie Steffoff, the Macedonian, who will be tried at the criminal assize court this week on the charge of murdering Van Steffoff in April last. The test showed that the dark spots on the coat of Steffoff, and on the sleeves inside near the wrist were indeed human blood. The spots on the money taken from Steffoff were shown to be other than those made by human blood.

RUSSELL FIGHTS EXTRADITION

Hearing of Case Before United States Commissioner Begins.

CLEVELAND, Oct. 18.—(Special.)—The hearing of W. L. Russell, the extradition case of the Lima, Ohio, oil man, who is wanted in Toronto, Ont., on a charge of fraud, began before United States Commissioner Walthers today. Russell proposes to fight extradition proceedings, and has a number of friends here attending the sessions. To-day was devoted entirely to the reading of depositions bearing on the case. Commissioner Walthers said the hearing would take up several days.

"Leader of Britain's Policy" Writes a Play

And Amelia Bingham Declares She Has Bought It From This Powerful Unknown.

NEW YORK, Oct. 18.—Vance Thompson cables The American from Paris: "I have had to break thru the reserve of an old English family of title and satisfy the pride of a national politician to induce a genius to allow me to show America his work," said Amelia Bingham to-day.

Miss Bingham is making a short visit to Paris to order costumes and scenery for this new play, "The Violet Widow," which seems to have provoked the enthusiasm of the actress-manager. "My new play," continued Miss Bingham, "is by an Englishman of national importance, who prefers to allow his identity to be hidden in the name of 'George Davis.' It was with difficulty that I persuaded him to permit me to produce this, his latest work. Playwriting has been his hobby, but only for selfish pleasure, and not many friends of this well known leader have the least idea that the statesman who controls the policy of great government has a lighter side to his character. One particular point in the play is that it has a love story, showing the greatest depths of sentiment and feeling and all this has been written by a man who is looked upon as loveless.

"I have ordered costumes here and am having the scenery painted here also, as several of the scenes are laid in Paris."

MRS. TURNER WILL TELL

STORY IN WITNESS BOX

Woman Accused of Murder to Swear She Gave Babe to Mrs. Wagner.

Mrs. Maud Turner, charged with the murder of the Authers' infant, whose body was found by the tracks of the New York Central Railroad, Sept. 16, will be arraigned in the criminal court this morning. She will plead not guilty, and, according to T. C. Robinette, K.C., who has thus far conducted her defence, will go into the box to tell her own story of her connection with the infant.

A true bill was found by the grand jury late yesterday afternoon, indicting the woman for murder. It was Mr. Robinette's intention to call Mrs. Turner to the witness box on Saturday, Sept. 11, the day she got the child, at the General Hospital, she gave it to a Mrs. Wagner, in the city, an hour after it was taken from the hospital. Her explanation of her trip to Suspension Bridge on the day that the body was thrown from the window will be that she went there to give some of the infant's clothing to this Mrs. Wagner, whom she met at the New York Central station, and gave her the clothes.

STAGE CAREER FAILURE

GIRL DRINKS POISON

Edith Thomas Found Unconscious in New York Boarding House—Dangers of Groat City.

NEW YORK, Oct. 18.—A bottle of poison and an unsealed letter of appeal for money to "dear mother" were found for the police to-night the story of the effort of Edith Thomas, 19 years of age, of Sherbrooke, Canada, to make a name for herself on the stage. The girl was found unconscious in her boarding house, where she has been sick for ten days since she came to New York from Danbury, Conn., where she parted from the small company with which she left her home. At the hospital it was said that she stood an even chance for recovery. The letter was directed to Mrs. Frank Thomas, Lower Water-street, Sherbrooke, and read in part:

SICILIAN IS ALL RIGHT

Several Days Overdue, is Reported at Father Point.

QUEBEC, Oct. 18.—(Special.)—The announcement that the Allan liner Sicilian had passed Father Point at 5 o'clock to-night came as a relief to a large number who have been wondering what has delayed her arrival.

SUTHERLAND FOR MIDDLESEX

Is to Succeed MacBeth as County Judge.

OTTAWA, Oct. 18.—(Special.)—It was stated to-day by an authority that County Judge MacBeth of Middlesex is to go to the high court bench, and that Hon. R. F. Sutherland of Windsor, ex-speaker of the house of commons, will take the vacancy created.

ITALY STANDS ALONE

The Largest and Most Successful Producer of Soft Hats is Located at Borsalino.

In Borsalino, Italy, there is a hat manufacturer who has succeeded in producing a quality of felt, so far unmatched by the makers of hats in any other country in the world. The Borsalino, soft felt alpine or fedora needs but to be examined for one to realize what a superior piece of work it is. To wear a Borsalino for any length of time is to appreciate the lasting quality of the felt. And with all this, the Borsalino is of such weight that it makes other hats feel unbearably heavy in comparison. The new fall Borsalinos are all in the Borsalino show-rooms at 140 Yonge-street. Just the proper hats for this time of year.

HUGE INCOMES OF RAILROADS

Statistics Which U.S. Shippers Style as Fascinating as the Story of Aladdin's Lamp.

WASHINGTON, Oct. 18.—A meeting of important shipping interests of the country is to be held in Cincinnati tomorrow night to consider the prospective action of the railways, in the eastern part of the country in increasing freight rates in the territory east of the Mississippi River. No determination has been reached yet to increase the rates, but the question is under advisement and the advance will be made, probably in the near future, if the conditions in the judgment of the railways' officials justify it.

Many of the organizations of shippers throughout the middle western country have joined in the call for the meeting and in addition have addressed a letter to W. C. Brown, president of the New York Central lines; Oscar S. Murray, president of the Baltimore & Ohio, and James McCrea, president of the Pennsylvania Railroad, setting forth the reasons, as they view them, for not making an advance in the freight rates.

