WORK WELL BEGUN

Three matters of great importance related to the advancement of the social welfare of this community were advanced at a meeting last evening, when the Associated Charities discussed the protection of children, the prison farm and the care of the feeble-minded. The unusually large attendance, in striking contrast to former meetings, showed the depth of public interest in these questions, and in the case of the Child's Protection Act the resolutions adopted, and the expressed sympathy of Hon. Mr. Wilson, may fairly be accepted as an assurance that the bill will go through the legislature at its next session, giving Children's Aid Societies power to care for neglected and abandoned boys and girls. In all cases where parental responsibility is disregarded and the children are not getting a fair start in life, there should be, as Rev. Mr. Armstrong pointed out, the voice of authority as well as of good counsel, so that in extreme cases prompt action may be taken. The Children's Aid Society of Ottawa now has three hundred children who were taken from their parents and placed in good homes in the Ottawa valley. Other Ontario cities have also a fine record of work done, and it means much for the future citizenship of Canada. The committee which President Fisher has appointed here to deal with the matter should have no difficulty in enlisting the sympathy and aid of Attorney-General McLeod in framing a new bill. If the one presented last year was not wholly acceptable, which would bring New Brunswick in line with other enlightened communities.

AN EXAMPLE FOR ST. JOHN

While universal attention is being directed in Ontario to the need of a stronger campaign against tuberculosis, the people of St. John are still waiting for definite action regarding the establishment of a local sanitarium, for which a site has already been provided. The Toronto News informs us that a group of prominent Toronto men have set themselves to the task of raising \$1,000,000 for the National Sanitarium Association, which maintains hospitals at Weston and Gravenhurst. The sum of \$400,000 is to be obtained by public subscription, and the city council is asked to grant \$200,000. The News points out that the city can well afford to contribute, as two hundred Toronto patients are already cared for at the Weston and Muskoka hospitals. The churches of the city will devote one Sunday to the education of the people in regard to the project. The News says that in the last few years the mortality from tuberculosis has been materially reduced, and it naturally concludes that if the fight is kept up the plague will soon be almost eradicated. At the last meeting of the Anti-Tuberculosis Association of Ottawa, it was stated that the Lady Grey Hospital was doing excellent work, with twenty-nine patients in residence at the end of October, and that in a few months a new building, designed expressly for incipient cases, would be completed. One reads with pleasure of the efforts that are being put forth in other places for the benefit of those who are suffering from tuberculosis, but the pleasure is somewhat lessened by the consciousness that in the city of St. John, whose death rate from this disease is so large, the citizens appear to be quite indifferent and make no effort to force the hand of those who ought to provide an institution here.

RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage a Simple Remedy for Dandruff, Falling, Faded, Gray Hair. The old idea of using Sage for darkening the hair is again coming in vogue. Our grandmothers had dark, glossy hair at seventy-five, while our mothers are gray before they are fifty. Our grandmothers kept their hair soft and glossy with a "Sage Tea," which also restored the natural color. One objection to using such a preparation was the trouble of making it. This objection has been overcome by the Wyeth Chemical Company of New York, who has placed on the market a superior preparation of Sage, combined with Sulphur and other valuable remedies for dandruff, itching scalp, and thin, weak, falling hair. The beauty of the hair depends more on its rich, even shading than anything else. Don't have dry, harsh, faded hair, when a simple, harmless remedy will bring back the color in a few days; and don't be tormented with dandruff, itching scalp and loose, falling hairs. Wyeth's Sage and Sulphur Hair Remedy will quickly correct these troubles, and give color, strength and beauty to your hair. Get a fifty-cent bottle from your drug store today, and prove this to your own satisfaction. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agents Watson's Drug Stores, 100 King and 279 Main.

COMPENSATIONS

(Frances Lockwood Green, in Christian World, London, Eng.) I may not climb that high, lone path That leads to power and fame, No laurels may crown my toil-worn brow, No lustre gild thy name, But I do the work that my heart loves best, And life has its shining way; For the joy of life laughs at struggle and strife When the work that you do is play.

