CITIZENS TAKE STEPS TO PREVENT STRIKE

Will Petition the Government at Ottawa

P. W. A. Officials Claim Membership of 3,000—Say a Strike Would Not Cripple the Mines.

GLACE BAY, N. S., April 24—There are no new developments in the labor situation here today. The president of the United Mine Workers, Mr. Daniel McLaughlin, is now in Springhill on important business, the nature of which could not be learned. Messrs. Bonfield and Patterson are absent from town today attending meetings of the local committee. Number six and Lagan, and could not be seen. Speaking to members of the United Mine Workers on the street this morning it was stated that the men of the United Mine Workers generally are very vindictive as a result of the action of the company, in asking the county council to appoint 62 constables, which they allege they require to prevent destruction of their property should a strike be called, and strongly censure the council for their action. In appointing these constables, which they allege they require to prevent destruction of their property should a strike be called, and strongly censure the council for their action. YOUNG TURKS' PARTY IN DESPERATE BATTLE WITH THE SULTAN'S TROOPS

Palace Bombarded, But Inhabitants Escape—Many Casualties in the Streets of Constantinople—Constitutionalists Well Organized and are Receiving Reinforcements from Deserters

CONSTANTINOPLE, April 24.—Heavy rifle firing shortly after 5 o'clock this morning mingled with the occasional rattle of artillery from the heights surrounding Yildiz Kiosk marked the culmination of the expected clash between the favored troops of the Constantinople garrison and the army of investment which began its advance on the city yesterday. The fighting started in the southwest part of Pera near Yildiz Kiosk between the troops under General Mahmud Scheffer, commanding the army of investment, and part of those loyal to the Sultan. The Saloniki troops attacked the Matchka and Tash Kichia barracks south of Yildiz Kiosk where they met stubborn resistance. It is reported that the Saloniki troops called for reinforcements from the heights surrounding Yildiz Kiosk. LONDON, April 23.—I saluted the Sultan with great respect. He was only seen showing perfect calm, the others were very nervous.

CONSTANTINOPLE, April 24.—Complete tranquility was restored in Constantinople by noon when the last rebels surrendered and the firing ceased. Several of the isolated guard houses defended themselves bravely against the Saloniki troops. The fighting in the center of the city resulted in considerable loss of life. The Tash Kichia guard house resisted for three hours before a heavy Hotchkiss fire. The occupants, numbering fifty men and officers, finally surrendered.

CHURCH CHOIR DINED AT THE UNION CLUB

Presentation to the Leading Soprano—Other Members Think Club No Place for Church Function.

It is said that some of the congregation and members of the St. James' church are rather surprised and annoyed because of the fact that on Thursday evening last the ladies and gentlemen who compose the choir of the church were entertained at a dinner at the Union Club. Other members of the church say that there should be no reason for any person to feel annoyed.

DOMINION OFFICER DROWNED AT SOREL

Only Two Out of Thirteen P. E. I. Election Protests Will be Pressed

CHARLOTTETOWN, P. E. I., April 24.—Capt. Alexander MacLeod, commander of the Dominion Government steamer Constance, was drowned yesterday at Sorel. He was a native of Orwell, P. E. I., and was formerly first officer of the Dominion Government steamer Princess. He was aged fifty years and leaves a wife and six children.

ARRESTED FOR TAPPING ELECTRIC POWER WIRE

Chas. H. Kerr, of the Bijou, in the Toils—Has Been Getting His Electricity for Nothing.

Charles H. Kerr, manager of the Bijou moving picture theatre on Union street, was greatly surprised shortly after noon today when he was called on by Deputy Chief Jenkins, who presented a warrant and placed the well-known manager under arrest on his charge of unlawful consuming of electricity.

BETTER AND CHEAPER FERTILIZER REQUIRED

Subject Thoroughly Discussed Today.

Suggested Appointment of Provincial Horticulturalist to Promote Fruit Raising.

FRIDERICHTON, N. B., April 24.—The agricultural committee held another enthusiastic session this morning. Chairman Dickson presiding. Col. Sheridan desired information as regards artificial fertilizers and the action of fertilizers upon the soil. He knew something of the action of stone lime and how it left the soil in a harsh and unproductive state. He also knew that mused mud was a real benefit to the soil and left it in good state.

TAXATION.

Income of \$300.00 and less per year are to be exempt from taxation. That part of the new legislation is worthy of note. It will come as a distinct and unpleasant surprise to many well-to-do citizens. To exempt such incomes from taxation will seem laughable, but to expect families to live in decency and comfort upon \$300.00 and less per year will seem well nigh impossible.

It would be well if the man with a fair wage, occasionally indulged himself at the imaginary attempt to dole out for the wants of a family out of that small allowance. If the task be entered upon with seriousness, intelligence and sympathy, it will yield some very startling and fruitful results. Less than six dollars a week out of which to provide food, clothing, shelter, the very first problem that confronts the family so situated is the problem of shelter. That must come before either food or clothing, and for such a family the rent for that shelter must be regularly discovered on pain of finding themselves classed among vagrants and paupers. Five and six dollars per month will pay a very fair return on an investment of six hundred dollars, and six hundred dollars will build a very decent tenement, but when the man with his five dollars searches for his decent tenement he finds that he has no very easy task. The man with the \$300.00 income finds that as his poll tax is jumped from \$2 to \$5 his rent yields not the normal landlord's profit of from 8 to 10 per cent, but from 25 to 40 per cent.

However, the family must have shelter and the family must pay for what they can get. Having shelter, this family must discover food and fuel. There is here no possibility of taking advantage of low prices, no bargain hunting. The problem is not to provide for tomorrow, it is the present problem of providing for today. Let any man with a comfortable income set himself the task of providing food and fuel for his family on less than five dollars a week and he will not wonder why people that usually provide for their families on less than five dollars a year cannot afford to do so. If he goes with money he robs his family and if he goes without money he loses his respect.

Income of less than \$300.00 per year are heretofore exempt from taxation. Surely that is unnecessary legislation. Such incomes are exempt from taxation of necessity and no act of parliament can discover a margin where no margin exists. Food, clothing, and shelter, the bare physical necessities of life have first call and last call upon such a wage. To tax such an income and to collect the tax will involve any community in the inevitable curse that must fall upon those who grind the face of the poor.

The new legislation accomplishes nothing in the way of exemption that government has not already done. The new legislation in its first provision of exemption simply makes legal that which has been actual. It is a recognition of the fact that a civilized community cannot tax a wage that provides the bare physical necessities of life. If it could so violate its sentiments as to assess the tax, it could find no man so devoid of human sympathy that he could collect the tax.

But by what trick of the human mind the exemption was supplemented by an increase in the rate of the poll tax, we do not understand. Surely, no sane man expects a man who cannot pay a tax on an income of \$300.00 to pay a poll tax of five dollars. The net result is to remind the poor man of his poverty. The provision would seem to be made by men who feel that they must apologize to some one for an attempt to lighten the burden of the poor. And the query is, to whom do they feel they must apologize? Do the men who receive a decent wage, or who are possessed of a fair share of this world's goods demand this insult to the poor?

CHURCH UNION.

The prospect of a union of three of the leading Protestant denominations of the Dominion has been regarded with favor by many people interested in the work of the churches and in the welfare of the Canadian people. Some have hoped that the union of Protestantism would be still more comprehensive, and some have even dared to hope that the union would

ment would cease until the two great divisions of Christians should unite in forming a great Canadian community of Christians.

