Careful Precaution Taken.

The correspondent of the Associated Press called at the jall this morning, but he was refused permission to see the prisoners or even to interview the prison authorities. The warden at the gate, which he opened sufficiently wide to reveal inside soldiers with rifles and machine guns, explained that only relatives of the prisoners were permitted to enter.

Cork jail is an ancient stone pile. A machine gun peeped thru the narrow window commanding the entrance. On the tower, rising from the middle of the prison, was to be seen a soldier with a bayoneted rifle pacing up and down. With the Bloom of Sunny Fields in Their Cheeks --- Bubbling Over With Holiday Health

REMEMBER how the children enjoyed that cooling, refreshing drink of rich, fresh milk after their romp in the hot, sunny fields and meadows?

That nourishing drink did them the world of good. It was food in itselfpleasant, healthful, satisfying.

Now that they are back in the city they need this same rich milk. Need it to help retain their summer's health, fortify them against the dangers of winter.

Order an extra supply of Farmers'

Dairy Milk. Give it to the kiddies at meal times-as a between-meals drink.

For Farmers' Dairy Milk comes from the finest farms in Ontario, from regularly inspected cows. It is rich in butter fatjust like the milk your children enjoyed so much in the holidays. And it is made safe by scientific pasteurization in the most up-to-date dairy in America.

Remember-no child ever had too much milk. And it is the cheapest food you can buy.

WEDNESDAY MORNING, SEPT. 8.

A Quack Remedy.

Premier Drury, in a rather remark. able speech to the representatives of municipalities at the city hall the other day, dwelt upon the "alarming" growth of the cities, and the decreasing population in the countryside. He even went so far as to suggest that the growth of the cities be checked, if possible, by killing off Hydro radials, and by charging them more for electric power. He argues that the growing and prosperous city, by offering employment to ambitious or dissatisthis country, and Chairman mond the depopulation of rural districts. Human nature must be reckoned with in all legislation, and the movement from country to town is based on some principle of human nature which not even Mr. Drury can overcome by order-in-council, or any possible legislation. He may do much to make rural life more attractive, but he will get nowhere by deliberately attempting to destroy the prosperity of our industrial centres.

Let Mr. Mond Pay All His Taxes in Canada.

Rather bland was that address recently delivered to the stockholders of the Mond Nickel Co. in London by from Mayor Church. Robert Mond, and even blander is the editorial comment of The Canadian Mining Journal. Chairman Mond reported business good, and the purchase by the company of three big mills in Birmingham, England, including a wire-drawing plant and a refining plant. He complained, however, that the profits of the company and his own income were taxed in too

This company owns three works in Birmingham, well equipped with rolling mills, wiredrawing plant, refining plant, and other machinery. The chairman stated that there was an increase of over half a million dollars in nickel stocks in the company's possession, and that production had been curtailed owing to lack had been curtailed owing to lack of outlet. The company was doing everything possible to increase the industrial uses of nickel by mak-ing such goods as sheets, nickel coin, wire, and blanks, the puring a part of this policy.

"You had better deal with the matter yourself, sir," he said. "There'll be no difficulty. Nearly all the Elmdale farms are freeholds, most of 'em with common rights on the moor. Why, when one of 'em changes hands, the buyer has the right to take over all the sheep footed on the seller's part of the moor. P'raps you don't know what footed' means. Sheep will always go back to the place where they were raised, and the habit is useful when they stray over an open moorwhen they stray over an open moor-land. So, you see, all you have to do red-faced and laughing, and a bundle land. So, you see, all you have to do is to get permission from two or three farmers, and you can fish for miles."

He tried to talk of the Garths, particularly of the pretty daughter, but his hearer's attention wandered; obviously information as to the ways and harits of the local yeomanry was more to Mr. Armathwaite's taste than a "nut's" gushing about a good-looking girl.

Tred-faced and laughing, and a bundle of keys jingled in one hand.

Within an hour, after five miles of fair roadway and two of a switch-back mostly rising. Walker pointed with his wip to a thin line of red-tiled houses, here and there a thatched roof a gill. or ravine, which pierced the side of a gaunt moorland. Above the hamlet, at the eastern end, rose an old-fashioned stone house, square, with a portico in the centre, and a high-pitched roof of stone slabs.

