Britain's Poet Laureate is Dead

Alfred Austin Was Novelist, Barrister and War Correspondent, and Published His First Poem at Age of 18

(Canadian Press) London, June 2.—Alfred Austin, British poet-laureate, since 1896, died today at the age of 77. Beside being a poet, he was a barrister, a critic, a novelist, a war correspondent and a political writer. He published his first poem anonymously at the age of eighteen, before he had taken his degree at London University. Although he was a lawyer, he never practiced that profession. He was a newspaper correspondent in Rome for many years, and he followed the operations of the Franco-Prussian war in 1870-71 with the headquarters of the Prussian king. His writings were very patriotic. In a poem of recent date, he called attention to the unpreparedness of the British army for war and in another he eulogized the achievements of the British navy. In 1911, he issued his autobiography. The greater part of his poetical work was published between the years 1881 and 1890, including "Saronarola," "Prince Lucifer" and "English Lyrics." The poet laureate died at his home, Swinford Old Manor, Ashford Kent, where he had been lying ill for some time.

THIS IS DERBY WEEK; THE CLASSIC RACE WEDNESDAY

French Horse a Formidable Candidate For The Honors—Gayeties of Great Social Time Begun Today

(Canadian Press) Lord Derby bought a few years ago from Lord Colebrook. The classic race at Epsom, which is to be run on Wednesday, is expected to provide a contest of absorbing interest. The best of the English three-year-olds, Cragnour, Shogun and Louvels, have to meet a formidable candidate from France in Numbus, owned by a prominent French sportsman, M. Aumont. French horses, however, are consistently unlucky in the Derby and not since 1865, Gladstone's year, has the race been won by a horse from across the channel. Edmond Blanc, owner of the greatest broodmare of blood stock in the world, who spends enormous sums on racing every year, has made repeated attempts to win, but has met only with a series of exasperating failures. King George held the usual Derby week here at Buckingham Palace today and it was attended by many.

LOSSES AND INSURANCE IN SERIOUS FIRE IN AMHERST

(Special To Times) Amherst, N. S., June 2.—Fire broke out in Electric street this morning a little after one o'clock and nearby citizens had all their belongings and possessions ready to be moved in a hurry. Flying sparks were sent by the high wind all over Amherst. Several minor fires were reported, two coming from houses in the rear of Barker's store and two from the bar.

WESTVILLE, N. S., MAN IS KILLED BY TRAIN

(Special To Times) New Glasgow, N. S., June 2.—George Graham, an aged citizen of Westville, was almost instantly killed this morning when he was struck by a freight train. A section man, Murdoch McLoud, found the body at the front of an embankment about a quarter of a mile below Westville station on the Pictou side. A train had passed through Westville about 2 a. m., and it is thought that while walking along the track he was struck and thrown to the foot of the bank. The only wound was a cut over the temple. Coroner Sutherland is holding an inquest. Mr. Graham was about sixty years of age and was a resident of Westville since its beginning. He leaves a wife and large family.

ONE OF AMERICA'S TEAM HURT

Hempstead, N. Y., June 2.—Dexereux Milburn, back of the American polo team, which is to defend the International cup next week against British teams, has recovered somewhat from injuries received when his pony fell upon and kicked him during a practice game on Saturday. Whether or not he will be able to take part in the cup games, the first of which will be played June 10, cannot yet be stated. No other player, however, has definitely been chosen to take his place.

TO SEEK RECOMPENSE FROM ST. JOHN RAILWAY CO.

Purpose of Probate Court Proceedings in Matter of Line Man's Estate. The probate court today took up the matter of the estate of Arthur W. Merritt, lineman, in the employ of The Saint John Railway Company. He died intestate, leaving his wife, three sons and one daughter, all minors. On the application of his wife, Mary L. Merritt, she was appointed administratrix. There is no real estate; personal estate of nominal value only, administration being sought for the purpose of obtaining recompense from The Saint John Railway Company, the deceased having met his death while in the employ of the company. Francis Kerr is proctor. The court also dealt with the matter of the estate of Joseph Lawrence Drake, clerk. He died intestate. On the petition of his father, David Drake, of St. John, city attorney, he was appointed administrator. There is no real estate; personal estate, consisting of life insurance \$2,000, Baxter & Logan are proctors.

TRIAL IN BATHURST

Arises From Collision in Which Two Men Were Killed—Rev. Mr. Batty Pays Attention to Scott Act Situation in Moncton

(Special To Times) Moncton, N. B., June 2.—The first criminal prosecution ever instituted against an L. C. R. employe for his part in a railway accident in which a life was lost will be taken on before the Gloucester county court on Wednesday when a jury will consider a charge of manslaughter brought against Alfred Wood, engine driver of an L. C. R. freight, which some weeks ago collided at Bathurst with a passenger train. Wood was arrested at his home in Moncton some time ago, and a preliminary examination was held in Bathurst. Much sympathy is felt for the engineer as he has always been noted for industry and sobriety and his railroad record was a good one until the fatal accident. He will be defended by A. Powell, K. C. of St. John, and by eminent counsel. The charge has been brought by relatives of the men who were killed in the collision. Rev. Mr. Batty and the Scott Act. Rev. J. L. Batty, who will go to Winnipeg about July 1 to take the pastorate of Zion Methodist church, fired a parting shot in the matter of temperance in the Central Methodist church last night. He criticized sharply the dismissal of James Kay from the police magistracy and the appointment of C. A. Steves. He alleged that Moncton was now virtually under license, in as much as no jail sentences were being imposed on Scott act violators. When he came to Moncton, he said, he found there were two men who were upholding the city's reputation for good Scott act enforcement. These men were Police Magistrate Kay and Chief of Police Rideout. Then they had Scott act enforcement under a magistrate who was not afraid to send a man to jail. Where were they now? They were under license, that was where? Magistrate Kay had never hesitated to send men to jail for Scott act violation, although this was a thing which every other magistrate in the province was afraid to do. With this system of jail sentences in force, what had happened? Four hundred and twenty men had gotten up a petition and had instituted a means by which the magistrate and the chief of police were threatened with dismissal. They had succeeded in getting clear of the magistracy, but the chief of police they had been unable to oust. Referring to the Scott Act, Moncton appeal before the supreme court, which had been stood over until later terms of court at the request of the attorney-general, Rev. Mr. Batty sharply criticized the attorney-general.

WILL SEEK TO PROVE IT A RITUAL MURDER

Trial in Connection With Death of Boy in Russia. St. Petersburg, June 2.—The ministry of justice has ordered the trial of Merod Beilias, accused of the murder of a British boy, Andrew Yushinsky, on March 29, 1911, was ordered. It will be held on July 1. It is announced that the prosecution will attempt to prove that the murder was a ritual murder. The mutilated body of Yushinsky, a thirteen year old boy, was discovered in a small cave on a suburban holding just outside of Kiev. The hands were tied behind his back. A post mortem held in the hospital revealed forty-seven wounds.

FIRST OF THE JUNE WEDDINGS

The Cathedral was the scene of a pretty wedding this morning when two popular young people of this city, Miss Alberta Owens and S. Guy MacKinnon, were united in marriage by Rev. D. S. O'Keefe. The bride was attired in a traveling suit of navy blue and was helped in her sister, Miss Gertrude Stone of West St. John, a honeymoon trip through Nova Scotia. On their return they will reside at 40 Coburg street.

LEADER OF MILITANTS UNDERGOES OPERATION

London, June 2.—"General" Mrs. Flora Drummond, militant suffragette, underwent a successful operation today. She had been taken during the police court proceedings early in May. A second and more serious operation is necessary and to be performed as soon as she is well enough. It is probable that her trial will be indefinitely postponed.