In this letter, the shippers maintain, on a basis of figures furnished by the railways, themselves, under oath, to the interstate commerce commission, that the net income per mile of road of railroads in the United States for 1907, exceeded that for 1906 by \$1594, an increase of 345 per cent.; that the net income of all the railroads in the United States for 1907 was \$44,461,888, and 1897, \$31,257,506—an increase of 43 per cent.; that the surplus from operation for all the railroads in the United States for 1907 exceeded that for 1906 by \$60,606,785; and that the amount of railroad stock paying dividends increased from \$1,300,549,976 in 1907 to \$4,848,766,202 in 1907, an increase of \$3,548,216,226.

The rate of dividend on stock increased from 5.42 per cent. in 1907 to 6.23 per cent. in 1907, an increase of 14.7 per cent.

MAKES RESTITUTION TO 200 HOUSEHOLDERS

W. C. Manning, Under Arrest for Fraud, Will Pay Back \$11,000.

THRU HIS counsel, T. C. Robinette, K.C., W. C. Manning awaiting trial for defrauding 200 small householders in the city out of various small sums of money, through orders taken for cheap coal, delivery of which has never been made, has turned over to the police \$11,000 as restitution to his dupes. If Manning had been led into the frauds thru drinking heavily, and had not at the start any intention to defraud. Since his arrest he has written to his brother in Winnipeg with the result that the money was sent on to his counsel and turned over to Crow Attorney Coyle for distribution to the sufferers, many of whom were facing a cold winter with nothing left of the little fund which they had hoarded up thru the summer months with which to purchase coal.

AVIATOR SURPRISES PARIS

Makes Flight of Thirteen Miles and Circles Eiffel Tower.

PARIS, Oct. 18.—Count de Lambert, the French aviator, just before dark to-night accomplished one of the most remarkable and daring feats yet to the credit of the heavier-than-air machines. Starting from the aerodrome at Bagneux, he flew in a straight line to Paris, a distance of thirteen miles. After manoeuvring over the city at the average height of four hundred feet, he ascended in a steady climb, circling the Eiffel tower. He then returned to Juvisy.

Six Hundred Patients Were Marched Out Within Three Minutes.

LONDON, Oct. 18.—(Special.)—Over 600 patients were marched out to safety in less than three minutes when fire was discovered in the main building of the London Asylum for Insane this afternoon. The damage was less than \$50.

HAUNTED

SAVES DROWNING GIRL BY A DESPERATE DIVE

Pretty Daughter of Wealthy Delhi Man Rescued by Heroic Ball Player.

DELHI, Oct. 18.—(Special.)—William Buck, aged 18, the heavy hitting left-fielder of the champion Delhi baseball team, has eclipsed his baseball glory by saving a young lady from drowning. Young Buck rescued from the waters of the Rhone River on Sunday Miss Leta Dalton, the pretty talented daughter of Dent Dalton, one of the wealthiest men of Southern Ontario. Buck has been presented by Dalton with the finest gold watch that money can buy, inscribed with the record of the deed of valor, and an effort will be made to secure the life saving medal of the Humane Society.

CANDIDATES IN THE NEW YORK MAYORALTY CAMPAIGN

OTTO BARNARD Republican.

JUDGE GAYNOR Tammany.

HEARST Fusion.

Three Candidates in the Field and Each is Ready to Knock the Others—Hot Stuff Already.

NEW YORK, Oct. 18.—(Special.)—No other city in the country can have as terrible mayoralty fights as New York. And the fiercest, most besetting struggle the city ever experienced, perhaps, is under way now.

The integrity of the justice of the court has been questioned; an entire party, emblem and all, has been stolen; men have been indicted and friends have been scolded for years.

Three men, Will J. Gaynor, justice of the supreme court; Otto Barnard, millionaire and business man, and Wm. Randolph Hearst, newspaper owner, are striving for the mayoralty honors. Gaynor is Tammany and Democratic. Barnard is Republican and also represents some organizations that want reform in city expenditure. Hearst is anti-Tammany, and has his own party, the civic alliance, which used to be the independent league.

Gaynor was first in the field. Last spring he wrote a letter to Mayor McClellan, complaining against treatment which the police had accorded Geo. B. Luffy, a working boy. Police Commissioner Bingham was ousted from office as a result of the charges. Whereupon every man who hates the police, including the many decent people who have been ill-treated by the bluecoats, rejoiced. And the name of Gaynor became famous.

At this point, enter Hearst. He sent word to Gaynor that he wanted to see him. Gaynor went to Hearst's home and Hearst asked him to run for mayor, so Gaynor says, and told Rudolph Block, one of his editors, to put in the Hearst paper anything Gaynor was able to say that Gaynor might desire.

But Tammany, too, saw fine timber in Gaynor, the man who had a reputation for baiting the police; Gaynor was a fine cloak for the Tammany police system, with its cruel, grandstanding arrests.

And Gaynor accepted a Tammany nomination.

The Republicans picked Otto Barnard, a business man. He had been such a busy business man that his name had never before been in the papers. Everybody asked, "Who is Barnard?" They were told that he had been the quiet head of several movements for civic improvement and that he was the founder and president of the Citizens' Savings Association, said to be a philanthropic institution. Thereupon the committee of 100, organized to have the city run on a business basis, favored Barnard.

When Hearst came in.

But Wm. R. Hearst, in the meantime, had got mad at Gaynor for accepting the Tammany nomination.

Hearst looked around for his independent league, which he organized in the last presidential campaign. He couldn't find it. Tammany, at the primaries, had stolen it, emblem and all. And, in the name of the independence league, Tammany men nominated Tammany candidates.

But the real members of the independence league held a great meeting at Cooper Union and nominated Hearst. There was the biggest shouting at that meeting that the campaign had seen up to then.

And Hearst accepted the nomination. That set Gaynor loose.

"Teachery," he cried. "He asked me to run. He didn't say on what ticket. He ordered his editor to support me. Four years ago he wanted me to run for mayor. Does he only make a promise to break it?"

The Hearst reply was a bomb. It came thru William Linn, a Hearst supporter now, after the last election he was Republican candidate against Hearst, in a public speech.

