TWELVE PAGES—ONE CENT

ELEVEN THOUSAND GERMANS ARE KILLED IN TWO DAYS OF FIGHTING

Fearful Slaughter in Terrific Battle With Russians Dead and Dying in Great Heaps Between Trenches-- More Devilry by Kaiser's Men Reported

London, Feb. 10--The London Daily Mail's correspondent with the Russian armies in the field telegraphs that, according to Russian informants, the Germans in two days, about Gumine, where the fighting was hottest, lost 11,000 dead.

Prince Woronisky, of the Red Cross Society, told him, he reports, that the slaughter was the most appalling he had seen on the whole eastern front.

"First the Germans changed," said the prince, "then they were driven back by the Siberian troops. Each charge added hundreds to the pile of victims, which extends in a regular line from Bolimov to Sokachev.

"Our work," he continued, "has been hampered by the latest German devilry--treating their explosives with a preparation which poisons the wounded and leaves an acrid odor."

ALLIES ATTACK ADRIANOPLE Mitylene via Paris, Feb. 10--Several English and French seaplanes flew over Turkish Thrace yesterday, according to a despatch from Tenedos.

RUSSIAN ADVANCE IN HUNGARY Geneva via Paris, Feb. 10--The Russians are marching into Hungary by the valleys of the Theiss and Ung Rivers, according to advices received here.

ZEPPELIN CREW DROWNED Geneva via Paris, Feb. 10--It is reported at Friederichshafen that the entire crew of a Zeppelin, which has been missing for four days, was drowned when the airship fell in the North Sea off the coast of Denmark during a storm.

SAYS GERMAN LOSS IN BATTLE WITH RUSSIANS 50,000 London, Feb. 10--The Russians estimate that the Germans lost 50,000 men in the battle which ended Sunday, says a despatch received today from the Petrograd correspondent of the Star.

FAIL TO SETTLE OHIO STRIKE Labor Trouble Which Started Last April Will Continue

Cleveland, Feb. 10--Hope of a settlement of the strike of 15,000 coal miners in the eastern Ohio field was abandoned last night, when negotiations between miners and operators in the presence of government conciliators, were finally broken off.

AUSTRIA WOULD SEND GRANDFATHERS TO FIGHT Women Object and There is Difficulty in Mobilizing Lansturm

Geneva, Feb. 10--Austria is experiencing great difficulty, especially in mobilizing the lansturm of the classes from the years 1878 to 1890, which were recently called to the colors.

WEATHER BULLETIN Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service.

PEACE TALK PREVIOUS TO MARNE FIGHT

Paris Paper Says Party Wanted To Make Terms MOST OF CABINET OPPOSED

After The Great Fight Germany Made Proposals and The Answer Was a Convention by The Allies Not to Make Separate Peace

Paris, Feb. 10--Certain French newspapers today reprint, with the consent of the government censors, an article published in the Democratic del Debut, stating that previous to the battle of the Marne, a party existed in France, ready to sign a peace, at the same time ceding to Germany the towns of Briey and Nancy, French Lorraine, the Island of Madagascar and the Protectorate of Morocco, as well as paying an indemnity.

The article continues: "General Joffre, the French commander-in-chief, President Raymond Poincaré, and most of the cabinet ministers were opposed to the plan, but the situation became so tense as to necessitate the resignation of Adolphe Messimy, minister of war, and the formation of a ministry of national defence.

"General Joffre, the French commander-in-chief, President Raymond Poincaré, and most of the cabinet ministers were opposed to the plan, but the situation became so tense as to necessitate the resignation of Adolphe Messimy, minister of war, and the formation of a ministry of national defence.

"General Joffre, the French commander-in-chief, President Raymond Poincaré, and most of the cabinet ministers were opposed to the plan, but the situation became so tense as to necessitate the resignation of Adolphe Messimy, minister of war, and the formation of a ministry of national defence.

"General Joffre, the French commander-in-chief, President Raymond Poincaré, and most of the cabinet ministers were opposed to the plan, but the situation became so tense as to necessitate the resignation of Adolphe Messimy, minister of war, and the formation of a ministry of national defence.

"General Joffre, the French commander-in-chief, President Raymond Poincaré, and most of the cabinet ministers were opposed to the plan, but the situation became so tense as to necessitate the resignation of Adolphe Messimy, minister of war, and the formation of a ministry of national defence.

Egypt's Most Picturesque Spot--Where War Clouds Gather

The most historic, peaceful and picturesque spot in Egypt--picture showing the Great Pyramids, with ruins of an ancient granite temple alongside, and at the extreme right the famous Sphinx. In the foreground are Egyptian types with camels and donkeys, living just as their ancestors did in the time of Christ on earth.

GERMANS SAID TO HAVE PUT BOER LEADER TO DEATH

Maritz Executed For Treachery is Report Published in Pretoria

Pretoria, Union of South Africa, Feb. 10--Certain newspapers of Pretoria have published a report that Lieut-Colonel S. G. Maritz, a Boer officer who has been at the head of the rebellious movement in South Africa, has been executed by the Germans for treachery.

Maritz's execution was supported by the Germans of German Southwest Africa. There is no official confirmation of this report.

OFFICIALLY DEAD; IS LEGALLY RESURRECTED

Strange Case of Ottawa Man Who Was Thought to Have Passed Away

San Bernardino, Cal., Feb. 10--J. J. Palmer of Ottawa learned today that in the eyes of the public court he is dead and has been dead since 1904, according to the court records.

Palmer died before Judge Dewhirst that he died in 1904. He arrived in time to find that his estate was being prepared to pass to his heirs if any could be found. The court ordered the proceedings dismissed as an error.

A man named John Palmer died here recently. The public administrator appointed for letters of administration and listed property owned by J. J. Palmer and that name was used in the probate documents. When Palmer recently returned here from Canada, he discovered that the Pacific Electric Railway had built a line through his property, and he sued for \$3,500 damages. But court records on file say Palmer is a dead man and cannot sue, so Judge Dewhirst ordered him legally resurrected from the dead.

NEW MATRON IN COURT

Executes Girl Who Was Arrested on Theft Charge

Grace Meritt, aged seventeen years, was arrested last night by Detective Killen and Lucas on a charge of entering the home of Miss E. S. Emery, 66 Sydney street, and stealing wearing apparel valued at \$30. She was suspected of having forced an entrance through a rear window.

The preliminary hearing was commenced in the police court this morning. Miss Emery testified about missing the articles and also about having the defendant in her employ. She identified the goods produced in court as her property. At the conclusion of the evidence the girl was remanded.

The prisoner was brought into court by the new matron, Miss M. Christine Ross, who took charge of her upon her arrest last night. The girl seemed to appreciate the companionship of the life-long resident of Milford, and is one of the most highly respected in the community.

TODAY IN PARLIAMENT

Ottawa, Ont., Feb. 10--The budget is fixed for tomorrow and the war appropriation resolution may come today, or this week, in any event. It is the first time in which all the more important business of a session has been put before the house within a few days of the opening. While there may be developments to upset the calculations the present situation justifies strongly the hope of propagation by Easter.

Prominent Mason Dead

London, Ont., Feb. 10--Charles Flanagan, one of the most prominent masons in the province, died last night at his home in Paris.

Strenuous Work In East; More Quiet In West

Germans and Austrians Make Desperate Efforts to Advance--Some Success in Carpathians--Chiefly Artillery Fighting in Belgium and France

London, Feb. 10--The eastern battlefield completely overshadows the western fighting line today, as the centre of interest in the military operations. The Teutonic allies are making desperate efforts to advance especially in the region of Galicia to the South of Przemyśl and Lemberg, where attempts have been made to gain positions by sheer weight of numbers.

The general offensive movement of Austro-German forces along the Carpathians has been successful at the eastern end of the range, where the Russians are retreating into Bukovina, but London military experts are of the opinion that the Austrians must force ahead a long way in this direction before they can hope to affect the general Russian position.

The vital point is Dukla-Pass, where a short advance by the Russians would compel the Austrians to look anxiously to their communications. At present the battle in the region of Dukla Pass has all the aspects of a draw.

London, Feb. 10--The Chronicle's correspondent telegraphs from Czernowitz that there has been severe fighting during the last few days along the whole southern Galician front. The Russians are holding a long line near the crest of the Carpathians. The Austro-German army attacked the Russians at three points, and battles of a desperate character followed.

The enemy, although numerically superior, failed to break the Russian lines. Repeated attacks were repulsed with heavy losses.

SUCCESS REPORT RUSSIANS

Petrograd, Feb. 10--Important success for the Russian troops in Galicia, Hungary, East Prussia and Northern Poland, are claimed in an official report from the general staff. These may be summarized in this manner:

1--In Galicia, the Russians have repulsed twenty-two separate attacks made by the Austro-German forces at Kozlowa, about sixty-five miles south-southwest of Lemberg. The Germans suffered heavy losses, their dead littering the slopes of the heights at Kozlowa, which they captured but lost again.

2--In Hungary the Russians forced their foe to retreat in the region of Bartfield and Svidnik, fighting continues there. In the vicinity of Lopkow Pass in the Carpathians, the Russians captured more than 5,000 soldiers and eighteen machine guns.

3--In East Prussia the Russians repulsed German attacks in the region of Ladehnen, northeast of Insterburg, and exterminated almost an entire battalion.

4--In Northern Poland, Russian cavalry concentrated in the region of Ry-pin has held in check an offensive movement by the German.

FRENCH SUMMARY

Paris, Feb. 10--The French official report this afternoon reads:-- "The day of February 9 saw virtually only artillery engagements along the front. At some places this fighting was fairly spirited, particularly on the Aisne and in Champagne. Only one infantry engagement, and this of little importance, has been reported. It occurred in Lorraine, to the northeast of Manotville, where one of our detachments drove back some outposts of the enemy on to the town of Leintrey."

JEREMIAH DRISCOLL OF MILFORD DIES SUDDENLY

The residents of Milford were shocked today when they learned of the sudden death of Jeremiah Driscoll, which occurred about noon. He was around this morning as usual delivering some groceries, and while on his way back to his shop took a weak spell and was assisted into the home of a friend. A doctor was summoned, but was unable to save the life which was fast ebbing away. Mr. Driscoll is survived by five daughters--Mrs. Michael Logue, of Boston; Mrs. Maria Delaney, of Kingsville, N. B.; Mrs. Patrick Joyce, of the North End; Miss Margaret, at home, and Miss Ada, of Boston. Mr. Driscoll was a life-long resident of Milford, and is one of the most highly respected in the community.

Crushed to Death by Tree

London, Ont., Feb. 10--Roy Mortland, aged twenty, was instantly killed when a tree he was cuttling fell on him. His home is in Simcoe.

BY ORDER OF THE COMMON COUNCIL OF THE CITY OF SAINT JOHN

PUBLIC NOTICE is hereby given that a bill will be presented for enactment at the next session of the Legislature entitled "An Act in further amendment of 'The Saint John City Assessment Act 1909' and to amend the laws relating to civic franchises."