THE FREEZING LIMIT An American and a Scotman were discussing the extent of frost experienced in the north of Scotland. "Why, it's nothing at all compared to the cold we have in the States!" said the American. Political Wiseacres in England Again Express Doubts About Canada's Future Loyalty—The "Foreign Wedge" Bogey

(Times' Special Correspondence)
London, Oct. 22.—Henry Page Croft, M.P., who was just returned from Canada, believes that the problem of the Middle West lies in the excess of American and European settlers over those of British birth. "Here," he states, "American and European immigration is quickly distancing British immigration, and Saskatchewan and Manitoba in a few years' time will have a majority of electors who have not been born under the British flag and to whom the British sovereign and British traditions are regarded as of very little interest. Many cases indeed, with hostility. To say that these people can be held to the British Empire by sentiment as the British government appear to think, is either pathetic in its ignorance or criminal in its knowledge. Unless British statesmen act and quickly, there is little doubt that a foreign wedge will be driven into the centre of Canada which will threaten the whole future of imperial unity."
In his statement before the dominion's royal commission sitting under the chairmanship of Hon. George F. Foster, Sir Clement Kinloch-Cook, M.P., used almost the same language. In his opinion the necessity for promoting British emigration to Canada was emphasized by the fact that the combined immigration into the dominion from the United States and the continent was greatly in excess of that from this country. He blamed the British government for its attitude of apathy. As far as the dominions were concerned there was a lack of continuity of policy. If there was an imperial board upon which the imperial and dominion governments were represented, all the fluctuations of demand for labor could be made known with authority and without delay.

ECCENTRIC ECCLESIASTICS

Reminiscences By Rev. Forbes Phillips, Author of Cassock and Comedy

(London Answers)
The church has no monopoly of eccentricity, but of all institutions it has the largest share.
Some years ago I had to speak at a big public meeting on "Lifeboat Work."
"Have you any suggestions for your host?" The last person we had here refused to sleep in a bed. When everyone had retired to rest the whole house of the room was hammering on the wall of our visitor's bedroom. Come and see!
I entered the bedroom. There were two large holes in the wall, where the paper had been laid over by a plaster disturbed. "Well, the parson we had here last hammered two huge hooked nails into those walls to support a hammock."
I had the qualified pleasure of meeting this eccentric at dinner some years after. "Can I serve you some soup?" inquired our host. "Never take soup," was the reply. Then, later, "You will have some fish?" The cleric simply shook his head. So he declined dish after dish. "But what will you have?" inquired the now desperate hostess. "I should like to have five raisins, one apple, a few nuts, and some oil."
By this time everyone was uncomfortable. A whisper went round that there were no raisins in the house. I suggested that he should go on with the oil and the apple. His face assumed a look of eloquent resignation. The next moment he sprang to his feet and rushed from the room.
The intelligent under-footman had brought in bicyclette!
A delightful old clergyman, professor of Greek at my own university, had a habit of forgetting to put on his clothes. Once he walked into college chapel in an old-fashioned nightgown. It was a misty morning early in February. An undergraduate was reading the first lesson, when this elegant, ghost-like figure moved along in the dim dawn which crept in through the stained-glass windows. One of the dons took his arm and led him out.
On another occasion it was his turn to preach in the cathedral. Instead of stepping into the pulpit, he walked out altogether, and things came to a standstill.
Another old college don was a dresser. One day he met me in the town. "My boy," he said, "I came out to go some where, but it's gone—gone! Can you tell me where I meant to go? I suggested that he should go back to his college. What is more I saw him safely there.
Later in the evening he sent for me. There was the great discovery. "Come into my study," he said, "I want to write a letter, and I must have missed my way to my library. You will have a glass of wine?" But he forgot to ring the bell. Presently he said: "Do have some more. Now, what have I done with the de-
"Many men's eccentricities are the result of self-hypnotism. I remember once seeing a well-known clergyman walking calmly along during a down-pour of rain, holding his walking stick up, under the impression that it was an umbrella.
A bishop and a well-known scholar was spending the day with me. I took him up to a bedroom to have a wash. "Come into my study," he said, as I was leaving. "Do you mind remaining?" Then he explained to me that, so soon as he saw a bed, the power of suggestion was so strong that he frequently undressed and went to bed, to the inconvenience of hosts and other folk.
Absentmindedness is responsible for much amusement. An elderly clergyman, on arrival in Rome, was positive that he had lost some of his luggage, and gave notice at the office; but he was unable to say what the package was like, or even what it was.
It transpired in the course of next day,

SOME PUBLIC SERVICES

**Australian Professor's Views on
Railways, Telephones and Tele-
graphs After Canadian Tour**

(Times' Special Correspondence)

London, Oct. 15.—If the C. P. R. com-
pany passed into the hands of the govern-
ment, 75,000 men would at once begin
to influence their employers and freights
would probably rise, is the statement of
Professor James W. Barrett, of Melbourne
University. He recently returned after a
tour of the dominion and his conclusions
are that for efficiently conducted public
services private enterprise is necessary.