"The anti-racing bill was passed June 11 of last year. The Hon. Patrick McCarran (Democratic boss of Brooklyn) left Albany on the afternoon of the passage of that act and came to New York. Awaiting his arrival at the Hoffman House in this city, were the Hon. Justice Wm. J. Gaynor and Mr. Block. I believe (Block is a Hearst editor), and Eugene Wood (a lobbyist against the anti-racing bill).

"Gaynor, with these three men, sat down on the evening of June 11, 1908, in the Hoffman House, and remained there until 3 o'clock in the morning; and at that meeting Justice Gaynor

MOULDERS IN FIGHT NON-UNIONIST INJURED

Lively Fracas on Street Corner at Busy Hour—Canon Wade Denies Some Allegations.

HAMILTON, Oct. 18.—(Special.)—There was a pitched battle this evening about 6 o'clock at the corner of King William and John-streets, between union and non-union moulders. One of the non-union men was carried off with a big gash in his head, caused by a brick, and several others were injured. Warrants have been sworn out for a number of those implicated, but no arrests have been made yet.

The trouble started early in the year when the union men refused to submit to a cut in their wages. After a lot of negotiations the men were locked out and all the stores founded started to open shops, importing some non-union men. They have been able to keep their plants going, and it looks as if the union had been beaten in the fight. Some of them have joined forces and have started a foundry of their own.

James Gorman, 24 Sheaffe-street, was arrested this afternoon, on the charge of committing an aggravated assault on his wife. Mrs. Bruce Price. In a brief address at the annual meeting of the Aged Women's Home this afternoon, Rev. Canon Wade made reference to complaints that had been made by friends of the inmates that the home was unsanitary and the food no ground for such stories. The following also delivered brief addresses: W. J. Waugh, Sir Thomas Taylor, W. A. Robinson and A. B. O'Neil. The following officers were elected: Mrs. Thos. Renwick, president; vice-presidents, Mesdames Wade, Gunn, Hendrie, Fairgrieve, Strachan and Sutherland; treasurer, Mrs. E. Greening; recording secretary, Mrs. W. A. Spratt; financial secretary, Mrs. W. J. Waugh. The receipts for the year amounted to \$312, and the expenditure to \$48 less.

The Sunday school workers of the Deane of Hamilton met this morning in Christ Church Cathedral. Bishop De Moulin delivered an address of welcome, and R. A. Hill, Fergus, Archdeacon Forrester and Dr. S. A. Morgan. W. H. and Mrs. Ballard, 146 George-st., announce the engagement of their only daughter, Edith Louise, to Hugh Day Scully, B.A., Toronto, secretary of the Toronto branch of the Canadian Manufacturers' Association. The marriage will take place Nov. 3.

In Police Court. George Smith was fined \$10 this morning for assaulting Sofia Mackintosh, because she spoke to another man in their camp near Waterdown. Smith said that he would follow her to the end of the earth. When asked why she did not marry him, the woman said she had a husband in the old world. Crown Attorney Washington complained that the foreigners were too handy with their guns, and Arthur and Charles Cloise, Brantford, were each fined \$10 for making nuisances of themselves on the streets Saturday.

Owing to having reached the age limit, Sergeant Pinch, Robinson and Moore will be retired from the police force at the end of the year, and there are all kinds of wire-pulling going on for the promotions. It is charged that favoritism is being shown in the selection of officers for plain clothes duty, and that some of those doing this sort of work make arrests on the slightest provocation, in order to fatten their average of arrests. One unfortunate was arrested no less than four times during a few weeks.

It Company won the McLaren shelter trench competition, held every year by the 13th Regiment. It has 387 points to its credit, the other teams finishing as follows: C Company, 34; B Company, 336; E Company, 278; D Company, 227; A Company, 213.

Caveat Asked for. W. G. Ellis has applied for caveat against the administration by Dr. Brandon of the estate of his mother, Mrs. Brandon, Ancestor. Mrs. Brandon was married three times, and had ten children, nine of whom are now dead, and that previous to her marriage to Dr. Brandon, his mother made a will disposing of her property amongst her children. The estate is valued at \$21,000, of which \$18,000 is said to have been insurance on the life of Mr. Ellis' father.

It is the intention of City Engineer Macmillan to recommend the board of control to abolish the office of secretary of the fire and water committee, now held by A. F. James, and to add it to the duties of W. C. Brennan, secretary of the board of works. Mr. James will be retained and will be utilized probably as a member of the accounting staff. A purchasing agent will be appointed. A secretary will be needed for the board of control. There will be some difficulty to find quarters for the board of control, as all the space in the city hall is in use now. There are but 418 assessment appeals this year, as compared to 848 last year. The parks board will meet Wednesday evening to consider the proposal to remove the fence around the Gore Park. Tax Rate Stays up. There is no prospect of the tax rate being reduced next year. The board of education has spent \$260,000 during the last two years on new schools, and is asking for another \$60,000 for the Victoria-avenue School. Mayor McLaren said the council would not ob-

ject so long as the school rate of six mills was not raised. Joseph Shugar, who was found guilty of a second offence of selling liquor without a license will be fined \$100 but will escape going to jail because it was his wife who sold the liquor. The parents of Eddie Davidson, 56 Merrick-street, are trying to locate him. He ran away with Barnum & Bailey's circus.

Arthur Parrett, 21 Kinrade-avenue, an Englishman, disappeared Saturday, and the police have been asked to locate him. James Linfoot was severely hurt in a collision this morning with a street car. Gets Off.

The hall bond of \$1000 exacted from Frank Penton, arrested in Washington, on the charge of running off with the proceeds of a \$250 bet, expired to-day, and as the authorities have taken no action to bring him back, he has been released. The local police have received no word yet from the London authorities as to Edward W. Bedford, who confessed to murdering Ethel Kinrade, and they think he will be released. He was remanded until to-day.

