

### LLOYD GEORGE SEES END OF IRISH FIGHT

"We Have Murder by the Throat" He Tells Audience at Lord Mayor's Inaugural.

### MANY READY TO ACCEPT HIS OFFER

Satisfied, Too, With Way Germany is Paying Off Her War Debt to Allies.

London, Nov. 9.—Mr. David Lloyd George in his address at the Lord Mayor's banquet at the Guildhall tonight discussed briefly and pointedly various problems with which the government is dealing.

With regard to Germany, he declared himself personally pleased with the proposals of that country for the liquidation of her obligations.

Referring to questions between Germany and the Allies, Mr. Lloyd George said that the real test of German sincerity was disarmament and he added, "the report I have to give on that subject is very satisfactory."

"The German army is rapidly being reduced to 100,000. There are still too many rifles at large in Germany, but they are a greater menace to Germany's internal peace than to Germany's neighbors."

Another important point, said the premier, was reparations. Germany is prepared to submit certain proposals for the liquidation of her obligations.

Speaking of the Irish situation, the premier said: "Unless I am mistaken, by the steps we have taken we have made the situation in Ireland more peaceful than it has been for many years."

## Training For The Match With Beckett

Frank Moran Has Arrived in England - Will Fight on December 10 in London.

By MAURICE LEWIS. Copyright, 1920, by Cross-Atlantic London, Nov. 9.—Frank Moran has arrived in England looking in good condition and is training for his match with Joe Beckett, on December 10 at the Royal Albert Hall, London. He predicts that it will be a heavy fight with plenty of action and hard blows. The proposed match between champion Jimmy Wilde and Jack Sharkey, has been practically all fixed up now, and will probably take place at the Albert Hall some time during the second week in January next. Ted "Kid" Lewis is also billed for a contest there shortly. On November 19 he will meet Johnny Baham in a return match. When they meet last Baham put up a fine show of skill and boxing, for he is one of the polished boxers of the Welsh School, but Lewis, by his forceful aggression, punished him severely. Early in the contest, an artery in Baham's lower lip was cut by one of his teeth and the blood could not be stanching, so his seconds seeing that his strength was ebbing threw in the towel.

At the opening night of the National Sporting Club, two of our second line heavyweights met, Victor McGeeney (late Captain), the son of a Bishop, and Arthur Townsley, who received such a fearful beating during the hands of Fred Patton when he visited this country. The fight was of the scrambling order, but in the seventh round, Townsley showed a flash of his old form, and feinting cleverly, smashed in a right-hand half hook and got his huge opponent down for the count. There is an attempt on this side to tighten up the control of boxing somewhat along the lines adopted by the New York State Board of Boxing Control. The American method of endorsing boxing contracts is desired here, and it is believed that the British Board will follow suit. This would be to the good, for in a method adopted for control of boxing in all boxing countries is the same, there is a greater chance of our achieving early genuine and executive international control of the sport, for the game's own good.

## ARMISTICE SERVICE AT TRINITY CHURCH

Mayor and Commissioners Will Attend in Their Official Capacity.

The mayor and commissioners will attend in their official capacities a memorial to be held in Trinity Church tomorrow afternoon, Armistice Day. A short address will be delivered by the pastor, the Rev. R. A. Armstrong.

## AWARDED DAMAGES TO THE PLAINTIFF

In the County Court yesterday the case of James O. Young vs. Priscilla Earle and Charles E. Connell was heard before Judge Armstrong. This claim arose out of damages suffered by the plaintiff as the result of an automobile collision on June 28th last at corner of Germain and King Sts. The jury awarded damages to the plaintiff of \$32.37. J. Stearns acted for the plaintiff and K. A. Wilson for the defendants.

MANY IN ATTENDANCE. The Cathedral Bazaar at the Y. M. C. continues to be a success, and the numbers who attended last night were in excess of any on previous occasions. The bazaar will continue this week. Ticket number 2061 was the winner of the door prize, while at the flower booth a five pound box of chocolates was awarded to the holder of ticket No. 92. The prize at the fancy booth, which was an embroidered centre-piece, was won by Mr. Geo. Flood.

Big attraction at Cathedral Bazaar tonight. The Nancy Booth—the good place to buy Christmas presents. Don't miss this opportunity to buy your Christmas gifts at bargain prices. There are also many other attractions. Admission ten cents. Door prize.