Canadian railways, he says, are well
managed, and, although there are com-
plaints about high freight rates, those on
the state-owned railways of Australia are
higher. Practically all the railways in
Australia are government-owned and man-
aged, and for many years they were run
at a loss. By the appointment of inde-
pendent commissioners desperate attempts
were made to keep out politics, and partly
succeeded; but the fact that every one
plays was a vote cannot be forgotten, par-
ticularly in new construction.

This recalls the fact that it was a Cana-
dian who put the Victorian State Railways
on a paying basis. When Sir Thomas Ta-
lor took charge of them they were being
run at a heavy loss. He was able in a
few years to make them profitable, but it
is remembered that the labor element
in Australia made it impossible for him
to continue his good work.

Recently the Hon. J. B. Lucas came to
London commissioned by the Ontario gov-
ernment to enquire into the question of
public ownership of telephones in Great
Britain. The results of his investigation,
I understand, did not enable him to re-
commend provincial ownership in Ontario.

Professor Barrett supports this view. The
telephone services in Canada, he says, are
most efficient and the rates are not as
high as those of the Australian govern-
ments whose service is, however, of
such a character that one can only apolo-
gize for it. It is the same with telegraph
in Australia, which are all government-
owned. Recently the hours at which the
telegram could be sent were reduced by
two and the office are now open only
from nine to six. Another is the contract
between Canada and Australia is greatly
to the advantage of the dominion.

From a "Worn Out" Farmer.

Fred W. Boynton of North Edlington
has reason bumper crops of hay, grain
and potatoes this year. The result of con-
stant farm improvement through the use
of fertilizer alone. He has grown a crop
of hay and oats on land where potatoes
have been grown for two previous years
which exceeds what he says it was the
largest ever grown in the state. His yield
was about three tons to the acre. Some
of the stalks were unusually tall and stout.
The field contained 15 acres and in plus
the crop lodged badly and had to be cut
by mowing machine rather than by reaper
and binder. Help was scarce and the
wet weather damaged it greatly after it
was cut and will cause quite a loss.

Beginning the week of Oct. 14, Mr.
Boynton harvested 1900 barrels of pota-
toes from 14 acres. The whole crop on the
home place averaged 384 bushels to the
acre of a fine quality Green mountains
95 per cent. being marketable.

He cut the hay this year from only 11
acres and has sold 25 ton and still has
enough to winter three horses and two
cows.

The farm was a few years ago consid-
ered worn out and has been brought to its
present condition by the potato crop
which have been grown on fertilizers en-
tirely.

KEEPING UP APPEARANCE

"Did the burglar who broke into your
house get anything?"
"About three hundred dollars' worth
of jewelry."
"I didn't know you had that much jewel-
ry."
"I didn't, but three hundred dollars'
worth of jewelry looks better in the pa-
pers than a 'twelve dollar watch.'"

SAY! YOUNG MAN,

Better stop being a washer and become a worker if you really want that easy well paid job. You could wait until doom's day for something to turn up, but it never will, not until you brace up and go to it.

DEMOCRACY

"Democracy implies infinity. Men are declared to be equal because it is discovered that all men, the least as well as the greatest, have or may have access to the infinite. The obvious disparities become insignificant in view of this great commonness. Infinity plus a million is seen to be no more than infinity plus one. If it were not for Democracy religion would be inconceivable; if a man's soul is measurable and transient, Democracy is ridiculous." - Charles Ferguson.

More than thirty ships are kept in constant way laying and repairing ocean cables.

THE REAL BOON

HERE; THAT OF SOME WEST?

(Sussex Record) The real pity is that we have not a Dickens to draw a pen picture of the ludicrous side of real estate transactions, as they are presented to us in the west.

That million, so we are informed, will at once change the whole life of Skinnum. Land worth \$20 more than a passing fancy on an appreciation which will warrant the payment of thousands for corner lots, the cash to be provided, of course, by suckers domiciled east of Lake Superior.

But the C. P. R. did not stop with the Mill street improvements. Today that great railway has in course of completion, works in St. John West, which will involve the spending of some ten millions.

Some of those who have faith in St. John's future have already amassed considerable fortunes in real estate and many who have invested in Skinnum are told to sell now but will prefer to go on and go on, waiting for the harvest. If St. John were only the printers of that city would be working overtime to enable real estate men to sell their property.

99 OUT OF A 100

Men who drink in excess are good fellows, men who at one time stood high in their profession, men who were considered good safe, sound business men.

Now, through the constant use of strong drink, they have destroyed their ambition, degraded their minds, wrecked their constitutions, ruined their lives, weakened their consciences, neglected their homes and lost opportunities. All of these men were once ambitious, high strung men, reaching and stretching out to get rich quick, and at sometime in life had a good thing, but lost it through drink—don't be a "has-been"—don't wait until you are down and out, hold on to yourself while you still have will power left. You know the "draw backs" of one kind or another, you know there is nothing in it.