But though the prospect of organic union is pleasant to contemplate it is altogether possible that too much store is placed upon that which is to be expected from such a result. The work of the churches is to a very large extent local and immediate. A united church would doubtless approach the problem of the evangelization of the heathen, or the conquest of the new territory of the west in a more effective way than the divided church does at the present time. But what actual difference would the proposed church union make upon the situation in St. John? Church workers are always full in their assertion that competition is more keen within a denomination than between denominations. At any rate, within recent years we have in this city witnessed fierce attempts on the part of the different denominations, to affect a union of different congregations, and as every one knows these attempts have invariably failed. It would seem that the zeal for the preservation of the local church is greater than the zeal for denominational strength and efficiency. And it is not to be expected that a union of all the denominations would alter in any way that very human tendency. Church union, whatever it accomplishes, will not reduce the number of churches in St. John, nor will it tend to destroy whatever hurtful rivalry now exists.

The way to gain the real advantages of union is very evidently not to wait for the distant day where denominational differences shall have been merged in a great church, but to find in the actual work of the community means of realizing that purpose which, at the last, is the real life of the Christian church everywhere. There is a union which receives recognition, between Christians who are working at their job. Differences of doctrine no longer divide. Churches are divided by institutional necessities, but when church workers place Christian purpose before their institutional necessities, then real union is a reality.

"TEDDY" RODE 79 MILES ON THE COW-CATCHER

KAPITI PLAINS, British East Africa, April 23.—Mr. Roosevelt was on the train pulled in, having occupied that position for the 79 miles between Makindu and Kapiti Plains. He said he was intensely interested in the country and expressed his gratitude and delight at the hospitality which he received from the acting Governor and Mrs. Jackson.

The caravan awaiting the Roosevelt party included four headmen, nine gun-bearers, twelve armed guards, two hundred porters and nine horses. Mr. Roosevelt rode on a lion hunt with Mr. McMillan. He is not attached to the Roosevelt party, the only members of which are Messrs. Lewis and Kermit. Hons are Mr. Roosevelt and Kermit.

SPORTING NOTES.

OSWEGO, N. Y., April 23.—Charles Conkie, of Hamilton, was awarded the decision tonight over Charles Kaiser, of Oswego, for the welterweight wrestling championship. Kaiser retired after twenty-five minutes wrestling, his ribs having been injured.

SAVANNAH, Ga., April 23.—Jack Durane, of Savannah, was helpless before Charles Goldman, of Boston, tonight, and before Jenkins called the bout at the end of the sixth round, though it was scheduled for fifteen rounds. Goldman landed when and where he pleased.

BOSTON, Mass., April 23.—The opening of the New England baseball season, which was scheduled for today and postponed on account of the heavy rain, will take place tomorrow. Brockton playing at Worcester; Lynn at Fall River; Haverhill at Lawrence, and Lowell at New Bedford.

BLOOMINGTON, Ill., April 23.—Edward Payson Weston on his transcontinental pedestrian trip, arrived tonight. He covered 52 miles today.

CATARACT OF THE EYE.

How the One It Attacks May Watch the Obstruction Grow.

Cataract is said to be due to the gradual deposition of oxalate of lime in the substance of the crystalline lens, at first in small spots or streaks, sometimes in one part and sometimes in another. The deposit gradually increases until it penetrates the whole of the lens, causing blindness. The remedy, then, is to remove the lens, and after its removal the patient needs a substitute in the form of highly magnifying spectacles.

All that is necessary to enable a patient to see his own cataract for himself is a piece of card and a needle. A visiting card will do very well. Pierce a clean round hole near the middle of the card and hold the card up to the light close to the eye, looking preferably in the direction of a piece of blue sky. With the card held to the eye the patient will not see the small hole pierced by the needle, but he will see a comparatively large, faintly illuminated field with his cataract projected upon it. He is, in fact, observing the shadow cast by his cataract on the retina at the back of his eye. With a small puncture in the card the shadow so thrown is comparatively sharp. But with a normal eye the shadow will be seen. The patient may thus map out his own cataract and settle for himself whether it is extending and whether he will have an operation or not.

SATURDAY SERMONETTE

DELEGATES.

This has been a great year for delegates and delegations. The spring has not been favorable for spring poets, but it has been a good sap year, and delegates. It is simply a coincidence that more maple sap has gone into maple sugar and maple candy this year and there have been more delegations than in any previous year. The partial failure of glucose in sugar plants explains the purity of maple sugar and candy. But the number of delegations is unexplained.

The passenger traffic to Fredericton has increased so that more and better cars are an imperative necessity. There is not a train going into Ottawa but what has one or more delegations. The most of the strangers in Ottawa and the most of the guests in hotels, and the lobbies of the house, are delegations to have a delegation thrust upon them.

Self-Poisoning Constipation

Fills the Blood With Impurities and Causes Skin Diseases

FILLS THE BLOOD WITH IMPURITIES AND CAUSES SKIN DISEASES.

Constipation poisons the body by rendering the blood impure. The blood becomes simply loaded with all manner of foreign material or impurities, which are absorbed from the large intestine, and carried to all parts of the system, causing headache, salivary "muds," and the impurities in the blood, the real cause of the skin diseases of general lassitude.

WILL HOLD PHILIPPINES AS MATTER OF HUMANITY

BOSTON, Mass., April 23.—"We shall have to hold the Philippine Islands for a number of years as a matter of humanity," said Major General Leonard Wood, who was the guest of honor at the annual dinner of the New England Association of the Alumni of Phillips Exeter Academy at the American House tonight. "I continued, 'like us and do not want us to go away.'"

KILLED BY ROYALTY.

MADRID, April 24.—An automobile in which the Queen Mother, Queen Dowager Maria Christina was driving yesterday at the Madrugada dining room, when King Alfonso and six hounds were overcome with grief and spent hours in the dining room.

"CATTLE SHOW" IN CATHEDRAL?

The Dean of St. Paul's Cathedral, London, the Rev. Robert Gregory, D. D., is the most venerable figure in the ecclesiastical life of the Metropolis. He recently kept his nineteenth birthday, when he received shoals of congratulatory messages. When forty years ago the Dean vacated a living in a slum parish in Lambeth to become a junior canon at St. Paul's, people had to pay for admission to the Cathedral. Dr. Gregory has related an amusing story of a verger who was so annoyed at the prospect of a "cattle show" in the cathedral that he took it upon himself to erect a barrier composed of hurdles. This arrangement, however, was short-lived. "What are you preparing for?" he was asked by Dr. Gregory. "It is to be a cattle show or an exhibition of sheep or pigs?" The verger was obliged to admit it was neither. He removed the hurdles, but the action was not after his own heart. Despite his ninety years, the Dean is a regular attendant at the Cathedral evening, and, weather permitting, he takes a "constitutional" daily.

MAGAZINE WRITER ARRESTED FOR LARGELY

Broughton Brandenberg Taken in San Francisco Under Assumed Name—Missing Boy With Him.

SAN FRANCISCO, April 24.—Broughton Brandenberg, a newspaper and magazine writer of New York, was arrested here last night on a New York charge of grand larceny. He is accused of getting notes from Grover Cleveland's stenographer and publishing them in the form of a political letter in the New York Times. Brandenberg was charged with selling the Times the letter and declaring it was dictated by Mr. Cleveland. He was arrested on a charge of grand larceny. The former charge was dropped but after having pleaded not guilty on the other charge, he was held on \$1000 bail. On February 1 the case was called for trial but Brandenberg could not be found and his bail was forfeited.

