Beaver Flour

Beaver Flour is the best for Pastry—just as it is best for Bread.

Is both a "Spring Wheat" and a "Winter Wheat" Flour. It is a blend of Manitoba Spring Wheat and Ontario Fall Wheat in just the exact proportions of each to make the whitest, most nutritious Bread—and the lightest, most inviting, most toothsome Cake, Pie and Pastry. Economical, to say the least.

AT YOUR GROCER'S

Dealers, write for prices on all kinds of Flours, Coarse Grains and Cereals. T. H. Taylor Co., Limited, Chatham, Ont.

THE REAL SECRET of good bread is good flour. Even if you are inexperienced you can bake the very best bread from PURITY FLOUR.

There's a good reason why. Purity Flour is milled from the choicest Western Canada Hard Wheat by the most modern milling plant in the world. Besides, it is absolutely dependable in the baking—the one really perfect household flour.

DR. WOOD'S NORWAY PINE SYRUP

This wonderful cough and cold medicine contains all those very pine principles which make the pine woods so valuable in the treatment of all lung affections.

Combined with these is Wild Cherry Bark and the soothing, healing and expectorant properties of other pectoral herbs and barks.

For Coughs, Colds, Bronchitis, Pain in the Chest, Asthma, Croup, Whooping Cough, Hoarseness or any affection of the Throat or Lungs, you will find a sure cure in

Dr. Wood's Norway Pine Syrup

Mrs. H. A. Miesner, Port Williams, N.S., says: "My son had a dreadful cough. It started in the fall and lasted all through the winter."

At last we became very much alarmed about it and started to use Dr. Wood's Norway Pine Syrup and before he had used one bottle his cold was completely cured."

Price 35 cents per bottle. Put up in a yellow wrapper. Three pine trees the trade mark.

Refuse substitutes. Dr. Wood's is the genuine.

A woman cures a whole lot more about being tailor-made than she does about being self-made.

FORTY YEARS WITH CANNIBALS

Death Claims Missionary Hero of New Hebrides.

HAD A THRILLING CAREER

Natives Try to Kill Him Two-Score Times, But Fail in Each Attempt.

London, Feb. 9.—The death of the Rev. John Gibson Paton, the missionary apostle to the New Hebrides, in his 83rd year, was reported by cable from Canterbury, Australia, yesterday.

For ten years Dr. Paton was a Glasgow City missionary. In 1888 he decided to go to the New Hebrides, because he felt that "in a religious sense, it was the darkest place in the world." For 49 years he worked among the natives of the islands, and few men have had a career so full of thrilling adventure, hairbreadth escapes and dreadful tragedy as his.

Tanna, the island on which he first landed, was inhabited by cannibals, of most ferocious description. At first he had the companionship of his young wife and their little son, but a few months after their arrival both died of fever, and he was left to fight for his life and his religion alone.

Hostile Natives.

Forty times the natives attempted to kill him, and forty times they failed. Six other missionaries who went to assist him in his work were murdered. The islands were visited by British warships and other vessels, and many times Dr. Paton was urged to leave Tanna and seek refuge on some other island where Christianity was beginning to make headway, or in New Zealand.

But he always refused. To him the howling cannibals who at times were literally thirsting for his blood were "his dear benighted Tannese," and with a heroic resolve he even in his missionary field he remained at his post.

His escapes from death were almost miraculous. More than once he and his few helpers were besieged in the mission house, by the entire population of the island, and death seemed certain.

On one occasion his dog saved him, sometimes his empty revolver frightened his assailants, and the fear the natives had of his "Jehovah God," whom he invoked, more than once, proved his salvation.

A friendly chief once presented Dr. Paton with a highly-polished wooden spoon. Natives he subsequently met would not believe that Dr. Paton had dared to visit this warrior. He showed them the spoon, and they fled for their lives. Then the missionary learned that his spoon was only used at cannibal feasts, and by the chief himself.

Many Converts.

Gradually, however, the fruits of his unceasing work began to make themselves apparent, and a few years ago the number of native Christians in the New Hebrides was estimated at 18,000 out of a total population of 60,000. Not the least part of his work was the translation of the Bible into twenty different dialects for the use of the many different tribes on the islands.

Ten years after the death of his first wife he married a native woman, and many years ago his son was shot at by a hostile tribe and narrowly escaped death.

His visits to England were few and far between. His last was in 1901, and during his brief stay of two months the staid figure of the white-haired, snowy-bearded old man with the charming smile was seen on many platforms.

EAST KENT FARMERS.

Ridgeway, Feb. 11.—A meeting of the East Kent Farmers' Institute was held in the town hall here this afternoon, when addresses were delivered by G. R. Langford, of Kent Bridge; J. Duff Brien, of Woodlawn Stock Farm; Wm. Simpson, of "C." Farm; Reeve H. McLarty, of Howard; A. D. McDiarmid, of Morpeth; and W. C. Shearer, of Bright, Ont.

L. A. Brown, V. S., of Aylmer, delivered one of the most practical addresses ever heard in these parts. His subject was "Soundness of the Horse, and How to Get It." On either side of the kind of horses to breed and the care that should be given them to bring them to the highest standard.

CONSUMPTION IN INDIANA MAKES 214 CHILDREN ORPHANS IN ONE MONTH

A recent monthly bulletin of the Indiana State Board of Health, containing disease and death statistics, states that tonsillitis, bronchitis, pneumonia and influenza were the most prevalent diseases, with pneumonia and influenza heading the list.

The ravages of consumption continued as in previous months. The total deaths from this disease were 129 males and 184 females. The total number of orphans caused by tuberculosis for the month was 214.

At this season of the year lung trouble should be carefully guarded against, and every precaution taken to prevent the development of incipient affections. There is great danger in neglecting an ordinary cough or cold. A simple remedy prescribed by an eminent authority on lung trouble is said to give immediate relief to an ordinary cough and to break up a cold in 24 hours. This remedy can be prepared by any one in their own home, the ingredients being of a simple nature and easily procurable at small cost from any good prescription druggist. Mix a half ounce of Virgin Oil of Pine (Pure) with two ounces of Glycerine and a half pint of good whisky. Shake well and use in teaspoonful doses every four hours.

Virgin Oil of Pine (Pure) is put up, for dispensing only, in half-ounce vials, each vial securely sealed in a paper wrapper with an engraved wrapper, showing the name—Virgin Oil of Pine (Pure), prepared only by Leach Chemical Company, Windsor, Ont.—plainly printed thereon. The oils sold in bulk and the many rank imitations of Virgin Oil of Pine (Pure) put out under similar name and style of package are not only ineffective for the purpose, but are often dangerous. It is always well to remember that the object of an imitator is to deceive. There is no known substitute for Virgin Oil of Pine (Pure).

Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tives" are the one certain cure for Constipation

because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a box—\$2.50 for 6 boxes. At all dealers'.

MODERN PROCESS OF MAKING PIPES

SEVERE TEST TO WHICH WATER PIPE IS SUBJECTED BEFORE IT IS READY FOR MARKET.

Equipment of New Pipe Foundry of Canada Foundry Company Limited in Canada.

[From Toronto Mail and Empire.]

Of the many recent additions to the manufacturing industries of Toronto the completion of the new Pipe Works of the Canada Foundry Company is among the most striking, marking another forward step in the numerous enterprises conducted by this company. The new foundry is situated near the Davenport road, a little to the northeast of the main buildings of the Canada Foundry Company. It is an imposing brick structure, in keeping with the permanent character which is a feature of all this company's buildings.

The new pipe foundry will have a tendency to add to the movement westward. An engineer who was recently shown over the plant expressed himself as astonished at the results attained. He declared it was as complete as any plant he had ever seen.

On approaching the building the first thing that strikes the eye is the large store of pig iron adjacent to the cupolas. These different piles of iron are connected with the building by tracks, modern cars fitted with ball bearings being used. The tracks all lead to a large hydraulic ram, which lifts the cars, loaded with pig iron and coke, to the charging floor. Upon this same floor are situated cupolas and storage bins for the iron and coke sand. These sieves and blowers are operated by individual motors. There are two large cupolas with a total capacity of 50 tons of pig iron per day.

This foundry is designed for the manufacture of cast iron gas and water pipes, ranging from 8 inches to 36 inches in size, and also the necessary fittings for such construction, comprising tees, elbows, bends, reducers, couplings, plugs, valves, etc. There are also manufactured water pipes for high pressure service calling for pipes to withstand a working pressure of 300 pounds to the square inch. It will be readily understood that much care must be taken in the testing of metal to successfully withstand such severe conditions, and this branch of the work is in charge of a qualified chemist, whose special duty is to prepare the formula for the mixers, and to make tests of both pig iron and each day's floor of castings.

Not the least interesting feature of the modern process of making water and gas pipe is the preparing of the moulds. For this purpose round metal flasks, twelve feet in length, are used. After the mould of the pipe has been made, a dry sand core for the forming of the interior of the pipe is placed in position within it. On either side of the building there are large core ovens used for drying purposes. When the mould is completed it is placed on end in a pit twelve feet deep. These pits, which are built of concrete, with a base of fire brick, occupy the center floor space of the building and exempt the workmen from all danger from molten metal in the event of a mould blowing out or any other cause.

The metal is carried from the cupolas in enormous ladles by means of two large electric cranes and by a clever device is poured into the moulds. These cranes have a carrying capacity of 20 tons each.

After the metal has been poured, the cranes are utilized in lifting the flasks from the pits to the sand bed, where they are opened, the sand broken away, and the pipe casting placed upon a steel runway, which it does not leave until it is placed on a truck ready for storage in the yard. To the south of the foundry proper is situated another building in which the finishing touches are made. After being placed on the runway the pipe is carried to this building, where it is thoroughly cleaned by means of compressed air, forwarded to the testing table, where it is subjected to a hydrostatic pressure equal to three times the working pressure.

On the completion of this strenuous journey the pipe, together with many of its kind, is rolled on to a truck and wheeled to its respective pile in the storage yard. This storage place, which is over an acre in extent, is worthy of special mention in itself. The land has been built up above the level of the main railroad switch track which runs along the west side of the yard from the main line to Davenport road, admitting of easy loading on the cars, which in turn carry the finished product to various points in Canada, extending from Halifax to Vancouver.

Wash Goods—East Store.

WEEP FOR GRAND DUKES

Czar's Near Male Relatives Really Have a Woeful Time.

St. Petersburg, Feb. 11.—The general idea regarding a Russian grand duke is that he is an idle, tyrannical autocrat, with no object in life save the cruel oppression of the Russian lower orders, and the maintenance of himself in supreme power only second to that enjoyed by the Czar himself.

To a certain extent this estimate of a grand duke is correct, but when we look at the actual life of the male relatives of the Czar, and include his brother, four uncles, four first cousins, and ten second cousins. All of the Czar's relations after that are merely princes, with the prefix of "highness." Grand dukes have "imperial highnesses."

There are actually thirty-two male relations of the Czar, not all of them, excluding his infant son, the baby Czarvitch. Every one of these thirty-two is a member of the imperial house, and each one receives from the day of his birth an income of \$500,000 a year from the national exchequer.

Yet their bed is not all roses. They can do nothing without permission from the Czar. They cannot leave Russia or marry unless he consents.

Disobedience means imprisonment, confiscation of estates, and banishment, one or all, as the Czar pleases. There are other minor disabilities without number.

The frequent breaches of the edict against unsanctioned marriages, too, show that they are human. Of the nineteen, seven or eight have either married, not only without asking the Czar's consent, but actually against his express command or they at present want to marry women whom the Czar disapproves of.

MUST ACCEPT THE RATES

St. Paul, Minn., Feb. 11.—Attorney-General Young began mandamus proceedings in the Ramsey County district court to compel the ten railroads doing business in Minnesota to accept the freight rates reduction recently ordered by the state road and warehouse commission. The railroads involved are the ones who recently enjoined the State in the United States court from putting the rates into effect.

ISABELLE UROUHART BURIED.

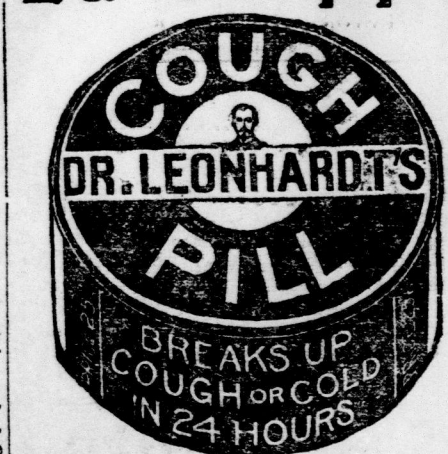

New Rochelle, N. Y., Feb. 11.—The funeral of Isabelle Urouhart, the actress, was held yesterday afternoon from her home, "The Shantee," at New Rochelle, and, though private, was attended by a large number of members of the theatrical profession, among them being Arnold Daly and the associates of Miss Urouhart.