The object of the bill is: 1. to exempt all incomes from personal labor and occupation up to and including \$1000 per annum; also to exempt \$500 of each such income above \$1000, and not exceeding \$2000.

2. to impose a poll tax of \$2.00 and no more upon all persons whose incomes are totally exempt from taxation.

3. to exempt all household furniture from taxation where the value does not exceed \$500.

4. to provide that the last day in which the Common Council shall have power to determine and direct ward assessments shall be levied in the City of Saint John shall be the 30th instead of the 15th day of January in each year.

5. to provide that the poll tax of \$2.00 shall give the same right to vote at civic elections which the \$500 poll tax now does.

HERBERT E. WARDROP, Common Clerk, 6th February, 1915.

GUARD THE RAILROAD BRIDGE AT CALAIS

Some Excitement Caused There—The Suspicious Actions of a Stranger

Calais had a taste of war excitement on Friday evening, when it became known that the night crew of the Maine Central railroad had been ordered to remove all cars from the bridge which spans the river between the Salmon Falls and the cotton mill, used by the C. P. R. in transferring cars from the Maine Central to its own line at St. Stephen.

Guards were also placed on the bridge and around the cotton mill to prevent damage to either structure.

A stranger had been seen taking notes in the neighborhood of the Salmon Falls bridge from the American side of the river during the day. He was described as peculiar looking, evidently a foreigner, and the fact that he appeared anxious to learn all he could about the bridge and mill aroused the suspicions of those with whom he talked.

The day following the Vancouver incident a stranger, who was evidently a German, engaged a Calais barber shop and asked to be shaved. All efforts of the barber to engage him in conversation were fruitless, and the stranger became an object of suspicion. Whether or not he is the man seen at the Milltown bridge on Friday cannot be stated positively, but the description answers.

The bridge at the Salmon Falls is an important link between Maine and New Brunswick.

RUNAWAY GERMAN IS SEEN IN MAINE

One of Those Who Escaped From the Citadel in Halifax

(Bangor Commercial.) A young man who says his name is Rudolph Stieren and who says he is a German deserter and one of several prisoners who recently escaped from a Canadian prison near Halifax, left Dover-Foxcroft on last Friday afternoon for Boston over the Maine Central railroad.

He expected to reach Boston on Friday evening and said he would be met by fellow-countrymen who would look after his interest in the future.

Stieren was interviewed by a Commercial reporter. He said he arrived in Bangor on Thursday afternoon on a freight train over the Bangor and Aroostook railroad. He says that last week with several other German prisoners in a prison near Halifax he escaped and managed to make his way into Maine by Macanac Junction. He became a member of a gang of tramps and managed to beat his way to Henderson on Bowdoin Junction. He with two other men who he says were Americans reached Mill Junction on Thursday morning. He says he was advised to take the first freight train northbound and therefore caught onto a freight train headed into Dover-Foxcroft.

Stieren says he was an engineer on the Mount Royal job at Montreal until September, when he was rounded up by Canadians with other German residents and with little ceremony taken to Halifax, where they were imprisoned in a prison.

Stieren disclaimed any knowledge of Werner Horn.

A record number of naturalizations took place in Australia during August as a result of the war. The total of 1,971 included no fewer than 1,098 Germans and 123 Austrians.

Many of the most recent drafted German troops are provided with electric heaters small enough to be carried in the pocket and operated by a dry cell.

RECENT DEATHS. Alma, Feb. 8—Mrs. Elizabeth Collins, widow of Joseph Collins, died here today. Interment will take place Wednesday. The community extends sympathy to the bereaved relatives in their sorrow.

Mrs. David Plett died at the home of her daughter, Mrs. Calvin Kinnear, in Moncton, on Tuesday, aged ninety-three years. She was born in Richibucto, but lived some time in Boston, as well as in Moncton.

Mrs. Isaac Porter, aged seventy-three years, died on Monday at the home of her daughter, Mrs. O. C. Moore, of Riverside. She left four sons and two daughters.

Frederickton, N. B., Feb. 8—Mrs. Ludlow Yerca died tonight after a lingering illness aged seventy-six years. She is survived by her husband, caretaker of the Fredericton Post Office; one son, Albert of Boston; and two daughters, Mrs. F. C. Hartley of Truro (N. S.); and Mrs. J. H. Richard of this city. The body will be taken to Keewick Thursday for interment.

Children Have Kidney Trouble

Three years ago my little girl, Angela, was taken sick with scabiet fever and later dropsy set in; her face and limbs swelled and her eyes puffed. A leading physician here at the time treated her without the slightest success. A sample of your Swamp-Root having been left at the house at the time, I resolved to try it, and as it agreed with her stomach I continued using it with gratifying results. The inflammation began to subside after she had taken the first fifty-cent bottle, and after she took two large bottles she was pronounced cured by the doctor and has been in good health ever since. The doctor came to see her every day and examined her every second day until he pronounced her kidneys in perfect condition.

Now then the doctor was under the impression that I was giving my girl his medicine, but as his medicine had failed to do a bit of good, and desiring not to offend him, I did not tell him I was giving her Swamp-Root and he did not know the difference. I did not use one drop of his medicine after I started my girl on Swamp-Root, and have always felt that Dr. Kilmer's Swamp-Root saved my girl's life, for which I am grateful. I cannot praise it too highly.

Very truly, MRS. MARY BYRNE, New Brunswick, N. J. State of New Jersey County of Middlesex

Yd1. A. v. b. Mrs. Mary Byrne, being duly sworn by me, according to law, on her oath affirms that the above statement made by me is just and true. MRS. MARY BYRNE. Sworn and subscribed to before me this 10th day of July, A. D. 1909. MARGARET P. O'DONNELL, Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove That Swamp-Root Will do for You. Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the St. John Daily Times-Star. Regular 75c. and \$1.25 bottles for sale at all drug stores.

Make sure of Baby's health

Do not let there be any mistake about the food you give Baby. If the natural food—healthy mothers' milk—is not available, then let what you give Baby be digestible and satisfy his every need.

'Allenburys' Foods

afford a perfectly digestible and nourishing dietary, on which to bring up Baby from birth. These pure, germ-free Foods provide the exact constituents necessary to healthy development, effectually replacing human milk. They have been found invaluable by generations of mothers.

For Sore Muscles, Strains, Sprains, Bruises

Use as a Rub-Down after violent exercise or physical exertion it puts vigor and energy into jaded muscles, limbers the joints and gives the glow of health. Rub-down made by adding one ounce Absorbine, Jr. to a quart of water or witch hazel.

Absorbine, Jr. is more than a liniment—it is a positive germicide and therefore its use and efficiency are doubled. Applied to cuts, wounds, sores, it kills the germs; makes the part uncleanly clean, and promotes rapid healing. Economical as only a few drops are required at an application.

Made of herbs and safe to use anywhere. At all druggists, \$1.00 per bottle or postpaid. Manufactured only by W. F. Young, P. D. F., 317 Bldg. Montreal, Can.

The German losses here exceeded anything in warfare since the invention of firearms.

PARALYSED! Astounding Cure by Dr. Cassell's Tablets

Utterly Helpless Woman Restored To Health And Fulllest Activity

Her "Dead" Limb Made Sound and Well All Usual Treatment Had Failed, But—

In a Dream She Saw Herself Cured By Dr. Cassell's Tablets, Got Some, and—

Her Dream Came True

The cure of Mrs. S. M. Hopkins, of 81, English-road, Shirley, Southampton, England, is one that proves Dr. Cassell's Tablets to be above and beyond any ordinary medicine. Here is her personal testimony:

Interviewed recently, she said: "Quite was almost black out to the thigh. How suddenly one day I became helpless. I ever, I would not have it off and was out shopping, and all at once my husband was of my mind. I was taken leg gave way under me, and I fell on the home again absolutely helpless.

"A dream suggested Dr. Cassell's Tablets to me. I dreamt that I was told to take them, and I seemed to see myself as well and active as ever. I told my husband and he got me some. After taking the tablets for a time I felt a tingling in my foot, and found I could move it. Oh! how pleased I was. Soon I was going about on crutches, and then one day I put aside my crutches and walked out into the streets without any support at all. People came to their doors and found I could now see myself as well and active as ever. I told my husband and he got me some. After taking the tablets for a time I felt a tingling in my foot, and found I could move it. Oh! how pleased I was. Soon I was going about on crutches, and then one day I put aside my crutches and walked out into the streets without any support at all. People came to their doors and found I could now see myself as well and active as ever. I told my husband and he got me some. After taking the tablets for a time I felt a tingling in my foot, and found I could move it. Oh! how pleased I was. Soon I was going about on crutches, and then one day I put aside my crutches and walked out into the streets without any support at all. People came to their doors and found I could now see myself as well and active as ever. I told my husband and he got me some. The Evening Times and Star

ST. JOHN, N. B., FEBRUARY 10, 1915

The St. John Evening Times is printed at 27 and 29 Canby Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE WAR NEWS.

The Russian Duma yesterday vigorously applauded a fighting speech by the foreign minister, who declared that the successful issue of the war is becoming more than ever apparent.

States, applying the principle not only to the sale of their products, but to the purchase of supplies. Only those farmers who recognize the changed conditions and pursue such a policy as that outlined by Mr. Embree can hope to build up a prosperous farming community.

Recruiting for the third Canadian contingent has begun before the second contingent has departed. Doubtless the response will be prompt and general.

In view of the plebiscite taken last April the city council could not do less than ask the legislature to pass a bill giving the franchise in municipal elections to women with property.

Mr. F. Nell Brodie is to make the plans for the new Moncton High School. If the members of the St. John school board wish to inspect another well designed school building they will soon be able to do it in Moncton, as they did on a recent occasion in Fredericton.

The appointment of a police matron has long been recognized as not only desirable but necessary. In the interests of humanity there should be a police matron at Central to look after women and children who may be so unfortunate as to be detained there.

AGRICULTURE OLD AND NEW

Mr. C. E. Embree, who is now chief of the bureau of marketing and supplies in the Marine department of agriculture, contributes a long article to the Eastern Farmer and Home, in which he makes a striking contrast between the old and new agriculture.

Werner Horn has engaged Daniel T. O'Connell of Boston to fight his battle against extradition. Even if Mr. O'Connell should be as persuasive as his great namesake he will probably not be able to prevent the return of Horn to Charlotte county to stand trial for a crime committed in New Brunswick.

The St. John Standard has 27,008 reasons for abusing Mr. F. B. Carvell, M. P., and for calling the attention of the people of St. John at every opportunity to the fact that Hon. J. D. Haas is a member of the government; also for endeavoring to convince its readers that Mr. Haas is a great statesman.