THE YANKEE EAGLE COULD NOT SQUEAK

American Outlook's Experience at English Track.

Bookie Refuses Bet on Race Already Run and Then Playwright Leads on Winner of City and Suburban.

LONDON, April 23.—Down at Epsom I had my first impression of an English race meeting, and it seems to me to be composed mainly of a race lot of inoffensive scenery and the inability of a majority of the spectators to tell whether a race was beginning or ending.

There was also a big crowd of people, estimated at half a million, from twenty to fifty thousand. Most of them seemed to be bookmakers. Those who weren't bookmakers dressed as though they thought they were. There was a great deal of noise and shouting, which appeared to be in the main of a nature not to do anything to arouse enthusiasm, so the eagle did not scream a little bit or even squeak.

There was quite a sprinkling of Americans in the throng on the lawn in front of the grand stand and in the paddock. American horses, however, were scarce articles in the races and did not do anything to arouse enthusiasm, so the eagle did not scream a little bit or even squeak.

ALFRED G. VANDERBILT LOOKED ON.

Alfred G. Vanderbilt, smileless and serene, as he stood in the paddock in the paddock chatting with Lord Londale, As he had no horses of his own other than the ones he was so politely interested, Charles Klein, the American playwright, forged his way into the thick of things from an automobile. It was the first horse race he had ever attended, and so he sought admittance to all the reserved places there were.

Then, pulling out his race card and pointing his finger at a horse whose name caught his fancy, he told a bookmaker to give him two pounds worth of a bet on it. The "bookie" gave him a receipt for the occasion, and said: "You'll hardly be fair to you. The race has been over for eight minutes and that horse was last of the bunch."

Klein had bought a very expensive pair of field glasses to dress himself correctly for the occasion. "Just think," said he, "I'll never use them again, for I'll never go to another race." And then he had the luck to bet on White Eagle and won enough to cover all his losses.

LADY DE BATHE PHILOSOPHICAL.

Mrs. Lily Langtry for Lady de Bathe, as she should be called, presented a vision of beauty in one of the lower boxes, and shed no tears, outwardly at least, when her horse did not win. Arthur Collins was devoting more time to studying nature than his race card and was impressed with the spectacle which Henry B. Harris was busy studying odds as a boy learning the multiplication table. He discovered that on an English track twice two does not make four, only three.

There was one bookmaker largely patronized by Americans because he looked like "Bob" Hilliard. To further resemble his name was Chesterfield Goodie, and he was dressed as Hilliard would be at a high noon wedding.

CONSIDERING TRADE RELATIONS WITH CANADA

DETROIT, Mich., April 23.—With the adoption of a tariff which demands a reciprocal maximum and minimum provision in the tariff bill now pending in Congress, the creation of a permanent tariff commission and the immediate opening of reciprocity negotiations with Canada, the conference of representatives of states and commercial organizations, called by the Detroit Board of Commerce to consider the improvement of trade relations with Canada, adjourned.

Former Secretary of the Interior James E. Garfield, of Cleveland, was the speaker of the afternoon and he emphatically endorsed the conference's recommendation for a tariff commission.

J. A. McDonald, of Toronto, when asked by Chairman Myron T. Herick to give the conference his opinion, as a Canadian, of the conclusions of the conference, said:

"You must convince the people of this country that in a tariff way they are cutting off their noses to spite their faces. We in Canada can't help you much except by maintaining a sympathetic state of mind. Demand at the banquet tonight, which ended the conference, the following committee was announced to carry the resolutions to Washington for presentation to the drafters of the pending tariff bill:

WILLIAM ADAMS, Portland, Maine; WILLIAM G. BRUCE, Milwaukee; GEORGE E. DUNN, Toledo; GEORGE SPENCER, Duluth; and J. L. HEDGECOCK, Detroit.

TOPKKA, April 24.—Four people were burned to death in a fire at Central Hotel at an early hour today. Only one of them, J. W. Froehon, of Clay Centre, Kansas, has been identified. The hotel was only partially destroyed. It was one of the finest in the city.

MAY BE ANOTHER COAL MINE STRIKE

Employees of U. S. Steel & Coal Co. Have Applied for Board of Conciliation.

HALIFAX, N. S., April 24.—An application for a board of conciliation to adjust some grievances between the United Mine Workers employees of the N. S. Steel and Coal Company at Sydney Mines and that company, was forwarded to the Department of Labor at Ottawa yesterday.

It is learned that the application is based, first, that an increase of wages be given contract men or those paid by the ton for being compelled to work with safety lamps which men using them claim lessens their earning capacity; secondly, that the men employed at No. 3 colliery are not afforded privileges accorded other workers, presumably because they are members of the U. M. W. Association.

They have been unable to have their local grievances adjusted by their committees, as the company refuses to recognize the U. M. W. The application states in conclusion that falling an adjustment of their grievances a strike has been authorized by the U. M. W.

LOGICAL ECZEMA CURE

ENDORSED BY PHYSICIANS

After treating eczema for years as a practically incurable blood disease, the medical world is greatly interested in the discovery that it is not a blood disease at all, but is due to a parasite in the skin itself. The parasite is easily destroyed by the external application of a compound of oil of wintergreen, thymol, glycerine, etc. This will quickly kill all eczema germs, while soothing and refreshing the skin.

No matter how terribly you suffer from eczema, salt rheum, ringworm, etc., you will feel instantly soothed and the itch allayed at once, when a few drops of this oil of wintergreen compound is applied. The cures all seem to be permanent.

TAKING STEPS TO PROTECT AMERICANS

WASHINGTON, D. C., April 23.—Realizing the impotency of the Turkish and the Persian Governments, and the inability of the United States to safeguard American lives and property in the present disturbed conditions in those countries, the state department has indicated that it will welcome any assistance in this direction from the governments of Great Great Britain and Russia.

Diplomatic representations having this object in view have already been made to the foreign offices at London and St. Petersburg, whose ships and soldiers are at or near the scene of the massacres and ready for active operations. At the same time efforts are being made to learn whether the European powers on whom rests responsibility for the application of reforms undertaken by Turkey in the provinces inhabited by Armenians according to the Berlin treaty of 1878 have taken steps to check the horrors now being perpetrated against those people. Inquiries have also been directed to London with a view to learn whether the warships detached by the British government to the vicinity of the trouble in Asia Minor will afford adequate protection to all foreigners and inhabitants of that region. It is being done to safeguard human life. Russia has been told that the United States will have to rely on her for the humanitarian work of saving our citizens in Persia if their lives are in jeopardy.

WEDDED FIVE DAYS, HUSBAND IS JAILED

Pretty School Teacher's Love Romance is Soon Shattered

GROOM HYPNOTIST

Europe. He blames his troubles on his wife's extravagance. She was an inmate of the State Hospital for the insane, and recently her engagement to Charles Forrest Swell was announced. He was also a hospital patient, and they became acquainted there. Both were discharged as cured, and the woman resumed school teaching. She was anxious to go on the stage, and answered an advertisement inserted in the hypnotist in a New York paper. He offered her \$50 a week to become his assistant, and later proposed marriage. The wedding took place in Jersey City, and the pair came to Trenton Saturday. An exhibition was arranged for the professor and his wife at a local theatre last night, but it was a failure. Mrs. Vincor followed her husband to jail, and at first declared she would remain a prisoner as long as his liberty was taken from him. His accusation of extravagance made her indignant, and she left the jail.