## AUTOMOBILE DAMAGED

## WILLS AND ESTATES

Thomas Birkett. Ottawa, Nov. 9.—A total estate of nearly half a million dollars, all of which is to be distributed among members of his family and relatives was left by the late Mr. Thomas Birkett, well-known Ottawa merchant, who died on October 21 last. Application for the probate of the will was made at the court house today. The total of the estate is shown as being \$468,878. Henrietta Birkett, widow of his son, Thomas M. Birkett, and his granddaughter, Vera M. D. Birkett, are the principal beneficiaries under the will.

A. Paul Keith. New York, Nov. 9.—The estate of A.

## Acadia Defeated Mount Allison

Score at Wolfville Was 6 to 3—Decided Western Division Championship.

Special to The Standard. Wolfville, Nov. 9.—The college campus was crowded here today to watch the old rivals—Acadia and Mt. Allison—play the game which decided the championship of the Western Division of the Intercollegiate football league. The game ended 6 to 3 in favor of Acadia. First the ball was in Acadia territory and then it was back by the Mt. Allison 25 yard line. Near the end of the first period one of the Mt. Allison men, Ferguson, went over the line right between the goal posts and though the Acadia men were on his heels managed to ground the ball. This seemed to stiffen Acadia men's game, and early in the second period Wetmore touched the ball down after it had been kicked over by Parker went wild. Acadia's second touch was scored by Robinson who tried a tricky buck through the crowd of players near the Mount Allison line and got the ball over. Although this was the harder kick, Parker very nearly made a goal of it. The ball was rushed back near the 50 yard line then down to the Mt. Allison touch line, and Acadia very early scored again.

Players injured. Mile of Mt. Allison, and Longley of Acadia were both so badly hurt that substitutes had to be put in their places. Just after the second period started Mills ran into an Acadia man and had three teeth knocked out. Longley was hit on the head by a punted ball and was unconscious for about five minutes. Mills and Ferguson played good tackling games and the speedy rushes of Angvine and A. E. Ferguson were the feature of the game for the home team. Wetmore, Wigmore and Fleming showed up well in the scrimmaging and tackling. Robinson, Clarke and Porter used their speed and their heads to good advantage, and Parker's game at full was characterized by his usual coolness and his slung punts to touch.

The Line-up. The line-up was as follows: Mount Allison. Full Back—Peacock. Halves—A. E. Ferguson, Clark, Line—H. Elliott. Quarterbacks—Ferguson (Captain), Angvine, P. Elliott. Forwards—Taylor, Fleming, Myers, Prince, Churchill, Ashford, Mills, Campbell. Acadia. Full Back—Parker. Halves—Porter, Clarke, Beardley, Anthony. Quarterbacks—Fraser, Corey, Robinson. Forwards—McLean, Wetmore, Atkinson (Captain), Fleming, Wigmore, Longley, Eaton, Fleming. Wigmore and Robinson are St. John men. Len Buckley, the popular Y. M. C. A. man referred the game to the entire satisfaction of both sides.

Minor Leagues In Convention. Kansas City, Nov. 9.—The minor league baseball leagues of the country, in convention here, today were urged by President Ben Johnson of the American League to follow a "stand off" policy in the baseball war and to take no action that would be partisan to either side. President Johnson, here for the announced purpose of preventing the minors from joining with the new National League in the Lasker plan of reorganization addressed the convention this afternoon.

## Political Shake-Up

The political shakeup in the National Association of minor leagues which it was rumored was being engineered by the faction said to be favorable to President Johnson in the baseball war, failed to materialize. John St. Farrell, was re-elected secretary for ten years and Mike Sexton of Rock Island was re-elected president but will not accept or reject the office until tomorrow.

Efforts were made to have Sexton replace Farrell as secretary, the chief officer, but not enough votes were mustered. It is planned, however, to give Sexton a salary of \$5,000 a year. Heretofore he served without compensation.

## MIKE DALEY, NOTED HORSE TRAINER, DEAD

Baltimore, Nov. 8.—Mike Daley, noted trainer of race horses, died here Saturday at John Hopkins' Hospital, of typhoid pneumonia. While engaged in training thoroughbreds in Canada he contracted a severe cold which developed into pneumonia.