Mr. F. P. Gutelius received \$25,870 as his share in preparing a report which stated that if the Transatlantic Railway had been built of sheep's heads, with more curves, steeper grades, and generally less expensive construction, it would have cost less money.

The St. John Globe pointedly asks what the attorney-general proposes to do with regard to those who resindicated the province and the dominion in the affair of the Southampton Railway. There is certainly a good opportunity for the attorney-general, although an Ottawa despatch says that criminal action will probably be taken by the federal department of justice.

Mr. F. P. Gutelius received \$25,870 as his share in preparing a report which stated that if the Transatlantic Railway had been built of sheep's heads, with more curves, steeper grades, and generally less expensive construction, it would have cost less money.

Mr. William Smith, M. P., a Conservative and a supporter of the Borden government, told the Ontario Horse Breeders' Association the other day that as far as he could see "there is going to be considerable graft in this business."

Notwithstanding the bad conditions of general business, our last year was our BEST YEAR. This year we are in a position to take our cash discount on all goods bought. We intend selling everything just a little bit lower on that account.

The young mother stole silently upstairs one evening, to be sure that her little son was sleeping safely. As she paused at the door she saw her husband standing beside the crib, gazing earnestly down at the sleeping child.

Today commences our sixth year in business. Five years ago we started a business. Shortly after a little later we bought a few diamonds, then some gold goods. In September, 1910, we moved into our present store, since which to us rather important move, we have been adding constantly to our stock.

Mr. Embree is not quite sure that it might not have been as well had each succeeding generation followed in the footsteps of its fathers, for there was a charm in the life they led. However, that was not to be, and there came about a great change, and it is now necessary for the farmer to recognize that he is commercially engaged as truly as a man who owns a cotton or woolen mill.

Notwithstanding the bad conditions of general business, our last year was our BEST YEAR. This year we are in a position to take our cash discount on all goods bought. We intend selling everything just a little bit lower on that account.

But just then he turned and saw her. "Amelia," he said, "I don't see how on earth they can get up a crib like this for three dollars and sixty cents."

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe To Darken and Beautify Faded Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

LIGHTER VEIN.

Not Like an Automobile. Lady Passenger (up in aeroplane and nervous)—Hadden't we better descend now? Something might go wrong with the engine.

Documentary Evidence. Dublin—Are you quite sure Miss Alice is not at home?

Not Raising False Hopes. Collector—Then I'm to tell the firm that you will probably settle this account next week.

His Quermess. "Griddles is a queer gink." "What's the latest manifestation?"

His Wife Saved His Head. Bride—Why did you borrow Jack's silk hat to wear at our wedding when you have a nice one of your own?

Clever. "Darling," whispered the ardent suitor, "I lay my fortune at your feet."

Feeling Question. Bell Hop—Did you ring for water, sir?

Miss Smith was known to her boarders as being decidedly "neat" in the portion of food she doled out to the ones at her table.

At dinner the other night, wishing to be polite to a new boarder, she asked, "How did you find the steak this evening, Mr. Finley?"

"By turning my potato over," replied the boarder, quickly—National Food Magazine.

THE 1ST. OF THE 6TH.

Today commences our sixth year in business. Five years ago we started a business. Shortly after a little later we bought a few diamonds, then some gold goods.

Notwithstanding the bad conditions of general business, our last year was our BEST YEAR. This year we are in a position to take our cash discount on all goods bought.

We wish to thank our many customers for their kind patronage.

ANSWERS TO QUERIES IN-HOUSE AT OTTAWA

Ottawa, Feb. 9.—The government replies to questions by private members on the order paper brought the first batch of information desired by some of the maritime province members.

In reply to Mr. Sinclair, the minister of naval affairs, Hon. J. D. Haas, said that no formal action or decision had been taken by the government not to continue the Nisble and Rainbow in full commission, as was intimated in the last annual report of the naval department.

Hon. Frank Cochrane told Mr. Sinclair that the total expenditure in connection with the National Transcontinental investigation commission was \$65,000. Of this amount F. P. Gutelius, general manager of the I. C. R., had received \$28,870.

Mr. Sinclair was also told by Mr. Cochrane that the department of railways had made a survey in 1914 for a branch line of the I. C. R. in Guysborough county, between Sunny Bree and the town of Guysboro. The survey had cost \$20,000, and seventy-seven men were employed

on it. A six-tenths grade had been obtained, but no report of the survey had yet been completed and presented to the minister.

In reply to Mr. Sinclair, the minister of marine and fisheries said that no action had been taken on the application of the lobster packers of the maritime provinces, asking for a closed season for lobster packing during the year 1915.

The minister of marine that twenty-two vessels, having a gross tonnage of 28,791 tons, had been withdrawn from the Canadian shipping registry since July 1, last year.

Frank Carvell was told by the minister of railways that the Intercolonial railway was not yet operating the portion of Valley railway during the same period, mostly on inland waters, was 194, with a gross tonnage of 65,842 tons.

Mr. Cochrane said that under present arrangements there was no proportionment of gross receipts between

**CATARRH LEADS TO CONSUMPTION**

Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.

Hood's Sarsaparilla is so successful in the treatment of catarrh that it is known as the best remedy for this disease. It purifies the blood. Ask your druggist for it.

Priest and Housekeeper Slain.

Rev. Joseph Zebis, forty years of age, pastor of St. Andrew's Lithuanian Catholic church, New Britain, Conn., and his housekeeper, Miss Eva Gillman, aged fifty-two, were found dead in the rectory yesterday. The woman was found strangled in the attic and the priest had been shot and killed in the parlor.

Julia Power lands on top of the first table in sight when she sees a mouse, but if it is an elephant she meets it is different. Elephants are Miss Power's best friends. She has grown up with them since babyhood, and now she is one of the best known women elephant trainers in America.

Miss Power is only sixteen years old. She has assisted her father, W. W. Power, a well-known trainer, ever since she was a tiny girl, and now she is as fearless in the animal ring of a circus as he is.

**PRIMECREST FARM MILK THAT'S NEVER TOUCHED BY HUMAN HANDS**

If you visited Primecrest Farm, and saw its wonderfully clean, sanitary condition, the care taken in the production and handling of PRIMECREST FARM Milk.

Certified Milk

You could realize what is meant when you're told that there is no milk farm like it east of Montreal. You could see, too, that paying 9 Cents a Quart would mean for you and your family uniformly rich milk—milk having always the same high standard of food value, because it comes from just certain cows, carefully tested, and guaranteed. It is

Free From Disease

Being taken from healthy cattle, by personally clean, healthy men, who wear white duck suits while milking, and even wash their hands after they milk each cow.

Properly Cooled

and every pail, can and bottle sterilized. PRIMECREST FARM CERTIFIED MILK goes to people's homes in

Double Sealed, Sterilized Glass Jars

Both barn staff and herd pass frequent health inspection.

Phone W. 227-43 and Special Representative will call.

**A POLICE MATRON**

Miss Christine Ross Appointed Yesterday and Went on Duty at Once

Miss M. Christine Ross, a native of this city, was appointed police matron and stenographer at police headquarters, at the meeting of the city council yesterday afternoon, and she entered upon her duties very soon after the council ratified the action of the police department. A private office, suitably equipped, and a typewriter were all prepared for her to take up her duties, so that it is evident that the chief of police had a matron in mind when he remodelled the central station.

At the meeting of city hall yesterday afternoon Commissioner McLellan moved the appointment of Miss Ross as police matron and as stenographer to the chief of police. Besides this he presented an advertisement that had been published. The motion was adopted.

Miss Ross studied stenography here, and was employed for several years in local offices, including those of Blair & Blair, and J. H. A. L. Fairweather. She left here a few years ago to study nursing and returned about three years ago and resided here for a year, then went away again to continue her work.

She possesses a diploma from the Y. W. C. A. of New York for efficiency in stenography, and also a certificate from the American Red Cross Society in New York for excellence in first aid work. Besides she has spent two years in the Cambridge General Hospital in general work, and from this institution she is highly recommended. She came here from New York.

When the chief received the application, he said that he had many inquiries and from every source he received high praise of Miss Ross' ability. The chief explained that her duties are to look after the searching and care of all female prisoners while they are in the custody of police officials. This will include all females arrested and detained in a cell, and also the looking after them when they appear before the police magistrate. Matters will be so arranged that she can give them her attention at any hour required.

MISS M. CHRISTINE ROSS, New Police Matron Appointed by the Commissioners at Meeting Yesterday.

**GIRL EVANGELIST ON MORMON MISSION TOUR**

Edna Crowther

Billy Sunday is not the only evangelist who thinks New York should be "saved." Miss Edna Crowther of Utah is of the same opinion, and she is now in Brooklyn, proselyting for the Mormon church.

The girl evangelist blazes the trail for the elders of the church by making a series of social calls on families selected for conversion.

**ALLOWANCE MADE FOR SUBSISTENCE**

New Arrangement for Third Contingent — Recruiting at Woodstock

The twenty-sixth battalion spent yesterday afternoon in tactical exercises near the golf grounds.

A new phase in the regulations issued to the recruiting officers with regard to subsistence to men before being quartered at the mobilization centre is as follows: Recruits will be furnished with accommodation and subsistence at the recruiting centres, or will be paid the following allowances in lieu thereof:

Per diem ..... 15c.  
Accommodation allowances ..... 15c.  
Subsistence allowance ..... 75c.

When the recruit has passed the final medical examination at the place of mobilization and has been finally approved, he will be taken on the strength for pay, which will be dated back to the date of enrolment at the recruiting centre.

No pay will be drawn for men who are not finally approved and subsistence and accommodation allowances, only, will be paid by those men who are rejected for medical or other reasons at the place of mobilization.

The attention of recruiting officers is drawn in a circular to the fact that "in the case of former contingents a very large number of men have been recruited who, when sent to the mobilization centres, have had to be rejected for various causes, such as being medically unfit, undesirable characters, not likely to become efficient soldiers, etc., and the officers are warned that too much care cannot be exercised in the selection of recruits in the first place with a view to eliminating these classes of men before

the country is put to unnecessary expense in their maintenance and transport. Great care should also be taken to ensure that men who have already been rejected as undesirable, medically unfit or for other causes should not be enrolled.

Major J. J. Bull, who was recalled from Salisbury to assist with the organization of the third contingent, arrived in Woodstock yesterday to commence recruiting.

Manitoba House Opened.

The legislature of Manitoba was opened yesterday by Lieut. Gov. Sir Douglas Cameron.

The whip which Harry Lauder used for ten years in his song "She's Ma Daisy," got broken in Wellington, New Zealand. At the town of Napier it was sold for £15 for the relief fund, while a Royal Standard of Scotland realized £80.

**Operation Decided On As Only Means of Relief**

But the Writer of This Letter Resolved to Try Dr. Chase's Ointment First and Was Cured.

This is not an isolated case, for we frequently hear from people who have been cured of piles by using Dr. Chase's Ointment.

After physicians had told them nothing short of an operation could bring relief and cure.