LONDON HOUSE CHARLOTTE STREET

CARPENTER HAS NARROW ESCAPE

Daniel Coram, a Carleton carpenter, fell fifty feet from the top of the Manchester Shipper into the harbor, about 2 o'clock, yesterday, and narrowly escaped being drowned. He was sailing on some boards on the side of the cattle deck when he lost his balance and fell between the steamer and the wharf. His head and side struck the wharf going down and he was rendered unconscious. Hearing the cry of a man overboard, James Clark, foreman of the carpenters, jumped over the side of the steamer and rescued Coram as he was sinking. A rope sling was made fast around the man and he was hoisted on to the wharf unconscious and bleeding from the mouth. He was removed to her home in Protection street and Dr. P. L. Kenney was summoned. Mr. Coram's side and legs were badly bruised.

DR. GOULTER MAKING PLANS FOR ALL RED LINE

Will Conclude His Work in Antipodes This Month and Will Then Go to London.

OTTAWA, Ont., April 24.—Dr. Coultter, Deputy Postmaster General, who has been in Australia and New Zealand since last fall, conferring on behalf of the Canadian Government with the premiers and other members of these two Dominions in an endeavor to arrange a basis of a definite agreement relative to the joint contributions of Canada, Australia and New Zealand toward the establishment of the proposed all red line, will conclude his mission in the Antipodes this month and is expected to arrive in Ottawa about the first of June. It is understood that as a result of his mission negotiations looking to final completion of the scheme have advanced a stage, but the real situation will not be known until he returns and makes a detailed report to the Canadian Government of the views of the other participating governments in the scheme.

CANNOT PRY INTO GED. E. FOSTER'S PAST

Judge's Decision Confines Libel Suit to Two Charges.

TORONTO, Ont., April 24.—In giving judgment on Geo. D. Foster's motion to strike out certain paragraphs of James A. MacDonald's statement of claim in Foster's action for alleged slander, the master in chambers decided that MacDonald must amend his statement of defence in reply to Foster's amended statement of claim, but does not order MacDonald to expunge every paragraph attached. When the matter came up first, Master held that Foster was justified in confining his objection, if he so wished, to two matters, "Swan River deal" and Foster's alleged desire to use I. O. P. reserve funds for special purposes. Foster was given leave to amend his statement of claim so as to complain of two allegations alone, but MacDonald did not amend his statement of defence and today's judgment deals with Foster's motion to compel MacDonald to do so. His lordship recalls MacDonald's argument that he could not be required to amend because the plaintiff had amended.

NIAGARA ICE RUNNING CLEAR

Will Not Have to Use the Dynamite Charge.

YOUNGSTOWN, N. Y., April 24.—The Niagara River by plowing its own channel during the night deprived the engineers of both the need and the opportunity of discharging the two ton blast of dynamite planned by Assistant Supt. Henry A. Kunze at the close of yesterday's operations. It is now impossible to reach the middle of the river where the string of charges were to be sunk. The first task this morning was the demolishing of that part of the ice pack which still hugs the shore close to the mouth of the river. Later the dam which crosses the river 300 yards up stream will be broken. A large open area appeared on the Canadian side of the river just above Niagara on the lake. The crack at Lewiston developed into four feet of running water, and water sank still lower in the vicinity of the falls. The pack seems to be disintegrating throughout its entire length and no damage is now feared at any point.

NEWS FROM MONTGTON.

New Organ for Methodist Church—Rifle Match Arranged—Mystery Over Find of Clashes.

MONTGTON, N. B., April 24.—There will be another new large organ in Montgton. Last evening at a meeting of the trustees of the Central Methodist Church, it was decided to have one installed which will cost over five thousand dollars. It will be the largest in the city and the firm of Casavant Bros., of St. Hyacinthe, will install it. It is intended to utilize the present front, but the organ will be absolutely new. On May 24th there will be held on the Montgton rifle range a shoot open to any one in the city. The rifle association will take part as well as the 30th Field Battery. The object is to select teams for the league. There was found in the woods near Meadow Brook some days ago, a bag of clothing including a suit of men's clothes, some underwear and an overcoat. There were also several letters in the bag, one dated November 8th from a Mrs. Jackson to Mr. J. H. O'Brien. The affair is a mystery and steps are being taken to investigate.

MONTGTON CANADIAN CLUB IS ACTIVE

Heard Addresses by Chancellor Jones—Planning Another on Tidal Power Scheme.

MONTGTON, N. B., April 23.—Chancellor Jones, of the U. N. B., addressed the Montgton Canadian club this evening on the resources of New Brunswick giving a very comprehensive outline of the natural resources of the province and speaking of its possibilities as a manufacturing centre. Engineer Waller, Superintendent of the Welland Canal, who is one of the promoters of the Funtay Tidal Co., which is asking parliament for authority to harness the Pettocodiac River for electrical power purposes has consented to address the Montgton Canadian Club in reference to the project, and will probably be here about May 15th.

USES BABY'S OWN TABLETS ONLY.

Mrs. Wm. Bell, Falkland, B. C., says: "I have five little ones, ranging from one to eleven years of age, and when any of them are ailing I always give them Baby's Own Tablets, which always brings prompt relief. I do not think there is anything you can keep in the house as good as Baby's Own Tablets." Thousands of other mothers speak just as warmly of this medicine, which never fails to cure all stomach, bowel and teething troubles. Guaranteed by a government analyst to be perfect—by sale. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

DISPUTE OVER POWER TO ARREST MISS KINRADE

HAMILTON, Ont., April 24.—The question of the attendance of Florence Kinrade at the Inquest is the one topic of conversation. Lawyer Staunton claims that the warrant of the coroner to arrest her is not good outside of the county in which he has jurisdiction. Coroner McMahon, of Montreal, says that the Dominion law provides that a warrant for service outside one district is made good by being marked O. K. by the coroner of the district in which the witness is. He says that this has been settled in that case, and that if the Toronto coroner O. K.'s the warrant it is an order on every constable in the district to arrest the witness.

NEW MAYOR STARTS WORK IN VIGOROUS FASHION

CHATHAM, N. B., April 24.—Mayor-elect Snowball is beginning his new term of office in an energetic fashion. Today gangs of men are at work on the streets cleaning and scraping and much improving their condition. The ice started running from Chatham this morning at ten o'clock and is expected that the river will be cleared by Monday. Off Douglastown the ice is still holding but is very weak. Last year the ice ran on April 25.

GRAVESTONES AS DESKS.

A meeting of the heritors was to have been held in a parish church in Scotland the other week, but by some mistake arrangements had not been made to open the church doors. The meeting was therefore held in the Kirk-yard, the chairman, Mr. Munro-Ferguson, M. P., utilizing a gravestone as the chair, while another tombstone served as the clerk's desk.

SURVEY PARTY MAY BE LOST IN THE WILDS

WINNIPEG, Man., April 24.—Number four party of the Hudson's Bay survey is believed to have been lost in the wilds or to have been overtaken by the spring break up before they were able to make civilization. Nothing has been heard from them for a considerable time, and it is not likely they will now be able to get in until June, as they will have to come all the way by water.

