Apr. 4.—B.A and Intermediate Examinations in McGill University.

Arts Department.

The work of Morrin College is carried on by means of daily recitations to the professors. At the close of each month, there is an examination on the studies of the month, when the standing of each pupil is marked.

At the close of each term, there is a Review Examination on the whole work of the term, when prizes are given to the successful students. The prizes consist of Scholarships: *First-class* of \$15, and *Second-class* of \$10 each. To obtain a Scholarship, a student must pass each of the three examinations of the term in *six* subjects. The aggregate of the marks thus obtained will be divided by *six*, and a First-class Scholarship be given if the average be 85 per cent. or over, and a Second-class one, if the average be 70 per cent. or over.

Students attending Morrin College, purposing to graduate, have, in addition to attendance on the regular classes, to undergo three important examinations: the *Matriculation*, at Entrance; the *Intermediate*, at the close of their second year's course; and the *Final*, or Degree, at the close of their fourth year.

The following are the subjects of study for the session 1885-86 :—

For Matriculation.

1. The same as in McGill College, viz :

Libraries.

In addition to the use of the valuable "Aylwin Library," belonging to the College, its Students have free admission to the extensive Library—containing some 20,000 volumes—of the Literary and Historical Society, whose reading room is amply furnished with the leading French and English Reviews, Magazines and Periodicals, of our own and European countries.

Students' Debating Society

Meets every Friday night during the Session, and affords the Students many opportunities for adding to their general information, and for cultivating their powers of public speaking.

Students' Glee Club

Concerns itself specially with the study and practice of music.

Alma Mater Society

Seeks to foster among the Students and ex-Students a fraternal spirit, and to promote the interest of such in the prosperity of the Institution.

Students' Missionary Society

Has for its object, Mission work, mainly within the bounds of the Presbytery of Quebec. This is carried on by the Theological Students in winter time—so far as their College duties allow, and in summer time, constantly, supplying with the means of grace needy localities in the neighborhood of Quebec.

Morrin College offers special advantages to young men in the Province of Quebec, who may seek Collegiate education. Being affiliated to McGill University, Montreal, attendance at its classes ranks as equal to attendance at Montreal, and as the course of study pursued in

either Institution is identical, a Student may, at any time, if he desire it, pass from one College to the other without loss, while at the completion of his course in Morrin, he can obtain his Degree in Arts from the University. By the Will of the Founder, the Governors must belong to the Presbyterian Church, but in all other respects this College is undenominational. Its educational advantages and Arts scholarships are open to Students of any religious persuasion.

Quebec is a singularly healthy city, while the grandeur of its situation, the quaintness of the old French town, and the historic importance of many of the events connected with it, invest it with an interest far beyond that pertaining to any other city on the continent. Protestant churches of all communions are numerous, while the social advantages open to the Morrin College Students are very many.

Good board may be obtained in either English or French families, at rates ranging from \$3.00 to \$4.00 a week.