If you could read these letters, coming as they do, day after day and year after year, you would realize what a wonderful curative agent Dr. Chase's Ointment really is. Few ailments are more annoying or more persistently torturing than piles, and when this suffering is promptly relieved by the application of Dr. Chase's Ointment there can be no doubt as to where credit is due. Friends and neighbors are told of the result and so the good word spreads, and Dr. Chase's Ointment is becoming known far and wide as the only actual cure for piles or hemorrhoids.

Mr. Charles Beauvais, a respected citizen of St. John's, Que., writes: "For 14 years I suffered from chronic piles or hemorrhoids and considered my case very serious. I was treated by a well-known physician who could not help me, and my doctor decided on an operation as the only means of relief. However, I resolved to try Dr. Chase's Ointment first. The first box brought me great relief, and by the time I had used three boxes I was completely cured. This is why I give my such great pleasure to recommend Dr. Chase's Ointment to everybody suffering from hemorrhoids as a preparation of the greatest value."

Dr. Chase's Ointment, 60c a box, all dealers or Edmondson, Bates & Co., Limited, Toronto.

What Dyspeptics Should Eat

A PHYSICIAN'S ADVICE "Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity."

How to Gain Weight A Pound a Day

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results.

Superintendent Casaday, of Detroit, recommends that girls as well as boys be required to learn to swim before they are graduated from high schools.

The Domestic Machine.

Mr. Meek was laboriously hooking up the back of his wife's evening dress just as the clock was striking their dinner hour and their dinner guests were ringing the doorbell.

"I do wish someone would invent a machine to do this kind of work," he muttered, miserably. "Why, they have!" replied his wife brightly, as she applied some powder nonchalantly to her nose.

SAYS IT IS GOOD TIME TO GO INTO FLAX GROWING

Belfast Man Comes to Canada to Look Into Situation Caused by War

Toronto, Feb. 10.-As the result of the German invasion of Belgium and the ruthless laying to waste of that country, 83 per cent of the flax resources of the world have been cut off.

With the almost complete elimination of the supply of raw material which we have relied upon in the past, we have been forced to look elsewhere for flax to fill the demand, and therefore I have made this trip to Canada and investigated the situation throughout the country from coast to coast.

# HAS THE MYSTERY OF LIFE BEEN SOLVED? IS THE HUMAN BODY ELECTRICAL?

### Modern Investigators and Physiologists seem to have Confirmed This Theory:

### To be Healthy Means a Normal Supply of Electricity; to be Ailing Means a Lack of This Energy.

### The Question is: How Can This Missing Electric Force Be Restored in the Best Possible Manner?

That the human body is electrical is no longer a mere theory among scientists and up-to-date physicians. It is generally conceded to be an absolute fact.

Professor Edgar L. Larkin, discussing the new physiology, writes as follows: "A man, brain and body, is a battery, and nerves correspond to wires. It is now certain that transmission of sensation over them is electric. Nerves have been cut and a galvanometer inserted. The needle moved, proving that nerve power is electric. The human system is an electro-thermic battery and the life is electrical. The electric age is here. Drugs are hard hit on all sides, and an intelligent physician tells me he has almost entirely stopped their use."

The word health now means a normal supply of electricity in the body, and the word disease means an insufficiency of that power.

"Dr. Albert J. Atkins, the eminent California scientist, is still at work proving that every principle in what we call our electrical science is merely borrowed from the human body. We propel railroad trains and automobiles by means of electricity and think it wonderful, but the human dynamo has always known how to propel itself, and with skill and almost absolute safety in either walking or running, and now Dr. Atkins shows us that the millions in his automobile and the hobo on foot are alike carried forward by electrical force."

"With a man's stomach as the only electric battery, Drs. Albert J. Atkins and E. J. Lewis recently charged an ordinary telephone apparatus so that it conveyed sound," says a San Francisco morning paper.

"It demonstrates that the human body is an electric battery."

The experiment consists in the swallowing of two platinum electrodes, so that they touched the walls of the living stomach.

"By means of copper wires the electrodes were connected with a telephone and a microphone, a sensitive instrument which greatly intensifies sound. There was absolutely no mechanical or chemical battery in the circuit, yet the moment the electrodes were swallowed sufficiently to touch the walls of the stomach, human electricity flowed over the wires, rendering audible sounds. The electric charge measured from seven to eight volts on a western galvanometer."

**Electricity the Basis of Human Vitality.**

Professor Jacques Loeb, after 10 years' research and experiment, made this statement: "A part of the chemical energy of foodstuffs is transformed into electrical energy, which in turn generates energy to the muscles and organs of the body. Electricity and not heat is the life of the body. These discoveries are going to upset the theories of medicine, as administered by the physicians of to-day, as it is settled that electricity is the basis of human vitality."

**The Effect of Electrical Treatment Upon Schizophrenics.**

From Gaston L'Electricien, and other sources, the following data have been secured bearing upon experiments conducted for a number of years past, in Stockholm, in accordance with suggestions made by Prof. Svante Porhentius, with the object of determining whether or not electricity affects advantageously the development of the human body. Two groups of fifty children each, were carefully selected so that the two groups were, as nearly as possible, absolutely equivalent from the standpoint of the health, height, weight, etc., of their members. Each group received instruction in one of two rooms identical in dimensions and exposure. One of the two rooms, however, was walled, ceilings, and apparently floor—with a coil of a great number of windings of insulated wire, which thus formed a huge solenoid; and through this coil were sent alternating currents of high frequency. The conditions within this room were therefore in part similar to those in the core of a great electromagnet; a d'Arsonval apparatus on a grand scale. The fifty pupils who constantly occupied this room were thus immersed in a magnetic field while at work, the other group, used as a "check," studied under conditions otherwise entirely similar. Presumably, both pupils and masters were kept in ignorance of the treatment to which those in the electrified room were being subjected.

All the pupils, having been carefully measured physically, were also classified minutely, according to age, capacity of mental labor, and state of advancement in studies. In other words, every effort seems to have been made to reach satisfactory conclusions as to the effect of the treatment upon the favored fifty.

At the end of six months the electrified pupils had, on the average, grown 81 millimeters (3 inches), the "check" students only 22 millimeters (1 1/2 inches). The increase in weight, etc., was proportionate to that in height.

The mental progress was as remarkable as the physical. Taking as a standard of advance in studies that of the very brightest children and denoting this 100 per cent, the average advance of those who had been subjected to the new treatment was 92 per cent, and fifteen out of fifty pupils were recorded as having attained a maximum; on the other hand, the average progress of the "check" was represented by 75 per cent, and some of them attained to the maximum. There was also a notable improvement in mental alertness and attention and in capacity to resist fatigue, on the part of those in the electrified room. Teachers as well as pupils benefited by the treatment.

**Electricity, the Great Constitutional Tonic.**

A prominent physician recently remarked: "If I had my way I would use electricity on every man, woman and child in the world, just the same as I would give them food. It is just as necessary for the human body, in order that it may retain its functions and keep them in good equilibrium."

Indeed, it is believed all that has been written by the authorities, especially those who have used the galvanic current extensively, it would be almost impossible to exaggerate its merits in giving new strength and vitality to the body in general, in curing certain diseases, and in relieving symptoms of others.

**Electricity to Supersede Drugs.**

I maintain that electricity is the power which runs the human body—the force that keeps the heart going, the blood circulating and the various organs performing their functions like so many machines. I claim that electricity works the miracle of digestion and assimilation and converts the food into blood and bone, tissue and muscle, and supplies the brain with power to think.

I have had my theories confirmed by some of the world's most learned scientists, and today the use of electricity as a curative agent is spreading to every corner of the civilized world.

While others were expounding and arguing over the merits of electric treatment, I have gone ahead achieving results, and I can point with just pride to men and women in all walks of life who, after regaining their health and strength through the use of my Electric Body Battery.

Before I talk further regarding the use of my appliance you must understand my claim, that the human body is an electric organism deriving its motive power from the digestion of food in the stomach. This electric force generated in the stomach is taken up by the nerves and conveyed to the different organs of the body, and is their life. So long as there is sufficient electric energy to satisfy the demands of nature, the vital organs perform their regular functions properly, but just as soon as the natural electric force is overtaxed in any way the organs become weak and inactive, and sickness or disease is the result. Now you can't cure the trouble until you restore the lost force. Nature must have more electricity, or vitality, as it is termed by medical men, in the ailing part. You cannot renew this force by dosing the stomach with poisonous drugs which only help to drain away the vitality that you have. When every organ of the body has all the motive power electricity—it needs, weakness and disease should not exist.

Now, the purpose of my invention is to restore this electric force in a natural, scientific way. When the stomach is unable to supply the demands of the vital organs you must assist nature by filling your nerves with galvanic electricity.

My appliance is a generator of a powerful but soothing current of electricity, from about the body while you sleep. It sends a subtle stream of electric life coursing through the nerves and vitals for hours at a time, without effort or burn. There is no shock. All you feel is a glowing warmth.

Electricity fills the nerve cells with new life. It drives out pains and aches, builds up vitality and strength and overcomes permanently such troubles as lumbago, nervousness, rheumatism, insomnia, many female complaints, varicose veins, weakness, and ordinary stomach, kidney, liver or bowel disorders. This is my claim.

may rest assured you would have heard from me had I not been satisfied with the appliance I purchased from you some time ago. I used it according to the directions and the pains in my back and kidneys wholly ceased and have not since given me any trouble. I may say it has far exceeded my most sanguine expectations. I cannot speak too highly of it and have recommended its use to some of my friends who are troubled with rheumatism, etc., and at least one of them has purchased a Hercules from you and an pleased to say he has had similar results.

I feel satisfied that anyone using your Electric Hercules according to instructions would have the same beneficial results which I have had.

Yours very truly,  
HARRY PERRIN, N. P.  
Hartley, Man.

**BEARD AND ROCKWELL IN THE U. S. AND DEBATED IN FRANCE HAVE SHOWN THAT IN ANIMALS THE RATE OF GROWTH CAN BE ACCELERATED BY SUITABLE ELECTRIFICATION.**

"Electricity is also being used very successfully to stimulate the growth of vegetables and garden plants and destroy the germs of plant disease. The yield of various crops being increased from 10 to 62 per cent, through its use. (See very interesting article in Literary Digest of May 3, 1914.)"

**CURED OF LONG-STANDING COMPLICATED DISEASE RHEUMATISM, ETC.**

Dear Sir,—I can speak in the strongest terms of the good I have derived from the use of your Electric Hercules. It certainly cured me of long-standing complicated diseases, including the different forms of rheumatism. After wearing your appliance a short time it cured me of the terrible pain I used to have in the back. For years I had a great sufferer from weak kidneys and pains in the back, which rendered me quite unfit for work.

I was led to try one of your appliances, through the advice of a friend, and it is a truly wonderful invention, and a blessing to humanity. I will take pleasure in putting in a good word for you whenever possible, as I consider it my duty to let sufferers know how they can be cured.