JAS. F. BOYLE AND WIFE INDICTED FOR KIDNAPPING

MERCER, Pa., April 23.—Indictments were returned here tonight by the Mercer grand jury against James F. Boyle and his wife in connection with the abduction of Willie Whittle, of Sharon, Pa., which occurred on March 18. A true bill was found against Boyle charging kidnaping. The maximum sentence is life imprisonment. In the case of the woman, the same bill was also returned with an extra count charging her with aiding, assisting and abetting the in the kidnaping. The trial of the abductors will begin next Friday. The grand jury also reported that Sheriff Chess had been instructed by them to place Boyle in a burglar-proof cell because of a recent attempt to liberate him by parties on the outside.

TRENTON, N. J., April 23.—Mrs. Elsie Cornell Vincor's desire for romance got a severe blow today, when her husband, whom she married last Friday after a five days' courtship, was thrown into jail for attempting to dump his board bill in a local hotel.

Mrs. Vincor, who was Miss Elsie Dismore Cornell, is a member of a prominent Trenton family, and is considered a beauty. The announcement of her wedding created a surprise here, but her husband's arrest was a shock to her friends.

The husband, Sidney Vincor, alias Professor Everson Hypnotist, says he appeared before crowned heads of

INCAS' LOST CITY
EXPLORED AT LAST

Dr. Hiram Bingham Returns
From Peruvian Andes.

Perilous Journey Takes Yale Lecturer Over
a Suspension Bridge That is Made
of Four Telegraph Wires.

Details of the first exploration of the lost "City of the Incas" by others than Peruvians were brought to New York yesterday by Dr. Hiram Bingham, lecturer on Latin-American history at Yale University, an authority on the history of the South American continent. He arrived on the Prinz August Wilhelm, of the Hamburg-American line's Atlas service.

Dr. Bingham in a trip across South America, completed only a few weeks ago, was the first foreigner to reach Choquequirua, which until a few months ago no man, according to legend, had seen in 400 years. He traveled 1,000 miles on muleback and made a side trip to Yalparaiso, where he attended the first Pan-American scientific congress as a representative of the United States and of Yale.

The name "Choquequirua" means "walled of gold," said Dr. Bingham, and the legend says that it was the place where the rulers of the Incas hid their treasures when they fled from the Spaniards in the time of Cortes. They formed a company down there last week which was digging for buried treasures.

To get there required a week's hard travel from Cuzco, the ancient capital of the Inca empire. Most of the time was being spent on the side of a mountain almost by our eyes. We had to descend into a valley 6,000 feet deep, cross an otherwise impassible river by a suspension bridge made of four telegraph wires, wade through a jungle for sixteen miles, and then climb up 4,000 feet.

Choquequirua has an elevation of about 13,000 feet. It is believed that the place was a fort built by the Incas to protect themselves against attacks of the Amazonian Indians. I found traces of fortifications, made measurements, excavated graves and found many interesting relics. The buildings are made not of the finely wrought stones of the Incas in Cuzco, but of roughly hewn stone, cemented together, and the interiors in some cases are plastered. The houses are not unlike in appearance to some of New England, a story and a half high with a gable on one end.

The old water works remain, and several reservoirs are in good condition. There are three groups of buildings besides the fortifications, and on three sides of the place are steep precipices.

COLONEL ROOSEVELT
UNDER CANVAS NOW

KAPITI PLAINS British East Africa, April 23.—Theodore Roosevelt has reached the hunting grounds, and tonight he will spend his first night in Africa under canvas. A big camp has been established near the railroad station here for the Roosevelt expedition and the night house next prevailing about in the vicinity of the tents. The country is green, owing to the recent rains, and there is every prospect of good sport. The commoner varieties of game are plentiful and the huntmen will lose no time in getting started on their shooting trips.

The special train bearing the Roosevelt party from Mombasa arrived here at half-past one o'clock this afternoon. Only the members of the party got out at Kapiti Plains. F. L. Jackson, the governor of the protectorate, and the other officials who came up from Mombasa continued on to Nairobi.

The camp established for the former president of the United States is most elaborate. The caravan will have a total of 300 followers. There are 15 teams of the Europeans and their horses and sixty tents for their followers. An American flag is flying over the tent to be occupied by Mr. Roosevelt. All the native porters of the expedition were lined up on the platform when the Roosevelt special pulled in, and as Mr. Roosevelt stepped down from the train they shouted a salute in his honor. Mr. Roosevelt raised his hat.

Mr. Roosevelt was welcomed at the station by Sir Alfred Pease, who will be his host at his ranch on the Athi River. Mr. Roosevelt is dressed today in a khaki suit and a white helmet. The weather is bright and warm.

LIVELY DEBATE

There was a large attendance at the debate in the Y. M. C. A. last evening and interest was maintained until the end. The chair was occupied by J. G. McKinnon. The subject of the debate was a rather interesting one to men. It was as follows: Resolved, that a girl with a common school education makes a better wife than a college bred girl. The arguments put forward by both sides were strong, but the supporters of the affirmative slightly surpassed their opponents and were awarded the decision of the judges.

Willis Jones was the leader of the affirmative side and was supported by Masters Smith, Hall, and Simms. Leslie Craighead for the negative side was supported by Masters Short, Sincely, and Slocum.

The judge acquitted themselves most creditably and were given a good reception. One of the convincing points in the arguments of the winning side was the fact that in the common schools in the city today the girl is taught to meet the requirements of home life. The domestic science department taught many of the essential duties. On the other hand it was contended that the college bred girl would not suit the man of ordinary circumstances. She would interfere with the other girls of the college, chiefly from wealthy homes. In time she might become a heavy spender and the husband would find it difficult to support her.

J. N. Harvey and Ald. Pickett were the judges. Rev. George Titus acted as critic and made a splendid review of the arguments of each side. The judge declared that it was no easy task to pick a winner, but on account of the superiority in delivery of the supporting side the affirmative decision, as stated above, was awarded to them.

WARRANT OUT
FOR FLORENCE

HAMILTON, Ont., April 23.—A bench warrant for the arrest of Miss Florence Kinrade was issued by Coroner James Anderson tonight. The instrument was placed in the hands of Detective Miller for service and will be executed tomorrow morning. This action was taken as the result of the application of Geo. Tate Blackstock, K. C., leading counsel for the crown in the Kinrade murder case. Florence Kinrade has already twice been on the witness stand. At the close of her last examination she collapsed. Counsel at the time indicated that her recall might be necessary and it was anticipated that during the long interval between sessions her health would have considerably improved. Miss Kinrade was, therefore, summoned to appear at the resumed inquest Thursday night together with her mother. They failed to do so and a fresh subpoena was issued and served upon them this morning in Toronto by Detective Miller.

Tonight she again failed to recognize the authority of the coroner and Blackstock applied for a bench warrant for Florence's arrest, also asking adjournment of the inquest until Monday. C. Lynch Staunton, K. C., opposed the application in both respects. He stated that Miss Kinrade was acting under the advice and that the authority of the coroner had been exhausted. Staunton stated that Miss Kinrade would assist the action of the coroner and asked for longer adjournment that the matter might be dealt with by the courts. He resented what he termed an intimation that he had not acted in good faith and advised the coroner not to be hectoring into exceeding his authority.