"There's Elmdale." he said, "and that's the Grange. Looks a God-forsaken hole, doesn't it, sir?"

"If you pay heed to the real meanings of words, no place on earth merits that description," said Mr. Armathwaite.

Walker was no whit abashed.

"Well, no," he grinned.

"And, blow me, if she didn't pretend she'd mislaid the keys! We wouldn't have got 'em for a deuce of a time it I hadn't twigged 'em hanging on a nail, and grabbed 'em. Then she gave me my name for nothing, I can assure you."

"Yet you recommended her for the post of housekeeper," said Armathwaite, smiling.

"Yes, sir. She's a rare good cook, and tidy, too. Can't make out what's come over her. She was fair scared to death."

Walker's statement as to Mrs. Jackson's behavior was by no means high-tothe dog-cart, the old woman had hurried into the back garden.

"Betty!" she shrilled. "Betty, where you?"

A head in a poke-bonnet rose above a clump of tall gooseberry bushes.

Armathwaite.

Walker was no whit abashed.

"Well, no," he grinned.

"I ought to have asked sooner, but have you brought any keys?"

The agent instinct warned the other that his choice of an adjective had been unwise in more ways than one.

"That's all right, sir." he said cheerfully. "The keys are kept in the vil-

U. S. Consul Speaks of Favorable Situation for Trade Intercourse.

The American consul, Chester W. Martin, and several other United States citizens were the guests of the Exhibition directors at luncheon yesterday. Sir Robert Falconer also de-livered an address of welcome to the can visitors.

Mr. Martin congratulated the directors on the success of the great national fair, which, he said, might very well be called the international fair The favorable situation of Canada and the United States for intercourse was also favorable for trade relations. The United States had taken 50 per cent of Canada's exportable production in the last six months, and a large per-centage of this production entered the United States duty free. The United States, on the other hand, found Canda its best market on the western

McConville had vividly described the killing of McDowell and his own treatment by the armed men whom he said had stolen the money intended for the company's workmen.

IN DOMESTIC ART

Splendid Display of Children's

What is being done along the lines of domestic art in the public schools is being well demonstrated in the school section of the women's building at the Exhibition. Here practical illustration is given by different schools, pupils of which are seen engaged on sewing and in cooking, just as these arts are taught and practised in the classes during the school term. Yesterday girls from the Jesse Ketohum School made a pretty domestic picture as they sat about a table sewing on various articles of wearing

sewing on various articles of wearing apparel. Every little worker wore a white muslin cap, which she had made herself. One little girl of about 11 was wearing a dainty pink chambray dress, trimmed with white.

wearing a dainty pink compray dress, trimmed with white.

"This little girl made the dress she is wearing at home," said Miss Margaret Davidson, superintendent of the work in the schools, as she placed her hand on the earnest young worker.

"Did your mother cut it out for you?" asked the visitor, who was not a little supprised when the child replied: "No, I cut it myself."

A second and larger girl was wearing a black serge dress, with neat white collar and cuffs. This also was cut out and made by the wearer. In the cases hung samples of grey flannel petticoats, bound with buttons hole stitch in red wool and with neat waists, finished with buttons and button-holes—all the work of children. the décision arrived at by the separate school board at their meeting held last evening.

There was considerable discussion about the matters in dispute, and whether the board should take the matter up with some other contractors than Holmes & Sons, and have resort to the courts to settle the question, brought forth many different views.

Owing to the delays which have taken places, Holmes declined to proceed with the work, and, according to estimates, between \$13,000 and \$14,000 additional cost will have to be faced. An endeavor will be made to have this materially reduced to the board.

A proposal to increase the salary of Brother Rogation, the board's inspector, to \$2500 a year was referred back to the finance committee. Mr. Belford said it was not a question of the minds of those engaged in improving they were faced with a loss of from \$25,000 to \$30,000 this year.

Akron Kick Ball All Over the Lot-Kauff and Gonzales Star.