JAS. RENDER,  
Iroquois, Ont.

**CLERGYMAN CURED OF DERANGED AND WEAK KIDNEYS.**

Dear Sir,—During the early part of my university course I was greatly troubled with weak kidneys. I had tried almost all the best known "cures" without any relief. As a last resort I sent for one of your Hercules and in a few days had perfect relief. I continued to wear it for a couple of months and have never had a return of the trouble. It proved a veritable blessing from God to me, and I shall be glad to recommend it, as I have since then repeatedly done to others suffering from weak kidneys. It built me up permanently, for I have over seven years ago now and I have been strong and well ever since.

I would gladly recommend it to students and to all others whose vocation necessitates a sedentary life, which too often results in deranged kidneys and weak back.

Yours sincerely,  
REV. W. V. WATT,  
Burgoyne, Ont.

**PROMINENT NOTARY PUBLIC SUFFERED MANY YEARS WITH KIDNEY AND BACK.**

Dear Sir,—Replying to yours, you

**WEAKNESS CURED HIGHLY DELIGHTED.**

Dear Sir,—I must apologize to you for keeping you waiting so long for an answer. It is with the greatest pleasure that I honestly and truthfully state that your appliance has done wonders for me. The Hercules is certainly a wonderful gift to anyone troubled with weakness. I feel completely cured now, and feel like a new man entirely.

I feel entirely satisfied that I invested my money safely and with the greatest possible results; very satisfactory indeed. I have often thought I would never get clear of the weakness, and despaired more than once of ever finding a cure. I had spent quite a few dollars, but no cure. I am highly delighted with the Sanden Electric Hercules, and would never be without one in time of trouble.

If ever the opportunity comes my way, I will do everything in my power to help make a sale for your wonderful invention. I strongly recommend the Sanden Electric Appliance to anyone who is troubled and let them take the Hercules on its merits, and can safely say that they would not be sorry, or money wasted.

Hope you will live long to have the pleasure of seeing people restored to health and happiness by your wonderful cure, and wishing you every success in the future. I remain, Sir, your truly,  
ARTHUR D. SHEEHAN,  
119 Morris St., Halifax, N.S.

**Health Without Drugging.**

M. d'Arsonval, a well-known savant of the Physiological Institute of Paris, in an address at the Institute, said that electricity would be the medicine of the future. He showed that it is excellent also for certain maladies, and described the difference between the sudden shocks and the slow method by which it pervades the system without the patient's consciousness.

**"THE WORD HEALTH NOW MEANS A NORMAL SUPPLY OF ELECTRICITY IN THE BODY, AND THE WORD DISEASE MEANS AN INSUFFICIENCY OF THAT POWER."**—Professor Edgar L. Larkin.

Professor Andrew MacConnell, President of the Society of University Science, in a recent essay, made this statement: "The only difference between a well man and an invalid is that the invalid is not producing enough electric power to run the functions of his body and keep the vital organs up to the necessities of life."

"This power is electricity, that, by understanding the laws governing the production and control of electricity in life, any human can cure himself in a few weeks, can increase his vitality to the point of having an overflow of happiness and joy, and also that any person, feeble from age, may in the same way rejuvenate himself."

"When one falls into any form of disease, he simply does not produce as much electricity in his body as when well. We see, too, that age is just like a chronic disease, the one begins from ignorance of the laws of electric production to gradually decrease his generation of electricity until he finally reaches a point where he does not produce enough to keep his vital organs running. This means death. The same amount of electricity in a man of 70 would make the same power as the same amount of electricity in a man of 30. This proves the prolonging of life a scientific matter of keeping the production of electricity up to the normal needs of the body."

**Electricity for Weak Nerves.**

A great many people suffer from ailments caused by weak, impoverished nerves, and try to cure these troubles by dosing their stomachs with drugs. It is impossible.

If you are weak, run down, nervous and unambitious; if you suffer frequent headaches, and have spells of despondency, it probably means that your nerves are starving for new energy, electricity. That's all they need, and nothing else, in my opinion, will restore them so quickly and pleasantly.

I claim that my appliance saturates the nerves and vitals with electric life while you sleep. That it builds up strength and vitality in every weakened organ and drives out pains and aches, and restores the vitality of the body. If there was any nourishment in drugs they might do some good, but you know there is not. Drugs are drugs, stimulants, narcotics, antiseptics, poisons, not food. I maintain that electricity is nerve food—nerve life. That it soaks into the nerves and is taken up by them just as a sponge absorbs water. That it nourishes and vitalizes the parts which drugs cannot reach.

Every dose of drugs that you put into your stomach weakens your nerves. Every time you kill a pain or an ache by stupefying the nerves with poisonous drugs you are hurting them, and anyone can see that in time by steady dosing your nervous system will be completely broken down.

**Rheumatism.**

You know that rheumatism is caused by uric acid in the blood. There's only one thing on earth, I think, that can get at this uric acid and drive it out of your system—that's electricity. It soaks into every vein and tissue of the body and drives the poisonous matter through the circulation back to the kidneys, which filter the blood of all impurities.

People say my electrical appliance has cured some of the worst cases of rheumatism after drugs and other methods have failed. When electricity goes into the body rheumatism must go out.

My claim is that no pain should exist in a body charged with electric life. You should have no rheumatism, no weakness or inactive parts, because the life generated by this grand force gives health and strength to every organ.

"The power of electricity to relieve pain is very great."—Quain's Dictionary of Medicine.

**Men Made to Feel Young at 60.**

There is no excuse for men being old at 60, complaining about pains in the back, stiffness in the shoulders and legs, the "fired feeling," nervousness, indigestion, constipation, and failure of vitality. Nature started you with a constitution that ought to have held good until you are 80, and you ought to feel like a man now. But you have overdone some things and wasted your vitality. You still have the constitution, but lack the force. That is electricity. My appliance is intended to restore it.

Look at the men who have used electricity and you will see men of force, men of power and confidence, men who respect themselves and are respected, and admired by their fellow-men.

Wouldn't you like to be the man you were a few years ago; to have the same ambitious spirit, the strength and vitality that you used to possess? Wouldn't you like to be free from pains and aches, and to feel that you are the equal in strength of any man of your age? Probably you can be.

All that you lack is vitality—new life. You are like an engine without steam—you haven't the motive power to keep the machinery of your body working properly.

Anything that will restore your "steam" will make a new man of you. Drugs have been tried and have failed. Thousands know that my appliance has not failed. It is electricity, and "electricity is life." That probably is what you require, and the proper use of this grand appliance should give you health and happiness.

**Vital, Healthy People Attract All.**

A man may learn the degree of his own social importance by the attraction he has for those who know him. If you are not "magnetic," if you are nervous, unstrung, and lack nerve, manly courage, men and women naturally pass you by for the full-blooded, clear-eyed, even-tempered fellow, whose very power, magnetism and electro-vital force make him the centre of all attention. Thousands have said, in effect, "Your Hercules gave me back my courage and ambition. It made me bubble with life and spirit; it gave me a foundation of renewed strength to rely upon."

Mr. H. Gifford Sinclair, 2904 Market Street, Wilmington, Del., writes: "It affords me great pleasure to say that your Hercules has restored my nerve force. I was a complete nervous wreck, and it is very gratifying to know that this little instrument is capable of supplying new vitality and nerve power in a natural and unobtrusive way."

**Why Use a Body Battery?**

A party asked the other day why it is the faradic batteries and static machines do not give the same up-building results as my electric body appliance.

That's because you can't stand the treatment for more than a few minutes at a time. A nervous person can't endure it long on account of the shock. When a man tries that method and finds that it does not help him he naturally concludes that electricity is no good.

Now, my system is different. With my plan a current is sent into the body for several hours every day, or night, usually while the person sleeps.

The delicate nerves are not jarred or shocked by this current, as it goes into them like a drizzling rain saturates a newly plowed field. They absorb it, drink it in, and as it is their very life they grow strong with it.

Food digestion, inactive liver, constipation, sluggish heart, slow thinking, dormant energy and lassiness are all due to lack of electricity. Understand that electricity is the motive power of the human machine, the power that keeps the organs active and you will see what we mean. In such cases you will see how my appliance can put energy into the body. It renews the electric life of the nerves and transforms the sluggish into a bundle of vigorous energy.

Because you have experimented with Faradic batteries, or taken electric treatment without success, is no reason why my methods should prove a failure. The only false remedies advertised by charlatans are those that do not work. My appliance can be used all day or all night without interfering with your work or rest. It takes up none of your time.

**Prejudice Against Advertised Treatment.**

There is a whole lot of prejudice against advertised remedies, due no doubt to the large number of quacks and schemers that have foisted worthless remedies on the public.

If it were not for this prejudice I would not be able to handle all the business that would come to me. The many false remedies advertised by charlatans have made many people sceptical; but I know that I have a good thing and will hammer away until everybody knows it.

I claim any organ of the body, any part that lacks the necessary vitality to do the work as nature intended, can be restored by this electrical treatment, excepting, of course, conditions which require a physician's attention.

It gives strength, it makes the blood rich and warm; it vitalizes the nerves and puts vim into the brain and muscles, it just makes a good man out of a bad one in every way.

My appliance overcomes rheumatism, pains and aches, weak nerves, general debility and any other trouble which can be cured by restoring the life force.

No matter where you live, you can use my appliance as successfully as if you could come here to my office.

**Valuable Books Free.**

To any man or woman who will mail me this coupon I will send free (closely sealed), a finely illustrated book. This book is written in plain language, and explains many secrets you should know. One especially for men; another for women.

Don't spend your money on drugs and medicines.

Electricity is, in my opinion, far superior. You should know about it.

Don't wait another minute.

Cut out this coupon right now, and mail it. I will send the book without delay, absolutely free. Address—The E. F. Sanden Co., 140 Yonge Street, Toronto, Ont.

If in Toronto, would be pleased to have you call as you would then have an opportunity of seeing and testing the Appliance and of having a talk with me regarding your condition. Investigation of my method, either personally or by mail, places you under no obligation. Hours, 9 to 6. Entrance, 8 Temperance Street.

**Health Without Drugging.**

M. d'Arsonval, a well-known savant of the Physiological Institute of Paris, in an address at the Institute, said that electricity would be the medicine of the future. He showed that it is excellent also for certain maladies, and described the difference between the sudden shocks and the slow method by which it pervades the system without the patient's consciousness.

**"THE WORD HEALTH NOW MEANS A NORMAL SUPPLY OF ELECTRICITY IN THE BODY, AND THE WORD DISEASE MEANS AN INSUFFICIENCY OF THAT POWER."**—Professor Edgar L. Larkin.

BATTLE OF THE CLOUDS SHOWING ENGLAND'S MONSTER NEW HYDRO-AEROPLANE IN ACTION

DRAWN BY AN ARTIST FROM A SCENE HE WITNESSED IN BELGIUM. PRINTED BY SPECIAL ARRANGEMENT WITH THE LONDON DAILY EXPRESS.