SPANISH PREMIER WHO GAVE UP OFFICE WILL ACT AGAIN

Madrid, June 2.—Count Alvaro De Romanones, who on May 30 resigned as premier, together with all his ministry, has consented to resume office. The papal nuncio has informed the foreign minister that the Vatican would accept the new Spanish law taxing church properties of all kinds.

WANT SPECIAL POLICEMAN FOR DUTY AT REED'S POINT

A communication from the Eastern Steamship Company asking the city to appoint Frank Olive as a special policeman for duty at Reed's Point, to be paid by the company, will be presented to the common council this afternoon. The commissioners, at their morning meeting, approved of the agreement drawn up by the recorder to cover the arrangement under which the McClary company will be permitted to remove part of the retaining wall at their site in Prince William street, and the agreement will be ratified at the council meeting this afternoon.

CONDITIONS SERIOUS

The condition of Miss Sarah Snellgrove, who was injured yesterday in a fall from a street car in Prince William street, was regarded as serious today. It was said that the reports saying she was to blame for the accident were hardly correct.

Friendly English Tory Comment on Senate Action

URGE CHURCHILL TO BUILD

Observer and Post Make This Suggestion—Fermat Tells This First Lord to Get Dreadnaughts Laid Down and Await Canadian Outcome

(Canadian Press) London, June 2.—"Delay may prove a blessing in disguise if it results in more emphatic declaration of the determination of the Canadian people to bear their share of naval defence." This is the view of the Observer on the action of the Canadian senate on the naval bill. The paper thinks that it would be as well in Canada as at home, to lift the question of imperial defence out of party politics altogether. The senators have acted according to their own conception of their duty. Says Churchill Should Begin Building. In face of this decision, however, the Observer calls upon Mr. Churchill to go ahead with the laying down of the three ships that they may be completed by 1915. If Mr. Borden eventually succeeds in getting the bill passed, it will be to take over the ships on account of Canada at whatever stage they have reached. It means both moral and material loss to the naval strength of the empire. The action of the Canadian government in proposing to provide three first class battleships to reinforce the British fleet made a profound impression in the world. Now that effect will be largely nullified. Foreign nations will not study the details of the controversy between the two parties in Canada. They will probably pay little attention to the liberal party's plan for creating fleet help in the world. The apparent refusal of the Canadian legislature to sanction the proposal for strengthening the naval resources of the empire. By rivals and enemies the decision will inevitably be created that the solidarity of the empire is being regarded as ominous. The impression must inevitably be created that the naval strength of the empire, however, must be maintained at all costs. If the Canadian government is to be moment unable to provide the ships, the government of the United Kingdom must act in its place. The decision is not so foolish as to attempt anything which would be a disaster to the empire. The naval strength of the empire, however, must be maintained at all costs. If the Canadian government is to be moment unable to provide the ships, the government of the United Kingdom must act in its place. The decision is not so foolish as to attempt anything which would be a disaster to the empire.

BORDEN NATIONALIST ALLY

Now Denouncing Both THE POLICIES FOR NAVY

Armand Lavergne Urged Pelletier to Carry Opposition to Borden Bill to Point of Civil War—A Fiery Speech

(Canadian Press) Montreal, June 2.—Admitting that he advised Hon. L. P. Pelletier, the postmaster-general, to carry his opposition to the naval bill to the point of civil war if necessary, Armand Lavergne, the assistant to Henri Bourassa, leader of the Nationalist party, yesterday delivered a speech at Montigny, Que., in which he denounced practically all the Quebec members on the government side of the house, denounced both the Laurier and Borden naval policies, denounced England and her treatment of Canada in the past, denounced almost everything in sight as out of place, and suggested nothing beyond an appeal to the people, which he thinks will be the means of every ill alleged. Mr. Lavergne qualified his revolutionary counsel by saying that it would be the prerogative of settling foreign affairs, Canada for her part, had the national prerogative of safeguarding her autonomy. Giving his reasons for objecting to the Borden naval bill, Mr. Lavergne said that Canada owed nothing to England, that the dominion should do nothing beyond the defence of her own shores. That Canada had never involved England in any war, but on the other hand had been involved in two by the mother country. In his opinion the interests of Canada had been sacrificed by England on several occasions which he enumerated. He considered there was no emergency, that England had no need of the money, that the king and the Kaiser had just sworn eternal peace, that the Laurier policy was preferable to Borden's because it left the decision as to whether Canada would engage in a war or not, with the Canadian parliament, and if England had the imperial prerogative of settling foreign affairs, Canada for her part, had the national prerogative of safeguarding her autonomy.

CITY PERMISSION FOR RODMAN LAW

Leap into Falls Will Be From Place to be Chosen, Not The Bridge

Permission has been given by the city commissioners for Rodman Law of New York to make a plunge in the reversing falls for a motion picture scenario, but will not allow his doing so from government property. He said this morning that he would probably make another test of the currents this afternoon, and tomorrow afternoon, if weather conditions were suitable, he would enact the daring feat. He will not jump from the bridge but will perform the act in some other way. Those who will assist in the production of the picture, Mr. Seigman, heavy man of the picture company, Edgar Lewis, director, and Messrs Oliver, Walpole and Thomson, arrived in the city this morning. Mr. Law said to day that in spite of the opinion that he could go through the falls as he plans. He had received several anonymous letters against trying, and Miss Boston had been the recipient of a large number as well. He was not so foolish as to attempt anything which he did not think he could do, and if he considered it impossible to get the better of the falls, he would abandon the scheme and try at Grand Falls, N. B. "It has been suggested that it would be suicide for me," he said today. "I do what I plan, but if that had been my intention I could buy a gun for \$5 and save travelling expenses as well."

More Peaceful News Comes Out of The Balkans Today

(Saloniki, June 2.—A report from a credible quarter says a commercial political understanding was reached yesterday between the Greeks and the Serbians against the claims of the Bulgarians. The Bulgarian commander near Eluthora on the eastern coast of the Saloniki peninsula today informed the Greek commander that the Bulgarian troops would not advance any farther and that the recent movements of the Bulgarian soldiers had not been intended in a hostile spirit. London, June 2.—The Daily Mail's Saloniki correspondent says a report has reached there that the Greek premier, M. Venizelos, has handed his resignation to King Constantine, declaring that he does not desire the responsibility of the warlike disposition of the troops with regard to Bulgaria. Bucharest, June 2.—The chamber of deputies by a vote of 127 to 17 has authorized the government to accept Russia's mediation in the territorial difficulties with Bulgaria.

CONDUCTORS AND MOTORMEN ASK FOR INCREASE IN PAY

Local Men Seek to Be Put on Same Plane as Those in Halifax

A petition has been presented to the management by the conductors and motormen in the employ of the St. John Street Railway Co., asking for an increase in pay to the amount received by the Halifax street railway carmen. The petition was signed by every conductor and motorman, and if the request contained in it is granted, it will mean an increase of about a cent and a half per hour in general, with twenty-nine cents per hour on Sundays.

SEE NO CAR LINE TO ROCKWOOD FOR SOME TIME

City Commissioners Take Up The Matter With Company

The desirability of extending the street railway to Rockwood Park has been drawn to the attention of the city commissioners and they have taken up the matter this morning. The St. John Railway Company, in reply to the inquiries of the commissioners the management of the company informed them that it was impossible for them to undertake the work until after the new highway bridge had been completed across the reversing falls and they had completed the extension to their lines which are now under way and others which they contemplate.

MASSACRE OF JEWS AND CHRISTIAN FRIENDS

This is Threat That Brings Troops to Russian Poland Village

St. Petersburg, June 2.—A detachment of 200 Ruse to Rockwood Park was sent today to the district of Kallis, in Russian Poland, owing to the receipt of a despatch declaring that the Jewish inhabitants of the villages there, as well as the Christians having relations with them, had received anonymous letters threatening them all with death unless they immediately left the vicinity.