Staunton's remark drew a rebuke from Coroner Anderson, and as already stated, a warrant was issued. Fresh subpoenas were issued for D. L. Kinrade and Mrs. Kinrade, and if they are not complied with it is understood the crown will ask warrants for them also. It is understood that upon the arrest of Florence Kinrade application will be immediately made to the courts for a writ of habeas corpus. In view of what had taken place no attempt was made tonight to place any witnesses in the box, although James Baum of Richmond, Va., who was brought to Hamilton by the crown, was in attendance.

WOMEN TO OPPOSE
"EXCLUSIVE" CARS

Equality League Members to
Talk Against Subway Plan

Mrs. Blach Declares Cars AVOIDED BY
Women Would Become Places for
Smoking and Spitting.

NEW YORK, April 24.—Revolt has broken out in the ranks of women in their crusade for separate cars on subway trains for their exclusive use. The Equality League of Self-Supporting Women, twenty-two thousand strong, informed the Public Service yesterday that they do not care for separate cars and fear such an innovation would do men more harm than it could do good for women.

Mrs. Harriet Stanton Blach is president of the organization and she will head the opposition at a hearing before the commission tomorrow afternoon on the feasibility of the plan. Charlotte Perkins Gilman has joined forces with the league and Mrs. J. Wells Wentworth, president of the Business Women's League of New York, also opposed to the plan, has been asked to speak.

Mrs. Longfellow, advocate of the separate car for women, announced she will attend the session with a delegation of several hundred women. "We have had experiences which lead us to believe that we will not be as well treated in separate cars as we are now," declared Mrs. Blach. "If men and women are separated, the men's cars will degenerate into smoking places for smoking and spitting, just like the men's cars on ferries. It is to save the better class of men from these conditions that we are opposing the separate car."

"Suppose there were a year-end collision. The cars full of women would be the first hit. Maybe there is supposed to be a touch of humor in M. W. generally are very indignant as a result of the action of members in asking the county council to appoint 25 constables which they allege were to prevent destruction of their property should a strike be called, and strongly censured the council for their action in appointing such officers."

They are confident that their members and non union men to the number of at least 3,000 would remain at work, and this number would probably be joined by several hundred other miners who would be returning to the collieries at the opening of the busy season. The U. M. W. men claim they have over 3,500 members. No effort as yet has been made by U. M. W. officials to interview General Manager Dougan, but it is possible that they will endeavor to see him early next week. Prominent coal officials state that it will be useless for Messrs. Bonfield or Patterson to make an effort to interview the company as they will be refused the privilege as before.

The company has not the slightest intention of conceding from their attitude towards the U. M. W. and are prepared to defend their policy in the dispute to the end. Apart from officials and men immediately concerned in the dispute, prominent business and professional men express the opinion that there will not be a strike. Before such contingency occurs the delegation representing the interests of the U. M. W. and the British flag, Nova Scotia generally will be appointed to wait upon the government at Ottawa, asking them to take such steps as they think necessary to avoid if possible a strike among miners of Cape Breton and Nova Scotia.

Tobacco Kills

FACE TO FACE WITH DEATH.

There's nothing that can be said in favor of the tobacco habit. It is positively dangerous. Nicotine is a deadly poison—winning the thousands of deaths from tobacco heart, tobacco cancer, from disease of stomach, liver, kidneys that had their start in tobacco.

"Easy-To-Quit" is a positive, absolute "stopper" for any tobacco habit. It is a vegetable remedy and any lady can give it secretly in food or drink. It is harmless, leaves no reaction on the habit, and it stops the habit to stay stopped.

Mothers, save the young smoker's brain, he cannot do it himself. Wives, sisters and sweethearts, help raze the mind, body and future of your loved one who is near and dear to you. Without your help it may not be done.

APPOINTMENT OF CONSTABLES
ADDS FUEL TO THE FLAMES

GLACE BAY, April 23.—There are no new developments in the labor situation here this evening. President of U. M. W., Daniel McDougall, left today for Springfield on business, the nature of which could not be learned. Messrs. Bonfield and Patterson, U. M. W. organizers, are absent from town tonight attending meetings of the locals at No. 4 and Kings, and could not be seen. Speaking to members of U. M. W. on the street this afternoon it was stated that the men of the U. M. CAR GOES OVER
BIG EXPO. OPENS

AN EMBANKMENT HERE LABOR DAY

Yesterday morning a freight car on the Harvey and Salisbury railway, loaded with hard wood, jumped the track and went over an embankment 10 feet deep, while three other freight cars also left the rails. The car loaded with wood was demolished and considerable damage done to the tracks. The passenger coach and mail car did not leave the rails. Their escape, however, was somewhat miraculous and many lives might have been lost.

The place where the accident occurred is near Turtle Creek, which is about eleven miles from Salisbury. A St. John man was among the passengers and states that had the train been going faster the mail and passenger coaches would have left the track.

It was about 9:30 o'clock when the twelve or more passengers became aware of the accident. Investigation showed that the track had given way to the heavy weight of the train. The accident was chiefly due to the condition of the road, which is badly in need of new rails.

The wreck occasioned but little delay to the passengers. They were taken to Moncton on the engine. The rails where the accident happened are twisted out of shape and traffic will be suspended while repairs are being made.

OTTAWA, Ont., April 23.—In the senate a bill was introduced respecting the Quebec and New Brunswick Railway Company, increasing the bonds from twenty to thirty-five thousand a file, extending the time and extending the authorized line from Connor Station to Centreville, thence to Woodstock, and by the St. John River valley to St. John.

WOULD RALLY TO
DEFENCE OF FLAG

French-Canadians, Says Mr. Arthur Deltelle, Would Take Arms for Britain in Real Danger.

MONTREAL, April 24.—Before a packed hall of the Letteleur Club, Mr. Arthur Deltelle, ex-M. P. for Portneuf County, and Mr. Joseph Contant, ex-president of the Chambre de Commerce, reviewed the work of the Liberal party at Ottawa, since the advent of the Liberal party at the left of the speaker. Briefly, but severely, the orator dealt on the Conservative party scandals that brought its downfall in 1896, and of the hopes, now fulfilled, that the whole country entertained when the Liberals were entrusted with the conduct of the Dominion affairs.

The speaker then entered upon a straight defence of the Liberal party in making the statement that there was not a French-Canadian in the country that would not come to the defence of the British flag if they realized that British liberty was really in danger. The French-Canadians, he said, owed liberty to the British flag, and the one who would doubt the sincerity of this loyalty did not know what he was talking about.

Mr. Deltelle then entered into an elaborate defence of the course taken by Hon. L. P. Brodeur in dealing severely with the officials of his department, who had been found unfaithful to their trust. The Minister of Marine, he said, had emerged from all the trouble the Opposition had made for him, a more popular man than ever before.

Mr. Contant congratulated the members of the Letteleur Club for their faith in the Liberal party, and was happy to say that at an hour's notice, this stalwart and oldest politician of the province was always ready to enter into a fight for the rights and cause of the Liberal party.

of the Dominion in addition to hundreds of Americans. The Dominion Exhibition will open on Labor day, 1909, and will continue ten days. President Skinner and the manager intend to arrange for some of the most phenomenal acts ever presented to an audience here.

Dr. Furnival's reply, after a glowing panegyric on the merits of the applicant, wound up by congratulating the company as getting, as a tenant a man who was not only a gentleman and a good fellow, but a member of the Browning society.