Many a time have you sworn off, said if you ever get over this drunk never again for you, but what is the result? The same old thing over and over again, promises, pledges, with good intentions, but as soon as that craving starts in, what do you do? The majority of wise men today are trying to get ahead of the game, want to stop, the outcome being that the St. John branch of the Neal Institute is being well filled day and night with people who are tired of this life-sapping habit, and in three or four days spent under our physicians care return to their old self again forever freed from bondage. Open day and night. Doctors always in charge. Phone Main 1685, or write for our new booklet, showing the interior view of the hospital. It's worth your while. PLEASANT EVENING AT 62ND OFFICERS' SMOKER

A pleasant evening was spent last night at the headquarters of the 62nd St. John Fusiliers, when at the invitation of Lieut. Colonel J. L. McAvity and the officers of the regiment a smoker was held to formally open the new rooms at the corner of Germain and Duke streets.

Many officers from other regiments were present to share in the hospitality of the evening. Among the guests were Lieut. Colonel Wedderburn, Lieut. Colonel Sturdee, Major Hall, Major Walker, Major Messie, Major Armstrong, Major Hart, Capt. Churchill, Fred Macneil, D. Arnold Fox, H. O. Hildreth, Fred McKeen, W. Birrell, Dr. Hogan, Angus Uquahar and Osborne Sheppard.

The officers of the 62nd present were: Lieut. Colonel J. L. McAvity, Major Miller, Major Frost, Captain Peter, Capt. T. M. McAvity, Capt. Ronald A. McAvity, Capt. Bourde, Capt. McArthur, Lieut. Dawson, Lieut. Warren, Lieut. Keele and Lieut. Day.

After light refreshments were served those present settled down to an informal enjoyment of the evening's programme. The musical programme was in the

capable hands of Capt. H. E. C. Sturdee and Capt. Ronald A. McAvity. There was some excellent talent present and the programme was made up of selections from the band of the regiment and songs from Fred McKeen, Captain Ronald A. McAvity and others.

The new headquarters are commodious and are centrally situated. They consist of the adjutant's office and three rooms for the general use of the officers. They have recently been decorated and are most convenient.

NEED OF A PRISON FARM; PROTECTION OF CHILDREN, CARE OF THE FEEBLE MINDED

Movements of Great Importance Given Impetus at Associated Charities Meeting—Reforms Are Favored by Government Member

The need of a prison farm, the protection of children and the care of the feeble-minded children were the themes of the speakers at the thirteenth annual meeting of the Associated Charities of St. John, last evening in the rooms of the board of trade. These subjects were treated in a very thorough manner, and it was decided to seek legislation in this direction.

The meeting was perhaps the most successful in the history of the association and the attendance was certainly a great encouragement to those who have been interested in the great work of charity. The meeting was a very representative one and Hon. John E. Wilson, M. P., Philip Grannan, M. P., and L. P. D. Tilley, M. P., local representatives in the provincial houses were among those present.

Many of the speakers made reference to the large number present. W. Shives Fisher, president of the Associated Charities, occupied the chair and in his opening remarks referred to the work of the association and the need for the successful carrying on of the work. The chief speakers were Rev. R. A. Armstrong, rector of Trinity, who talked on the children's protection act and introduced a motion to the effect that the association urge on the local legislature the need of a child protection act.

Miles E. Agar, city commissioner of public works, told of the needs of a prison farm and the great good that could be accomplished by its establishment. Dr. Thomas Walker urged the need of proper homes for the teaching of feeble-minded children and strongly favored the appointment of men with proper training for provincial board of health officers. The secretary and treasurer reported on the work of the year and the officers for the coming year were elected.

Children's Protection. Rev. Mr. Armstrong in beginning his address said that he was pleased to see so many present and he would be glad at any time to give the association rooms for their meetings in Trinity.

He believed that there was nothing more important than the protection and proper training of the child. His reference to the child welfare exhibition in Montreal recently, where the different phases of child development were shown, was followed by a lecture or thrown on the screen. This exhibit is also to be shown in Ottawa and other Canadian cities and he hoped it would come to St. John. He spoke of the large sums of money being spent in different countries for the support of pauper children and pointed out that by means of proper training and protection these children would become useful and self-supporting citizens.

He drew the report of the Children's Protection Society of Winnipeg for facts in connection with the working of the act, which showed the good that could be accomplished. Winnipeg with its juvenile court and children's aids has done more for the helping of the children than any other city on the continent. "We have playgrounds here in St. John," said Mr. Armstrong, "but we want each child to have a chance to grow up to be a useful citizen. We give advice in St. John just the same as they do in Winnipeg but we want the authority to back up this advice."