BLISTERS ON FEET COULD NOT SLEEP Skin Much Inflamed, Itched and Smarted. Could Not Wear Shoes. Cuticura Soap and Ointment Entirely Healed.

Victoria St., Theford Miss West, Que. One day I was repairing a valve on top of a boiler when a steam pipe close to my feet burst scalding both feet. Blisters came on my feet and I could not wear my shoes. The skin was very much inflamed and it gave me such pain that I could not sleep at night. I was treated for ten days with no improvement so I tried ointments but none did any good. One day I came across the Cuticura advertisement and decided to try a sample. The Cuticura Soap and Ointment gave me such relief and stopped the itching and smarting so quickly that I bought a box of Cuticura Ointment and some more Cuticura Soap. Now the wounds are entirely healed and the sores have quite disappeared. (Signed) William Neck, Jan. 31, 1914.

Samples Free by Mail In selecting a toilet soap why not procure one possessing delicate emollient properties sufficient to allay minor irritations, remove redness and roughness, prevent pore-clogging, soften and soothe sensitive conditions, and promote skin and scalp health generally? Such a soap combined with the purest of saponaceous ingredients and most fragrant and refreshing of flower odors, is Cuticura Soap. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. Liberal sample of each mailed free with 25¢ Skin Book. Address post-card "Cuticura, Dept. D, Boston, U. S. A."

RECENT WEDDINGS At the home of the bride's parents, Mr. and Mrs. Wm. McKim, Armstrong Corner, Quebec county, a pretty wedding took place on Wednesday afternoon, Feb. 3, when Miss Elizabeth Agnes Slackford McKim, was united by Rev. J. S. Gregg, of Wolford (N. B.), to Wm. Talbot Quinn, also of Armstrong Corner. The bride was dressed in midnight blue duchess satin and Irish lace. She received many valuable gifts and the groom's gift to the bride was a china tea set. They will reside at Armstrong Corner.

QUEBEC'S NEW GOVERNOR Ottawa, Feb. 9.—Hon. Pierre Evariste LeBlanc, K. C. of Montreal, former leader of the Conservative party in Quebec, and an ex-speaker of the legislative assembly, has been appointed lieutenant-governor of Quebec, in succession to the late Sir Francis Laugel.

TORTURE OF SCIATICA CURED QUICK! "NERVILINE" A SUCCESS EVERY TIME

Stops the Pain Quick — Acts Like Magic — Is Harmless and Pleasant Sciatica is the most severe pain man can suffer. The great sciatic nerve is deeply pained, and you can reach it only by a pain remedy, as penetrating and powerful as NERVILINE. The glory of NERVILINE is in its strength—in its marvellous power of penetrating deeply. In severe pains, such as sciatica and neuralgia, NERVILINE demonstrates its superiority over every other remedy. Extraordinary pains, such as rheumatism or sciatica, can be overcome only by a

MAIN ESTIMATES REACH A TOTAL OF \$190,000,000 St. John and New Brunswick Figures—War Vote and Supplementaries Yet to Come

Ottawa, Feb. 9.—The main estimates for the coming fiscal year, tabled in the commons last night, provided for a total appropriation of \$190,000,000, a decrease of \$17,789,220, as compared with the total amount voted in both the main and supplementary estimates last session. With supplementary estimates still to come, this session's appropriations may equal those of last year, exclusive altogether of the \$100,000,000 voted for war.

Of the main estimates tabled, \$146,297,377 is for consolidated fund account, a decrease of a little over \$10,000,000 from last year. Capital account expenditures total \$44,992,078, a decrease of \$7,629,690.

The principal increase in current account expenditure is for interest on the growing public debt. The increase on this head totals nearly \$9,000,000. On public works there is a decrease of a little over \$14,000,000. The immigration department has had its appropriation cut down by \$294,000; the trade and commerce department by \$1,508,000; the naval service by \$105,000; the fisheries by \$150,000; and militia and defence by \$5,828,000. This last decrease, however, is due mainly to the switch in the expenditures to the general war fund account.

The chief items of capital expenditures on public works and railways and canals include \$8,128,200 for the Intercolonial railway; \$1,988,925 for the Prince Edward Island railway, and a total of \$9,449,000 to continue the work already under way at Esquimaux, Halifax, Port Arthur, Quebec, St. John, Toronto, Vancouver, Victoria and other harbors.

Amounts to be voted for the I. C. R. and Prince Edward Island railway include the following, practically all of them being revotes from last session: Fredericton—To increase accommodation, \$50,000. General protection of highways, \$16,000. Halifax—Docks and wharves, \$80,000. New terminal facilities, \$8,000,000. Hampton—Subway and facilities at, \$887,750. Installation of block system in connection with operation, \$14,000. Montreal—Locomotive and car shops, with equipment, \$110,000. Elimination of level crossings and grades, \$126,000. Raising grade, Memramouoc and Sackville, \$3,500. Spur line to Courtenay Bay, \$112,000. Intercolonial Railway—To bring line

up to Intercolonial branch line standard, \$11,200,000. Caraqueet—Repairs to wharf, \$1,300. Chocolate Core—Rebuild wharf approach, \$1,600. Dalhousie—Repairs to wharf, \$2,000. Quaco—Reconstruction of breakwater, \$17,000.

HOW TO OBTAIN GOOD DIGESTION

The Stomach Must Be Toned and Strengthened Through the Blood The victim of indigestion who wants to eat a good meal, and who will suffer if he eats one, finds poor consolation in picking and choosing a diet. As a matter of fact you cannot get relief by cutting down your diet to a starvation basis. The stomach must be strengthened until you can eat good nourishing food. The only way to strengthen the stomach is to enrich the blood and thus tone up the nerves that control it. The only way to enrich the blood, and tone up the nerves, and give strength to the stomach—strength that will enable it to properly digest any kind of food—is through a fair use of Dr. Williams' Pink Pills. The one mission of these Pills is to make rich, red blood, that reaches every part and every organ of the body, bringing renewed health and activity. The following case illustrates the value of Dr. Williams' Pink Pills in indigestion.

Miss Lottie Carr, of Lequille, N. S., says: "For several years I have been a great sufferer from chronic indigestion. At times I almost loathed food, and no matter how hungry, I found that to eat even lightly was followed by great distress and often nausea. I tried many so-called cures, but did not get more than temporary relief, and naturally I was discouraged. I was high-spirited, and was greatly discouraged. While in this dependent condition I was advised to try Dr. Williams' Pink Pills. I doubted that they would cure me after so many other medicines had failed, but as I wanted health and the Pills were highly recommended I decided to try them. I am thankful now that I did so, for after taking Dr. Williams' Pink Pills for five or six weeks every vestige of the trouble had left me, and I was again blessed with the best of health. From my own experience I believe there is no case of indigestion Dr. Williams' Pink Pills will not cure, if given a fair trial."

You can get these Pills from any medicine dealer or by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WAR VOTE IN THE CANADIAN COMMONS

Premier Introduces Resolution For \$100,000,000—The Vancouver Case—Sevigny Deputy Speaker

Ottawa, Feb. 9.—The election of Albert Sevigny, of Dorchester, as deputy speaker of the commons, and the introduction of a resolution to repeal the Naval Service Act, were the features of a remarkably brief though business-like sitting of the house today. On Thursday the finance minister will deliver his budget speech, and Friday will be private members day.

Mr. Wilfrid Laurier, while stating that he had no intention of opposing the election of Mr. Sevigny upon the fact that a member who had been elected in 1911, pledged to repeal the Naval Service Act, and had never made any progress in bringing about that end, was now about to accept the appointment in which he

MARRIED WOMEN WITH PROPERTY MAY GET VOTE Bill to go to Legislature From City —Make Standard Loaf of Bread Pound and Half

The city council yesterday decided to send a bill to the legislature extending the franchise in municipal elections to married women with property, carrying out the plebiscite taken last April. Commissioner McLellan introduced amendments to the bill, establishing a standard loaf of one and one-half pounds. A motion of Commissioner Potts' to add Union street from Dock to Brussels to the trunk streets to be paved at expense of the whole city was deferred for consideration at a later meeting.

Action in giving the vote to married women with property was presented by a delegation from the St. John branch of the Women's Suffrage Association, including Miss C. O. McGivern, the president; Mrs. W. F. Halsey, Miss Skinner, R. G. Murray, E. T. C. Knowles, H. W. Robertson and others. Miss McGivern read a letter presenting views of the association and asking that the wishes of the people as expressed at the election be carried out.

R. E. Armstrong, secretary of the board of trade, asked that the city pay the expense of sending the booklets on St. John, now on hand at city hall.

Doctor Said She Had Bright's Disease.

DOAN'S KIDNEY PILLS CURED HER. Bright's disease is a term applied to one of the most serious of all diseases of the kidneys, the symptoms of which are often a severe character.

Severe pains in the back appear at first and are followed by disturbances of the urinary organs which show that the urine contains a large amount of albumen. Dropsy is also another forerunner of the dreaded Bright's disease. On the first sign of any kidney trouble you should at once put the kidney right by the use of Doan's Kidney Pills. The pill that cures kidney troubles only.

Mrs. C. A. Heistand, Moosewa, Alta., writes: "Last May I was taken down sick. The doctor told me I had Bright's disease. My kidneys got so bad I could not rest day or night. The doctor's medicine did not give me any relief. I used four boxes of Doan's Kidney Pills, and they put me in good shape again."

Doan's Kidney Pills are the original kidney pill, so when you ask for "Doan's" do not accept any others with similar names.

Price, 50c per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When Women Suffer No remedy gives greater relief than Anti-kamnia (A-K) Tablets in all conditions generally known as "Women's Aches and Pains." One trial will satisfy any woman that she has at last found the remedy she has so long been looking for.

Indigestion—Dyspepsia

Are you distressed after eating? Do you have nausea when riding in the cars or on the train or boat? Take A-K Tablets and get instant relief.

Doan's Kidney Pills are the original kidney pill, so when you ask for "Doan's" do not accept any others with similar names.

Price, 50c per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

USE THE WANT AD WAY

When ordering direct specify "Doan's"

the Sportsman's Show at New York, where they would be distributed by Mrs. Barnes, of the N. B. Tourist Association. The matter was left with the mayor with power to act.

The report of the fisheries committee on the adjourned sale yesterday morning showing receipts of \$106.50 for remaining Navy Island lots and \$217 for West Side shore lots was received and accepted, as was report of North End Public Library.

The mayor was authorized to sign the agreement with L. C. R. for the siding between Sheffield street and Broad street.

New Bread By-Laws. Commissioner McLellan then submitted for first reading amendments to the Bread act and to bring the matter before the people Commissioner Russell seconded the resolution, further consideration to be had after delegations are heard, if it is desired.