The services were conducted by Rev. Charles F. Canedy, of the Episcopal Church, and burial was in the family plot at Woodlawn. Many floral pieces were sent by actors and actresses in Manhattan.

SEALED TENDERS.

Addressed to the undersigned, and indorsed "Tender for Public Building, Owen Sound, Ont." will be received at this office until Monday, Feb. 25, 1907, inclusively, for the construction of a public building, Owen Sound, Ont. Plans and specifications can be seen and forms of tender obtained at this department and at the office of Messrs. Forster & Clark, architects, Owen Sound, Ont. Persons tendering are notified that tenders will not be considered unless made with their actual signatures. Each tender must be accompanied by an accepted check on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent (10%) of the amount of the tender, which will be forfeited if the tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender is not accepted the check will be returned. The department does not bind itself to accept the lowest or any tender. By order, FRED. GEILINAS, Secretary, Department of Public Works, Ottawa, Jan. 31, 1907. Newspapers will not be paid for this advertisement if they insert it without authority from the department. 57c-wty

LONDON, TUESDAY, FEB. 12.

ELECTRIFYING STEAM ROADS.

Three years ago, Mr. B. J. Arnold, an
expert electrician, told the International
Electrical Congress that electrification
of steam roads would probably beginwith the terminals. He added that
those roads which run through popu-
lous countries will either build newroads or acquire as a protective mea-
sure the electric roads already built and
competing with them. These roads, Mr.Arnold pointed out, will be used as
feeders, and, with the electrical ter-
minals, will demonstrate the advan-
tages of electric traction and its desir-
ability for main line operation.How quickly invention and adapta-
tion of natural forces to the needs and
demands of man advances is shown by
the latest statement of Mr. Arnold onthis subject before the Western So-
ciety of Engineers. When Mr. Arnold
spoke three years ago but little atten-
tion had been paid to electricity bythe managers of steam railways, but
much has been done in the interval to
show that electricity is the comingmotive power for a great deal of the
traffic of steam roads, and is even now
being taken advantage of to a remark-
able extent.The United States has led in this
progress as it led in the use of electri-
city for illuminating purposes, and Mr.Arnold shows that very much has been
done over the border to confirm his
prophecy. The New York Central Rail-
way Company has recently put intooperation for passenger service inter-
urban trains running between New
York City and Yonkers, a distance offourteen miles, and is now introducing
electric locomotives into the terminal
service for operation of its throughtrains between the Grand Central ter-
minus and Croton, 35 miles, and
North White Plains, on the Harlemdivision, 23 miles from New York. For
three years experiments have been at
work to perfect the best type of electri-
c locomotive, and now 35 of thesemachines have been finished, and are
ready for operation as fast as men can
be trained to manage them. Theselocomotives can be run at speeds vary-
ing from 40 to 60 miles an hour, de-
pending on the weight of the trains,which will vary from 250 to 900 tons.
Two hundred steel motor cars will
soon be placed in this suburban ser-
vice, each designed to run at a maxi-mum speed of 52 miles per hour. The
New York Central is spending about
\$65,000,000 on these electrical improve-ments, and the terminal station alone
will cost \$15,000,000.The Pennsylvania Railway is provid-
ing similar electrical equipment for
terminal service from the New Jerseyside of its terminal station located be-
tween Thirty-second and Thirty-fourth
streets, New York City. Both subur-ban and interurban trains will reach
this station by specially constructed
tunnels, a service very much improvedby the use of electricity, which does
away with all the stifling gas and
smoke that accompanied the steamservice. Another two tunnels are being
constructed for the use of competing
roads using electricity, under the nameof the New York and New Jersey Rail-
way. These will also connect Jersey
lines with New York City. Other tun-nels are contemplated to serve lines
entering the city by way of the East
River, so that when all are completedthere will be six tunnels, electrically
equipped, under the Hudson River, and
eight under the East River.As the trains of the New York, New
Haven and Hartford Railway enter the
Grand Central Station, New York, overthe New York Central tracks, this com-
pany has also adopted electricity for its
terminals, and will have its trains pro-
pelled by the current for a distance of

13 miles from New York.

The Erie Railway Company has a
commission organized for the purpose
of electrically equipping its lines run-
ning out of Jersey City, a total ofabout 250 miles, though it is contem-
plated that but 35 miles will be im-
mediately equipped, viz., the division ex-tending from Jersey City to Greenwood
Lake. The Erie Railway has also now
under construction 34 miles of singletrack between Rochester, Avon and
Mount Morris, for which, it is inter-
esting to note, the energy will be re-ceived from Niagara Falls. The con-
templated expenditure on electric lines
for the Erie at Jersey City alone is \$15,-
000,000.One of the longest lines of electrically
equipped railway is the West Jersey
and Seashore Branch of the Pennsylv-ania Railway, which runs from Cam-
den to Atlantic City, New Jersey, adistance of 65 miles. It is intended to
have a service of three car express
trains running 60 miles per hour on a
15-minute headway, and local service
at 10-minute intervals. All the cars
are heated and lighted by electricity,
as are the cars of the Ottawa and Hull
and Aylmer street railway companies.
The West Shore Railway has now
under construction the electrical equip-
ment of its tracks between Utica and
Syracuse, N. Y., a distance of 44 miles,
and will run special expresses between
these cities in a way not to interfere
with its through passenger and freight
trains.At the Pacific Coast the Southern
Pacific Railway is making active pre-
parations to change about 20 miles of
local steam line near San Francisco
for electric traction service. The
Spokane and Inland Railway is now
operated between Spokane, Wash., and
neighboring cities, the electric equip-
ment applying to a mileage of 114.
The service includes passenger, mail,
express and coal and freight.In Canada so far the steam railway
managers have not done much in the
way of adapting their traffic to electri-
cal propulsion; but there are evidences
that, it being proved a success else-
where, wherever it can be profitably
applied electricity will be resorted to
by the Canadian steam railway man-
agers.Already in order to eliminate the
dangers of steam locomotives in the
St. Clair Tunnel the Grand Trunk
Railway has adopted electricity for the
work of the tunnel. Six electric lo-
comotives are being provided, weighing
120 tons each, and will no doubt be
fully employed handling the enormous
traffic that passes through this interna-
tional bore.The Canadian Pacific Railway Com-
pany are alleged to be looking after the
electric railway which now runs be-
tween Quebec City and St. Anne de
Beaupre, and if that enterprising com-
pany gets hold of this line, which is
electrified from the famous Montmorency
Falls, past which it runs, the road
will no doubt be extended down the
north shore of the St. Lawrence.There has been talk also of the North
Shore branch of the C. P. R. being
electrified from the great falls of
Shawinigan, and the belief of many is
that all the terminal operations for the
new national transcontinental rail-
way service and connecting sys-tems, between the bridge over the St.
Lawrence and the city of Quebec will
be operated by electricity. Owing to
the numerous waterfalls in the locality,
electrical power can be generated
cheaply.As to lines in our own neighborhood,
the time may soon come, unless they
put the rate for Niagara power too
high for us, when all the trains in this
peninsula, urban and suburban, will
be propelled by electricity, and the cars
comfortably heated and lighted by the
same wonderful agency as propels them.

SNOWDROP.

[William Wetmore Story.]

When, full of warm and eager love,
I clasped you in my fond embrace,
You gently pushed me back and said,
"Take care, my dear; you'll spoil my
lace."You kiss me just as you would kiss
Some woman friend you chanced to see.
You call me "dearest"; all love's forms
Are yours, not its reality.Oh, Annie, cry and storm and rave!
Do anything with passion in it!
Hate me an hour and then turn round
And love me truly just one minute!

BETTER THAN GLORY.

[S. E. Kiser.]

He wooed her when her hair was brown,
And when her waist was slim,
When every other boy in town
Was envious of him.He walked with her in country lanes,
When she was young and glad,
And youth and strength and hope and health
Composed the sum of all the wealth
That he had ever had.He won her when her heart was light
And when her laugh was gay,
When every day was fair and bright,
And care was far away.He claimed her as his own when she
Regarded him as one
For whom the fates had much in store,
Whom men would honor more and more,
For great things nobly done.He has not won the world's applause,
His step is slower than it was,
But he's an honest man,
She wears the bloom of youth no more,
Yet side by side they fare,
Poor, bent old husband and gray wife,
Along the humble walks of life,
And still are lovers true.

GERMANY ISOLATED.

[Washington Post.]

Some years ago England was laboring
under what was called "a splendid iso-
lation." She had not one friend in all
Europe, and the United States had not
yet unlearned the art of twisting the
lion's tail. But England was equal to the
occasion, and she assembled the fleets of a
dozen stations in the channels, and Eu-
rope well knows what that means.The storm went by, but the Boer war came,
and the pluck of John Bull was put to
the test. It was the pluck of Cressy, of
Agincourt, of Flodden Field, and of later
times, Blenheim and Quignard; of Blake's
Spain and of Wellington in Belgium,
of the Light Brigade at Balaklava, of the
rescue of Lucknow, of "Boys" in the east,
and of all that. We may not love her, but
there liberty is regulated by law; there
conservatism exercises a controlling in-
fluence.This new King England has is the most
consummate diplomat in Europe. He is
no Disraeli; no Bismarck; but he knows
how to do things. More than half Ger-
man in blood, he is altogether English in
sentiment. No Plantagenet ever thoughtDoes fit
Doesn't
shrinkPen-
Angle
Underwear
has the soft
warm feel
the skin enjoys.
Doesn't itch.
Made for men, wo-
men and little folks,
in a variety of styles,
fabrics and prices.Weatherize every dealer in Pen-Angle
Underwear to replace, at our cost, any
garment faulty in material or making.so much of his native land. He has found
friends for England.On the other hand, Germany is isolated
—not so splendid as was England's, but
perhaps more complete. What will Ger-
many do with it? France, England and
Italy are in virtual alliance. Japan and
Germany are in actual alliance. Could
Germany destroy the army of France be-
fore reinforcements could be rushed from
the east? Possibly. But where would the
German naval and merchant marine be
by that time? Very likely they would eat
supper at Davy Jones' locker.Meanwhile Germany is talking about a
commercial war with the United States.
She is at even greater disadvantage there-
fore.

GOOD ADVICE.

[Detroit Free Press.]

Never hit a man when he's down, unless
there's no prospect of his ever getting up
again.

EASILY SEEN.

[Tit-Bits.]

Merchant (to applicant who has called
in response to an advertisement for a
business partner)—Now, let us get to busi-
ness at once. To begin with, what I wish
to assist me in this enterprise is a man
of brains.Applicant (with alarming frankness)—Oh,
you needn't have told me that. I could
see it for myself.

CAUSE AND EFFECT.

[Chicago Post.]

Travel broadens a man—sometimes, when
the engineer goes by the red target or the
operator is taking forty winks, he finds
himself broadened out over half an acre
of landscape.Travel shows a man the resources of his
country—he may look from the car window
and estimate the millions of feet of lum-
ber required for pickle ads. and corset
billboards.Travel teaches a man to respect his fel-
low-citizens—in fact, at the end of his trip
he will have learned to raise his hat to
any man in uniform.Travel develops the brain—even one week
of solving time-tables like a man to tackle
fifteen puzzles and how-odd-is-Ann propo-
sitions with a confident smile.

COLD CONSOLATION.

[Philadelphia Ledger.]

The North Dakota farmer tumbled from
his house and looked over the vista.
"There's no comfort," he muttered, try-
ing to peer beyond the drift that covered
his barn: "no cyclone can blow away a
farm that's weighted down like this."

NEGLECTED NO ONE.

[Lippincott's.]

Borrowy—Let's see—do I owe you any-
thing?
Morrowy—Not a cent, my boy. Going
round paying your little debts.Borrowy—No, I was going round seeing
if I had overlooked anybody. Lend me five
till Saturday, will you?

VERY LIKELY.

[Baltimore American.]

"Maria, what's a little occultation exercises
the health boards say ain't sanitary?"
"Occultation, ma, is what might be called
one of the pressing matters of the times."Improve your spirits
with York Soda, the highly-
charged, sparkling water with
the snappy, dry tang that betters
the flavor of any liquor it dilutes.Bottled at the Springs for surety
of purity, and sold wherever gentle-
men drink. Compare it with the
imported sodas and learn that

York Soda

is better—yet costs no more.

The Mineral Springs Limited, Toronto

SCANDRETT BROS.

ACTUALLY CURES CATARRH.

W. T. Strong's Faith in Hyomei Is So
Strong He Sells It Under Guarantee.It is one thing to claim, another thing
to back up the claim by a statement
that if it is not proven true, there will
be no charge for the service or the
goods.It is in this way that W. T. Strong
sells Hyomei, for he has so much faith
in its powers to cure all forms of
catarrh and bronchial troubles, that he
gives an absolute, unqualified guaran-
tee with every outfit that if the remedy
does not cure, the money will be re-
funded.Hyomei is based on nature's way of
curing catarrh. It contains the con-
centrated healing oils and gums of the
pine woods, prepared in such form that
they can be brought into your own
home. It gives the health advantages
of the Adirondacks in such form that
you can be cured of catarrh and affec-
tions of the nose, throat and lungs
while at home or at work.A complete Hyomei outfit costs but
\$1, and extra bottles, if needed, may be
obtained for 50 cents.With Hyomei you can cure catarrh
pleasantly and easily at small expense,
with no risk of the treatment costing a
penny unless it cures.