Mr. Armstrong spoke of a case in an alley off Brussels street where a woman with six children was living but she would not go to the almshouse and the children were not getting a proper chance. He read several sections from the bill recently submitted to members of the local legislature. This bill was along the same lines as the Ontario law and was presented.

The Feeble Minded. Dr. Thomas Walker spoke on the need for proper training for feeble minded children. In this connection he first referred to the social service in connection with some of the hospitals in the United States, where a society was formed to look after the families of men, who were ill. This society visited the sick man and when he was able to leave the hospital and perhaps still too weak to work, it provided for his spending some time in the country until he was able to work. Dr. Walker said that he hoped to see the same thing done in St. John.

In the treatment of feeble minded children, in many cases, medical science was not sufficient and there was need of a teacher properly trained in this class of work. A great many of these cases of feeble minded children were absolutely hopeless but some could be taught a great deal that would make them useful to themselves. Dr. Walker also said that the board of health should appoint for public officers only those men, who are properly qualified for the work. The secretary of the Provincial Board of Health, he thought, should be a man properly trained in sanitary matters and having a certificate from a recognized university. He thought that legislation for the treatment of the feeble minded was long overdue.

Hon. John E. Wilson favored the law for the protection of children. He remembered the bill being brought up but did not know why it had not been passed. He would do all in his power to help the children. The establishment of a prison farm was also an important matter and he believed that money should not stand in the way of protecting people who would not protect themselves. The revenues of the province were not very large but he thought it was the duty of the government to help build up the industry as well as the country.

Rev. J. H. A. Anderson thought that the committee from the Associated Charities should co-operate with the Moral Reform Society in urging the passage of the Children's Protection law.

The Officers. The following officers were re-elected: W. S. Fisher, president; Rev. G. F. Scott, Mrs. F. Stetson, J. H. White and Mrs. G. F. Smith, vice-presidents; William Young, treasurer. Six members of the managing committee were elected as follows: Rev. R. A. Armstrong, Mrs. Robert Thomson, Mrs. Thomas Walker and Mrs. J. P. Ellis.

The report of the secretary, which has been printed in monthly sections, in the Telegraph was read by Miss Grace Robertson. It showed that nine board meetings and twenty-one conferences had been held during the year and that 182 applications for assistance had been received. Miss Robertson gave the details of the year's work, which showed that the association

BULGARIANS' GREAT VICTORY AT THRACE MAY PUT END TO WAR

London, Oct. 31.—A four-day battle in Thrace has ended in the triumph of the Bulgarians, commander-in-chief, General Savoff, whose skilful strategy has probably brought to a close one of the shortest and most remarkable wars on record.

A great Turkish army, estimated at over 200,000 men, has been defeated, and is in retreat. Constantinople is believed to be at the mercy of the victorious Bulgarians, and a council, sitting at the Porte, is discussing the advisability of suing for peace.

Such is the news which comes from Constantinople. It is only a fortnight since Turkey declared war. The first week of the campaign closed with the dramatic fall of Kirk Kiliseh, fully revealing for the first time the lack of organization, bad morale and inefficient commanders of the Turkish army. Today that army is defeated, routed within fifty miles of Constantinople, and possibly its retreat within the capital's line of defense is cut off.

Apparently Nazim Pasha has been completely out-manoeuvred by Savoff's skilful generalship. The Bulgarian turning movements along the Black Sea coast now appears to have been a feat which induced the Turkish commander to throw his main army to the eastward to such effect that the Bulgarian force on this side had the greatest difficulty in holding the Turks in check.

In fact, this point seems a little in doubt. The Bulgarians gave way and thus enabled Nazim Pasha to report to Constantinople some success in this direction.

In the meantime, however, General Savoff hurled his great strength against the Turks' weakened left wing, which he crushed in at Lule Burgaz. The fighting along the whole front, which evidently has been of the most stubborn and determined character, was carried on day and night without intermission, and both sides lost heavily.

The campaign of the other Balkan states continues with the success which throughout has attended them. Serbia has not yet been captured, but Ipek has fallen to the Montenegrins. The Serbians have taken Pristina and Greece is occupying islands in the Aegean, in addition to various towns in Macedonia.

The powers, fearing disorders and massacres in Turkey, are hurrying warships to the various ports of that country to protect the commerce that is so important. A noticeable feature of the war is the insignificant parts played by the Turkish and Greek fleets.