NEW YORK'S 'PLAGUE' VICTIMS

Deputation Asks Large Civic Grant to Fight Tuberculosis.

NEW YORK, Oct. 18.—A group of distinguished physicians and public health officials constituting the anti-tuberculosis committee appeared before Mayor McClellan to-day and urged that \$487,000 be made by the board of estimate to reduce an economic loss estimated at \$1,000,000 yearly to this city alone caused by the ravages of tuberculosis.

Robert W. DeForest, president of the charity organization society, declared that of 4,000 tuberculosis sufferers in New York, but 15,000 were receiving proper medical attendance, while there are, he said, 24,000 new cases and 10,000 deaths each year.

Ferry boat clinics and class rooms for the tuberculous children excluded from the public schools were urged by Dr. Samuel Lambert.

AT THE THEATRES

Royal Alexandra

The Bridge. Whatever Harrison Gray Fiske presents to the public is bound not only to have merit but artistic merit.

was richly sarcastic. "That means never," Miss Redmond possesses a rich soprano voice, and her rendering of "Bonnie My Highland Lassie," in the second act, brought several encores.

At the Grand.

A Knight For a Day.

A well-dressed and otherwise pleasingly embellished operetta, "A Knight for a Day," occupies the stage of the Grand Theatre.

The setting of the second act is unqualifiedly beautiful; the chorus is an engaging body of young women and the delicate introduction of the peculiar distinction to the work.

Majestic.

Julian Eltinge's Impersonations. "Boys will be boys" is an adage which appeals to many.

At the Princess.

Joe Weber's Travesty Company. In "The Merry Widow and the Devil," Joe Weber's Travesty Company presented a brilliant satire of several well-known comic operas.

Joe Weber did not appear. If his absence was a loss to the performance, no one discerned it.

Women's nerves are often ruined by sewing. The strain of working the machine is bad. The strain on the eyes is often worse.

Dr. A. W. Chase's Nerve Food. The sleeplessness, headaches, tired feeling and irritability which disappear when Dr. A. W. Chase's Nerve Food is used.

Queen Quality

"Queen Quality" designers, prolific in ideas, have infused originality and cleverness into the Fall fashions.

OPEN THE PATHS TO KNOWLEDGE
In a civilization like ours, founded on knowledge, and depending on the achievements of science for preservation and advancement, it seems to be a truism that the avenues to knowledge should be wide and free.

But the fact remains that knowledge is a good thing, and if it be so, no man should be debarred who seeks to gain it. Mr. T. A. Russell, the newly-installed president of the University Literary Society, a graduate of some year's standing, an ornament of his alma mater, and well established in the hearts of his fellows, indicated in his remarks at the meeting of the society on Friday that he is in favor of the utmost freedom in the spread of knowledge.

A little learning, warned the poet, is a dangerous thing; the seeker must drink deep. But the taste for deep draughts of learning must be cultivated, and perhaps if the public had an opportunity to sip many might learn to know the deep joy that true knowledge imparts. Comparatively few know anything of life except what comes through the sensations. To dwell in the mind, to reign sovereign in the realms of knowledge, to sway the sceptre of wisdom, even the bodily toil accompany the experience, is the richest ecstasy attainable. This does not depend on wealth or family or position; if the opportunity be offered, if Canada is to evolve the highest types of national life her universities cannot too soon open the paths of knowledge to all her children and adopt Mr. Russell's suggestion.

GERMANY AND THE UNITED STATES

Scarcely anything within historic times has been regarded as more certain than the Anglo-Saxon origin of the United States of America. Its language and literature, as well as the common law rights which lie at the foundation of its policy, have all marked it out as a branch from British stock, or as a fruit which in the fulness of time dropped from the parent stem and set up an independent life and growth of its own. But in these questioning times no belief is too sacred to be well established to be challenged to justify its existence and its claims. Even the presence of the great Napoleon was made the subject of historic doubts, and the once celebrated pamphlet in which this ironical sceptic promulgated them, presented an array of arguments with sufficient reasonableness to mislead an unwary reader. The Bacon-Shakespeare controversy again a large number of intelligent people that the man whom his own friends and contemporaries lauded for his dramatic genius was not the author of the plays that bear his name. It is, therefore, not surprising that an ingenious member of the Pan-German party has discovered that the current notion regarding the United States is entirely wrong. Britain is not their mother country—Germany is their true fatherland.

It has been remarked that Irish movements have always been wrecked because there was a traitor in the camp. German America, it appears, came to naught for that very reason. Had not Frederick Augustus Muhlenberg, first speaker of the United States House of Representatives, "with real German national weakness given his casting vote for English as the official language, the republic would still be German externally, and English would fill the present subservient role of German." This is the conclusion which Herr Kurd von Strantz arrives at in an article contributed to the Tagliche Kundschau, a Berlin naval and military review. He says that Americans are essentially a Germanic people, and he states that there are not less than 30,000,000 United States citizens of German extraction, and that they constitute an absolute majority as compared with the other nationalities which make up the American body politic. Herr von Strantz pours out the vitals of his wrath on these degenerate Teutons for forgetting that they are sprung from the land of poets and philosophers, calls upon them to assert themselves, and to insist upon the recognition of the German language in full terms of equality in the schools, courts and legislatures of the nation.

One of the proudest boasts of the spread-eagle citizen of the United States is its capacity for assimilating its many and various classes of immi-

"REGAL" DEVELOPING PAPER

All who have used it know that the "REGAL" is the king of Gaslight Developing Papers. It produces beautiful Velvety Blacks, is very simple to use, has extreme latitude in exposure, ensuring very best results, and no dark room is required.

grants. To Herr von Strantz it demonstrates the danger to the fatherland which has arisen from the Anglicization of the German American. He deprecates the fact that Herr Weckerheim has now become Mr. Wickersham, and that but for this process the Monroe Doctrine, the Emancipation Proclamation, "Hawathas," "Innocents Abroad," Roosevelt's hunting exploits, the discovery of the north pole, and other exploits of Yankee civilization would have been recorded in the tongue of Goethe. To Herr von Strantz all this is intensely serious, and he has evidently worked himself up to a high pitch over the difference between what is and what might have been. This, on good poetic authority, is the saddest of all things, and contemplation of the contrast is indeed well fitted to give color to the eulogies of any Pan-German an elegiac cast, reflected in a style whose sentimental melancholy recalls The Sorrows of Werther. Speculation of this kind will not carry much appeal to the practical American whose conception of government is far removed from Prussian bureaucracy.