Akron opened their last series of the Toronto season at the Island yesterday, and performed as if they had something for lunch that did not agree with them. Baseball it was not, and as a result the Leafs waltzed home win-

ners, 9 to 2.
The Leafs swung their clubs in telling fashion and threw in some articles to take the edge off the poor work of the visitors. Benny Kauff was an outstanding hero. Benny's surprise was a hit to left. It so shocked the Akron crew that it bounded over Purtell's head, went to left and the fielder crossed it the wrong way the ball nead, went to left and the fielder crossed it the wrong way, the ball rolling to the track and Ben making the circuit. His second tid-bit was a race to right field, a high dive and down he came with Purtell's smash. Gonzales speared Shannon's liner in the eighth for another fine piece of work. On top of this, the Duffyites gathered an even dozen hits.

Francis Ouimet, former onen and amateur champion: Bobby Jones, Atlanta, Ga., the youthful prodigy; J. W. Sweetser, Ya'e, intercollegiate champion, and F. J. Wright, jr., the young Massachusetts champion, also won their matches. Chick Evans and Fred Wright raised the hopes of their many followers by excellent cards that broke records. Evans' card of 70 was the best that has ever been turned in in amateur competition on the Engineers' course, and has been equaled only by the club professional. Wright went out in his afternoon round in 34, a record which was equaled by Ouimet last week in fourball competition with the team representing Canada. The winners are paired for the second round tomorrow, as follows:

Mian National Exhibition yesterday afternoon before a large growd of spectators despite the fact times. Not a drop of rain fell, however, and the sun shone brightly for the greater part of the afternoon condition. The socialistic distribuing a brand. Scratches in both the events, the 2.20 trot and the 2.30 pace, being partly responsible for oth races. In addition the manner in maich High Note towered over her seld in the pace removed any thrill from that race so far as the winner concerned.

Jockey Club's mandate of rules. Gossett Bird entered the stretch a length in advance of Clara, but the latter passed up an excellent opportunity to land a second premium by breaking mid-way. Wilson Todd passed her, but Wyatt managed to square Clara just in time to trot under the wire ahead of Ayliffe Main, who was fourth. Nannie Extellion did not recover from her break in time to save distance.

Usually a titanic struggle at this fair, the 2.30 pace was the least interesting affair of the two days that have elapsed of the race program. Seemingly none of the drivers were at all anxious over the result else shey surely would not have been so considerate of the public as to score down on a veritable straight line the first time in two of the heats. However, it mattered little whether the start was perfect or not, so far as the winner was concerned, for High Note had the speed of the class and took the clead at will. In the first heat Tony the Hero, the breedy-looking gelded grey son of Hal B., jr., scoring in second position, had the pole from Flossie K., at the turn. Tony, Flossie and High Note passed the half in single file, but the last named raced into the lead going up the back stretch and won at will.

In the second heat Tony the Hero had the pole, which he retained until the three-quarters. High Note lasked was last of the pole from the head in the pole, which he retained until the three-quarters. High Note lasked was last of the pole from collected a banner.

Derby Winner is Favorite For the St. Leger Today

London, Sept. 7.—(By Canadian Press.)
—Who will win the St. Leger tomorrow? That is the question freely debated today among Yorkshire "tykes" and the great racing fraternity gathers and the great racing fraternity gathers and the great racing fraternity gathers over one mile and three-quarters, is confined to three-year-old entire colts and fillies, and is known as the last of the five "classic" races, the others being the Two Thousand Guineas and Derby, for three-year-old colts and fillies, and is known as the last of the five "classic" races, the others being the Two Thousand Guineas and Derby, for three-year-old colts and fillies, and is known as the last of the five "classic" races, the others being the Two Thousand Guineas and Oaks, for fillies only. It is the oldest race in the world, antedating both the Derby and Oaks, having been run continuously since 1776, but in the war years, from 1915 to 1918, inclusive, it was run at Newmarket as the September Stakes, there being no racing at Donaster.