The new sections are as follows: Be it ordained by the city of St. John, in common council convened as follows: 1. Section 1 of a by-law of the city of St. John made and passed on the thirty-first day of March, A. D. 1909, entitled "A Law respecting the sale of bread within the city of St. John," is hereby repealed and the following section substituted in lieu thereof.

"1. All bread offered for sale in the city of St. John by the loaf, shall be not less than the weight of one pound and one-half per loaf, twelve hours after being baked."

"2. Section 5 of the said law is hereby repealed and the following section substituted therefor: "5. The chief of police, or other person duly authorized by the common council of the city of St. John, may, from time to time, enter any bakehouse, shop, or premises or other building where bread is baked or kept for sale and there inspect the bread and premises and may examine the contents of any bread cart or wagon or sleigh containing bread for delivery or sale, and may seize and take away a sample or samples of any bread which may be considered by him as unfit for use, or any bread which has been made with any deleterious material as forbidden by Section 4 of this by-law and also any bread which is an ounce lighter than the weight or one pound and one-half per loaf, and may dispose of the same as the mayor or the police magistrate of the city shall direct."

"6. Section 6 of the said law is hereby repealed and Section 7 of the same is made Section 6."

SUFFERED FROM BILIOUS HEADACHE.

At Times Thought She Would Go Mad. Headaches are one of the most aggravating troubles a person can have. They are many and varying, but when the headache starts you may be sure that there is some other chief cause of this most painful difficulty. The stomach, the bowels, the blood may be out of order, but the blood may not circulate properly, but the presence of the headache clearly shows that there is some other baneful disease which is liable to assert itself unless the cause of the headache is removed. Get rid of the headache and thus perhaps save yourself many years of trial and suffering.

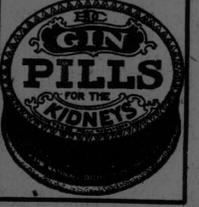

Burdock Blood Bitters has, for the past forty years, been curing all kinds of headaches, and has also proved itself to be a remedy that cures where all others fail. It does this by removing the cause of the trouble.

Headaches are one of the most aggravating troubles a person can have. They are many and varying, but when the headache starts you may be sure that there is some other chief cause of this most painful difficulty. The stomach, the bowels, the blood may be out of order, but the blood may not circulate properly, but the presence of the headache clearly shows that there is some other baneful disease which is liable to assert itself unless the cause of the headache is removed. Three Boxes Cured His Rheumatism.

It cost Mr. Moore's father just \$1.50 to be cured of chronic Rheumatism from which he had suffered for years. Just three boxes of GIN PILLS at 50¢ a box, completely cured him and today he has not a sign of Rheumatism.

GIN PILLS FOR THE KIDNEYS. Newburg, Ont., April 20th. "My father has been troubled with Rheumatism for a number of years, having tried two doctors and getting no relief. He was finally advised by a friend to try GIN PILLS, for a week, found that they gave him relief. He then purchased three more boxes which were the means of curing him. He is now a strong man in good health able to attend to his daily work. For the great change, all the credit is due to GIN PILLS. ALEX. MOORE.

ACHED ALL OVER, HAD PAINS IN CHEST

Jackson, Miss., Minister Tells How He Suffered After the Grippe and How He Was Restored to Health by Vinol.

Jackson, Miss.—"I am a minister of the gospel and I had the grippe so badly that I ached all over, flesh was sore, I had pains in my chest and back, no appetite, was nervous and had a stubborn cough. "I tried different medicines without benefit; finally a friend recommended Vinol. I tried it and soon noticed an improvement and continuing its use I am entirely relieved of my troubles. I have also used Vinol in my family for chronic coughs and cold with the best results."—O. W. CHILDS, Jackson, Miss.

Grippe leaves the blood in a thin devitalized condition. It takes away the appetite and leaves one weak, without energy and often in a dangerous condition.

In order to restore the blood to a healthy condition, iron must be supplied in an easily assimilated form. We guarantee this may be done by Vinol, our delicious food liver and iron tonic, which contains no oil. If you try it, it does not help you, we will return your money.

Interest account—Coupon previously due \$ 60.00

On account this year \$ 150.00 (\$20) coupons not yet presented \$ 840.00

Interest on overdraft \$ 250.06

600.06 Planning mill, carpenter work and lumber \$ 292.80

Wire fencing \$ 72.85 Paint and for lettering signs \$ 39.48

Hardware \$ 282.23 Plumbing \$ 8.18

Horse shoeing \$ 14.95 Sharpening tools \$ 2.70

Insurance—On horse \$ 6.00

Atlas \$ 10.00 On lodge, \$800, York-shire \$ 16.00

Commission—Joshua Clawson, Est. \$ 222.70

G. Fred Sanction \$ 37.70

60.40 Hise mowing machine \$ 10.00

Pair horses and man, two days, sundries \$ 15.68

\$5,008.53

Leaving this balance, \$661.70, by which the overdraft is reduced. A. E. ARMSTRONG, (Sgd) Hon. Secy.

February, 1915. Managing Committee

To the President and Members St. John Horticultural Association:

The managing committee present this, their annual report.

During the first half of 1914 the prospects were most favorable for a prosperous year.

Subscriptions were coming in; animals and other gifts in kind, many unsolicited, were received and the attractions, especially the Zoo, brought visitors to the park and gardens in larger numbers than ever.

Suddenly the war cloud burst and it became the part of prudence to exercise retrenchment.

As soon as war was declared one of the garden hands, an excellent man, an Imperial reservist in the Worcestershire Regiment, Albert E. Whitworth, hastened to the call to the colors; a second, and equally good man, Joseph Teho, joined the Medical Corps, number 8 Company, first contingent; a third employee found another position, and it was decided that as the bank account has and had been for years largely overdrawn, every effort should be made to reduce it.

All extension work of every kind was stopped; the vacancies were not filled, and thus, without hardship to any one, the outlay was at once materially reduced.

Head Gardener Johnson undertook to endeavor to keep the greenhouse and its connections in fair order almost single handed, receiving aid when necessary from the two permanent men in the park, Head Keeper Henry and Assistant Taylor, who, always willing to do anything to further the interests of the association, assisted him at times.

Great praise is due to these three valued employes for their co-operation in performing this extra work and without extra pay. This with other careful management has resulted, with the aid of the special contribution from the Sir Leonard Tilley Memorial Fund, in establishing the committee to reduce the bank overdraft by the very respectable sum of \$661.70.

This retrenchment, however, cannot be long without serious impairment to the up keep and progress of the work.

Lumber. In previous years trees which, by reason of decay or otherwise, it became necessary to cut down were hauled to the mills and sold by the log. Later when boards and lumber were required such would be purchased at a difference in price which seemed very unprofitable to the association.

This year the trees were hauled to the mill and were cut to order into dimension stuff of such sizes as would be required, thus saving to the association a surprising large sum.

Buildings. With some of the above lumber, and by using a portion of the material of the

abandoned "shoot-the-chutes," a second shed has been built in which is now stored hay and lumber in drying implements, etc. The work-shop being found too small, its capacity was nearly doubled by cutting it in twain, extending the ends and building up in the middle. Many new cages for animals, most of them of an ornamental appearance, have been constructed.

Milk Supply. Milk being an important item of food for animals, a good grade Holstein milk cow was purchased in September last which has proved a profitable investment, sufficient hay being cut on the property for the cow as well as the horse and other animals. The milk, mostly consumed by the bears, which was costing about \$150 yearly, is therefore now produced at a great saving.

Gifts. During the last year the association received from the Sir Leonard Tilley Memorial Committee \$88.16 being the balance of funds in their hands.

Most of the other contributions have been made in connection with the Park Zoo. The late Robert Thomson contributed a handsome double flying cage and Eagle house.

Thanks are due to Manning W. Doherty for a Canada lynx or lucifer, two rare native animals; to J. Willard Smith for an Ara Macas or Scarlet Macaw, native of the West Indies; to Holt, Renfrew & Company, Limited, of Quebec for two young black bears; to Frank E. Williams for Alaskan mink; to Cyril Wilby of Scott Brook, Gaspe, for a cooper hawk, a Porcupine and two toises; to J. Harry deForest of Waterloosville, Kings county, for a spruce partridge; to Daniel J. O'Neill for native hare; to W. D. McAleer of Scott Brook for a great horned owl; to the Honorable J. Douglas Hazen, for trout fry; to Colonel McEvity for Angora rabbits; to Ernest D. McCaw for two woodchucks or ground hogs; to H. H. Cochrane of Bloomfield for a porcupine; to Charles C. Guzman of Old Town, Maine, for a baby porcupine; to Harold McIntyre for a great horned owl; to Harold Alexander

for white rabbits and to Fred A. Hickey for a bonnet monkey, a very interesting native of West Africa. Besides the above deer was obtained from Bayville, Northumberland county, and prairie dogs, muskrats, native squirrels and other animals have been procured.

Thanks are also due to Gandy & Allison for a generous supply of rock and ball bearing revolving wheel for squirrels; to G. G. & A. E. Kierstead for five crates of grain partly damaged in the I. C. R. elevator fire; to Leonard Bros. and to Charles W. Smith of Smith's Fish Market for weekly supplies of fish heads, etc., without which the cost of feeding the animals would be greatly increased; and to Solomon McConnell for conveying the same to the park and for numerous other services most kindly performed.

The management regret to have to report the total destruction by fire on the 29th ultimo of the lodge in Gilbert's Lane occupied by under-keeper Taylor. The fire is presumed to have originated from an over-heated stove. Only the well directed and continued efforts of Fire-Chief Blake prevented serious injury to the beautiful trees in the vicinity. The building was erected by the late Mr. Thomas W. Daniel at the then only entrance to his grounds. It was not well situated for the abode of the caretaker being too remote from the center, it is hoped in time to erect a new building on a more convenient site. Fortunately the building was insured for \$500, and the same was paid. Claim has been made therefor on the company.

A permit was given to Charles T. Merritt to erect at his own cost a shelter house for checking skates, wraps, etc., the building to be the property of the association. Mr. Merritt has constructed a small but light building on the shore of Lily Lake. His charges are paid and he has given every satisfaction. The many persons who avail themselves of this accommodation prove the wisdom of their children.

This has been kept open by Captain P. W. Smith during the summer and has proved a great convenience to many. Heads of families can obtain here light refreshment for their children. The place has been well patronized.

Bonds of the association are outstanding to the amount of \$7,400; interest at 4 per cent. Besides this there is the long standing overdraft in the Bank of Nova Scotia, now happily reduced to \$5,938.89.