PEARY, STORM BOUND HIGH ON JUNGFRAU, ENJOYS IT

Geneva, June 2.—Admiral Peary met an unpleasant experience in an attempt to climb the Jungfrau accompanied by his son, aged nine, and a Swiss guide. They were obliged to sleep on the straw on the floor of a restaurant which is cut into the side of the mountain. After the storm, which Peary enjoyed, as it recalled his experiences in the North Polar region, the party climbed Monch and returned safely.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, E. F. Stuart, director of meteorological service.

Synopsis—Since Saturday a disturbance which was west of Lake Superior has developed and moved eastward to the Gulf of St. Lawrence, and is being accompanied by strong winds in rain in Eastern Canada. Elsewhere the dominion, fair weather prevails.

Fine Maritime—Strong westerly and easterly winds, occasional showers, clearing tonight; Tuesday, northwesterly winds, fair and cool.

LAST MEETING. There was no meeting of the Evangelical Alliance this morning because of there being no quorum. This was to have been the last meeting of the season, but what matters were to have been dealt with will now be laid over until they fall. The matter of the appointment of a chaplain for the last six months of the year for the Boys' Industrial Home will be left with the Methodist ministers to attend to.

ANSWER TO HIS PROPOSAL IN LONG LOST BOOK

Romance Behind a Little Ad in London Paper MISSING LETTER TURNS UP

Hall Caine Receives Many Congratulations on His 60th Birthday — Printer's Blunder Put Cocoon in the Dictionary

(Times' Special Correspondence)

London, May, 21.—There proves to be quite a pretty little romance, which would do nicely for the plot of a short story, in connection with an advertisement which appeared unobtrusively in the "small wants" column of a London evening newspaper the other day. One pound was offered by the advertiser for a copy of "Lady Elaine's Martyrdom," now lives, and has lived for the last ten years, in the United States. Before crossing the Atlantic, to see (and find) his fortune, he lived at Clacton-on-Sea, in Essex, and there fell head over heels in love with the daughter of a local solicitor. He proposed to her by letter, but she replied all he received was a copy of "Lady Elaine's Martyrdom." He waited for a letter which never came, assuming that silence meant refusal, sailed for America. There he has prospered, but has never married, his heart remaining true to his English "Poll."

About a month ago, workmen were repairing the house which he occupied at Clacton, and behind the skirting round the hall door he found a letter addressed to him in a feminine hand. This was forwarded to America. Containing a few words in answer to his letter of ten years before, it had been posted with the novel, and by some queer accident slipped between the skirting and the floor underneath the letter-box. The answer did not contain definite "yes" or "no" but said that he would learn what was in the girl's heart if he turned to a friend in Clacton to all in his power to secure a copy of the novel for him. One might suspect the hand of the artful pique-agent were in the case of a new novel, but in the decade that has passed since its publication, the humble authoress who penned it has died and the firm which issued it has gone out of existence. The heroine of the little romance proves to have left Clacton and, up to date, no copy of the sought-for novel has reached the hero's representative in the seaside town.

Hall Caine was sixty a few days ago and his English publisher tells me, received something like 100 congratulatory telegrams and newspaper messages. He is at home in the Isle of Man, it seems, and hard at work on a new play, about which, however, nothing may be told yet. His yearly income now is said to be at least \$50,000.

Meanwhile his great rival, Marie Corelli, has been protesting with her usual vigor against what she describes as "acts of vandalism" at Stratford-on-Avon which is her home. She told the Stratford-on-Avon guild last night that when she first came to live there she foresaw many of the dangers threatening the historic town, and did her best to warn as well as save. Since then, she said, she has been an unwilling witness of the destruction of much that was valuable and beautiful, notably the "swan house" erected on the nearby village of Shottery. At the end of her address she urged her hearers not to let Shakespeare's birthplace degenerate into a mere suburb of Birmingham.

They take ragtime here—still a popular craze—with deadly seriousness, and analyze it as painstakingly as if it were a new serum. The latest to put the synoptical method on the dissecting table is Mrs. Maude Egerton, King, whose husband is an intensely earnest member of parliament and who herself has written several thoughtful books. It is almost pathetic to read this serious little lady's estimate of the all-conquering melodies in "The Ragtime."

It is impossible to believe that ragtime—or the post-impressionism and futurism which it resembles in its conscientious preference for hideousness—is what some claim for it, the aboriginal first effort at utterance, and as such to be welcomed and watched; it is too like the dried of racial senility. It is frightfully old, cold and decrepit, not young, passionate, and gigantic, and that is why it is surely a disastrous fashion for young blood to submit to.

Poor little Mrs. King! She does take it so hard.

The Cocoonist You know how to spell "cocoonist," of course, but do you know why you spell it that way? Probably you, in common with a lot of other people, have paused, pen in hand, and wondered what that superfluous "a" was doing in the middle of the word, and how it came there, and now, at least, an explanation is vouchsafed. Sir Everard Thurn, a traveler and administrator, cleared up the mystery in an address which he delivered to the members of the Royal Horticultural Society this week, and incidentally told how this nut got its name to begin with.

It had been noticed, he said, that in the course of its growth the nut which was now known as the cocoonist was similar to the face of a monkey, and so the Spanish or Portuguese word, "Coco," meaning a grin or grimace was attached to it. This was it known when Doctor Johnson wrote his famous dictionary and the great lexicographer duly had an article on the "coco nut." But a compositor blundered, as many a compositor has since, and inserted an "a" into the word and an even more careless proof-reader passed the blunder, and so the word appeared in Johnson's dictionary as "cocoonist" and set the fashion for spelling the word in England for all time.

SHOP GIRL FINDS LOST JEWELS WORTH \$22,000

New York, June 2.—In less than half an hour after she reports the loss of jewels valued at \$22,000 in the millinery department of a store in Herald square, Mrs. William L. Walker, wife of a stock broker living at No. 80 West Fifty-ninth street, recovered her gems.

Mrs. Walker had worn the jewels, consisting of a pearl necklace worth \$20,000 and diamond rings valued at \$2,000, at dinner the previous evening. She had them in a small bag which she was carrying to a safety deposit vault. She stopped at Macy's, and while shopping in the millinery department discovered that the reticule containing the jewels, which she had carried in her hand, was gone. Mrs. Walker told the manager of the department of her loss and he ordered that a search throughout the department be made.

Before the search was started a salesgirl found the reticule. On observing the value of her find she hurried with the gems to the lost and found department and Mrs. Walker was told that her jewels had been recovered. The identity of the girl who found the jewels was not disclosed. Mrs. Walker said she wanted to leave a check for the value of the store would reward her for her honesty.

Mr. Walker, who is a partner in the brokerage firm of Raymond & Pynchon, with offices in the Waldorf-Astoria, said the pearl necklace was perfect and that if required twenty-two years to match the pearls.

ITS LIFE ONLY THREE DAYS LONG London, June 2.—A new insect which has only just been discovered is to be seen at the Exhibition of the Royal Society at Burlington House. It has been named the protura, and makes its appearance in public for the first time. It is barely discernible with the naked eye, but when viewed under a microscope it has a striking resemblance to a monoplane.

The protura is extremely rare. It is found in peat and there are only a few specimens. Of its activities nothing is known so far, beyond that it lives on decayed vegetables and that its span of life does not extend beyond three days.

Ayer's Hair Vigor Glad to know you have used it. Tell your friends how it stopped your falling hair and greatly promoted its growth. Ask Your Doctor.

Miss Alma Kee, formerly of Hampton, N. B., died in Brighton on Saturday. She was twenty-seven years of age.