OTTAWA, April 23.—Sir Wilfrid Laurier has given notice of a promised bill to create a separate department of Labor. The bill provides for a salary of \$7,000 for the Minister of Department, for additional clerk in department at \$1,000 per year for an extra \$500 for private secretary to the minister.

SAILOR FOUND
DEAD IN BERTH

After partaking of a hearty breakfast yesterday, Dennis O'Brien retired to his berth on the government steamer Lansdowne and shortly afterwards was discovered dead by other members of the steamer. The death, which came with such awful suddenness, is the result of heart failure.

Mr. O'Brien had been in the General Public Hospital for treatment, but was discharged about a month ago. He was employed, as an officer on the Lansdowne. The steamer was cruising around Quico when the man was discovered dead. The captain and crew were horror stricken, as Mr. O'Brien had been about as usual only a short time previous.

Bearing corpse the steamer was headed for the city. Upon arrival here, P. Fitzpatrick took charge of the remains. Deceased was in his forty-fourth year, but was especially active. He is well known and a brother of James O'Brien of Pond street.

Coroner Berryman informed the Sun last evening that the death was entirely due to natural causes, so an inquest would not be necessary. The funeral has been arranged to take place on Sunday afternoon from the brother's residence, Fund street. Much sympathy will be extended to James O'Brien in the sad loss of his brother.

QUEER QUALIFICATION.

The enthusiasm of the thoroughgoing lover of Browning takes some surprising turns. The author of "In a Tuscany Garden" tells of a story concerning Dr. Furnival, one of the founders of the Browning society.