THE CHANGES
IN THE TARIFFSome Amendments to Dumping
Resolutions and Prefer-
ential Schedule.Ottawa, Feb. 11.—Minister of Finance
Foulds presented to the House today
the changes in the new tariff schedules.There are some important amendments
to the bounty on cordage, and some
additional exemptions to the dumping
resolutions.A new resolution is submitted pro-
viding for a bounty on the manufacture
of cordage in Canada from manilla
fiber. This bounty to be equal to the
amount paid as export duty in the
Philippine Islands on manilla fiber
produced on those islands and used in
the manufacture of cordage in Can-
ada. The bounty is to be operative to
manilla cordage manufactured in Can-
ada since Jan. 1, and only for home
consumption. It is not to exceed three-
eighths of one cent per pound.Dumping Exemptions.
With respect to the dumping resolu-
tion, there is added to the exemptions
the following subsection: (d) Binder
twine or twine for harvest binders
manufactured from New Zealand hemp,
jute or tampoia fiber, sisal grass, or
sun, or a mixture of any two or more
of them, of single ply, and measuring
not exceeding 600 feet to the pound.Preferential Amendments.
Resolution No. 4, which gives the
governor-in-council authority to extend
the benefit or withdraw the benefit of
the British preferential tariff, or the
intermediate tariff, is amended by add-
ing the following:"The provisions of the foregoing res-
olutions shall be deemed to have come
into operation on Nov. 30, 1906, and
to apply to all the goods imported or
taken out of warehouse on or after thatday, and to have also applied to goods
previously imported for which no en-
try for consumption was made before
that day, except as otherwise provided
in the resolutions, provided that goods
which were imported or taken out of
warehouse for consumption, and on
which duty was paid between Nov. 30,
1906, and Feb. 12, 1907, in accordance
with the rate of duty set forth in the
resolutions submitted to the house on
Nov. 29, shall not be subject to further
payment of duty by reason of any in-
crease by resolution or amendment in-
troduced subsequently."The effect of this resolution is that
goods which have been entered at cus-
toms since the tariff was originally in-
troduced shall not be affected by the
changes which follow.Item 23—The British preferential rate
on preparations of cocoa or chocolate,
N. O. P., is reduced from 35 per cent
to 25 per cent. The other rates remain
at 25 and 35 per cent.Item 39, which refers to the duties on
starch, potato flour, rice flour, etc.,
durable at 1 cent per pound, British
and 1 1/2 cents, intermediate and gen-
eral, is amended by striking out the
words rice flour, sage flour, tapioca
flour. A new item is introduced, as fol-
lows: Item 39, A—Rice flour, sage flour,
and tapioca flour, per pound, British
preferential, 1/2-cent, intermediate and
general 1 cent. The effect of this
change is to reduce the preferential
duty on these flours from 1 cent to 1/2-
cent, and on the others from 1 1/2 cents
to 1 cent.Item 41, which refers to the duty
upon salt in bags, barrels and other
coverings, is amended by inserting the
word usual before coverings.Item 45, A, is new. It reads: Dutiable
breadstuffs, grain, flour and meals of
all kinds, when damaged by water in
transit or prior to importation into
Canada, preferential, 15 per cent; in-
termediate, 22 1/2 and general 25.Free Importations.
Item 73, providing for the free im-
portation of certain classes of florist
stock, is widened by adding the words,
"seedling stock and rose stock for
grafting."Item 83 provides for duties of 10
cents per bushel, 12 1/2 and 15 cents;
these are increased to 12 1/2 cents pre-ferential, 17 1/2 intermediate and 20 cents
general on potatoes.Item 85, which provided a specific
duty on fresh tomatoes of 50 cents, 65
cents and 75 cents per hundred pounds,
is changed to an ad valorem reading
of 20 per cent, 27 1/2 per cent and 30 per
cent.Item 94, dates, dried, per 100 pounds,
is dutiable at 50, 70 and 80 cents, is
changed to preferential 40 cents, inter-
mediate 55 cents and general 62 1/2 cents.Item 97 A—The general tariff rate on
pumpkins is increased from 20 cents per
bushel to 30 cents.Item 110—The duty on coconuts is
made 65 cents, 90 cents and \$1 per hun-
dred, instead of per 100 pounds. A simi-
lar change is made in item 111, on co-
conuts imported direct by ship to a
Canadian port.Item 135—Giving the rate of duty on
raw sugar is amended so as to provide
that in order to entitle raw sugar to
the benefit of the preferential tariff it
must be imported direct by ship to a
port in Canada from any British coun-
try, otherwise the preferential tariff
will not apply.Item 231 is changed to read, "Fire
brick of a class and kind not made in
Canada, preferential free, others 5 per
cent each." The present tariff rates are
5, 7 1/2 and 10.Item 309, instead of an ad valorem
duty on roofing slate of 15, 22 1/2, and
25, the duties are placed at, preferen-
tial 50 cents per square of 100 square
feet; the other rates are 70 and 75
cents.Item 226 adds to the dutiable articles
of glass of all kinds, bottles, lamp-
chimneys, globes, etc., the words "blown
glass table and other cut glassware."An official report of the State of
Illinois is to the effect that the pro-
duction of mineral wealth in that state
last year aggregated a total of \$67,-
889,000, of which \$39,754,000 was coal.
Clay mines and limestone come next
to coal in importance. The production
of Portland cement, which has become
one of the most important factors in
building, is increasing. In the last 25
years the production of coal in Illinois
has increased 619 per cent. If the same
rate of increase continues for anotherFebruary Sale

The Ghost of Lochrain Castle

OR THE UNDERGROUND SYNDICATE.

BY MRS. C. N. WILLIAMSON.

Author of "The Lightning Conductor," "Princess Passes," Etc.

CHAPTER XI.

"You see, I was right," exclaimed Lady Lambart. "Now, what do you intend to do?"

"I must talk over this matter with Miss Dean alone, your ladyship," said the manager.

"What! You still refuse to believe her guilt?"

"I must know from her own lips what to believe, and it would be distressing for every one concerned if the matter were discussed in public," said the manager.

Discomfited, Lady Lambart swept out of the room with an air of injured dignity, and Elspeth, though deeply grateful to Mr. McGowan for giving her a public inquisition, trembled inwardly. She could not tell lies, yet not compromise Lady Hilary.

"Miss Dean, you have your opportunity to explain," began Mr. McGowan. "I must say that I am dismayed and annoyed to have such a story thrown at my head on the moment of my return from a business journey. You must, to say the least, have acted with imprudence, and gone out of your place in this house, or such a suspicion against your prudence and good sense could not have arisen."

Until this moment Elspeth had received nothing but praise from Mr. McGowan, and nervous and worn as she was, this rebuke seemed almost beyond bearing.

Tears sprang to her eyes, but she choked them back, determined that the manager should not see her crying like a scolded child. In spite of her efforts at self-control, however, the girl's face betrayed something of the heart's distress, and Mr. McGowan, who was an extremely kind-hearted man, though a disciplinarian as a manager, repented his harshness.

"You had better tell me everything," he said.

"I don't think I can do that, though as far as Lady Hilary Vane is concerned there's practically nothing to tell," replied Elspeth.

"What! You refuse to speak?" Mr. McGowan exclaimed, his vexation rising again.

"I once took a message—an absolutely insignificant message—from Captain

Oxford to Lady Hilary, whom he has known for a long time."

"Is that all—on your word of honor?"

"Practically all."

"That is not a satisfactory answer."

"I'm very sorry, but I'm afraid it's the best that I can give."

"Then, Miss Dean, I must say I am very much disappointed in you."

"Would you prefer to have me go away?" the girl asked, trying with all her might to steady her voice.

Mr. McGowan had not intended matters to touch this extremity. Elspeth's work was excellent beyond his expectations, and she was well liked by every one in the hotel to whom her services had been given. She was a lady by birth and in manner, charming in appearance, and altogether the manager of the Lochrain Castle Hotel feared it would be impossible to obtain another stenographer as desirable. Still, discipline must be maintained in the hotel and this girl must not think she could go out of her place, mix herself up in the love affairs of the guests of the house, and after behaving with grave indiscretion, escape with a mere reprimand after refusing to defend herself.

He valued her services too much to have dispensed with them lightly on his own initiative, but as she had practically tendered her resignation, he did not think it compatible with his dignity or her offense to say that, in spite of all, he wished her to stay on.

"I must, of course, ask that you will either explain satisfactorily or else resign your position here," he said at last.

"But I still hope that you will explain, and I give you till tomorrow morning to think it over."

"That will do no good, Mr. McGowan," said Elspeth sadly. "I know myself, and I know that I can say no more tomorrow morning than I've said already, except that I did nothing which seemed to me to be wrong."

"Ah, but I must be allowed to judge whether it was wrong or not," he returned.

"Then—I see that you mean me to go. Shall I be at once, or—"

"Certainly not," Mr. McGowan cut in decidedly. "I cannot be left without any one to fill your place in the high season. Grant already has all that he can attend to, or more, and my hands are overfull. I will let you be the one to give me notice, Miss Dean, as you have been satisfactory in your work, and I do not wish to injure your future career any more than I can avoid doing. You had better give me a fortnight's notice. In that time I can get some one else; and meanwhile I expect you to be absolutely discreet in your intercourse with the guests of the hotel. Now I shall require nothing further from you today. Good evening, Miss Dean."

"Good evening. And—I suppose I ought to thank you. I believe you mean to be kind," said Elspeth, who had made it possible for me," returned the manager.

There was nothing more for her to say or do, and bowing her head to hide the tears, she left the room.

After all, Lady Lambart had scored. A sudden flash of enlightenment told Elspeth that the elder woman could not forgive her the kindness and consideration with which Mr. Kenith had treated her. From the very first, when she had been compelled to take a seat in the railway carriage which Lady Lambart had wished to keep for her own party, she had been unjustly disliked. Mr. Kenith's kindness to her as his secretary, and her association with Captain Oxford had increased the feeling against her; but the climax had come today with the invitation from Mr. Kenith to go out in his motor car as his secretary and Lady Hilary's equal. That had placed her on a different foot-

ing. She was no longer only the secretary; she was the friend, as well, and to be rid of her.

In a way the enmity of a woman of the world for a humble typewriter was a compliment, but Elspeth was in no mood for that point of view. She was bitterly unhappy, horribly humiliated, and could not bear to look forward to the future.

She had been allowed, by Mr. McGowan's courtesy, to resign, but it was almost as bad as if she had been discharged after a week's trial at the Lochrain Castle Hotel, for after what had passed the manager would certainly not give her an unqualified recommendation. Tomorrow, in all probability, he would write to the agency, from which she had been sent to him, saying that Miss Dean was not satisfactory, and ask for some one else in her place.

What a downfall, after her high hopes, and the encouraging opinion Miss Smith had had of her ability. To be sure, she had been told that she was too young, but she had meant to show that that opinion was a mistake. Oh, she had meant to do so well, and she had believed that she was succeeding. She had borne herself as bravely as she could, through strange and trying experiences, in the hope of obtaining the success for which she strove, and this was her reward for everything.

All these thoughts rushed through her mind as she left Mr. McGowan's room. She walked with her head down, hoping to meet no one she knew, and hurried through the hall, almost dreading to see any one. Suddenly, however, she started back, for the face of the man who had been sent to her, framed in the white mystery of moonlight.

For a second the eyes, the too brilliant eyes, gazed into hers with an intent and strangely piercing look, almost an anxious look, it seemed. Then the tall man bowed slightly, murmured something in response to her request for pardon, and passed on.

Elspeth stood still, watching, half inclined to follow, yet not daring to do so; for there could be no doubt that this was a man of flesh and blood, and no ghost. He was in modern dress, and did not vanish by apparently melting through the wall, but walked quietly into another corridor.

The features were like as before to Captain Oxford's, but now that she had seen them in a fuller light Elspeth told herself that it was difficult to believe the man was wearing a disguise. The short, dark hair looked absolutely natural, and the face seemed much older than that of Captain Oxford.

"Who can it be?" she wondered. "Is it a guest of the hotel? Extraordinary, if so, that I've never seen his face before—almost impossible. Yet he must have been in the house, or staying nearby for some time, because it's almost a week since that night when the ghost-figure stepped out through the wall into my room. Now that I've seen him again—for it must be the same—I can't be mistaken—it makes that apparition all the more mysterious. I must find out who this person is."