Eliza Hamilton Robinson, aged 66 years, a well-known and highly respected citizen, died on Saturday at his home, 47 Douglas avenue, after a year's illness. He was a native of Albert county and had been engaged in the lumber business for about forty years. He is survived by his wife, one daughter, Miss Harriet in Massachusetts, and one son, Edward Wascott, at home. H. P. Robinson is a nephew. The funeral takes place this afternoon.

The death of Mrs. Ann Fuller, a respected resident of this city, occurred yesterday at the home of her son, Frederick P. Fuller, in Fairville. She had been ill for several months. She is survived by her son, F. P. Fuller, from whose residence, 20 Main street, Fairville, the funeral will be held tomorrow morning at 12 o'clock, to St. Rose's church, where high mass of requiem will be celebrated.

Colonel Charles Williamson, aged 63, while attending service in All Saints Cathedral, Halifax, last evening, dropped dead. He had only recently arrived in Halifax to pass the summer with friends. He is survived by a widow.

Ottawa, June 1.—James Pollok Brown, Liberal M. P. for Chateaugay (Que.), died in a local hospital Saturday after an illness of several weeks from stomach trouble. He was 72 years of age, and had been in parliament since 1891, though he was rarely heard in the house.

From weather bureau data covering a period of fourteen years, it has been discovered that the average temperature of the United States for the period was 32.9 degrees and the annual amount of rainfall 39.8 cubic miles. Arizona had the lowest average temperature, 55.5 degrees, and Florida the highest, 71.8 degrees.

Pure food law advocates in Japan recently discovered that much rice was adulterated with quartz sand to increase its weight.

Lloyd George's Great Plans For the Laborers

**COTTAGE, ACRE AND FIXED WAGES**

Hitherto Seventy Per Cent of Hired Workers on Farms Have Died in Workhouses, Though Their Soas are Backbone of Navy, Army and Police

(Times' Special Correspondence)

London, May 19.—Thirty years ago Jesse Collings, who is still a member of parliament, roused the sluggish intellect of agricultural England with a warty of "three acres and a cow" for every farm hand. With this policy he promised to change the face of the countryside and to make the agricultural laborer from a sweated serf into a self-respecting independent cultivator. His policy was taken up by Joseph Chamberlain and with modifications incorporated in the latter's protective tariff scheme.

There is no doubt that had Chamberlain not broken down much would have been done for the laborer on the English land, but his disappearance from politics threw the Tory party back a generation, and until recently the Liberal party was so much concerned with the fate of the workers in the towns that it had no time or thought to spare for the countryman.

Lloyd George's Advanced Policy

Now, however, Lloyd George, the driving force of the Liberal party, has come forward with his proposal of "a cottage and a quid" which promises to sweep the country workers into the Liberal ranks. Lloyd George's proposal is for legal minimum wages, to be fixed for the agricultural laborer, with a cottage and a plot of land. The fact that this proposal is being made at a time when the laborers themselves are the porters of a new heaven and a new earth and by the employing farmers as little short of royal revenue, is a strong evidence of the severity of the condition of agricultural labor in England today.

Nothing is harder for the townsmen who know nothing of country conditions to find out than the true condition of the farm laborer in this country. If one is to believe the farmer he is extremely well paid and looked after and in many cases is better off than the philanthropist who pays his wages. If one is to believe the laborer himself he never has enough to eat and is compelled to work until he drops in the field.

The truth is somewhere between these two extremes, but the fact that more than 70 per cent of the rural laborers of England die in the workhouses is proof enough that the farmer does not receive much less than the "quid" and in some his real wages are considerably more, but it is the cottage and the acre that are the real desiderata. The English farm laborer is never boarded by his employer. He is usually at the Michaelmas fair, for a year at so much a week in cash. In addition to this he receives a cottage on his master's farm, so many faggots of wood, sometimes an allowance of coal, so many pounds of bacon and so much milk a day.

Sometimes the milk is "whole," and sometimes it is skimmed, and sometimes the bacon is good home cured stuff, but oftener it is the cheapest foreign meat specially bought for the farm hand, and he has to pay for it. He is not disposed, either, usually at the Michaelmas fair, for a year at so much a week in cash. In addition to this he receives a cottage on his master's farm, so many faggots of wood, sometimes an allowance of coal, so many pounds of bacon and so much milk a day.

The reason for the difficulty in arriving at a true estimate of the country laborer's condition lies in the fact that so much of his payment is in kind. In the British dominions overseas the farm hand, as a rule, is paid so much in cash a month and receives his board as well. The value of that board is easily fixed, and the farmer is not disposed to reward of his labor to a cash bonus at once. The English farm laborer is never boarded by his employer. He is usually at the Michaelmas fair, for a year at so much a week in cash. In addition to this he receives a cottage on his master's farm, so many faggots of wood, sometimes an allowance of coal, so many pounds of bacon and so much milk a day.

with an acre of ground of his own attached to his cottage. There are many minor proposals, chiefly dealing with details of administration, but these just mentioned broadly cover the scope of the proposed legislation.

There is not much doubt that the "quid" is mere "window dressing." The cottage and especially the acre of ground form the real heart of the proposal. When everything is taken into account the laborer in most districts now does not receive much less than the "quid" and in some his real wages are considerably more, but it is the cottage and the acre that are the real desiderata.

One of the greatest evils in the English countryside today is the shortage of cottages. The farmer, of course, does not rent in money and he does not feel disposed to build any more than are absolutely necessary for the men on his own farm. He is not disposed, either, to spend more than he has to on repairs to those cottages that are in existence.

Besides, the shortage of cottages gives him a hold on the men in his employ. A laborer knows that if he quarrels with his master he must not only leave the farm but the cottage, and he knows by seeing across or watching cattle in the neighborhood. He must find another job before he can find another house to live in. The cottage and the acre of ground and security of tenure in it will enable him to stick out for higher wages, for he can, at a pinch, support his family from the produce of his acre, and let the farmer wait until he is ready to pay what is asked.

Another feature of the cottage shortage is rather hard to discuss in a newspaper article. Poets and sentimentalists are fond of writing about the simple virtues of the country folk, but there is no more ill-timeliness, and the reason is that the young folk cannot get married, because life is any more attractive, but because they can live. I know of half a dozen villages an hour or two of motor ride from London where the young people who wish to marry regularly seek employment in the towns, not because town life is any more attractive, but because it is the only way in which they can secure a home for the new family that they are setting up. Those who are unwilling to leave the country, or who are unfitted for work in the towns must wait until some of the old folks die before they can marry.

It is quite likely that Lloyd George has taken his idea of an acre with each cottage from the north of England. There the wages of the agricultural laborers, both real and apparent, are high for the country and low for the town. In Lancashire and Yorkshire, for instance, wages often run as high as \$1.00 a week in real money, with a cottage and large allowances in kind, with extra money at harvest time, lamb money, journey money, extra pay for hatching, hedging, and ditching, and all on a higher scale than in other parts of the country. The reason for this is that there is alternative employment in the coal mines. If the laborer is not satisfied with his lot on the land he has only to "go down t' pit" to earn much more in cash, and the farmers, knowing this, act accordingly.

In the purely agricultural counties such as Dorset and Wiltshire wages fall as low as \$8 a week and the allowances

are correspondingly less. The reason for this is that the laborer is tied to the land. There is no alternative employment such as would be provided by Lloyd George's plan.

**Begin How at Earning**

How the laborer lives is a puzzle to people who are not familiar with the countryside, but live he does and he usually brings up a large family of sturdy youngsters. In spite of the terribly low wages, the country stock in England has not deteriorated. If you want to see the kind of men it can produce look at the London police. There is no finer body of men physically in the world, and ninety per cent of them are farm laborers' sons. The army and the navy are fed from the land, and the colonial emigration agents who are scouring the country for men to fill up the empty acres of the king's dominions beyond the seas are unanimous in declaring that the farm laborers of England are the men they want.