SUFFERED THREE YEARS

Will Dr. Morse's Indian Root Pills Cure His Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sudbury, Ont., is one of those who know it. He writes: "For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the small of my back and it would be impossible for me to straighten myself up for several minutes. A dull ache across the kidneys was always present, my urine was thick and cloudy, and passing it caused a burning, scalding pain. I tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured my wife years before. A few boxes affected a complete cure. I now enjoy the blessing of good health, which is due to this remedy."

Don't neglect kidney trouble—it's too dangerous as well as too painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and sick headaches, and in purifying the blood. 25c a box at your druggist's. 10

OLD AGE PENSIONS FOR FAITHFUL EMPLOYEES IN BIG CARPET MILLS

New York, Nov. 1.—Alexander Smith Cochran has put into effect old age pensions for the faithful employees of his big Yorkers carpet mills, together with a plan to compensate those incapacitated while at work.

Seven thousand employees of the carpet mills received the announcement with satisfaction and words of praise for the company.

This is the second benefit the employes have received through the rich bachelor's generosity. Recently a bonus system was established, whereby every six months workers who have been in the mills five years or more receive from \$10 to \$20 percent of the total wages earned for that period.

An accident compensation system adopted will allow any person injured in the plant, whether through his own negligence or otherwise, to collect half wages while incapacitated, even if the incapacity is permanent.

Besides half pay the injured workers will receive the best of medical attention, provided by the company. It was the company's aim in fixing the terms to express any inducements which could be offered by an insurance company.

These inducements have been offered to the employes to promote good feeling and co-operation between them and the company and to induce the skilled workers to stick to their positions.

The company now distributes in bonuses more than \$100,000 a year. The retirement fund laid aside by the company will be increased from time to time. Several employes who have worked for the company from twenty to thirty years will

REASON FOR IT
At a debating society some time ago the Irish question was discussed. An English doctor was sustaining the argument that the Irish were naturally a race with high sentiments, but poorly developed. At Liverpool, he said, he had three hundred Irish patients on his books, and of these only thirty paid him for attendance.

"Sir," said an Irishman, who rose with flushed cheek to defend his countrymen—"Sorry, there is never a phenomenon that does not admit of an explanation. How can we explain the astounding phenomenon to which the doctor has called our attention? He finds an explanation in the natural depravity of the Irish nature; I, Sir, have another explanation to give, and it is this:—the thirty patients recovered!"

MY FATHERS AT THE HELM
The curling waves with awful roar,
And pallid fear's distracting power
O'er all on board prevailed.

Save one, the captain's darling child,
Who steered us through the storm;
And cheerful with composure, smiled
At danger's threatening storm.

"And sport'st thou thus" a seaman cried
"While terrors overwhelm?"
"Why should I fear?" the boy replied,
"By father's at the helm."

So, when our worldly all is red—
Our earthly helper gone,
We still have one true anchor left—
God help, and He alone.

He to our prayers will bend an ear,
He gives our pangs relief;
He turns to smiles each trembling tear,
To joy, each torturing grief.

Then turn to Him, 'mid sorrows wild,
When want and woes o'erwhelm,
Remembering like the fearless child,
Our Father's at the helm.

GAZAR'S PUBLIC HOUSES

Ruler of Russia Controls More Than Any Other Man

(London Telegraph).
It will come as a surprise to most people to learn that the greatest publican of ancient or modern times is none other than the devoutly orthodox Czar of Russia.

Vodka, the national drink of the Russian people, has been a crown monopoly continuously since the sixteenth century. Today the crown owns 30,000 kabars, or public-houses, and 4,000 distilleries. The annual income from this source is approximately \$160,000,000.

Public-houses are open by Imperial command in that country. Every hamlet, no matter how small, must have at least one. When new towns are started it is said the first two structures to rise are the orthodox church and the cozy "pub."

In order that the latter may enjoy some semblance of nobility, and otherwise be distinguishable from the ordinary run of pure proletarian, a picture of the czar is appropriately hung over the bar, as if to extend a royal welcome to all who enter.

Sometimes ago a movement was launched in several communes to close half the public-houses and devote the money thus saved to schools for the children. The idea seemed to be eminently proper, seeing the people themselves were threatened with destruction by the million-handed scourge of ignorance and vodka.

Word came down like a crack of thunder from the lofty heights of St. Petersburg that instead of with a snow-storm of decrees to be tolerated a single moment, and before the reverberations had died away in the distant soldiers of the czar swooped down upon the scene, closed the schools, reopened the "pubs," fined the presumptuous communes, and served upon all an edict that further offences might mean an indefinite sojourn in Siberia.