Slowly the girl went on toward her own room, wondering in her heart as to how she was to accomplish what she wanted, now that she was no longer on pleasant terms with Mr. McGowan, and now that her odd friendship with Mr. Grant was at an end. Suddenly, however, she thought of Mrs. Warden, the housekeeper. Perhaps if she described the man she had just met (she did not mean to refer to the stranger meeting) the old woman would know whether or not there was such a guest in the hotel.

She turned back, therefore, and found her way to the housekeeper's room, which she had had occasion to visit once or twice before.

Mrs. Warden was there, and as she had heard of the accident, Elspeth had to tell her all about it, before she could hope to obtain any satisfaction on another subject. Indeed, the old housekeeper flattered herself that Miss Dean must have come to her room for the express purpose of giving her the details. Elspeth gathered this from Mrs. Warden's naive thanks, and it was not worth while to hurt her feelings by disabusing her of the impression. Accordingly the girl did not contradict her, but merely said, "By-the-by, I just met in the hall a middle-aged man with a short, grizzled beard, wonderfully brilliant dark eyes, and features rather like Captain Oxford's. I never met him before, and I wonder if he can be stopping at the hotel. Can you tell from my description of him?"

Mrs. Warden looked puzzled and shook her head. "Indeed, I can't miss," she said. "There are plenty of gentlemen with short, grizzled beards, but I don't remember any one with particularly brilliant eyes."

"You would remember, if you had seen him," broke in Elspeth.

"Perhaps I should, miss," said Mrs. Warden. "But as for his looking like Captain Oxford, I don't think I've ever seen that young gentleman, though I've heard plenty about him from one person or another."

"Surely you must have seen him," Elspeth persisted. "He's extremely good-looking."

"Then I'm sure I haven't," called many of the young gentlemen in the castle at present extremely good-looking, though some of them are well enough in their way. But you see Captain Oxford arrived only a day or two before you did, miss, and almost ever since he came he's kept in his room, or maybe been in Mr. Kenith's suite, except when Mr. Kenith had him out in the motor car. I've never happened to be anywhere about when he was on view, as you might say, and I don't know that I've had any particularly curious, though the gossip of the servants' hall is that he's dead in love with that beautiful young lady, the Countess of Lambart's daughter."

[To be continued.]

"A grass widow may be cool and refreshing, but never green."

"St. George's Baking Powder

is good enough for me."

"What if I can make more profit on a powder that you say is just as good?"

"I have no use for those 'just as good' things. And I will not have 'cheap', impure baking powder in my store at any price."

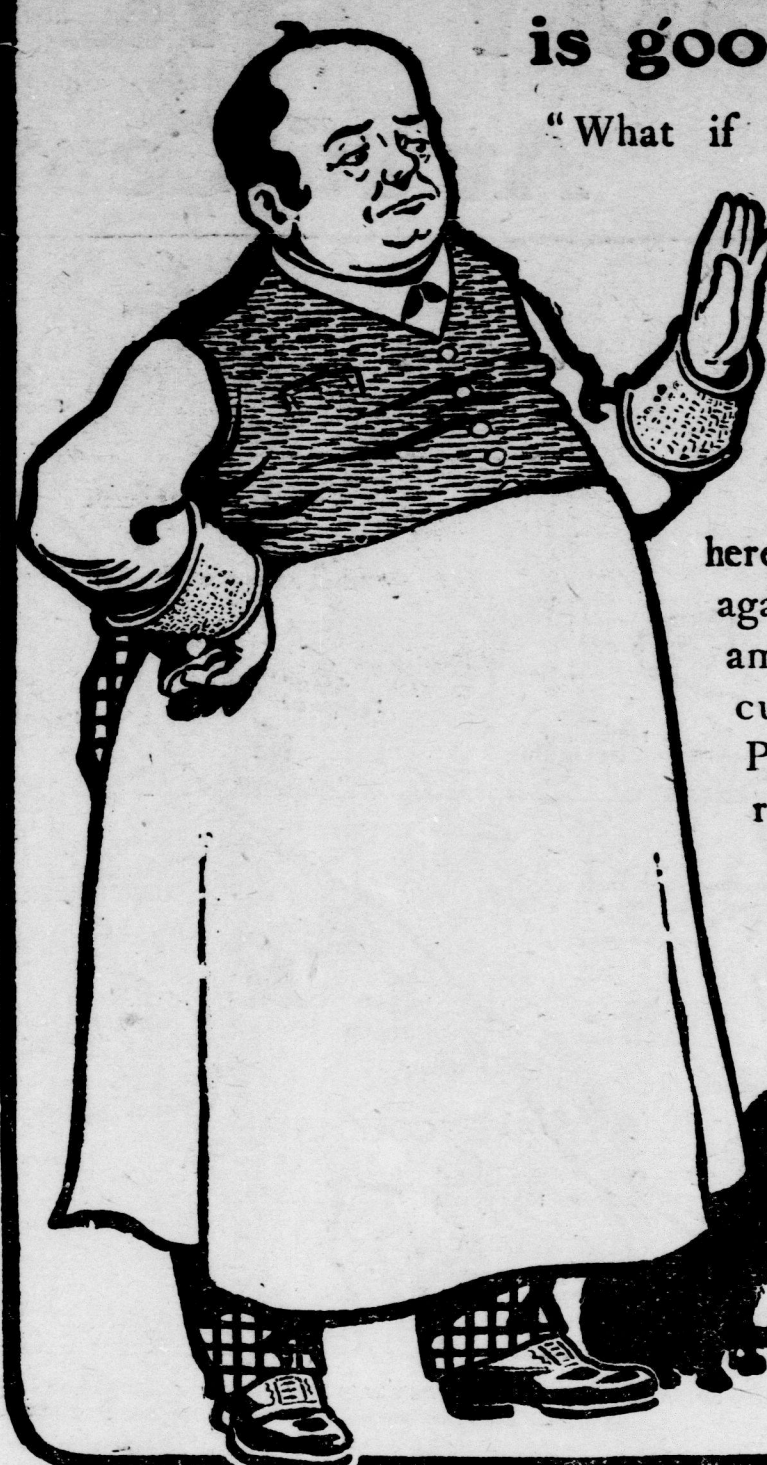

"No, sir! People, who deal here, expect me to protect them against doubtful goods. And I am not going to risk losing good customers by selling a Baking Powder that I can't intelligently recommend."

"I know that ST. GEORGE'S is a pure Cream of Tartar Baking Powder, it gives satisfaction and I'll stick to it."

"You are just wasting your time (and mine) trying to sell me anything else."

"Good morning!"

Life Depends on Healthy Blood.

Is Yours Rich and Pure?

Blood is the soul of life. Check its formation, reduce its quality, lessen its red cells—you once sap strength and vitality—you peril life itself.

When you strengthen the blood, make it richer in red cells, increase its solid constituents, you supply the materials that rebuild—your furnish that disease-resisting element we call strength.

When you are weak and ailing—when appetite is poor—when mental forces seem impossible, sleep hard to get, but your blood has grown poor and your nervous system in consequence is impaired.

Nothing so quickly stimulates the formation of rich, red blood as Ferrozone.

Ferrozone's action upon the digestive power is immediate—everything you eat is converted into nourishment and building material.

Ferrozone fortifies the action of the kidneys, liver and stomach, increases throws into the blood a vast store of material to build up and to strengthen.

Ferrozone by making blood and stimulating vital action, transmits to the debilitated brain cells, exhausted by toil, by anxiety, or by sickness, the strength they need.

The beneficial action of Ferrozone on the brain is transmitted through the nervous system, and all powers of the body are enormously increased.

Ferrozone enables the body to perform all its functions in a normal and freedom from reaction, which is the most positive assurance that the body is strengthened—not stimulated.

Whether the weakness you suffer is profound or of long standing, whatever the conditions are—if the blood is impaired, if its richness is reduced, if its activity is lessened—Ferrozone is an absolute and rapid remedy.

For any condition of weakness, debility or ill-health in men, women and children, you can't find so nourishing and strengthening a tonic as Ferrozone; try it, sold everywhere in 50c boxes.

A PRETTY DRAPED WAIST—6827.

There is no more graceful mode of fashioning the new materials than by means of shirts and drapery, and a pretty waist, showing draped portions in front and back, is shown. The waist is very simple, the body portion being easily fast on the lining as far as the yoke, while the trimming portions form the drapery. These may be of the material of the waist or contrasting, while the narrow band which finishes the sleeve puff should also show contrast. The style is one suited to development in silks, crepe de chine, velveteen or similar light-weight fabrics, the medium size requiring 3 yards of 27-inch goods.

6827—Six sizes, 32 to 42 inches, bust measure.

The price of this pattern is 10 cents.

PATTERN DEPARTMENT OF THE ADVERTISER.

THE SOO CANAL SQUABBLE

City Demands That Clergue Concerns Remove Obstacles to Improvements.

Sault Ste. Marie, Ont., Feb. 11.—Interest in the ship canal tangle, which is likely to delay the \$6,000,000 improvements at the Michigan Soo by the Federal Government is warm. The city, through its civic bodies and newspapers, demands that the Clergue interest withdraw from their position, and remove all obstacles to the waterway improvements. The matter probably will be taken up with President Warren at Toronto. Unless action is taken at once by the corporation, the Legislature will be asked to repeal the specific law under which the Michigan Lake Superior Power Company, a subsidiary corporation, pays only \$5,000 annual tax on property which cost over \$6,000,000, of which amount the city receives nothing.

SUPERIOR ORE OUTPUT

Forty-one Million Tons Shipped Last Year by Rail and Water.

Detroit, Mich., Feb. 11.—It is the prediction of mining men conversant with the iron industry, that including both rail and water shipments approximately 41,000,000 tons of ore will be forwarded from the Lake Superior region this year. This would be an increase of 2,500,000 tons over the output of last season, and an increase of nearly 100 per cent over the production as recent as 1901. Since the first discovery of iron ore on the Marquette ranges sixty years ago, there have been shipped from the Lake Superior region the stupendous amount of 338,590,000 tons of ore.

BRIAND CONCEDES POINT

Willing To Further Modify Lease Plan To Satisfy the Vatican.

Paris, Feb. 11.—In anticipation of the rejection by the Vatican authorities of the church of contract for the lease of the churches proposed by Education Minister Briand, the Government has allowed it to be publicly understood that it is willing to accept a modification making the contract run eighteen years, and for the benefit of the parish priest named, or his successor, fulfilling the same conditions. This will surmount the objection raised by the Vatican that every time a parish priest is changed a new contract must be negotiated with the commune or municipality in which the church is situated.

DIES MYSTERIOUSLY.

Constantinople, Feb. 11.—The recent mysteriously sudden death of Vice-Admiral Heiri Pasha is occasioning much comment. He had just been appointed.

LACTATED FOOD

HOOD'S PILLS

The Painless Cathartic

Easy to take, easy to operate; cures biliousness, constipation, morning and sick headache, break up colds and ward off fevers. All druggists. 2c. O. I. Hood Co., Lowell, Mass.

WEAK HEART

SYSTEM WAS RUN DOWN

When the heart is healthy and performing its functions naturally, it should beat regularly seventy-two times a minute without causing its owner the slightest inconvenience or distress.

When it begins to beat irregularly or intermittently, palpitate and throb, skip beats, beat fast for a time, then so slow as to seem almost to stop, it causes great anxiety and alarm.

The least excitement or exertion seems to affect it.

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to either social or business duties, through unnatural action of their heart.

To all such sufferers

MILBURN'S HEART AND NERVE PILLS

can give prompt and permanent relief. Mrs. F. Fletcher, Sault Ste. Marie, West, Ont., says: "I have been troubled for four or five years with weakness, and run down system. My feet were always cold and I felt almost dead. My heart was weak and I was so nervous I could hardly walk across the street. I started taking Milburn's Heart and Nerve Pills, and after using three boxes I felt much better. I continued these pills until I had taken twelve boxes and I am now well."

Price 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

There's something better and different about

EDDY'S MATCHES

to those of any other make. And while a few grocers in this country, for the sake of a little extra profit, may urge you to buy imitations of our lines, don't be led astray.

Remember, the energy and experience of over fifty years goes into every box of Eddy's Matches. And in the future, as in the past, all other lines are simply down and out.

CHINKS CELEBRATE THEIR NEW YEAR

Today Is a Day of Rejoicing
Among the Celestials in
Many Places.

Today is the beginning of the Chinese new year, and although in China and in the Chinatowns of the large cities it will be a day of great rejoicing for the Celestials, their countrymen in this city did not have any particular celebration, except that some of the local "washers" shops were closed. Where the Chinese new year is observed, it is the greatest day of all the year, and every "Chink" decks himself out in his glad-rags, or even returns to the costume of his native land, with its starchy ornaments. Every "washer" shop, "chop suey" house or "fanton" den is illuminated with Chinese lanterns and made to look as much like home as possible.