Paul Keith, theatrical man, who died in Boston in October, 1915, was valued at \$2,063,151 in an appraisal of the estate filed here today. The sum of \$25,000 was left to the 1961 Harvard Class Fund to be paid on its twenty-fifth anniversary. Bequests were made to 42 beneficiaries, including relatives, friends and employees, of more than \$150,000 and nearly 600 shares of stock in theatres in St. John, N. B., New York, Philadelphia, Montreal, Manchester, St. E. Lewiston and Bangor, Maine.

## Finishing Touches On Golfing Season

Next Golf if Any Will be on 'Frozen' Ground—Clubs Planning Improvements.

The late rains have about put finishing touches on golfing for this season. It is doubtful if the weather will moderate enough now to give the courses a thorough drying. The next golf, if any is to be played before the ground is covered with snow, will doubtless be enjoyed on frozen turf, but the quality of that game is most uncertain. In some American places winter golf has been played by red balls, but the sport was purely a freak kind, a novelty. The Riverside Golf and Country Club and the Westfield Country Club are planning radical improvements and extensions in their courses. The Westfield Club has already made steps to enlarge its course of five holes used this season to the regulation nine. An adjoining farm has been purchased. The Riverside Club is enlarging to eighteen holes. Both organizations anticipate great golfing activity next season.

## Carpenter And Dempsey Battle

Champions Met on Golf Course But They Made No Records There!

Jack Dempsey and his rival for the world's championship, Georges Carpentier, have had their first battle. It wasn't in a ring and they didn't wear gloves. They went at it barehanded in a field with clubs. Neither one is a star golf player, but their appearance on the links of a country club on a recent Sunday drew almost as big a gallery as Ted Ray or Harry Vardon could have brought out. It was no decision battle. They did not keep score, not having sufficient paper on hand. Golf critics admitted that as golf players they were both expert fighters. Some hope was extended for their future. Dempsey walloped an even dozen balls into a faraway woods and Carpentier lost 10. The conversation of the two champions cannot be given in words. Dempsey speaks no more French than Carpentier speaks English. The dialogue was all a matter of the sign language. However, Dempsey knew enough to say "bon" when Georges made a terrific shot and Carpentier gave him back. "Zat eet fine!" The champ rooted up the turf like a steam shovel.

## No Power To Hold Players

Opinion Given by Alfred Austrian, Attorney for Two Chicago Major Clubs.

Chicago, Nov. 9.—The American League has no power to hold the players on the three clubs which have joined the new National League and every man on those clubs can play on the new organization next year, according to an opinion by Alfred Austrian, attorney for the two Chicago major league clubs and advisor in the drafting of the Lasker plan for reorganization of the game. Austrian's Opinion. Mr. Austrian's opinion was rendered in response to statements from representatives of the five clubs which are backing Ban Johnson in the baseball war that the league owned by all its players and that the Chicago White Sox, New York Yankees and Boston Red Sox clubs consequently could "take only their ball parks into the new league." "We expect 'bitter court battles,' said one club owner, "but we have proceeded carefully and have no doubt as to the outcome. The new league is composed of the money-making clubs and they are ready to spend every cent necessary to win." This club owner pointed out that if necessary the Chicago, New York and Boston clubs could put teams of amateurs in the field as their representatives in the American League if they so desired.

## Mathewson Is Recovering

New York, Nov. 9.—A despatch received here from Saranac Lake declares that Christy Mathewson, former star major league, is recovering from his illness.

After more than a year's fight against tuberculosis which set in while the diamond favorite was with the United States Army in France, he is making progress toward health and physicians now declare there is a good chance of his full recovery.

## AUSTRIA TO GIVE ITALY VALUABLE ART TREASURES

Secret Treaty Yields Much More Than Provided by the Treaty of Versailles.

Vienna, Nov. 8.—The government here has refused to make public the secret agreement by which Dr. Karl Renner, then Chancellor, agreed to give to Italy many valuable works of art, manuscripts and historical relics not provided for in the treaty of St. Germain, despite demands by art associations in influential quarters for that information. The history of the matter is interesting and The Associated Press has been able to learn from authoritative sources some of its details. While the guarded admissions of the government generally are phrased in the future tense as to the delivery of these articles, as a matter of fact, that are all understood to have been in Italian possession.