Without detracting in the least from assurances of safety by exhibitions of figures, we are led to believe that other methods of advertising are more effective, at least among country banks. WITH PLENTY OF COMPETITORS NOT ONLY WILLING, BUT HUSTLING AFTER NEW BUSINESS, IT IS IMPERATIVE THAT THE BANKER WHO DESIRES ANY CONSIDERABLE GROWTH BESTIR HIMSELF.

The fact that he is connected with a reputable institution is all very well, but it loses some of its charm when a new account is gained by a rival concern whose officials were not averse to purchasing something which they knew to be worth their best efforts instead of relying on the assumption that the word bank, alone, was sufficient in itself.

The mere display of a banking sign or the reiteration that your capital is ample is not enough. The prospective customer who officials were not averse to purchasing something which they knew to be worth their best efforts instead of relying on the assumption that the word bank, alone, was sufficient in itself. The merchant, in the natural course of his business is continually receiving new merchandise, and the public is constantly looking for his announcements and waiting for the opportunity to take advantage of sales especially advertised, and if such a course seems wise for the merchant with his ever changing assortment of goods, it is equally necessary for him to ever keep in touch with his patrons, it is all the more reason for a bank, dependent almost entirely on deposits, and the blood of its existence, to present arguments of the most persuasive character with such frequency that interest may be aroused, and which, but for such means, would never be able to get to the attention of the public. Judging from our own experience, we believe that by far the most effective method of obtaining commercial accounts is by personal solicitation. A man may present a good-sized cheque to be cashed and an opportunity is presented to solicit an account. The party may not have given much thought and you explain to him the objection of carrying with him a large sum of money; that the loss of his purse may be an entire loss, as its restoration is dependent almost wholly on the honesty of the finder; the danger incurred of being robbed by a common knowledge that it was his habit to carry with him a large amount of currency.

As a direct contrast with such unsafe methods you explain the safety of the cheque, which means only a temporary inconvenience, and the duplicate is easily obtained; its convenience in making the right change; its certain proof of the payment of a debt; its restoration is a good receipt into itself, as few men will deny their own signatures. Simple arguments, but usually not followed because results are not instantaneous that the advertising has failed in its mission, as it requires time and lots of it to get into a receptive condition, but a man cannot be much interested in something of which he has no knowledge, and the bank that is circulating interesting information, using plenty of space in the newspapers and whose officers are ever ready to take advantage to secure new business is the bank that the people hear about and which is the most likely to show a decided increase of its business (the measure in its success), and a death-dealing argument to the theory that it is unnecessary for bankers to advertise.

Maw v. Campbell, P. E. Chisholm, for defendant, moved for order discharging order for arrest as absconding debtor, J. T. White, for plaintiff, contra. Order made as asked. Before Meredith, C.J. Townsend v. Northern Crown Bank—W. Laidlaw, K.C., for plaintiff, on appeal from the judgment in Chambers of 19th September, 1909, requiring him within one week to deliver to the respondent full particulars embracing the amount of each of the conveyances, assignments and transfers referred to in the fifth sub-clause of paragraph three of the statement of claim, containing a list of the particulars of each of the conveyances, assignments and transfers referred to in the fifth sub-clause of paragraph three of the statement of claim, and directing that in default of delivery of the particulars the sub-clause should be struck out without further order. F. Arnold, K.C., for defendant, raised some important points for practice, namely, whether such an order should be made as was made by the court, or an order allowing the appellant to have the particulars of the respondents' officers before the statement of defence is delivered, and requiring him to deliver the particulars after discovery has been obtained. The practice given effect to by the master, appears to me an inconvenient and unnecessary one. It is to be noted that a plaintiff is unable to case in particulars until he has had an opportunity of examining the defendant's books, and the knowledge of the particulars wholly lie. Such a practice results necessarily in the pleading being struck out. On the other hand, to require the particulars to be delivered after the discovery is had, does not injure the respondent, and does not require the appellant to be struck out without further order. F. It is to be noted that a plaintiff is unable to case in particulars until he has had an opportunity of examining the defendant's books, and the knowledge of the particulars wholly lie. Such a practice results necessarily in the pleading being struck out. On the other hand, to require the particulars to be delivered after the discovery is had, does not injure the respondent, and does not require the appellant to be struck out without further order. F. Arnold, K.C., for defendant, raised some important points for practice, namely, whether such an order should be made as was made by the court, or an order allowing the appellant to have the particulars of the respondents' officers before the statement of defence is delivered, and requiring him to deliver the particulars after discovery has been obtained. The practice given effect to by the master, appears to me an inconvenient and unnecessary one. FACTS ABOUT BRANDON