The first thing on the programme for the Chinaman is to close all business matters for the last twelve months, and every Chinese merchant looks upon it as his solemn duty to pay all his honest debts. Those who have correspondents in China have long ago made their remittances, and the postoffice and express offices have handled thousands of dollars bound for China.

Connected with the celebration of the new year festival are many interesting ceremonies. The Chinese call on each other, shake hands with themselves, bow low and recite wishes of good luck and prosperity. The degree of formality of the greetings varies largely with the rank and the station of the person addressed.

Among the working classes the salutation takes this form: "My hope for you is that this year will bring you to success in all that you desire."

Merchants greet each other with more ceremony:

"Honored among all honest and truthful merchants," the salutation runs, "it is my wish for you that your warehouses may multiply like the stars of the sky, that your goods may be bought of all men and that your profits will be as ten thousand times one."

If the person addressed happens to have official rank and station the caller bows low.

"Exalted one," he says, "I who drag my abused and altogether contemptible self into your shining presence presume to rejoice that the esteemed and honored parents of your excellency have the best of health. May they long enjoy that perfect gift from heaven. I rejoice also that it is even given to me to be glad that the souls of your distinguished ancestors rest in peace. As for you, the utterly unworthy person who makes this obeisance in your noble house says that it is his humble prayer that the country may long avail itself of your distinguished and able services. May the country enjoy perfect peace and prosperity for many years and to you may there be extended every honor which the official station of which you are a bright and illustrious ornament guarantees."

But in this city all was quiet.

There was no great celebration, because the local Celestials find that they are not strong enough in numbers, and, anyway, they would sooner celebrate the Christian New Year, which they find more convenient.

WILL MOVE SLOWLY

Committee to Try to Get City Water for
Street Purposes First.

Before No. 3 committee will sign an agreement with the London Street Railway Company to water the streets, an effort will be made to have the water commissioners rescind the action of that body a month ago, when water for streets was cut off. It is thought that within a short time the commissioners will know whether or not they will be able to secure a supply of water from wells to tide over the dry spell this summer.

Objection has also been raised to the electrical sprinkler. It is said that it will throw water all over the sidewalks, and will frighten horses in the downtown district, as it will sprinkle a stretch of the roadway about 40 feet wide.

In fact, it appears around the city hall as though the city is going to think twice before it ties itself up to the street railway.

Of course any drinking man can quit. It is the man who doesn't who can't.

Back So Lame Could Not Walk

Doctor's Efforts Were in Vain, But
Cure Came with the Use of Dr.
Chase's Kidney-Liver Pills.

It is not always the doctor's fault when he tries to give temporary relief instead of lasting cure. Sometimes patients demand it.

The thorough, far-reaching and lasting effects of Dr. Chase's Kidney-Liver Pills are well illustrated in this case, in contrast with the doctor's failure to even bring relief.

Mr. Geo. Tryon, Westport, Leeds County, Ont., writes: "For two years I was completely laid up with lame back, and could neither walk nor ride. I tried many treatments and the doctor put on a fly blister, which only increased the suffering and did not do me the slightest good."

"A friend told me about Dr. Chase's Kidney-Liver Pills, and I had not finished the first box before I was completely cured. I have never had a lame back or kidney trouble since, and it has been the means of selling dozens of boxes of Dr. Chase's Kidney-Liver Pills. I am never without them in the house and think there is no medicine like them."

Dr. Chase's Kidney-Liver Pills, one box a dose, 25 cents a box, at all dealers, or Edman, Bates & Co., Toronto.

LONG HOURS TIRED THE 'PHONE GIRLS

Striking Operators Tell Their
Side of Story at the
Toronto Inquiry.

Toronto, Feb. 11.—"I think the humane officer should have been called in long ago," remarked Mr. Curry, counsel for the telephone operators before the royal commission today, at the conclusion of his examination of Miss Dixon, a supervisor, and one of the strike committee. She pointed out that constant use of certain head-sets for supervisors irritated the ear, but that it was contrary to rules to remove the harness or headpiece, which was attached to the ceiling, in order to obtain temporary relief. The supervisors had objected to the instrument, and it was no longer used.

Miss Dixon and Miss Lottie Kyle were called this morning. Miss Dixon stated that operators, at the conclusion of the five-hour day, were only fit for rest, and that, speaking for herself, she had always been able to do anything further. The girls, however, were satisfied with the hours, since it gave some of them an opportunity to make their own clothes, for one thing. Their salaries under an eight-hour day would not be sufficient to meet the extra cost, and left them little time. She considered that board could not be obtained under \$2.50 per week, or a room less than \$1.50. In her opinion, the salaries were not sufficient to keep a girl. Miss Dixon declared that she had endeavored to get the girls to interview Mr. Dunstan, but he had intimated to her that practically he cared to have nothing to do with them or a petition. She had heard him say over the telephone that it was no case for a petition. The operators were never given to understand that their load would be lighter under the long-hour day. Miss Dixon claimed that the long hours would not reduce the work of the staff. An operator was required to do a certain amount of extra work for which she never received remuneration.

The commission, at Mr. Curry's request, ordered the company to produce a statement of receipts and expenditures in Toronto for the years 1904, 1905 and 1906. The object is to discover the relative proportion of wages and earnings.

SOUTH SNAPSHOTS AT VARIOUS SPOTS

"Doc" Wood, father of Lorne Wood, the crack hockey player, and owner of the famous racehorse Clipper, yesterday aired his views on the way hockey is played in this city at present.

"Why," said the doctor, testily, "just as soon as a man gets that round thing—what do you call it?—oh, yes, the puck—somebody throws his stick out in front of him and down he goes in a heap. Why, a fellow can't get within a mile of 'fall' without being tripped up. I've only seen two games played in my life, but I think hockey would be an excellent pastime if tripping, slashing and other dirty work were barred. At that, it wouldn't be so bad if a player received a little money for his work. See that finger?" The doctor held up the fourth digit of his left hand to view. "When I got that bent I was making \$300 a month playing baseball. Yes, indeed, I got paid well, and then my salary crept up to \$500. After that—well, after that I became a member of the 'has-been' club. Say, if I was a referee, I'd give a man 15 or 20 minutes off for tripping, and if I was a player and a man placed a stick in my way, I'd—well, I'd land on that fellow good and hard. No, sir; hockey, as it is played in London just now, doesn't appeal to me at all. In the good old days it was 'shiny on your own side'—that's good enough for 'Doc'."

Sit up, bowlers, and take notice! The local bowling record has been sent galley-west, also galley-east, by R. M. Graham, son of one of the proprietors of the Ideal bowling alleys. Graham recently rolled up a record of 270 pins. That comes pretty close to traveling a few—and then some. London tenpin artists will now doubtless go out after Mr. Graham's record in earnest, and records will be on the upward move for some time to come.

Weep, ye hockey fans, weep! Never again, so we are informed, will Chauncer Elliott occupy ice space in the capacity of bell-tinker. Nay; Chauncer says he has had an overdose of the great ice game and will henceforth devote his spare moments to managing diamond outfits, and to watching for outside plays on the gridiron. Well, 'ere's au revoir, Chauncer, old soul. We sincerely trust that your avowed retirement is of the Patti order, and hope to see your smiling face and your Apollo-like form floating about on runners when the snowfalls bloom again.

The Toronto Telegram does artist recently perpetrated the following: Noah Brusso has been telling them in Buffalo that he owes his greatness in the ring to Canada's national game. Not that he learned to fight on the lacrosse field, but he declares it is the greatest game of them all to put a man on the alert all over, to develop his muscles and give him that shiftingness a fighter must have if he wishes to steer clear of the morgue. So you see, if Noah is an advertiser, he is at least original in his methods. Great Americans like Billy Bryan and John L. Sullivan would slobber out, "Mother, made me what I am." But Noah says to himself: "Canada's national game for me. Sure ain't I just going to do a few stunts in the country towns of the home of me childhood."

It is rather humorous to read the various reports of Longboat's recent defeat at Buffalo, when the redskin met Bonhag, of the Irish A. A. C., of New York. One of the Buffalo papers says that Bonhag won out by about 11 feet. Hamilton sheets reduced the distance to 2 feet 6 inches, while the Toronto papers declare that 3 feet (exactly), separated the runners. All of which goes to prove that, "it depends largely upon which foot a man is standing when measuring an athletic event."

The local Collegiate hockey team journeys to Woodstock on Thursday to engage in battle with the fast team of that place. The London boys say they will win, but then one can never be certain.

As was to be expected the battle between Willie Lewis, of New York, and "Honey" Melloy, of Boston, last night, resulted in an easy victory for Melloy. The latter defeated Lewis some time ago, and the wise acres were down on Melloy to a man. From all accounts Lewis played the part of a human punching bag last night, and was only saved from a knockout by his seconds throwing up the sponge. The last time the pair met Melloy knocked Lewis out in three rounds; the bout taking place at Chelsea, Mass. Lewis seems to be a great little in-and-outer, for while he has decisions over such men as Martin Canole, Jack O'Keefe and Willie Fitzgerald, he has been trimmed up by such dubs as Billy Gardner and Hugh McFadden.

If one were to judge by the newspaper accounts, a new pugilistic champion is made every other day in England. The latest joke along that line is to the effect that Jack Goldswain (whoever he is)—recently defeated Pat Daley (an American), for the lightweight championship of England. Daley's name does not appear in any American sporting records, so he must indeed be a "champeen." Then again, the purse offered for this "championship" battle would not pay the training expenses of American lightweights. \$1,500! Isn't that rich?

BASEBALL

WHITE SOX TRIP.

Chicago, Feb. 11.—The announcement of the completion of the plans for the great training trip of the world's champion White Sox to the City of Mexico was made Saturday by President Charles A. Comiskey.

The White Sox party, which will number nearly 50, will make the journey to the City of Mexico and then back to New Orleans in two private cars. After the squad splits into two teams, which it will do at Memphis on the return trip, the private cars will be given up. One squad of the champs will continue north and east from Memphis, while the other will go west.

The itinerary is as follows: Leave Chicago, March 5. Arrive in City of Mexico, March 9. Leave City of Mexico, March 17. Arrive in New Orleans, March 20. Leave New Orleans, March 24. Squad splits at Memphis, March 25. Championship season opens in St. Louis on April 11.

TIGERS LOSE LINDSAY.

Detroit, Feb. 11.—Chris Lindsay, the Tiger first baseman who has blocked several deals planned by the club, because of his refusal to be traded, has been heard from again. Chris has written Frank Dean, stating that he

will not play ball again. He has opened a carpenter shop with his savings from the diamond, has a good partner, and will remain in his Pennsylvania home.

FLICK MAY RETIRE.

Cleveland, Feb. 8.—Elmer Flick, the star right fielder of the Naps, announces that he has not decided whether or not he will play baseball at all this season. Flick has no kick coming on the return trip, the private cars will be given up. One squad of the champs will continue north and east from Memphis, while the other will go west.

The itinerary is as follows: Leave Chicago, March 5. Arrive in City of Mexico, March 9. Leave City of Mexico, March 17. Arrive in New Orleans, March 20. Leave New Orleans, March 24. Squad splits at Memphis, March 25. Championship season opens in St. Louis on April 11.

OTTAWA WIN IN OVERTIME. Quebec, Feb. 11.—After one of the fastest and most strenuous hockey games seen here for several seasons Ottawa defeated Quebec by a score of 5 goals to 4. It took about two minutes of overtime play to score the deciding goal.

JUST A PRACTICE FOR WANDERERS.

Montreal, Feb. 10.—Wanderers defeated Montreal Saturday night in a one-sided game by a score of 15 to 3. It was a farcical exhibition and only a practice for the Wanderers.

TURNED TABLES ON VARSITY. Toronto, Feb. 11.—Inaccurate marking on the court of the Tuxedo Tennis and Racquet Club for the good racquet, He it possible for Queen's to win from the local students at the Mutual street rink by 2 to 1. The Queen's Parkers easily trimmed the Kingston seven in the Elmestown City by 7 to 2, and went on the ice supremely confident of winning Saturday night.

INGERSOLL TEAM ENTERS PROTEST

Makes Three Charges Against Woodstock Players—Defense Set Up.

Toronto, Feb. 11.—Ingersoll has come forward with a protest against Woodstock on the ground that two of their players, E. Gustin and J. Sutherland, took part in a basketball game, June 7, 1906, at Brockville, for which there was a cash prize given, and that Richardson, who is over age, played for the Woodstockers. The latter have not yet put in their defense.

The situation up there is rather a complicated one. Ingersoll won the title, but is charged with playing by a boy on his brother's certificate. That is to be cleared up before Wednesday. Meanwhile to forestall any complication, Woodstock and Paris played at Brampton tonight, and somebody will be ready for Stratford. Up to date Ingersoll is the winner.

Owen Sound is protesting Markdale on grounds that cover the whole list, charging professionalism, for playing Clarence Gorte, of Toronto, March 26, 1906, in a match for an inter-town trophy and Clarence Gorte, of Toronto, March 26, 1906, in a match for an inter-town trophy and Clarence Gorte, of Toronto, March 26, 1906, in a match for an inter-town trophy.