Prominent physicians from all over the empire met at Moscow some months ago to discuss the means by which the insupportable ravages of intemperance might be checked. They met in the name of science and humanity; but the soldiers and police of the little famous czar harassed them until the congress was broken up in disorder.

Before they disbanded, however, some noble words that may some day ripen into a harvest of reform. They showed that 80 per cent of the male population of Russian cities became addicted to the use of vodka before they are thirty years old; that 45 per cent of all the girls in the empire form a like habit before they are eighteen; that 98 per cent of all the crimes in both army and navy are committed because the reason has been destroyed by His Majesty's special monopoly; and that while the government is spending less than one per cent for public education, the public brings an annual blood-bath offering of 20,000 to 30,000 per head of the empire.

The liquor business officially fostered by the Russian government constitutes a chapter in contemporary history, which, in its grim significance, is probably without a parallel in either ancient or modern times. On the one hand, the czar is the recognized head of the great orthodox church, and the spiritual leader of millions of people; while on the other he bears the distinction of being the greatest public-house owner the world has ever known.

NICKEL'S BIG BRITISH FEATURE

Taken by the Edison Company in England
"THE CHARGE OF THE LIGHT BRIGADE" AND THE BATTLE OF BALAKLAVA

THERE are eighteen short minutes in the history of Great Britain that will live as long as the war drum is sounded and the shrill trumpet call in the year 1854, at the hour ten o'clock in the morning, on the blood-stained field of Balaklava, where England strove for over a mile the life blood of honor.

Over four hundred soldiers gave up their lives to the everlasting glory and honor of England's military discipline, and all within the short space of time, you who love the heroic and the brave, for it was only in the month of October, 1854, when Lord Lytton and his staff saw from the moment, Lord Cardigan gave the command "Forward the Light Brigade!" and the brilliant feat of England's best blood of the world, their noblest and bravest, through all this time, bloody, battle-slain, broken six hundred.

LOCAL NEWS

HALLOWEEN PARTY
Master Edward Broderick, son of Dr. and Mrs. E. J. Broderick, Union street, was the host at a party given for boy friends last evening, and all had a jolly time. Stanley Harrington was the prize winner.

HUNTERS FROM AUSTRIA
Chatham Gazette.—To come all the way from Austria for a moose hunt in the famous Miramichi valley is what has brought Mr. and Mrs. O. B. Gatteter of Vienna, to this country. They have registered at the Miramichi Hotel, Newcastle, and are now with Jack Hare in the Portage River woods.

HALLOWEEN REUNION
The public Landing Outing Association held their annual reunion at Keith's Assembly rooms last evening. Fifty couples were present and thoroughly enjoyed themselves. There was a programme of fifteen dances. Supper was served at midnight. The chaperones were Mrs. Joseph Murdoch, Mrs. D. Corkery, Mrs. H. W. Belding and Mrs. G. Stringer.

COOKE-HAZLETT
At the home of Mrs. J. D. Wetmore, pastor of Tabernacle Baptist church, in Gilbert street, last evening, the wedding of Charles William Cooke and Miss Maud Isabella Hazlett, both of this city, was solemnized by him. The bride was attended by Miss Olive Boyce while Alex Brown was best man. Mr. and Mrs. Cooke will make their home in Prince William street.

SUCCESSFUL SOCIAL
At the home of Mrs. C. H. Doig, Stanley street, last evening the members of the Ladies' Aid Society of St. John Presbyterian church conducted a very interesting and successful tea and candy sale in aid of the fund to provide electric light improvements for the church. Next week's social will be at Mrs. Armstrong's home.

KNIGHTS OF COLUMBUS
Of a well attended and enthusiastic meeting of the members of St. John Council No. 837, Knights of Columbus, last evening, matters of interest were discussed, and the outcome was that it was decided to hold a series of winter at home parties for the members and their friends in Keith's Assembly rooms the first on November 13. It was also decided to take up the matter of bowling and pool last evening. Indications point to a very successful and prosperous winter season.

HALLOWEEN PRANKS
While it is true that the police were kept busy last evening answering calls to various sections of the city from indignant householders who complained of mischievous boys, in few instances was it reported today that any damage to property had resulted. In parts of Indiantown youths tore up a fence in Victoria street and took the wheels of a wagon placing them in hallways nearby. When the owner of the vehicle went to work this morning he was about an hour behind his scheduled time because of scouting for the wheels and placing them in position. The old "dodge" of ransacking wood-piles, ringing doorbells, blowing oakum smoke, etc., were resorted to but to further damage to property. The office of Mr. Clarke, wood-dealer in Hilyard street, was entered by some boys, who apparently had a skeleton key, but although they went through the place, and turned things topsy-turvy, nothing of value was taken.