In 1874—A boundless prairie.
 In 1878—A few settlers in tents.
 In 1882—A few settlers' shacks—that's all.
 In 1904—About 7000 people.
 In 1909—About 14,000 population.
 Brandon has a fine city hall, federal postoffice, great winter fair building, and a \$75,000 Y.M.C.A. clear of debt.
 Brandon has the greatest agricultural fair in the west; attendance 20,000 daily.
 Brandon has three transcontinental railroads, and a fourth is coming. It is the operating centre of 1000 miles of railway, and the home of its operatives.
 The railroad payroll at Brandon exceeds \$1,000,000 a year.
 Brandon is the home of the Provincial Asylum, with 600 patients.
 Brandon has two business colleges with an attendance of 1200 students.
 Brandon is the home of the Baptist College, Brandon College, Normal School, Collegiate Institutes and palatial public schools.
 The horse-breeding centre of the west is Brandon.
 There are ten chartered banks at Brandon, and seven own their own homes.
 Ontario's fruit is distributed through the west from Brandon.
 One hundred and twenty-five travellers do business out of Brandon, because its railroad facilities are unequalled in the west.
 Everybody is making money in Brandon.
 There has not been a business failure there in ten years.
 Splendid lots in Brandon can be secured for \$60 in Kensington Park. They are 25x120 to a 20-foot lane. The land is rolling, naturally drained, and right in the city limits. The terms are one-third cash, one-third in three months, one-third in six months, no interest charged.
 These lots are for prospective citizens of Brandon. There is no evasion about this offer. Your lot will be guaranteed suitable for building, and practicable as the site of a home in a prosperous city.
 Write to-day for full particulars. On receipt of check we will undertake to assist you in a wise selection. These lots are worth more than we ask. Two years from to-day they should be worth \$500 each.

AUSTRIA TO SELL SOME RADIUM

Part of Output of Works in Bohemia to Be Put on Market.

VIENNA, Oct. 18.—A certain amount of the 154 grains of radium chloride (equivalent to one-half ounce of pure radium), which represents the output of eighteen months from the works at St. Joachimsthal, in Bohemia, is to be put on the market by the Austrian government. The Viennese hospitals and scientific institutions will first be supplied free of cost and the rest will be offered for sale at the price of \$15,000 a gramme (154 grains).
 The precious stone, the largest quantity of radium that exists in one mass in the world, is at present in a burglar proof safe at St. Joachimsthal, guarded day and night by armed watchmen. For conveyance to Vienna the radium will be packed in a lead capsule, and a number of responsible officials will attend to the safe.
 Dr. Jungman, the Viennese specialist for skin diseases, says that many marvelous cures have been effected in the hospitals here by means of radium. At the lupus hospital certain forms of cancer have, it is declared, been cured. The most disfiguring marks on the skin are removed, leaving not the slightest trace.

THE ATHABASCA'S ACCIDENT

Dominion Commissioner Will Hold an Investigation.

OWEN SOUND, Oct. 18.—Capt. L. N. Dames, Dominion Wreck Commissioner, will be here this week to investigate the accident to the "Athabasca," coming from Quebec, where he is to enquire into the accident in the gulf to the S.S. Empress of Ireland.
 Members of the crew of the Athabasca claim that, the blizzard was raging, the light in the Flower Pot lighthouse was not lit, nor was the foghorn blowing. When the danger was realized, Capt. Brown ordered the wheelman to steer to starboard. The wheelman in the excitement turned to port instead. The mate observed the mistake and sprang to the wheel. At the same time the captain signaled the engines reversed, but it was too late.
 Danl. Smith, lighthouse keeper for nearly 20 years, says the light was lit, that he had been able to see the Athabasca's lights for some time, and that the snow furries were intermittent, but only, and there was no necessity for the foghorn.
 The damage to the steamer is placed at \$40,000.
 C. P. R. Traffic.
 C. P. R. traffic for the week ending Oct. 14, 1909, was \$1,238,000, for the same week in 1908, \$1,611,000.

IN THE MATTER OF THE BLAIR Automatic Scale Company.

NOTICE is hereby given that the Blair Automatic Scale Company, carrying on business at the City of Toronto, has made an assignment for the benefit of its creditors under R.S.O. 1887, chapter 147, to James Fowler of the City of Toronto, gentleman.
 A meeting of creditors will be held at the office of the Blair Automatic Scale Company, 64 Farley-avenue, Toronto, on Tuesday, the 26th day of October, 1909, at 3 o'clock in the afternoon to receive a statement of affairs, to appoint inspectors and fix their remuneration and for the ordering of the affairs of the estate generally. Creditors are requested to file their claims with the assignee with the proper notice and particulars thereon, required by the said act on or before the date of said meeting.
 And notice is further given that after the 26th day of November, 1909, the assignee will proceed to distribute the assets of the debtor amongst the parties entitled thereto, having regard only to the claims of which notice shall have been given, and that he will not be liable for the assets or any part thereof, so distributed to any person or persons of whose claim he shall not have had notice.
 JAMES FOWLER, Assignee,

YEAR IS BAD FOR CHAMPAGNE.

PARIS, Oct. 18.—There is a prospect that the year 1909 will be one of the worst years experienced in the champagne industry, both in amount of yield and the quality. Rheims agents say that should there be an increase in consumption there will be a considerable shortage in the supply of the wines, as the present year is the third in succession of poor vintages.

When the Grand Trunk Pacific settles down to business, and the west doubles in population, ten thousand men will not be able to handle the freight trans-shipped at the head of Thunder Bay.
 The "Twin Cities"—Port Arthur and Fort William—with a combined population of 32,000 people, are just on the edge of an era of great expansion. A lot purchased to-day in the beautiful residential section of

PRICE ARTHUR HEIGHTS

is one of the best investments possible to present to the investor. There is no element of risk. The land must increase in value from month to month. We can sell you a fine lot in Price Arthur Heights to-day for \$100. You pay only one-third cash. The next payment will not be due for one year, and the balance in two years.
 These lots will, we confidently believe, be worth from \$200 to \$500, or more, in two years. That is the experience in real estate histories of substantial and growing cities.
 Port Arthur is a growing city. Three transcontinental railroads are pouring the traffic of the west into Port Arthur and Fort William for shipment. The greatest grain elevators in the world are there. A great industrial expansion has been commenced, backed by cheap electrical power and vast mineral deposits.
 Write to-day for application and booklet, free.