Found in Vienna. Their seizure began when the Italian Armistice commission, under General Segre, first arrived in Vienna in February of last year, the contention of the commissioners being that under the treaty of the war of 1866 these treasures should long since have been delivered. Among the articles taken by General Segre were the famous tapestries of Monsu and as regards them the Austrians conceded title and assisted in their delivery.

Then began the removal of pictures from the Hofmuseum and Academy of Fine Arts which had been brought to Vienna in 1815 and 1816. They had been stored in a church in Venice, having been collected from many churches in the Venetian territory. It was done by order of Francis I, then sovereign of Venice which was at that time a part of the Austrian Empire. The Austrians bring forward a supplementary treaty to that of 1866 regarding these objects, intended to clarify title. They render this clause as follows: "Austria will keep (gardens) the pictures exported in 1838 which his majesty the Emperor of Austria gave to the Academy of Fine Arts in Vienna and to other galleries in the empire."

Where Argument Lies. It is around the word "gardens" the Italians center their argument for possession, contending it means "take in custody" or "for safe keeping" and not seizure or gift. The Austrians say they have documents in the state archives to show that in return the Emperor gave to Italy pictures of value to them in controversy, among them being the priceless collection Manfrin and Boschi.

The Italians also took from the National Library or other places additional treasures such as autographs, musical books, and three manuscripts worth several millions of dollars, one of which, "The Genesis of Venice," is said to be the most valuable late Roman manuscript in existence. With all these objects safe in Italy, when the Peace Conference began in Paris the Italians advanced further claims for works of art from Austria, demanding the pick of pictures from the National Gallery in Vienna and various other museums and statues made in Italy or that ever were in Italy. The objects thus covered were estimated to be worth about 4,000,000,000 francs.

Claims Are Rejected. Their claims were rejected, however, by the Conference and then began the Italian effort to effect a special treaty with Austria to obtain her end. The negotiations proceeded until this spring when Dr. Renner finally signed it on the occasion of his Italian visit. Under its terms General Segre's seizures are legalized and a large number of valuable objects are ceded in addition.

The most important are the Bestiary of Cardinal Bessarione and the Cross of St. Theodore. The first named is a remarkable specimen of the Venetian gothic goldsmithing of the 15th century and the other, a unique relic, is a gold and silver work of art of the 14th century. The whole of the collection Duke de Este collection is included.

What Italy Gives. In return Italy renounces her claims to certain objects of more or less value among them the coronation garments of the old German emperors. Finally Italy promises her help to save the Austrian collections from the claims of other powers under article 196 of the treaty of St. Germain.

## SUGAR CLOSED AT 40 POINTS AFTER EARLY STRENGTH

Papers Made a Slight Net Gain at Montreal But General Market Was Flat.

Montreal, Nov. 9.—The most active trading in the local stock exchange since the first week in August was centered today mostly in sugar. Abitibi, Brompton, the Spanish issues, Laurentide, Breweries and Quebec Railway. The paper group of these, except Spanish, showed a net advance at the end of trading. Quebec Railway held its ground. Breweries was off a large fraction, and Sugar was down 6 1/2 points.

Outside of the papers gains were netted in power. Lake of the Woods, Canadian Cottons, Shawinigan and U. S. Bank, and Asbestos Preferred, Brazilian, Fishing, Steamship preferred, Detroit and Dominion Steel preferred, finished unchanged.

The largest losses were scored by St. Lawrence Flour, down four points; Ogilvie, which lost 13 points following a decline of 4 yesterday; Riorion 1 1/2 and Textile 3/4.

### Some Short Covering.

During the early and intermediate sessions there were indications of short covering in the more representative rails and oils, but industrial and speculative new with no support, even at pronounced concessions.

### Other Prominently Weaker Stocks

Other prominently weaker stocks were Asbestos, Cement, Smelters, Glass, down 1 to 2 points each.

## SELLING WAVES SEND SECURITIES TO RECORD LOWS

Feverish and Unsettled Wall Street Prices Marked Rapid Day's Trading.

New York, Nov. 9.—The stock market was again very feverish and unsettled today, with many additions to the already impressive list of low records for the year, while United States Steel, long recognized leader, fell to 32 1/4, its minimum quotation since 1917.