Both protests are a bit shy on time. The play-off between Parkdale and St. Michael's College for the junior honors of the second round of the two local districts will likely be on Friday.

The only dates open this week are Tuesday and Friday. Simcoe plays at Port Colborne on Wednesday instead of Tuesday by mutual agreement.

Woodstock's Defense.

Ingersoll, Feb. 11.—The Woodstock junior hockey team has put in its defense to the protest filed by the Ingersoll club. It is particularly interesting from the fact that the admission is made that Richardson, who played in several of the games early in the season, is over age.

It is made that he was soon as the club learned that he was over age he was dropped. This is funny in view of the fact that Richardson played senior hockey last year, and for years played junior lacrosse. The defense in regard to the charges of professionalism against Gustin and Sutherland, who played baseball for money, is that they did not know they were playing for money.

Following is the letter from Mr. E. C. Turner, secretary of the Woodstock club, which speaks for itself:

Mr. J. R. Peaton, Secretary Ingersoll Hockey Club, Ingersoll:

Your letter of 8th of February has been received, protesting our club, or certain members thereof. While your protest is not in accordance with the rules, and we are not technically required to answer the same, we feel that our position is strong enough to (out of courtesy) tell you how the matter stands, and what we intend to prove, namely:

First—Richardson, when we found this young man was over age, we immediately dropped him from the club, and have not played him since. Second—Gustin did not know he was playing for a money prize, got no part of the game, nor even his expenses paid.

Third—Sutherland, the same applies as to Gustin.

All of which is respectfully submitted.

Yours, E. C. TURNER, Secretary.

INDIAN'S DEFEAT DUE TO ILLNESS

Tom Longboat Under Weather When He Met Bonhag at Buffalo.

Toronto, Feb. 12.—Harry Rosenthal, manager for Tom Longboat, the Indian runner, returned home from Buffalo with the Indian today. He says that the Indian was sick before the race.

"Tom was a very sick boy," said Rosenthal. "Fifteen minutes before the race was called he vomited, and it was a question for a while whether he would run at all. Finally we decided to let him start, and I want to tell you that if he had not been ill he would have beaten Bonhag at his own favorite distance."

Credit should be given to Longboat for his great race. He met Bonhag at his own distance and inside. It was his first contest under cover, too, and at that he broke Bonhag's track record of the world's record. The old record was 14:48 3-5. They cut it down to 14:43 4-5.

The Indian will run Bonhag a return match in New York. If he is well he will run against Nepper in Boston. Nepper is the man who beat Bonhag "cross-country." The distance is five miles. Longboat says he will make Toronto his home from now on.

Kerr, of Hamilton, won the 100-yard race, with Brown (Hamilton) second.

RACQUET

BROOK REACHES FINALS.

Tuxedo Park, Feb. 11.—George H. Brook, of the Racquet Club, Philadelphia, by defaulting of Payne Whitney, of the New York Tennis and Racquet Club, today, reached the final round on the court of the Tuxedo Tennis and Racquet Club for the good racquet.

He will meet George L. Wrenn, the ex-champion lawn tennis player, of the New York Tennis and Racquet Club, tomorrow. P. Lorillard, jun., Tuxedo, will meet Jay Gould, of Lakewood, for the good racquet championship in court tennis tomorrow also.

LEWIS THREW UP SPONGE IN FOURTH

Did Not Last Long in Welter-weight Fight With Champion Melloy.

Valley Falls, N. Y., Feb. 11.—William "Honey" Melloy, of Boston, welter-weight champion of the world, tonight, for the second time within a year, proved his superiority over Willie Lewis, of New York. Lewis' seconds threw up the sponge in the fourth round.

The bout was held at the Valley Falls Athletic Club, and was scheduled to go into ten rounds for the welter-weight championship. When the men weighed in this afternoon Lewis was four pounds above the stipulated weight of 142 pounds. As a result the champion issue was withdrawn.

In the third round Melloy scored three knockdowns, Lewis taking the count each time. When the fourth round began, Melloy, who up to this time had fought cautiously, threw science to the winds and went at his opponent in savage fashion. Lewis could not even raise his hands, and was a target for all of Melloy's punches. It was at this point that Lewis' seconds threw up the sponge.

BRITISH SPORTS

Standing of clubs in League I. up to Jan. 20:

Clapton Orient	7	12	4	31	45	18
Chesterfield	7	13	4	31	35	18
Blackpool	5	13	5	19	35	17
Grimsby	5	13	5	19	34	17
Burton United	5	15	2	19	48	12

The meeting between Everton and Newcastle at Goodison Park proved such an attraction that before half-time the gates had to be closed, when it is estimated 60,000 people were on the grounds.

A huge crowd of 65,000 also paid admission to see Birmingham beat the "Villa" 3-2.

Bristol City, whose first season it is in the senior division, are now in fourth place.

The Cambridge soccer team is a good one, and beat the old Corinthians 3-2.

The international, played a great game for the losers.

INDIANS EASILY DEFEATED GALT

Score in Senior Game Was Ten to Two—Was Stratford All the Way.

Stratford, Feb. 11.—The Stratford Indians easily defeated the Galt seniors here tonight by a score of 10 to 2. The Indians had the best of the game from the start, although the game was not a very one-sided exhibition. Galt was considerably weakened by the absence of Munn and Twiss. The combination work of both teams was very good in the last half. The half-time score stood 6 to 2 in favor of the locals. The lineup:

Galt—Goal, Roberts; point, Johnston; coverpoint, Denney; rover, Brady; center, Robson; left wing, McKenzie; right wing, Gillan.

Stratford—Goal, McLaren; point, Roberts; coverpoint, Forbes; rover, Hearn; center, Killier; left wing, Easson; right wing, Lloyd.

Referee—Robert Hamilton, Guelph.

GOT AWAY WITH WOODSTOCK.

Bramford, Feb. 11.—Paris Juniors defeated Woodstock here tonight by a score of 5 to 2. The game was very fast in spots and marked by chaste checking, especially by winners. Scores at half-time was 4 to 2. During the second half play was very even. Paris home ruled satisfactorily, only four men going to the fence. For Paris, Meggs, Watson and W. Gill were stellar lights. The Woodstockers were outskated at intervals and combination.

The lineup—

Paris—Goal, Stewart; point, Meggs; coverpoint, Ticknell; rover, G. Gill; center, Watson; left wing, W. Gill; right wing, Lovett.

Woodstock—Goal, Childs; point, Palfrey; coverpoint, Thompson; rover, J. Sutherland; center, Ladames; left wing, G. Sutherland; right wing, Gustin.

ELLIOTT QUITS HOCKEY.

Toronto, Feb. 11.—"Chauncer" Elliott has organized a new company to take over the Oswego ball grounds, and in the coming season the great coach, ball player and king of hockey referees,

will, as he writes a friend in this city, be manager, captain, catcher, sole owner and first batter of the Oswego team in the Empire State League.

"Chauncer" in his letter makes the announcement that he is through with refereeing, though he may take charge of a few games around home. He says: "I had a telegram from Gault St. Marie, Mich., wanting me up there for the rest of the season. There was good money in it for me, but you know I am sick of the game. If I wanted to referee hockey games that's where I would go. But I feel now I don't want to ever put on skates again."

HOW TO STEAL BASES

Harry Bay, centerfielder of the Cleveland Club, has the following to say on how to run bases. "As I walk up to the plate, when it is my time to bat, I quickly take in the situation as to the progress of the inning. If I am the first man up, and there is no one on base, it is naturally my utmost desire to get on base myself, and let those that follow, help to get me around. It is to be remembered that when men get on bases, the pitcher is much more occupied and more worried, likewise the catcher, who is not only trying to steady the pitcher, but is always on pins and needles, anxious to cut off anyone who might attempt to steal a base on him. So always remember that the first principle is to try and get on base by any legitimate means rather than to try to knock the cover off the ball. If there is no one on the bases, or if there is a man on first, I always consider it my duty to bunt. If the pitcher is in good form and laying the ball nicely over the plate, it is an easier matter to lay the ball. If you are going to bunt, always with the same breath that you hit the ball start for the base.

"After getting on the base it is the baserunner's duty to try and worry both the pitcher and the first baseman. Take as much ground as possible and above all, keep moving. A great deal depends whether the battery is working fast or slow. If a fast battery, be cautious, keep closer to first base. If you have made up your mind to attempt to steal second, start for the base as soon as the pitcher winds up, and as you are going down keep your eye on the man who is covering the base, and who is there ahead of you; see whether he is working for a high or a low throw, and if for a high one, it is best to slide into the base, as it will take more time to put the ball on you. If it is a low throw, it is better to run straight into the base, for if it is close he is more likely to drop the ball in his excitement.

"After getting on second, the hardest work is done, for you then almost entirely depend on a hit to bring you around further, but it is yet your duty and idea to try and worry the pitcher and baseman, so always keep moving around the bag. When on second, take as much ground as possible, for should the next man make a hit you have got a good start, and a better chance to score, even should there be a quick return of the ball by the fielder. It is a fact, of course, that a fast man has a better chance, but in my opinion, the man who uses judgment, and takes advantage of every point makes the most successful baserunner."

CURLING.

TANKARD FINALS.

The finals in the Ontario silver tankard competition will be played in Toronto this week, beginning today. The clubs eligible for the tankard and the runners-up, who qualify for the Governor-General's prize, are:

1. Granite, Toronto. Lindsay.
2. Paris, Niagara Falls.
3. Preston, St. Thomas.
4. Barrie, Gravenhurst.
5. East Toronto, Tor. Queen City.
6. Detroit, Toledo.
7. Guelph Union, Guelph Royal City.
8. Southern, Owen Sound.

THE THREE WINNERS YESTERDAY.

At New Orleans—Belle Strome 11 to 10, Arabo 2 to 1, Ziephen 8 to 5, Peter Sterling 9 to 2, Colloquy 9 to 1, Quilm Bradley 5 to 1, Blueade 6 to 1.

LICENSES GRANTED.

Lexington, Ky., Feb. 8.—The Kentucky racing commission granted a license today to the New Louisville Jockey Club to Douglas Park, of Louisville, Ky., to the Racing Association of Lexington and to the Lorton Racing Association. The meeting adjourned until Feb. 16, when representatives of each track will be present, and dates will be allotted for the various meetings. The commission adopted a resolution that there was too much racing in Kentucky during 1906, and that the best interests of racing dates

THE RING.

AMERICAN KNOCKED OUT.

London, Feb. 11.—In a 20-round boxing contest for the lightweight championship of England and a purse of \$1,500 at the National Sporting Club, tonight, Jack Goheen, of London, knocked out "Pat" Daley, an American, in the fifth round.

CURLING.

COLTS' LEAGUE FINALS.

Ingersoll, Feb. 22.—The finals for the Western Ontario Colts tankard will be played in Ingersoll this week, commencing this afternoon at 1:30 o'clock. Rinks representing London, Thistles, Stratford, Petrols, Chatham, Parkhill, Stratford, St. Thomas and Ingersoll will compete.

Brantford, Petrols, Chatham and Parkhill have been drawn to play in the afternoon, and the draw will be made in the evening for the remaining clubs, one of which will get a bye.

The winners of the three games and the club securing the bye will play the semi-final game tomorrow morning and the winners the final in the afternoon.

BOWLING.

TORONTO ENTERS TEAMS.

St. Louis, Feb. 11.—The political part of the American bowling congress is settling, and St. Louis is just now the storm center. Among the entries received during the past week, in addition to those before mentioned, are those of the Brunswick-Balke-Coller team, with W. V. Thompson at the head; the Duesseldorf team, the Old Foresters of Louisville, and others. Dan Meyer, vice-president of the Detroit City Association, advises that his city

No experiment—the result of years of study and experience—Chase & Sanborn's Coffee.

ALL GROCERS

will be represented by thirteen or fourteen teams. St. Paul gives assurance of fifteen. Col. Haager says Louisville will have from twelve to fifteen teams at St. Louis. Toronto, Canada, will be represented by two teams, possibly four, Winnipeg, Manitoba, and Vancouver, B. C., have promised one team each. The last two named cities have formed a combination and will request the A. B. C. at its St. Louis session to make the annual meeting international in scope, and the idea is receiving careful consideration from those most interested.

THE RING.

WALSH WILL CLAIM TITLE.

Boston, Feb. 11.—Jimmy Walsh, the Boston bantam, announced today that he will claim the bantam championship title of the world and defend it against all-comers.

This claim is the result of a telegram received by Walsh from Frankie Neil, regarding the proposed bantam-weight championship fight at Tonopah, Neil says he will meet Walsh at 122 pounds, ringside, and the purse must be split 65 and 35, and Riley to give him \$500 training expenses. As the bantam-weight is 115 pounds, Neil practically admits he cannot make it. Walsh will not fight Neil at the feather-weight poundage.