Rolls Peanut Three Blocks. Election bets apparently are not in for a minute with baseball wagers. Two young Toronto men, A. R. Knight and A. H. McCreath, waxed enthusiastic over the world's champion game between Detroit and Pittsburgh. They bet on them and it was agreed that the loser should roll a peanut from Jarvis to Yonge-street on Carlton. McCreath lost and it was up to him to pay his wager. This he did yesterday at one o'clock. Of course, a large audience attended the great event but with all the joshing, the loser stuck to his peanut and he had the satisfaction of making a record time in the roll. He made it in less than thirteen minutes.

Dogs At the Church. OTTAWA, Oct. 18.—Rev. E. J. Peck, Anglican missionary from Baffin Land, is in Ottawa to-day. DON'T WANT TO PAY \$10,000. Controllers Undecided as to Appointment of Corporation Counsel.

Who will likely succeed to the position of counsel for the city seems to know. The board of control has taken up the question since the adjournment, but may take action this week. It is known that the board is far from unanimous. Mayor Oliver is backing Mr. Dewar, while Controller Hocken is for offering a salary of \$10,000 to H. J. Drayton, who has already been retained to argue one or two cases for the city. The other controllers lean towards Mr. Drayton, but not at the stipend named. Besides, it is still doubtful whether he would accept even at the \$10,000 figure. In the meantime there is nothing doing and with much important legal work to be done, the situation is growing serious.

\$ GOLD \$ STORAGE \$ DOLLARS \$

GOLD STORAGE DOLLARS

A bank's reserve is figured out in so much gold coined in the gold of the realm, sacked up, sealed, labeled and placed in the vault of the bank.

These dollars—gold storage dollars—are inert. They earn nothing—they mean nothing. They are just as though they were so many red burnt bricks.

Do you realize, DO YOU APPRECIATE, DO YOU ACTUALLY UNDERSTAND what "gold storage" dollars are? They are not only the kind of dollars that make up the bank reserve, but they are also the same kind of dollars you or I may have stored away—stored for "safe" keeping. They are inactive, unproductive, destructive dollars—they are the DRONES of the FINANCIAL BEEHIVE.

Every dollar that you and I have stored away represents so much stored, retarded energy—canned up energy—that should be active. They represent the toil and the labor of the people. The hoarded dollars of the American republic caused the panic of 1907 and caused the shutting down of the factories and the many industries throughout this country. They caused what the politicians were wont to call "Hard Times"—these hoarded dollars were then the destructive dollars.

You hoard dollars because you are afraid of them. Is it right to be afraid of your own money? Do you know that these same hoarded dollars can be invested, can be placed in a remunerative money-earning business—that they represent half or more of the labor of mankind?

During this great panic of 1907 hundreds and thousands of factories closed down. Many industries were crippled from its effects, but the OIL INDUSTRY, the one great industry of the world, kept on; it grew and grew; it expanded and enlarged. OIL DOLLARS were not hoarded; they were kept working, working and ever working. With these OIL DOLLARS more men were hired; they increased salaries; they made more happy families; they made more fortunes than any other kind of dollars. Why? Because Mother Earth was wont to give up her blessings in a manifold manner, in such a way that it offset the financial conditions of the world. This is simply a matter of the financial history of the United States. Did the late H. H. Rogers suffer from the panic of 1907? No. He died a few weeks ago, leaving an estate of \$100,000,000. Other supposedly substantial millionaires have died during this time, but some have not left a cent; but the estate of H. H. Rogers, amounting to \$100,000,000, was made in the oil industry. These are thoughts for consideration.

The great millionaires of this continent, the great philanthropists, have made their money in American oil. To-day many of her fields are exhausted, and to-day Alberta is called upon to create and maintain the millionaires of the future. Do you want to be one of these millionaires? Alberta oil opens the door to this opportunity, opens it wider, freer and more liberally than any other industry that has presented itself.

The OIL industry is a simple operation. So many acres of oil land offer so many hundreds of thousands of dollars to the promoter, that it is to the investors who will place their confidence in an oil proposition in the beginning. Under certain sections of this great province of Alberta are billions and billions of barrels of this precious fluid. It is simply a matter of drilling for it. OIL, like any other industry, offers an opportunity for each and every person to participate in the profits.

To illustrate the above we will present the following statement: Say that you are a farmer and have invested all your money in your present crop, and it requires a certain amount of capital to harvest this crop. You go to your banker and borrow a certain percentage that he thinks your crop will yield. You make a profit on your crop, yet you have paid the banker interest on the money you have borrowed to make this crop profitable. Therefore you have money for yourself and you have made money for the banker. This same condition prevails in the oil industry, only to a greater extent. The company practically borrow money from you to develop the land, but instead of paying you a fixed interest they give you an equal share with everyone in the profits, and the profits of the oil business are greater than in any other industry in the world. These profits go to you as your interest the same as your interest goes to the banker. Therefore, all concerned make money and everyone has gained by the procedure.

Finally, consider well the opportunities I present to you. Consider well your situation in life. Balance each condition and then if you are really thoroughly satisfied, and if you really want to make more money, gain more affluence and get more enjoyment out of this world, then buy shares in the California-Alberta Oil Company.

I only desire to place before you fair and reasonable reasons why California-Alberta oil stock offers the greatest opportunity for investment; I only wish to place before you facts in a concrete and urgent form so that you will appreciate the opportunity before you. However, fearless men at the head of the Mineralogists' Bureau of the Canadian Government depict and have depicted for the past years the fortune-making possibilities of this condition, and now not only our company, the American-Canadian Oil Co. and several others, but even the two great transcontinental railroads are operating in the Morinville district, which in a few months may become as famous as the Kern County fields in California.

No matter what station in life you may be placed in—it makes no difference whether you be a laboring man or a professional, each and every one has an opportunity to invest in this company, but my ardent desire is to ask you to study the situation, to learn something about Alberta oil, to learn something of its future and of its present, then fearlessly and of your own accord do just what you think best.