Liquidation was at its height in the final hour, transactions for that period aggregating almost 400,000 shares to the already heavy volume of the day.

## GOSSIP AROUND THE MARKETS

The 21st annual general meeting of shareholders of the Royal Trust Company was held at Montreal today and a satisfactory year with continued growth in the business was reported.

Announcement is made at Ottawa that arrangements have been completed for the winding up of the Government of the wiping out of Britain's debt of \$150,000,000 to Canada within the next year and a half.

It is learned at Montreal that the Canadian Export Paper Co. have until December 1st to decide prices of newsprint for first quarter of 1921 and that no announcement is likely before that date.

### ALBERTA'S COAL PRODUCTION UP

Edmonton, Alta., Nov. 9.—Alberta's coal production for 1920 will be thirty per cent in excess of last year's, it is now estimated by the government mines branch. A total output of well over 6,000,000 tons is expected by the end of the year, as compared with 4,023,413 tons in 1919.

### SYDNEY MINERS GOT LAST CENT

Sydney, N. S., Nov. 9.—While the provisions of the agreement are not entirely satisfactory we believe that we have wrung the last cent from the operators that was to be had without entering a strike, the results of which would have been exceedingly problematic.

### SUGAR 6 1/2 CENTS

New York, Nov. 9.—Raw sugar dropped 1 1/2 cents a pound, a new low for the season, in the sugar market here today. The price reflects heavy slackening in demand, and is a loss of more than 17 cents from the highest of the season's quotations last May.

## CLOTHING PRICES CUT FAR BELOW PRESENT WHOLESALE OFFERS

Shirts to One-Third Rate of Three Months Ago and Suits at \$16.50.

Chicago, Nov. 9.—Men's clothing for immediate delivery was offered buyers today at prices ten to fifty per cent below present wholesale prices. Goods for spring and summer delivery were shown at prices 10 to 33 1/2 per cent under those of a year ago, and men's shirts and similar articles were shown at greatly reduced prices at the opening of the 12th semi-annual buying convention of the U. S. National Clothiers.

### Public Not Buying

"The public is not buying, manufacturers and dealers are overstocked," said W. J. Mohr, treasurer and general manager of the association, today. "The prices must come down. We have passed the peak in high prices and will be considerably cheaper from now on, the retailer can afford to sell at less for his costs are becoming lower."

## WESTERN FLOUR DROPS BELOW \$10 MARK AGAIN

To Lower Bread One Cent Will Take Fall of \$2.20 Per Barrel.

Minneapolis, Minn., Nov. 9.—For the first time in almost four years flour sold under the \$10 a barrel mark, at the mills here today. Quotations on family patents broke 35 to 75 cents today, making today's range of prices \$9.65 to \$10 a barrel.

### Down at Calgary

Calgary, Alta., Nov. 9.—Flour was reduced 9 cents a barrel in Calgary Tuesday morning. Some of the bakers state that the reduction of 30 cents a barrel only represents about one-fifth of a cent in a loaf, and for that reason they do not propose making any reduction in the price of bread. They state that there would have to be a reduction of about \$2.20 a barrel to lower bread prices.

## GRAIN LOWEST IN LAST FOUR YEARS

Chicago, Nov. 9.—Wheat, corn and oats today all sold at the lowest figures in four years. Support was lacking and there was talk current that Kansas bankers were discussing credit curtailment which would force much grain on the market.

UNITED STATES DOES NOT LIKE TURKISH PACT

Disapproves of Anglo-Franco-Italian Tri-Party Agreement.

DOES NOT FULFILL EXPECTATIONS

Feel They Have Right to be Consulted in Any Settlement of the Question.

By F. W. WILE (Copyright 1920 by Public Ledger) Washington, Nov. 9.—The United States government will not recognize the Anglo-Franco-Italian partition of Turkey into "spheres of influence."

Action Was Anticipated. The state department anticipated such a carving up of Turkey as long as seven months ago.

The state department anticipated such a carving up of Turkey as long as seven months ago. On March 24th Bainbridge Colby, secretary of state, addressed a note to M. Jussarand, the French ambassador at Washington, which categorically affirmed our right to take part in the settlement of the Turkish problem.