The notable thing in the St. Leger market is the strong part played by Mr. Housman's Orpheus whose odds have shortened to 3 to 4 with the consequent result that the more liberal price of 3 to 2 is quoted for the favorite, Spion Kop. Orpheus is a bay colt, very well bred, being by Orby, the Derby winner of 1907, out of the famous mare, Electra. Orpheus ran in the Derby as a 20 to 1 outsider, but finished a creditable third to Spion Kop and Archaic. He ran badiy at Ascot, but his form then was admittedly all wrong, and he has won in good company since.

Silvern, who is also going strong in the market, is an uncertain performer, but he is a proved stayer with undoubted seed speed if he makes up his mind to sive his best form in the great race tomorrow. tomorrow. Black Gauntlet, winner of the Hardwicks Stakes at Ascot but has had no engagement since, is well fancied by his stable and perhaps is the greatest danger the favorite has to meet. The Derby winner, Spion Kop, has been beaten more than once this season, but if he wins the Leger, the last of the five classic races, he will then seal his claim to be the best of the three-year-olds of the year—rather moderate lot that they are.

Betting on the St. Leger yesterday was: Spion Kop, 9-4; Orpheus, 9-2; Silvern and Braishfield, 8-1; Black Gauntlet, 100-9; Alder, 160-8; Allenby and Abbot's Trade, 20-1.

After the Devonshire meeting closes today, a number of stables now racing at that track will ship direct to Thorn-cliffe Park for the meeting at that course, which opens a week from Friday. Included in the shipment from Devonshire will be the strings belonging to E. W. Moore, W. L. Drake, H. Neustater, J. C. Ferris, T. Bornham, F. Garrett, D. Hammond, J. O'Brien, F. Musante, J. M. Booker, J. Arthur, R. F. Grefer, W. M. Califf and F. Stanton. Secretary F. S. Livingston of the Thorn-cliffe Breeding and Racing Association returned yesterday from a visit to Devonshire, and reports that, in addition to the foregoing stables, a number of others will likely ship here. Then he has had inquiries from the horsemen at Ottawa and Montreal regarding stabling room.

FAVORITES BEATEN

Margaret Dillon Winning The Lansdowne Handicap and Only After Three-Heat Battle at Hartford.

Hartford, Ct.. Sept. 7.—Three of the four favorites on today's Grand Circuit card at Charter Oak Park were defeated, one of them for the first time this season, and Tommie Murphy furnished two of the upsets. In the 2.06 trot, Tootsie Toise, unbeaten on big line tracks, was forced to accept third money, being topped in the summary by Dr. Nick, the winner, and Selka, Dr. Nick's great speed on the way home brought him from the rear, as the half-mile post was passed, to the front at the wire in each heat. Red Russell took his second race of the season in the 2.10 trot, defeating the favorite, Lady Wilgo, twice in the stretch. Favonian and Bogalusa hitched up in three thrilling heats, the latter taking the first, but lesing the next two to Edman's mount. The third heat was particularly close, the fans being divided as to the winners, while many thought it a dead heat. The race recalled the great St. Frisco-Mabel Trask battle in 1916.

The only favorite to come thru was Margaret Dillog was forced to interest in favorite to come thru was Margaret Dillog was forced.

The only favorite to come thru was Margaret Dillon, undefeated pacer of the season, and she won only after a three-heat battle with Esther R. and Peter Elliott. Munroe's mount took the first heat by a head from Esther R., and broke in the stretch in the second, Peter Elliott winning a close finish from Murphy's pacer. In the third heat, Munroe took Margaret Dillon to the front and held a comfortable lead all the way around.

Upon receiving orders from their union, striking metal workers at Milan have released engineers who had been kept as hostages. It is reported the prisoners were treated with the greatest deference. At Florence, the strikers have formed themselves into musical bands in order to relieve the monotony of their imprisonment, while in some factories, men amuse themselves with phonographs.

Many of yesterday's transactions were are few speculative transactions. Pennamin's shot up from 135 to 140, but these shares are so little dealt in that it was not regarded as much of a market feature.