How then is it done? Usually the hardest struggle for the countryfolk is when they are first married, and the first babies are coming. Then the man has at least two, and as the family grows, more mouths to feed from his unassisted earnings. But as the children grow up they all earn some money. The boys and girls earn a few pence by scaring crows or watching cattle in the fields, by weeding and doing other light work about the farm. The mother sometimes finds work on the farm, or if she is fortunate enough she may find some rough employment at the houses of the local gentry. As the boy grows up they earn more and as long as they remain at home they contribute to the family purse. The girls who go out to service in the towns always send home part of their wages and so the sturdy stock of agricultural England is kept going.

No doubt the question will be asked, who is going to supply the land needed to find an acre for every laborer? There has been a great deal of talk about breaking up the great sporting estates of the nobility, but there will be no need to do this. It is doubtful if much of this land would be available for cultivation even if it were diverted from its present use as a rearing ground for game.

Professor James Long of the department of agriculture estimates that there are in England alone 13,000,000 acres of land going to waste which could with very little effort be made productive. This, he points out, is more than the whole area of agricultural Denmark, and he is sure that with fifty of tenure it would soon be reclaimed and made fruitful. Much of it is so situated that it can be worked much more profitably in small holdings than in large farms.

**Health Insurance**

Another piece of Lloyd George legislation which may benefit the agricultural laborer in a way that was not foreseen is the national health insurance act. Hitherto all efforts to organize trade unions among the laborers on the land have failed. Now the men must be organized in their approved societies for working the benefits under the act, and there is nothing to prevent these societies doing the work of trade unions. Some of them already have organized on trade union lines and it is expected that before long a national union will be formed. With his "quid" and his cottage, and an acre and his subsistence, the English farmhand should soon become a very solid and substantial citizen.

THEY ARE AFRAID

After the senate had amended the naval aid bill Mr. Borden was asked by a friendly newspaper what action the government would take. Mr. Borden was entirely non-committal.

Col. Sam Hughes was asked on Saturday whether he thought an appeal would be made to the people. "Do you think," asked Col. Sam, in reply, "that Mr. Borden and his colleagues are weak enough to be forced into an unnecessary election by such tactics?"

The St. John Standard this morning makes the following announcement:—"The government will choose the time when that election will be fought. It will not be dragged into any action by discredited politicians. After the representation of the people in the house of commons has been readjusted, and after the ministers of the crown have had an opportunity to perform important work now in hand, the people will be given an opportunity to impress upon Sir Wilfrid Laurier, Sir George Ross, and others of that class, the fact that their days of usefulness are over."

All of which means that Mr. Borden and his friends will cling to power just as long as possible, for they realize that when they go to the country they will be defeated. The senate is being denounced, and Sir George Ross is being abused because the second chamber dared to amend the naval aid bill. The tory press denounces the Liberal senators as puppets and partisans. They are represented as obeying the orders of Sir Wilfrid Laurier. Why should Mr. Borden and his friends charge the Liberals in the senate with partisanship? What about the Conservatives in the senate? In voting for the naval aid bill did they merely act as Mr. Borden's puppets?

The Liberal senators represent the majority of the people of Canada, as far as their action relative to the naval aid bill is concerned. It is not true that Mr. Borden had a mandate from the people to introduce a measure to hand over thirty-five million dollars to the Admiralty and thus commit Canada to a policy of tribute. The Canadian people had not been asked to endorse a policy of centralization such as is involved in this measure, and when they are asked they will send Mr. Borden about his business. It is a consciousness of the truth of this statement that causes the tory press and politicians to abuse their opponents and cling to office rather than face the electors.

AUSTRALIA'S NAVY

Conservative newspapers are endeavoring to make it appear that the Liberal party in Canada is disloyal, and does not wish this country to take any part at all in the defence of the Empire. Even Mr. Borden in his Toronto speech practically accused Sir Wilfrid Laurier of a separatist tendency in regard to the relations between Canada and the mother country.

What are the facts? It was a Liberal government which introduced in Canada a naval policy which was suggested by the British Admiralty and was also adopted by Australia. It is not necessary to direct attention to what is being done in Australia at the present time to show what Canada ought to be doing, and would have done but for the alliance between Mr. Borden and the Nationalist party in the province of Quebec. A letter of May 19 from Sydney, Australia, says:—"A naval board, consisting of four naval members, with the minister of defence, has been established. It is proposed to continue to carry out the policy of an Australian owned and controlled navy. During the ensuing three years it is proposed to lay down in addition to the vessels now almost completed, one battleship, two submarines, three destroyers and one supply ship. It is also proposed to make a start with a naval aviation school. The various bases for the use of the fleet will be proceeded with and a floating dock provided. It is proposed to complete the construction of the cruiser and the destroyer and the supply ship will also be built in Australia."

one of the world's first investment fields." It is worthy of note that although there is complaint of tightness of the money market one of the banks in Toronto last week offered call money to brokers at 6 per cent, which is said to be the lowest rate reported since last fall. A leading Montreal banker said a few days ago that he regarded the present market uneasiness as altogether uncalled for, since money was easier now than for some months past. The banks are pursuing a very conservative course in preparation for late summer and autumn requirements, and there appears to be a general feeling that conditions will then improve. The editor of the Montreal Financial Times advises the bankers to keep a foot on the brake to prevent a renewal of general speculation, and adds that nobody is being hurt or will be hurt by such a course except irresponsible traders and real estate gamblers. A leading Toronto financier says that the country is now going through a period of rest, and that while money has been tight there is nothing whatever to warrant the assumption that conditions will become worse.

It is evident that a good deal will depend upon the crops in the west. A bumper crop harvested in good condition would be of enormous benefit, while on the other hand a crop failure would produce conditions in the west so serious as to have a bad effect upon the financial situation throughout the country. While the season is reported to be a little late, the crops are said to be making good progress at the present time, and the outlook is therefore better than it was a few weeks ago.

The Bangor Commercial says:—"Out in Kansas they are evidently aiming to cut down the revenue of attorneys, as a system of people's courts, so-called, has been established for the purpose of trying out small difficulties. The cases are heard and decided by the judge after hearing the stories of the plaintiff and defendant and from these courts lawyers are barred."

A home visitation committee in Montreal estimates that there are seventy thousand people in the city who do not attend church. A St. John clergyman has expressed the belief that one-third of the people of this city do not regularly attend church. Evidently there are in every city large numbers of people who do not seriously accept the creeds taught in the churches.

Several thousand people spent a part of yesterday afternoon in Rockwood Park. Strolling along the principal roads was like going along the city streets which are most frequented of an evening. There was a constant stream of humanity moving past the lake and the quarters where the animals are kept. It was noticeable that in the crowd there were few children and fewer old people. The park is practically closed to the very old and the very young because of the difficulty experienced in getting there. In Rockwood Park the city possesses an asset of great value, and yet one of which advantage cannot be taken because of its remoteness. A good street car service to either entrance would enable all the citizens to find enjoyment amid the beautiful surroundings which make this park unrivalled in its natural attractions.

LAVISH ESTIMATES PASSED AT OTTAWA

Ottawa, June 1.—During the last few weeks upwards of \$125,000,000 have passed through the house in the estimates. Supplementary estimates will now be put through which may total as high as \$40,000,000. It is proposed to give \$15,000,000 in subsidies to the Mackenzie & Mann interests. In reply to Sir Wilfrid Laurier for a request to bring down any correspondence bearing upon the grant, Hon. Mr. Cochrane said "there was no correspondence." In other words the government has no knowledge of what is to be done with the grant of the people's money which they are making. To the Temiskaming and Northern Ontario Railway \$2,000,000 more is handed out besides several odd millions for general subsidies. The Liberals opposed the grant to the T. & N. O. Railway as it has been paying good dividends and is said to be in a healthy condition. A bill has been drafted to loan \$15,000,000 to the Grand Trunk Pacific for ten years at 5 per cent.