The United States is not inclined to discuss that kind of a solution of the eternal Turkish problem in the mutual insurance scheme into which Great Britain, France and Italy have entered.

The following cardinal points in regard to the Turkish settlement were set up by the state department in the note of March 24th: First, that the expulsion of Turkey from Constantinople is imperative in itself and because the Mohammedan people who assisted in defeating Turkey would not understand a complete reversal of the great powers' expressed intention to expel the Turks from Europe.

Second, that the southern frontier of Turkey if that boundary was meant to be the ethnological frontier of the Arab people required certain ratifications.

Third, that in any arrangement for the future government and control of Constantinople and the Dardanelles "the vital interests of Russia must be carefully protected."

Fourth, that the United States required "more information" as to the proposed preferential rights of the three great Mediterranean powers (Great Britain, France and Italy) to furnish advisers and instructors in certain Turkish zones.

There were other representations in regard to Thrace, Smyrna and general economic questions, culminating in the expression of the American government's confidence that all the problems of the Turkish settlement "will be dealt with in a spirit of fairness and with scrupulous regard for the commercial interests of victor, vanquished and neutral."

MEN AND BUSINESS (By Richard Spillane)

There are two illustrations in the Saturday Evening Post of November 6 which tell a story of waste that runs in the scores of millions of dollars a year.

On page 24 there is a photograph of "The Old Way of Handling Cotton." On page 26 there is one of "The New Way of Handling Cotton."

In the first picture darkies are shown wheeling cotton on hand trucks, one bale of cotton to a truck. In the second, cotton is being transported through a warehouse yard on an electrically-driven track, ten bales of cotton to a truck.

There you have proof of labor saving. At the same time, you have proof of very bad handling, bad compression, rotten baling and imperfect tying.

A bale of cotton weighs on an average 500 pounds. A year or so ago cotton sold at approximately 48 cents a pound. That made a bale mean \$240.

Look at the picture on page 26. Consider the freight on that truck as well as presenting at a minimum \$2000 and at a maximum \$4000 and you will appreciate what is written here, especially if you know that in not a few instances cotton is permitted to be giled in the open in railroad yards or at other points of concentration, and that when it is loaded into cars or ships it is handled as if it was of little value.

There never was a bale of cotton grown in New York or Boston or Liverpool or Havre, yet each of those cities and various other cities have what is known as a "city crop." It is made up of the pluckings from bales in transit or in storage or that come from the breaks in the baling or ties.

Earnest men have pleaded and preached year after year for conception of the wastes in cotton handling but they have made little headway. Someone could do a real work of education if he had those pictures from the Saturday Evening Post enlarged and displayed at every railroad station in the South, with accompanying reading matter. The reading matter might explain that it is just as easy to save the present waste in cotton as it is to save the old waste in labor and that so long as the present system of baling and shipping is adhered to, the South will be throwing away many millions of dollars annually and, at the same time, penalizing users of cotton to the same degree or more.

Things which at the time may seem small have much to do in shaping the thoughts and pointing the way of men through life. Theodore H. Price, who has been a prominent figure in West Street for many years, gave an illustration in an address he made to the Chamber of Commerce of Middletown, Ohio, the other day.

"When I was a small boy," he said, "I sought out Patrick S. Gilmore, one of the famous bandmasters of the time, and asked him to write his name in an autograph album in which I was attempting to collect the signatures of those who were in my opinion distinguished. He took my album and hastily drew a mustard bar in which he inscribed the characters that stand for the notes B natural and C sharp. To this he signed his name, and the lesson that he taught will always remain with me.

"To be natural and unaffected is one of the hardest things for us to learn. We are all prone to take ourselves too seriously and assume that other people attach as much importance as we do to our acts and utterances, whereas we are in most cases forgotten the moment we are out of sight. This self-consciousness impairs our effectiveness, for so many can do anything well when he is thinking about two things, namely himself and his job."

There were other representations in regard to Thrace, Smyrna and general economic questions, culminating in the expression of the American government's confidence that all the problems of the Turkish settlement "will be dealt with in a spirit of fairness and with scrupulous regard for the commercial interests of victor, vanquished and neutral."

JAPAN'S CENSUS SHOWS SMALLER POPULATION

Her Boast of 70,000,000 Proved About Twenty Per Cent. Too High.