London, Feb.

PECULIARITIES OF JAIL LAWS

County Pays Smallest Share of Maintenance, But Fixes the Officials, Salaries.

"One peculiar thing about local jail matters," said Sheriff Cameron this morning, when discussing the subject with The Advertiser, "is that, while the county contributes a vasty smaller percentage to the support of the institution than do the city and the Government, the county officials name the salaries to be paid the jailer and the attendants of the prisoners."

The sheriff went on to explain that the Government paid for the maintenance of the indigent prisoners, while the city pays 72 per cent of the remainder of the expenses, and the county 28 per cent.

"The records," continued Mr. Cameron, "show that the Government largely supports the local jail. Some few years ago, the entire expenses of maintenance were paid by the county and the city. Then the Government stepped in and changed the order of things, and the manner of conducting the institution, in return for which it agreed to pay the percentage mentioned."

Under the present regime, the sheriff is appointed by the Government, and he in turn appoints the jailer, turnkeys and other attendants. The sheriff works on a fee basis, while the jail employees work on a salary basis.

Governor Carter of the jail stated that the average cost of food for each prisoner ranged from 6 1/2 to 7 cents a day. At present there are 26 prisoners in the jail, and of these 13 are central prison men.

On Feb. 12, 1906, there were 31 prisoners confined in the jail, while in January a year ago the highest number in several years, 40, were "doing time."

The low-water mark for the last two years was reached last July, when on the 15th there were only 13 offenders in jail.

On the 12th of February, 1905, there were 21 prisoners on hand, all males. During the past five years the average number of prisoners was 26.

WHIST TOMORROW NIGHT

Both Progressive and Compass Matches at Liberal Club.

Last night's bowling contest at the Liberal Club was very close, the winning team, Number One, of the fourth ward, having only 27 pins over team Number Two, of the same ward. C. Brown proved to be the premier bowler, with a high score of 157, while Worrall trailed close behind with 154. Summary:

TEAM NUMBER ONE.	
Legg	144 114-258
Stinson	107 119-226
Worrall	154 110-264
Adams	138 136-274
Ross	140 151-291
Totals	683 630-1313

TEAM NUMBER TWO.	
Stone	125 143-268
Peeney	122 126-248
Therney	119 143-262
Brown	138 157-295
McFee	115 98-213
Totals	619 667-1286

Tonight teams from the third ward will clash at 8 o'clock sharp. Tomorrow evening at the club progressive and compass whist matches, open to all Liberals, are to be held. Three excellent prizes will be given.

INSPECTOR APPOINTED

Mr. Sanders Named by Children's Aid for New Duties.

At a meeting of the Children's Aid Society held yesterday afternoon Inspector Sanders was appointed a probation officer for London, and it was decided to furnish him with an extra assistant in his office.

It has not as yet been decided whether this assistant will be a lady or a gentleman.

The inspector's report showed that there are at present nineteen children in the shelter at South London, and four in Mount Hope, all being under the protection of the society.

A vote of thanks to the pastor and officers of the First Presbyterian Church for allowing the society to hold a meeting in that edifice some time ago was passed, also, to the congregation of the Southern Congregational Church for very useful donations made to the society.

OFFICERS OF NEWSPAPER SECTION.

The daily newspaper section of the Canadian Press Association held a special meeting in Toronto at which it was decided to hold quarterly meetings of the section. A meeting will be held on the first Monday in March in Toronto to discuss chiefly some questions arising out of the relations between advertising agencies and daily newspapers. The following officers were elected for the ensuing year: President, W. M. O'Brien, Stratford Beacon; treasurer, L. H. Dingman, St. Thomas Times; secretary, A. G. Donaldson, Toronto Star. Executive, W. Taylor, Woodstock Sentinel-Review; F. H. Dobbin, Peterboro Review; J. F. MacKay, Toronto Globe; Frank Adams, London Advertiser; J. A. MacKay, Windsor Record; A. T. Wilgrees, Brockville Times, and S. Stephenson, Chatham Planet.

Comfortable carriages for balls, parties, etc. Hueston's Liveries.

STUR REGULATORS.—Mandrake and sandalwood are known to exert a powerful influence on the liver and kidneys, storing them to healthful action, inducing a regular flow of the secretions and imparting to the organs complete power to perform their functions. These valuable remedies enter into the composition of Parmentier's Vegetable Pills, and serve to render them the agreeable and salutary medicine they are.

TOTAL ASSESSMENT NEARLY \$23,000,000

Londoners Will Have to Pay Taxes for Current Year on That Amount.

City Clerk Baker has prepared the following very interesting table, showing the taxable assessment for the city for 1907, and also the exemptions for the same year, as well as the assessments for general and school rates:

Total assessment for Wards 1, 2, 3 and 4 \$22,963,568

Total additions by court of revision 11,653

\$22,963,221

Exemptions Under Bylaws.

Columbia Handle Works \$6,000

McCormick Manufacturing Company 70,000

London Printing and Lithograph Company 18,500

Bennett Furnishing Company 3,800

I. Sargent 6,400

London Foundry Company 8,600

D. S. Perrin Company 97,200

McClary Manufacturing Company 158,855

George White & Sons 20,600

\$ 378,075

Reduction by court of revision 209,734

Exemptions by Statute.

Y. M. C. A. 16,000

Y. W. C. A. 13,970

Convalescent Home 2,300

Salvation Army Home 3,200

Harding Hall 6,800

City property 23,200

Children's Aid Home 7,000

Total exemptions \$ 78,670

Total assessment for general rates \$22,884,549

Additional for school rates only, as per bylaw 22,202,742

London Foundry Company \$ 8,600

D. S. Perrin Company 162,055

London Printing and Lithograph Company 12,600

McCormick Manufacturing Company 70,000

I. Sargent 6,400

Columbia Handle Works 6,000

Bennett Furnishing Company 3,800

Taxable assessment for school rates (total) \$22,582,997

Taxable assessment for separate schools 1,650,016

Taxable assessment for public schools 20,932,981

Increase of taxable assessment for general rates over 1906 1,089,485

Increase of taxable assessment for school rates over 1906 1,126,890

CONDENSED LOCAL NEWS

—Mr. J. J. Bailey, teacher of writing in the Collegiate, is confined to his home through illness.

—The audit of the county accounts for 1906 is being made by County Auditors W. D. Stanley and A. L. Lettich.

—The young ladies of the Y. W. C. A. will be the guests of the Simcoe street rink management on Friday evening next.

—A handsome new switch board has been installed for the fire alarm system in the Central fire station. It was built expressly for the city by a Toronto firm, and cost \$250.

—St. John's Lodge, No. 209a, A. F. and A. M., will hold an "At Home" in the Masonic Temple banqueting hall on Friday evening next. Whist and euchre will be on the programme.

—The fast hockey team of the local Army Medical Corps, accompanied by a delegation of rosters, will leave for Strathroy on the 7 o'clock train Thursday evening, where the corps meets a strong team.

—The president of St. Andrew's Society, Mr. George B. Gerrard, is an enthusiastic Scot, and he has kindly consented to open the programme of the Scottish concert on Friday evening by dancing the Highland fling in costume.

—The board of health meets at 4:30 this afternoon. It is understood that a report will be submitted showing that the dairymen whose premises were declared at the last meeting to be in an unclean condition, have since cleaned up their places, and action against them will be dropped.

—Mrs. S. J. Latta and daughter, Estella, have returned from an extended trip to England and Ireland. They are now spending the winter in the North-west with Mr. Latta, whose health is improving. The family will return during the summer in time for Principal Latta to resume his duties at Colborne street school after the holidays.

—H. I. Ives, of 30 Albert street, Toronto, writes City Clerk Baker for information concerning one Albert Iveson, a gardener who lived in London, and was married here about ten years ago; also, concerning one Geo. Shogues, who married a sister of Iveson's wife, and is also supposed to be living here. Shortes was a chaperone.

—A very enjoyable evening was spent at the home of Miss Lena Hardy, 196 John street, recently, when a number of her fellow employees took the opportunity of expressing their regret at the departure of Miss Florence McKay, who has been a nurse at St. Joseph's Hospital as a nurse. They presented Miss McKay with a beautiful manicure set, and wished her every success in her profession.

—About 3 o'clock yesterday afternoon, Gordon Mines, a young man of about 20 years of age, was found in a helpless condition in the Grigg House, and after being taken to the police station, was sent to Victoria Hospital. Mines is a cocaine fiend, it is said, and it is alleged that he was suffering from the effects of an overdose when he was arrested yesterday. He had only left a regular dose a few days ago after recovering from the effects of an overdose of the drug.

HAD HAND CRUSHED.

Mr. Sidney Russel, of 26 Walnut

street, a snapper at Labatt's brewery, had his hand crushed while attending to his duties there, and as a result he lost the end of his thumb. Dr. Becker dressed the injuries.

—The Diamond Hall hockey team, which was recently organized, is now in excellent shape, and willing to do battle with all comers. Last night the team went to the Jubilee Rink and took a fall out of the Western team of the Hardware League, by a score of 5 to 0. The newly-elected officers of the Diamond Hall team are: Captain and manager, John A. Nash; president, W. G. Young; secretary-treasurer, J. Elison Butcher. The boys are all desirous of putting up a high-class article of hockey, and to that end are working diligently. In the work-outs so far indulged in the team shows vast improvement over its previous form.

ROCKET CLUB CARNIVAL.

One of the most successful carnivals of the season was held last night by the Rocket Club at the Jubilee Rink. The attendance was exceedingly satisfactory, both skaters and those in costumes turning out in large numbers. The ice was in excellent condition, and with good music all had the most enjoyable time while the club realized a goodly revenue from the gate receipts.

WILL MAKE GOOD CITIZENS.

Inspector Sanders, of the Charity Organization Society, says that while quite a few persons from the old country are applying for aid at the city hall, the immigrants, as a class, are very acceptable, and they will be sure to become first-class citizens. Many of them arrived in Canada late in the fall and were unable to get work. Others arriving now find themselves in a country bitterly cold, and with no possible chance of work such as they can do, January and February are the hardest months in the year on the part of Mr. Sanders says, all outside work being practically tied up.

The Speech From the Throne

The members of the House of Commons having been summoned to attend the House of Lords, the Lord High Chancellor, Lord Loreburn, kneeling, handed the King the speech from the throne, which his majesty read.

Refers to Kingston

The document foreshadowed a full and busy session devoted to proposed army reform and temperance, apart from the overshadowing question of the House of Lords. After the usual reference to the good relations prevailing between Great Britain and the other powers, the speech deplored the loss of life and property, and the resulting from the earthquake at Kingston.

"I have seen with satisfaction," said the King, "that the emergency has been met by the governor and his officers with courage and devotion, and the people with self-control. The occasion has called for the many proofs of practical goodwill from all parts of my empire, and I recognize with sincere gratitude the sympathy shown by the people of the United States, and the assistance promptly offered by their naval authorities."

As to India

A congratulatory reference to the visit to India of the Amir of Afghanistan was followed by the intimation that "while guarding the unity of the executive power unimpaired," some changes in the governmental methods of India were under consideration, bringing them more in accordance with the wishes of natives.

The Clash With the Lords

"Serious questions," continued the King, "affecting the working of our parliamentary system have arisen from the unfortunate differences between the two Houses. My ministers have this important subject under consideration, with a view of a solution of the difficulty."

The remainder of the speech was devoted to the proposed licensing bill, the object of which is to diminish the drink evils, proposals for the improvement of the army organization, and Irish local government, education questions and minor measures.

Is It Home Rule?

On the Irish question the King said: "Your attention will be called to measures for further associating the people of Ireland with the management of their domestic affairs and otherwise improving their system of government. Proposals will also be submitted to you for effecting a reform of university education in Ireland, by which I trust that the difficulties which have so long retarded higher education in that country may be removed."

Sup for the Suffragists

Among the domestic legislation foreshadowed was a bill enabling women to serve on local bodies, evidently intended as a sop to the women suffragists.

Having delivered his message, the King assisted the Queen to rise, the procession was reformed, and returned to the robing-room.

The House of Commons assembled formally for a brief period and then adjourned until 4 p.m.

Steps are being taken to organize a general association of all the employees of the several navy yards in the United States.

Over One Hundred Perish

Continued from Page One.

Block Island, R. I., Feb. 12.—At least fourteen lives were lost, and it is feared that many others, either were drowned or frozen to death as a result of the Joy Line steamer Larchmont sinking in Block Island Sound early today, after a collision with the three-masted schooner Harry Knowlton. Several boats came ashore from the scene of the wreck during the forenoon, and many bodies were washed ashore on the northwest side of Block Island.

The Larchmont sailed from Providence for New York last night with about 150 passengers aboard, and a crew of about 30. The passenger list was on board the steamer. The Larchmont collided with the Knowlton off Quonochontaug about midnight, cutting off the schooner's bow. The steamer was badly damaged that she ran for Block Island, but before she could reach the island, she sank.