BEFORE DECIDING TO BUY, READ THIS

I cannot guarantee that they will strike oil, but I say this to you: Their expert, Mr. R. Bradley, personally inspected this territory and selected the land, and he reports that the conditions are identical with those in California, and both he and all the officers of the Company believe there is oil underlying the district in which they are operating, and that its holdings are in a favorable locality for drilling. Reports show that the following indications are present in the district: Large quantities of tar sand, thick beds of asphaltum, heavy flow of oil gas (found by the Canadian Government expert). Therefore, I feel reasonably sure of success, and I strongly believe that the opportunity of investing in this Company is one that you should not lose.

I sincerely believe that this Company is destined to pay dividends as surely as the great American companies have done. Do not delay, but buy now while I am offering a limited number of shares at 15 cents per share (par value \$1.00), payable one-quarter cash and one-quarter monthly.
200 shares for \$30; pay \$7.50 down, \$7.50 per month.
500 shares for \$75; pay \$18.75 down, \$18.75 per month.
1000 shares for \$150; pay \$37.50 down, \$37.50 per month.

Once more I would say to you that even though there is a splendid prospect of your making enormous returns by buying these shares, yet it is a speculation, and I appeal to the man who can afford to look upon it as such. If you are interested and wish further information or a prospectus, see me. I shall be pleased to furnish it.

Henshaw Maddock

I Submit the Following Information in Regard to the Company and of the Territory in Which the Company's Holdings Are Situated.

THE CALIFORNIA-ALBERTA OIL CO.

Capitalization 2,500,000 Shares, Par Value \$1, Fully Paid and Non-assessable. Shares 15c Each.

THE COMPANY'S PROPERTY

The property of the company is located in northern Alberta, Canada, about 20 miles from Edmonton, and consists of 1980 acres, and the fact that vast underlying beds of crude petroleum exist in this territory has been amply proved by the survey made by Director D. M. Dawson of the geological survey of Canada for the Canadian Government in this district in 1897 and 1898.

Land in the vicinity of oil fields brings fabulous prices. Land in the Spindle Top district of Texas was sold for over \$100,000 per acre. In many districts in California land sells for from \$5000 to \$10,000 per acre, and with our large holdings our land alone will bring in huge returns to our shareholders as soon as oil is struck in the district, as it undoubtedly will be this year.

This company, in addition to its large acreage, has this advantage, instead of its lands being in one block it has been taken up by its experts in scattered quarter sections, which in some cases adjoin land where other companies are already drilling, and in one instance they have 480 acres the boundary line of which is only a short distance from the well of the American-Canadian Oil Company, which is down 1900 feet. Thus considerable of its land is being proven at no cost to the company.

FRUIT MARKET.	
The Scott-street wholesale fruit market was rather dull throughout yesterday's session. Trading was generally heavy while an abundance of all commodities was on hand.	
Little alteration of current prices was made. Grapes were the big arrivals and quotations were inclined to ease off, but the general run remained unchanged.	
Following were the current quotations:	
Apples, barrel	\$9.15 to \$9.25
Capitals, basket	0.15 to 0.15
Carrots, dozen	1.00 to 1.25
Corn, green, dozen	0.07 to 0.10
Cucumbers, basket	0.20 to 0.25
Do. pickling, dozen	0.30 to 0.30
Egg plant, basket	0.25 to 0.25
Onions, silver skins	0.30 to 0.30
Onions, pickling, basket	0.30 to 0.30

GRAIN AND PRODUCE.	
Wheat—Options were easier on all markets yesterday following the decline of Saturday. Liverpool cables reported wheat at a loss of from 5/4 to 1/2, while the day's receipts in the northwest were enormous. These factors combined to give the bears the whip hand and at Chicago declines of from 5/4 to 3/4 followed, the market closing near the bottom.	
An easier tendency was also apparent at Winnipeg, wheat options remaining comparatively unchanged locally. No. 2 C.W. oats lost 1/2, while corn was also fractionally easier.	
Wheat was slightly easier at Chicago and Winnipeg, but no change was made in the current quotations locally.	
Flour continues firm and an upward movement is evoked for almost immediately.	
Local grain dealers' quotations are as follows:	
Manitoba wheat—New No. 1 northern, \$10.25; No. 2 northern \$10.2, track, lake ports.	
Oats—Canadian western oats, No. 2, 27c; No. 1, 28c; Ontario, new oats, 37c to 27c, at points of shipment.	
Wheat—New, No. 2, wheat, 96c to 81c; No. 1, 96c to 81c.	
Barley—New, No. 2, 56c to 75c; No. 3, 52c; No. 4, 54c to 55c.	
Manitoba flour—Quotations at Toronto are: First patents, \$5.10; second patents, \$5.10; strong bakers, \$4.90; soft second patents, new, 25c bid, c.l.f. Glasgow.	
Mill Feed—Manitoba bran, \$2.50 to \$2.2

Telephone Mr. Lye at North 2520.

Chicago Gossip.
J. P. Bickell & Co. say at the close of the market:
Wheat—Lower. Weak foreign cables and very liberal receipts of spring wheat, mistakenly excellent and indications are bullish inclined helped the market, whenever it was strong. The cash corn and locally was quiet.
Corn—The market received its strength from the continued desire to buy December, broadly, has not changed. Cash wheat

Our Simplicity Suits Have Passed with Honors

No scholar has undergone a more searching examination this past season than has been experienced by our Suits. We have asked for criticism and thrust the Simpson Suits into the white light of publicity. What has been the result of the examination?

This is the \$16 Suit Referred to, Illustrated Carefully from a Living Model

PASSED WITH HONORS!

Full marks have been awarded upon all points—style, quality, tailoring, fit and finish. And a rider has followed containing the remark, "We don't see how you can do it at the prices you charge; also we especially commend your idea of Simple Tailoring."

If you want to see a typical "Honor Suit" ask to see the \$16 Suit described in the following paragraph:

Strictly tailored Suit, of good quality English serge, medium long coat, lined with twill mohair, trimmed with buttons on pockets, cuffs and back vents, skirt is pleated on side gorges, colors are brown, navy, grey and black. **Wednesday, \$16.00**