(Copyright 1920, by Public Ledger.) Tokyo, Nov. 9.—Japan's boast of a population of 70,000,000 is not upheld by the preliminary estimates given by the census bureau, which enumerated the Empire as of on September 30.

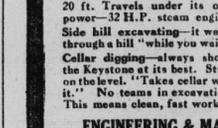

It is estimated that exclusive of Korea, the population is not more than 68,000,000, nearly 20 per cent short of the man power with which the Japanese publicists and foreign writers have been crediting the nation. This census is the first real count the Empire ever had, former figures being based on statistics of the local registry offices which have thus shown to be most inaccurate. The population of several large cities, including Osaka is likely to undergo a revision downward.

KEYSTONE EXCAVATOR MODEL 4

A 12 ton steam traction shovel that tackles anything and makes big money for its owner.

JUST see what a big range of work the Keystone Excavator Model 4 will do—

It's splendid for road work. It has 14 ft. of horizontal working travel on its 18 ft. boom. Its capacity is 250 to 500 cubic yards per day. It works fast. It is very easily handled.

It's great for ditching, for trenching and for back filling. Excavates to a depth of 20 ft. Travels under its own power—32 H.P. steam engine. Side hill excavating—it walks through a hill "while you wait."

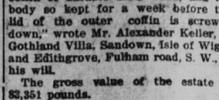

Cellar digging—always shows the Keystone at its best. Steeps on the level. "Takes cellar with it." No teams in excavation. This means clean, fast work.

### ALASKA MINERS GET INCREASE IN THEIR PAY

Demand for \$1.50 More Per Day Granted by Government.

### RAILROAD MEN ARE BECOMING RESTLESS

Walkout from Section Men to Conductors, Itching for Another Boost in Wages.

By THOMAS B. DEAYTON

Special Correspondence to Public Ledger

Seward, Alaska, Nov. 9.—The demand for an increase of \$1.50 a day in wages by the miners employed in the government coal mines at Chickaloon has been granted upon the advice of Secretary of Labor Wilson; meanwhile are becoming more restive; and the ordinary citizens of the district are taking up other matters in their belts to accommodate the striking workmen.

Meanwhile the railroad workers, from section men to conductors, are in an awful state about the situation. They are itching to get over a gauge themselves, but having received a substantial increase in wages just about that time ago, they are undecided whether to make a strike for more money at this particular time.

The coal miners close their time strike. But the railroad situation is different. If the railroad closes down nobody will be injured particularly among the railroad workers themselves. The scant population living in the railroad district uses the railroad only in emergencies anyway, because of the prohibitive rates, and would easily turn to dog sleds for transportation.

The status of the work on the government railroad is such that a strike might not be unwise to those in charge of the job. The big concrete abutment built on the Susitna river this summer in preparation for the bridge builders gave the other day and cannot be rebuilt until the return of warm weather next June. The government had just been forced

### ORIGINAL "BULL" AGAINST LUTHER HAS BEEN FOUND

Discovered in the Wurtemberg State Archives — Is Only Copy Preserved.

(Copyright, 1920, by Public Ledger)

Berlin, Nov. 9.—The only preserved original of the Bull of 1870 against Luther has been discovered in the Wurtemberg State Archives. The Bull was made in triplicate; two copies were brought to Germany by Dr. Johann Eck, while the third was sent to Charles V. of Spain.

The Bull of excommunication ("Bull of Excommunication") against Martin Luther was drawn up in July, 1520, as a result of the appearance in Rome of the doctrine contained in Luther's manifesto, "On the Babylonian Captivity," and "On the Freedom of a Christian Man," and "An Address to the Nobility of the German Nation." Some members of the four consistories to whom they were submitted demanded forbearance, but those demanding summary procedure prevailed. The Bull condemned 41 propositions drawn from Luther's writings, ordered the destruction of the books containing them and summoned Luther to recant within 60 days or receive the full penalty of ecclesiastical punishment. Dr. Johann Eck, the Vice-Chancellor of the University of Ingolstadt, who had taken the works to Rome, was commissioned to publish the Bull in Germany. After having been the object of indignities in various German towns, it was consigned to the flames by Luther at Wittenberg.