PEAT TO SUPPLY POWER

Electric plants of 10,000,000 horsepower, including \$9,000,000 for railroads, will be the early need of North Germany, as estimated by M. J. L. de la Roche, a little hydraulic power, but it is declared that the peat of this part of the country will supply all power demands for 500 years.

BIRTHDAYS OF NOTABILITIES

MONDAY, JUNE 2 His Holiness, The Pope, was born seventy-eight years ago today. Known as Pius X., his real name is Giuseppe Sarlo. He became Pope in 1903.

R. L. Richardson, independent politician and journalist, Winnipeg, is fifty-three today. He was born in Lanark county, Ontario, and has been in newspaper life since 1876. He founded the Winnipeg Tribune and has since been its editor and proprietor. In 1896 he entered parliament as member for Lisgar, but has been unsuccessful in every subsequent attempt.

A. C. McKay, principal of the Technical school, Toronto, and ex-chancellor of McMaster University, celebrates his fifty-second birthday today.

LIGHTER VEIN

"I'll tell you a funny one that's absolutely true," said Bunny Brewer, who has headed the back to the soil movement and recently taken up a homestead on an abandoned logging farm. "Last Fall, along about log millin' time, we had some folks from the city out here and a likely 'lowed' gal—now quitcher she thought she was going to butcher a tenderloin steak."

"What are you going to do today?" says she. "We're going to kill a cow." "What—a whole cow at once?" "What do you think of that? Maybe she thought we were going to butcher a tenderloin steak!"

IN THE CHURCHES

Members of Alexandra Temple of Honor attended divine service yesterday morning at Brussels street Baptist church. Rev. Miles McCutcheon delivered an eloquent address.

About 800 members of the Sons of England, representing Marlborough and Portland lodges, attended service in Main street Baptist church yesterday morning. The Sons of England band headed the parade from Oddfellows hall, Charlotte street, and during the service rendered several selections.

In the absence of the Presbyterian ministers from the city yesterday the pulpits in the different Presbyterian churches were filled by visitors. Rev. William MacPherson had charge of the services at St. David's. Rev. W. W. Brewer preached at St. Matthew's and Rev. Prof. Spidell at St. Andrew's. Prof. Watson, of Mount Allison University, conducted both services at St. Stephen's. In response to an appeal for missions in the Tabernacle church last evening a collection of \$194 was taken.

ONE SEEKS EMIGRANTS; THE OTHER MONEY

(Times' Special Correspondence) London, May 20.—Both Hon. J. W. Roche, minister of the interior, and Hon. A. L. Sifton, prime minister of Alberta, are in England. The reason of the visit of the former is emigrants; of the latter, money.

Doctor Roche has benefited in health by the voyage, and is now staying in Monmouthshire, with Sidney Fudge, one of the dominion government officials, who has been actively engaged in Wales. There are, I learn, to be developments in this important branch of the Canadian government's work; the organization in Great Britain is to be strengthened, and arrangements for greater activity in the countries of northern Europe will be made. Doctor Roche will visit the continent with that object.

Among other prominent Canadian visitors is H. C. Schofield, M. P. for Wellington, Ontario, president of the Page-Hearst Manufacturing Company of Guelph, Welland and Port William. Mr. Schofield has directed attention in a striking manner to the question of industrial versus agricultural employment for the emigrant and in doing so has opened up a controversy which is all the better for ventilation both in this country and in Canada.

RECENT WEDDINGS

A fashionable wedding was solemnized in the Bishop Vronin Memorial church, London (Ont.), on Friday, when Miss Elaine Agatha Leonard, daughter of Mr. and Mrs. Frank Leonard, was united in marriage to E. Aubrey Schofield, of Montreal. Rev. R. W. Norwood performed the ceremony. The ushers were Woodman Leonard, London; H. Kingston, Montreal; A. A. Jones, Montreal; Allan Thomas, St. John, and T. Hollick, Montreal. Mr. and Mrs. Schofield will spend the summer at Dorval (Que.)

The wedding of Miss Annie Lorella, daughter of W. Arthur Lingey, of West St. John, to Bernard Langley, of Montreal, took place last Wednesday in Montreal, the ceremony being performed by Rev. F. J. Taylor, a Presbyterian clergyman. They will reside in that city.

St. Alphage's Church, London, Wall, just celebrated the 900th anniversary of its foundation.

**NORTH END OPERETTA SCORES BIG SUCCESS**

It is planned to have a new school for the Catholic children of North End, now attending the St. Peter's and Girls' schools in Elm street. The necessity for this has been seen for some time, as the number of pupils in attendance at the schools has been increasing and the accommodations are not as up-to-date and progressive as desired. The site of the new school, which will probably be the handsome brick structure, is near the present buildings, and to make way for it the house now standing on the lot adjoining the girls' school will have to be razed. This will hardly be done this year, but it is the hope of the rector, Rev. Charles McCormick, to see a commencement made early next spring.

The people of St. Peter's parish are heartily in sympathy with the project. A start was made on Saturday afternoon for the purpose of adding to the nucleus of the building fund by the presentation of a dainty and charming operetta "The Tyroler Queen," in which a large number of children took part under the direction of Miss A. McCarron. It will be repeated this evening and tomorrow night as well and should attract many. Music is furnished by the Y. M. A. orchestra under leadership of Eugene McBride.

The principals in the cast are: Julia O'Brien, Tyroler Queen; Annie Gilbert, Mother Grant; Josephine Mullin, Fairy Queen; Frank McGarrigle, Cypriote; Greta Gilbert, Bright Eye; Marceline McManus, Fairy Queen.

Those in the chorus are: Marion McCluskey, Madeline Flynn, Lillian James, Josephine Mullin, Anna McGarrigle, Florence Kelly, Dorothy McCann, Annie Carroll, Kathleen Whelby, Mary Shannon, Elizabeth Downey, Gladys Gilbert, Bessie McManus, Mildred Lannon, Elsie Kane, Joseph Moore, Paul Doherty, Joseph O'Connor, Frank McGarrigle, Thomas Gonnell, George Heffernan, Cyril Moore, Leo McAnulty.

Those in the chorus are: Lillian Lundy, Anna McGarrigle, Lillian James, Elizabeth Downey, Kathleen Whelby, Greta Gilbert, Mary Shannon, Marie Duffy, Alicia McManus, Dorothy McCann, Dorothy Cosgrove, Florence Leonard, Joseph Moore, Cyril Moore, Paul Doherty, Joseph O'Connor, Leo McAnulty, George Heffernan, Frank McGarrigle, Thomas Gonnell.

Sir Thomas Shaughnessy has announced that, in addition to the two steamers already on the stocks, the company has plans for two more of the same size which also will be on the St. John service during the winter seasons.

The latest additions will be fitted with cruiser sterns in order that they may be adaptable for defence. Regarding the story that the C. P. R. has purchased the Allan line Sir Thomas said that a definite statement would be forthcoming soon.

**WHAT DYSPEPTICS SHOULD EAT**

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore, the sufferers should, whenever possible, avoid eating food that is acid in its nature or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a half teaspoonful of Bisulphated Magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisulphated Magnesia is doubtless the best food corrective and antacid known. It is not a medicine, and has no direct action on the stomach, but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little Bisulphated Magnesia from your druggist, eat what you want at your next meal, take some of the Bisulphated Magnesia as directed above, and see if I'm not right."