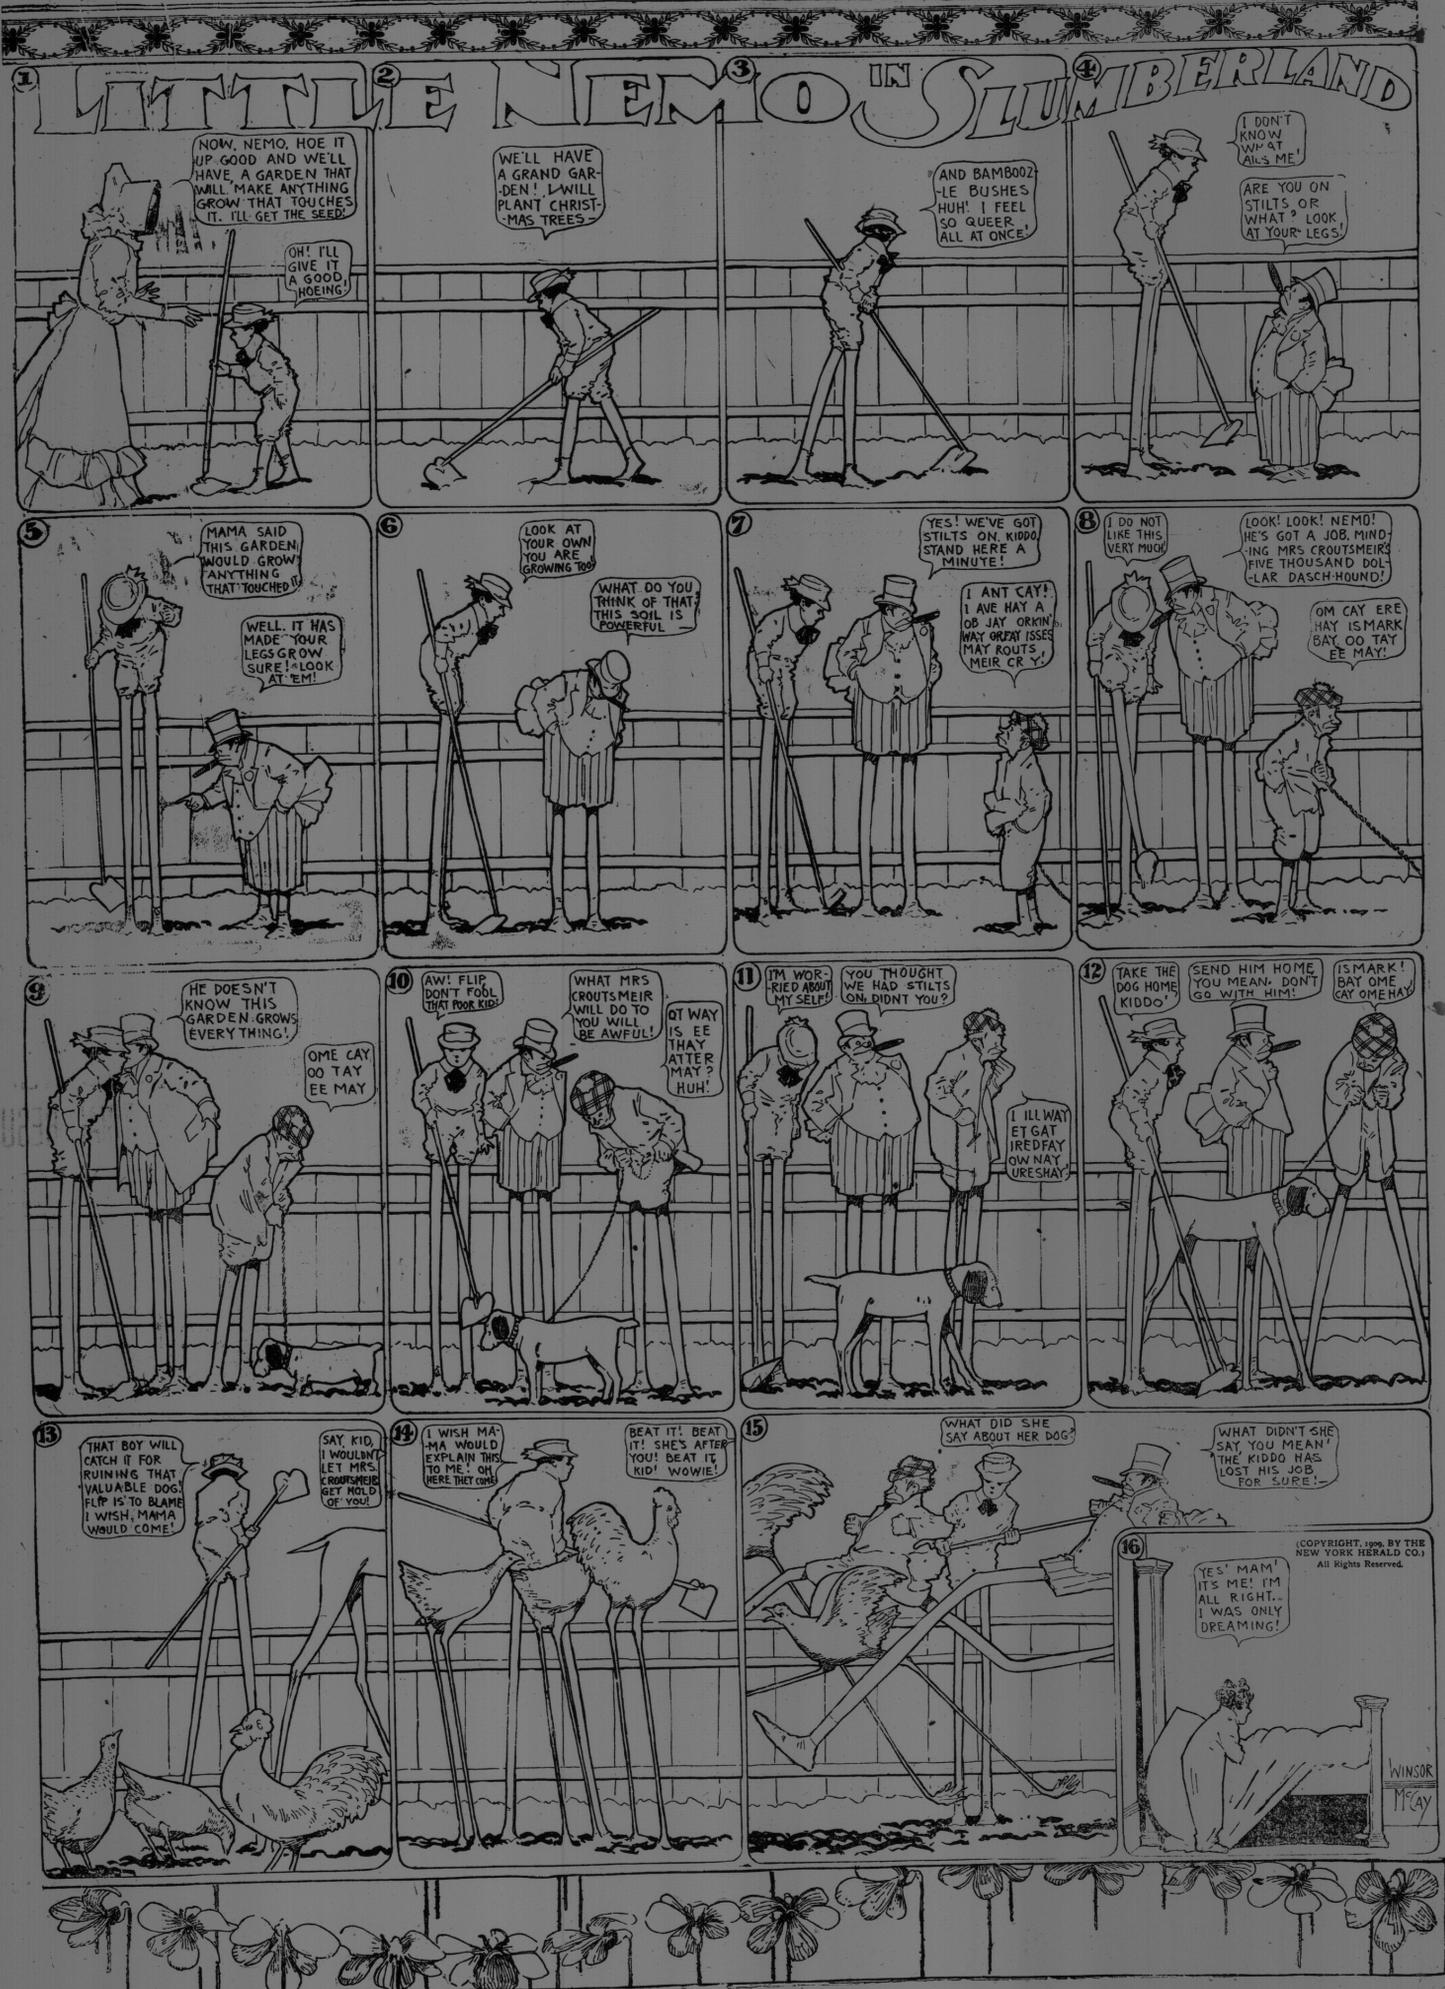

A young relative of the Englishman in London was looking out at one time for bachelor chambers in a block of flats. The secretary of the company to whom he belonged intimated that the testimony of two householders as to his rent paying capacity would be required. The applicant gave the Englishman's name as one and Dr. Furnival for the other.

Dr. Furnival's reply, after a glowing panegyric on the merits of the applicant, wound up by congratulating the company as getting, as a tenant a man who was not only a gentleman and a good fellow, but a member of the Browning society.

ELMINA'S LIVING OUT

By ELSIE E. MASTER.

"Elmina, hurry yourself. It is five o'clock, already." "All right, Mom, I'm coming." "Remember it is baking day, Elmina."

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this. As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Gardiner, Maine.—"I was a great sufferer from a female disease and weakness. The doctor said I would have to go to the hospital for an operation but I could not bear to think of it."

So, West Harbor, Me.—"I suffered for years with painful periods, backache, headaches, nervousness, irregularities and inflammation. I consulted two physicians and one advised me to have an operation."

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine.

"Elmina Fatsinger. Are you, then, going to work in a hotel?" "No. It is only four people in the family."

"I have lived many years in this world, and I have never heard from such a place."

"It is something wrong at places where so much money is paid," she said to herself.

"I have swept the pavement and the kitchen floor, and I have washed the dishes, and I have washed the clothes, and I have washed the beds."

"I don't know what you told me," answered Elmina, suddenly. "I baked the rusk, and swept, and cooked breakfast."

"Well, you can bake the rusk cakes while I work some more in the garden. Only don't burn it."

"Elmina, don't respond, and the meal was finished in silence."

"Now, Elmina," began her mother as she took the last bite of a piece of pie, "you must hurry red on the table."

"The eyes of the two ladies met. There were some things which the new maid would have to learn."

"When she reached the dining room Mrs. Alexander paused, and her hand went out as though for support."

"I put my place at this end so I could run easy out," she explained smilingly.

"Elmina's eyes took in at a glance the turned-down plates, the crossed knives and forks. Then they returned to pretty Elmina."

"I don't like to eat in the kitchen," Elmina said to herself. "I don't like to eat in the kitchen."

Self-Tone Trimming New Rules the Fashion World

THE rule for all shoppers: Do not buy material for Gown or wrap without first ascertaining that you can match it perfectly in trimmings and findings. Take a sample of the cloth or silk, and go from trimming counter to trimming counter until you are absolutely sure that your trimming will be a perfect match.

For instance I saw a lovely little frock at a reception the other afternoon, which any home dressmaker could copy in a variety of colorings. The material was a golden-brown crepe with high satin finish. The general cut was Empire, but without the surplus effect. The square yoke was of golden brown net exactly matching the crepe. HINTS FOR THE HOUSEWIFE

Cleaning Gold Beads—Gold beads and other gilt trimmings may be freshened by sitting over the beads in a powdered bluing and bread crumbs. After sitting it over the beads take a firm brush and rub gently with a piece of old flannel and rub gently yet firmly. Then brush out all the crumbs and rub with a piece of white cloth. This method will also clean gold lace.

Many Sorts of Skins and How to Treat Them

NOT so many days ago, I had the satisfaction of averting what might be termed a "compulsion tragedy." A busy woman on my list of acquaintances has been worrying over the appearance of certain freckles on her face. These are due largely to the fact that she allows herself too much time for domestic worry and social excitement and too little for sleeping and hygienic living.

AN UNBREAKABLE SET OF TEETH

There is a class of patients who do not object to paying a fair price for artificial teeth, if they can really secure comfort, usefulness and naturalness.

I have a set of teeth, such as is unobtainable in any other office in this city, to my knowledge. It is out of the ordinary line and unlike the teeth in general use. Its beauty is at once apparent and it is practically unbreakable.

It will pay those who are desirous of obtaining the best to be had in the dental line to call and inspect this for themselves. I will gladly demonstrate its superiority over other plates, even if you have no immediate intention of investing.