### TELEPHONE AS BURGLAR TRAP

Danish Police Official Invents New Trap for Thieving Fraternity.

(London Daily Mail & Cross-Atlantic)

Copenhagen, Nov. 9.—A new burglar-trapping apparatus has been invented by a Danish chief of police, and a company formed for its exploitation. The apparatus, fixed in a small box, is connected by wires with the door or window of the room, and wires are also connected with the ordinary telephone. As soon as a burglar enters the room, a special lamp automatically glows at the telephone exchange, and the police are immediately given the alarm. If the burglar alarm wires are cut the disconnection also gives the alarm to the telephone operator.

### LONDON WOMEN GET THE COCKTAIL HABIT

(Copyright 1920, by London Daily Mail and Cross-Atlantic)

London, Nov. 9.—London women have acquired the taste for cocktails. At luncheon or dinner look round any restaurant that has an American bar, and women's parties for a cocktail will be seen. Quite often a woman will refuse wine with her meal, taking only water, but the cocktail will have gone before.

One woman about town explains her preference in this respect. "It is very rarely one has a poor cocktail served. You can't say that about wine in these days. Most women like sweet cocktails."

Exhibition Assn. Annual Meeting

Report Showed Balance on Hand of \$4,400.25—Directors Elected.

At the annual meeting of the St. John Exhibition Association, held in the headquarters of the Eastern Air Lines Co. The company will lay a proposition before the city fathers, guaranteeing a daily air service each way between this city and Montreal, Halifax and Charlottetown respectively for the carrying of passengers, mails and freight.

The president stated in his report that when the exhibition building had been taken over from the military the city had received \$12,000 and the Exhibition Association \$23,000.

The 1920 exhibition was reported to have been an artistic success. The exhibits were never more attractive, and the space in the main building and the machinery hall was fully taken up.

The Women's Work department was the largest yet. The public Health booth under the management of the Minister of Health, was both elaborate and complete, and attracted much attention.

The Natural Resources of New Brunswick were more comprehensive than ever before and received the cooperation of the provincial government. There was a splendid exhibition by the St. John Art Club, and a Dog Show in connection with the exhibition was put on by the St. John Kennel Club.

The directors were of the opinion that the price lists should be gone over and revised to meet modern conditions.

The following board of directors were elected for the coming year: R. A. Schofield, P. E. Holman, J. S. Gregory, John Thornton, R. J. Terry, W. F. Burditt, R. R. Patchell, George L. Warwick, M. E. Rev. Dr. Flanders Died Suddenly

Former Pastor of Centenary Methodist Succumbed to Apoplexy at Winnipeg.

There will be deep sorrow in many St. John homes when it is learned that according to a despatch received by The Standard last evening from Winnipeg, Rev. Dr. Charles R. Flanders died suddenly there yesterday. The despatch reads:—"Dr. Charles R. Flanders, pastor of Broadway Methodist church here died suddenly today. Medical examination showed that he had succumbed to apoplexy. Dr. Flanders was 68 years old. He had occupied the pulpit of Broadway Methodist church for three and a half years."

Before coming to Winnipeg, he was pastor of Centenary Methodist church St. John, N. B., and had previously been principal of Stanstead College, Stanstead, Quebec, for 15 years.

Rev. Dr. Flanders was pastor of Centenary church for four years—1907 to 1911—and with his family was greatly beloved in St. John. He was a most successful church worker, a fine preacher and entered into the joys and sorrows of his people with an earnestness that never failed to make an impression. He was a most genial disposition, and his sermons dwelt upon the joy of religion. He was personally very popular with his people, and his sermons were eagerly listened to. He was called to St. John in 1911 and he died in the province while on his way to his home in the province.

From St. John Dr. Flanders went to a church in Sussex for one year, going afterwards to London, Ontario, from which city he was called to Winnipeg.

Beautiful Sight In Courtenay Bay. Night Scene of Illuminated Dredges and Other Craft Proves Inspiring.

People who have no occasion to visit the extreme eastern ends of King street, Leinster, Princess and other thoroughfares terminating at Courtenay Bay are missing a very pretty and, from the standpoint of good citizenship, inspiring sight these nights.

The Agricultural and Horticultural departments were not as well represented as the directors would have liked, but were compensated by excellent demonstrations by the provincial and Dominion agricultural departments.