Future. It has been announced that the common council contemplate cutting off for this year entirely the annual grant of \$4,000, which the association has been receiving for many years. The park and public gardens, while under the management of the association, is in reality a civic institution enjoyed by rich and poor alike, affording to many of the latter class their chief opportunity of outdoor recreation. Many with their families spend their Sunday and other available afternoons in the park. It is up to the association as important as is the maintenance of the city's streets and squares. With the now many urgent demands on the public, in connection with the war it is believed to be impossible to obtain private subscriptions sufficient in volume to keep open this important institution. Practically the only fixed revenue the association has is that obtained from the sale of tickets for the larger portion of which is absorbed by interest charges. Wages, coal for the green-house and feed bill for animals cannot be met without money. It will be for the association to decide what is to be done.

J. R. ARMSTRONG, H. N. STETSON, A. K. DEAN GANDY.

St. John, N. B. 9th February, 1915.

DYSPEPSIA GONE! NO INDIGESTION, GAS, SOURNESS—PAPE'S DIAPEPSIN

Time it! In Five Minutes Your Sick, Upset Stomach Feels Fine

When your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating

headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no more heartburn, no gas, no sourness to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

Suffer No Longer From Constipation!

You can immediately relieve and permanently cure yourself with Dr. Hamilton's Pills. One thousand dollars will be paid for any case that isn't corrected within three days.

Dr. Hamilton's Pills contain no injurious drugs; they are composed entirely of soothing, vegetable extracts that strengthen the stomach and bowels at once. It is absolutely impossible for Dr. Hamilton's Pills to fail.

For biliousness, sour stomach, indigestion, headache, or constipation. Even one box has brought vigor and renewed health to chronic sufferers, so you owe it to yourself to try Dr. Hamilton's Pills at once; 25c per box at all dealers.

SAY SIX INCH GUN PROVES THE MOST EFFECTIVE

United States Military Experts, Sent to War Report

THINK LESS OF GREAT MACHINES

Point to Situation at Verdun as Illustrating Relative Use of Large and Small Engines of Destruction

(By Gilson Gardner)

Washington, D. C., Feb. 10.—That a six inch gun is as large a calibered gun as can be effectively used in field operations and against trenches, and is in fact the gun which is doing the most important work in the foreign war is one conclusion reported by military experts sent abroad by the war department.

There has been much notice in the dispatches of the large calibered guns and the general idea prevails that the 42-centimeter gun has played a very important part in the war. Experts say the opposite of this is the fact.

The relative use of the large and small gun is well illustrated by the present situation at Verdun. This French fortress has huge guns to defend it, and the Germans have brought up their 42-centimeter gun to attack it; yet neither the German nor the French large caliber guns have been brought into play. The French trenches are protecting Verdun instead of their own big guns. The trenches are thrown up around Verdun at a distance from the fortifications,

Lieutenant Stanley Jones of Calgary, who went into action with Princess Pat's regiment, early in January, is now a patient in Woolwich Hospital, having been wounded in an early engagement. The wound was in one of his hands and is improving rapidly. Lieutenant Jones is a brother of Mrs. B. J. Lawson, of Amherst, and a native of Wolfville, a graduate of Acadia College and one of the prominent lawyers of Calgary. His wife volunteered at the same time as he and is now serving as a nurse at the front. Lieutenant Jones served in the South African war.

Arkansas has the only diamond mine in the world outside of Africa.

It was decided to hold the next annual convention in Vancouver (B. C.) on July 5.

APPPOINT MINSTER TO ATTEND AT POLICE COURT

Saskatoon, Sask., Feb. 10.—So that they may get into closer touch with local backsliders who come within the law, the ministers of this city have appointed one of their number, Rev. Wyle C. Clark, to attend the police court, and also to take other means of meeting and helping those who might be helped. This move is looked upon with general interest, although so far Saskatoon crime has been almost entirely of petty character.

Arkansas produces coal, silver, galena, slate, oil, stones and clay of every description.

making it impossible for the Germans to bring any big guns close enough to bombard.

The use of the big guns at Liege and Namur was made possible by the marvellous roads in Europe and by the quick mobilization of the German army. The Belgians were not sufficiently numerous nor quickly enough mobilized to throw up trenches outside of these places, or they could have prevented the Germans getting the big guns within range.

The lesson once learned makes it impossible that big guns ever again can be used to batter down fortresses, providing there is a sufficient field army to defend the place. Hereafter an army in trenches will protect cities threatened with capture in war.

In the United States it is the opinion of military experts here that the 12 and 14-inch guns used to batter in the defenses of Liege and Namur would find absolutely no use. In the first place they say that it would be impossible to transport them over our roads and insecure bridges, and in the second place there are no fortified cities requiring heavy pounding administered by these large calibre guns.

Any battles which might be called upon to fight would be fought in the same manner as those going on in the trenches in France and Belgium. We would have three-inch and six-inch mobile field artillery, using shrapnel and shell.

Of course the big guns, with long range and terrific striking power will still be used in the navy and in coast defense. The Panama canal will always be defended by the biggest guns we can make.

SPORT NEWS OF A DAY, HOME AND ABROAD

BASKETBALL

St. Andrews' Won. St. Andrews' junior basketball team won from East St. John Juniors by 33 goals to 10, in St. Andrews' schoolroom, last evening.

HOCKEY

Sussex Wins From Moncton. In Sussex last night the home team defeated Moncton by a score of 10 to 6.

CURLING

Bathurst Retains McLellan Cup. In Bathurst yesterday the home curlers defeated Newcastle curlers in the McLellan cup competition by a score of 56 to 36.

The Thistle Curling Club was to have sent representatives to Fredericton today, but they received word that the match had been postponed as some of the Fredericton players were unable to participate.

SKATING

Stars May Be Suspended. Several Canadian skating stars, both in Montreal and Toronto, are under suspicion of having violated the amateur code, and an investigation now under way may result in the disbarment of three performers from amateur events.

Change in International League. President McCaffery of the Toronto baseball club has returned home from New York, where he had several conferences with Ban Johnson, Ed Barrow and other big men connected with organized baseball.

Freeman for International. John "Buck" Freeman, who was rightfielder for the Boston Americans, and one of the best long-distance hitters in the game when Jimmy Collins was winning pennants for Boston, has signed to umpire in the International League next summer.

Reulbach Joins Federals. James A. Gilmore, president of the Federal Baseball League, announces that he has signed Ed Reulbach, former pitcher for the Brooklyn Nationals and for the Chicago Nationals.

Shugrue Bests Welsh. New York, Feb. 9.—Joe Shugrue, the Jersey City lightweight, again proved too much for Freddie Welsh, world's champion of that class, in a ten-round bout at Madison Square Garden here tonight.

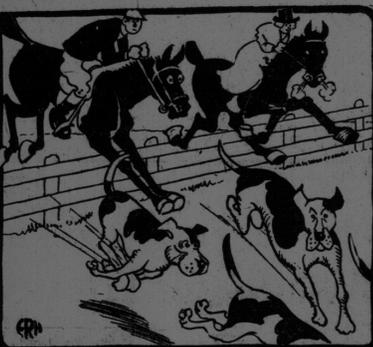

Bayley Beat Anderson. Vancouver, B. C., Feb. 9.—Joe Bayley, of Victoria, former Canadian lightweight champion, was awarded the popular verdict over Frank Anderson, of Vancouver, here tonight, in a four-round bout.

credit the fact that they made such a showing at Calais.

The team has a three string Canadian candle pin record which is around the 1500 mark.

The reason Beattley bowled so well is said to be owing to the fact that there were numerous female admirers.

Why did some of the players get off the train at Fairville?

It is reported that the St. John boys understood that if they won they would not be tendered a reception, thus explaining Wilson's high string of 76.

All the players speak in glowing terms of the treatment accorded them by the members of the St. Croix club.

Their visit will long be remembered as one of the most enjoyable they ever made.

Five Men Team League. On the Victoria, alleys last evening team No. 2 took three points from team No. 3.

No. 2 Winners. On the Victoria, alleys last evening, No. 2 team took three points from No. 3.

ANOTHER SUBMARINE SUNK BY AVIATOR?

London, Feb. 10.—A despatch to the Daily Mail from Rotterdam says that a Flanders correspondent says that on Thursday night an English warplane hovered over Zebrugge, and, defying the concentrated fire, made a sudden dive to within 300 feet of the ground.

About forty German soldiers returning from the disciplinary court, where they had been sentenced to punishment, ran for cover in all directions.

The aviator coolly dropped his bombs at short range on a submarine moored alongside the mole. There was a terrific explosion, and the submarine was sunk. The aviator got safely away.

You will save money at the People's Dry Goods Store, 14 Charlotte street.

Father Vaughan tells a good story of a certain minister who was preaching on "Protection." "Did you ever know anyone to be perfect?" he asked. "Did you ever read of any man or woman who was quite perfect?"

As he paused and looked around among his audience a pale-faced, haggard-looking woman rose up in the back row and said: "Yes, from all accounts, my husband's first wife was perfect."

ASK JOHNSON TO FIGHT SMITH

San Francisco Promoters Endeavoring to Arrange Bout—Predicts Johnson's Defeat by Willard

Despatches from San Francisco say that Golden Gate fight promoters have sent an offer of a big purse to "Jack" Johnson for a fight with "Gambler" Smith for the heavyweight championship of the world.

In order that there will be no chance of Johnson's arrest by the federal authorities because of his recent Chicago trouble, on which he is still under indictment and on \$30,000 bail, it is planned to stage the battle at Tia Juana, just across the Mexican border, in Lower California. It is said that Johnson can reach the place without touching United States territory.

The date of the battle is set for July 4 which will mark the fourth anniversary of Johnson's victory over Jeffries at Reno.

New York, Feb. 9.—Should Jack Johnson succeed in defeating Jess Willard at Juarez on March 6 he will have accomplished a feat that has not been equalled in ring history.

The nearest approach to it was when Bob Fitzsimmons at the age of 38 conquered Jim Corbett in Carson City.

Whatever may be said against Willard it is a fact that he is the best white heavyweight who has come to the front during the last ten years.

Yet a supposedly dissipated negro at the age of 37 is picked to beat him. On the face of it there must be something wrong with such a conclusion.

In order to win Johnson must perform what past pugilistic history shows is in the nature of a miracle.

With the exception of Fitzsimmons, who was an all-round freak, no ring champion since the time of Sullivan has been able to defend his title at the age of 37, and even Fitzsimmons met defeat at that age.

Today there is not a first-class man in any division so old as Johnson or even near his age.

The usual large crowd was gathered at the corner of a busy thoroughfare waiting for cars.

An elderly lady, red in the face, flustered and fussy, dug her claws to convenient riser irrespective of owners.

A fat man on her left was the recipient of a particularly vicious jab. She yelled at him "Tell me!"

"Not to me, madam," he answered, slipping through an opening in the crowd.—Weekly Scotsman.

She, too, safe-stepped and thumped him vigorously on the back of these cars.

"Tell me," she persisted, "does it make any difference which of these cars I take to Bethnal Green Cemetery?"

"Not to me, madam," he answered, slipping through an opening in the crowd.—Weekly Scotsman.