The Knowlton was run aground west of Quonochontaug, and Captain Halley and his crew of six men reached shore safely in their own boats. The seas were running high, and the temperature was at about zero.

Bodies Washed Ashore.

New York, Feb. 12.—A message received at the office of the Life-Saving Service, announces that 14 bodies from the Larchmont have been washed ashore, and that 22 persons known to have been on the steamer have been accounted for.

Block Island, Feb. 12.—Captain Mitchell of the North End Life-Saving Station, on which point the Larchmont is sunk, estimates that between 15 and 20 bodies already have come ashore from the steamer. Up to 10:30 o'clock several boats had landed, and others were making slow progress from the wreck toward shore.

Schooner's Crew Escape.

After the collision, Captain Halley of the schooner headed for land. The crew by working at the pumps, managed to keep the Knowlton afloat until they reached Wequapaug. There the schooner touched bottom, and the men quickly abandoned her. After a hard row, they reached shore, and were cared for at a life-saving station.

Block Island, R. I., Feb. 12.—The steamer Larchmont, of the Joy Line, with many passengers on board, bound from Providence for New York, sank off the northwest side of Block Island early today, after having collided with the three-masted schooner Harry Knowlton, off Quonochontaug.

The schooner's bow was cut away and her captain ran her ashore west of Quonochontaug, to prevent her sinking. The crew of seven men including Captain Halley, reached shore safely in their own boats.

The cause of the collision is not known. The night was clear but there was a strong west wind. The sea was very rough. It was intensely cold throughout the night, the mercury hovering about the zero mark early today.

When the first boats came ashore from the steamer it was found that some of their occupants were dead. In the first confusion it was not known whether they had been pulled from the water, after having been drowned, or whether they were frozen to death.

The Knowlton, which hails from Westport, Me., was a Scotch Annapolis for Boston with 45 tons of coal. She lies on a sandy bottom, but is full of water, and it is not known whether she can be floated.

The Larchmont left Providence at about 6:30 last night for New York in command of Captain McVay, of Providence. The chief engineer was Robert Gay, of Bridgeport, Conn. She carried a crew of about 50, and had on board a number of passengers, and a miscellaneous cargo of freight.

The Larchmont registered 396 tons net, 1,905 gross. She was 252 feet in length, 37 feet in breadth and 14 feet in depth. She was built at Bath, Maine, in 1885.

EXAGGERATED EGO

THAW'S TROUBLE

(Continued from Page One.)

persecutions unlike those of melancholia, a condition of revolt against these fancied persecutions because they were unfair.

Mr. Delmas asked Dr. Evans to state his conversation with the defendants on September 13.

Mr. Jerome objected that the alleged statements were made subsequent to the homicide.

Mr. Delmas continued to read from decisions as foundations, he said, for introducing statements made by Thaw thereto.

Mr. Jerome declared he would not object to an opinion as to whether Thaw were sane or insane subsequent to the shooting, but he wished the questions to be distinctly defined to a given period.

The statements made by a man in prison in his own defense," said Mr. Jerome, "are not admissible under any circumstances. But if they claim that the man was insane at the time of the act was committed, then I am perfectly willing that these conversations shall go in."

The witness occupied the entire morning session, and was still on the stand when court adjourned.

DUTCH CABINET RESIGNS.

New York, Feb. 12.—Officials of the Standard Oil Company in Newark announced yesterday a sale of 1 cent per gallon for kerosene oil. The advance will affect the entire State of New Jersey.

Strong's Baking Powder

ANALYSIS OF

By the Analytical Chemist for the Dominion of Canada:

"Strong's Baking Powder is found to have very high aerating power. It is a Cream of Tartar powder, containing no alum or phosphate, and it is not adulterated."

Alum baking powders are sold to consumers at from 15 to 20 cents a pound. So detrimental to health are alum baking powders considered, that in many countries their sale is prohibited. Strong's Baking Powder.

BALKS AT MILITIA BILL

Hamilton Refuses to Meet \$3,000 Expense Account at Present.

Hamilton, Feb. 12.—At present there are 75 tavern and 20 shop licenses authorized in Hamilton, while 68 tavern and 17 shop licenses are in force. The temperance people petitioned for a reduction to 60 tavern and 10 shop licenses, but the aldermen threw the petition out last night.

It was decided not to pay the Government's bill of \$3,000 for the cost of the military during the strike.

The count will not be paid until the Senate and the House do something with the question as to what proportion of military costs municipalities should pay, says Mayor Sewart.

THE SHAH GIVES IN

Sends Word to Parliament Agreeing to Grant Popular Demands.

Teheran, Feb. 11.—The Shah tonight sent a message to Parliament, granting all the popular demands, including formal recognition that the country is under constitutional government.

This message was telegraphed to Tabriz, where the people had seized the arsenal and closed the Government offices. All is now quiet.

THREATENED TO SHOOT.

Appin, Feb. 11.—Appin is aroused over a sensation that occurred near here on Saturday evening, when Wm. Johnston, a highly-respected farmer, living near here, came home, and, producing a revolver, threatened to shoot everyone in the house. He was overpowered by the members of the family before he did any harm, and was taken to Glencoe, where he was placed in custody.

Johnston stated that he has been temporarily insane because his wife is in London undergoing an operation for cancer. He will appear

LOCAL MARKET.
 London, Tuesday, Feb. 12.
 The amount of business transacted at the market today was the smallest for several weeks. Prices were inclined to be firmer.

Grain—There were quite a number of loads of oats offered; the demand was good, at \$1.10 to \$1.12 per cwt.
 Hay and Straw—Nearly 20 loads of hay offered; sales were brisk, at \$13 and \$13.50 per ton. Straw was scarce, there being only one load offered, which sold at \$4.
 Butter and Eggs—There was not much butter offered; sales were brisk, at \$26 to \$28 for cracker and rolls. Eggs were firm, at \$25 to \$26 per dozen wholesale.
 There were not many apples offered, and not a great number of peaches or other classes of vegetables; prices were unchanged.
 Very little poultry offered; prices were firm.
 Dressed Hogs—About 50 offered; prices were firm, at \$9.25 to \$9.50 per cwt. live.
 Butchers' Meats—Beef was steady in price, at \$5.50 to \$7 per cwt. lamb, 12c to 15c per lb. for the carcass; veal, \$8 to \$9 per cwt. mutton, \$6 to \$6.50 per cwt.

DAIRY MARKETS.
 ELGIN, Ill., Feb. 11.—Butter—Firm today, at \$10, an advance, 1c over last week; total output for Feb. 11, 40,000 lbs.

JOHNSTON BROS. Phone 818

LONDON AND DISTRICT

—Miss Alva O'Brien, of Aylmer, is visiting friends in this city.

—Mr. Wm. Hobbs, son of Rev. Richard Hobbs, of Toronto, is the guest of friends in South London.

—Mrs. A. W. Ellis and her mother, Mrs. E. N. King, leave for Liverpool on Thursday. They will go via New York, and expect to be absent for three months.

—Albert Hewitt, the 7-year-old son of Mr. Hewitt, of 715 Richmond street, was run over by a wagon at the corner of Piccadilly streets, and had his leg broken.

—Mrs. J. H. Walters and three children, of Hill Crest Farm, near London, are spending a few weeks at the home of Mrs. Walters' mother, Mrs. H. Wilsby, Hibernia street, Stratford.

—The ladies of the Lobo Institute purpose holding a valentine box social in Melrose Hall on the evening of Feb. 14. A good programme has been arranged.

Ladies' Hat Pins

Something every lady appreciates as a present. We have a fine stock of very pretty pins.

216 Dundas Street, London, Ont.

TEACHERS' GUILD FORMED.

The Women Teachers' Guild of the City of London organized last night.

The guild, which is to be exclusively for women, has as its object social enjoyment and professional improvement.

Monthly meetings will be held, at which the discussion of subjects of general interest will be discussed. An executive committee has been appointed as follows: Miss Stella Macklin, president; Miss Yeates, first vice-president; Miss Scott, second vice-president; Miss Kate Colquhoun, secretary; Miss Bessie Evans, treasurer; and the Messrs. Boone, M. Gibbons, J. Spittal, Gahan, Ingamells, Weir, Davidson, Allister, Whitaker, McIntosh and Laidlaw. Mrs. Gahan is honorary president of the guild, and Miss Coyne honorary vice-president.

THE FAIRY GODMOTHER.

This is the name applied by her admirers to Miss Marie L. Sheddock, who is to give a brief course of lectures in London early in March on Hans Christian Andersen.

Miss Sheddock is of English parentage, but was born in France and educated there. Coming to England, she taught in the Nottingham Hill (London) high school for girls, French, German, elocution and kindred subjects. A few years ago she told Andersen's story of the swineherd in an informal evening in an artist's studio.

A GREAT BILL IS NOW AT BENNETT'S

All Who Enjoy a Good Laugh Should Visit the Popular Theater This Week.

Go to Bennett's this week. If you don't you'll be sorry. Manager Alois has provided his patrons with one of the finest entertainments ever seen at the popular vaudeville house. There are several acts on the bill which are pleasingly diversified, so that all tastes will find something especially pleasing.

Two sketches presented this week are of an especially worthy character. One of them is presented by O'Brien Havel and Company, and is entitled "Ticks and Clicks." Assisted by Miss Edna Lawrence, Mr. Havel contrives to exact more humor from the nonsensical playlet than is usually pressed out of a three-hour musical comedy. Havel is equipped with numerous funny lines which he embellishes with some acrobatic interpolations, all of which are uproariously funny. Miss Lawrence sings well and dances gracefully. She is also a full-fledged partner in the fun-making company.

The other sketch is presented by Emil Hoch and Company, and is entitled "Love's Young Dream." It is simply a dandy. Well written and well acted, and with a theme which provides plenty of humor without vulgarity or horse play, this sketch is one which is worth the price of admission alone. Mr. Hoch is supported by a capable cast of three people as follows: Miss Florence Burnson, Mr. Walter Lewis and Mr. Edward McGuire.

A marvelous exhibition is that given by Lutz Brothers. Mr. Clarence Lutz, who is known as the armless wonder, plays several musical instruments, drives nails, saws boards, and splits wood with his toes. He is a marvel as a rifle shot, too. He shoots the light off a candle held in his brother's mouth, at a distance of 30 feet.

Charles Savan is a welcome visitor again at Bennett's. This time his clever partner, his wife, is ill. He has with him a boy who is an acrobat of much merit, but who cannot take the place of the other Savan.

Frank Orth and Harry Fern present an extremely humorous musical act entitled, "Sign That Book." Orth's singing is a feature of the act, while the piano playing of both is very entertaining.

Chetolo and Capretta, a sleight of hand pair, made good with a number of tricks which are always acceptable. Wilbur Held, a talking and singing man, announces on the programme that he is no relation to Anna. It is not expected that Miss Held will exhibit any undue haste to establish a relationship.

The moving pictures this week are excellent.

LONDON LIFE'S ADVANCE

Insurance Company Has Another Successful Year.

The 32nd annual report of the London Life Insurance Company, which is given in another column, shows the company to be in a very satisfactory condition. A healthy growth all along the line has been shown, progress with stability being the watchwords of the company.

During the year 1906, 20,272 policies were issued, amounting to \$2,327,774.40 of insurance. The net premium and interest received for the year show an increase of \$68,644.75, which is very gratifying to the shareholders and policyholders.

And the report also shows the interesting fact that the increase in the number of policies for the year, after deducting all re-insurances, was 5,623, which represents an increase in insurance of \$1,687,883.73.

But still more important is the manner in which the liabilities of the company have been provided for. The liabilities amount to \$1,948,211.17, and after making ample provision for these, there is a surplus of \$66,182.50.

During the year the company completed the alterations to its head office building in this city, and its quarters are now commodious and creditable.

Mr. John McClary, London's veteran and very successful manufacturer, is the president of the London Life, and he presided at the annual meeting, which was held on the 11th inst.

WONDERFUL HEALING POWER.

There are many ways of relieving coughs, colds, catarrh, etc. There is only one way of curing them: Restore to perfect health the affected membranes.

Perrot (Cod Liver Oil, Iron and Phosphorus) cures coughs, colds, bronchitis, because it makes rich blood, and fat, and heals the affected parts. Large bottles, \$1, at Cairncross & Lawrence's.

Says It's Popular

Cobalt, Ont., Feb. 11.—(Special).—The low price at which the new issue of the Silver Bird has been placed upon the market has created considerable surprise and comment. The favorable location of the property, being so near the O'Brien, Colonial and Timmins mines and lying directly between these properties and the Green-Meehan, Red Rock and other mines, has made it one of the most popular market so far. Those who are well posted upon the location of this property and the development work done, think it a low price for the shares, and predict a great advance in the near future. Considerable of the shares are being taken here in camp.

Comic Valentines.

The Red Star News Co., 8 Market Lane, are showing new lines of comic valentines, including the Busted Heart's series.