MAY MODIFY TREATY

Understood St. John River Commission Will So Recommend

It is believed that the International St. John River commission, which has just completed an important session at Fredericton, N. B., is to recommend to the United States and the Dominion of Canada or Great Britain that a modification of the present treaty in force between the two nations, so far as it relates to the St. John river, be made. This action is to be recommended to promote the interests and encourage the interests of all the inhabitants of the countries watered by the river St. John and its tributaries in accordance with the modern conditions. The Webster-Ashburton treaty drawn in 1842 does not fulfill all the requirements of modern business interests on the river.

A BETTER DAY IS COMING

A baseball team representing the Globe Publishing Co. met the Times players (?) in a very exciting contest on the Barrack Green on Saturday afternoon. Perhaps the most exciting part of the game was when the Times aggregation were chasing the sphere to all corners of the field. The game went the full number of rounds, when the score of 6 to 2 in favor of the Times was reached. The Times players did the pitching for the Globe. The score was 6 to 2 in favor of the Times. BURIED TODAY

The funeral of Miss Lena Daly took place this morning at 8.45 from her late residence, Douglas avenue, to St. Peter's church where requiem high mass was celebrated by Rev. Father O'Regan, C. S. S. R., assisted by Rev. E. J. Holland, C. S. S. R., deacon and Rev. J. H. Bourmann, C. S. S. R., sub-deacon. Interment was in the new Catholic cemetery. The pall bearers were: Edward O'Hara, Guy Hanson, Charles Coughlan, Harry Dever, Maurice Delaney and Harry McQuade. The funeral was attended by many friends and many pretty floral tributes were received.

THE PRICE OF HOPE

ONCE when King Edward VII. paid a visit to Sheffield, all the fires in factories and plants were allowed to die out. Not a wheel in Sheffield turned for twenty-four hours. The primary object of this was to lift the pall of smoke that hovered over that wonderful steel-producing city, and to ensure, as far as man was able, a bright day and a blue sky for an auspicious occasion. It was Sheffield's expression of respect.

BUT the action was unique—it was unprecedented—it was unthought of that those hundreds of mighty furnaces, raging night and day, and those seething boilers, with quivering valves, should ever be allowed to cool.

SOME business men in Canada pay an unwitting homage, not to a king, but to a superstition—the superstition that hot weather justifies letting the fires of business energy go out.

Jeff's Girl Did Not Get to the Banquet---Mutt the Cause .. By "Bud" Fisher

BORDER TEAM WINS EASILY FROM GREEKS

The Marathons lost to the St. Croix team on the local grounds on Saturday, 6 to 1, the locals being unable to get a safe hit during the whole nine innings. The only redeeming feature of the game was the excellent fielding of the visitors, who were in the game all the time.

Conley started on the mound for St. Croix, but was replaced by Lee in the fourth on account of a sore arm. Both pitchers had the Greeks at their mercy, only five of them reaching first during the whole contest and but two of these got as far as second, one of them scoring the lone run.

Woodbury pitched fairly good ball for the Marathons, but he had rather ragged support, which went a long way towards making the game so uneven. He was very effective at critical times and pulled his team out of several bad holes.

The score was as follows:

Table with columns AB, R, H, PO, A, E. Rows include Vancor, Parker, Lynch, Tetrault, Pease, Wildes, McPherson, Gross, Conley, Lee, Marathons, Waterhouse, Little, O'Brien, Black, Watt, Bien, Nolan, Riley, Woodbury.

Two Australian Heavy Weights to Try The Comeback Route

By TOM ANDREWS

Two well-known Australian heavy-weights are making an effort to come back—Bill Squires, who was dubbed the "quince" when he came over here to meet Tommy Burns for the championship, and Bill Lang, another aspirant, who wanted to annex the heavy-weight title.

In 1910, when a battle of any account was in the offing, Squires' lazie met Bill Lang in Melbourne and was put out in the final round of a 20-round battle. That took the fight out of Bill for a time and he went to live on his station, or farm, in New South Wales. When Billy Papke and the American boxers were over there in 1910, an effort was made to match Squires with Papke for the light-heavy-weight title of that country, but Bill would not re-enter the ring, claiming that he could not get into condition. The fact was that he wanted a nice chunk of money for the chance against Papke, but when the Stadium offered to make good, he backed water. Lang was also out of the running at that time, having hurt his hand, but last year he took another chance after having been knocked out by Sam McVey and fought a 30-round battle with the changeable Jim Barry. Bill lost the decision.

While all the heavies were in Australia the past winter getting the money, Squires was taking life easy on his farm and Lang was busy training other fighters for matches. Now they have both signed up to try the Stadium management in Sydney and it is expected that they will be sent against the English heavy-weights and also some from America who are expected to sail later on.

If the two Australian Bills can work the comeback, and tackle the entire bunch, for it is dollars to doughnuts that the kid, with his 40 years hanging on his shoulders, would walk through the lot without trouble. There is no need to include Jim Jeffries in the lot as Jeff has given the lie to the statement that he intended to make another attempt to come back.

Two games tomorrow with Bangor. Let us hope for better results. Followers of the game were glad to see Joe Tarbell on the coaching line Saturday. They will see him in action in tomorrow morning's game. The border boys are too fast for us as things stand now. Woodbury seemed to delight in pulling in a hard place. We want more ginger. Better have it at once.

A St. Croix hunt along the first base line is fielded by Watt. He turns to throw but there is no St. John man there. The same thing happens again in the same inning. That is not base-ball. The errors were costly ones and two or three chances to catch runners off bases were lost by the locals.

We were outplayed. Manager Doyle's boys have yet to suffer defeat and Bangor has not won a game.

Frederickton is now nicely placed in second position. Frank Harrington pitched and won another game for the Lynn club in the New England League on Thursday. The game went six innings, Lynn beat Brockton 2 to 1. Three hits were made off Harrington. Hannah Hoyt, who played first for Brockton did not get one of the three. Joe Neptune, who played short, had one of Lynn's eight hits off Brigolla.

Frederickton Takes Two

At Bangor, Frederickton got away with two games on the Bangor Maroons on Saturday. The first ended 10 to 5 and the second, a ten inning contest, finished 8 to 1.

In the first game, Mahoney, Bangor's twirler, had the game well in hand until the sixth when he blew up and the Pets scored four runs and they followed this up by making four more runs in the next three innings. Bangor scored three runs in the first, but after that session the Pets tightened up and allowed them only two more runs, one in the fourth and one in the ninth.

The second game was a pitcher's battle, one run being scored by Bangor in the third inning. Frederickton tied the score in the ninth and two runs in the tenth gave them the lead, and the Maroons were unable to get another tally. The scores were:

BRITAIN AND AMERICA RENEW PEACE TREATY

Washington, May 31—Secretary Bryan and Sir Cecil Spring-Rice, the British ambassador, late today signed a renewal for five years of the general arbitration treaty between the United States and Great Britain, which will expire by limitation on June 4. The treaty provides for the arbitration by the Hague court of any differences of a nature not affecting the vital interests, the independence, or the honor of the two contracting states, and which do not concern interests of third parties. A form of special agreement, covering the subjects to be arbitrated, subject to the senate's approval, is prescribed. In 1911 some 3,600 persons were killed in United States mines and quarries.

McGraw's Review Of the Big Leagues

By JOHN J. MCGRAW, Manager of the Champion Giants

(By John J. McGraw, Manager of the Champion Giants.)

The Giants are not right now. I admit that, in fact, I did when I made the recent trade with Cincinnati by which I let one player who helped me to win four championships and another who had been on a team that had been returned a pennant bringer. But I am not offering any alibi for the showing so far.

Plain facts are what count. One fact is that the club has not been hitting with any degree of regularity or timeliness. When the men have been hitting, the pitching has been bad, and when the pitching has been good, the hitting has been of the featherweight kind.

Watch the Little Things In the first place, I want players who will watch out for the little things which are the little things which win games of baseball. That is, they should be picked out of the way or picked up, so that it would not interfere with the show. It was not that I had had all.