VOTERS' LIST IS INCREASED BY 119

Result of Work of Revisors is Given Out—The Various Wards
The city revisors have completed the voters' lists for 1913 with a net result of an increase of 119 names over the total for the present year. In the list by wards here given, it will be seen that the non-residents do not appear separately in the 1913 list. This is because they have been divided among the various wards in which they hold property, so that, in cases they qualify as voters, there will be no question regarding where they will vote.
The list, by wards, is as follows:

EIGHT OF CREW OF THE KANAWHA ARE ARRESTED

Breaching Cargo Charge Against Them—May Be Warned And Allowed to Go Aboard
Eight seamen, about one-third of the crew of the S. S. Kanawha, which is lying at No. 5 berth, West St. John, were arrested this morning by Detective Killen and Sergeant Finlay on the charge of breaching the cargo of the ship. The men arrested are John Fletcher, aged 30; Frederick Freeman, aged 34; John Mullins, aged 30; George Green, aged 52; Harold Lodge, aged 20; Patrick Hogan, aged 48; James Garbett, aged 46; and George S. Martin, aged 37. All of the prisoners, with the exception of Martin, are Englishmen. The men were given in charge by Captain Kellman, on charge of fitting a quantity of Worcester sauce and liquor. The men were taken into custody about eleven o'clock.
The arrests came as the result of a search by officers of the ship this morning in the men's quarters. One of the crew named Green was reported to be too ill for duty, so Chief Officer Blackland went down to the forecastle to investigate. He says that he found Green partly under the influence of liquor. Green was sent out on deck, and his bunk was searched. A bottle, partly filled with gin, and several bottles of sauce were found. In consequence of this find, the captain ordered that all the bunks be searched. It is following out the orders twenty-three bottles of sauce, two square tins of gin, one bottle of whiskey and two empty gin bottles were found in the bunks. Captain Kellman then summoned the police and had eight of the men arrested. Nine men were declared involved, but one man was too sick to leave the ship. The prisoners were brought to the central police station and arraigned before Police Magistrate Blackland at 11 o'clock.
Captain Kellman told of seeing in the search which led to the finding of the gin, the bottle which the watchman had told him that Fletcher and Green were the prime movers, and that Lodge was also involved. In reply to a question from the court, the witness said that several cases of sauce and one or two of gin, which were part of the cargo, had been broken open. The men had strict orders not to bring any liquor on board the ship.
Chief Officer Blackland corroborated the evidence of the captain and told of finding the bottle of gin and gin in Green's bunk.
Chief Engineer Thomas Welch told of searching the stokers' mess and finding no stolen goods. James Curran, finding no stolen goods. The prisoners were returned to the ship.
The Kanawha is due to sail from tomorrow night and unless the men are held up for several days, Captain Kellman will be held up for several days. Captain Kellman told the court that he did not wish to have the men sentenced, but merely wanted the practice of breaching cargo stopped on his ship.
The evidence against the men this morning was not very direct, and His Honor told the jury that he would allow the men their liberty right away if he wanted them. Captain Kellman, however, stated that the men kept in custody until the steamer sails. Several additional witnesses were to be called this afternoon.

SIR FREDERICK BORDEN TALKS OF THE OUTLOOK

Ex-Minister of Militia Was in City Today on His Way to Nova Scotia
A visitor here today was Sir Frederick Borden, ex-minister of militia, who was passing through from Montreal to his home in Nova Scotia. He arrived at noon on the Montreal express. He appeared in the best of health and spoke cheerfully regarding the outlook for the return of the Laurier administration.
Regarding the political situation at present Sir Frederick said that matters at the capital were not as peaceful as his namesake, Hon. Mr. Borden, would like to see them, and he was having his own troubles in soothing the ruffled feelings of party heeled and office aspirants.
Sir Frederick looks for an election upon the naval question before any definite policy is adopted. "Sir Wilfrid" he said in a meeting with a rousing and hearty reception wherever he goes, and he is eager and ready for the fray." Sir Frederick left again at noon on his way home.

MR. MAXWELL AT HIS POST IN DOMINION SAVINGS BANK TODAY

The position of deputy receiver general has fallen to the lot of Hon. Robert Maxwell, who received notice of his appointment yesterday from T. C. Boville, deputy minister of finance, and who assumed office this morning.
Mr. Maxwell was offered for the recovery of Rev. Father Carson, of St. George, who, it was announced, was dangerously ill in Carney Hospital, Boston. It was said today that his condition was not much improved.
Word received later this afternoon was to the effect that the recovery of Rev. Father Carson was in grave doubt, as his illness was most critical.