The extended holiday gave no added business or strength to the local mining market. The Dome-Dotae Extension amalgamation, was anticipated, and was therefore not a new factor. Dome remained about unchanged, but Dome Extension reacted to 37, due to speculative realizing from those who sold on the theory that with the best news out any price discounting was finished. The market was about as dull as it could well be, and warrant a session the day's sales being only about twenty-five thousand shares. Prices where sales were made represented no change from Friday last or were too insignificant to define any new trend. The market is still drifting, with almost no speculative interest and will only be aroused by some movement that will warrant increased activity.

most of the issues showing material net gains.

Spanish common was most active, and the price touched 118½, while the close at 117 represented a gain of a point. The preferred made a maximum gain of 3½ points, at 128, but lost two points of the advance in the close at 126. Abitible advanced two points, to 80, and closed at 79. Laurentide moved up 2½ points, to 118, and netted a point, at 116½, at the close. Brompton moved up a point, to 73, in the early trading, but closed unchanged at 72. Riordon common sold again at 200, but the preferred added 1½ points, at 92, and Wayagamack reached 135, and reacted to 182½, a net gain of the fraction.

Outside of the paper group, Brazilian and Quebec Railway were most active. The steel stocks were irregular, with Dominion and Ontario gaining a point each, and Steel of Canada losing a fraction.

TORONTO STOCK EXCHANGE. New York, Sept. 7.—Developments and general advices over the long holiday were favorably interpreted by the speculative element, judging from the early course of today's stock market. Dealings were active and broad, but there was little to justify reports of any pronounced increase of public interest.

Publication of the terms of the new Frenca loan, which constitute the largest financial undertaking of the year; the better statements of the federal reserve and clearing house, banks, and an increase in the dividend on Mexican Petroleum, were among the propelling forces of the day.

DAMAGE SUFFERED BY SPRING WHEAT

Government Report Today Expected to Be Bullish-Prices Are Higher.

Chicago, Sept. 7.-Exporters were good wheat, and there was a consequent advance in prices. The market closed firm, 1½c to 2½c net higher, with December \$2.41 to \$2.41½, and March \$2.38. Corn

ture deliveries of wheat took place despite advices telling of an apparent absence of export demand at the seaboard and notwithstanding rather liberal receipts. One of the outstanding builtish factors was a generally accepted opinion that the United States government crop report tomorrow would sharply reduce the estimated yield of spring wheat. Besides, northwestern authorities sent reports indicating considerable damage to grain in stook. Knowledge that the yislble supply total had increased to a moderate extent was offset by announcement that clearances for the last three days amounted to upward of 2,000,000 bushels.

Unfevorable weather counted against the bears in corn. The September de-livery was the only one that appeared to be at all affected by the continued liberal receipts. Oats trading was light, and mainly governed by the action of corn.

Provisions averaged higher in sympa-thy with hogs. Packers sold on the

The advance in quotations here on future deliveries of wheat took place de-

erally firm, particularly in the west. The eastern markets have been a little easier in tone, due to the slight easing up in the export demand. Some 6,335 cases were inspected and passed for export during the past week. Most of these week sold at 70c to 72c f.o.b. seaboard. Exporters claim there is no profit under 73c. Ontario track shippers report 3,000 paying stores 53c to 51c for current recipits and selling firsts at 69½c to 70c to 75c; extras 67c to 68c; firsts 60c to 53c; seconds 50c to 55c. Poultry receipts heavier, but prices firm.

Chicago firmer; current firsts 51c to 52c; storage firsts 55c.

New Zealand is Not Anxious To Encourage Immigration

London, Sept. 7 .- A mailed story migration from the mother country finds no enthusiasm except among politicians. One New Zealand paper asserts that a large proportion of the emigrants, whose passages were partly paid, are already indigent, and that they are only the vanguard of the 13,000 whom it is proposed to ship out in the country with his plane, which differed from the planes he had previously used.

Most of the grain in this district has passed the danger 'stage. This has been an excellent fall, and not in many years has damaging frost stayed off so long. The bulk of the cutting in the Edmonton district is completed, something over 60 per cent. Cutting is finished in the south, and in the central portion of the province 70 the central portion of the province 70 to 80 per cent. has been harvested. The estimate for the north is 50 per cent. In the south and east of the province, threshing is going on. There is a little in this district, but it is not general as yet.