Understand, I am not finding fault with the club for the benefit of the public. I do that sufficiently when we go to executive sessions after the games, and there have been several of those since season. But I do not want you to think that I am going to sit and blame the umpires or old misfortune for the place my club occupies in the standing at present. Not on your life.

The last few weeks because it is a club that will fight when the boys get ricket up against the wall. All the layers are thoroughly awakened to the notion that considerable baseball will have to be played between now and September to overcome the Philadelphia, and they have made up their minds to play baseball. The idea that we could breeze through the league in an old sort of fashion this season has been blasted out of the heads of the boys to a large extent.

Now, I intend to attempt to show some reasons why I still believe the club will win the pennant. In the first place, I have always been a stubborn road runner because all the men are fighters, and the feeling of hostile curiosity is in their blood up and makes them go hard. We are just starting on a road trip now against the westerners, which showed during their recent past that they represent the weak half of the circuit this season for the time in several years. I expect to see the Quakers in the west. I figure the Pittsburgh bunch.

The ground was soaked with water and warm weather is badly needed by the farmers. It is feared that the Aroostook apple crop is heavily damaged and that it may have been entirely ruined.

**POLICE COURT**  
In the police court this morning before Magistrate Ritchie, a young man arrested on Saturday on assault charges was remanded. He was examined early this morning by Doctor Berryman, who recommended that he be further examined as to his mental condition.

Two men, charged with drunkenness, were remanded and one forfeited a deposit of \$8.

**AGAIN ARRESTED**  
George Gallagher, who was arrested on Thursday on charge of using abusive language to his wife, was brought in court on Friday morning and allowed to go on suspended sentence on condition that he would not bother his wife again. He had hardly been out of jail when, on Saturday afternoon, he was arrested and placed in jail on commitment for abusive language.

### FAIRVILLE TO HAVE BAND STAND SOON

Fairville is to have a bandstand. In line with the other movements attending to the progressiveness of the citizens of that place, it is planned on having a band stand in the Fairville school grounds where weekly concerts probably will be given. It is expected to be ready for use in about a fortnight. One of the city bands has offered its services, and others are expected to assist.

### SATURDAY'S GOLF

The May handicap, sweepstakes, was the card at the local golf links on Saturday and a fair field of contestants turned out. The event was won by Alfred Porter.

The course is in good condition except that the prolonged wet weather has brought the grass along very fast and the ground has been too wet to permit frequent mowing. So soon as the ground hardens sufficiently to allow close cutting of the fair green the links will be in first class summer condition.

News from Linga is to the effect that the golfers there are working like beavers to get their new course in shape for the maritime championships late in the summer or early in the autumn.

### THE LATE MRS. MACVICAR

Dr. MacVicar wishes to express to the office-bearers and people of St. Andrew's church, as well as to many in other churches, his heart-felt thanks for the sympathetic words, thoughtful acts and prayerful remembrances that have done so much to support him during these recent weeks of anxiety and bereavement.

He desires also to express deep gratitude for the beautiful floral tributes so lovingly sent by the various organizations of the congregation and by individuals. He trusts to be able to acknowledge these in personal notes, but if through any cause cards attached to such kind remembrances should have become mislaid, he hopes that friends will be good enough to accept this sincere acknowledgment. Dr. MacVicar is profoundly sensible of the generous measure of appreciation shown for his many quarters in regard to what Mrs. MacVicar was and did in the life and work of the congregation, and of the city, and he trusts that this deep sorrow, which at present seems to make heavy, may, through the grace of the Great Head of the Church, be made to tend towards its true enrichment.

### RECLAIM LAND AT COURTENAY BAY

North Griffiths & Co. Ltd. Give Notice of Application to Federal Government

Norton Griffiths & Co. Ltd. have given notice of their intention to apply to the federal government for permission to reclaim certain lands on the eastern side of Courtenay Bay, according to description and plans which have been filed with the minister of public works in Ottawa and the registrar of deeds in St. John.

The land which they wish to reclaim is situated in front of their own property and extends from the Municipal Home property to the breakwater, leaving a channel for an entrance to the dock. The reclamation will be carried on by using the place as a dump for the mud raised in the bay by their dredges.

### ABLE TO GET ON MORE RAPIDLY AT THE POINT

Work on New West St. John Elevator—Two Hundred Men to Be Added Soon

Work on the new elevator at West St. John has now reached a stage which will make it possible to proceed much more rapidly, says F. H. Lodge, who is general superintendent for the J. S. Metcalf Company, Limited, said to a member of the Times' staff on Saturday that after about another week the walls of the building would rise with much more noticeable speed. The company will add about 200 men to their working staff within the next week or so, although the place at the present time is a veritable hive of industry.

The work of filling in the space around the elevator, by the Canadian Pacific Railway Company, is proceeding, but the contract is a big one, for a very large area must be filled.

Looking out from the temporary track along the water front on which the hoist trains come in, it seems very clear to the onlooker that the Connelly wharf cannot be completed with warehouses upon it, and the area for tracks filled in, in time for use next winter. If such progress could be made as has been and is being made by the builders of the grain elevator, there might be some hope of an early completion of the other work.

Across the harbor from the grain elevator the Foundation Company of New York are making good progress with the foundation piers for the new sugar refinery. A large number of new concrete piers must be sunk between those which have been finished and the face of the wharf facing the harbor. The company has several months more of hard work before it. The character of the work which it is doing is of the best, and visitors are greatly interested in the piers that have been sunk to a great depth to get a sun foundation for the big buildings.

### SPORTING EVENTS FOR THE KING'S BIRTHDAY

Fine Programme For R. K. Y. C. and Bangor's Bow on Local Baseball Diamond

Tomorrow will be a big day with the Royal Kennebec Yacht Club when they will observe Members' Day, for which an interesting programme of races, water sports and dancing has been arranged.

The programme for the afternoon will include the arbitrary handicap in which the time allowance will not be arrived at according to measurement, which is usually the case, but according to a boat's record. Eighteen entries have been received for this race, which will commence at 2.15 o'clock, and it will be one of the biggest races seen on the river for some time. A handsome cup has been donated by Commodore Gregory for this contest.

The one design dingy race also will be sailed in the afternoon for a cup donated by Percy McAvity and several cash prizes put up by the club. Three motor boat races, for racers, cabin and cruisers have been set for the afternoon also.

In the evening a series of water sports will be carried out followed by dancing. A caterer will be at the club house during the afternoon and evening to serve refreshments to the members and their friends, and additional accommodation has been made to carry the people from the city out to the club house.

Some members will go out this evening to decorate the rooms for tomorrow and put the place in its usual holiday regalia.

Baseball  
Local baseball enthusiasts will have their first opportunity of seeing the Bangor Maroons in action when they will meet the Marathons in two games, morning and afternoon. Joe Tarbell will be on the mound in the morning game, which will begin at 10.30, and Shanley, who made such a good showing in last Tuesday's battle, will be on the firing line for the locals in the afternoon game which will start at 3 o'clock. As tomorrow has been declared a public holiday, it is expected that a large crowd will attend the games.

A double header will be played in the East End League tomorrow. In the morning at 10.30 the Nationals will meet the Glenwoods, and in the afternoon at 2.30 the Commercial and Alerts will play. The new grandstand on the grounds is now about completed and will be ready for the morning game.

The executive of the East End League is to hold a meeting this evening.

### DEATH IN KIRKSTADVILLE

Death yesterday removed one of the oldest residents of Kirksteadville, Kings county, in the person of William Kierstead, who passed away at his home about noon, aged seventy-one years and six months. He is survived by his wife, four daughters and one son, twenty-five grandchildren and three great-grandchildren. The funeral will take place on Wednesday morning at ten o'clock.
